The Marine Institute reserves the right to reject incomplete bids.

2.3 Stage II – Mandatory Technical Requirements

Stage II will consist of a review to determine which bids comply with all of the mandatory technical requirements. Bids that do not comply with all of the mandatory technical requirements as of the Submission Deadline will, subject to the express and implied rights of the Marine Institute, be disqualified and not evaluated further. The mandatory technical requirements are listed in Appendix A - Specifications.

2.4 Stage III – Pricing

2.6 Selection of Lowest Compliant Bidder as Preferred Supplier

Subject to the Marine Institute's reserved rights, the compliant bidder with the lowest pricing will be the preferred supplier, and will be selected to enter into the Agreement in accordance with the following section. This provision is solely for the benefit of the Marine Institute and may be waived by the Marine Institute. At the Marine Institutes discretion, the bidder will enter into a formal contract containing such terms and conditions (not inconsistent with the terms and conditions in the Open Call) as may be required. Unless or until such a formal contract is entered into, the Open Call in its entirety, the accepted Open Call bid and any resulting Purchase Order when issued shall together be the complete and only contract. If the Open Call is for a number of discrete items, the Marine Institute reserves the right to award in full to a single bidder, or to award

each item to the lowest bidder for that item. In the case of the latter, each item in the Open Call will then be considered a separate agreement and may be awarded separately, unless stated otherwise in the Open Call. It is understood that the Open Call bid will remain open for acceptance by the Marine Institute for a period of not less than 30 days from the closing date specified in the Open Call, unless otherwise indicated in Appendix A – Specifications.

APPENDIX A – SPECIFICATIONS

Training Lifteraft Cleaning and Repacking

Details:

The Offshore Safety and Survival Centre of the Fisheries and Marine Institute of Memorial University (OSSC) requires a competent (as determined by the Marine Institute) supplier or suppliers to provide for cleaning and repacking of “training liferafts”. “Training Liferafts” are liferafts used in non-emergency situations, and therefore are not categorized as life safety equipment but training equipment. As such, training liferafts are maintained to function and be fit for purpose but reside outside the life safety regulatory regime required by Transport Canada for marine vessels. Considering this information the Marine Institute requires a competent contractor to clean and repack training rafts (shell only) as described in this tender.

Duration:

The duration of this contract will be from award date to April 30, 2026, the contract may be extended on a year to year basis by the mutual consent of the parties to this contract for a maximum of two (2) years after the initial contract period.

General Requirements:

The OSSC delivers safety and survival training to persons working in the marine and offshore industries. The training is delivered at the Marine Institutes’ OSSC Foxtrap campus, Holyrood Marine Base, and the Safety and Emergency Response campus in Stephenville. Depending upon the location and on the nature of the course, training liferafts may be launched in a chlorinated pool environment and/or in salt/fresh water environments within close proximity to shore or support vessel(s). The quality of courses delivered is contingent upon attention to detail in the cleaning and repacking process. The successful bidder shall be able to provide a valid ISO 9001:2015 and applicable DNV or Lloyd’s certification, or other relevant certifications applicable to the scope of work that is acceptable to the Marine Institute. The applicable certifications will be subject to a Marine Institute verification audit prior to contract award.

Contract Requirements:

- Ensuring delivery of an adequate number of training liferafts to the OSSC Foxtrap Campus or Holyrood Marine Base as per a mutually agreeable defined schedule that ensures overhauled training liferafts prior to course deliveries (for Stephenville Training Liferafts, overhauled rafts will be lowest cost shipped to Stephenville and billed to the Marine Institute);
- Ensuring pickup of used training liferafts at the OSSC Foxtrap Campus or Holyrood Marine Base as per a mutually agreeable defined schedule;
- Overhaul (cleaning and repacking as detail below) of training liferafts (shell only) between training exercises, ensuring training liferafts are “fit for purpose”.
- Completion of minor training liferaft repairs (i.e. minor glue patches, Velcro repairs, reflective tape replacement, etc.).
- Detailed visual inspection - deficiencies and repairs required to be noted on database for inclusion in monthly reports
- Identification of major repairs or damages to training liferafts (all major repairs are subject to authorisation by OSSC and must be completed by an authorized contractor);
- Ensuring pressurized inflation bottles are maintained as per regulatory standard;
- Setting up and maintaining a data base of use and service record for each training liferaft;
- Providing a report to OSSC Director at the end of each month detailing training liferaft use and service record.
- Storage of training liferafts at suppliers facility while not in use (approx. 30 liferafts)

Estimated annual raft usage is estimated as follows:

Holyrood Marine Base - 50 rafts

Foxtrap Campus – 300 rafts

Stephenville and Field deliveries – 50 rafts

Responsiveness Requirements:

Turn-around time required for rafts is 48 hours. The contractor must be able to demonstrate capability to achieve a 48 hour turn around response time, upon raft arrival at the cleaning/repacking facility.

Unless otherwise mutually agreed rafts will be delivered/picked up at the start of each day between 0900hrs and 0930hrs. Rafts must be delivered in adequate time for start of scheduled training exercises.

Evidence of Procedural Requirements:

The bidder must include with the bid, evidence of adequate processes and procedures to ensure that the bidder can meet the requirements of the scope of work and provide a consistent quality of service.

Certification Requirements:

Bidder must provide copies of relevant certification (i.e. ISO 9001:2018, DNV, Lloyds) and any information which will support claim to be qualified to overhaul training liferafts, ensuring fit for purpose.

Record Keeping Requirements:

The supplier will be required to maintain records on each training liferaft, and provide such records to the OSSC on a monthly basis. Bidder shall outline how such records will be maintained within tender response.

Assurance Requirements:

The OSSC is required to audit its suppliers to confirm that the facilities and procedures in place at its subcontractors meet applicable standards. The OSSC reserves the right to conduct supplier audits prior to contract award and at any time after contract is awarded, subject to reasonable notice (7 days).

Insurance Coverage Requirements:

Bidder must supply proof of adequate insurance coverage for loss or damage to equipment and third party liability to minimum of \$2 million. Marine Institute to be added to policy.
