MEMORIAL UNIVERSITY OF NEWFOUNDLAND

OFFICE OF CHIEF INFORMATION OFFICER

OPEN CALL FOR BIDS # RFP-040-24

MOBILITY COMMUNICATION HARDWARE, SOFTWARE AND PROFESSIONAL SERVICES

ADDENDUM #3

Date: October 2, 2024

Purpose of Addendum #3: Question and Answer

Q: Within Appendix A, under the checklist of mandatory requirements it states: "Proposed solution voice, text/SMS, and/or data rate plans must include, at a minimum, unlimited nationwide services. Devices include Smartphone/PDA, Data Internet Devices and AVL Tracking".

We would like to confirm that Memorial is not requesting unlimited data as a mandatory, only unlimited voice & text/SMS unlimited?

As the Appendix C Financial Proposal (pricing grid) refers to 4GB minimum for data (not unlimited).

Is this correct?

A: Correct. We only require unlimited nationwide voice and unlimited nationwide text/SMS. We do require, for data plans, a minimum 4 gigabytes of data per plan and that this data be pooled across all users such that any overages incurred can be applied against any available data in the pool.
