

Purpose of the Cabinet Committee

The purpose of the committee is to coordinate Family Medicine postgraduate training throughout the Western Stream, Newfoundland & Labrador.

Responsibilities

- a) To help communicate and coordinate educational resources throughout the Western Stream and to coordinate with the overarching Family Medicine Program.
- b) To review and implement curriculum adaptable to local resources and needs that follow the overall goals and objectives of the overall training program.
- c) To liaise with local assessment and evaluation leads to determine how best to put in place remedial or altered training needs of individual residents.
- d) To communicate with local faculty to make them aware of any changes in policy of the overarching program, CFPC or other organizations whose policies may influence the training of residents.

Committee Membership

Consists of the Western Stream Lead, Faculty Development Member, Curriculum Member, Evaluation/Promotion Member, Evidence-Based Medicine/Research Member, RMEN Liaison Member, R1 Resident Representative, R2 Resident Representative, and stream APA.
