

Sweetgale
Myrica gale

Wild strawberry
Fragaria virginiana

Observation year: _____
Location: _____
Longitude and Latitude: _____

Crackerberry
Cornus canadensis

Coltsfoot
Tussilago farfara

Trembling aspen
Populus tremuloides

Blue-bead lily
Clintonia borealis

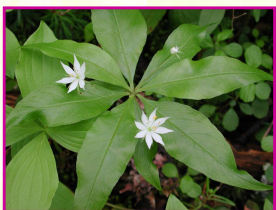

Species	Flowering/Leafing dates			Remarks	Observer	Environmental Details
	First Bloom	Mid Bloom	Leaf out			
Note: Recording even a few flowering dates is valuable!				Please use listed numbers as abbreviations to add details on your observations. Example: 1, 5-SE, 8, 12, 17	Please write your name here	Exposure 1- sunny/open 2- half sun/shade 3- full shade
1. Coltsfoot (<i>Tussilago farfara</i>)			---			Slope/direction 4-flat area 5-gentle slope, faces* 6-steep slope, faces*
2. Trembling aspen (<i>Populus tremuloides</i>)						Plant Location 7-away from building obstacles 8-within 10m of wall; wall faces*
3. Sweetgale (<i>Myrica gale</i>)			---			Weather: week before flowering 9-hot 10-cold 11-average temp 12-dry 13-rainy
4. Red maple (<i>Acer rubrum</i>)						Plant Habitat 15-forest 16-shrub 17-bog or wetland 18-roadside 19-garden 20-other (specify)
5. Rhodora (<i>Rhododendron canadense</i>)			---			*Please add one of the following: (E, N, NE, NW, S, SE, SW, W)
6. Dandelion (<i>Taraxacum officinale</i>)			---			
7. Larch (<i>Larix laricina</i>)						
8. Starflower (<i>Trientalis borealis</i>)			---			
9. Crackerberry (<i>Cornus canadensis</i>)			---			
10. Blue-bead lily (<i>Clintonia borealis</i>)			---			
11. Lilac (<i>Syringa spp.</i>)						
12. Labrador tea (<i>Rhododendron groenlandicum</i>)			---			
13. Wild strawberry (<i>Fragaria virginiana</i>)			---			

Purple lilac
Syringa vulgaris

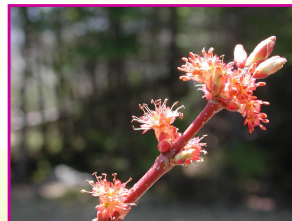

Rhodora
Rhododendron canadense

Starflower
Trientalis borealis

Labrador Tea
Rhododendron groenlandicum

Red maple
Acer rubrum

Dandelion
Taraxacum officinale

Larch
Larix laricina
