### Program Level Ethics Approval

Researchers whose research projects involve human participants must apply for and receive ethics approval before commencing data collection.\* All researchers must adhere to the standards defined by the 2nd edition of the *Tri-council Policy Statement: Ethical Conduct for Research Involving Humans* (TSCP2) ([www.pre.ethics.gc.ca](http://www.pre.ethics.gc.ca)) and Memorial University of Newfoundland's Research Policies ([www.mun.ca/research/resources/policies.php](http://www.mun.ca/research/resources/policies.php)). All researchers should review these documents prior to applying for ethics approval. The online tutorial *TCPS 2: Course on Research Ethics* focuses on an applied approach to the guidance provided in TCPS 2 ([www.pre.ethics.gc.ca/eng/education/tutorial-didacticiel/](http://www.pre.ethics.gc.ca/eng/education/tutorial-didacticiel/)).

Individual programs at Grenfell Campus review ethics applications for individual undergraduate students and for class research projects which are part of course curricula. **Course instructors and student supervisors are responsible for continuing oversight of the human participation research projects in which their students engage. Each researcher is responsible for the ethical conduct of research as established by the TCPS 2. The course instructors and student supervisors will ensure that the GREB is notified of any ethical issues arising from this study.**

Program Chairs must inform the Chair of the GC-REB of all approved projects within two weeks of the research project(s) being approved.

\*Please note: There are some legislative restrictions for studies conducting health research involving human subjects. These studies must be reviewed by the HREB ([www.hrea.ca/HREB.aspx](http://www.hrea.ca/HREB.aspx)).
