

Speaker

**JONATHAN  
ANDERSON**

Assistant Professor,  
Department of Electrical  
and Computer Engineering

Dr. Jonathan Anderson, computer engineering professor with Memorial's Faculty of Engineering and Applied Science will talk about Internet security and privacy.

Can your computer be trusted? Is it safe to do Internet banking using your cell phone? Computer security vulnerabilities are always making headlines and you may be wondering how secure your information is and the best practices for protecting yourself and your personal information.

In this seminar, Dr. Anderson will explain what it all means for you, your computer or mobile devices and the security of your information.

Jonathan Anderson is an assistant professor in the Department of Electrical and Computer Engineering at Memorial. He is a graduate of Memorial's Faculty of Engineering and Applied Science and holds a PhD from the University of Cambridge. His research aims to improve the security of both existing computer systems and future architectures.
