#### Systems Personnel

Boland, T., B.Sc. *Memorial*, AITD, ITI  
 Casey, A., B.Sc. *Memorial*  
 Green, K., B.Sc. *Memorial*  
 Price, P., B.Sc. *Memorial*  
 White, N., B.Sc. *Memorial*, MS *M.I.U.*  
 Wissink, M., B.Sc. *New Brunswick*  
 Young, J., B.Sc. *Memorial*

#### Laboratory Instructor

Johnstone, S., B.Sc. *Memorial*

#### Instructional Assistants

Anthony, S., B.Sc. *Memorial*  
 Milley, C., B.Sc. *Memorial*  
 Verbree-Barnes, I., B.Sc. *Memorial*

#### Administrative Staff Specialist

Boone, E.

### Department of Earth Sciences

#### Head

Hanchar, J.M., B.S. *Memphis*, M.S. *Vanderbilt*, Ph.D. *Rensselaer Polytechnic Institute*, P.Geo.

#### Professores Emeriti

Hiscott, R.N., B.Sc. *Brock*, Ph.D. *McMaster*, P.Geo.  
 Hodych, J.P., M.A., Ph.D. *Toronto*  
 Longrich, H., B.Sc. *Millikin*, Ph.D. *Indiana*  
 Rochester, M.G., B.A., M.A. *Toronto*, Ph.D. *Utah*, F.R.S.C.;  
 University Research Professor, Awarded 1986

#### Honorary Research Professors

Gale, J.E., B.A.(Ed.), B.Sc. *Memorial*, M.Sc. *Western Ontario*,  
 M.Eng.Sci., Ph.D. *Berkeley*, P.Geo.; Winner of the President's  
 Award for Outstanding Research, 1985-1986

Williams, H., M.Sc. *Memorial*, Ph.D. *Toronto*; F.R.S.C.

#### University Research Professors

Aksu, A.E., B.Sc. *Ege*, M.Sc., Ph.D. *Dalhousie*, P.Geo.  
 Hall, J., B.A. *Oxon*, DIC *London*, Ph.D. *Glasgow*, P.Geo.;  
 University Research Professor, Awarded 2003

#### Professors

Burden, E.T., B.Sc., M.Sc. *Toronto*, Ph.D. *Calgary*, P.Geo.  
 Dunning, G.R., B.Sc., M.Sc. *Carleton*, Ph.D. *Memorial*; Winner of  
 the President's Award for Outstanding Research, 1994-1995  
 Indares, A., B.Sc. *Grenoble*, M.Sc., Ph.D. *Montreal*  
 Jenner, G.A., B.Sc., M.Sc. *Western Ontario*, Ph.D. *Tasmania*,  
 P.Geo.  
 Johansen, T., BaSc., M.Sc., Ph.D. *Oslo*; Canada Research Chair  
 in Reservoir Engineering; Cross appointment with Faculty of  
 Engineering and Applied Science  
 Quinlan, G.M., B.Sc. *Toronto*, Ph.D. *Dalhousie*, P.Geo.  
 Rivers, C.J.S., B.Sc. *Belfast*, Ph.D. *Ottawa*, P.Geo.  
 Slawinski, M.A., B.Sc., M.Sc., Ph.D. *Calgary*  
 Sylvester, P.J., B.S. *Purdue*, Ph.D. *Washington*  
 Wilton, D.H.C., B.Sc. *Memorial*, M.Sc. *British Columbia*, Ph.D.  
*Memorial*, P.Geo.

#### Associate Professors

Azmy, K., B.Sc. *Ain Shams*, M.Sc. *Windsor*, Ph.D. *Ottawa*  
 Bentley, S.J., B.A. *Magna Cum Laude*, *University of Georgia*, M.S.  
*University of Georgia*, Ph.D. *SUNY Stony Brook*, Canada  
 Research Chair in Seabed Processes and Seabed Imaging  
 Calon, T.J., M.Sc., Ph.D. *Leiden*, P.Geo.  
 Hurich, C., B.Sc., M.Sc., Ph.D. *Wyoming*  
 Layne, G.D., B.Sc., Ph.D. *Toronto*  
 Leitch, A., B.Sc., Ph.D. *Australian National*  
 Macquaker, J.H.S., B.Sc., Ph.D. *Bristol*  
 Mason, R.A., B.Sc. *London*, Ph.D. *Aberdeen*  
 McLroy, D., B.Sc. *Manchester*, D.Phil. *Oxford*; Canada Research  
 Chair in Petroleum Geoscience and Geotechnology  
 Wilson, M.R., B.Sc.(Hons.) *Carleton*, Ph.D. *Sask.*  
 Ziegler, S., B.S. *Massachusetts*, Ph.D. *Texas*; Canada Research  
 Chair in Environmental Science

#### Assistant Professors

Farquharson, C., B.Sc.(Hons.) *Edinburgh*, Ph.D. *British Columbia*  
 Morrill, P. B.Sc., Ph.D. *Toronto*

#### Research Associate

Deemer, S., B.S. *Michigan Technological*, M.S. *Wyoming*, Ph.D.  
*Bergen*

#### Adjunct Professors

Bodner, R.J., B.S. *Pittsburgh*, M.S. *Arizona*, Ph.D. *Pennsylvania*  
*State*  
 Brasier, M., B.Sc., Ph.D. *London*, M.A. *Oxon*  
 Cabri, L.J., B.Sc.(Hons.) *Witwatersrand*, M.Sc.(Appl.), Ph.D.  
*McGill*; Emeritus Research Scientist (CANMET, NRC)  
 Hinchey, A.M., B.Sc. *Queen's*, M.Sc. *Memorial*, Ph.D. *Carleton*  
 Mudie, P., B.Sc. *Leicester*, Ph.D. *Dalhousie*  
 Piercey, S.J., B.Sc., M.Sc. *Memorial*, Ph.D. *British Columbia*,  
 P.Geo.

#### Post-Doctoral Fellows

Callow, R., M.E.Sc., D.Phil. *University of Oxford*  
 Chen, J., B.S. *Changchun University*, M.S. *Jilin University*, Ph.D.  
*Chinese Academy of Sciences*  
 Herringshaw, L., B.Sc.(Hons.) *Liverpool*, Ph.D. *University of*  
*Birmingham*  
 Lane, C., B.S. *University of Denver*, M.S., Ph.D. *University of*  
*Tennessee*  
 Lelièvre, P., B.Sc. *Acadia*, M.Sc., Ph.D. *University of British*  
*Columbia*  
 Satyanarayanan, M., M.Sc., Ph.D. *University of Madras*  
 Thanyamanta, W., B.Eng. *Chulalongkorn University*, M.Eng., Ph.D.  
*Memorial*

#### Manager of Academic Programs

Miskell, M., B.Sc.(Hons.) *Memorial*

#### Research Computing Specialist

Thomeier, D., B.A., B.Sc.(Hons.) *Memorial*

#### Laboratory Instructor

Hicks, R., M.Sc. *Dalhousie*

 Yethiraj, A., B.Sc. *Bombay (St. Xavier's College)*, M.Sc. *Houston*,

Ph.D. *Simon Fraser*, Winner of the President's Award for Outstanding Research 2008-2009

#### Adjunct Professors

Anderson, J.T., B.Sc., M.Sc. *Guelph*, Ph.D. *British Columbia*  
Bourgault, D., M.Sc. *Quebec at Rimouski*, Ph.D. *McGill*  
Budgell, W.P., B.A.Sc. *Waterloo*, M.Eng *McMaster*, Ph.D. *Waterloo*  
Han, G., B.S., M.S., Ph.D. *Hohai University*

#### Cross-Appointments

Booth, I., B.Sc.(Hons.) *Memorial*, M.Sc., Ph.D. *University of Waterloo*; Cross appointment from Department of Mathematics and Statistics  
Booth, V., B.Sc. *Victoria*, M.Sc. *Waterloo*, Ph.D. *Toronto*; Cross appointment from Department of Biochemistry

#### Administrative Officer

Corbett, D.

#### Laboratory Co-ordinator

Deacon, C.G., Ph.D. *Birmingham*, M.B.A. *Memorial*

#### Cryogenics Officer

Holly, W.

## Department of Psychology

#### Head

Neath, I., B.A. *Rice University*, M.S., Ph.D. *Yale*; Professor

#### Honorary Research Professors

Evans, J.H., B.A., Ph.D. *Wales*; Associate Professor  
Harley, C.W., B.S. *San Francisco State*, M.S., Ph.D. *Oregon*; Cross appointment with Faculty of Medicine  
McKim, W.A., B.A. *Memorial*, M.A. *Toronto*, Ph.D. *Western Ontario*

#### Professor Emeritus

Harley, C.W., B.S. *San Francisco State*, M.S., Ph.D. *Oregon*; Cross appointment with Faculty of Medicine

#### Professors

Adamec, R.E., B.A. *Middlebury*, M.A., Ph.D. *McGill*; University Research Professor, Awarded 1993; Cross appointment with Faculty of Medicine  
Adams, R.J., B.A. *Concordia*, Ph.D. *McMaster*; Cross appointment with Faculty of Medicine  
Button, C.M., B.Sc., M.Sc. *Memorial*, Ph.D. *Rhode Island*  
Courage, M.L., B.A. *Memorial*, M.Sc. *Alberta*, Ph.D. *Memorial*; Cross appointment with Faculty of Medicine  
Grant, V.L., B.A., M.A. *Toronto*, Ph.D. *Memorial*  
Malsbury, C., B.A. *Northwestern*, M.A., Ph.D. *McGill*; Cross appointment with Faculty of Medicine  
Martin, G.M., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *Australian National University*  
Montevicchi, W.A., B.A. *Northeastern*, M.Sc. *Tulane*, Ph.D. *Rutgers*; Cross appointments to Ocean Sciences Centre and Department of Biology; University Research Professor, Awarded 2005  
Penney, C., B.Sc.(Hons.) *McGill*, M.A., Ph.D. *Toronto*  
Peterson, C., B.S. *Washington*, Ph.D. *Minnesota*; University Research Professor, Awarded 2006  
Sherrick, M.F., B.A., M.A., Ph.D. *Cincinnati*; Winner of the President's Award for Distinguished Teaching, 1992-1993  
Storey, A.E., B.Sc., M.A. *Manitoba*, Ph.D. *Rutgers*  
Surprenant, A.M., B.A. *New York*, M.S., Ph.D. *Yale*  
Walker, Lilly J. Shubert, B.A. *Jamestown College*, M.A., Ph.D. *University of North Dakota*; Dean, Student Affairs and Services

#### Associate Professors

Anderson, R.E., B.A. *Wisconsin*, Ph.D. *California*  
Andrews, E.A., B.A., B.Sc., M.Sc. *Memorial*

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Research Units

### 2.1 Centre for Earth Resources Research (CERR)

#### Director

Hanchar, J.M., B.S. *Memphis*, M.S. *Vanderbilt*, Ph.D. *Rensselaer Polytechnic Institute*

Arlett, C., B.Sc. *Leicester, M.A.*, Ph.D. *British Columbia*

Fowler, K.F., B.Sc.(Hons.), Ph.D. *Memorial*

Grant, M., B.A., M.A. *Toronto*

Maddigan, R.I., B.A.(Hons.), M.Sc. *Memorial*; Co-ordinator, First Year

Penney, R., B.A.(Hons.) *Memorial*, M.A., Ph.D. *Michigan State*, M.F.T. *Hahnemann*; Cross appointment to Counselling Centre  
Skinner, D.M., B.Sc.(Hons.) *Memorial*, Ph.D. *Toronto*  
Snook, B., B.A. *Memorial*, M.Sc., Ph.D. *Liverpool*

#### Assistant Professors

Blundell, J.J., B.Sc.(Hons.) *Dalhousie*, M.Sc., Ph.D. *Memorial*  
Drover, J.R., B.Sc.(Hons.), M.Sc., Ph.D. *Memorial*  
Francis, S.E., B.A. *State University of New York at Albany*, M.A., Ph.D. *Hawaii*; Cross appointments to the Faculty of Medicine and the Faculty of Education  
Hadden, K., B.A.(Hons.) *York*, M.A., Ph.D. *Saskatchewan*; Cross appointment to Counselling Centre  
Hallett, D., B.A.(Hons.), M.A., Ph.D. *University of British Columbia*  
Hannah, E.R., B.Sc. *Buenos Aires*, M.A. *SUNY at Stony Brook*  
Mercer, M., B.Sc.(Hons.), M.Sc., Ph.D. *Memorial*  
Mezo, P.G., B.Sc.(Hons.) *Toronto*, M.A., Ph.D. *Hawaii*; Cross appointments to the Faculty of Medicine and the Faculty of Education  
Thorpe, C., B.Sc.(Hons.) *Memorial*, M.A., Ph.D. *University of British Columbia*  
Walsh, C.J., B.Sc.(Hons.) *Memorial*, M.A. *Toronto*, Ph.D. *Memorial*

#### Adjunct Professors

Garthe, S., B.Sc. *Hamburg*, M.Sc., Ph.D. *Kiel*  
Hedd, A., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *University of Tasmania*  
Koen-Alonso, M., Ph.D. *Buenos Aires*  
Perry, E., B.A.(Hons.) *Guelph*, M.Sc., Ph.D. *Memorial*  
Vernescu, R.M., B.A. *York*, M.Sc., Ph.D. *Memorial*

#### Cross Appointments

Canning, P.M., B.A.(Hons.) *UPEI*, M.A., Ph.D. *Univ. of Windsor*; Cross appointment from Faculty of Education  
Corbett, D., B.A. *Dalhousie*, M.Sc. *Memorial*, Ph.D. *Concordia*; Cross appointment from Faculty of Medicine  
Harris, G.E., B.A.(Hons.) *Saint Mary's*, M.Sc. *Calgary*, Ph.D. *Alberta*; Cross appointment from Faculty of Education  
Heath, O., B.A. *McGill*, M.Sc., Ph.D. *Memorial*; Cross appointment from Counselling Centre  
Hurley, G., B.A. *Colorado College*, M.S., Ph.D. *Missouri Columbia*; Cross appointment from Counselling Centre  
Winger, P.D., B.Sc. (Co-op) *Dalhousie*, M.Sc., Ph.D. *Memorial*; Cross appointment from Fisheries and Marine Institute

#### Administrative Staff Specialist

Young, S., B.B.A. *Lakehead*, M.B.A. *Memorial*

#### Laboratory Instructors

Brown, A., B.A.(Hons.), M.Sc. *Memorial*  
Milway, S., B.A. *Concordia*

#### Instructional Assistant

Gaborko, L., B.Sc. *Trent*

#### Research Computing Specialist

Earle, A., B.Sc. *Memorial*

## Science 1150/1151

#### Associate Professor

Smith, F.R., B.Sc., M.Sc. *Memorial*; Co-ordinator

#### Laboratory Instructor

Huelin, S., B.Sc., M.Sc., B.Ed.

### 2.1.1 Research Group

The Centre draws on the research expertise of faculty and research staff members in the Department of Earth Sciences as well as other specialists inside and external to the University. For a complete listing of faculty, see Earth Sciences entry.

### 2.1.2 Scope and Objectives

The CERR was established in 1983 to provide for the co-ordination and promotion of earth resources research and associated work related to the origin, discovery, development, exploitation, and environmental aspects of earth resources.

The Centre promotes, initiates, and co-ordinates research within the earth resources disciplines on the national and international scenes. Researchers interact, when appropriate, with the industrial and government sectors and introduce other organizations to the potential benefits of further research and development in earth resources.

The special facilities of the Centre complement the development of graduate and undergraduate programs in earth sciences and related disciplines at Memorial University of Newfoundland. A further function of the Centre is to contribute to the training of people competent in solving earth resources problems and to encourage personnel exchanges with industry and government.

The Alexander Murray Building houses the Centre, and has laboratories for teaching and basic and applied research.

### 2.1.3 Organization

The Centre is an integral part of the Department of Earth Sciences. The active research of faculty members contributes to programs in the Centre. Increasing collaboration is under way with government and industry in research projects that emphasize earth resources. The work of the Centre addresses problems and opportunities related to mineral resources, petroleum resources, exploration technology, environmental geoscience, and generic research.

The Centre works closely with other local, national, and international research institutes. CERR hosts the geoscience component of the University's Oil and Gas Development Partnership.

## 2.2 Ocean Sciences Centre (OSC)

### Administration

Boyce, D., B.A., M.Sc. *Memorial*; Aquaculture Development Supervisor, Joe Brown Aquaculture Research Building  
 Devereaux, J.; Field and Laboratory Services Supervisor  
 Fletcher, G.L., B.Sc. *British Columbia*, Ph.D. *California*; Professor Emeritus; Director, Ocean Sciences Centre  
 Nichols, D., B.A., MMS. *Memorial*; Research Marketing Manager  
 Wheeler, D.; Staff Administrative Specialist, Finance

### Scientific Staff

Abrahams, M., B.Sc.(Hons.) *Western*, M.Sc. *Queen's*, Ph.D. *Simon Fraser*; Dean of Science  
 Deibel, D.R., B.Sc. *Bucknell University, U.S.A.*, Ph.D. *University of Georgia, U.S.A.*; Professor; Cross appointment with Department of Biology  
 Driedzic, W.R., B.Sc. *York*, M.Sc. *Toronto*, Ph.D. *British Columbia*; Professor; Tier I Canada Research Chair in Marine Bioscience; Cross appointments with Departments of Chemistry and Biochemistry  
 Gagnon, P., B.Sc., Ph.D. *Laval University*; Assistant Professor  
 Fleming, I.A., B.Sc. *Queen's Univ.*, M.Sc. *Simon Fraser Univ.*, Ph.D. *Univ. of Toronto*; Associate Professor  
 Gamperl, A.K., B.Sc., M.Sc. *Guelph*, Ph.D. *Dalhousie*; Associate Professor; Cross appointment with Department of Biology  
 McGaw, I., B.Sc., Ph.D. *University of Wales-Bangor (UK)*; Assistant Professor  
 Mercier, A., B.Sc. *Université de Sherbrooke*, M.Sc., Ph.D. *Université du Québec à Rimouski*; Assistant Professor  
 Parrish, C.C., B.Sc. *Wales*, Ph.D. *Dalhousie*; Winner of the President's Award for Outstanding Research, 1995-1996; Professor  
 Rise, M., M.Sc. *Boston College, U.S.A.*, Ph.D. *University of Victoria*; Assistant Professor; Tier II Canadian Research Chair in Marine Biotechnology  
 Rivkin, R.B., B.Sc., M.Sc. *City College, New York*, Ph.D. *Rhode Island*; Professor; Cross appointment with Department of Biology; University Research Professor, Awarded 2007  
 Schneider, D.C., B.Sc. *Duke*, Ph.D. *SUNY, Stony Brook*; Professor; Associate Dean (Research), Faculty of Science; Cross appointments with Departments of Biology and Psychology  
 Snelgrove, P.V.R., B.Sc. *Memorial*, M.Sc. *McGill*, Ph.D. *Woods Hole*; Associate Professor; Tier 2 Canada Research Chair in Boreal and Cold Ocean Systems; Cross appointment with Department of Chemistry; Joint appointment with Department of Biology  
 Thompson, R.J., B.Sc. *Bristol*, Ph.D. *Leicester*; Professor (Research); Cross appointment with Department of Biology  
 Wroblewski, J.S., B.Sc. *Illinois*, M.Sc., Ph.D. *Florida State*; Professor (Research); Cross appointment with Department of Biology

### Professores Emeriti

Burton, D., B.Sc. *Wales*, Ph.D. *London*; Biology  
 Khan, R.A., B.SA, M.Sc., Ph.D., *Toronto*; Biology

### Adjunct Professors

Cote, D., M.Sc. *Wilfrid Laurier Univ.*, Ph.D. *Univ. of Waterloo*; Terra Nova National Park  
 DeBlois, E., B.Sc. *Univ. of New Brunswick*, Ph.D. *McGill University*; Senior Scientist, Jacques Whitford Ltd.  
 Dixon, B., B.Sc. *Wilfrid Laurier Univ.*, M.Sc. *Univ. of Guelph*, Ph.D. *Dalhousie Univ. of Waterloo*  
 Ewart, K., B.Sc. *Université de Moncton*, Ph.D. *Memorial*; Research Scientist, Institute for Marine Biosciences, Halifax, N.S.  
 Hale, M., B.Sc., Ph.D. *Flinders University*; Senior Lecturer, University of Portsmouth  
 Mansour, Atef, B.Sc., M.Sc., Ph.D. *Cairo Univ.*; Research Scientist, Dept. of Fisheries and Oceans  
 McKenzie, C., B.Sc., Ph.D. *Texas University*; Research Scientist, Department of Fisheries and Oceans  
 Morgan, J.M., B.Sc. *Mount Alison*, Ph.D. *Queen's*; Department of Fisheries and Oceans  
 O'Reilly, P., B.Sc., M.Sc. *University of Alberta*, Ph.D. *Dalhousie University*; Research Scientist, Department of Fisheries and Oceans, Nova Scotia  
 Pepin, P., B.Sc. *McGill*, Ph.D. *Dalhousie*; Northwest Atlantic Fisheries Centre, Department of Fisheries and Oceans  
 Rise, M., B.Sc., M.Sc. *St. Francis Xavier*, Ph.D. *Victoria*; Project Manager, Genome Atlantic, OSC  
 Trippel, E., B.Sc., M.Sc. *University of Toronto*, Ph.D. *Guelph*; Research Scientist, Department of Fisheries and Oceans, New Brunswick.

### Cross-Appointed Faculty

Dr. W. Montevecchi, Department of Psychology  
 Dr. F. Shahidi; Department of Biochemistry  
 Dr. H. Volkoff; Department of Biology

### Post-Doctoral Fellows

Lowen, B., B.Sc. *University of Aberdeen, Scotland*, B.Sc. *University of Stirling, Scotland*, Ph.D. *Memorial*

Mitchell, J., B.Sc., *Queens*, M.Sc., *University of Ontario*, Ph.D., *Simon Fraser*

#### Research Specialist

DuRand, M., Ph.D. *Massachusetts*

#### Research Assistants

Ings, D., M.Sc. *Memorial*

Jones, D., B.Sc. *Saskatchewan*

Short, C., B.Sc. *Memorial*

The Ocean Sciences Centre (OSC) provides scientists at Memorial University of Newfoundland and other organizations with first-rate facilities for research in cold ocean sciences. In addition, the OSC supports quality graduate education in a broad range of marine science and related disciplines. Located on the most eastern coast of Canada the Centre lends itself to the shore-based study of cold ocean processes, and sub-arctic and arctic fauna and flora. Current research foci are aquaculture, biological and chemical oceanography, and fundamental principles of behaviour, biochemistry, and physiology that underlie the first two themes. The OSC is a key player in AquaNet, Canada's first federal Network of Centres of Excellence (NCE) devoted to aquaculture. The OSC is an AquaNet Core Facility, as well as its Administrative Centre.

Located at Logy Bay, 9.6 km from the main campus, the OSC has an excellent unpolluted sea water supply that is the lifeline of the centre. There are 35 laboratories (22 provided with running seawater) and facilities for microscopy, histochemistry, analytical chemistry, radioisotope counting, physiological work, and standard analyses for oceanography. Large holding areas permit scientists to maintain a variety of marine organisms for long periods at ambient and controlled water temperatures. The Seal Research Facility offers research opportunities on North America's only population of captive harp seals. The Field Services Unit provides extensive resources for field studies including: year round SCUBA diving, small research vessels, a tank truck for the transportation of live specimens, and a wide-range of oceanographic and collecting equipment.

The Logy Bay complex includes machine, woodworking and electronics shops, computer resource personnel, and a multimedia classroom. Desktop computers are linked to the mainframe cluster on campus, with high-resolution printing and graphics, and an image analysis facility.

The Aquaculture Research and Development Facility provides state-of-the-art facilities designed to support research, training, pre-commercial production, and small-scale commercial trials, on alternative species for marine aquaculture. A critical component of the new facility is a sea water system designed to deliver high quality, temperature controlled, flow through and re-circulating water. There are areas for broodstock conditioning, hatchery and nursery operation, first-feeding, on-growing, and live food production. Under investigation are: Atlantic halibut, Atlantic cod, Atlantic salmon and smaller flounder species.

#### Research Themes

1. Aquaculture nutrition and production
2. Reproductive biology of finfish and molluscs
3. Development and behavioural ecology of larval and juvenile fish
4. Survival of marine organisms without oxygen
5. Antifreeze proteins and cold adaptation in fish
6. Biological production and the ecology of cold oceans
7. Transport and fate of lipids in cold ocean ecosystems
8. Physiology of feeding and digestion in marine invertebrates
9. Marine biotechnology
10. Fisheries oceanography
11. Quantitative biology and population interactions

## 3 Faculty Description

The Faculty of Science encompasses eight academic departments: Biochemistry, Biology, Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Physics and Physical Oceanography, and Psychology. Each offers programs leading to either a general or honours degree. A number of specialized and joint (double major) programs are also offered, as well as Bachelor of Science degree programs delivered by the Departments of Geography and Economics. In addition to educational programs, research is a most important aspect of the Faculty of Science. As such, the Faculty is in a position to generate new knowledge by the pursuit of high quality research and to foster economic development through cooperative research and technology transfer with the private sector. The Faculty of Science is the scientific training ground for all undergraduates at the University. Memorial University of Newfoundland's science graduates are in demand by science-based industries throughout the country. Our Faculty excels in research and in its commitment to effective teaching and delivery of quality educational programs.

Additional information regarding the Faculty of Science is available at [www.mun.ca/science/aboutus/](http://www.mun.ca/science/aboutus/).

## 4 Joint Programs

Course descriptions are found at the end of the Faculty of Science section under **Course Descriptions**.

The following joint programs are offered by Departments in the Faculty of Science, and the regulations for each program are joint Departmental Regulations. For convenience of reference the joint programs are listed below in alphabetical sequence: Joint Honours, Joint Majors, and Joint Options.

### 4.1 Joint Honours

#### 4.1.1 Applied Mathematics and Chemistry Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. In addition, Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031), Mathematics 1000 and 1001, Physics 1050 (or 1020) and 1051, the following courses numbered 2000 or higher are required:

1. Chemistry 2210, 2300 or 2301, 2302 (or the former Chemistry 3301), 2400, 2401, 3100, 3211, 3303 (or the former Chemistry 3300), 3500, 4303 (or the former Chemistry 4302), 4304 (or the former Chemistry 4300) and a 3 credit hour Chemistry elective.
2. Mathematics 2000, 2050, 2051, 3000, 3001, Applied Mathematics 2130, 3132, 3161, Applied Mathematics/Pure Mathematics 3202, 3210, 3260, Applied Mathematics 4160.
3. Physics 2055, 2056 or 2750, 2820, 3220, 3230.

4. either Applied Mathematics 419A/B or Chemistry 490A/B.

The following courses are recommended:

Chemistry 3410, 3411, 4110, Applied Mathematics 3100, 4131, 4132, 4133, Applied Mathematics/Pure Mathematics 3240, Pure Mathematics 3320, Statistics 2510, Physics 3500, 4500.

#### 4.1.2 Applied Mathematics and Physics Joint Honours

The following courses are required:

1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in a science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as three of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, Applied Mathematics/Pure Mathematics 3202, 3210, 3260, Applied Mathematics 3132.
5. At least one of Applied Mathematics 2130 or Pure Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3230, 3400, 3500, 3750.
7. Three additional credit hours chosen from courses numbered 3000 or higher that are offered by the Department of Physics and Physical Oceanography.
8. Applied Mathematics 3161 and Applied Mathematics 4160, or Physics 3820 and Physics 4820.
9. Physics 490A/B or Applied Mathematics 419A/B.
10. Twelve additional credit hours chosen from courses numbered 4000 or higher that are offered by the Department of Mathematics and Statistics or the Department of Physics and Physical Oceanography. At least 3 credit hours must be selected in each of Applied Mathematics and Physics.
11. A sufficient number of elective courses to bring the degree to a total of 120 credit hours.

The topic for the Honours project or thesis, the former Applied Mathematics 4199 or Physics 490A/B must be chosen with the prior approval of both departments.

#### 4.1.3 Biochemistry and Cell Biology Joint Honours

Students must have at least an overall average of 65% in English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Chemistry 1050 and 1051 (or equivalent), Physics 1050 and 1051 (or 1020, 1021 and 1051).

The following courses, including prerequisites where applicable, will be required.

1. Biochemistry 2101, 3105, 3106, 3107, 3108, either 4210 or 4211, 12 credit hours chosen from 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4230-4249.
2. Biology 2060, 2250, 2600, 2900, 3050 and 9 credit hours chosen from 3500, 3530, 3620, 4000, 4200, 4241. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student to make up a minimum of 42 credit hours in Biology including Biology 1001 and 1002 but not including Biology 499A or 499B.
3. Either Medicine 310A/B, or Biology 3401 plus one of Biology 3402, 4245 or 4404.
4. Chemistry 2300 or 2301, 2400, 2401, 3100; either 3410 or 3411.
5. Statistics 2550 or equivalent.
6. An Honours Dissertation (Biology 499A/499B or Biochemistry 499A/499B).
7. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree.

Note: *Students may count only one of the two courses, Biochemistry 4105 or Biology 4200, for credit in this program.*

The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.

Seventy-eight credit hours in Biology, Biochemistry and Chemistry courses beyond the first-year level from those listed in the program shall contribute to those in which a grade of "B" or an average of 75 or higher is required. Medicine 310A/B counts as Biochemistry for these seventy-eight credit hours.

#### 4.1.4 Biochemistry and Chemistry Joint Honours

The following courses (or their equivalents) are required:

1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031) or their equivalents, Mathematics 1000 and 1001, Physics 1050 and 1051, 6 credit hours in first year English courses. Biology 1001 and 1002 are highly recommended.
2. Mathematics 2000, 2050, Applied Mathematics/Pure Mathematics 3260.
3. Chemistry 2210, 2300 or 2301, 2302 (or the former 3301), 2400, 2401, 3100, 3211, 3303 (or the former Chemistry 3300), 3410, 3411, 3500, 4110, and 6 further credit hours in Chemistry courses at the 4000 level.
4. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either Biochemistry 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.

Note: *Only one of Biochemistry 4105, 4220 may be chosen.*

5. Either Chemistry 490A/B or Biochemistry 499A/B.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours Degree. Physics 2820 and/or Physics 2750 are recommended.

#### 4.1.5 Biochemistry and Physics Joint Honours

The following courses are required:

1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031), Mathematics 1000 and 1001, Physics 1050 and 1051 (or 1020, 1021 and 1051).
2. Chemistry 2400, 2401.
3. Chemistry 2300 or 2301, or Physics 2053

4. Mathematics 2000, 2050, Applied Mathematics/Pure Mathematics 3260, either Applied Mathematics/Pure Mathematics 3202 or Physics 3810.
5. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B; plus 9 credit hours in courses to be selected from Biochemistry 4002, 4101, 4102, 4103, 4104, 4200, 4201, and 4230-4249; plus a 3 credit hour course to be selected from Biochemistry 4210 or 4211.
6. Physics 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 3900, 4820; plus one 4000 level Physics course.
7. One course to be selected from Physics 3150, 3300, 3751, 4400. Physics 3751 is recommended.
8. Either Physics 490A/B or Biochemistry 499A/B.
9. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Joint Honours degree.

#### 4.1.6 Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours

Note: *Students completing this program cannot receive credit for Psychology 2920.*

The following courses (or equivalent) are required to complete the 120 credit hours in courses required for the degree:

1. Chemistry 1050 and 1051 (or equivalent), Biology 1001 and 1002, Mathematics 1000 and 1001, Physics 1050 or 1020, and 1051, English 1080 and 1110.
2. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, Medicine 310A/B, either 4210 or 4211, 9 credit hours chosen from Biochemistry 4002, 4101, 4102, 4103, 4104, 4105, 4200, 4201, 4220, 4230-4249.

Note: *Only one of 4105 and 4220 may be chosen.*

3. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2300 or 2301, 2400, 2401.

Notes: 1. *In accordance with Clause 6. a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3. and 4. above, except those at the 1000 level.*  
2. *Students in first year intending to follow this program should note the regulations for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Psychology Department is June 1 for the Fall semester and October 1 for the Winter semester.*

#### 4.1.7 Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours

Note: *Students completing this program cannot receive credit for Psychology 2920.*

The following courses (or equivalent) are required:

1. Chemistry 1010 and 1011 (or 1050, 1051), Biology 1001 and 1002, Mathematics 1000, Physics 1020 or 1050, and 1021 (or 1051), English 1080 and 1110.
2. Biochemistry 2100, 2101, 3106, 3200, 3201, 4002, 4300, 4301, 4502, Medicine 310A/B; one course chosen from: Biochemistry 3105, 3108, 3202, 3402, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, Biology 3050.
3. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900; two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
4. Either Biochemistry 499A/B or Psychology 499A/B.
5. Chemistry 2400, 2401 or Chemistry 2440.
6. Other courses to complete at least the prescribed minimum of 120 credit hours in courses for the Joint Honours Degree.

Notes: 1. *In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, or an average of 75% or higher in all the required courses listed in Clauses 2., 3., and 4. above, except those at the 1000 level.*  
2. *Students in first year intending to follow this program should note the regulations as outlined for admission to Major programs in Psychology and that the deadline for submission of a completed application form to the Psychology Department is June 1 for the Fall semester and October 1 for the Winter semester.*

#### 4.1.8 Biology and Earth Sciences Joint Honours

The following courses, including prerequisites where applicable, will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Biology 1001 and 1002, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021 (or 1050 and 1051).
2. Chemistry 2440, Biochemistry 2101, Biochemistry 3106, one of Statistics 2550, 2560 or 2510.
3. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245 or 4404; plus Biology 3710, 3711, and 4505. In addition, further Biology courses at the 2000, 3000, or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology not including Biology 499A or 499B.
4. Earth Sciences 2030, 2031, 2502, 2905; plus a minimum of 24 credit hours in other Earth Science courses from 2000 to 4000 level, at least 3 credit hours of which must be at 4000 level. Earth Sciences 2150, 2914, 2915, 2916, 2917, 4310, and 4950 cannot be used to fulfill this requirement. Career-related streams outlined in the departmental Student Handbook should be used as a guide to course selection so as to achieve a concentration in one facet of Earth Sciences.
5. An Honours dissertation (Biology 499A/B or Earth Sciences 499A/B). The topic of the Honours dissertation must be chosen with the approval of both Department Heads. A faculty member of either Department may act as supervisor.
6. Other courses to complete the prescribed minimum of 135 credit hours in courses for the Honours degree, with at least 84 credit hours in courses in Biology and Earth Sciences combined.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

#### 4.1.9 Biology and Psychology Joint Honours

Note: *Students completing this program cannot receive credit for Psychology 2920.*

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; four Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3250, 3800 or 3801; 3900, 4910; one of the following: 3050, 3100, 3350, 3450, 3620, 3650; one further 4000 level Psychology research experience course.
3. Biology or Psychology 3750, 4701, 499A/B.
4. English 1080 and 1110; Mathematics 1000; Chemistry 1010 and 1011 (or 1050 and 1051), and 2440; Physics 1020 (or 1050) and 1021 (or 1051); Biochemistry 2101 and 3106.
5. Other courses, if necessary, to complete at least 120 credit hours of courses.

#### 4.1.10 Biology and Psychology (Behavioural Neuroscience) Joint Honours

Note: *Students completing this program cannot receive credit for Psychology 2920.*

The following forty courses (or equivalent) are required:

1. Biology 1001, 1002, 2060, 2250, 2600, 2900; one of 3401, 3402, 4245, 4404; five Biology electives at the 2000, 3000 or 4000 level not including Biology 499A or 499B.
2. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900; two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
3. Biology or Psychology 499A/B.
4. Biochemistry 2101, 3106.
5. English 1080 and 1110; Mathematics 1000 and 1001; Physics 1020 or (1050) and 1021 or (1051); Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400 and 2401);
6. Other courses, if necessary, to complete at least 120 credit hours of courses.

Note: *In accordance with Clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, OR average of 75% or higher in all the required courses listed in Clauses 1, 2, 3, and 4 above, except those at the 1000 level.*

#### 4.1.11 Biology and Statistics Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following requirements:

1. Mathematics 1000 and Mathematics 1001, Biology 1001 and 1002, English 1080 and 1110, Chemistry 1010 and 1011 (or 1050 and 1051), Physics 1020 and 1021, or equivalent;
2. Mathematics 2000, 2050, 2051, Statistics 2500 or 2510, 2501 or 2560 or the former 2511, 3520, 3521, 3530, and 4581;
3. nine further credit hours in Statistics courses (excluding those with second digit 0) including at least 6 credit hours in courses at the 4000 level or higher but not including Statistics 4599;
4. Chemistry 2440 (or 2400 and 2401), Biochemistry 2101 and 3106, Computer Science 2602;
5. Biology 2060, 2250, 2600, 2900, one of 3401, 3402, 4245, or 4404. In addition, further Biology courses at the 2000, 3000 or 4000 level must be selected by the student in consultation with the supervisor to make up a minimum of 42 credit hours in Biology but not including Biology 499A or 499B.
6. Either Biology 499A/B or Statistics 4599.

#### 4.1.12 Chemistry and Earth Sciences Joint Honours

The following courses, including prerequisites, where applicable, will be required:

1. English 1080 and 1110 (or equivalents), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents, Physics 1050 (or 1020 and 1021) and 1051.
2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420, 3600; plus 6 additional credit hours in 3000-level Earth Sciences courses, and 9 additional credit hours in 4000-level Earth Sciences courses.
3. Chemistry 2210, 2301 (or 2300), 2302 (or the former 3301), 2400, 2401, 3100, 3500; plus 3211, 3303 (or the former 3300), 3410, and 3411 with the option of substituting up to 6 credit hours of these 3000-level courses with 4000-level Chemistry courses; and at least 3 additional credit hours in 4000-level Chemistry courses.
4. Mathematics 2000 and 2050.
5. Biology 2120 (or Biology 1001 and 1002).
6. An Honours Dissertation (Earth Sciences 499A/B or Chemistry 490A/B). The topic of the Honours Dissertation must have the prior approval of the Heads of the two Departments. A faculty member of either Department may act as supervisor.
7. Other courses to complete the prescribed minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

#### 4.1.13 Chemistry and Physics Joint Honours

The following courses are prescribed:

1. Mathematics 2000, 2050, and Applied Mathematics/Pure Mathematics 3260.
2. Physics 1050 (or 1020 and 1021) and 1051.
3. A minimum of 45 additional credit hours in Physics courses, which shall include Physics 2055, 2750 or 2056, 2820, 3220, 3230, 3500, 3750, 3820, 3900, 4820 and 3 credit hours in a Physics course numbered 3000 or higher and 12 credit hours in Physics courses numbered 4000 or higher.
4. Physics 3810 or Applied Mathematics/Pure Mathematics 3202.
5. Chemistry 1050 and 1051 (or Chemistry 1010, 1011 and 1031), 2210, 2300 or 2301, 2302 (or the former Chemistry 3301), 2400, 2401 and 27 credit hours in Chemistry courses numbered 3000 or higher including Chemistry 3100, 3211, 3303 (or the former Chemistry 3300), 3500, 4303 (or the former Chemistry 4302) and 4304 (or the former Chemistry 4300).
6. The courses selected in accordance with 3. and 5. above shall include Chemistry 490A/B or Physics 490A/B.

The topic for the Honours thesis, Chemistry 490A/B or Physics 490A/B, must be chosen with the prior approval of both Departments.

#### 4.1.14 Computer Science and Geography Joint Honours (B.Sc. Only)

##### 1. Computer Science Requirements

See **Regulations for the Honours Degree of Bachelor of Science**.

Forty-eight credit hours in Computer Science courses are required for the Joint Honours:

- 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4751, 4770.
- Six additional credit hours in courses at the 4000 level not including 4780.
- Three additional credit hours in courses at the 3000 level or beyond.

##### 2. Geography Requirements

Forty-eight credit hours in Geography courses are required for the Joint Honours: 1050, 2001, 2102, 2195, 2226, 2302, 2425, 3202, 3222, 3226, 3250, 3260, 3303, 4202, 4250, 4261, and the former 4291.

##### 3. Additional Requirements

- Mathematics 2000, 2050, and Pure Mathematics 2320.
- An Honours Dissertation (either Computer Science 4780 or Geography 4999). The topic for dissertation must be chosen with the prior approval of the Heads of both Departments.

#### 4.1.15 Computer Science and Physics Joint Honours

The following courses are prescribed:

- Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
- Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
  - Nine additional credit hours in Computer Science courses numbered 3000 or higher, including at least 6 credit hours in courses numbered 4000 or higher.
- Physics 1050 and 1051, or Physics 1020, 1021 and 1051.
  - Physics 2053, 2055, 2750 or 2056, 2820, 3220, 3400, 3500, 3750, 3820, 4500, 4820 and 3230 or 3900.
- Physics 490A/B or Computer Science 4780.
- Physics 3810 or Applied Mathematics/Pure Mathematics 3202.
- Mathematics 1000 and 1001.
  - Mathematics 2000, 2050, Pure Mathematics 2320 and Applied Mathematics/Pure Mathematics 3260

Statistics 2510 is recommended.

The topic for the Honours project or thesis, Computer Science 4780 or Physics 490A/B, must be chosen with the prior approval of both Departments.

#### 4.1.16 Computer Science and Pure Mathematics Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following:

At least 51 credit hours in Computer Science courses are required including the following:

- Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770.
- Excluding 4780, 15 additional credit hours from courses numbered 3000 or higher, at least 9 credit hours of which must be in courses at the 4000 level.

The following courses in Mathematics and Statistics are required:

- Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, Applied Mathematics 2130, Pure Mathematics 2320, Applied Mathematics/Pure Mathematics 3202, 3210, 3260, Pure Mathematics 3320, 3340, Statistics 2510;
- Either Mathematics 4000 or 4001;
- Excluding Pure Mathematics 4399, 15 additional credit hours in courses offered by the Department of Mathematics and Statistics numbered 3000 or higher including at least 9 credit hours from courses numbered 4000 or higher and at least 9 credit hours in Pure Mathematics courses;
- An Honours Dissertation in one of the departments, with the topic chosen in consultation with both departments.

Note: *There is an Undergraduate Advisor in each Department. These advisors should be consulted on all academic matters.*

#### 4.1.17 Computer Science and Statistics Joint Honours (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. In addition to Mathematics 1000 and 1001 the following courses numbered 2000 or higher are required:

- Mathematics 2000, 2050, 2051, Pure Mathematics 2320, 3340, Pure Mathematics/Statistics 3410, 3411, Statistics 3520, 3521, 3530, 3540, 4590;
- Twenty-four further credit hours in Statistics courses (excluding those with second digit 0) including at least 12 credit hours in courses numbered 4000 or higher, but not including Statistics 4599 and 4581;
- Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
- Six additional credit hours in Computer Science courses at the 4000 level, not including 4780.
- Either Computer Science 4780 or Statistics 4599.

#### 4.1.18 Earth Sciences and Geography Joint Honours (B.Sc. Only)

The following courses will be required. A few prerequisites are not met by this list of courses, and students are advised to obtain advice from instructors in such cases to be sure that they are prepared for course material. Both departmental Heads can advise students on a workable sequencing of courses to complete the degree in a timely manner, and students should view a student handbook that describes thematic streams within the program and offers specific guidance about course selection.

- English 1080 or equivalent, English 1110 or equivalent, Geography 1050, Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1050 and 1051, or Physics 1020 and 1021.

2. Geography 2001 or 2302, and Geography 2102, 2195, 2226, 2425 and 3226, Earth Sciences 2401 or 2502, and Earth Sciences 2030, 2031, 2702 and 2905.
3. Mathematics 2000 or Statistics 2510 or Geography 3222, Biology 1001 and 1002, or Biology 2120 or Physics 2055.
4. Either Earth Sciences 499A and 499B, or Geography 4990 and Geography 4999.
5. At least an additional 40 credit hours from Earth Sciences and Geography, with a minimum of 16 credit hours from Earth Sciences and 18 credit hours from Geography; and a minimum of 9 credit hours at the 4000-level in each discipline. Earth Sciences 2150, 2914, 2915, 2916, 2917, 4310, and 4950 cannot be used to fulfill this requirement. Geography 2105, 2290, 2405, 2460 and 2495 cannot be used to fulfill this requirement.
6. Additional credit hours selected to conform to the **Regulations for the Honours Degree of Bachelor of Science** so as to achieve a total of 120 credit hours.

Notes: 1. *The topic of the Honours dissertation must be chosen with the approval of both Departments. A faculty member of either Department may act as supervisor.*  
 2. *Any change in the program of study must have the prior approval of the Heads of both Departments concerned.*  
 3. *The number of specified courses means that English 1110 will be taken normally in the second or third year of the program.*  
 4. *Students who do not satisfy the **Regulations for the Honours Degree of Bachelor of Science - Academic Standing**, but who successfully complete all the courses, with the exception of the Honours dissertation, and who satisfy all other requirements for the Bachelor of Science, will be eligible to receive a Bachelor of Science with a joint major in Geography and Earth Science.*

#### 4.1.19 Earth Sciences and Physics Joint Honours

This program was formerly in the Earth Sciences section of the calendar as an Honours B.Sc. Degree in Geophysics. The following courses will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or equivalent), Physics 1050 and 1051 (or Physics 1020, 1021 and 1051).
2. Earth Sciences 2030, 2031, 2401, 2502, 2905, 3170, 3172, 3420, 4105, 4171, 4173, 4179, 499A/B.
3. Physics 2055, 2750 or 2056, 2820, 3220, 3230, 3500, 3820, 4820; plus 9 other credit hours in Physics courses at 3000 level or higher.
4. One of Physics 3810 or Applied Mathematics/Pure Mathematics 3202.
5. Mathematics 2000, 2050, and 3260.
6. Other courses to complete at least a minimum of 120 credit hours.

Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

#### 4.1.20 Geophysics and Physical Oceanography Joint Honours

The program requires the following courses:

1. English 1080 and 1110 (or equivalent), Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Physics 1050 and 1051 (or Physics 1020, 1021 and 1051).
2. Earth Sciences 2905, 3170, 3172, 4105, 4171, 4173, 4179 and 10 credit hours at the 2000 level or higher with at least 3 credit hours at the 3000 level.
3. Physics 2053, 2055, 2820, 3220, 3300, 3500, 3820, 4205, 4300, 4330, 4820 plus one of Physics 3600, 3150, 3400, 3550 or 3900.
4. Mathematics 2000, 2050, 2051, 3202 and 3260.
5. Either Earth Sciences 499A and 499B or Physics 490A and 490B.
6. Other courses to complete the prescribed minimum of 120 credit hours.

#### 4.1.21 Pure Mathematics and Statistics Joint Honours

See **Regulations for the Honours Degree of Bachelor of Science**. In addition to Mathematics 1000 and 1001 the following courses numbered 2000 or higher are required:

1. Mathematics 2000, 2050, 2051, 3000, 3001, 4000, Applied Mathematics 2130, Pure Mathematics 2320, Applied Mathematics/Pure Mathematics 3202, 3210, 3260, Pure Mathematics/Statistics 3410, 3411, Statistics 3520, 3521, 3530, Pure Mathematics/Statistics 4401, 4410;
2. A computing course early in the program is required. Computer Science 1510 is highly recommended;
3. either Pure Mathematics 4399 or Statistics 4599;
4. one of: Pure Mathematics 3330 or 3340;
5. Twenty-one further credit hours in Pure Mathematics and/or Statistics courses numbered 3000 or higher of which at least 12 credit hours must be from courses numbered 4000 or higher excluding Statistics 4581.

## 4.2 Joint Majors

### 4.2.1 Applied Mathematics and Computer Science Joint Major (B.Sc. Only)

The following courses are required

1. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, plus 6 further credit hours in Computer Science courses numbered 3000 or higher.
2. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, Applied Mathematics 2130, Pure Mathematics 2320, Applied Mathematics 3100, 3132, 3161, Applied Mathematics/Pure Mathematics 3202, 3260, Applied Mathematics 4160, 4190, plus one of Applied Mathematics/Pure Mathematics 3210, Applied Mathematics 4131, 4132, 4162

In addition, Statistics 2510 is highly recommended.

### 4.2.2 Applied Mathematics and Economics Joint Major (B.Sc. Only)

1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, Applied Mathematics 2130, 3100, Statistics 2510, Applied Mathematics/Pure Mathematics 3202, 3260, Applied Mathematics 4132.
2. Either Applied Mathematics 3132 and 4131 or 3161 and 4160.

3. A computing course early in the program is required. Computer Science 1510 is highly recommended.
4. Economics: 2010, 2020, 2550, 3000, 3001, 3010, 4550, 4551.
5. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

#### 4.2.3 Applied Mathematics and Physics Joint Major (B.Sc. Only)

Required course for this degree are:

1. English 1080 and English 1110 (or equivalent).
2. A computing course. Computer Science 1510 is recommended.
3. Six credit hours in science other than Mathematics or Physics (if Computer Science is chosen then Computer Science 1510 may be counted as 3 of these hours).
4. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001. Applied Mathematics/Pure Mathematics 3202, 3260, Applied Mathematics 3132.
5. At least one of Applied Mathematics 2130 or Pure Mathematics 2320.
6. Physics 1050 (or 1020), 1051, 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3750.
7. Applied Mathematics 3161 or Physics 3820.
8. At least 15 additional credit hours chosen from Applied Mathematics and Physics courses numbered 3000 or above. At least 3 hours are required from Applied Mathematics and 6 hours are required from Physics.
9. A writing course. Any one of Applied Mathematics 2130, Physics 3900, the former Applied Mathematics 4199, or Physics 490A/B is acceptable.

The last requirement does not have to be met independently of the other regulations. For example, it can be satisfied either by choosing Applied Mathematics 2130 from clause 5. above or choosing Physics 3900 as a 3000+ elective in clause 8. above.

#### 4.2.4 Computer Science and Economics Joint Major (B.Sc. Only)

##### 1. Computer Science Requirements

Forty-two credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3753, 3754, and 4770.

##### 2. Economics requirements

A total of 42 credit hours in Economics courses are required: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551 are obligatory.

The remaining 18 credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000 level.

3. **Additional Requirements:** Mathematics 1000, 1001, 2000, 2050, Pure Mathematics 2320, and Statistics 2510

#### 4.2.5 Computer Science and Geography Joint Major (B.Sc. Only)

##### 1. Computer Science Requirements

Thirty-nine credit hours in Computer Science courses are required: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4751, and 4770.

##### 2. Geography Requirements

Thirty-nine credit hours in Geography courses are required: 1050, 2001, 2102, 2195, 2302, 2425, 3202, 3222, 3250, 3260, 4202, 4250, 4261.

3. **Additional Requirements:** Mathematics 2000, 2050, and Pure Mathematics 2320.

#### 4.2.6 Computer Science and Physics Joint Major

1. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
2. Thirty-nine credit hours in Computer Science are required for the Joint Major: 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3731, 3754, 4770.
3. Physics 1050 and 1051 (or 1020, 1021 and 1051) plus at least 30 additional credit hours in Physics including 2053, 2055, 2750 (or 2056), 2820, 3220, 3400, 3500, 3550, 3750, 3900.
4.
  - a. Mathematics 1000 and 1001.
  - b. Mathematics 2000 and 2050, Pure Mathematics 2320, Statistics 2510, Applied Mathematics/Pure Mathematics 3260.
  - c. Physics 3810 or Applied Mathematics/Pure Mathematics 3202.

#### 4.2.7 Computer Science and Pure Mathematics Joint Major (B.Sc. Only)

In addition to Mathematics 1000, 1001, and Computer Science 1710, the following courses numbered 2000 or higher are required:

1. 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770.
2. Six additional credit hours in Computer Science courses numbered 3000 or higher.
3. Mathematics 2000, 2050, 2051, Pure Mathematics 2320, Applied Mathematics 2130, Mathematics 3000, Applied Mathematics/Pure Mathematics 3202, Applied Mathematics/Pure Mathematics 3260, Pure Mathematics 3320, 3340, Statistics 2510.
4. Nine additional credit hours in courses numbered 3000 or higher offered by the Department of Mathematics and Statistics.

#### 4.2.8 Computer Science and Statistics Joint Major (B.Sc. Only)

In addition to Mathematics 1000, 1001, and Computer Science 1710, the following courses numbered 2000 or higher are required:

1. 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4734, 4770.
2. Statistics 2510 and 2560.
3. Mathematics 2000, 2050, 2051, Pure Mathematics 2320, 3340, Pure Mathematics/Statistics 3410, 3411, Statistics 3520, 3521,

3540, 4590.

4. nine further credit hours in Statistics courses numbered 3000 or higher including at least a 3 credit hour course numbered 4000 or higher excluding Statistics 4581.

#### 4.2.9 Earth Sciences and Physics Joint Major

This program was formerly in the Earth Sciences section of the calendar as a General B.Sc. Degree in Geophysics. The following courses will be required:

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, Chemistry 1010 and 1011 (or equivalent), Physics 1050 and 1051 (or Physics 1020, 1021 and 1051).
  2. Earth Sciences 2030, 2031, 2401, 2502, 2905, 3170, 3172, 3420; plus a 3 credit hour course in Earth Sciences 4100 series.
  3. at least 30 credit hours in Physics courses at the 2000 level or higher, including Physics 2055, 2056 or 2750, 2820, 3220, 3500.
  4. One of Physics 3810 or Applied Mathematics/Pure Mathematics 3202.
  5. Mathematics 2000 and 2050.
  6. Other courses to complete at least a minimum requirement of 120 credit hours in courses for the General Degree.
- Any change in the program of study must have the prior approval of the Heads of the two Departments concerned.

#### 4.2.10 Economics and Pure Mathematics Joint Major (B.Sc. Only)

1. Mathematics 1000, 1001, 2000, 2050, 3000, Applied Mathematics 2130, 3100, Pure Mathematics 2320, Applied Mathematics/Pure Mathematics 3202, 3260, Pure Mathematics 3320, Statistics 2510 and one 4000 level course.
2. A computing course early in the program is required. Computer Science 1510 is highly recommended.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, and 6 credit hours from either 3550 and 3551, or 4550 and 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

#### 4.2.11 Economics and Statistics Joint Major (B.Sc. Only)

1. Mathematics 1000, 1001, 2000, 2050, 2051, Statistics 2510, 2560, Pure Mathematics/Statistics 3410, Pure Mathematics/Statistics 3411, Statistics 3520, 3540, 4590.
2. Six further credit hours in Statistics courses numbered 3000 or higher, at least 3 credit hours of which must be numbered 4000 or higher, excluding Statistics 3521 and 4581.
3. Economics: 2010, 2020, 2550, 3000, 3001, 3010, 4550, 4551.
4. Eighteen further credit hours chosen from among the various Economics courses in consultation with the Head of the Department or delegate, including at least 9 credit hours at the 4000 level.

#### 4.2.12 Economics (Co-operative) and Statistics Joint Major (B.Sc. Only)

The Joint Major in Economics (Co-operative) and Statistics Option is available to full-time Economics and Statistics majors (B. Sc.) only. The program is available under the Economics Co-operative Education Option (ECEO)

The ECEO provides an excellent mutual opportunity for students and employers. Qualified students will obtain rewarding employment experience in fields related to Economics for several months of continuous duration. Students will learn valuable practical skills in an employment situation during their course of study. Furthermore, paid employment will help to defray the cost of their education. The timing of the Work Terms and the structure of the ECEO generally are such that employers stand to gain from the acquired employable skills of economists and statisticians in training. The objectives of the Work Term component of the ECEO are embodied in the Work Term descriptions below. The descriptions serve to guide the student and the employer toward achieving these objectives.

##### 1. Admission Requirements

- a. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the Joint Co-operative program.
- b. Applicants should note that it is possible to enter Term 1 only in the Fall semester commencing in September of each academic year. Application forms are available in the Department of Economics and the Department of Mathematics and Statistics. The deadline for applications for admission to Term 1 is March 1.
- c. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with weak overall academic records are unlikely to be admitted.
- d. To be eligible for admission to Term 1 an applicant must have successfully completed a minimum of 30 credit hours with an overall average of at least 65% as follows: All applicants must have completed Economics 2010 and 2020; at least 6 credit hours in English; Mathematics 1000 and 1001; and 12 credit hours chosen from courses in the Faculties of Arts or Science.

It is recommended that students complete English 1110. Critical Reading and Writing II (Context, Substance, Style) as one of these English courses.

- e. Students may apply for admission to Advanced Standing.
- f. Transfer students from other universities will be placed in that term of the program judged to be appropriate considering equivalent credits, as determined by the Departments.

##### 2. Program of Study

- a. Promotion from each of Terms 1 through 6 requires a passing grade in all specified required courses and an overall average of at least 60% in all courses including electives. A student who fails a required course or fails to maintain an overall average of 60% will not be promoted to the next term and will be required to withdraw from the program. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the 60% average.
- b. In addition to the 30 credit hours required for admission, students are required to complete the six academic terms in the ECEO program for a total of 120 credit hours. Students must complete three Work Terms which follow Academic Terms 2, 4, and 5.
- c. Courses shall normally be taken in academic terms or "blocks" in the sequenced course load and order set out in the **Academic Course Program - Economics (Co-operative) and Statistics Joint Major (B.Sc. Only) Table**. Unspecified credits may be used to fulfill elective requirements only.

d. **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Classification of Students** notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

3. **Work Term Placement**

See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

4. **Registration and Evaluation of Performance**

See Regulations in Economics for the Major in Economics (Co-operative), in the Faculty of Arts section of the Calendar.

**Academic Course Program - Economics (Co-operative) and Statistics Joint Major (B.Sc. Only) Table**

<b>Term 1 (Fall)</b> Economics 3000 Economics 3550 Statistics 2510 Mathematics 2000 Computer Science 1700	<b>Work Term II (Spring)</b> Economics 399W
<b>Term 2 (Winter)</b> Economics 2550 Economics 3001 Economics 3010 Mathematics 2050 Statistics 2560	<b>Term 5 (Fall)</b> Statistics 3520 Statistics 4590 Six further credit hours in Economics courses Three further credit hours in Statistics courses
<b>Work Term I (Spring)</b> Economics 299W	<b>Work Term III (Winter)</b> Economics 499W
<b>Term 3 (Fall)</b> Economics 4550 Mathematics 2051 Statistics 3410 Three further credit hours in Statistics courses Three credit hours in elective courses [see Note 2]	<b>Term 6 (Spring)</b> Three further credit hours in Economics courses Three credit hours in Science courses [see Note 2] Nine credit hours in elective courses [see Note 2]
<b>Term 4 (Winter)</b> Economics 3011 Economics 4120 Economics 4551 Statistics 3411 Statistics 3540	

Notes: 1. Another 1000-level Computer Science course may be substituted for Computer Science 1700 with the Heads' approvals.

2. Elective courses should be chosen with reference to the Regulations for the General Degree of Bachelor of Science, since courses specified for admission to and completion of the program only partially satisfy these regulations. In particular note that in addition to the 78 credit hours (26 courses) in Science subjects required, at least 3 credit hours in a Science subject other than Mathematics/Statistics, Economics and Computer Science must be completed.

## 4.3 Option Programs

### 4.3.1 Physics and Chemistry Option Programs

Students who follow the five-year Physics/Chemistry Joint Honours Program of courses outlined above either as Honours students or otherwise and who satisfy all relevant course regulations except those on Academic Standing for the Honours Degree of Bachelor of Science shall receive on their University records a notation that they followed the "Physics/Chemistry" Option Programs.

Students who intend to follow a joint degree program are strongly recommended to consult the Head of the Department or delegate at their earliest opportunity to ensure proper planning of their course sequence.

## 5 Degree Regulations

Students must meet all regulations of the Faculty of Science in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

### 5.1 Admission to the Department of Subject of Major

Admission to certain major programs within the Faculty is limited and competitive.

Admission to all major programs within the Faculty is upon formal application to the department of the subject of major after completion of the admission requirements.

Unless otherwise indicated by the Departmental Admission Regulations as published in the University Calendar under departmental regulations, students upon formal application by *Change of Academic Program Form*, are normally admitted to the department of major program upon successful completion of 30 credit hours which must include:

1. 6 credit hours in English courses
2. 6 credit hours in Mathematics courses
3. 6 credit hours in courses from each of two Sciences other than Mathematics

Students seeking admission to departments with Departmental Admission Regulations as indicated above must apply for admission on the appropriate Departmental Application for Admission Form upon completion of the specified admission requirements.

## 5.2 Limited Enrolment Courses

Certain course offerings in the Faculty of Science will be identified as being Limited Enrolment Courses and will be clearly identified as such in the University Timetable. Students who have registered for a Limited Enrolment Course must confirm their registration either (1) by attending at least one of the first three hours of lecture in the course and the first meeting of any laboratory section of the course; or (2) by notifying the department in writing within the first five university working days of the semester. Students who do not confirm their registration may be dropped from the course on the recommendation of the Head of Department.

## 5.3 Regulations to Govern Supplementary Examinations in the Departments of Biochemistry, Computer Science, Mathematics and Statistics, and Physics and Physical Oceanography

- Supplementary examinations will be allowed in certain of the Biochemistry, Computer Science, and Physics and Physical Oceanography courses, and all Mathematics and Statistics courses which have written final examinations. In each course, students will be informed as to the possibility of a supplementary examination during the first week of classes. This information will be provided in writing, as part of the evaluation scheme for the course.
- Supplementary examinations will be similar in length and degree of difficulty as the original final examination.
- Students who wish to write supplementary examinations must apply in writing to the department within one week of release of grades.
- A student who has clear or conditional standing may write a supplementary examination in a course if the final grade obtained is 45-49F and if his or her term mark is at least 50%.
- In order to pass the course, the student, must pass the supplementary examination. If the student passes the supplementary examination, then a new grade will be calculated using the same weighting scheme as used in the course, but with the result of the supplementary examination replacing that of the original final examination. Any additional course requirements, including a requirement to pass the laboratory component of a course, will continue to apply.
- If the new course grade is higher than the original, it will replace the original grade on the student's transcript, subject to the condition that the final mark will not exceed the student's term mark. The student's transcript will indicate that the course result was earned as the result of a supplementary examination.
- Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they will coincide with the writing of deferred examinations. Grades for supplementary examinations will be submitted to the Office of the Registrar within one week following the commencement of classes for that semester.
- A student may write a supplementary examination for any one registration in a course only once; if the course result following the supplementary examination is a fail then the course must be repeated in order to obtain credit.

## 5.4 Regulations for the General Degree of Bachelor of Science

- For the General Degree of Bachelor of Science a candidate will be required to complete, subject to the following Regulations, 120 credit hours applicable to the degree which shall include:
  - Six credit hours in English courses
  - Six credit hours in Mathematics courses
  - Six credit hours in courses from each of two Sciences other than Mathematics
- Courses shall be chosen so that a candidate shall have completed an approved concentration of courses in one subject to be known as the candidate's Major. In selecting courses in their Major, candidates must comply with the Departmental Regulations approved by the Senate and printed in the Calendar. The Departmental Regulations shall require not fewer than 36 nor more than 45 credit hours in courses from the subject of the Major (including the courses in that subject completed at the first year level). (See also Notes 1. and 2.).
  - The subject of the candidate's major shall be that declared by the candidate on the appropriate admission form and approved by the department at the time of admission.
  - The 36 or more credit hours in courses from one subject referred to in a. above, may be chosen from the following subjects, and may include courses in that subject which were completed at first-year level: Biology (see Note 4.), Biochemistry (see Note 6.), Chemistry, Computer Science, Earth Sciences, Economics, Geography, Mathematics (except the former 1150 and 1151) and Statistics, Physics, Psychology.
  - A candidate may change the subject of the Major during any Regular Registration Period provided he or she has first applied for and received acceptance by the department to which application is being made.
  - In those Departments which offer programs leading to both a degree of Bachelor of Arts and a degree of Bachelor of Science, students are free to choose the degree program they wish to follow and may change from one to the other; however, they may not obtain both degrees in the same Major subject at this University.
- Further courses may be chosen from any of the subjects listed in Clause 2. above, or from other courses approved by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5.), provided that, of the 120 credit hours required:
  - candidate shall have completed at least 78 credit hours in courses from the subjects listed in Clause 2. above, including the Major courses and the courses required for admission; See Notes 3. and 5.
  - there shall be not fewer than five subjects in which a candidate shall have completed courses. At least four of these subjects shall be chosen from the subjects listed in Clause 2. above. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland any number of such transfer credits in the aggregate shall count as one subject area.
  - not more than 15 unspecified transfer credit hours awarded in a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.
- Before a candidate registers, the Head of the Department of his or her Major, or delegate, shall approve a candidate's program which is in accordance with the above regulations. The Head of the Department or delegate shall advise each candidate of programs suitable for his or her particular needs.
- To obtain a general degree of Bachelor of Science a candidate shall have:
  - satisfied the conditions of **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation - Application for Graduation - Degrees, Diplomas and Certificates;**

- b. obtained an average of at least 2.0 points per credit hour in the 78 credit hours in Science required for the degree;
  - c. obtained an average of at least 2.0 points per credit hour in the minimum number of credit hours in the major subject (or, in the case of joint majors, subjects) required for the major program (or, in the case of joint majors, programs).
6. Where a student satisfies the separate departmental regulations for a major in two or more subjects for which a specific joint program does not exist, such subjects shall be recognized as the major subjects for the general degree of Bachelor of Science.
  7. A candidate may complete a minor of at least 24 credit hours in courses from a subject area other than that of the Major chosen from Clause 2. c. above or from minors available in the Faculty of Arts, the Faculty of Business Administration, and the School of Music. (It should be noted that because of departmental regulations for the Major, not every candidate may be able to fit a minor into his or her 120 credit hour program).
    - a. The subject of the candidate's minor shall be that declared by the candidate on the Change of Academic Program Form which must then be signed by the Head of the Department of the Minor.
    - b. A candidate must follow the departmental regulations for the Minor as set forth in the appropriate section of the Calendar.
    - c. The Head of the Department of the Minor will advise the candidate on the selection of courses in the Minor.
    - d. Students who have taken courses appropriate to their Minor at another university are required to complete at least 6 credit hours in courses from that subject at this University. These courses must be chosen in consultation with the Head of the Department of the Minor program.
    - e. A candidate must obtain a grade point average of at least 2.0 in the credit hours prescribed for the minor program.

- Notes:
1. Departmental regulations are not intended to debar students from taking more than the required courses in the subject of their Major.
  2. Students who have taken courses in the subject of their Major at another university are required to complete at least 12 credit hours in courses from that subject at this University.
  3. The former Science 2010/2011 may be used to fulfil in part the requirement of 78 credit hours in Science.
  4. Biology 2120 may not be used for credit by Biology Majors.
  5. When Science course equivalents have been established by Department Heads for Engineering courses, credit may not be obtained for both the Engineering course and the established equivalent course offered by the Faculty of Science.
  6. In the case of Biochemistry the courses for the Biochemistry program shall include Chemistry 2400 and 2401.

## 5.5 Regulations for the Honours Degree of Bachelor of Science

A program is offered leading to the Honours Degree of Bachelor of Science. An Honours degree offers greater specialization in a given field of knowledge than a General degree, and requires higher than average academic achievement. Possession of this degree will be of great advantage to all students planning more advanced work in their chosen field. In many cases, an Honours degree is a prerequisite for admission to a graduate program.

### 1. Admission and Registration

- a. Declaration of Intent: A candidate for an Honours degree shall declare in writing his (her) intention to pursue an Honours program and to obtain an Honours degree in a specified subject or subjects. Such declaration shall be submitted to his (her) Department(s) of specialization and to the Registrar not earlier than the beginning of his (her) fifth semester, or the equivalent, at University, and not later than the final date set for the application for a degree. A candidate for an Honours degree must have completed all courses listed under **Admission to the Department of Subject of Major** before declaring his (her) intent to pursue an Honours degree, regardless of whether these courses had been completed at the time of admission to his (her) Department of specialization.

Note: An otherwise qualified student who fails to declare his (her) intention to obtain an Honours degree on or before the last day of the period outlined above shall be awarded a General degree even if he (she) fulfils all other requirements for an Honours degree. The University cannot undertake to notify him (her) that he (she) may be eligible for an Honours degree.

- b. At the beginning of each registration period the Head(s), or delegate(s), of the Department(s) in which a candidate is taking Honours, shall approve a candidate's program. The Head(s) of Department(s), or delegate(s), shall advise each candidate of programs suitable for his or her particular needs.
- c. Students who have been awarded a Bachelor of Science (General) degree may convert it to a Bachelor of Science (Honours) degree by declaring their intention and by completing the requirements for the Honours degree as outlined in these regulations.
- d. To graduate, a candidate for an Honours degree must have completed all courses listed under **Admission to the Department of Subject of Major** in addition to those courses required by individual departmental regulations.

### 2. Course Requirements

- a. i. For the Honours Degree of Bachelor of Science with a single subject major a candidate will be required to have completed 120 prescribed credit hours in courses. For the Joint Honours Degree of Bachelor of Science a candidate will be required to have completed either 120 or 135 credit hours as prescribed by the specific program. In either case, those courses must include the courses specified in Clause 1 of the Regulations for the General Degree of Bachelor of Science.
- ii. Clause 2.a. i. notwithstanding, certain Departmental regulations preclude the possibility of completing a single subject Honours degree in 120 credit hours and may require the completion of 123, 126 or 129 credit hours in courses. (See Note below). In such cases all courses required to satisfy requirements of the degree will be used to determine Academic Standing 6. b. below.

Note: The requirements for an Honours Degree of Bachelor of Science cannot be completed in 120 credit hours if any of the following three statements is true: (i) the student is a major in Chemistry, or Physics and has completed the former Mathematics 1080; (ii) the student is a major in Chemistry or Physics and has completed the former Chemistry 1800; (iii) the student is a candidate for the Honours B.Sc degree in Chemistry or Physics and has completed Physics 1021. Such students will only meet the degree requirements after completing 123, 126 or 129 credit hours in courses.

- b. Courses shall be chosen so that a candidate shall have completed:

Either, (i) at least 60 credit hours from courses in one of the following subjects, including the courses in that subject completed at the first year level: Biology, Biochemistry, Chemistry, Computer Science (See Note 2.), Earth Sciences, Economics, Geography, Mathematics and Statistics, Physics and Psychology.

- Notes:
1. For options in the Biochemistry, Dietetics and Nutrition programs the courses shall be those specified in the respective programs.
  2. For the Behavioural Neuroscience Program, the courses shall be those specified in the program.
  3. For the Environmental Physics Program, the courses shall be those specified in the program.

or, (ii) at least 84 credit hours in courses from two subjects listed in i. above, including the courses in these subjects completed at the first year level, with no fewer than 36 credit hours in either subject approved by the Committee on Undergraduate Studies of the Faculty of Science on the recommendation of the respective Heads of Departments.

or, (iii) in special circumstances, a program of at least 90 credit hours in courses from two or more subjects, including the

courses in these subjects completed at the first year level, one of which need not be taken from those listed in I. above, as recommended by the Heads of the Departments concerned and approved by the Committee on Undergraduate Studies of the Faculty of Science.

- c. Further courses may be chosen from any of the subjects listed in Clause 2. b. above, or from other courses recognized for this purpose by the Committee on Undergraduate Studies of the Faculty of Science (see Note 5 of the Bachelor of Science General Degree) provided that, of the 120 or more credit hours required:
  - i. a candidate shall have completed at least 90 credit hours in courses from the subjects listed in Clause 2. b. above, including those completed at the first-year level, and
  - ii. there shall be no fewer than four subjects in which a candidate shall have completed courses. In the case of unspecified transfer credits awarded in a subject area not taught at Memorial University of Newfoundland, any number of such transfer credits in the aggregate shall count as one subject area.
  - iii. Not more than 15 unspecified transfer credit hours in courses awarded from a subject area not taught at Memorial University of Newfoundland shall be used to satisfy the requirements of the degree.

### 3. Comprehensive Examination and Dissertation

- a. In addition to the regular examinations, a candidate in an Honours program shall pass a general comprehensive examination in his (her) Major subject or subjects. Alternatively, a candidate may be required to submit a dissertation, which at the discretion of the Head(s) of the Department(s) of specialization may be followed by an oral examination thereon.
- b. If a candidate is required to submit a dissertation, such dissertation must be submitted to the University Library before the degree is conferred. All Honours dissertations in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances which must be approved by the Committee on Undergraduate Studies. Copyright remains with the author. A signed release form must accompany an essay or a dissertation when it is submitted to the University Library.
- c. The deadline for the submission of Honours dissertations shall be no later than three weeks before the end of the final semester of the candidate's program.
- d. The Honours dissertation shall be equivalent to either a 3 credit hour course or a 6 credit hour linked course as specified in the course offerings of each Department.

### 4. Departmental Regulations

Candidates for Honours Degrees shall also comply with such additional requirements of the appropriate Department(s) as are approved by the Senate and printed in the Calendar.

### 5. Residence Requirements

- a. To qualify for an Honours Degree in Science, a candidate shall attend a recognized university or an equivalent institution for at least seven semesters as a full-time student. Honours candidates transferring credits to Memorial University of Newfoundland from other universities or equivalent institutions shall either spend a minimum of four of the seven semesters as full-time students at Memorial University of Newfoundland, and take a minimum of 24 credit hours in courses from their Honours discipline or take a minimum of 36 credit hours in courses from their Honours discipline as full-time students at Memorial University of Newfoundland (whichever is to their advantage), provided that the total number of semesters spent as full-time students at this and other recognized universities or equivalent institutions will not be less than seven.
- b. To qualify for an Honours Degree in Science and additionally a second degree, a candidate shall attend this University for at least ten semesters as a full-time student, except with the special permission of the Faculty Committee on Undergraduate Studies.

### 6. Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

- a. a grade of "B" or better, OR an average of 75% or higher (whichever is to the candidate's advantage) in the minimum number of courses in the Honours subject (or subjects) prescribed by the Department (or, in the case of joint Honours, Departments) concerned, excluding the 1000-level courses,  
AND
- b. an average of at least 2.75 points on the total number of courses required for the degree (see **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Grading** for explanation of the point system).

*Note: A student may, with the approval of the Head of the Department and the Committee on Undergraduate Studies, repeat or substitute up to three courses in order to meet the requirements of Clause 6.a. above. In counting repeats, each attempt at the same course will count as one course towards the maximum. That is, the same course, repeated three times, would place a student at the maximum and no additional repeats or substitutions would be allowed.*

### 7. Classification of Degrees

- a. If the candidate's general average is 3.25 or better per required course, and his (her) average for the courses in his (her) Honours subject (excluding 1000-level courses) is 3.50 or better, he (she) shall be awarded an Honours degree with First Class standing.
- b. If the candidate fulfils the conditions of Clause 6. but not of Clause 7 a., he (she) shall be awarded an Honours degree with Second Class standing.
- c. No classification will be given to the degree awarded a candidate who has completed (i) fewer than one half of the courses required for the degree at this University, or (ii) who has completed fewer than one half of the courses required for the degree at this University since 1959. All candidates for such degrees shall, however, fulfil the conditions of Clause 6. on the courses taken at the University since September, 1959, in order to qualify for the degree.
- d. A declared candidate for an Honours degree who fails to attain the academic standing specified in Clause 6. but fulfills the academic requirements for a General Degree shall be awarded a General Degree, the classification of which shall be determined in accordance with the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Graduation**.

## 6 Waiver of Regulations for Undergraduate Students

Where circumstances warrant, any prerequisite or prerequisites listed in Departmental Regulations may be waived by the Head of the Department. Any Department Regulations may be waived by the appropriate Committee on Undergraduate Studies upon request of the Head of the Department concerned.

## 7 Program Regulations

### 7.1 Biochemistry

The following undergraduate programs are available in the Department:

1. Biochemistry and Cell Biology/Microbiology Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Biochemistry and Physics Joint Honours
4. Biochemistry and Psychology (Behavioural Neuroscience Joint Honours)
5. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours
6. Major or Honours in Biochemistry
7. Major or Honours in Dietetics - Admission to this program is under review. For further information see **Important Note** under Professional Program in Dietetics.
8. Major or Honours in Nutrition
9. Minor in Biochemistry

Students who wish to enrol in any of these programs should plan their program well in advance so that they will have taken the appropriate prerequisites. Entry to a number of required courses is limited and will be determined by academic performance. Required courses should be taken in the year indicated by the course numbers so as to avoid timetable clashes and missing prerequisites which could prolong the time necessary to complete the program. Students are advised to consult with the Department at the earliest opportunity.

Candidates for the general and honours degrees in the programs above should refer to the Faculty of Science **Degree Regulations** for the **General** and **Honours** degrees of Bachelor of Science.

Candidates for a minor in Biochemistry should refer to the **Regulations for the General Degree of Bachelor of Science**, Clause 7.

Students who intend to pursue graduate studies should take the courses leading to the honours degree.

Biochemistry course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Biochemistry**.

Note: *Supplementary examinations will be allowed in certain Biochemistry courses which have written final examinations. Students should refer to the Faculty of Science Degree Regulations for details.*

#### 7.1.1 Admission to Programs

Students who wish to declare a Major in Biochemistry or Biochemistry (Nutrition) or who wish to apply for Honours standing in any of our programs are strongly recommended to do so by May 31 in any year. Failure to apply by the recommended date may result in your application not being processed before your registration time. In addition, students who do not declare by this date may not be considered for departmental scholarships or other awards.

Note: *For further information see regulations governing admission to Biochemistry (Dietetics).*

#### 7.1.2 Major in Biochemistry

Entry to the Biochemistry Majors program is based on academic standing.

1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
  - a. English 1080, 1110 (or equivalent)
  - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
  - c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
  - d. Physics 1050, 1051 (or Physics 1020, 1021), or Biology 1001, 1002
2. Required courses to complete the major:
  - a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108.
  - b. At least 12 credit hours in courses from Biochemistry 3200, 4002, 4101, 4103, 4104, 4200, 4201, 4230-4239.
  - c. Medicine 310A/B or 6 credit hours from Biochemistry 4240-4249, Biology 2060, 3050, 3401, 3402, 3530, 4200, 4245, 4404, Chemistry 4201.
  - d. Biology 1001 and 1002; Mathematics 1001; and Physics 1020 or 1050, and 1051 for those students who did not complete them in first year. Students may also need to complete Physics 1021 in order to fulfil this requirement.
  - e. Chemistry 1031 which is strongly advised to be taken prior to second year for those students who complete Chemistry 1010 and 1011 in first year. see Note 2. below.
  - f. Chemistry 2300 or 2301, or Physics 2053; Chemistry 2400, 2401
  - g. one of Chemistry 3100, Environmental Sciences 3210, Environmental Sciences 3211.

Notes: 1. *Students are required to complete at least 78 credit hours in Science courses for the General Degree.*

2. *Majors who take Chemistry 1010/1011 but not Chemistry 1031 as part of their first year sequence risk waiting a whole year before they can continue taking Biochemistry program courses.*

3. *For the purposes of a Biochemistry degree, Medicine 310A/B count as Biochemistry courses.*

3. Students are encouraged to choose a minor.

##### 7.1.2.1 Honours Degree in Biochemistry

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%. In addition, students must be eligible for entry to Chemistry 2400.
  - a. English 1080, 1110 (or equivalent)

- b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
  - c. Mathematics 1000, 1001 (or Mathematics 1090, 1000)
  - d. Physics 1050, 1051 (or Physics 1020, 1021) or Biology 1001, 1002
2. To be eligible for admission, students must be in Honours standing. To be considered for early admission to an Honours program in Biochemistry at the end of second year, students must have achieved at least 70% in each of Biochemistry 2100 and 2101 and Chemistry 2400, 2401.
3. Required courses:
- a. Biochemistry 2100, 2101, 3105, 3106, 3107, 3108, 4102, 499A, 499B, Medicine 310A/B.
  - b. Biochemistry 4210 or 4211.
  - c. Twelve credit hours in courses from Biochemistry 4002, 4101, 4103, 4104, 4200, 4201, 4230-4239.
  - d. At least 6 credit hours in courses from Biochemistry 3200, 3201, 4105, 4220, 4240-4249, Biology 2060, 3050, 3530, 4200, 4245, 4404, Chemistry 4201.
  - e. Biology 1001 and 1002; Mathematics 1001; and Physics 1020 or 1050, and 1051 for those students who did not complete them in first year. Students may also need to complete Physics 1021 in order to fulfil this requirement.
  - f. Chemistry 1031 which is strongly advised to be taken prior to second year for those students who complete Chemistry 1010 and 1011 in first year (see **Notes** below).
  - g. Chemistry 2300 or 2301 or Physics 2053, Chemistry 2400, 2401, one of Chemistry 3410 or 3411.
  - h. One of Chemistry 3100, Chemistry 3500, Environmental Sciences 3210, Environmental Sciences 3211.
  - i. Statistics 2550 or equivalent.

Notes: 1. *Majors who take Chemistry 1010/1011 but not Chemistry 1031 as part of their first year sequence risk waiting a whole year before they can continue taking Biochemistry program courses.*

2. *For the purposes of a Honours Degree in Biochemistry, Medicine 310A/B count as Biochemistry courses.*

4. Students are encouraged to choose a minor.

Those courses in which a grade "B" or an average of 75% or higher are required, as specified in clause 6. a. of the Regulations for the Honours Degree of Bachelor of Science, are 45 credit hours in Biochemistry courses and 15 credit hours in other courses (beyond the 1000-level) chosen from Biochemistry, Biology, or Chemistry. Biochemistry 2010, 2011, Biology 2040, 2041 and the former Chemistry 2600, the former Chemistry 2601 may not be used to meet this requirement. Medicine 310A/B counts as Biochemistry for these 60 credit hours.

### 7.1.2.2 Minor in Biochemistry

Students who take a minor in Biochemistry will complete:

1. Biochemistry 2101, 3106
2. Either Biochemistry 2100 or Biology 2250
3. Nine credit hours in Biochemistry at the third or fourth year level.
4. Either Chemistry 2400, 2401 or Chemistry 2440 and 3 additional credit hours from the Biochemistry courses listed in 3. above.

Course prerequisites stipulated in the course descriptions shall apply to a minor in Biochemistry.

Note: *For the purposes of a Biochemistry minor, Medicine 310A/B count as Biochemistry courses.*

## 7.1.3 Nutrition Program

### 7.1.3.1 Major in Nutrition

Entry to the Nutrition majors program is based on academic standing.

1. To be considered for admission to the program students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%.
  - a. English 1080, 1110 (or equivalent)
  - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
  - c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
  - d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)
2. Required courses to complete the major:
  - a. Biochemistry 2000 or 2005, 2100, 2101, 3106, 3200, 3201, 3402, 4300, 4301, Medicine 310A/B
  - b. six credit hours in courses from Biochemistry 3107, 3108, 3202, 4002, 4101, 4103, 4104, 4200, 4201, 4230-4249.
  - c. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year
  - d. Chemistry 2440 (or Chemistry 2400, 2401)
  - e. Statistics 2550 or equivalent
3. Students are encouraged to choose a minor.

Notes: 1. *Students are required to complete at least 78 credit hours in Science courses for the General Degree.*

2. *Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.*

3. *For the purposes of a Biochemistry (Nutrition) degree, Medicine 310A/B count as Biochemistry courses.*

### 7.1.3.2 Honours Degree in Nutrition

Students normally should apply for an Honours program at the completion of their third year of studies. Honours students would normally follow the Biochemistry (Nutrition) Majors program before applying to honours, and must meet its admissions requirements as follows:

1. To be considered for admission to the majors program prior to admission to honours, students must have at least 30 credit hours in courses and have successfully completed the following courses (or their equivalents) with a minimum overall average of 60%:
  - a. English 1080, 1110 (or equivalent)
  - b. Chemistry 1050, 1051 (or Chemistry 1010, 1011, or 1200, 1001)
  - c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)

- d. Biology 1001, 1002 or Physics 1020, 1021 (or equivalent)
2. To be eligible for admission to the honours program, students must be in Honours standing. To be considered for early admission to an Honours program in Nutrition at the end of second year, students must have achieved at least 70% in each of their required 2000 level Biochemistry and Chemistry courses.
3. Required courses:
  - a. Biochemistry 2000 or 2005, 2100, 2101, 3106, 3107, 3200, 3201, 3402, 4002, 4300, 4301, 4502, Medicine 310A/B.
  - b. Twelve additional credit hours chosen from Biochemistry 3105, 3108, 3202, 4101, 4103, 4104, 4105, 4200, 4201, 4210, 4211, 4220, 4230-4249, 4400, Biology 3050.
  - c. Either Biochemistry 499A/B or 4999 plus an additional 3 credit hours 4000 level Biochemistry course.
  - d. Biology 1001 and 1002; and Physics 1020 and 1021 (or equivalent), for those students who did not complete them in first year.
  - e. Chemistry 2440 (or Chemistry 2400, 2401).
  - f. Statistics 2550 or equivalent.
4. Students are encouraged to choose a minor.
5. Those courses in which the grades specified in clause 6.a. of the Regulations for the Honours Degree of Bachelor of Science are 60 credit hours chosen from Biochemistry courses and Biology 3050.

Notes: 1. Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.  
 2. For the purposes of a Biochemistry (Nutrition) Honours degree, Medicine 310A/B count as Biochemistry courses.

### 7.1.4 Professional Program in Dietetics

For professional qualification as a dietitian, students are required to complete the degree in Dietetics, followed by an approved Dietetic Internship.

Note: The Department of Biochemistry does not expect to admit students to the Dietetics program in the future. Further information on the status of the program can be obtained from the Department.

#### 7.1.4.1 Admission to Dietetics

All applications for entry to the program for the Bachelor of Science in Dietetics must be submitted to the Head of the Department of Biochemistry by April 30 in any year.

Entrance to the program in Dietetics is on the basis of competition for a fixed number of places. The Admission Committee takes into account the applicant's academic background and information on an applicant's personal qualities and achievements as given by the applicant and by referees' reports.

1. To be eligible for consideration, an applicant must have completed a minimum of 30 credit hours in courses which have been taken or accepted for credit at a recognized university or university college before entry to the Dietetics program.
2. Students applying to enter are required to have successfully completed the following courses or their equivalents:
  - a. Chemistry 1050, 1051 (or Chemistry 1010, 1011 or 1200, 1001)
  - b. English 1080, 1110 (or equivalent)
  - c. Mathematics 1090, 1000 (or Mathematics 1000 and one elective)
  - d. Physics 1020 and 1021 (or Physics 1050 and 1051).
  - e. either Biology 1001 and 1002 or Psychology 1000 and 1001
3. No application will be considered from an applicant who cannot produce evidence that the above requirements have been met or will have been met by the time of entry into the Dietetics program.
4. After admission, the program will consist of two years of study at this University and a final year at Acadia University. The number of seats available at Acadia University is limited. When a student is accepted into the Dietetics program at Memorial University of Newfoundland, the year that student is expected to attend Acadia University will be set. No guarantee of space will be available in other years.

#### 7.1.4.2 Registration and Promotion

The following regulations apply to the program courses taken at Memorial University of Newfoundland.

1. Biochemistry and Chemistry courses shall be taken in the program year indicated by the course number. Biology 1001 and 1002 must be completed by the end of the second year of the program. The remaining courses are to be scheduled so that the course load is five in each semester. Exceptions to this prescribed program, including specified course load, must have the approval of the Committee on Undergraduate Studies of the department. Students who have completed program courses in advance of admission to the program may arrange with the Committee a reduction in the required course load.
2. For promotion from each term the requirements are: the achievement of a passing grade in all courses; an overall average of at least 60% in those courses required in each academic term; and completion of the appropriate course load as outlined above.
3. Students who fail to achieve the standards outlined in the paragraph above will be required to withdraw from the program. They may be considered for readmission at which time they will normally be required to repeat the courses in which they failed, and/or to repeat courses which will raise the average to 60%, unless, in the opinion of the Head, a more meaningful course of study would be appropriate.
4. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in the first paragraph of the Admission section of this program.

#### 7.1.4.3 Major in Dietetics

1. **Required courses at Memorial University of Newfoundland:**
  - a. Biochemistry 2000, 2010, 2011, 2100, 2101, 3106, 3200, 3201, 3202, Medicine 310A/B.
  - b. Either Biochemistry 3054 or Biology 3050.
  - c. Biology 1001, 1002 (if not taken in first year).
  - d. Business 1000 and 2000.
  - e. Chemistry 2440 (or Chemistry 2400, 2401)
  - f. Statistics 2550 or equivalent.

- g. Six credit hours in social science courses if Psychology 1000 and 1001 were not taken in first year.
- h. Three credit hours in Computer Science.

Notes: 1. Students who choose to complete Chemistry 2400/2401 are advised to take the appropriate prerequisites for those courses.  
2. For the purposes of a Biochemistry (Dietetics) degree, Medicine 310A/B count as Biochemistry courses.

The above courses must be completed before the year at Acadia University for both the General and the Honours Programs.

## 2. Required courses at Acadia University:

The equivalent of at least 18 senior level credit hours in nutrition and/or foods must be successfully completed at Acadia University. Courses to make up these credit hours are to be selected in consultation with faculty advisors at Memorial University of Newfoundland and Acadia University.

Note: 120 credit hours in courses must be obtained for the General Degree of Bachelor of Science (refer to Regulations for the General Degree of Bachelor of Science, Clause 1).

### 7.1.4.4 Honours Degree in Dietetics

Students normally should apply for an Honours program at the completion of their third year of studies. To be eligible for admission, students must be in Honours standing.

In addition to the courses required for the general degree, the program shall include: Either Biochemistry 499A/B or Biochemistry 4999 plus 3 additional credit hours in Nutrition at Memorial University of Newfoundland or Acadia University at the 4000 level.

The 60 credit hours in courses from clause 6. a. of the Regulations for the Honours degree of Bachelor of Science shall be chosen from the required Biochemistry courses in the program outlined above, the Nutrition and Foods courses at Acadia University, and Biology 3050.

## 7.2 Biology

The following undergraduate programs are available in the Department:

1. Biochemistry and Cell Biology Joint Honours
2. Biology and Earth Sciences (Geology) Joint Honours
3. Biology and Psychology Joint Honours
4. Biology and Psychology (Behavioural Neuroscience) Joint Honours
5. Biology and Statistics Joint Honours
6. Major or Honours in Biology
7. Minor in Biology

Details of joint programs are given after the **Regulations for the Honours Degree of Bachelor of Science**.

Biology course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Biology**.

### 7.2.1 Entrance Requirements

Entry to the Biology Majors Program is competitive and based on academic standing.

To be considered for admission to the program students must have completed Biology 1001/1002 with an average of at least 65%. In addition, applicants will normally have completed the following courses (or their equivalents) and must have a minimum overall average of 60% in these courses.

1. English 1080, 1110 or equivalent
2. Mathematics 1090 and Mathematics 1000 (or Mathematics 1000 only)
3. Chemistry 1010/1011 or Chemistry 1050/1051 or Physics 1020/1021 or Physics 1050/1051
4. If Mathematics 1000 taken, any one other first year course.

Chemistry 1010/1011 (or 1050/1051) should be taken in the first year, as it is a prerequisite for other required courses in the Biology program, and delaying chemistry until second year may make it difficult to complete the program in the normal eight semesters.

### 7.2.2 Minor in Biology

A minor in Biology will consist of 24 credit hours in Biology courses: 1001 and 1002 (or equivalent) plus any 18 credit hours chosen from the list of Biology courses except Biology 2040, 2041, 2120, and 3053. The choice of courses must be made in consultation with the Head of Biology or delegate and it is recommended (but not required) that students take at least two Biology courses at the 3000 level or above

### 7.2.3 General Degree - Major in Biology

Each Biology Major is assigned a faculty advisor who should be consulted on academic problems, including course selection. All students majoring in Biology are required to complete a minimum of 45 credit hours in courses from the Biology Department offering. Those 45 credit hours must include Biology 1001/1002 or their equivalents, the 15 credit hours in core courses listed below, and 24 credit hours in biology elective at the 2000, 3000 or 4000 level except Biology 2040, 2041, 2120, and 3053.

Biology Core (15 credit hours): Biology 2060, 2250, 2600, 2900, plus one of Biology 3401, 3402, 4245 and 4404.

All majors must also successfully complete the following courses or their equivalents:

1. English 1080 and 1110 (or equivalent)
2. Physics 1020/1021 (or 1050/1051)
3. Mathematics 1000
4. Chemistry 1010/1011 (or 1050/1051), 2440
5. Statistics 2550
6. Biochemistry 2101 and 3106
7. Extra Science courses as necessary to fulfil the requirement for 78 credit hours in Science as stipulated in Clause 3. a. of the **Regulations for the General Degree of Bachelor of Science**.

It is recommended, but not required, that a Computer Science course be included and the Biology Department strongly recommends

Computer Science 2650.

Note: To minimize timetabling problems, students on the St. John's campus are advised to take Biology 2250 and 2600 in their third semester (Fall), and 2060 and 2900 in their fourth semester (Winter).

## 7.2.4 Honours Degrees

The attention of students wishing to take Honours is called to those sections of the Calendar dealing with Regulations for the Degree of Bachelor of Science (Honours).

Sixty-nine credit hours in courses, including the 6 first year credit hours and the 15 required core credit hours outlined in the regulations for the General Degree, and the Honours Dissertation (Biology 499A/499B), shall be taken from the Department of Biology offering. Students may elect to complete an Honours Program in Biology or in one of the joint Honours Programs listed under the heading "Programs in Biology". Programs of students taking Honours shall be drawn up in consultation with the student's supervisor, and must be approved by the Head of the Department (or his/her delegate) in accordance with Regulation 1. b. of the **Regulations for the Honours Degree of Bachelor of Science**.

Note: Some Graduate Courses may be taken in the final year of the Honours Program with the permission of the Head of the Department and the course instructor.

A dissertation (6 credit hours) is to be presented on some original piece of work undertaken by the candidate, under the guidance of a faculty member of the department, as appointed by the Head of Department. For students electing to take one of the Joint Honours Programs, the dissertation shall be on a topic representative of the selected program. The Department of Biology considers the dissertation to be an important part of the Honours Program.

The dissertation will be based on a 6 credit hours course (Biology 499A/499B). It will involve directed reading relevant to the dissertation topic, preparation of a dissertation outline, supervised research, data synthesis and interpretation, and preparation and defence of the dissertation.

Two typed copies of the dissertation, complete with figures and tables, are to be submitted not less than two weeks before the end of lectures in the semester in which the candidate is registered for Biology 499B. These copies must be submitted to the Head of Department, and must have met the prior approval of the candidate's Honours supervisor.

Before the last day for examinations in the semester, the candidate will be examined orally on the contents of the dissertation. The examining committee shall consist of the Head of the Department, or delegate, the candidate's supervisor, and an examiner appointed by the Head of the Department in consultation with the candidate's supervisor.

## 7.2.5 Honours in Biology

Students seeking the Honours Degree in Biology must satisfactorily complete Biology 1001/1002 (or equivalent) and the 15 credit hours of core Biology courses. The remaining 48 credit hours in Biology courses, which must include the dissertation (499A/499B), may be taken as electives from the Biology offering (except Biology 2040, 2041, 2120, and 3053), on the advice of the supervisor. Additional courses from other departments required for the Honours Degree in Biology include those given for the Major in Biology Program as outlined above.

An Honours degree in Biology may comprise a broadly based selection of courses according to the students interests, or it may be more narrowly focussed. An Honours student may focus on any area of Biology where an appropriate supervisor can be found. All Honours students should choose courses in consultation with their supervisors, but it is particularly important that students wishing to focus within the Honours degree should discuss course selection with an Honours supervisor within their area of interest.

As a guide to course selection a number of foci are set out below with some appropriate courses. Note that students are not limited to these areas but may focus their programs wherever they wish provided that (i) an appropriate supervisor is available, (ii) consultation with that supervisor takes place, and (iii) the resources of the Department, as determined by the Head of Department, are appropriate and adequate. Area of focus will not be indicated on the students' transcript.

### Focus in Marine Biology

Students wishing to focus on marine biology in their Biology Honours program must fulfil all the requirements for an Honours degree in Biology as set out above. The following courses are recommended for this area of interest: Biology 2010, 2122, 2210, 3050, 3295, 3620, 3709, 3710, 3711, 3712, 4012, 4360, 4505, 4510, 4600, 4601, 4605, 4701, 4750, 4810. (Note: this list is only advisory; these are not required courses).

### Focus in Cell/Molecular Biology

Students wishing to focus on cell biology/molecular biology in their Biology Honours program must fulfil all the requirements for an Honours degree in Biology as set out above. The following courses are recommended for this area of interest: Biology 3050, either 3401 or 3402, 3500, 3530, 3540, 3620, 4000, 4040, 4241, 4245, 4402, 4404, 4605. (Note: this list is only advisory; these are not required courses).

### Focus in Ecology - Evolution

Students wishing to focus on ecology and/or evolution in their Biology Honours program must fulfil all the requirements for an Honours degree in Biology as set out above. The following courses are recommended for this area of interest: Biology 3041, 3050, 3295, 3610, 3620, 3709, 3710, 3711, 3712, 3714, 4040, 4150, 4306, 4360, the former 4504, 4605; either 4810 or 4820. (Note: this list is only advisory; these are not required courses).

## 7.3 Chemistry

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Chemistry Joint Honours
2. Biochemistry and Chemistry Joint Honours
3. Chemistry and Earth Sciences Joint Honours
4. Chemistry and Physics Joint Honours
5. Major or Honours in Chemistry
6. Minor in Chemistry

These programs are accredited by the Canadian Society for Chemistry.

Details of joint programs are given after the **Regulations for the Honours Degree of Bachelor of Science**.

Chemistry course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Chemistry**.

### 7.3.1 Undergraduate Handbook

Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Chemistry Undergraduate Handbook which is available on the web at [www.chem.mun.ca](http://www.chem.mun.ca).

### 7.3.2 Faculty Advisors

Each student majoring in Chemistry will be assigned a Faculty Advisor who should be consulted on all academic matters. Individual programs must be drawn up in consultation with the advisor.

Note: *Students who have obtained a grade of 3 or better on the Advanced Placement courses in Chemistry will normally be eligible for direct entry into Chemistry 1031 or second year courses. Such students must consult the department before registration.*

### 7.3.3 Minor in Chemistry

Candidates who take a minor in Chemistry will complete Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, Chemistry 2400, 2401, 2210, 2301 (or 2300) and 2302 (or the former Chemistry 3301) as well as at least 3 credit hours in courses chosen from Chemistry 3100, 3211, 3303 (or the former Chemistry 3300), 3410, 3411 and 3500.

### 7.3.4 General Degree - Major in Chemistry

The courses required for a Major in Chemistry are:

1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, Chemistry 2301 (or 2300), Chemistry 2302 (or the former Chemistry 3301), Chemistry 2210, 2400, 2401, 3100, 3211, 3303 (or the former Chemistry 3300), Chemistry 3410, 3411, 3500 and 4110.
2. Physics 1050 (or 1020 and 1021) and 1051.
3. Mathematics 1000, 1001, 2000, 2050 and Applied Mathematics 3260.
4. Biochemistry 2101

Recommended courses: Mathematics 2051, Physics 2820 and/or 2750, and 6 credit hours in one of the following languages: French, German, or Russian.

Students considering declaring Chemistry as their Major are encouraged to contact either the Department Head or the Deputy Head (Undergraduate Studies).

### 7.3.5 Honours Degree in Chemistry

Students wishing to take Honours should consult those sections of the Calendar dealing with **Regulations for the Honours Degree of Bachelor of Science**. The Honours program in Chemistry consists of at least 63 credit hours in Chemistry courses. It is recommended that candidates also take groups of 18 or more credit hours in each of two other science subjects, normally Biochemistry, Biology, Earth Sciences, Physics, or Mathematics.

#### Required Courses

1. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or equivalent, 2301 (or 2300), 2302 (or the former Chemistry 3301), Chemistry 2210, 2400, 2401, 3100, 3211, 3303 (or the former Chemistry 3300), Chemistry 3410, 3411, 3500, 4110, 490A/B and 15 credit hours selected from the remaining 4000-level courses.
2. Physics 1050 (or 1020 and 1021) and 1051.
3. Mathematics 1000, 1001, 2000, 2050 and Applied Mathematics 3260.
4. Biochemistry 2101

Those courses in which a grade of B or an average of 75% or higher are required, as specified in **Regulations for the Honours Degree of Bachelor of Science, Academic Standing**, clause 3.5.6.a., are the courses beyond first year used to satisfy clause 1. above, and Biochemistry 2101.

Recommended courses: Biochemistry 2100, Mathematics 2051, Physics 2820 and/or 2750.

A thesis based on a selected research topic carried out under the supervision of a member of the department is to be submitted in the final year.

Chemistry 490A/B will normally require the equivalent of nine hours per week for two semesters. Registration in Chemistry 490A/B is restricted to those students who have honours standing. The Honours dissertation will be assessed by a committee comprising the supervisor and two other faculty members.

With approval of the Heads of the Chemistry and Biochemistry Departments prior to registration, a number of courses in Biochemistry may be substituted for a like number of Chemistry courses.

Six credit hours in one language are recommended: French, German or Russian should be selected in consultation with the Department Head.

Prospective Honours students in Chemistry in their first year should take

1. Six credit hours in English.
2. Chemistry 1050 and 1051 (or 1010, 1011 and 1031) or their equivalents.
3. Physics 1050 and 1051 or 1020 and 1021.
4. Mathematics 1000 and 1001
5. Six credit hours in other courses.

Given appropriate circumstances the Honours Chemistry program may be completed in four years. Students should consult the Undergraduate Student Handbook for timetabling details.

Note: *Students completing first year requirements for any of Chemistry, Mathematics or Physics via the three course options (i.e. Chemistry 1010, 1011, 1031 (or the former 1800, 1200, 1001), Mathematics 1090, 1000, 1001, Physics 1020, 1021, 1051) instead of the two course options (Chemistry 1050, 1051, Mathematics 1000, 1001, Physics 1050, 1051) will require the corresponding number of extra credits to obtain an Honours degree.*

Arrangements for subsequent years will depend on the other science subjects being studied and should be made in consultation with the Head of the Department.

Note: *Certain advanced courses may only be offered in alternate years. Candidates therefore should consult the Head of the Department before registration.*

Certain of the Graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the

Department.

Note: *Details of Joint Honours programs with Biochemistry, Earth Sciences, Mathematics and Physics are outlined under **Joint Programs**.*

### 7.3.6 Course Restrictions

Credit will be given for no more than one of the former Chemistry 1000, Chemistry 1010, 1050, 1200, the former 150A/B, no more than one of Chemistry 1001, 1031, 1051, the former 150A/B, and no more than one of Chemistry 1001, 1011, 1051, the former 150A/B. Credit will only be given for one of the following pairs of courses, Chemistry 2301 and Chemistry 2300 (offered at SWGC), Chemistry 2302 and the former Chemistry 3301, and Chemistry 3303 and the former Chemistry 3300.

## 7.4 Computer Science

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
2. Computer Internship Option (CIIO) (B.Sc. and B.Sc. Honours only)
3. Computer Science Honours (B.A., B.Sc.)
4. Computer Science and Economics Joint Major (B.Sc. Only)
5. Computer Science and Geography Joint Honours (B.Sc. only)
6. Computer Science and Geography Joint Major (B.Sc. only)
7. Computer Science and Physics Joint Honours
8. Computer Science and Physics Joint Major
9. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
10. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
11. Computer Science and Statistics Joint Honours
12. Computer Science and Statistics Joint Major (B.Sc. only)
13. Computer Science (Software Engineering) Honours (B.Sc. only)
14. Major in Computer Science (B.A., B.Sc.)
15. Minor in Computer Science (B.A., B.Sc.)

Details of our joint program offerings in the Faculties of Arts, Science, and Business Administration may be found under the heading **Joint Programs** following the heading **Regulations for the Honours Degree of Bachelor of Science**.

Computer Science course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Computer Science**.

### 7.4.1 Major in Computer Science

1. Forty-five credit hours in Computer Science courses are required for a major in Computer Science:
  - a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, and 4770.
  - b. At least 6 additional credit hours at the 4000 level in Computer Science courses.
  - c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.
2. Additional courses required of the Majors are: Mathematics 2000, 2050, Statistics 2510, and Pure Mathematics 2320.

Note: *Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.*

### 7.4.2 Honours in Computer Science

1. See **Regulations for the Honours Degree of Bachelor of Arts** or **Regulations for the Honours Degree of Bachelor of Science** as appropriate).
2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science, including:
  - a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3719, 3724, 3725, 3754, 4770, and 4780.
  - b. Eighteen additional credit hours in Computer Science at the 4000 level.
  - c. Six additional credit hours in Computer Science courses at the 3000 level or beyond.
3. Additional courses required are: Mathematics 2000, 2050, Statistics 2510 and Pure Mathematics 2320.

Note: *Students are encouraged to take Business 2000, Mathematics 3000, and Statistics 2560.*

### 7.4.3 Honours in Computer Science (Software Engineering) (B.Sc. Only)

Completion of the Honours in Computer Science (Software Engineering) Program does not qualify persons to hold the designation "Professional Engineer" as defined by various Provincial Acts governing the Engineering Profession.

1. See **Regulations for the Honours Degree of Bachelor of Science**.
2. Sixty-three credit hours in Computer Science courses are required for the Honours Degree in Computer Science (Software Engineering), including:
  - a. Computer Science 1710, 2710, 2711, 2742, 2760, 3715, 3716, 3718, 3719, 3724, 3725, 3754, 4719, 4759, 4770, and 4780.
  - b. Twelve additional credit hours in Computer Science courses at the 4000 level.
  - c. Three additional credit hours in Computer Science courses at the 3000 level or beyond.
3. Additional courses required are: Mathematics 2000, 2050, Statistics 2510, and Pure Mathematics 2320.

Note: *The Honours project (4780) must be in the area of Software Engineering.*

### 7.4.4 Computer Industry Internship Option (CIIO):

The Computer Industry Internship Option (CIIO) provides an opportunity for qualified students to obtain rewarding placements that help them develop practical skills in a real work setting before graduation. The CIIO is available to Computer Science Majors (B.Sc. and B.Sc. Honours only) who will typically apply between their third and fourth year of studies.

**Admission Requirements:**

In order to be considered for admission to the CIIO, an applicant must:

1. be a declared Computer Science Major;
2. have successfully completed Computer Science 1710, Computer Science 2710, Computer Science 2711, Computer Science 2742, Computer Science 2760, Computer Science 3716, and any two other core 3000-level computer science courses; and
3. have at least one computer science course left to complete after the internship.

In addition to meeting the above applicants are also subject to academic performance.

**Internship Duration:**

Subject to the availability of job openings, a student may choose either an 8, 12 or 16 consecutive month internship period.

**Internship Guidelines:**

1. Internship employment is normally organized by the Co-op Education Co-ordinator (hereafter referred to as the Co-ordinator); however, students who have accepted to the CIIO may also obtain their own internship placements. All placements are subject to the approval of the Co-ordinator and of the Head of the Department of Computer Science.
2. Students who have applied to the internship program give permission to the Co-ordinator to supply prospective employers with copies of their resume and transcript.
3. After being placed with an employer, students are not permitted to drop their internship without prior approval from the Co-ordinator and the Head of the Department of Computer Science. Students who drop an internship without permission, who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the placements, will normally be awarded a fail grade for the internship period and may not be permitted to reapply.

Note: *Students should also refer to the UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate).*

**Expectation of Work:**

Within a month of starting the internship, students are required to submit a list of their work term objectives. They are also required to submit a progress report due the last day of classes of each semester in which they are working. The work term objectives and progress reports are to be submitted to the Co-ordinator.

At the end of the internship period, students are required to submit a final report which will include a description of their internship projects and activities as well as their original objectives and accomplishments. The final report is to be submitted to the Co-ordinator by the last day of classes of the semester in question. A completed Employer Evaluation Form should be submitted to the Co-ordinator at the end of the internship period.

**Registration, Assessment of Performance, and Assignment of Grades:**

Students must register for the course Computer Science 3700 every semester during their internship.

Computer Science 3700 is a non-credit course open only to students who have been accepted into the Internship Program.

During the internship, the employer and intern will complete student performance evaluations every four months and will submit them to the Co-ordinator. The final assessment of total work performed is the responsibility of the Co-ordinator, and will be based upon both input from the employer and the intern's final report.

At the end of the internship, each intern will be assigned one of the following grades after the final assessment of their performance:

1. Pass with Distinction (PWD): Indicates excellent performance in both the work report and work performance.
2. Pass (PAS): Indicates that performance meets expectations in both the work report and the work performance.
3. Fail (FAL): Indicates failing performance in the work report or the work performance.

Also, the following will be noted in the transcript of the intern:

1. Requirements for the Computer Industry Internship Option have been completed. Internship Duration: - months.
2. A grade of NC (No Credit) for Computer Science 3700 will be awarded in all semesters of the Internship Option prior to the final Semester.

**CIIO and Honours Program:**

In case a student is enrolled in both the Honours program and the CIIO, the requirements of both must be met. Upon approval from the honours project supervisor, within the Department, the employer and the Head of the Department of Computer Science, an internship project may be submitted as a component of an honours project. These arrangements must be made within the first semester of the Internship placement.

**7.4.5 Minor in Computer Science**

1. For a Minor in Computer Science, a student must complete at least 24 credit hours in Computer Science courses, including: Computer Science 1710, 2710, 2711, 2742, 2760.
2. The remaining 9 credit hours in Computer Science courses must be at the 3000 level or above.

**7.4.6 Course Numbering Scheme**

There are five areas of Computer Science offered in the 3000- and 4000-level courses. The meaning of the third digit of a course number is as follows:

- 1- Programming Languages
- 2- Computer Systems
- 3- Numerical Computations
- 4- Theoretical Aspects
- 5,6- Applications (e.g. Artificial Intelligence, Computer Graphics, Data Base, Robotics, Computational Geometry, Image Processing, Computer Networking, Computer Aided Design)
- 7 - Project Course
- 8- Honours Project
- 9- Directed Readings

### 7.4.7 Supplementary Examinations

Supplementary examinations will be allowed in certain Computer Science courses which have written final examinations. Students should refer to the Faculty of Science degree regulations for details.

### 7.4.8 Faculty Advisors

The Department has an Undergraduate Advisor for Computer Science majors to consult with on academic matters.

### 7.4.9 Undergraduate Handbook

Additional information about the undergraduate Computer Science programs and courses can be found in the Computer Science Undergraduate Handbook available from the General Office, Department of Computer Science or from [www.mun.ca/computerscience/](http://www.mun.ca/computerscience/).

## 7.5 Earth Sciences

The following undergraduate programs are available:

#### 120 credit hour programs

1. Earth Sciences and Geography Joint Honours
2. Earth Sciences and Physics Joint Honours
3. Earth Sciences and Physics Joint Major
4. General or Honours degrees in Earth Sciences
5. Geophysics and Physical Oceanography Joint Honours

#### 135 credit hour programs

1. Biology and Earth Sciences Joint Honours
2. Chemistry and Earth Sciences Joint Honours

#### 24 credit hour program

1. Minor in Earth Sciences

Although Honours programs can be completed in 120 credit hours, students who do not select the prescribed common block of required courses will normally need more than 120 credit hours to satisfy degree requirements.

Details of joint programs are given after the **Regulations for the Honours Degree of Bachelor of Science**.

Earth Sciences course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Earth Sciences**.

### 7.5.1 Undergraduate Handbook

Additional information about the undergraduate program, individual courses and suggested timetables can be found in the Department of Earth Sciences Undergraduate Handbook which is available on the web at [www.mun.ca/earthsciences](http://www.mun.ca/earthsciences).

### 7.5.2 Entrance Requirements

In order to be formally admitted to major programs in Earth Sciences, students must have successfully completed 3 first-year credit hours in each of the following departments: English, Mathematics, Earth Sciences, Chemistry and Physics; these courses must be selected from the list of required courses for degree programs in Earth Sciences. Students are encouraged to declare their major in their first year of study at the university.

Most of the 2000 level Earth Sciences courses that are required for major and minor programs in Earth Sciences have Physics and Chemistry prerequisites, and students are advised to complete these prerequisites in their first year of study.

Students will not normally be permitted entry to 3000 level (or above) Earth Sciences courses without having completed all 1000-level courses listed in the **Common Block of Required Courses** specified in Clause 1. in the Major Programs in Earth Sciences.

### 7.5.3 Minor in Earth Sciences

A Minor in Earth Sciences will consist of the following:

1. Earth Sciences 1000, 1002, 2030, 2031, 2401 or 2702.
2. Nine credit hours chosen from Earth Sciences courses at the 2000 level or higher with at least 3 credit hours from courses at the 3000 level or higher. Credit hours from Earth Sciences 2150, 2311, 2914, 2915, 2916, 2917, 4310 and 4950 cannot be used to fulfil this requirement.

Several of the courses at 3000 level or higher have Earth Sciences 2502 and 2905 as co- or prerequisites.

### 7.5.4 Major Programs in Earth Sciences

Programs in Earth Sciences consist of a common block of required courses (below), and additional courses that depend on the degree being sought.

#### Common Block of Required Courses:

All majors in Earth Sciences must complete those courses specified in Clauses 1. through 4. Students should examine prerequisites of 3000 level courses in order to decide which course to select under Clauses 3. and 4.

1. English 1080 and 1110 (or equivalent), Mathematics 1000 and 1001, Earth Sciences 1000 and 1002, one of Chemistry 1010 or 1050 (or equivalent) and one of Chemistry 1011 or 1051 (or equivalent), Physics 1050 and 1051 or Physics 1020 and 1021. Students are student advised to consult the Department of Physics Courses Descriptions section for credit restrictions.

Students who intend or are required to complete higher level Physics courses must complete Physics 1051 as well, since it is a prerequisite for higher level Physics courses. Students should review the Department of Physics Calendar entry for these courses. Students will receive credit for only two first year Physics courses if they take Physics 1020, 1021 and 1051.

2. Earth Sciences 2030, 2031, 2401, 2502, 2702, 2905, 3420.
3. Mathematics 2000 or Statistics 2510.
4. Either Biology 2120 (or Biology 1001 and 1002); or both Physics 2055 and Physics 2820.

Students must ensure that the prerequisites for Earth Sciences courses are fulfilled. Great difficulties in timetabling may be encountered if the required first-year courses are not completed before the beginning of second year.

### 7.5.5 Honours B.Sc. Degree in Earth Sciences

Geoscientific careers vary widely in required background. The Honours B.Sc. program is designed with considerable choice in order that students may personalize their programs based on career goals. Note that the flexibility afforded by this program is not without limits. Some courses have prerequisites, and it is ultimately the student's responsibility to ensure that these prerequisites are satisfied. Students should consult faculty members and the departmental Student Handbook for guidance in selecting courses appropriate to particular career paths.

In addition to the **Common Block of Required Courses** listed under **Major Programs in Earth Sciences**, the following requirements must be completed to qualify for the Honours B.Sc. degree in Earth Sciences:

1. Earth Sciences 499A and 499B.
2. At least 28 additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 12 credit hours from courses at the 4000 level. Credit hours from Earth Sciences 2150, 2914, 2915, 2916, 2917, 4310 and 4950 cannot be used to fulfill this requirement.
3. Six credit hours from the Faculty of Science courses numbered 2000 or higher. Credit hours from Earth Sciences courses, Biology 3811 and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
4. Additional credit hours selected to conform with regulations for the Honours Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.

### 7.5.6 General B.Sc. Degree in Earth Sciences

In addition to the **Common Block of Required Courses** listed under **Major Programs in Earth Sciences**, the following requirements must be completed to qualify for the General B.Sc. degree in Earth Sciences:

1. Eighteen additional credit hours from Earth Sciences courses at 3000 and/or 4000 levels with a minimum of 9 credit hours from courses at 4000 level. Credit hours from Earth Sciences 2150, 2914, 2915, 2916, 2917, 4310, 4950 and 499A/B cannot be used to fulfill this requirement.
2. Six credit hours from Science Faculty courses numbered 2000 or higher. Credit hours from Earth Sciences courses, Biology 3811 and the former Physics 2050 are excluded. However, Physics 2820 is permitted.
3. Additional credit hours selected to conform with regulations for the General Degree of Bachelor Science so as to achieve a total of 120 credit hours. Students are encouraged to complete a minor in another department.

Students are advised that this is the minimum requirement for the General B.Sc. in Earth Sciences. Many provinces, including Newfoundland and Labrador, have legislation requiring registration of professional geoscientists. A basic requirement for registration is, in most cases, the course equivalent of an Honours B.Sc. degree. Students intending to make a career in Earth Sciences should consider taking the Honours Degree program of courses, regardless of whether honours standing is maintained.

### 7.5.7 Credit Restrictions for Present Earth Sciences (EASC) Courses with Former Courses Table

Present	Former Equivalents	Present	Former Equivalents
EASC 1000	EASC 1010, Geology 1000, Geology 1010	EASC 3611	EASC 4611
EASC 1001	EASC 1011, Geology 1001, Geology 1011	EASC 3705	EASC 4700, Geology 3070
EASC 2030	EASC 203A, Geology 203A	EASC 3811	EASC 3801, EASC 2801, Geology 2801
EASC 2031	EASC 203B, Geology 203B	EASC 4053	Geology 4053
EASC 2150	Physics 2150	EASC 4054	EASC 4052, Geology 4052
EASC 2401	EASC 3400, EASC 3120, Geology 3120	EASC 4171	Physics 4171
EASC 2502	EASC 2501, EASC 3200, Geology 3200	EASC 4179	EASC 4970, Physics 4970
EASC 2702	EASC 3701, EASC 3070, Geology 3070	EASC 4211	Geology 4211
EASC 2905	EASC 2310, EASC 2300, EASC 2900, Geology 2900	EASC 4302	EASC 4501, Geology 4501
EASC 2914	EASC 2414, Geology 2414	EASC 4310	Geology 4310
EASC 2915	EASC 2415, Geology 2415	EASC 4400	EASC 4120, Geology 4120
EASC 3054	EASC 2503 and EASC 3053	EASC 4420	EASC 400A, EASC 4320, EASC 4901, Geology 400A
EASC 3055	EASC 2503 and EASC 3053	EASC 4502	EASC 4201, Geology 4201
EASC 3170	Physics 3170	EASC 4601	Geology 4601
EASC 3172	EASC 3171, Physics 3171	EASC 4800	EASC 4110, Geology 4110
EASC 3210	Geology 3210	EASC 499A/B	EASC 4991, Geology 4991
EASC 3420	EASC 2400, EASC 4901, EASC 2161, EASC 2070, Physics 2070		

- Notes: 1. Students wishing to pursue study within the programs offered by Earth Sciences are strongly advised to keep in close contact with the Department to discuss course programs before registration in order to maintain proper sequencing.  
2. Students wishing to take some Earth Sciences courses without intending to major in Earth Sciences should consult with the Head of Department

(or delegate) to determine the courses most suitable to their needs and capabilities. Earth Sciences 2914, 2915, 2916, 2917 and 2150 are especially suitable for such students and have no Earth Sciences prerequisites.

3. Most courses comprise six hours of instruction per week, usually three hours of lectures or seminars and a three-hour laboratory period; however, at an advanced level other methods of instruction may be adopted.
4. The field courses 2905, 3705, 3905 and 4905 require payment of a participation fee to cover costs for logistics and equipment. Registration for these courses will be by application only and may be competitive.
5. The prerequisites for courses 4302, 4902 and 4903 refer to core courses in the Faculty of Science. For the purposes of these prerequisite statements, core courses are defined as those courses that are specified by each department as mandatory to fulfil the course requirements for their General or Honours programs.
6. Certain of the 4000 level courses may not be offered every year.
7. At most 6 credit hours in courses at the 1000-level can be used towards the course requirements in Earth Sciences for the Major, Minor, Joint Major, Honours or Joint Honours.

## 7.6 Economics

The following programs are available in the Department of Economics:

1. Honours in Economics (B.A. or B.Sc.)
2. Honours in Economics (Co-operative), (B.A. or B.Sc.)
3. Joint Programs (B.Sc. Only)
4. Joint Program (Co-operative) (B.Sc. Only)
5. Major in Economics (B.A. or B.Sc.)
6. Major in Economics (Co-operative) (B.A. or B.Sc.)
7. Minor in Economics

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

## 7.7 Geography

The following undergraduate programs are available in the Department of Geography:

1. Diploma in Geographic Information Sciences
2. Focus Area in Geography
3. Honours in Geography (B.A., B.Sc)
4. Joint Programs
5. Major in Geography (B.A., B.Sc)
6. Minor in Geography (B.A., B.Sc)

For Departmental Regulations and Course Descriptions, see Faculty of Arts section of the Calendar.

## 7.8 Mathematics and Statistics

From the point of view of degree regulations, Applied Mathematics, Pure Mathematics, and Statistics are considered to be one subject area.

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Chemistry Joint Honours (B.Sc. only)
2. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
3. Applied Mathematics and Economics Joint Major (B.Sc. only)
4. Applied Mathematics and Physics Joint Honours (B.Sc. only)
5. Applied Mathematics and Physics Joint Major (B.Sc. only)
6. Biology and Statistics Joint Honours (B.Sc. only)
7. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
8. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
9. Computer Science and Statistics Joint Honours (B.Sc. only)
10. Computer Science and Statistics Joint Major (B.Sc. only)
11. Economics and Pure Mathematics Joint Major (B.Sc. only)
12. Economics and Statistics Joint Major (B.Sc. only)
13. Economics and Statistics (Co-operative) Joint Major (B.Sc. only)
14. Honours in Applied Mathematics (B.Sc. only)
15. Honours in Pure Mathematics
16. Honours in Statistics
17. Major in Applied Mathematics (B.Sc. only)
18. Major in Pure Mathematics
19. Major in Statistics
20. Minor in Mathematics
21. Minor in Statistics
22. Pure Mathematics and Statistics Joint Honours

Details of these programs are given after the **Regulations for the Honours Degree of Bachelor of Science**.

Mathematics and Statistics course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Mathematics and Statistics**.

### 7.8.1 Regulations

1. At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions:

- Mathematics 1000, 1031, 1050, 1051, the former 1080, the former 1081, 1090, the former 1150 and 1151.
- At most 6 credit hours in courses below the 2000 level can be used toward the course requirements in Mathematics and Statistics for the Major, Joint Major, Honours or Joint Honours in Applied Mathematics, Pure Mathematics or Statistics.
  - In the program descriptions that follow, Mathematics 1000 may be replaced by the former Mathematics 1081.
  - Credit may be obtained for only one of Statistics 2500, 2510, 2550 and the former Psychology 2900. Credit may be obtained for only one of Statistics 2501, 2560 (former 2511), and the former Psychology 2901.
  - Students with credits in Mathematics or Statistics not listed in this Calendar must consult the department for equivalency before taking any course listed below.
  - The former Mathematics 1150 and Mathematics 1151 were courses designed specifically for students who intended to graduate with a degree in Primary or Elementary Education. No other students can receive credit for these courses. These courses are not acceptable as alternatives to any other First Year Mathematics course listed in this calendar. Students who have received credit for Education 125 or Mathematics 115/125 cannot receive additional credit for the former Mathematics 1150 or Mathematics 1151 or the current Mathematics 1050 or Mathematics 1051.
  - For the current academic year the Mathematics Placement Test (MPT) will be used to determine placement in the following courses: Mathematics 1000, Mathematics 1050, Mathematics 1051 and Mathematics 1090.
    - For subsequent years, students intending to register for the first time in any course below the 2000 level, must first submit a score for one of the following:
      - Advanced Placement Calculus Examination;
      - Other standardized tests acceptable to the Department of Mathematics and Statistics.

## 7.8.2 Faculty Advisors

Normally, the Undergraduate Officer will be the advisor for each student who has undertaken a major in Applied or Pure Mathematics, and the Deputy Head (Statistics) will be the advisor for any student involved in a major in Statistics. Students should consult with their advisor at least once each semester to ensure that their choice of courses is appropriate.

Note: *The Department of Mathematics and Statistics will endeavour to give appropriate advice to students registered in its programs. However, the department points out that it is the responsibility of the student to see that his or her academic program meets the University's regulations in all respects. Students are referred to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Registration, Student Responsibility**. The department accepts no responsibility for any matter arising from an inappropriate and/or improperly recorded registration.*

## 7.8.3 Course Numbering System

All undergraduate courses offered by the Department of Mathematics and Statistics are identified to year by the first digit and to subject area by the second digit as follows:

### First Digit

- First Year
- Second Year
- Third Year
- Fourth and Fifth Year

### Second Digit

- Applied Mathematics
- Applied Mathematics and Pure Mathematics
- Pure Mathematics
- Pure Mathematics and Statistics
- Statistics

## 7.8.4 Major in Applied Mathematics (B.Sc. Only)

Students shall complete the following requirements:

- Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, Applied Mathematics 3100, 3132, 3161, Applied Mathematics/Pure Mathematics 3202, 3260, Applied Mathematics 4160, 4190.
- Three credit hours in Applied Mathematics courses numbered 3000 or higher.
- A computing course, early in your program. Computer Science 1510 is highly recommended.
- A designated technical writing course offered by a Science department. Applied Mathematics 2130 is recommended. The technical writing course is prerequisite to some 3000-level courses.
- Physics 1050 (or 1020) and 1051.
- A statistics course. Statistics 3410 is recommended.

## 7.8.5 Major in Pure Mathematics

Students shall complete the following requirements:

- Mathematics 1000, 1001, 2000, 2050, 2051, Pure Mathematics 2320, Mathematics 3000, Mathematics 3001, Pure Mathematics 3320;
- One of Applied Mathematics/Pure Mathematics 3202, 3210, 3260;
- One of Pure Mathematics 3330, 3370;
- Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, at least 6 credit hours of which must be in courses numbered 4000 or higher;
- A computing course. Computer Science 1510 is recommended.
- A designated technical writing course offered by a Science department. Applied Mathematics 2130 is recommended.
- A statistics course. Statistics 3410 is recommended.

## 7.8.6 Major in Statistics

Students shall complete the following requirements:

- Mathematics 1000, 1001, 2000, 2050, 2051, 3000, Pure Mathematics/Statistics 3410, 3411, Statistics 3520, 3521, 3530, 4590;
- Nine further credit hours in Statistics courses numbered 3000 or higher at least 3 credit hours of which must be in a course numbered 4000 or higher excluding Statistics 4581;

3. Computer Science 2602.
4. Mathematics 3001 is recommended.

### 7.8.7 Honours in Applied Mathematics (B.Sc. Only)

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, Applied Mathematics 2130, 3100, 3111, 3132, 3161, Applied Mathematics/Pure Mathematics 3202, 3210, 3260, Applied Mathematics 4160, 4180, 4190, 419A/B;
2. At least one of Applied Mathematics 4162 or 4170;
3. Pure Mathematics/Statistics 3410;
4. Nine further credit hours in courses numbered 3000 or higher that are offered by the Department of Mathematics and Statistics, at least 3 of which must be in courses numbered 4000 or higher;
5. A computing course early in the program is required. Computer Science 1510 is recommended.
6. Physics 1050 (or 1020), 1051, 2820, 3220.

### 7.8.8 Honours in Pure Mathematics

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, Applied Mathematics 2130, Pure Mathematics 2320, Statistics 2510, Applied Mathematics/Pure Mathematics 3202, 3210, 3260, Pure Mathematics 3300, 3320, 3330, 4300, 4310, 4399;
2. Either Pure Mathematics 3340 or 3370;
3. Either Mathematics 4000 or 4001;
4. Either Pure Mathematics 4320 or 4321;
5. Twelve further credit hours in Pure Mathematics courses numbered 3000 or higher, at least 9 credit hours of which must be in courses numbered 4000 or higher;
6. A computing course early in the program is required. Computer Science 1510 is recommended.

### 7.8.9 Honours in Statistics

See **Regulations for the Honours Degree of Bachelor of Science**. Students shall complete the following requirements:

1. Mathematics 1000, 1001, 2000, 2050, 2051, 3000, 3001, Applied Mathematics/Pure Mathematics 3202, 3210, Pure Mathematics/Statistics 3410, 3411, Statistics 3520, 3521, 3530, Pure Mathematics/Statistics 4410, Statistics 4590, 4599;
2. Eighteen further credit hours in Statistics courses including at least 12 credit hours in courses numbered 4000 or higher excluding Statistics 4581;
3. Computer Science 2602, Computer Science 3731.
4. Mathematics 4000 and Pure Mathematics/Statistics 4401 are recommended.

### 7.8.10 Minor in Mathematics

A total of 24 credit hours in courses offered by the Department of Mathematics and Statistics is required of which only 6 credit hours shall be in courses at the 1000 level and at least 6 credit hours shall be in courses numbered 3000 or higher.

### 7.8.11 Minor in Statistics

The courses required for a minor in Statistics are:

1. Mathematics 1000, 1001; Statistics 2500 or 2510, Statistics 2501 or 2560.
2. Twelve further credit hours in Statistics courses numbered 3000 or higher excluding Statistics 4581.

It is recommended that Mathematics 2000 and Mathematics 2050 be taken since they are prerequisite to several further Statistics courses.

## 7.9 Physics and Physical Oceanography

The following undergraduate programs are available in the Department:

1. Applied Mathematics and Physics Joint Honours
2. Applied Mathematics and Physics Joint Major
3. Biochemistry and Physics Joint Honours
4. Chemistry and Physics Joint Honours
5. Computer Science and Physics Joint Honours
6. Computer Science and Physics Joint Major
7. Earth Sciences and Physics Joint Honours
8. Earth Sciences and Physics Joint Major
9. Geophysics and Physical Oceanography Joint Honours
10. Honours in Environmental Physics
11. Honours in Physics
12. Major in Environmental Physics
13. Major in Physics
14. Minor in Physics

Details of these joint programs are given after the **Regulations for the Honours Degree of Bachelor of Science**. Other joint programs may be arranged in consultation with the departments concerned.

Physics and Physical Oceanography course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Physics and Physical Oceanography**.

- Notes: 1. The attention of students intending to follow any one of the programs listed above is drawn to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, governing the appropriate degree. Additional Departmental requirements are given below.
2. Faculty advisors are available to provide advice to students who are registered in, or who are considering registering in, any of the programs. Students are urged to consult with these advisors at their earliest opportunity in order to ensure that they select appropriate courses and programs. Students with credits in Physics courses which are not listed in this calendar should consult with the Department.
  3. The six course stream consisting of Physics 1020, 1021, 1051, 2053, 2055, 2750, and 2820 or alternatively the seven course stream of Physics 1020, 1050, 1051, 2053, 2055, 2750, and 2820 is intended to provide a cohesive overview of Physics for potential Physics majors.
  4. Physics 1050 is open to and recommended for students who have completed Level II Physics, Level III Physics and Level III Advanced Mathematics. Mathematics 1000 must be taken at the same time as, or be completed prior to, taking Physics 1050. Students who have completed Mathematics 1090 and Physics 1050 are required to complete Mathematics 1000 before registering for Physics 1051.
  5. Physics 1020 is intended for students who do not qualify for Physics 1050, and while it may be taken by students who have no background in Physics it is recommended that students wishing to take Physics 1020 should have completed at least one of Level II and Level III Physics. Students who complete Physics 1020 and Mathematics 1000 are eligible for admission to Physics 1051. Students may receive credit for only one of Physics 1050 and 1020.
  6. Students who have successfully completed Advanced Placement courses in both Physics and Mathematics will normally be eligible for direct entry into Physics 1051, 2053 and 2750, all of which are offered in the Fall semester. Such students are advised to consult the Department.
  7. Where circumstances warrant, any prerequisites listed below may be waived by the Head of the Department.
  8. Supplementary examinations will be allowed in certain Physics courses which have written final examinations. Students should refer to the **Faculty of Science Degree Regulations** for details.

### 7.9.1 Minor in Physics

A minor in Physics will consist of 24 credit hours in Physics courses which must include Physics 1050 (or 1020), 1051, 2053, 2055, 2750, 2820. Only 6 credit hours at the 1000 level can be used to fulfill the 24 credit hours. For those students whose major is Chemistry or Biochemistry, the 24 credit hours in Physics will not include 2053.

For Electrical Engineering students, 24 credit hours in Physics which must include Physics 1050 (or 1020), 1051, 2750, 3000, and 3550 with an additional 9 credit hours selected from Physics 2820, 3600, 3750, 3751, 3800, 4000, 4220, 4600 or other 3000 or 4000 level courses subject to approval by the Head of Physics and Physical Oceanography and the Chair of Electrical and Computer Engineering.

### 7.9.2 Major in Physics

1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
3. Mathematics 1000 and 1001.
4. Mathematics 2000, Mathematics 2050 and Applied Mathematics 3260 or Pure Mathematics 3260.
5. Physics 1050 (or 1020) and 1051.
6. Physics 2053, 2055, 2750, 2820, 3220, 3400, 3500, 3750 and 3900.
7. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from the courses numbered Physics 3000, 3150, 3300, the former 3410, 3550, 3600, 3751.
8. Physics 3810 or Applied Mathematics/Pure Mathematics 3202.

Mathematics 1001, 2000 and 2050 are prerequisites to many Physics courses and should be completed by the end of second year. Applied Mathematics/Pure Mathematics 3260 is co-requisite to Physics 3220 and should be completed before the winter of the third year. Those who intend to make a career in Physics should note that additional Physics courses are strongly recommended. Mathematics 2051 and Computer Science 1510 or 2602 are also recommended.

### 7.9.3 Honours in Physics

1. English 1080 and English 1110 (or equivalent).
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031).
3. Mathematics 1000 and 1001.
4. Computer Science 1510.
5. Mathematics 2000, 2050 and Applied Mathematics/Pure Mathematics 3260.
6. Physics 1050 (or 1020) and 1051.
7. Physics 2053, 2055, 2750, 2820, 3220, 3230, 3400, 3500, 3600, 3750, 3820, 3900, 4400, 4500, 4820, 4850, 4900, 490A/B.
8. Physics 3810 or Applied Mathematics/Pure Mathematics 3202.
9. An additional 12 credit hours in physics courses numbered 3000 or higher which shall include at least 6 credit hours selected from physics courses numbered 4000 or higher.
10. Fifteen credit hours in applicable elective courses

Note: Certain of the graduate courses may be taken in the final year of the Honours Program with the permission of the Head of the Department.

Only 6 credit hours at the 1000 level in each of Physics, Chemistry and Mathematics can be used to fulfil the 120 credit hours required for the Honours program. The inclusion of Mathematics 1090, the sequence of Physics 1020, 1021, and 1051 or the substitution of Chemistry 1010, 1011 and 1031 for Chemistry 1050 and 1051 will each increase the number of credit hours required for the Honours Physics program by three.

An Honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Honours Physics program in and beyond the third year requires a familiarity with computer programming and numerical analysis. In choosing electives for this program, the Department recommends that students supplement the prescribed program with the following courses Computer Science 2602 and 3731 (or Applied Mathematics 2130 and 3132). Mathematics 2051 and 3000 are also suitable electives. For specific courses and recommendations about electives, consultation with a faculty advisor in the Department is suggested.

The Department recommends that students wishing to complete the Honours Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.

## Recommended Course Schedule - Honours Physics Program

Year	Semester I	Semester II
I	Chemistry 1050 English 1080 Mathematics 1000 Physics 1050 Elective	Chemistry 1051 Computer Science 1510 English 1110 (1101, 1102) Mathematics 1001 Physics 1051
II	Mathematics 2000 Mathematics 2050 Physics 2053 Physics 2820 Elective	Applied Mathematics/Pure Mathematics 3202 Applied Mathematics/Pure Mathematics 3260 Physics 2055 Physics 2750 Elective
III	Physics 3220 Physics 3400 Physics 3500 Physics 3750 Physics 3820	Physics 3900 Physics 3600/4500 Physics 3230/4400 Physics 4820 Physics Elective
IV	Physics 4900 Physics 4850 Physics 490A Physics Elective Elective	Physics 4500/3600 Physics 4400/3230 Physics 490B Physics Elective Physics Elective

### 7.9.4 Major in Environmental Physics

1. English 1080 and English 1110 (or equivalent)
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031)
3. Mathematics 1000 and 1001
4. Mathematics 2000, Mathematics 2050, Applied Mathematics/Pure Mathematics 3260, Applied Mathematics/Pure Mathematics 3202
5. Physics 1050 (or 1020) and 1051
6. Physics 2053, 2055, 2750, 2820, 3220, 3820, 3300, 3340, 4340
7. Physics 3400 or 3500
8. Earth Sciences 1000, 1002, 2502, 3170, 3172
9. Geography 2102, 2195, 3120
10. Biology 2120, 2600

The Major degree offers students a fair degree of latitude in choosing electives, students are encouraged to take electives from Geography and Earth Sciences: of particular merit would be any of Earth Sciences 3600, 3611 or 4105.

### 7.9.5 Honours in Environmental Physics

1. English 1080 and English 1110 (or equivalent)
2. Chemistry 1050 and 1051 (or Chemistry 1010, 1011, and 1031)
3. Mathematics 1000 and 1001
4. Mathematics 2000, Mathematics 2050, Applied Mathematics/Pure Mathematics 3260, Applied Mathematics/Pure Mathematics 3202
5. Physics 1050 (or 1020) and 1051
6. Physics 2053, 2055, 2750, 2820, 3220, 3300, 3340, 3820, 4205, 4300, 4340, 4820, 490A/B
7. Physics 3400 or 3500
8. Earth Sciences 1000, 1002, 2502, 3170 and 3172
9. Geography 2102, 2195, 3120
10. Biology 2120, 2600

An honours thesis is to be presented on work undertaken by the candidate under the guidance of a Department of Physics and Physical Oceanography faculty member. The thesis comprises the 6 credit hour course Physics 490A/B. Students should seek departmental advice regarding a thesis project no later than the winter preceding the semester in which the project will be started.

The Department recommends that students wishing to complete the Honours Environmental Physics program in 120 credit hours follow the schedule given below. This schedule is intended for students who qualify for Physics 1050 and 1051. Other suggested course schedules are available from the Head of the Department.

Those courses in which a grade of "B" or better or an average of 75% or higher are required, as specified in Clause 6.a. of the **Regulations for the Honours Degree of Bachelor of Science**, are 45 credit hours in Physics courses, and 15 credit hours in other courses (beyond the 1000 level) selected from the specified program courses in Earth Sciences, Geography and Biology.

## Recommended Course Schedule - Honours Environmental Physics Program

Year	Semester I	Semester II
I	Chemistry 1050 Earth Sciences 1000 English 1080 Mathematics 1000 Physics 1050	Chemistry 1051 Earth Sciences 1002 English 1110 Mathematics 1001 Physics 1051
II	Geography 2102 Mathematics 2000 Mathematics 2050 Physics 2053 Physics 2820	Geography 2195 Applied Mathematics/Pure Mathematics 3202 Applied Mathematics/Pure Mathematics 3260 Physics 2750 Elective
III	Earth Sciences 2502 Physics 3220 Physics 3820 Physics 3400/3500 Physics 3340	Biology 2120 Earth Sciences 3170 Geography 3120 Physics 2055 Physics 4820
IV	Biology 2600 Earth Sciences 3172 Physics 3300 Physics 490A Elective	Physics 4205 Physics 4300 Physics 4340 Physics 490B Elective

## Credit Restrictions for Present Physics Courses with Former Courses Table

Credit May Be Obtained For Only One Course From Each of The Pairs of Courses Listed in This Table

Present Course	Former Course	Present Course	Former Course
1020	1200	1051	2050
1021	1201	1051	1061
1051	1052	3750	3700
2820	2200	3750	3850
2053	2450	490A/B	4990
2055	2550	1051	2054
2750	2700	1051	2550
3220	3200	4400	3410
3230	2210	4820	3821
		4900	3920

Physics 1021 and the former Physics 1201 will be considered equivalent for prerequisite purposes. Physics 1051 and 2820 will be considered equivalent to the former Physics 1054 and 2054 for prerequisite purposes. Physics 1051 and the former Physics 1052 and 2050 will be considered equivalent for prerequisite purposes.

Not all courses are offered every year. Students should check with the Department prior to registration to plan programs.

## 7.10 Psychology

The following undergraduate programs are available in the Department.

1. **Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
2. **Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
3. **Biology and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)**
4. **Biology and Psychology Joint Honours (B.Sc. Hons. only)**
5. **Major and Honours in Behavioural Neuroscience (B.Sc. only)**
6. **Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. Hons. only)**
7. **Major and Honours in Psychology (B.A. or B.Sc.)**
8. **Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.)**
9. **Minor in Psychology (B.A. or B.Sc.)**

Details of the joint honours programs are given under the **Degree Regulations** of the Faculty of Science.

Psychology course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Psychology**.

### 7.10.1 Admission to Major Programs

Admission to the Major programs in the Department of Psychology is competitive and selective. Students who wish to enter these programs must submit a completed application form to the Psychology Department by June 1 for Fall semester registration and by October 1 for Winter semester. To be eligible for admission, students must have completed the 24 credit hours as listed below with an average of at least 65% in Psychology 1000/1001 and an overall average of at least 60% in Psychology, English, and Mathematics:

1. Psychology 1000, 1001
2. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent.

3. Mathematics 1000, or two of 1090, 1050, 1051 (or equivalent).
4. Six credit hours of electives (9 if only Mathematics 1000 is completed).

Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance, normally cumulative average and performance in recent courses.

### 7.10.2 Admission to Honours Programs

The Honours programs in the Department of Psychology are designed for students who would like to concentrate their studies or pursue graduate work. Students who wish to be admitted to these programs must submit an "Application for Admission to Honours Program Faculties of Arts or Science" to the Psychology Department by June 1 for Fall semester registration and by October 1 for Winter semester. To be eligible for admission, students must have completed Psychology 2910, 2911, 2520, and 2570 and obtained in these courses a grade of "B" or better, or an average of 75% or higher. Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance in the required courses. In special circumstances, students may be admitted to Honours Programs at times other than June and October.

Note: Students are advised to consult the general regulations for Honours in the Faculty of Arts or the Faculty of Science, as appropriate.

### 7.10.3 Requirements for a Major in Psychology

Students completing this program cannot receive credit for Psychology 2920.

1. Students may Major in Psychology as part of either a B.A. or a B.Sc. program. All Majors are required to complete a minimum of 42 credit hours of Psychology as listed below:
  - a. Psychology 1000, 1001, 2520, 2570, 2910, 2911
  - b. Twelve credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750, 3800 or 3801.
  - c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.
2. Psychology Majors following the B.Sc. program are also required to complete the following:
  - a. Mathematics 1000 (or equivalent).
  - b. Biology 1001 and 1002
  - c. Either Chemistry 1010 and 1011 (or 1050 and 1051); OR Physics 1020 (or 1050) and 1021 (or 1051)
  - d. Six credit hours of laboratory courses at the 2000 level or above in one of Biology, Chemistry, or Physics.
 

Note: *Biology/Psychology 3750 and Biology/Psychology 4701 cannot be used to satisfy the requirement of 6 laboratory credit hours at the 2000 level or above in either Biology, Chemistry, or Physics.*
3. Psychology Majors following the B.A. program are also required to complete Mathematics 1000 or two of 1090, 1050, 1051 (or equivalent), and are encouraged to complete at least 6 credit hours in Biology.

### 7.10.4 Requirements for Honours in Psychology

Students completing this program cannot receive credit for Psychology 2920.

1. Honours students in Psychology are required to complete the 60 credit hours of Psychology as listed below:
  - a. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3900, 4910, 499A/B
  - b. Eighteen credit hours chosen from the alternatives listed in Clause 1. b. of the requirements for a Major in Psychology
  - c. Twelve credit hours of 4000-level courses in Psychology, of which at least one must be a research experience course and one must be a selected topics course.
2. Honours students must also complete the requirements listed in either Clause 2. or Clause 3., as applicable, of the requirements for a Major in Psychology.
3. Honours students will be required to submit in their graduating year, an undergraduate thesis (Psychology 499A/B) which demonstrates their competence in Experimental Psychology.

### 7.10.5 Requirements for a Major in Behavioural Neuroscience (B.Sc. Only)

Students completing this program cannot receive credit for Psychology 2920.

A program is offered in the Psychology Department to provide an education in Behavioural Neuroscience. Students wishing to enroll in the program are advised to consult with the Head of the Department at the earliest opportunity. Students who intend to pursue graduate studies should take courses leading to the Honours degree.

The program for a Major in Behavioural Neuroscience shall include:

1.
  - a. Psychology 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801
  - b. Six credit hours in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750.
  - c. Six credit hours of 4000 level courses in Psychology, of which one must be a research experience course.
2.
  - a. Mathematics 1000 (or equivalent) and 1001
  - b. Chemistry 1010 and 1011 (or 1050 and 1051), and 2440 (or 2400/2401)
  - c. Physics 1020 (or 1050) and 1021 (or 1051).
  - d. Biology 1001 and 1002
  - e. English 1080 and one of 1101, 1102, 1103, or 1110, or equivalent
3. Eighteen credit hours from the following courses chosen from at least two different sciences:
  - a. Biochemistry: Any 2000-, 3000-, or 4000-level course except 2000, 2005, 2010, 2011, 3202, 3402, or 4502
  - b. Biology: 2060, 2210, 2250, 2900, 3050, 3160, 3202, 3295, 3401, 3500, 3530, 3540, 3750, 4200, 4241, 4245, 4250, 4402, the former 4450, 4601, 4605, 4701, the former 4900 (see note below)
  - c. Chemistry: 2210, 2301 (or 2300) or any 3000 or 4000 level course
  - d. Computer Science: Any 2000, 3000, or 4000 level course except 2650 and 2801
  - e. Mathematics: 2000, 2050, 2051, 3000, 3001 or any 3000 or 4000 level pure or applied mathematics course

- f. Physics: Any 2000, 3000, or 4000 level course except 2151, 3150, 3151

Notes: 1. Credit may not be obtained for both Biology 3750 and either Psychology 3750 or Psychology 4770, or for both Biology 4701 and Psychology 4701.

2. The courses listed under Clause 3 may have prerequisites. It is the student's responsibility to ensure that all prerequisites have been met, or that waivers have been obtained, before registering for these courses.

### 7.10.6 Requirements for Honours in Behavioural Neuroscience (B.Sc. Only)

Students completing this program cannot receive credit for Psychology 2920.

- Honours students in Behavioural Neuroscience are required to complete the following Psychology courses: 1000, 1001, 2520, 2570, 2910, 2911, 3800, 3801, 3900, 499A/B, two further courses in Psychology chosen from the following: 3050, 3100, 3250, 3350, 3450, 3620, 3650, 3750; two 4000 level courses in Psychology of which one must be a research experience course.
- Honours students in Behavioural Neuroscience must also complete the requirements listed in Clauses 2. and 3. of the requirements for a Major in Behavioural Neuroscience.
- In accordance with Clause 6. a. of the Regulations for the Honours Degree of Bachelor of Science, Honours candidates must obtain a grade of "B" or better, OR an average of 75% or higher in all the required courses listed in Clauses 1. and 3. of the requirements for a major in Behavioural Neuroscience and Clause 1 of the requirements for honours in Behavioural Neuroscience, except those at the 1000 level.

### 7.10.7 Requirements for a Minor in Psychology

Students who Minor in Psychology are required to complete a minimum of 24 credit hours of Psychology as follows:

- Psychology 1000, 1001, 2920
- Fifteen other credit hours of Psychology.

### 7.10.8 Requirements for Major and Honours in Psychology (Co-operative) (B.A. or B.Sc.), and Major and Honours in Behavioural Neuroscience (Co-operative) (B.Sc. only)

#### Psychology Co-op Program (PCOP)

The Psychology Co-op Program (PCOP) is available to full-time Psychology (B.A. and B.Sc.) and Behavioural Neuroscience Majors and Honours students only.

The PCOP provides an opportunity for students to learn valuable practical skills while working in fields related to Psychology. Students complete three Work Terms, which consist of full-time paid employment. The timing of the Work Terms is such that employers stand to gain from the acquired skills of psychology majors in training. The objectives of the Work Term component of the PCOP are embodied in the **Work Term Descriptions**.

#### 7.10.8.1 Admission Requirements

- Admission is limited, competitive, and selective.
- The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with average overall academic records are unlikely to be admitted.
- Students must first be admitted to the Psychology (B.A. or B.Sc.) or Behavioural Neuroscience Major.
- To be eligible for admission, students must have completed a minimum of 30 credit hours with an overall average of at least 65%, and an average of at least 65% in all Psychology courses. Students must have a passing grade in all required courses, and must be registered for 15 additional credit hours in the semester in which they apply.
- The deadline date for application is November 15.

#### 7.10.8.2 Program of Study

- In addition to the requirements below students must fulfill all requirements for either a Major in Psychology (B.A.), a Major in Psychology (B.Sc.), Major in Behavioural Neuroscience, Honours in Psychology (B.A), Honours in Psychology (B.Sc.), or Honours in Behavioural Neuroscience. Courses in each program are normally taken in blocks as shown in the appropriate program table. Students should consult with a faculty advisor each semester regarding course selection.
- Students' status in the program is assessed at the end of each semester. To remain in PCOP, students must receive a passing grade in all required courses, and must maintain an average of at least 65% in all Psychology courses and a cumulative average of at least 65%. A student who fails a required course, fails to maintain an average of 65% in Psychology courses, or fails to maintain a cumulative average of 65%, will be required to withdraw from PCOP. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the required average.
- Students are required to complete three work terms at the prescribed times.

#### 7.10.8.3 Work Term Placement

- General management of the work terms in PCOP is the responsibility of the Division of Co-operative Education (DCE). It is responsible for assisting potential employers to become involved in the program, organizing competitions for Work Term employment, arranging student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. A program co-ordinator from the DCE will work with the department to counsel students, visit students on their work assignments and evaluate the work term.
- Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, the DCE has no responsibility for placement until they have been re-admitted to the program.
- A student who applies for admission to the co-op program gives permission to the University to provide a copy of the applicant's resume, university transcript and work term evaluations to potential employers.
- A student who has been accepted to PCOP may obtain his/her own work term placement outside the competition. Such employment positions must be confirmed by the employer, and must be approved by the Co-ordinator.
- Students are expected to submit to the Co-ordinator, within a month from starting a Work Term, a plan of the intended work that term.
- Salaries paid to co-operative students are determined by employers based on their internal wage structures. However, students

should not expect the income from work terms to make them completely self-supporting.

#### 7.10.8.4 Registration and Evaluation of Performance

1. In Work Terms I, II, and III, students must register for Psychology 199W, 299W, and 399W respectively.
2. Student performance evaluations are to be completed by the employer and returned to the Co-ordinator. The Work Term evaluations shall consist of two components:
  - a. On-the-job Student Performance: Job performance shall be assessed by the Co-ordinator in consultation with the Department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: PASS WITH DISTINCTION, PASS, FAIL.
  - b. The Work Report
    - i. Students are required to submit a Work Term report to the Co-ordinator on the first day of final exams.
    - ii. Work Term reports shall be evaluated by a faculty member and the Co-ordinator.
    - iii. If an employer designates a report to be of a confidential nature, both employer and the Co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
    - iv. Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by the Co-ordinator or a faculty member of the Department of Psychology.

Evaluation of the work term report will result in one of the following classifications: PASS WITH DISTINCTION, PASS, FAIL.

The evaluation of the job performance and the work term report are recorded separately on the transcript. Overall evaluation of the work term will result in one of the following final grades being awarded:

- Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and the job performance.
- Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the job performance.
- Fail: Indicates FAILING PERFORMANCE in the work report or the job performance, or both.

To remain in PCOP, a student must obtain a final grade of PAS.

3. If a student fails to achieve the Work Term standards specified above, the student will be required to withdraw from PCOP. Such a student may reapply to the program, at which time the student will be required to repeat the Work Term with satisfactory performance. Only one Work Term may be repeated in the entire program.
4. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in **Admission Requirements**.
5. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from PCOP.
6. Students who drop a Work Term without prior approval from both the Co-ordinator and the Head of the Department of Psychology, or who fail to honour an agreement to work with an employer, or conduct themselves in such a manner as to cause their discharge from the job, will be awarded an overall grade of FAL for the Work Term in question and will be required to withdraw permanently from PCOP.
7. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

### 7.10.9 Suggested Course Sequences

The tables below show suggested course sequences for (1) **B.A. in Psychology (Co-operative)**, (2) **B.Sc. in Psychology (Co-operative)**, (3) **B.A. Honours in Psychology (Co-operative)**, (4) **B.Sc. Honours in Psychology (Co-operative)**, (5) **B.Sc. in Behavioural Neuroscience (Co-operative)**, and (6) **B.Sc. Honours in Behavioural Neuroscience (Co-operative)**.

**Suggested Course Sequence for B.A. in Psychology (Co-operative)**

Term	Suggested Courses
<b>Fall Semester 1</b>	Psychology 1000 English 1080 Mathematics 1000 or one of Mathematics 1090, 1050, 1051 Elective or Arts requirement Elective or Arts requirement
<b>Winter Semester 2</b>	Psychology 1001 English 1101, 1102, 1103, or 1110 One other of Mathematics 1090, 1050 or 1051* Elective or Arts requirement Elective or Arts requirement
<b>Fall Semester 3</b>	Psychology 2910 Psychology 2520 (or 2570) Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
<b>Winter Semester 4</b>	Psychology 2911 Psychology 2570 (or 2520) Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
<b>Spring Work Term 1</b>	Psychology 199W
<b>Fall Semester 5</b>	3000-Level Core 3000-Level Core Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
<b>Winter Semester 6</b>	3000-Level Core 3000-Level Core Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
<b>Spring Work Term 2</b>	Psychology 299W
<b>Fall Semester 7</b>	Selected Topics 4000-Level Psychology Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
<b>Winter Work Term 3</b>	Psychology 399W
<b>Fall Semester 8</b>	Research Experience 4000-Level Psychology Elective or Arts requirement Elective or Arts requirement Elective or Arts requirement
*or Elective or Arts requirement if Mathematics 1000 was taken in Semester 1

## 7.11 Science

Science course descriptions are found at the end of the Faculty of Science section under **Course Descriptions, Science**.

## 8 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

### 8.1 Biochemistry

Biochemistry courses are designated by BIOC.

**1430 Biochemistry for Nurses** is an introduction to the chemistry and

structure-function relationships of carbohydrates, lipids and proteins. It will examine the basic metabolism of carbohydrates and fats, with emphasis on the biochemical fluctuations that occur in human health and disease, and will include a brief introduction to molecular genetics. Prospective fast-track program students should consult with the School of Nursing concerning

admission to this course.

CR: the former BIOC 2430

LC: 4

PR: Level 3 Chemistry or Chemistry 1010 or Chemistry 1810 or equivalent, and acceptance to Bachelor of Nursing (Collaborative)

UL: may not be used for credit to fulfil the requirements for a major in the Department of Biochemistry

**2000 Principles of Food Science** enables one to gain an understanding of the scope of Food Science as a discipline. Topics include introductions to chemistry, processing, analysis, microbiology, packaging, product development, sensory evaluation and quality control as they are related to Food Science.

LH: one period per week

PR: Chemistry 2400 or 2440

**2005 Food, Food Safety, and Health** introduces the concepts of the composition of foods, and how the processing of food affects sensory appeal, shelf life and nutrient composition. Common food and water-borne illnesses (risks and prevention) are covered in the course content. Students will also be introduced to food biotechnologies, including genetically modified organisms, nutraceuticals and the development of functional foods.

CO: Chemistry 2400 or 2440

**2010 Introductory Foods I** - inactive course.

**2011 Introductory Foods II** - inactive course.

**2100 Introduction to Molecular Biology and Genetics** will cover the heritability of simple traits from phenotype to genotype; the discovery of DNA as the molecule of heredity; the structure and function of DNA; the elucidation of the genetic code; and the manipulation of DNA for recombinant DNA technology and biotechnology.

CO: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100

LH: 3 on alternate weeks

PR: BIOC 2101, Chemistry 2401, Physics 1021 or 1051. Students may replace the co-requisite Chemistry 2401 with Chemistry 2440 as a prerequisite. Chemistry 2440 may not be taken as a co-requisite of 2100

**2101 Introduction to Biochemistry** is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Other topics will include: enzymes; the biochemistry of membranes, including the plasma membrane and specialized intracellular membranes; and the biochemistry of selected differentiated cells.

CR: Pharmacy 2004, or the former Pharmacy 3110

LH: one three-hour laboratory period on alternate weeks

PR: Chemistry 2400 and 2401, or Chemistry 2440; and Physics 1020 or 1050, and 1021 (or 1051). Chemistry 2401 and Physics 1021 or 1051 can be done concurrently

**2600 Introduction to Human Nutrition** (same as HKR 2600) gives an overview of human nutrition with an emphasis on topics of current interest. Students will gain an understanding of nutrition in the context of health maintenance across the life span. Topics covered will include nutrition during pregnancy, nutrition for infants, Canadian Recommended Nutrient Intakes / Dietary Reference Intakes, weight loss and weight gain, nutraceuticals and ergogenic aids.

CR: HKR 2600 or the former Kinesiology 2600

CR: cannot receive credit for BIOC 2600 if completed subsequent to BIOC 3200 or 3201

UL: BIOC 2600 may not be counted among the 60 credit hours in Biochemistry courses required for Honours in Biochemistry, Honours in Nutrition, or Honours in Dietetics

**3052 Food Microbiology** - inactive course.

**3054 Fundamentals of Food Microbiology** - inactive course.

**3105 Physical Biochemistry** examines topics such as: types of intermolecular forces in biomolecules; the folding of biomolecules and the role of water; pH, buffers, and ionisation of biomolecules; thermodynamics: equilibria, coupled reactions, transport across membranes and redox reactions; and ligand binding. Other topics will include: size and shape of biomolecules; isotopes in biochemistry; and, spectroscopy of biomolecules.

OR: a two hour problem-solving class

PR: BIOC 2101; and Chemistry 2300 or 2301 or Physics 2053

**3106 Metabolism** examines the catabolism of carbohydrates, lipids and amino acids. Other topics will be: mitochondria, chloroplasts and ATP synthesis; biosynthesis of carbohydrates and lipids; metabolic specialization of differentiated cells and tissues; and, integration of metabolism.

CR: the former BIOC 3102 or Pharmacy 3111

LH: one three-hour laboratory or one-hour tutorial per week

OR: one-hour tutorial or one three-hour laboratory per week

PR: BIOC 2101; and Chemistry 2301 (or Chemistry 2300) or Physics 2053

**3107 Nucleic Acid Biochemistry and Molecular Biology** examines the structure, function and biochemistry of DNA and RNA and the biochemical processes in the flow of information from the gene to protein. These will include: DNA replication, recombination and repair processes; transcription of RNA and RNA splicing; and protein synthesis. The regulation of gene expression will also be covered at an introductory level. The course will also include an introduction to cloning methodology.

LH: up to four hours per week which will normally consist of one three hour laboratory period plus one additional hour on the following day.

PR: BIOC 2101; and BIOC 2100 or Biology 2250

**3108 Molecular Biochemistry of the Cell** focuses on the molecular biochemistry of intracellular regulation, including advances in topics such as signal transduction, apoptosis and cancer. Other topics will include protein processing and sorting, cyclins, G-protein structure, function and regulation, cell adhesion molecules and the structure of the extracellular matrix.

PR: BIOC 2100 or Biology 2250; and BIOC 2101

**311A/B Human Physiology** - inactive course.

**3200 Basic Human Nutrition I** studies the nutrients essential to human health and well-being with emphasis on carbohydrates, proteins and lipids, - chemistry, dietary source, dietary requirements, metabolism, and physiological importance.

CO: BIOC 2101 or Pharmacy 2004 or the former Pharmacy 3110

PR: BIOC 2101 or Pharmacy 2004 or the former Pharmacy 3110

**3201 Basic Human Nutrition II** studies the vitamins, minerals and trace elements essential to human health and well-being - chemistry, dietary source, dietary requirements, physiological role, and deficiency syndromes.

CO: BIOC 3106 or Pharmacy 3111

PR: BIOC 3106 or Pharmacy 3111

**3202 Community Nutrition** examines nutritional assessment, nutrition education, and the role of community agencies and individuals in the dissemination of nutritional information. Survey methods and results will be discussed.

CO: BIOC 3201, and either BIOC 311B or Medicine 310B

CR: the former BIOC 4302

PR: BIOC 3200

PR: BIOC 3201, and either BIOC 311B or Medicine 310B

**3402 Food Chemistry** examines the following topics: water structure and the role of water in chemical reactions and mechanical properties of foods; chemistry and physical properties of carbohydrates, proteins and lipids; food dispersions; pigments and natural colorants; food flavour; enzyme properties and applications; vitamins and minerals; chemistry of enzymic and non-enzymic browning; characteristics of: muscle tissue, milk, eggs, bread and edible plant tissue; food additives; and, chemical changes in foods during processing.

LH: one period per week

PR: BIOC 2000 or 2005; BIOC 2101; Chemistry 2440 or Chemistry 2401

**4002 Biochemical Regulation** examines metabolic regulation at the cellular and multicellular level. Topics will include: control theory; hormones: their biosynthesis and mechanism of action; signal transduction; and, endocrine coordination of metabolic processes. Principles will be illustrated by the use of case studies from the medical and veterinary literature.

LC: two to three hours per week, together with assigned reading and case studies

PR: BIOC 2100 or Biology 2250; BIOC 3106

**4101 Proteins** will review the history of protein research and the general properties of proteins and include other topics such as: strategy and methods for purification; chemical structure, properties, modification and determination of the protein amino acids; sequencing strategy, chain cleavage methods and end group analysis; folding of the protein main chain and techniques to determine structure; and, the relationship between structure and function: protein filaments, motors and regulators. It will also cover disease-related proteins and other examples from the current literature.

LC: two to three hours per week, together with assigned reading

PR: BIOC 3105

**4102 Current Topics in Biochemistry** is a seminar course in which faculty and students will discuss topics of current interest in the biochemical literature. Students will be responsible for reading and critically assessing recent literature.

PR: Honours Biochemistry students in their final year or permission of the Head

**4103 Prokaryotic Gene Regulation** is a detailed and up-to-date treatment of the mechanisms of genetic regulation found in bacterial cells. The course will develop topics based on the evidence of bacterial genetics and modern molecular biological experiments. Topics may include: theory of mutations, RNA transcription, positive and negative regulation of transcription; regulation of protein synthesis; control of DNA replication; bacterial operons and regulons; developmental molecular biology in bacterial systems; and evolution and molecular biology of organelles.

PR: BIOC 3107

**4104 Eukaryotic Gene Regulation and Developmental Biology** details the cellular and molecular aspects of eukaryotic gene regulation and development. Topics to be covered will include the DNA content and organization of eukaryotes, mechanisms controlling the expression of eukaryotic genetic information at the transcriptional and post-transcriptional levels, and the methodologies used to define these mechanisms. Detailed consideration will be given to the cell-surface events which regulate nuclear gene expression and cell lineage specification. Developmental mechanisms operating in a number of model systems will be discussed.  
PR: BIOC 3107 or 3108

**4105 Immunology** (same as Pharmacy 4105) is taught and administered by the School of Pharmacy. The course is an introduction to the molecular and cellular basis of immunity and hypersensitivity, and will include a discussion of the manipulation of the immune system in the management and treatment of disease.

CO: BIOC 2101, and either BIOC 311B or Medicine 310B

CR: Pharmacy 4105 and the former Pharmacy 3105

OR: tutorials

PR: BIOC 2101, and either BIOC 311B or Medicine 310B

**4200 Bioenergetics and Biological Oxidation** examines topics such as: respiration and electron transport; the functional organization of energy transducing membranes; the structure and function of flavoenzymes, cytochromes, iron-sulfur proteins and quinones; enzyme reduction of oxygen; and, free radicals in biological systems.

LC: two to three hours per week and assigned reading

PR: BIOC 3106

**4201 Membranes - Structure and Function** examines the structure of model and biological membranes, the molecular interactions between membrane components and the effects of these interactions on the biophysical and functional properties of membranes. Other topics will include the structure-function of specialized membranous systems, such as lipoprotein, lung surfactant, and lipid rafts; membrane lipid composition in biochemical adaptation and function; and the role of membrane proteins in intracellular trafficking, receptor function, enzymatic activity and membrane-related diseases.

PR: BIOC 3105

**4210 Biochemical Research Techniques I** examines the proteome and the genome. This course is designed to familiarize students with current methodology employed in the analyses of the complements of proteins and genes resident in eukaryotic cells. Emphasis will be placed on techniques that facilitate the simultaneous functional analyses of large numbers of proteins or genes. A variety of techniques, used in the study of expression and functional proteomics, will be described, including 2D PAGE, tagged proteins, fluorophores, mass spectrometry and protein microarrays. Techniques used in the study of gene expression and functional genomics will also be described, including the use of reporter gene constructs, analysis of protein-DNA interactions, expressions of cloned genes and several experimental approaches used to define the eukaryotic transcriptome.

AR: attendance is required

PR: BIOC 3105

**4211 Biochemical Research Techniques II** is designed to familiarize students with methods used for the study of cellular and subcellular metabolism. This course may include a research project.

AR: attendance is required

LC: times as arranged

LH: times as arranged

PR: BIOC 3106

**4220 Introduction to General and Autonomic Pharmacology** (same as Medicine 4300) deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and autacoids/prostanoids.

CO: BIOC 3106 or Pharmacy 3111

CR: Medicine 4300

LH: 3

PR: BIOC 311A/B or Medicine 310A/B or Pharmacy 2002/2003 (or the former Pharmacy 3201/3202)

**4230-4239 Special Topics in Biochemistry** will be given for senior undergraduates, and will cover a range of topics in specialized fields in Biochemistry. They may be taught by visiting specialists when available.

PR: to be determined at the time of offering

**4240 Nutrigenetics and Nutrigenomics** is designed to familiarize students with emerging discoveries in the area of diet-gene interaction and to further their understanding of the relationships between the genome and diet as well as the potential to design personalized diets for better health. Students will develop an appreciation for the role of nutrients in the prevention and/or development of disease.

PR: BIOC 2100, 3106 and 3200

**4241-4249 Special Topics in Nutrition** will be given for senior

undergraduates, and will cover a range of topics in specialized fields in Nutrition. They may be taught by visiting specialists when available.

PR: to be determined at the time of offering

**4300 Advanced Nutrition** is a course in which current controversies and trends in human nutrition are presented and discussed using the scientific literature.

PR: BIOC 3200, 3201, and either BIOC 311B or Medicine 310B

**4301 Nutrition and Disease** is a course which addresses the scientific basis for nutritional intervention in chronic human disease.

PR: BIOC 3200, 3201, and either BIOC 311B or Medicine 310B

**4400 Food Analysis** - inactive course.

**4502 Techniques in Nutrition Research** is a seminar course in which faculty and students will discuss concepts and methods used in the study of nutrition. Students will be responsible for reading and critically assessing recent literature.

PR: BIOC 4301

PR: Honours Nutrition students in their final year or permission of the Head

**499A and 499B Dissertation** is a two-semester linked course based on independent study of a problem in Biochemistry. The subject of study will be decided in consultation with Faculty advisors and must be approved in advance by the Department, or both Departments in the case of a Joint Honours degree. This dissertation is obligatory for Honours students in Biochemistry. The dissertation will be submitted as a formal written report accompanied by appropriate illustration before the end of the tenth week of the second semester. Before the end of his/her final semester the student will give an oral presentation of his/her research.

CH: 6

CR: BIOC 4999

PR: Honours students in their final year or permission of the Head

**4999 Dissertation** is a 3 credit hour dissertation for Honours students in Dietetics and Nutrition. The dissertation will be based on independent study of a problem in Dietetics or Nutrition. The subject of study will be decided in consultation with Faculty advisors and must be approved in advance by the Department. The dissertation will be submitted as a formal written report accompanied by appropriate illustrations before the end of the semester.

CR: BIOC 499B

PR: Honours students in Dietetics and Nutrition in their final year or permission of the Head

## 8.2 Biology

According to the nature of particular courses, the specified number of laboratory hours may consist of some combination of laboratory work, seminars or directed independent study relevant to the practical aspects of the subject matter.

Biology courses are designated by BIOL.

**1001 Principles of Biology** is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.

LH: 3

UL: credit may be obtained for only 6 1000-level credit hours in Biology

**1002 Principles of Biology** is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.

LH: 3

PR: BIOL 1001

UL: credit may be obtained for only 6 1000-level credit hours in Biology

**2010 Biology of Plants** is a study of the structure, function and reproductive biology of plants, with emphasis on the vascular plants, and on their relationship to environment and human activities.

LH: 3

PR: BIOL 1001 and 1002; Chemistry 1010 or 1050 (or the former Chemistry 1000)

**2040 Modern Biology and Human Society I** examines various aspects of the human body, and the implications of modern biological research for human beings. Topics include cancer; diet and nutrition and associated diseases; circulatory disease, immunity, human genetics, biorhythms, new diseases, genetic engineering and reproductive engineering.

OR: seminars

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Biology

**2041 Modern Biology and Human Society II** examines the origins and consequences of the environmental crisis of the 20th century. Topics include the population explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics.

OR: seminars

UL: not acceptable as one of the required courses for the Minor, Major or

## Honours programs in Biology

**2060 Principles of Cell Biology** is a modern view of the biology of eukaryotic cells, organelles and molecules and their interactions in the functioning of living organisms.

CO: Physics 1021 or 1051; Biochemistry 2101

CR: the former BIOL 3060

LH: 3

PR: Physics 1021 or 1051; Biochemistry 2101

PR: BIOL 1001, 1002 and 2250; Chemistry 2440 or 2400

**2120 Biology for Students of Earth Sciences** is an introduction of the principles of Biology for students in Earth Sciences. Topics will include principles of classification, levels of biological organization, fundamental characteristics of living organisms and basic concepts in ecology.

CR: BIOL 1001 or 1002

LH: 3

PR: Earth Science major; Earth Sciences 1001 or 1002 or permission of the Head of Department.

UL: may not be used for credit by Biology Majors or Minors

**2122 Biology of Invertebrates** is a study of the invertebrates with emphasis on structure and function, adaptations and life histories. The laboratories will present a broad survey of the major invertebrate groups.

CR: the former BIOL 3122

LH: 3

PR: BIOL 1001 and 1002

**2210 Biology of Vertebrates** is a study of the vertebrates, with emphasis on structure and function, adaptations and life histories.

CR: the former BIOL 3210

LH: 3

PR: BIOL 1001 and 1002

**2250 Principles of Genetics** is an introduction to Mendelian and molecular genetics. Phenotype and genotype, behaviour of alleles in genetic crosses, chromosome theory of inheritance, genetic linkage, molecular biology of DNA, RNA and protein, molecular basis of mutation, recombinant DNA, applications of genetic biotechnology.

CO: Chemistry 2440 or 2400

CR: the former BIOL 3250

LH: 3

PR: BIOL 1001 and 1002; Chemistry 1010 and 1011 (or 1050/1051)

PR: Chemistry 2440 or 2400

**2600 Principles of Ecology** is a conceptual course introducing the principles of ecology, including theoretical, functional and empirical approaches.

CR: the former BIOL 3600

LH: 3

PR: BIOL 1001 and 1002

**2900 Principles of Evolution and Systematics** is an introduction to the processes and patterns of evolution, and the principles of classification. Natural selection and other microevolutionary processes, variation and adaptation, species and speciation, phylogenetic systematics, reconstruction of phylogeny, macro-evolutionary patterns in the fossil record and their interpretation.

CO: Statistics 2550 (or equivalent)

CR: the former BIOL 3900

LH: 3

PR: BIOL 1001, 1002 and 2250

PR: Statistics 2550 (or equivalent)

**3041 Boreal Flora** covers the identification of the terrestrial vascular plants of Newfoundland and Labrador. Various aspects of floral biology, and the use of dichotomous keys will also be covered.

CR: Environmental Science 3110

LH: 3

PR: BIOL 1001 and 1002

**3050 Introduction to Microbiology** is a course in which the basic principles underlying microbial life are studied. Aspects include structure, function, bioenergetics and growth with an emphasis on prokaryotes. Also studied are viruses, microbial diseases, introductory principles of immunology and the control of microorganisms. The laboratory sessions provide training in culture and determinative techniques using microorganisms.

CO: Chemistry 2401

LH: 3

PR: BIOL 1001 and 1002; Chemistry 2440 or 2400 and Chemistry 2401

**3052 Food Microbiology** - inactive course.

**3053 Microbiology for Nurses** examines the fundamentals of microbiology with an emphasis on medical microbiology. The course will include topics such as: host responses to infections, human diseases caused by microorganisms, and the control and exploitation of microorganisms.

LH: 2

PR: students admitted to the Bachelor of Nursing (Collaborative) program

UL: not acceptable as one of the required courses for the Minor, Major or

Honours programs in Biology, nor is it acceptable for any of the joint programs between Biology and other disciplines

**3160 Insect Morphology and Physiology** - inactive course.

**3202 Comparative Vertebrate Anatomy** examines the phylogenetic development and comparative anatomy of the vertebrates.

CR: the former BIOL 3200 or the former BIOL 3201

LH: 3

PR: BIOL 1001 and 1002

**3295 Population and Evolutionary Ecology** is an introduction to the theory and principles of evolutionary ecology and population dynamics.

CR: the former BIOL 4290

LH: 3

PR: BIOL 2600; at least one of BIOL 2010, 2122 or 2210

**3300 Introductory Entomology** is a study of the classification and ecology of insects within an evolutionary framework. Topics will include molecular biological and classical morphological issues surrounding insect taxonomy, evolutionary based higher systematics, and the ecological roles of insects in a variety of ecosystems.

CR: BIOL 4150 and the former BIOL 4140

LH: 3

PR: BIOL 2600. It is recommended that students have completed BIOL 2900.

**3401 Comparative Animal Physiology** is a comparative study of the basic physiological processes, with special attention paid to those strategies invoked by animals which enable them to adapt to environmental changes.

CO: Biochemistry 3106

CR: the former BIOL 4401

LH: 3

PR: BIOL 2060 and 2210

PR: Biochemistry 3106

**3402 Principles of Plant Physiology** is a consideration of the principles of plant physiology, including water relations, nutrition, metabolism, growth and development.

CO: Biochemistry 3106

CR: the former BIOL 4403

LH: 3

PR: BIOL 2010 and 2060

PR: Biochemistry 3106

**3500 Histology** is a study of microstructure and ultrastructure of tissues and organ systems in vertebrates, particularly mammals, with emphasis on correlating structure and function.

LH: 3

PR: BIOL 2060 and 2210

**3530 Molecular and Developmental Biology** is a study of developmental model systems with a focus on the underlying principles and molecular mechanisms involved in embryogenesis, organogenesis, morphogenesis, cellular differentiation, growth and regeneration in animals (vertebrates and invertebrates) and plants. Current cellular and molecular biology techniques and the implications of developmental biology in modern biological and health research will be emphasized.

LH: 3

PR: BIOL 2060 and BIOL 2250 or Biochemistry 2100

**3540 Histotechnology** - inactive course.

**3610 Boreal Ecology** is a study of the principal features of terrestrial ecosystems, with emphasis on the boreal region. This course may be offered in a usual 13 week semester or as a two-week field course.

CR: Environmental Science 3131

LC: either three hours of lecture and three hours of laboratory per week or a two week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two week field course that embodies equivalent instructional time

PR: BIOL 2010, 2250, 2600 and 2900; Statistics 2550 or equivalent

**3620 Aquatic Microbial Ecology** is a study of the nature, distribution and activities of microorganisms in the freshwater and marine environments. Field and laboratory work illustrate some of the investigative techniques used in this area of study.

CR: the former BIOL 3603

LH: 3

PR: BIOL 2600 and 3050; Statistics 2550 or equivalent

**3709 Field Course in Marine Principles and Techniques** begins with a two-week field school immediately prior to the beginning of the Fall Semester. In the Fall Semester there are follow-up lectures, readings and submission of reports. The course is designed to introduce the principal marine environments, organisms and techniques. It is strongly recommended that this course be taken before either BIOL 3710, 3711 or 4810.

PR: BIOL 2600; Statistics 2550 or equivalent and permission of the Head of Department

**3710 Biological Oceanography** is an introductory course in biotic and abiotic factors controlling marine biomass and primary production, emphasizing plankton and fishes. It introduces students to major groups of marine phytoplankton, zooplankton, and fishes, emphasizing how the physical, chemical, and geological environments interact with biology to define processes and pattern in marine organisms.

LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

PR: BIOL 2122 and 2600

**3711 Principles of Marine Biology** is an introductory course in biology of the oceans. Introduces students to marine habitats and the organisms that inhabit them, emphasizing functional morphology, physiology, biodiversity, phylogeny, and ecology. Also includes introduction to marine biogeography, conservation, fisheries and pollution.

LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

PR: BIOL 2122, BIOL 2600

**3712 Benthic Biology** examines the biology of the aquatic benthos (bottom-dwelling organisms); their origins, adaptations, life histories and ecological roles. This course may be offered in a usual 13 week semester or as a two-week field course.

CR: the former Biology 3630

LC: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

LH: either three hours of lecture and three hours of laboratory per week or a two-week field course that embodies equivalent instructional time

PR: Biology 2122, 2600 and 3710

**3714 Estuarine Fish Ecology Field Course** examines community structure, function and distribution of northern coastal fishes in fjords and estuarine environments. Emphasis on sampling, field techniques, taxonomy, quantitative characterization, adaptations and habitat relationships. A comparative approach will contrast fish communities from other areas. To be held as a two week field course.

PR: BIOL 2600

**3750 Animal Behaviour I** is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology.

CR: Psychology 3750

PR: BIOL 1001 and 1002; Statistics 2550 or equivalent

**3811 Paleontology (W)** (same as Earth Sciences 3811) is taught and administered by the Department of Earth Sciences.

CR: Earth Sciences 3811, the former BIOL 3800, and the former Earth Sciences 3801

PR: either Earth Sciences 1002 and BIOL 2120 (or BIOL 1001 and 1002); or BIOL 2122 and 2210

**3950 Research Methods in Genetic Biotechnology** (same as the former BIOL 4900) will include DNA extraction, DNA amplification by the Polymerase Chain Reaction (PCR), DNA cloning, DNA sequence analysis and Bioinformatics. Additional modules in gene expression and re-sequencing chip technologies may be included. Theory and methods will be introduced in a research framework.

CR: the former BIOL 4900

LH: Three hours of lecture and three hours of laboratory per week or a three week on-campus course that embodies equivalent instructor time

PR: BIOL 2060 and 2250

**4000 Bacterial Systematics** is a study of bacterial classification, nomenclature and identification. Subjects include classical and numerical taxonomy, aerobic and anaerobic culture techniques, phage typing, serotyping and the significance of genetic relatedness. The laboratory work presents the techniques of determinative bacteriology.

LH: 3

PR: BIOL 2250 and 3050

**4012 Phycology** - inactive course.

**4014 Biology and Ecology of Boreal and Arctic Seaweeds** is a field course examination of seaweed biology and ecology with special study of living specimens in estuarine, fjordic and exposed coastal sites, demonstrating their physiological and ecological adaptations to cold-water habitats. This course is offered at the Bonne Bay Marine Station during the Summer Semester with two weeks of instruction followed by a week to complete course requirements.

PR: BIOL 2600 or equivalent

**4040 Mycology** is a study of the physiology, morphogenesis, nature of plant and animal parasitism, ecology and taxonomy of terrestrial and freshwater

fungi.

CR: the former BIOL 3020

LH: 3

PR: BIOL 2060 and 3050

**4122 Advanced Topics in Marine Invertebrates** provides an in-depth examination of physiological, ecological and behavioural adaptations in marine invertebrates. Lectures will be combined with discussions of relevant papers from the primary literature on topics of current interest, which may relate to functional morphology, ecology, evolution and natural history. Students will also gain practical research experience through the study of live and preserved animals.

LH: 3

PR: BIOL 2122, 2600 and 2900

**4141 Nematology** is a study of plant parasitic, insect parasitic and free-living marine, freshwater and terrestrial nematodes, with emphasis on taxonomy, biology, economic importance, control methodologies and environmental applications.

LH: 3

PR: BIOL 2010, 2122 and 2600

**4150 Insect Systematics and Ecology** - inactive course.

**4180 General Parasitology** is an examination of parasitism as a way of life, with emphasis on classification, structural adaptation, life cycles and ecology.

LH: 3

PR: BIOL 2122, 2210 and 2600

**4182 Fisheries and Wildlife Parasitology** is a study of the important parasites of fish and other wildlife and their impact on both individuals and populations.

LH: 3

PR: BIOL 4180

**4200 Immunology** is a study of vertebrate and invertebrate immune systems including antigens and antibodies and their reactions.

LH: 3

PR: BIOL 2060 and BIOL 3050

**4241 Advanced Genetics** has advanced topics in modern genetic analysis, including regulation of gene expression, developmental genetics, molecular basis of inherited disease, genomics, immuno-genetics, behavioural genetics, and molecular evolution.

LH: 3

PR: BIOL 2250 and Biochemistry 2101

**4245 Biophysics** is an examination of the physical properties involved in defining diffusion, membrane properties, electrochemical potentials and the processes of bioenergetics within cells and organelles. Selected topics in biomechanics and the functioning of whole organisms with respect to size, shape, support, orientation, transport and motility.

LH: 3

PR: BIOL 2060 and Biochemistry 2101

**4250 Evolutionary Genetics** has advanced topics in the study of micro and macro-evolutionary phenomena. Genetic variation in natural populations; theory of genetic drift, mutation, migration, inbreeding, and natural selection; neutral theory of molecular evolution, patterns of nucleotide substitution, heritability and quantitative genetics.

LH: 3

PR: BIOL 2250 and 2900

**4251 Genomics** will have lecture, seminar, and laboratory components. Topics covered will include Technical Foundations of Genomics, Global Gene Expression Profiling, Bioinformatics, Comparative Genomics, Microbial Genomics, Genomics and Medicine, Genomics and Agriculture, Environmental Genomics, and Ethical Issues of Genomics. Each topic will involve a lecture component, in which theory and methods will be taught using the textbook and journal articles. Some lecture and lab times will be devoted to seminars on methods and papers related to lecture or laboratory components of the course. In the lab component, students will have the opportunity to use state-of-the-art genomic techniques to address a research question.

LH: 3

OR: seminar

PR: BIOL 2060, 2250

**4255 Proteomics** is the study of the proteome, the complete set of proteins produced by a species, using the technologies of large-scale protein separation and identification. Proteomics describes how proteins are modified, when and where they are expressed, how they are involved in metabolic pathways and how they interact with one another. Topics covered will include Technical Foundations of Proteomics, Global Functional Protein Expression Profiling, Experimental Bioinformatics, Comparative Proteomics, Posttranslational Modification-Specific Proteomics, Proteomics in Medicine, Agriculture, Environmental Proteomics and Proteomics for Quality and Safety of Food.

LH: 3

PR: BIOL 2060, 2250; Biochemistry 3106

**4270 History of Biology** - inactive course.

**4306 Applied Biology** is an examination of how biological and other sciences are applied to the problems of management and utilization of organisms at both the individual and systems level to meet human needs.

CR: the former BIOL 4303 or the former BIOL 4304

PR: BIOL 2060, 2250, 2600, 2900 and one of BIOL 2010, 2122 or 2210

**4360 Community and Ecosystem Ecology** is a study of the basic principles, patterns and processes of ecological communities and ecosystems.

OR: a seminar/discussion group each week

PR: BIOL 2250, 2600 and 2900 and one of BIOL 2010, 2122 or 2210; Statistics 2550 or equivalent

**4402 Electron Microscopy in Life Sciences** - inactive course.

**4404 Microbial Physiology** is a study of the structure and growth of microorganisms. Themes covered in this course include the structure, function and regulation of the microbial cellular machinery, the hierarchical regulation of cellular activities, and communication between cells. Quantitative experimental methodology relating to microbial physiology is studied in the laboratory.

LH: 3

PR: BIOL 2250 and 3050; Biochemistry 3106

**4405 Landscape Ecology** is an introduction to the theory and principles of landscape pattern and processes, including issues related to scale, networks, landform and vegetation patterns, species distributions, and natural and human-caused aspects of landscape change.

CO: Statistics 2550 or equivalent

LH: 3

PR: Statistics 2550 or equivalent

PR: BIOL 2600 and 18 credit hours in Biology or permission from the course instructor

**4505 Systematics and Biogeography** is a study of the geographical distributions of plants and animals with particular reference to temporal and spatial variability and to theories advanced to explain historical and recent distribution patterns.

CR: the former Geography 4170

LH: 3

PR: BIOL 2250, 2600, 2900 and one of BIOL 2010, 2122 or 2210

**4510 Distribution Patterns in the Sea** - inactive course.

**4550 Principles of Endocrinology** comprises an introduction to basic concepts concerned with how chemical messages are transmitted and received between cells to coordinate body functions. Hormonal control of adaptation, reproduction, metabolism, growth, digestion, and electrolyte homeostasis will be discussed. Although the endocrinology of invertebrates and lower vertebrates will be mentioned as appropriate, the main emphasis will be on mammalian and human endocrinology at the level of the whole organism.

LH: 3

PR: BIOL 3401; Biochemistry 3106

**4600 Ecology and Evolution of Fishes** examines the evolutionary history and ecology of the world's fishes, with particular emphasis on those of ecological, economical and cultural importance to Eastern Canada. Topics will include taxonomy, life histories, behaviour, zoogeography, evolutionary ecology, population biology, contemporary evolution, and conservation biology.

LH: 3

PR: BIOL 2210 and 2600

**4601 Functional Biology of Fish** is an introduction to anatomical, physiological and cellular aspects of selected processes in the life cycle of fishes.

PR: BIOL 2060, 2210, and 3401

**4605 Quantitative Methods in Biology** (same as Statistics 4581 and the former Statistics 4605) is quantitative reasoning using verbal, graphical and statistical models of scaled quantities (units and dimensions). Exploratory and confirmatory analysis of field and laboratory data. Hypothesis testing, including randomization tests. Topics include the general linear model (t-tests, ancova etc), correlation, autocorrelation, geographic statistics, estimates of population size and multivariate methods.

CR: Statistics 4581 and the former Statistics 4605

LH: 3

PR: Statistics 2550

**4620 Ornithology** examines structure, classification, evolution, ecology and behaviour of birds, with particular reference to those of economic importance. Identification of the birds of Eastern Canada.

LH: 3

PR: BIOL 2210 and 2600

**4630 Mammalogy** examines evolution, systematics, life histories and

distribution of mammals, with particular emphasis on eastern North American forms.

LH: 3

PR: BIOL 2210 and 2600

**4650 Conservation Biology I: Conservation in Biology and Geography** is an examination of how biological and geographical principles can be applied to conserving biological diversity in the natural world under conditions of exploitation and habitat loss. Special emphasis will be given to relevant provincial examples.

CR: Environmental Science 4133

OR: 3 hours of seminar/discussion group each week

PR: 30 credit hours in either Biology or Geography

**4651 Conservation Biology II: Conservation in Practice** examines issues relevant to global conservation science. Topics will be covered through a series of modules, including conservation genetics, costs and consequences of small populations, effects of anthropogenic activity on biodiversity, spatial dynamics, and the interface between science and society.

LH: 3

PR: BIOL 2900, 3295 and 4650

**4701 Animal Behaviour II** is an examination of the behaviour of animals with particular emphasis on evolution and ecology. Topics include behavioural genetics and evolution, reproductive strategies, social behaviour, habitat selection, territoriality, foraging behaviour, and other topics in biology and psychology.

LH: 3

PR: BIOL 3750 or Psychology 3750

**4710 Experimental Marine Ecology of Newfoundland Waters** is a two-week field course examines the ecology of cold ocean environments, focussing on energy flux through marine pelagic and benthic flora and fauna of Newfoundland waters, and how the dynamics of this environment influence linkages among organisms in different habitats. The course will be field intensive with some lecture component and a strong hands-on field component. Students will identify local organisms and study how and why they vary in time and space. This course will be offered during two weeks of the Spring semester.

PR: BIOL 2600

**4750 Fisheries Ecology** is the application of ecological principles to the problem of managing exploited fish populations. Laboratory exercises will be based on a simulation approach to fisheries problems using computer and animal models.

LH: 3

PR: BIOL 2600

**4800 Advanced Palaeontology** (same as Earth Sciences 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, population paleontology, functional morphology, paleoecology, statistical methods for paleontological studies, and applications in petroleum, mining, and environmental studies. This course is taught and administered by the Department of Earth Sciences.

CR: Earth Sciences 4800

PR: Earth Sciences/BIOL 3811, and one of Statistics 2510, Statistics 2550 or Mathematics 2000

**4810 Research Field Course in Marine Biology** will consist of an intensive two-week field school designed to acquaint students with marine field research, experimental design, methodology and data analysis. Emphasis will be placed on individual projects. Projects must be designed and approved prior to the commencement of the course and will involve a written report. At the discretion of the Head of Department, another recognized field course may be substituted for BIOL 4810.

PR: BIOL 3710 and any two of BIOL 2010, 2122 or 2210 and permission of the Head of the Department. It is strongly recommended that students take BIOL 3709 before 4810.

**4820 Field Course in Terrestrial Biology** will begin with a three-week field school immediately prior to the beginning of the Fall Semester. It is designed to acquaint students with terrestrial organisms and environments, and emphasis will be placed on survey and sampling techniques. In the Fall Semester the material and data collected in the field will be used in lecture and laboratory periods dealing with identification, analytical methods, and report compilation.

PR: BIOL 2010, 2122, 2210, 2600 and permission of the Head of the Department. It is recommended that students complete BIOL 4605.

**4822 Internship in Biology** - inactive course.

**4910-4920 Special Topics in Biology** will be given for senior undergraduates and will be in a two-week format which will involve equivalent instruction time as a course on campus. These courses will cover a range of topics in specialized fields in Biology and may be offered at the Bonne Bay Field Station, at the Harlow campus or elsewhere as appropriate. They may be taught by visiting specialists when available.

**499A and 499B Honours Dissertation** is available only to students in the

Honours Program. Requirements for the Dissertation are outlined under **Honours Degrees**.

PR: admission to the Honours Program

## 8.3 Chemistry

Chemistry courses are designated by CHEM.

**1010 Introductory Chemistry I** examines descriptive chemistry; atomic structure; chemical bonding; periodicity illustrated by the chemistry of selected elements; mole concept and stoichiometry; physical properties of matter; energetics; rates of reaction; chemical equilibrium; electrochemistry.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LC: 4

LH: 3

PR: It is recommended that students have at least 70% in high school Academic Mathematics 3204, or a pass in any university level mathematics course.

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Sir Wilfred Grenfell College)

**1011 Introductory Chemistry II** examines descriptive chemistry; atomic structure; chemical bonding; periodicity illustrated by the chemistry of selected elements; mole concept and stoichiometry; physical properties of matter; energetics; rates of reaction; chemical equilibrium; electrochemistry.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LC: 4

LH: 3

PR: CHEM 1010

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Sir Wilfred Grenfell College)

**1031 Introductory Chemistry III (F) & (I)** prepares students who have completed CHEM 1010 and 1011 for CHEM 2210, 2301, 2302 and 2400. It augments the topics covered in CHEM 1010 and 1011 with the greater depth and problem solving emphasis of CHEM 1050 and 1051.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LC: 4

LH: 3

PR: CHEM 1011 and Mathematics 1000

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Sir Wilfred Grenfell College)

**1050 General Chemistry I** has topics that will be similar to CHEM 1010/1011 but will be treated in greater depth with an emphasis on problem solving.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LC: 4

LH: 3

PR: at least 75% in high school CHEM 3202 and successful completion of high school Advanced Mathematics 3205

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Sir Wilfred Grenfell College)

**1051 General Chemistry II** has topics that will be similar to 1010/1011 but will be treated in greater depth with an emphasis on problem solving.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LC: 4

LH: 3

PR: Mathematics 1000 which may be taken concurrently with CHEM 1050.

UL: only 6 science credit hours will be awarded for a major or honours in Chemistry from the following course groups: CHEM 1010/1011/1031, or the former CHEM 1800/1200/1001 (Sir Wilfred Grenfell College)

**2210 Introductory Inorganic Chemistry (W)** studies the chemistry of selected s, p, and d block elements. Introduction to crystal and molecular structures and to molecular orbital and crystal field theories.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LH: 3

PR: CHEM 1051 (or 1001 or 1031), Mathematics 1000

**2301 Thermodynamics and Kinetics** builds upon knowledge of physical chemistry from first year. It covers the three laws of thermodynamics for

ideal and real systems as well as chemical kinetics. Topics in thermodynamics include the thermodynamics of ideal and real gases, phases, and solutions, the Maxwell relations, equilibria between phases, and in electrolyte solutions. The integrated rate laws for simple and complex mechanisms, and the temperature dependence of reaction rates in terms of kinetic molecular theory are some of the topics discussed in the kinetics section of the course.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CO: Mathematics 2000 is recommended

CR: CHEM 2300 (offered at SWGC)

LH: 3

PR: minimum 60% in CHEM 1051 (or CHEM 1001 or CHEM 1031), Mathematics 1001 and Physics 1051 or Physics 1021

**2302 Quantum Chemistry and Spectroscopy** examines the quantum mechanics of simple systems such as the particle in a box, the harmonic oscillator, linear rotor, and hydrogen-like atoms. Topics also include orbital quantum numbers, spin, many electron atoms, an introduction to quantum mechanical methods, the electronic structures of molecules, bonding, and symmetry. Furthermore, electronic, rotational, and vibrational spectroscopy will be discussed as well as modern applications of spectroscopy and lasers.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CO: Mathematics 2000 is recommended

CR: the former CHEM 3301

LH: 3

PR: minimum 60% in CHEM 1051 (or CHEM 1001 or CHEM 1031), Mathematics 1001 and Physics 1051 or Physics 1021

**2400 Introductory Organic Chemistry I (F)** is a course on bonding involving carbon; conformations and stereochemistry; introduction to functional groups and nomenclature; properties, syntheses and reactions of hydrocarbons, alkyl halides and alcohols.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 2420, 2440 and the former 240A/B

LH: 3

PR: CHEM 1051 or 1031; or CHEM 1010 and 1011 with a grade of at least 80% in each; or CHEM 1011 with a grade of at least 85%; or CHEM 1001 with a grade of at least 65%

**2401 Introductory Organic Chemistry II (W)** is an introduction to the interpretation of infrared, H and C-13 NMR spectra; properties, syntheses and reactions of ethers, simple aromatic compounds, ketones, aldehydes, amines, carboxylic acids and their derivatives; aldol and related reactions.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 2420, 2440, and the former 240A/B

LH: 3

PR: CHEM 2400

**2440 Organic Chemistry for Biologists (F) & (W)** is an introduction to the principles of organic chemistry with an emphasis on material relevant to biological molecules. The laboratory will introduce techniques and illustrate concepts covered in the course. This course is designed primarily for Biology Majors.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

CR: CHEM 2400, the former 2420, the former 240A/B

LH: 3

PR: CHEM 1011 (or 1001 or 1051)

UL: may not be used for credit by Chemistry or Biochemistry Majors and is not a prerequisite for any other Chemistry course.

**3100 Analytical Chemistry I (F) & (W)** is a treatment of data, gravimetric analysis, volumetric analysis including oxidation-reduction titrations using electrochemical techniques, the use of specific ion electrodes, and titrations in non-aqueous systems. Spectrophotometric trace analysis and titration.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LC: not more than seven hours per week

LH: not more than seven hours per week

PR: CHEM 2301 (or 2300)

**3211 Inorganic Chemistry (W)** is a detailed examination of the structure, bonding, and chemistry of the d block elements.

AR: attendance is required in the laboratory component of this course.

Failure to attend may result in a failing grade or deregistration from the course.

LH: 3

PR: CHEM 2210 and CHEM 2302 (or 2300)

**3303 Statistical Thermodynamics and Rate Theories** examines physical chemistry from the microscopic viewpoint. Topics include probability distributions, quantum statistical mechanics, statistical thermodynamics, ensembles, kinetics and introduction to statistical rate theories as well as an introduction to computational chemistry (lab).

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3300

LH: 3

PR: CHEM 2301 (or 2300) and CHEM 2302 (or the former CHEM 3301) Mathematics 2000 and Mathematics 2050.

**3410 Bio-organic Chemistry (F)** is a study of the major classes of biomolecules, their structure, function, and in vitro chemistry. An introduction to natural products. Synthetic polymers compared to biopolymers. Heteroaromatic molecules and derived biomolecules.

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3401

LH: 3

PR: CHEM 2401. It is recommended that CHEM 3500 be taken concurrently.

**3411 Synthetic Organic Chemistry I (W)** is a survey of some important reactions used in organic synthesis, including pericyclic reactions and those based on carbocation, carbene, nitrene and carbanion intermediates. Emphasis is placed on multifunctional compounds.

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 3400

LH: 3

PR: CHEM 3410, or all of CHEM 2401, Biochemistry 2100 and Biochemistry 2101

**3500 Spectroscopic Analysis: Spectroscopy and Structure (F)** is the application of spectroscopic methods to the determination of molecular structure. Emphasis will be placed on electronic, vibrational and rotational spectroscopy, nuclear magnetic resonance spectroscopy and mass spectrometry.

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

LC: not more than 6 hours per week

LH: not more than 6 hours per week

PR: CHEM 2210, 2302 (or 2300), CHEM 2401

**3600 Marine Chemistry (W)** - inactive course.

**4110 Analytical Chemistry II (F)** examines error treatment, atomic emission and absorption spectroscopy, chromatographic and other separation techniques, electroanalytical chemistry, mass spectrometry, x-ray spectroscopy, ion and electron spectroscopy.

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

CR: the former CHEM 4100 and the former CHEM 4101

LC: not more than 6 hours per week

LH: not more than 6 hours per week

PR: CHEM 3100

**4150 Advanced Spectrometric Techniques** - inactive course.

**4151 Analytical Separations and Organic Mass Spectrometry** examines advances in the traditional chromatographic techniques, the development of new analytical tools in separation science, the interfacing of mass spectrometers to chromatographic instruments, and other mass spectrometric techniques.

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

CO: CHEM 4110

LC: not more than 6 hours per week

LH: not more than 6 hours per week

PR: CHEM 4110 (or the former CHEM 4100 or the former CHEM 4101)

**4152 Electroanalytical Techniques** examines the principles and theory of dynamic electrochemistry, voltammetry, stripping analysis, electro-chemical sensors and detectors.

AR: attendance is required in the laboratory component of this course.  
Failure to attend may result in a failing grade or deregistration from the course.

CO: CHEM 4110

LC: not more than 6 hours per week

LH: not more than 6 hours per week

PR: CHEM 4110 (or the former CHEM 4100 or the former CHEM 4101)

**4201 Coordination Chemistry in Biological Molecules - Structural,**

**Mechanistic and Magnetic Studies** examines the role of certain transition elements e.g. iron, copper, cobalt, and zinc, in proteins and enzymes will be discussed in terms of structural features, the natural ligands, magnetic properties, mechanisms, etc., and reinforced with examples of 'model compounds'. Magnetic theory, in particular for polynuclear transition metal complexes, will also be developed.

PR: CHEM 3211

**4202 Selected Topics in Main Group Chemistry** - inactive course.

**4203 Organometallic Chemistry** is principles and applications of organometallic chemistry with emphasis on compounds of the transition metals, lanthanides and actinides. A study of synthetic methods, structure, bonding, reactions and applications of these concepts to organic synthesis and to catalysis.

PR: CHEM 3211

**4204 Inorganic Reaction Mechanisms and Catalysis** is a survey of inorganic and organometallic reactions, their mechanisms and kinetic characteristics. In addition, stereochemical non-rigidity, reactions of coordinated ligands and homogeneous catalysis are discussed.

PR: CHEM 3211

**4205 Photochemistry of Transition Metal Complexes** is an introduction to the theory of electronic excited states in transition metal complexes. Applications to artificial photosynthesis, photodynamic therapy, molecular photovoltaics and molecular electronics.

CO: CHEM 3211 and CHEM 2302

PR: CHEM 3211 and the former CHEM 3301 or CHEM 2302

**4303 Equilibrium Statistical Mechanics** is a course which examines probability theory, ensembles, and quantum statistical thermodynamics of ideal gases, perfect crystals, metals and radiation. Semiclassical statistical thermodynamics, distribution functions, as well as dense gases and liquids are also discussed.

CR: the former CHEM 4301 or the former CHEM 4302

LH: 3

PR: CHEM 3303 or the former CHEM 3301

**4304 Advanced Quantum Chemistry** examines exact solutions to the Schrodinger equation, introduction to approximate methods, modern methods (wavefunction and density functional theories), spectroscopy, and applications of computational chemistry.

CR: the former CHEM 4300

PR: CHEM 2302 (or the former CHEM 3301) and Applied Mathematics 3260 or Pure Mathematics 3260. Due to the requirement of Applied Mathematics 3260, and Pure Mathematics 3260, students wishing to take this course should plan ahead.

**4350 Advanced Physical Chemistry III: Selected Topics in Physical Chemistry (W)** - inactive course.

**4411 Topics in Medicinal Chemistry** - inactive course.

**4420 Physical Organic Chemistry (F)** is an introduction to the quantitative and qualitative theories of reactions and reactivity and their application to organic reaction mechanisms and to mechanism elucidation.

CR: the former CHEM 4400 and the former CHEM 4401

PR: CHEM 2302 or the former CHEM 3301, and CHEM 3411 or the former CHEM 3401. CHEM 3500 is strongly recommended.

**4430 Synthetic Organic Chemistry II (W)** examines modern synthetic methods with particular attention placed on the synthesis of enantiomerically enriched compounds and newer methods for the formation of carbon-carbon bonds. Designing syntheses of complex organic molecules.

CR: the former CHEM 4410

PR: the former CHEM 3401 or 3411. CHEM 4420 is strongly recommended.

**490A/B Honours Thesis** is required of the Honours program.

## 8.4 Computer Science

Computer Science courses are designated by COMP.

### 8.4.1 First Year Courses

**1510 An Introduction to Programming for Scientific Computing (F) & (W)** introduces students to basic programming in the context of numerical methods with the goal of providing the foundation necessary to handle larger scientific programming projects. Numerical methods to solve selected problems from Physics, Chemistry, and Mathematics will be covered.

CR: COMP 2602, the former Applied Mathematics 2120

LH: 2

PR: Mathematics 1000

**1600 Basic Computing and Information Technology (F) & (W)** offers an overview of computers and information technology. It provides students with the knowledge necessary to answer questions, such as: What is a computer

system? How does it work? How is it used? This is done through the use of popular spreadsheet, word processing and database software packages and the Internet. Social issues and implications will also be included. Prerequisite: Level III Advanced Mathematics or Mathematics 1090, which can be taken concurrently.

CR: COMP 2650 or COMP 2801  
LH: 3

**1700 Introduction to Computer Science (F) & (W)** lays the foundation for the art and the science of computing. The course contains fundamental and topical issues in computers, languages, programming and applications. This course is designed for potential Computer Science majors without a background in programming, but is also available for non majors.

CO: Mathematics 1090 (or equivalent), or Mathematics 1000  
LH: 3  
PR: Mathematics 1090 (or equivalent), or Mathematics 1000

**1710 Object-Oriented Programming I (F) & (W)** is an introduction to fundamental programming techniques, primitive data types and operations, program control structures and the use of objects, classes and methods.

CO: Mathematics 1000  
CR: if previously completed or currently registered for COMP 2710  
LH: 3  
PR: Mathematics 1000 (which can be taken concurrently), or Mathematics 1090 (or equivalent)

## 8.4.2 Second Year Courses

**2500 Data Analysis with Scripting Languages (F) & (W)** introduces the use of scripting languages to solve common data analysis tasks. The control structures and expressions of the language are first discussed. Script solution to storing/retrieving data sets, searching data sets, and performing numeric and statistical calculation are covered. Plotting and visualization for data sets are also presented.

PR: COMP 1510 or COMP 1700 or COMP 1710 or COMP 2602 (or equivalent)

**2602 Computer Programming in FORTRAN (F)** is a study of algorithmic problem solving and structured programming techniques; the Fortran programming language and its application to computer solutions of scientific problems; numeric and non-numeric problems are examined with emphasis on code modularity and reusability of the components.

CR: COMP 1510  
PR: Mathematics 1000

**2650 Problem-Solving with Personal Computers (F) & (W)** is an overview of tools and techniques that current computer technology offers in a PC based networked environment. The emphases are on conceptual understanding of the software, from exploring capabilities of the existing software tools to learning methods of extending these capabilities. The key topics include problem-solving strategies, visual programming, macro-language operations, object linking and embedding, digital communication, and developing interactive web pages. The course has a practical flavour. In structured laboratory sessions, students gain proficiency in using personal computers for solving common problems.

CO: Mathematics 1000  
CR: COMP 1600, COMP 2801, or the former Business 2700  
PR: Level III Advanced Mathematics or Mathematics 1000 or Mathematics 1090 (or equivalent)

**2710 Object-Oriented Programming II (F) & (W)** continues from Object-Oriented Programming I, and studies object-oriented and event-driven programming. Additional topics include: recursion, basic analysis of algorithms, fundamental data structures such as simple linked structures and stacks, and fundamental computing algorithms such as binary search and quadratic time sorting. A brief overview of programming languages, virtual machines and language translations is also provided.

LH: 3  
PR: COMP 1710

**2711 Introduction to Algorithms and Data Structures (F) & (W)** includes the study of standard ways of organizing and manipulating data in computer storage. Fundamental concepts in the design and analysis of algorithms are also discussed.

LH: 3  
PR: COMP 2710. It is recommended that students complete COMP 2742 prior to registering for COMP 2711

**2742 Logic for Computer Science (F) & (W)** is an introduction to propositional and predicate logic with applications. The use of the system of boolean logic in reasoning and circuit design, as well as basic proof techniques and the resolution principle, for both propositional and predicate logic, will be covered. Concepts involving sets will be used to illustrate different types of proof techniques. The probable intractability of boolean logic and Goedel's incompleteness theorem will be presented.

PR: COMP 1710

**2752 Introduction to Business Data Processing (F)** - inactive course.

**2760 Encountering the Computer: Society and the Individual (F) & (W)** examines social, ethical, legal and cultural issues surrounding the use of computers in modern society. These broader social issues are followed by an examination of the use of social and individual psychology in user interface design. Students will be expected to demonstrate an understanding of these issues both directly (through verbal and written discourse) and practically, as applied to the creation of actual software artifacts.

CO: COMP 2710  
PR: two 1000-level English courses, or equivalent

**2801 Introductory Computing for Business (F) & (W)** introduces students to computer applications in business, document processing, application development, decision support, and information management. A three hour laboratory is required.

CO: Mathematics 1000  
CR: COMP 1600, COMP 2650, or Business 2700  
PR: Level III Advanced Mathematics or Mathematics 1000 or Mathematics 1090 (or equivalent)

## 8.4.3 Third Year Courses

**3700 Industrial Experience (F), (W), (S)** is a course for students who are admitted to CIIO. Students are required to register for this non-credit course every semester during their internship. This course is open only to students who have been accepted into the Internship Program and provides an opportunity for qualified students to obtain rewarding job experience of 8, 12 or 16 months of continuous duration, during the course of their studies.

CH: 0  
PR: admission to the Computer Industry Internship Option (CIIO)

**3710 Vocational Languages (W)** is a study of several programming languages of vocational significance (e.g. a selection from C, C++, Prolog, Perl, Python and LISP). The use of appropriate programming paradigms to solve some significant problems.

PR: COMP 2711

**3714 Programming Languages and their Processors (F) & (W)** reviews typical elements of (imperative) programming languages, and then discusses language implementations in the form of compilers and interpreters. The topics include specification of syntax and semantics of programming languages, discussion of expressions and assignments, side effects, control structures, data and procedural abstractions, parameter passing mechanisms, bindings, scopes, and type systems. The recursive-descent technique is used for illustrations of different aspects of syntax analysis, code generation and error recovery. Language interpreters are discussed for both low-level and high-level languages.

PR: COMP 3719 and 3724

**3715 Network Computing with WEB Applications (F) & (W)** studies how distributed applications (e.g., client/server Web applications) are constructed using the Internet. Topics covered include: the socket interface for network communication, client/server applications, browser scripting using Javascript, content generation for web applications (e.g., jsp, php), html/css documents, and the use of cryptography to handle security.

PR: COMP 2711

**3716 Software Methodology (F) & (W)** studies the development of software by gathering the requirements of the software program, analysing the requirements to create a development model, and creating the software and documents for the software product. This course studies techniques for all three software development activities.

PR: COMP 2711

**3717 Symbolic Computation and Recursion (W)** - inactive course.

**3718 Programming in the Small (F)** demonstrates the tools and techniques used in the construction of small software systems. The software tools and techniques to be covered include analysis and design of software components, software construction tools (e.g. linkers, builders, debuggers), software library use and design, and system integration.

PR: COMP 2711 and Pure Mathematics 2320

**3719 Theory of Computation and Algorithms (F) & (W)** is an introduction to formal algorithmic problem solving. Various algorithm design techniques that sometimes yield efficient solutions are studied. Deterministic and nondeterministic machines (finite state automata, pushdown automata and Turing machines) are discussed and used to efficiently solve problems such as the String Matching Problem, the parsing of Context-free Languages, and to introduce the theory of NP-completeness. In addition, Turing machines are used to prove the unsolvability of certain problems. Tractable, intractable and undecidable problems are contrasted. Basic issues related to parallelization are discussed as well.

CR: the former COMP 3711 and the former COMP 3740  
PR: COMP 2711 and Pure Mathematics 2320

**3723 Logic Design (F)** - inactive course.

**3724 Computer Organization (F) & (W)** can be studied at the digital logic implementation level, the instruction set architecture level, and the

translation of programming languages to the underlying machine instruction level. This course studies computer organization at these levels.

CO: Pure Mathematics 2320  
PR: COMP 2711 and COMP 2742

**3725 Computer Architecture and Operating Systems (F) & (W)** covers system design and the architectural implementations of these designs. The objective is to develop the basic concepts of processor design, memory management, operating systems, and I/O devices and their interactions.  
PR: COMP 3724

**3731 Introduction to Scientific Computing (W)** main objectives are the development of algorithms for the numerical solution of mathematical problems and the study of the numerical stability of these algorithms. The efficiency of these algorithms with respect to speed and storage requirements is considered as well. Emphasis is also placed on the study of the sensitivity of selected problems to perturbations in the data. There is also a brief introduction to the development of numerical algorithms that take advantage of advanced computer architectures, such as pipeline processors, array processors and parallel processors.  
CR: Applied Mathematics 3132  
PR: Mathematics 2000 and Mathematics 2050, and one of COMP 2602 or COMP 2710

**3751 Computational Aspects of Operations Research (W)** - inactive course.

**3753 Computational Aspects of Linear Programming (F)** is an introduction to the Linear Programming Problem (LPP). The emphasis is placed upon developing the most recent and numerically reliable algorithms for the solution of the Linear Programming Problem. The numerical stability of these algorithms will be examined as well. Geometric understanding of the LPP. Simplex method for the LPP. Sparse matrix LPP. Duality and postoptimality analysis. Extensions to the simplex algorithm. Principles of interior algorithms for the LPP.  
PR: Mathematics 2050, and one of COMP 2602 or 2710

**3754 Introduction to Information and Intelligent Systems (F) & (W)** introduces students to application areas that are away from usual number-based and text-based processing. Students will learn the basic concepts and become aware of the historical developments and social and ethical issues related to the application areas such as intelligent systems and information management. This exposure will help students to become knowledgeable about managing large volumes of data and dealing with problems that are well defined but whose algorithmic solutions are not feasible or problems that are fuzzily defined.  
PR: COMP 2711 and COMP 2742

**3790 Directed Readings** - inactive course.

## 8.4.4 Fourth Year Courses

**4711 Structure of Programming Languages** covers programming language design considerations; syntactic and semantic structure; survey of typical features and operations; analysis of facilities for control and data structuring; language extensibility; execution models; formal specification of programming languages.  
PR: COMP 3719 and COMP 3724

**4712 Compiler Construction** studies properties of formal grammars and languages; syntax-directed parsing and code generation; top-down and bottom-up parsing methods; LL(k) and LR(k) grammars and parsers; Code optimization; compiler writing tools.  
PR: COMP 3719 and COMP 3724

**4715 and 4717 Special Topics in Programming Languages**

**4718 Survey of Software Engineering** surveys the major topics of software engineering. Areas covered include: requirements capture, system design and design approaches, verification and validation (including formal methods and testing), and management of the software development process.  
PR: COMP 3716

**4719 Software Specification** - inactive course.

**4721 Operating Systems** studies the design and implementation of an operating system's kernel. The main components used in operating system implementations include: context switches, process management, memory management, interprocess communication, file systems and system calls. The data structures and algorithms used in implementing the above components are studied. The different architectural styles of kernel implementation are also considered. Real-time operating systems are also discussed.  
CR: Engineering 8894  
PR: COMP 3725

**4723 Introduction to Microprocessors** examines the architecture and instruction sets for several microprocessors. The use of microprocessors as device controllers; comparisons of hardware and programmed techniques; microprocessor interfacing with external devices; methods of I/O; bus

structures; modern microprocessor support devices are discussed.

LH: Minimum of three hours per week. Practical experience with basic principles will be obtained through laboratory experience.  
PR: COMP 3724

**4725 Introduction to LSI Design** - inactive course.

**4726-4729 Special Topics in Computer Systems**

**4734 Matrix Computations and Applications** is an introduction to linear algebra; solution to linear systems; scaling, improving and estimating accuracy; the linear least squares problem; the eigenvalue problem; singular value decomposition of a matrix; the generalized eigenvalue problem.  
PR: COMP 3731

**4735 Advanced Matrix Computations and Applications** - inactive course.

**4736-4739 Special Topics in Numerical Computations**

**4740 Design and Analysis of Algorithms** will give an overview of techniques for the design of efficient optimal-solution and heuristic algorithms. It will include an introduction to various advanced data structures for set and string processing that are used to further optimize algorithm efficiency.  
PR: COMP 3719

**4741 Formal Languages and Computability** is an in-depth study of various types of formal machines and their associated languages. Effective computability and other formalisms, such as lambda calculus will be studied as well.  
CR: the former COMP 3740  
PR: COMP 3719

**4742 Computational Complexity** is an in-depth discussion of computational complexity theory. Topics covered in the course include: models of computation (for both serial and parallel computations); complexity measures; reducibility; complexity classes (NP, PSPACE, NC, LOGSPACE and P); and randomized computations.  
PR: COMP 3719

**4743 Graph Algorithms and Combinatorial Optimization** discusses classical problems in combinatorial optimization and graph algorithms, including matching, colorability, independent sets, isomorphism, network flows and scheduling. Special families of graphs are discussed and algorithms that would otherwise be NP-hard or complete are shown to be polynomial time when restricted to such families.  
PR: COMP 3719

**4745-4749 (Excluding 4748) Special Topics in Theoretical Aspects**

**4748 Introduction to the Science of Complexity** is an exploration of the use of computers in the simulation of complex systems. Some theories and models, such as cellular automata, artificial life, fractals, genetic algorithms, chaos and evolution will be discussed and will be used in the modelling of "real-life" systems. The approach in this course is practical. Students have to write a number of programs of different levels of sophistication including a final project.  
PR: COMP 3719

**4751 Computer Graphics** examines display devices, display processors, display file compilers, display transformations, structured display files, graphical input devices, perspective, hidden line elimination, languages and graphics systems.  
LH: 3  
PR: COMP 3719 and Mathematics 2050

**4752 Introduction to Computational Intelligence** provides an introduction to four of the fundamental computational intelligence methods: artificial neural networks, evolutionary computation, swarm intelligence and fuzzy systems. The integration of these techniques for problem solving will also be introduced.  
PR: COMP 3719 and COMP 3754

**4753 Artificial Intelligence** has selected topics from AI programming languages; heuristic searching; problem solving; game-playing; knowledge representations; knowledge-based systems; reasoning in uncertainty situations; planning; natural language understanding; pattern recognition; computer vision; and machine learning.  
PR: COMP 3719 and 3754

**4754 Database Systems** introduces students to database processing, database management systems and database design considerations. It will cover the theory and methodologies essential for the relational database design, implementation, manipulation, optimization and management.  
PR: COMP 3725 and 3754

**4756 Image Processing** will centre on the key analytical and algorithmic tools and concepts of digital image processing. Topics will include Transformations, Enhancement, Encoding, Data Bases, Segmentation and Description.  
LH: 3

PR: COMP 3719

**4759 Computer Networks** looks at how the operation of computer networks requires the following: a) communication between two computers, b) information transfer between two computers not directly connected, and c) services that need computer communication. This course focuses on the standard solutions and services used to fulfill the previous requirements. These include: physical transmission of signals, reliable communication based on unreliable communication channels, the routing of messages between connected computers to reach computers that are not directly connected, e-mail, file transfer, name servers, remote terminal access and the World Wide Web. Particular attention will be placed on the workings of the Internet.

PR: COMP 3715 and COMP 3725

**4761 Human-Computer Interaction** - inactive course.

**4762 Introduction to Computational Molecular Biology** will give an overview of computational problems and algorithms for these problems associated with a variety of analyses of biological molecular data.

PR: COMP 3719

**4766 Introduction to Autonomous Robotics** examines the fundamental constraints, technologies, and algorithms of autonomous robotics. The focus of this course will be on computational aspects of autonomous wheeled mobile robots. The following topics will be covered: major paradigms in robotics, methods of locomotion, kinematics, simple control systems, sensor technologies, stereo vision, feature extraction, modelling uncertainty of sensors and positional information, localization, SLAM, obstacle avoidance, and 2-D path planning.

PR: COMP 2711, Mathematics 2000, Mathematics 2050, and Statistics 2510

**4767 Information Visualization and Applications** focuses on the design and implementation of interactive visualization techniques for the analysis, comprehension, exploration, and explanation of large collections of abstract information. Topics to be covered include principles of visual perception, information data types, visual encodings of data, representation of relationships, interaction methods, understanding user goals and tasks, and evaluation techniques. Case studies of accepted techniques and the current

state-of-the-art in information visualization will be presented.

PR: COMP 2760 and COMP 3719

**4768 Software Development for Mobile Devices** focuses on the design and implementation of software in a mobile networking environment. The primary topics to be covered in this course include software engineering, network computing, graphics programming, and human-computer interaction for mobile devices. A modern mobile device with advanced networking and graphic features, including multi-touch interaction and motion sensors will be used as the primary platform for development in this course.

LH: One and one-half hours per week

PR: COMP 2760, COMP 3715 and COMP 3716

**4770 Team Project** has as its main objective to develop a working prototype of a software system as a team effort. A group of students will work on a project for a term, experiencing the advantages and difficulties of team projects.

PR: COMP 3716, COMP 3724, COMP 3754, and one other 3000-level course, preferably COMP 3715

**4780 Honours Project** introduces computer science honours students to research activities, familiarizes them with a special problem in computer science, and provides independent study on an advanced topic under the direct supervision of a member of the computer science faculty. The topic is decided in consultation with the supervisor. The student is required to produce a written report on the project, to include the literature search on the topic, and to present this work at a departmental seminar prior to the last week of the semester.

PR: admission to the honours program and permission of the Head of Department

**4800-4825 Special Topics** will be offered as departmental resources permit.

CO: Special topics courses are not offered on a regular basis, but whenever departmental resources permit. For these reasons, the co-requisites can vary each time the courses are offered.

PR: Special topics courses are not offered on a regular basis, but whenever departmental resources permit. For these reasons, the prerequisites can vary each time the courses are offered.

## 8.5 Earth Sciences

The first digit of each course number designates the level (year) of the course. The second digit indicates the area of Earth Sciences into which the course best fits, as follows:

### Second Digit

0 - mineralogy and petrology

1 - geophysics

2 - economic geology

3 - stratigraphy and marine geology

4 - structural geology and tectonics

5 - geochemistry

6 - technical fields and petroleum geology

7 - sedimentation, geomorphology

8 - paleontology

9 - general and dissertation

Earth Sciences courses are designated by EASC.

### 8.5.1 First Year

**1000 Earth Systems** is a survey of the structure, function and interrelations of Earth's lithosphere, hydrosphere, atmosphere and biosphere. Topics include an exploration of the physical and chemical properties of planetary materials, forces driving and sustaining Earth systems, and biological modifiers (including humankind) on the Earth today.

LH: 3

**1001 Evolution of Earth Systems** - inactive course.

**1002 Concepts and Methods in Earth Sciences** provides an introduction to a broad range of concepts concerning the development of the geological record and the Earth; practical methods for collection of field based data; topics in map interpretation and geometric analysis, stratigraphy, paleontology, structure and petrology. The course is presented with an emphasis on the development of practical skills needed to pursue a career in Earth Sciences.

LH: 3

PR: EASC 1000

### 8.5.2 Second Year

**2030 Mineralogy (F)** provides an introduction to crystallography and the structure of minerals; introduction to crystal optics; study of the rock forming minerals and minerals of economic significance. Laboratory work comprises study of the structures and symmetries of minerals, chemistry of rock

forming minerals, introduction to transmitted light microscopy of rocks, hand specimen recognition of common rocks and minerals.

CO: EASC 2502

CR: the former EASC 203A/B

LH: 3

PR: EASC 1000, Chemistry 1011 (or 1051 or equivalent), Physics 1051 (or 1021 or 1054), and Mathematics 1000

**2031 Mineralogy and Petrography (W)** examines the optical and chemical properties of rock-forming minerals, the petrography and classification of igneous and metamorphic rocks and applications of relevant phase equilibria to the study of minerals. Laboratory work comprises optical mineralogy and petrography of igneous and metamorphic rocks.

CO: Mathematics 1001

CR: the former EASC 203A/B

LH: 3

PR: EASC 2030, 2502, Mathematics 1001

**2150 The Solar System (F) & (W)** describes the basic astronomy of the Solar System, tracing the search to understand motion of the Sun, Moon and planets in the sky; modern observations of planets, moons, comets, asteroids and meteorites and what they tell us about the origin and evolution of the Solar System.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences

**2311 Geoscience Communication (W)** - inactive course.

**2401 Structural Geology (W)** provides an introduction to basic concepts; the physics of rock deformation, the classification and descriptive geometry of major and minor structures and their relationship to stress and strain. Laboratory work will concentrate on analysis of structural orientation data, and the analysis of structures in geological maps and cross-sections. Earth Sciences majors are advised to complete field course, EASC 3905, immediately following completion of this course.

CR: the former Geology 3120 or the former EASC 3120 or the former EASC 3400

LH: 3

PR: EASC 2905 or (for students following a Minor in Earth Sciences) permission of the Head of the Department

**2502 Introduction to Geochemistry (F)** provides an overview of both low- and high-temperature geochemistry. Topics include: origin and classification of the elements; chemical differentiation of the solar system and solid Earth; aqueous geochemistry and the stability of minerals; radiogenic and stable isotopes. Geochemical concepts are illustrated using data and processes drawn from Earth systems. The laboratory component emphasizes the development of numerical skills needed in geochemistry.

CO: Mathematics 1001

LH: 3

PR: EASC 1000, Chemistry 1011 (or 1051 or equivalent)

**2702 Sedimentology and Stratigraphy (F)** is a study of the origin and composition of sediments with a focus on depositional processes and resulting sedimentary structures. Study of environments of deposition and the stratigraphic framework of sedimentary successions. Laboratories involve local field trips and the study of hand samples of sedimentary rocks.

CR: the former Geology 3070 or the former EASC 3070 or the former EASC 3701

LH: 3

PR: EASC 1002

**2905 Introduction to Geological Mapping (F)** is based on approximately six days of geological mapping in Precambrian rocks near St. John's, and two days of in-class work preparing a digital map and written report. Emphasis is placed on the recognition and description of sedimentary and igneous rocks in the field, and techniques of geological mapping and the taking of field notes. This course will be given during a special session immediately preceding the fall semester.

AR: attendance is required

CH: 2

CR: the former EASC 2310 or the former EASC 2300

OR: field based course

PR: EASC 1002 and an application to the Head of the Department

**2914 The Earth's Energy Resources: Past, Present and Future (F)** (formerly Geology 2414 and EASC 2414) provides a scientific analysis of the Earth's energy resources. The history of human exploitation of them; consequences for quality of life, and political and economic power; scenarios for the future. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

CR: the former Geology 2414 and the former EASC 2414

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

**2915 The Earth's Material Resources: Past, Present and Future (W)** (formerly Geology 2415 and EASC 2415) provides a scientific analysis of the Earth's material resources (metals, non-metals, water). The history of human exploitation of them; consequences for quality of life, and political and economic power; scenarios for the future. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

CR: the former Geology 2415 and the former EASC 2415

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

**2916 Natural Hazards on a Dynamic Earth (W)** describes the surface of the Earth being in a constant state of change, thereby posing risks and challenges for society. An understanding of geological processes in the past and present provides context for evaluating risks related to earthquakes, volcanic activity and mass movements, challenges related to water resources, land-use planning and waste disposal, and the background to interpret sources and consequences of climate change. The course will provide a broad perspective on contemporary issues facing society. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

**2917 Gems: the science and politics** introduces students to precious and semi-precious stones both from the perspective of their nature and origin and from the perspectives of geography and the socio-political issues of mining, recovery, trade and cartels. The properties that confer value upon

gems (colour, clarity, cut and carat), the techniques used to enhance, fake and imitate gems and the techniques used to detect fraudulent "gems" will be covered. The course will include discussion of the diamond industry in Canada and consideration of some famous gems. This course is designed for students taking Earth Sciences as an elective subject. This course complements traditional disciplines such as history, economics, and political science and should be of particular interest to teachers.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences.

### 8.5.3 Third Year

**3030 Mineralogy and Materials Science** provides a review of elementary crystallography, introduction to space groups and crystal structures, bonding, properties of metals, semiconductors and insulators, crystallographic aspects of order-disorder, solid solution and mixing. Crystal growth, chemical zoning and diffusion. Phase changes in the solid state (exsolution, polymorphism and polytypism). Students will be introduced to the techniques used to study solids (X-ray diffraction, scanning and transmission electron microscopy, electron-microprobe analysis, luminescence, and computer simulation). Laboratory work will emphasize practical skills using these techniques. Examples will be chosen from among minerals, ceramics, semiconductors, metals and glass, making the course suitable for Earth Scientists, Engineers, Chemists and Physicists.

LH: 3

PR: EASC 2030 or equivalent or permission of the instructor

**3054 High-Temperature Geochemistry and Igneous Petrology (F)** is an integrated course dealing with the geochemistry, origin and classification of igneous rocks. Topics include trace element geochemistry; physical properties of magmas, physical and chemical processes in magma chambers (fractional crystallization, differentiation, assimilation and partial melting), phase equilibria and application to magmas, petrology of the mantle, and igneous rocks of specific tectonic settings (oceanic lithosphere, continental margins, continental lithosphere). Laboratories include geochemical calculations and examination of rock samples and thin sections.

CR: the former EASC 3053 in combination with the former 2503

LH: 3

PR: EASC 2031 and 2502

**3055 Thermodynamics and Metamorphic Petrology (W)** is an integrated course dealing with the geochemistry, origin and classification of metamorphic rocks. Topics include thermodynamic background and kinetics (transfer of mass and energy in geochemical systems of the Earth's interior, thermodynamic laws, phase equilibria, solid-solid reactions, reaction rates); metamorphic facies, field gradients, isograds and reactions; mineral assemblages and textures of common metamorphic rocks. Laboratories include thermodynamic and phase diagram problems, hand specimen and thin section studies.

CR: the former EASC 3053 in combination with the former 2503

LH: 3

PR: EASC 2031 and 2502, Mathematics 1001

**3170 Exploration Geophysics I (W)** examines fundamentals of seismic energy transmission in the Earth; basic methods in seismic exploration - data acquisition, processing and interpretation for refraction and reflection surveys; fundamentals of gravity and magnetic data acquisition, processing and interpretation; introduction to gravity and magnetic modelling.

CO: EASC 2905

LH: 3

PR: EASC 2905, Physics 1051 (or 1021 or 1054); Mathematics 1001; Mathematics 2000 or Statistics 2510.

**3172 Exploration Geophysics II (F)** is an introduction to electrical and electromagnetic methods in geophysics applied in mineral exploration, petroleum well logging and environmental studies, and examples of application of various techniques; use of data processing and modelling techniques in interpretation; introduction to radiometric methods used in mineral and petroleum exploration.

CO: EASC 2905

LH: 3

PR: EASC 2905, Physics 1051 (or 1021 or 1054); Mathematics 1001; Mathematics 2000 or Statistics 2510

**3179 Geophysical Analysis** covers Vector Calculus; curvilinear coordinates; line, surface and volume integration; integral theorems; the derivation and application of geophysically important partial differential equations - Laplace's equation to the Earth's gravity and magnetic fields, the diffusion equation to the Earth's heat flow, and the wave equation to electromagnetic and seismological phenomena; geophysical uses of Legendre functions; Fourier analysis in geophysics. The laboratory component will familiarize the student with practical applications of the tools discussed.

LH: 3

PR: Mathematics 2000, Physics 2055 and 2820

**3210 Economic Mineral Deposits (W)** is an introduction to the study of

mineral deposits and definition of the basic physio-chemical parameters of ore deposit formation. The course involves a systematic review of genetic models for the principal types of metallic mineral deposits, and links these models to a common theme of the relationship between lithosphere-hydrosphere-biosphere interactions and metallogeny. Laboratory exercises involve examination of representative suites of samples from different types of metallic mineral deposits and provide an introduction to the use of reflected light microscopy.

LH: 3

PR: either EASC 2031, 2502 and 2905; or EASC 2031 and Chemistry 3211; or Engineering 3610 and the former Engineering 3205

**3420 Global Tectonic Processes** examines how horizontal and vertical motions of the Earth's surface are influenced by heat and mass transfer within its interior. Surface motions are described qualitatively and quantitatively within the framework of plate tectonics, and used to identify major controls on the igneous, metamorphic and sedimentary rock records. Laboratory exercises emphasize geologic and geophysical applications of the material developed in lectures.

CR: the former EASC 2070, 2161, 2400 and 4901

LH: 3

PR: EASC 2031, 2401, 2502, 2702, Mathematics 1000 and 1001, Physics 1021 or 1051

**3600 Environmental Geology (F)** examines the application of basic concepts and fundamental principles of geochemistry in evaluating natural and human-induced change through time on the interaction of the Earth's lithosphere, hydrosphere, atmosphere and biosphere; includes the effects of contaminants on global change. Laboratory time will be used for short field-based studies and for exercises examining the effects of contaminants on global change.

LH: 3

PR: either EASC 2502; or EASC 1000, Chemistry 2210 and Chemistry 2300

**3611 Engineering Geology (W)** examines basic concepts in soil, rock and fracture mechanics; classification of soil, rock and rock masses; special topics include the engineering and environmental aspects and issues of: slope development and underground excavations in soils and rocks; the development of hydroelectric and irrigation projects; the nuclear fuel cycle; resource developments in sensitive terrains.

CR: the former EASC 4611

LH: 3

PR: Mathematics 1001 or permission of instructor.

**3702 Lithification, Diagenesis and Sedimentary Rock Properties** provides a conceptual and practical overview of the transformation of sediments into sedimentary rocks through compaction, cementation and mineral reactions, and the resultant modifications of rock composition, rock fabrics, and associated porous media characteristics (e.g. porosity). Both descriptive and analytical methods are integrated in laboratories that include carbonate and sandstone petrology (hand samples and thin sections), geological analysis of selected wireline logs, and the analysis of fluid reservoir properties.

LH: 3

PR: EASC 2031, 2702 and 2905

**3705 Field Course in Sedimentology, Reservoir Architecture and Sequence Stratigraphy** is a ten day field and lecture based course normally offered in the first two weeks of the Spring semester that aims to teach students to use sedimentological and palaeontological data for palaeoenvironmental analysis. The course will demonstrate the use of sedimentary facies models and facies architectural studies in reservoir geology, particularly when coupled with the principles of sequence stratigraphy. Students will be taught to create sedimentary logs and facies architectural panels.

CO: EASC 2702, 3811, 3905

CR: the former EASC 4700 or the former Geology 4700

OR: field based course

PR: EASC 2702, 3811, 3905

**3811 Paleontology (W)** outlines the major changes in life forms from Archean times through the Phanerozoic to the present day, including details of invertebrate and vertebrate faunas and major floral groups; mechanisms and effects of mega- and micro-evolution in the fossil record; biology and classification of organisms and summaries of their geological significance in biostratigraphy, paleoecology and rock-building; relationships between major cycles of evolution and extinction to global processes.

CR: Biology 3811 or either the former EASC 3801 or the former Biology 3800

LH: 3

PR: either Biology 2120 (or Biology 1001 and 1002) and EASC 1002; or Biology 2122 and 2210

**3905 Field Methods in Structural Geology and Stratigraphy (W)** is based on approximately 5 days of geological mapping in Precambrian rocks near St. John's. Emphasis is placed on application of techniques of structural analysis. Evenings will be dedicated to data analysis and preparation of structural maps and sections. Students are advised to complete this course

immediately following EASC 2401. This course will be given during a special session immediately following the Winter semester examination period.

AR: attendance for all of the field school days is required. Failure to attend may result in a failing grade or withdrawal from the course.

CH: 1

OR: field based course

PR: EASC 2401 and 2905 and an application to the Head of the Department

## 8.5.4 Fourth Year

**4053 Petrogenesis of Igneous Rocks** investigates the origin of topical and important groups of igneous rocks based on experimental petrology, phase equilibria and application of geochemical tools. It further investigates the classification of igneous rocks, including the study of volcanoclastic rocks and aspects of physical volcanology. The laboratory component of the course emphasizes practical aspects of igneous petrology including geochemical characterization and use of hand-sample and field criteria.

LH: 3

PR: EASC 3054 and 3420

**4054 Metamorphic Petrology** examines relationships between metamorphism and tectonics, representation and interpretation of metamorphic mineral assemblages using compositional phase diagrams and petrogenetic grids; equilibrium thermodynamics and thermobarometry; determination of P-T-t paths. Laboratories include use of the electron microprobe to collect data for use in calculations of the conditions of formation of metamorphic assemblages, and various types of software applicable to metamorphic petrology.

LH: 3

PR: EASC 2401, 3055 and 3420

**4105 High Resolution Geophysics** is a senior level field based course in high resolution geophysics with an emphasis on environmental applications. Topics to be covered include Ground Probing Radar, methods in refraction seismic, high resolution magnetic surveys, microgravimetry surveys, electrical and electro-magnetic methods. This course has a laboratory component in which students conduct a series of surveys over a specific site and process and interpret the collected data.

LH: 3

PR: EASC 3170, 3172 and 3179

**4171 Exploration Geophysics III** examines techniques involved in the acquisition, processing and interpretation of multichannel seismic reflection data. Introduction to elastic properties of rocks. Introduction to advanced processing and interpretation techniques as applied to qualitative and quantitative evaluation of hydrocarbon reservoir characteristics. This course has a laboratory component designed to provide hands-on experience with data processing and interpretation.

LH: 3

PR: EASC 3170 and 4179

**4173 Exploration Geophysics IV** examines advanced techniques in electrical and electromagnetics exploration methods including advanced IP, airborne EM surveys, EM and IP modelling, and inversion techniques; advanced methods in gravity and magnetic field exploration techniques including 2 ½-D and 3-D modelling and inversion, map processing techniques, and excess mass determination.

LH: 3

PR: EASC 3170 or 3172; and EASC 4179

**4179 Digital Signal Processing** is an introduction to the theory and basic computational techniques of digital signal processing in geophysics. Topics covered include: sampling, Fourier transformation, design and application of digital filters, deconvolution, spectral analysis, two dimensional signal processing, with emphasis on geophysical applications.

LH: 3

PR: EASC 3179

**4211 Economic Geology** provides a detailed look at the methodologies and techniques used in the study of mineral deposits and their applications in case histories. Laboratory exercises involve solving problem sets using the various types of data from selected case studies.

LH: 3

PR: EASC 3054 or 3055; and EASC 3210

**4302 Advanced Marine Geology** examines the geology and geophysics of ocean basins; discussion of methods of oceanic exploration, the history and development of ocean basins, interrelationships between ocean water, marine organisms, sedimentary and igneous processes.

PR: EASC 1001 or 1002 and completion of any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, Physics, or Geography.

**4310 Earth Science Concepts, Materials and Techniques for Archaeologists** - inactive course.

**4400 Advanced Techniques in Structural Geology** examines modern

techniques of structural analysis applied to fold and fault systems including progressive deformation and strain analysis, fold mechanisms, fold morphology and classification, fold sections and profiles, superposed folding, fault geometry and morphology, brittle and ductile shear zones, and construction of balanced cross-sections.

LH: 3

PR: EASC 2401 and 3905 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

**4420 Tectonics and Crustal Evolution** is a lecture and seminar course covering secular change and tectonic evolution in Earth history from the Archean to Mesozoic, featuring examples from the North American geological record. The course will draw on and link concepts from a variety of Earth Science disciplines and provide an overview of the geological evolution of North America in a tectonic context.

CR: the former EASC 4901

OR: seminar

PR: EASC 3420

**4502 Advanced Geochemistry** focuses primarily on the application of trace, radiogenic and stable isotope geochemistry to constrain the origin, mass balance and chemical fluxes within the Earth's lithosphere and asthenosphere. The course permits students to complete assignments in aspects of geochemistry that reflect their career interests.

LH: 3

PR: EASC 2031 and 2502 and a minimum of 6 credit hours in Earth Sciences at the 3000 level

**4503 Mineral Exploration Geochemistry** is an examination of the application of geochemistry to mineral exploration, covering: the lithochemical characteristics of ore deposits, their host rocks, and element dispersion from them; the principles of sampling and analysis in exploration geochemistry; approaches to the statistical analysis, graphical presentation, and interpretation of survey results; and the design of effective geochemical surveys. Particular emphasis will be placed on case studies relevant to exploration in Newfoundland and Labrador. Laboratory/seminar sessions involve working with exemplary data sets, using computer-based software for statistical analysis and software for searching large databases and viewing the spatial relationships of different types of map data relevant to the mineral exploration industry.

LH: 3

OR: seminar

PR: EASC 3210

**4601 Petroleum Origin and Occurrence** - inactive course.

**4602 Sedimentary Basins and Hydrocarbon Exploration** provides a review of sedimentary basin types and associated petroleum systems including concepts applicable to petroleum generation, migration and accumulation. Regional-scale stratigraphic and structural concepts/models are presented as a framework for hydrocarbon fluid flow and entrapment. Laboratories include description and analysis of data typical of basin- and regional-scale exploration and appraisal of hydrocarbon resources using a variety of integrated, interdisciplinary techniques (geological, geophysical and geochemical).

CR: EASC 4601

LH: 3

PR: EASC 2401, 2702, 3170 and 3420

**4603 Reservoir Characterization** provides a review of the sedimentary, stratigraphic and structural setting of hydrocarbon reservoirs and the geological controls on reservoir quality. Reservoir types and methods of study are presented to evaluate their key properties for the development and production of hydrocarbons. Laboratories include detailed subsurface correlation and mapping, log analysis, interpretation of reservoir data (e.g. capillary pressure, porosity, permeability and production data).

CR: EASC 4601

LH: 3

PR: EASC 2401, 2702, 3170 and 3702

**4610 Hydrogeology** examines geology and its relationship to groundwater occurrence and exploitation: basic theory, groundwater flow systems, surface-groundwater interactions and changes in water quality, field and laboratory techniques, hydrogeological aspects of waste disposal and resource development.

LH: 3

PR: EASC 2502 or permission of instructor

**4720 Carbonate Depositional Environments and Diagenesis** examines carbonate environments and their facies models with examples from modern and ancient settings. Diagenetic environments and diagenetic controls on rock properties, particularly porosity, are examined, as well as their

application in the reconstruction of the diagenetic history of a sedimentary basin and in the characterization of hydrocarbon reservoirs. The application of chemostratigraphy to correlation is discussed. The laboratory exercises apply hand specimen, thin section and geochemical methods to investigate carbonates from different depositional settings and a wide spectrum of diagenetic environments covered in lectures

CO: EASC 3811

LH: 3

PR: EASC 2031, 2702, and 3811

**4800 Advanced Paleontology** (same as Biology 4800) is a field, lecture, laboratory and seminar course dealing with selected topics in general and applied paleontology. Topics include measuring evolution and extinction, population paleontology, functional morphology, paleoecology, statistical methods for paleontological studies, and applications in petroleum, mining, and environmental studies.

CR: Biology 4800

LH: 3

PR: EASC 3811, and Statistics 2510 or Mathematics 2000

**4902 Early Evolution of the Earth (F)** - inactive course.

**4903 Global Change (W)** is a lecture and seminar course that studies the interaction of the atmosphere, biosphere and lithosphere; topics covered include the evolution of the biosphere, fluid circulation, global geochemical budget, global environmental changes, and chemical evolution of the hydrosphere.

OR: seminar

PR: EASC 1001 or 1002, and Biology 2120 (or Biology 1001 and 1002);

and completion of any 15 credit hours in core courses at the 3000 and/or 4000 levels (see General Note 5) in Biology, Biochemistry, Chemistry, Earth Sciences, or Physics; or permission of the instructor.

**4905 Field Course in Geological Mapping and Regional Tectonics (F)** is a two-week field school designed to allow application of techniques introduced in the third year, and to provide an introduction to the Appalachian geology of western and central Newfoundland. Reports must be submitted for grading during the fall semester.

OR: field based course

PR: EASC 2401, 2702, 3055 and 3905; and permission of the Head of the Department

**4910-4920 Special Topics in Earth Sciences** are lecture and seminar courses given for undergraduates in their fourth or fifth year who wish to gain more specialized knowledge in a particular field of Earth Sciences than is possible through the standard course offerings. The Department will consider suggestions by students for Special Topics courses, but it must be borne in mind that such a course should normally be approved at least three months before the start of the semester in which it is to be taken.

PR: permission of the Head of Department

**4950 Technical Report on Geoscience Employment** requires the preparation of a publication-quality technical report, about 50 pages in length, based on a study undertaken during geoscience employment. The topic and scope of the study must be approved by the Head of Department prior to its commencement. Students will present a seminar or seminars on results of the project, and will be closely advised on proper organization and writing of scientific reports. Some directed reading will be required.

PR: completion of 9 credit hours in Earth Sciences at 3000 level, and permission of the Head of Department

UL: can only be used as an "additional course" under point 3. of the regulations for General degrees, and under point 4. of the regulations for Honours degrees. The same study cannot be used as the basis of a dissertation completed for course EASC 499A/B.

**499A and 499B Dissertation** is an independent study of an approved problem in the Earth Sciences. The subject of study will be decided in consultation with Faculty Advisors and must be approved in advance by the Head of Department. The first semester will normally involve directed reading, supervised field and/or laboratory work, and preparation of a dissertation outline and draft of a first chapter of the thesis. The second semester will be devoted to data synthesis and interpretation, to a seminar presenting the thesis results, and to preparation of a formal written report accompanied by appropriate illustrations, to be submitted for grading one week before the end of classes.

CH: 6

PR: admission to the Honours program

UL: The dissertation cannot be based on the same study used to obtain credit for EASC 4950. May be used as Science credits by students not in the Honours program with permission of the Head of the Department.

## 8.6 Economics

For course descriptions, see **Faculty of Arts** section of the Calendar.

## 8.7 Geography

For course descriptions, see **Faculty of Arts** section of the Calendar.

## 8.8 Mathematics and Statistics

In the descriptions of the courses which follow, the symbol (F) represents the Fall and (W) represents Winter. These labels are intended to indicate the semester when the course is generally offered. Unlabelled courses are offered as demand or programs dictate and as resources permit. The Department tries to offer a variety of 1000-, 2000- and 3000-level courses during the Spring semester (or intercession or Summer session) every year. Students are encouraged to consult the Department regularly for specific planned offerings, semester by semester.

### 8.8.1 Foundation Courses

**102F Mathematics Skills Program** is intended for those students who either have a weak background in mathematics or are returning to the subject after some years. The program enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, integers, exponents, linear equations, algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry, exponents and radicals, and quadratics.

CH: 0

**102N Mathematics Skills Program for the B.N. (Collaborative) Program** is a non-credit course intended for students of the B.N. (Collaborative) Program who have a weak background in mathematics and/or have not done mathematics in some years. The program enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, units of measurement, ratios and proportions.

CH: 0

**103F Mathematics Skills Program** is intended for those students who either have a weak background in mathematics or are returning to the subject after some years. The program enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, integers, exponents, linear equations, algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry, exponents and radicals, and quadratics.

CH: 0

PR: Mathematics 102F

**104F Mathematics Skills Program** is intended for those students who either have a weak background in mathematics or are returning to the subject after some years. The program enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, integers, exponents, linear equations, algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry, exponents and radicals, and quadratics.

CH: 0

PR: Mathematics 103F

### 8.8.2 Accelerated M103F/M1051 Mathematics Skills Program/Finite Mathematics II (W)

**103F Mathematics Skills Program/Finite Mathematics II** is a non-credit course enabling students to master mathematics operations such as those involving algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry and number systems. Mathematics 1051 is a credit course with topics including elementary matrices, linear programming, elementary number theory, mathematical systems and geometry.

CH: 0

CO: Mathematics 102F and a recommendation by an MLC instructor resulting in approval by the MLC Director

LH: three 50 minute classes and two 75 minute classes per week

PR: Mathematics 102F and a recommendation by an MLC instructor resulting in approval by the MLC Director

### 8.8.3 Common Core Mathematics Courses

Mathematics courses are designated by MATH.

**1000 Calculus I (F) & (W)** is an introduction to differential Calculus including logarithmic, exponential and trigonometric functions.

CR: the former 1081

LC: 4

PR: MATH 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department

**1001 Calculus II (F) & (W)** is an introduction to integral Calculus with applications.

CR: the former Engineering 1411 or the former Engineering 2413

LH: one and one-half hour problem lab

PR: MATH 1000 or the former 1081

**1031 Mathematical Problem Solving** - inactive course.

**1050 Finite Mathematics I (F) & (W)** covers topics which include sets, logic, permutations, combinations and elementary probability.

CR: the former MATH 1150

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F

UL: With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

**1051 Finite Mathematics II (F) & (W)** covers topics which include elementary matrices, linear programming, elementary number theory, mathematical systems, and geometry.

CR: the former MATH 1151

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department or MATH 103F

UL: With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

**1090 Algebra and Trigonometry (F) & (W)** provides students with the essential prerequisite elements for the study of an introductory course in calculus. Topics include algebra, functions and their graphs, exponential and logarithmic functions, trigonometry, polynomials, and rational functions.

CR: if previously completed or currently registered for MATH 1000, 1001, the former 1080, or the former 1081

LC: 4

PR: a combination of placement test and high school Mathematics scores acceptable to the Department or MATH 104F

**2000 Calculus III (F) & (W)** is a study of the differential calculus of functions of two variables, an introduction to convergence of infinite sequences and series.

CR: the former Engineering 1411, Engineering 1412, Engineering 2412, or Engineering 2413

LH: one and one-half hour problem lab

PR: MATH 1001

**2050 Linear Algebra I (F) & (W)** includes the topics: Euclidean n-space, vector operations in 2- and 3-space, complex numbers, linear transformations on n-space, matrices, determinants, and systems of linear equations.

CR: the former Engineering 2402

PR: A combination of placement test and high school Mathematics scores acceptable to the Department or 3 credit hours in first year Mathematics courses

**2051 Linear Algebra II (F) & (W)** includes the topics: real and complex vector spaces, basis, dimension, change of basis, eigenvectors, inner products, and diagonalization of Hermitian matrices.

PR: MATH 1000 and 2050

**2075 Introduction to the History of Mathematics** - inactive course.

**2090 Mathematics of Finance** covers the topics: simple and compound interest and discount, forces of interest and discount, equations of value, annuities and perpetuities, amortization schedules and sinking funds, bonds and other securities, contingent payments.

PR: MATH 1001

**2091 Introduction to Actuarial Mathematics** - inactive course.

**3000 Real Analysis I (F) & (W)** covers proof techniques, structure of the real numbers, sequences, limits, continuity, uniform continuity, differentiation.

CR: the former MATH 2001

LH: 1

PR: MATH 2000

**3001 Real Analysis II (F) & (W)** examines Infinite series of constants, sequences and series of functions, uniform convergence and its consequences, power series, Taylor series, Weierstrass Approximation

Theorem.

CR: the former Applied Mathematics 3201 and Pure Mathematics 3201  
LH: 1  
PR: MATH 3000

**4000 Lebesgue Integration (F)** includes a review of the Riemann integral, functions of bounded variation, null sets and Lebesgue measure, the Cantor set, measurable sets and functions, the Lebesgue integral in  $R_1$  and  $R_2$ , Fatou's lemma, Monotone and Dominated Convergence Theorems, Fubini's Theorem, an introduction to Lebesgue-Stieltjes measure and integration.

CR: the former Pure Mathematics 4400  
PR: MATH 3001

**4001 Functional Analysis (W)** includes metric and normed spaces, completeness, examples of Banach spaces and complete metric spaces, bounded linear operators and their spectra, bounded linear functionals and conjugate spaces, the fundamental theorems for Banach spaces including the Hahn-Banach Theorem, topology including weak and weak\* topologies, introduction to Hilbert spaces.

CR: the former Pure Mathematics 4302  
PR: MATH 3001

## 8.8.4 Applied Mathematics Courses

Applied Mathematics courses are designated by AMAT.

**2130 Technical Writing in Mathematics (W)** is a project oriented course combining mathematical investigation and technical writing. By using computer programming, graphical and typesetting tools, students will explore mathematical concepts and will produce technical reports of professional quality. The latter will combine elements of writing and graphics to convey technical ideas in a clear and concise manner.

PR: admission to Applied or Pure Mathematics major and Mathematics 1001 and (Computer Science 1510 or 1710 or 2710 or 2602; or permission of the Head of Department)

UL: qualifies as a Research/Writing course in the Faculty of Arts

**3100 Introduction to Dynamical Systems (W)** examines flows, stability, phase plane analysis, limit cycles, bifurcations, chaos, attractors, maps, fractals. Applications throughout.

CR: the former AMAT 3190  
PR: AMAT 3260 or Pure Mathematics 3260

**3111 Applied Complex Analysis** examines mapping by elementary functions, conformal mapping, applications of conformal mapping, Schwarz-Christoffel transformation, Poisson integral formula, poles and zeros, Laplace transforms and stability of systems, analytic continuation.

PR: AMAT 3210 or Pure Mathematics 3210

**3132 Numerical Analysis I (W)** includes a discussion of round-off error, the solution of linear systems, iterative methods for nonlinear equations, interpolation and polynomial approximation, least squares approximation, fast Fourier transform, numerical differentiation and integration.

CR: Computer Science 3731  
PR: Mathematics 2000, Mathematics 2050, and a computing course (Computer Science 1510 is recommended).

**3161 Ordinary Differential Equations II (F)** examines power series solutions, method of Frobenius, Bessel functions, Legendre polynomials and others from classical Physics, systems of linear first order equations, fundamental matrix solution, numerical methods for initial value problems, existence and uniqueness of solutions.

PR: AMAT 3202 or Pure Mathematics 3202 and AMAT 3260 or Pure Mathematics 3260

**3202 Vector Calculus (F) & (W)** deals with functions of several variables, Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green's theorem, Stokes' theorem, divergence theorem, line integrals, arc length.

CR: AMAT 3202 or Pure Mathematics 3202, Physics 3810  
PR: Mathematics 2000 and 2050

**3210 Introduction to Complex Analysis (F)** examines complex numbers, analytic functions of a complex variable, differentiation of complex functions and the Cauchy-Riemann equations, complex integration, Cauchy's theorem, Taylor and Laurent series, residue theory and applications.

CR: Pure Mathematics 3210  
PR: Mathematics 3000

**3240 Applied Graph Theory (F)** examines algorithms and complexity, definitions and basic properties of graphs, Eulerian and Hamiltonian chains, shortest path problems, graph colouring, planarity, trees, network flows, with emphasis on applications including scheduling problems, tournaments, and facilities design.

CR: the former Computer Science 2741, Pure Mathematics 3240  
PR: Pure Mathematics 2320

**3260 Ordinary Differential Equations I (F) & (W)** examines direction fields,

equations of first order and first degree, higher order linear equations, variation of parameters, methods of undetermined coefficients, Laplace transforms, systems of differential equations. Applications include vibratory motion, satellite and rocket motion, pursuit problems, population models and chemical kinetics.

CR: AMAT 3260 or Pure Mathematics 3260, the former Engineering 3411  
PR: Mathematics 2000

**4100 Applied Functional Analysis** - inactive course.

**4102 Stochastic Methods in Applied Mathematics** - inactive course.

**4130 Introduction to General Relativity** (same as Physics 4220) studies both the mathematical structure and physical content of Einstein's theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as spacetime curvature, the weak-field limit, geometry outside a spherical star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an instruction to tensor calculus, Einstein's equations, and the stress-energy tensor.

CO: AMAT 4230 or Pure Mathematics 4230  
CR: Physics 4220

PR: AMAT 3202 or Pure Mathematics 3202 and one of Physics 3220, AMAT 4230 or Pure Mathematics 4230 or permission of the Head of Department.

**4131 Numerical Linear Algebra** - inactive course.

**4132 Introduction to Optimization** - inactive course.

**4133 Numerical Optimization** - inactive course.

**4140 Introduction to Mathematical Control Theory** - inactive course.

**4160 Partial Differential Equations I (F)** covers two point boundary value problems, Fourier series, Sturm-Liouville theory, canonical forms, classification and solution of linear second order partial differential equations in two independent variables, separation of variable, integral transform methods.

PR: AMAT 3202 or Pure Mathematics 3202 and AMAT 3260 or Pure Mathematics 3260

**4161 Integral Equations** - inactive course.

**4162 Numerical Methods for Differential Equations** covers numerical solution of initial value problems for ordinary differential equations by single and multi-step methods, Runge-Kutta, and predictor-corrector; numerical solution of boundary value problems for ordinary differential equations by shooting methods, finite differences and spectral methods; numerical solution of partial differential equations by the method of lines, finite differences, finite volumes and finite elements.

PR: AMAT 3132, 4160

**4170 Partial Differential Equations II** covers first order equations, Cauchy problems, Cauchy-Kowalewska theorem, second order equations, canonical forms, wave equations in higher dimensions, method of spherical means, Duhamel's principle, potential equation, Dirichlet and Neuman problem, Green's function and fundamental solution, potential theory, heat equation, Riemann's method of integration, method of plane and Riemann waves for systems of PDEs of the first order.

PR: AMAT 4160

**4180 Introduction to Fluid Dynamics** (same as Physics 4205) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli's and Kelvin's theorems, potential flows, water waves, thermodynamics.

CR: Physics 4205  
PR: Physics 3220 and either AMAT 4160 or the former Physics 3821

**4190 Mathematical Modelling (W)** is intended to develop students' skills in mathematical modelling and competence in oral and written presentations. Case studies in modelling will be analysed. Students will develop a mathematical model and present it in both oral and report form.

PR: AMAT 3100, AMAT 3161, AMAT 4160, and a technical writing course offered by a Science department (AMAT 2130 is recommended).

**419A and 419B Applied Mathematics Honours Project** is a two-semester course that requires the student, with supervision by a member of the Department, to prepare a dissertation in an area of Applied Mathematics. In addition to a written project, a one hour presentation will be given by the student at the end of the second semester.

CH: 6  
CR: the former AMAT 4199  
PR: registration in an Honours or Joint Honours program in Applied Mathematics.

**4230 Differential Geometry** covers theory of curves, Frenet relations, curvature and torsion, singular points of curves, first and second quadratic forms, classification of points on a surface, Gaussian curvature, Gauss-Weingarten theorem, Christoffel's symbols, theorema egregium, Gauss-

Cadazzi-Mainardi theorem, internal geometry of surfaces, isometric and conformal mappings, geodesic curvature and torsion, parallel displacement, Gauss-Bonnet theorem.

CR: Pure Mathematics 4230

PR: AMAT 3202 or Pure Mathematics 3202

**4240 Differential and Integral Calculus on Manifolds** - inactive course.

**4280-4290 Special Topics in Pure and Applied Mathematics** will have the topics to be studied announced by the Department. Consult the Department for a list of titles and information regarding availability.

PR: permission of the Head of the Department

## 8.8.5 Pure Mathematics Courses

Pure Mathematics courses are designated by PMAT.

**2320 Discrete Mathematics (F) & (W)** covers basic concepts of mathematical reasoning, sets and set operations, functions, relations including equivalence relations and partial orders as illustrated through the notions of congruence and divisibility of integers, mathematical induction, principles of counting, permutations, combinations and the Binomial Theorem.

CR: the former Computer Science 2740

PR: Mathematics 1001 or 2050

**3202 Vector Calculus (F) & (W)** deals with functions of several variables, Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green's theorem, Stokes' theorem, divergence theorem, line integrals, arc length.

CR: Physics 3810, Applied Mathematics 3202

PR: Mathematics 2000 and 2050

**3210 Introduction to Complex Analysis** examines complex numbers, analytic functions of a complex variable, differentiation of complex functions and the Cauchy-Riemann equations, complex integration, Cauchy's theorem, Taylor and Laurent series, residue theory and applications.

CR: Applied Mathematics 3210

PR: Mathematics 3000

**3240 Applied Graph Theory** examines algorithms and complexity, definitions and basic properties of graphs, Eulerian and Hamiltonian chains, shortest path problems, graph colouring, planarity, trees, network flows, with emphasis on applications including scheduling problems, tournaments, and facilities design.

CR: the former Computer Science 2741, Applied Mathematics 3240

PR: PMAT 2320

**3260 Ordinary Differential Equations I** examines direction fields, equations of first order and first degree, higher order linear equations, variation of parameters, methods of undetermined coefficients, Laplace transforms, systems of differential equations. Applications include vibratory motion, satellite and rocket motion, pursuit problems, population models and chemical kinetics.

CR: the former Engineering 3411, Applied Mathematics 3260

PR: Mathematics 2000

**3300 Set Theory** is an introduction to Mathematical Logic, functions, equivalence relations, equipotence of sets, finite and infinite sets, countable and uncountable sets, Cantor's Theorem, Schroeder-Bernstein Theorem, ordered sets, introduction to cardinal and ordinal numbers, logical paradoxes, the axiom of choice.

PR: PMAT 2320

**3303 Introductory Geometric Topology** covers graphs and the four colour problem, orientable and non-orientable surfaces, triangulation, Euler characteristic, classification and colouring of compact surfaces, basic point-set topology, the fundamental group, including the fundamental groups of surfaces, knots, and the Wirtinger presentation of the knot group.

PR: PMAT 2320

**3320 Abstract Algebra (F)** is an introduction to groups and group homomorphisms including cyclic groups, cosets, Lagrange's theorem, normal subgroups and quotient groups, introduction to rings and ring homomorphisms including ideals, prime and maximal ideals, quotient rings, integral domains and fields.

PR: PMAT 2320

**3321 Applied Algebra** - inactive course.

**3330 Euclidean Geometry (F)** is classical Euclidean geometry of the triangle and circle, the inversion transformation, including the theorem of Feuerbach. Elliptic and hyperbolic geometries.

PR: PMAT 2320 or Mathematics 2051

**3331 Projective Geometry** includes course topics: projective space, the principle of duality, mappings in projective space, conics and quadrics.

PR: PMAT 2320 or Mathematics 2051

**3340 Introductory Combinatorics (W)** includes topics: distributions, the binomial and multinomial theorems, Stirling numbers, recurrence relations, generating functions and the inclusion-exclusion principle. Emphasis will be on applications.

PR: PMAT 2320

**3370 Introductory Number Theory (F)** examines perfect numbers and primes, divisibility, Euclidean algorithm, greatest common divisors, primes and the unique factorization theorem, congruences, cryptography (secretary systems), Euler-Fermat theorems, power residues, primitive roots, arithmetic functions, Diophantine equations, topics above in the setting of the Gaussian integers.

PR: PMAT 2320

**3410 Mathematical Statistics I (F)** covers basic probability concepts, combinatorial analysis, conditional probability, independence, random variable, distribution function, mathematical expectation, Chebyshev's inequality, distribution of two random variables, binomial and related distributions, Poisson, gamma, normal, bivariate normal,  $t$  and  $F$  distributions, transformations of variables including the moment-generating function approach.

CR: Statistics 3410

OR: one and a half hour tutorial period weekly

PR: Mathematics 2000

**3411 Mathematical Statistics II (W)** examines sampling distributions. Limiting distributions, central limit theorem, minimum variance unbiased estimators, confidence intervals, MLE and its asymptotic properties, exponential family, sufficient statistics, Rao-Cramér inequality, efficiency, Neyman-Pearson lemma, chi-square tests, likelihood ratio test.

CR: Statistics 3411

OR: one and a half hour tutorial period weekly

PR: PMAT 3410 or Statistics 3410

**4230 Differential Geometry** covers theory of curves, Frenet relations, curvature and torsion, singular points of curves, first and second quadratic forms, classification of points on a surface, Gaussian curvature, Gauss-Weingarten theorem, Christoffel's symbols, theorema Egregium, Gauss-Cadazzi-Mainardi theorem, internal geometry of surfaces, isometric and conformal mappings, geodesic curvature and torsion, parallel displacement, Gauss-Bonnet theorem.

CR: Applied Mathematics 4230

PR: Applied Mathematics 3202 or PMAT 3202

**4240 Differential and Integral Calculus on Manifolds** - inactive course.

**4280-4290 Special Topics in Pure and Applied Mathematics** will have the topics to be studied announced by the Department. Consult the department for a list of titles and information regarding availability.

PR: permission of the Head of the Department

**4300 General Topology** examines topological structure on a set, neighbourhood, open and closed sets, continuity, sub-spaces and quotient spaces, connectedness, relation between topologies, base and sub-base, product spaces, applications to Euclidean spaces. Hausdorff, regular, normal and compact spaces, metric spaces, compacta and continua, metrization.

PR: PMAT 3300 or both Mathematics 3000 and PMAT 3303

**4301 Algebraic Topology** - inactive course.

**4310 Complex Function Theory** examines topology of  $\mathbf{C}$ , analytic functions, Cauchy's theorem with proof, Cauchy integral formula, singularities, argument principle, Rouché's theorem, maximum modulus principle, Schwarz's lemma, harmonic functions, Poisson integral formula, analytic continuation, entire functions, gamma function, Riemann-Zeta function, conformal mapping.

PR: Applied Mathematics 3210 or PMAT 3210

**4320 Ring Theory** examines factorization in integral domains, structure of finitely generated modules over a principal ideal domain with application to Abelian groups, nilpotent ideals and idempotents, chain conditions, the Wedderburn-Artin theorem.

PR: PMAT 3320

**4321 Group Theory** examines permutation groups, Sylow theorems, normal series, solvable groups, solvability of polynomials by radicals, introduction to group representations.

PR: PMAT 3320

**4331 Galois Theory** - inactive course.

**4340 Combinatorial Analysis** continues most of the topics started in PMAT 3340 with further work on distributions, recurrence relations and generating functions. Generating functions are used to solve recurrence relations in two variables. Also included is a study of Polya's theorem with applications.

PR: Mathematics 2000 and PMAT 3340

**4341 Combinatorial Designs** includes the study of finite fields, Latin squares, finite projective planes and balanced incomplete block designs.

PR: PMAT 3320 or 3340

**4370 Number Theory** is continued fractions, an introduction to Diophantine approximations, selected Diophantine equations, the Dirichlet product of arithmetic functions, the quadratic reciprocity law, and factorization in quadratic domains.  
PR: PMAT 3370

**4375 History of Mathematics** - inactive course.

**4399 Pure Mathematics Dissertation** requires the student, with supervision by a member of the department, to prepare a dissertation in an area of Pure Mathematics. Although original research by the student will not normally be expected, the student must show an ability and interest to learn and organize material independently. A one hour presentation at the end of the semester will be given by the student.

PR: registration in an Honours or Joint Honours program in Pure Mathematics

**4401 Probability Theory** examines abstract measure and integration, probability concepts, random variables, independence, Borel-Cantelli lemmas, sums of independent random variables.

CR: Statistics 4401

PR: Mathematics 3000, PMAT 3410 or Statistics 3410

**4402 Stochastic Processes** - inactive course.

**4410 Mathematical Statistics III** examines multivariate normal distribution theory, applications to ANOVA and regression, other topics such as sequential tests, distribution of order statistics, nonparametrics and decision theory.

CR: Statistics 4410

PR: Mathematics 2051, PMAT 3411 or Statistics 3411

## 8.8.6 Statistics Courses

Statistics courses are designated by STAT.

**2500 Statistics for Business and Arts Students (F) & (W)** covers descriptive statistics (including histograms, stem-and-leaf plots and box plots), elementary probability, discrete random variables, the binomial distribution, the normal distribution, sampling distribution, estimation and hypothesis testing including both one and two sample tests, paired comparisons, chi-square test, correlation and regression. Related applications.

CR: STAT 2510, 2550, Psychology 2910, 2925 and the former 2900.

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

PR: Mathematics 1000 or 6 credit hours in first year courses in Mathematics or registration in at least semester three of a Bachelor of Nursing program or permission of the Head of Department.

**2501 Further Statistics for Business and Arts Students (F)** covers power calculation and sample size determination, analysis of variance, multiple regression, nonparametric statistics, index numbers, time series analysis, introduction to sampling techniques.

CR: STAT 2560, the former 2511, Psychology 2911, 2950, and the former 2901

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory.

PR: STAT 2500 or 2510

**2510 Statistics for Physical Science Students (F) & (W)** examines elements of probability, conditional probability, Bayes' Theorem, discrete random variables, cumulative distribution function, introduction to continuous random variables, mathematical expectation, estimation of mean, proportion and variance, hypothesis testing for one-sample case. This course is normally offered twice a year, including the Fall.

CR: STAT 2500, 2550, Psychology 2910, 2925, the former 2900, the former Engineering 3423 and 4421

LH: one 90 minute lab per week

PR: Mathematics 1000 or the former 1081

**2550 Statistics for Life Science Students (F) & (W) & (S)** is an introduction to basic statistics methods with an emphasis on applications to life sciences and, in particular, to biology. Material includes descriptive statistics, elementary probability, binomial distribution, normal distribution, sampling distribution, estimation and hypothesis testing (both one and two sample cases), chi-square test, one way analysis of variance, correlation and simple linear regression.

CR: STAT 2500, 2510, Psychology 2910, 2925, and the former 2900

LH: one 90 minute lab per week. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

PR: Mathematics 1000 or the former 1081

**2560 Further Statistics for Science Students (W)** (formerly STAT 2511) covers estimation and hypothesis testing in the two-sample and paired sample cases, one way and two way analysis of variance, simple and multiple linear regression, chi-square tests, non-parametric tests including sign test, Wilcoxon signed rank test and Wilcoxon rank test.

CR: STAT 2501, the former 2511, Psychology 2911, 2950, and the former

2901

LH: one 90 minute lab per week. Statistical computer packages will be used in the laboratory, but no prior computing experience is assumed.

PR: STAT 2500 (with Mathematics 1000 or the former 1081) or STAT 2510

**3410 Mathematical Statistics I** covers basic probability concepts, combinatorial analysis, conditional probability, independence, random variable, distribution function, mathematical expectation, Chebyshev's inequality, distribution of two random variables, binomial and related distributions, Poisson, gamma, normal, bivariate normal, t, and F distributions, transformations of variables including the moment-generating function approach.

CR: Pure Mathematics 3410

OR: one and a half hour tutorial period weekly

PR: Mathematics 2000

**3411 Mathematical Statistics II** examines sampling distributions. Limiting distributions, central limit theorem, minimum variance unbiased estimators, confidence intervals, MLE and its asymptotic properties, exponential family, sufficient statistics, Rao-Cramér inequality, efficiency, Neyman-Pearson lemma, chi-square tests, likelihood ratio test.

CR: Pure Mathematics 3411

OR: one and a half hour tutorial period weekly

PR: Pure Mathematics 3410 or STAT 3410

**3520 Experimental Design I (F)** is an introduction to basic concepts in experimental design, single factor designs including completely randomized, randomized blocks, Latin square and related designs, multiple comparison tests, fixed and random effects models, introduction to factorial design.

CR: Psychology 3900 and 3950

PR: Mathematics 2050 and either Pure Mathematics 3411 or STAT 3411

or both 1001 and one of STAT 2501 or 2560 or the former 2511

**3521 Regression (W)** covers inferences in linear regression analysis, matrix approach to regression analysis, multiple linear regression, model selection, polynomial regression, indicator variable, problem of simultaneous inferences, multicollinearity.

PR: Mathematics 2050 and either Pure Mathematics 3411 or STAT 3411

or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

**3530 Survey Sampling I (F)** covers basic concepts, randomization, sampling frames, stratified sampling, the analysis of subclasses, cluster sampling, stratified cluster sampling, unequal clusters, ratio estimates selection with probabilities proportional to size.

PR: either Pure Mathematics 3411 or STAT 3411 or both Mathematics

1001 and one of STAT 2501 or 2560 or the former 2511

**3540 Time Series I** covers Autocovariance, autocorrelation and correlation, stationarity, autoregressive, moving average and ARMA models, differencing, the integrated ARMA process, parameter estimation, model identification and diagnostic testing, forecasting, seasonal models, the use of data transformation.

PR: either Pure Mathematics/STAT 3411 or both Mathematics 1001 and one of STAT 2501 or 2560 or the former 2511

**3570 Reliability and Quality Control** is an analysis of life, mortality and failure data, standard parametric models in reliability, quality control charts and cumulative sum charts, tolerance limits, contingency tables, interactions, application of sequential sampling.

PR: either Pure Mathematics 3411 or STAT 3411 or both Mathematics

1001 and one of STAT 2501 or 2560 or the former 2511

**3590 Statistics in Applied Research** - inactive course.

**4401 Probability Theory** is a review of Riemann integration, outer measure, measure, measurable sets, measurable functions, the Lebesgue integral, properties of the Lebesgue integral, sequences of integrals, Fubini's theorem.

CR: Pure Mathematics 4401

PR: Mathematics 3000, Pure Mathematics 3410 or STAT 3410

**4402 Stochastic Processes** covers stochastic processes, stationarity, random walks, Markov chains, renewal, and queuing.

CR: Applied Mathematics 4102, Pure Mathematics 4402

PR: Pure Mathematics 3410 or STAT 3410

**4410 Mathematical Statistics III** examines multivariate normal distribution theory, applications to ANOVA and regression, other topics such as sequential tests, distribution of order statistics, nonparametrics and decision theory.

CR: Pure Mathematics 4410

PR: Mathematics 2051, Pure Mathematics 3411 or STAT 3411

**4520 Experimental Design II (W)** covers selected topics in ANOVA and ANCOVA including factorial experiments and unbalanced designs.

PR: STAT 3520

**4530 Survey Sampling II (W)** covers area sampling, multi-stage sampling,

two-phase sampling, ratio, regression and difference estimates, composite sampling designs, sampling from imperfect frames, bias and non-sampling errors.

PR: Mathematics 2000 and STAT 3530

**4540 Time Series II** is an analysis of time series in the time domain, including stationary and non-stationary processes, autocovariance kernels and their estimators, analysis of autoregressive and moving average models, spectral analysis including the power spectrum and its estimators, periodogram, smoothed and filtered estimators.

PR: Pure Mathematics 3411 or STAT 3411 and STAT 3540

**4550 Non-parametric Statistics** covers inferences concerning location based on one sample, paired samples or two samples, inferences concerning scale parameters, goodness-of-fit tests, association analysis, tests for randomness.

PR: one of STAT 3520 or 3521, or Pure Mathematics 3411 or STAT 3411

**4560 Continuous Multivariate Analysis** examines the multivariate normal distribution and its marginal and conditional distributions, properties of the Wishart distribution, Hotelling's T-squared statistic, a selection of techniques chosen from among MANOVA, multivariate regression, principal components, factor analysis, discrimination and classification, clustering.

PR: Mathematics 2051, Pure Mathematics 3410 or STAT 3410 and one of STAT 3520, or Pure Mathematics 3411 or STAT 3411, or STAT 3521

**4561 Discrete Multivariate Analysis** is an analysis of cross-classified categorical data, chi-square test, measures of association, multidimensional contingency tables, hypotheses of partial and conditional independence, log-linear models for Poisson, multinomial and product-multinomial sampling schemes, iterative scaling technique for maximum likelihood estimation, step-wise model selection procedures, partitioning chi-square, explanatory and response variables in contingency tables, logit models.

PR: STAT 3520 or 3521

**4580 History of Statistics** - inactive course.

**4581 Quantitative Methods in Biology** - inactive course.

**4585 Computational Statistics** is an introduction to modern computational statistics, using a statistical programming language, such as S-Plus. Emphasis is placed on use of the computer for numerical and graphical exploratory data analysis, and on crafting programs to accomplish specialized statistical procedures.

PR: Mathematics 2000, STAT 3520, 3521. Applied Mathematics 2130 or the former Pure Mathematics 2130 is recommended

**4590 Statistical Analysis of Data I** is for users of Statistics with emphasis placed on computer analysis of statistical problems drawn from various disciplines, descriptive statistics, analysis of univariate measurement data, chi-square tests, non-parametric tests, basic ANOVA and regression.

LH: one 90 minute lab per week

PR: one of STAT 3520, or 3521, or Pure Mathematics 3411 or STAT 3411

**4591 Statistical Analysis of Data II** - inactive course.

**4599 Honours Comprehensive with Directed Readings** is a directed reading course with Comprehensive examination.

PR: registration in an Honours or Joint Honours program in Statistics

## 8.9 Physics and Physical Oceanography

Physics courses are designated by PHYS.

**1020 Introductory Physics I (F) & (W)** is a non-calculus based introduction to mechanics. This course may be completed by someone who has no physics background provided some extra effort is made.

CO: Mathematics 1090

CR: PHYS 1050

LH: 3; six laboratory sessions per semester

OR: optional tutorials will be available, on average one hour per week

PR: Level III Advanced Mathematics or Mathematics 1090. It is recommended that students have completed at least one of level II and level III high school physics courses

**1021 Introductory Physics II (F) & (W)** is a non-calculus based introduction to fluids, wave motion, light, optics, electricity and magnetism.

CO: Mathematics 1000

LH: 3; normally there will be six laboratory sessions per semester

OR: optional tutorials will be available, on average one hour per week

PR: PHYS 1020 or 1050 and Mathematics 1090 or 1000

**1050 General Physics I: Mechanics (F) & (W)** is a calculus based introduction to mechanics. The course will emphasize problem solving. For more details regarding PHYS 1050, see Note 4 under Physics and Physical Oceanography.

CO: Mathematics 1000

CR: PHYS 1020

LH: 3; normally there will be six laboratory sessions per semester

OR: optional tutorials will be available, on average one hour per week

PR: Mathematics 1000

**1051 General Physics II: Oscillations, Waves, Electromagnetism (F) (W) & (S)** is a calculus based introduction to oscillations, wave motion, physical optics and electromagnetism.

CO: Mathematics 1001

LH: 3; normally there will be six laboratory sessions per semester

OR: optional tutorials will be available, on average one hour per week

PR: PHYS 1050, or 1021, or 1020 (with a minimum grade of 65%) and Mathematics 1001

**2053 Fluids and Thermal Physics (F)** examines elasticity, fluid mechanics, thermodynamics, kinetic theory and statistical mechanics.

CO: Mathematics 1001 and PHYS 1051

LH: 3

PR: Mathematics 1001 and PHYS 1051

**2055 Electricity and Magnetism (W)** examines Gauss' Law, the electrostatic potential, capacitance, magnetic forces and the magnetic field, electromagnetic induction, magnetic materials, ac circuits, superconductivity, the displacement current and Maxwell's equations.

CO: Mathematics 2000

LH: 3

PR: Mathematics 2000 and PHYS 1051

**2151 Stellar Astronomy and Astrophysics (F) & (W)** covers atomic structure and spectra. The sun: radiation, energetics, magnetic field. Stars: distance, velocity, size, atmospheres, interiors. Variable stars, multiple stars, clusters and stellar associations. Stellar evolution, interstellar matter, structure of the Milky Way Galaxy. Exterior galaxies, quasi-stellar objects, pulsars. Cosmology.

PR: 6 credit hours in Mathematics courses at the first year level

**2750 Modern Physics (W)** covers special relativity, quanta of light, atomic structure and spectral lines, quantum structure of atoms and molecules, nuclei and elementary particles.

CO: Mathematics 1001 and PHYS 1051

CR: PHYS 2056

PR: Mathematics 1001 and PHYS 1051

**2820 Computational Mechanics (F) & (W)** covers newtonian dynamics and celestial mechanics, numerical differentiation and integration, numerical solutions to mechanics problems, data and spectral analysis, Fourier series and normal modes, oscillations and vibrations, linear and non-linear oscillators, nonlinear dynamics and chaos.

CO: Mathematics 2000

LC: 5

LH: 5

PR: PHYS 1051, Mathematics 2000

**3000 Physics of Device Materials (F)** is structures of crystalline and amorphous solids. Excitations and transport in metals, semiconductors, and dielectrics; electronic band structures. Physics of multi-material devices including photodiodes, solid state lasers, and field-effect transistors.

PR: PHYS 2055 or registration in Academic Term 3 of the Electrical Engineering Program

**3150 Astrophysics I (W)** is a review of macroscopic and microscopic physics. The sun: luminosity, mass, spectrum, photosphere, corona, interior. Principles of stellar structure; radiative and convective transport of energy. The virial theorem. Thermonuclear fusion; temperature dependence; the solar neutrino problem. Nucleosynthesis; the curve of binding energy; the synthesis of heavy elements. White dwarfs, neutron stars, and black holes; degenerate electron and neutron gases; Chandrasekhar's Limit. Population I and Population II stars; the Hertzsprung-Russell diagram; relationships among luminosity, mass, and effective temperature for main sequence dwarfs. Evolution of post main sequence stars.

PR: PHYS 2053, 2750 (or 2056), and 2820

**3151 Astrophysics II** covers stellar spectra and classification of stars. Hertzsprung-Russell diagram; equations of stellar structure for a star in equilibrium; temperature and density dependencies of nuclear processes. Formation and classification of binary stars; mass and energy transfer in binary star systems; semidetached binaries; cataclysmic variables, pulsars, etc. Galaxies and galactic structure; active galactic nuclei; cosmological redshift. Cosmology.

PR: PHYS 3150 and 3220

**3220 Classical Mechanics I (F)** covers kinematics and dynamics of a particle. Moving reference systems. Celestial mechanics. Systems of particles.

CO: PHYS 2820 and Applied Mathematics 3260 or Pure Mathematics 3260

PR: PHYS 2820 and Applied Mathematics 3260 or Pure Mathematics 3260

**3230 Classical Mechanics II (W)** covers rigid body motion. Lagrange's equations. Hamilton's equations. Vibrations. Special theory of relativity.

PR: PHYS 3220 and 3810 (or Applied Mathematics 3202 or Pure

Mathematics 3202) and Applied Mathematics 3260 or Pure Mathematics 3260

**3300 Introduction to Physical Oceanography (F)** deals with the physics of processes in the ocean, but provides an integrated view of the whole field of oceanography. The importance of physical processes to other aspects of oceanography is treated.

PR: PHYS 2053 and Mathematics 2000

**3340 Principles of Environmental Physics** will explore the basic physical principles of light, heat, energy and sound in the natural environment. Several key aspects of physics in the environment will be covered including climate and the physical evolution of the planet and the present role of the atmosphere and ocean spectroscopy in the atmosphere and measurement and observation of the atmosphere; principles of energy generation and pollution transport in the atmosphere and ocean.

PR: Mathematics 2000 and PHYS 2053

**3400 Thermodynamics (F)** covers the first and second laws of thermodynamics. Entropy. Thermodynamics of real substances. Kinetic theory of matter. Introduction to statistical mechanics.

PR: Mathematics 2000, PHYS 2053 and PHYS 2750 or 2056

**3500 Electromagnetic Fields I (F)** examines electrostatic Field: field, potential, Poisson's equation, Laplace's equation, capacitance, dielectrics, polarization, electric displacement, boundary conditions. Magnetic Field: electric current and magnetic field, vector potential, Lorentz force and relativity, changing magnetic field, inductance, magnetic materials, magnetization. Maxwell's equations.

PR: PHYS 2055 and 3810 (or Applied Mathematics 3202 or Pure Mathematics 3202)

**3550 Electric Circuits (S)** covers circuit elements. Simple resistive circuits. Techniques of circuit analysis. Topology in circuit analysis. Operational amplifiers. Reactive circuit elements. Natural response and step response of RL, RC and RLC circuits. Circuits driven by sinusoidal sources. Mutual inductance. Series and parallel resonance. Laplace transforms in the analysis of frequency response.

CO: Applied Mathematics 3260 or Pure Mathematics 3260

CR: Engineering 3821

LC: 6

LH: 6

PR: Mathematics 2050, PHYS 2055 and Applied Mathematics 3260 or Pure Mathematics 3260

**3551 Analogue Electronics (S)** is a review of network analysis. Feedback. Electron tubes. Semiconductor diodes. Introduction to transistors. Introduction to amplifiers. Small signal models. Small signal analysis of amplifiers. Operational amplifiers. Selected topics in circuit design such as biasing, voltage regulators and power circuits, noise. This course is recommended for students with an interest in experimental Physics.

LC: 6

LH: 6

PR: PHYS 3550 and Applied Mathematics 3260 or Pure Mathematics 3260

**3600 Optics and Photonics I (W)** covers geometrical Optics: thin lenses, mirrors, optical systems. Two-beam and multiple-beam interference phenomena. Fraunhofer Diffraction. Introduction to Maxwell's Theory: reflection, transmission, and polarization. Modulation of light waves. Fibre-optical light guides: intermodal dispersion, index profiles, loss mechanisms, single mode fibres. Optical communication systems: free space and fibre systems, emitters, detectors, amplifiers, wavelength-division multiplexing, integrated optics.

PR: Mathematics 2000 and PHYS 2055

**3750 Quantum Physics I (F)** covers wave-particle duality of nature. Introduction to Quantum Mechanics. Schrödinger equation. One electron atoms. Quantum statistics.

CO: PHYS 3220 and 3810 (or Applied Mathematics 3202 or Pure Mathematics 3202)

PR: PHYS 2750 (or 2056), 3220 and 3810 (or Applied Mathematics 3202 or Pure Mathematics 3202)

**3751 Quantum Physics II (W)** covers multielectron atoms. Molecules. Solids - conductors and semiconductors. Superconductors. Magnetic properties. Nuclear models. Nuclear decay and nuclear reactions. Properties and interactions of elementary particles.

PR: PHYS 3750

**3800 Computational Physics** is a project-based course intended to train students to become functional in computational methods, by writing and compiling computer code (C/Fortran) in a Unix environment to solve problems drawn from different areas of physics. Students will complete several projects selected from different areas of physics. Projects will introduce the students to a particular class of numerical methods. Lectures and tutorials will cover the theory that underlies the computational methods and background for code development and the application of the required numerical methods.

CO: Any two 2000-level Physics course plus at least one other 3000-level Physics course

LC: 5

LH: 5

PR: Computer Science 1510, PHYS 2820, Mathematics 3202, Mathematics 3260

**3810 Mathematical Analysis (F)** - inactive course.

**3820 Mathematical Physics III (F)** examines the functions of a complex variable; residue calculus. Introduction to Cartesian tensor analysis. Matrix eigenvalues and eigenvectors. Diagonalization of tensors. Matrix formulation of quantum mechanics. Quantum mechanical spin. Vector differential operators in curvilinear coordinate systems. Partial differential equations of Mathematical Physics and boundary value problems; derivation of the classical equations, separation of variables; Helmholtz equation in spherical polar coordinates.

PR: Applied Mathematics 3260 or Pure Mathematics 3260, and PHYS 3810 (or Applied Mathematics 3202 or Pure Mathematics 3202)

**3900 Physics Laboratory I (W)** is a selection of experiments based primarily on material covered in the third year courses.

LH: 6

PR: at least two of PHYS 2053, 2820, 2055, and PHYS 2750 (or 2056)

**4000 Solid State Physics** covers crystal structure and bonding, phonons and lattice vibrations, thermal properties of solids. Electrons in solids, energy bands, semi-conductors, superconductivity, dielectric properties. Magnetic properties of solids.

PR: PHYS 3400 and 3750 or waiver approved by the instructor

**4200 Classical Mechanics III** - inactive course.

**4205 Introduction to Fluid Dynamics** (same as Applied Mathematics 4180) covers basic observations, mass conservation, vorticity, stress, hydrostatics, rate of strain, momentum conservation (Navier-Stokes equation), simple viscous and inviscid flows, Reynolds number, boundary layers, Bernoulli's and Kelvin's theorems, potential flows, water waves, thermodynamics.

CR: Applied Mathematics 4180

PR: PHYS 3220 and either Applied Mathematics 4160 or the former PHYS 3821 or waiver approved by the instructor

**4210 Continuum Mechanics** - inactive course.

**4220 Introduction to general Relativity** (same as Applied Mathematics 4130) studies both the mathematical structure and physical content of Einstein's theory of gravity. Topics include the geometric formulation of special relativity, curved spacetimes, metrics, geodesics, causal structure, gravity as spacetime curvature, the weak-field limit, geometry outside a spherical star, Schwarzschild and Kerr black holes, Robertson-Walker cosmologies, gravitational waves, an introduction to tensor calculus, Einstein's equations, and the stress-energy tensor.

CO: Applied Mathematics 4230 or Pure Mathematics 4230

CR: Applied Mathematics 4130

PR: Applied Mathematics 3202 or Pure Mathematics 3202 and one of PHYS 3220, Applied Mathematics 4230 or Pure Mathematics 4230 or waiver approved by the instructor

**4300 Advanced Physical Oceanography (W)** covers fundamental properties of seawater and techniques of oceanographic measurement. The dynamical equations of oceanography are derived and solutions explored by comparison with oceanic observations. Properties of waves in rotating and non-rotating fluids. Linear and non-linear wave theory are developed.

PR: PHYS 3300 and 3820 or registration in Academic term 6 of the Ocean and Naval Architectural Engineering program, or waiver approved by the instructor

**4330 Topics in Physical Oceanography** - inactive course.

**4340 Modelling in Environmental Physics** covers the basic principles underlying environmental modelling will be developed and techniques for modelling presented and applied. Techniques for numerical modelling will be developed and simple numerical models will be developed for use in terrestrial, atmospheric and oceanic environments. Free and forced systems will be discussed and the transition to chaos and some aspects of chaotic dynamics.

PR: PHYS 3340 and PHYS 3820 or waiver approved by the instructor

**4400 Statistical Mechanics (W)** covers ensembles. Classical and quantum statistical mechanics. Statistical mechanics of phase transitions. Advanced topics in statistical mechanics.

CO: PHYS 3750

PR: PHYS 3400 and 3750

**4500 Electromagnetic Fields II** covers multipole expansions, electrostatic fields as boundary value problems, polarizability of molecules in dielectric media, Clausius-Mossotti relation, gauges. Electromagnetic Waves: Poynting's theorem, reflection and transmission of electromagnetic waves, cavity resonators, wave guides. Electromagnetic Radiation: dipoles, antennas, quantum mechanics and electro-magnetic interactions. Selected topics in electrodynamics and applied electromagnetism.

PR: PHYS 3500 and 3820 or waiver approved by the instructor

**4600 Optics and Photonics II** is a review of basic topics in wave optics. Phase sensitive imaging. Electromagnetic waves in anisotropic media. Scattering of electromagnetic waves. The physics of light sources and applications. Non-linear optics and applications.

CO: PHYS 3751

PR: PHYS 3500, 3600, and PHYS 3751 or waiver approved by the instructor

**4700 Atomic and Molecular Physics** - inactive course.

**4710 Nuclear Physics** - inactive course.

**4820 Mathematical Physics III (W)** covers further topics on partial differential equations of Mathematical Physics and boundary value problems; Sturm-Liouville theory, Fourier series, generalized Fourier series, introduction to the theory of distributions, Dirac delta function, Green's functions, Bessel functions, Legendre functions, spherical harmonics.

PR: PHYS 3820

**4850 Quantum Mechanics (F)** examines postulates of quantum mechanics. Operators and operator algebra. Matrix representations. Spin and magnetic fields. Approximation methods: WKB method, time independent perturbation theory, time dependent perturbation theory, variational methods. Elementary scattering theory.

PR: PHYS 3230, 3750, 3820 or waiver approved by the instructor

**4851 Advanced Quantum Mechanics (W)** covers general formulation of quantum mechanics, measurement theory and operators. Hilbert spaces. Advanced topics selected from: electron in a strong magnetic field and the Aharonov-Bohm effect; advanced scattering theory; systems of identical particles; Feynman path integral formulation of quantum mechanics; relativistic quantum mechanics; second quantization; symmetry and group theory; density matrix and mixtures.

PR: PHYS 4850 and the former 3821 or waiver approved by the instructor

**4900 Physics Laboratory II (F)** is a selection of experiments at the senior level.

LH: 6

PR: PHYS 3900

**490A/B Honours Physics Thesis** is required of the Honours program.

**6317 Underwater Acoustics** covers basic theory of sound, sound in the ocean environment, wave equation, ray tracing, sonar system operation, transducers, applications.

PR: PHYS 3810 (or the former Applied Mathematics/Pure Mathematics 3220) and 3220, or waiver approved by the instructor

**6318 Ocean Climate Modelling** covers numerical techniques, finite difference, finite element and spectral methods. Introduction to the climate system. Ocean climate models. Box models. Variability on interdecadal, centennial and geological scales. Zonally averaged models. 3-D ocean modelling. Thermohaline circulation. General circulation models. Climate modelling and global warming.

PR: PHYS 3810 (or Applied Mathematics 3202 or Pure Mathematics 3202), PHYS 3300 and the completion of any 15 credit hours in core courses at the 3000 or 4000 level in the Faculty of Science or waiver approved by the instructor

## 8.10 Psychology

Psychology courses are designated by PSYC.

### 8.10.1 Non-Restricted Courses

These courses are open to all students who have the appropriate prerequisites. Students who intend to major in Psychology should note the credit restrictions for PSYC 2010, 2100, 2440, 2610, 2810, 2920, and 3640 as taking any of these courses will reduce options in the Majors program

**1000 Introduction to Psychology** is an introduction to Psychology as a biological and social science. Topics shall include research methodology, physiological processes, perception, learning, memory and cognition, human development, animal behaviour, emotion, motivation, consciousness, personality and individuality, psychological disorders and treatment, and social psychology.

**1001 Introduction to Psychology** is an introduction to Psychology as a biological and social science. Topics shall include research methodology, physiological processes, perception, learning, memory and cognition, human development, animal behaviour, emotion, motivation, consciousness, personality and individuality, psychological disorders and treatment, and social psychology.

PR: PSYC 1000

**2010 The Psychology of Human Development I** is a survey of principles

underlying human development from the prenatal stage to adolescence. Topics covered will include sensorimotor, linguistic, perceptual, cognitive and motivational changes.

CR: PSYC 2025, PSYC 3050

PR: PSYC 1000 and 1001

**2011 The Psychology of Human Development II** is an examination of relevant research on socialization and personality development with special emphasis on attachment, imitation, sex role and moral development in childhood and adolescence.

CR: PSYC 2025

PR: PSYC 1000 and 1001

**2012 Adult Development from Young Adulthood to Old Age** examines physical and psychological changes from early adulthood until the end of the lifespan. Topics include career choices, love partnerships, parenting and grandparenting, cognitive changes, interpersonal changes, and healthy aging.

CR: the former PSYC 3052

PR: PSYC 1000 and 1001

**2100 Attitudes and Social Cognition** is an examination of the concepts and principles involved in the interaction between the individual and others. Emphasis will be on the theoretical and empirical concerns of attitude formation and change, social perception, and social cognition.

CR: PSYC 2125, PSYC 3100

PR: PSYC 1000 and 1001

**2120 Interpersonal and Group Processes** - inactive course.

**2150 Introduction to Forensic Psychology** will provide an in-depth overview of the relationship between psychology and the law. A variety of topics will be discussed and critically evaluated, including the use and misuse of psychology-based investigative methods such as offender and geographic profiling, detection of deception, investigative interviewing, eyewitness testimony, jury decision-making, corrections and treatment, risk assessment, and criminal responsibility.

PR: PSYC 1000 and 1001

**2151 Health Psychology** will explore the history, aims and future of health psychology. Topics covered will consider the contributions of a wide range of psychological theory within the context of psychosocial risk factors for illness, illness prevention, health promotion, and the health care system itself. These theories extend from rather individualistic notions of health and wellness (e.g., personality, attitudes, and behaviour) to concepts associated with characteristics of the broader social environment (e.g., social support, economic challenges, and organizational factors). An overall bio-psychosocial approach to health and wellness is explored.

PR: PSYC 1000 and 1001

**2240 Survey of Learning** is a survey of learning phenomena and learning theories. Topics to be studied will include a selection of the following: the evolutionary context of learning, habituation and sensitization, Pavlovian conditioning, instrumental learning, and generalization and discrimination in learning. Applications of learning principles to topics such as child rearing, education, drug use and rehabilitation, as well as to other topics of contemporary interest, will also be discussed.

CR: PSYC 3250, the former PSYC 2225, the former PSYC 2250

PR: PSYC 1000 and 1001

**2440 Human Memory and Cognition** is an introduction to the basic principles of human memory and information processing. Topics covered will include the organization, representation and retrieval of information in memory, attention, pattern recognition, language processing, mental imagery, reasoning, problem solving, and decision making. There will be an emphasis on the application of basic principles to real life situations.

CR: PSYC 3450, PSYC 2425

PR: PSYC 1000 and 1001

**2540 Psychology of Gender** is an examination of the influence of gender on development and socialization, attitude formation, cognition, personality and mental health.

PR: PSYC 1000 and 1001

**2560 Intelligence** - inactive course.

**2610 Personality** is a review of the research and theory pertaining to a psychological understanding of human personality.

CR: the former PSYC 2620, PSYC 2625, PSYC 3620

PR: PSYC 1000 and 1001

**2800 Drugs and Behaviour** is an examination of the neurophysiology of drug action, the measurable effect of drugs on experimentally controlled behaviour, and a survey of information available on common self-administered drugs and their immediate and long-term effects.

PR: PSYC 1000 and 1001

**2810 Brain and Behaviour** is a broad survey of physiological psychology at an elementary level. Topics will include the following: structure of the nervous system, nerve conduction, sensory and motor systems, behavioural

biology of reproduction, aggression, feeding and drinking, sleep and arousal, pleasure and pain, learning and memory.

CR: PSYC 2825, the former PSYC 2850, PSYC 3801  
PR: PSYC 1000 and 1001

**2920 Research Methods in Psychology for Non-Majors** provides an introduction to the design, understanding, and application of psychological research. Topics covered include understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, and the proper use of controls. An emphasis will be placed on thinking critically about psychology and common errors of judgment.

PR: PSYC 1000 and 1001

UL: cannot be used towards the Psychology major or any Psychology honours or joint honours programs

**3430 The Psychology of Thinking** will present theories and experimental studies of problem solving, creativity and decision making. Topics covered will include the difficulties encountered in problem solving and solutions such as strategies for organizing and representing information, the production of ideas, transfer and discovery learning.

PR: PSYC 1000 and 1001

**3501 Industrial Psychology** is an examination of the theories and concepts of industrial psychology. Topics covered will include research and testing methods, measuring job and performance appraisal systems, personnel selection methods, personnel training and development, work motivation, work stress, designing work for people, and human engineering.

PR: any 2000-level course in Psychology.

**3533 Sexual Behaviour** covers the most important aspects of human sexuality with a psychology theory and research framework. The course will examine the biological, behavioural and socio-cultural bases of the human sexual response. Topics include sexual interaction and communication, contraception, sexually transmitted infections, reproduction, sexual orientation, transgender and intersex, variations in sexual behaviour, sex and gender, sexual dysfunction and therapy, and sexual coercion.

PR: PSYC 1000 and 1001

**3577 Program Evaluation** - inactive course.

**3640 The Psychology of Abnormal Behaviour** covers problems of definition, the history of beliefs about abnormal behaviour and the implication of a behavioural model for the understanding and control of behaviour problems.

CR: PSYC 3650, PSYC 3626

PR: any 2000 level course in Psychology

**4810 Human Neuropsychology** - inactive course.

## 8.10.2 Majors Courses

These courses are restricted to Majors in Psychology and Behavioural Neuroscience.

**2520 Mind and Brain** is based on the idea that psychological and neuroscience research efforts are synergistic. Neuroscience research can reveal mechanisms that help explain the mind and behavior, while concepts developed by psychological research often define the topics that neuroscience investigates. Topics such as memory, emotion, mental illness, and sleep will illustrate the utility of multiple research perspectives for developing a more complete understanding of psychological issues.

PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

**2570 Understanding Individual Differences** uses current conceptualizations of personality and ability as a focus. The course will review issues related to the measurement of individual differences, including test characteristics and ethics. Research from a variety of perspectives will be used to illustrate the contributions of different areas of psychology to our understanding of individual differences.

PR: PSYC 1000 and 1001 and admission to a Major in Psychology or Behavioural Neuroscience; minors may be permitted to take this course if space permits

**2910 Research Methods in Psychology I** is an introduction to the design and application of psychological research with particular concentration on understanding and applying scientific method, creating and testing hypotheses, constructing reliable and valid experiments, managing and analysing data sets, using statistical software, and scientific writing. Specific topics include descriptive statistics including measures of central tendency, variability and relative standing, inferential statistics such as *t* tests for one and two sample designs, correlation and regression, and non-parametric statistics.

CR: Statistics 2500, 2510, 2550, the former PSYC 2900, 2925

LH: one laboratory period weekly

PR: PSYC 1000 and 1001; Mathematics 1000 or two of 1090, 1050 and 1051 (or equivalent) and admission to a Major in Psychology or Behavioural Neuroscience

**2911 Research Methods in Psychology II** covers research methods in psychology with a focus on more complex research designs and statistical approaches, within the realm of experimentation and beyond the laboratory. Specific topics include controlling participant variables, using between and repeated measures designs within the context of Analysis of Variance (ANOVA). Particular ANOVA approaches include one-way and factorial designs, within subject design, and two-way mixed designs.

CR: Statistics 2501, 2560, the former PSYC 2901, 2950

LH: one laboratory period weekly

PR: PSYC 2910 and admission to a Major in Psychology or Behavioural Neuroscience

**3050 Developmental Psychology** is an examination of the methods of study and an evaluation of current findings and theoretical issues of importance to an understanding of development. Topics will be drawn from perception, learning, cognition, social learning, memory and language development.

CR: PSYC 2010, PSYC 2025

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3100 Social Psychology** is an examination of the concepts and principles involved in social behaviour. Topics covered will include attitudes, social cognition, interpersonal relations, and group processes.

CR: PSYC 2100, PSYC 2125

PR: PSYC 2520, 2570, and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3250 Learning** (formerly PSYC 2250) examines how organisms adjust their behaviour to regularities in the environment as a result of experience.

CR: PSYC 2240, the former PSYC 2225, the former PSYC 2250

PR: PSYC 2520, 2570, and 2911, and admission to a Major in Psychology or Behavioural Neuroscience

**3350 Perception** (formerly PSYC 2360) is a broad survey of theory and research in sensation and perception.

CR: the former PSYC 2360

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3450 Human Cognition** is an introduction to the experimental study of the mental representations and processes involved in human cognition. Topics such as attention, perception and pattern recognition, concepts and the organization of knowledge, language processes, mental imagery, reasoning, problem solving, decision making and skilled performance will be covered with an emphasis on experimental analysis and techniques.

CR: PSYC 2440, PSYC 2425

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3620 Personality Theory and Research** is a survey of personality theory and research.

CR: PSYC 2610, PSYC 2625, and the former PSYC 2620

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3650 Abnormal Psychology** is an examination of the nature, explanation and treatment of psychological disorders with an emphasis on research methods and current findings.

CR: PSYC 3640, PSYC 3626

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3750 Animal Behaviour I** is an introduction to the mechanisms, development, function and evolution of behaviour in animals. Topics include the history of ethology and comparative psychology, and behavioural ecology; methods of animal behaviour study, behaviour of animals in relation to physiology, learning, communication, mating systems, and other areas in Biology and Psychology.

CR: Biology 3750

PR: Biology 1001, 1002 and PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3800 Neuroscience** addresses the structure and function of neurons and neural circuits and examines principles of electrochemical neural communication at the macroscopic, microscopic and molecular level. The relevance of this knowledge to understanding brain mechanisms of normal and diseased brain functions will be touched upon. The molecular basis of the formation of some types of memories will be explored.

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3801 Behavioural Neuroscience** is a survey of knowledge about brain mechanisms of behaviour. Topics will include the following: basic neuroanatomy and neurophysiology, somatosensory systems and pain, reward, mental illness, sleep and arousal, developmental neurobiology, sexual development and behaviour, regulation of eating and body weight, learning and memory, and cortical function, including cortical mediation of language.

CR: PSYC 2810, PSYC 2825, the former PSYC 2850

PR: PSYC 2520, 2570 and 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**3900 Design and Analysis III** is a course on complex and specialized research design in Psychology. Multifactor research designs that employ both between- and within-subjects independent variables. Advantages and disadvantages of using multifactor research designs to test psychological hypotheses. Hierarchical designs and incomplete factorials. The use of covariates and blocking to increase experimental precision. Problems created by missing data. Single subject designs. How to answer specific psychological questions in the context of complex designs. The design and analysis of non-experimental psychological research. Applications of such techniques as the analysis of variance and multiple linear regression to the data obtained with these research designs, with special attention to problems inherent in psychological research.

CR: PSYC 3950, Statistics 3520

LH: one laboratory period weekly

PR: PSYC 2911 and admission to a Major in Psychology or Behavioural Neuroscience

**4050 Selected Topics in Developmental Psychology I**

PR: PSYC 3050 or the former 3051 and admission to a Major in Psychology or Behavioural Neuroscience

**4051 Selected Topics in Developmental Psychology II**

PR: PSYC 3050 or the former 3051 and admission to a Major in Psychology or Behavioural Neuroscience

**4070 Research Experience in Development Psychology** allows students to gain research experience in selected areas of developmental psychology.

PR: PSYC 2520, 2570, 2911, and 3050 and admission to a Major in Psychology or Behavioural Neuroscience

**4150 Selected Topics in Social Psychology I**

PR: PSYC 3100 or the former PSYC 3160 and admission to a Major in Psychology or Behavioural Neuroscience

**4151 Selected Topics in Social Psychology II** - inactive course.

**4152 Selected Topics in Applied Social Psychology** - inactive course.

**4160 Psychology and the Law** allows students, upon completion of this course, to demonstrate an advanced understanding of psychology and the law. Specifically, students will be able to discuss and critically evaluate topics related to the Canadian legal system, police investigations, memory in legal contexts, jury selection, jury decision-making, sentencing, parole, offender assessment and treatment, fitness to stand trial, and forensic civil psychology.

PR: PSYC 3100 or the former PSYC 3160 and admission to a Major in Psychology or Behavioural Neuroscience

**4170 Research Experience in Social Psychology** will provide research experience in a selection of areas typically studied by social psychologists such as attitudes, prejudice, groups and social cognition. Students will acquire experience with research methods that are used to advance the body of knowledge in social psychology.

PR: PSYC 2520, 2570, 2911, and 3100 and admission to a Major in Psychology or Behavioural Neuroscience

**4250 Selected Topics in Learning and Motivation I**

PR: the former PSYC 2250 or PSYC 3250 and admission to a Major in Psychology or Behavioural Neuroscience

**4251 Selected Topics in Learning and Motivation II**

PR: the former PSYC 2250 or PSYC 3250 and admission to a Major in Psychology or Behavioural Neuroscience

**4260 Learning Processes and Drug Effects** focuses on explanations of the behavioural effects of drugs that can be found in learning and conditioning theory. This course will provide a careful examination of such processes as drug state conditioning and discrimination, drug effects on operant behaviour, drug self-administration and tolerance.

PR: the former PSYC 2250 or PSYC 3250 and admission to a Major in Psychology or Behavioural Neuroscience

**4270 Research Experience in Learning** allows students to gain research experience in selected areas of learning.

PR: PSYC 2520, 2570, 2911, and 3250 and admission to a Major in Psychology or Behavioural Neuroscience

**4350 Selected Topics in Perception I** is an intensive examination of a specific topic of current interest in perception.

PR: the former PSYC 2360 or PSYC 3350 and admission to a Major in Psychology or Behavioural Neuroscience

**4351 Selected Topics in Perception II** is an intensive examination of a specific topic of current interest in perception.

PR: the former PSYC 2360 or PSYC 3350 and admission to a Major in Psychology or Behavioural Neuroscience

**4370 Research Experience in Perception** allows students to gain research

experience in selected areas of perception.

PR: PSYC 2520, 2570, 2911 and 3350 and admission to a Major in Psychology or Behavioural Neuroscience

**4400 Selected Topics in Cognition I**

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

**4401 Selected Topics in Cognition II**

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

**4402 Selected Topics in Cognitive Science** provides an in-depth examination of current issues in cognitive science from a psychological perspective.

PR: two courses chosen from PSYC 3050, 3250, 3350, 3450, 3801 and admission to a Major in Psychology or Behavioural Neuroscience

**4452 Selected Topics in Cognition: Reading** is a survey of the research literature on the development of reading skills including a discussion of dyslexia.

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

**4461 Psycholinguistics** (formerly PSYC 3400) is the psychological approach to the study of language concentrating particularly on the areas of speech, meaning, grammar and communication. The research topics to be discussed include the child's acquisition of language, bilingualism, teaching language to animals, and social factors in language use.

PR: PSYC 3050 or 3450 and admission to a Major in Psychology or Behavioural Neuroscience

**4462 Human Memory** surveys theories and research about how humans remember information and why they forget. Topics include research on sensory memory, short-term working memory, amnesia, forgetting, memory development, and semantic memory as well as practical issues such as how to improve memory.

PR: PSYC 3450 and admission to a Major in Psychology or Behavioural Neuroscience

**4470 Research Experience in Cognition** allows students to gain research experience in selected areas of cognition.

PR: PSYC 2520, 2570, 2911, and 3450 and admission to a Major in Psychology or Behavioural Neuroscience

**4500 Selected Topics in Psychology I** is an intensive examination of a specific topic of current interest in psychology that crosses traditional subdisciplines.

PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

**4501 Selected Topics in Psychology II** is an intensive examination of a specific topic of current interest in psychology that crosses traditional subdisciplines.

PR: two 3000-level majors courses (other than 3900) and admission to a Major in Psychology or Behavioural Neuroscience

**4610 Selected Topics in Personality I**

PR: the former PSYC 2620 or PSYC 3620 and admission to a Major in Psychology or Behavioural Neuroscience

**4620 Selected Topics in Personality II**

PR: the former PSYC 2620 or PSYC 3620 and admission to a Major in Psychology or Behavioural Neuroscience

**4650 Selected Topics in Abnormal Behaviour I**

PR: PSYC 3650 and admission to a Major in Psychology or Behavioural Neuroscience

**4651 Selected Topics in Abnormal Behaviour II**

PR: PSYC 3650, and admission to a Major in Psychology or Behavioural Neuroscience

**4660 Developmental Psychopathology** is a review of current theory and research related to the developmental course of maladaptive behaviours in children and adolescents. Topics will include behavioural, emotional and developmental disorders. Research concerning the role of individual, family, community and cultural factors will be discussed.

PR: PSYC 3650 and admission to a Major in Psychology or Behavioural Neuroscience

**4661 Family Psychology** is a study of the reciprocal relationship between family processes and abnormal behaviour. The course will focus on the role of family dynamics in the etiology of abnormal behaviour, the impact of psychological disorders on family functioning and the application of family therapy to create therapeutic change.

PR: PSYC 3650, or all of 2520, 2570, 2911 and 3640 and admission to a Major in Psychology or Behavioural Neuroscience

**4662 Clinical Psychology and Theories of Psychotherapy** will introduce students to the science and profession of clinical and counselling

psychology. Course content will include a review of approaches to assessment and psychotherapy and a look at some of the major research questions and findings in this area.

PR: PSYC 3650 and admission to a Major in Psychology or Behavioural Neuroscience

**4670 Research Experience in Abnormal Psychology** allows students to gain research experience in selected areas of clinical psychology.

PR: PSYC 2520, 2570, 2911 and 3650 and admission to a Major in Psychology or Behavioural Neuroscience

**4671 Research Experience in Personality** allows students to gain experience in selected areas of personality research.

PR: PSYC 2520, 2570, 2911 and 3620 and admission to a Major in Psychology or Behavioural Neuroscience

**4701 Animal Behaviour II** - inactive course.

**4750 Selected Topics in Animal Behaviour I** will examine in detail a specific topic of current interest in animal behaviour.

PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology or Behavioural Neuroscience

**4751 Selected Topics in Animal Behaviour II** will have the topics to be studied announced by the Department.

PR: PSYC 3750 or Biology 3750 and admission to a Major in Psychology or Behavioural Neuroscience

**4770 Research Experience in Animal Behaviour** allows students to gain research experience in selected areas of animal behaviour.

PR: PSYC 2520, 2570, 2911 and 3750 and admission to a Major in Psychology or Behavioural Neuroscience

**4850 Selected Topics in Behavioural Neuroscience I** will have the topics to be studied announced by the Department.

PR: PSYC 2810, 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

**4851 Selected Topics in Behavioural Neuroscience II** will have the topics to be studied announced by the Department.

PR: PSYC 2810, 3800, or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

**4870 Neuroscience Research** allows students to gain research experience in selected areas of neuroscience.

PR: PSYC 2520, 2570, 2911, and either 3800 or 3801 and admission to a Major in Psychology or Behavioural Neuroscience

**4910 Systems in Contemporary Psychology** is a study of paradigms and explanations in contemporary psychology in the context of their historical antecedents.

PR: 30 credit hours in Psychology courses required in the majors program and admission to a Major in Psychology or Behavioural Neuroscience

**499A and 499B Honours Dissertation** is a linked course, based on independent study of an approved problem in Psychology. The topic will be chosen in consultation with the Faculty Advisor. The first semester will normally involve directed reading in this area, and preparation of a dissertation proposal. The second semester will be devoted to conducting the study, gathering data, data analysis and preparation of a formal written report. The dissertation must be submitted for grading before the end of the tenth week of the semester in which the student is registered for 499B.

CH: 6

PR: admission to the Honours Program

### 8.10.3 Psychology Work Term Descriptions

The Following Work Terms are a requirement of the Psychology Co-op Program only.

**199W Work Term I** follows the successful completion of Semester 4. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. (A detailed description of each job is normally posted during the job competition.) As one component of the Work Term, the student is required to complete a work report. The work report, as a minimum requirement should:

1. analyse an issue/problem related to the student's work environment.
2. demonstrate an understanding of the structure of a professional report, and show reasonable competence in written communication and presentation skills. (Students should consult the evaluation form provided in the placement package.)

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

Seminars on professional development, conducted by the Division of Co-

operative Education, are presented during Semester 4 to introduce and prepare the student for participation in the subsequent work terms. Topics may include among others, work term evaluation, work report writing, career planning, employment seeking skills, resume preparation, self employment, ethics and professional concepts, behavioural requirements in the work place, assertiveness in the work place and industrial safety.

**299W Work Term II** follows the successful completion of Semester 6. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems. The work report, as a minimum requirement, should:

1. analyse an issue/problem related to the student's work environment and demonstrate an understanding of practical application of concepts relative to the student's academic background
2. demonstrate competence in creating a professional report, and
3. show competence in written communication and presentation skills

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

**399W Work Term III** follows the successful completion of Semester 7. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and management processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of professionals and should exercise greater independence and responsibility in their assigned work functions. The work report should reflect the growing professional development of the student and, as a minimum requirement, will:

1. demonstrate an increased ability to analyse a significant issue/problem related to the student's experience in the work environment
2. demonstrate a high level of competence in producing a professional report, and
3. show a high level of competence in written communication and presentation skills

Late reports will be graded as FAL unless prior permission for a late report has been given by the co-ordinator.

## 8.11 Science

**1000 Introduction to Science I** is a liberal science course for Arts students, which reflects the way scientists think and work through historical, philosophical and social considerations of the environment we live in. Typical course content includes: the concepts of matter, motion and energy; the chemical basis for life and the interdependence of organisms; and the abundance and distribution of the Earth's natural resources.

UL: may not be used to fulfill any of the Science course requirements for the Honours and General Degrees in Science

**1001 Introduction to Science II** is continuation of Science 1000.

PR: Science 1000

UL: may not be used to fulfill any of the Science course requirements for the Honours and General Degrees in Science

**1150 Introduction to Physical and Life Sciences** (formerly Science 115A) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).

CR: the former Science 115A

UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

**1151 Introduction to Physical and Life Sciences** (formerly Science 115B) is an introduction to some concepts in the Physical and Life Sciences. This course is primarily intended for the non-science major (Bachelor of Arts; Bachelor of Education (Primary/Elementary)).

CR: the former Science 115B

UL: not acceptable as a prerequisite for 2000 level courses in Physics, Chemistry, Biology, Geography or Earth Sciences

**5998 Exchange Programs in Science** will be available only to students attending Memorial University of Newfoundland as part of a formal exchange agreement, memorandum of understanding, or other special arrangement. This course will normally be offered twice a year, from March to August and September to February.

CH: 3 - 15, to be determined for each offering by the Dean in consultation with the appropriate Head of Department or Co-ordinator

PR: permission of the Dean of Science

UL: may be repeated for credit once

## Personnel - Administrative Faculty and Staff

### Office of the Principal

#### Acting Vice-President

Pike, H., B.A. *Memorial*, M.A. *Dalhousie*, Ph.D. *S.U.N.Y.*

#### Acting Vice-Principal

Iams, W.J., B.A. *John Hopkins*, M.Sc. *Dalhousie*, Ph.D. *Memorial*

#### Associate Vice-Principal (Research)

Emke, I., B.A. *Ohio State*, M.A. *Windsor*, Ph.D. *Carleton*

### Office of the Registrar

#### College Registrar

Noftall-Bennett, S., B.S.W. *Memorial*, M.Ed. *Mount Saint Vincent*

#### Manager, Academic Advising

Jackman, D., B.A., B.Ed., M.Ed. *Memorial*

#### Student Recruitment Officer

Field, S., B.B.A. *Memorial*

#### Student Recruitment Officer

Decker, D., B.A. *Memorial*

#### Student Recruitment Officer

Adey, A.W., B.Sc. *Memorial*

#### Co-ordinator Conversion Project/Academic Advisor

Parsons, C., B.B.A., M.Ed. *Memorial*

### Student Services

#### Co-ordinator

Sparkes, M., B.A. *Mount Saint Vincent*, M.Ed. *Toronto*

#### Student Affairs Officer

Carroll, L.D., B.A.(Ed.), M.Ed. *Memorial*

#### Learning Centre Co-ordinator

Payne, L.G., B.S.W. *Memorial*

#### Manager Student Housing

Mitchell, J., B.A. *Memorial*

#### Wellness Educator

Galliot, J., B.P.E. *Memorial*

#### International Student Programming Co-ordinator

Peddle, S.M., B.A. *Memorial*

### Chaplains

#### United Church

Waite, K., Rev.

#### Pentecostal Church

Andrews, C., Pastor

#### Roman Catholic

Father D. Leonard

#### Anglican

Druggett, G., Rev.

#### Salvation Army

Strickland, C.

### Counsellors

Barber, J., B.Sc., B.Ed. *Memorial*, M.Ed. *Ottawa*, Lecturer

Wilson, P., B.A., B.Ed., M.Ed. *Memorial*, Ed.D *Toronto*, Professor

### Community Education and College Relations

#### Co-ordinator

Philpott, J., B.A. *Memorial*, MCPM *York University*

#### Communications Co-ordinator

Gill, P., B.A.(Hons.) *Memorial*, B.J. *University of King's College*

#### Program Developer

Forward, M., B.A.(Ed.) *Memorial*

#### Conference Services Co-ordinator

Baltzer, S., B.A. *Carleton*

#### Facilities Co-ordinator

Walsh, J., B.A. *Memorial*

#### Graphic Artist

Hollett, L.

#### Special Events Co-ordinator

Hewlett, S., B.P.E. *Memorial*

### Computing and Communications

#### Manager

Rowsell, R., B.Voc.Ed., B.Eng. *Memorial*

#### Library

Rose, C., B.F.A. *Simon Fraser*, M.L.I.S. *Dalhousie*; Public Services Librarian

McGillis, L., B.A. *McGill*, M.L.S. *Toronto*; Associate University Librarian

### Administration and Finance

#### Director

Waterman, D., B.Comm. *Memorial*

#### Staff Accountant

Hackett, W., B.Acc.S. *Calgary*

#### Bookstore Manager

Day, M.

#### Budget Assistant

Quigley, C.

#### Finance Officer

Duffy, B., B.Comm. *Memorial*, C.M.A.

#### General Services Supervisor

Hulan, J.

### Personnel - Faculty

#### Division of Arts

Peddle, D., B.A., M.A. *Memorial*, Ph.D. *Ottawa*; Associate Professor, Philosophy; Head, Division of Arts

Baehre, R., B.A., M.A., M.Phil. *Waterloo*, Ph.D. *York*; Associate Professor, Historical Studies; Cross appointment with Social/Cultural Studies Program

Beardsworth, A., B.A.(Hons.) *Mount Allison*, M.A., Ph.D. *Memorial*; Visiting Assistant Professor, English

Bezzina, E., B.A. *Queen's*, M.A., Ph.D. *Toronto*; Assistant Professor, Historical Studies

Fabijancic, T., B.A. *St. Francis Xavier*, M.A. *Victoria*, Ph.D. *New Brunswick*; Associate Professor, English

Grant, P.B., M.A. *Glasgow*, M.Phil., Ph.D. *Cantab*; Assistant Professor, English

Jacobsen, K., B.A. *Trinity Western*, M.A., Ph.D. *Queen's*; Associate Professor, English; Program Chair, English

Janes, M., B.A. *Memorial*; Lecturer, French; Winner of the Sir Wilfred Grenfell College Teaching Award, 2009

Janzen, O.U., B.A. *McMaster*, M.A., Ph.D. *Queen's*, F.R.Hist.S.; Professor, Historical Studies; Program Chair, Historical Studies

King, C.J., B.A., B.Ed. *Saint Mary's*, M.A. *Dalhousie*, Ph.D. *Brown*; Assistant Professor, Classics; Cross appointment with Historical Studies

McKenzie, S., B.A. *Victoria*, M.A. *Concordia*, Ph.D. *Toronto*; Assistant Professor, English

Newton, M.C., Cert. of Education *King Alfred's College*, B.A., M.A., Ph.D. *McMaster*; Professor, Religious Studies; Cross appointment with Environmental Studies; Winner of the Sir Wilfred Grenfell College Teaching Award, 2008

Pender, N., M.A. *Laval*; Lecturer, French

Pike, H., B.A. *Memorial*, M.A. *Dalhousie*, Ph.D. *S.U.N.Y.*;

Associate Professor, English; Acting Vice-President

Sherlow, L., B.A., Cert. Ed. *Birmingham*, M.A. *Carleton*, Ph.D.

*Ottawa*; Associate Professor, English; Program Chair, Humanities

Thackray, M., B.A. *Waterloo*, M.A., Ph.D. *S.U.N.Y.*; Associate Professor, English

Wellman, H., B.A., M.A., *Memorial*; Lecturer, English

Wills, B., B.A.(Hons.) *King's College*, M.A. *Dalhousie*, Ph.D.

*McMaster*; Visiting Assistant Professor, Philosophy

Young, B., B.A., M.A. *Memorial*; Lecturer, English

**Cross Appointments**

Atkinson, M., B.A., M.A. *Queens*; Lecturer, Art History/Visual Culture; Cross appointment with Historical Studies  
 Curtis, G., B.F.A., B.A. *Calgary*, Ph.D. *Essex*; Associate Professor, Art History/Visual Culture; Cross appointment with Historical Studies; Winner of the President's Award for Distinguished Teaching, 2009

**Division of Fine Arts**

MacCallum, M., B.F.A. *Concordia*, M.V.A. *Alberta*; Professor and Head, Division of Fine Arts  
 Coyne, M., B.F.A. *Mt. Allison*, M.F.A. *Regina*; Professor, Visual Arts  
 Curtis, G., B.F.A., B.A. *Calgary*, Ph.D. *Essex*; Associate Professor, Art History, Visual Arts; Winner of the President's Award for Distinguished Teaching, 2009  
 Foulds, D., B.F.A., M.F.A. *Saskatchewan*; Associate Professor, Visual Arts  
 Hansen-robtschek, r., B.A. *Ottawa*; Assistant Professor, Theatre  
 Hennessey, T., B.F.A. *Memorial*, M.F.A. *Calgary*; Assistant Professor and Chair, Theatre  
 Hunt, B., Diploma in Fine Art *Manitoba*, M.F.A. *Montreal*; Professor, Visual Arts; Winner of the President's Award for Outstanding Research, 2004-2005  
 Jones, K., B.A. *California*, H.D.F.A. *The Slade School of Fine Art, University College London*; Professor, Visual Arts  
 Judge, C., B.F.A. *Alberta*, M.F.A. *Victoria*; Assistant Professor, Visual Arts (on leave)  
 LeBlanc, P., B.F.A. *Moncton*, M.F.A. *Montreal*; Associate Professor and Chair, Visual Arts  
 Livingstone, K.D., B.A. *Bishop's*, M.A. (Theatre) *British Columbia*; Associate Professor, Theatre  
 Morrish, D., B.F.A. *Manitoba*, M.F.A. *Calgary*; Professor, Visual Arts  
 Nelson, C., B.F.A. *Memorial*, M.F.A. *Wimbledon School of Design*; Assistant Professor, Theatre

**Cross Appointment**

Monaghan, P.K., B.Sc. *Liverpool*, Ph.D. *Western Ontario*; Associate Professor, Environmental Science (Chemistry); Cross appointment with Chemistry

**Division of Science**

Campbell, C.E., B.Sc. *British Columbia*, M.Sc. *Alberta*, Ph.D. *Memorial*; Associate Professor, Environmental Science and Biology; Head, Division of Science  
 Abhyankar, S.B., B.Sc., M.Sc. *Bombay*, M.S., Ph.D. *Florida State*, M.C.I.C.; Associate Professor, Environmental Science and Chemistry  
 Aleksejevs, A., B.Sc., M.Sc. *Latvian State*, Ph.D. *Manitoba*; Assistant Professor, Physics and Mathematics  
 Andrews, S.E., B.Sc., B.Ed., M.Sc. *Memorial*; Associate Professor, Environmental Science and Biology; Winner of the President's Award for Distinguished Teaching 2002-2003  
 Bateman, L.E., B.Sc.(Hons.) *Dalhousie*, M.Sc. *Memorial*; Associate Professor, Environmental Science and Biology; Program Chair of General Science  
 Bauer, I., B.Sc.(Hons.) *Manchester*, M.Sc. *Wales*, Ph.D. *Alberta*; Assistant Professor, Environmental Science and Biology  
 Berger, A.R., B.Sc.(Hons.) *Dalhousie*, M.Sc. *Melbourne*, Ph.D. *Liverpool*; Adjunct Professor, Earth Science  
 Bowers, W.W., B.Sc. *Memorial*, Ph.D. *Simon Fraser*; Professor, Environmental Science and Biology  
 Churchill, D., B.Sc.(Hons) *Memorial*, M.Sc., Ph.D. *Queen's*; Visiting Assistant Professor; Adjunct Professor, Environmental Science and Chemistry  
 Chuai, J., B.Sc., M.Sc. *Hebei University*, Ph.D. *Queen's*; Visiting Assistant Professor, Mathematics, Statistics and Computer Science  
 Doucet, C., B.Sc. *Concordia*; M.Sc. *Guelph*; Adjunct Professor, Environmental Science  
 Dust, J.M., B.Sc.(Hons.) *Waterloo*, M.Sc. *Dalhousie*, Ph.D. *Queen's*; M.C.I.C.; Associate Professor, Environmental Science and Chemistry  
 Forbes, D., B.Sc. *Lyndon State*, M.Sc. *St. Mary's*, Ph.D. *Victoria*; Professor, Physics; Winner of the President's Award for Outstanding Research, 1993-1994  
 Gallant, R., B.Sc.(Hons.) *Memorial*, M.Sc., Ph.D. *Waterloo*; Assistant Professor, Mathematics, Statistics and Computer Science  
 Goff, G.P., B.Sc. *St. Francis Xavier*, M.Sc. *Memorial*, Ph.D.

*Western Ontario*; Visiting Assistant Professor, Environmental Science and Biology  
 Gunther, G., B.Sc., M.Sc., Ph.D. *Toronto*; Professor, Mathematics, Statistics and Computer Science; Winner of the President's Award for Distinguished Teaching, 1994-95  
 Iams, W.J., B.A. *Johns Hopkins*, M.Sc. *Dalhousie*, Ph.D. *Memorial*; Associate Professor, Environmental Science, Earth Science and Environmental Studies; Winner of the Sir Wilfred Grenfell College Teaching Award, 2006; Acting Vice-Principal  
 Knight, T.W., B.Sc.(Hons.) *Guelph*, M.Sc. *Lakehead*, Ph.D. *Memorial*; Adjunct Professor, Environmental Science  
 Krishnapillai, M., B.Sc.(Agric.), M.Phil. *Peradeniya*, Ph.D. *Manitoba*; Associate Professor, Environmental Science and Earth Science; Program Chair of Environmental Science  
 Liu, C., B.Eng. *Beijing University of Chemical Technology*, M.Sc. *Central Michigan*, Ph.D. *Florida*; Visiting Assistant Professor, Environmental Science and Chemistry  
 MacLeod, R., B.Sc. *Concordia*, M.Sc. *McMaster*; Visiting Assistant Professor, Mathematics, Statistics and Computer Science  
 Monaghan, P.K., B.Sc. *Liverpool*, Ph.D. *Western Ontario*; Associate Professor, Environmental Science and Chemistry; Cross appointment with Theatre  
 Moroni, M.T., B.Agr.Sci.(Hons.), Ph.D. *Tasmania*; Adjunct Professor, Environmental Science  
 Parkinson, D.R., B.Sc. *Brock*, Ph.D. *London*, M.C.I.C.; Associate Professor, Environmental Science and Chemistry  
 Rayner-Canham, G.W., B.Sc. *London*, D.I.C. *Imperial College*, Ph.D. *London*, F.C.I.C.; Professor, Environmental Science and Chemistry; Winner of the Sir Wilfred Grenfell College Teaching Award, 2003; Winner of the President's Award for Distinguished Teaching, 2005-2006  
 Richards, R.W., B.Sc. *Calgary*, M.Sc., Ph.D. *McMaster*; Associate Professor, Mathematics, Statistics and Computer Science  
 Royer, L., B.Sc., Ph.D. *Laval*; Adjunct Professor, Environmental Science  
 Rouleau, P., B.Sc. *UQAM*, Ph.D. *Alberta*; Associate Professor, Environmental Science and Physics  
 Sodhi, A., B.Math. *Waterloo*, M.Sc., Ph.D. *Queen's*; Associate Professor, Mathematics, Statistics and Computer Science  
 van Zyll de Jong, M.C., B.Sc. *Toronto*, M.Sc., Ph.D. *Hull*; Adjunct Professor, Environmental Science  
 Yasilyev, Y., B.Sc., M.Sc. *Novosibirsk State*, Ph.D. *Notre Dame*; Assistant Professor, Mathematics, Statistics and Computer Science  
 Warkentin, I.G., B.Sc., Ph.D. *Saskatchewan*; Associate Professor, Environmental Science and Biology

**Division of Social Science**

Wright, S.L., B.A. (Hons.), M.Sc. *Simon Fraser*, Ph.D. *Dalhousie*; Associate Professor, Psychology; Head, Division of Social Science  
 Abbott, C.E., B.A. *Memorial*, M.A. *Queen's*; Lecturer, Sociology and Social/Cultural Studies  
 Addo, E., B.A.(Hons.)(Geography & Archaeology) *University of Ghana*, M.A.(Geography) *University of Regina*, M.A.(Political Science) *University of Toronto*, Ph.D.(Regional Economic Development Planning) *University of Sheffield*, Cert.(Hons.)(International Development Studies) *University of Oslo*, Dip.(Hons.)(Tourism & Computer Applications) *Toronto School of Business*, *Ottawa*; Assistant Professor, Tourism  
 Bodner, J.M., B.A. *Trent*, M.A., Ph.D. *Memorial*; Assistant Professor, Folklore and Social/Cultural Studies; Chair of Social/Cultural Studies Program  
 Buckle, J.L., B.Sc.(Hons.) *Acadia*, M.A., Ph.D. *York*; Assistant Professor, Psychology  
 Carroll, D.A., B.P.E. *Memorial*, M.A. *Alberta*; Associate Professor, Human Kinetics and Recreation and Environmental Studies; Chair of Environmental Studies Program  
 Carter, A.V., B.A. (Hons.) *Ottawa*, M.A. *Carleton*, M.A. *Cornell*, Ph.D. *ABD Cornell*; Assistant Professor, Political Science and Environmental Studies; Acting Director, Environmental Policy Institute  
 Corbin Dwyer, S., B.A.(Hons.), B.Ed. *Memorial*, M.Ed. *Dalhousie*, Ph.D. *Calgary*; Professor, Psychology; Chair of Psychology Program  
 Croll, M.C., B.A. *Mount St. Vincent*, M.A. *Dalhousie*, M.Ed. *University of New Brunswick*, Ph.D. *University of Stirling*; Assistant Professor, Anthropology and Sociology, Social/Cultural Studies  
 Decker, S.E., B.A., M.A. *Memorial*; Lecturer, Geography and Environmental Studies  
 Duffy, J., B.A., M.A. *Carleton*, Ph.D. *York*; Professor, Psychology

- Emke, I., B.A. *Ohio State*, M.A. *Windsor*, Ph.D. *Carleton*;  
Associate Professor, Anthropology and Sociology; Associate  
Vice-Principal (Research)
- Haghiri, M., B.Sc., M.Sc. *University of Tehran*, Ph.D. *University of  
Saskatchewan*; Associate Professor, Economics
- Iankova, K., B.A. *University of Veliko Tŭrnovo*, M.A. *Sofia  
University*, Ph.D. *Université du Québec à Montréal*; Assistant  
Professor, Tourism; Chair of Tourism Studies Program
- Klassen, D.H., B.A. *Wilfred Laurier*, M.A. *Manitoba*, Ph.D. *Indiana*;  
Associate Professor, Folklore and Social/Cultural Studies
- Lam, J., B.Sc. *British Columbia*, M.Sc. *McGill*, M.B.A. *Concordia*;  
Assistant Professor, Business
- Luther, J.E., B.Sc.(Hons.), M.Sc. *Memorial*; Adjunct Professor,  
Sustainable Resource Management
- Mintz, E.P., B.A. *British Columbia*, M.A. *York*; Associate Professor,  
Political Science and Environmental Studies
- Monteith, G.R., B.A. *Western Ontario*, M.B.A. *McMaster*, B.Ed.  
*Toronto*; Lecturer, Business
- Nicol, K.S., B.A., M.Sc. *British Columbia*; Associate Professor,  
Geography and Environmental Studies
- Novakowski, N., B.A. *Toronto*, M.A., Ph.D. *Ottawa*; Associate  
Professor, Geography and Environmental Studies
- Okech, R.N., B. Comm. *Marathwada University*, M.A. *Institute for  
Social Sciences and Research Vellore*, Ph.D. *University of  
KwaZulu-Natal*; Assistant Professor, Tourism
- Otto, R.D., B.Sc. *Acadia*, M.Sc.F. *University of New Brunswick*;  
Adjunct Professor, Sustainable Resource Management
- Pitcher, J.B., B.A., M.B.A. *Memorial*; Assistant Professor,  
Business; Chair of Business Administration
- Robinson, A., B.A., M.Phil., M.A. *Memorial*, Ph.D. *McMaster*;  
Assistant Professor, Anthropology
- Rudd, M., B.Sc., M.Sc. *University of British Columbia*, Ph.D.  
*Wageningen University*; Assistant Professor/Canada Research  
Chair in Ecological Economics
- Ryan, J.L., B.Comm.(Hons.)(Co-op) *Memorial*, M.B.A. *Dalhousie*;  
Lecturer, Business
- Sabau, G.L., B.A., Ph.D. *Academy of Economic Studies,  
Bucharest*; Associate Professor, Economics and Environmental  
Studies
- Scott, R.J., B.Sc.(Hons.) *Western Ontario*, M.Sc. *Guelph*, Ph.D.  
*Clark University*; Assistant Professor, Sustainable Resource  
Management; Chair of Sustainable Resource Management  
Program
- Stewart, D.J., B.A., M.A. *Memorial*, Ph.D. *Miami*; Associate  
Professor, Psychology
- Stewart, P.C., B.A.(Hons.) *Memorial*, Ph.D. *McMaster*; Assistant  
Professor, Psychology
- Walsh, J.S., B.A.(Hons.) *Memorial*, LL.B. *New Brunswick*, M.B.A.  
*Memorial*; Assistant Professor, Business
- Warren, K.L., B.A.(Hons.) M.Sc. *Memorial*; Assistant Professor,  
Psychology

### Cross Appointments

- Baehre, R., B.A., M.A., M.Phil. *Waterloo*, Ph.D. *York*; Associate  
Professor, Historical Studies; Cross appointment with Social  
Cultural Studies Program
- Newton, M.C., Cert. of Education *King Alfred's College*, B.A., M.A.,  
Ph.D. *McMaster*, Professor, Religious Studies; Cross  
appointment with Environmental Studies; Winner of the Sir  
Wilfred Grenfell College Teaching Award, 2008

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 General Information

The College, a campus of Memorial University of Newfoundland, was established in September 1975. In 1979 it was named Sir Wilfred Grenfell College honouring the memory of the medical missionary who pioneered medicine in northern Newfoundland and along the coast of Labrador until his death in 1940.

Four year degree programs in arts, science, business administration, fine arts, nursing and resource management may be completed at Sir Wilfred Grenfell College. The Bachelor of Arts degree is available in English, environmental studies, historical studies, humanities, psychology, social/cultural studies and tourism studies and the Bachelor of Arts (Honours) may be obtained in psychology. The Bachelor of Science and Bachelor of Science (Honours) are offered in environmental science, general science, and psychology, and the University's four year Bachelor of Nursing degree is offered in conjunction with the Western Regional School of Nursing in Corner Brook. Bachelor of Fine Arts degrees are conferred in visual arts and theatre. These programs are different from programs offered on the St. John's campus and most are available only at Sir Wilfred Grenfell College.

Students at Grenfell may also complete the first year requirements of several programs offered at the St. John's Campus. It is recommended that students meet with an academic adviser concerning course selection for specific programs.

Students have the option of completing distance and web-based credit courses offered by Distance Education and Learning Technologies (DELT) at Memorial University of Newfoundland. As well, the Division of Community Education and College Relations also offers a wide variety of non-credit courses to the students at the College and to the general public.

The College campus affords a spectacular view of the city of Corner Brook and the scenic Bay of Islands. The Arts and Science Building houses administrative and academic units, a bookstore, an athletics and recreation wing, a student residence and the Student Centre. The Library and Computing Building includes the Ferriss Hodgett Library, a computer lab and a high tech lecture theatre. The Fine Arts Building contains facilities for students of theatre and visual arts, the college community and the general public. It features a 225 seat "black box" theatre, dressing rooms, scenery, costume and properties workshops, as well as an actors' green room and a rehearsal hall. The Fine Arts Building also includes an art gallery, art storage vault, studios for drawing, painting, sculpture, multi-media and photography, darkrooms, and workshops for lithography, intaglio and serigraphy. The Forest Centre is a shared facility housing classroom, laboratory and research facilities for the College as well as the Newfoundland Division of the Canadian Forestry Service. All campus buildings are connected, mostly by skywalks.

Additional information regarding Sir Wilfred Grenfell College is available at [www.swgc.mun.ca/Pages/default.aspx](http://www.swgc.mun.ca/Pages/default.aspx).

### 2.1 Student Services

Student Services promotes the intellectual, social, spiritual, and physical development of all students. By advocating for students, providing the highest quality service and involving students in leadership roles, Student Services strives to help students realize their full potential - to become successful students, caring individuals, and productive citizens.

The department offers many programs and services which promote student development, such as student employment, leadership development, scholarships, orientation, recreation and wellness, academic support, and student housing.

Student Services is located in the Student Services Centre, AS234 at Sir Wilfred Grenfell College. Further information may be obtained by telephone to (709) 637-6232, or by e-mail at [saffairs@swgc.mun.ca](mailto:saffairs@swgc.mun.ca), or through the website at [www.swgc.mun.ca/student](http://www.swgc.mun.ca/student).

### 2.2 The Learning Centre

One of the most utilized components of Student Services is the Learning Centre, Grenfell College's one-stop shop for academic support. Staff in the Centre assist students with career planning and provide writing and math help. The Learning Centre also offers Peer

Tutoring and runs the Supplemental Instruction program.

The co-ordinator of the Learning Centre is also responsible for helping students who require accommodations because of a disability.

The Learning Centre is located in AS 235. Further information may be obtained by contacting the Centre by telephone to (709) 637-6268 or through the website at [www.swgc.mun.ca/lcentre](http://www.swgc.mun.ca/lcentre).

## 2.3 Student Housing

Student Housing currently offers accommodation for 400 students in a suite-style residence mainly for 1st year students and in chalet apartments for families and students beyond their first year. In our residence every two rooms form a suite, where two students share a fridge and bathroom. In each apartment, four students share a living room, kitchen and one-and-a-half baths, but like the residence, each student has his/her own room. Individual phones and Internet ports are provided.

Student Housing facilitates a variety of programs and activities to meet the diverse interests of residents and encourages students to get involved.

The off-campus office assists students seeking accommodation in the Corner Brook area. An online database of boarding houses/apartments is available. The office also offers services and programs throughout the year for student living off campus.

Further information may be obtained by telephone to (709) 637-6266, or by e-mail at [resinfo@swgc.mun.ca](mailto:resinfo@swgc.mun.ca), or through the website at [www.swgc.mun.ca/swgc-res/](http://www.swgc.mun.ca/swgc-res/), or at the Housing Office at Residence Room 221.

## 2.4 Recreation and Wellness

Sir Wilfred Grenfell College offers a distinctive program of recreation and wellness activities that contributes to the well being and personal and social development of students. The college has a 25 metre pool, a gymnasium and an outdoor multi-use court. Through a partnership with the Pepsi Centre, students are able to access a fitness facility, ice rinks and a walking track. Students also have the opportunity to use various recreational facilities on the west coast of this province. Students are able to participate in a variety of recreation programs such as intramural sports, step aerobics, and "learn to" programs that include activities like downhill skiing, kayaking and swimming.

Through a partnership with the Western Regional School of Nursing, a Wellness Centre operates at Grenfell on a part-time basis during the academic year.

The role of the centre is to enhance education and awareness of various lifestyle, health and well-being issues relevant to students at university.

## 2.5 Grenfell College Student Union

The Grenfell College Student Union (GCSU), Local 36, CFS, represents students' interests to the College administration and on a provincial and national level through the Canadian Federation of Students. The GCSU also promotes artistic, literary, educational, social, recreational, charitable, and sporting activities for the enhancement of the students of the College.

All full and part-time students pay GCSU fees and upon registration become members of the Grenfell College Student Union.

## 2.6 Counselling Services

The College has two professional counsellors available to assist students with their concerns. The counsellors provide a free and confidential service that includes career, academic, and personal counselling. The counsellors meet with their clients individually and assist them with a wide range of concerns. When necessary, the counsellors can arrange referrals to other professionals in the community.

## 2.7 Library

The Ferriss Hodgett Library is located on levels 2 and 3 of the Library and Computing Building, with seating for 203 users and includes group study rooms, audio-visual carrels and an information commons.

The Library holds over 120,000 books and 450 current subscriptions, along with collections of audio-visual materials, government documents, microforms and periodicals, and access to many e-journals and e-books.

A full range of public services is available including reference assistance, orientation tours and interlibrary loans, as well as access to electronic information resources, internet, spreadsheet, word processing and presentation software.

As a branch of the University Library, the Ferriss Hodgett Library also provides its users with access to the collections and services of all other Memorial University of Newfoundland libraries.

## 2.8 Statement of Academic Purpose

Sir Wilfred Grenfell College, as part of Memorial University of Newfoundland, is a four year undergraduate degree granting institution offering a liberal education in arts and science and a professional education in nursing, theatre and visual arts. In addition, the College continues to accommodate students who wish to complete their degrees at Memorial University of Newfoundland in St. John's or at universities elsewhere.

At Sir Wilfred Grenfell College a liberal education means a critical and open-minded pursuit of knowledge providing students with the intellectual tools to enable them to respond to a rapidly changing world. A liberal education marks the start of preparation for a career and it may lead to graduate work in a number of fields. In a broader sense it is intended to build a foundation for social, cultural and recreational interests that will help students move toward a meaningful personal and professional life. Academically, the aim of Sir Wilfred Grenfell College is to enable students to be open to new ways of thinking and to gain a lasting intellectual self-confidence so that they may have both the ability and the desire to be life-long learners.

At Sir Wilfred Grenfell College the goal of high quality education is reflected in the following commitments:

1. to teach students in a variety of challenging contexts and in general provide them with a personalized learning environment;
2. to maintain high academic standards;
3. to foster excellence in teaching, to encourage scholarship, research, performance and artistic endeavour, and to engage students, where appropriate, in these activities.

## 3 Sir Wilfred Grenfell College Core Program Requirements

Students completing the Bachelor of Arts, Bachelor of Business Administration, Bachelor of Resource Management, and Bachelor of

Science degree programs at Sir Wilfred Grenfell College must complete Core program requirements as follows:

### 1. Literacy Requirement

Thirty credit hours in Writing courses which must include 6 credit hours in first-year English. Up to 6 credit hours in languages other than English may be used to satisfy the literacy requirement. Courses in this group are identified with the designation W and are listed in the table, **Designated Writing Courses (W)**.

Courses in this category must either be completed through on-campus offerings at Sir Wilfred Grenfell College or be demonstrated to be equivalent to Grenfell writing courses.

### 2. Quantitative Reasoning and Analysis Requirement

Six credit hours in Quantitative Reasoning and Analysis courses. Courses in this group are identified with the designation QRA and are listed in the table, **Designated Quantitative Reasoning and Analysis Courses (QRA)**.

### 3. Breadth of Knowledge Requirement

Six credit hours from each of the three groups identified below for a total of 18 credit hours. The courses chosen can be any courses within the disciplines identified. However, students are not permitted to use these courses to meet the Quantitative Reasoning and Analysis requirement nor the first-year English requirements.

- Group A: Art History, Classics, English, History, Humanities, Languages, Philosophy, Religious Studies, Theatre, Visual Arts
- Group B: Anthropology, Business, Economics, Education, Environmental Studies, Folklore, Geography, Human Kinetics and Recreation, Political Science, Psychology, Sociology, Sustainable Resource Management, Tourism Studies, Women's Studies
- Group C: Biology, Biochemistry, Chemistry, Computer Science, Earth Sciences, Environmental Science, Mathematics, Physics, Science

## 3.1 Designated Writing Courses (W)

Anthropology: 2240, 2300, 2500, 3080, 3083, 3140, 3520, 3525, 4072, 4440
Biology: 2040, 2041, 2122, 2600
Business: 1201, 2000, 2808, 6500, 7000, 7010, 7025
Chemistry: 2210
Classics: 1100, 1120, 1121, 1200, 2010, 2015, 2020, 2035, 2040, 2055, 2060, 2701, 2800, 2801, 3010, 3020, 3110, 3111, 3130
Earth Science: 2914, 2915
English: All English courses listed with the Sir Wilfred Grenfell College English Program and English 1110 and 2010
Environmental Science: 2370, 2371, 3131, 3210, 3211, 3260, 4000, 4133, 4950, 4951, 4959
Environmental Studies: 4000, 4950
Folklore: 1000, 1050, 2000, 2300, 2401, 2500, 2600, 3130, 3200, 3300, 4072, 4440
Forestry: 3000, 3200
French: 2100, 2101, 2601, 2602, 3100, 3101
Geography: 2001, 2302
History: All history courses listed with the Sir Wilfred Grenfell College Historical Studies Program
Human Kinetics and Recreation (HKR): 2300, 3330, 3340, 3350, 3410
Humanities: 3000, 4000, 4950
Mathematics: 2130
Philosophy: 1001, 1200, 1600, 2200, 2220, 2230, 2551, 2561, 2581, 2701, 2702, 2800-2810, 3120, 3150, 3160, 3400, 3600, 3610, 3620, 3701, 3730, 3850, 3860, 3940, 4200-4790, 4200, 4250, 4700
Political Science: 1010, 1020, 2000, 2200, 2711, 3550, 3731
Psychology: 4910, 4950, 4951, 4959
Religious Studies: 1000, 1010, 1020, 2011, 2013, 2050, 2051, 2610, 3010, 3020, 3030, 3040, 3200, 3401, 3820, 3831, 3840, 3880
Science: 3000, 3001, 4000, 4950, 4951, 4959
Social/Cultural Studies: 4000, 4100, 4950
Sociology: 2240, 2610, 3140, 3150, 3290, 3395, 4072
Sustainable Resource Management: 2000, 2001, 3000, 3001, 3002, 4001, 4002, 4003, 4010, 4950
Theatre: 1000, 1001
Tourism Studies: 1100, 2000, 3230, 3240, 3800, 4010, 4950
Visual Arts: 2700, 2701, 3620, 3700, 3701, 3702-3721, 3820, 4060, 4700-4729, 4730, 4731, 4740, 4741
Women's Studies: 2001
University: 1010

Note: Courses will be designated Writing courses by the Academic Studies Committee. A Writing course is a course in which a minimum of 30 percent of the course grade involves a specific component consisting of written work on which students will receive feedback. For the purpose of this regulation, the final examination will not be counted as part of the evaluated Writing component

### 3.2 Designated Quantitative Reasoning and Analysis Courses (QRA)

<b>Arts</b> Philosophy 2210, 3110
<b>Fine Arts</b> None
<b>Science</b> Biochemistry 1430 Biology 2250, 2600 Chemistry (All courses with the exception of Chemistry 1900) Computer Science (All courses) Earth Science 2150 Environmental Science (All courses with the exception of: 1000, 2360, 2370, 2371, 3072 and 4000) Mathematics (All courses) Statistics (All courses) Physics (All courses)
<b>Social Science</b> Business 1101, 2101, 2401, 4500 Economics 2010, 2020, 3150 Environmental Studies 2000 Geography 3222 Psychology 2925, 2950, 3950 Sociology 3040 Sustainable Resource Management 4000

Note: Courses will be designated Quantitative Reasoning and Analysis by the Academic Studies Committee. The Quantitative Reasoning and Analysis (QRA) Requirement is intended to help students develop a degree of appreciation of numerical, statistical and/or symbolic modes of representation, as well as an appreciation of the analysis, interpretation and broader quantitative application of such representations.

## 4 The Bachelor of Arts and Bachelor of Science Degree Programs

Sir Wilfred Grenfell College reserves the right to limit the number of spaces available in each Major/Minor program.

A student may not use the same course to satisfy the requirements for both a Major and a Minor.

Students may devise a Major/Minor of their own choosing in close consultation with a faculty advisor and with approval of appropriate head(s). Such "open" programs must be approved by the Academic Studies Committee.

Course prerequisites may be waived by division heads or program chairs of the disciplines or programs in question. In special circumstances the Academic Studies Committee may waive the requirements that apply to these degree programs.

Courses listed for a Major or for a Minor may require prerequisite courses not listed in the program requirements. Please consult all course descriptions for prerequisites.

### 4.1 General Regulations

For the Bachelor of Arts and Bachelor of Science degrees at Sir Wilfred Grenfell College students must complete a minimum of 120 credit hours made up of the following components:

1. Core Program Requirements (see above)
2. An approved concentration of courses known as a Major
3. An approved concentration of courses known as a Minor. A Minor is not required for interdisciplinary programs or for Bachelor of Science in Psychology. However, students in such programs may choose to complete a Minor
4. Elective courses

### 4.2 Major

1. The requirements for a Major can be fulfilled in one of two ways:
  - a. minimum of 36 credit hours in a single discipline or
  - b. minimum of 72 credit hours in an interdisciplinary area

Students choosing a single discipline major (with the exception of Bachelor of Science in Psychology) must complete one of the following: (i) minor or (ii) with the permission of the appropriate program chair(s), a second major.

Actual credit hours required for specific disciplines will vary.
2. All Majors require a minimum of 12 credit hours in 3000-level courses, 6 credit hours in 4000-level courses and 3 credit hours in a 4000-level senior project.
3. A candidate must follow the specific requirements for each major program as set forth in the Sir Wilfred Grenfell College section of the University Calendar
4. Single discipline majors are available in following areas:  
 Division of Arts: English, Historical Studies  
 Division of Social Science: Psychology (B.A. and B.Sc.); Tourism Studies  
 Interdisciplinary majors are available in following areas:  
 Division of Arts: Humanities  
 Division of Social Science: Environmental Studies, Social/Cultural Studies, Sustainable Resource Management  
 Division of Science: Environmental Science, General Science

### 4.3 Minor

A minimum of 24 credit hours must be completed in a single discipline or interdisciplinary area other than that of the Major. Minors are

available in the following areas:

Division of Arts: Classics, English, French, Historical Studies, Humanities, Philosophy, Religious Studies

Division of Social Science: Business, Canadian Studies, Economics, Environmental Studies, Folklore, Geography, Psychology, Social/Cultural Studies, Sociology; Tourism Studies

Division of Fine Arts: Art History

Division of Science: Environmental Science, Mathematics, Science

A candidate must follow the requirements for the Minor program as set forth in the Sir Wilfred Grenfell College section of the University Calendar.

As an alternative to a Minor, a second Major may be completed and students must meet all general and departmental or program regulations for both Majors.

Any student enrolled in the Sir Wilfred Grenfell College BA Degree with a Major in English who has completed the B.F.A. (Theatre) Degree at Sir Wilfred Grenfell College will be considered to have fulfilled the requirements for a Minor in Theatre.

#### 4.4 Electives

Courses to make up the total of 120 credit hours, other than those required for the core program and Major/Minor requirements, may be chosen according to the following guidelines:

1. Any courses in arts, social science, science and fine arts
2. Up to 15 credit hours in other subject areas.

#### 4.5 Advice to Students on Planning a Program

When planning the sequence of courses for a Major or Minor Program, students should seek advice from the Office of the Registrar or the appropriate Division Office.

### 5 Regulations for the Honours Degrees of Bachelor of Arts and Bachelor of Science at Sir Wilfred Grenfell College

Programs are offered leading to the Honours Degrees of Bachelor of Arts and Bachelor of Science. An Honours degree requires, over and above the requirement of the General degree, a concentration at an advanced level in an approved field, consisting of a subject or subjects of specialization and/or related subjects, and a high quality of work throughout the program. An Honours degree is of distinct advantage to candidates who plan advanced work or careers in their chosen fields and also to those who have a clear commitment to some special field of study. An Honours degree with first or second class standing is, in many cases, a prerequisite for admission to a graduate program.

#### 5.1 Admission and Registration

1. Admission to the Honours degree is competitive and limited, depending upon available resources. Candidates should consult the criteria established for the program in question. To be considered for admission to an Honours program a candidate shall complete an "Application For Admission to the Honours Program" form. The application must be approved by the Program Chair of the Major before the candidates can be admitted to the program.

A candidate who wishes to enter an honours program is strongly advised to consult the Program Chair at the earliest possible date, as it may not be possible to complete the requirements for the degree in the normal time if the decision to embark on the program is delayed beyond the end of the second year.

2. Students who have been awarded the General Degree of Bachelor of Arts or Bachelor of Science at Sir Wilfred Grenfell College may convert it to an Honours Degree of Bachelor of Arts or Bachelor of Science by following procedure outlined in 1. above.
3. Before registering for any semester or any session, the candidate is strongly advised to consult with the Program Chair on the student's choice of courses. Failure to comply with this requirement may result in denial of access to certain courses.

#### 5.2 Majors

The Honours Degree of Bachelor of Arts is available in Psychology and the Honours Degree of Bachelor of Science is available in Environmental Science, General Science, and Psychology.

#### 5.3 Course Requirements

Candidates for the Honours Degree of Bachelor of Arts or Bachelor of Science shall complete a program of studies which shall consist of not fewer than 120 credit hours subject to the following regulations:

1. All candidates are required to complete the Core Program requirements governing the Bachelor of Arts and Bachelor of Science degrees at Sir Wilfred College.
2. All candidates must also submit an Honours thesis or dissertation on an approved topic which may be followed by an oral examination thereon. Two copies of the Honours thesis/dissertation must be submitted to the University Library upon completion. All Honours theses/dissertations in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances which must be approved by the Academic Studies Committee. Copyright remains with the author. A signed release form must accompany a thesis or dissertation when it is submitted to the University Library.
3. Further courses shall be chosen:
  - a. minimum 60 credit hours in the major and, where applicable, not fewer than 24 credit hours in the minor; and
  - b. courses to make up a minimum of 120 credit hours, other than those required for the Core Program, major and minor, shall be chosen as follows:
    - i. any courses in Arts, Science, Social Science and Fine Arts
    - ii. up to 15 credit hours in other subject areas.

#### 5.4 Program Regulations

Candidates for Honours degrees must comply with such additional requirements of the appropriate Program(s) as approved by the Senate and printed in the University Calendar.

## 5.5 Residence Requirements

To qualify for an Honours degree in Arts or Science, a candidate shall attend this University for a minimum of four semesters as a full-time student in the program of specialization except with the permission of the Academic Studies Committee.

## 5.6 Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

1. A grade of 'B' 70% or better, or an average of 75% or higher in the courses that comprise the minimum number of credit hours in the Honours subject(s) prescribed by the program concerned as outlined under the regulations governing specific Honours degree programs, excluding 1000-level courses. Students who wish to fulfil this requirement using repeated or substituted courses must obtain approval of the Program Chair and the Academic Studies Committee. The Honours thesis or dissertation may not be repeated or substituted. A grade of 70% or better must be obtained in the Honours dissertation; and
2. An average of at least 2.75 points per credit hour in the courses required for the degree. (see **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, for explanation of the point system.)

## 5.7 Classification of Degrees

1. If a candidate's general average is 3.5 points or better per credit hour in required courses and his/her average is 3.5 per credit hour in the courses in the Honours subject (excluding 1000-level courses), the candidate shall be awarded an Honours degree with First Class standing.
2. If a candidate fulfils the conditions of 6.6 but not of clause 6.7, 1., the candidate shall be awarded an Honours degree with Second Class standing.
3. No classification will be given to the degree awarded a candidate who has completed (i) fewer than one half of the courses required for the degree at this University, or (ii) who has completed fewer than one half of the courses required for the degree at this University since 1959. All candidates for such degrees shall, however, fulfil the condition of paragraph 6 on the courses taken at this University since September 1959 in order to qualify for the degree.
4. A declared candidate for an Honours degree who fails to attain the academic standing specified in clause 6, but fulfils the academic requirements for a General degree shall be awarded a General degree, the classification of which shall be determined in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.

In these regulations, all references to the Program Chair are to be read as "Program Chair or delegate".

## 6 Division of Arts

Bachelor of Arts General degrees only.

Majors are available in English, Historical Studies, Humanities.

Minors are available in Classics, English, Historical Studies, Humanities, Philosophy, Religious Studies.

### 6.1 Major in English Language and Literature

Program Chair: Dr. K. Jacobsen

The Major consists of 42 credit hours including an English Core and one of four possible concentrations.

#### 6.1.1 English Core

1. English 1000 and 1001 or equivalent
2. English 2005, 2006, 2007, 3205 or 3206, 3395, 4105

#### 6.1.2 Concentrations

Students must complete 18 credit hours in one of the following concentrations. Within each concentration, there must be a minimum of 6 credit hours at the 3000 level and 6 credit hours at the 4000 level.

##### 1. Canadian Literature Concentration

English 2146, 4950 and 12 credit hours in Canadian Literature from the following selection: English 2155, 2156, 2905, 3145, 3147, 3148, 3149, 4307, 4825-35.

##### 2. Dramatic Literature Concentration

English 2350, 2351, 3275, 4950 and 6 credit hours in Dramatic Literature from the following selection: English 3021, 3171, 3181, 3205 or 3206 (whichever course has not been used to fulfil the requirements of the English Core), 4302, 4305, 4307, 4308, 4316, 4317, 4836-44.

##### 3. Modern Literature Concentration

English 3215, 3216, 4950 and 9 credit hours in Modern Literature from the following selection: English 2215, 2242, 2243, 2705, 2805, 2870, 2905, 3810, 3275, 3905, 4245, 4246, 4302, 4305, 4308, 4905.

##### 4. Combined Concentration

A total of 18 credit hours from English Concentration Courses which must include:

- a. At least 6 credit hours from one of three concentrations (Canadian, Dramatic, Modern) as specified below and an English 4950 project within the area chosen:

Canadian Literature: 2146 and at least 3 additional credit hours in this concentration or  
 Dramatic Literature: 2350 or 2351 and at least 3 additional credit hours in this concentration or  
 Modern Literature: 3215 or 3216 and at least 3 additional credit hours in this concentration.

- b. At least 3 credit hours from each of the other two concentrations.

### 6.2 Major in Historical Studies

Program Chair: Dr. O.U. Janzen

The Major consists of a minimum of 42 credit hours in History courses and 15 additional credit hours drawn from a prescribed list of

courses from other disciplines.

The student must complete:

1. History 1100, 1101, 3840 and 4950.
2. Twelve credit hours from courses in each of the two following categories:
  - a. **Early Western History**  
History/Classics 2035, 2040, 3090  
History 2100, 2200, 2300, 2320, 2330, 3050, 3110, 3135, 3320, 3445, 3760  
History/Anthropology 3520  
History/Art History 2700, 3700, 3701
  - b. **Later Western History**  
History 2120, 2210, 2310, 2500, 3060, 3120, 3250, 3440, 3460, 3490, 3770, 3800-3830  
History/Art History 2701  
History/Anthropology 3525  
History/Economics 3630
3. Six credit hours in 4000-level History courses. Prerequisite: At least six credit hours at the 3000 level, or permission of the Chair.
4. Fifteen credit hours chosen from:
  - Anthropology 1031
  - Economics 2010
  - Economics 2020
  - English 2005
  - English 2006
  - English 2007
  - Folklore 1000
  - Folklore 1050
  - Folklore 2401
  - French 1501
  - French 1502
  - French 2100
  - French 2101
  - French 2601
  - French 2602
  - Geography 1000
  - Geography 1001
  - Geography 2001
  - Philosophy 1600
  - Philosophy 2701
  - Philosophy 2702
  - Philosophy 3400
  - Political Science 1000
  - Political Science 2000
  - Political Science 2500
  - Religious Studies 2013
  - Religious Studies 2050
  - Religious Studies 2051
  - Sociology 2000
  - Sociology 3040
  - Sociology 3150

Note: These are courses that are thematically or methodologically relevant to the study of History (students may be allowed to take others with permission of the Program Chair). Applicable courses used to satisfy the Minor requirements may also be counted as Historical Studies credits. No more than 6 credit hours from any one discipline will be counted toward Historical Studies Major.
5. Students will normally be allowed to register in History courses having the initial digit '3' only after they have successfully completed 6 credit hours in courses having the initial digit '2'.
6. Students are required to take 6 credit hours in history (in addition to History 1100/1101) or have permission of the instructor before enrolling in any fourth-year history course.

### 6.3 Major in Humanities

Program Chair: Dr. L. Sherlow

The Major consists of a Humanities Core requirement and a Social Sciences requirement.

1. **Humanities Core Requirement**
  - a. Humanities 3000, 4000, and 4950
  - b. A total of 39 credit hours in two disciplines (referred to as Discipline One and Discipline Two) from Group A below
    - i. At least 21 credit hours in Discipline One of which at least 3 credit hours must be at the 4000 level
    - ii. At least 12 credit hours in Discipline Two
  - c. Six credit hours in each of the remaining five disciplines in Group A for a total of 30 credit hours
  - d. At least 12 credit hours in Humanities Core must be at the 3000 level

#### Group A:

Humanities  
Classics  
English  
French (or another modern language)\*  
History  
Philosophy  
Religious Studies  
Fine Arts (Art History and Theatre 1000, 1001)

\* Subject to approval by the Chair of Humanities

## 2. Social Sciences Requirement

Students must complete 12 credit hours in disciplines chosen from Group B below. At least 6 credit hours must be beyond the 1000 level.

### Group B:

Social Sciences  
 Anthropology  
 Business  
 Economics  
 Folklore  
 Geography  
 Political Science  
 Psychology  
 Sociology  
 Women's Studies  
 Environmental Studies

## 6.4 Minor Programs - Division of Arts

All minor programs require 24 credit hours

### 1. Classics Minor:

- Classics 1100 and 1200
- Classics 2035 and 2040
- Three credit hours at 3000 level
- Nine additional credit hours in Classics

### 2. English Minor:

- Six credit hours at 1000 level in English
- Six credit hours chosen from English 2005, 2006 and 2007
- Three credit hours chosen from English 3205 or 3206
- Nine additional credit hours in English electives; 3 credit hours must be chosen from courses having an initial digit "3" or "4"

### 3. French Minor:

No more than 6 credit hours at the 1000 level and no more than 6 transfer credits may be used to fulfill the minimum requirement of the minor in French.

- French 2100 and 2101 or French 2159 and 2160
- French 3100 or French 3101
- 15 additional credit hours in French

### 4. Historical Studies Minor:

- History 1100 and 1101
- History 3840
- Three credit hours at 3000 level in History
- Three credit hours at 4000 level in History
- Additional 9 credit hours in History

### 5. Humanities Minor:

- Humanities 3000 and 4000
- Nine credit hours in each of two disciplines from the following list:  
 Classics  
 English (not including first-year offerings)  
 Fine Arts (Art History, Theatre 1000, 1001)  
 French (or another modern language approved by Program Chair of Humanities)  
 Philosophy  
 History  
 Religious Studies

### 6. Philosophy Minor:

- Philosophy 2701 and 2702
- Three credit hours from following list: Philosophy 3730, 3740, 3800, 3840, 3850, 3860
- 15 additional credit hours in Philosophy

### 7. Religious Studies Minor:

24 credit hours in Religious Studies with no more than 6 credit hours at 1000 level and at least 9 credit hours at 3000 level or above.

## 7 Division of Social Science

Bachelor of Arts (General) degrees are available with Majors in Environmental Studies, Psychology, Social/Cultural Studies, and Tourism Studies. Bachelor of Arts (Honours) degree is available in Psychology. A Bachelor of Business Administration and a Bachelor of Resource Management is also available.

Bachelor of Science (General and Honours) degrees are available in Psychology.

Minors are available in Business, Canadian Studies, Environmental Studies, Folklore, Geography, Psychology, Social/Cultural Studies, Sociology, and Tourism.

An articulation agreement has been established with the College of the North Atlantic for graduates of the two-year Adventure Tourism Diploma Program who wish to obtain a Bachelor of Arts degree (Major in Environmental Studies).

## 7.1 Major in Environmental Studies

Program Chair: D. Carroll

The Major consists of an Environmental Studies Core which provides a broad appreciation of interrelationships inherent in any study of the environment and one of two possible concentrations which provides the depth and focus for the degree program.

### 1. Environmental Studies Core

Students must complete the following courses:

Economics 2010  
 Environmental Studies 1000  
 Environmental Studies 2000 (strongly recommended for the Biology Stream of the Environmental Science Program)  
 Environmental Studies 3000  
 Environmental Studies 3001  
 Environmental Studies 4010  
 Environmental Studies 4950  
 Geography 1000  
 Geography 3222  
 Philosophy 2561

### 2. Environmental Studies Concentrations

Students must complete 42 credit hours in one of the following concentrations:

#### a. Environmental Perspectives Concentration

Forty-two credit hours at least 15 of which must be at the 3000 or 4000 level:

Anthropology 3080  
 Anthropology 3083  
 Biology 1001 and 1002  
 Biology 2041  
 Biology 2600  
 Chemistry 1001  
 Chemistry 1200  
 Earth Sciences 1000  
 Earth Sciences 1002  
 Environmental Science 2261  
 Environmental Science 2360  
 Environmental Science 2370  
 Environmental Science 2371  
 Environmental Studies 4000  
 Environmental Studies 4020-4039  
 Folklore 2401  
 Folklore 2600  
 Forestry 1010 and 1011  
 Geography 1001  
 Geography 2001  
 Geography 2102  
 Geography 2302  
 Geography 2425  
 Political Science 3550  
 Political Science 3731  
 Religious Studies 3880  
 Sociology 2120  
 Geography 4405

#### b. Outdoor Environmental Pursuits Concentration

i. Environmental Studies 2210, Environmental Studies 2220, Environmental Studies 3210, Human Kinetics and Recreation (HKR) 3555, and Human Kinetics and Recreation (HKR) 4555

ii. Twenty-seven credit hours from the following of which at least 9 credit hours must be at the 3000 or 4000 level:

Anthropology 3083  
 Biology 1001 and 1002  
 Biology 2041  
 Biology 2600  
 Chemistry 1001  
 Chemistry 1200  
 Earth Sciences 1000  
 Earth Sciences 1002  
 Environmental Science 2261  
 Environmental Science 2360  
 Environmental Science 2370  
 Environmental Science 2371  
 Environmental Studies 4000  
 Environmental Studies 4020-4039  
 Folklore 2600  
 Forestry 1010 and 1011  
 Geography 1001  
 Geography 2102  
 Geography 2425  
 Human Kinetics and Recreation (HKR) 3565  
 Human Kinetics and Recreation 4575  
 Political Science 3731  
 Religious Studies 3880

## 7.2 Major in Psychology - B.A. and B.Sc.

Students completing this program cannot receive credit for Psychology 2920.

Program Chair: Dr. S. Corbin-Dwyer

The Major in Psychology consists of a minimum of 45 credit hours in Psychology as follows:

1. Psychology 1000, 1001, 2925, 2950, 3950, 4910, 4925, and one of 4950 or 4951
2. At least 12 credit hours from: Psychology 2025, 2125, 2225, 2425, 2625, 2825
3. At least 9 credit hours chosen from the following Contemporary Issues courses: Psychology 3025, 3040, 3125, 3126, 3225, 3226, 3325, 3425, 3525, 3625, 3626, 3627, 3628, 3725, 3825

Candidates for the Bachelor of Science degree with a Major in Psychology shall also complete an additional 36 credit hours as follows:

1. Six credit hours in Mathematics, which must include Mathematics 1000
2. Biology 1001 and 1002
3. Chemistry 1200 and 1001 OR Physics 1020 (or 1050) and 1021 (or 1051)
4. Nine credit hours at the 2000 level or above (two courses must be laboratory courses) in ONE of the following subjects: Biochemistry, Biology, Chemistry, Earth Science, Environmental Science, Physics
5. Nine additional credit hours chosen in any combination from the following subjects: Biochemistry, Biology, Chemistry, Computer Science, Earth Science, Environmental Science, Mathematics, Physics, Statistics

### 7.2.1 Requirements for Honours in Psychology

Students completing this program cannot receive credit for Psychology 2920.

The Honours B.A. and B.Sc. degrees in Psychology offer greater concentration in the discipline and also require a higher level of academic achievement than is required for the completion of a degree. The Honours degrees in Psychology at Sir Wilfred Grenfell College are 120 credit hour programs normally requiring four years for completion (See **Regulations for the Honours degree of Bachelor of Arts and Bachelor of Science at Sir Wilfred Grenfell College**).

The following requirements govern the Bachelor of Arts (Honours) and the Bachelor of Science (Honours) degrees in Psychology:

#### 1. Course Requirements

- a. Students must meet the General Regulations for Sir Wilfred Grenfell College Bachelor of Arts or Bachelor of Science degree.
- b. Candidates must also complete:
  - i. Psychology 1000, 1001, 2025, 2125, 2225, 2425, 2625, 2825, 2925, 2950, 3950, 4910, 4925
  - ii. Fifteen credit hours from Psychology 3025, 3040, 3125, 3126, 3225, 3226, 3325, 3425, 3525, 3625, 3626, 3627, 3628, 3725, 3825
  - iii. A two-semester research project, Psychology 4951 and 4959
- c. Candidates for the Bachelor of Science (Honours) degree in Psychology shall also complete an additional 27 credit hours as follows:
  - i. Six credit hours in Mathematics, which must include Mathematics 1000
  - ii. Biology 1001 and 1002
  - iii. Chemistry 1200 and 1001 OR Physics 1020 (or 1050) and 1021 (or 1051)
  - iv. Nine credit hours at the 2000 level or above (two courses of which must be laboratory courses) in one of the following subjects: Biochemistry, Biology, Chemistry, Earth Science, Environmental Science or Physics.

#### 2. Honours Thesis

The Honours project sequence (Psychology 4951 and 4959) involves the production of an Honours thesis. This thesis will be evaluated by the thesis supervisor and an additional faculty member selected by mutual consent of the candidate and the supervisor.

## 7.3 Major in Social/Cultural Studies

Program Chair: Dr. J. Bodner

The Major consists of 78 credit hours as follows:

Anthropology 1031, 2210, 3140, 3083, 3520

Folklore 1000, 2100, 2230, 2300, 2401

History 1100, 1101

Social/Cultural Studies 4000, 4100, 4950

Sociology 2000, 2120, 3040, 3150, 3314

Eighteen additional credit hours from Anthropology, Folklore, and Sociology

## 7.4 Major in Tourism Studies

### 7.4.1 Admission Modes and Requirements

#### Direct Entry (for High School Students)

Students may apply for admission into the first year of the Bachelor of Arts in Tourism Studies program (BA (TS)) directly from high school by indicating this in the appropriate place on their Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. Direct entry from high school is subject to the applicant's final acceptance to the University.

#### Advanced Standing (for Current Memorial University of Newfoundland Students)

1. Students may apply for admission with Advanced Standing into the BA (TS) program. A student's placement within the program, and requirements needed to complete the program, will be determined on an individual basis at the time of admission. Students applying for admission with advanced standing must complete and submit the Application for Admission to the Chair of the Tourism Studies program. The deadline for submission of applications for consideration of admission is March 1 for Fall admission.
2. Admission with Advanced Standing is limited and competitive. The primary criterion used in reaching decisions on applications for admission with advanced standing is overall academic achievement. Selection, therefore, will be based on a student's overall

academic performance.

### Transfers From Other Post-Secondary Institutions

1. Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the University Diary for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. The acceptance of transfer students into the BA (TS) program is subject to the same conditions outlined under Advanced Standing (for Current Memorial University of Newfoundland Students) above.
2. Subject to item 2. under **Advanced Standing (for Current Memorial University of Newfoundland Students)** above, graduates of a three year community college tourism-related diploma program may also be considered for admission with advanced standing into the BA (TS) program. Specific course requirements will be determined on an individual basis at the time of admission.

Students may apply for admission with Advanced Standing into the BA (TS) program beyond Year 1.

### Regulations for a Major in Tourism Studies

The Major consists of a Tourism core which provides a broad appreciation of the implications of tourism activity in the context of social, cultural and physical environments.

The Tourism Studies program requires a total of 120 credit hours.

1. Students must successfully complete 60 credit hours as follows:
  - a. French 1501 and 1502
  - b. Economics 2010 and 2020
  - c. Business 1000;
  - d. three credit hours chosen from Geography 3222, Psychology 2925, Sociology 3040, Statistics 2500, Statistics 2550
  - e. Thirty-three credit hours in Tourism consisting of Tourism Studies 1000, 1100, 2000, 2201, 3100, 3240, 3800, 3900, 4010, 3 credit hours from 4900-4910, and 4950.
  - f. Three additional credit hours in Tourism Studies electives taken at the 2000 level.
  - g. Six additional credit hours in Tourism Studies electives taken at the 3000 or 4000 levels.
2. A minimum of 24 credit hours in an approved minor concentration area other than that of the Major.
3. Courses to make up the total of 120 credit hours, other than those required for the core program. Of these courses, not more than 6 credit hours shall be from courses in the Tourism Studies program.

## 7.5 Bachelor of Business Administration

### 7.5.1 Regulations for the Degree of Bachelor of Business Administration (B.B.A.)

The Bachelor of Business Administration (B.B.A.) degree program at Sir Wilfred Grenfell College is designed to deliver a comprehensive foundation in the fundamental areas of business and decision making. Students also have an opportunity to further specialize in areas of contemporary business studies, small business and entrepreneurship, or economic development.

### 7.5.2 Admission Modes and Requirements

#### 7.5.2.1 Direct Entry (for High School Students)

Students may apply for admission into the B.B.A. program directly from high school by indicating this in the appropriate place on the Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. Direct admission from high school is subject to the applicant's final acceptance to the University.

#### 7.5.2.2 Advanced Standing (for Current Memorial University of Newfoundland Students)

1. Current Memorial University of Newfoundland students may apply for admission to the B.B.A. program with advanced standing after the successful completion of the 30 credit hours specified under **The Curriculum**, 2. below with an overall average of at least 65% in those specified 30 credit hours.
2. Students applying for advanced standing in the B.B.A. Program must complete and submit the **APPLICATION FOR ADVANCED STANDING IN THE BACHELOR OF BUSINESS ADMINISTRATION PROGRAM** which may be obtained from the Office of the Registrar or at [www.swgc.mun.ca/business/Documents/Business%20application%20form%20Jan09.pdf](http://www.swgc.mun.ca/business/Documents/Business%20application%20form%20Jan09.pdf).
3. Admission with Advanced Standing is limited and competitive. The primary criterion used in reaching decisions on applications for admission/readmission with advanced standing is overall academic achievement. Selection, therefore, will be based on a student's overall academic performance.

#### 7.5.2.3 Transfers from Other Post-Secondary Institutions

1. Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the **University Diary** for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. The acceptance of transfer students into the B.B.A. program is subject to the same conditions outlined under **Advanced Standing (for Current Memorial University of Newfoundland Students)** above.
2. Subject to **Advanced Standing (for Current Memorial University of Newfoundland Students)**, 3. above, graduates of a three year community college business diploma program may also be considered for admission with advanced standing into the B.B.A. program. To be eligible for the Degree of Bachelor of Business Administration such students will be required to complete a minimum of 45 credit hours from Memorial University of Newfoundland. Specific course requirements will be determined on an individual basis at the time of admission.

### 7.5.3 The Curriculum

1. The Bachelor of Business Administration requires a total of 120 credit hours.
2. Students who have gained direct entry to the B.B.A. program must successfully complete the following 30 credit hours by the end of Spring semester of their first year for continuance in the program:
  - a. Business 1000 and 2000
  - b. Economics 2010 and 2020
  - c. Six credit hours in first year English

- d. Math 1000
  - e. Nine additional credit hours in non-business elective courses.
3. 48 credit hours as follows:  
Business 1101, 1201, 1600, 2101, 2301, 2401, 2700, 3401, 4000, 4320, 4500, 5301, 7000, 7010, 7025, and Statistics 2500.
  4. Students must choose one of the following areas of concentration:
    - a. **Contemporary Business Studies**
      - i. 12 credit hours:
        - one of Business 2808, Philosophy 1600, or Philosophy 2230
        - Business 7050
        - Business 7302
        - one of Economics 3030 or 3150
    - b. **Small Business and Entrepreneurship**
      - i. 9 credit hours:
        - Business 2201
        - Business 5600
        - Business 7600
      - ii. 6 credit hours chosen from:
        - Business 6200
        - Business 6500
        - Business 6600
        - Business 6610
        - Business 7610
    - c. **Regional Economic Development**
      - i. 9 credit hours:
        - Business 3320
        - Business 4010
        - Business 4020
      - ii. 6 credit hours chosen from:
        - Business 5010
        - Business 6800
        - Economics 4010
        - Economics 4011
        - Social/Cultural Studies 3210
        - Tourism Studies 4020
5. Additional courses to make up the total of 120 credit hours. When selecting these courses, students are reminded that the **Core Requirements** for a Sir Wilfred Grenfell College degree program must be met. In addition, if students choose to complete a minor within the B.B.A. program, they are advised to select their electives carefully so that they will also meet the requirements for the chosen Minor program as set forth in the University Calendar.
  6. For graduation, a student must be enrolled in the B.B.A. program, have obtained a minimum overall average of 60% on the program courses specified under **The Curriculum** 3. and 4. above, and must have successfully completed other courses to make up the total of 120 credit hours.

#### 7.5.4 Minor from another Academic Unit

Students enrolled in the B.B.A. program are not required to complete minor programs; however, students may choose to pursue a minor in other non-business academic units (where minor programs exist) with permission of that academic unit.

Students are advised to refer to the requirements for the chosen Minor program as set forth in the University Calendar, and it is recommended that students seek academic advice when planning their program.

#### 7.5.5 Continuation

1. The standing of every student will be assessed at the end of each academic term by the Program Chair of Business. The decisions of the Chair will be issued to the individual students by the Office of the Registrar.
2. Students gaining direct entry to the B.B.A. program and those with advanced standing must maintain a 65% overall average in the 30 credit hours specified under **The Curriculum**, 2. above for continuance in the program.
3. Students who have been required to withdraw following the completion of **The Curriculum**, 2. may be considered for readmission to the program in accordance with the entry under **Admission Modes and Requirements** above, with the heading **Advanced Standing (for Current Memorial University of Newfoundland Students)**.  
A required withdrawal for failure to meet these continuation requirements will not be reflected on a student's transcript.
4. Following the completion of **The Curriculum**, 2. students must qualify for continuation after each term of study. For continuation, students must have an overall average of 60% over their last ten courses taken. In the event that a student has more courses than needed in the earliest term used, the courses with the highest grades in that term will be used.  
Students who fail to achieve these standards will be required to withdraw from the program. They may be considered for readmission after a lapse of two semesters. In order to be considered for readmission, students must formally re-apply to the Program for readmission using the appropriate application form.  
A required withdrawal will be reflected on a student's transcript.
5. Students who are required to withdraw a second time under 4 above are not eligible for readmission into the program.

6. The Academic Studies Committee may allow a student, who fails to achieve the standards outlined under 4 above, to continue in the program. A decision of this nature will be made only for reasons acceptable to this Committee.

## 7.5.6 Recommended Course of Study for B.B.A. Curriculum

### 7.5.6.1 Contemporary Business Studies Table

<b>Year 1</b> <b>Semester 1</b> Business 1000 Economics 2010 Three credit hours in English Six credit hours in non-business elective courses* **	<b>Semester 2</b> Business 2000 Economics 2020 Three credit hours in English Mathematics 1000 Three credit hours in non-business elective courses**
<b>Year 2</b> <b>Semester 3</b> Business 1101 Business 1201 Business 1600 Business 2401 Three credit hours in elective courses**	<b>Semester 4</b> Business 2101 Business 2700 Business 2808 or Philosophy 1600 or 2230 Six credit hours in elective courses**
<b>Year 3</b> <b>Semester 5</b> Business 2301 Business 4000 Economics 3030 or Economics 3150 Statistics 2500 Three credit hours in elective courses**	<b>Semester 6</b> Business 3401 Business 4320 Business 4500 Six credit hours in elective courses**
<b>Year 4</b> <b>Semester 7</b> Business 5301 Business 7000 Business 7302 Six credit hours in elective courses**	<b>Semester 8</b> Business 7010 Business 7025 Business 7050 Six credit hours in elective courses**

\* Depending on your level of preparation in Mathematics, you may be required to complete Mathematics 1090 as a prerequisite for Mathematics 1000.

\*\* When selecting electives, students are reminded that **Core Requirements** for a SWGC degree program must be met. In addition, if students choose to complete a minor within the B.B.A. program, they are advised to select their electives carefully so that they will also meet the requirements for the chosen Minor program as set forth in the University Calendar.

### 7.5.6.2 Small Business and Entrepreneurship Concentration Table

<b>Year 1</b> <b>Semester 1</b> Business 1000 Economics 2010 Three credit hours in English Six credit hours in non-business elective courses***	<b>Semester 2</b> Business 2000 Economics 2020 Three credit hours in English Mathematics 1000 Three credit hours in non-business elective courses**
<b>Year 2</b> <b>Semester 3</b> Business 1101 Business 1201 Business 1600 Business 2401 Three credit hours in elective courses**	<b>Semester 4</b> Business 2101 Business 2201 Business 2700 Six credit hours in elective courses**

<b>Year 4</b> <b>Semester 7</b> Business 5301 Business 7000 Three credit hours from concentration electives*** Six credit hours in elective courses**	<b>Semester 8</b> Business 7010 Business 7025 Business 7600 Six credit hours in elective courses**

\* Depending on your level of preparation in Mathematics, you may be required to complete Mathematics 1090 as a prerequisite for Mathematics 1000.

\*\* When selecting electives, students are reminded that **Core Requirements** for a SWGC degree program must be met. In addition, if students choose to complete a minor within the B.B.A. program, they are advised to select their electives carefully so that they will also meet the requirements for the chosen Minor program as set forth in the University Calendar.

\*\*\* Concentration electives for Small Business and Entrepreneurship must be selected from **The Curriculum**, 4b.

### 7.5.6.3 Regional Economic Development Concentration Table

<b>Year 1</b> <b>Semester 1</b> Business 1000 Economics 2010 Three credit hours in English Six credit hours in non-business elective courses*	<b>Semester 2</b> Business 2000 Economics 2020 Three credit hours in English Mathematics 1000 Three credit hours in non-business elective courses*
<b>Year 2</b> <b>Semester 3</b> Business 1101 Business 1201 Business 1600 Business 2401 Three credit hours in elective courses**	<b>Semester 4</b> Business 2101 Business 2700 Business 3320 Six credit hours in elective courses**
<b>Year 3</b> <b>Semester 5</b> Business 2301 Business 4000 Statistics 2500 Three credit hours from concentration electives*** Three credit hours in elective courses**	<b>Semester 6</b> Business 3401 Business 4320 Business 4010 Business 4500 Three credit hours in elective courses**
<b>Year 4</b> <b>Semester 7</b> Business 5301 Business 7000 Three credit hours from concentration electives*** Six credit hours in elective courses**	<b>Semester 8</b> Business 7010 Business 7025 Business 4020 Six credit hours in elective courses**

\* Depending on your level of preparation in Mathematics, you may be required to complete Mathematics 1090 as a prerequisite for Mathematics 1000.

\*\* When selecting electives, students are reminded that **Core Requirements** for a SWGC degree program must be met. In addition, if students choose to complete a minor within the B.B.A. program, they are advised to select their electives carefully so that they will also meet the requirements for the chosen Minor program as set forth in the University Calendar.

\*\*\* Concentration electives for Regional Economic Development must be selected from **The Curriculum**, 4c.

## 7.6 Bachelor of Resource Management

### 7.6.1 Regulations for the General Degree of Bachelor of Resource Management

The program consists of a Sustainable Resource Management core which provides an interdisciplinary understanding of management activities within the context of the physical, social and economic environments.

The program requires a total of 120 credit hours as follows:

1. The interdisciplinary Major in Sustainable Resource Management consisting of 84 credit hours.
  - a. Biology 1001, 1002, 2600
  - b. Chemistry 1200 and 1001, or equivalent
  - c. Economics 2010
  - d. Environmental Studies 2000, 3000, 3001, 4000
  - e. Geography 1000, 1001, 2425
  - f. Sustainable Resource Management 2000, 2001, 3000, 3001, 3002, 4000, 4001, 4003, 4010, 4950
  - g. One of Philosophy 2561, Religious Studies 3880, Political Science 3550
  - h. Two of Environmental Science 2371, Environmental Science 2369, Biology 2010, Biology 2122, Biology 2210
  - i. Statistics 2500
  - j. One of Environmental Science 3072, 3110, 3130, 3131, 4132, Earth Science 3811
2. 6 credit hours in first-year English
3. 30 credit hours in elective courses. When selecting electives, students are reminded that the **Core Requirements** for a Sir Wilfred Grenfell College degree program must be met.

## 7.7 Minor Programs - Division of Social Science

Minor programs require 24 credit hours

1. **Minor in Business**
  - a. Students who are completing degrees in the Divisions of Arts, Science, or Social Science may complete a minor in Business.
  - b. Students applying for admission to the Business minor program must have completed a minimum of 30 credit hours. Application is made in the space provided on the Change of Academic Program Form, which must then be approved by the Chair of the B.B.A. Program.
  - c. Admission into the minor program is limited and competitive: at the time of application a student must have a cumulative average of at least 65% on the last 30 credit hours completed.
  - d. A minor in Business consists of 24 credit hours. Students must complete 18 credit hours as follows: Business 1000, 1101, 1201,

2301, 4500, and 7010. The remaining 6 credit hours must be chosen from Business 1600, 2101, 2201, 4000, 4320, or 7302.

- e. Course prerequisites to all Business courses will apply to a Business minor. Students should note, for example, that the prerequisites for Business 4500 are Business 1101, Statistics 2500 and Economics 2010, and that enrolment in Business 7010 requires permission of the Chair of Business. It should be noted that some courses are not offered every semester.

**2. Canadian Studies Minor**

A Minor in Canadian Studies shall consist of 24 credit hours as follows:

- a. Fifteen credit hours chosen from at least four different disciplines:
- English 2146
  - English 2156
  - French 1502
  - French 2601
  - French 2602
  - History 2200
  - History 2210
  - Political Science 1010
  - Political Science 2710
  - Political Science 2711
  - Sociology/Anthropology 2240
- b. Nine additional credit hours in courses from at least two different disciplines:
- Art History 3710
  - Art History 3711
  - English 3145
  - English 3147
  - English 3148
  - English 3149
  - English 4307
  - English 4825-35
  - Folklore 4300
  - History 2120
  - History 3520/Anthropology 3520
  - History 3525/Anthropology 3525
  - History 4254
  - Political Science 3731
  - Sociology 3395

**3. Economics Minor:**

- a. Economics 2010, 2020, 3000, 3010
- b. Twelve additional credit hours in Economics of which at least 6 must be at the 3000 or 4000-level

**4. Environmental Studies Minor:**

- a. Environmental Studies 1000 and 9 credit hours from those designated as Environmental Studies core courses
- b. Twelve credit hours from one of the Environmental Studies concentrations or a combination of courses taken from both concentrations. The courses chosen must be chosen from at least three subject areas.

**5. Folklore Minor:**

- a. Folklore 1000, 2100, 2300, 2401, 2500
- b. Nine additional credit hours in Folklore

**6. Geography Minor:**

- a. Geography 1000, 1001, 2001, 2102, 3222
- b. Nine additional credit hours in Geography; at least 6 credit hours of which must be at the 3000 or 4000 level.

**7. Psychology Minor:**

- a. Psychology 1000, 1001, 2925
- b. Nine credit hours in Psychology at the 2000 level
- c. Six credit hours in Psychology at the 3000 level

**8. Social/Cultural Studies Minor:**

- a. Anthropology 1031, Sociology 2000, Folklore 1000
- b. Anthropology 2410 or Sociology 3150
- c. Folklore 2100 or Sociology 3040
- d. Three additional credit hours in each of Anthropology, Folklore, and Sociology

**9. Sociology Minor:**

- a. Sociology 2000, 3040, 3150
- b. Fifteen credit hours in Sociology; at least 6 credit hours must be at the 3000 or 4000 level

**10. Tourism Studies Minor:**

- a. Students who are completing degrees in Arts, Science, and/or Business Administration may complete a minor in Tourism Studies.
- b. Students who wish to undertake the Tourism Studies minor program must have completed a minimum of 18 credit hours. Application is made in the space provided on the Change of Academic Program Form, which must then be approved by the Chair of the Tourism Studies program. Admission into the minor program is limited and competitive.
- c. A minor in Tourism shall consist of 24 credit hours comprising the following courses: Tourism 1000, 1100, 2000, 3100, 3900, 3 credit hours chosen from a 2000-level or 3000-level Tourism elective, 3 credit hours chosen from a 4000-level Tourism course, and three credit hours chosen from Geography 3222, Psychology 2925, Sociology 3040, Statistics 2500, Statistics 2550.
- d. Course prerequisites to all Tourism courses shall apply to a Tourism Studies minor.

**11. Advanced Diploma in Tourism Studies:**

The Advanced Diploma in Tourism Studies is designed for individuals already possessing a post-secondary diploma or degree in any relevant field who wish to acquire the knowledge and skills required to work in today's tourism industries. The program will benefit individuals from a wide variety of backgrounds including, Business, Environmental Science, Environmental Studies, Fine Arts, Historical Studies, Social/Cultural Studies, and Sustainable Resource Management (proposed).

- a. Students who wish to undertake the Advanced Diploma in Tourism Studies must have completed a post-secondary diploma or degree in any field, or possess at least five years of full-time, relevant work experience or equivalent. Application is made in the space provided on the Change of Academic Program Form, which must then be approved by the Chair of the Tourism Studies Program. Admission into this program is limited and competitive.
- b. The Advanced Diploma in Tourism Studies shall consist of 30 credit hours comprising the following courses: Tourism 1000, 1100, 2000, 3100, 3900, 12 credit hours chosen from a 2000-level or 3000-level Tourism electives, and 3 credit hours chosen from a 4000-level Tourism course.
- c. Prerequisites for all Tourism courses may be waived after consultation with, and permission of, the Chair of the Tourism Studies program.

**7.8 Articulation Agreements With the College of the North Atlantic**

Students who have graduated from the two-year Adventure Tourism Diploma Program offered by the College of the North Atlantic, or who are in their final semester of this program, can apply for entry with advanced standing into the Bachelor of Arts Degree (B.A.) with a Major in Environmental Studies or Tourism Studies offered by Sir Wilfred Grenfell College. Students who have graduated from the two-year Hospitality Management Diploma Program offered by the College of the North Atlantic, or who are in the final semester of this program can apply for entry with advanced standing into the B.A. degree, Major in Tourism Studies, offered by Sir Wilfred Grenfell College.

**7.8.1 Environmental Studies Major for Graduates of the Two-Year Adventure Tourism Diploma Program**

Students who are entering the Environmental Studies Program will be given a total of 60 credit hours towards the 120 credit-hour degree program. Of the 60 credit hours, students taking the Outdoor Environmental Pursuits Concentration will receive credit for EVST 2210, EVST 2220, EVST 3210, HKR 3555, and HKR 4555 as well as 18 unspecified credit hours towards the concentration requirements. Of the 60 credit hours, students taking the Environmental Perspectives Concentration will receive 21 unspecified credit hours towards the concentration requirements.

Students will receive 3 credit hours for unspecified writing courses, 6 unspecified credit hours towards the Group B and 6 credit hours towards Group C breadth of knowledge requirement. The remaining credit hours will be deemed to be unspecified electives.

In addition to the general requirements for the Sir Wilfred Grenfell College B.A. degree, students will be required to complete the following requirements for the Environmental Studies major:

**Environmental Studies Core**

Economics 2010  
 Environmental Studies 2000  
 Environmental Studies 3000  
 Environmental Studies 3001  
 Environmental Studies 4010  
 Environmental Studies 4950  
 Geography 3222  
 Philosophy 2561

**Additional Requirements Based on Concentration****For Students taking the Outdoor Environmental Pursuits Option:**

Fifteen credit hours of the following courses of which at least 9 credit hours must be at the 3000 or 4000 level:

Anthropology 3083  
 Biology 1001 and 1002  
 Biology 2041  
 Biology 2600  
 Chemistry 1001  
 Chemistry 1200  
 Earth Sciences 1000  
 Earth Sciences 1002  
 Environmental Science 2261  
 Environmental Science 2360  
 Environmental Science 2370  
 Environmental Studies 4020-4039  
 Environmental Studies 4000  
 Folklore 2600  
 Forestry 1010 and 1011  
 Geography 1001  
 Geography 2102  
 Geography 2425  
 Political Science 3731  
 Religious Studies 3880

**For Students taking the Environmental Perspectives Concentration:**

27 credit hours of the following courses of which 18 must be at the 3000 or 4000 level:

Anthropology 3080  
 Anthropology 3083  
 Biology 1001 and 1002  
 Biology 2041  
 Biology 2600  
 Chemistry 1001

Chemistry 1200  
 Earth Sciences 1000  
 Earth Sciences 1002  
 Environmental Science 2261  
 Environmental Science 2360  
 Environmental Science 2370  
 Environmental Science 2371  
 Environmental Studies 4020-4039  
 Environmental Studies 4000  
 Folklore 2401  
 Folklore 2600  
 Forestry 1010 and 1011  
 Geography 1001  
 Geography 2001  
 Geography 2102  
 Geography 2302  
 Geography 2425  
 Political Science 3550  
 Political Science 3731  
 Religious Studies 3880  
 Sociology 2120

Note: *The required Philosophy 2809 and the optional Religious Studies 3550 can be used to fulfil the Group A breadth of knowledge requirement. The required Environmental Studies core courses will fulfil the Quantitative Reasoning and Analysis requirement.*

### 7.8.2 Tourism Studies Major for Graduates of the Two-Year Adventure Tourism Diploma Program

Students who have graduated from the two-year Adventure Tourism Diploma Program offered by the College of the North Atlantic and who are entering the Tourism Studies Program will be given a total of 54 credit hours towards the 120 credit-hour degree program. Students will be required to complete an additional 66 credit hours for the Sir Wilfred Grenfell College B.A. Degree, Major in Tourism Studies as follows:

1. English 1000 and 1001
2. French 1501 and 1502
3. 3 credit hours chosen from Geography 3222, Psychology 2925, Sociology 3040, Statistics 2500, Statistics 2550
4. 21 credit hours in Tourism Studies as follows: Tourism 1000, 1100, 3240, 3900, 4010, 3 credit hours from 4900-4910, and 4950
5. 24 credit hours in Minor program
6. 6 credit hours in elective

Note: *When selecting courses for minor or electives, students must select 6 credit hours in **Designated Writing Courses**, as indicated under **Sir Wilfred Grenfell Core Program Requirements***

### 7.8.3 Tourism Studies Major for Graduates of the Two-Year Hospitality Management Diploma Program

Students who have graduated from the two-year Hospitality Management Diploma Program offered by the College of the North Atlantic and who are entering the Tourism Studies Program will be given a total of 45 credit hours towards the 120 credit-hour degree program. Students will be required to complete an additional 75 credit hours for the Sir Wilfred Grenfell College B.A. Degree, Major in Tourism Studies as follows:

1. English 1000 and 1001
2. French 1501 and 1502
3. Economics 2010 and 2020
4. 3 credit hours chosen from Geography 3222, Psychology 2925, Sociology 3040, Statistics 2500, Statistics 2550
5. 24 credit hours in Tourism Studies as follows: Tourism 1100, 2000, 3100, 3240, 3900, 4010, 3 credit hours from 4900-4910, and 4950
6. 24 credit hours in Minor program
7. 6 credit hours in elective

Note: *When selecting courses for minor or electives, students must select 6 credit hours from **Breadth of Knowledge Requirement**, Group C as indicated under **Sir Wilfred Grenfell Core Program Requirements**.*

## 8 Division of Science

Bachelor of Science (General and Honours) degrees are available in Environmental Science, General Science and Psychology.

Minors are available in Environmental Science, Mathematics, Science.

An articulation agreement has been established with the College of the North Atlantic for those students who have completed the three-year Environmental Technology diploma program and who wish to obtain a Bachelor of Science degree (Major in Environmental Science).

### 8.1 Major in Environmental Science

Program Chair: Dr. M. Krishnapillai

The Major consists of an Environmental Science Core which provides a broad appreciation of the interrelationships inherent in any study of the environment and one of two possible streams which provide the depth and focus for the degree program.

#### 1. Environmental Science Core

The student must complete at least 45 credit hours as follows:

- a. Biology 1001, 1002, 2600

Earth Science 1000  
 Mathematics 1000\* (or 1080 and 1081), Statistics 2550 or equivalent  
 One of Physics 1020\* or 1050\* and one of Physics 1021\* or 1051\*  
 Environmental Science 4000  
 Environmental Science 4950 (or 4951, see **Requirements for Honours in Environmental Science (B.Sc.)**)

b. At least two of:

Anthropology 3083  
 Economics 2010  
 Environmental Studies 3000  
 Environmental Studies 4000  
 Philosophy 2561  
 Political Science 3550  
 Political Science 3731  
 Religious Studies 3880

c. At least three of:

Environmental Science 2261  
 Environmental Science 2360  
 Environmental Science 2370  
 Environmental Science 2371  
 Environmental Science 2430  
 Environmental Science 2450  
 Environmental Science 3072  
 Environmental Science 3470  
 Environmental Studies 2000 \*\*

\*It is strongly recommended that students considering the Chemistry stream of the Environmental Science program complete these courses in their first year.

\*\*This course is strongly recommended for the Biology Stream of the Environmental Science program.

## 2. Environmental Science Streams

Students must complete at least 39 credit hours in one of the following streams:

### a. Biology stream

Biology 2010, 2122  
 Chemistry 1200/1001 sequence or Chemistry 1011/1031 sequence or Chemistry 1050/1051 sequence, and one of Chemistry 2210 or Chemistry 2300 (or 2301) or 2440 or 2400/2401 sequence, or Chemistry 1010/1011 sequence and Chemistry 2440  
 ENVS 3110, 3130 3131, 4132, 4140 (or equivalent field course)  
 Two of Envs 4069, 4131, 4133, 4240, 4479  
 one additional laboratory (Science/Statistics/GIS) course beyond the first year level excluding Environmental Science Core courses. A course used to fulfill a stream requirement cannot also be used as a Group c. course in the Environmental Science Core.

### b. Chemistry stream

Chemistry 1200/1001 sequence or Chemistry 1011/1031 or Chemistry 1050/1051 sequence. It is strongly recommended that students complete one of these sequences of Chemistry courses in their first year.  
 Chemistry 2210, 2300 (or 2301), Chemistry 2400/2401 or equivalent  
 Environmental Science 2261, 3210, 3211, 3260, 3261, 4230  
 Two of Environmental Science 4069, 4131, 4240, 4249, 4479  
 Mathematics 1001 which should be completed in the first year of studies

## 8.2 Requirements for Honours in Environmental Science (B.Sc.)

The Bachelor of Science (Honours) degree in Environmental Science offers greater concentration in the discipline and also requires a higher level of academic achievement than is required for completion of the general degree. The Bachelor of Science (Honours) in Environmental Science at Sir Wilfred Grenfell College is a 120 credit hour program normally requiring four years for completion. (See **Regulations for the Honours Degrees of Bachelor of Arts and Bachelor of Science at Sir Wilfred Grenfell College.**) Students will normally not be allowed to repeat courses to fulfil the academic standing criteria for the Bachelor of Science (Honours) in Environmental Science. For students completing an Honours degree in "open" programs the appropriate courses to be used in calculation of academic standing will be determined by the program unit and will be approved by the Academic Studies Committee.

The following requirements govern the Bachelor of Science (Honours) in Environmental Science:

### 1. Course Requirements

- a. Students must meet the General Regulations for Sir Wilfred Grenfell College Bachelor of Science degree.
- b. Candidates must also complete:
  - i. the Environmental Science Core requirements
  - ii. the course requirements of a specific stream
- c. Candidates must complete 3 additional credit hours in courses at the 4000 level. These courses normally will be drawn from the candidates's honours stream as follows:
  - i. For the Honours Bachelor of Science in Environmental Science (Biology), a further course chosen from: Environmental Science 4069, 4131, 4133, 4240, 4479
  - ii. For the Honours Bachelor of Science in Environmental Science (Chemistry), a further course chosen from: Environmental Science 4069, 4131, 4240, 4249, 4479
- d. Students, in close consultation with a faculty advisor and the agreement of the Chair of the Program, may select fourth-year honours requirement courses in place of those required in Section 1.c. (above), so long as such selections are consistent with the Major to which they are added. Such honours selections will be subject to approval by the Academic Studies committee.
- e. Honours graduates of the Environmental Science Program will have also completed a two-semester research project consisting of a research proposal and literature review course (Environmental Science 4951) and a research project course (Environmental Science 4959).

**2. Honours Dissertation**

The honours project sequence (Environmental Science 4951 and 4959) involves the production of an honours dissertation. This dissertation will be evaluated by a three member committee that includes the dissertation supervisor(s) and that is approved by the Environmental Science faculty unit.

**3. Academic Standing**

In order to graduate with an Honours degree, the candidate must satisfy the regulations regarding academic standing as specified under **Regulations for Honours Degree of Bachelor of Science at Sir Wilfred Grenfell College**.

Courses used to calculate the academic standing as outlined in the **General Regulations for an Honours Degree at Sir Wilfred Grenfell College** include all required Environmental Science and Chemistry courses for the Chemistry stream students and all required Environmental Science and Biology courses for the Biology stream students, excluding, in both cases, 1000 level courses.

More specifically, courses normally used for calculations would be:

**Biology stream:**

Biology 2010, 2122, 2600

Three of: Environmental Science 2261, 2360, 2370, 2371, 2430, 2450, 3072, 3470, or Environmental Studies 2000

Environmental Science 3110, 3130, 3131, 4132, 4140 (or equivalent)

Three of: Environmental Science 4069, 4131, 4133, 4240, 4479

Environmental Science 4000, 4951, 4959

**Chemistry stream:**

Chemistry 2210, 2300 (or 2301) Chemistry 2400, Chemistry 2401

Two of: Environmental Science 2360, 2370, 2371, 2430, 2450, 3072, 3470, or Environmental Studies 2000.

Environmental Science 2261, 3210, 3211, 3260, 3261, 4230

Three of: Environmental Science 4069, 4131, 4240, 4249, 4479

Environmental Science 4000, 4951, 4959

**8.3 Major in General Science**

Program Chair: L. Bateman

Students completing the Major in General Science will complete a General Science Core. In addition, they will complete a minimum of 24 credit hours (or 18 credit hours in the case of Mathematics) in each of three streams chosen from Biology, Chemistry, Earth Systems, Mathematics or Physics. A student may not use the same course to satisfy the requirements of more than one stream. Students planning their course selection should be aware of the fact that most senior level science courses have one or more specified prerequisites.

The allowable courses that can be chosen from each stream are listed below.

**1. General Science Core**

Students must complete:

**a. Course Requirements**

Mathematics 1000, 1001

Science 4000 (General Science Seminar)

**b. Independent Project**

Science 4950

**2. General Science Streams**

Students must complete at least 24 credit hours in each of three streams, chosen from the following list of courses:

**Biology:**

Biology 1001, 1002

Eighteen credit hours from Biology 2010, 2122, 2210, 2250, 2600, 3053, Environmental Science 3072, 3110, 3130, 3131, 4140 (or equivalent field course) where at least 6 credit hours must be beyond the 2000 level.

**Chemistry:**

Chemistry 1001, 1200, 2210, 2300 (or 2301)

Either Chemistry 2440 or both Chemistry 2400 and 2401

Students who have completed Chemistry 2440 must complete another 9 credit hours from Environmental Science 2261, 3210, 3211, 3261, 4230, 4240; students who have completed Chemistry 2401 must complete another 6 credit hours from Environmental Science 3210, 3211, 3260, 3261, 4230, 4240.

**Earth Systems:**

Earth Science 1000, 1001 or 1002

Any 18 credit hours (six courses) from the following list, at least two courses of which are beyond the 2000 level: Environmental Studies 2000, 3001, Environmental Science 2360, 2369, 2370, 2371, 2450, 3072, 3470, 4069, 4479, Earth Science 2150, 3811.

**Mathematics:**

Mathematics 1000, 1001, 2000, 2050, Pure Mathematics 2320

Nine additional credit hours beyond the 1000 level chosen from Applied Mathematics, Mathematics, Pure Mathematics or Statistics, at least 6 of which must be beyond the 2000 level.

**Physics:**

Physics 1050, 1051, 2056, 2065, 3060, 3220

Two of Physics 2151, 2553, 3160, Earth Science 2150, Environmental Science 2430, 2450, 3470, 4479

**8.4 Requirements for Honours in the General Science Degree**

The Bachelor of Science (Honours) degree in General Science requires students to gain greater depth in one or more of their three chosen streams. It also requires a higher level of academic achievement than is required for the general degree. The Bachelor of Science (Honours) in General Science is a 120 credit hour program normally requiring four years for completion (see **Regulations for an Honours Degree in Arts and Science at Sir Wilfred Grenfell College**).

The following requirements govern the Bachelor of Science (Honours) in General Science:

**1. Course Requirements****a. General Science Core:**

Students must complete all of the course requirements of the General Science Core.

**b. General Science Streams:**

In addition to the courses required under the General Degree regulations, students must complete two additional courses from at least one of their three chosen streams. These additional courses must come from the list of courses given in the stream requirements, and must both be beyond the 2000 level.

**2. Honours Dissertation:**

For students doing Honours, the Independent Project Science 4950 will be replaced by a two-semester Honours Project, Science 4951/Science 4959.

**3. Academic Standing:**

In order to graduate with an Honours degree, a student must satisfy the regulations regarding academic standing as specified under **Regulations for Honours Degree of Bachelor of Science at Sir Wilfred Grenfell College**. Courses used to calculate the academic standing as outlined in the General Regulations for an Honours Degree at Sir Wilfred Grenfell College include all courses listed in the stream requirements, with the exception of all 1000 level courses.

**8.5 Minor Programs - Division of Science****Environmental Science Minor:**

Students may choose one of the following three options:

1. Environmental Science
  - a. Biology 1001, 1002 and 2600 or Chemistry 1200, 1001, and one of Chemistry 2440 or Environmental Science 2261
  - b. Additional 15 credit hours in science courses within the Environmental Science program of which at least 6 credit hours must be at the 3000 or 4000 level
2. Environmental Science-Biology
  - a. Biology 1001, 1002, 2010, 2122, 2600
  - b. Three credit hours from Environmental Science 3110, 3130, 3131, 4131
  - c. An additional 6 credit hours in courses with the Environmental Science designation of which at least 3 credit hours must be at the 3000 or 4000 level.
3. Environmental Science-Chemistry
  - a. Chemistry 1200, 1001, 2210, 2300 (or 2301), Chemistry 2440
  - b. Three credit hours from Environmental Science 3210, 3261, 4240
  - c. An additional 6 credit hours in courses with the Environmental Science designation of which at least 3 credit hours must be at the 3000 or 4000 level

**Mathematics Minor:**

1. Mathematics 1000, 1001 (The only other course at the 1000 level which carries credit toward a Minor in Mathematics is Computer Science 1700.)
2. 18 additional credit hours in Mathematics, Pure Mathematics, and Applied Mathematics courses beyond 1000 level or 15 additional credit hours Mathematics, Pure Mathematics, and Applied Mathematics courses beyond 1000 level and 3 credit hours in Statistics or Computer Science courses.

At least 6 credit hours will be in courses at the 3000 level or higher.

**Science Minor:**

Students pursuing the Minor in Science may choose courses from the following disciplines: Biology, Chemistry, Computer Science, Earth Science, Environmental Science, Mathematics, Physics, Science, and Statistics. Students who have completed courses drawn from other Science disciplines must obtain approval of the Head of Science.

1. Mathematics 1000
2. Six additional credit hours in first year science courses (At least 3 credit hours must be in a laboratory course chosen from any science discipline except mathematics).
3. Five science courses beyond the 1000 level, at least 6 credit hours of which must be beyond the 2000 level. (Mathematics 1001 may be substituted for one of the 2000 level science courses).

**8.6 Articulation Agreement With the College of the North Atlantic****8.6.1 For Graduates of the Three-Year Environmental Technology Diploma Program**

Students who have graduated from the three-year Environmental Technology Diploma Program offered by the College of the North Atlantic, or who are in their final semester of this program, can apply for entry with advanced standing into the Environmental Science Degree Program offered at Sir Wilfred Grenfell College. Upon admission to the university, such students will enter the second year of either stream of the Environmental Science Degree Program.

They will be given unspecified credit for 45 credit hours towards the 120 credit-hour degree program. Included in these 45 credit hours will be 9 credit hours for unspecified writing courses, of which 6 credit hours will be at the 1000 level and three will be at the 2000 level. In addition, 6 of these credit hours will be for unspecified credit at the 2000 level satisfying Group B, breadth of knowledge requirement.

Students gaining entry into the Environmental Science Degree Program at Sir Wilfred Grenfell College will need to satisfy all other core program requirements specified for Grenfell degree programs. As well, they will need to satisfy all other course requirements specified for their specific stream in Environmental Science.

Upon admission into the second year of the Environmental Science Degree Program, students will be required to complete the following:

**Core Program Requirements:**

Six credit hours from Group A Breadth of Knowledge Requirement

21 credit hours in additional designated Writing (W) courses which may include Environmental Science core and stream courses

**Environmental Science Core:**

Biology 2600 (W)

Environmental Science 4000 (W)

Environmental Science 4950 (W) (students who intend to complete the honours option will complete Environmental Science 4951 (W) and Environmental Science 4959 (W))

Statistics 2550 or equivalent

1. **At least two of:**

Anthropology 3083

Economics 2010

Environmental Studies 3000

Philosophy 2561 (W)

Political Science 3731, 3550

Religious Studies 3880 (W)

2. **At least three of:**

Environmental Science 2261, 2360, 2370(W), 2371(W), 2430, 2450, 3072, 3470

Environmental Studies 2000 or equivalent

**Biology Stream:**

Biology 2010, 2122 (W)

Chemistry 2300 or 2440 or 2400/2401

Environmental Science 3110, 3130, 3131, 4132, 4140 (or an equivalent field course)

Six credit hours from Environmental Science 4069, 4131, 4133, 4240, 4479 (Honours students must complete 9 credit hours from this list)

Three credit hours in an additional science or statistics laboratory course at the 2000 level or higher, excluding Environmental Science core courses

**Chemistry Stream:**

Chemistry 2210(W), 2300, 2400, 2401

Environmental Science 2261, 3210(W), 3211(W), 3260, 3261, 4230

Six credit hours from Environmental Science 4069, 4131, 4240, 4249, 4479 (Honours students must complete 9 credit hours from this list)

## 9 Division of Fine Arts

Bachelor of Fine Arts degrees are available in Theatre and in Visual Arts. Students completing a Fine Arts degree are not required to follow the Sir Wilfred Grenfell College Core program requirements.

The Minor Program is available in Art History.

### 9.1 Bachelor of Fine Arts (Theatre)

The Bachelor of Fine Arts (Theatre) program is designed to educate and train the student in the history, theory and practice of the theatre arts. The degree provides an undergraduate training, delivered by theatre professionals, that will prepare students to enter a professional graduate school of theatre, theatre conservatory or an apprenticeship in the theatre profession. The degree also provides a broad liberal arts education with a strong component of dramatic literature, enabling the graduate to pursue a variety of careers outside the theatre profession.

In recognition of the relative isolation of the Sir Wilfred Grenfell Campus and the need for students of the performing arts to be exposed to examples of excellence in their field of study, provision will be made for students in their senior years to visit major theatre centres outside the province (e.g. the Harlow Campus will be utilized for studies in London and Stratford).

#### 9.1.1 Admission Requirements

1. **Academic Requirements**

Applicants must meet the general admission requirements of the University.

2. **Audition**

In addition to meeting the general admission requirements of the University, applicants for the Bachelor of Fine Arts (Theatre) must undergo an audition/interview to the satisfaction of the department. Enrollment in the Bachelor of Fine Arts (Theatre) is limited and selection is competitive.

3. The deadline for submission of Theatre application forms is March 31<sup>st</sup> of the year in which admission is sought.

#### 9.1.2 Academic Performance

1. Attendance and participation in all studio courses and production rehearsals is vital to the collaborative nature of the program of study in Theatre. Absence from classes or rehearsals of any one student could jeopardize a production, the proper dissemination of practical skills and the overall safety of the students. Therefore attendance at all studio classes, rehearsals and crew calls will be compulsory.

2. Students who fail a studio course shall not take more advanced courses in that discipline until the failed course has been satisfactorily completed.

3. Students shall complete all 1000 level Theatre courses before advancing to any 2000 level Theatre course.

4. A candidate whose average in the Theatre courses for the B.F.A. degree falls below 65 percent in any semester will be placed on probation within the program. A student placed on probation at the end of the final semester of the Theatre program will not be recommended for graduation.

5. A candidate will be required to withdraw from the program if the candidate's average in Theatre courses falls below 65 percent in each of two consecutive semesters of his/her enrollment in the program.

6. Candidates who have withdrawn or who have been required to withdraw from the Bachelor of Fine Arts (Theatre) program and wish to re-enter the program must re-apply in competition after a lapse of two semesters by April 30 for the upcoming Fall semester, or by August 30 for the upcoming Winter semester.

7. Candidates who have been required to withdraw twice from the Bachelor of Fine Arts (Theatre) program shall be ineligible for further admission.

8. The Bachelor of Fine Arts (Theatre) program is intended for full-time students only. Students are strongly advised to take the full course load as prescribed each semester and so progress through the degree in clearly defined blocks of courses.

### 9.1.3 Degree Regulations

Where circumstances warrant any prerequisite(s) for Theatre courses may be waived by the Program Chair.

Students in their first year will not be allowed to participate in theatre productions. Exceptions will be made only with the permission of the Head of the Division of Fine Arts, and permission will be given only where a student demonstrates satisfactory performance.

Where circumstances warrant, a student in second or third year may be given the opportunity for advanced responsibilities in production with the permission of the Program Chair. Permission will be given only where a student demonstrates above average academic performance as well as exceptional theatrical ability.

Productions will constitute the designated number of rehearsal hours as described below. However, the final week of rehearsals (technical rehearsals) will include ten hour days on Saturday and Sunday. All performances will take place in the evenings with the possible exceptions of occasional matinees.

Any departmental regulations may be waived by the Committee on Undergraduate Studies upon request of the Program Chair by the appropriate Committee on Undergraduate Studies.

To be awarded the Bachelor of Fine Arts (Theatre) a student shall successfully complete 120 credit hours which would normally be completed over a four-year period and must be chosen in accordance with the following pattern:

- English 1000 and 1001 or equivalent
- Visual Arts 2700 and 2701
- Eighteen credit hours in dramatic literature as follows:  
English 2350 and 2351 (Surveys of major dramatic texts)  
English 3205 or 3200 or 3201 (Shakespeare)  
English 3275 (Modern Drama)  
Two Dramatic Literature courses to be selected from the following: English 3021, 3022, 3156, 3171, 3181, 3206, 3260, 4210, 4211, 4301, 4305, 4307, 4308, 4316, 4317
- Fifteen credit hours in academic elective courses
- Seventy-five credit hours in Theatre chosen in accordance with the following pattern:  
Theatre 1000, 1001, 1010, 1020, 4030, 4040, and 4001 (Harlow Institute - 10 credit hours) and  
Forty-seven credit hours in one of the following Majors:  
**Acting:**  
Theatre 1110, 2010, 2011, 2080, 2081, 3010, 3011, 3070, 3071, 3080, 3081, 4010, 4070, and 4080  
**or**  
**Stagecraft:**  
Theatre 1120, 2020, 2021, 2090, 2091, 3020, 3021, 3060, 3061, 3090, 3091, 4020, 4060, and 4090

### 9.1.4 Course Structure for the Bachelor of Fine Arts in Theatre

1st Year	3rd Year
<b>Fall</b> Theatre 1000 Theatre 1010 Theatre 1020 English 1000/1050 Elective	<b>Fall</b> Theatre 3010 or Theatre 3020 Theatre 3060 or Theatre 3070, Theatre 3080 or Theatre 3090 English 3275 Elective
<b>Winter</b> Theatre 1001 Theatre 1110 or Theatre 1120 English 1001/1051 Elective Elective	<b>Winter</b> Theatre 3011 or Theatre 3021 Theatre 3061 or Theatre 3071 Theatre 3081 or Theatre 3091 Dramatic Literature course Elective
2nd Year	4th Year
<b>Fall</b> Theatre 2010 or Theatre 2020 Theatre 2080 or Theatre 2090 English 2350 English 3205 Visual Arts 2700	<b>Fall</b> Theatre 4010 or Theatre 4020 Theatre 4060 or Theatre 4070 Theatre 4080 or Theatre 4090 Theatre 4040 Theatre 4030
<b>Winter</b> Theatre 2011 or Theatre 2021 Theatre 2081 or Theatre 2091 English 2351 Dramatic Literature course Visual Arts 2701	<b>Winter</b> Theatre 4001 (Harlow Institute - 10 credit hours)

## 9.2 Bachelor of Fine Arts (Visual Arts)

The Bachelor of Fine Arts (Visual Arts) degree program is a professional program designed to educate and train the student in the history, theory and practice of the Visual Arts. Courses are offered in Drawing, Painting, Sculpture, Printmaking, Photography, Multi-media, Digital Imaging and Digital Multi-Media, and Art History. The curriculum is devised with the aim of producing well-rounded generalists with a solid grounding in all aspects of the Visual Arts. It illustrates the philosophy that artistic freedom and creative

expression require both technical skill and intellectual vision, acquired through a disciplined application of effort and a critical awareness of artistic issues, past and present.

In addition to Studio and Art History courses, the student will take a number of appropriate academic courses from disciplines other than Visual Arts, chosen in consultation with the program chair. It is intended that academic courses be chosen which will enhance the Bachelor of Fine Arts (Visual Arts) program and provide, as far as possible, a broad exposure to the liberal arts. The first year of the program consists of intensive foundation of co-requisite courses in Drawing, Two-Dimensional Design and Three-Dimensional Design in preparation for Introductory studio courses in the second year and intermediate studio courses in the third year. In the fourth year, the 4950/4951 studio courses are conducted as tutorials, that is, students will work independently on projects and confer regularly with instructors.

It is recognized that students in the Bachelor of Fine Arts (Visual Arts) program must have occasional opportunities to view important works of art first-hand. Arrangements will therefore be made where possible for students to visit major art centres.

The Bachelor of Fine Arts (Visual Arts) program is rigorous and demanding and it is assumed that students will normally be enrolled for full-time study. A student who withdraws from a course may put his/her program in jeopardy or be unable to complete the degree in the normally allotted time. Where circumstances warrant, any prerequisite(s) or co-requisite(s) for Visual Arts courses may be waived by the Program Chair. Any Visual Arts regulations may be waived by the Committee on Undergraduate Studies upon request of the Program Chair.

## 9.2.1 Admission Requirements

### 1. Academic Requirements

Applicants must meet the general admission requirements of the University.

### 2. Portfolio Submission

In addition to meeting the general admission requirements of the University, all applicants will be required to submit a portfolio of previous art work and a completed Visual Arts application form before April 15th of the year in which entry is sought. Although it is assumed that applicants will have had no previous formal training in art, evidence of suitability for study in the visual arts is required. Instructions for the submission of portfolios will be provided by the Fine Arts Division upon request. Enrollment in the Bachelor of Fine Arts (Visual Arts) program is limited and selection is competitive.

### 3. Transfers From Other Universities/Colleges

See **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**.

## 9.2.2 Academic Performance

1. Attendance at all studio courses is considered vital to the program and will be required. It will be used as part of the evaluation.
2.
  - a. Students who fail a course in a studio discipline shall not take more advanced courses in that discipline until the failed course has been satisfactorily completed.
  - b. Students who fail any studio course will be required to repeat that course and obtain a grade of at least 65%.
3. Students must normally complete all 1000 level studio courses before advancing to any 2000 level studio course.
4. A candidate whose average in Visual Arts courses falls below 65% in any semester will be placed on probation by the Visual Arts program.
5. A candidate will be required to withdraw from the program if:
  - a. The candidate's cumulative average in Visual Arts courses required for the program falls below 65%. OR
  - b. The candidate's average in Visual Arts courses falls below 65% in each of two consecutive semesters of enrolment in the program.
6. A candidate will be denied graduation if, at the end of the final semester of the Visual Arts Program:
  - a. The candidate's cumulative average in Visual Arts courses required for the program falls below 65%. OR
  - b. The candidate's term average in Visual Arts courses falls below 65% in each of his/her last two consecutive semesters of enrolment in the program.

A candidate denied graduation for either of these reasons will be permitted to register for Visual Arts courses without a waiting period and re-application, and is not bound by Regulation 8 (below).
7. Students who have voluntarily withdrawn from the Bachelor of Fine Arts (Visual Arts) program and wish to re-enter must re-apply in competition by April 15th for the upcoming Fall semester, or by August 30th for the upcoming Winter semester.
8. Students who have been required to withdraw from the Bachelor of Fine Arts (Visual Arts) program and wish to re-enter must re-apply in competition after a lapse of two semesters by April 15th for the upcoming academic year.
9. Candidates who have been required to withdraw twice from the Bachelor of Fine Arts (Visual Arts) program shall be ineligible for further admission.
10. Students denied promotion with a cumulative average below 60% in Visual Arts courses who are re-admitted to the program will normally be required to repeat all the Visual Arts courses of the term, including all the courses which have been passed (in a semester when the courses are normally offered).
11. Students denied promotion with a cumulative average of at least 60% in Visual Arts courses who are readmitted to the program will be required to repeat the failed Visual Arts courses only (in a semester when such courses are normally offered).

## 9.2.3 Degree Regulations

Visual Arts 1000 and 1001 and Visual Arts 2300 and 2301 are not accepted as credits towards the Bachelor of Fine Arts (Visual Arts) degree. One work of art done during the fourth year will be selected by the Visual Arts Program, in consultation with the student, and retained for the permanent collection of the College.

To be awarded the degree of Bachelor of Fine Arts (Visual Arts) a student shall successfully complete 120 credit hours as follows:

1. Six credit hours in English courses.
2. Eighteen credit hours in academic elective courses chosen from Disciplines other than Visual Arts.
3. Visual Arts 2700, 2701 and an additional 18 credit hours in Art History
4. Visual Arts 100A/B; 110A/B; 120A/B; 2000/2001.
5. Studio Courses

Forty-two credit hours in studio courses as follows:

- a. 18 credit hours at the 2000 level.
- b. 18 credit hours at the 3000 level.
- c. Six additional credit hours in studio electives at 2000 or 3000 level.

Studio courses are offered in the following subjects: Drawing, Two-dimensional design, Three-dimensional design, Painting, Sculpture, Printmaking, Printmedia, Photography and Multi-media, Digital Imaging and Digital Multi-media. Courses in a studio subject consist of six hours of practical work in a studio class each week. Assigned projects will require that considerable additional studio work be done outside scheduled class time. Students will supply their own art materials. Some courses may not be offered every year. Please consult with the Fine Arts Division prior to registration to confirm course offerings.

6. Visual Arts 4950/4951

#### Program Example:

##### Year 1 - Foundation Year

Drawing I (100A/B)  
Two-D Design (110A/B)  
Three-D Design (120A/B)  
Six credit hours in Art History Survey I, II (2700/2701)  
Six credit hours in English Language and Literature

##### Year 2

Second Year Drawing I, II (2000/2001)  
Twelve additional credit hours in 2000 level Studio Courses  
Six credit hours in Art History Courses  
Six credit hours in Academic Electives to be chosen in consultation with the Academic Advisor

##### Year 3

Twelve credit hours in 3000 level Studio Courses  
Six credit hours in 2000 level Studio Courses  
Six credit hours in Art History Courses  
Six credit hours in Academic Electives to be chosen in consultation with the Academic Advisor

##### Year 4

Independent Projects in Studio I, II (4950/4951) 3 credit hours each  
Six credit hours in 3000 level Studio Courses  
Six credit hours in Art History Courses  
Six credit hours in Academic Electives to be chosen in consultation with the Academic Advisor

## 9.3 Minor Program - Fine Arts

### Art History Minor

Visual Arts 2700 and 2701  
18 credit hours in Art History at the 3000- or 4000-level

## 10 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

Prerequisites may be waived by the Head/Program Chair of the course area in question.

Upon the recommendation of the appropriate Program Chair(s), any Major requirements may be waived by the Academic Studies Committee.

Some of the courses in this section of the Calendar are available only at Sir Wilfred Grenfell College. Students who choose to transfer from Grenfell to the St. John's campus should see their faculty advisor to determine the extent to which such courses can be applied to their new program.

### 10.1 Anthropology

Anthropology 1030 and Anthropology 1031 or an equivalent course or courses are required of all students wishing to concentrate in anthropology.

The following courses, cross-listed with the Department of Sociology and identified by the prefix "S/A", are also taught at the introductory level: 2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280, and 2350. These courses can be taken as first courses or may be taken following an Anthropology introductory course.

**1031 Introduction to Social and Cultural Anthropology** is a general introduction to Anthropology emphasizing different forms of society and culture. Cultures within and outside the Western tradition will be examined,

ranging from small-scale to more complex pre-industrial societies.  
CR: the former Anthropology 1000 or 2000

**2200 Communities (S/A 2200)** is an interdisciplinary examination of the concept of Community. Readings will include community studies from North America and Europe.

**2210 Communication and Culture (S/A 2210)** is an examination of verbal and non-verbal systems of communication, and the influence of language on human cognition.

**2230 Newfoundland Society and Culture (S/A 2230)** examines the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary island Newfoundland.  
CR: Folklore 2230

**2240 Canadian Society and Culture (S/A 2240)** is a descriptive and analytic approach to the development of Canadian society and culture.

**2260 War and Aggression (S/A 2260)** is a critical review of ethological, psychological and sociological approaches to the understanding of violence and organized aggression.

**2270 Families (S/A 2270)** is a comparative and historical perspective on the family as a social institution, the range of variation in its structure and the determinants of its development.

**2280 The City (S/A 2280)** examines varieties of urban life around the world and through history. The city as habitat and as spectacle.

**2300 Newfoundland Folklore** is a survey of the various types of Folklore: tale, song, rhyme, riddle, proverb, belief, custom, childlore and others, with stress on their function in the Newfoundland community culture. Individual collection and analysis of materials from the students' home communities, supplemented by data from the Memorial University of Newfoundland Folklore and Language Archive.  
CR: the former Folklore 3420, Folklore 2300  
PR: Folklore 1000 or Folklore 2000, or Anthropology 1031

**2350 Religious Institutions (S/A 2350)** is a comparative study of religious

institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization.

CR: Religious Studies 2350

**2410 Classics in Social and Cultural Anthropology** is an examination of selected milestone monographs, ground-breaking studies for subdisciplinary specialties and major syntheses.

**2411 Anthropologists in the Field** base many of their ideas on experiences they have while living in other cultures. This course examines the human relationships through which anthropologists explore cultures and how in turn these relationships affect the anthropologists and the development of their discipline.

**2412 Threatened Peoples** is an examination of key social and cultural factors involved in the global extinction of small-scale societies; the intrusive influences that jeopardize small-scale societies, such as disease; economic and military incursion; the role of international non-governmental agencies in aid of threatened peoples; and the role of the anthropologist in this human crisis.

**2413 Modern World Cultures** is an examination of significant studies of 20th century populations and their implications for understanding the human condition.

**2500 Folk Literature** is an examination of the major genres of folk literature: folk narrative, folk poetry and song, folk drama, and the traditional generic forms within folk speech. An introduction to the textual, comparative and contextual methods of analysis. The literature discussed will be international in scope.

CR: Folklore 2500, the former Folklore 3400, English 3400, Sociology/Anthropology 3400,

PR: Folklore 1000 or Folklore 2000, or Anthropology 1031

**3053 Anthropology of Religion** is a critical evaluation of anthropological research on religion, centering on seminal thinkers and major theoretical traditions. Special attention is given to the study of belief systems, and to relationships between belief and ritual.

CR: Religious Studies 3053

**3080 The Third World** is an examination of the anthropology of the Third World. The course considers perspectives on peasantry, including such topics as underdevelopment, land reform, hunger, political and social movement.

**3083 Cultural Crises and the Environment** is an examination of social and cultural aspects of dilemmas in the use of renewable and non-renewable resources such as animals, arable land, forests, fisheries, air, water, fossil fuel, and nuclear energy. Special attention to Third World and marginal populations.

**3140 Social Movements (S/A 3140)** is an examination of social movements which challenge prevailing social institutions and cultural values. Social movements considered may include religious cults and sects, millenarian movements, attempts at utopian and communal living, feminism, labour and revolutionary movements.

**3210 Persistence and Change in Rural Society (S/A 3210)** assesses the social and cultural significance of the rural experience in the face of expanding urbanism. Topics may include (a) the nature of rural society in Canada, (b) similarities between Canadian and European rural society, (c) utopian and anarchist movements in rural life, and (d) reaction of agricultural populations to external influence.

**3314 Gender and Society (S/A 3314)** is an examination of biological, psychological, social and cultural aspects of gender, with an emphasis upon contemporary directions of change in sex roles.

**3520 The Early Ethnohistory of North America's Native People** explores the North American native response to early European contact and initial settlement. Particular attention will be paid to cultural change resulting from the adoption of European goods, participation in the fur trade, the introduction of European disease, and the adaptation to a permanent European presence.

CR: History 3520

**3525 The Later Ethnohistory of North America's Native People (A/P)** examines Indian and Inuit cultural history of the 18th and 19th centuries, including the fur trade, resistance and accommodation to European expansion, the emergence of revitalization movements, demographic changes, and population shifts. Special emphasis will be placed on the ethnohistory of the native peoples of what is now Canada and northern United States.

CR: History 3525

**4071 Social and Cultural Aspects of Health and Illness (S/A 4071)** covers topics which may include: cultural concepts of illness and health; theories of disease causation; relationships between social life and illness patterns; symbolic use of illness; variations in philosophies of treatment and in practitioner/patient relationships; the social organization of medicine. Open to those without normal prerequisites by permission of the Instructor.

**4072 Social and Cultural Aspects of Death (S/A 4072)** covers topics which may include: symbolic meanings and values attached to death; cultural and historical variations in the management of death, e.g. treatment of the 'terminally ill', burial rites, the mourning process, and the social fate of survivors, together with the social and psychological meanings of these behaviours. Open to those without normal prerequisites by permission of the Instructor.

**4440 Music and Culture (S/C 4440)** explores traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk-popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

CR: Folklore 4440, Music 4440

## 10.2 Biochemistry

**1430 Biochemistry for Nurses** is an introduction to the chemistry and structure-function relationships of carbohydrates, lipids and proteins. Basic metabolism of carbohydrates and fats, with emphasis on the biochemical fluctuations that occur in human health and disease. A brief introduction to molecular genetics. This course may not be used for credit to fulfill the requirements for a major in the Department of Biochemistry. Entry into this course is restricted to students in the Bachelor of Nursing (Collaborative) Program. Prospective fast-track program students should consult with the School of Nursing concerning admission to this course.

CR: the former Biochemistry 2430

LC: 4

PR: Level 3 Chemistry or Chemistry 1010 or Chemistry 1810 or equivalent

## 10.3 Biology

Students may obtain credit for only 6 1000-level credit hours in Biology. Normally, these courses will be Biology 1001-1002, which are prerequisite to all higher courses in Biology, except where noted below.

**1001-1002 Principles of Biology** is an introduction to the science of Biology, including a discussion of the unity, diversity and evolution of living organisms.

LH: 3

PR: Biology 1001 is a prerequisite for Biology 1002

**2010 Biology of Plants** is a study of the structure, function and reproductive Biology of plants, with emphasis on the vascular plants, and on their relationship to environment and human activities.

LC: 3

LH: 3

PR: Biology 1001, Biology 1002, and Chemistry 1001

**2040 Modern Biology and Human Society I** examines various aspects of the human body, and the implications of modern biological research for human beings. Topics include cancer; diet and nutrition and associated diseases; circulatory disease, immunity, human genetics, biorhythms, new diseases, genetic engineering and reproductive engineering.

UL: cannot be used towards the Minor, Major or Honours programs in Biology

**2041 Modern Biology and Human Society II** examines the origins and consequences of the environmental crisis of the 20th century. Topics include the population explosion, energy, material cycles, air and water and land pollution, global food supplies, the fisheries, wildlands, renewable and non-renewable resources, environmental ethics.

UL: cannot be used towards the Minor, Major or Honours programs in Biology

**2122 Biology of Invertebrates** is a study of the invertebrates with emphasis on structure and function, adaptations and life histories. The laboratories will present a broad survey of the major invertebrate groups.

CR: the former Biology 3122

LH: 3

PR: Biology 1001 and Biology 1002

**2210 Biology of Vertebrates** is a study of the vertebrates, with emphasis on structure and function, adaptations and life histories.

CR: the former Biology 3210

LH: 3

PR: Biology 1002

**2250 Principles of Genetics** is an introduction to Mendelian and molecular genetics. Phenotype and genotype, behaviour of alleles in genetic crosses, chromosome theory of inheritance, genetic linkage, molecular Biology of DNA, RNA and protein, molecular basis of mutation, recombinant DNA, applications of genetic biotechnology.

CO: Chemistry 2440 or Chemistry 2400

CR: the former Biology 3250

LH: 3

PR: Chemistry 2440 or Chemistry 2400, Biology 1001 and 1002,

Chemistry 1010, 1011 or 1050/1051

**2600 Principles of Ecology** is a conceptual course introducing the principles of ecology, including theoretical, functional and empirical approaches.

CR: the former Biology 3600

LH: 3

PR: Biology 1002

**3053 Microbiology for Nurses** is a course on the fundamentals of microbiology with an emphasis on medical microbiology. The course will include topics such as: host responses to infections, human diseases caused by microorganisms, and the control and exploitation of microorganisms. Entrance is restricted to Nursing students in the Bachelor of Nursing (Collaborative) program.

LH: 2

UL: cannot be used as one of the required courses for the Minor, Major, or Honours in Biology, nor is it acceptable for any of the joint programs between Biology and other disciplines

## 10.4 Business

Enrolment in Business courses is limited and first priority will be given to students registered in Sir Wilfred Grenfell College's Business Administration programs and Memorial University of Newfoundland's Faculty of Business Administration programs.

### 10.4.1 Core Program Course Descriptions

**1000 Introduction to Business** is an overview of business in the Canadian environment is presented in the course with emphasis on the stakeholders involved and the issues confronting managers. The course examines the functional areas of the enterprise (finance, marketing, production, and human resources management) in addition to providing an overview of the business system. An analysis of actual business situations provides a framework of study.

CR: the former Business 2001

**1101 Principles of Accounting (QRA)** emphasize the concepts and issues of introductory financial accounting as they relate to the Canadian conceptual framework, and will also address the strengths and weaknesses of financial reporting at an introductory level. The student will be introduced to the accounting process and analysis of the balance sheet, income statement, and the statement of changes in financial position.

CR: the former Business 3100 and the former Business 2100

**1201 Principles of Marketing (W)** provides an overview of the marketing function, emphasizing customer satisfaction as the focal point of an organization's activities. The course examines customer characteristics and behaviours as a crucial element in the design of effective marketing strategies and programs. The course also deals in detail with the elements of the marketing mix: products and services; pricing; distribution channels; and promotion.

CR: the former Business 3200, Tourism Studies 2201

PR: Business 1000 or the former Business 2001

**1600 Introduction to Entrepreneurship** is an introductory course designed to give students a broad understanding of the field of entrepreneurship and the role that entrepreneurship plays in society. Topics will include the nature and theories of entrepreneurship, the characteristics and behaviours of entrepreneurs, and the entrepreneurial process in small and large firms. Students will get to think and act in a creative manner, obtain exposure to local entrepreneurs, assess their potential for entrepreneurial careers and develop attitudes and skills that will be useful in any organization. The course is also useful for those who will be dealing with smaller firms in the context of larger organizations and for those who will be working for entrepreneurs.

PR: Business 1000

**2000 Business Communications (W)** focuses on the development of written and oral communication skills critical in the workplace. The common communications media are reviewed with emphasis on electronic and written correspondence. Students learn how to prepare comprehensive analytical reports including proposal writing. Attention is also given to building confidence in delivering oral presentations and preparing appropriate employment packages. A highly interactive design encourages student practice and participation.

**2101 Managerial Accounting (QRA)** provides an overview of the use of financial data for managerial decision making. The student will be introduced to basic budgeting and analysis techniques for both service-oriented and manufacturing businesses.

CR: the former Business 4100

PR: Business 1101

**2301 Organizational Behaviour** focuses on the study of individual and group processes in formal organizations. The student is introduced to the nature of work, the systematic approach to the study of behaviour,

organizational roles and socialization, motivation, leadership, communication, and group dynamics.

CO: the former Business 4300

**2401 Quantitative Methods for Business (QRA)** includes series, probability, linear algebra with applications, graphing (including two-variable linear optimization), and business applications of differential calculus; where applicable, spreadsheets will be used.

PR: Mathematics 1000 or the former Mathematics 1081; a knowledge of the basic operations of spreadsheets is required

**2700 Computing and Information Systems for Business** serves to introduce computer applications in document processing, spreadsheet and database management, and basic web design and technology. Students will also examine the role of information systems and their design and management in supporting business decision making, and ethical issues surrounding technology in the workplace.

CR: Computer Science 1600, Computer Science 2650, Computer Science 2801

LH: 3

UL: can not be used as a Business elective in programs offered by the Faculty of Business Administration

**3401 Operations Management** presents and discusses the fundamental concepts necessary to understand the nature and management of the operations function in organizations. The course will focus on forecasting for operations, inventory management; capacity, aggregate and requirements planning; operations scheduling; quality management and continuous improvement; just-in-time systems; product and service design. Case studies will be used.

CR: the former Business 5400

PR: Statistics 2500 and Business 2401

**4000 Business Law I** is a course dealing with the law relating to certain aspects of business activity; includes introductory material on the nature of law and legal processes, together with a detailed study of certain aspects of the law of contract, examination of the general principles of the law of agency as they affect business operations; introduction to selected topics in company and partnership law.

CR: the former Business 3000

**4320 Human Resource Management** introduces the student to the design, operation and management of P/HRM processes, their evaluation, and their contribution to employee and organization effectiveness. The principal processes considered are staffing, development, employment relations, and compensation. Consideration of the influence of relevant organizational and external conditions on P/HRM is included. The course views the management of human resources as the joint responsibility of line and P/HRM managers.

PR: Business 2301

**4500 Financial Management I (QRA)** is designed to introduce the student to the role of financial management in business, financial analysis techniques, working capital management, and long-term and short-term financing.

CR: the former Business 4110

PR: Business 1101, Statistics 2500, and Economics 2010

**5301 Organizational Theory** focuses on the organization, its environment, and its subsystems. From providing a basic appreciation of the role and practice of research in organizations, study extends to measures of organizational effectiveness, determinants of structure and design, power and politics, intergroup conflicts and conflict resolution, and organizational development and change.

CR: the former Business 5300

PR: Business 2301

**7000 Organizational Strategy (W)** emphasizes the concepts of business and organizational strategy, and the formulation and implementation of strategy. These will be discussed from a senior management perspective and as the result of senior management decision-making. The student is expected to develop a facility in the strategic analysis of business and other types of organizations, and in strategy formulation and implementation. Theoretical concepts will be discussed and will be explored through case analysis.

PR: Business 2101, 2201, 3320, 3401, 3700, 4000, 4320, 4500, and 5301 or permission of the Chair of Business at SWGC

**7010 Business and Society (W)** examines the inter-relationships among business, government, society and the environment. Topics include: the social-economic business system, business ideologies, social responsibilities of business, business ethics, stakeholder and issues management, and selected current issues in business.

PR: Term 7 standing or permission of the Chair of Business at SWGC

**7025 Management Decision Making (W)** is a case-based course that takes a critical look at the decision-making process and examines the complexities of the business environment that affect both the effectiveness and efficiency of decision making, including environmental uncertainty, and competing stakeholder interests. Through case analysis, students will have an

opportunity to evaluate and practice both qualitative and quantitative managerial decision making skills as they apply to areas such as marketing, human resources, production and operations, and business planning. Topics to be covered may include: decision theory, evaluating risk and uncertainty, game theory, and creative problem solving.

CR: Business 4401, the former Business 3400

PR: Business 2401; restricted to Bachelor of Business Administration students who have completed at least 75 credit hours

UL: can not be used to satisfy the requirement of Business 4401 in any program

## 10.4.2 Business Electives

All existing business courses at Memorial University of Newfoundland that are not included in the SWGC B.B.A. core will be considered business electives. When selecting electives, students must ensure that they satisfy requirements for one of the three concentrations under The Curriculum, 4..

**2201 Marketing Applications** applies the principles learned in Business 1201 in a variety of contexts and organizations. Students gain an appreciation for the application of marketing principles in specialist application areas such as: marketing for services, not-for-profit and public sector organizations, and in an international context. In addition, an overview and appraisal of the marketing function and of marketing performance is addressed through the marketing planning process.

CR: the former Business 3200

PR: Business 1201

**2808 Business Ethics (W)** examines the implications of business conduct using ethics as a framework, and will provide the tools to anticipate, critically analyse, appropriately respond to, and provide personal and professional leadership regarding critical ethical issues that will arise both during professional and personal careers.

**3101 Accounting Applications** continues the study of accounting on a more in-depth and detailed basis. Building on the theory and concepts of Business 1101 and 2101, Business 3101 will emphasize the procedures and techniques required for the preparation and presentation of accounting information and general purposes financial statements.

CR: the former Business 3100, or the former Business 2100

PR: Business 1101

**3320 Introduction to Labour Relations** provides an introduction to the field of industrial and labour relations in Canada, with primary emphasis on the labour-management relationship. Students will be introduced to the basic elements of an industrial relations system, including the participants, their roles and relationships, the social, economic, legal and political environment in which the participants interact, and the process and outcomes of collective bargaining. Students may be exposed to various role playing exercises that are applicable to a career in industrial and labour relations.

**3700 Information Systems** provides an introduction to information systems to support operations and management. Topics include: an overview of information systems technology; data management; systems development approaches; and managing the information systems function.

CR: the former Business 3701, the former Business 6300

PR: Computer Science 2804 (or equivalent computer literacy course) and Term 3 standing

**4010 Government Policy and Economic Development** examines the integration of Government policy, scientific understanding, local knowledge and social and economic principles for sustainable economic development. Students will explore experiences with various institutions, regulations and policy instruments in dealing with economic development, both theoretically and in a number of case studies.

PR: Business 1000, Economics 2010 and Economics 2020

**4020 Research and Economic Analysis** will examine the interpretation and analysis of research tools and methods commonly utilized in assessing the impact of economic development in the context of local government, business, social and cultural, and institutional environments.

PR: Business 2401, Business 4500, Economics 2010, and Economics 2020

**4401 Management Science** is an introduction to the analysis, structuring, and model formulation of quantitative business problems, and to the methods for solving these models. Topics include the management science paradigm, payoff matrices, sensitivity analysis of solutions, decision trees, imperfect information, utility theory, Markov chains, formulation of simple linear optimization models, and other topics at the discretion of the instructor; where applicable, available software will be used.

CR: the former Business 3400

PR: Business 2401

**5000 Business Law II** is designed to show the student how principles of Law are applied to four areas of Business. The areas dealt with in this course are accounting/finance, marketing, personnel and production.

PR: Business 4000

**5010 International Development** addresses present critical issues in international development such as sources of national and international economic development, causes of poverty, the role of international trade and financial aid, foreign debt problems, the role of the government and its policies, and globalization. Through lectures, class discussions and project writing it aims to develop the students' knowledge of different theories of development and their ability to identify and analyse the major economic problems, as well as to think critically and to find solutions.

PR: Economics 2010, Economics 2020, Mathematics 1000, and Statistics 2500

**5160 Cost Accounting** deals with the use of accounting data for decision making. Topics covered include: cost estimation, pricing, joint costs, advanced variance analysis, total quality management, just-in-time, decentralization, transfer pricing, performance evaluations, activity based accounting, and backflush costing.

CR: the former Business

PR: either the former Business 3100 and 4100, or Business 2101

**5200 Consumer Behaviour** deals with concepts related to factors which influence the purchase and consumption behaviour of individuals including culture, social class, reference groups, perception, learning, motivation, personality and lifestyle. The unique aspects of groups and organizational buyers will also be examined.

PR: Business 2201 or the former Business 3200

**5401 Linear Optimization and Extensions I: Applications** is an extension of Business 4401 to more complex linear optimization models, and models which are extensions of this of the ideas of formulation. Emphasis will be on formulation and computer-based sensitivity analysis, applications to other fields of business, cases in linear optimization and related fields.

CR: the former Business 4400

PR: Business 4401

**5402 Linear Optimization and Extensions II: Algorithms** include the simplex and revised simplex algorithms, sensitivity analysis and duality, goal optimization, advanced formulation of 0/1 models, branch and bound algorithm, network models: assignment, transportation, transshipment, shortest path, critical path, minimal spanning tree, and maximal flow.

CR: the former Business 4400

PR: Business 4401

**5500 Financial Management II** (formerly Business 5140 and Business 7140) is an extension of Business 4500. Capital investment decision-making using discounted cash flow methodology; investments under certainty; financial structure and leverage; analysis of money and capital markets; further examination of long-term external financing.

CR: the former 5140, the former 7140

PR: either the former Business 4110 or Business 4500

**5530 Public Finance** recognizes the large role played by government in our society. Sources and uses of government funds at the federal, provincial and local levels will be covered. Intergovernmental fiscal problems will be examined with special emphasis on various incentive programs available to business from the three levels of government.

CR: the former Business 5100

PR: Economics 2010 and Economics 2020

**5600 New Venture Creation** (formerly Business 5030 and Business 7030) covers the business creation process from the idea conception stage to the launch stage. Students learn how to search for, screen and evaluate opportunities, and to plan and assemble the required resources, including the preparation of an actual business plan. Alternatives to new venture creation, such as purchasing an existing business and purchasing a franchise, are also explored. Extensive group work is required.

CR: the former Business 5030, the former Business 7030

PR: Business 1101, Business 1600, and Business 2201

**5700 Information Systems Analysis and Design** provides students with the skills to identify business problems which may be solved using information technology, determine requirements for information systems (IS) solutions, and develop detailed designs which form the basis for implementing systems. Topics may include: role of the user in systems development, systems development life cycle, requirements analysis and conceptual modelling, structured analysis and design, and trends in systems development methodologies. The importance of CASE tools in modern systems development will be emphasized through hands-on exercises.

PR: Business 3700

**5701 Information Systems Development** focuses on issues related to the implementation of information systems. Particular attention will be paid to the requirements of transaction processing and management reporting systems. Topics may include: transition from design to implementation, software construction, testing, documentation, training, conversion, and evaluation.

PR: Business 3700 and Computer Science 2710

**6000-6029 (Excluding 6001, 6008, 6009, 6010 and 6022) Special Topics** has a range of special topics.

**6010 Strategic Management of Technology and Innovation** is designed to explore the strategic management of technology and innovation for improving competitiveness and for business development. This will include market-strategy-technology connections, and technical innovation/new product development processes. Technology and technical innovation are viewed as fundamental to strategic competitiveness and business development as important elements of the management of strategic change in the business firm. In approaching technical innovation as strategic implementation, business environmental, organizational capability, human resources and management factors will be discussed.

PR: Business 2101, 2201, 3320, 3401, 3700, 4320, 4500, and 5301

**6040 International Business Law** develops the skills a business student must have in understanding the laws and regulations that exist and relate to international business decision making. The course will equip students with a knowledge and understanding of laws and regulations that currently prevail in international business operations.

PR: Business 4000

**6100 Intermediate Accounting I** continues the study of financial accounting by focusing on specific topics such as current assets, long-term investments, capital assets, intangibles, current liabilities, and long-term liabilities. Emerging issues in accounting will also be covered.

PR: either the former Business 3100 or business 3101

**6110 Intermediate Accounting II** is designed to integrate the principles, concepts and skills acquired in previous accounting courses and to enhance the student's analytical and decision-making capabilities. The course will focus on specific topics related to deferred taxes, pension liabilities, shareholders' equity, and financial statement presentation. The skills acquired in earlier courses will be integrated for purposes of interpreting and analysing financial information.

PR: either the former Business 3100 or Business 3101

**6120 Taxation I** is a determination of income tax liability of individuals and corporations, and a survey of sales taxes.

PR: Business 1101 or the former 3100, and Business 4000

**6130 Auditing** introduces the student to the practice of auditing and to stress the auditor's decision-making process when determining the nature and amount of evidence the auditor should accumulate. Specific topics to be covered include the auditor's legal liability, materiality, internal control, transaction cycles, and audit of information processed through electronic data processing systems.

PR: either Business 6100 or Business 6110

**6200 Marketing Research** is designed to acquaint the student with the use of marketing research as an aid to management. This is a comprehensive survey of the scope and methods of marketing research.

PR: Business 2201 or the former 3200, and Statistics 2501 or equivalent

**6210 Advertising Management** provide a theoretical background on the nature, role and principles of advertising; and to develop analytical and decision-making skills in planning, executing, evaluating and controlling advertising campaigns. Areas to be examined include: social, ethical, legal, and economic considerations; market and customer analysis; advertising objectives; advertising budgets; creative strategy; media strategy; sales promotion and advertising; campaign management and retail advertising.

PR: Business 2201 or the former Business 3200

**6220 Professional Selling and Sales Management** focuses on professional selling skills and the selling process, as it is important to understand them to manage a sales force effectively. The sales management component will focus on sales forecasting, planning and budgeting; sales force organization; recruiting, selecting, training, motivating, and compensating salespeople; and evaluating and controlling the sales force and individual salespeople.

PR: Business 2201 or the former Business 3200

**6230 Services Marketing** is intended to examine the marketing of services and the role of services in supporting the marketing of tangible products. The distinction between the marketing of tangibles and intangibles will be stressed. The course will identify and examine the distinct issues which are encountered in the marketing of services and will explore appropriate strategies for implementing services marketing programs, primarily in services organizations, including health care, transportation, telecommunications, education, etc. Specifically, the course will examine in detail the role of people in delivering services, the importance of service quality as a strategic differentiating tool, and the importance of collaboration between marketing and human resources management in the delivery of services.

PR: Business 2201 or the former Business 3200

**6301 New Directions in Organizational Behaviour** provides an opportunity for students to explore and to develop their interests in topics in a dynamic field. Topics will be selected according to current emphases in the organizational behaviour literature.

PR: Business 2301 and Business 5301

**6310 Advanced Personnel and Human Resource Management**

reinforces the applied aspects of theory covered in Business 4320 by examining approaches to (a) the avoidance of lawsuits, arbitration and performance-related problems which could result from the lack of both due process and effective policies and procedures, and (b) processes for the management of contemporary issues in Human Resource Management. Topics include problem solving in the areas of promotion policy, performance appraisal, test validation, training and development, compensation, job evaluation and pay equity, wrongful dismissal, occupational health and safety, absenteeism, substance abuse and AIDS. Students will examine cases and other material involving worker-management conflict in the above areas and seek to relate these to the legal, ethical and behavioural foundations of Human Resource Management in both unionized and non-unionized settings.

PR: Business 4320

**6311 International Human Resources Management** develops the skills a business student must have in understanding the processes and practices of international human resource management (IHRM) for a successful managerial career. The course will equip students with a solid knowledge and understanding of human resource functions and practices that currently prevail in global/international business operations.

PR: Business 4320

**6312 Employee Recruitment and Selection** is a critical factor in creating high performance work systems. This course examines the role of selection in HRM, legal issues, measurement, selection criteria, job competencies, testing, and interviewing, and making the employment decision.

CR: the former Business 6022

PR: Business 4320

**6320 Advanced Labour Relations** provides advanced level treatment of the field of industrial and labour relations in Canada, with primary emphasis on the labour-management relationship. Emphasis is placed on understanding recent problems/issues in industrial and labour relations and the range of options available for resolving these same problems. Topics examined may include: industrial relations theory; labour law reform; union growth and structure; management strategy; the role of third parties; workplace innovations; alternative dispute resolution mechanisms; union impact; public sector labour relations; comparative industrial relations; etc. Students may be exposed to various role playing exercises that are applicable to a career in industrial and labour relations.

PR: Business 3320

**6500 Family Business, Franchising, and Buying an Enterprise (W)** examines various forms of business ventures and the recognition and treatment of associated risks. Emphasis is on the critical importance of the entrepreneur, the demands and the risks faced as well as the rewards and satisfactions to be expected from family-run business, franchising, and enterprise takeover.

PR: Business 1101, Business 1600, and Business 2201

**6510 Investments** is a study of investment securities, risks, markets and mechanics; an appraisal of the economy, the industry and the firm; and portfolio management for personal and institutional investments.

CR: the former Business 6140

PR: either the former Business 4110 or Business 4500

**6550 International Finance** examines the additional risks and profitable opportunities that arise for the firm when it extends its operations into international markets. Specific topics will include the determination of exchange rates, the international monetary system, balance of payments, the foreign exchange market, international money and capital markets, the parity conditions, accounting exposure, economic exposure, transactions exposure, political risk, and global financing. Knowledge of these topic areas will give further understanding with respect to operating within the constraints of the international marketplace.

CR: the former Business 6008, the former 6500

PR: either Business 4500 or the former Business 4110

**6600 Managing Growth in the Small Firm** is designed to introduce the student to the challenges and opportunities of managing small growing businesses. The focus will be on functional issues and solutions within the context of growth oriented small firms. In addition, the course will explore strategic planning in the owner-managed business and strategies for growth and expansion. Extensive use will be made of cases and examples from Atlantic Canada.

CR: the former Business 6030

PR: Business 5600

**6610 Small Enterprise and Regional Development** (formerly Business 6009 and Business 7031) explores the potential and constraints on efforts to foster small enterprise formation and expansion as a means to promote regional economic development. It critically examines government initiatives to promote small business as the panacea for depressed regional economies, and reviews changes in the global economy and the organization of production which may enhance small business competitiveness. Both Canadian and international cases are studied, with theoretical and empirical findings related to the Newfoundland context.

CR: the former Business 6009 and the former Business 7031

**6700 Data Management** is based on the premise that data is a valuable resource which needs to be managed effectively to provide accurate, complete, timely, relevant, and accessible information to support decision making. Topics may include: enterprise data modelling, logical database design, database management systems, query languages, transaction management and concurrent access, and security.

PR: Business 3700 or the former Business 6300

**6701 Information Technology Management** examines issues of managing information systems and technology. Topics may include: success and failure in IS implementation, IS planning, economics of IS, telecommunications and network management, and legal and ethical issues.

PR: Business 3700 or the former Business 6300

**6800 Current Topics in Rural and Economic Development** focuses on case studies of rewards and challenges inherent in rural economic development. Potential areas of consideration would include economic, environmental, political, and socio-cultural impacts of economic development.

PR: successful completion of at least 60 credit hours

**7050 Seminar in Business Administration** includes current topics in contemporary business thinking will be examined and evaluated in a seminar format. Seminars will be presented by faculty, students, and guest speakers.

PR: restricted to B.B.A. students who have completed at least 90 credit hours, or students who have permission of the Chair of Business

**7110 Accounting Theory** deals with the theoretical issues of specific topics such as the accounting standard setting process, the Canadian conceptual framework, assets, liabilities, revenues, expenses, not-for-profit organizations, related party transactions, and financial statement presentation and disclosure. Considerable emphasis will be given to emerging issues.

PR: Business 6100, Business 6110, Business 6120, and Business 6130

**7120 Advanced Financial Accounting** covers specific topics such as long-term investments, consolidated financial statements, joint ventures, segmented financial information, foreign exchange transactions, and fund accounting.

PR: Business 6100 and Business 6110

**7150 Taxation II** is designed to provide a detailed and comprehensive analysis of income taxation as well as sales taxation and customs duties and excise taxes. Information relating to the use of trusts, partnerships, and joint ventures will be included, as well as the use of various tax shelters and international tax implications in business planning. The concentration will be on how tax planning for both individuals and corporations can be a significant element in the regular decision-making process, especially for the private corporation.

PR: Business 6120

**7160 Advanced Topics in Managerial Accounting** introduces the student to an in-depth study of advanced qualitative and quantitative methodology available to the managerial accountant. The application of mathematical models and behavioural theories to realistic challenges faced by various fiscal entities will be stressed. Class instruction will include the use of cases and rely heavily on a multidisciplinary approach towards solving the unstructured problem.

PR: Business 5160

**7210 Retailing Management** provides an integrative examination of the activities involved in marketing goods and services directly to the ultimate consumer. Specifically, the following areas will be examined within a managerial framework: the evolution of retailing; retailing within the marketing channel; market analysis and planning; shopping behaviour; image and retail advertising; trading area and site analysis; store layout; shelf space utilization; merchandising; and the future prospects for retailing.

PR: Business 2201 or the former Business 3200

**7230 Marketing Management** is designed to integrate the principles, concepts and skills acquired in previous marketing courses and to enhance the student's analytical and decision-making capabilities with regard to developing marketing strategies. The course will focus on: market analysis, marketing planning, the strategic decisions to be made within the framework of the marketing mix (product, price, promotion, and distribution); and the control systems related to the marketing program. The use of market research and knowledge from other functional areas of the organization (accounting, finance, economics, etc.) will be considered throughout the course.

PR: Business 5200 and Business 6200

**7240 International Marketing** provides an understanding of the effects that the international dimension has upon the strategies and management of the marketing efforts of the firm. In particular, the student is introduced to the analysis techniques of the various environments that constitute a country analysis. Entry strategies are discussed with an emphasis upon the export process. Finally, the standardization/adaptation question is discussed in the context of each element of the marketing mix.

CR: the former Business 6001

PR: Business 2201 or the former Business 3200

**7250 Business and Industrial Marketing** presents a comprehensive view of business markets, including industrial, institutional, and government markets. There is a balanced focus on strategy development and implementation. Particular attention is given to organizational buying behaviour, relationship management, global competitiveness, and the marketing of new high technology products and services.

CR: the former Business 7220

PR: Business 2201 or the former Business 3200

**7302 International Business** is designed to introduce students to the issues of international business: these are the processes of cultural confrontation and compromise; the problems of competitive sovereignty involving multinational corporations and the governments of host societies; the organization, structure, operation and control of diverse international businesses; and, finally, the role of multinational enterprise as a catalyst in economic development and resource employment, in particular, the North-South context. The relevance of international business as an area of study to the Canadian economy is discussed. The course is both conceptual and empirical in content.

**7310 Seminar in Human Resource Management** seeks to integrate policies, procedures and methods covered in B6310 with other functional areas which impact upon the management of Human Resource Systems. Stakeholder assumptions about: work-force characteristics; management philosophy; business strategy; labour markets; laws and society; task technology and unions will be examined via a combination of cases, readings, research, peer discussion and dialogue with guest speakers.

PR: Business 6310

**7320 Collective Agreement Administration and Arbitration** provides advanced coverage of the substantive and procedural rights of employers, unions and employees under collective agreements, and the means by which disputes over these rights are resolved through the grievance arbitration process. Topics examined include: the legal framework and place of grievance arbitration in the industrial relations system; the nature and scope of the arbitrator's role; preparation for and conduct of arbitration hearings; arbitral jurisprudence; alternative dispute resolution processes; and the development of a sound labour relations climate. Students will undertake extensive reviews of labour arbitration cases and will examine the impact of jurisprudence on the philosophy and practice of management in the private and public sectors. Students may be exposed to various role playing exercises that are applicable to a career in industrial and labour relations.

PR: Business 6320

**7321 Dispute Settlement in Labour Relations** provides advanced level study of conflict in industrial relations, its determinants, the various institutional procedures used to deal with it, and the effectiveness of these same procedures. Topics examined include: theories of industrial conflict; the legal framework; union and employer strategies; interest dispute resolution; the right to strike and alternatives to same; the role and effectiveness of alternative forms of voluntary and compulsory third party assistance; etc. Students may be exposed to various role playing exercises that are applicable to a career in industrial and labour relations.

PR: Business 6320

**7322 Labour Law** provides an overview of laws regulating the employment relationship in Canada, including the common law, general employment and collective bargaining laws, and the Charter of Rights and Freedoms. Emphasis is placed on the law of collective bargaining in the private sector, including the acquisition and termination of bargaining rights, unfair labour practices, the duty to bargain, industrial conflict and the administration of the collective agreement.

PR: Business 6320

**7500 Advanced Finance** examines advanced developments in finance. Several topics will be selected, researched and discussed. These topics shall vary as financial practices change.

CR: the former Business 6140

PR: Business 5500 or the former Business 5140, and Business 6510 or the former Business 6140

**7510 Options and Futures** is an extension of Business 6510 Investments which will introduce the student to the workings of the options and futures markets. Specific topics will include the institutional structure of the markets, option pricing, strategies such as straddles and spreads, hedging, spot/forward/futures markets, speculation, risk transference and market efficiency considerations.

CO: the former Business 7170

PR: Business 6510 or the former Business 6140

**7600 Current Topics in Entrepreneurship** endeavours to address recent research findings in various aspects of entrepreneurship. Students will have the opportunity to pursue issues in entrepreneurship development covering a wide range of topics using publications, journals and conference proceedings.

CR: the former Business 7032

PR: Business 5600

**7610 Regulatory and Taxation Issues for Small Business** is designed to provide students with a general knowledge base of the various tax and other regulatory issues that should be considered in starting a business. The role that tax plays in decision making will be examined as well as the types of corporate funding to establish a new business through government grants, conventional loans and tax credits as provided under the Income Tax Act. Alternative corporate structures will be examined as well as aspects of employee compensation and business valuations. Practical aspects of starting your own business, such as registration requirements, will also be examined.

PR: Business 1101 or the former Business 3100

**7700 Strategic Information Systems** examines the growing importance of information systems in helping organizations to achieve and sustain a competitive advantage. Topics covered may include: frameworks for identifying strategic applications, the role of information systems in redesigning business processes, interorganizational systems, identifying and managing risks associated with SIS, supporting globalization, and strategic implications of emerging technologies.

PR: Business 6701

**7701 Current Topics in Information Systems** examines new developments and trends in information systems. The scope of the course includes: implications of emerging hardware and software technologies, emerging systems applications, and the state-of-the-art in IS management practice. Specific topics will change each year. Readings assigned from professional and academic journals will form the basis of class discussion.

PR: Business 5700, Business 6700, and Business 6701

## 10.5 Chemistry

Attendance for all Chemistry Laboratory sessions is mandatory. Failure to attend may result in a failing grade or deregistration from the course.

Students are strongly advised to complete the Chemistry sequence appropriate to their stream (Chemistry 1200/1001 or 1010/1011 or 1011/1031 or 1050/1051) on the campus they first attend prior to transfer to another campus. Consult the credit restrictions listed under the St. John's Campus Department of Chemistry section of the University Calendar.

**1001 General Chemistry II** is rates of reaction, chemical equilibria, thermodynamics, and introduction to organic chemistry.

AR: attendance is required

CR: credit may be obtained for only one of the following pairs of courses:  
Chemistry 1000 and Chemistry 1001; Chemistry 1200 and Chemistry 1001

LC: 4 including tutorials

LH: 3

PR: Chemistry 1200 or equivalent

**1200 General Chemistry I** is atomic structure and bonding, stoichiometry, reactions in aqueous solutions, gases, energetics of chemical reactions, the periodic table, chemical bonding and molecular geometry, intermolecular forces. This introductory course is intended for students who have a knowledge of high school chemistry. This course is offered at Sir Wilfred Grenfell College only.

AR: attendance is required

CO: credit may be obtained for only one of the following pairs of courses:  
Chemistry 1000 and Chemistry 1001; Chemistry 1200 and Chemistry 1001

LC: 4

LH: 3

**1810 Elements of Chemistry** is matter, scientific measurement, atomic theory, the periodic table, chemical compounds and elementary bonding theory, the mole, chemical reactions, the chemistry of selected elements, gases, solutions, stoichiometry. This course is specifically intended for those who have no background in chemistry. This course is offered at Sir Wilfred Grenfell College only.

AR: attendance is required

CR: the former Chemistry 1800

LC: 4

LH: 3

UL: may not be used as one of the Chemistry courses required for a B.Sc. Degree with a Specialization in Environmental Science at Sir Wilfred Grenfell College, nor for a Major or Honours in Chemistry, nor towards fulfillment of the 78 credit hours in science courses required for the B.Sc. degree on the St. John's campus.

**1900 Chemistry in Everyday Life** is a course that shows the relevance of chemistry in our daily lives. Following an introduction to atomic structure and chemical bonding, the course will focus on some of the following topics: organic chemistry and fuels; redox processes and batteries; acids, bases, and household cleaners; phases and detergents; the chemical components of foods; polymers and plastics; toiletries, and pharmaceuticals.

UL: may not be used as one of the required courses towards a Minor,

Major, or Honours in any science degree program

**2210 Introductory Inorganic Chemistry** is structural chemistry of the solid state. Introduction to molecular orbital and crystal field theories. Chemistry of the s, p, and d block elements.

AR: attendance is required

LH: 3

PR: Chemistry 1001 (or Chemistry 1031 or Chemistry 1051), Mathematics 1000

**2300 Introductory Physical Chemistry** is introductory chemical thermodynamics and equilibria. Complementary laboratory work with an emphasis on quantitative analysis.

AR: attendance is required

CR: CHEM 2301

LH: 3

PR: Chemistry 1001 (or Chemistry 1031 or Chemistry 1051), Mathematics 1001, Physics 1051 (or Physics 1021)

**2400 Introductory Organic Chemistry I (F)** is bonding involving carbon; conformations and stereochemistry; introduction to functional groups and nomenclature; properties, syntheses and re-actions of hydrocarbons, alkyl halides and alcohols.

AR: attendance is required

CR: the former Chemistry 2420, Chemistry 2440, the former Chemistry 240A/B

LH: 3

PR: Chemistry 1051 or Chemistry 1031; or Chemistry 1010 and Chemistry 1011 with a grade of at least 80% in each; or Chemistry 1011 with a grade of at least 85%; or Chemistry 1001 with a grade of at least 65%

**2401 Introductory Organic Chemistry II (W)** is an introduction to the interpretation of infrared, H and C-13 NMR spectroscopy; properties, syntheses and reactions of ethers, simple aromatic compounds, ketones, aldehydes, amines, carboxylic acids and their derivatives; aldol and related reactions.

AR: attendance is required

CR: the former Chemistry 2420, Chemistry 2440, the former Chemistry 240A/B

LH: 3

PR: Chemistry 2400

**2440 Organic Chemistry for Biologists** is an introduction to the principles of organic chemistry with an emphasis on material relevant to biological molecules. The laboratory will introduce techniques and illustrate concepts covered in the course.

AR: attendance is required

CR: Chemistry 2400, the former Chemistry 2420, the former Chemistry 240A/B.

LH: 3

PR: Chemistry 1011 (or Chemistry 1001 or Chemistry 1051)

UL: is designed primarily for Biology Majors and may not be used for credit by Chemistry or Biochemistry Majors and may not serve as a prerequisite for any other Chemistry course.

## 10.6 Classics

**1120 and 1121 Elementary Latin** is an introduction to the grammar and syntax of Latin, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.

CR: the former Classics 120A and 120B

PR: Classics 1120 is the prerequisite for Classics 1121

**1130 and 1131 Elementary Ancient Greek** is an introduction to the grammar and syntax of ancient Greek, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.

CR: the former Classics 130A and 130B

PR: Classics 1130 is the prerequisite for Classics 1131

**1100 Introduction to Greek Civilization** is a general illustrated survey of the origins and evolution of Ancient Greek Civilization. The course introduces the student to Greek social and political institutions, religion and myth, and achievements in art, philosophy, science and literature, as well as the influence of Ancient Greece on the modern world.

CR: the former Classics 1000, the former Classics 2000

**1200 Introduction to Roman Civilization** is a general illustrated survey of the origins and evolution of Ancient Rome. The course introduces the student to social, political, and legal institutions, the growth of the Roman Empire, Roman art, literature, and religions, as well as Rome's pervasive influence in the modern world.

CR: the former Classics 1000, the former Classics 1101, the former Classics 2001

**2010 Greek Art and Architecture** is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Greece.

CR: the former Classics 3100, the former Classics 3101

**2015 Roman Art and Architecture** is an introduction, through illustrated

lectures, to the study of the art and architecture of Ancient Rome.  
CR: the former Classics 3100, the former Classics 3102.

**2020 History of the Hellenistic World** is an illustrated survey of the political, social, intellectual and artistic developments in the Mediterranean world and the Near East from the death of Alexander the Great in 323 BC until the incorporation of the Kingdom of Egypt in the Roman Empire in 30 BC. Particular attention is given to the fusion of eastern and western thought-patterns and ideologies under the influence of Greek culture.

**2035 History of Classical Greece** is a survey of Greek History from the Bronze Age to the death of Alexander the Great, with special reference to the social and political institutions of the fifth century, B.C.  
CR: the former Classics/History 3910, the former Classics/History 2030

**2040 History of Rome** is a survey of Roman History from the early monarchy to the reign of Constantine with special reference to society and politics in the late Republic and early Empire.  
CR: the former Classics/History 3920

**2055 Women in Greece and Rome** is an examination of the role of women in ancient Greece and Rome from the perspectives of religion, literature, art, society, and politics. Critical assessments of the scholarship and methodologies (including feminist methodologies) relevant to this topic will be included.

**2701 History of Ancient Philosophy** is a survey of the origin and development of Western philosophy among the Greeks and Romans.  
CR: Philosophy 2701

**2800 Classical Drama I** - inactive course.

**2801 Classical Drama II** - inactive course.

**3010 Greek Religion** is a study of the role of religion in the private and public life of the Greek world.  
CR: former Classics/Religious Studies 3121, Religious Studies 3010

**3020 Roman Religion** is study of the role of religion in the private and public life of the Roman world.  
CR: the former Classics/Religious Studies 3121, Religious Studies 3020

**3090 Alexander and the Macedonians** investigates the impact of the conquests of Alexander the Great and his Macedonian Successors on the political, social, cultural, intellectual, and religious world of the Mediterranean and Near East between Alexander's accession in 336 and the battle of Ipsus in 301, when his vast empire was carved into Hellenistic kingdoms.  
CR: History 3090

**3110 Greek Literature in Translation** - inactive course.

**3111 Latin Literature in Translation** - inactive course.

**3130 Greek and Roman Mythology** is a comparative study of the major myths of Greece and Rome as embodied in the literary and artistic remains of the ancient world with reference to their origins and their influence on later art and literature.  
CR: Folklore 3130

**3415 Epic Poetry in Greece and Rome** offers a detailed and in-depth study of the epic poetry of ancient Greece and Rome. The course will examine the poems of Homer, Apollonius of Rhodes and Virgil in English translation. Instructors may include additional poems. Topics to be discussed include the development of epic poetry, its literary traditions and its role in Greek and Roman society.  
CR: the former Classics 2060

**4000 Seminar in Greek History and Society** will have the topics to be studied announced.

**4010 Seminar in Roman History and Society** will have the topics to be studied announced.

**4020 Seminar in Greek Literature and Culture** will have the topics to be studied announced.

**4030 Seminar in Roman Literature and Culture** will have the topics to be studied announced.

## 10.7 Computer Science

**1600 Basic Computing and Information Technology (F and W)** offers an overview of computers and information technology. It provides students with the knowledge necessary to answer questions, such as: What is a computer system? How does it work? How is it used? This is done through the use of popular spreadsheet, word processing and database software packages and the Internet. Social issues and implications will also be included.  
CR: Computer Science 2650, Computer Science 2801

LH: 3

PR: Level III Advanced Mathematics or Mathematics 1090, which can be taken concurrently

**1700 Introduction to Computer Science (F and W)** lays the foundation for the art and the science of computing. The course contains fundamental and topical issues in computers, languages, programming and applications. This course is designed for potential Computer Science majors without a background in programming, but is also available for non majors.

CO: Mathematics 1090 (or equivalent), or Mathematics 1000

LH: 3

PR: Mathematics 1090 (or equivalent), or Mathematics 1000

## 10.8 Earth Sciences

**1000 Earth Systems** is a survey of the structure, function and interrelations of Earth's lithosphere, hydrosphere, atmosphere and biosphere. Topics include an exploration of the physical and chemical properties of planetary materials, forces driving and sustaining Earth systems, and biological modifiers (including humankind) on the Earth today.

LH: 3

**1001 Evolution of Earth Systems** - inactive course.

**1002 Concepts and Methods in Earth Sciences** is an introduction to a broad range of concepts concerning the development of the geological record and the Earth; practical methods for collection of field based data; topics in map interpretation and geometric analysis, stratigraphy, paleontology, structure and petrology. The course is presented with an emphasis on the development of practical skills needed to pursue a career in Earth Sciences.

LH: 3

PR: Earth Sciences 1000

**2150 The Solar System** describes the basic astronomy of the Solar System, tracing the search to understand motion of the Sun, Moon and planets in the sky; modern observations of planets, moons, comets, asteroids and meteorites and what they tell us about the origin and evolution of the Solar System. This course is designed for students taking Earth Sciences as an elective.

UL: not acceptable as one of the required courses for the Minor, Major or Honours programs in Earth Sciences

**3811 Paleontology (W)** is an outline of the major changes in life forms from Archaean times through the Phanerozoic to the present day, including details of invertebrate and vertebrate faunas and major floral groups; mechanisms and effects of mega- and microevolution in the fossil record; Biology and classification of organisms and summaries of their geological significance in biostratigraphy, paleoecology and rock-building; relationships between major cycles of evolution and extinction to global processes. This course has a laboratory component.

CR: Biology 3811, the former Earth Sciences 3801, the former Biology 3800

LH: 3

PR: either Biology 2120 (or Biology 1001 and Biology 1002) and Earth Sciences 1002; or Biology 2122 and Biology 2210

## 10.9 Economics

**2010 Introduction to Microeconomics I** examines scarcity and opportunity cost. Demand and supply. Elasticity. Household demand: marginal utility. Household demand: indifference curves. Production functions. Short-run and long-run cost functions. Perfect competition in the short run and the long run. Monopoly.

**2020 Introduction to Macroeconomics** covers national income accounting, aggregate income analysis, money, banking and foreign trade.

**2550 Economic Statistics and Data Analysis** is an analysis of economic statistics and the use of economic data. A course designed to introduce students to the task of economic data collection, description and analysis. Emphasis will be on interpretation and analysis of data using computer software programs.

PR: Economics 2010, Economics 2020, and Statistics 2500 or equivalent.

**3000 Intermediate Micro Theory I** is the basic microeconomic theory course; consumer demand, indifference curve analysis, theory of production and cost, factor substitution, and the theory of the firm under perfect competition and monopoly.

PR: Economics 2010 and Economics 2020

**3001 Intermediate Micro Theory II** is a continuation of basic microeconomic theory; the theory of imperfect competition, theory of factor pricing under various market structures, general equilibrium and welfare economics.

PR: Economics 3000

**3010 Intermediate Macro Theory I** is aggregate analysis including consumer, investment, government and international sectors, the role of money, determinants of aggregate supply, and the effects of autonomous behavioural changes and fiscal and monetary policies on unemployment, price levels and the balance of payments.

PR: Economics 2010 and Economics 2020

**3011 Intermediate Macro Theory II** is a consideration of modern theories of macroeconomics, dynamics, empirical evidence and simulation of the national economy. Emphasis on the availability and effectiveness of government policy instruments.  
PR: Economics 3010

**3030 International Economics: Issues and Problems in a Canadian Context** is an intermediate course in international economics. The course covers the theory of comparative advantage, the structure and policy issues of the Canadian balance of payments, the foreign exchange market and the institutional aspects of international commerce.  
PR: Economics 2010 and Economics 2020

**3050 Economic Forecasting: Methods and Applications** aims to present the statistical techniques that are useful for preparing individual business forecasts and long-term business plans by focusing on the application of techniques used by managers in the decision-making process. It involves exploring data patterns, data mining, linear regression, time series, and managing forecasting processes. Knowledge of the basic operations of spreadsheets is recommended.  
PR: Economics 2550

**3080 Natural Resource and Environmental Economics** is application of economic analysis to renewable and nonrenewable natural resource industries such as the fishery, forestry, and mining. Emphasis is given to the criteria for optimal resource use under various market structures and their implications for public policy. Issues of environmental resource management and pollution control will also be covered.  
PR: Economics 2010 and Economics 2020

**3085 Issues in Ecological Economics** aims to explore the dynamic interaction between the economic system and the ecological system that sustains it by using trans-disciplinary theoretical approaches and methodologies. The main focus of this course will be on Ecological Economics concepts such as low and high entropy, biotic and abiotic goods and services, stock-flow resources, carrying capacity, throughput, co-evolution, sustainable scale, use value, and their applications in a problem-solving context.

CO: Economics 2010 and Economics 2020

CR: Environmental Studies 3085, Environmental Studies 4020, and the former Environmental Studies 3010

PR: Economics 2010 and Economics 2020

**3150 Money and Banking** examines the operation of the money and banking system, with special emphasis on Canadian problems. Monetary theory will be treated in relation to income theory and foreign trade.

PR: Economics 2010 and Economics 2020

**3350 Mathematical Economics I** examines linear algebra and differential calculus, with applications to economics.

PR: Mathematics 1000 or equivalent with a "B" standing, or Mathematics 2050 and Economics 2010 and Economics 2020

**3351 Mathematical Economics II** covers integral calculus, difference and differential equations, with applications to Economics.

PR: Economics 3550

**4450 Econometrics I** covers estimation of the general linear regression model with emphasis on fundamental theory and examples from published empirical research.

PR: Economics 2550, 3000 and 3010.

**4451 Econometrics II** covers further problems in econometric theory and technique; multicollinearity, autocorrelation, nonlinear estimation, and the identification and estimation of systems of equations. Published empirical research will be discussed and each student will be expected to perform an original empirical study.

PR: Economics 4550

## 10.10 English Language and Literature

One of English 1000, 1050, the former 1100 and one of English 1001, 1051, 1110 are prerequisites for all other courses.

Students cannot receive credit for more than one of English 1000, 1050, 1080, the former 1100 or for more than one of 1001, 1051, 1101, 1102, 1103, and 1110.

A student cannot receive credit for more than 6 credit hours at the first year level. This includes unspecified transfer credits.

No students shall register in any course having an initial digit "3" unless they have successfully completed at least 6 credit hours in courses having an initial digit "2".

No students shall register in any course having an initial digit "4" unless they have successfully completed at least 6 credit hours in courses having an initial digit "3".

## 10.10.1 English Core Courses

**1000 Introduction to English I** is an introduction to English literature and to the use of the English language with a particular emphasis on composition.

**1001 Introduction to English II** is a continuation of the studies begun in English 1000.

PR: English 1000, English 1050, the former English 1100

**1110 Comprehension, Writing and Prose Style** is an introduction to the analysis of prose and to writing for various purposes, including exposition.

CR: English 1020, English 1030, English 2010,

PR: English 1000, English 1050, English 1080, the former English 1100

**2005 Literary Survey I (The beginnings to 1660)** introduces students to the major writers by detailed study of selected texts. The course will include such authors as Chaucer, Mallory, Shakespeare, Spenser, Bacon, Webster, Donne and works such as Beowulf, the Old English Elegies and Gawaine and the Green Knight. Recommended for English specialization students that English 2005 be taken first in the English 2005-2006-2007 sequence.

CR: English 2000, English 2110

**2006 Literary Survey II (1660-1837)** introduces students to the major writers by detailed study of selected texts. The course will include such authors as Dryden, Pope, Swift, Johnson, Fielding, Blake, Wordsworth, Austen, Byron, Keats and Shelley. Recommended for English specialization students that English 2006 be taken second in the 2005-2006-2007 sequence.

**2007 Literary Survey III (1837 to the present)** introduces students to the major writers by detailed study of selected texts. The course will include such authors as Tennyson, Browning, Arnold, Hardy, George Eliot, Dickens, Yeats, T.S. Eliot and Dylan Thomas. Recommended for English specialization students that English 2007 be taken third in the English 2005-2006-2007 sequence.

CR: English 2001, English 2111

**3205 Shakespeare Survey** is a study of at least eight plays, two from each dramatic mode: comedy, history, tragedy, and romance.

PR: Two second-year English courses

UL: credit may be obtained for only two of English 3200, English 3201, English 3205, and English 3206

**3206 Shakespeare and the Classical Tradition** is a study of the relationship between Shakespeare and his major classical sources, with a particular focus on the use of classical literature in the Renaissance.

PR: Two second-year English courses

UL: credit may be obtained for only two of English 3200, English 3201, English 3205, and English 3206

**3395 The Literary Uses of English from the Earliest Times to the Present** is an exploration of the development of the English language, as evidenced by its literary uses.

CR: English 2401

**4105 Critical Approaches and Theory** is a survey of critical approaches to English Literature, particularly those adopted by twentieth century readers. The course will attempt to give an account of the theories on which these approaches are based and some attention will be paid to the application of different approaches to specific works of literature.

CR: English 4101

**4950 Individual Project in English** is an individual project of a creative, or a critical, or a research character on a topic which is subject to the approval of the Program Chair. The topic will be prepared under the supervision of a designated faculty member or members.

CR: English 4990

## 10.10.2 Dramatic Literature

**2350 Introduction to Drama I** is a survey of the major plays in the history of western drama from the Greeks to the end of the eighteenth century.

CR: English 2350

**2351 Introduction to Drama II** is a survey of the major plays in the history of western drama from the 19th Century to the present.

CR: English 2002

**3021 English Drama to 1580** is a study of the development of English drama from the Middle Ages to 1580. The course may also consider the popular arts, such as folk plays and mummings.

**3171 Anglo-Irish Drama** is a study of representative Anglo-Irish drama by such authors as Wilde, Shaw, Yeats, Synge, Lady Gregory, O'Casey, Behan, Friel and Molloy.

CR: English 3170, English 3180

**3181 Drama of the Restoration and Eighteenth Century** is a study of major dramatic texts from 1660 to the end of the eighteenth century.

**3275 Modern Drama (1830-1930)** is a study of western drama and performance during the period 1830-1930, with a focus on theatrical and dramatic texts and movements, as well as artistic, social, political, technological, and philosophical influences.

CR: the former English 3300, English 4300

**4302 Contemporary British Drama** is a study of representative dramatic works of contemporary British drama.

**4305 Contemporary Drama** is a study of modern and post-modern western drama and performance from 1930 to the present, with a focus on theatrical and dramatic texts and movements, as well as artistic, social, political, technological and philosophical influences. Recommended previous course: English 3275.

CR: English 4301, the former English 3301

**4307 Contemporary Canadian Drama** is a study of contemporary drama and performance in Canada, focussing on texts representative of Canada's cultural and regional diversity.

CR: English 3156

**4308 20th Century American Drama** is a study of American drama and performance from the turn of the century to the present, focussing on the theatre's historic role in the definition, reinforcement and scrutinizing of American mythology.

CR: English 3260

**4317 Elizabethan-Jacobean Drama** is a survey of Shakespeare's dramatic rivals and the Elizabethan and Jacobean repertoires.

CR: English 3022

PR: English 3200 or English 3201

**4836-4844 Special Topics in Drama** is supervised study in specialized areas of dramatic literature. Course topic, design, and requirements to be determined through consultation by the student with the instructor.

PR: permission of the instructor

### 10.10.3 Canadian Literature

**2146 Canadian Prose after 1949** is a study of the outstanding works of Canadian prose from 1949 to the present.

CR: English 2150, English 2151, the former English 3146

PR: two first-year English courses

**2155 Newfoundland Literature** is a study of Newfoundland literature with emphasis on representative writers since 1949.

CR: English 3155

**2156 Canadian Short Stories** is a study of Canadian short stories which aims to give the student a heightened appreciation of individual short stories, and some sense of the range of Canadian accomplishment in the genre.

**3145 Canadian Fiction to 1949** is a study of outstanding works of Canadian fiction from the beginnings to 1949.

**3147 Canadian Poetry to 1949** is a study of representative Canadian poetry from the pre-confederation period to 1949.

**3148 Canadian Poetry After 1949** is a study of Canadian poetry from 1949 to the present, with emphasis on the work of major poets and an examination of the various styles and theories of poetry developed during the period.

CR: English 4850

**3149 Canadian Prose** is a study of selected works of Canadian prose, covering both fiction and non-fiction.

**4307 Contemporary Canadian Drama** course description can be found in the dramatic literature list above.

CR: English 3156

**4825-4835 Special Topics in Canadian Literature** is a variety of topics to be offered as resources permit.

### 10.10.4 Modern Literature

**2215 American Literature to 1900** is a study of the historical origins and development of nineteenth century American Literature, concentrating on a selection of works within their political, social and artistic contexts.

CR: English 2214

**2242 Science Fiction** is a survey of Science Fiction from its earliest days to the present. Subjects that will be considered include the evolution of the genre, the relations among humans, technology and multinational capitalism, and the significance of memory and space.

CR: English 2811

PR: successful completion a first-year English sequence

**2243 Introduction to Humour in Literature** begins with a survey of humour theories from antiquity to the present, and proceeds to a study of various

forms and strategies of humour through a selection of works in English. Students will study texts exploring the roles that humour plays in relation to topics such as transgression, iconoclasm, class, sexuality, gender, ethnicity, culture, politics and religion.

CR: English 2121

PR: 6 credit hours in first-year English

**2705 Modern World Literature in Translation** is a study of modern world literature in English translation, with focus on writers of the twentieth century who have attained international stature.

**2805 Women's Writing to 1900** is a study of writing by women in the British Isles and North America from the Middle Ages to 1900, including such items as letters and journals as well as fiction, poetry, and drama.

CR: English 3810, English 3830 This credit restriction replaces the note in earlier calendars and is retroactive to September 1, 1993.

**2870 Children's Literature** is an introduction to literature written for children and young people. Beginning with an examination of the history of children's literature in the British Isles and North America, the course will focus on twentieth century and contemporary works, touching on a broad range of genres, audiences, and reading levels.

**2905 Introduction to Creative Writing** will introduce students to three main areas of creative writing: poetry, prose fiction, and creative non-fiction (travel writing, autobiography, journalism). Much of the emphasis will be on writing as a medium of communication. For this reason, some of the instruction will be the workshop system in which students act as each other's readers and audience.

PR: 6 credit hours in first-year English

**3215 20th Century American Literature** is study of American poetry and fiction from 1900 to 1960.

CR: English 4260, English 4261, English 4270

**3216 20th Century British and Irish Literature** is a study of British and Anglo-Irish poetry and fiction from 1900 to 1960.

**3810 20th Century Non-Fiction Writing by Women** is a study of twentieth century topical writing by women, including writing about social, political, and artistic and literary questions. Non-traditional as well as traditional genres will be studied.

CR: English 2805, English 3830 This credit restriction replaces the note in earlier calendars and is retroactive to September 1, 1993.

PR: English 2805 or permission of the instructor

**3905 Creative Writing** is a workshop course for aspiring writers of poetry and/or fiction. Limited enrolment. Applicants will be required to submit a sampling of their previous and current work.

PR: permission of the instructor

UL: credit may be obtained for only two of English 3900, English 3901, and English 3905

**4245 Contemporary Fiction in English** is an in-depth study of a selection of recent short fiction and novels in English. The focus will be on recent developments in American, British, Irish and Commonwealth fiction (excluding Canadian).

**4246 Contemporary Poetry in English** is an in-depth study of contemporary poetry in English. The focus will be on major poets and developments in the U.S.A., Britain, Ireland and the Commonwealth (excluding Canada) since 1945.

**4905 Advanced Creative Writing** is a workshop course for creative writers who have demonstrated considerable talent and skill in poetry and/or prose fiction. Limited enrolment.

PR: permission of the instructor

### 10.10.5 English Courses for Non-Major Students

**2010 Comprehension Writing and Prose Style (I)** will chiefly emphasize the development of (a) the capacity to understand and appreciate the varieties of prose through close analysis of a wide range of examples, and (b) the ability to write expository and other kinds of prose.

CR: English 1110

**3110 Greek Literature in Translation** is representative readings in English of the principal literary forms of Classical Greece. The literary achievement of the Greeks and their contributions to Western letters and culture.

CR: Classics 3110

**3111 Latin Literature in Translation** is representative readings in English of the principal literary forms of Republican and Imperial Rome. The literary achievement of the Romans and their contribution to Western letters and culture.

CR: Classics 3111

## 10.11 Environmental Science

For existing Memorial University of Newfoundland courses, the numbers remain the same. For new courses in Environmental Science, the following four-digit scheme is used:

1st digit = Year

2nd digit = Parent Discipline:

0 = Multidisciplinary

1 = Biology

2 = Chemistry

3 = Earth Science

4 = Physics

9 = Project

3rd digit = Subdiscipline:

(Biology): 1 = Botany 1 = Analytical 5 = Research

(Chemistry): 2 = Zoology 2 = Inorganic 8 = Science Writing

(Multidisciplinary): 3 = Ecology 3 = Physical 6 = Environmental 4 = Organic

4th digit = Numerical Sequence.

Courses specifically designed for the environmental science program(s) are given the designation "Envs". Thus, for example, in the Winter semester of the 2nd year, Environmental Chemistry is offered, with a course number = **Envs 2261**.

### 10.11.1 Environmental Biology

**3110 Taxonomy of Flowering Plants** is a study of the biodiversity of flowering vascular plants (Magnoliophyta) through the practical identification of Newfoundland families, genera, and species. Related taxonomic and biogeographical principles will be stressed.

CR: Biology 3041

LH: 3 laboratory periods of integrated practice and theory

OR: Students must submit a collection of flowering plants identified to the species level. Detailed instructions should be obtained from the instructor in the spring/summer prior to the commencement of this course.

PR: Biology 2010 or equivalent

**3130 Freshwater Ecology** is the study of freshwater ecosystems (lakes, rivers, streams, peatlands). Included are abiotic components, community structures, energy flow, biogeochemical cycles, and the evolution of natural and altered aquatic ecosystems. Emphasis will be placed on field and laboratory studies of the ecology of freshwater organisms and systems in western Newfoundland.

LH: 3

PR: Biology 2010, Biology 2122, Biology 2600; one of Chemistry 1001 or Chemistry 1011

**3131 Impacted Terrestrial Ecosystems** is an examination of ecological and evolutionary responses by organisms in terrestrial ecosystems to human-derived and natural perturbations. Advanced conceptual, empirical and experimental approaches will be used, with an emphasis on sampling local habitats.

CR: Biology 3610

LH: 3

PR: Biology 2600; and two of Biology 2010, Biology 2122, Biology 2210 or the permission of the instructor and Program Chair

**4132 Analytical Ecology** states that the assessment of environmental impacts on higher-level ecological systems requires a critical analysis of scientific reports, along with the ability to evaluate ecological terminology and concepts and associated statistical methodologies. Students in this course will critically read and analyse recent scientific literature in Environmental Biology, with selected topics at the community, ecosystem and landscape level, and examine related univariate and multivariate statistical procedures

LH: three-hour laboratory/discussion group

PR: Biology 2600, Statistics 2550 (or equivalent), with 6 credit hours from the Environmental Science Core

**4133 Conservation Biology** will bring together the principles of ecology and conservation Biology at an advanced level. Current issues and techniques will be discussed with an aim towards understanding how populations of native flora and fauna can be managed for long-term conservation in the face of habitat degradation and loss.

LH: three-hour laboratory/discussion group

PR: two of Environmental Science 3110, 3130, and 3131; or permission of instructor

**4140 Environmental Science Field Course** is a course providing practical experience in the observation, collection, identification and quantification of organisms and the various environmental parameters which affect them in pristine and disturbed habitats. Combinations of freshwater, marine and

terrestrial habitats will be studied using techniques from various scientific disciplines. The actual combination of habitats, organisms, and techniques will vary from year to year.

PR: Biology 2600, Statistics 2550, with a minimum of 80 credit hours from Environmental Science Program (or equivalent) and permission of the instructor and Program Chair.

### 10.11.2 Environmental Chemistry

**2261 Survey of Environmental Chemistry** is an introduction to environmental problems, underlying chemistry and approaches to pollution prevention. Stratospheric chemistry and the ozone layer. Ground level air pollution. Global warming and the Greenhouse Effect. Toxic organic chemicals (TOCs), including herbicides, pesticides. Toxicology of PCBs, dioxins and furans. Chemistry of natural waters. Bioaccumulation of heavy metals. Energy production and its impact on the environment, including nuclear energy, fossil fuels, hydrogen.

PR: Chemistry 1001 or Chemistry 1031 or Chemistry 1051 or Chemistry 2440 or the permission of the instructor and Program Chair

**3210 Environmental Analytical Chemistry I** is treatment of data, error analysis, wet methods of analysis of laboratory and field samples. Volumetric methods for acidity, alkalinity and hardness; chemical and biological oxygen demand (COD and BOD). Gravimetric methods for sulphate and phosphates. Theory and application of specific ion electrodes analysis of metal ions, dissolved gases and halide ions. Turbidimetric and nephelometric measures of water quality. Spectrophotometric analysis of trace metal ions.

LC: not more than seven hours per week

LH: not more than seven hours per week

PR: Chemistry 2300 (or 2301) and Chemistry 2210

**3211 Environmental Analytical Chemistry II** is theory and application of spectroscopic methods of analysis (including error analysis) of environmentally important compounds. Spectrophotometric, FTIR, light scattering, chromatographic (GC, GC/MS, HPLC), fluorescence, phosphorescence, atomic absorption and electroanalytical methods will be studied. Synthetic laboratory samples and field samples will be examined by these techniques.

LC: Not more than seven hours per week

LH: Not more than seven hours per week

PR: Environmental Science 3210 (or equivalent)

**3260 Industrial Chemistry** is chemical principles used in the manufacture of inorganic and organic chemical products; electrochemical, petrochemical, polymer, pulp and paper, agricultural, cement, cosmetics, detergent and paint industries. Processes, specific pollutants of current interest: inorganic (e.g. mercury, nitrogen oxides and sulfur oxides gases, lead etc.) and organic (e.g. PCBs, chlorinated hydrocarbons, freons, pesticides/herbicides). Industrial sources and analytical methods of detection will be studied.

PR: Chemistry 2210, Chemistry 2401, and Environmental Science 2261 (Environmental Science 2261 may be taken concurrently) or permission of the instructor and Program Chair

**3261 Atmospheric Chemistry** is electronic, vibrational and rotational spectroscopy. Rates and mechanisms of gas phase reactions (particularly photochemical). Thermodynamics of the atmosphere. Formation, evolution and structure of the Earth's atmosphere. Chemical and physical properties of the atmospheric gases. Global element cycles. The stratosphere and ozone variability. The ionosphere. Atmospheric pollutants. Problems of the "greenhouse" gases. Aerosol chemistry. Wet and dry deposition.

PR: Chemistry 2300 (or 2301), Chemistry 2210 or the permission of the instructor and Program Chair

**4230 Aquatic Chemistry I** is thermodynamics and kinetics of model systems. Acids and bases (including buffer intensity and neutralizing capacity), dissolved gases, precipitation and dissolution. Metal ions in aqueous solution. Redox control in natural waters. Pourbaix diagrams. Regulation of chemical composition of natural waters, pollution and water quality.

LC: not more than seven hours per week

LC: not more than seven hours per week

PR: Environmental Science 3211 and one of Chemistry 2400 or Chemistry 2440 or permission of the instructor and Program Chair

**4239 Aquatic Chemistry II** - inactive course.

**4240 Organic Chemistry of Biomolecules** is structure and properties of carbohydrates, proteins, lipids, steroids, DNA and RNA. The chemistry of the cell in relation to its toxicology; effects of bioactive agents on cells, organelles, tissues and whole organisms. Natural products including those from the rain forest and marine environments. The role of metal ions in biomolecules. Examples of biosynthesis. Chemistry and mechanisms of mutagenesis and carcinogenesis.

PR: Chemistry 2401 or Chemistry 2440 or permission of the instructor and Program Chair

**4249 Environmental Organic Chemistry** focuses on anthropogenic

sources of organic chemicals and pollutants in the environment. Concepts of organic chemistry (synthesis, structure, physical properties, chirality, industrial organic processes), biological chemistry (enzymes, oxidative pathways) and physical chemistry (equilibria, partitioning) extended and applied to mass transport through soil, water and air. Kinetics and mechanisms of chemical, photochemical and biological degradation and conversion of organics. Structure-reactivity relationships for organic chemicals and degradation intermediates in the environment.

PR: Environmental Science 4240, Environmental Science 3261, Environmental Science 4230 or the permission of the instructor and Program Chair

### 10.11.3 Other Environmental Science

**1000 Introduction to Environmental Science** is an introduction to the study of the environment. Environmental principles, issues and problems will be described and placed in a historical and societal context.

**2360 Geological Hazards and Natural Disasters** will introduce students to the geological aspects of the natural environment and the impacts that natural geological processes and phenomena may have on humanity. The impact of geological hazards and natural disasters on human society and behaviour will be examined through case studies.

PR: 15 credit hours or more

**2369 Introduction to Soils** provides a broad background knowledge about soils. Topics covered include: the origin of soils; physical, biochemical, and engineering aspects of soils; influence on humans and their food production; soil pollution and degradation; and management and conservation of soils.

PR: Earth Science 1000 or Geography 1000

**2370 Global Environmental Change** is a survey of the Earth as a dynamic system. Discussion of interacting cycles that define the Earth's environment. Material cycles and energy concepts. Evolution of the atmosphere in response to lithospheric, biospheric and hydrospheric changes. Major global environmental changes from Earth's formation to present. Emphasis on self-regulating ability of the Earth system.

PR: 30 credit hours or more

**2371 Oceanography** is historical review of science of oceanography. Earth and Earth systems (including plate tectonics). Marine sediments and sedimentary environments. Chemical and physical properties of seawater. The atmosphere and the oceans, ocean circulation. Waves and tides, coastal environments, distribution of organisms. Applied oceanography.

PR: 30 credit hours or more

**2430 Energy and the Environment** considers energy, energy conversion, heat transfer, the laws of thermodynamics, nuclear processes and radiation. Practical problems such as the energy shortage, human influences on climate, resource extraction, nuclear power etc. will be discussed.

PR: Mathematics 1081 or Mathematics 1000; Physics 1021 or co-requisite Physics 1051

**2450 Meteorology** is an application of physics and mathematics to the study of the atmosphere. Atmospheric motion on the global, synoptic, meso- and micro-scales. An introduction to atmospheric radiation and thermodynamics, clouds and precipitation. Vertical soundings and the analysis and interpretation of surface and upper-air weather maps.

CO: Physics 1051 or prerequisite Physics 1021

PR: Physics 1021 or co-requisite Physics 1051

**3072 Comparative Marine Environments** will investigate the physical, chemical, geological and biological characteristics of the major marine environments from the coastal zone to the abyss and from the equator to the poles. The objective of the course will be an integrated study of the parameters that define the various environments. Emphasis will be placed on the interaction of organism and environment. The influence of the environment on the form, function and behaviour of organisms and the influence of the organism in modification of the physical environment will be stressed.

PR: Environmental Science 2371

**3470 Transport Phenomena** is fundamentals of fluid flow. Conservation laws for mass, momentum, and energy. Dimensional analysis. Turbulence. Confined fluid flows. Fundamentals of heat transfer. Conduction, convection, and radiation. Diffusion, dispersion, and osmosis. Applications to transport of pollutants at the microscopic and macroscopic scale.

PR: Mathematics 1001, Physics 1020 and Physics 1021 or Physics 1050 and Physics 1051

**4000 Environmental Science Seminar** reviews current topics in environmental science and discusses in a seminar format. Seminars will be presented on current research and environmental issues by faculty, students and guest speakers from universities, government and industry.

PR: Environmental Science students who have completed 80 credit hours or more, to include Biology 2600, Statistics 2550 and one of Chemistry 2440, Chemistry 2401, Chemistry 2210, or Chemistry 2300 (or 2301).

**4069 Fundamentals of Soil Systems** is the physics, chemistry and Biology

of soil, including inorganic soil components, chemistry of organic soil matter, soil equilibria, sorption phenomena on soils, ion exchange processes, kinetics of soil processes, redox chemistry of soils, soil acidity, saline and sodic soils, organic pollutants, trace and toxic elements in soils, soil organisms, organic matter cycling, nutrient cycling and fertility, soil conservation and sustainable agriculture.

LC: not more than six hours per week

LH: not more than six hours per week. The laboratory will cover a number of key physical, chemical and biological properties and procedures used in soil analyses. One or more field trips will be scheduled during laboratory sessions

PR: Biology 2600, Earth Sciences 1000, one of Chemistry 2210, Chemistry 2300 (or 2301), Chemistry 2401, Chemistry 2440 and 6 credit hours selected from Environmental Science Core. It is recommended that students complete at least 80 credit hours before registering for this course.

**4131 Environmental Restoration and Waste Management** focuses on procedures aimed at restoring and rehabilitating ecosystems, with an examination of the interdisciplinary scientific basis underlying these procedures. The efficacy of management options, e.g. biomanipulation, microbial degradation and chemical treatments, involved in restoration and waste management will be evaluated. Applications and practical case studies of both aquatic and terrestrial ecosystems will be covered.

PR: Biology 2600, one of Chemistry 2210, Chemistry 2300 (or 2301), Chemistry 2401, Chemistry 2440 and 6 credit hours selected from Environmental Science Core. It is recommended that students complete at least 80 credit hours before registering for this course.

**4479 Groundwater Flow** is groundwater in the hydrologic cycle. Principles of fluid flow through permeable media. Hydraulic properties of soil and rock formations. Groundwater at the local and regional scale. The unit basin model. Groundwater as a transport agent of chemicals and microbes. Groundwater resources, reservoir characterisation, and quality assessment. Groundwater contamination.

PR: Environmental Science 3470 or the permission of the instructor and Program Chair

**4910-4930 Special Topics in Environmental Science** are special topics courses in Environmental Science normally taken by students beyond the second year.

**4950 Research Project in Environmental Science** is a course, with the guidance of a faculty member, where students will conduct a scientific study based upon original research or a critical review of extant data in an appropriate area. Students are required to submit a report and give a presentation. This project fulfils the Core requirement for a fourth-year individual project in the area of specialization.

PR: permission of Program Chair

**4951 Honours Project in Environmental Science I** is a course, under the guidance of a designated supervisor (or supervisors), where the student will prepare a thesis proposal including a comprehensive literature review of the subject of their Honours thesis. Students will present the results of their work in both written and oral form.

PR: restricted to Environmental Science students who have been accepted into the Honours option

**4959 Honours Research Project in Environmental Science II** is a continuation of Environmental Science 4951 specifically for Honours students. Under the supervision of faculty member(s), students will carry out an original research project in environmental science. Students will present both a thesis and seminar on their research.

PR: Environmental Science 4951 and admission to the honours program

## 10.12 Environmental Studies

### New Course Numbering

For existing Memorial University of Newfoundland courses the numbers remain the same. For new courses in Environmental Studies the following scheme is used.

1st digit = year

2nd digit = Program Concentration

0 = common to both concentrations

1 = Environmental Perspectives Concentration

2 = Outdoor Environmental Pursuits Concentration

9 = Project

**1000 An Introduction to Environmental Studies** is an introduction to a variety of major issues in environmental studies through an examination of a range of case studies including both local problems, such as the impact of outdoor recreation activities on the environment, and global threats, such as stratospheric ozone depletion.

**2000 Introduction to Mapping, Remote Sensing, and Geographical Information Systems** is an introduction to maps, global positioning

systems, remote sensing, and geographic information systems. Applications to a broad range of environmental issues will be discussed.

LC: 3

LH: 3

PR: Geography 1000 or Earth Sciences 1002

**2210 Outdoor Environmental Pursuits I** is the theoretical rationale and practical skills needed to demonstrate basic proficiency in several of the following activities: minimal impact camping, wilderness cooking, hiking, kayaking, canoeing, navigating with map and compass, outdoor safety, search and rescue, and group management. The major focus of this course will be the practical application of learned skills.

AR: attendance is required

CO: basic first aid and CPR course

OR: 3 hours of practicum per week

**2220 Outdoor Environmental Pursuits II** is the theoretical rationale and practical skills needed to demonstrate basic proficiency in several of the following activities: cross-country skiing, telemark skiing, downhill skiing, snowshoeing, winter camping, and winter survival techniques. The major focus of this course will be the practical application of learned skills.

AR: attendance is required

OR: 3 hours of practicum per week

**3000 Issues in Environmental Economics** is an analysis of current issues concerning the effects of the economic activities of production and consumption on the natural environment. The concepts of scarcity, abundance, demand, supply, opportunity cost, trade-offs, externalities, marginal benefits and marginal costs will be utilized in examining environmental problems. The social and economic implications of various approaches will also be analysed.

OR: Economics 2010

**3001 Environmental and Resource Management: Applications of Geographic Information Systems** is applied GIS knowledge and skills in environmental and resource management. The topics cover GIS data sources, data conversions, database design, spatial analysis and decision support systems. Examples of GIS applications in the private and public sectors will be provided.

LH: 3

PR: Environmental Studies 2000

**3085 Issues in Ecological Economics** aims to explore the dynamic interaction between the economic system and the ecological system that sustains it by using trans-disciplinary theoretical approaches and methodologies. The main focus of this course will be on Ecological Economics concepts such as low and high entropy, biotic and abiotic goods and services, stock-flow resources, carrying capacity, throughput, co-evolution, sustainable scale, use value, and their applications in a problem-solving context.

CO: Economics 2010 and Economics 2020

CR: Economics 3085, the former Environmental Studies 3010, and Environmental Studies 4020

PR: Economics 2010 and Economics 2020

**3210 Expedition** will consist of one or more extensive expeditions into wilderness areas. A variety of applied topics related to environmental issues, outdoor leadership, and outdoor survival will be covered using an experiential approach. Expedition. Two weeks (Summer term).

AR: attendance is required

PR: Environmental Studies 2210 and Environmental Studies 2220

**4000 Environmental Impact Assessment** will include an analysis of the different methods of assessing the impacts that investment projects or decision-making processes have on the environment. Environmental Impact Assessments (EIAs) vary with individual projects and are a vital tool to use in integrated planning of development proposals, policies and programs. Emphasis will be given to assessing the socio-economic impact of development projects.

**4010 Seminar in Environmental Studies** is a senior seminar in which selected environmental issues will be examined from several disciplinary perspectives.

OR: seminars three hours per week

PR: permission of the Environmental Studies Program Chair

**4020-4039 Special Topics in Environmental Studies** has a range of special topics in Environmental Studies. This course is normally taken by students beyond the second year.

**4950 Independent Research Project** is a course, under the supervision of a faculty member, where each student will carry out an approved project in environmental studies and prepare a major paper based on independent research.

PR: permission of the Environmental Studies Program Chair

## 10.13 Folklore

Folklore 1000 (or 2000) is the prerequisite for all other courses in

Folklore, except Folklore 1050, Folklore 1060 and those courses cross-listed with other subject areas.

**1000 Introduction to Folklore** is the role that tradition plays in communication, art and society will be discussed through an examination of folklore materials from Newfoundland and the English-speaking world. Readings and "listnings" will emphasize the use of folklore in context, e.g., the proverb in speech and the folksong in childrearing. Students will be urged to analyse the traditions in their own lives through special assignments.

CR: Folklore 2000

**1050 Folklore Studies** is an examination of specific folklore studies illustrating important themes and approaches in folkloristics. These will include antiquarian, nationalistic, diffusionist, historic-contextual, functional, structural, and performance analyses as typified in selected readings from the works of leading folklorists.

There is no prerequisite for this course. However, students should note that they will need to take Folklore 1000 (or Folklore 2000) before they can advance to other courses.

**2100 Folklore Research Methods - An Introduction** is designed to provide the basic introduction to the research resources, tools and methods regularly employed in the area of Folklore. On the one hand, the course will examine what types of Library and Archive resources can be useful to the folklorist and, on the other hand, it will explore how folklorists in fieldwork situations should handle people, and how they can capture for posterity a record of the interviews that they have conducted and the events that they have observed. It is strongly recommended that majors and minors take this course before taking 3000 and 4000 level courses.

**2230 Newfoundland Society and Culture** is the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary island Newfoundland.

CR: Sociology/Anthropology 2230

**2300 Newfoundland Folklore** is survey of the various types of Folklore: tale, song, rhyme, riddle, proverb, belief, custom, childlore and others, with stress on their function in the Newfoundland community culture. Individual collection and analysis of materials from the students' home communities, supplemented by data from the this University's Folklore and Language Archive.

CR: Anthropology 2300 and the former Folklore 3420

PR: Folklore 1000 or Folklore 2000, or Anthropology 1031

**2401 Folklife Studies** is an examination of the traditional cultures of Europe and North America with special reference to Newfoundland. A selection of the following areas will be covered: settlement patterns, architecture, work and leisure patterns in the folk community, calendar customs, rites of passage, folk religion, folk medicine, language and folk culture, folk costume, foodways and folk art.

CR: the former Folklore 3500

**2500 Folk Literature** is an examination of the major genres of folk literature: folk narrative, folk poetry and song, folk drama, and the traditional generic forms within folk speech. An introduction to the textual, comparative and contextual methods of analysis. The literature discussed will be international in scope.

CR: Anthropology 2500 and any of the former Folklore 3400, English 3400, Sociology/Anthropology 3400

PR: Folklore 1000 or Folklore 2000, or Anthropology 1031

**2600 Regional Folklore** is an examination of human-environment relationships as expressed in traditional culture. Emphasis will be placed upon the history of regional folkloristics as well as the theories and methods of studying folklore from a regional perspective.

PR: Folklore 1000 or Folklore 2000 or instructor's permission

**3130 Greek and Roman Mythology** is a comparative study of specific myths and folktales of Greece and Rome as embodied in the literary and artistic remains of the ancient world with reference to their origins and their influence on later art and literature.

CR: Classics 3130

**3200 Folksong** is an introduction to the full range of traditional verse, song and music. Stress primarily on the songs of Canada, the United States and the British Isles, with attention to Newfoundland parallels. Examination of traditional vocal and instrumental styles as well as verse forms. Some reference to non-Western musical traditions. A knowledge of music is not a prerequisite.

CR: the former Folklore 2430

**3300 Folk Drama** is a survey of the main forms of traditional drama found in Great Britain and North America with reference to related European and non-western traditions. The origins, history and regional variations of these forms will be considered together with questions of social function, performance and aesthetics. The history of research in the area of folk drama will be examined along with related methodological and theoretical issues.

**3450 Language and Play** is an examination of such forms as the rhyme, riddle, proverb and proverbial saying, game, etc. Emphasis on problems of function and classification. Material will be chiefly from the British and North American traditions. Collecting will be encouraged.

**3601-3620 Special Topic in Folklore** will have topics to be studied announced by the Division.

**3850 Material Culture** is an examination of various interpretive theories of objects as cultural products. Problems of defining the artifact will be discussed, as well as the strengths and limitations of using objects in historical and ethnographic research. Questions discussed include form, design, decoration, diffusion, and the role of the creator of the object. Besides folkloristic work on material culture, a variety of interdisciplinary approaches will be considered. Emphasis will be on the material folk culture of Newfoundland and its European antecedents.  
CR: Archaeology 3850

**3920 Folklore and Education** is intended to familiarize students with the function of Folklore in the educational process. Emphasis will be on cultural transmission, cultural learning and child training practices (including mechanisms of social control.) The relationship of formal to informal education will be examined with particular reference to Newfoundland.  
CR: the former Folklore 3030 or Folklore 4475

**3930 Folklore and Popular Culture** is an examination of the transitional processes involved in the development of folk societies to mass cultures with regard to folklore and the products of popular culture. In addition, sensory and technological media theories will be scrutinized and evaluated in conjunction with cultural comparisons of the qualities and functions of: folksong, disc recordings and the radio; folktales, television melodrama and popular film; folk art and popular "techno-art" forms.  
CR: the former Folklore 2400

**4300 Folklore of Canada** is an examination of a variety of Canadian folklore from historical, geographical and cultural perspectives. Emphasis will be placed upon the application of theories of Canadian culture to folklore studies. Questions of the role of folklore and folklife with respect to identity, ethnicity, multiculturalism, national literature, regionalism and similar issues will be considered.  
CR: the former Folklore 1020

**4440 Music and Culture** is traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk-popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.  
CR: Anthropology 4440 and Music 4440

**4480 Folklore and Oral History** is a seminar which deals with the uses of oral sources, particularly those which have a traditional dimension, for the study of history. It will discuss the methods developed by Vansina, Dorson and others for evaluating the historical meaning of oral traditions in literate and non-literate cultures. The uses of oral testimony in the study of traditional modes of life and work such as fishing and farming will be considered. The use of oral traditions in the study of social and political history will also be discussed.  
CR: History 4480

## 10.14 French

Three consecutive credit courses in French language are available at the first-year university level, providing a complete overview of basic oral and written French. New students may choose to register initially in French 1500 or 1501; a diagnostic test is offered to assist students with initial course selection or to confirm that initial course selection is appropriate. Students with a limited background in French should register for French 1500 and continue with 1501. Students with a strong background in high-school French should bypass 1500 and begin their university study with 1501, especially if they intend to proceed beyond the first-year level. Very well prepared students may apply to the Division for permission to enter 1502 directly. Bypassing one or more of these courses may enable students to include a larger number of advanced electives in their degree program. French 1500, 1501 and 1502 require three hours of instruction per week and two additional hours of language laboratory work or conversation class, or both.

**1500 Introduction à la langue française, niveau universitaire I** cours pour débutants et pour ceux dont les connaissances du français sont très faibles. La permission de s'inscrire à ce cours ne sera pas accordée à ceux qui ont complété le Français 3202 (Immersion française au High School). Voir ci-dessus la note.  
CR: l'autre des cours Français 1010 et 1011 (désormais supprimés)

**1500 Introductory University French I** is a course for beginners and for

students whose background in French is very weak. Permission to register for this course will not be given to students who have completed Français 3202 (High School French immersion). See Note above.

CR: the former French 1010 or 1011

**1501 Introduction à la langue française, niveau universitaire II** Voir ci-dessus la note.

CR: et Français 1050 (désormais supprimé)

PR: High School French 3200 ou permission du chef du département. Les étudiants qui ont complété un programme d'immersion devraient consulter le chef du département avant de s'inscrire à ce cours.

**1501 Introductory University French II** See Note above.

CR: the former French 1050

PR: High School French 3200 ou permission of the Head of the Department. Ex-immersion students should consult the Head of the Department before registering for this course.

**1502 Introduction à la langue française, niveau universitaire III** Voir ci-dessus la note.

CR: et Français 1051 (désormais supprimé)

PR: 1501, ou la permission du chef de la division

**1502 Introductory University French III** See Note above.

CR: the former French 1051

PR: 1501, or by permission of the head of the division

**2100 Français intermédiaire I** rédaction, grammaire et pratique orale.

PR: Français 1502

**2100 Intermediate French I** is composition, grammar and practice in oral skills.

PR: French 1502

**2101 Français intermédiaire II** continuation du travail de rédaction, de grammaire et de communication orale.

PR: Français 2100

**2101 Intermediate French II** is further work in composition, grammar and oral skills.

PR: French 2100

**2300 Phonétique** introduction pratique à la phonétique du français. Emploi des symboles de l'alphabet phonétique, transcription phonétique et phonétique corrective.

PR: Français 1502 ou équivalent

**2300 Phonetics** is a practical introduction to French phonetics, including the International Phonetic Alphabet and phonetic transcription as well as corrective phonetics.

PR: French 1502 or equivalent

**2601 Apprentissage de la lecture** les étudiants exploreront des stratégies de lecture qui faciliteront la compréhension de textes divers. Ce cours sera normalement enseigné en français.

CR: Les étudiants ayant complété Français 2550 peuvent suivre Français 2601 ou Français 2602, mais pas les deux. Les étudiants ayant complété Français 2551 peuvent suivre Français 2601 ou Français 2602, mais pas les deux. Les étudiants ayant complété Français 2550 et Français 2551 ne peuvent suivre ni Français 2601 ni Français 2602.

PR: Français 1502 ou Français 2159, ou équivalent

**2601 Reading Skills** will explore reading strategies in a variety of texts in French. This course will normally be taught in French.

CR: Students who have successfully completed French 2550 may take either French 2601 or French 2602, but not both. Students who have successfully completed French 2551 may take either French 2601 or French 2602, but not both. Students who have completed both French 2550 and French 2551 may not take either French 2601 or French 2602.

PR: French 1502, or French 2159 or equivalent

**2602 Lecture de textes intégraux** les étudiants exploreront des stratégies de lecture qui faciliteront la compréhension de textes intégraux. Ce cours sera normalement enseigné en français.

CR: Les étudiants ayant complété Français 2550 peuvent suivre Français 2601 ou Français 2602, mais pas les deux. Les étudiants ayant complété Français 2551 peuvent suivre Français 2601 OU Français 2602, mais pas les deux. Les étudiants ayant complété Français 2550 et Français 2551 ne peuvent suivre ni Français 2601 ni Français 2602.

PR: Français 1502, ou Français 2159 ou équivalent

**2602 Reading Complete Texts** will explore reading strategies in a variety of complete texts in French. This course will normally be taught in French.

CR: Students who have successfully completed French 2550 may take either French 2601 or French 2602, but not both. Students who have successfully completed French 2551 may take either French 2601 or French 2602, but not both. Students who have completed both French 2550 and French 2551 may not take either French 2601 or French

2602.

PR: French 1502, or French 2159 or equivalent

**2900 A Survey of Francophone Cultures** places emphasis on oral comprehension and expression. This course is a prerequisite for 3650-3651-3653.

CR: the former French 2500

PR: French 1502 or equivalent. Students who have obtained less than 70% in French 1051 are, however, advised to complete French 2100 before attempting this course.

**3100 Grammaire et analyse de textes** révision des catégories nominale et verbale du français (morphologie, nombre, genre, temps, aspect, mode, voix). Analyse grammaticale et stylistique des textes avec un accent particulier sur l'emploi du verbe en français. Travaux d'expansion lexicale.

PR: Français 2101 ou Français 2160 et au moins un autre cours de français de niveau 2000

**3100 Grammar and Textual Analysis** is revision of the French noun and verb systems (morphology, number, gender, tense, aspect, mood, voice). Grammatical and stylistic textual analysis with special emphasis on the use of verbs in French. Vocabulary enrichment.

PR: French 2101 or French 2160 and at least one other 2000-level course in French

**3101 Stylistique et analyse de textes** rôle et fonction des parties du discours; exploitation sémantique (synonymie, polysémie); tropes et figures de style. Analyse grammaticale et stylistique de textes avec un accent particulier sur ces phénomènes. Travaux d'expansion lexicale.

PR: Français 2101 ou Français 2160 et au moins un autre cours de français de niveau 2000

**3101 Stylistics and textual analysis** is role and function of the parts of speech in French; semantic enrichment (synonymy, polysemy); tropes and figures of speech. Grammatical and stylistic textual analysis with special emphasis on these phenomena. Vocabulary enrichment.

PR: French 2101 or French 2160 and at least one other 2000-level course in French

## 10.15 Geography

**1000 Introduction to Geography I** is an introduction to Geography incorporating concepts, skills and techniques used by the geographer to understand the Earth as the home of man. The major emphasis of the course is placed on man-environmental ecological systems. The course will include seminars and practical work.

CR: the former Geography 1010

**1001 Introduction to Geography II** is a continuation of introduction to basic concepts and techniques in the field of Geography. This course emphasizes Geography as a social science and introduces the sub-fields of political, economic, cultural and urban Geography. The course will include seminars and practical work.

CR: the former Geography 1011

**2001 Cultural Geography** is an examination of the basic themes of cultural Geography.

PR: Geography 1050, or the former Geography 1011, or Geography 1001

**2102 Physical Geography: The Global Perspective** is a study of form, process, and change in natural systems at and near the surface of Earth, viewed as human environment. Emphasis is on global and regional scales in the systematic study of climate, water, landforms and vegetation.

LH: 3

PR: Geography 1000 or Geography 1050, or the former Geography 1011

**2302 Issues in Economic Geography** are basic issues and ideas in economic geography. The development of a regional economy will be related to underlying economic, cultural and physical factors.

PR: Geography 1050, or the former Geography 1011, or Geography 1001

**2425 Natural Resources** is an introduction to the concepts of natural resources, environment and conservation: the nature and distribution of natural resources; methods of use, allocation and development of natural resources and the role of various physical, social, economic, political and technological factors influencing decision-making about resources.

CR: the former 3325

PR: Geography 1050, or the former Geography 1011, or Geography 1001

**3222 Research Design and Quantitative Methods in Geography** is an introduction to principles of research design, and to the use of quantitative techniques. This course provides students with a basic understanding of data collection, entry, and analysis and presentation skills most commonly used by geographers. Practical, computer-based exercises are an essential part of the course. It is strongly recommended that this course be completed before registration in a 4000-level geography course.

CR: the former Geography 2220

LH: 3

PR: Geography 1050, or the former Geography 1011, or Geography 1001

and at least 9 credit hours from Geography 2001, Geography 2102, Geography 2195, Geography 2302, Geography 2425.

**3900-3909 Special Topics in Geography** will have topics to be studied announced.

PR: permission of the instructor and the Head of the Department

## 10.16 History

**1100 Introduction to History** is an introduction to the study and writing of history which will emphasize the concepts of history through a thematic approach to the history of western civilization from ca. 1500 to ca. 1815. (Offered only at Sir Wilfred Grenfell College.)

CR: History 1000

**1101 Introduction to History** is an introduction to the study and writing of history which will emphasize the concepts of history through a combination of research and writing within a thematic approach to the history of western civilization from ca. 1815 to the present. (Offered only at Sir Wilfred Grenfell College.) Students in their first year normally take History 1100 and History 1101

CR: History 1001

**2035 History of Classical Greece** is survey of Greek history from the Bronze Age to the death of Alexander the Great, with special reference to the social and political institutions of the fifth century B.C.

CR: Classics 2035, History/Classics 2030 since 1985-86 or the former History/Classics 3910

**2040 History of Rome** is a survey of Roman history from the early monarchy to the reign of Constantine, with special reference to society and politics in the late Republic and early Empire.

CR: Classics 2040, History/Classics 3920

**2100 Empires of the North Atlantic, 1500-1820** will examine European expansion across the Atlantic to North America, the attempt to take possession of that continent through commercial investment and colonies, and the way in which European colonies were transformed into new societies.

**2120 The History of Canadian-American Relations, 1783 to the Present** is a survey of the major themes in the history of Canadian-American relations, from the American Revolution to the present. Emphasis will be placed on economic, social, political and cultural developments.

**2200 Canadian History to Confederation, 1867** is a survey of Canadian History to Confederation, 1867.

**2210 Canada Since 1867** is survey of Canadian History since Confederation.

**2300 Introduction to Modern European History: 1500-1789** is an introduction to the main issues and problems in early modern European History with an emphasis on the political, social, economic and cultural developments from the sixteenth through the eighteenth century.

**2310 Europe in the Nineteenth Century: 1789-1914** is a survey of the economic, social, political and cultural developments of Europe from 1789-1914.

**2320 Medieval Europe to 1050** is a survey of the economic, social, political and cultural developments of the early Middle Ages.

CR: the former History 2030

**2330 Medieval Europe, 1050 to the Reformation** is a survey of the economic, social, political and cultural developments of Europe in the high and late Middle Ages.

CR: the former History 2030

**2500 The Twentieth Century I** is a study of the world-wide impact of the main events and developments in the age of global interdependence.

CR: the former History 3700

**2700 Art History Survey I** is the history of art from pre-historic times to the Renaissance.

CR: Visual Arts 2700

**2701 Art History Survey II** is the history of art from the Renaissance to the 20th century.

CR: Visual Arts 2701

**3050 History of Warfare to 1789** is a survey of major developments in the history of warfare from the earliest times to 1789 with particular emphasis on changes in the nature and conduct of warfare, the evolution of military thinking, the organization of military and naval forces, the impact of technological change, the emergence of professionalism and the relationship between societies and armed forces.

**3060 History of Modern Warfare since 1789** is an examination of those major developments which have affected the nature and conduct of warfare in the period since 1789, with particular emphasis on the evolution of military

thinking, the impact of technology on organization and planning, the role of air power, the civil-military relationship, professionalism in the armed forces, and the changing nature of warfare: the emergence of total war, global war, guerilla warfare, and limited warfare.

**3090 Alexander and the Macedonians** investigates the impact of the conquests of Alexander the Great and his Macedonian Successors on the political, social, cultural, intellectual, and religious world of the Mediterranean and Near East between Alexander's accession in 336 and the battle of Ipsus in 301, when his vast empire was carved into Hellenistic kingdoms.  
CR: Classics 3090

**3110 History of Newfoundland to 1815** is the growth of settlement and the manner in which a 'migratory' fishery carried on from England and Ireland changed into a 'sedentary' fishery carried on by residents of Newfoundland.

**3120 Modern Newfoundland Since 1815** is the establishment and development of political institutions, changes in economic structure and the growth of populations.

**3135 France in the Americas: 1500-1815** investigates the French presence mainly in New France, but also Newfoundland, Florida, Louisiana, the Caribbean, Acadia, Ile Royale, and Brazil, from the earliest voyages of exploration to the Anglo-French struggle for North America. This topic will be studied within the greater framework of the transplantation of a European society onto a different continent, delving also into various subject themes such as French-aboriginal relations, politics, and government, women and gender, and society in France and New France.

**3250 Migration History of North America** is a survey of migration to and within North America from the seventeenth to the twentieth century.

**3320 Early Modern France, 1500-1789** is French History from 1500 to 1789, with a focus on such themes as the Renaissance, political and social change, gender history and the Enlightenment.  
CO: 6 credit hours that have the initial digit '2'  
PR: 6 credit hours that have the initial digit '2'

**3440 History of the British Empire and Commonwealth since 1815** is the transition from British Empire to Commonwealth of Nations.

**3445 Witchcraft and the Witch-Hunts in Early Modern Europe** is a history of witchcraft, demonology, and witch-hunts from 1400 to 1750, focusing on such themes as gender, the body and medical knowledge, religious dissidence, and popular culture.

**3450 British History: 1485-1714** is the emergence of Britain under the Tudors and early Stuart monarchs.

**3460 British History Since 1714** is British History from the accession of the Hanoverians to the welfare state.

**3490 History of Ireland Since the Great Famine** is a survey of Irish history from the mid-nineteenth century to the present.  
CR: the former History 3470

**3520 The Early Ethnohistory of North America's Native People** is the North American native response to early European contact and initial settlement. Particular attention will be paid to cultural change resulting from the adoption of European goods, participation in the fur trade, the introduction of European disease, and the adaptation to a permanent European presence.  
CR: Anthropology 3520

**3525 The Later Ethnohistory of North America's Native People** is Indian and Inuit cultural history of the Eighteenth and Nineteenth centuries, including the fur trade, resistance and accommodation to European expansion, the emergence of revitalization movements, demographic changes, and population shifts. Special emphasis will be placed on the ethnohistory of the native peoples of what is now Canada and northern United States.  
CR: Anthropology 3525

**3700 Art History: The Italian Renaissance** is an overview of the art and architecture of Renaissance Italy with an emphasis upon the historical context in which art was produced.  
CR: Visual Arts 3700

**3701 Art History: The Renaissance Outside Italy** is the Renaissance outside Italy from the late Fourteenth century and the international style through the 16th century.  
CR: Visual Arts 3701

**3770 Women in Western Society and Culture (II)** are selected themes in the history of women in the modern period with a focus on cultural attitudes toward women, demographic trends affecting women, the impact of changing economic roles, and the development of feminism.  
CR: the former History 3761

**3840 Historical Methods** is an introduction to the methods and practices of history in the modern era. This course is compulsory for Honours students

and recommended for Majors, including those intending to apply for graduate studies. For Historical Studies students at Sir Wilfred Grenfell College this course is required for all majors and minors.

CR: the former History 4801

PR: 12 credit hours in History including History 1100/1101 or permission of the instructor

**4101 The Renaissance in Europe, 1400-1550** is a seminar on the Renaissance in Europe, particularly in Italy and northern Europe, focusing especially on its intellectual and cultural aspects but also the social and gender history of the topic.

CO: History 1100, 1101 and an additional 6 credit hours in History or permission of the instructor

PR: History 1100, 1101 and an additional 6 credit hours in History or permission of the instructor

**4230 Special Topics in Newfoundland History I** are specialized studies in the History of Newfoundland.

**4231 Special Topics in Newfoundland History II** are specialized studies in the History of Newfoundland.

CR: the former Political Science 4731

**4254 Special Topics in Canadian History: A History of Social Welfare** is a study of the broad theme of the state and social welfare in Canada. It examines the origins of modern forms of social control as evidenced in the nineteenth century prison, the lunatic asylum, and the poorhouse. As well, it compares Canadian and British and American social welfare institutions and policies, and traces their historical evolution into the twentieth century.

**4320 Special Topics in European History: The British Empire, 1688 to the Present** has a range of special topics.

**4410-4430 Historical Problems** are specialized studies in historical problems.

**4560-4570 Special Topics in Social and Intellectual History** are specialized studies in social and intellectual history.

**4730 Art History: Modern Art I** is an examination of the cultural, social, and political forces which, from 1750 to 1850, were to have a major impact on modernity and later modern art.

CR: Visual Arts 4730

PR: 6 credit hours in art history or permission of the chair of the Visual Arts Program

**4731 Art History: Modern Art II** is an examination of the various cultural and social forces between 1850 and 1914 which shaped the rise of the Modern movement.

CO: 6 credit hours in art history or permission of the chair of the Visual Arts Program

CR: Visual Arts 4731

PR: 6 credit hours in art history or permission of the chair of the Visual Arts Program

**4821 Reading Course (F and W)** is a directed reading course for Honours and selected students including those intending to apply for graduate studies. Readings will be taken from a list of significant works in History, the Humanities, and the Social Sciences.

PR: permission of the Program Chair

**4950 Independent Project in Historical Studies** will have students complete an independent research project under the supervision of a faculty member or members. Topics must have the approval of the Program Chair of History.

PR: History 3840 and nine other History courses

## 10.17 Human Kinetics and Recreation (HKR)

**3555 Outdoor Recreation Management** is an overview of outdoor recreation practices in Newfoundland and Canada. This course will examine the management of resources, conservation education and practices, development for public use or exclusion; legislation related to management of risk; viability of facilities; national and provincial agencies; private commercial ventures; and future trends in management. Management strategies will form a major part of the course.  
CR: the former RECR 3555 and the former PHSD 3550

**3565 Tourism/Commercial Recreation** will examine behavioural factors influencing tourism; promotion of commercial recreation attractions; provincial strategies in travel and tourism; problems of leisure travel; stability of entrepreneurial ventures in tourism; and research and planning strategies relevant to commercial ventures.

CR: the former RECR 3565 and the former PHSD 3560

**4555 Leadership and Supervision in Recreation** is need, selection, training and supervision of leaders in recreation. Certification, standards and professional organizations. Evaluation of leadership - materials and methods

used. Practical exposure to roles of both leader and supervisor through seminar and related fieldwork.

CR: the former RECR 4555 and the former PHSD 4550

**4575 Recreation Ethics, Issues and Trends** will explore contemporary trends and issues identified by governments and recreation practitioners and the way in which these issues influence the delivery of leisure services.

CR: the former RECR 4575 and the former PHSD 4570

## 10.18 Humanities

**3000 Perspectives in Humanities** will explore the role played by the Humanities in the history of Western Civilization. It will introduce the student to the various interpretations of human experience and activities as provided by the disciplines that belong to Humanities.

PR: 6 credit hours at the 2000-level in any of the Humanities Disciplines

**4000 Concepts and Issues in Humanities** is a seminar course in which themes having common interest to the Humanities will be discussed from the perspectives of the various disciplines.

PR: Humanities 3000, enrollment in the Humanities Program, or permission of the Chair of Humanities

**4950 Independent Project in Humanities** will complete an independent research project under the supervision of a faculty member or members. Topics must have the approval of the Program Chair of Humanities.

## 10.19 Mathematics and Statistics

At most 9 credit hours in Mathematics will be given for courses completed from the following list subject to normal credit restrictions: Mathematics 1000, 1031, 1050, 1051, 1080, 1081, 1090, 1150, 1151.

**102F, 103F and 104F Mathematics Skills Program** are non-credit courses intended for those students who either have a weak background in mathematics or are returning to the subject after some years. The program enables students to master mathematical operations such as those involving whole numbers, fractions, decimals, percents, integers, exponents, linear equations, algebraic and rational expressions, formulas, graphs, systems of linear equations, basic trigonometry, exponents and radicals, and quadratics.

**1000 Calculus I** is an introduction to differential Calculus including logarithmic, exponential and trigonometric functions.

CR: Mathematics 1081

LH: 1.5

PR: Mathematics 1090 or a combination of placement test and high school Mathematics scores acceptable to the Department

**1001 Calculus II** is an introduction to integral Calculus with applications. In addition to three lectures per week there will be a one and one-half hour problem lab.

CR: the former Engineering 1411 and the former Engineering 2413

PR: Mathematics 1000 or Mathematics 1081

**1050 Finite Mathematics I** covers topics which include sets, logic, permutations, combinations, and elementary probability.

CR: the former Mathematics 1150. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it

LC: 4

PR: a combination of placement test and high school mathematics scores acceptable to the department, or Mathematics 103F

**1051 Finite Mathematics II** covers topics which include elementary matrices, linear programming, elementary number theory, mathematical systems and geometry.

CR: the former Mathematics 1151. With the exception of those already admitted at the time of registration in this course to a Bachelor of Education program that requires this course, students who already have obtained credit for 6 or more Mathematics credit hours numbered 2000 or above are not permitted to register for this course nor can they receive credit for it.

LH: 1.5

PR: a combination of placement test and high school mathematics scores acceptable to the department, or Mathematics 103F

**1090 Algebra and Trigonometry (F and W)** provides students with the essential prerequisite elements for the study of an introductory course in calculus. Topics include algebra, functions and their graphs, exponential and logarithmic functions, trigonometry, polynomials, and rational functions.

CR: Mathematics 1000, Mathematics 1001, Mathematics 1080, or Mathematics 1081

LH: 3

PR: a combination of placement test and high school Mathematics scores acceptable to the department or Mathematics 104F

UL: credit will not be given for Mathematics 1090 if any of Mathematics 1000, Mathematics 1001, the former Mathematics 1080, or the former Mathematics 1081 have been completed

**2000 Calculus III** is a study of the differential calculus of functions of two variables, an introduction to convergence of infinite sequences and series.

CR: the former Engineering 1411, the former Engineering 1412, the former Engineering 2412, the former Engineering 2413

LH: 1.5

PR: Mathematics 1001

**2050 Linear Algebra I** includes the topics of Euclidean  $n$ -space, vector operations in 2- and 3-space, complex numbers, linear transformations on  $n$ -space, matrices, determinants, and systems of linear equations.

CR: the former Engineering 2402

PR: A combination of placement test and high school Mathematics scores acceptable to the Department or 3 credit hours in first year Mathematics courses.

**2051 Linear Algebra II** includes the topics of real and complex vector spaces, basis, dimension, change of basis, eigenvectors, inner products, and diagonalization of Hermitian matrices.

PR: Mathematics 1000 and Mathematics 2050

**2090 Mathematics of Finance** covers the following topics: simple and compound interest and discount, forces of interest and discount, equations of value, annuities and perpetuities, amortization schedules and sinking funds, bonds and other securities, contingent payments.

PR: Mathematics 1001

**2130 Technical Writing in Mathematics** is a project oriented course combining mathematical investigation and technical writing. By using computer programming, graphical and typesetting tools, students will explore mathematical concepts and will produce technical reports of professional quality. The latter will combine elements of writing and graphics to convey technical ideas in a clear and concise manner.

PR: Mathematics 1001 and (Computer Science 1510 or 1710 or 2710 or 2602 or permission of the Head of Department)

**2320 Discrete Mathematics** are basic concepts of mathematical reasoning, sets and set operations, functions, relations including equivalence relations and partial orders as illustrated through the notions of congruence and divisibility of integers, mathematical induction, principles of counting, permutations, combinations and the Binomial Theorem.

CR: the former Computer Science 2740

PR: Mathematics 1001 or Mathematics 2050

**2500 Statistics for Business and Arts Students** is descriptive statistics (including histograms, stem-and-leaf plots and box plots), elementary probability, discrete random variables, the binomial distribution, the normal distribution, sampling distribution, estimation and hypothesis testing including both one and two sample tests, paired comparisons, chi-square test, correlation and regression. Related applications.

CR: Statistics 2510, Statistics 2550, and the former Psychology 2900

LH: 1.5

PR: Mathematics 1000 or 6 credit hours in first year courses in Mathematics or registration in at least semester 3 of a Bachelor of Nursing program or permission of the Head of Department.

**2550 Statistics for Life Science Students** is an introduction to basic statistics methods with an emphasis on applications to life sciences and, in particular, to biology. Material includes descriptive statistics, elementary probability, binomial distribution, normal distribution, sampling distribution, estimation and hypothesis testing (both one and two sample cases), chi-square test, one way analysis of variance, correlation and simple linear regression.

CR: Statistics 2500, Statistics 2510, Statistics 2550, and the former Psychology 2900. Statistical computer package will be used in the laboratory, but no prior computing experience is assumed.

LH: 1.5

OR: Statistical computer package will be used in the laboratory, but no prior computing experience is assumed

PR: Mathematics 1000 or Mathematics 1081

**3000 Real Analysis I (F and W)** is proof techniques, structure of  $\mathbb{R}$ , sequences, limits, continuity, uniform continuity, differentiation.

CR: the former Mathematics 2001

LH: 1

PR: Mathematics 2000

**3202 Vector Calculus** deals with functions of several variables. Lagrange multipliers, vector valued functions, directional derivatives, gradient, divergence, curl, transformations, Jacobians, inverse and implicit function theorems, multiple integration including change of variables using polar, cylindrical and spherical co-ordinates, Green's theorem, Stokes' theorem, divergence theorem, line integrals, arc length.

CR: Physics 3810

PR: Mathematics 2000 and Mathematics 2050

**3260 Ordinary Differential Equations I** is direction fields, equations of first order and first degree, higher order linear equations, variation of parameters, methods of undetermined coefficients, Laplace transforms, systems of differential equations. Applications include vibratory motion, satellite and rocket motion, pursuit problems, population models and chemical kinetics.

CR: the former Engineering 3411

PR: Mathematics 2000

**3320 Abstract Algebra** is an introduction to groups and group homomorphisms including cyclic groups, cosets, Lagrange's theorem, normal subgroups and quotient groups, introduction to rings and ring homomorphisms including ideals, prime and maximal ideals, quotient rings, integral domains and fields.

PR: Pure Mathematics 2320

**3330 Euclidean Geometry** is classical Euclidean geometry of the triangle and circle. The inversion transformation, including the theorem of Feuerbach. Elliptic and hyperbolic geometries.

PR: Pure Mathematics 2320 or Mathematics 2051

**3340 Introductory Combinatorics** includes Topics such as distributions, the binomial and multinomial theorems, Stirling numbers, recurrence relations, generating functions and the inclusion-exclusion principle. Emphasis will be on applications.

PR: Pure Mathematics 2320

**3370 Introductory Number Theory** is perfect numbers and primes, divisibility, Euclidean algorithm, greatest common divisors, primes and the unique factorization theorem, congruences, cryptography (secret systems), Euler-Fermat theorems, power residues, primitive roots, arithmetic functions, Diophantine equations, topics above in the setting of the Gaussian integers.

PR: Pure Mathematics 2320

**3410 Mathematical Statistics I** is basic probability concepts, combinatorial analysis, conditional probability, independence, random variable, distribution function, mathematical expectation, Chebyshev's inequality, distribution of two random variables, binomial and related distributions, Poisson, gamma, normal, bivariate normal, t, and F distributions, transformations of variables including the moment-generating function approach.

OR: one and a half hour tutorial period weekly

PR: Mathematics 2000

## 10.20 Philosophy

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Division.

**1200 Principles of Philosophy** is a general introduction to the study of Philosophy both as a contemporary intellectual discipline and as a body of knowledge. The course covers the main divisions, fundamental questions and essential terminology of Philosophy through a reading of classical texts (It is a required course for further courses in Philosophy programs. It is intended for students in first year who have completed one semester of university education).

**1600 Philosophy of Human Nature** is an approach to philosophical thinking by way of analysis and critique of theories of human nature, classical and modern, and the world views associated with them.

CR: former Philosophy 1001

**2210 Logic** is an introduction to traditional and modern logic open in any year to all students wishing acquaintance with basic logical skills.

**2220 Principles of Human Knowledge** are various concepts of knowledge - empirical, rational, transcendental, systematic. Their metaphysical grounds and implications. The concept of scientific knowledge; real and abstract entities; objectivity and subjectivity.

**2551 Health Ethics** examines concepts of health and illness and their ethical implications.

CR: the former PHIL 2803

**2561 Environmental Ethics** examines concepts of nature and their ethical implications.

CR: the former PHIL 2809

**2581 Philosophy of Film** introduces some of the central philosophers, topics and themes in the philosophy of film. Topics and themes include: the nature of film image, the relationship between film and "reality", the social/political role and function of film and the nature and value of the documentary. The course will also consider the representation of broader philosophical idea in film. A film or films will accompany each section.

**2701 History of Ancient Philosophy** is a survey of the origin and development of Western philosophy among the Greeks and Romans.

CR: Classics 2701

**2702 History of Modern Philosophy** is survey of the development of western Philosophy since the seventeenth century.

CR: the former Philosophy 3700, the former Philosophy 3701, and Philosophy 2702

**3400 Political Philosophy** is leading philosophical ideas concerning the origin and justification of political institutions.

**3610 Philosophy and Literature** is a study of the interrelationship of thought and imagination in philosophical and literary forms of writing.

**3730 Plato** is selections from the works of the Greek "lovers of wisdom" - the first philosophers - particularly Plato.

**3740 Aristotle** is the works and legacy of perhaps the most influential systematic thinker of all time.

**3860 Hegel** is selections from Hegel's system with emphasis on the nature of dialectical and speculative philosophy and its enormous influence in the present time.

**3940 Existentialism** is the philosophy and literature of Existentialism from Kierkegaard, Nietzsche and Dostoevsky to Sartre, de Beauvoir and Camus.

CR: Philosophy 3940

**4250 Seminar in Metaphysics and Epistemology**

**4700 Seminar in Special Authors and Texts** will have topics to be studied announced by the Department.

## 10.21 Physics

**1020 Introductory Physics I** is a non-calculus based introduction to mechanics.

CO: Mathematics 1090

CR: Physics 1050

LH: 3

PR: Level III Advanced Mathematics or Mathematics 1090. It is recommended that students have completed at least one of level II and level III high school physics courses, however this course may be completed by someone who has no physics background provided some extra effort is made.

**1021 Introductory Physics II** is a non-calculus based introduction to fluids, wave motion, light, optics, electricity and magnetism.

CO: Mathematics 1000

LH: 3

PR: Physics 1020 or Physics 1050 and Mathematics 1000.

**1050 General Physics I: Mechanics** is a calculus based introduction to mechanics. The course will emphasize problem solving.

CO: Mathematics 1000

CR: Physics 1020

LH: 3

PR: Mathematics 1000, which may be taken concurrently

**1051 General Physics II: Oscillations, Waves, Electromagnetism** is a calculus based introduction to oscillations, wave motion, physical optics and electromagnetism.

CO: Mathematics 1001

LH: 3

PR: Physics 1050 or Physics 1021 or Physics 1020 (with a minimum grade of 65%) and Mathematics 1001.

**2056 General Physics VI: Modern Physics (W)** is special relativity, quanta of light, atomic structure and spectral lines, quantum structure of atoms and molecules, nuclei and elementary particles.

CO: Mathematics 1001 and Physics 1051

CR: Physics 2750

LH: 3

PR: Mathematics 1001, Physics 1050 (or Physics 1020 and Physics 1021), and Physics 1051.

**2065 Experimental and Computational Physics** is laboratory techniques, including experimental method and design. Data analysis, including application of statistics to experimental physics. Numerical analysis using Maple, and an introduction to modelling in physics. Topics are introduced through experiments, complementary lectures, and library research of some of the great experiments of physics.

CO: Mathematics 2050

LH: 3

PR: Physics 1051 (or the former Physics 2054), Mathematics 1001, and Mathematics 2050. Students who have completed Physics 1020/1021 will be allowed to register for Physics 2065 with the permission of the Instructor and the Program Chair.

**2151 Stellar Astronomy and Astrophysics (W)** is atomic structure and spectra. The sun: radiation, energetics, magnetic field. Stars: distance,

velocity, size, atmospheres, interiors. Variable stars, multiple stars, clusters and stellar associations. Stellar evolution, interstellar matter, structure of the Milky Way Galaxy. Exterior galaxies, quasi-stellar objects, pulsars. Cosmology.

PR: six credit hours in Mathematics at the first year level

**2553 Introduction to Analog and Digital Electronics** covers the basics of the analog and digital electronics; direct current circuits, capacitors and inductors, alternating currents, test equipment and measurement, transducers, diodes and transistors, introduction to operational amplifiers, digital basics, digital circuitry and digital analog I/O. This course is a combined lecture/laboratory course with two three-hour sessions scheduled per week.

PR: Physics 1021 or 1051 and Mathematics 1000 or equivalent

**3060 Electricity and Magnetism** is point charges; Coulomb's law; electrostatic field and potential; Gauss' law; conductors; magnetostatics; Ampere's law; Biot-Savart law; dielectric and magnetic materials; electrostatic and magnetostatic energy; Lorentz force; time varying fields; Faraday's law; Lenz's law; Maxwell's equations.

CO: Applied Mathematics 3260

LH: 3

PR: Physics 1051 and Applied Mathematics 3260.

**3160 Stellar and Galactic Astronomy** is the physics and mathematics of stars and galaxies. Orbits and the two-body problem, radiation and matter, theory of stellar atmospheres, structure and evolution of stars. Galaxies: Morphology and kinematics. Milky Way kinematics and structure, large-scale star formation, the distribution of interstellar matter in galaxies. Starburst and active galaxies. An introduction to cosmology.

CR: Physics 3150 and Physics 3151

PR: Physics 2056, 2151 and Mathematics 2000. Physics 3220 is recommended.

**3220 Classical Mechanics I** is kinematics and dynamics of a particle. Moving reference systems. Celestial mechanics. Systems of particles.

CO: Applied Mathematics 3260

PR: Physics 2820 and Applied Mathematics/Pure Mathematics 3260.

**3820 Mathematical Physics II** examines the functions of a complex variable; residue calculus. Introduction to Cartesian tensor analysis. Matrix eigenvalues and eigenvectors. Diagonalization of tensors. Matrix formulation of quantum mechanics. Quantum mechanical spin. Vector differential operators in curvilinear coordinate systems. Partial differential equations of Mathematical Physics and boundary value problems; derivation of the classical equations, separation of variables; Helmholtz equation in spherical polar coordinates.

PR: Applied Mathematics/Pure Mathematics 3260, and PHYS 3810 (or Applied Mathematics/Pure Mathematics 3202).

## 10.22 Political Science

**1000 Introduction to Politics** is an introduction to basic concepts in the study of politics, power, law, public policy and government, touching on major areas of political ideologies, institutions, and current domestic and international political issues. Suitable for students in all disciplines seeking an introduction to Political Science.

**1010 Canadian Political Problems** explores some of Canada's most pressing and interesting political issues. This course profiles important political problems facing federal and provincial politicians and society. Suitable for students in all disciplines who have an interest in Canadian politics and who wish to develop a basic awareness of Canadian government.

**1020 Issues in World Politics** explores some of the world's most pressing and interesting political issues. This course profiles important political problems, such as a power struggle within a particular country, a controversial topic that affects an entire continent, or a major crisis that has implications for inhabitants around the world. Suitable for students in all disciplines who have an interest in international politics.

**2200 Introduction to International Politics** is an examination of the "building blocks" of international politics including determinants, means, processes and ends. Emphasis is on the post-1945 period.

**2300 Introduction to Comparative Politics** is an introduction to comparative politics and techniques of comparative analysis across political jurisdictions. This course focuses on the differences between, and similarities among, a variety of countries and systems of government.

**2500 Introduction to Political Behaviour** is an introduction to classics and controversies in the understanding of political behaviour. Topics include political culture and individual behaviour, public opinion, voting and elections, political participation, psychological dimensions of activism, and social movements.

**2600 Introduction to Public Policy and Administration** outlines major concepts in, and issues relating to, the fields of public policy and

administration. Examines and assesses government organization and decision-making. Topics may also include social, economic and health policy.

CR: the former POSC 3540

**2800 Introduction to Canadian Politics and Government** is an introduction to the structure and operations of institutions of Canadian government and the nature of political actors. Topics to be examined may include the constitution, federalism, parliament, political parties, political culture and elections.

CR: the former POSC 2710

**3550 Politics and the Environment** is an examination of the environmentalist movement, interest groups, and green parties; the impact of environmentalism on conventional parties and public opinion; and the dynamics of support for and opposition to the achievement of environmentalist objectives.

**3731 Environmental Policy** is an examination of the formation, implementation, and impact of public policies concerning the environment including an examination of different policy approaches and the problems of environmental regulation.

## 10.23 Psychology

Psychology 1000 and Psychology 1001 are prerequisites for all Psychology courses.

**1000 and 1001 Introduction to Psychology** is an introduction to Psychology as a biological and social science. Topics shall include research methodology, physiological processes, perception, learning, memory and cognition, human development, animal behaviour, emotion, motivation, consciousness, personality and individuality, psychological disorders and treatment, and social psychology.

PR: Psychology 1000 is a prerequisite for Psychology 1001

**2925 Research Methods and Data Analysis in Psychology I** will cover basic research methods and supporting statistical concepts and techniques. Basic methods will include observational techniques, correlational studies, and surveys. Supporting statistical concepts will include populations and samples, measures of central tendency and variability, basic probability, correlation, simple linear regression and validity and reliability. Supporting statistical techniques will include producing tables and graphs, and the calculation and interpretation of measures of central tendency, variability, probabilities, correlation, and simple linear regression. Students will also learn how to write a description of a simple study in basic APA style, and how to use a statistical package to analyse surveys and calculate correlation. Basic ethical principles in conducting research will be introduced. This course includes a weekly laboratory.

CR: Psychology 2910, Statistics 2500, Statistics 2510, Statistics 2550, and the former Psychology 2900

**2950 Research Methods and Data Analysis in Psychology II** will cover basic experimental methods and supporting statistical concepts and techniques. Basic designs will include one factor designs (independent and repeated measures). Supporting statistical concepts will include statistical sampling distributions (t and F), internal and external validity, hypothesis testing, and simple interactions. Supporting statistical techniques will include independent and repeated measures t-tests, one-factor independent and repeated measures ANOVA, and selected multiple comparisons techniques. Students will also learn how to write a description of an experiment in APA style, how to critically analyse a report of an experiment, how to use and interpret a statistical package to analyse experimental data, and how to conduct literature searches.

CR: the former Psychology 2901, Statistics 2501, and Statistics 2560

LH: a weekly laboratory

PR: Psychology 2925 or equivalent

**3950 Research Methods and Data Analysis in Psychology III** will cover advanced research methods, including survey methods, and supporting statistical concepts and techniques. Designs will include single factor designs and multi-factor designs with both random and fixed factors. Supporting statistical concepts will include analysis of variance (ANOVA) from a linear model perspective, statistical power, and multiple regression, including model building. There may be a general introduction to multivariate statistical techniques. Ethical issues in research will be discussed in detail. Students will be required to design and carry out at least one research project from the design to the writeup stage, including an ethics review.

CR: Psychology 3900, Statistics 3520, the former Psychology 3520

LH: a weekly laboratory

PR: Psychology 2950 or equivalent

### 10.23.1 Survey Courses

**2025 Survey of Developmental Psychology** is a survey of the cognitive, social, and personality development of people. Development will be tracked from the prenatal stage to old age. Topics to be studied shall include: research methodology, genetics, prenatal development, environmental

effects during prenatal development, attachment, emotional development, language development, intelligence, cognitive development, socialization, sex-roles and gender identity, adolescence, adulthood and aging.

CR: Psychology 2010 and Psychology 2011

**2125 Survey of Social Psychology** is a survey of how the behaviour of individuals is influenced by others. Topics to be studied shall include: methodology and ethics, social cognition, social perception, attitude formation and change, interpersonal attraction, social influence, group processes and leadership. Additional topics may include: aggression, prosocial behaviour, sex and gender, environmental effects, organizational behaviour, health, stress and psychology and the law.

CR: Psychology 2100 and Psychology 2120

**2225 Survey of Learning** is a survey of learning phenomena and learning theories. Topics to be studied shall include: the evolutionary context of learning, habituation and sensitization, imprinting, Pavlovian conditioning, instrumental learning, generalization and discrimination in learning and neural mechanisms of learning.

CR: Psychology 2240 and the former Psychology 2250

**2425 Survey of Cognitive Psychology** is a survey of how humans process and retain information. Topics to be studied shall include: perception and pattern recognition, attentional processes and memory. The influence of stored information on selected behaviours will be considered. Selected behaviours may include language processing, concept formation, problem solving, decision making and practised and skilled performance.

CR: Psychology 2440 and Psychology 3450

**2625 Survey of Personality** is a survey of the theories of personality and relevant selected areas of research in the area of personality. Issues related to the application of this information to understanding abnormal behaviour will also be discussed. Theoretical systems covered will include: psychodynamic theory, behaviourism and cognitive-behavioural theory, humanism, traits and dispositions, social learning theory, psychological constructivism, information processing and biological theories of personality.

CR: Psychology 2610, the former Psychology 2620, and the former Psychology 2200.

**2825 Survey of Biological Psychology** is a survey of the biological bases of behaviour. Topics to be studied shall include: the structure and function of the nervous system, sensory structures and sensory coding, homeostasis, emotions, circadian rhythms and sleep, sexual behaviour, psychopharmacology, consciousness and language, behavioural evolution and behaviour genetics.

CR: Psychology 2810 and the former Psychology 2850

## 10.23.2 Contemporary Issues Courses

### 3025 Contemporary Issues in Developmental Psychology

PR: Psychology 2925 and Psychology 2025

**3040 Psychology of Death and Dying** will use psychological research, theory, and clinical experience to study death, dying and bereavement throughout the life cycle. Some selected topics include understanding death, the process of dying, care of the dying, medical ethics, suicide, and the psychological impact of life-threatening conditions. In addition, trauma, grief, and bereavement in children, adolescents, and adults will be explored.

CO: Psychology 1000 and 1001

PR: Psychology 1000 and 1001

### 3125 Contemporary Issues in Social Psychology

PR: Psychology 2925 and Psychology 2125

**3126 Psychology of Women** explores the psychology of women from varying cultural perspectives, such as racial, sexual orientation, age and class. Topics include the history of women in psychology, women's development across the life span, women and social relationships, and violence against women.

CO: Psychology 1000 and 1001

PR: Psychology 1000 and 1001

### 3225 Contemporary Issues in Learning

PR: Psychology 2925 and Psychology 2225

**3226 Contemporary Issues in the Psychology of Education** is an introduction to the application of psychology to issues in education in a variety of settings. It examines the theoretical and applied aspects of learning and cognitive development; motivation; personal and social development; and evaluation, measurement, and assessment.

CO: Psychology 1000 and 1001

PR: Psychology 1000 and 1001

### 3325 Contemporary Issues in Sensation and Perception

PR: Psychology 2925 and Psychology 2425 or Psychology 2825

### 3425 Contemporary Issues in Memory and Cognition

PR: Psychology 2925 and Psychology 2425

### 3525 Contemporary Issues in Emotion

PR: Psychology 2925 and any Survey Course in Psychology from the Sir Wilfred Grenfell College Psychology Program

### 3625 Contemporary Issues in Personality

PR: Psychology 2925 and Psychology 2625

### 3626 Contemporary Issues in Abnormal Psychology

CR: Psychology 3640, Psychology 3650, and the former Psychology 3600

PR: Psychology 2925 and Psychology 2625

### 3627 Contemporary Issues in Psychotherapy

PR: Psychology 2925 and Psychology 2625

### 3628 Contemporary Issues in Psychological Testing and Measurement

PR: Psychology 2950 and any one of Psychology 2025, Psychology 2125, Psychology 2425, Psychology 2625.

### 3725 Contemporary Issues in Animal Behaviour

PR: Psychology 2925 and Psychology 2825 or Psychology 2225

### 3825 Contemporary Issues in Physiological Psychology

PR: Psychology 2925 and Psychology 2825

## 10.23.3 Senior Courses

**4910 Systems of Psychology** is a study of paradigms and explanations in contemporary psychology in the context of their historical antecedents.

PR: 78 credit hours in University courses including (a) 6 credit hours in Psychology laboratory courses from Clause 1(b) of the Requirements for a Major in Psychology or (b) Psychology 3425 or Psychology 3950

**4925 Senior Seminar in Psychology** is weekly seminars for faculty and senior students in Psychology. Current issues in academic and professional psychology shall be discussed.

PR: 30 credit hours in Psychology including Psychology 3950 or permission of the Chair of Psychology

**4950 Independent Project in Psychology** is under the supervision of a Faculty member where students will independently carry out approved projects and prepare reports of their findings.

CR: Psychology 4951

PR: 30 credit hours in Psychology including 3950 or permission of the Chair of Psychology

**4951 Honours Project in Psychology I** is under the supervision of a Faculty member and each student will independently review an area of psychology and prepare a thesis proposal for further investigation.

CR: Psychology 4951

PR: 30 credit hours in Psychology including Psychology 3950 or permission of the Chair of Psychology and admission to the Honours program in Psychology

**4959 Honours Project in Psychology II** is a continuation of Psychology 4951. Under the supervision of a Faculty member, each student will independently carry out an approved project which will result in an honours thesis.

PR: Psychology 4951 or the permission of the Chair of Psychology and admission to the Honours program in Psychology

## 10.24 Religious Studies

Unless otherwise specified, Religious Studies courses do not have prerequisites. Students who register in a 3000- or 4000-level course are encouraged, however, to make sure that they have adequate preparation for that course, preferably by having completed a first- or second-year course in the field.

**1000 The Religions of the World** is an introduction to the basic beliefs and practices of the world's great religions.

CR: the former Religious Studies 2010

**1032 Introduction to Asian Religions and Culture** is a broadly based survey course introducing students to the religions, culture, and societies of Asia. Traditions explored may include those of India (Hinduism, Buddhism, Sikhism, Jainism), China (Daoism, Confucianism, Buddhism), Japan (Shinto, Zen Buddhism), and Korea.

**2013 Introduction to Christianity** is a study of the Christian tradition, its development and variety. The course will include an examination of the beliefs and practices of both Eastern and Western Christianity and a study of the main differences among the major Western denominations.

**2050 Introduction to the Old Testament** is an introduction to the historical background, literary structure, and content of the Old Testament. Emphasis will be placed on the authorship and dating of the various texts that comprise the Old Testament, as well as on major themes, figures, and events. This course may qualify as a Research/Writing course. Consult each semester's registration materials for the R/W designation.

**2051 Introduction to the New Testament** is an introduction to the history and literary structure of the documents comprising the New Testament. Emphasis will be placed on the major themes found in these documents and on the distinctiveness of approach of the individual writers.

**2350 Religious Institutions** is psychological, anthropological, and sociological approaches to the nature of religion. Comparative study of religious institutions and beliefs, calendrical feasts and solemnities, the nature of sacrifice and the sacred, religious roles and hierarchies, ritual innovation and revitalization.

CR: Sociology/Anthropology 2350

**2400 Introduction to Buddhism** is a study of the history of the Buddhist tradition in India and China, the development of the main lines of Buddhist thought, and the nature of the Chinese transformation of Buddhism.

CR: the former Religious Studies 3400

**2410 Introduction to Hinduism** involves a study of the religious thought and history of India, the literature of Hinduism, the major thinkers in Hindu philosophy, and the role of Hinduism in the culture and society of India.

CR: the former Religious Studies 3410

**2610 Introduction to Religious Ethics** is an introduction to religious ethics through the systematic study of selected writers and issues in biomedicine, human sexuality, and social justice. Possible topics for discussion include euthanasia, abortion, poverty, and unemployment.

CR: the former Religious Studies 2600 and the former Religious Studies 2601

**3010 Greek Religion** is a study of the role of religion in the private and public life of the Greek world.

CR: Classics 3010 and the former Religious Studies/Classics 3121

**3020 Roman Religion** is a study of the role of religion in the private and public life of the Roman world.

CR: Classics 3020 and the former Religious Studies/Classics 3121

**3200 Jesus: His Life and Teaching** is a study of the ministry and thought of Jesus of Nazareth as contained in the Gospels and other New Testament writings. Attention will be given to the methods and conclusions of recent scholarship as applied to his principal teachings and to the study of the historical Jesus.

**3210 Paul and His Writings** is a study of the Pauline writings and an appraisal of the contribution to Christianity of his mission and theology on the basis of New Testament and other relevant material. Particular attention will be given to such related themes as salvation, reconciliation, grace, and justification.

**3310 Judaism at the Beginning of the Christian Era** will explore the developments in Jewish thought, institutions, beliefs, and practices during the time when Greek and Jewish cultures encountered one another and in which Jesus of Nazareth lived.

CR: the former Religious Studies 3220

**3401 Zen, Buddhist Meditation, and Buddhist Psychology** examines the relationship between meditation and theories of human psychology in Buddhism from its origins to its formulation in Zen.

**3820 Religion and the Arts** is an examination of the role of art in the expression of religious ideas, together with a study of specific religious themes and concerns in one or more of the following: literature, film, music, painting, sculpture and dance.

CR: Visual Arts 3820

**3831 Religious Themes in Contemporary Songwriting** is a study of religious themes in contemporary songwriting through the in-depth examination of the work of a selection of contemporary songwriters. The course will explore how religious questions and themes are handled in contemporary song and explore how song as an artistic medium expresses religious meaning. Songwriters to be explored may include the following: Bob Dylan, Bob Marley, Joni Mitchell, Leonard Cohen, Van Morrison, Tori Amos, Nick Cave, Alanis Morissette, Julie Miller, the Louvin Brothers, the Stanley Brothers, Hank Williams, etc.

**3880 Spirituality and the Earth** is an examination of the attitudes of various religious traditions to the environment. Special attention will be paid to Native American spirituality.

CR: 3 credit hours in Religious Studies beyond the first year level or departmental permission

## 10.25 Science

**3000 Concepts, Methods and Issues in Science I** is the origin of the universe; formation of matter and its nature; origin of the solar system; evolution of the earth and its biosphere; theories of origins of life; mechanisms of evolution and speciation.

PR: at least 45 credit hours

UL: may not be used towards fulfillment of the 78 Science credit hours required for the Bachelor of Science Degree

**3001 Concepts, Methods and Issues in Science II** is genetic and molecular engineering; behavioural biology; genetic determinism versus environmentalism; artificial intelligence. The paradoxes of the quantum world; the scientific method; science and pseudoscience.

PR: completion of at least 45 credit hours

UL: may not be used towards fulfillment of the 78 Science credit hours required for the Bachelor of Science Degree

**4000 Senior Science Seminar** is a review of current topics in science discussed in a seminar format. Seminars will be presented by faculty, students and guest speakers. This will be a designated Writing Course.

PR: Permission of the Program Chair. This course is restricted to students in the General Science program who have completed 80 credit hours or more.

**4950 Senior Project** requires students to work either individually or in pairs on developing a poster presentation on specific scientific topics of current interest. This will require a detailed proposal, followed by the necessary relevant research in appropriate journals and Internet sources. Participants in this course will organize a mini-conference, to be held at the end of semester, at which these posters will be presented. Where appropriate, students will be encouraged to integrate knowledge from at least two different scientific disciplines in the development of this project. This will be a designated Writing Course.

PR: This course is restricted to students in the General Science program who have completed 80 credit hours or more.

**4951 Honours Project I** is the preparation of a project proposal under the guidance of a faculty supervisor, including a comprehensive bibliographical review, with the aim of producing a well-annotated Bibliography. This will be a designated Writing Course.

PR: Permission of the Program Chair. This course is restricted to students in the General Science program who have completed 80 credit hours or more.

**4959 Honours Project II** is a continuation of Science 4951. Under the supervision of a Faculty Advisor, students will prepare an Honours Thesis. The preparation of this will entail some original research, and will require the student to integrate knowledge from at least two disciplines. This will be a designated Writing Course.

PR: Science 4951 and permission of the Program Chair

## 10.26 Social/Cultural Studies

**4000 Interdisciplinary Seminar in Social/Cultural Studies** is conducted through faculty presentations, assigned readings and group discussions and students will learn how to engage and evaluate the broad debates within Anthropology, Folklore and Sociology. Rather than focus on narrow substantive material from the disciplines, this seminar will emphasize the larger shifts and challenges which have led to new topics and methods of analysis within the social sciences.

PR: completion of 90 credit hours or more and admission to Social/Cultural Studies

**4100 Issues in Cultural Studies** represents an examination of the concept of culture, as it is presently used within Anthropology, Folklore and Sociology. Particular attention will be paid to the area of Cultural Studies, and the ways in which that approach has re-energized an interest in the role of culture in modern society.

PR: completion of 90 credit hours or more and admission to Social/Cultural Studies

**4950 Independent Project in Social/Cultural Studies** is under the supervision of a faculty member and students will independently carry out approved projects of direct relevance to social and cultural phenomena, and prepare reports of their findings.

PR: Social/Cultural Studies 4000

## 10.27 Sociology

Sociology 1000 or Sociology 2000 are prerequisites for all further Sociology courses except Sociology 2250 and those cross-listed with Anthropology. Credit is not given for both Sociology 1000 and Sociology 2000. Before taking 3000-level courses, students should have taken at least 6 credit hours in courses below the 3000 level. Courses at the 4000 level will normally be taken by students who have previously taken at least 9 credit hours in courses at the 3000 level.

The following courses, cross-listed with Anthropology and identified by the prefix "S/A", are also taught at the introductory level: 2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280, and 2350. A minimum of two of these courses is prerequisite to further cross-listed courses. These courses are open to be taken as first courses or may be taken to follow up a Sociology introductory course.

**2000 Introduction to Sociology** is an introduction to the concepts, principles, and topics of Sociology. This course is restricted primarily to first-year students.

CR: Sociology 2000

**2100 Social Inequality** introduces the subject of social inequality and stratification, examines social inequality in historical perspective, reviews major theories about social inequality, and considers key social developments in contemporary societies in the area of social inequality.

**2120 Technology and Society** is an examination of the role of technology in society. Topics may include the emergence of modern technological society, the impact of new technologies on social organization and culture and the institutionalization of science and the production of scientific knowledge. The course also explores the ideological functions of science and technology in advanced industrial societies as well as the question of "the domination of nature".

**2200 Communities (S/A)** is an interdisciplinary examination of the concept of Community. Readings will include community studies from North America and Europe.

**2210 Communication and Culture (S/A)** is an examination of verbal and non-verbal systems of communication, and the influence of language on human cognition.

**2230 Newfoundland Society and Culture (S/A)** is the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary island Newfoundland.

CR: Folklore 2230

**2240 Canadian Society and Culture (S/A)** is a descriptive and analytic approach to the development of Canadian society and culture.

**2250 Changing World** is sociological analysis of contemporary world issues and social problems.

**2260 War and Aggression (S/A)** is critical review of ethological, psychological and sociological approaches to the understanding of violence and organized aggression.

**2270 Families (S/A)** is a comparative and historical perspective on the family as a social institution, the range of variation in its structure and the determinants of its development.

**2280 The City (S/A)** examines varieties of urban life around the world and through history. The city as habitat and as spectacle.

**2350 Religious Institutions (S/A)** is comparative study of religious institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization.

CR: Religious Studies 2350

**2610 Socialization** is an examination of the social and social psychological processes by which individuals become members of human groups.

CR: the former Sociology 4610

**3040 Introduction to the Methods of Social Research** has as its objectives (1) to introduce basic concepts underlying research in the social sciences, and (2) to make students familiar with some techniques that are useful in the analysis of a wide range of sociological data and that represent a good foundation for later study of more advanced techniques.

**3140 Social Movements (S/A)** is an examination of social movements which challenge prevailing social institutions and cultural values. Social movements considered may include religious cults and sects, millenarian movements, attempts at utopian and communal living, feminism, labour and revolutionary movements.

**3150 Classical Social Theory** is an introduction to the work of major 19th- and early 20th-century social theorists including Marx, Durkheim, Weber and Freud.

**3160 Contemporary Social Theory** is an exploration of selected topics from issues in contemporary social theory, including theories of feminism, the state, the environment, culture, organization, and communication.

PR: Sociology 3150

**3210 Persistence and Change in Rural Society (S/A)** assesses the social and cultural significance of the rural experience in the face of expanding urbanism. Topics may include (a) the nature of rural society in Canada, (b) similarities between Canadian and European rural society, (c) utopian and anarchist movements in rural life, and (d) reaction of agricultural populations to external influence.

**3290 Deviance** is major sociological theories and methodological techniques central to the study of deviance and crime are outlined and evaluated. The distribution, attributes and explanations of a variety of forms of deviance are examined, which may include violence, sexual deviance, delinquency, addiction, mental disorder, theft, organized crime, political deviance and corporate deviance.

**3314 Gender and Society (S/A 3314)** is an examination of biological, psychological, social and cultural aspects of gender, with an emphasis upon contemporary directions of change in sex roles.

**3395 Criminal Justice and Corrections** provides an introduction to the operation of the Canadian criminal justice system. Topics to be examined may include the origin, nature and utilization of criminal law, policing, adult and juvenile courts, sentencing, correctional institutions, and community based corrections (probation, parole, community service). Criminal justice policy formulation and application are also discussed.

PR: Sociology 3290

**3731 Sociology of Culture** is a comparative examination of major contemporary sociological texts on the relationship between culture, broadly understood as symbolic systems, and social structure.

**4071 Social and Cultural Aspects of Health and Illness** covers topics which may include: cultural concepts of illness and health; theories of disease causation; relationships between social life and illness patterns; symbolic use of illness; variations in philosophies of treatment and in practitioner/patient relationships; the social organization of medicine. Open to those without normal prerequisites by permission of the Instructor.

**4072 Social and Cultural Aspects of Death (S/A)** will cover topics which may include: symbolic meanings and values attached to death; cultural and historical variations in the management of death, e.g. treatment of the 'terminally ill', burial rites, the mourning process, and the social fate of survivors, together with the social and psychological meanings of these behaviours. Open to those without normal prerequisites by permission of the Instructor.

## 10.23 Sustainable Resource Management

**2000 Sustainable Resource Management I: Marine and Terrestrial Environments** is an introduction to the interdisciplinary field of sustainable resource management, including marine and terrestrial environments. The course focuses on sustainable practices rather than profit or resource extraction optimization. First Nations' perspectives will also be considered.

PR: Geography 1000 or Geography 1050

**2001 Sustainable Resource Management II: Industry-Specific Approaches** develops the topics presented in Sustainable Resource Management 2000 with reference to specific industries such as the fishery, forests, mining, oil and gas, soils, and water. This course traces the importance of resources in their historical context both locally and globally.

PR: Sustainable Resource Management 2000

**3000 Regional Planning and Management** is an introduction to the concepts and processes of regional planning, development, and management. The course addresses planning history and dominant historical contributions to regional, urban, and rural morphology. Planning theory, planning practice, and management strategies are studied.

PR: Sustainable Resource Management 2000 and Sustainable Resource Management 2001

**3001 Environmental Planning and Management** focuses on balancing economic growth and environmental objectives. Environmental risk analysis, environmental auditing, and First Nations' perspectives will also be studied.

PR: Sustainable Resource Management 3000

**3002 Biodiversity** focuses on the three dimensions of biodiversity (genetic diversity, species diversity, and ecosystem diversity) and their relationships. Biodiversity will be addressed from an interdisciplinary perspective as genes, species, and ecosystems are of economic and biological interest.

PR: Biology 1001, Sustainable Resource Management 2000, and Sustainable Resource Management 2001

**4000 Remote Sensing, Image Interpretation, and Resource Management** builds on topics introduced in Environmental Studies 2000 and Environmental Studies 3001. The course addresses the use of remotely-sensed images to track the location, health, and variety of natural resources such as forests, crops, and migratory populations. The lab component of the course employs GIS, GPS, satellite imagery, and aerial photography to address research concerns such as oil spills, forest fire management, iceberg tracking, ocean temperature monitoring, mining exploration, and oil and gas development.

LH: 3

PR: Environmental Studies 2000 and Environmental Studies 3001

**4001 Renewable and Non-Renewable Energy Resources** presents an interdisciplinary approach to renewable and non-renewable energy resources and their management. The course examines the existing industrial economy's dependence on fossil fuels and studies renewable energy resources such as wind, solar, and geothermal.

PR: Sustainable Resource Management 2000

**4002 Risk Assessment and Management** is an introduction to risk assessment and management as interdisciplinary processes.

PR: Environmental Studies 4000

**4003 Environmental Law** is an introduction to laws protecting the environment in Canada and elsewhere. The course examines environmental rules and activities through the study of legal precedents and contexts. Laws and policies of the federal, provincial, and local levels of government (including those pertaining to First Nations) are addressed insofar as they affect the environment. Case studies are employed.

PR: Environmental Studies 1000 and Sustainable Resource Management 2000

**4010 Research Seminar in Sustainable Resource Management** is the senior seminar in which selected sustainable resource management topics are examined from an interdisciplinary perspective. The seminars are presented on current research and environmental issues by faculty, students, and guest speakers from universities, government, and industry.

PR: Enrolment in the final year of the Sustainable Resource Management program or permission of the program Chair.

**4901-4910 Special Topics in Sustainable Resource Management** will have topics to be studied announced.

PR: Sustainable Resource Management 2000 and Sustainable Resource Management 2001

**4950 Independent Research Project** requires that students carry out an approved project on a topic in Sustainable Resource Management and prepare a major paper under the supervision of a faculty member. Students will undertake both a systematic literature review and independent research.

PR: Permission of the Sustainable Resource Management Chair

## 10.29 Theatre

**1000 and 1001 Introduction to the History of Theatre I and II** are historical surveys of the art of the theatre. The history of theatre will be studied in terms of the evolution of performance and of the physical theatre from their origins in a variety of social rituals and contexts through to their present plurality of forms. At the same time, the nature and function of the various components of theatrical performance (acting, directing, design, etc.) will be analysed in terms of period philosophical, social, cultural, political and religious contexts. These courses are open to non-theatre students.

**1010 Introduction to Acting** is an appreciation of the fundamentals of the craft of acting. Basic exercises in voice, movement, relaxation and concentration, improvisation and script analysis will introduce the student to the imaginative and physical skills required by an actor. This is a basic course for both Acting and Stagecraft majors.

AR: attendance is required  
OR: 6 hours of studio per week

**1020 Introduction to Stagecraft** is an appreciation of the basic vocabulary and techniques of the various technical and organizational structures and practices of staging plays. Areas of concentration will include scenic and costume construction, basics in lighting, painting, props, sound and stage management. This is a basic course for both Acting and Stagecraft majors.

AR: attendance is required  
OR: 6 hours of studio per week

**1110 Acting I** is an introductory course for those majoring in acting. Emphasis on voice, speech, movement and text analysis. Various learning methods will be employed, from sensitivity exercises to improvisation and creative imagination exercises. Participation in in-class performance is required.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 1000, Theatre 1010, and Theatre 1020 and admission to the Theatre Major

**1120 Stagecraft I** is an introductory course for those majoring in stagecraft. Emphasis on the fundamentals of scenic carpentry, wardrobe, sound, lighting, crewing, painting and stage management.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 1000, Theatre 1010, and Theatre 1020

**2010 and 2011 Acting II** are second level courses for Acting Majors. Emphasis is on speech, text analysis and scene study. Various techniques and texts will be employed to root the student in the fundamental process of acting. A beginning approach to understanding the body as an instrument and the techniques required to use the instrument.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 1001 and Theatre 1110. Theatre 2010 is a prerequisite for Theatre 2011 and admission to the Acting Major

**2020 and 2021 Stagecraft II** are second level courses for the Stagecraft Major. Emphasis is on the fundamentals of drafting, stage management and props development.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 1001 and Theatre 1120. Theatre 2020 is a prerequisite to Theatre 2021

**2080 and 2081 Production Acting** is in each case work for Acting Majors in a theatre department production.

AR: attendance is required  
CH: 4 credit hours each  
OR: 12 hours of studio per week  
PR: Theatre 1110

**2090 and 2091 Production Stagecraft** is in each case work for Stagecraft Majors, in a departmental production in a supporting capacity (i.e. assistant stage manager, wardrobe assistant, etc.).

AR: attendance is required  
CH: 4 credit hours each  
OR: 12 hours of studio per week  
PR: Theatre 1120

**3010 and 3011 Acting III** are intermediate level courses for the Acting Major. Continued emphasis on speech, voice production, text analysis, etc.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 2010 and Theatre 2011, Theatre 2080 and Theatre 2081

**3020 and 3021 Stagecraft III** are intermediate courses for Stagecraft Majors. Continued emphasis on carpentry, painting, lighting, sound, wardrobe, stage management, etc.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 2020 and Theatre 2021, Theatre 2090 and Theatre 2091

**3060 and 3061 Master Classes I and II (Stagecraft)** are courses for stagecraft students with a guest artist in a particular area of specialization.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 2020 and Theatre 2021. Theatre 3060 is a prerequisite for Theatre 3061

**3070 and 3071 Master Classes I and II (Acting)** are courses for Acting students with a guest artist in a particular area of specialization.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 2010 and Theatre 2011. Theatre 3070 is a prerequisite for Theatre 3071

**3080 and 3081 Production-Acting** is in each case work, for Acting Majors on a department of theatre production.

AR: attendance is required  
CH: 4 credit hours each  
OR: 16 hours of studio per week  
PR: Theatre 2010 and Theatre 2011, Theatre 2080 and Theatre 2081

**3090 and 3091 Production-Stagecraft** is in each case work, for Stagecraft Majors on a departmental production in a significant capacity (i.e. stage manager, crew chief, head of props, etc.).

AR: attendance is required  
CH: 4 credit hours each  
OR: 16 hours of studio per week  
PR: Theatre 2020 and Theatre 2021, Theatre 2090 and Theatre 2091

**3605 Music Theatre Workshop** is an advanced performance course for singers and actors. It offers students the opportunity to experience the performance elements inherent in a professional level music theatre production through an intensive rehearsal period, a performance run and an extended tour. The goal of this course is to develop the students' skills in preparing a production for public performance at a professional level. (Offered in intensive intersession format only).

CH: 6  
PR: by audition

**4001 Theatre Institute at Harlow** is a full semester's work, utilizing both the Harlow Campus and Sir Wilfred Grenfell College, comprising a "thesis production" involving fourth-year acting and stagecraft students in major responsibilities. A practical component in Theatre Criticism utilizing the resources of the Harlow Campus proximity to London and Stratford. A series of Master Classes, Workshops, Field Trips and Guest Lectures offered by members of the theatre profession in England. A project in a selected area of theatre history.

AR: attendance is required  
CH: 10  
PR: Theatre 4010 or Theatre 4011, Theatre 4060 or Theatre 4070, Theatre 4080 or Theatre 4090, Theatre 4030, Theatre 4040

**4010 Acting IV** is an advanced course for acting majors. Concentration on advanced scene study on texts illustrating different styles or genres of plays.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Theatre 3010 and Theatre 3011, Theatre 3080 and Theatre 3081

**4020 Stagecraft IV** is an advanced course for Stagecraft Majors with individual concentration on specific technical skills.

AR: attendance is required  
OR: 6 hours of studio per week

PR: Theatre 3020 and Theatre 3021, Theatre 3090 and Theatre 3091

**4030 Theory of Directing and Design** is an examination and analysis of the nature and practice of directing and design from a theoretical and aesthetic perspective. A lecture/seminar course involving script analysis to examine the interpretive and imagistic processes of directors and designers.

OR: seminar 3 hours per week

PR: Theatre 3010 and Theatre 3011 or Theatre 3020 and Theatre 3021, Visual Arts 2700 and Visual Arts 2701, and 18 credit hours in Dramatic Literature courses

**4040 Directed Studies** are student projects in playmaking, performance, directing, design or technical presentations supervised by faculty. In consultation with the faculty, the student will submit a proposal for a project on which he/she wishes to work. These projects will be presented in public.

OR: 6 hours of studio per week

PR: Theatre 3010 and Theatre 3011 or Theatre 3020 and Theatre 3021 and admission to the Theatre Major

**4060 Master Class III (Stagecraft)** is advanced work with a guest artist in a particular area of specialization.

AR: attendance is required

OR: 6 hours of studio per week

PR: Theatre 3060 and Theatre 3061

**4070 Master Class III (Acting)** is advanced work with a guest artist in a particular area of specialization.

AR: attendance is required

OR: 6 hours of studio per week

PR: Theatre 3070 and Theatre 3071

**4080 Production-Acting** is work for Acting Majors on a theatre department production.

AR: attendance is required

CH: 4

OR: 20 hours of studio per week

PR: Theatre 3010 and Theatre 3011, Theatre 3080 and Theatre 3081

**4090 Production-Stagecraft** is work for Stagecraft Majors on a departmental production in a significant and leading capacity (i.e. designer, stage manager, technical director, etc.).

AR: attendance is required

CH: 4

OR: 20 hours of studio per week

PR: Theatre 3020 and Theatre 3021, Theatre 3090 and Theatre 3091

## 10.30 Tourism

### 10.30.1 Core Program Course Descriptions

**1000 Principles of Tourism** introduces students to the history of tourism and leisure, and the development of the field of tourism studies. This will include consideration of foundational concepts such as culture and nature, research on the needs and gratifications of tourists, and studies of the functions of tourism.

CR: HKR 3565

**1100 Perspectives in Tourism** is an examination of tourism and the ideals, beliefs, institutions, and experiences that contribute to culture. The course will emphasize the application of the humanities and social sciences to such areas as heritage, tradition and history. The student will gain an understanding of, and appreciation for, the importance of literary, aesthetic, philosophical and religious traditions.

PR: Tourism 1000

**2000 Tourism and Sustainability** investigates the concept of sustainability and focuses on the importance of sustainable tourism initiatives, covers measuring the demand for tourism, the role of government and industry stakeholders in the tourism planning process, and a consideration of how tourism planning strategies are developed, implemented, evaluated, and controlled. In addition, there will be an examination of the principles that structure the tourism industry.

PR: Tourism 1000 and Tourism 1100

**2201 Tourism Marketing** explores marketing processes, concepts and methods, with special interest in the initiation, development and management of new tourist enterprises. Other topics include: societal marketing philosophy, the marketing mix as it relates to tourism, market research, consumer behaviour, branding and services marketing, and the implications of transportation systems on tourism activities, services marketing, sustainable tourism marketing, and e-marketing.

CR: Business 1201 and HKR 3565

PR: Tourism 1000 and Tourism 1100

**3010 Issues in Ecotourism** will, through the use of cases, examine philosophical, historical and contemporary issues and challenges in resource recreation and ecotourism. Opportunities for tourism activity based on special or unique ecological considerations and other forms of alternative

tourism are examined, as are issues around the sustainability, impacts, risk management, programming, tour operation, ethics, development, marketing and parks management.

PR: Tourism 3100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**3100 Resource Valuation and Tourism Activity Impact Assessments** considers contemporary issues in the allocation of scarce natural and cultural resources demanded by tourism activity, and the determinants of the demand and supply for tourism recreation. Students will examine the impacts of those tourism and leisure activities upon natural systems (e.g., cultural, ecological, socio-cultural, etc.) and economies, (local, regional, etc.). Visitor impacts will also be considered.

PR: Statistics course, Economics 2010 and Economics 2020. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies

**3800 Colloquium in Tourism Management (Applied Interpretation)** will have during this course, three tourism practitioners from the region and beyond will hold seminars. The meetings are organized as "master classes," with direct interaction between the students and the outside experts. Depending on the practitioners, the specific focus of the tourism management may include reference to Ecology, Botany, Marine Aquatic contexts, Bird Watching, Field Guiding, Wildlife, Geography, Geology, Protected Sites, Museums and Cultural Interpretation, and Arts Programming.

PR: Tourism 3100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**3900 Global Issues and Tourism** highlights the importance of responding to world issues in tourism, and considers issues around socio-political-environmental factors influencing tourism, the impact of new social movements on tourism, the demographics and psychographics of travellers, the promotion of culture and territories, and the globalization of tourism.

PR: Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**4010 Community and Cultural Issues in Tourism** is a case-based course examines cultural diversity and developing sensitivities around an appreciation of one's own and other culturally-bound leisure and tourism activities. Students will build skills in areas such as inclusive planning, communication and negotiation, the changing nature of international tourism, identifying synergies and potential links with global partners (e.g., NL and Ireland).

PR: Students must have completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**4900-4910 Special Topics in Tourism** is a case-based course focussing on the application of major tourism theories and concepts to modern tourism industry issues. Potential areas of consideration include transportation issues in tourism, visitor management, rural tourism, urban tourism, health tourism and therapeutic recreation, island tourism, critical regionalism, maximizing the year-round potential of tourism, and contemporary research in tourism.

PR: Tourism 1000 and Tourism 1100. Students must have completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**4950 Senior Project in Tourism** will have students, under the guidance of a faculty member, complete an independent research project and produce a report. Topics must have the approval of the Program Chair of Tourism Studies.

PR: Students must have completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

### 10.30.2 Electives Course Descriptions

**2300 Hospitality Management** introduces students to the organization and structure of resorts, hotels, restaurants, and cruise ships. Areas of consideration include business ethics, service contracts, areas of management responsibility such as strategic planning, the evaluation of financial, environmental and human resources considerations.

PR: Tourism 1000 and Tourism 1100

**2301 Events Management** provides an introduction to the principles and practices of event/festival management. The material will include the development of event attractions and facilities, and consideration of specific implications of planning in the areas of finance, human resources, environment, marketing, and quality management. In addition, special consideration is given to the infrastructure requirements, volunteers,

sponsorship, fund raising, event planning, marketing and economic and tourism impacts of festivals and other events.

PR: Tourism 1000 and Tourism 1100

**2305 Arts Administration and Exhibition Management** aims to present and apply various approaches in tourism and cultural theory in the context of contemporary cultural performance and exhibition. Students will learn principles of arts administration, as well as current debates in museology and cultural representation.

PR: Tourism 1000 and Tourism 1100

**3210 Interpretation of Natural Resources** covers the principles and practice of interpretation as a component of ecological resource recreation. This course would introduce the student to the practice of interpretation. Concentration would be on interpretation of natural resources (e.g., rocks, fossils, plants, animals, weather, geomorphology, etc.).

PR: Tourism 1000 and Tourism 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**3211 Interpretation of Cultural Resources** covers the principles and practice of interpretation of cultural heritage resource recreation. The techniques include written and oral interpretation materials, as well as the "living interpretations" used in historical and cultural settings. Concentration would be on interpretation of cultural resources (e.g., artifacts of previous indigenous cultures, etc.).

PR: Tourism 1000 and Tourism 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**3220 Conservation Planning** examines attitudes, values and approaches around conservation, preservation, utility, stewardship and management of natural and cultural artifacts. Ecological and Cultural Heritage conservation programs, strategies, policies and legislation are also surveyed.

CR: HKR 3555

PR: Tourism 1000 and Tourism 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**3230 Parks and Protected Areas** examines the history and geography of national parks and other publicly protected lands, and considers the impact of human interaction with landscapes. Additionally, the course will focus on tourism planning and management in national parks and protected areas, and investigate guidelines for best practice in tourism operations.

CR: HKR 3555

PR: Tourism 1000 and Tourism 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**3240 Cultural Heritage Development** considers built, natural and cultural resources for heritage tourism destinations on a variety of scales from World Heritage Sites to countryside and rural tourism attractions. Issues around the international context of heritage, interpretation, and packaging of cultural heritage products, regional identities and environments and the importance of small and medium sized enterprises are examined.

PR: Tourism 1000 and Tourism 1100. Students must have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

**4020 Seminar in Rural and Remote Tourism** provides an overview of tourism as it intersects with rural development theory, processes and planning. In addition, the course examines various social, environmental, cultural and economic problems, consequences and opportunities within a rural/peripheral area context (e.g., visitor attraction and accommodation, special transport issues).

PR: Students must completed 78 credit hours, and have officially declared a Major in Tourism Studies, a Minor in Tourism Studies, or have been accepted into the Advanced Diploma program in Tourism Studies.

## 10.31 University

**1010 The University Experience** introduces students to the different modes of enquiry that one finds in the University, the interrelatedness of knowledge and the role of the University in society. It also provides students with tools and techniques of study and research that can lead them to academic success and fulfilling career.

## 10.32 Visual Arts

### 10.32.1 1st Year

**100A/B Drawing I** is the fundamentals of drawing with study of line, tone,

shape, volume, form, texture, space. Emphasis on drawing the human figure and studio problems.

AR: attendance is required

CO: Visual Arts 110A/B and Visual Arts 120A/B

OR: 6 hours of studio per week

**110A/B Two Dimensional Design and Media** is principles of colour theory and colour mixing. Painting techniques in various media. Emphasis on rendering of form in space and organization of two dimensional surface through studio problems.

AR: attendance is required

CO: Visual Arts 100A/B and Visual Arts 120A/B

OR: 6 hours of studio per week

**1000 Introduction to Two-Dimensional Media** is an introduction to two-dimensional media (design, drawing and painting) that will provide students with both studio experience and an increased sensitivity to aesthetic concerns. Students will investigate design principles through an exploration of visual fundamentals. The course will also cover basic drawing, including drawing from life and will introduce the study of colour through the use of a variety of media. These concepts will be explored through lecture and/or studio experiences. Students are not expected to have previous drawing or art experience.

AR: attendance is required

OR: 3 hours of studio per week

**1001 Introduction to Process Based Media** is an introduction to process-based media that will provide students with both studio experience and an increased sensitivity to aesthetic concerns. Students will be shown the fundamental concepts of a variety of process-based media with selections being made from the media of printmaking, sculpture and photo media (photography, digital imaging, performance, video). These concepts will be explored through lecture and/or studio experiences. Students are not expected to have previous art experience.

AR: attendance is required

OR: 3 hours of studio per week

**120A/B Three Dimensional Design and Media** is three dimensional form and spatial organization. Exploration of sculptural media through studio problems.

AR: attendance is required

CO: Visual Arts 100A/B and Visual Arts 110A/B

OR: 6 hours of studio per week

### 10.32.2 2nd Year

**2000 Second Year Drawing I** is development of drawing skills with emphasis on the human figure and studio problems.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2001 Second Year Drawing II** is a continuation of the work begun in Visual Arts 2000.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 2000

**2100 Introductory Painting I** is painting media applied to problems of spatial structure, light, colour, volume and surface relationships.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2101 Introductory Painting II** is a continuation of the work begun in Visual Arts 2100.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 2100

**2200 Introductory Sculpture I** is development of accurate and expressive control of three-dimensional media.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2201 Introductory Sculpture II** is a continuation of the work begun in Visual Arts 2200.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 2200

**2300 Introductory Printmaking I** - inactive course.

**2301 Introductory Printmaking II** - inactive course.

**2310 Introductory Printmaking: Relief** is an intensive exploration of Relief Printmaking concepts and techniques using wood and lino.

AR: attendance is required

OR: 6 hours of studio per week

PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2311 Introductory Printmaking: Intaglio** is an intensive exploration of Intaglio Printmaking concepts and techniques. Also includes monoprint and collograph experience.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2320 Introductory Printmaking: Serigraphy** is an intensive exploration of Serigraphic Printmaking concepts and techniques.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2321 Introductory Printmaking: Lithography** is an intensive exploration of Lithographic Printmaking concepts and techniques.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2400 Introductory Photography I** is basic techniques of black and white photography including negative exposure, film development and print production.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2401 Introductory Photography II** is a continuation of the work begun in Visual Arts 2400.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 2400

**2600 Introductory Digital Imaging I** is an introduction to the computer as an art-making tool. Computer basics. Creation acquisition, manipulation and output of digital images using several applications.

AR: attendance is required  
PR: Visual Arts 100A/B, Visual Arts 110A/B, and Visual Arts 120A/B

**2601 Introductory Digital Imaging II** is a continuation of the work begun in Visual Arts 2600. Students will learn to create original artworks directly on the computer and how to incorporate images from other sources using a colour scanner. The ethics, aesthetics and theory of digital image-making for artists will also be addressed.

AR: attendance is required  
PR: Visual Arts 2600

### 10.32.3 3rd Year

**3000 Intermediate Drawing I** is further development of drawing skills.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 2001

**3001 Intermediate Drawing II** is a continuation of the work begun in Visual Arts 3000.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 3000

**3100 Intermediate Painting I** is continued development of painting stressing personal expression and critical awareness.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 2101

**3101 Intermediate Painting II** is a continuation of Visual Arts 3100.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 3100

**3200 Intermediate Sculpture I** is continued development of skills in sculpture media.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 2201

**3201 Intermediate Sculpture II** is a continuation of Visual Arts 3200.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 3200

**3300 Intermediate Printmedia I** is projects in Printmedia. In consultation with the instructor students will select the medium or combination of media in which to work.

AR: attendance is required  
CR: the former Visual Arts 3310 and 3220  
OR: 6 hours of studio per week  
PR: 6 credit hours from any of Visual Arts 2310, 2311, 2320, 2321

**3301 Intermediate Printmedia II** is projects in Printmedia. In consultation with the instructor students will select the medium or combination of media in which to work.

AR: attendance is required  
CR: the former Visual Arts 3311 and Visual Arts 3321  
OR: 6 hours of studio per week  
PR: Visual Arts 3300

**3350 Directed Studies in Printmaking** is a professional work/study experience in Printmaking. The student will undertake his or her own projects in Printmaking. In addition, he/she will assist the Director and/or Master printer at St. Michael's Printshop in the day to day operations of the studio. The student will be required to write a paper on an aspect of Printmaking as it pertains to St. Michael's Printshop. Normally this course is available during Spring Session only (May to mid-August) so that students can experience the complete summer activities scheduled at St. Michael's.

PR: 6 credit hours chosen from Visual Arts 2310, Visual Arts 2311, Visual Arts 2320, or Visual Arts 2321, and permission of the Program Chair

**3400 Intermediate Photography I** is critical evaluation of photographs. Continued development of photographic skills, use of colour and larger camera formats.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 2401

**3401 Intermediate Photography II** is a continuation of Visual Arts 3400.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 3400

**3500 Combined Media I** is thematic projects in combined media. In consultation with the instructor students will select the combination of media in which to work.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: permission of the Program Chair or 48 credit hours in Visual Arts courses

**3501 Combined Media II** is a continuation of Visual Arts 3500.

AR: attendance is required  
OR: 6 hours of studio per week  
PR: Visual Arts 3500

**3510 Digital Multi-Media I** is an exploration of computer based multi-media production on the computer involving 2-D and 3-D graphics, animation, video, sound and text.

AR: attendance is required  
PR: Visual Arts 2601

**3511 Digital Multi-Media II** is a continuation of the work begun in Visual Arts 3510. Students will learn how to create original artworks directly on the computer and how to incorporate still images, moving images, sound and text using a colour scanner, video camera, video cassette recorder, midi devices, etc. The ethics, aesthetics and theory of digital multi-media production for artists will also be addressed.

AR: attendance is required  
PR: Visual Arts 3510

### 10.32.4 4th Year

**4950 Independent Projects in Studio I** will have students, under the supervision of a faculty member, produce an independent body of exploratory work and a related written artist statement and description of the progress and development of their work, and attend meetings with their faculty advisor. Students are required to submit work for evaluation at three critiques during the semester, and present a body of work and written documents to their advisor at the end of semester.

AR: attendance is required  
PR: 54 credit hours of studio courses

**4951 Independent Project in Studio II** will have students, under the supervision of a faculty member, produce an independent body of consistent work, and attend meetings with their faculty advisor. Students are required to submit work for evaluation at three critiques during the semester, and present a body of work and written documents to their advisor at the end of semester.

AR: attendance is required  
PR: Visual Arts 4950

### 10.32.5 Art History

The prerequisite for all 3000-level courses is Visual Arts 2701 or History 1101 or permission of the Chair, Visual Arts.

No students shall register in any course having an initial digit "4" unless they have successfully completed at least 6 credit hours in Art History courses or by permission of the Chair, Visual Arts.

**2700 Art History Survey I** is the history of art from pre-historic times to the Renaissance.

CR: History 2700

**2701 Art History Survey II** is the history of art from the Renaissance to the twentieth century.

CR: History 2701

**3700 Art History: The Italian Renaissance** is an overview of the art and architecture of Renaissance Italy with an emphasis upon the historical context in which art was produced.

CR: History 3700

**3701 Art History: The Renaissance Outside Italy** is the Renaissance outside Italy from the late fourteenth century and the International style through the 16th century. As with the Italian Renaissance the art and architecture will be discussed in its historical context.

CR: History 3701

**3702-3721 Art History: Special Topics** has a range of special topics which might include: Early Renaissance Art, Art of the Later Renaissance, Canadian Art to 1900, 20th C. Canadian Art, American Art to 1900, History Context and Modern Users.

**3620 Philosophy of Art** is an introduction to aesthetics; applications in Visual Arts, music and drama.

CR: Philosophy 3620

**3820 Religion and the Arts** is an examination of the role of art in the expression of religious ideas, together with a study of specific religious themes and concerns in one or more of the following: literature, film, music, painting, sculpture, and dance.

CR: Religious Studies 3820

PR: Religious Studies 2810 or permission of the Department of Religious Studies

**4700-4729 Art History: Special Topics** has a range of senior topics which might include: British Art and Architecture, Modern Art, Modern Art II, Aesthetics, 17th and 18th Century Art, 19th Century Art, Research Project in Modernism.

**4730 Art History: Modern Art I: Precursors to Modernism** is an examination of the cultural, social, and political forces which, from 1750 to

1850, were to have a major impact on modernity and later modern art.

CO: 6 credit hours in Art History or permission of the Chair of the Visual Arts program

CR: History 4730

PR: 6 credit hours in Art History or permission of the Chair of the Visual Arts program

**4731 Art History: Modern Art II: Early Modernism** is an examination of the various cultural and social forces between 1850 and 1914 which shaped the rise of the Modern movement.

CO: 6 credit hours in Art History or permission of the Chair of the Visual Arts program

CR: History 4731

PR: 6 credit hours in Art History or permission of the Chair of the Visual Arts program

**4740 Current Issues in Art** is studies in Contemporary Art.

**4741 Art Criticism** is theories of Art Criticism.

## 10.33 Women's Studies

**2000 An Interdisciplinary Introduction to Women's Studies** is an interdisciplinary introduction to the major concepts, issues and debates of Women's Studies.

**2001 Women and Science** is an investigation of: historical and contemporary contributions of women scientists, especially Canadians; different sciences and how they study women; and feminist and other perspectives on gender and science.

**3000-3010 Special Topics in Women's Studies** has a range of special topics in Women's Studies.

**4000 Seminar in Women's Studies** is an interdisciplinary seminar designed to focus on women's issues, and on theories and methodologies of women's studies.

OR: 3 hour seminar per week

PR: Women's Studies 2000 and 15 credit hours in other Women's Studies Program courses or the approval of the Instructor of Women's Studies 4000 and the Program Co-ordinator

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 School Description

A social work program at Memorial University of Newfoundland commenced in 1963 with the offering of a two-year diploma in public welfare. In 1965 the Bachelor of Arts (Social Welfare) degree was initiated, continuing until 1970 when the Bachelor of Social Work was established. The Bachelor of Social Work program is accredited by the Canadian Association of Schools of Social Work (CASSW). The program is accredited to 2010 having received the highest possible accreditation of seven years. The School also offers an undergraduate diploma and graduate degrees at the master and doctoral level.

Social work courses are designed for delivery on a philosophical base of humanism and social justice. This is accomplished in an empowering teaching and learning environment, through the practice of anti-oppression principles, within the context of critical thinking. The curriculum in social work draws upon the substance and analytical processes of the social and behavioural sciences and of the humanities. It reflects Memorial University of Newfoundland and the School of Social Work's traditional commitments to serve the people of Newfoundland and Labrador within a global context.

Additional information regarding the School of Social Work is available at [www.mun.ca/socwrk/home/](http://www.mun.ca/socwrk/home/).

Students must meet all regulations of the School of Social Work in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

### 2.1 Vision

The School of Social Work strives to strengthen human relationships and promote social justice through academic excellence.

### 2.2 Mission

The School of Social Work promotes social justice by providing social work education, conducting scholarly inquiry, disseminating knowledge and contributing to public policy and practice thereby addressing the needs and aspirations of the local and global communities with whom we collaborate and interact.

## 3 Description of Programs

All courses of the School are designated by the abbreviation SCWK.

### 3.1 Bachelor of Social Work

The Bachelor of Social Work is a full-time program that is offered as a first or a second degree program and is comprised of course work and two internships. The degree qualifies graduates for beginning professional practice in social work settings. The objectives of the liberal education aspect of the undergraduate program includes the achievement of: general knowledge of people and nature, analytical and critical thinking and communication skills and knowledge of social, political and economic impacts in society. The objectives of the undergraduate program are to prepare students to: promote social justice and social well being and creatively challenge oppression;

acquire and apply knowledge, skills, values, professional ethics and critical thinking abilities; recognize limitations and strengths as a beginning social work practitioner; integrate reflexively critical self-awareness; assume leadership in collaboration and interdisciplinary practice; utilize and participate in innovative and traditional inquiry and research models; creatively practice with diverse individuals and collectives; promote and critique the social work profession on, regional, provincial, national and global levels; commit to the process of lifelong learning; participate collaboratively and respectfully in innovative teaching and learning processes; and address issues of transition and crisis in diverse contexts (individuals, families, communities, formal organizations and society).

The aim of the program is to develop social workers with generically based skills for working with individuals, families, communities, and groups. Students receive an education which prepares them to work in urban centres and rural settings. A special emphasis is placed on the importance of identifying local needs and developing the means of meeting these needs in the context of available resources.

There is a **Program Residency Requirement** for both the **First** and **Second** Degree programs requiring students to take specific courses on the St. John's campus. Although the majority of courses are taught on-campus, selected courses are occasionally taught by distance delivery, which uses a variety of teaching methods including web-based format, traditional correspondence (reading packages, mailed assignments), and teleconference.

Students formally admitted or readmitted to the Bachelor of Social Work program prior to Fall 2009 and who intend to complete the requirements of the degree as in effect at the time of their acceptance are required to complete their program no later than April 30, 2011. Students admitted or readmitted to the Bachelor of Social Work degree program prior to Fall 2009 must follow the degree regulations in effect in the academic year in which the student was formally admitted or readmitted to the program. Social Work courses applicable to this program will be phased out as the corresponding year of the revised program is introduced. Only the Social Work courses associated with the revised program will be available after April 30, 2011.

### 3.1.1 Social Work Internships

- In addition to their course work, students are required to complete two supervised internships.
- Although consideration will be given to all factors affecting the location and type of internship, the final decision regarding placement rests with the School.
- Students are responsible for all costs associated with internships including travel and accommodation.
- Placements for most students will include residence in a location away from urban centres.

### 3.2 Diploma in Social Work

Pending availability of resources, a program leading to the Diploma in Social Work may be designed for groups of students with particular needs. Admission of individual students to a diploma program is competitive and selective. Groups can obtain information about diploma programs by contacting the Director of the School of Social Work.

## 4 Admission/Readmission Regulations for the Bachelor of Social Work

In addition to meeting the **UNIVERSITY REGULATIONS** students must meet the admission/readmission regulations for the School of Social Work.

### 4.1 General Information

1. Entry to programs is competitive for a limited number of placements.
2. Selection of candidates will be based on academic standing, relevant work/volunteer experience, and personal suitability for a career in social work.
3. The School of Social Work depends on the cooperation of community agencies external to the University to provide field internships and instruction to its students. Many of these agencies have a range of requirements, such as a Certificate of Conduct or a Child Protection Records Check, which must be completed before starting the internship. Students unable to meet these agencies' requirements may be delayed in their program or prevented from completing their program of study. Students are required to complete and update these requirements in a timely fashion and at their own expense. The procedures of any given agency may change from time to time and are beyond the control of the University.
4. The School may, at its discretion, give preference to applicants with special needs, provided that they have met the minimum numeric grade and course requirements for admission to the program.
5. Students applying for readmission must meet all admission and promotion requirements of the School of Social Work in effect for the year in which re-admission is being sought.

### 4.2 Application Forms and Deadlines

1. The Bachelor of Social Work as a First Degree program commences in the Fall semester. The Bachelor of Social Work as a Second Degree program will normally commence in the Spring semester. The deadline for application for admission is March 1. Students are encouraged to submit their applications as early as possible.
2. Applications received after the deadline, and incomplete applications will not be considered.
3. Application forms are available on-line at [www.mun.ca/socwrk/undergraduate/apply.php](http://www.mun.ca/socwrk/undergraduate/apply.php) or in person from the School and the Office of the Registrar. Application forms may also be obtained by writing the School of Social Work, Memorial University of Newfoundland, St. John's, NL, A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
4. Applicants for readmission to the School of Social Work must submit a School of Social Work application to the Office of the Registrar by March 1 for Fall semester readmission, February 1 for Spring semester readmission, and October 1 for Winter semester readmission. Applications received after these deadlines will be considered only if a place is available in the School of Social Work.
5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the two preceding semesters), an application to the School and any other required documentation.

## 4.3 Admission Requirements

### 4.3.1 First Degree Program

- To be considered for admission to the Bachelor of Social Work program, applicants must have completed the 30 credit hours outlined below by the end of the Winter semester for the year in which admission is being sought and must achieve an overall average of at least 65% in these courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:
  - six credit hours in English
  - Psychology 1000 and 1001
  - Sociology 1000
  - Social Work 1710 (or the former 2700)
  - 12 credit hours in non-social work elective courses. No more than 6 of these credit hours can be taken from areas other than arts and science.
- In addition, applicants must have achieved an average of at least 65% in the courses comprising the last 30 credit hours attempted by the end of the Winter semester for the year in which admission is being sought and for which a numeric grade has been assigned.
- In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance, which will be based on the cumulative average, together with the average on the last 30 credit hours for which a numeric grade was given and the overall average on the 30 prerequisite credit hours noted above.
- Successful candidates completing courses during the Spring semester will be required to meet the **Academic Requirements and Promotion Regulations** of the School of Social Work.
- A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.

### 4.3.2 Second Degree Program

The Bachelor of Social Work as Second Degree is a 60 credit hour program intended for candidates who have completed the required courses, meet the academic performance requirements, and have extensive employment and/or formal volunteer experience. Priority is given to applicants who are bona fide residents of the province of Newfoundland and Labrador.

- To be considered for admission to the Bachelor of Social Work as a Second Degree, individuals must have:
  - been awarded a Bachelor's Degree, or approved (prior to program startup) for the award of a Bachelor's Degree from a university recognized by Memorial University of Newfoundland;
  - achieved a minimum average of at least 70% in the last 60 credit hours of undergraduate study attempted by the end of the Winter semester for the year in which admission is being sought and for which a numeric grade has been assigned;
  - completed the 30 credit hours outlined below by the end of the winter semester for the year in which admission is being sought and achieved an overall average of at least 70% in these courses. These courses and credits must have been taken at Memorial University of Newfoundland or accepted for transfer credit from a recognized university or university college. The 30 credit hours are:
    - Social Work 1710
    - Six credit hours in English
    - Psychology 2010 and 2011 or (2025 and three credit hours in Psychology at the 2000 level or above)
    - Six credit hours in Sociology of which 3 must be at the 2000 level or above
    - Nine credit hours at the 2000 level or above selected from the following: Anthropology, Economics, Folklore, Geography, History, Linguistics, Philosophy, Political Science, Psychology, Sociology and/or Women's Studies (1000 level will be acceptable for Women's Studies only).
  - completed 300 hours of verified formal work/volunteer experience in human services
- In addition to other criteria used in the selection process, applicants for admission will be ranked according to their academic performance.
- A student will not be considered for admission if he/she has attempted and failed to receive a grade of 65% or higher in two or more SCWK courses or has failed to receive a grade of 65% or higher in the same social work course twice.

### 4.3.3 Acceptance Procedures for Admission

- Applicants for the First Degree program will normally be notified of admission decisions by May 15. Approved applicants to the School of Social Work will be admitted in Fall semester only.
- Applicants for the Second Degree program will normally be notified of admission decisions by April 30. Approved applicants to the School of Social Work will normally be admitted to the Spring semester only.

### 4.3.4 Readmission Requirements

In addition to requirements specified in **Admission/Readmission Regulations for the Bachelor of Social Work**, applicants for readmission to the Bachelor of Social Work will be assessed for eligibility in accordance with Academic Requirements and Promotion Regulations, in effect for the year in which readmission is being sought, and contingent upon availability of a seat in the semester for which readmission is sought. Students who are readmitted to the program following a five-year absence will be required to do remedial work upon the recommendation of the Committee on Undergraduate Studies. Remedial work may include the repetition of classroom and/or internship courses.

## 5 Program Regulations

### 5.1 Bachelor of Social Work (as a First Degree)

1. The 120 credit hour Bachelor of Social Work (as a First Degree) requires, 48 non-SCWK credit hours and 72 SCWK credit hours that include two internships as defined in **Table 1 Bachelor of Social Work (as a First Degree)**.
2. Following admission to Year 2, credit hours shall normally be taken in the sequence as set out in **Table 1 Bachelor of Social Work (as a First Degree)**. Students wishing to change the sequence and/or reduce the course load specified for Years 2 - 4 must receive written approval from the Director of the School. A change in course sequence may result in an extension to the length of time normally required to complete the program.
3. Students must complete the application for Social Work internship placement three months prior to the semester in which the internship begins.

**Table 1 Bachelor of Social Work (as a First Degree)**

Year / Term	Required Courses	Elective Courses
Year 1 Fall and Winter	6 credit hours in English Psychology 1000 and 1001 Sociology 1000 Social Work 1710	12 credit hours in non-social work elective courses. No more than 6 of these credit hours can be taken from areas other than arts and science.
Year 2 Fall	Psychology 2010 One of Political Science 1010, 2600, 2800, Sociology 2230 or 2240 SCWK 2211 SCWK 2320 SCWK 2711	
Year 2 Winter	One of Philosophy 2551, 2552, 2553, or 2591 Psychology 2011 3 credit hours in Sociology at the 2000 level or above SCWK 2321 SCWK 2520	
Year 3 Fall	SCWK 3311 SCWK 3300	
Year 3 Winter	One of Sociology 3318, 3290 or 3100 One of Sociology 3314, Anthropology 3305 or Women's Studies 1000 SCWK 3221 SCWK 3521 SCWK 3720	
Year 4 Fall	SCWK 4312 SCWK 4313 SCWK 4314 SCWK 4410	3 credit hours from: SCWK 4317 or 4620
Year 4 Winter	SCWK 4302	3 credit hours from: SCWK 4321, 4322, 4323 or SCWK 4820-4829

#### 5.1.1 Program Residency Requirements

Students shall be required to successfully complete all social work courses on the St. John's campus except for: SCWK 1710, 3300, 3311, 4302, 4321, 4322, 4323, and 4820-29.

## 5.2 Bachelor of Social Work (as a Second Degree)

1. The 60 credit hour Bachelor of Social Work (as a Second Degree) requires 60 SCWK credit hours including two internships as defined in **Table 2 Bachelor of Social Work (as a Second Degree)**.
2. Following admission, credit hours shall normally be taken in the sequence as set out in **Table 2 Bachelor of Social Work (as a Second Degree)**. Students wishing to change the sequence and/or reduce the course load specified for semesters 1-4 must receive prior written approval from the Director of the School. A change in course sequence may result in an extension to the length of time normally required to complete the program.
3. Students must complete the application for Social Work internship placement three months prior to the semester in which the internship begins.

**Table 2 Bachelor of Social Work (as a Second Degree)**

Year/Term	Required Courses	Elective Courses
Year 1 Semester 1	Social Work 2211 Social Work 2320 Social Work 2321 Social Work 2520 Social Work 2711	
Year 1 Semester 2	Social Work 3720 Social Work 4312 Social Work 4313 Social Work 4314 Social Work 4410	
Year 1 Semester 3	Social Work 3300 Social Work 3311	
Year 2 Semester 4	Social Work 3521 Social Work 4302	

### 5.2.1 Program Residency Requirements

Students shall be required to successfully complete all social work courses on the St. John's campus except for: SCWK 3300, 3311, 3521, and 4302.

## 6 Academic Requirements and Promotion Regulations

### 6.1 General Information

1. The Committee on Undergraduate Studies will determine a student's promotion status at the end of each academic term.
2. These regulations shall apply from the date of the application for admission/re-admission to the program to the completion of the program.
3. In addition to meeting the academic requirements and promotion regulations for the School all students must meet the general academic regulations (undergraduate). For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.

### 6.2 Promotion Status

A student's promotion status at the end of each term will be in one of the following three categories:

#### 6.2.1 Clear Promotion

Clear Promotion means that a student can proceed to the next term without restrictions. Clear Promotion will be given to a student

- who has completed the academic term with an overall average of at least 65% and with a numeric grade of at least 65% in each SCWK course.
- who has completed an internship with a letter grade of PAS (pass).
- who has maintained professional behaviour consistent with the current Code of Ethics of the Canadian Association of Social Workers (CASW) which is available at [www.casw-acts.ca/](http://www.casw-acts.ca/) and the Suitability Policy of the School of Social Work which is available at [www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix\\_SF-2.pdf](http://www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf).

#### 6.2.2 Probationary Promotion

Probationary Promotion means that a student has not received a **Clear Promotion** and must meet certain conditions to obtain Clear Promotion. Probationary Promotion will be given to a student

- who has not obtained an overall term average of at least 65%. The student will be issued a letter of warning and must obtain an overall average of at least 65% in the subsequent academic term.
- who has not obtained a numeric grade of at least 65% in each required SCWK course. The student must repeat the course(s) within three academic terms from the unsuccessful completion and obtain a numeric grade of at least 65%. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.
- who has not obtained a numeric grade of at least 65% in each elective SCWK course. The student must successfully complete this course or another appropriate SCWK elective with a numeric grade of at least 65% before completion of the program. The student will not be permitted to repeat more than two SCWK courses in the program and will subsequently be denied promotion should she/he receive less than 65% in the same social work course twice.
- who has voluntarily withdrawn from an internship before its completion with the prior approval of the Field Administrator and the Committee on Undergraduate Studies. In addition to the designation Probationary Promotion, the student will also receive a letter

grade of DR (drop) for that internship. The student will be required to successfully complete another internship before continuing in the program.

- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at [www.casw-acts.ca/](http://www.casw-acts.ca/) and/or the Suitability Policy of the School of Social Work but for which the School considers that withdrawal from the program is not warranted. The Suitability Policy of the School of Social Work is available at [www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix\\_SF-2.pdf](http://www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf).

### 6.2.3 Promotion Denied

Promotion Denied means that a student has not received either a **Clear Promotion** or a **Probationary Promotion** and must withdraw from the School. A student's eligibility for readmission is governed by conditions detailed below in **Other Information**. Promotion denied will be given to a student:

- who has not met the conditions of his/her probation.
- who has received a numeric grade of less than 65% in more than two SCWK courses.
- who has received a numeric grade of less than 65% in the same social work course twice.
- who has withdrawn from an internship without the prior approval of the Field Administrator and the Committee on Undergraduate Studies.
- who has received a letter grade of FAL (fail) in an internship.
- who behaves in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at [www.casw-acts.ca/](http://www.casw-acts.ca/) and/or the Suitability Policy of the School of Social Work and for which the School considers that withdrawal from the program is warranted. The Suitability Policy of the School of Social Work is available at [www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix\\_SF-2.pdf](http://www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf).

### 6.2.4 Other Information

1. A student will not be eligible for consideration for admission or readmission to the School if he/she has:
  - received a numeric grade of less than 65% in more than two SCWK courses in the entire program, or received a numeric grade of less than 65% in the same SCWK course twice;
  - received a letter grade of FAL (fail) in more than one internship; or
  - behaved in a manner that breaches the current Code of Ethics of the Canadian Association of Social Workers which is available at [www.casw-acts.ca/](http://www.casw-acts.ca/) and/or the Suitability Policy of the School of Social Work and for which the School considers that withdrawal from the program is warranted. The Suitability Policy of the School of Social Work is available at [www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix\\_SF-2.pdf](http://www.mun.ca/socwrk/undergraduate/fieldBSW/Appendix_SF-2.pdf).
2. A student who has been denied promotion and has had to withdraw from the School but is eligible for consideration of readmission to the School
  - must withdraw from the School for two academic terms before reapplying; and
  - will be permitted only one readmission to the School.

### 6.3 Leave of Absence

1. Any student who wishes to withdraw from the program and to retain his/her status in the program may do so only with the written approval of the Committee on Undergraduate Studies and for a maximum period of one academic year. A student who wishes to resume his/her studies within this period must notify the Director in writing three months prior to the beginning of the term in which he/she wishes to continue his/her program.

### 6.4 Student Withdrawal

1. A student may be required to withdraw from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed to have behaved in a manner that breaches the Canadian Association of Social Workers Code of Ethics and/or the School of Social Work Suitability Policy and for which the committee considers that withdrawal from the program is warranted. The Committee on Undergraduate Studies may determine the withdrawal to be conditional or permanent depending on the circumstances precipitating the action.
2. In the case of a conditional withdrawal, the Committee on Undergraduate Studies will determine the duration of the withdrawal and any conditions the student must fulfill during the withdrawal. Upon successful completion of the conditions, the student may be permitted re-entry to the program. Failure to meet conditions may result in a permanent withdrawal.
3. In the case of a permanent withdrawal, the student will not be eligible for future admission/readmission to the Bachelor of Social Work program.

## 7 Waiver of School Regulations

Every student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

### 7.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration.
3. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
4. Any waiver granted does not reduce the total number of credit hours required for the degree.

## 8 Appeal of Regulations

1. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

2. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in **Admission/Readmission Regulations for the Bachelor of Social Work**. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Director of the School. The letter should state clearly and fully the grounds for the appeal. If the Director of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

## 9 SCWK Courses Available to Students Not Admitted to a Program Offered By the School

If space is available students may be permitted to register for any SCWK course with the approval of the Director, School of Social Work.

## 10 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Director of the School.

All courses of the School are designated by SCWK.

**1710 Social Work Philosophy and Practice** provides an overview of the historical development, philosophical orientation, basic values, principles and knowledge base, and fields of practice of the profession. The course will examine critical social problems that impact societies with an emphasis on the quest for social justice at local, national and global levels.

CR: the former SCWK 2700

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**2211 Diverse Theories for Social Work Practice** provides an overview of critical and practice theories that explain problems and guide the change process. The course will involve students in a critical analysis of a broad range of theories including: Critical theories such as structural, feminist, Marxist, anti-racist, aboriginal, queer, & anti-oppressive practice; modern theories such as interactional, systems, ecological cognitive & crisis theory; intervention; postmodern theories such as solution focussed and narrative; and Macro practice, social action, and community organization.

CO: SCWK 2320 and 2711

PR: SCWK 1710 or the former SCWK 2700

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**2320 Social Work Knowledge and Skills for Assessment and Intervention** introduces beginning skills for social work practice. The relevance of relationship based approach, a strengths perspective and an anti-oppressive stance will be considered as students acquire biopsychosocial assessment and interviewing skills. Attention is given to self-awareness, professional identity and a wide range of beginning counselling skills with diverse populations and situations such as: Aboriginal people, involuntary clients, suicide risk, domestic violence, clients in crisis and children at risk.

CO: SCWK 2211 and 2711

CR: the former SCWK 3320, the former 3321 and the former 4310

PR: SCWK 1710 or the former SCWK 2700

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**2321 Social Work Knowledge and Skills for Personal and Social Change** addresses knowledge, skills and competencies that enable the social worker to facilitate positive change within the middle and end stages of intervention. Emphasis will be given to a range of current best known practices within the context of clinical and community applications, promotion of social justice, strengths and critical thinking. General practice approaches that may be applied with individuals, families and communities will be emphasized.

CR: the former SCWK 3421

PR: SCWK 2211, 2320 and 2711

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**2520 Social Work: Critical Analysis of Social and Health Policy** engages students in critical analysis of local and national social and health policy development from a social work perspective. The course explores topics that are relevant to direct service provision such as: the influence of historical context on policy, policy development, interactions among federal, provincial and local governments that influence policy and leadership and advocates roles of social workers in program development in a diverse and changing environment.

CR: the former SCWK 2510 and 2710

PR: SCWK 2211, 2320 and 2711

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**2711 Social Justice and Social Work Practice** explores human rights from global perspective and examines social responsibility, the nature of oppression and marginalization and strategies to promote social justice and prevent injustice. Reflective practice principles and experiential activities will form the basis for examining use of self and the relevance of social location, and the application of: critical theoretical perspectives, critical empathy and ethical evaluation for anti-oppressive practice at the individual and structural/organizational level.

CO: SCWK 2211 and 2320

PR: SCWK 1710 or the former SCWK 2700

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**3221 Social Impacts on Human Development** addresses how theories, concepts and information related to human development must be considered in the context of social issues and impacts in order to inform social work practice with vulnerable populations. The impact of issues such as violence, addictions, poverty, trauma and oppression are examined as are strengths and resilience of human beings. Strategies to address social impacts on human development are explored.

CO: SCWK 3521 and 3720

CR: the former SCWK 3211 and the former 3220

PR: SCWK 3300 and 3311

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**3230 Cultural Camp** - inactive course

**3300 Social Work Internship 1** is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, theories and skills to work with clients and communities. The field experience is designed to develop: professional use of self, beginning ability to implement planned interventions with diverse populations and an appreciation for social justice activities.

CH: 12

CO: SCWK 3311

CR: SCWK 4300 and the former SCWK 4315, 4316, 4325 and 4326

PR: successful completion of all designated Year 2 courses

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**3310 Introduction to Forensic and Police Interviewing** is designed to teach applied skills for police and forensic interviewing. Content includes general skills of relationship building and interviewing to enable reliable and valid information to be obtained, as well as to help stabilize crises and reduce risks in dangerous situations. The course includes specific content on interviewing victims, witnesses, suspects, offenders and other collaterals. The course will also introduce the student to interviewing difficult persons such as those experiencing crisis or trauma and those who are impaired or who have mental health problems. Students are tested on both knowledge and practice skills related to police and forensic interviewing.

PR: restricted to students admitted to the Diploma Program in Police Studies and who remain in good standing as recruit cadets of the Royal Newfoundland Constabulary

UL: not applicable to any programs offered by the School of Social Work

**3311 Social Work Knowledge and Skills for Integration of Theory and Practice** focuses on application of selected models and methods of practice. The course explores links between theory and practice through critical consideration of: the influence of agency and community, the value of theory and knowledge, the role of self awareness, social location and practice skills. Topics to be explored include: documentation, support/resource counselling, advocacy, self care, vicarious trauma, professional identity, community work, interdisciplinary practice, group work, ethics and consultation.

CO: SCWK 3300

PR: the former SCWK 4310 and 4311

PR: successful completion of all designated Year 2 courses

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**3511 Aboriginal People and Social Policy** - inactive course

**3521 Social Work Organizational Development for Community Services**

examines policy development and change in human services organizations and their administration. Management and organizational concepts suitable for the administration of social policies and programs are addressed as are ethical and ideological issues for social workers on human service teams. A focus on beginning skills in administration is included for the social worker within a management and leadership context in human services organizations.

CO: SCWK 3221 and 3720  
CR: the former SCWK 3110, the former 3510 and 4111  
PR: SCWK 3300 and 3311  
UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

### 3530 Aboriginal Social Development - inactive course

**3720 Ethical and Legal Issues in Social Work Practice** examines ethical theories, decision - making models and key legislation in a variety of areas including child welfare, youth justice, privacy, health, human rights to resolve dilemmas in practice. Components of legislation and the Social Work Code of Ethics are analysed to determine approaches to practice dilemmas. Consideration and critical analysis of frameworks for decision making will lead to a personal model for practice choices.

CO: SCWK 3221 and 3521  
CR: SCWK 5720  
PR: SCWK 3300 and 3311  
UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4300 Social Work Internship I** provides students within a supervised field experience with opportunities to apply theory learned in the classroom and applied to clients in social work agencies. By the end of fourth year field students will have begun to develop their professional use of self in working with a variety of people. They will have shown beginning knowledge and skills in the application of a planned intervention process in working in a logical orderly and purposeful way with different kinds of client systems. Normally, the internship occurs in the Fall semester of the fourth year and students spend four days a week, twenty-eight hours in the internship.

CH: 12  
CO: SCWK 4311  
CR: the former SCWK 4315, 4316, 4325, and 4326  
PR: completion of all required third year courses  
UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4302 Social Work Internship 2** is a 350 hour supervised field experience that provides students with opportunities to apply social work principles, knowledge and skills that demonstrates the capacity for independent practice at micro and macro levels. Emphasis is on developing strong analytical abilities, applying enhanced practice skills, mastering a variety of social work roles, implementing strategies that impact social justice and making professional judgments in increasingly complex situations.

CR: SCWK 4614  
PR: SCWK 3221, 3521 and 3720  
UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4320 Social Work Practice: Counselling and Case Management with Groups and Communities** is an intervention course where students are introduced to methods and skills derived from a number of theories as applied to social work with groups and communities with a special emphasis on groups. This course builds directly on constructs and theories introduced in Social Work 4311. This course may have a required laboratory period that is in addition to class time. The distance version of the course may include workshops that may be held outside the area in which students are completing an internship.

PR: SCWK 4311  
UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4321 Field of Practice: Social Work in Child Abuse and Protection** is aimed at developing knowledge and social work skills necessary for intake, crisis intervention, assessment, family support, removal, community placement, family reunification, and amelioration, within the context of social justice and the best interest of those most vulnerable for maltreatment and oppression. It addresses child-youth neglect, physical abuse, sexual abuse, emotional abuse, exploitation, problems, risks, needs and harm and includes trauma and developmental impacts.

CO: SCWK 4302  
CR: SCWK 5328  
PR: SCWK 4312, 4313, 4314 and 4410  
UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4322 Field of Practice: Social Work in Gerontology** reviews aging from a biopsychosocial perspective with an emphasis on the strengths of seniors and the impact of oppression on the lives of the elderly. The course will explore legislation, policies, societal trends and elder abuse, and consider the social work role in developing strategies for healthy aging and service provision for seniors.

CO: SCWK 4302  
CR: SCWK 4615 and 5615  
PR: SCWK 4312, 4313, 4314 and 4410  
UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4323 Field of Practice: Social Work in Addictions** is aimed at developing knowledge skills, and beginning competence, necessary for assessment and intervention with populations experiencing problems and risks associated with the use and abuse of chemicals and non-chemical addictions throughout the lifespan. Themes addressed include: the oppression of addictions; social determinants of addictions, the social worker's role in the continuum of care; strengths; the special needs of women, aboriginal, and GLBT populations.

CO: SCWK 4302  
CR: SCWK 4616

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4410 Applied Research and Evaluation for Social Work Practice** teaches theories, concepts and methods of systematic inquiry and its relationship to professional social work judgment and action. The contribution of applied research to social justice, community based inquiry and accountability and evidence based practice is emphasized. Topics to be explored include: quantitative, qualitative, action and evaluative approaches to systematic inquiry for social work practice; ethical considerations in social work research.

CO: SCWK 4312, 4313 and 4314  
CR: the former SCWK 4420 and 4421  
PR: SCWK 3221, 3521 and 3720

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4421 Research and Evaluation for Social Work Practice** is designed to teach theories, concepts and methods of systematic inquiry. Emphasis is placed on the philosophy and logic of systematic inquiry. These emphases are considered within the context of the relationship between systematic inquiry and professional judgment and action.

CR: the former SCWK 4420  
PR: completion of all required third year courses

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4520 Management and Organization Development for Community Services** examines human service organizations and their administration. Management and Organizational Concepts, suitable for the administration of social policies and programs, are addressed, as are ethical and ideological issues for social workers on human service teams. A focus on beginning skills in program planning and continuous quality improvement is included.

PR: the former SCWK 2510 and the former 3510

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4610 Social Work in Health and Rehabilitation** focuses on social work practice in institutional and community settings serving acutely or chronically ill, or permanently disabled persons. It is constructed around a comprehensive model of health, illness, and associated psychosocial factors. Theoretical and service delivery issues are addressed, including social work participation in multidisciplinary teams.

CR: the former SCWK 5610  
PR: the former SCWK 3320, the former 3321, and the former 3421

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4612 Social Work in Corrections** - inactive course

**4614 Social Work in Family and Child Welfare: Prevention, Crisis Intervention and Protection** examines the rights of children, their needs, specific programs and research findings in child welfare service with particular emphasis on the care and protection of children within a community context. Social work interventions with problems such as child abuse, and other forms of couple and family violence and families experiencing complex problems are addressed.

PR: the former SCWK 3320, the former 3321, and the former 3421

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4615 Social Work in Gerontology** reviews ageing from a biopsychosocial perspective and examines selected problems of older people in Canadian society, with an emphasis on contemporary Newfoundland and Labrador. Federal and Provincial social policies are considered with specific attention given to community services and programs of institutional care.

CR: the former SCWK 5615  
PR: the former SCWK 3320, the former 3321, and the former 3421

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4616 Social Work in Addictions** introduces the problem of modifying chemical use and abuse, its effect on individuals and families throughout the lifecycle, and community responses for prevention and addiction problem management. Social work intervention with individuals, families, groups and communities suffering from the effects of addiction problems is addressed. Skills are tested through a demonstration in a simulation context.

PR: the former SCWK 3320, the former 3321, and the former 3421

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**4617 Social Work in Residential Care** - inactive course

**4620 Field of Practice: Social Work in Interdisciplinary Mental Health and Health Services** provides an overview of mental health and illness, the impact on people and communities and social work interventions within an interdisciplinary community context. The oppression of illness, disability and mental health problems across the lifespan is considered as well as the role of social work in the continuum of care. Topics include: mental health, health, mental illness, disability, social determinants of health, social

movements and advocacy.

CO: SCWK 4312, 4313, 4314 and 4410  
CR: SCWK 4610, 5610 and 5613  
PR: SCWK 3221, 3521 and 3720

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**4820-4829 Selected Topics in Social Work** may be offered by the School. Students should consult the School for selected topics being offered in a given semester.

CO: SCWK 4302  
PR: SCWK 4312, 4313, 4314 and 4410

UL: not applicable to the Bachelor of Social Work program for students admitted prior to Fall 2009

**5000 Relapse Prevention in Addictions Counselling** - inactive course

**5010 Addictions Counselling with Families** - inactive course

**5020 Group Counselling in Addictions** - inactive course

**5030 Clinical Consultation in Addictions** - inactive course

**5031 Clinical Internship in Addictions** - inactive course

**5112 Family Law for Social Workers** - inactive course

**5211 Social Work Practice With Problems and Issues of Human Sexuality** - inactive course

**5220-5229 Selected Topics in Human Behaviour and the Social Environment** may be offered by the School. Students should consult the School for course offerings listed under selected topics in a given semester.

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5300 Social Work Internship II** is a supervised field experience that builds on knowledge and skills acquired in the fourth year internship with an emphasis on independent work activity. Emphasis is on the in-depth development of the basic skills of practice with client systems of any size - individuals, families, small groups, organizations and communities; including conscious use of major social work roles and evidence of growth towards independent professional judgement. This internship occurs normally during the Winter semester of the fifth year of the program and students spend five days a week, thirty-five hours in the internship placement.

CH: 15  
CR: the former SCWK 5315, 5316, 5317, 5318, and 5319

PR: completion of all required and elective fourth and fifth year courses

UL: not applicable to the former Bachelor of Social Work as a Second Degree program and the Bachelor of Social Work program for students admitted after Fall 2009

**5320-5321 Selected Topics in Social Work Practice** may be offered by the School. Students should consult the School for course offerings listed under selected topics in a given semester.

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5322 Community Development** emphasizes theory and practice of Community Organizing (CO) and Community Development (CD). Ethical dilemmas, legitimacy, accountability and the roles and responsibilities of the worker are examined. Urban, rural and cultural differences are considered in pursuit of the role of effective organizing and development work.

PR: SCWK 4300 and 4320

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5323 Social Work With Groups** focuses on the group as a primary unit of analysis and intervention. Group work practice is examined from a variety of orientations, including therapy, self-help, and organization groups. Students are expected to participate in structured group experiences.

PR: SCWK 4300 and 4320

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5324 Counselling with Couples** - inactive course

**5325 Family Counselling and Therapy** prepares students to offer direct service to families and to maintain a family focussed practice in a variety of settings. Assessment and intervention skills, and family therapy concepts are addressed. Emphasis is given to nuclear, divorced, blended, and single parent family structures.

PR: SCWK 4300 and 4320

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5326 Selected Topics in Social Work Practice** may be offered by the School. Students should consult the School for course offerings listed under selected topics in a given semester.

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5327 Interdisciplinary Course on Family Violence** (same as Nursing 5327) focuses on physical, emotional, and sexual violence throughout the life cycle of the family. Issues of family violence will be addressed using an interdisciplinary framework with emphasis on understanding the nature and impact of family violence, incorporating gender and socio-cultural analysis. Emphasis will be given to causal explanations, common patterns, and short and long-term effects of abuse and on the roles of health professionals in prevention and treatment.

CR: Nursing 5327

PR: SCWK 4300 or Nursing 3001 and Nursing 3501, or consent of instructor

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5328 Social Work Practice in Child Abuse: From Protection to Prevention** further develops the student's knowledge and skills necessary for prevention, assessment, crisis intervention, apprehension, family reunification, community consultation and community response, in the interest of child protection. Content includes research and best practices informing policy, assessments and standards of practice related to child maltreatment, with special reference to: child sex abuse, physical abuse, emotional neglect and abuse, physical and medical neglect, exploitation, inadequate caretaking, and exposure to violence. This course may include a skills testing component.

PR: SCWK 4300

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5329 Biopsychosocial Assessment in Addictions** - inactive course

**5420 Social Work Research and Evaluation: Collecting and Analysing Data** - inactive course

**5421-5429 Selected Topics in Social Work Research** may be offered. Students should consult the School for course offerings listed under selected topics in a given semester.

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5520-5521 Selected Topics in Health and Social Policy** will have topics to be studied announced by the School.

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5522 Feminist Perspectives on Policy and Practice** - inactive course

**5523 International Social Welfare** - inactive course

**5524-5529 Selected Topics in Health and Social Policy** will have topics to

be studied announced by the School.

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5610-5612 Selected Fields of Practice**

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5613 Social Work in Mental Health** provides an overview of the field of Mental Health. Social Work responsibilities are examined in relation to formal and informal mechanisms that bear on an individual's entry into mental illness, explanations of mental illness, the role of institutions, types of treatment, community mental health advocacy and return to the community.

PR: the former SCWK 3320, the former 3321, and the former 3421

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5614 Social Work in Rural Newfoundland and Labrador** examines the practice of rural and northern social work from the perspective of rural Newfoundland and Labrador. The practice of social work in rural and northern communities requires a unique adaptation of social work theory and practice. Due to the limited resources in isolated communities the social worker or human service professional is called upon to utilize specific social work skills.

PR: the former SCWK 3320, the former 3321, the former 3421

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5615-5619 Selected Fields of Practice**

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5720 Seminar on Professional Issues and Interdisciplinary Practice** is an integrative study of current professional trends and issues in contention. Dilemmas and tasks in professionalism; such as, contending values; relations among disciplines.

PR: SCWK 4300

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

**5820-5829 Directed Readings** may be given to senior students to pursue individual studies not duplicative of other studies.

PR: consent of Director

UL: not applicable to the Bachelor of Social Work program for students admitted in Fall 2009

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 General Information and Regulations Governing All Graduate Students

The graduate degrees of Doctor of Philosophy, Doctor of Psychology, Master of Applied Social Psychology (Co-operative), Master of Applied Statistics, Master of Arts, Master of Arts and Education (Education and Francophone Literatures and Cultures), Master of Business Administration, Master of Education, Master of Engineering, Master of Engineering Management, Master of Music, Master of Nursing, Master of Philosophy, Master of Physical Education, Master of Public Health, Master of Science, Master of Science in Kinesiology, Master of Science in Medicine, Master of Science in Pharmacy, Master of Social Work, and Master of Technology Management are awarded by the University. Graduate diplomas are offered in Clinical Epidemiology, Community Health and Humanities, Fisheries Resource Management, Post-Secondary Studies (Health Professional Education) and Post-Masters Nurse Practitioner.

Interdisciplinary study is encouraged by the University, and prospective applicants should make enquiries about their interests from all the areas of study concerned. Interdisciplinary programs offered are: Master of Applied Science (Computer Engineering, Environmental Systems Engineering and Management, and Oil and Gas Engineering), Master of Arts and Education (Education and Francophone Literature and Culture), Master of Arts and Doctor of Philosophy in Ethnomusicology, Master of Employment Relations, Master of Engineering Management, Master of Environmental Science, Master of Marine Studies, Master of Science (Aquaculture), Master of Science and Doctor of Philosophy (Cognitive and Behavioural Ecology), Master of Science (Computational Science), Master of Science (Computational Science - Co-operative), Master of Science and Doctor of Philosophy (Environmental Science), Master of Philosophy (Humanities), Master of Technology Management, Doctor of Philosophy (Interdisciplinary), Doctor of Philosophy (Theoretical Physics), and Master of Women's Studies.

Additional information regarding the School of Graduate Studies is available at [www.mun.ca/sgs/](http://www.mun.ca/sgs/).

Note: *Every candidate in graduate studies shall comply with the **General Regulations**, the **Degree Regulations** and any additional requirements of the appropriate Department.*

### 2.1 Definition and Explanation of Terms Used in this Calendar

#### 2.1.1 Special/Selected Topics Courses

Where a block of courses has been approved under a general heading such as selected topics, special areas, directed readings or like heading, each new course offered from that block of courses shall be approved in advance by the Faculty/School Council (or delegated Graduate Studies Committee). To ensure an orderly use of the courses and non-duplication between course numbers, titles and contents, the Council (or Committee) shall require the same quality and type of information as is needed for the approval of a regular course. (*Consult the School of Graduate Studies or Deputy Registrar for administrative procedures.*)

#### 2.1.2 Dean of Graduate Studies

In all regulations following, reference to "the Dean" refers specifically to the Dean of Graduate Studies.

#### 2.1.3 Credit Hour

A credit hour is the measure used to reflect the relative weight of a given course towards the fulfilment of appropriate degree, diploma, certificate, major, minor, or other program requirements. Normally, a course has a credit value of 3 credit hours. A weight of one credit hour normally means that the course meets for lectures one hour per week for the duration of a semester or two hours per week for the duration of a session. The number of hours of required instruction, outside of lecture time, such as laboratory instruction, tutorials, etc. may or may not impact on the number of credit hours assigned to a particular course and academic units may recommend to the Senate a greater or lesser whole number of credit hours for a particular course.

#### 2.1.4 Graduate Course

1. A graduate course comprises a unit/units of work in a particular subject normally extending through one semester, the completion of which carries credit toward the fulfilment of the requirements for a postbaccalaureate degree, diploma or certificate.
2. Accelerated courses are not normally permissible in graduate programs.
3. Courses required as part of a graduate student's program are known as program courses. Tuition for such courses is covered by the semester fee.
4. Courses which are not required as part of a graduate student's program are known as non-program courses. Students registering for such courses will be required to pay the appropriate per-course fee.

#### 2.1.5 Policy Governing the Auditing of Courses

1. In order to audit any course, an individual must receive permission from the instructor in that course, the Supervisor/advisor and the administrative Head of the unit in which the course is offered. Matters to be considered shall include class size, impact on students registered for credit and other factors judged relevant by the academic unit; and permission cannot be given until the number of registrations for credit is known.

- Individuals auditing courses shall limit their participation to that deemed appropriate by the instructor; auditors are not permitted to write formal examinations, nor to have their work formally assessed.
- Students who require a testamur of audition may request the same from the instructor of the course. Students will not register for audit courses nor will a record of audit courses appear on students' transcripts.

### 2.1.6 Semester

A semester means a period of approximately 14 consecutive weeks during which the University is in regular session and in which period there are at least 12 teaching weeks as defined by the Senate. Normally the Fall semester commences in early September, the Winter semester in early January, and the Spring semester in early May.

### 2.1.7 Academic Year

The academic year is from September 1 of one year to August 31 of the following year.

### 2.1.8 Graduate Student

A graduate student is one who has been admitted to a graduate degree or a graduate diploma program.

A full-time graduate student is one who registers as such, devotes full time to his or her academic program and may not commit more than 24 hours a week working time, including teaching assistant or research assistant duties, to matters other than the degree program.

A part-time graduate student is one who is registered for the duration of a semester and is not classified as full-time.

### 2.1.9 Visiting Research Student

- A student who is registered in good standing in a graduate program at another recognized institution who comes to Memorial University of Newfoundland to conduct research under the supervision of Memorial University of Newfoundland faculty members is considered to be a visiting research student. In order to obtain access to University resources, and where applicable, a study permit, such a student will be required to register each semester of their visit for GRAD 9900 using a Course Change Form.
- To be eligible to register, a visiting research student must submit an Application for Admission form to the School of Graduate Studies, accompanied by: a) a letter from their home institution verifying graduate student status, and b) a letter from the host faculty member confirming the duration of the visit. The student will then be admitted to the School of Graduate Studies to a "non-degree" program.
- Visiting research students will be exempt from tuition fees. However, all visiting research students will be required, as a condition of registration, to purchase health insurance (international students should contact the International Student Advisor, whereas Canadian citizens or permanent residents of Canada should contact the Graduate Students' Union for more information). If a visiting research student wishes to register for a course while at Memorial University of Newfoundland, s/he must meet the University admission requirements and pay the undergraduate per course fee as indicated under the **UNIVERSITY REGULATIONS - Fees and Charges** in the University Calendar.

Note: A student enrolled in a graduate program at another university who wishes to complete courses at Memorial University of Newfoundland for transfer of credit to his/her home institution is not considered to be a visiting research student under this definition. Such students should apply to the Office of the Registrar for admission to the University, and if admitted, will be governed by **GENERAL ACADEMIC REGULATIONS**. Fees will be assessed in accordance with the fee schedule for undergraduate courses as indicated under the **UNIVERSITY REGULATIONS - Fees and Charges** in the University Calendar.

### 2.1.10 Program

- A program, whether it comprises courses only, courses and comprehensive examination, or courses, internship, project, thesis research, paper folio is defined for each graduate student in accordance with Departmental and University Regulations. Each program of study is recommended by the appropriate academic unit, and must be approved in writing by the Dean of Graduate Studies before the beginning of the graduate student's second year of study.
- Responsibility for the administration of the program shall rest with the Dean acting on behalf of the School.

Note: The following general statements concerning admission and Degree requirements should be supplemented by the detailed regulations governing each program.

## 2.2 General Regulations

### 2.2.1 Qualifications for Admission

#### 2.2.1.1 Graduate Diploma Programs

To be considered for admission to a Graduate Diploma program, the minimum requirements will normally be a second-class degree from a university of recognized standing, in an appropriate area of study.

A candidate admitted to a Graduate Diploma program, who has demonstrated to the satisfaction of the Faculty/School/Department concerned their ability to pursue research at the master's level, may be permitted subsequently to transfer his/her candidature to that of a master's in the affiliated program area and will thereafter be awarded only the master's at the end of his/her candidature.

#### 2.2.1.2 Master's Programs

To be considered for admission to a Master's program, the minimum requirements will normally be a second-class degree from a university of recognized standing, in an appropriate area of study.

#### 2.2.1.3 Ph.D. and Psy.D. Programs

- To be considered for admission to a Ph.D. program, the minimum requirements will normally be a Master's degree from a university of recognized standing, in an appropriate area of study. Other students may be considered for admission to a Ph.D. program provided that:
  - they have been registered in a Master's program for a minimum of 12 months, and have demonstrated to the satisfaction of the Faculty/School/Department concerned their ability to pursue research at the Doctoral level. Such transfer should take place no later than the 5th semester of the student's Master's program as indicated under **UNIVERSITY REGULATIONS - Fees and Charges** in the University Calendar; or

- b. they hold a Bachelor's Degree with Honours, or equivalent, from a university of recognized standing, and that the Faculty/School/Department is satisfied of the students' ability to pursue research at the Doctoral level.
2. To be considered for admission to the Psy.D. program, the minimum requirements will normally be an undergraduate honours degree in Psychology that includes senior courses as indicated under the **Regulations Governing the Degree of Doctor of Psychology**.

#### 2.2.1.4 Applicants Not Meeting Qualifications

Only in exceptional circumstances, and only upon the recommendation of the Faculty/School/Department concerned, will the Dean consider applicants who do not meet the requirements in 1. or 2. above.

#### 2.2.1.5 English Proficiency Requirements

Since English is the primary language of instruction at this University, all applicants seeking admission to the School of Graduate Studies must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language. This demonstration may take one of the following forms:

1. Successful completion of the equivalent of three years of full-time instruction in an English language secondary institution as recognized by Memorial University of Newfoundland including successful completion of at least two courses in English Language and/or Literature at the Grade XII (or equivalent) level. Please note that these courses must be other than English as a Second Language (E.S.L.) courses.
2. Successful completion of a baccalaureate degree from a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
3. Successful completion of a post-graduate degree program at a recognized University where English is the language of instruction and from which transfer of credit may be allowed by Memorial University of Newfoundland.
4. Submission of official results of the Test of English as a Foreign Language (TOEFL) with a paper-based score of 550 (or higher)/computer-based score of 213 (or higher) or Internet-based with a score of 80 (or higher) and the Test of Written English (TWE) with a score of 4 (or higher).
5. Submission of the official results of the Michigan Test of English Proficiency with a score of 85% (or higher).
6. Submission of the official results of the English Language Testing Service (ELTS) Test with an average band score of 6.5 or higher.
7. Submission of official results of the Carleton Academic English Language (CAEL) Assessment with a minimum score of between 50 and 60 in each of four bands, with at least 2 band scores of 60.
8. Submission of official results of the Canadian Test of English for Scholars and Trainees (CanTEST) with a Band Level 4.5 in the listening comprehension and reading comprehension sub-tests and a score of 4 in writing.
9. Only in exceptional circumstances and only upon the recommendation of the Department/Faculty/School concerned, will the Dean consider applicants who do not meet one of the requirements listed in 1-8 above.

#### 2.2.1.6 Additional Requirements

Particular Departments/Faculties/Schools may require greater strength in English communicative skills than is indicated by the achievement of minimum scores outlined in 4., 5., 6., 7., and 8. above. Any such additional requirements are detailed in the appropriate section of the Calendar.

#### 2.2.1.7 English Language Requirements Subsequent to Admission

1. Students who have been admitted under **English Proficiency Requirements**, Clauses 4. - 8. above, will be required to take an English language placement test on arrival at Memorial University of Newfoundland. On the basis of the test results, students may be required to complete successfully a course of language study designed to bring their English, in any or all of listening, speaking, reading, and writing, to a level required for graduate studies. A final assessment of the students' proficiency in these areas will normally be made no later than the end of the third semester following their first registration in the School of Graduate Studies. As a result of this assessment, and in consultation with the student's academic unit and the Department of English Language and Literature, there may be a recommendation for termination of the student's program.
2. Notwithstanding **Additional Requirements** above, if a student's Department is not satisfied with the student's ability to communicate in English, then the student may be required to complete successfully the relevant component(s) of the course of study referred to in **Additional Requirements**. The Department will be required to take this action within three semesters of the student's admission to a graduate program. At the end of this period the Department may recommend, but not require this procedure.

Note: Information regarding the TOEFL program is available from the Educational Testing Service, Box 899, Princeton, New Jersey, U.S.A., 08540; from U.S. embassies or consulates, or from offices of the U.S. Information Services, or on-line at [www.toeflgoanywhere.org/index.php](http://www.toeflgoanywhere.org/index.php). Information on the Michigan Test of English may be obtained from the Testing and Certificate Service, University of Michigan, 2001 North University Building, Ann Arbor, Michigan, U.S.A., or on-line at [www.michigan-test.com](http://www.michigan-test.com). Information regarding the ELTS Test is available from the offices of the British Council, 10 Spring Gardens, London, SW1A 2BN, England or on-line at [www.ielts.org](http://www.ielts.org).

#### 2.2.1.8 Foreign Degree Transcripts

Students who have completed undergraduate programs at universities which issue documents in languages other than English or French shall submit notarized English translations of all supporting documentation, including, but not limited to, transcripts, degrees, and diplomas.

### 2.2.2 Procedure for Admission

1. Application for admission to graduate studies must be made either online or on the appropriate form in duplicate to the School of Graduate Studies. The application must be supported by an official transcript of the applicant's university record. If the applicant is a graduate of another university or college, a copy of the Calendar of that institution must be included upon request.  
Most graduate programs have September start dates; however, some programs accept students for January and/or May admission. Deadlines for submission of applications can be as early as November for the following September; therefore, applicants should inquire about program start dates and application deadlines of the academic program of interest (see [www.mun.ca/become/graduate](http://www.mun.ca/become/graduate)). Non-Canadian applicants should allow four to six months for processing of official documents with Immigration authorities.
2. Admission to graduate studies shall be upon acceptance by the Dean after assessment of the qualifications of the applicant but no candidate will be admitted unless the academic unit of specialization recommends acceptance along with a proposed program of

study and a proposed Supervisor or advisor or, where appropriate, a tutor. Successful applicants will be notified by the Dean of Graduate Studies.

3. The applicant may be required to appear for an interview before a final offer of admission is made.
4. It is recommended that the applicant refer to the appropriate section of this Calendar to ascertain if additional testing information or documentation is required when making initial application.
5. The University reserves the right to refuse admission to any applicant.

## 2.2.3 Registration

### 2.2.3.1 Program Registration

1. All graduate students must be registered in each semester for the graduate program registration appropriate to their discipline (see note) until all academic requirements for the degree have been met, except during periods for which leaves of absence have been granted (see **Leaves of Absence**).

Note: e.g., *Linguistics 9000, Chemistry 9000 or, in the case of Medicine, Medicine 9900.*

2. A student registered in a graduate diploma, Master's, Ph.D., or Psy.D. program may not concurrently pursue studies leading to any other degree without the prior approval of the Dean.

### 2.2.3.2 Program Withdrawal

Students intending to withdraw from their program must inform the Dean of Graduate Studies in writing. The period of withdrawal from a program without incurring liability for that semester's fees is three weeks after the first day of lectures in the semester in question, as stated in the **University Diary**. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see **Fees and Charges**).

### 2.2.3.3 Course Registration

Note: *For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.*

1. Students will register for courses at the times indicated in the **University Diary**.
2. Students not admitted to a graduate program may enroll in graduate courses with the permission of the Head of the appropriate academic unit.

### 2.2.3.4 Changes in Course Registrations

Note: *For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.*

1. Within two weeks following the first day of lectures in any semester, as stated in the **University Diary**, a graduate student may, upon the approval of the appropriate Head of academic unit, add a course or courses to his or her registration for that semester.
2. Within seven weeks after the first day of lectures in any semester, as stated in the **University Diary**, a graduate student may, upon the approval of the appropriate Head of academic unit, drop a course or courses from his or her registration for that semester without prejudice.
3. After the period described in 2. above has expired, and up until the last day of lectures, any student who is prevented from completing a course by illness, bereavement or other acceptable cause, duly authenticated in writing may, upon the recommendation of the Head of the appropriate academic unit, drop that course without academic prejudice.

Note: *A course cannot be dropped after the last day of lectures without the approval of the Dean of Graduate Studies.*

### 2.2.3.5 Period of Study

1. Each student in graduate studies shall spend such time in the program as decided by the academic unit of specialization and approved by the Dean, and be subject to the following minimum residency.
  - a. Except where provided for elsewhere in this calendar, each student for a Master's Degree shall normally spend at least two semesters in residence as a graduate student at this University.
  - b. Except where provided for elsewhere in this calendar, each student for a Ph.D. or Psy.D. shall normally spend at least three semesters in residence as a graduate student at this University.
 

To be resident as a graduate student of this university a student must be registered as a graduate student at Memorial University of Newfoundland and participate in a community of learners and instructors (formally or informally) who are joined together by the practices and standards of a profession or an academic discipline. For most students this will involve taking courses or engaging in research while resident on campus. These attributes may, however, be found elsewhere and it is possible therefore that the residency requirement may be satisfied in an off campus location. In such cases the Dean of Graduate Studies must be satisfied that the attributes are met.
  - c. Except where provided for elsewhere in this Calendar, each student for a graduate diploma shall normally spend at least one semester in residence as a graduate student at this University.
2. The maximum period of a graduate program shall be seven years beyond first registration.

### 2.2.3.6 Leaves of Absence

1. General
  - a. A leave of absence is a period of time during which a student is not required to register; no fees are assessed; and the time granted is not counted in the maximum time period permitted for a graduate program (see **Period of Study**).
  - b. In the event that circumstances prevent a student from pursuing his/her program, the student may apply to the Dean of Graduate Studies for a leave of absence.
  - c. A student may normally apply for only one leave of absence during his/her program. The maximum leave of absence shall normally not exceed 12 months.
  - d. An application for leave will normally be made before the end of the registration period in the first semester for which leave is requested. Requests received after the end of the regular registration period, and approved, will be charged an administration fee (see **Fees and Charges**).
2. Parental
 

A student may apply for a leave of absence in the case of pregnancy/birth/adoption of a child. (Such leave will be considered

separately from 1.c. above.)

## 2.2.4 Program Requirements

Note: *Every candidate shall complete a program of study as recommended by the Head of the academic unit, in consultation with the Supervisory Committee and approved by the Dean of Graduate Studies. See **Procedure For Admission**, Clause 2.*

### 2.2.4.1 Graduate Diploma and Master's Programs

1. Candidates should consult the appropriate Degree and Department/Faculty/School regulations for information concerning the specific program requirements.
2. Graduate diploma programs shall not normally comprise more than 50% of the master's in the same area.

### 2.2.4.2 Ph.D. and Psy.D. Programs

1. Each candidate is required to pass a comprehensive examination (see **Comprehensive Examinations, Ph.D. and Psy.D. Comprehensive Examination**).
2. Each candidate shall present a thesis embodying the results of original research.
3. Candidates should consult the appropriate Department/Faculty/School regulations for information concerning the number and specific credit hours that may be required for a program.
4. Candidates may pursue a specified part of their research elsewhere provided that prior permission has been obtained from the Dean on the recommendation of the Head of the academic unit in consultation with the Supervisory Committee.

### 2.2.4.3 English Writing Requirement

Given the analytical and scholarly demands of study at the graduate level, graduate students are expected to demonstrate an advanced facility with written English in meeting the demands of their course work and, where applicable, in the writing of any end-of-program research report, folio, comprehensive examination, or thesis.

### 2.2.4.4 Changes in Programs

Any changes in the candidates's program of studies must be approved by the Dean of Graduate Studies on the recommendation of the appropriate academic unit.

### 2.2.4.5 Research Involving Animals

The Animal Care Unit offers a seminar in animal care at least once annually. The seminar is administered by the School of Graduate Studies. All graduate students whose degree requirements involve experimentation on living vertebrate animals are required to attend this seminar normally at the first offering following commencement of their program.

### 2.2.4.6 Graduate Research Integrity Requirement

All graduate students are required to complete the Graduate Research Integrity Program (GRIP), which is administered by the School of Graduate Studies and offered annually in the Winter semester. Successful completion of GRIP is normally required in the first offering following program commencement and will be annotated on the student's transcript.

### 2.2.4.7 Year of Degree and Departmental Regulations

1. A student completing a graduate degree program in the School of Graduate Studies will follow the degree and Faculty/School/Department regulations in effect in the year in which the student first registers for his/her current program. However, students may elect to follow regulations introduced subsequent to their initial registration.

Note: *The foregoing notwithstanding, in the case of students who have submitted a thesis/report/folio, or students in a non-thesis program who have taken a comprehensive examination, the option of changing regulations is no longer available.*

2. When there is doubt as to which degree or Departmental regulations may be followed, the Academic Council of the School of Graduate Studies will decide which are the appropriate regulations.
3. Notwithstanding these guidelines, the University may place limits on the time permitted to complete a program under any given set of regulations. In addition, detailed scheduling of courses and/or work periods may be changed as the University deems appropriate or necessary.

### 2.2.4.8 Transfer of Course Credits

All such transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Head of the appropriate academic unit.

1. A student who has successfully completed graduate courses at Memorial University of Newfoundland prior to admission to a graduate program may apply to transfer appropriate courses to that program, provided such courses have not been used to satisfy other Degree requirements.
2. A student who has successfully completed graduate courses as part of one graduate program at Memorial University of Newfoundland, and who is subsequently admitted to another program, may apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.
3. A student who has successfully completed graduate courses at another institution recognized by Senate may, on admission to a graduate program at Memorial University of Newfoundland, apply to transfer appropriate courses to the current program, provided such courses have not been used to satisfy other Degree requirements.
4. Students who successfully complete a graduate diploma program may transfer the course credits earned in that program towards a master's degree if these credits meet the requirements of the master's in the affiliated area in which the graduate diploma was granted.

Affiliated Master's programs for graduate diploma programs currently offered by the School of Graduate Studies are as follows:

#### Medicine

Graduate Diploma in Clinical Epidemiology - Master of Science in Medicine (Clinical Epidemiology)

Graduate Diploma in Community Health - Master of Science in Medicine (Community Health) and Master of Public Health

**Education**

Graduate Diploma in Post-Secondary Studies (Health Professional Education) - Master of Education (Post-Secondary Studies)

**Marine Studies**

Graduate Diploma in Fisheries Resource Management - Master of Marine Studies (Fisheries Resource Management)

- In programs requiring a minimum of 12 credit hours or more, transfer of credit hours in graduate courses referred to in 1, 2, and 3 above shall not exceed 30% of the total number of credit hours required. In programs requiring fewer than 12 credit hours, a maximum of 3 credit hours in graduate courses referred to in 1., 2., and 3. above shall be considered eligible for transfer.
- Graduate courses referred to in 1., 2., 3., and 4. above shall not be considered eligible for transfer if they have been completed more than seven years prior to the date of admission into the current program.

**2.2.5 Provision for Waiver of Regulations**

Academic regulations notwithstanding, the University reserves the right in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgement of the appropriate University Officer or Committee, there is sufficient justification for doing so.

- Waivers of course prerequisites/co-requisites may be granted by the Head of an academic unit.
- Waivers of Departmental regulations may be granted by the Dean of Graduate Studies on the recommendation of the Head of an academic unit.
- Requests for waiver of a degree or general regulation must be submitted to the Academic Council of the School of Graduate Studies.

**2.2.6 Appeal of Regulations****2.2.6.1 General Information**

- Every graduate student has the right to appeal decisions resulting from the application of University regulations.
- Appeals will be considered in the case of health issues, bereavement and/or other acceptable cause, duly authenticated.
- For assistance in the appeals process, students are advised to consult with the School of Graduate Studies.
- In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include an international advisor, a faculty advisor, a counsellor, a representative from the Memorial University of Newfoundland Graduate Students' Union (GSU) or a faculty member who is familiar with the appeals process and who is willing to undertake the role of student advisor or facilitator.
- Appeals are made before specific committees that exist at the University to provide an objective review of cases. The appeals process is designed to assist students at critical points in their graduate program and to provide an accessible and transparent process for students. Refer also to **Appeal Procedures** for information concerning where appeals should be directed.
- The principle of fairness should be applied to all parties in appeals processes and decisions. Fairness includes, but is not limited to, such practices as all parties to the appeal receiving timely and adequate notice, all parties to the appeal having the opportunity to be heard, all parties to the appeal being made aware of the evidence considered by the committee, and no individual sitting in judgment on an appeal at a higher level who has already been a party to the decision at a lower level. Any member of a committee hearing an appeal, who was previously involved in a decision making process at a lower level of process, will abstain from voting.
- While the University makes provision for students to appeal regulations, the academic, financial or other consequences of the appeal process rests with the students.
- When an appeal is denied, the student will be advised in writing of the reasons for the decision and of further steps that can be taken in the appeals process. A student whose appeal is denied by the Executive Committee of Senate may appeal to the Senate. Appeals to the Senate will be heard in the first instance by the Senate Committee on Academic Appeals and that Committee will investigate the appeal and file a report to the Senate with its findings and recommendations as expeditiously as possible. Students have the right to appear in person before the Senate Committee on Academic Appeals, and have the right to be accompanied by another person in order to assist them with their presentation. Normally, however, the presentation of the student's case rests with the student. Advance notice of the student's intention to appear and the identity of the accompanying individual, if any, must be provided to the Secretary of the Senate Committee on Academic Appeals. Should the student's appeal be denied by the Senate, the student will be advised that within the University no further appeal is possible.
- Student appeals are heard anonymously. However, this provision ceases to apply to a student who elects to appear in person before the Senate Committee on Academic Appeals as outlined in Clause 8 above.

**2.2.6.2 Appeal Procedures**

- Normally, the responsibility for making an appeal before the appropriate committee of the University rests with the student.
- A student who is ineligible to officially register for courses but who wishes to attend classes, laboratories or other educational activities while an appeal is in progress can do so only with the written permission of the head of the academic unit concerned. Such permission will not be unnecessarily withheld.
- Any student whose request for waiver of regulations has been denied has the right to appeal. Normally, any such appeal should be made in writing, clearly stating the basis for the appeal, and should be directed as follows:
  - Appeals against decisions of the Head of an Academic Unit will be made directly to the Dean of Graduate Studies.
  - Appeals against decisions of the Dean may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.
  - Appeals against decisions of the Executive Committee of the Academic Council may be made to the Appeals Committee, School of Graduate Studies. Letters of appeal should be directed to the Chair of the Appeals Committee, c/o School of Graduate Studies.
  - Appeals against decisions of the Appeals Committee, School of Graduate Studies, may be made to the Executive Committee of Senate, c/o Office of the Registrar.
- Appeals cannot be made on the basis of the grades awarded in individual courses. Dissatisfaction with grades is not sufficient grounds for an appeal.

Notwithstanding the above, and recognizing that the award of grades is an academic matter within the purview of experts in a

discipline or subject area, students who wish to question the award of grades in individual courses are encouraged to consult with the following in the order given:

- The course instructor
- The head of the appropriate academic unit
- The Dean of Graduate Studies

### 2.2.6.3 Information Required in Letters of Appeal

1. All appeals must be made in writing, clearly stating the basis for the appeal, and must be directed to the secretary of the appropriate University committee.
2. In the Letter of Appeal, the student must clearly and fully provide: name, current address, telephone number, Memorial University of Newfoundland email address, student ID number, the decision being appealed and the remedy being sought. The grounds for the appeal, including health issues, bereavement and/or other acceptable cause, must be stated in the Letter of Appeal. Students must present independent evidence to corroborate statements made in the Letter of Appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However letters from other knowledgeable parties may be acceptable.
3. In cases where an appeal is made on health issues, the student must provide a certificate from a health professional in the form of a note or a letter. Such a note must be sufficiently specific to allow appropriate consideration of the student's case. The note must also clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. Students should refer to the policy respecting **Information Required for Certificates from Health Professionals** for more complete information.
4. Students claiming bereavement as grounds must provide proof of death and evidence of a close personal relationship between themselves and the deceased.
5. **Confidentiality:** The committees to which appeals are made do require substantial information about the reasons for the appeal in order to make their decisions. However, the committees also recognize the students' rights to confidentiality. With this in mind, a student may discuss the reasons for his or her appeal with a University, College or Institute counsellor, who, with the student's permission and provided sufficient reasons exist, may then write a letter to the appropriate committee confirming that there were sufficient grounds for an appeal, without disclosing the special personal and confidential details of the case.

### 2.2.6.4 Information Required for Certificates from Health Professionals

1. Students who request permission to drop courses, to withdraw from University studies, to have examinations deferred or to obtain other waivers of University, departmental or course regulations based on health issues are required by the University to provide, in support of the request, a certificate from a health professional in the form of a note or letter. Such notes must be sufficiently specific to allow a proper consideration of students' cases. The University requires that all such notes must be on letterhead, must be signed by the health professional, must confirm the specific dates on which the student visited the health professional and should include details on the following:
  - the degree to which the health issue (or treatment, in the case of medication, for example) is likely to have affected the student's ability to study, attend classes, sit examinations, or continue with research;
  - the length of time over which the student's abilities were likely hampered by the condition (e.g., recurring and severe back pain over a two-month period would likely have a more adverse effect on studies than a single episode of back pain requiring bed rest for a week; and
  - the fitness of the student to resume studies (it is in the student's best interest not to return to studies prematurely).
2. **Confidentiality:** The University respects the confidentiality of all material contained in notes. Student should request that their health professional retain a copy of the note in case the note needs to be verified or reissued at a later date.

## 2.2.7 Evaluation

Note: For interdisciplinary programs, the Head of the academic unit is the Dean or Director of the Faculty/School administering the program.

### 2.2.7.1 Evaluation Methods and Grading

1. Students shall write their examinations in graduate courses at a time to be determined by the Head of the academic unit on the recommendation of the Faculty member(s) concerned.
2. A written copy of the course outline, including method of evaluation in the course, shall be provided to each student in the course as early as possible, and in any case not later than two weeks after the start of the course.
3. The final evaluation submitted to the Registrar shall consist of one of the following letter grades with the appropriate numerical equivalent:

Letter Grades	Numeric Grades	Points Per Credit Hour
A	80-100%	4
B	65-79%	3
C	55-64%	2
D	50-54%	1
F	below 50%	0
PWD (pass with distinction) - indicates excellent performance	no numeric grade	not applicable
PAS (pass) - indicates performance meets expectations	no numeric grade	not applicable
FAL (fail) - indicates failing performance	no numeric grade	not applicable
DR (drop) - drop without academic prejudice	no numeric grade	not applicable
DRF (drop fail) - drop with academic prejudice	0%	0
ABS (absent) - absent for acceptable cause	no numeric grade	not applicable
INC (incomplete) - incomplete pending final grade	no numeric grade	not applicable

4. Supplementary examinations are not permitted.

### 2.2.7.2 Evaluation of Graduate Students

1. Failure to attain a final passing grade of A or B in a program course shall lead to termination of a student's program unless:
  - a. the regulations for a particular degree allow the student to repeat the course. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.
  - b. the Dean of Graduate Studies approves a repeat of the course, upon the recommendation of the Supervisor and the Supervisory Committee supported by the Head of the Academic Unit, where 1.a. above does not apply. Such recommendations must provide sufficient grounds for a repeat. Only one such repeat will be permitted in a student's program. Failure to obtain a grade of A or B in the repeated course shall lead to termination of the student's program.

*Note: In exceptional circumstances, the Dean of Graduate Studies may approve a substitute course in place of the repeat upon the recommendation of the Supervisory Committee and Supervisor supported by the Head of the Academic Unit. Failure to obtain a grade of A or B in the substituted course shall lead to termination of the student's program.*

2. Failure in a non-program course will not normally result in termination of a student's program.
3. The Supervisor and the Supervisory Committee may recommend that a candidate be required to withdraw from the program, if after consultation with the candidate, the candidate's non-course work is deemed to have fallen below a satisfactory level.
4. When Departmental requirements for a degree requires an examination of a candidate's reading knowledge of a language(s) other than English, the examination shall be set and marked by the appropriate language Department, or by an authority as determined by the Head of the academic unit and Dean. The results of the examination will be transmitted to the candidate by the Dean.

### 2.2.7.3 Deferral of Examinations

1. Graduate students who are prevented by illness, bereavement or other acceptable cause, duly authenticated, from writing final examinations may apply, with supporting documents within one week of the original examination date to the appropriate Head of the academic unit to have their examinations deferred.
2. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated in writing to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.
3. In those cases where the Department accepts the extenuating circumstances the student may be permitted to write a deferred examination or, with the consent of both the Department and the student, the grade submitted may be based on term work alone.
4. An interim grade of 'ABS' will be assigned by the academic unit in the case of a student granted a deferred examination. This grade will be replaced by the final grade which must be received by the Office of the Registrar within one week following the commencement of classes in the next academic semester or session.
5. Students who are prevented by illness or bereavement or other acceptable cause, duly authenticated, from writing a deferred examination, may apply, in writing, with supporting documents within one week of the scheduled date of the deferred examination to the appropriate Department Head to have the examination postponed to a time not later than the last date for examinations in the semester following that in which the student was enrolled in the course.
6. The Department's decision, including information on the appeals route open to the student in the case of a negative decision, must be communicated to the Registrar, to the student and to the Dean of Graduate Studies within one week of the receipt of the student's complete application.

### 2.2.7.4 Incomplete Grades/Change of Grade

1. For good cause a grade of 'Incomplete' may, with the approval of the appropriate Department or academic unit, be submitted. This 'Incomplete' grade shall, however, be valid only for one week following the commencement of classes in the next academic session as stated in the **University Diary**. In the event that a mark has not been received by the Registrar within the prescribed deadline, the 'Incomplete' grade shall be changed to '0 F'.
2. Clause 1. notwithstanding, for acceptable cause an extension of time not exceeding the end of the semester following that in which the 'Incomplete' was given may be permitted by the Head of the academic unit. "Acceptable cause" in these cases must be duly authenticated and will be illness, bereavement, serious problems of a personal nature or the like.
3. Changes in grades for graduate courses must be submitted on the appropriate form, which must be signed by the course instructor and approved by the Head of the appropriate academic unit who will submit such changes to the Registrar.

*Note: A grade of less than 65% cannot be changed without the approval of the Dean of Graduate Studies.*

### 2.2.7.5 Re-Reading of Examination Papers

1. Students may apply to have a final examination paper re-read whether or not they have obtained a passing grade in that course.
2. Students who wish to have a final examination paper re-read must make written application to the Registrar enclosing a fee of \$50.00 per paper within one month of the release by the University of the grade reports. If the mark is raised after re-reading, the fee is refunded. If the mark is unchanged or lowered, the fee is forfeited.

## 2.2.8 Comprehensive Examinations

### 2.2.8.1 Master's Comprehensive Examination

1. The composition of the Comprehensive Examination Committee is specified in the Degree and Departmental regulations, and the Committee is appointed by the Dean. The Dean of Graduate Studies or delegate may exercise the right to attend. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.
2. In this examination the candidates must demonstrate an advanced knowledge of the academic discipline as defined by the academic unit in which they are students. Therefore, in order to be eligible to sit the examination, all course requirements must be completed.
3. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a.-d. below:
  - a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.
  - b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.
  - c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.
  - d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.
4. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

### 2.2.8.2 Ph.D. and Psy.D. Comprehensive Examination

1. The candidate shall submit to a comprehensive examination, which may be written or oral or both as determined by the academic unit. Candidates shall normally take the examination no later than the end of the seventh semester in the doctoral program. Unless an extension is approved by the Dean of Graduate Studies, failure to take the examination at this time will result in the termination of the candidate's program.
2. This examination, whether written or oral, shall be conducted by a Committee appointed by the Dean of Graduate Studies on the recommendation of the academic unit. It shall consist of the Head of the academic unit (or delegate) who shall be the Chairperson, the candidate's Supervisor [or, where a Supervisor has not yet been appointed, the Graduate Officer or Chair of the Graduate Studies (or equivalent) Committee], the Dean of Graduate Studies (or delegate), and at least three other members, the total voting members to be an odd number. All members of the Committee including the Chairperson, but excluding the Dean of Graduate Studies, shall be voting members.
3. In this examination, the candidate must demonstrate a mastery of those sub-disciplines appropriate to his/her research area, as defined by the academic unit in which they are students. Those sub-disciplines upon which the candidate will be examined should be made known to the candidate no later than three months prior to the examination. The candidate must further be able to relate the specialization of his/her research to the larger context of these sub-disciplines.
4. Members of the Comprehensive Examination Committee shall decide the results of the comprehensive examination as indicated in a-d below:
  - a. The category of 'pass with distinction' will be awarded to candidates who demonstrate superior knowledge of their chosen field. This category requires unanimous support of the Comprehensive Examination Committee.
  - b. The category of 'pass' will be awarded to candidates who demonstrate an acceptable knowledge of their chosen area and requires a simple majority vote.
  - c. The category of 're-examination' selects those candidates with an understanding of their research area that lacks sufficient depth and scope as indicated by a simple majority of the Comprehensive Examination Committee. Only one such re-examination is possible and students in this category are not eligible for the award of 'pass with distinction'. If a re-examination is to be held, it must be conducted not less than one month and not more than six months after the first examination. The decision of the voting members of the Committee following this re-examination can only be 'pass' or 'fail' decided by simple majority. Failure will lead to immediate termination of the candidate's program. There is no option for further re-examination.
  - d. Students awarded a 'fail' are deemed, by unanimous vote of the Comprehensive Examination Committee, to be unable to demonstrate an adequate understanding of their research area. The candidate's program is terminated. A simple majority vote will default to the award of 're-examination'.
5. The Chairperson of the Comprehensive Examination Committee shall report to the Head of the academic unit who shall report to the Dean. The result of the comprehensive examination(s) shall be reported to the candidate by the Dean.

## 2.2.9 Supervision

### 2.2.9.1 Master's Candidates

Each Master's candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit, or the Dean of the faculty concerned.

### 2.2.9.2 Ph.D. and Psy.D. Candidates

1. Each candidate shall be assigned a Supervisor by the Dean, on the recommendation of the Head of the academic unit or the Dean

of the faculty concerned.

2. A Supervisory Committee shall be appointed for each candidate by the Dean. The Supervisory Committee shall consist of the Supervisor (co-supervisors) who shall act as Chair, and normally at least two other members. In no circumstances may the Committee membership be fewer than two members. The membership of the Committee shall be nominated by the Head of the Department or the Dean of the faculty concerned, after consultation with the Supervisor and the candidate.
3. The Supervisory Committee shall forward its reports and recommendations to the Dean via the Head of the Department or the Dean of the faculty concerned.
4. The functions of the Supervisory Committee shall be, *inter alia*,
  - a. to decide, in consultation with candidates, the program of study, the subject of research, and the title of the thesis, and to recommend these for approval to the Dean;
  - b. to monitor the candidate's progress in their course programs and their research;
  - c. to report at least annually to the Dean on the candidates' progress and, at the same time, to advise on their continuation in the program; and to make such other reports and recommendations about the candidates to the Dean as it may deem necessary.
  - d. to recommend to the Dean, after consultation with the candidates, necessary changes in the program of study, the subject of research, or the title of the thesis;
  - e. to recommend to the Head of the academic unit or Dean of the faculty the timing of the comprehensive examination;
  - f. to report to the Dean that the thesis is ready for examination by completing a Supervisor Approval Form, which is to accompany the thesis upon its submission to the School of Graduate Studies.
  - g. to recommend to the Dean suitable persons to act as members of the Thesis Examining Board.

### 2.2.9.3 Supervisory Reports

1. At least annually, the Supervisor, Supervisory Committee or the Department shall make evaluations of a student's progress in a program. Recommendations concerning continuation, amendment, or termination (see **Termination of a Graduate Program**) of a candidate's program, are sent to the Dean, who shall take appropriate action. Students shall be advised of the contents of this evaluation and the subsequent recommendation(s).
2. The Supervisor, Supervisory Committee or the Department, shall forward its reports and recommendations to the Dean via the Head of the academic unit or the Dean of the faculty concerned.

## 2.2.10 Theses and Reports

### 2.2.10.1 Thesis/Report Guide Supplement

The Thesis/Report Guide Supplement ([www.mun.ca/sgs/go/guid\\_policies/guidelines\\_intro.php](http://www.mun.ca/sgs/go/guid_policies/guidelines_intro.php)), approved by the Academic Council of the School of Graduate Studies, provides the details for the examination process, general form and style of the thesis/report, required forms, number of copies, etc., required under this regulation.

### 2.2.10.2 Submission

1. Candidates must submit the thesis/report at least four months before the University Convocation at which the award of the Degree is expected (see **University Diary** in current edition of University Calendar for exact date). The School of Graduate Studies does not accept any responsibility for completing the prescribed procedure in time for the nearest Convocation unless theses or reports are submitted by the prescribed dates in any current academic year.
2. A thesis/report may not be submitted until the candidate has fulfilled:
  - a. All course requirements, if any
  - b. All language requirements, if any
  - c. The comprehensive examination, if required, and
  - d. All other academic requirements of the academic unit concerned.

### 2.2.10.3 Evaluation of Master's Theses and Reports

1. Final examiners for the thesis/report will be appointed by the Dean on the recommendation of the academic unit. There will be two examiners for a Master's thesis. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Those serving as examiners shall not have been involved in the preparation of the thesis/report.
2. Examination of the thesis/report will result in one of the following recommendations by each examiner. The thesis/report is:
  - a. acceptable without modifications; or
  - b. acceptable, modifications are required but the thesis does not have to be re-examined\*; or
  - c. unacceptable. The thesis/report requires modification and re-examination\*\*; or
  - d. totally unacceptable - the thesis/report is failed.\*\*\*

\*Modifications may include corrections of typographical errors and errors in nomenclature, improvement in phrasing, or rewriting of sections of the thesis/report. Modifications may be indicated in the text or listed separately;

\*\*Modifications might include (but are not limited to) the rectification of one or more of the following deficiencies: (1) misinterpretation and/or misuse of the matter covered, omission of relevant materials, unfounded conclusions, illogicality of argument, improper analysis of data and the like; (2) bad writing, (3) unacceptable physical presentation. A detailed list of problems should be included with the report;

\*\*\*A detailed list of the reason(s) for failure must be included in the report.

3. If all examiners recommend that the thesis/report is totally unacceptable, then the thesis will be failed, and shall not be re-examined.
4. If an examiner recommends that the thesis/report is unacceptable, and this recommendation is accepted by the Dean, then the student may apply to the Dean for permission to resubmit the thesis for re-examination in one of the following ways:
  - a. to submit a modified thesis/report to the original examiners.
  - b. to submit a modified thesis/report to new examiners.
  - c. to submit the original thesis/report to an Examination Board to be appointed by the Dean.
5. If a thesis/report is re-examined, the candidate will not be awarded a pass unless all examiners find the thesis acceptable.

6. Under no circumstances may a thesis/report be re-examined more than once.

#### 2.2.10.4 Evaluation of Ph.D. and Psy.D. Theses

Candidates for the Degree of Doctor of Philosophy and the Degree of Doctor of Psychology must submit a written dissertation deemed acceptable by the University, and demonstrate their ability to defend their work in a public oral examination. For this reason, the final decision on whether a candidate will be recommended for the award of the degree is made only at the conclusion of the oral examination (see **The Examination Process**).

##### 1. Responsibilities of the Thesis Examining Board

The work of each candidate will be assessed by a Thesis Examining Board. Its first responsibility is to determine whether the thesis successfully demonstrates the candidate's competence to undertake independent research work. The Board must be satisfied that the work contributes significantly to knowledge in the field of study; that the contribution is of high scholarly merit; that the candidate is aware of the pertinent published literature; that it is written in a satisfactory style; and that it is free from typographical and other mechanical errors. The second responsibility of the Board is to conduct a final oral examination of the candidate and to then recommend to the Dean of Graduate Studies whether the candidate should be awarded the Degree.

##### 2. Composition of the Thesis Examining Board

The members of the Thesis Examining Board will be appointed by the Dean on the recommendation of the Head of the academic unit who will have consulted with the supervisory committee. The Board shall consist of four members. Normally these will be the candidate's Supervisor (who serves on the Board in a non-voting capacity), two examiners from within the University, and one from outside the University. However, when circumstances warrant, a second external examiner may be substituted for one of the internal examiners with permission of the Dean. Examiners shall normally be those who have completed a graduate degree at the doctoral level, including a thesis, in the discipline or cognate area. Members of the supervisory committee other than the Supervisor are ineligible for appointment to the Board. Those serving as examiners shall not have been involved in the preparation of the thesis/report.

##### 3. The Examination Process

- a. The voting members of the Board shall submit written reports on the thesis containing an assessment of the quality of the written work and a recommendation as to whether the candidate should be permitted to proceed to an oral examination and defence of the work. An examiner may recommend:
- i. that the candidate be allowed to proceed to the oral defence of the thesis\*, or;
  - ii. that the candidate not be allowed to proceed to the oral defence at this time\*\*, or
  - iii. that the candidate should be failed.

\*Any suggested corrections or revisions should be outlined in the examiner's report. It is understood that it will be the responsibility of the Supervisory Committee to discuss the suggested changes with the candidate, to determine which should be incorporated in the thesis before its final submission.

\*\*This recommendation reflects the examiner's opinion that further research, re-analysis of data, or thorough rewriting of the material is required. The thesis may, however, be re-submitted for examination.

- b. No candidate will be permitted to re-submit a thesis more than once. If the Dean decides that the thesis must be revised before it can be orally defended (as specified in 3.a.ii.) the resubmitted thesis will be examined by a Board which may differ in whole or in part from the original. In the case of a re-submitted thesis an examiner may recommend only:
- i. that the candidate be allowed to proceed to the oral defence of the thesis; or
  - ii. that the candidate should be failed.
- c. After receiving the reports from all three voting members of the Board the Dean will consider the recommendations and determine whether an oral defence of the thesis will be scheduled.
- d. The Final Oral Examination and Defence of Thesis will take place at a time and place to be determined by the Dean of Graduate Studies and will be chaired by the Dean or his/her delegate. The presence of all members of the Examining Board is normally required.
- e. Following the defence, the Board will meet *in camera* to render a final assessment of the thesis and the candidate's ability to defend his/her work. The Board may recommend one of the following outcomes:
- i. Passed with distinction (Awarded to candidates who demonstrate superior knowledge of their chosen field; this category requires unanimous support of the Board. A simple majority vote will result in a recommendation of 'passed'.)
  - ii. Passed\*
  - iii. Passed Subject to Conditions\*\*
  - iv. Re-examination required\*\*\*
  - v. Failed\*\*\*\*

\*This recommendation may have attached to it the requirement that the candidate complete certain specified revisions to the satisfaction of the Supervisory Committee, the Head of the academic unit and the Dean. These revisions must have been specified in the written appraisal submitted prior to the Oral Examination.

\*\*This recommendation is made if there are revisions beyond those specified in the written appraisal submitted prior to the Oral Examination. This recommendation must have the conditions attached and cannot include the option of re-examination.

\*\*\*The members of the Thesis Examination Board may attach to this recommendation a list of any requirements which they feel are appropriate.

\*\*\*\*Re-examination not permitted.

- f. If the members of the Board are unanimous in their recommendation, the Chair of the Examination may accept this recommendation and inform the candidate of the decision. In any other case, however, the delivering of any final decision shall be deferred pending further consultation within the School of Graduate Studies.
- g. No candidate shall be permitted more than two Oral Examinations.

#### 2.2.10.5 Time Limit for Revision

The final version of Master's, Ph.D., and Psy.D. theses/reports found acceptable with or without corrections shall be submitted to the School of Graduate Studies within 6 months of the date on which the thesis/report and the student's examiners' reports are returned to the student's academic unit. If a corrected thesis/report is not submitted within 6 months the student is considered to have withdrawn from the program. After this time, the student must apply to be readmitted.

Master's, Ph.D., and Psy.D. theses/reports requiring re-examination shall be resubmitted to the School of Graduate Studies within 12 months of the date on which the thesis/report and the examiner's reports are returned to the student. Students requiring resubmission and re-examination of theses/reports must maintain their registration during this period. Failure to resubmit the revised thesis/report within 12 months will result in termination of the student's program.

Note: Please refer to **Registration** for regulations governing program registration.

### 2.2.10.6 Prepublication

Publication of material before submission of the thesis/report for examination is permitted. The School of Graduate Studies and Supervisor should be informed of such publication.

## 2.2.11 Graduation Procedure

Candidates expecting to graduate at any particular Convocation must apply online to the Office of the Registrar at [www.mun.ca/regoff/](http://www.mun.ca/regoff/) at least by the time of the submission of the Thesis, Project Report or Internship Report required by their program, or, if applicable, by the date of the final comprehensive examination.

## 2.2.12 Academic Behaviour

### 2.2.12.1 Principles

In the course of a graduate degree program students are expected to learn those principles which constitute proper academic behaviour. Within the University Community there is a collective responsibility to maintain a high level of scholarly integrity. Dishonesty has no place in the academic community. Academic misbehaviour cannot be condoned or even appear to be condoned. Students have the responsibility to ascertain those actions which could be construed as dishonest or improper. Certain flagrant violations are listed below under Academic Dishonesty. Students are reminded that for guidance on proper scholarly behaviour they should seek assistance from their instructors and supervisors. The Graduate Students' Union will provide students with information on their legal rights and the information that advice about acceptable writing standards is available through the Writing Centre.

### 2.2.12.2 Academic Dishonesty: Offences

Note: In the following section the plural shall be deemed to include the singular.

Academic offences shall be deemed to include, but shall not be limited to, the following:

- Cheating:** Cheating on examinations, theses, assignments, work term reports, projects, internship reports, or any other tests.  
Cheating includes copying from another student's work or allowing another student to copy from one's own work, consulting with any unauthorized person during an examination or test, or using unauthorized aids; or knowingly recording or reporting false empirical or statistical data. The work referred to includes examinations, theses, assignments, work term reports, projects, internship reports, or any other tests which are to be used in judging the student's performance in a course or program of study, or on any special tests which the University may offer.
- Impersonation:** Impersonating another student or allowing oneself to be impersonated.  
By impersonation is meant the imitation of a student or entrance into an arrangement with another person to be impersonated for purposes of taking examinations or tests or carrying out laboratory or other assignments.
- Plagiarism:** Plagiarism is the act of presenting the ideas or works of another as one's own. This applies to all material such as theses, essays, laboratory reports, work term reports, design projects, seminar presentations, statistical data, computer programs and research results. The properly acknowledged use of sources is an accepted and important part of scholarship. Use of such material without acknowledgment, however, is contrary to accepted norms of academic behaviour.
- Theft of examination papers or other material:** By theft is meant obtaining by an improper means examination papers, tests, or any other such material.
- Use and/or distribution of stolen material:** The use of material which the student knows to have been improperly obtained and/or the distribution of such material is considered to be an academic offence.
- Submitting false information:** This offence includes falsifying, submitting or causing to submit false academic transcripts, forms or records, credentials, medical or other certificates, or making a false or incomplete declaration to the University.
- Submitting work for one course which has been or is being submitted to another course without express permission to do so:** This includes the presentation of an essay, report or assignment to satisfy some or all of the requirements of a course when that essay, report, or assignment has been previously submitted or is concurrently being submitted for another course without the express permission of the professor(s) involved.

### 2.2.12.3 General Procedure

- When a member of the University community has grounds for belief that an academic offence has been committed, that person will report the matter without delay to the Head of the Department or the appropriate academic officer (i.e., Dean or Director) of the unit in which the offence occurred. In the case of non-academic units, such as the Office of the Registrar, Library and Computing Services, the matter shall be referred through the University Officer in charge of that unit. The student should be informed of the suspicion as soon as possible in an effort to avoid further improper behaviour. There should then be an immediate direct attempt to resolve minor offences between the instructor or Supervisor and the student(s) concerned at the Departmental level. Only if resolution proves impossible, or one party is dissatisfied with the resolution, should the Department Head or other appropriate academic officer become further involved.
- If, in the judgment of the Department Head or other appropriate academic officer (in consultation with the Dean of Faculty) the alleged offence against University regulations is such as to warrant resolution through the School of Graduate Studies, the Department Head or other appropriate academic officer will refer the matter to the Dean of Graduate Studies, and procedures for resolution by the School of Graduate Studies will be implemented.
- If, in the judgment of the Department Head or other appropriate academic officer, the offence warrants resolution through Departmental procedures, the individuals involved will be advised to attempt to resolve the matter without proceeding to a formal hearing. In the event that no resolution is possible between the individual parties, the Department Head or other appropriate academic officer will institute proceedings through the School of Graduate Studies. In all cases, it is the responsibility of the Department Head or other appropriate academic officer to ensure that fairness and impartiality are achieved in the treatment of students.
- The principle of anonymity shall apply. All written documents shall refer to the student by number and the faculty member by letter.

### 2.2.12.4 Procedure for Departmental Resolution

If, upon receiving a report of an alleged academic offence the Department Head or other appropriate academic officer, decide that an attempt should be made to resolve that matter within the Department the following procedures shall apply:

1. The Department Head or other appropriate academic officer shall request that the accuser and the accused meet with him (or her) and at the meeting the Department Head or other appropriate academic officer shall state the allegation, indicate the range of applicable penalties, and arrange a second meeting between the accuser and the accused only.
2. At the second meeting the parties (accuser and accused) shall endeavour to obtain a mutually satisfactory resolution of the matter.
3. The parties (accuser and accused) shall report jointly to the Department Head or other appropriate academic officer on the result of their second meeting.
4. If the report is of a resolution which the Department Head or other appropriate officer considers to be fair and equitable the matter shall be considered closed. If the Department Head or other appropriate academic officer considers the reported resolution to be unfair and/or inequitable he or she will endeavour to obtain an alternative satisfactory resolution directly with the parties.
5. Should all reasonable efforts to obtain a Departmental resolution fail, the Department Head or other appropriate academic officer will refer the case to the Dean of Graduate Studies and shall inform the accuser and the accused accordingly. From this stage onward procedures for resolution by the School of Graduate Studies will apply.

Notes: 1. *The accused or accuser may request, during the procedures for an informal resolution, that the case be referred to the Dean of Graduate Studies and thereafter the procedures for resolution by the School of Graduate Studies will apply.*  
 2. *Procedures for Departmental Resolution will not be applied to cases involving alleged offences on final examinations.*  
 3. *If at any stage of the procedures for either Departmental or Graduate Studies resolution, the accused fails to appear or to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.*  
 4. *If at any stage of the procedures for either Departmental or Graduate Studies resolution, the accuser fails to appear at a scheduled hearing to defend an allegation, without reasonable cause, within two weeks of notification by the Department Head or other appropriate academic officer, the action will be dismissed.*

### 2.2.12.5 Procedures for Resolution by the School of Graduate Studies

If the matter cannot be resolved following the Procedure for Departmental Resolution as outlined above, or if the allegation involves a major breach of University regulations, the following procedures shall apply:

1. If the Department Head or other appropriate academic officer (in consultation with the Dean of his faculty) is satisfied that the student has a serious case to answer, he or she shall inform the student in writing of the nature of the case against him or her. In addition, the Department Head or other appropriate academic officer shall report to the Dean of Graduate Studies who shall immediately appoint a disinterested Investigator from the membership of the Academic Council of Graduate Studies. The Investigator will interview separately the accuser and accused and relevant witnesses. At these interviews, the Investigator, the accuser, the accused and relevant witnesses all have the right to be accompanied by a registered student or a member of the Faculty or Staff of the University.
2. Upon completion of these interviews, the Investigator shall submit a written report of all findings to the Dean of Graduate Studies.
3. The Dean of Graduate Studies shall present this report to both the accuser and accused for perusal and comment. Once in receipt of this report, the accuser and accused shall have two weeks in which to submit to the Dean of Graduate Studies any additional comments on the report that he or she wishes to be considered.
4. Upon receipt of all information from the Investigator as well as comments from the accuser and accused, the Dean of Graduate Studies shall strike an *ad hoc* committee to review the case and make recommendations to the Academic Council of the School of Graduate Studies. The Investigator may be asked to attend the meetings of the *ad hoc* committee to answer questions and provide information pertinent to the case, but shall be absent from the formal discussion and voting.
5. The Academic Council of the School of Graduate Studies shall take appropriate action in accordance with the section headed "Penalties".

Notes: 1. *If at any stage of the procedures for either Departmental or Graduate Studies resolution, the accused fails to appear or to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused. Action will proceed regardless of the current status of the student.*  
 2. *If at any stage of the procedures for either informal or formal resolution, the accuser fails to appear at a scheduled hearing to defend an allegation without reasonable cause, within 2 weeks of notification the action will be dismissed.*

### 2.2.12.6 Penalties

The imposition of any of the penalties listed below does not preclude further action under the Criminal Code of Canada. A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. The range of penalties and their determination is given below. Enforcement of penalties resulting from Procedures for Resolution by the School of Graduate Studies will be overseen by the Registrar. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining penalties. Penalties resulting from Department resolution shall be limited to 1. and 2. Penalties shall be imposed on the basis of the student's status at the time of the offence.

1. **Reprimand:** This shall be in the nature of a warning by the Department Head, or appropriate academic officer or an appropriate Committee to the student that his/her behaviour has been unacceptable to the University.
2. **Reduction of grade:** A reduction of grade will apply to an examination, test, or assignment to which an offence is relevant, and will be decided by the Academic Council of the School of Graduate Studies upon the recommendation of the Department concerned in the case of a resolution by the School of Graduate Studies, or by a Department Head, or appropriate academic officer in the case of a Departmental resolution. Since graduate students must obtain a B grade in required courses and a pass in additional courses a reduction of grade could lead to termination of program.
3. **Probation:** The period of probation will be determined by the Academic Council of the School of Graduate Studies. The impact of being placed on probation is that the commission of any further academic offence during the period of probation may lead to suspension or expulsion.
4. **Suspension:** Suspension will apply to a course, department, faculty, school, or the University. The period of suspension will be determined by the Academic Council of the School of Graduate Studies and shall not exceed three consecutive semesters, and shall be part of the allowable time for a graduate program.
5. **Expulsion:** The recommendation for expulsion from the University will be made by the Academic Council of the School of Graduate Studies to the President for his/her final decision. Prior to the President's decision, the Secretary of the Academic Council will notify the accused, in writing, of the recommendation for expulsion from the University. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the President's final decision concerning expulsion from the University. Any such appeal should be made in writing to the Executive Committee of Senate.

6. **Revocation of Degree:** The recommendation will be made by the Academic Council of the School of Graduate Studies that the Senate rescind a degree that has been obtained by submission of fraudulent or plagiarized work.
7. **Rescinding of Admission and Degree Revocation:** The submission of false information (see **Academic Dishonesty Offences**) in support of an application for admission to Memorial University of Newfoundland is an Academic Dishonesty Offence. In the event that this offence is discovered after the granting of a degree, the Academic Council of the School of Graduate Studies may recommend to the Senate that the student's admission be rescinded and that the degree(s) granted to the student be revoked.

In the event that a student has been found guilty of an Academic Dishonesty Offence and when a penalty has been determined, a notation on the student's transcript may be made by the Registrar as provided for in **Transcript Entries** below.

### 2.2.12.7 Transcript Entries

Transcript entries shall relate to the penalty(ies) imposed as follows:

Penalty	Transcript Entry
Reprimand	No transcript entry
Reduction of Grade	Entry of final grade for course
Probation	"On probation at the University for academic misconduct until Day, Month, Year"
Suspension	"Suspended from the School of Graduate Studies for academic misconduct until Day, Month, Year"
Expulsion	"Expelled from the University for academic misconduct"
Revocation of Degree	"Degree revoked for Academic Dishonesty"

\* The transcript entries for 'probation' or 'suspension' will be removed entirely upon the expiration of the penalty.

### 2.2.12.8 Disposition of Documentation

The disposition of documents relating to allegations under these procedures shall be as follows:

1. The cases where the allegation was either found "not proven" or "unfounded" no documentation shall be retained.
2. In the case of a resolution effected through the procedures for Departmental resolution, all documentation shall be retained in the office of the relevant Department Head or other appropriate academic officer.
3. In the case of a resolution effected through the procedures for resolution by the School of Graduate Studies all documentation shall be forwarded to the Office of the Registrar.

### 2.2.12.9 Right of Appeal

Appeals against decisions of the Academic Council of the School of Graduate Studies made under **Procedures for Resolution by the School of Graduate Studies** shall be directed to the Executive Committee of Senate.

- Notes:
1. These procedures shall apply to all academic offences relating to graduate studies involving, but not limited to, those students who either have been or who are enrolled at Memorial University of Newfoundland. Notification of an allegation of academic dishonesty will be forwarded to the last known mailing address of the student as noted on the files of the School of Graduate Studies. The University reserves the right to implement action under these procedures where an allegation has been made against a student but where reasonable efforts to contact the student have failed.
  2. While a student can continue in a program of studies, if eligible, while an investigation under these procedures is being carried out, the University does not accept liability for any consequences to the student's progress including retroactive effect on grades and promotion within a program, arising from an investigation and any negative decision rendered. However, the University may take these consequences into account as appropriate, and to the extent feasible, in cases where charges are dropped or the student is found not guilty.

### 2.2.13 Termination of a Graduate Program

Grounds for termination of a graduate program are as follows:

1. a. Failure to comply with the conditions of admission into a program, unless the conditions of admission have been changed with approval of the academic unit and the School of Graduate Studies; or
  - b. Failure to register in any semester by the final date for adding courses (see **Registration, Program Registration 1.**);
  - c. Failure to obtain the required grades in courses as stated in the appropriate degree regulations (see **Evaluation**);
  - d. Failure in comprehensive examinations (see **Comprehensive Examinations**);
  - e. Demonstrated lack of progress in a program supported by written documentation;
  - f. Recommendation of the Supervisory Committee (see **Supervision**);
  - g. Failure of Thesis, Project or Internship (see **Theses and Reports**);
  - h. Academic misconduct as outlined under **General Regulation, Academic Behaviour** governing the School of Graduate Studies.
2. The foregoing notwithstanding the University reserves the right to require students to discontinue their program or to deny them admission where, in the opinion of the Academic Council of the School of Graduate Studies, following appropriate professional consultation, there is a reasonable likelihood that a student's health or conduct could result in endangering the lives, health or safety of other persons on campus or in settings related to the student's university studies.
3. The foregoing notwithstanding, the School of Graduate Studies reserves the right to require students to discontinue their studies, or to deny them re-admission, where a student has been determined to have engaged in unprofessional conduct. The code of ethics of each profession will serve as the guideline as to what constitutes unprofessional conduct. However, should there not be any statements of what constitutes unprofessional conduct, the following standard will apply:

Unprofessional Conduct: That conduct which involves a breach of the duties required by professional ethics.

- Notes:
1. If the University or a School or Faculty requires a student to discontinue his/her studies under any of the above clauses, that student must be advised in writing of the nature of the case against him/her and must be advised of the right to appeal before the penalty imposed takes effect.
  2. Appeals against actions taken under Clause 2. should be directed to the Senate of the University. Any such appeal should be made in writing clearly stating the basis for the appeal and should be directed to the Secretary of Senate, c/o the Office of the Registrar.
  3. Appeals against actions taken under Clause 3. should be directed to the Appeals Committee, School of Graduate Studies.

### 2.2.14 Provision for Reapplication

1. A student whose program of studies has been terminated for any of the reasons outlined under **Termination of a Graduate Program** may apply for admission to a new program of studies leading to the same degree.
2. Notwithstanding the above, a student whose program of studies has been terminated under **Termination of a Graduate Program**,

1.e., shall be readmitted to the existing program only under the following conditions:

- a. on the recommendation of the appropriate academic unit;
- b. on the payment to the University of those registration fees which would have been payable had the student remained in continuous registration during the period since the termination of the program;
- c. on the understanding that the time period during which the student was not registered shall be considered as part of the maximum time permitted for the completion of the degree.

### 2.2.15 Graduate Diplomas

1. **Clinical Epidemiology** - See Master of Science in Medicine
2. **Community Health and Humanities** - See Master of Science in Medicine
3. **Fisheries Resource Management** - See Master of Marine Studies
4. **Health Professional Education** - See Master of Education (Post-Secondary Studies)
5. **Post Masters Nurse Practitioner** - See Master of Nursing

## 3 Regulations Governing the Degree of Master of Applied Science

The Degree of Master of Applied Science (M.A.Sc.) is a course-based Degree offered in four areas: Computer Engineering, Environmental Systems Engineering and Management, and Oil and Gas Engineering. For information on the research-focused Master of Engineering program, refer to the regulations governing the Degree of Master of Engineering.

### 3.1 Industrial Internship Option

The Faculty permits graduate students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.A.Sc. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.A.Sc. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance.
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this university
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

### 3.2 Computer Engineering

#### 3.2.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to the Degree of Master of Applied Science (M.A.Sc.) in Computer Engineering. The program is available only on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

#### 3.2.2 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, applicants will have at least a second class engineering Degree in Computer Engineering, computer science or electrical engineering; they will have background in many of the following areas: object-oriented programming, data structures, digital logic, computer organization, circuits and electronics, systems and signals, communications, discrete mathematics, probability and statistics and engineering design.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under **English Proficiency Requirements**.

#### 3.2.3 Degree Requirements

1. The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.
  - a. Students are required to complete 9801, 9859, 9861, 9865, 9867, 9871, 9874 and 9876.
  - b. Three elective courses must be selected; each term the Board of Studies for the program will provide a selection of eligible courses, which may include ENGI 9821, ENGI 9822, ENGI 9868, ENGI 9869, ENGI 9872, ENGI 9875, ENGI 9877, ENGI 9878, ENGI 9879, ENGI 9880/83, ENGI 9888/91, CS 6752, CS 6756, PHYS 6102, and others designated by the Board of Studies for the program.
2. Normally students will take courses as shown in **Table I**. Students wishing to take courses in another sequence must request approval from the Board of Studies for the program.

Table I - M.A.Sc. in Computer Engineering Program

	Preparation	Core	Elective
Year 1 Spring	English		
Year 1 Fall		3	0
Year 1 Winter		2	1
Year 2 Spring		2	1
Year 2 Fall		ENGI 9801	1

### 3.2.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student, who fails to receive 65% or more in a course, must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

### 3.2.5 Courses

980A/B Computer Engineering Project  
 9802/05 (excluding 9804) Special Topics in Computer Engineering  
 9806/09 Special Topics in Communications Engineering  
 9821 Digital Signal Processing  
 9822 Nonlinear Digital Image Processing and Analysis  
 9859 Computer Engineering Fundamentals  
 9861 High-Performance Computer Architecture  
 9865 Advanced Digital Systems  
 9867 Advanced Computing Concepts for Engineering  
 9868 ASIC Design  
 9869 Advanced Concurrent Programming  
 9871 Information Theory and Coding  
 9872 Digital Communications  
 9874 Software Design and Specification  
 9875 Embedded and Real-Time Systems Design  
 9876 Advanced Data Networks  
 9877 Computer and Communications Security  
 9878 Wireless and Mobile Communications  
 9879 Formal Specification and Development  
 9880-83 Special Topics in Computer Engineering  
 9888-91 Special Topics in Communications Engineering  
 Computer Science 6752 Applications of Computer Graphics  
 Computer Science 6756 Digital Image Processing  
 Physics 6102 Optics and Photonics

## 3.3 Environmental Systems Engineering and Management

### 3.3.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a program in Environmental Systems Engineering and Management (ESEM) leading to the Degree of Master of Applied Science. The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

### 3.3.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a Bachelor's Degree in engineering preferably in civil/environment/chemical/processing/petroleum engineering or equivalent from a recognized university with an aggregate mark of 75% or above.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under General Regulations **Qualification for Admission**.

### 3.3.3 Degree Requirements

1. The Degree program requires the completion of 30 credit hours.
  - a. 6 credit hours comprising a project course 960A/B.
  - b. 15 credit hours comprised of 9601, 9609, 9626, 9627, and 9628.
  - c. 9 credit hours (three courses) to be selected from 9603, 9605, 9610-9615, 9621, 9622, 9624, 9625, 9629, 9630, ENVE/ENVS 6001, ENVE/ENVS 6002, ENVE/ENVS 6003, and Geography 6250

### 3.3.4 Evaluation

Students must obtain a grade of at least 65% in all program courses to receive credit for the course towards their program requirements. Any student who fails to receive 65% or more in a course, must repeat the course in the case of core courses, or must either repeat or replace the course with another program course in the case of elective courses. Any student who receives a grade of less than 65% in two courses or in a repeated course will be required to withdraw from the program.

### 3.3.5 Courses

960A Environmental Engineering Project (0 credit hours)  
 960B Environmental Engineering Project (6 credit hours)  
 9601 Environmental Pollution and Mitigation (cross-listed as ENVS 6004)

9603 Environmental Sampling and Pollutant Analysis (cross-listed as ENVS 6005)  
 9605 Water and Wastewater Treatment  
 9609 Environmental Risk Assessment (cross-listed as ENVS 6007)  
 9610-9615 Special Topics in Environmental Science and Engineering  
 9621 Soil Remediation Engineering  
 9622 Environmental Statistics  
 9624 Air Pollution (cross-listed as ENVS 6008)  
 9625 Environmental Impacts of Offshore Oil and Gas Operations  
 9626 Environmental Management System  
 9627 Environmental Systems Engineering  
 9628 Environmental Laboratory  
 9629 Environmental Policy and Regulations  
 9630 Pollution Prevention  
 ENVE/ENVS 6001 Earth and Ocean Systems  
 ENVE/ENVS 6002 Environmental Chemistry and Toxicology  
 ENVE/ENVS 6003 Applied Ecology  
 Geography 6250 Conservation of Natural Resources

## 3.4 Oil and Gas Engineering

### 3.4.1 Program of Study

1. The Faculty of Engineering and Applied Science offers a program in Oil and Gas Engineering leading to the degree of Master of Applied Science in Oil and Gas Engineering (M.A.Sc.(OGE)). The program is available on a full-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and will be administered by a Board of Studies appointed by the Dean of Engineering and Applied Science.

### 3.4.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission, applicants shall normally hold a Bachelor's degree in engineering preferably in Mechanical, Chemical/Process, Civil, Environmental, Mining/Mineral, or Petroleum Engineering, or in a related engineering discipline from a recognized university with an average mark of 75% or above.
3. To be eligible for consideration for admission applicants will meet the English Proficiency Requirements described under **General Regulations, English Proficiency Requirements**.

### 3.4.3 Degree Requirements

1. The degree program requires the completion of 30 credit hours.
  - a. 6 credit hours comprising a project course Engineering 910A/910B.
  - b. 15 credit hours by completing Engineering 9113, 9114, 9110, 9118 and 9121.
  - c. 9 credit hours (three courses) to be selected from Engineering 9002, 9015, 9111, 9112, 9116, 9117, 9119, 9120, 9420, 9609, 9624, 9625, 9901, 9902, 9989. Engineering 9117 is a recommended elective course for students without adequate background in petroleum engineering.

### 3.4.4 Courses

9002 Ocean Engineering Structures  
 9015 Ocean Engineering Hydrodynamics  
 910A OGE Project Course (0 credit hours)  
 910B OGE Project Course (6 credit hours)  
 9110 Advanced Petroleum Production Engineering  
 9111 Well Testing  
 9112 Multiphase Flow  
 9113 Phase Behaviour of Petroleum Reservoir Fluids  
 9114 Advanced Reservoir Engineering  
 9116 Reliability Engineering  
 9117 Offshore Petroleum Geology and Technology  
 9118 Advanced Drilling Engineering  
 9119 Compact Process Equipment Design  
 9120 Advanced Natural Gas Engineering  
 9121 Advanced Safety, Risk and Reliability Modeling  
 9420 Engineering Analysis  
 9609 Environmental Risk Assessment  
 9624 Air Pollution  
 9625 Environmental Impacts of Offshore Oil and Gas Operations  
 9901 Fundamentals of Fluid Dynamics  
 9902 Advanced Transport Phenomena  
 9989 Special Topics Course - Corrosion Principles, Prevention and Control

## 4 Regulations Governing the Degree of Master of Applied Social Psychology (Co-operative)

This program is designed to meet the needs of both students and employers. Students will gain the skills and knowledge necessary to ask appropriate questions and conduct research in a variety of applied settings (e.g., business, government, health care, etc.). Students completing the program will be qualified for either immediate employment or further education. Students' and employers' needs will be met by a program that combines training in basic scientific methods and social psychological theory with practical experience in a variety of work settings. The training in methods and theory will be provided by the academic component of the program and the practical experience will be provided by the cooperative, work term component.

## 4.1 Qualifications for Admission

1. Admission to the program is competitive and selective. To be considered for admission to the Master of Applied Social Psychology (Cooperative) an applicant shall normally hold at least a high second class Honours degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.
2. Applications
  - a. All applicants are required to submit results from the General section of the Graduate Record Examinations.
  - b. Applicants are required to submit with their applications an example of their academic writing. This could include, but is not limited to, papers submitted in class, honour's thesis, etc.
  - c. At least one letter of reference should come from someone who is familiar with the applicant's research capability.
3. Election will be based on an applicant's overall academic performance, scores on the Graduate Record Examination and letters of reference.
4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Psychology which will include a proposed program of study and a proposed Supervisor.

## 4.2 Program of Study

1. Students should note that it is possible to enter Academic Term 1 only in the Fall semester commencing in September of each year.
2. Every candidate shall complete four Academic Terms in the Cooperative Program and shall normally be required to complete two Work Terms.
3. Courses shall be taken in Academic Terms of "blocks" in the sequence, order, and course load as follows:  
**Fall:** 6000, 6400, **Winter:** 6001, 6401, **Spring:** Work term 1, **Fall:** 6402, 6403, **Winter:** Work term 2, **Spring:** 6404

## 4.3 Evaluation and Advancement

1. In order to continue in good standing in the program and in order to qualify for the Master's Degree, a candidate shall obtain a grade of A or B for program courses, and complete two Work Terms.
2. The dates for starting and finishing each Work Term are shown in the **University Diary**. Successful completion of the Work Term requirements is a prerequisite to graduation.
3. A competition for Work Term employment is organized by the Co-operative Education Services Centre (CESC). Students may also obtain their own Work Term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Psychology and by the CESC on or before the first day of the Work Term.  
 Work Term jobs may be outside St. John's and possibly outside Newfoundland and Labrador. Students who do not wish to accept a Work Term job arranged by CESC shall be responsible for finding an alternative acceptable to the Head of Psychology and the CESC.  
 By entering the competition, students give permission for the CESC to supply their University transcripts to potential employers.
4. The overall evaluation of the Work Term is the responsibility of the CESC. The Work Term evaluation shall consist of two components:
  - a. **On-the-job Student Performance:**  
 Job performance shall be assessed by a co-ordinator using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought.
  - b. **The Work Report:**
    - i. Work term reports shall be evaluated by a member of the CESC or a member of faculty in the Department of Psychology. If an employer designates a report to be of a confidential nature, both employer and co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
    - ii. Reports must be prepared according to American Psychological Association specifications and contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. For promotion from the Work Term, a student must obtain at least 65% in each component.
5. If a student fails to achieve the Work Term standards specified above the student will be required to withdraw from the program. Such a student may reapply to the program after lapse of two semesters, at which time the student will be required to complete a further Work Term with satisfactory performance before being admitted to any further academic term in the Faculty. A Work Term may be repeated once.
6. Students are not permitted to drop Work Terms without prior approval of the Graduate Studies Committee of the Department of Psychology, upon the recommendation of the CESC. The Graduate Studies Committee will make a recommendation to the Head of Department who will make the final decision. Students who drop a Work Term without permission, or who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a failed grade for the Work Term. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

## 4.4 Courses

6000 Advanced Statistics in Psychology  
 6001 Research Design  
 601W Work Term 1  
 602W Work Term 2  
 6400 Theory and Methods in Social Psychology  
 6401 Social Cognition  
 6402 Group Processes  
 6403 Advanced Methods in Applied Social Psychological Research  
 6404 Project in Applied Social Psychology

## 5 Regulations Governing the Degree of Master of Applied Statistics

The Degree of Master of Applied Statistics (M.A.S.) is a highly structured program incorporating 18 credit hours in program courses and a practicum in applied statistics. The Degree is offered in the Department of Mathematics and Statistics by full-time or part-time study.

## 5.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the Master of Applied Statistics program, an applicant shall normally hold at least a high second class Honours Degree or its equivalent, both in achievement and depth of study, from an institution recognized by the Senate.
2. In addition, an applicant shall normally have completed undergraduate courses in statistics which cover the material of Statistics 3521, 3530, 4410, 4520, 4560, 4561, 4590, 4591. If necessary, an applicant may be required to demonstrate a satisfactory knowledge of the above courses in an examination administered by the Department of Mathematics and Statistics.
3. Applicants who do not meet these requirements should consult the Department of Mathematics and Statistics about a program of further undergraduate courses. Such a program is intended to provide the candidate with an adequate statistical background. Such courses may not be used to fulfill the program course requirements of the Master of Applied Statistics Degree.
4. Admission to the program shall be upon acceptance by the Dean of Graduate Studies after recommendation by the Head of the Department of Mathematics and Statistics along with a proposed program of study and a proposed Supervisor.

## 5.2 Program of Study

The minimum requirements for the Degree of Master of Applied Statistics are completion of the following:

1. Six credit hours from the following courses:  
6510 Mathematical Statistics, 6520 Linear Models, 6560 Continuous Multivariate Analysis, or 6561 Categorical Data Analysis
2. 6590 A Course in Statistical Consulting
3. Nine additional credit hours selected from 6503-6589.
4. A practicum: An applied statistics project and an associated report. The report must demonstrate a satisfactory general mastery of statistical knowledge.

## 5.3 Evaluation

1. In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B for program courses and complete successfully the practicum requirement.
2. Statistics 6590 will be evaluated by the course co-ordinator in consultation with associated statistical consultants.
3. Evaluation of the practicum shall be carried out in accordance with **Theses and Reports** of the **General Regulations** governing all students in the School of Graduate Studies.

Note: *Every candidate in graduate studies shall comply with the **General Regulations**, the Degree Regulations and any additional requirements of the Department of Mathematics and Statistics.*

## 5.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

### Statistics

6503 Stochastic Processes  
 6505 Survival Analysis  
 6510 Mathematical Statistics  
 6520 Linear Models  
 6530 Generalized Linear Longitudinal Mixed Models  
 6540 Time Series Analysis  
 6545 Statistical Computing  
 6550 Nonparametric Statistics  
 6560 Continuous Multivariate Analysis  
 6561 Categorical Data Analysis  
 6570-6589 Selected Topics in Statistics and Probability  
 6590 A Course in Statistical Consulting  
 6930 Statistics Seminar

## 6 Regulations Governing the Degree of Master of Arts

### Professor and Dean of Arts

R. Tremblay

### Associate Professor and Acting Associate Dean (Graduate and Research)

L. Rankin

The Degree of Master of Arts (M.A.) is offered in Anthropology, Archaeology, Classics, Economics, English Language and Literature, Ethnomusicology, Folklore, French Studies, Geography, German Language and Literature, History, Linguistics, Philosophy, Political Science, Religious Studies and Sociology.

Applicants are advised to consult, in addition to the regulations governing the Degree of Master of Arts, both the **General Regulations** and the particular regulations of the appropriate Departments.

## 6.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of the proposed field of specialization satisfactory to the Department concerned (or Departments, when interdisciplinary study is intended) and to the Dean.
2. Preference will normally be given to applicants who hold an appropriate Honours Degree, either from Memorial University of Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:
  - a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization.

- b. the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken, and
- c. the Department concerned satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

Only in exceptional circumstances, and only on the recommendation of the Department concerned, will the Dean consider applicants who do not meet the requirements in a. and b. Such applicants, however, must meet the requirements in c.

- 3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department or Departments.
- 4. In most cases instruction is in English, and examinations and theses are to be written in English. (Language Departments, however, give instruction in the pertinent language and often require examinations and theses to be written in the language. In addition, other Departments may permit or even require examinations and/or theses to be written in a language other than English.)

## 6.2 Program of Study and Research

- 1. The program of study for the Master of Arts Degree shall consist of the successful completion of a program of courses and, in accordance with Departmental regulations, either of a thesis embodying systematic research or of a Comprehensive Examination. For programs requiring 24 credit hours or more, the academic unit may choose not to require a thesis or comprehensive examination.
- 2. Every candidate shall read at least 12 credit hours in program courses at the graduate level in one subject or in closely related subjects. Departmental regulations may require more courses than the minimum and this higher number is listed where applicable in the regulations of the Department.
- 3. Students may, with the approval of the Dean, augment their program with a limited number of other courses of their choice. Passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree. However, the final grades in these courses will be recorded on the student's transcripts. The grading system in non-program courses shall be that appropriate to the particular course.
- 4. Candidates submitting a thesis on an approved topic shall conduct systematic research under the direction of a Supervisor recommended by the appropriate Department or Departments and approved by the Dean. The candidate may be required to take an oral examination.
- 5. Changes in either the program of courses or the topic of the thesis require the approval of the Dean.
- 6. On the recommendation of the Head of the Department, the Dean may waive, in part, the course requirements for a Master's Degree.
- 7. Application for transfer from the Master of Arts to the Master of Philosophy is to be made to the Dean before the end of the second semester in the case of full-time students, and in the case of part-time students before 18 graduate credit hours have been completed.
- 8. The Dean may approve an application to transfer from the M.A. to the M.Phil. only when a new integrated program, acceptable to the Dean, is submitted.

## 6.3 Evaluation

- 1. In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each regulation course. Some candidates may be required to read a specified number of additional graduate or undergraduate courses for which a passing grade must be achieved.
- 2. Students registered for credit shall write their examinations in their graduate courses at a time to be determined by the Dean on the recommendation of the Department.
- 3. Students registered in undergraduate courses shall satisfy examination requirements in these courses.
- 4. When, on a basis of consultation with the candidate, the instructors in graduate courses, and the thesis Supervisor, the Head of a Department has determined that the candidate's work has fallen below a satisfactory level, the Head may recommend to the Dean that the candidate be required to withdraw from the program.

## 6.4 Thesis or Report

See **General Regulation, Theses and Reports.**

## 6.5 Anthropology

**Associate Professor and Head of the Department**

M. Tate

The Degree of Master of Arts (M.A.) is offered in Anthropology by either full-time or part-time study.

- 1. Candidates will specialize in social and cultural anthropology.
- 2. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates' programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator(s), and the Head of the Department.
- 3. If candidates' records suggest a deficiency in some areas(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.
- 4. Candidates may choose between a thesis and a non-thesis option.

### 6.5.1 M.A. With Thesis

- 1. Normally, the M.A. program should take two academic years to complete, of which the first year will be spent in (a) completing course work, (b) writing and orally defending a thesis proposal before members of the faculty, and (c) beginning to carry out research. The second academic year will be spent in (d) completing research, (e) presenting an oral research report to the Department, and (f) completing a thesis.
- 2. Candidates for the Degree of a Master of Arts in Anthropology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.
- 3. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.
- 4. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by

the student's Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation and defence of the proposal.

5. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.
6. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

### 6.5.2 M.A. Without Thesis

Normally, the M.A. program without thesis should take one academic year to complete. Candidates who choose to do the M.A. without thesis must normally complete 24 credit hours in graduate program courses; 15 of which will normally be from ANTH 6440, ANTH 6890 and ANTH 6300. Nine additional credit hours are to be selected from the graduate courses offered by the Department.

Note: ANTH 6440 will be worth 9 credit hours. This course will normally be based on secondary literature and will be supervised by a faculty member.

### 6.5.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6010 Cultural Ecology
- 6071 Health and Illness: Cultural Contexts and Constructions
- 6081 Anthropology of Gender
- 6089 Anthropology of Underclass Life
- 6100 Social Organization
- 6110 Culture and Personality
- 6140 The Community
- 6210 Language and Culture
- 6240 Atlantic Regional Studies
- 6260 Social and Economic Development
- 6280 Newfoundland Ethnography
- 6281 Labrador Ethnography
- 6282 Ethnography of a Single Region
- 6300 Fieldwork and Interpretation of Culture
- 6400 Current Themes in Cultural Anthropology
- 6410 History of Anthropology
- 6412 Anthropological Theory
- 6413 Applied Anthropology
- 6430 Audiovisual Anthropology
- 6440 Master's Research Paper (9 credit hours)
- 6580-6599 Special Areas in Anthropology
- 6600 Contemporary Debates in Anthropology
- 6890 Graduate Seminar

## 6.6 Archaeology

### Professor and Head of the Department

S. Brown

The Degree of Master of Arts is offered in Archaeology by either full-time or part-time study.

1. Candidates may specialize in either archaeology or bioarchaeology.
2. The choice of specialty will govern the selection of Supervisor(s), courses, and thesis or research paper topics. When candidates are accepted into the program, they will be assigned one or more Supervisors. Candidates' programs shall be the responsibility of their Supervisor(s), the graduate co-ordinator, and the Head of the Department.
3. If candidates' records suggest a deficiency in some areas(s), the Department reserves the right to require that they complete additional undergraduate courses before beginning program courses.
4. Normally, the M.A. program should take six academic semesters to complete, of which the first three semesters will be spent in (a) completing course work, (b) writing and orally defending a thesis proposal before members of the faculty, and (c) beginning to carry out research. The following semesters will be spent in (d) completing research, (e) presenting an oral research report to the Department, and (f) completing a thesis.
5. Candidates for the Degree of a Master of Arts in Archaeology will be required to complete not fewer than 12 credit hours, nor more than 18 credit hours of courses at the graduate level.
6. Most Department graduate courses are taught in either a seminar or tutorial framework; all courses require intensive reading, regular oral communication of ideas to faculty and other students, and preparation of written research papers and other assignments.
7. Normally, during the second semester of the first year of study in the program, a written thesis proposal which has been approved by the student's Supervisor(s) will be circulated to all members of the Department. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation and defence of the proposal.
8. Shortly following the completion of their research, candidates will be required to present an oral research report on their findings to the Department.
9. A final draft of the thesis will be evaluated in accordance with the requirements of the School of Graduate Studies.

### 6.6.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- 6020 Bioarchaeology
- 6040 Human Osteology
- 6095 Advanced Studies in Ethnohistory (same as History 6095)
- 6151 Palaeoethnobotany

6181 Palaeoeskimo Cultures of the Eastern Arctic  
 6182 Advances in Material Culture Analysis  
 6187 Readings in Maritime Provinces Prehistory  
 6189 Palaeopathology  
 6191 Approaches to Early Modern Material Culture  
 6192 Conservation Method and Theory  
 6290 Newfoundland and Labrador Prehistory  
 6310 Economic Analyses in Archaeology  
 6320 Ethnoarchaeology  
 6330 Archaeological Field Conservation  
 6409 History of Archaeology  
 6411 Theory and Method in the Study of Archaeology and Prehistory  
 6500 Special Topics in Historical Archaeology (Prerequisite 6191)  
 6680-6699 Special Topics in Archaeology and Prehistory  
 6700 Interpretative Methods in Archaeology  
 6701 Interpretative Methods in Historical Archaeology  
 6890 Graduate Seminar

## 6.7 Classics

### Associate Professor and Head of the Department

T.J. Allen

The Department of Classics offers an M.A. in Classics, with an emphasis on classical texts and research methods, which suitably prepared students may complete in 1 year of full-time study, normally beginning in September.

1. Applicants should have an Honours Degree in Classics or a related field, including at least two years study in both Greek and Latin. Students expecting to complete the M.A. Degree within 12 months must have at least 24 undergraduate credit hours in one language (Greek or Latin) and 18 undergraduate credit hours in the other. Other applicants may be required to take 3 or more credit hours at the undergraduate level, in addition to their graduate course work.
2. Students will complete 18 credit hours in courses at the 6000 level (including 6100 and 6101) plus any additional courses the Department may deem necessary. The required courses 6100 and 6101 involve the intensive reading of ancient texts and also introduce students systematically to the most important research methods in Classics, including palaeography, textual criticism, bibliography, and historiography. Texts and methods chosen may vary according to the availability of instructors.
3. Students are also required to complete one of the following:
  - a. Research Essay  
Students will complete a research essay (approximately 15,000 words), normally in the third semester of their program of study. The essay will be graded by two members of faculty and will be assigned a PASS/FAIL grade.
  - b. Translation Examination  
Students will be required to pass two exams based on a reading list of Greek and Roman authors. One exam will be on Greek authors and one on Latin authors. The exams test students' ability to translate from Greek and Latin texts into English and will also require some commentary on the set texts. Students are expected to write these exams in the third semester of their program of study. The exam will be graded by two members of faculty and will be assigned a PASS/FAIL grade.
4. Students are required to complete an examination testing their competence in German, Italian or French, as early as possible in their program of study. This examination will be assigned a PASS/FAIL grade. (See **Evaluation, Evaluation of Graduate Students**, 4.)

### 6.7.1 Courses

6010 Greek Literature: Prose  
 6020 Latin Literature: Prose  
 6030 Greek Literature: Poetry  
 6040 Latin Literature: Poetry  
 6050 Greek History  
 6060 Roman History  
 6080 Ancient Philosophical Authors  
 6100 Greek Literature/Research Methods  
 6101 Latin Literature/Research Methods

Note: *The prerequisite of all 6000-level courses is at least three courses numbered 3000 and above (or equivalent) in the appropriate language.*

## 6.8 Economics

### Professor and Interim Head of the Department

E.Y. Tsoa

The Degree of Master of Arts is offered in Economics. The focus of the program is applied economics. The non-thesis option is designed so that suitably qualified full-time students can complete it in one year. The thesis option normally takes more than one year.

### 6.8.1 Qualifications for Admission

To be considered for admission, an applicant must normally have completed an undergraduate Degree in Economics at a Canadian university with at least second-class Honours standing, or its equivalent. Satisfaction of this criterion does not guarantee admission and, if admitted, students may be required to complete specified undergraduate courses as deemed necessary by the Department.

### 6.8.2 Programs of Study

#### 1. Non-Thesis Option

- a. The program of study requires, in addition to any specified undergraduate courses, completion of 26 credit hours in graduate Economics courses, including a master's essay course. The maximum time normally permitted for students to satisfy these requirements is three years.
- b. The 26 credit hours in graduate courses consist of the following:

- i. 11 credit hours in core courses, which shall normally be completed in the first term of the program: Economics 6000, 6001, 6002, and 6009;
  - ii. 12 credit hours in other courses selected from those offered by the Department;
  - iii. Masters Essay course: Economics 6999. Normally, all other required graduate courses must be completed before the essay.
- c. The master's essay, Economics 6999, must be in the area relating to the courses taken by the student. Students will be assigned a Supervisor, who will approve the topic; the essay will be graded by the Supervisor and one other member of the Department. The essay must be completed during the semester in which the student is registered in Economics 6999. During that time, students may be required to give a Departmental seminar on their essays.
2. **Thesis Option**
- a. The thesis option consists of 20 credit hours and a thesis. The thesis will consist of a comprehensive study in the area of the student's field courses. The thesis must embody systematic research and demonstrate a mastery of economic principles and their application. Thesis work will be completed under a Supervisor from the Department.
  - b. The thesis must normally be completed within the two years following completion of 20 required credit hours, which must include Economics 6000, 6001, 6002 and 6009.
  - c. The thesis will normally be evaluated internally and in accordance with the requirements of the School of Graduate Studies.

### 6.8.3 Courses

The following courses will be offered to meet the requirements of candidates, as far as resources of the Department will allow.

#### Core Courses

6000 Advanced Micro-economic Theory  
 6001 Advanced Macro-economic Theory  
 6002 Econometrics  
 6009 Graduate Seminar (2 credit hours)

#### Elective Courses

6010 Taxation  
 6011 Expenditure  
 6012 Cost-benefit Analysis  
 6013 Fiscal Federalism  
 6014 Topics in Public Sector Economics  
 6020 Economics of Nonrenewable Natural Resources  
 6021 Economics of Renewable Natural Resources  
 6022 Environmental Economics  
 6023 Advanced Fisheries Economics  
 6024 Topics in Resource Economics  
 6040 Industrial Economics

#### Master's Essay Course

6999 Master's Essay

Note: Additional courses may be arranged, so far as the exigencies of the Department allow, to meet the particular needs of candidates.

## 6.9 English Language and Literature

### Associate Professor and Interim Head of the Department

L.F. Balisch

The degrees of Master of Arts and Doctor of Philosophy are offered in English Language and Literature.

Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

### 6.9.1 Master of Arts

1. Admission to the M.A. in English is limited and competitive. Applicants should have an Honours B.A. in English (or the equivalent, 60 credit hours in English with an appropriate range of courses) and a strong academic record.
2. Strong candidates who have come close to achieving Honours equivalency may be admitted on the condition that they complete such undergraduate courses as the Department may deem necessary, in addition to the required graduate courses.
3. Candidates who have not completed English 4900 or an equivalent course will be required to complete English 5900 which will not count as one of the required courses for the M.A. The course will be graded 'pass' or 'fail'. As in other graduate courses a grade of 65 or above is considered a pass.

### 6.9.2 Program of Study

#### 1. Thesis Option

- a. Candidates completing the M.A. with thesis will complete a minimum of 15 credit hours in graduate courses, which will normally include English 7003, and a thesis.
- b. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research, and a preliminary bibliography. The proposal should be approved by the Supervisor or Supervisors and submitted to the Departmental Graduate Studies Committee for its approval by the end of the candidate's third semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.
- c. Full-time students who choose the thesis option will usually complete their degree in two years.

#### 2. Non-Thesis Option

- a. Candidates completing the M.A. without thesis will complete a minimum of 24 credit hours in graduate courses, which will normally include English 7003.
- b. Full-time students who choose the non-thesis option will usually complete their degree in one year.

### 6.9.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- Notes: 1. *Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than ten graduate courses are offered in any given academic year.*
2. *English 5900 cannot be counted as one of the required graduate courses in any program.*
3. *All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.*
4. *Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.*

5900 Bibliography and Research Methods  
 6403 Etymology (same as Linguistics 6403)  
 6420 English Dialectology I  
 6421 English Dialectology II  
 6999 Master's Essay (for non-thesis students)  
 7003 Trends in Contemporary Critical Theory  
 7004 English Phonology and Morphology  
 7005 The Syntactic Structure of English  
 7020-25 Special Topics in English  
 7032 Studies in Old English I  
 7033 Studies in Old English II  
 7034 Studies in Middle English I  
 7035 Studies in Middle English II  
 7036 Studies in Middle English III  
 7037 Studies in 16th-Century Literature I  
 7038 Studies in 16th-Century Literature II  
 7039 Studies in 16th-Century Literature III  
 7040 Studies in 16th-Century Literature IV  
 7041 Studies in 17th-Century British Literature I  
 7042 Studies in 17th-Century British Literature II  
 7043 Studies in 17th-Century British Literature III  
 7044 Studies in 17th-Century British Literature IV  
 7045 Studies in 18th-Century British Literature I  
 7046 Studies in 18th-Century British Literature II  
 7047 Studies in 18th-Century British Literature III  
 7048 Studies in 18th-Century British Literature IV  
 7049 Studies in 19th-Century British Literature I  
 7050 Studies in 19th-Century British Literature II  
 7051 Studies in 19th-Century British Literature III  
 7052 Studies in 19th-Century British Literature IV  
 7053 Studies in 20th-Century British Literature I  
 7054 Studies in 20th-Century British Literature II  
 7055 Studies in 20th-Century British Literature III  
 7056 Studies in 20th-Century British Literature IV  
 7057 Studies in Pre-19th Century American Literature  
 7058 Studies in 19th Century American Literature I  
 7059 Studies in 19th-Century American Literature II  
 7060 Studies in 19th-Century American Literature III  
 7061 Studies in 20th-Century American Literature I  
 7062 Studies in 20th-Century American Literature II  
 7063 Studies in 20th-Century American Literature III  
 7064 Studies in 20th-Century American Literature IV  
 7065 Studies in Pre-19th Century Canadian Literature  
 7066 Studies in 19th-Century Canadian Literature I  
 7067 Studies in 19th-Century Canadian Literature II  
 7068 Studies in 19th-Century Canadian Literature III  
 7069 Studies in 20th-Century Canadian Literature I  
 7070 Studies in 20th-Century Canadian Literature II  
 7071 Studies in 20th-Century Canadian Literature III  
 7072 Studies in 20th-Century Canadian Literature IV  
 7073 Studies in Newfoundland Literature I  
 7074 Studies in Newfoundland Literature II  
 7075 Studies in Newfoundland Literature III  
 7076 Studies in Anglo-Irish Literature I  
 7077 Studies in Anglo-Irish Literature II  
 7078 Studies in Modern Drama  
 7079 Studies in Post-Colonial Literature I  
 7080 Studies in Post-Colonial Literature II  
 7081 Studies in Post-Colonial Literature III  
 7082 Studies in Critical Theory I  
 7083 Studies in Critical Theory II  
 7084 Studies in Critical Theory III  
 7085 Special Readings in English I  
 7086 Special Readings in English II  
 7087 Special Readings in English III

## 6.10 Ethnomusicology

### Professor and Director

E. Waterman

### Associate Professor and Associate Director

M. Cheramy

The Master of Arts program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Co-ordinator.

The Degree of Master of Arts in Ethnomusicology is offered by part-time and full-time study. While it is normally a course work degree, a thesis option is available upon application. Fieldwork is often a requirement both for independent research and course work. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.

### 6.10.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average with a B.Mus. Degree or other Degree in the Humanities or Social Sciences with evidence of specialization in music. Applicants whose professional music training took place outside the university system are also encouraged to apply, provided they have the academic equivalent of the qualifications described above. Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior or in addition to the required program.

### 6.10.2 Program Requirements

The M.A. program will normally be completed within five consecutive semesters of full-time study. The degree is normally taken by completing course work and a major research paper. In special circumstances, a student may apply to complete the degree by completing course work and a thesis. Demonstration of competence in a language other than English may be required if warranted by the research proposed by the student.

#### 1. Course Work M.A.

- a. Students must normally complete a minimum of 24 credit hours plus a major research paper (Music 7002). Further courses beyond the minimum number may be required, depending on the background of the student. The required courses are:
  - i. Music 7001; Folklore 6010, 6030.
  - ii. One of Folklore 6100 or Music 6002.
  - iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
  - iv. Nine credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).
- b. Research paper (Music 7002) on a topic chosen by the student with his/her supervisor's approval. Proposals for topics and supervisors will be vetted by the Interdisciplinary Advisory Committee no later than the beginning of the third term of study. The paper will normally demonstrate the student's ability to apply methodologies and theoretical constructs, learned in the courses taken, to a specific repertory, or performance context.

#### 2. Thesis M.A. (available by special application to the Interdisciplinary Advisory Committee)

- a. Students must normally complete a minimum of 21 credit hours plus a thesis. The required courses are:
  - i. Music 7001; Folklore 6010, 6030.
  - ii. One of Folklore 6100 or Music 6002.
  - iii. One area or genre studies course (3 credit hours) relevant to the research of the student.
  - iv. Six credit hours to be selected from the Music and Folklore courses listed below (with the approval of the Interdisciplinary Advisory Committee); one elective (3 credit hours) may be a relevant course offered in another discipline (with the approval of the Interdisciplinary Advisory Committee).
- b. Thesis submitted in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies. A thesis proposal, consisting of a statement of topic, working title, plan of research, and preliminary bibliography, with the name of the preferred Supervisor, shall be submitted by the candidate to the Interdisciplinary Advisory Committee no later than the beginning of the third term of study.

### 6.10.3 Courses

#### Theories and Methods:

Music 6001 Research Methods  
 Music 6002 Graduate Seminar  
 Music 7001 Research Problems and Methods in Ethnomusicology  
 Music 7002 Research Paper  
 Folklore 6010 Survey of Folklore Genres and Processes  
 Folklore 6020 Field and Research Methods  
 Folklore 6030 Folklore Theories  
 Folklore 6040 Feminist Theories: Perspectives and Issues  
 Folklore 6080 Vernacular Theories  
 Folklore 6090 Ethnology  
 Folklore 7100 Advanced Folkloristics II: Research and Ethnography

**Form and Performance:**

Music 7005 Performance Option  
 Folklore 6100 Song and Music  
 Folklore 6120 Ballad  
 Folklore 6130 Folk Music Canons and Documentary Sound Recordings  
 Folklore 6200 Folktale  
 Folklore 6210 Legend  
 Folklore 6220 Personal Experience Narrative  
 Folklore 6250 Language and Play  
 Folklore 6260 Ethnography of Communications  
 Folklore 6300 Ethnography of Belief  
 Folklore 6310 Health Systems  
 Folklore 6350 Custom  
 Folklore 6360 Traditional Drama  
 Folklore 6400 Material Culture  
 Folklore 6410 Vernacular Architecture  
 Folklore 6420 Art and the Artifact  
 Folklore 6430 Food and Culture  
 Folklore 6720 Folklore and Literature

**Area and Genre Studies:**

Music 7010 World Music: Music of Asia and Oceania  
 Music 7011 World Music: Music of Africa and the Americas  
 Music 7012 Canadian Musical Traditions  
 Music 7013 Music and Culture  
 Music 7017 Folksong  
 Music 7018 Jazz and Blues: The Roots of Popular Music  
 Folklore 6120 Ballad  
 Folklore 6600 Folklore of Newfoundland  
 Folklore 6610 Folklore of Canada  
 Folklore 6620 Folklore of the United States  
 Folklore 6630 Folklore of the British Isles  
 Folklore 6770 The Global and the Local

**Social Identities:**

Music 7006 Urban Ethnomusicology  
 Music 7007 Music in the Study of Gender, Race and Class  
 Music 7009 Music and Place  
 Folklore 6510 Occupational Folklore  
 Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter  
 Folklore 6730 Folklore and Gender  
 Folklore 6780 Ethnicities

**Public and Applied Ethnomusicology and Folklore:**

Music 6700 Music Industries Seminar  
 Music 6750 Music Industries Internship (2 credit hours)  
 Folklore 6740 Public Sector Folklore  
 Folklore 6760 Archiving  
 Folklore 6790 Museums: Perspectives and Practices  
 Folklore 6800 Applied Folklore

**Interdisciplinary Perspectives:**

Music 7008 Media Studies  
 Folklore 6700 Folklore and Culture  
 Folklore 6710 Oral Tradition and Oral History  
 Folklore 6750 Popular Culture: Theory and Debate

**Independent Study:**

Music 7026-29 Directed Reading in Ethnomusicology  
 Folklore 6570-79 Reading Courses in Folklore

**Special Topics:**

Music 6800-09 Special Topics in Music  
 Music 7800-09 Special Topics in Music  
 Folklore 6511-29 Special Topics in Folklore  
 Folklore 6570-79 Reading Course in Folklore

## 6.11 Folklore

**Associate Professor and Head of the Department**

D. Tye

The Degree of Master of Arts in Folklore is offered by part-time and full-time study. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is work of the Memorial University of Newfoundland Folklore and Language Archive.

### 6.11.1 Master of Arts

1. Applicants may be admitted to the graduate program if they have an average of at least grade 'B' in no fewer than 36 credit hours in Folklore or in any other discipline in the Humanities or Social Sciences.
2. The M.A. program will normally be completed within six consecutive semesters (i.e., a two-year period). The Degree of Master of Arts in Folklore may be taken by course work and comprehensive examination, course work and thesis, or course work and co-operative education work terms. All options are available to full-time and part-time students. However, the work term component of option C cannot be completed on a part-time basis.

a. **M.A. with thesis:**

- i. Students choosing to do the M.A. with thesis must normally complete a minimum of 24 credit hours plus a thesis. Normally, the required courses are:
  - 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
  - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
  - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
  - Nine additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
- ii. A brief thesis pre-proposal, including a statement of topic, working title, plan of research, ethics statement, preliminary bibliography, and the name of a preferred Supervisor, shall be submitted no later than the end of the candidate's second semester. A full proposal shall normally be submitted to the Department of Folklore and orally presented before members of the faculty by the end of the candidate's fourth semester. The written thesis proposal should be made available to faculty members at least two weeks prior to the scheduled date of a student's oral presentation of the proposal. Following approval of the thesis proposal and consultation with the candidate, the Supervisor and thesis topic will be recommended to the Dean.

b. **M.A. with comprehensive examination:**

- i. Students choosing to do the M.A. with comprehensive examination must normally complete a minimum of 30 credit hours plus comprehensive examination. Normally, the required courses are:
  - 6010, 6020, and 6030, normally taken as an integrated foundation in the Fall semester.
  - At least one of the following: 6060, 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
  - At least one of the following: 6070, 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
  - Fifteen additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
- ii. Each candidate selecting the M.A. with comprehensive examination option shall normally submit, by the end of the candidate's second semester, written notification of intention to take comprehensives.
- iii. Each candidate selecting this option shall normally write the comprehensive examination at the end of the candidate's fifth semester in the program. The comprehensive examination will be graded by a comprehensive examination committee appointed by the Dean of Graduate Studies on the recommendation of the Head of the Department, in accordance with **General Regulations** governing the School of Graduate Studies.

c. **M.A. with Public and Applied Folklore Co-operative Education work terms:**

- i. Students choosing to do the M.A. with Public and Applied Folklore Co-operative Education option must normally complete a minimum of 24 credit hours plus two co-operative education work terms. The required courses are:
  - 6010, 6020, and 6030, normally taken as in integrated foundation in the Fall semester.
  - 6740 or 6800 and at least one additional course selected from the following: 6551, 6740, 6760, 6790, 6800.
  - At least one of the following: 6100, 6120, 6130, 6200, 6210, 6220, 6250, 6260, 6360, 6720.
  - At least one of the following 6300, 6310, 6350, 6370, 6400, 6410, 6420, 6430.
  - Three additional credit hours to be selected from courses in the groups listed above or from the other courses offered by the Department.
  - 601W and 602W.
- ii. The dates for starting and finishing each work term are shown in the **University Diary**.
- iii. A competition for work term employment is organized by the Co-operative Education Services Centre (CESC) in cooperation with the Department of Folklore. Students may also obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by the Head of Folklore and by the CESC on or before the first day of the work term. Work term jobs may be outside St. John's and possibly outside Newfoundland and Labrador. Students who do not wish to accept a work term job arranged by CESC shall be responsible for finding an alternative acceptable to the Head of Folklore and the CESC. By entering the competition, students give permission for the CESC to supply their Memorial University of Newfoundland transcripts to potential employers.
- iv. Each work term placement will be supervised by the candidate's program Supervisor, the on-site Supervisor assigned by the employer and the CESC Co-ordinator. The overall evaluation of the work term is the responsibility of the program Supervisor, on-site Supervisor and CESC Co-ordinator. The work term shall consist of two components:
  - On-the-job Student Performance as evaluated by the on-site Supervisor and CESC Co-ordinator, in consultation with the program Supervisor.
  - A Work Report graded by the program Supervisor in consultation with the on-site Supervisor.
- v. Evaluation of the work term will result in the assignment of one of the following final grades:
  - *Pass with Distinction*: Indicates EXCELLENT PERFORMANCE in both the work report and work performance.
  - *Pass*: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and work performance.
  - *Fail*: Indicates FAILING PERFORMANCE in the work report and/or the work performance.

If a student fails to achieve a final grade of *Pass* or *Pass with Distinction*, and provided the student has not failed to achieve a grade of 'B' or better in any program course, the student may request to repeat the work term component. The request will be considered by the Department Head in consultation with the program Supervisor and must include a proposal for a new work term placement. Only one work term repeat will be permitted in the student's program. Alternatively, the student may apply for a change of route to the thesis or comprehensive examination program option.

### 6.11.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives, and Required (Ph.D.):

#### Cooperative Education Work Terms

601W Work Term I

602W Work Term II

**Theories and Methods**

6010 Survey of Folklore Genres and Processes  
 6020 Field and Research Methods  
 6030 Folklore Theories  
 6040 Feminist Theories: Perspectives and Issues  
 6080 Vernacular Theories  
 6090 Ethnology

**Issues**

6050 Issues in Folkloristics  
 6060 Issues in Oral Tradition and Performance  
 6070 Issues in Folklife

**Form and Performance**

6100 Song and Music  
 6120 Ballad  
 6130 Folk Music Canons and Documentary Sound Recordings  
 6200 Folktale  
 6210 Legend  
 6220 Personal Experience Narrative  
 6250 Language and Play  
 6260 Ethnography of Communications  
 6300 Ethnography of Belief  
 6310 Health Systems  
 6350 Custom  
 6360 Traditional Drama  
 6370 Ritual, Festival and Public Display  
 6400 Material Culture  
 6410 Vernacular Architecture  
 6420 Art and the Artifact  
 6430 Food and Culture  
 6720 Folklore and Literature

**Special Topics**

6511-29 Special Topics in Folklore  
 6550 Special Research in Folklore  
 6551 Indigenous Expressive Cultures in Cross-cultural Encounter  
 6552-69 Special Research in Folklore  
 6570-79 Reading Course in Folklore

**Regional, National and International Heritage**

6600 Folklore of Newfoundland  
 6610 Folklore of Canada  
 6620 Folklore of the United States  
 6630 Folklore of the British Isles  
 6640 Traditional Culture of Scotland  
 6650 Culture and Traditions of Ireland  
 6660 Folklore of the Francophone Regions  
 6690 International Folklore

**Social Identities**

6510 Occupational Folklife  
 6730 Folklore and Gender  
 6770 The Global and the Local  
 6780 Ethnicities

**Public and Applied Folklore**

6740 Public Sector Folklore  
 6760 Archiving  
 6790 Museums: Perspectives and Practices  
 6800 Applied Folklore

**Interdisciplinary Perspectives**

6700 Folklore and Culture  
 6710 Oral Tradition and Oral History  
 6750 Popular Culture: Theory and Debate

**Required (Ph.D.)**

7000 Advanced Folkloristics I  
 7100 Advanced Folkloristics II Research and Ethnography

Note: Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6460.

**6.11.3 Folklore and Language Archive (MUNFLA)**

**Chair, Advisory Committee**

Dean of Arts, Dr. R. Tremblay

**Chair, Management Committee**

Dr. P. Smith

**Archivist**

P. Fulton

**Archival Assistant**

P. Cox

**Folklore Transcriber**

B. Reddy

**Honorary Research Associate (Folklore)**

V.M. Halpert

**Honorary Research Associate (Language and Folklore)**

J.D.A. Widdowson

Memorial University of Newfoundland Folklore and Language Archive (MUNFLA) is Canada's foremost repository for recorded and collected items of Newfoundland and Labrador folklore, folklife, language, oral history and popular culture. Established in 1968, it is one of the oldest archives at Memorial University of Newfoundland. The Archive is an integral part of the teaching and research activities of the Department of Folklore at the graduate and undergraduate levels. It is a member of the Association of Newfoundland and Labrador Archives and the Canadian Council of Archives.

The Archive contains diverse materials, donated by more than 11,000 contributors, covering topics such as custom and belief, childlore, material culture and work techniques, song, music, dance, tale, legend, personal experience narrative, poetry, riddles and conundrums, proverbs and foodways. Special holdings include the field notebooks of Maud Karpeles who compiled *Folk Songs from Newfoundland* (1971); E. R. Seary's collection of research materials on family names; the folklore collections of Herbert Halpert and John Widdowson; the extensive Newfoundland and Labrador song collections of Kenneth S. Goldstein and MacEdward Leach; Lawrence R. Smith's linguistic materials on Labrador Inuktitut and Southern Avalon dialect; 12,000 Canadian Broadcast Corporation recordings; the Lorne Russwurm international collection of country music; and Franco-NL materials from the Centre d'Études Franco-Terreneuviennes. Overall, the collection contains 40,000 audio tape recordings, 4,000 commercial recordings, 20,000 photographs, 2,000 printed documents, 16,000 manuscripts, and 800 video tape recordings.

Further information can be obtained by writing Memorial University of Newfoundland Folklore and Language Archive, Department of Folklore, ED-4038, G. A. Hickman Building, St. John's, NL Canada A1B 3X8, or by e-mail to munfla@mun.ca, or by telephone to (709) 737-8401, or by fax to (709) 737-4718, or through the website at [www.mun.ca/folklore/munfla](http://www.mun.ca/folklore/munfla).

**6.12 French****Professor and Interim Head of the Department**

V. Harger-Grinling

1. The Degree of Master of Arts in French Studies may be completed by full-time or part-time study. "French Studies" may take the form of the study of the French language or of francophone literature, including the study of literary history, criticism or theory. It may also include the study of French-language cinema or of other aspects of francophone civilization.
2. Candidates who are practicing teachers of French and wish to pursue French studies in conjunction with studies of the teaching of French may opt to pursue the Master of Arts and Education (Education and Francophone Literatures and Cultures) degree jointly offered by the Faculty of Arts, Department of French and Spanish and the Faculty of Education.
3. Applicants for the M.A. program in French Studies are normally expected to have completed the Honours Degree with a second-class standing or better. An applicant who does not hold an Honours Degree or its equivalent may be required to complete such additional undergraduate courses as the Department considers necessary, prior to admission or as part of the program.
4. The M.A. program in French Studies will consist of 15 credit hours in graduate courses (normally requiring 2 or 3 semesters of full-time study), plus research activities and a thesis of approximately 80 pages. The 15 credit hours shall include 6008 and 6009, normally completed in consecutive semesters. The remaining 9 credit hours shall be obtained by completion of three courses chosen from those in three of the five groups listed in the **Courses** section below. The language of the thesis will be French. The thesis proposal, after being approved by the Supervisor, will be submitted by the candidate, normally before the end of the third semester of studies, to the Departmental Graduate Studies Committee, who will decide whether or not to grant its approval.
5. Each candidate's program of study must be approved by the Departmental Graduate Studies Committee.
6. A paper drawn from the thesis will be presented at a Departmental seminar or in another forum approved by the Departmental Graduate Studies Committee. Normally, this presentation will take place at some time between submission of the final draft thesis to the Supervisor and the submission of the thesis to the School of Graduate Studies.
7. The approval of the Departmental Graduate Studies Committee must be obtained before the thesis is forwarded to the School of Graduate Studies for examination.
8. In the final version of the M.A. thesis and other written assignments for M.A. courses, the quality of written French must be of a standard acceptable to the Department as represented by the Graduate Studies Committee. Normally, this will mean that the final version of such assignments will be free of spelling, lexical, and grammatical errors, and of improper use of stylistic conventions. In the case of the M.A. thesis, this requirement applies to the version submitted for examination.

**6.12.1 Courses**

A selection of the following graduate courses will be offered to meet candidates' requirements, as far as the resources of the Department will allow:

6008\* Literary Methodology and Theory I

6009\* Literary Methodology and Theory II

**Historiographical, Genetic, Thematic, Hermeneutical or other historical or critical approaches to French Studies**

6032 Genetic Criticism and Exegesis

6102 History of the French Language

**Psychoanalytical, Ethnological or Anthropological approaches to French Studies**

6020 Literature and Psychoanalysis

6021 Mythocriticism

6130-39 Personal/Intimate Literature

**Sociological or Socio-historical approaches to French Studies**

6022 History, Society, Ideology and Texts

6101 The Female Voice: Women's Writing and its Contribution to the Development of French and Francophone Texts

6110-19 Paraliterature and Traditional Culture

**Linguistic, Semiotic, Poetic, Rhetorical or Pragmatic approaches to French Studies**

6011 General Theory of the French Language

6030 Grammar of the Text

6031 Narratology

6140-49 Genres and Discursive Forms

**Other approaches to French Studies**

6120-29 Texts/Images/Sounds

6150-59 Special Topics

**French and Spanish Courses for Students in Other Disciplines**

French 6900 Reading in French

Spanish 6900 Reading in Spanish

Note: \*Credit may not be obtained for both French 6008 and the former French 6006; or for both French 6009 and the former French 6006.

**Français****Professeur et directeur intérimaire du département**

V. Harger-Grinling

1. Le diplôme de Maîtrise ès Arts en Études françaises sanctionne des études à temps plein ou à temps partiel. Les études françaises comprennent l'étude de la langue et de la littérature et l'étude de l'histoire, de la critique ou de théorie littéraire, ainsi que l'étude du cinéma ou d'autres aspects des civilisations francophones.
2. Les enseignants et enseignantes de français qui veulent poursuivre leurs études en français et en didactique du français peuvent choisir le programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) offerte par la Faculté des Arts, le Département d'études françaises et hispaniques et la Faculté d'Éducation.
3. Pour être admis au programme de Maîtrise ès Arts en Études françaises, l'étudiant doit normalement détenir un diplôme de baccalauréat avec une spécialisation en Études françaises et une note moyenne d'au moins B. Le département pourra obliger toute personne ne détenant pas ce diplôme ou son équivalent à suivre certains cours du premier cycle avant d'être admis au programme de deuxième cycle ou pendant ses études de maîtrise.
4. L'option en Études littéraires comprend quinze crédits de cours, ce qui exigera normalement 2 ou 3 trimestres d'études à temps plein et un mémoire d'environ 80 pages rédigé en français. Tous les candidats compléteront et le Fr.6008 et le Fr.6009.  
Normalement, ces deux cours devront être complétés en deux trimestres consécutifs. En plus, il faudra compléter 3 cours choisis parmi ceux qui font partie de 3 des 5 groupes identifiés dans la section **COURS**. Le projet de mémoire, qui est approuvé par son directeur, doit être officiellement présenté par le candidat au Comité des Études de deuxième cycle, avant la fin du troisième trimestre, pour son approbation.
5. Le programme d'études du candidat doit être approuvé par le Comité des Études de deuxième cycle.
6. Une communication tirée du mémoire sera présentée dans le cadre des séminaires départementaux ou dans une autre réunion approuvée par le Comité des Études de deuxième cycle. Normalement, cette présentation se fera entre la soumission à son directeur et sa soumission définitive à l'École des Études supérieures.
7. Avant d'être soumis à l'École des Études supérieures, le mémoire doit être proposé au Comité des Études de deuxième cycle, qui doit en autoriser le dépôt.
8. Dans la version finale du mémoire et des autres travaux préparés pour les cours de maîtrise, la qualité du français écrit doit être d'un niveau acceptable au département, qui est représenté par le Comité des Études de deuxième cycle. Ainsi, la version finale de ces travaux ne contiendra-t-elle pas, normalement, d'erreurs orthographiques, lexicales, grammaticales, stylistiques et protocolaires. Pour ce qui est du mémoire, cette exigence s'applique à la version remise aux examinateurs.

**Cours**

Un choix des cours de deuxième cycle suivants sera offert afin de répondre aux besoins des étudiants inscrits au programme de maîtrise selon les ressources disponibles au département:

6008\* Méthodologie et théorie de la littérature I

6009\* Méthodologie et théorie de la littérature II

**Approche historiographique, génétique, thématique, herméneutique ou autrement historique ou critique:**

6032 Génétique et critique

6102 Histoire de la langue française

**Approche psychanalytique, ethnologique ou anthropologique:**

6020 Psychanalyse et littérature

6021 Mythocritique

6130-39 Littérature personnelle/intime

**Approche sociologique ou socio-historique:**

6022 Histoire, société, idéologie et textes

6101 La voix féminine et le féminisme

6110-19 Paralittérature et cultures traditionnelles

**Approche linguistique, sémiotique, poétique, rhétorique ou pragmatique:**

6011 Théorie générale de la langue française

6030 Grammaire du texte

6031 Narratologie

6140-49 Discours et genres

**Autres approches aux Études françaises:**

6120-29 Textes/Images/Sons

6150-59 Sujets spéciaux

**Cours de français et d'espagnol pour étudiants d'autres disciplines**

Français 6900 Lecture en français

Espagnol 6900 Lecture en espagnol

\* Nota / Note: Les étudiants ne peuvent obtenir de crédit pour le Français 6008 et le Français 6006 (désormais supprimé) ni pour le Français 6009 et le Français 6006.

## 6.13 Geography

### Associate Professor and Head of the Department

C. Mather

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the **General Regulations** of the School of Graduate Studies and Degree Regulations for **Master of Arts** and **Master of Science**.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.
5. Major research areas for graduate study at the master's level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology and geographic information sciences.
6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.
7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.
8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.
9. Candidates whose undergraduate degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.
10. Each candidate will be required to present a seminar on his or her research to the Department.
11. Each candidate must submit a thesis based on his or her own original research. This thesis will be examined in accordance with the **General Regulations** of the School of Graduate Studies.

### 6.13.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I  
 6001 Development of Geographical Thought and Practice II  
 6002 Directed Readings in Geography  
 6100 Research Techniques in A Selected Field of Geography I  
 6101 Research Techniques in A Selected Field of Geography II  
 6120 Geospatial Modelling and Analysis  
 6150 Environmental Remote Sensing and Image Analysis  
 6200 Economic Geography I  
 6201 Economic Geography II  
 6204 Sustainable Community and Regional Development  
 6250 Conservation and Sustainability of Natural Resources  
 6251 Survey Design, Questionnaire Development and Techniques of Data Collection  
 6300 Problems in Fisheries Geography  
 6400 Fluvial Geomorphology  
 6401 Glacial Geomorphology  
 6402 Coastal Geomorphology  
 6410 Climatology  
 6420 Quaternary Geography  
 6430 Biogeography  
 6500 Cultural Geography  
 6600 Historical Geography  
 6700 Political Geography  
 6800 Urban Geography  
 6821 Advanced Computer Mapping  
 6900 Graduate Seminar in Regional Geography  
 6990-95 Special Topics in Geography

## 6.14 German

### Associate Professor and Head of the Department

E. Warkentin

The degree of Master of Arts (M.A.) is offered in German Language and Literature and may be taken by full-time or part-time study.

1. Candidates for the M.A. degree in German are normally expected to have completed an Honours degree with a minimum of second-class standing. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language as determined by the Department prior to admission.
2. Students will be required to demonstrate superior German language skills as determined by the Department prior to admission to the program.
3. As part of the admissions process, prospective students must submit a non-binding outline of the area in which they would like to write their thesis.
4. Students may choose from two modes of completing the M.A. program, in accordance with the Graduate Studies **Regulations Governing the Degree of Master of Arts**:
  - a. Candidates complete at least 18 credit hours of course work and submit a thesis. The entire program of study and research will

normally take one year of full-time study. The M.A. thesis will be based on research conducted by the student.

- i. The thesis will be examined in accordance with **General Regulation, Thesis and Reports**.
  - ii. Normally, one of the assigned examiners of the thesis will be external to the Department.
- b. Candidates complete at least 18 credit hours of course work and write a comprehensive examination. The entire program of study and research will normally take one year of full-time study.
- i. The comprehensive examination shall be examined in accordance with the **General Regulations, Comprehensive Examinations**.
  - ii. Material to be covered on the M.A. comprehensive exam is normally determined by consultation between the student and the Head of the Department (or designate). The exam is written in two sittings: one exam will cover the student's chosen area and the other will cover the student's reading list and literary terminology. A final component of the comprehensive exam is an oral examination on the eras or issues covered in the written portion of the exam.
5. All students, regardless of the mode of completing the requirements for the M.A., will be required to complete German 6103.

### 6.14.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Issues in Modern Technology, Literature and Culture  
 6001 Issues in Literature on the Edges of Society  
 6100 Issues in the History of the German Language  
 6103 Bibliography and Research Methods  
 6200 Issues in Early German Literature and Culture I  
 6201 Issues in Early German Literature and Culture II  
 6300 Issues in Early Modern German Literature and Culture I  
 6301 Issues in Early Modern German Literature and Culture II  
 6800 Issues in Modern German Literature and Culture I  
 6801 Issues in Modern German Literature and Culture II  
 6900 Issues in Contemporary German Literature and Culture I  
 6901 Issues in Contemporary German Literature and Culture II  
 6903 Issues in Propaganda and Censorship  
 7000 Special Subject or Author I  
 7001 Special Subject or Author II  
 7002-7020 Special Topics in German Studies

### 6.15 History

#### Professor and Head of the Department

C. Youé

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

#### 6.15.1 Master of Arts

1. The Department of History offers M.A. programs in a broad range of geographical and thematic areas. Students in the M.A. program will choose a thesis or non-thesis option.
2. M.A. candidates who choose the non-thesis option shall complete a minimum of 24 credit hours, 18 of which shall normally be 6190, 6200 and 6999.
3. M.A. candidates who choose the thesis option shall complete 9 credit hours, 6 of which shall normally be 6190 and 6200, plus a thesis.
4. Where a student's major research project requires him or her to read a language other than English, he or she must demonstrate a reading knowledge of this language through an exam or other method subject to the approval of the Graduate Committee.

#### 6.15.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Advanced Studies in Newfoundland History  
 6010 Advanced Studies in Canadian History  
 6020 Advanced Studies in the History of the United States  
 6030 Advanced Studies in French History  
 6040 Advanced Studies in British History  
 6050 Advanced Studies in German History  
 6060 Advanced Studies in North Atlantic History  
 6070 Advanced Studies in Social History  
 6075 Advanced Studies in Labour and Working-Class History  
 6080 Advanced Studies in Intellectual History  
 6090 Advanced Studies in Women's History  
 6095 Advanced Studies in Ethnohistory  
 6100 Advanced Studies in Military History  
 6105 Advanced Studies in Diplomatic History  
 6110 Advanced Studies in Maritime History  
 6120 Advanced Studies in Economic and Business History  
 6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (*cross-listed as Medicine 6420*)  
 6130 Quantification and Measurement in History  
 6140-59 Research in Special Topics  
 6160-79 Reading Courses (Special Topics)  
 6190 Theory and Method  
 6200 Masters Seminar I  
 6999 Masters Research Paper (12 credit hours)

## 6.16 Linguistics

### Professor and Head of the Department

M. MacKenzie

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

### 6.16.1 Master of Arts

1. The Linguistics Department offers the M.A. program with both a thesis and a non-thesis option. The M.A. with thesis option is intended for those who have completed an undergraduate major in Linguistics with satisfactory standing (a B+ average in Linguistics courses). Students interested in the thesis option who have an excellent undergraduate record and a well-defined research plan, yet who do not possess the equivalent of an undergraduate major, will be required to take additional undergraduate and/or graduate courses in Linguistics. Other students are encouraged to apply for the M.A. without thesis option.
2. The M.A. with thesis option is normally a two-year program consisting of at least 15 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a thesis.
3. The M.A. without thesis option is normally a two-year program consisting of at least 21 credit hours of graduate courses (including Linguistics 7000 and 7001), plus a research project (Linguistics 6999), which consists of a major research paper in an approved area followed by an oral examination.
4. The M.A. in Linguistics requires proficiency in a language other than the candidate's first language, as demonstrated by a minimum B grade in a second-year undergraduate language course, or performance satisfactory to the Department in an arranged reading proficiency test. A working or structural knowledge of other languages may also be required for particular programs (e.g., Latin, Greek or Sanskrit for historical Indo-European linguistics, or courses in the series Linguistics 6050-59 or the former 6010-6041).
5. All M.A. students are advised to consult the Linguistics department's Graduate Handbook for details on program requirements and for general information relating to the graduate program.

### 6.16.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Handbook.

6050-54 Structure of a North American Aboriginal Language

(Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)

6055-59 Structure of an Uncommonly-Taught Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)

6100 Issues in Morphosyntax (Credit may not be obtained for both Linguistics 6100 and the former 6001)

6110 Selected Topics in Transformational Grammar

6115 Topics in the Syntax of a Selected Language (Prerequisite: 6001 or 6110)

6150 Principles of Language Acquisition

6151 Selected Topics in Language Acquisition (Prerequisite: 6150)

6200 Generative Phonology

6201 Selected Topics in Phonology (Prerequisite: 6200)

6210 Sociolinguistics (Credit restriction: A student may not obtain credit for both 6210 or the former 6211.)

6212 Selected Topics in Language and Gender

6220 Areal and Temporal Variations in Language

6300-9 Special Subjects

6350 General Romance Linguistics

6390 Franco-Canadian

6400 Comparative and Historical Linguistics

6401 Morphosyntactic Change (Prerequisite: 6400)

6403 Etymology (cross-listed as English 6403)

6410 Comparative Structure of a Selected Language Family (Prerequisite: 6403 or the former 6011, 6031)

6420 English Dialectology I

6421 English Dialectology II

6430 Selected Topics in Linguistic Variation (Prerequisite: 6220 or the former 6211)

6500 Field Methods

6601 Modern Linguistic Theories

6700 Experimental Phonetics

6701 Selected Topics in Experimental Phonetics (Prerequisites: 6200, 6700)

6800 Selected Topics in Morphology

6880 Selected Topics in Semantics

6999 M.A. Research Project

7000 Seminar in Research Methods

7001 Analytical Issues in Linguistics

7100 Topics in North American Native Languages (Prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)

7200 Advanced Topics in Syntax (Prerequisites: 6110, plus either 6001 or 6115)

7400 Seminar in Comparative and Historical Linguistics (Prerequisite: 6400 or 6410)

7430 Seminar in Linguistic Variation (Prerequisite: 6430)

7800 Seminar in Morpho-semantics (Prerequisite: 6800)

7900-03 Special Topics in Linguistics

Note: Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.

## 6.17 Philosophy

### Professor and Head of the Department

J. Bradley

The Degree of Master of Arts is offered in Philosophy by full-time or part-time study. The program is designed so that it may be

completed in one academic year (three semesters) of full-time study.

The candidate must complete 15 credit hours - 3 credit hours from 6000, 9 credit hours from 6011-6016, any 3 credit hours from 6101-6102 - and a thesis.

Normally, a full-time candidate will complete all the 15 credit hours and submit a thesis proposal by the end of the second semester of study. A minimum of one additional semester will be spent in completing the balance of the program.

### 6.17.1 Courses

6000 Graduate Seminar

#### Author Seminars:

6011 Ancient and Medieval Philosophy

6012 Modern Philosophy

6013 Contemporary Philosophy

#### Area Seminars:

6014 Metaphysics

6015 Theory of Knowledge

6016 Ethical and Political Theory

#### Tutorials

6040-6099 Special Topics

6101 Selected Texts

6102 Current Issues

## 6.18 Political Science

### Professor and Head of the Department

R. Levy

The Degree of Master of Arts is offered in Political Science by full-time and part-time study.

#### Master of Arts

The degree of Master of Arts (M.A.) in Political Science may be taken by course work and thesis, course work and internship, or course work and research paper. The thesis, internship, and research paper options are available to full-time students. The M.A. with thesis is a two year program. The internship and research paper options are one year programs for full-time students. The thesis and research paper options are open to part-time students.

#### 1. M.A. with Thesis:

- a. Students choosing the M.A. with thesis must normally complete a minimum of 12 credit hours in graduate program courses. These 12 credit hours are from required courses: 6000, 6010, and 2 subfield surveys (two of 6100, 6200, 6300, 6400, 6500, 6600, or 6700). Further courses beyond the minimum number may be required, depending on the background and needs of the student.
- b. Each student choosing the thesis option will submit a thesis on a subject that has been approved by the supervisory committee of the Department.
- c. Students applying for the thesis option must submit a brief (one page maximum) statement of their research interest with their application.

#### 2. M.A. with Internship:

- a. Students choosing the M.A. with internship must normally complete a minimum of 24 credit hours in graduate program courses. Twenty-one credit hours are from required courses: 6000, 6010, 6030, 6031, 6790, and a subfield survey (one of 6100, 6200, 6300, 6400, 6500, 6600, or 6700). Further courses beyond the minimum number may be required, depending on the background and needs of the student.
- b. Each student choosing this option will complete, normally in the Spring semester, a one-semester, full-time internship, 6030, with a political organization, government agency, or voluntary agency. Students registering for 6030 must also register for its co-requisite, 6031. The placement must normally be selected from a list of approved organizations that is maintained by the Department.

#### 3. M.A. with Research Paper:

- a. Students who choose the M.A. with research paper option shall complete a minimum of 24 credit hours, fifteen of which shall normally be 6000, 6010, and 6999.
- b. The selection of a topic for the research paper must be approved by a faculty supervisor who will be chosen in consultation with the Department Head. The paper will be graded by the supervisor and one other member of the faculty, either from within the Department or the Department of a cognate discipline.

### 6.18.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6000 Political Science Concepts

6010 Political Science Methods

6020 Research Design

6030 Internship

6031 Applied Political Research (6 credit hours)

6100 Political Philosophy

6200 International Politics

6300 Comparative Politics

6301 European Politics and Public Policy

6350 Political Economy

6400 Political Development

6430 Latin American Politics

6500 Political Behaviour

6600 Newfoundland Politics

6700 Canadian Politics  
 6710 Intergovernmental Relations  
 6720 Local Politics  
 6740 Public Administration  
 6770 Canadian Provincial Politics  
 6780 Politics of the Atlantic Provinces  
 6790 Public Policy Process  
 6900-10 Special Topics  
 6999 Master's Essay (9 credit hours)

## 6.19 Religious Studies

### Professor and Head of the Department

D.N. Bell

The degree of Master of Arts (M.A.) is offered in Religious Studies and may be taken by full-time or part-time study.

Candidates for the M.A. in Religious Studies may choose between the M.A. with Thesis option and the M.A. with a Project option. Candidates must specify which M.A. stream they wish to pursue upon entry into the program.

1. Admission requirements are set forth in the **Regulations Governing the Degree of Master of Arts**. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant should have completed a minimum of 45 credit hours in Religious Studies courses at the undergraduate level with at least the grade of B in each. An applicant's overall undergraduate program must represent, to the satisfaction of the Department, a solid groundwork for graduate studies.
2. A candidate who does not hold an Honours Degree or its equivalent shall be required to complete such additional undergraduate courses as the Department may deem necessary. These courses may be required as prerequisites to admission to the program, or as an additional constituent part of the program, at the discretion of the Department.
3. Upon acceptance into the program, each candidate will be assigned a Supervisor, whose duty it shall be to assist the candidate.
4. Students will be required to satisfy the Department as to proficiency in any language or technical facility deemed necessary by the Graduate Studies Committee of the Department for successful completion of the thesis or project.

### 6.19.1 Program of Study

#### 1. Thesis Option

- a. Normally, the Master of Arts program with thesis option should take two years to complete, the first of which is to be spent primarily on course work and preparation of a thesis proposal. A student accepted on a part-time basis would normally be expected to take three to five years to complete the program.
- b. Students in the M.A. program with Thesis option shall normally complete a thesis and a minimum of 12 credit hours in course work.
- c. Students may write a thesis in one of the following areas: Hinduism, classical Confucianism, philosophical Daoism, Chinese and North American Buddhism, Buddhism and psychology, Judaism, Christianity, Hebrew Bible, New Testament, religious history of Canada, religious history of Newfoundland and Labrador, medieval religious thought, religion and culture (including pop culture), New Age religious movements, ethics and social justice, philosophy of religion.
- d. Before a student begins writing his or her thesis, he/she should submit a research proposal to the Graduate Studies Committee of the Department for approval.
- e. Students in the M.A. with Thesis Option must complete three required courses and at least one other from the course list. The three required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6120 Studies in Religious Texts; and RS 6130 Religious Contexts.

#### 2. Course-based M.A. with a Project Option

- a. Normally, the Master of Arts program with a Project option should take one year (three semesters) to complete, the first two semesters spent on course work and the third semester on completing the project.
- b. Before a student begins writing his or her project, he/she should submit a research proposal to the Graduate Studies Committee of the Department for approval.
- c. Students in the M.A. with a Project option must complete four required courses and at least two others, one of which may be from a cognate discipline (upon approval). The four required courses are: RS 6100 Methods and Theories in Religious Studies; RS 6120 Studies in Religious Texts; RS 6130 Religious Contexts; and RS 699A/B Advanced Research in Religious Studies.

### 6.19.2 Courses

6100 Methods and Theories in Religious Studies (*Note: Credit may not be obtained for both Religious Studies 6100 and the former Religious Studies 6000*)

6120 Studies in Religious Texts

6130 Studies in Religious Movements and Institutions

6220 Selected Topics in New Testament

6230 Selected Topics in Hebrew Bible/Old Testament

6330 Selected Topics in Judaism

6340 Selected Topics in East Asian Religious Traditions

6350 Selected Topics in South Asian Religious Traditions

6720 Selected Topics in the History of Christianity

6730 Selected Topics in the Religious History of Canada

6740 Selected Topics in the Religious History of Newfoundland and Labrador

6750 Selected Topics in Medieval Religious Thought

6820 Selected Topics in Christian Ethics

6830 Selected Topics in Religion and Culture

6840 Selected Topics in the Philosophy of Religion

6850 Selected Topics in New Age Religious Movements

6900-6910 Special Topics in the Study of Religion

699A/B Advanced Research in Religious Studies (9 credit hours)

## 6.20 Sociology

### Associate Professor and Head of the Department

A. Micucci

The Degrees of Master of Arts, Master of Philosophy and Doctor of Philosophy are offered in Sociology by full-time or part-time study. The Department has developed foci at the doctoral level in the areas of Maritime Sociology, Gender, and Work and Development but other fields of specialization are available at the Master's level including Social Theory, Sociology of Knowledge, Social Inequality and Criminology. Graduate courses are taught as tutorials or small seminars.

### 6.20.1 Master of Arts

1. Minimum admission requirements are a B average in undergraduate studies with a good undergraduate background in Sociology.
2. The M.A. Degree with thesis requires the completion of 12 credit hours in graduate courses, normally including the Graduate Seminar (6880) and Methods of Sociological Research (6040), and a thesis. In the case of full-time students, the M.A. with thesis is normally completed in two years. The first year is devoted to the completion of the required courses and the definition of the thesis research topic. The second year is devoted to the completion of the thesis.
3. The M.A. Degree by course work requires the completion of 24 credit hours, normally including the Graduate Seminar (6880), Methods of Sociological Research (6040), Social Theory (6150), Master's Research Paper (6900) and three electives. These courses should be taken during the first two semesters of full-time study. The research paper (Sociology 6900) will be supervised by a faculty member and must be presented at a Departmental seminar. The Supervisor and one other member of Department will grade the paper. The research paper should be written in the third semester of full-time study.

#### 6.20.1.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6040 Methods of Sociological Research  
 6090-94 Special Area in Sociology  
 6120 Social Organization  
 6130 Social Stratification  
 6140 The Community  
 6150 Social Theory  
 6160 Theory Construction and Explanation in Sociology  
 6240 Sociology in Medicine  
 6280 Social and Economic Development  
 6300 Maritime Sociology  
 6310 Political Sociology  
 6320 Gender and Society  
 6330 Science and Technology  
 6340 Comparative North Atlantic Societies  
 6350 Environmental Sociology  
 6360 Sociology of Work  
 6370 Feminist Theory and Methods  
 6380 Women, Nature, Science and Technology (cross-listed as Women's Studies 6380)  
 6390 Sociology of Culture  
 6610 Socialization  
 6620 Current Topics in Social Behaviour  
 6880 Sociology Graduate Seminar  
 6900 Master's Research Paper (6 credit hours)

## 7 Regulations Governing the Degree of Master of Arts and Education (Education and Francophone Literatures and Cultures)

### Professor and Dean of Arts

R. Tremblay

### Associate Professor and Dean of Education

D. Dibbon

### Associate Professor and Acting Associate Dean of Arts (Graduate and Research)

L. Rankin

### Associate Professor and Associate Dean of Education

T. Seifert

The degree of Master of Arts and Education (Education and Francophone Literatures and Cultures) is jointly offered by the Faculty of Arts and the Faculty of Education, and is offered by full-time or part-time study.

These regulations should be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

The Administrative Committee is responsible for the program. The Committee shall be comprised of the Associate Dean, Graduate Programs in the Faculty of Education (or delegate), the Head of the Department of French and Spanish (or delegate) and one appointed faculty member. The faculty member shall come from either the Faculty of Education or the Department of French and Spanish in alternating years. The Administrative Committee is responsible for admissions and advising students on course selection when appropriate.

### 7.1 Qualifications for Admission

To be considered for admission to the Master of Arts and Education (Education and Francophone Literatures and Cultures), an applicant shall normally hold a Bachelor of Education degree, with a concentration in French, from an institution recognized by Senate. Applicants should have a minimum 'B' standing or an average of 70% in the last 30 courses attempted and two years of experience teaching

French. An appropriate level of proficiency in French is required, and the applicant's level of competence will be evaluated by the Administrative Committee.

## 7.2 Program of Study

1. Candidates for the Master of Arts and Education (Education and Francophone Literatures and Cultures) may choose one of two program options:
  - Option I. Project Route
  - Option II. Comprehensive Course Route
2. All candidates shall be required to complete:
  - French 6800 Littératures francophones: Théorie et pratique/Francophone literatures: Theory and practice
  - French 6810 Cultures francophones: Théorie et pratique/Francophone Cultures: Theory and practice
  - Education 6100 Research Designs and Methods in Education
  - Six credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate by the Administrative Committee.
  - Nine credit hours selected from:
    - Education 6668 Current Issues in Second Language Education
    - Education 6669 Graduate Seminar in Second Language Teaching and Learning
    - Education 6673 Second Language Teaching, Learning and Curriculum
  - Three credit hours from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate by the Administrative Committee.
3. Students choosing Option I must also complete:
  - Education 6392 Project in Curriculum, Teaching and Learning Studies
4. Students choosing Option II must also complete:
  - Three credit hours from Memorial University of Newfoundland, Department of French and Spanish graduate course offerings as deemed appropriate for each candidate's program by the Administrative Committee.
  - Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies

## 7.3 Evaluation

1. In order to continue as a candidate for the degree of Master of Arts and Education (Education and Francophone Literatures and Cultures), a candidate shall obtain an A or B grade in each required course. A candidate who receives a grade of C in any required course must repeat that course and obtain a minimum grade of B. In the case of an elective course, a suitable replacement course acceptable to the Administrative Committee may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate's graduate program. Should a grade of less than B be obtained in the repeated/replacement course, or any other program course, the candidate shall be required to withdraw from the program.
2. When the Administrative Committee has determined, through consultation with the candidate, graduate course instructors, and the project supervisor, if applicable, that the candidate's work has fallen below satisfactory level, they may request the Dean of the Faculty of Education and the Head of the Department of French and Spanish recommend to the Dean of Graduate Studies that the candidate's program be terminated.

## 7.4 Courses

French 6800 Littératures francophones: Théorie et pratique/Francophone literatures: Theory and practice

French 6810 Cultures francophones: Théorie et pratique/Francophone Cultures: Theory and practice

Education 6100 Research Designs and Methods in Education

Education 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies

Education 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)

Education 6668 Current Issues in Second Language Education

Education 6669 Graduate Seminar in Second Language Teaching and Learning

Education 6673 Second Language Teaching, Learning and Curriculum (credit may not be obtained for both Education 6673 and the former 6665 or 6667)

Other courses offered for the Master of Education program and the Master of Arts in French Studies program as deemed appropriate by the Administrative Committee

### Règlements de la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones)

#### Professeure et Doyenne des Arts

R. Tremblay

#### Professeur Agrégé et Doyen d'Éducation

D. Dibbon

#### Professeure Agrégée et Doyenne Adjoint Intérimaire aux Etudes Supérieures et à la Recherche

L. Rankin

#### Professeur Agrégé et Doyen adjoint d'Éducation

T. Seifert

La Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) est offerte conjointement par la Faculté des Arts et la Faculté d'Éducation et cautionne des études à temps partiel ou à temps plein.

Il est recommandé de lire ces règlements en conjonction avec les Règlements généraux de l'École des Études supérieures.

Le Comité administratif est responsable du programme. Le Comité sera composé du Doyen adjoint aux programmes supérieurs de la Faculté d'Éducation (ou son représentant), le Directeur du Département d'études françaises et hispaniques (ou son représentant), et un autre membre. Ce dernier viendra alternativement (une année sur deux) d'une des deux unités. Le Comité administratif décidera de l'admission et conseillera à l'occasion les étudiants sur leur choix de cours.

**Admission**

Pour être admis au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), il faut normalement détenir un Baccalauréat en Éducation, avec concentration en français, provenant d'une institution reconnue par le Sénat. Il faut une note moyenne minimale de 'B' ou une moyenne de 70% dans les trente derniers cours et deux ans d'expérience dans l'enseignement du français. Un niveau adéquat de français est nécessaire et la compétence des candidats (le masculin est utilisé à titre épique) sera évaluée par le comité d'admission.

**Programme d'études**

1. Les candidats à la Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones) choisira l'une ou l'autre des deux options suivantes:
  - 1<sup>re</sup> option Programme menant au projet terminal
  - 2<sup>e</sup> option Programme entièrement composé de cours
2. Tous les candidats devront compléter:
  - French 6800 Littératures francophones: Théorie et pratique
  - French 6810 Cultures francophones: Théorie et pratique
  - Education 6100 Research Designs and Methods in Education
  - Six heures crédits de cours de deuxième cycle du Département d'études françaises et hispaniques jugés appropriés par le Comité administratif.
  - Neuf heures crédits parmi:
    - Education 6667 Second Language Teaching, Learning and Curriculum
    - Education 6668 Current Issues in Second Language Education
    - Education 6669 Graduate Seminar in Second Language Education
  - Trois heures crédits de cours de la Faculté d'Éducation jugés appropriés par le Comité administratif.
3. L'étudiant ayant choisi la 1<sup>re</sup> option devra compléter:
  - Education 6392: Project in Curriculum, Teaching and Learning Studies
4. L'étudiant ayant choisi la 2<sup>e</sup> option devra compléter:
  - Trois heures crédits de cours de deuxième cycle du Département d'études françaises et hispaniques jugés appropriés pour le programme de l'étudiant.
  - Education 6390 Research and Development in Teaching and Learning Studies

**Évaluation**

1. Afin de continuer son inscription au programme de Maîtrise ès Arts et Éducation (Enseignement des littératures et cultures francophones), le candidat doit obtenir un note de A ou B dans chaque cours obligatoire. Le candidat qui reçoit une note de C dans un cours obligatoire doit répéter ce cours et obtenir au moins B. Dans le cas d'un cours facultatif, un cours jugé approprié par le Comité administratif peut être substitué à un cours qui n'a pas été réussi. Une telle répétition ou un tel remplacement ne sera permis qu'une seule fois dans le programme de l'étudiant. Si une note moindre que B est obtenue dans un cours répété ou dans un cours de remplacement, le candidat devra se retirer du programme.
2. Lorsque le Comité administratif aura établi, après avoir consulté le candidat, ses enseignants et son directeur de projet, le cas échéant, que le travail du candidat n'atteint toujours pas un niveau satisfaisant, il pourra demander au Doyen de la Faculté des Arts et au Doyen de Faculté d'Éducation qu'ils recommandent la disqualification du candidat au Doyen des Études supérieures.

**Cours**

French 6800 Littératures francophones: Théorie et pratique  
 French 6810 Cultures francophones: Théorie et pratique  
 Education 6100 Research Designs and Methods in Education  
 Education 6390 Research and Development in Teaching and Learning Studies  
 Education 6392 Project in Teaching and Learning Studies  
 Education 6668 Current Issues in Second Language Education  
 Education 6669 Graduate Seminar in Second Language Education  
 Education 6673 Second Language Teaching, Learning and Curriculum (les étudiants ne peuvent recevoir de crédit et pour Education 6673 et pour Education 6665 ou 6667)

Autres cours de cycle supérieur offerts par la Faculté d'Éducation et le Département d'études françaises et hispaniques jugés appropriés par le Comité administrative.

## 8 Regulations Governing the Degree of Master of Business Administration

**Professor and Dean**

W. Zerbe

**Associate Professor and Associate Dean (Academic Programs)**

T. Clift

**Assistant Professor and Director of Graduate Programs (Business)**

P.A. Coady

The Degree of Master of Business Administration (M.B.A.) is offered by full-time or part-time study. These regulations must be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

### 8.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the Master of Business Administration program, an applicant shall normally hold at least a Bachelor's Degree, with a minimum 'B' standing, from an institution recognized by Senate. Qualified applicants with relevant employment experience will normally receive preference during the evaluation of applications.
2. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who present a high GMAT score, have a minimum of 10 years of full-

time managerial and executive experience, and have completed several years of university studies. The Faculty may also take into account relevant professional credentials. Applicants who do not meet normal admission requirements may be required to complete, with a high level of achievement, certain undergraduate courses before being considered for admission.

3. When circumstances warrant, and only on the strong recommendation of the Faculty of Business Administration, consideration may be given to candidates who do not meet some of the above requirements.
4. Applicants who did not complete a four-year baccalaureate degree at a recognized university where English is the primary language of instruction must normally complete the Test of English as a Foreign Language (TOEFL) and achieve a paper-based score of 580 (or higher), computer-based score of 237 (or higher), or Internet based score of 92-93 (or higher). Those submitting results of the Test of Written English (TWE) as well, with a score of 4 or better, will receive preference in the evaluation of English proficiency. Information regarding both tests is available from the Educational Testing Service at [www.ets.org](http://www.ets.org). It is noted that other equivalent tests acceptable to the School of Graduate Studies will also be considered.

## 8.2 Deadlines for Applications

Applications and all supporting documents must be received not later than May 1 from Canadian applicants wishing to enter full-time or part-time studies in the Fall semester. Full-time and international applicants are normally considered for entry in the Fall semester. International applicants must submit complete documentation by March 1. Part-time applicants planning to enter in the Winter (January) or Spring (May) semester must apply prior to October 15 and January 15 respectively. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

## 8.3 Procedure for Admission

1. Applications for admission to the M.B.A. program must be made on the appropriate form to the School of Graduate Studies.
2. The following documents must be submitted in support of the official application form:
  - a. Letters of appraisal from three referees, at least one of whom has had close professional contact with the applicant within the last two years, and at least one of whom is capable of appraising the applicant's academic potential as a graduate student.
  - b. Two copies of the Faculty's Employment Experience Information Form.
  - c. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of completion of undergraduate degree must also be submitted.
  - d. The official GMAT score report, to be sent directly by the Graduate Management Admission Council. The code number for Memorial University of Newfoundland is LTT-6W-51.
  - e. Where applicable, an official TOEFL score report (or another equivalent test acceptable to the School of Graduate Studies), to be forwarded directly by the Educational Testing Service.
  - f. Application files are evaluated only when all required items have been received.
3. Admission shall be by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Business Administration. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.B.A. program, applicants must give written notice to the School of Graduate Studies of their intention to register. Such notice must be received by the Office of the Dean within 30 days of notification of acceptance, or three weeks prior to semester registration.

## 8.4 Direct Entry and Advanced Standing

1. Students who have an undergraduate degree in business with significantly high academic standing may apply for direct entry into the second year of the M.B.A. Program. Their course load will be 8107, 8209, 8208; 3 credit hours chosen from 8208 or 9322 or another approved strategy course; 3 credit hours chosen from 9020, 9325, or 9326 or another approved international course; plus 18-credit hours in electives from the schedule of M.B.A. electives listed in Table III. Direct entry will normally be considered if the undergraduate business degree with significantly high academic standing was awarded within seven years of the year for which admission is being sought. The Committee on Graduate Studies reserves the right to require additional courses where there are noted deficiencies in a student's undergraduate record.
2. The Faculty's Committee on Graduate Studies may recommend advanced standing for students who do not qualify for direct entry at the time of admission to the M.B.A. program. After admission and normally no later than one week after registration, all other students may apply for advanced standing for 8000 level courses in the M.B.A. program. Advanced standing for any 8000 level M.B.A. course would normally require that the student had achieved a 'B+' or better in a letter grade system or the equivalent to a grade of 75% or better at Memorial University of Newfoundland in undergraduate courses required for advanced standing. Courses will normally be considered for advanced standing if they are part of a degree that has been awarded within seven years of the year in which admission is being sought. Advanced standing will not be granted for 8107, 8208, 8209 and 8203.
3. The following information must be submitted to the Associate Dean, Faculty of Business Administration, for evaluation by the Committee:
  - a. a detailed course outline for each course to be considered in the application for advanced standing;
  - b. a description of the method of evaluation used in each such course, the grades received, and the completion dates.
4. Students who enter the M.B.A. program with previous graduate degrees may be granted transfer credit for two non-business, non-specified elective courses by the Faculty's Committee on Graduate Studies. The remaining electives will be chosen from courses offered by the Faculty of Business Administration. This will reduce their program from 20 courses to 18 courses. This does not apply to students with degrees such as the LLB and Medical Doctor degrees that are not master's degrees. Courses will normally be considered for advanced standing if they are part of a degree that has been awarded within seven years of the year for which admission is being sought.

## 8.5 Programs of Study

1. The programs of study include:
  - a. a 60 credit hour all-course program for candidates entering with an undergraduate degree in any area other than business. Thirty-six credit hours in program courses are required courses and are specified in Table I; the remaining 24 credit hours in program courses are electives chosen in accordance with the electives noted below. It is noted that of the 24 credit hours in electives candidates are required to complete 3 credit hours in the area of international business chosen from 9020, 9325, 9326 or another approved international course.

- b. a 48 credit hour thesis option program for candidates entering with an undergraduate degree in any area other than business. Thirty-six credit hours in program courses are compulsory and are specified in Table I; the remaining 12 credit hours in program courses shall consist of 9103, 9 credit hours in courses agreed upon by the student and his or her Supervisor, plus a thesis. Additional courses, which may enhance the research area of the candidate, may be recommended by the Supervisor to the Committee on Graduate Studies.
  - c. a 30 credit hour all-course program for direct entry candidates. Twelve credit hours of the program courses are required and are specified in Table II; the remaining 18 credit hours for candidates in the all-course program are electives chosen in accordance with the electives noted below.
  - d. a 18 credit hour thesis option program for direct entry candidates. Courses shall normally consist of the following 12 credit hours: 8107, 8208, 8209 and 9103, and 6 credit hours in courses agreed upon by the student and his or her Supervisor, plus a thesis. Additional courses, which may enhance the research area of the candidate, may be recommended by the Supervisor to the Committee on Graduate Studies.
2. Electives in the all-course programs may be chosen from the following:
    - a. approved business electives as listed in **Table III**;
    - b. up to 6 credit hours in courses from other graduate programs within the School of Graduate Studies, as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration;
    - c. a Research Project or projects, which may be assigned up to 9 credit hours, as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration;
    - d. any other course or project deemed to be of satisfactory content and rigour as approved by the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration.
  3. The Faculty's Committee on Graduate Studies reserves the right to restrict candidates from taking particular M.B.A. courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.
  4. Students are required to observe certain approved co- or prerequisites in scheduling their courses. These are indicated in **Table V**.
  5. Students shall successfully complete the requirements of Business 8103 as part of the first 36 credit hours of their programs.
  6. Changes to a student's prescribed program, including the specified course load, may have the prior approval of the Dean of Graduate Studies on the recommendation of the Faculty of Business Administration.

## 8.6 Evaluation

1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Graduate Studies in accordance with the requirements outlined in all the clauses below.
2. Credit towards the M.B.A. Degree will be granted only for those courses which have been approved as constituting part of the student's program of study and in which the candidate has obtained a mark of 65% or higher.
3. A candidate is required to withdraw from the M.B.A. program if:
  - a. a final grade of 'D' or 'F' is obtained in two courses, or
  - b. a final grade of 'C' or less is obtained in three courses, or
  - c. a final grade of 'C' or less is obtained in a repeated course.
4. The above clause notwithstanding:
  - a. to remain in the program, a candidate who obtains a final grade of 'C' or less in any course must normally repeat that course when next offered, and is permitted to repeat that course only once. In the case of an elective course, a replacement course approved by the Committee on Graduate Studies may be substituted for the failed course. Only one such repetition/replacement of an elective course shall be permitted in the candidate's graduate program.
  - b. in some instances, at the discretion of the course instructor, and with the approval of the Associate Dean, Academic Programs, Faculty of Business Administration, a student who has received a grade of 'C' or less in any course may be permitted to complete remedial work and may be re-examined. A student who passes after re-examination will have "passed on the basis of re-examination" recorded on their transcript, and the original grade will remain. A student who receives a grade of 'C' or less after re-examination will be required to withdraw from the program. The original grade will count as part of the total number of final grades of 'C' or less permitted before a student is required to withdraw as specified above. The pursuit of remedial work may not be offered more than twice to an individual student.

## 8.7 Courses

The schedule of courses of the curriculum and elective courses are as follows:

**Table I - Master of Business Administration Schedule of Required Courses**

8103 Statistical Applications in Management 8104 Organizations: Behaviour and Structure 8106 Marketing 8107 Managing Ethics and Responsibility 8108 Economics for Business 8109 Accounting for Management	8204 Human Resource Management or B8210 Labour Relations 8205 Information Systems 8206 Managerial Finance 8207 Operations Management 8208 Strategic Management 8209 Leadership and Interpersonal Skills for Managers

		9328	Nine courses completed including 8104
		9329	Nine courses completed

Note: All 9000-level courses require the prior completion of nine courses, including any specific prerequisites or co-requisites.

## 9 Regulations Governing the Degree of Master of Business Administration (Executive Option in Petroleum)

### Professor and Academic Director

T. Husain

The Degree of Master of Business Administration (Executive Option in Petroleum), or EMBA (Petroleum), is cohort-driven. These regulations must be read in conjunction with the General Regulations of the School of Graduate Studies of Memorial University of Newfoundland.

The EMBA (Petroleum) is a comprehensive program that provides an international understanding of the entire nature of the oil and gas industry value chain.

The EMBA (Petroleum) program is offered by full-time study and involves 17 courses (54 credit hours) over four semesters. It should be noted that the OGS 6099 Project is a six credit-hour course that is offered over the third and fourth semesters.

### Administration

1. The program shall be administered by an Academic Director, who shall be appointed by the Dean of Graduate Studies following discussion with the Dean of Business Administration and the Executive Director of the Oil and Gas Development Partnership (OGDP).
2. The Academic Director shall be the Chair of a Board of Studies for EMBA (Petroleum) for the purposes of administering the program. The Board of Studies will consist of three members from the Faculty of Business Administration, the Associate Dean (Academic Programs) of Business Administration and the Executive Director of the OGDP as ex officio members. Appointments of the members of the Board of Studies will be by the Dean of Business Administration following discussion with the Executive Director of the OGDP. Normally all appointments will be for a period of three years.

## 9.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission to the EMBA (Petroleum) program, an applicant shall normally hold at least a bachelor's degree, with a minimum 'B' standing, from an institution recognized by Memorial University of Newfoundland.
2. Applicants with substantial management experience in the oil and gas sector will receive preference during evaluation of applications. Normally, a minimum of five years experience in the oil and gas sector is required.
3. Applicants who did not complete a four-year bachelor's degree at a recognized university where English is the primary language of instruction must submit an acceptable score on the Test of English as a Foreign Language (TOEFL). Information regarding this test is available from the Educational Testing Service at [www.ets.org](http://www.ets.org).
4. Although all the criteria noted above are important, the Board of Studies will assess the applicant's entire profile when making its final decision. Significant strengths in one area may help compensate for weaknesses in another area.
5. In selecting candidates for any particular cohort, the Board of Studies will attempt to ensure that there is a breadth of managerial experience and practical backgrounds within the cohort as this is important to the students' learning environment. Student experience is expected to contribute to and enhance the learning experience for the entire cohort.

## 9.2 Deadlines for Application Submissions

1. Applications and all supporting documents must be received by June 15 from Canadian applicants. Application from international students should be complete at least four months before the proposed commencement date. Individuals submitting applications later than the above dates are not assured of consideration for admission to the cohort desired; their applications will be processed only if time and resources permit. Normally, the cohort will commence study during the Fall semester but the University reserves the right to commence a cohort during any semester.
2. The Board of Studies reserves the right to offer an EMBA (Petroleum) program during any period where there is deemed to be sufficient demand. Further, the Board of Studies reserves the right to restrict the size of any cohort of students admitted to the EMBA (Petroleum) program.

## 9.3 Procedure for Admission

1. Applications for admission to the EMBA (Petroleum) program must be made on the appropriate form to the School of Graduate Studies.
2. Application files are evaluated only when all required items have been received. The following documents must be submitted in support of the official application form:
  - a. Letter of appraisal from two work-related referees.
  - b. Two copies of the Employment Experience Information form.
  - c. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly to the School of Graduate Studies.
  - d. The official GMAT score report and TOEFL results, if required, are to be sent directly to the University by the applicable Testing Service.
3. Admission shall be by the Dean of the School of Graduate Studies on the recommendation of the Board of Studies. Upon notification of acceptance into the EMBA (Petroleum) program, applicants must give written notice to the School of Graduate Studies of their intention to register. Such notice must be received by the Office of the Dean within 30 days of notification of acceptance or three weeks prior to semester registration. In order to confirm admission, the admitted student will be required to submit a deposit with the notice. The amount of the deposit will be specified in the letter of admission and will reflect the current tuition for the program that will be determined on the basis of tuition plus an administrative fee for the program. In the event that the applicant decides not to enter the program (at any point in time after his or her application has been approved and the deposit received), this deposit will be considered to have been forfeited.

## 9.4 Programs of Study

1. The EMBA (Petroleum) program is a cohort-driven and structured so that students complete a 17 course, 54 credit-hour program of study. It should be noted that the OGS 6099 Project is a six credit-hour course that is offered over the third and fourth semesters. The program will normally be delivered over four academic terms, and the contact time per course will be 30 hours, recognizing the experience of the candidates and the extended time between classes which will allow the assignment of more course-related work to be completed outside of the classroom environment. In some instances the program may be offered over a shorter duration. The 17 course, 54 credit-hour program structure is outlined in **Table I - Master of Business Administration (Executive Option in Petroleum) Program of Study**.

**Table I - Master of Business Administration (Executive Option in Petroleum) Program of Study**

<b>Term 1</b> OGS 6601 Petroleum Exploration Appraisal and Development OGS 6812 International Legal Arrangements 8103 Statistical Applications in Management 8106 Marketing 8109 Accounting for Management	<b>Term 2</b> OGS 6811 Economics of Petroleum Exploration and Development OGS 6003 Risk Analysis in the Oil and Gas Industry 8104 Organizations: Behaviour and Structure 8206 Managerial Finance
<b>Term 3</b> 8205 Information Systems 8207 Operations Management OGS 6401 Petroleum Production, Processing and Transportation OGS 6411 Facilities, Feedstock and Products	<b>Term 4</b> OGS 6801 Social and Economics Dimensions of Policy and Planning 8204 Human Resource Management OGS 6201 Strategic Management in the Oil and Gas Industry
OGS 6099 Project	

## 9.5 Evaluation

1. The Board of Studies for the EMBA (Petroleum) program constitutes the examining body for all courses in this program and shall

assess the standing of every student in accordance with the requirements outlined in all the Clauses below.

2. Credit towards the EMBA (Petroleum) Degree will be granted only for those courses which have been approved as constituting part of the student's program of study and in which the candidate has obtained a mark of 65% or higher.
3. A candidate is required to withdraw from the EMBA (Petroleum) program if:
  - a. a final grade of 'D' or 'F' is obtained in two courses, or
  - b. a final grade of 'C' or less is obtained in three courses, or
  - c. a final grade of 'C' or less is obtained in a repeated course.
4. The above clause notwithstanding:
  - a. to remain in the program, a candidate who obtains a final grade of 'C' or less in any course must normally repeat that course when next offered, and is permitted to repeat that course only once.
  - b. in some instances, at the discretion of the course instructor, and with the approval of the Board of Studies, a student who has received a grade of 'C' or less in any course may be permitted to complete remedial work and may be re-examined. A student who passes after re-examination will have "passed on the basis of a re-examination" recorded on his/her transcript and the original grade will remain. A student who receives a grade of 'C' or less after re-examination will be required to withdraw from the program. The original grade will count as part of the total number of final grades of 'C' or less permitted before a student is required to withdraw as specified above. The pursuit of remedial work may not be offered more than twice to an individual student.

## 10 Regulations Governing the Degree of Master of Education

### Associate Professor and Dean

D. Dibbon

### Associate Professor and Associate Dean

T. Seifert

The Master of Education (M.Ed.) is offered in the following areas: Educational Leadership Studies, Curriculum, Teaching and Learning Studies, Counselling Psychology, Post-Secondary Studies and Information Technology.

In addition, a Master of Arts and Education (Education and Francophone Literatures and Cultures), jointly offered by the Faculty of Education and the Faculty of Arts, Department of French and Spanish, is available for candidates who wish to specialize in the study and teaching of French.

In the case of the following general program regulations and the specific program regulations, which govern all Master of Education Degree programs, Dean refers to the Dean of Graduate Studies, Dean of Education refers to the Office of the Dean, Faculty of Education, and Faculty refers to the Faculty of Education, through its various operating committees.

Students taking any of the Master of Education Degree programs are advised that a Bachelor of Education Degree is required for employment in the K - 12 system.

### 10.1 Qualifications for Admission

1. Admission to the Master of Education is limited and competitive. To be considered for admission to a graduate program in Education, an applicant shall:
  - a. have from a recognized institution, either (i) an undergraduate degree with at least second class standing, or (ii) an undergraduate degree and an average of at least 70% in the last 90 attempted undergraduate credit hours.
  - b. meet the requirements set forth in the specific program regulations.
2. Only in exceptional circumstances, and only on the recommendation of the Dean of Education, shall the Dean consider applicants who do not meet the requirements in 1.
3. Please refer to **Specific Programs** regulations for additional admission requirements.

### 10.2 Program of Study

1. Candidates for the Master of Education (Educational Leadership Studies, Curriculum, Teaching and Learning Studies) shall be required to complete a minimum of:
  - a. 18 credit hours plus a thesis; or
  - b. 24 credit hours plus an internship report, a project report or a paper folio; or
  - c. 30 credit hours on the comprehensive-course route.

Candidates for the Master of Education (Post-Secondary Studies) shall be required to complete a minimum of:

- a. 18 credit hours plus a thesis; or
- b. 24 credit hours plus an internship; or
- c. 30 credit hours on the comprehensive-course route.

Candidates for the Master of Education (Counselling Psychology) shall be required to complete a minimum of:

- a. 30 credit hours (which include an internship) plus a thesis; or
- b. 36 credit hours (which include an internship) on the comprehensive-course route.

Candidates for the Master of Education (Information Technology) shall be required to complete a minimum of:

- a. 18 credit hours plus a thesis; or
- b. 30 credit hours on the comprehensive-course route.

2. Candidates may apply for transfer of course credits. All course transfers require the approval of the Dean, on the recommendation of the Dean of Education, and are subject to General Regulation, **Program Requirements, Transfer of Course Credits** of the School of Graduate Studies.
3.
  - a. A candidate with full-time status may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intercession or summer session.
  - b. A candidate with part-time status may register for a maximum of 3 credit hours in any semester or session, excluding summer session, when 6 credit hours are permitted.

- c. Candidates may register for additional courses in a semester or session with the permission of the Office of the Associate Dean of Graduate Programs in Education.
4. Before submission of the proposal for thesis, project, internship, or paper folio, a Supervisory Committee shall be recommended by the Dean of Education, in consultation with the candidate, and approved by the Dean. The Supervisory Committee shall consist of the Supervisor and at least one other member.
- The function of the Supervisory Committee shall be to approve the proposal for the thesis, project, internship, or paper folio, and to exercise supervision in the conduct of the study on behalf of the Faculty, subject to the final approval of the Dean.

### 10.3 Period of Study

The period of the study for a graduate program shall not normally exceed six years beyond first registration. Completion of some program components may require full-time study on the University campus.

### 10.4 Evaluation

1. In order to continue as a candidate for the Master of Education Degree, a candidate who receives a final grade of 'C' in any program course must repeat that course and obtain a minimum grade of 'B'. In the case of an elective course a suitable replacement course, acceptable to the Faculty, may be substituted for the failed course. Only one such repetition/replacement shall be permitted on the candidate's graduate program. Should a grade of less than 'B' be obtained in the repeated course, replacement course, or any other program course, the candidate shall be required to withdraw from the program.
2. When the Faculty has determined, through consultation with the candidate, the instructors of graduate courses, and the program advisor or thesis Supervisor that the candidate's work has fallen below satisfactory level, it may request that the Dean of Education recommend to the Dean that the candidate's program be terminated.

### 10.5 Thesis

See School of Graduate Studies General Regulation, **Theses and Reports**.

### 10.6 Program Regulations

Every candidate in graduate studies shall comply with the School of Graduate Studies **General Regulations**, the Degree Regulations **Program of Study**, and the specific program regulations as outlined in **Specific Programs**.

### 10.7 Appeals and Waivers Procedures

Candidates are advised that appeals and waivers of any regulations governing the Degree of Master of Education are governed by School of Graduate Studies General Regulations **Provision For Waiver of Regulations and Appeal Procedures**.

### 10.8 Specific Programs

#### 10.8.1 Educational Leadership Studies

Educational Leadership Studies is designed to prepare candidates for leadership in Education.

##### 1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**,

- a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.
- b. a minimum of two years of teaching/leadership experience is recommended.

##### 2. Program Requirements

a. all students in the Master of Education Program (Educational Leadership Studies) must complete:

- 6100 Research Designs and Methods in Education
- 6204 Educational Administration: Theory and Practice
- 6205 Educational Policy: Theory and Practice and one of the following:
- 6 credit hours (thesis route) within closed electives as listed in e. below
- 9 credit hours (internship, paper folio, project, comprehensive course route) within closed electives as listed in e. below

b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):

- 6466 Qualitative Research Methods
- 6467 Quantitative Research Methods
- 6468 Critical Approaches to Educational Research
- 6469 Theoretical and Methodological Foundations of Action Research

c. students on the comprehensive-course route must complete 6290 Research and Development Seminar in Educational Leadership Studies. Normally students would be permitted to register for this course only after all other course requirements have been met, or during the student's last semester of studies.

d. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:

- students on the thesis route must complete a total of at least 18 credit hours
- students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option 6291 Internship in Educational Leadership Studies (6 credit hours), 6292 Project in Educational Leadership Studies (6 credit hours), or 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
- students on the comprehensive-course route must complete a total of at least 30 credit hours

e. Closed electives are those listed below:

- 6202 Social Context of Educational Leadership
- 6203 Leadership: Theory and Practice

6321 Supervisory Processes in Education  
 6330 Educational Finance  
 6335 Legal Foundations of Educational Administration  
 6410 Seminar on Philosophical Issues in Educational Policy and Leadership  
 6420 Ethical Issues and Perspectives in Educational Practice and Policy  
 6425 Comparative Perspectives in Public Education, Reform, and Leadership  
 6426 Computer Applications in Educational Administration  
 6427 School Community Partnerships  
 6440 Family-School Relations: Leadership and Policy Implications  
 6465 School Violence: Leadership and Policy Implications  
 6664 Seminar in School Improvement  
 6710 Issues in Development and Implementation of Special Education Policy and Practices

Courses must be appropriate to the program and chosen in consultation with the advisor.

### 10.8.2 Curriculum, Teaching and Learning Studies

The Master of Education in Curriculum, Teaching and Learning Studies provides opportunities for students to investigate pertinent issues in these interrelated areas from a variety of perspectives: philosophical, historical, social, cultural, cognitive, and technological. The conceptual bases of curriculum, teaching, and learning are explored and analysed along with related examples of historical and current policies and practices. The program encourages the development of broad-based insights into issues related to these areas through an emphasis on critical inquiry and reflective practice. It supports students in the development and enhancement of research capabilities and professional expertise and practice.

Students may choose between two program options in Curriculum, Teaching and Learning Studies:

#### Option One

Students may choose to specialize in one of a number of areas of study: Computers in Education, Language and Literacy Studies, Mathematics Education, Music Education, Science Education, Second Language Education, Social Justice Education, Social Studies Education, Special Education and Teacher-Librarianship.

#### Option Two

In consultation with a faculty advisor, students may choose to design a program speciality which addresses their research interests. Specialty foci within Curriculum, Teaching, and Learning Studies are numerous and may include technology and web-based education, arts education, rural and multi-age education. Students may alternatively select appropriate courses from other Master of Education program offerings to develop a program to meet their learning goals. Students interested in this option are strongly encouraged to explore and to focus their research and study interests and to discuss these interests with a faculty advisor.

#### 1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**,

- a. students must have completed a range and number of courses in Education deemed appropriate by the Faculty and Dean of Education.
- b. a minimum of two years of teaching or related experience is recommended.
- c. for a specialization in special education, a completed Bachelor of Special Education Degree or equivalent is required and enrolment will be limited to applicants articulating a research focus for which appropriate thesis supervision is available.

#### 2. Program Requirements

- a. all students in the Master of Education Program (Curriculum, Teaching and Learning Studies) shall be required to complete:
  - 6100 Research Designs and Methods in Education
  - 6300 Teaching and Learning
  - 6602 Curriculum Studies
- b. students on the thesis route must complete at least one of the research courses listed below (6100 is prerequisite):
  - 6466 Qualitative Research Methods
  - 6467 Quantitative Research Methods
  - 6468 Critical Approaches to Educational Research
  - 6469 Theoretical and Methodological Foundations of Action Research
  - 6909 Narrative Approaches to Teaching, Learning and Research
  - and at least 2 courses from any university graduate offering provided that those chosen are appropriate to the student's program
- c. students choosing Option One on the internship, paper folio, project route, and comprehensive-course route must complete at least 2 courses within one particular speciality area from the list in **Core speciality courses in the study of curriculum, teaching and learning areas** below.
- d. students choosing Option Two must choose courses that have been designated through consultation with faculty advisor during the first semester of studies in this program.
- e. students choosing the Special Education specialization within Curriculum, Teaching and Learning Studies must complete a thesis and at least two of the required Special Education speciality courses.
- f. students on the comprehensive-course route must complete one of the following courses: E6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies or E6394 Biographical Explorations of Teaching and Learning or E6913 Practitioner Inquiry/Participatory Action Research. Normally students would be permitted to register for one of these courses only after all other course requirements have been met, or during the student's last semester of studies.
- g. to meet total credit hour requirements students may choose electives from any university graduate offering provided that those chosen are appropriate to the student's program:
  - students on the thesis route must complete a total of at least 18 credit hours
  - students on the internship, paper folio, or project route must complete a total of at least 24 credit hours and the appropriate course option 6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours), 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours), or 6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)

- students on the comprehensive-course route must complete a total of at least 30 credit hours

h. **Core speciality courses in the study of curriculum, teaching and learning areas:**

**Computers in Education**

6610 Research on Computers in the Curriculum  
6620 Issues and Trends in Educational Computing

**Language and Literacy Studies**

6106 Reading and Teaching Popular Culture  
6108 Literacy and Language Education  
6641 Writing in the Primary, Elementary and Secondary Schools  
6642 Developmental Reading (K-8)  
6643 Contemporary Issues in Secondary English  
6645 Literature for Children and Adolescents  
6647 Diagnosis and Remediation of Reading and Writing Difficulties  
6649 Exploring Multiple Literacies  
6693 Literacy for the Young Child in Home and School

**Mathematics Education**

6630 Critical Issues in Mathematics Education  
6634 Teaching and Learning to Solve Mathematics Problems  
6639 Technology and the Teaching and Learning of Mathematics

**Music Education**

6502 Contexts of Music Education  
6503 Teaching Music from the Podium  
6504 Musicianship, Pedagogy, and Learning

**Science Education**

6653 Contemporary Issues in Science Education I  
6655 The Nature of Science and Science Education  
6658 Teaching and Learning Scientific Concepts, Laws, and Theories

**Second Language Education**

6668 Current Issues in Second Language Education  
6669 Graduate Seminar in Second Language Teaching and Learning  
6673 Second Language Teaching, Learning and Curriculum

**Social Justice Education**

6105 Social and Cultural Difference and Education  
6106 Reading and Teaching Popular Culture  
6440 Family School Relations: Leadership and Policy Implications  
6465 School Violence: Leadership and Policy Implications  
6468 Critical Approaches to Educational Research  
6909 Narrative Approaches to Teaching, Learning and Research  
6913 Practitioner Inquiry/Participatory Action Research (prereq. 6469)

**Social Studies Education**

6670 Teaching and Learning Social Studies  
6671 Research in Social Studies Education  
6672 Issues and Trends in Social Studies

**Special Education**

6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents  
6714 Principles and Practices in Exceptionality  
6755 Nature and Assessment of Learning Disabilities

**Teacher-Librarianship**

6662 Seminar in Teacher-Librarianship  
6664 Seminar on School Improvement

Additional courses in the speciality areas are available.

### 10.8.3 Counselling Psychology

The mission of the program in Counselling Psychology is to prepare highly knowledgeable, skilled, dedicated, and ethical professional practitioners, who will endeavour to enhance human potential throughout the life span and who can effectively practice within a variety of settings.

The Counselling Psychology faculty promotes counselling as an effective, viable means of assisting individuals throughout the life span. The counselling psychologist, regardless of his or her theoretical stance or work setting, functions as a change agent who is sensitive to and knowledgeable about the range of human development reflected in individual differences and cultural and linguistic diversity. Effective and positive change is brought about by assisting clients to: examine and modify their behaviour for more effective living; cope with, adjust to, or otherwise negotiate the environments affecting their psychosocial well-being; and effect change in the larger society.

The practice of Counselling Psychology is based on theory and research, an understanding of ethical practices, and a set of professional and interpersonal skills. It is essential that graduate students study a variety of conceptual frameworks and research findings as preparation for collaborative work with other helping professionals, paraprofessionals, and a variety of self-help groups.

The Counselling Psychology faculty, while representing a range of views, agree that the uniqueness of the individual and his or her personal strengths must be acknowledged and respected. To fully explore professional issues and personal values, a trusting and open atmosphere must be present.

Individuals from a wide variety of personal, social, and educational backgrounds are encouraged to apply to the Counselling Psychology program. The program provides a broad-based sequence of studies and supervised experiences that will prepare graduate students to be knowledgeable and skilled practitioners who can function in a variety of settings. By the time they have completed this program, students will have acquired knowledge and competencies in the following general areas: individual and group counselling theory and techniques, legal and ethical aspects of counselling, human development and learning, social, cultural, and linguistic diversity, career education and counselling, program development and implementation, measurement and appraisal, research and program evaluation, and application of current technology service delivery in rural areas.

### 1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**, students:

- a. must have completed Education 3210, Introduction to Counselling.
- b. should have completed at least one undergraduate course on each of the following topics: statistics (Education 2900), assessment (Education 3280, 3290, 3950, 3955 or 4950), introduction to career education (Education 3211), introduction to exceptionality (Education 3220 or 3230). (Or their equivalent)  
*Note: Many of these courses are prerequisites to specific graduate courses and must be completed before taking those courses.*
- c. should normally have at least one year of teaching (or related work) experience.
- d. must submit a resume that contains a concise rationale for the application (500 words or less) and three letters of recommendation (preferably one from each of the following: previous university instructors, supervisors, or employers).
- e. should note admission is selective and controlled by an admission committee of faculty members involved in the program. An interview may be required if deemed necessary.
- f. should note the Graduate Record Examination may be required.

### 2. Program Requirements

- a. all students in the Master of Education (Counselling Psychology) program shall be required to complete:
  - 6100 Research Designs and Methods in Education (Prerequisite: Education 2900)
  - 6702 Counselling: Theory and Practice (Prerequisite: Education 3210)
  - 6706 Career Education and Career Counselling (Prerequisite: Education 3211)
  - 6708 Group Counselling: Theory and Practice (Prerequisite: Education 6702)
  - 6700 Ethical and Legal Issues in Counselling
  - 6720 Internship in Counselling Psychology (Prerequisite: Normally completion of all courses) (9 credit hours)
- b. Students on the thesis route must complete the core courses listed above (24 credit hours) as well as a minimum of 6 credit hours from the closed electives indicated below for a total of 30 credit hours.
- c. Students on the comprehensive-course route must complete the core courses listed above (24 credit hours) as well as a minimum of 6 credit hours from the closed electives and 6 credit hours from any university graduate offering provided that those chosen are appropriate to the student's program for a total of 36 credit hours.
- d. All students in the Counselling Psychology program must complete 6720. The Internship may be fulfilled full-time or part-time and must comprise 600 clock hours with 240 hours of direct service with clients. It cannot be completed as part of your regular employment. It is strongly recommended that students take no other course during the full-time internship.
- e. Closed electives are those listed below:
  - 6703 Personal and Professional Development Group
  - 6705 Nature and Development of School Counselling Services
  - 6707 Assessment for Counsellors
  - 6709 Assessment of Intelligence and Learning Skills (Prerequisite: 3600 or its graduate equivalent 6707. Normally, students in Counselling Psychology will not enroll in this course until the latter part of their program). Candidates intending to pursue a career in the K-12 school system in Newfoundland and Labrador are urged to take this course and the prerequisite.
  - 6710 Issues in Development and Implementation of Special Education Policy and Practices
  - 6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents
  - 6713 Educational Applications of Contemporary Cognitive Psychology
  - 6714 Principles and Practices in Exceptionality
  - 6716 Working with Families and Parents
  - 6717 Counselling Adolescents
  - 6718 Elementary School Counselling
  - 6719 Cultural Issues in Counselling
  - 6802 Adult Learning and Development

- Notes: 1. *Student membership in the Canadian Counselling Association (CCA) or other appropriate professional organizations is strongly recommended for all students in the program.*
2. *Students who plan to work in the school system should be aware of the Department of Education regulations to be eligible to work as a school counsellor.*
3. *Students who plan to become registered psychologists in Newfoundland and Labrador should review the requirements of the Newfoundland Board of Examiners in Psychology.*

## 10.8.4 Post-Secondary Studies

The graduate programs in Post-Secondary Studies are designed to prepare candidates to function in a variety of roles in informal and formal post-secondary learning environments (including academic, technical, professional, adult education, health professional education, and student services/development). These programs facilitate a study of the post-secondary educational systems through an examination of their foundations, directions, organization and administration; and through curriculum and instructional development options for occupational preparation and adult education.

### 1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**,

- a. candidates must have completed an undergraduate course in statistics (Education 2900), adult learning (Education 2801), and post-secondary education (Education 2720), or have accumulated the equivalent experiences in each of the above three areas as approved by the Head of the Academic Unit;
- b. two years of successful experience in working with adult learners is recommended;
- c. and for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) program, candidates must have appropriate academic qualifications and work experience in a health-related field.

### 2. Program Requirements (M.Ed.)

- a. Candidates for the Master of Education (Post-Secondary Studies) are required to complete courses that form the program core.
  - i. 6100 Research Designs and Methods in Education
  - ii. 6801 Foundations of Post-Secondary Programs
  - iii. 6802 Adult Learning and Development
  - iv. 6803 Research in Post-Secondary Education

- v. and not fewer than 6 credit hours from closed electives in g. below.
- b. Students holding the Graduate Diploma in Post-Secondary Studies (Health Professional Education) and accepted in the Master of Education (Post-Secondary Studies) will complete up to 12 fewer credit hours dependent upon the chosen program route and the completion date of the Graduate Diploma.
- c. Students on the comprehensive-course route must complete 6890 Research and Development Seminar in Post-Secondary Studies.
- d. Students on the internship route must complete 6891 Internship in Post-Secondary Studies (6 credit hours).
- e. Normally, students will be permitted to register for 6890 and 6891 only after all other course requirements have been met.
- f. To meet total credit hour requirements students may choose courses from other graduate offerings within the Faculty, the University, or other universities provided the courses chosen are appropriate to the student's program. Students on the thesis route must complete a total of at least 18 credit hours; and those on the internship or comprehensive-course route a total of at least 30 credit hours.
- g. Closed electives are those listed below:
  - 6804 Leadership and Human Resource Development in Post-Secondary Education
  - 6805 Advanced Human Resource Communications
  - 6806 Interprofessional Education in the Health Professions
  - 6807 Economics and Finance of Post-Secondary Education
  - 6822 Foundations of Instructional Design in Post-Secondary Education
  - 6823 Principles of Program Design and Development
  - 6832 Issues and Trends in the Administration of Post-Secondary Education
  - 6841 Student Development Theory, Services and Programs in Post-Secondary Education
  - 6940 Administration of Student Services in Post-Secondary Education

### 3. Program Requirements for Graduate Diploma in Post-Secondary Studies (Health Professional Education)

The Graduate Diploma in post-secondary studies, specialization in health professional education, which was created in collaboration with the Centre for Collaborative Health Professional Education, is designed to enhance health professionals' abilities as educators and leaders in educational program design, development, evaluation and administration. The Graduate Diploma is intended for educators and educational leaders of formal and informal post-secondary health professional education programs.

Participants will engage in an in-depth study of the structure and organization of the post-secondary education system, theories and philosophies of adult learning and development; and through elective courses pursue studies of program development models, instructional design frameworks, evaluation and assessment techniques, teaching methods, and research design principles in post-secondary teaching and learning. Opportunities will exist for the guided study of these topics as they relate to health professional education.

- a. Candidates for the Graduate Diploma in Post-Secondary Studies (Health Professional Education) are required to complete courses that form the program core.
  - i. 6801 Foundations of Post-Secondary Programs
  - ii. 6802 Adult Learning and Development
  - iii. 6806 Interprofessional Education in the Health Professions
  - iv. and not fewer than 3 credit hours from closed electives in 2. g. above or from:
    - 6100 Research Designs and Methods in Education
    - 6803 Research in Post-Secondary Education
- b. Students are encouraged to relate their assignments in these courses to health professional education.
- c. Students enrolled in the Graduate Diploma program may request transfer to the Master of Education (Post-Secondary Studies). Courses for both the Graduate Diploma and the Degree must be appropriate to the program and chosen in consultation with the student's advisor.

### 10.8.5 Information Technology

The graduate program in Information Technology is offered in partnership with Cape Breton University (CBU). It is designed to facilitate the educational use of information technology in a wide variety of settings. The program will be of interest to educators at all levels including K-12 teachers, school administrators, those in the post-secondary system, business and industry, as well as those in most other adult learning situations.

Information technology in this Master of Education program encompasses computer, communications, networking and multi-media applications. The overall intent of the program is to:

- provide educators with skill sets and pedagogical expertise that will enable them to address computer and related information technology in a teaching/learning situation;
- develop potential information technology leaders for the educational system;
- develop instructional designers, for a variety of educational settings, who are able to combine information technology with learning theory to enhance curriculum development and delivery;
- provide a basis for the continued professional development of educators in the area of information technology;
- develop an awareness of the applications of information technology in a wide variety of educational contexts; and
- develop research expertise and potential in the use and application of information technology for teaching and learning purposes.

Candidates for the program will have attained, prior to acceptance, some fundamental knowledge and skills with respect to information technology through pre-requisite experiences, and have attained a recognized undergraduate degree in an appropriate discipline with at least a second class standing (see specific regulations for details). The program components are designed to enable candidates to build on their prior experience through the development of pedagogical links and information technology applications. It is intended that the program be offered primarily as a part-time program through distance delivered courses, with other delivery formats to be considered/ utilised where feasible. Access to specific computer hardware, software, and the Internet is required and will be the responsibility of each candidate.

A steering committee comprised of three members from each of the Faculty of Education at Memorial University of Newfoundland and the Institute for Education at CBU is responsible to the Associate Dean of Graduate Programs and Research, Faculty of Education, for selected aspects of the program. The latter include assessing student applications, recommending approval of instructors who are not regular faculty members at either CBU or Memorial University of Newfoundland, and recommending course or program changes. This committee is to be co-chaired by the Associate Dean of Graduate Programs and Research, Faculty of Education, Memorial University of

Newfoundland and the Director of the Institute for Education at CBU, or their designate(s).

CBU courses offered as part of this program are indicated by the prefix "CBU EDU" followed by the specific course number.

### 1. Admission Requirements

In addition to meeting the requirements in the School of Graduate Studies **General Regulations**, Faculty of Education, Memorial University of Newfoundland, candidates must have successfully completed:

- a. one of a diploma or certificate in information technology from an accredited institution; CBU EDU 530; Memorial University of Newfoundland E2751 and E3751; or equivalent as determined by the program steering committee.

### 2. Program Requirements

- a. all candidates for the Master of Education (Information Technology) must complete E6100 Research Designs and Methods in Education.
- b. candidates on the thesis route must complete:
  - three credit hours from:
    - 6610 Research on Computers in the Curriculum
    - 6615 Educational Software Prototyping and Evaluation
    - 6620 Issues and Trends in Educational Computing
  - nine credit hours selected from the core elective CBU courses approved for this program:
    - CBU EDU 531 Assessment of Software and Information Technology Applications for Education
    - CBU EDU 533 Integration of Instructional Design and Information Technology
    - CBU EDU 535 Applications of Learning Theory in Educational Multi-media Design
    - CBU EDU 537 Designing Web-based Learning
    - CBU EDU 539 Technology Planning for Educational Environments
    - CBU EDU 541 Information Management for Educational Environments
  - three credit hours from: 6822, 6823, 6802, E6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate's program and approved by the program steering committee.
- c. candidates on the comprehensive-course route must complete:
  - i. six credit hours selected from E6610, E6615, E6620 listed in 2. b. above
  - ii. twelve credit hours selected from CBU EDU 531, EDU 533, EDU 535, EDU 537, EDU 539, EDU 541 listed in 2. b. above
  - iii. E6590 Research and Development Seminar in Information Technology in Education
  - iv. three credit hours from E6822, E6823, E6802, E6426, or from other Memorial University of Newfoundland, Faculty of Education graduate course offerings as deemed appropriate for each candidate's program and approved by the program steering committee
  - v. additional credit hours appropriate to a candidate's program, and approved by the program steering committee, to be chosen from graduate course offerings at Memorial University of Newfoundland, CBU, or any other university to complete the required 30 credit hours for the comprehensive-course route
- d. normally, candidates will be permitted to register for E6590 only after all other course requirements have been met.
- e. candidates who have successfully completed the CBU graduate level Certificate in Education (Technology) will be given advanced standing credit for the 9 CBU EDU course credit requirements for the thesis route or 12 CBU EDU course credit requirements for the comprehensive course-route on this program.
- f. candidates who have successfully completed the former CBU EDU 534 and/or EDU 543 with at least a CBU grade of B (70%) toward the CBU graduate level Certificate in Education (Technology) prior to September 2000, will receive up to 12 advanced standing credit hours appropriate to their Degree option (EDU 534 will be considered equivalent to EDU 531 and EDU 533, and EDU 543 equivalent to EDU 535 and EDU 537).
- g. thesis-route candidates will be subject to **Theses and Reports** of the School of Graduate Studies, Memorial University of Newfoundland, supervised by a faculty member at Memorial University of Newfoundland, and where feasible co-supervised by a CBU faculty member.

## 10.9 Courses

A selection of the following graduate courses shall be offered to meet the requirements of candidates, as far as the resources of the Faculty allow:

- 6100 Research Designs and Methods in Education
- 6105 Social and Cultural Difference and Education
- 6106 Reading and Teaching Popular Culture
- 6107 Arts Education: Creativity in the Classroom
- 6108 Literacy and Language Education
- 6202 Social Context of Educational Leadership
- 6203 Leadership: Theory and Practice
- 6204 Educational Administration: Theory and Practice
- 6205 Educational Policy: Theory and Practice
- 6290 Research and Development Seminar in Educational Leadership Studies
- 6291 Internship in Educational Leadership Studies (6 credit hours)
- 6292 Project in Educational Leadership Studies (6 credit hours)
- 6293 Paper Folio in Educational Leadership Studies (6 credit hours)
- 6300 Teaching and Learning
- 6321 Supervisory Processes in Education
- 6330 Educational Finance
- 6335 Legal Foundations of Educational Administration
- 6390 Research and Development Seminar in Curriculum, Teaching and Learning Studies
- 6391 Internship in Curriculum, Teaching and Learning Studies (6 credit hours)
- 6392 Project in Curriculum, Teaching and Learning Studies (6 credit hours)
- 6393 Paper Folio in Curriculum, Teaching and Learning Studies (6 credit hours)
- 6394 Biographical Explorations of Teaching and Learning
- 6410 Seminar on Philosophical Issues in Educational Policy and Leadership
- 6420 Ethical Issues and Perspectives in Educational Practice and Policy

6425 Comparative Perspectives in Public Education, Reform, and Leadership  
 6426 Computer Applications in Educational Administration  
 6427 School Community Partnerships  
 6440 Family-School Relations: Leadership and Policy Implications  
 6465 School Violence: Leadership and Policy Implications  
 6466 Qualitative Research Methods  
 6467 Quantitative Research Methods  
 6468 Critical Approaches to Educational Research  
 6469 Theoretical and Methodological Foundations of Action Research  
 6502 Contexts of Music Education  
 6503 Teaching Music from the Podium  
 6504 Musicianship, Pedagogy, and Learning  
 6590 Research and Development Seminar in Information Technology in Education  
 6600 Learning and Motivation  
 6602 Curriculum Studies  
 6603 Place, Ecology and Education  
 6610 Research on Computers in the Curriculum (Prerequisite: 6620)  
 6615 Educational Software Prototyping and Evaluation  
 6620 Issues and Trends in Educational Computing  
 6630 Critical Issues in Mathematics Education  
 6632 Current Research in Teaching and Learning of Elementary School Mathematics (Prerequisite: 6630)  
 6634 Teaching and Learning to Solve Mathematics Problems  
 6635 Teaching and Learning Geometry  
 6636 Teaching and Learning the Concept of Number and Operations  
 6639 Technology and the Teaching and Learning of Mathematics  
 6641 Writing in the Primary, Elementary and Secondary Schools  
 6642 Developmental Reading (K-8)  
 6643 Contemporary Issues in Secondary English  
 6644 Drama in the Secondary School  
 6645 Literature for Children and Adolescents  
 6646 Literature in the Secondary School  
 6647 Diagnosis and Remediation of Reading and Writing Difficulties  
 6649 Exploring Multiple Literacies  
 6653 Contemporary Issues in Science Education I  
 6655 The Nature of Science and Science Education  
 6658 Teaching and Learning Scientific Concepts, Laws, and Theories  
 6660 Information Technology  
 6661 Applications of Media in Education  
 6662 Research Seminar in Teacher-Librarianship  
 6663 The Organization of Learning Resources  
 6664 Seminar in School Improvement  
 6668 Current Issues in Second Language Education  
 6669 Graduate Seminar in Second Language Teaching and Learning  
 6670 Teaching and Learning Social Studies  
 6671 Research in Social Studies Education  
 6672 Issues and Trends in Social Studies  
 6673 Second Language Teaching, Learning and Curriculum (*credit may be obtained for only one of Education 6673, the former 6665 or 6667*)  
 6675 Current Issues in Rural Education  
 6693 Literacy for the Young Child in Home and School  
 6700 Ethical and Legal Issues in Counselling  
 6701 Issues and Methodologies in Learning and Developmental Research  
 6702 Counselling: Theory and Practice  
 6703 Personal and Professional Development Group (non-credit)  
 6705 Nature and Development of School Counselling Services  
 6706 Career Education and Career Counselling  
 6707 Assessment for Counsellors  
 6708 Group Counselling: Theory and Practice  
 6709 Assessment of Intelligence and Learning Skills  
 6710 Issues in Development and Implementation of Special Education Policy and Practices  
 6711 Behaviour Modification in the Educational Setting  
 6712 The Nature and Assessment of Behaviour Disorders in Children and Adolescents  
 6713 Educational Applications of Contemporary Cognitive Psychology  
 6714 Principles and Practices in Exceptionality  
 6715 The Theory and Practice of Peer Helping Programs  
 6716 Working with Families and Parents  
 6717 Counselling Adolescents  
 6718 Elementary School Counselling  
 6719 Cultural Issues in Counselling  
 6720 Internship in Counselling Psychology (9 credit hours)  
 6755 Nature and Assessment of Learning Disabilities  
 6801 Foundations of Post-Secondary Programs  
 6802 Adult Learning and Development  
 6803 Research in Post-Secondary Education  
 6804 Leadership and Human Resource Development in Post-Secondary Education  
 6805 Advanced Human Resource Communications  
 6806 Interprofessional Education in the Health Professions  
 6807 Economics and Finance of Post-Secondary Education  
 6822 Foundations of Instructional Design in Post-Secondary Education  
 6823 Principles of Program Design and Development  
 6831 Organization and Administration of Student Services for the Adult Learner  
 6832 Issues and Trends in the Administration of Post-Secondary Education

6841 Student Development Theory, Services and Programs in Post-Secondary Education  
 6890 Research and Development Seminar in Post-Secondary Studies  
 6891 Internship in Post-Secondary Studies (6 credit hours)  
 6900-6910 Special Topics (excluding 6909)  
 6909 Narrative Approaches to Teaching, Learning and Research  
 6911 Multiage Education: An Introduction  
 6912-6950 Special Topics  
 6913 Practitioner Inquiry/Participatory Action Research (Prerequisite: 6469 Theoretical and Methodological Foundations of Action Research)  
 6940 Administration of Student Services in Post-Secondary Education

## 11 Regulations Governing the Degree of Master of Employment Relations

### Professor and Director

T. Brown

The Master of Employment Relations (M.E.R.) is a multi-disciplinary program providing advanced level study of all aspects of the employment relationship.

The M.E.R. program is offered by full-time or part-time study and involves 33 credit hours of course work, including a major supervised paper. Candidates registered on a full-time basis will normally complete the program in one academic year.

The following regulations must be read in conjunction with the **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland.

### 11.1 Administration

1. The program shall be administered by a Director, who shall be appointed by the Dean of Graduate Studies on the recommendation of the Deans of Arts and Business Administration. In making this recommendation, the Deans of Arts and Business Administration shall consult with the employment relations community both within and outside the University.
2. The Director shall be responsible to a Graduate Committee in Employment Relations (GCER) for the purposes of administering the program. The GCER shall consist of five members appointed by the Dean of Graduate Studies on the recommendation of the Director. The GCER will include the Director, who shall Chair the committee, and two faculty members from each of the Faculties of Arts and Business Administration.
3. An Advisory Board in Employment Relations (ABER) shall be established for the purposes of consulting with and obtaining feedback from the employment relations community. The ABER will consist of a broad cross-section of members from the employment relations community both within and outside the University who shall be appointed by the Dean of Graduate Studies on the recommendation of the Director.

### 11.2 Qualifications for Admission

1. Admission is limited and competitive.
2. To be considered for admission to the M.E.R. program, an applicant shall have:
  - a. An undergraduate degree, with a minimum B standing, from an institution recognized by Senate; and
  - b. An undergraduate course in organizational behaviour and microeconomics, from an institution recognized by Senate, with a minimum B standing in each course.
3. In exceptional cases, applicants who have not completed an undergraduate degree, but who meet all other requirements, may be considered for admission. Preference will be given to those who have a minimum of 10 years of full-time professional experience, including demonstrated success in employment relations, and who have successfully completed substantial university course work including several courses at an advanced undergraduate level from an institution recognized by Senate. Applicants without an undergraduate degree must have completed one or more undergraduate courses in organizational behavioural and microeconomics, from an institution recognized by Senate, with a minimum B standing in each course. Any applicants who do not meet normal admission requirements, may also be required to successfully complete the GMAT or the GRE with an acceptable score and/or additional undergraduate courses before being considered for admission.
4. Applicants are strongly encouraged to complete an introductory course in statistics prior to admission.

### 11.3 Deadlines for Applications

1. Applicants seeking full-time enrolment will normally only be admitted to the program in the Fall (September) semester.
2. Applications must be postmarked no later than February 15 for applicants wishing to enter full-time or part-time studies in the Fall (September) semester.
3. Applications must be postmarked not later than August 15 for applicants wishing to enter part-time studies in the Winter (January) semester.
4. Individuals submitting applications later than the above dates are not assured of consideration for admission to the program in the semester desired; their applications will be processed only if time and resources permit.

### 11.4 Procedure for Admission

1. Applications for admission to the M.E.R. program must be made on the appropriate form and submitted to the School of Graduate Studies.
2. The following documents must be submitted in support of the official application form:
  - a. Letter of appraisal from three referees, at least one of whom is capable of appraising the applicant's academic potential as a graduate student, and at least one of whom is capable of appraising the applicant's professional experience and/or actual or likely success in a career in employment relations.
  - b. Two copies of the M.E.R. Employment Experience Information Form.
  - c. Two official transcripts from each university or other post-secondary institution previously attended, to be sent directly by its Registrar (or equivalent officer) to the School of Graduate Studies. If not recorded on the transcript, official evidence of

completion of undergraduate degree must also be submitted.

- Application files are normally evaluated after the deadline dates for application noted above and only when all required documentation has been received.
- Admission shall be by the Dean of Graduate Studies on the recommendation of the GCER. Upon notification from the Dean of the School of Graduate Studies of acceptance into the M.E.R. program, applicants must give written notice to the School of Graduate Studies of their intention to register.

## 11.5 Program of Study

- The M.E.R. program consists of 33 credit hours of course work as specified in **Table I**. These include 27 credit hours of compulsory courses and 6 credit hours of elective courses. The compulsory courses are comprised of 18 credit hours of core courses specified in **Table II** and 9 credit hours for a research seminar.
- The compulsory core courses introduce students to the three main areas of study in the program: labour-management relations; human resources management; and labour market and social policy analysis.
- Electives allow students to specialize in one or more of the three main areas of study. Electives must be chosen from the list of approved electives specified in **Table III**. Other courses may be approved and added to **Table III** from time to time by the GCER.
- Candidates are responsible for fulfilling all pre-requisites and may require special permission from the Department offering an elective to enrol in the course.
- The Research Seminar in Employment Relations provides students with both quantitative and qualitative research skills and requires the identification of a research problem, the development and execution of a methodology appropriate to addressing the problem, analysis of results, and completion of final report. The Research Seminar involves 3 credit hours of course work in each of the Fall, Winter and Spring semesters.
- Candidates enrolled in Research Seminar in Employment Relations will normally have completed an introductory course in statistics. If candidates' records suggest a deficiency in statistics, the GCER reserves the right to require that they complete a foundation course in statistics as part of, and to be completed during, their program.
- The prerequisites for EMRE 6030 are EMRE 6010 and EMRE 6020. In addition, students will normally complete six M.E.R. courses before registering for EMRE 6030. There are no prerequisites for EMRE 6010 and EMRE 6020 but students are advised to take these courses late in their programs, just before taking EMRE 6030. For the core courses, the prerequisite for BUSI 9329 is BUSI 8210. For the remaining core courses, there are no prerequisites. For the elective courses, Departmental regulations that specify particular courses as prerequisites will apply but the Departmental requirement to have completed a number of courses will not apply.
- A waiver of a core course may be granted by the Dean of Graduate Studies on the recommendation of the GCER if the candidate can demonstrate that the material in the course has been substantially covered by other courses taken at this or another recognized university. In such cases, the course must be replaced by another course offered by Memorial University of Newfoundland in consultation with the candidate, and approved by the GCER. The maximum number of core courses that can be waived is 3 and all replacement courses must be taken during the candidate's period of enrollment in the program.
- Each student's program of study must be approved by the GCER. The GCER reserves the right to restrict candidates from taking particular courses if it is deemed that those courses do not add sufficient value beyond courses that the candidate has completed at the undergraduate level.

## 11.6 Evaluation

- Candidates for the M.E.R. Degree must obtain a grade of B or better in all program courses.
- Candidates who receive a grade of less than B in a program course will be permitted to remain in the program, provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the GCER, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

## 11.7 Courses

The schedule of courses for the M.E.R. program is as follows:

**Table I - Master of Employment Relations Schedule of Courses**

<b>Term I (Fall)</b> Three core courses from <b>Table II</b> One elective from <b>Table III</b> Employment Relations 6010 Research Seminar in Employment Relations I	<b>Term II (Winter)</b> Three core courses from <b>Table II</b> One elective from <b>Table III</b> Employment Relations 6020 Research Seminar in Employment Relations II
<b>Term III (Spring)</b> Employment Relations 6030 Research Seminar in Employment Relations III	

**Table II - Master of Employment Relations Core Courses**

Business 8204 Human Resource Management Business 8210 Labour Relations Business 9329 Labour Law	Economics 6030 Labour Market Economics History 6075 Advanced Studies in Labour and Working-Class History Sociology 6360 Sociology of Work
---	---

Table III - Master of Employment Relations Elective Courses

<p><b>Labour-Management Relations</b> Business 9013 Collective Agreement Administration and Arbitration</p> <p><b>Human Resource Management</b> Business 8104 Organizations: Behaviour and Structure Business 8208 Strategic Management Business 8209 Management Skills Business 9020 International Human Resource Management Business 9311 Seminar in Human Resource Management [Prerequisite: 8204] Business 9317 Current Topics in Management Business 9328 Change Management Education 6203 Leadership: Theory and Practice Education 6600 Learning and Motivation Education 6706 Career Education and Career Counselling Education 6802 Adult Learning and Development Psychology 6401 Attitudes and Social Cognition Psychology 6402 Group Processes</p>	<p><b>Labour Market and Social Policy Analysis</b> Business 8108 Economics for Business Business 9306 International Strategic Management Economics 6000 Advanced Micro-economic Theory Economics 6001 Advanced Macro-economic Theory History 6000 Advanced Studies in Newfoundland History History 6070 Advanced Studies in Social History History 6090 Advanced Studies in Women's History History 6120 Advanced Studies in Economic and Business History Political Science 6700 Canadian Politics Political Science 6770 Canadian Provincial Politics Sociology 6320 Gender and Society Sociology 6370 Feminist Theory and Methods Social Work 6230 Seminar in Community Development Women's Studies 6000 Feminist Theory</p>
--	---

Note: Students may require special permission from the graduate program prior to enrolling in a course.

## 12 Regulations Governing the Degree of Master of Engineering

### Professor and Dean, Pro Tempore

J. Quaicoe

### Professor and Associate Dean (Graduate Studies)

L. Lye

The degree of Master of Engineering (M.Eng.) is a research-focused degree and may be obtained either through full-time or part-time studies. The M.Eng. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

### 12.1 Qualifications for Admission

To be considered for admission, an applicant shall meet the requirements set out in General Regulation, **Qualification for Admission**, or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.

Admission to the M.Eng. program is limited and competitive. All applicants must meet the minimum qualifications set out in the above paragraph. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's undergraduate academic program and the availability of supervisors in the area of the applicant's interest.

Normally applicants will be considered in January for admission to the following September. In special cases applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

### 12.2 Program of Study and Research

- Students enrolled in the Master of Engineering program will work in one of the following areas: Civil Engineering; Computer Engineering; Electrical Engineering; Mechanical Engineering; Ocean and Naval Architectural Engineering; and Oil and Gas Engineering.
- A program shall normally consist of:
  - a thesis related to the area of study
  - a minimum of 15 credit hours, at least 12 credit hours of which must be from graduate courses. Three credit hours may be taken from undergraduate courses approved for the student's program by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science
  - Seminar course 9100
  - such other courses as may be required in an individual's program.

For students enrolled in the Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering disciplines, or Oil and Gas Engineering, a program shall normally include at least 9 credit hours from courses chosen from the core courses listed below.

- The following are core courses:

ENG. 9002, 9015, 9110, 9113, 9114, 9115, 9210, 9411, 9420, 9501, 9505, 9516, 9520, 9550, 9609, 9627, 9816, 9821, 9826, 9827, 9834, 9847, 9861, 9865, 9867, 9871, 9874, 9876, 9901, 9902, 9940.

- The thesis is to contain the results of a systematic investigation which has been conducted by the candidate under the direction of the Supervisor.
- With the approval of the Dean of Graduate Studies and on the recommendation of the Faculty of Engineering and Applied Science, credit towards the course requirements may be considered for graduate courses previously taken by the student in accordance with the **General Regulations** for course credit transfers.

### 12.3 Supervision

- Each student shall be assigned to a Supervisor approved by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.
- The Supervisor shall propose a tentative program of study and topic of investigation which must be approved by the Dean of Graduate Studies acting on the recommendation of the Faculty of Engineering and Applied Science, before the acceptance of a student in the program.

3. At the end of each semester, the Supervisor shall report on the student's progress to the Dean of Engineering and Applied Science for onward transmission to the Dean of Graduate Studies.
4. A temporary or permanent change of Supervisor for a student already in a program shall be permitted only with the approval of the Dean of Graduate Studies and the Dean of Engineering and Applied Science.
5. The Supervisor shall advise the student in the preparation and presentation of a seminar on the student's topic of investigation as described in **Thesis**, 2. below.

## 12.4 Industrial Internship Option

The Faculty encourages graduate students to undertake internships of work in industry. Internships in industry will permit students either (a) to focus on the practicalities of research projects which have been well defined before the student enters an internship, or (b) to develop and define a research project from problems experienced during the internship. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.Eng. program may, with the permission of their Supervisor, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies select the Industrial Internship Option. Students registered in the option must satisfy the degree regulations for an M.Eng. program. In addition, students in the Industrial Internship Option:

- must take at least 9 credit hours of the courses required for their program on campus; the remaining required courses may be taken on or away from campus; those taken at other universities require pre-approval by the Dean of the School of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science
- shall normally spend 8 to 12 months of their program at an internship in industry
- shall normally spend at least two semesters on campus on a full-time basis as a graduate student at this university
- shall submit a concise progress report to their supervisors, no later than the end of each semester while on an internship

## 12.5 Fast-Track Option

Students registered in academic term 7 of a Memorial University of Newfoundland undergraduate engineering program are eligible to apply for admission to an M.Eng. fast-track option. The purpose of the option is to encourage students interested in pursuing graduate studies to begin their research-related activities while still registered as an undergraduate student. Normally, to be considered for admission to the option, students must have achieved at least a 70% average over academic terms 1 to 6 of their undergraduate engineering program. While enrolled in the option, a student may complete some of the M.Eng. Degree requirements and, hence, potentially be able to graduate earlier from the M.Eng. program.

Students shall enroll in the M.Eng. fast-track option concurrently with their undergraduate program during the Fall semester prior to academic term 8. Prior to entering the fast-track option, students must apply for and receive an exemption from work term 6. While enrolled in the option a student must be registered in full-time graduate studies during the Fall semester prior to academic term 8; during academic term 8, the student must take a leave of absence from the graduate program. A student enrolled in the fast-track option shall undertake research related to their field of study and shall normally complete at least 3 credit hours from the courses listed for their M.Eng. program in the Fall semester prior to academic term 8.

In the Fall semester following academic term 7, fast-track option students will pay only the graduate fees appropriate to graduate students following plan A of **Fees and Charges** (i.e., the 6 semester plan). In the succeeding Winter semester, while completing academic term 8 of their undergraduate program, fast-track option students will pay only the appropriate undergraduate fees.

Upon completion of their undergraduate program, students may register in the M.Eng. program on a full-time basis. All courses taken as part of their graduate program while enrolled in the M.Eng. fast-track option are credited towards the M.Eng. Degree course credit hour requirements. Courses taken as credit towards a student's undergraduate degree may not be credited towards a student's graduate degree; courses credited towards a student's graduate degree may not be credited towards a student's undergraduate degree. Students who do not complete their undergraduate degree within one year of entering the fast-track option will normally be required to withdraw from their M.Eng. program.

## 12.6 Course Evaluation

1. In order to continue in the program, a student shall obtain an A or B grade in each course taken for credit.
2. The student's achievement in the program must be to the satisfaction of the Dean of Graduate Studies and the Faculty of Engineering and Applied Science. When it has been determined on the basis of consultations with the student, the course instructors and the Supervisor, that a student's work has fallen below satisfactory level, he/she may be required to withdraw from the program.

## 12.7 Thesis

1. A student who expects to graduate must inform the Dean of Graduate Studies of this intention at least three months before the University Convocation at which the award of the degree is expected.
2. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the Faculty of Engineering and Applied Science. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.
3. Three copies of the thesis shall be submitted to the School of Graduate Studies through the Faculty of Engineering and Applied Science, in a form and format as specified in the Thesis Guide issued by the School of Graduate Studies and the Presentation of Theses Guide issued by the Faculty of Engineering and Applied Science. A submission which does not meet the specifications will be returned to the candidate.
4. Examiners shall be appointed by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science soon after the student has expressed an intention to submit the thesis.

## 12.8 Evaluation of Theses

Theses evaluation shall be carried out in accordance with **Theses and Reports** of the **General Regulations** governing all students in the School of Graduate Studies.

## 12.9 Recommendation for Awarding Degree

When a student has completed all the requirements for the M.Eng. Degree, the Faculty of Engineering and Applied Science shall forward a recommendation to the Dean of Graduate Studies for the award of the Degree.

## 12.10 Master of Applied Science Programs

The Faculty of Engineering and Applied Science offers the following course-based programs:

### 12.10.1 Computer Engineering

In addition to the research-focused M.Eng. Degree in Computer Engineering, the Faculty of Engineering and Applied Science offers a course-based program in Computer Engineering leading to a Master of Applied Science Degree in Computer Engineering. For details of program requirements for the M.A.Sc. Degree in Computer Engineering, refer to the regulations governing the Degree of **Master of Applied Science**.

### 12.10.2 Environmental Systems Engineering and Management

The Faculty of Engineering and Applied Science offers a course-based program in Environmental Systems Engineering and Management. For the details of the program requirements for the M.A.Sc. Degree in Environmental Systems Engineering and Management refer to the regulations governing the Degree of **Master of Applied Science in Environmental Systems Engineering and Management**.

### 12.10.3 Oil and Gas Engineering

The Faculty of Engineering and Applied Science offers a course-based program in Oil and Gas Engineering. For the details of the program requirements for the M.A.Sc. degree in Oil and Gas Engineering refer to the regulations governing the Degree of **Master of Applied Science in Oil and Gas Engineering**.

## 12.11 Master of Engineering Management

### 12.11.1 Engineering Management

See regulations governing the Degree of **Master of Engineering Management**.

## 12.12 Courses

A selection of the following graduate courses will be offered to meet the requirements of the candidates, as far as the resources of the Faculty will allow.

#### Required Courses:

9100 Engineering Graduate Seminar (1 credit hour)

#### Core Courses:

9002 Ocean Engineering Structures  
 9015 Ocean Engineering Hydrodynamics  
 9110 Advanced Petroleum Production Engineering  
 9113 Phase Behaviour of Petroleum Reservoir Fluids  
 9114 Advanced Reservoir Engineering  
 9115 Safety and Risk Engineering  
 9118 Advanced Drilling Engineering  
 9121 Advanced Safety, Risk and Reliability Modeling  
 9411 Probabilistic Methods in Engineering  
 9420 Engineering Analysis  
 9501 Finite Element Analysis with Engineering Applications  
 9505 Structural Dynamics and Vibrations  
 9516 Similitude, Modelling and Experimental Data Analysis  
 9520 Solid and Structural Mechanics  
 9550 Fatigue, Fracture and Corrosion  
 9609 Environmental Risk Assessment  
 9627 Environmental Systems Engineering  
 9816 Antenna Theory  
 9821 Digital Signal Processing  
 9826 Advanced Control Systems  
 9827 Continuous and Discrete-Event Systems  
 9834 Advanced Power Electronics  
 9847 Computer and Control Methods in Power Systems  
 9861 High-Performance Computer Architecture  
 9865 Advanced Digital Systems  
 9867 Advanced Computing Concepts for Engineering  
 9871 Information Theory and Coding  
 9874 Software Design and Specification  
 9876 Advanced Data Networks  
 9901 Fundamentals of Fluid Dynamics  
 9902 Advanced Transport Phenomena  
 9940 Advanced Robotics

#### Other Courses:

9022 Marine Geotechnical Engineering  
 9052 Ice Properties and Mechanics  
 9090/99 Special Topics in Ocean Engineering  
 9111 Well Testing  
 9112 Multiphase Flow  
 9116 Reliability Engineering  
 9117 Offshore Petroleum Geology and Technology  
 9119 Compact Process Equipment Design  
 9120 Advanced Natural Gas Engineering  
 9150-59 Special Topics in Oil and Gas Engineering  
 9210 Advanced Engineering Materials

9211 Experimental Methods  
 9390/94 Special Topics in Engineering Management  
 9440 Optimization Principles in Engineering  
 9495/99 Special Topics in Engineering Analysis  
 9540/49 Special Topics in Mechanics, Structures and Materials  
 9560 Applied Remote Sensing  
 9601 Environmental Pollution and Mitigation (cross-listed as ENVS 6004)  
 9603 Environmental Sampling and Pollutant Analysis (cross-listed as ENVS 6005)  
 9605 Water and Wastewater Treatment  
 9610/15 Special Topics in Environmental Engineering and Applied Science  
 9621 Soil Remediation Engineering  
 9622 Environmental Statistics  
 9625 Environmental Impacts of Offshore Oil and Gas Operations  
 9626 Environmental Management System  
 9628 Environmental Laboratory  
 9629 Environmental Policy and Regulations  
 9630 Pollution Prevention  
 9713 Stochastic Hydrology  
 9723 Soil Properties and Behaviour (formerly 9720)  
 9750 Advanced Topics in Analysis and Design of Reinforced Concrete (formerly 9701)  
 9755 Advanced Topics in Precast and Prestressed Concrete (formerly 9702)  
 9760/64 Special Topics in Geotechnical Engineering  
 9790/99 Special Topics in Civil Engineering  
 9802/05 (excluding 9804) Special Topics in Computer Engineering  
 9804 Industrial Machine Vision  
 9806/09 Special Topics in Communications Engineering  
 9815 Electromagnetic Propagation  
 9822 Nonlinear Digital Image Processing and Analysis  
 9825 Random Signals (formerly 9830)  
 9835 Advanced Electric Machines  
 9848 Power System Stability (formerly 9812)  
 9849 Power System Protection  
 9850/53 Special Topics in Power Systems and Controls  
 9866 Fault-Tolerant Computing (formerly 9846)  
 9868 ASIC Design  
 9869 Advanced Concurrent Programming  
 9872 Digital Communications  
 9873 Image Communications  
 9875 Embedded and Real-Time Systems Design  
 9877 Computer and Communications Security  
 9878 Wireless and Mobile Communications  
 9879 Formal Specification and Development  
 9880/83 Special Topics in Computer Engineering  
 9884/87 Special Topics in Signal Processing  
 9888/91 Special Topics in Communications Engineering  
 9892/95 Special Topics in Power Systems and Controls  
 9896 Renewable Energy Systems  
 9897/99 Special Topics in Applied Electromagnetics  
 9910 Advanced Manufacturing  
 9920 Advanced Concepts in Mechanical Design  
 9925 Theory and Design of Mechanical Components and Structures  
 9975/99 Special Topics in Mechanical Engineering

\* Courses likely to be offered annually on a regular basis. Other courses will be offered if required in a student's program and dependent upon Faculty resources.

## 13 Regulations Governing the Degree of Master of Engineering Management

### 13.1 Program of Study

1. The Faculty of Engineering and Applied Science in collaboration with the Faculty of Business Administration offers a program in Engineering Management leading to the degree of Master of Engineering Management (M.E.M.). The program is available on a full-time or part-time basis.
2. The program is offered by the Faculty of Engineering and Applied Science and the Faculty of Business Administration and will be administered by a Board of Studies appointed jointly by the Dean of Engineering and Applied Science and the Dean of Business Administration.

### 13.2 Qualifications for Admission

1. Admission to the program is limited and competitive.
2. To be eligible for consideration for admission, an applicant shall meet the requirements set out in **General Regulations - Qualifications for Admission, Master's Program** or shall have qualifications and/or engineering experience that is acceptable to the Dean of Graduate Studies and to the Faculty of Engineering and Applied Science.
3. To be eligible for consideration for admission, applicants will meet the English Proficiency Requirements described under **General Regulations - Qualifications for Admission, English Proficiency Requirements**.
4. Applicants will normally be interviewed by representatives of the Board of Studies as part of the admission process.

### 13.3 Degree Requirements

The degree program requires the completion of 36 credit hours, 6 of which comprise a project course.

1. Students are normally required to complete Engineering 9395, 9396, and 9397, along with 9 additional credit hours from the **Master of Engineering, Core Courses** or the **Master of Engineering, Other Courses** offered for the Master of Engineering program, from which up to 3 credit hours may be taken from undergraduate courses approved for the student's program by the Dean of Graduate Studies on the recommendation of the Faculty of Engineering and Applied Science.
2. Students are normally required to complete Business 8104, 8106, 8109, 8206 and one of the following courses: Business 8103, 8107, 8108, 8204, 8205, 8207, or 8209.
3. Students who have not successfully completed a baccalaureate degree from a recognized university where English is the language of instruction will be required to complete an 8-week English as Second Language course prior to the start of the first regular academic semester and a one semester course covering the Engineering Profession and Communications during the second academic semester.

### 13.4 Courses

Business 8103 Statistical Applications in Management  
 Business 8104 Organizations: Behaviour and Structure  
 Business 8106 Marketing  
 Business 8107 Managing Ethics and Responsibility  
 Business 8108 Economics for Business  
 Business 8109 Accounting for Management  
 Business 8204 Human Resource Management  
 Business 8205 Information Systems  
 Business 8206 Managerial Finance  
 Business 8207 Operations Management  
 Business 8209 Leadership and Interpersonal Skills for Managers  
 Engineering 9395 Engineering Management Project (6 credit hours)  
 Engineering 9396 Engineering Management Topics  
 Engineering 9397 Advanced Modelling and Quality Management

### 13.5 Industrial Internship Option

The Faculty permits graduates students to undertake internships of work in industry. These internships will allow students to either (a) enhance the application of their knowledge and skills within industry, or (b) complete a research project defined by the industry. Encouragement to undertake an internship will be given only where it is clear that one of these expectations can be met.

Students registered in the M.E.M. program may, with the permission of their Board of Studies, the Dean of the Faculty of Engineering and Applied Science, and the Dean of Graduate Studies, select the Industrial Internship Option. Students pursuing this option must satisfy the degree regulations for an M.E.M. program. In addition, students in the Industrial Internship Option:

1. shall normally complete at least 18 credit hours of the courses required for their program with an average of 75% or higher prior to the internship; the remaining required courses may be taken on campus or by distance
2. shall normally spend at least two continuous semesters on campus on a full-time basis as a graduate student at this university
3. shall normally spend 4 to 8 months of their program at an internship in industry
4. shall submit monthly reports to a university supervisor appointed by their Board of Studies, and shall submit a concise progress report to their Board of Studies no later than the end of each semester while on an internship
5. shall normally not opt out once the internship starts.

Successful completion of an internship will be indicated by a descriptive notation on the student transcript.

## 14 Regulations Governing the Degree of Master of Environmental Science

(see also **Master of Science in Environmental Science**)

### Board of Studies

Dr. J. Wroblewski, Ocean Sciences Centre - Chair  
 Dr. C. Campbell, Sir Wilfred Grenfell College  
 Dr. B. Chen, Faculty of Engineering and Applied Science  
 Dr. R. Chuenpagdee, Department of Geography  
 Dr. P. Marino, Head, Department of Biology  
 Dr. W. Montevecchi, Department of Psychology  
 Dr. L. Tarasov, Department of Physics and Physical Oceanography  
 Dr. S. Ziegler, Department of Earth Sciences

### 14.1 Program of Study

1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Department of Geography, and the Faculty of Engineering and Applied Science of Memorial University of Newfoundland. There are three Environmental Science Graduate Degree streams, the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science).

The program is available on a full or part-time basis. Admission is open to students with appropriate Science, Geography or Engineering backgrounds.

2. The program is administered by a Board of Studies appointed by the Dean of Science.

### 14.2 Qualifications for Admission

Admission is limited and competitive. To be considered for admission applicants shall normally hold an Honours degree in Science or Geography with at least second class standing, or equivalent, or a Bachelor's degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or environmental experience acceptable to the Dean of Graduate Studies and the Board of

Studies. The Board of Studies will make recommendations on admission to the Dean of Graduate Studies.

### 14.3 Degree Requirements

To the extent that resources permit, individual programs will be developed to suit students' interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All **General Regulations** of the School of Graduate Studies shall apply to these degrees

#### 14.3.1 Master of Environmental Science

1. The Master of Environmental Science is a multidisciplinary course-based degree, focussed on environmental issues. The Degree program provides for both multidisciplinary courses and for courses focussed on the student's specific area of interest.
2. The Degree program requires completion of 27 credit hours.
  - a. Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be ENVE/ENVS 6000, ENVS 6009 and ENVS 6010 and 6 credit hours from ENVE/ENVS 6001, 6002 and 6003.
  - b. Students will be required to take a minimum of 12 credit hours in elective courses approved by the Board of Studies, 9 credit hours of which will normally be selected from graduate courses offered by the Faculties of Science and Engineering and Applied Science. Students are advised to consult with instructors and Faculties regarding necessary prerequisites and availability.

#### 14.3.2 Master of Science (Environmental Science)

1. The Master of Science (Environmental Science) is a research degree which includes a thesis and course work. The thesis research will focus on environmental topics relevant to the student's background, and will be supervised by appropriate faculty, normally in the Faculties of Science and/or Engineering and Applied Science. The course component has two aims: to broaden the students' understanding of environmental issues; and to provide further training in areas of research specialization for the thesis.
2. Each student will have a Supervisory Committee normally consisting of a Supervisor and two others. The Supervisory Committee will be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies for Environmental Science.
3. The program of each student will consist of a minimum of 15 credit hours in program courses which will include ENVE/ENVS 6000 and ENVS 6010. Of the 9 credit hours remaining in program courses, 3 credit hours will be from ENVE/ENVS 6001, 6002 and 6003 and the other credit hours will be related to the student's specialty and will normally be chosen from graduate courses offered by the Faculties of Science, and Engineering and Applied Science.
4. All students will be required to submit a thesis embodying the results of systematic research on an approved topic. The thesis will be evaluated according to procedures outlined in General Regulation **Theses and Reports**.

### 14.4 Courses

ENVE/ENVS 6000 Environmental Science and Technology  
 ENVE/ENVS 6001 Earth and Ocean Systems  
 ENVE/ENVS 6002 Environmental Chemistry and Toxicology  
 ENVE/ENVS 6003 Applied Ecology  
 ENVS 6004 Environmental Pollution and Mitigation (cross-listed as Eng 9601)  
 ENVS 6005 Environmental Sampling and Pollutant Analysis (cross-listed as Eng 9603)  
 ENVS 6007 Environmental Risk Assessment (same as Eng 9609)  
 ENVS 6008 Air Pollution (same as Eng 9624)  
 ENVS 6009 Environmental Science Project  
 ENVS 6010 Environmental Seminar  
 ENVS 6201-6210 Special Topics in Environmental Science

## 15 Regulations Governing the Degree of Master of Marine Studies (Fisheries Resource Management)

#### Executive Director

G. Blackwood

#### Academic Director

P. Fisher

### 15.1 Administration

The programs will be administered by an Academic Director appointed by the Executive Director of the Fisheries and Marine Institute, together with an Academic Advisory Committee.

An Academic Advisory committee will be appointed by the Dean of Graduate Studies on recommendation of the Executive Director of the Fisheries and Marine Institute. This committee will consist of the Academic Director as Chair, three members from the Marine Institute and two members from other academic units of the University. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the fishery, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Executive Director of the Fisheries and Marine Institute. The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

### 15.2 Programs

There are two graduate programs in Fisheries Resource Management: the **Graduate Diploma** and the **Master of Marine Studies**. The Master's Degree requires successful completion of 8 courses plus a major report. The Graduate Diploma requires completion of 6 courses. The programs are aimed at professionals working in or intending to enter careers in fisheries management.

### 15.3 Graduate Diploma

The Graduate Diploma in Fisheries Resource Management provides an opportunity for fisheries professionals to enhance their

perspective on fishery issues from a variety of disciplines.

### 1. Admission Requirements

To be admitted to the Graduate Diploma in Fisheries Resource Management, a student must be eligible to register in the Master of Marine Studies program (see **Master of Marine Studies, Admission Requirements** below).

### 2. Program of Study

The program consists of 18 credit hours. Students must complete 6001 plus five other courses chosen from 6002, 6003, 6004, 6005, 6006 and 6007.

### 3. Evaluation

Candidates for the Graduate Diploma in Fisheries Resource Management must obtain a grade of B or better in all program courses.

## 15.4 Master of Marine Studies

The Degree of Master of Marine Studies (Fisheries Resource Management) (M.M.S.) is a multi-disciplinary program of study that will provide the candidate with exposure to all dimensions of modern fisheries resource management. The program is aimed at professionals working in or intending to enter careers in fisheries management and is available on a full-time or part-time basis. All candidates must take the full complement of 24 credit hours, including a required seminar, plus a major report. Candidates registered on a full-time basis may complete the program in one academic year. Students who have successfully completed the requirements for the Graduate Diploma may elect to continue their program of study in order to earn the Degree.

### 1. Admission Requirements

- Admission to the program is on a competitive basis. To be considered for admission to the program an applicant must normally have an undergraduate degree with a minimum of a high second class standing from an institution recognized by the Senate.
- In addition to the academic requirements in a. applicants will normally have a demonstrated commitment to fisheries through employment or experience in a sector of the fishery, in a regulatory agency or government Department connected to fisheries, in a non-governmental agency, or through self-employment or consulting activities related to fisheries.
- Applicants must submit, along with the normal academic application form, a letter outlining their reasons for applying for admission to the program, their expectations of the program and its anticipated impact on their work and career progression.
- In exceptional cases, persons who do not meet the requirements specified in a. but who have a significant connection to fisheries and demonstrated equivalent experience acceptable to the Academic Advisory Committee may be admitted. Such persons will undergo an interview by the Academic Advisory Committee before being admitted.
- Applications for admission in September must be received no later than April 30 of the year in which admission is sought.

### 2. Program of Study

- The program consists of 24 credit hours made up of the courses numbered 6001-6008 listed below, plus a major report. Courses will normally be offered only once in an academic year with four courses offered in the Fall semester and four, including the Seminar course offered in the Winter. Full-time candidates are expected to undertake and complete the work required for the report during the Spring semester.
- A waiver of a program course may be granted by the Dean of Graduate Studies on the recommendation of the Academic Advisory Committee if the candidate can demonstrate to the Academic Advisory Committee that the course material has been substantially covered by a course taken at this or another recognized university. In such cases the course must be replaced by another course approved by the Academic Advisory Committee. This replacement course must be taken during the candidate's period of enrolment in the program.

### 3. Evaluation

- Candidates for the Master's Degree must obtain a grade of B or better in all program courses and successfully complete the seminar.
- Candidates who have received a grade less than a B in a program course will be permitted to remain in the program, provided the course is retaken and passed with a grade of B or better. Alternatively the candidate may, on the recommendation of the Academic Advisory Committee, substitute another graduate course. Only one such repeat or substitution will be permitted in the program.
- The major report is a fundamental component of the program and will normally be undertaken in the final semester of the program. The topic of the report and a faculty Supervisor will be chosen by the candidate in consultation with the Academic Advisory Committee. The report provides an opportunity to synthesise an original perspective on a selected fisheries issue through the examination of appropriate literature and other sources of information. Normally the report will be multi-disciplinary in nature and will result in a document equivalent to a publishable periodical journal article or a consultant's report on a particular issue. It will be assessed in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies.

## 15.5 Courses

- 6001 Fisheries Ecology
- 6002 Quantitative Methods in Fisheries
- 6003 Fisheries Economics
- 6004 Fisheries Policy
- 6005 Fisheries Planning and Development
- 6006 Business Management for Fisheries
- 6007 Evolution of Fisheries
- 6008 Seminar in Fisheries Management

## 16 Regulations Governing the Degree of Master of Music

### Professor and Director

E. Waterman

### Associate Professor and Associate Director

M. Cheramy

The Degree of Master of Music (M.Mus.) is offered by full-time study, normally commencing in the Fall semester. Three areas of specialization are offered: Conducting, Performance and Performance/pedagogy. The specialization of Ethnomusicology is available through the degrees Master of Arts and Doctor of Philosophy. See the section **Regulations Governing the Degree of Master of Arts** and the section **Regulations Governing the Degree of Doctor of Philosophy**, respectively.

Within the three broad areas of specialization offered for the M.Mus., there is considerable flexibility available to further focus the program to meet specific interests and needs. These programs offer the musician the tools to make accelerated advances in comprehension, skills and abilities as a performing musician or conductor while offering at the same time, insights and experience into the *métier* of the musician/entrepreneur in the modern world. The School of Music has forged active partnerships with many of the professional music organizations and institutions within the arts community in the greater St. John's region which afford an exceptional range of professional experiences to its graduate students. Included among these partners are the Newfoundland Symphony Orchestra, the Canadian Broadcasting Company, Heritage Canada, the Newfoundland and Labrador Arts Council and many others.

Graduate instruction is offered in instrumental and choral conducting, as well as in the following performance media: voice, piano, organ, flute, clarinet, saxophone, oboe, bassoon, trumpet, euphonium, trombone, tuba, percussion, guitar, violin, viola, cello and double bass.

## 16.1 Qualifications for Admission

1. Admission regulations and procedures are outlined in the **General Regulations** Governing the School of Graduate Studies and apply to the Master of Music Degree. Candidates for admission will normally hold a Bachelor of Music Degree with first-class standing from a recognized university. Applicants with other types of preparation should enquire with the School of Music regarding the likelihood of admission. Entrance auditions are normally held in late February or early March.
2. In addition to meeting the requirements above, admission is further determined by audition and diagnostic examinations.
  - a. Auditions for September entry will be held in February of each year on the St. John's campus. Where exceptional circumstances prevail and with the approval of the Director, the audition may be submitted as an audio or video recording. The audition program should display a range of performance styles and repertoire. Prospective Candidates should contact the School of Music for details on length of audition and appropriate repertoire. Applicants to the M.Mus. in Conducting program should submit professional quality video recordings of their work with a minimum of two different types of ensembles. These video recordings should include both rehearsals and performances.
  - b. Candidates for admission will be required to write diagnostic examinations measuring their skills and knowledge in the standard areas of musical literacy. These include music theory and analysis, aural skills, and music history and literature which includes repertoire knowledge in the performance area. Candidates who display deficiencies in any of these areas may still be considered for admission. Once admitted, however, they will be required to take remedial course work in addition to the required program. Voice and choral conducting applicants will have language competency assessed during the audition. Students admitted in voice and in choral conducting who lack sufficient background in English, German, French and Italian will be required to take remedial undergraduate course work.

## 16.2 Program of Study

1. All candidates for the Degree of Master of Music will be required to register for courses which combine course work, performance or work-study internships and which can normally be completed over two years by full-time study. Recital requirements as specified within each specific program option are considered as thesis equivalents. Comprehensive examinations are not administered. The normal residency period in Conducting may, in some instances, be reduced through summer and intersession study or through a reduction of the credit requirements based on prior professional experience. Candidates for the Degree are required to complete the core courses in the first year of the program. Principal and secondary applied course credits make up the largest concentration of program requirements and are intended to be taken over two years. Courses in secondary concentrations and electives make up the balance of the program.
2. All candidates for the M.Mus. Degree must complete 36 credit hours which include MU 6001 and MU 6002.
  - a. All candidates in Conducting (Choral Conducting, Instrumental Conducting or Choral/Instrumental Conducting) must also complete the following courses: 6210, 6310, 6100; one of 6006, 6007 or 6008; and a total of six credits chosen from 6211, 7210, 6212, 6213, 6311, 7310, 6312 or 6313. Of the remaining 12 credit hours in electives, and with the approval of the Associate Director for Graduate Studies in the School of Music, 3 credit hours may be from related disciplines.
  - b. All candidates in Performance (solo voice, instrument or chamber music) must also complete 645A/B, 745A/B; 6700, 6750; 6005 or 6009; and 4 credits chosen from 646A/B or 6500-6503. Of the remaining 6 credit hours in electives, and with the approval of the Associate Director for Graduate Studies in the School of Music, 3 credit hours may be from related disciplines.
  - c. All candidates in Performance/Pedagogy (solo voice or instrument) must also complete 647A/B, 747A/B, 6400, 6600, 6650 and 4 credits chosen from 646A/B or 6500-6503. Of the remaining 6 credit hours in electives, and with the approval of the Associate Director for Graduate Studies in the School of Music, 3 credit hours may be from related disciplines.
  - d. Further courses may be required depending on the background of the individual student.

Master of Music	Conducting	Performance	Performance/Pedagogy
Common Core	6001-6002	6001-6002	6001-6002
Applied	6210 6310 6 credit hours chosen from 6211, 6311, 7210, 7310, 6212, 6213, 6312, 6313	645A/B 745A/B 4 credit hours chosen from 646A/B or 6500-6503	647A/B 747A/B 4 credit hours chosen from 646A/B or 6500-6503
Complementary	6100 6006 or 6007 or 6008	6700 6750 6005 or 6009	6400 6600 6650
Electives	Twelve credit hours, of which 3 may be from related disciplines	6 credit hours, of which 3 credit hours may be from related disciplines	6 credit hours, of which 3 credit hours may be from related disciplines

## 16.3 Evaluation

The **General Regulations** on evaluation, continuance and termination of studies of the School of Graduate Studies pertain to the Master of Music Degree. In addition, failure to receive a grade of 75% or higher in any of Music 645A/B, Music 745A/B, Music 647A/B, Music 747A/B, Music 6211, Music 6311, Music 7210 or Music 7310 will lead to termination of the student's program.

## 16.4 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow.

### Core courses

6001 Research Methods  
6002 Graduate Seminar

### Applied courses

6210 Instrumental Conducting I  
6211 Instrumental Conducting II  
6212 Instrumental Conducting Internship I (1 to 3 credit hours)  
6213 Instrumental Conducting Internship II (1 to 3 credit hours)  
6310 Choral Conducting I  
6311 Choral Conducting II  
6312 Choral Conducting Internship I (1 to 3 credit hours)  
6313 Choral Conducting Internship II (1 to 3 credit hours)  
6400 Music Pedagogy  
645A/B Principal Applied Study I (6 credit hours)  
646A/B Secondary Principal Applied Study (4 credit hours)  
647A/B Principal Applied Study I (6 credit hours)  
6500 Chamber Music (2 credit hours per semester. Maximum: 8 credit hours)  
6501 Chamber Music (3 credit hours per semester. Maximum: 12 credit hours)  
6502 Opera Performance (2 credit hours)  
6503 Opera Performance (3 credit hours)  
6510 Seminar in Performance Issues  
6651 Pedagogy Internship II (2 credit hours)  
7210 Instrumental Conducting III  
7310 Choral Conducting III  
745A/B Principal Applied Study II (6 credit hours)  
747A/B Principal Applied Study II (6 credit hours)

### Complementary courses and electives

6005 Performance Practice  
6006 Instrumental Ensemble Repertoire  
6007 Choral Repertoire  
6008 Orchestral Repertoire  
6009 Music Literature  
6100 Score Study and Analysis  
6600 Pedagogy Seminar  
6650 Pedagogy Internship I (2 credit hours)  
6700 Music Industries Seminar  
6750 Music Industries Internship (2 credit hours)

### Special Topics Courses

6800-6809  
6900-6909  
7800-7809

## 17 Regulations Governing the Degree of Master of Nursing

### Professor and Director

J. McFetridge-Durdle

### Professor and Associate Director (Graduate Program and Research)

S. Solberg

### 17.1 Program

1. The responsibility for the administration of all graduate programs shall reside with the Dean of Graduate Studies.
2. Applicants for the program shall be required to apply for admission to the Dean of the School of Graduate Studies and shall be expected to follow the regulations, policies and practices required of the School. Deadline for receipt of applications should be no later than February 15. If space is available, students who apply after the deadline date may be accepted.
3. The School of Nursing offers a Master of Nursing (M.N.) program with three options: (thesis, non-thesis and nurse practitioner) as well as a Post Masters Nurse Practitioner Graduate Diploma.

### 17.2 Qualifications for Admission

1. Applicants to the Master of Nursing program in any of the three options listed above must have a baccalaureate Degree in nursing, or an equivalent from an institution recognized by the University and a knowledge of nursing satisfactory to the School of Nursing.
2. Admission to the program is limited and competitive. To be considered for admission, the applicant must have maintained at least a grade B standing in the baccalaureate program.
3. Applicants are also required to have a minimum of one year's experience in nursing practice, and to have completed an undergraduate nursing research course, and a statistics course normally within the last 5 years such as Statistics 2500 or Education 2900 or their equivalents.
4. Applicants must hold a practising licence from the Association of Registered Nurses of Newfoundland and Labrador or must be currently registered as a practising nurse in another Canadian jurisdiction. Applicants from other countries who do not meet the above criteria will be assessed on an individual basis. However, they must submit proof of registration as a practising nurse (or an equivalency) from their country or jurisdiction.
5. In addition to the above requirements, candidates seeking admission to the MN-Nurse Practitioner Degree option must have two years of clinical experience preferably in their chosen specialty area. As well, candidates must have a letter from a health care

agency and a clinical preceptor guaranteeing the candidate a preceptored clinical placement for the final semester of their program.

- In addition to requirements 1 and 4, candidates seeking admission to the Post Masters Nurse Practitioner Graduate Diploma program must have completed a Masters Degree in Nursing or an equivalent degree with a nursing focus and have two years of clinical nursing experience preferably in their chosen specialty area. As well, candidates must have a letter from a health care agency and clinical preceptor guaranteeing the candidate a preceptored clinical placement for the final semester of their program.
- Only in exceptional circumstances and only on the recommendation of the School of Nursing shall the Dean of Graduate Studies consider applicants who do not meet admission requirements listed above.

### 17.3 Registration

See School of Graduate Studies **General Regulations, Registration**.

### 17.4 Programs of Study

There are three routes offered that lead to a Master of Nursing Degree: 1. Thesis option, 2. Non-thesis option, and 3. Nurse Practitioner option. Normally the program will require two years to complete when taken on a full-time basis.

In addition to the M.N. Degree program, the School of Nursing also offers a Post Masters Nurse Practitioner Graduate Diploma.

#### 17.4.1 Thesis Option

- Candidates must complete an approved program of study consisting of a minimum of 19 credit hours in graduate program courses and a thesis.

**Required courses:**

6010 Research in Nursing I: Quantitative Methods

6011 Philosophical and Theoretical Foundations of Nursing

6100 Research in Nursing II: Qualitative Methods

Either 6200 Nursing Individuals and Families through Life Transitions, and N6210 Nursing Therapeutics for Individuals and Families

OR 6220 Concepts for Population-based Nursing, and 6230 Interventions for Population-based Nursing

One nursing elective

- Candidates shall submit a thesis on an approved subject in which systematic research has been conducted under the direction of a Supervisor recommended by the Director and approved by the Dean.
- The program of each candidate shall be approved by the Dean on the recommendation of the Director.

#### 17.4.2 Non-Thesis Option

- Candidates must complete an approved program of study consisting of a minimum of 28 credit hours in graduate program courses and 6 credit hours in a consolidated practicum.

**Required courses:**

6010 Research in Nursing I: Quantitative Methods

6011 Philosophical and Theoretical Foundations of Nursing

6100 Research in Nursing II: Qualitative Methods

6040 Nursing Informatics

Either 6200 Nursing Individuals and Families through Life Transitions and 6210 Nursing Therapeutics for Individuals and Families

OR 6220 Concepts for Population-based Nursing, and 6230 Interventions for Population-based Nursing

**Three of the following courses:**

6020 Program Development in Nursing

6031 Education in Nursing

6050 Leadership in Nursing

6060 Policy and Politics in Nursing and Health Care

Other approved electives

**One of the following consolidated practicums:**

6610, 6611 Practicum in Advanced Clinical Practice

6620, 6621 Practicum in Nursing Administration

6630, 6631 Practicum in Nursing Research/Research Utilization

6640, 6641 Practicum in Health Policy

6650, 6651 Practicum in Nursing Education

The consolidated practicum will normally consist of 300 hours of field experience.

- The program of each candidate shall be approved by the Dean on the recommendation of the Director.

#### 17.4.3 Nurse Practitioner Option

- Candidates must complete an approved program of studies consisting of a minimum of 32 credit hours in graduate program courses and an integrated clinical practice experience, comprising 15 credit hours.

**Required courses:**

6010 Research in Nursing I: Quantitative Methods

6011 Philosophical and Theoretical Foundations of Nursing

6100 Research in Nursing II: Qualitative Methods

6020 Program Development in Nursing

6200 Nursing Individuals and Families through Life Transitions and 6210 Nursing Therapeutics for Individuals and Families

6700 Clinical Decision Making (6 credit hours)

6701 Advanced Practice Issues and Role Development (2 credit hours)

6702 Advanced Clinical Practicum I (96 hours of clinical practice in various health care settings) (3 credit hours)

One of: 6800 to 6809 Nursing Specialty Option Courses (3 credit hours)

690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 500 hours of preceptored specialty clinical practice and biweekly seminars) (15 credit hours)

- The program of each candidate shall be approved by the Dean on the recommendation of the Director.

### 17.4.4 Post Masters Nurse Practitioner Graduate Diploma

1. Candidates with a Master's Degree in Nursing or an equivalent Degree with a nursing focus must complete an approved program of study consisting of a minimum of 14 credit hours in graduate program courses and integrated clinical practice experience, comprising 15 credit hours.

**Required courses:**

- 6700 Clinical Decision Making (6 credit hours)
  - 6701 Advanced Practice Issues and Role Development (2 credit hours)
  - 6702 Advanced Clinical Practicum I (96 hours of clinical practice in various health care settings) (3 credit hours)
  - One of: 6800 to 6809 Nursing Specialty Option Courses (3 credit hours)
  - 690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 500 hours of preceptored specialty clinical practice and biweekly seminars) (15 credit hours)
2. Programs for some candidates may exceed the above minimum requirements.
  3. The program for each candidate shall be approved by the Dean on the recommendation of the Director.

### 17.5 Evaluation

1. In order to continue in graduate studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course.
2. If the candidate is in the Non-thesis Option, the candidate must obtain a Pass grade for the practicum component of the program.
3. When the Director of the School of Nursing has determined on the basis of consultation with the candidate, the Associate Director, Graduate Program and Research, and the thesis or practicum Supervisor, that a candidate has fallen below a satisfactory level, the Director may recommend to the Dean that such a candidate be required to withdraw from the program.
4. To remain in good standing candidates are required to maintain professional behaviour consistent with the current *Code of Ethics* of the Canadian Nurses Association and, when applicable, the Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans. Candidates who fail to meet this requirement will be required to withdraw from the School of Nursing upon recommendation of the Graduate Studies Committee.

### 17.6 Thesis

See School of Graduate Studies **General Regulations, Theses and Reports**.

**Courses**

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School of Nursing will allow:

- 6010 Research in Nursing I: Quantitative Methods (4 credit hours)
- 6011 Philosophical and Theoretical Foundations of Nursing (3 credit hours)
- 6020 Program Development in Nursing (3 credits hours) (Pre or co-requisite: 6011)
- 6031 Education in Nursing (3 credit hours) (Not required by students who have completed 6030. Credit may not be obtained for both 6030 and 6031)
- 6040 Nursing Informatics (3 credit hours)
- 6050 Leadership in Nursing (3 credit hours)
- 6060 Policy and Politics in Nursing and Health Care (3 credit hours)
- 6100 Research in Nursing II: Qualitative Methods (3 credit hours)
- 6200 Nursing Individuals and Families through Life Transitions (3 credit hours) Pre or co-requisite: 6011 (Not required by students who have completed 6400)
- 6210 Nursing Therapeutics for Individuals and Families (3 credit hours) Pre or co-requisite: 6200 (Not required by students who have completed 6400)
- 6220 Concepts for Population-based Nursing (3 credit hours) Prerequisites: 6011 (Not required by students who have completed 6410)
- 6230 Interventions for Population-based Nursing (3 credit hours) Pre or co-requisite: 6220 (Not required by students who have completed 6410)
- 6310-6350 Special Topics in Nursing (electives)
- 6501-10 Individual Readings and Research in Special Areas
- 6610-6611 Practicum in Advanced Clinical Practice (6 credit hours) (Prerequisites: All required and elective courses including 6020 and 6050)
- 6620-6621 Practicum in Nursing Administration (6 credit hours) (Prerequisites: All required and elective courses including 6050 and 6060)
- 6630-6631 Practicum in Nursing Research/Research Utilization (6 credit hours) (Prerequisites: All required and elective courses including 6060)
- 6640-6641 Practicum in Health Policy (6 credit hours) (Prerequisites: All required and elective courses including 6050 and 6060)
- 6650-6651 Practicum in Nursing Education (6 credit hours) (Prerequisites: All required and elective courses including 6020 and 6031)
- 6700 Clinical Decision Making (6 credit hours)
- 6701 Advanced Practice Issues and Role Development (2 credit hours)
- 6702 Advanced Clinical Practicum I (96 hours of clinical practice in various health care settings) (3 credit hours)
- One of: 6800 to 6809 Nursing Specialty Option Courses (3 credit hours)
- 690X Advanced Clinical Practicum II (The integrated practice component will normally consist of a minimum of 500 hours of preceptored specialty clinical practice and biweekly seminars) (15 credit hours)

## 18 Regulations Governing the Degree of Master of Philosophy

Programs leading to the Degree of Master of Philosophy (M.Phil.) are offered at present in German Language and Literature, Humanities, and in Sociology.

### 18.1 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission an applicant shall hold a Bachelor's Degree or its equivalent from an institution recognized by the Senate and shall have a knowledge of his or her proposed field of specialization satisfactory to the Department(s) concerned when interdisciplinary study is intended or to the Board of Studies in the case of the program in Humanities, and to the Dean.
2. Preference will normally be given to applicants who hold an appropriate Honours Degree either from Memorial University of

Newfoundland, or from another university whose Honours Degree is of comparable standing. Any other applicant who holds a Bachelor's Degree or its equivalent will be considered for admission provided that:

- a. the applicant's undergraduate record after the first year shows an average of at least grade B in courses in the proposed field of specialization.
- b. the applicant's overall undergraduate record after the first year shows an average of at least grade B in all courses taken, and
- c. the Department or Board of Studies satisfies the Dean that the applicant's work exhibits evidence of academic excellence.

Only in exceptional circumstances, and only on the recommendation of the Department or the Board of Studies, will the Dean consider applicants who do not meet the requirements a. and b. Such applicants, however, must meet the requirement c.

3. An applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the Department(s), or Board of Studies.
4. Applicants whose mother tongue is not English are reminded that a high degree of literacy in English is required of students at the University. In most cases instruction is in English, and examinations are to be written in English. (Language departments, however, give instruction in the pertinent language and often require examinations to be written in that language. In addition, other departments may permit and even require examinations to be written in a language other than English).
5. An applicant may be required to pass a qualifying examination.

Note: *Some Departments have particular regulations in addition to these, and applicants are advised to turn to the relevant parts of this Calendar and acquaint themselves with both the **General Regulations** and the regulations of the program in which they are interested.*

## 18.2 Program of Study

1. Every candidate shall read at least 30 credit hours in program courses in one subject or in a combination of closely related subjects as recommended by the Department(s) or Board of Studies, and approved by the Dean.
2. A candidate may be required also to take additional credit hours in program courses, which must be recommended by the Department(s) or Board of Studies, and approved by the Dean.
3. Students registered in the program in Humanities will be required to maintain and submit for evaluation a program Journal (See **Program of Study, 3. of the Regulations for the Degree of Master of Philosophy in Humanities**).
4. No candidate while classified as a part-time student may take more than 6 credit hours in any one semester.
5. No candidate may take more than 9 credit hours in graduate courses in a single semester, nor any credit hours in undergraduate courses at the same time as 9 credit hours in graduate courses; in no case may graduate and undergraduate credit hours combined exceed 12 in any one semester.
6. The course program will culminate in a general comprehensive examination (see **Evaluation - General Comprehensive Examination** below).
7. Every candidate shall be assigned to a tutor recommended by the Department(s) or Board of Studies and approved by the Dean.
8. The Dean may approve an application to transfer from the M.Phil. to the M.A. only when a new integrated program, acceptable to the Dean, is submitted.

## 18.3 Period of Study

The period of study for the Master of Philosophy Degree shall not normally exceed three years, during which time the candidate shall spend at least two semesters in full-time attendance as a graduate student at this University.

## 18.4 Evaluation

See also **Evaluation under General Regulations**

1. Students registered in undergraduate courses shall satisfy examination requirements in these courses.
2. The academic requirements for the Degree of Master of Philosophy shall be met when the candidate has successfully completed all course requirements of the program and has passed a general examination which consists of both written and oral parts. The Dean, on the recommendation of the Department(s) or Board of Studies, shall determine the times and places for general examinations; and, on the recommendation of the Department(s) or Board of Studies, shall appoint examiners, one of whom shall be from outside the Department(s) concerned. In the M.Phil. in Humanities, a program Journal is also required.

## 18.5 Evaluation - General Comprehensive Examination

1. Each candidate must pass a general comprehensive examination.
2. The examination committee shall be appointed by the Dean on the recommendation of the Department(s) or Board of Studies. The committee shall consist of either three or five members, at least one of whom must come from outside the Department(s) concerned. The candidate shall be informed of the names of the committee well before the examination.
3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Department(s) or Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.
4. The schedule for the examination shall be agreed by the candidate, the tutor, and the examining committee, and shall be promulgated by the Dean.
5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.
6. The oral examination shall be from one to three hours in length, and shall be conducted by the examining committee, and shall be open to the examination committee and to members of the Department(s) or Board of Studies only.
7. A candidate must satisfy the examining committee in both parts of the examination to obtain a pass.
8. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

## 18.6 Departmental Regulations

Every candidate in a graduate program shall comply with any additional program requirements and with the **General Regulations**.

## 18.7 German

### Associate Professor and Head of the Department

E. Warkentin

The degrees of Master of Arts and Master of Philosophy are offered in German Language and Literature and may be taken by full-time or part-time study. No graduate work is offered in Russian at this time.

1. In addition to the general requirements, candidates will be expected to have acquired a superior knowledge of the spoken and written language and may, depending on their academic background and field of specialization, be asked to take advanced undergraduate courses.
2. All candidates will complete at least 15 credit hours and a thesis for the M.A. and at least 30 credit hours for the M.Phil., and the entire program of study and research will normally be of two-years' duration.

### 18.7.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 German Civilization I  
 6001 German Civilization II  
 6100 History of the German Language I  
 6101 History of the German Language II  
 6200 Medieval German Literature I  
 6201 Medieval German Literature II  
 6300 German Literature, 1500-1700 I  
 6301 German Literature, 1500-1700 II  
 6400 German Literature of the Enlightenment and Storm and Stress I  
 6401 German Literature of the Enlightenment and Storm and Stress II  
 6500 German Classicism I  
 6501 German Classicism II  
 6600 German Romanticism I  
 6601 German Romanticism II  
 6700 German Realism I  
 6701 German Realism II  
 6800 German Literature, 1880-1933 I  
 6801 German Literature, 1880-1933 II  
 6900 Contemporary German Literature I  
 6901 Contemporary German Literature II  
 7000 Special Subject or Author I  
 7001 Special Subject or Author II  
 7002-7020 Special Topics in German Studies

### Deutsch

#### Professor und Vorstand der Abteilung

E. Warkentin

Auf dem Gebiet der Germanistik werden die Grade Master of Arts (Magister Artium) und Master of Philosophy (Magister Philosophiae) geboten. Sie können sowohl von voll- wie auch von halbzweijährlich Studierenden erworben werden. Auf dem Gebiet der Slawistik wird z.Zt. kein weiterführendes Studium geboten.

1. Ausser den allgemeinen Zulassungsbestimmungen wird von den Kandidaten überdurchschnittliche Kenntnis des Deutschen in Sprache und Schrift erwartet. Ihrer akademischen Vorbildung und ihrem Fachgebiet entsprechend, kann ihnen eventuell geraten werden, gleichzeitig fortgeschrittene Kurse der Unterstufe zu belegen.
2. Für den Master of Arts sind mindestens 15 Kreditstunden zu absolvieren und eine wissenschaftliche Arbeit in Übereinstimmung mit den allgemeinen Zulassungsbestimmungen einzureichen, für den Master of Philosophy sind mindestens 30 Kreditstunden vorgeschrieben. Das ganze Studienprogramm dauert normalerweise zwei Jahre.

### Kurse

Von den hier aufgeführten Kursen für Graduierte wird jeweils eine Auswahl angeboten, die sowohl den Anforderungen des Studierenden wie den Möglichkeiten der Abteilung gerecht wird.

6000 Deutsche Kulturkunde I  
 6001 Deutsche Kulturkunde II  
 6100 Geschichte der deutschen Sprache I  
 6101 Geschichte der deutschen Sprache II  
 6200 Mittelhochdeutsche Literatur I  
 6201 Mittelhochdeutsche Literatur II  
 6300 Deutsche Literatur 1500-1700 I  
 6301 Deutsche Literatur 1500-1700 II  
 6400 Deutsche Literatur der Aufklärung und des Sturm und Drang I  
 6401 Deutsche Literatur der Aufklärung und des Sturm und Drang II  
 6500 Deutsche Klassik I  
 6501 Deutsche Klassik II  
 6600 Deutsche Romantik I  
 6601 Deutsche Romantik II  
 6700 Deutscher Realismus I  
 6701 Deutscher Realismus II  
 6800 Deutsche Literatur 1880-1933 I  
 6801 Deutsche Literatur 1880-1933 II  
 6900 Deutsche Gegenwartsliteratur I  
 6901 Deutsche Gegenwartsliteratur II  
 7000 Wahlthema oder-Autor I  
 7001 Wahlthema oder-Autor II  
 7002-7020 Wahlthemen in German Studies

## 18.8 Humanities

### Assistant Professor and Director, Board of Studies

J. Dyer

The Master of Philosophy in Humanities has been designed for students from any discipline. It is directed to students who hold an Honours bachelor's Degree or its equivalent. The object of the M.Phil. in Humanities program is to provide students with an opportunity to see the historical and logical context of their own disciplinary points of view. The program is based on the interaction of a group of students of varying backgrounds and interests studying a common core of texts in a shared set of courses.

The program draws scholarly participation from faculty members in a range of academic disciplines within the School of Graduate Studies. The program is administered by a Board of Studies with membership appointed by the Dean of Arts, chosen from the participating faculty.

#### Master of Philosophy

In addition to meeting these regulations students must also meet the **General Regulations Governing the Degree of Master of Philosophy**.

This program is offered by the Faculty of Arts, and will draw scholarly participation chosen from those appropriately qualified faculty members wishing to participate, regardless of Department or Faculty affiliation.

### 18.8.1 Qualifications for Admission

1. Admission is limited and competitive. The number of students admitted to the program will be strictly limited to ensure small classes and maximum student-faculty contact. To be considered for admission an applicant will normally hold an Honours Bachelor's Degree (or equivalent) from an institution recognized by the Senate, and will have a breadth of knowledge in one or more of the Humanities disciplines satisfactory to the Board of Studies, and to the Dean.
2. Applicants who do not hold an Honours Degree (or equivalent) will be required to complete, prior to admission, a number of undergraduate courses, the nature and number of which will be determined on the basis of the applicants' undergraduate record by the Director of Studies in consultation with the Board of Studies. Candidates will be required to complete such designated pre-admission courses with a minimum overall average of 70%.

### 18.8.2 Administration

1. The program will be administered by a Board of Studies, the members of which will be appointed by the Dean of Arts chosen from the participating faculty.
2. There will be a Director of Studies who will be an *ex officio* of the Board of Studies and will make recommendations to the Dean concerning admission, financial support for students, and all other matters pertaining to the program.
3. Responsibility for the allocation of teaching and the support of related research will be managed by agreement between the Deans of the appropriate Faculties, the Heads of Departments of participating faculty members, and the Director of Studies, in consultation with the Dean of Graduate Studies.
4. The Board of Studies will be empowered to secure external grant funding where appropriate, and to manage all related administrative and financial matters as necessary.

### 18.8.3 Program of Study

1. Every candidate shall normally read 30 credit hours in the 10 regulation courses listed below.
2. With permission of the Director of Studies, a candidate may elect to substitute up to two of these courses with courses from other graduate programs in this University. Attendance in other programs requires the permission of the departments involved. (See also School of Graduate Studies General Regulation **Program Requirements, Transfer of Course Credits** which allows for further transfer of credits already taken but not yet applied to a graduate degree.)
3. Every candidate shall be required to maintain and submit a program Journal which will be monitored and evaluated by the Board of Studies. The Journal will comprise the candidate's critical reflections arising out of analyses of designated key themes common to the several disciplines which constitute the program.

### 18.8.4 Comprehensive Examination

1. Each candidate must pass a general comprehensive examination.
2. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies. The Committee shall normally consist of three members. One member of the Committee is normally the tutor. The candidate shall be informed of the names of the committee well before the examination.
3. The candidate and the tutor will normally agree when the candidate may sit the general comprehensive examination. However, the Board of Studies must accede to the candidate's request to sit a comprehensive examination, except that in no circumstances may a candidate attempt the general comprehensive examination before his or her course program is completed.
4. The schedule for the examination shall be agreed by the candidate, the tutor, and the Examining Committee, and shall be promulgated by the Dean.
5. The examination shall consist of a written part and an oral part. The time between the written and the oral parts shall normally be from one to four weeks.
6. The program journal is an extended paper or series of linked papers which analyses and reflects critically on issues encountered by the candidate during the course of the program. Papers and/or projects completed during courses may be incorporated into the program journal, but shall not, of themselves, constitute the entire journal.
7. The oral examination shall be from one to three hours in length, shall be conducted by the Examining Committee, and shall be open only to the Examination Committee, members of the Board of Studies and members of the Departments concerned.
8. A candidate must satisfy the Examining Committee in both parts of the examination to obtain a pass.
9. The successful completion of the comprehensive examination is the final academic requirement for the Master of Philosophy Degree.

### 18.8.5 Courses

6000 Speaking and Writing I

6001 Speaking and Writing II  
 6010 Readings in History I  
 6011 Readings in History II  
 6020 Readings in Western Literature I  
 6021 Readings in Western Literature II  
 6030 Readings in Philosophy I  
 6031 Readings in Philosophy II  
 6040 Readings in Science and Technology  
 6041 Seminar in Humanities

## 18.9 Sociology

### Associate Professor and Head of the Department

A. Micucci

### Master of Philosophy

1. Minimum admission requirements are a B average in undergraduate studies with a good undergraduate record in Sociology.
2. The Master of Philosophy requires the completion of 30 credit hours including the Graduate Seminar (6880) and Methods (6040). Other courses will be selected in consultation with the Chair of the Department's Graduate Studies Committee.

### 18.9.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6040 Methods of Sociological Research  
 6090-94 Special Area in Sociology  
 6120 Social Organization  
 6130 Social Stratification  
 6140 The Community  
 6150 Social Theory  
 6160 Theory Construction and Explanation in Sociology  
 6240 Sociology in Medicine  
 6280 Social and Economic Development  
 6300 Maritime Sociology  
 6310 Political Sociology  
 6320 Gender and Society  
 6330 Science and Technology  
 6340 Comparative North Atlantic Societies  
 6350 Environmental Sociology  
 6360 Sociology of Work  
 6370 Feminist Theory and Methods  
 6380 Women, Nature, Science and Technology (cross-listed as Women's Studies 6380)  
 6610 Socialization  
 6620 Current Topics in Social Behaviour  
 6880 Sociology Graduate Seminar

## 19 Regulations Governing the Degree of Master of Physical Education

### Associate Professor and Acting Director

A. Card

The Degree of Master of Physical Education (M.P.E.) is offered by full-time and part-time study. Part-time study is available through Internet-based distance education technology.

### 19.1 Qualifications for Admission

1. Admission is limited and competitive. The deadline for receipt of applications is March 1 for admission into the subsequent Fall semester. To be considered for admission an applicant shall normally hold a Bachelor's Degree in Physical Education, Recreation and Leisure Studies or a related discipline, with at least second class standing, from an institution recognized by Senate. In addition to the above, preference will be given to applicants with work experience, obtained either through Cooperative Education programs or through employment deemed appropriate.
2. Any other applicant who holds a Bachelor of Physical Education or Recreation and Leisure Studies Degree or its equivalent may be considered for admission provided that:
  - a. the applicant's undergraduate record after the first year shows an average of at least grade B in physical education and/or recreation and leisure studies courses, OR
  - b. the applicant has raised his/her overall academic standing to second class following the completion of the undergraduate degree, through the successful completion of an approved pattern of undergraduate courses.
3. Only in exceptional circumstances and only on the recommendation of the School of Human Kinetics and Recreation shall the Dean of Graduate Studies consider applicants who do not meet these admission requirements.

### 19.2 Program of Study and Research

1. The Degree of Master of Physical Education is offered under three options:
 

**Option I.** The program shall consist of a minimum of 15 credit hours in graduate courses plus a thesis. The thesis shall be on an approved subject in which systematic research has been conducted by the candidate under the direction of the Supervisor.

**Option ii.** The program shall consist of a minimum of 18 credit hours in graduate courses plus a project report. The project shall be on an approved subject in which action-research has been conducted by the candidate under the direction of the Supervisor.

**Option iii.** The program shall consist of a minimum of 24 credit hours in graduate courses plus a comprehensive examination in the candidate's major area of study.

- The candidate's major area of study shall be Administration, Curriculum and Supervision in Physical Education.

In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through an interdisciplinary course of study. The student's interests may be accommodated through individual reading and research in these special areas.

- The required courses for the degree shall normally include:

**Option I:** HKR 6500, one of 6000 or 6001, 6120, plus two of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus thesis)

**Option ii:** HKR 6500, one of 6000 or 6001, 6120, plus 3 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus project)

**Option iii:** HKR 6500, one of 6000 or 6001, 6120, plus 5 of 6003, 6111, 6121, 6122, 6123, 6124, 6125, 6610-6615 (plus comprehensive examination)

Equivalent courses may be substituted from other Faculties or Schools subject to the approval of the School of Human Kinetics and Recreation Graduate Studies Committee. In addition, all on-campus candidates shall be required to complete four semester-length seminar courses (HKR 6510-6513). Off-campus or part-time candidates who cannot attend the on-campus seminar series can substitute 24 hours of participation (over their two year tenure) and present once at national, provincial or regional conferences, workshops, professional development seminars or equivalent activities.

### 19.3 Evaluation

- Candidates must obtain an A or B grade in each program course. In accordance with General Regulation **Evaluation, Evaluation of Graduate Students** only one course may be repeated.
- When the Director has determined, on the basis of consultation with the candidate and the instructors, that a candidate's work has fallen below a satisfactory level, he or she may recommend to the Dean of Graduate Studies that the candidate be required to withdraw from the program.

### 19.4 Thesis and Project Report

- Evaluation of the thesis or project report shall be governed by Graduate Studies General Regulation **Theses and Reports**. The thesis or project report shall normally be evaluated by two examiners approved by the Dean.
- When the thesis or project report has been completed to the satisfaction of the Dean, the Dean shall recommend that the candidate be awarded the degree.

### 19.5 Comprehensive Examinations

- Candidates electing to qualify for the Degree under Option iii must write a comprehensive examination. The comprehensive examination shall examine the candidate's ability to integrate and apply material from all course work completed during study for the Degree. The candidate may be required to appear for an oral examination.
- The comprehensive examination shall normally be constructed and evaluated by an examining committee of three examiners, at least two of whom shall be faculty members of the School of Human Kinetics and Recreation appointed by the Dean on the recommendation of the Director of the School.
- A candidate may not write the examination before completing the course work for the Degree.

Note: Every candidate in graduate studies shall comply with the **General Regulations**, the **Degree Regulations** and any additional requirements of the Department.

### 19.6 Courses

6000 Quantitative Methods in Physical Education  
 6001 Qualitative Research Methods in Physical Education  
 6002 Scientific and Cultural Foundations of Physical Education  
 6003 Physical Education, Culture and Society  
 6110 Physical Education, Recreation and Sport Management  
 6111 Canadian Delivery Systems in Physical Education, Recreation and Sport  
 6120 Curriculum Development in Physical Education  
 6121 Physical Education Leadership  
 6122 Comprehensive School Health  
 6123 Coaching and Long-term Athlete Development in the Education System  
 6124 Adapted Physical Activity for Persons with Physical and Intellectual Disabilities  
 6125 Evaluation and Testing in Physical Education  
 6130 Computer Applications in Physical Education  
 6410 Sport and Society  
 6420 History of Physical Education and Sport  
 6500 Introduction to Research in Physical Education  
 6600 Contemporary Issues and Trends in Physical Education  
 6510-6513 Graduate Seminar Series (non-credit)  
 6610-15 Individual Reading and Research in Special Areas

## 20 Regulations Governing the Degree of Master of Public Health

#### Professor and Dean

J. Rourke

#### Professor and Associate Dean

P. Moody-Corbett

#### Professor and Assistant Dean

D. McKay

The degree of Master of Public Health (M.P.H.) is offered by the Faculty of Medicine, currently with a specialization of Population and Public Health, delivering an advanced program of study for students from various academic fields who are interested in a professional degree that will prepare them for practical work in a variety of public health practice settings. The program is available for full-time or part-time study noting that full-time attendance is required during the Public Health Practicum (or Public Health Capstone Research Project) portion of the program. It is anticipated that full-time students will complete the program in 12 months in accordance with **Table**

**1 Recommended Course Sequence for Full-Time Students.**

The **General Regulations** of the School of Graduate Studies and the Degree Regulations outlined below will apply.

**20.1 Qualifications for Admission**

Admission to the Master of Public Health is limited and competitive. The regulations and procedures for admission are as given under the **General Regulations** of the School of Graduate Studies governing Master's degrees.

**20.2 Program of Study**

1. Minimum requirements for the M.P.H. degree in Population and Public Health will include the successful completion of 42 credit hours as follows:

- Eight core courses: Public Health Leadership and Management (MED 6725), Epidemiology I (MED 6270), Policy and Decision Making (MED 6288), Communicable Disease Prevention and Control (MED 6724), Biostatistics I (MED 6200), Health Promotion (MED 6723), Environmental Health (MED 6722) and Disease and Injury Prevention (MED 6721).
- Six additional credit hours in elective courses chosen from the **Courses** listing below, or other courses as approved by the M.P.H. program coordinator.
- The Public Health Seminar Series courses (MED 6700 - 6701).
- Either, the Public Health Practicum (MED 6710) or the Public Health Capstone Research Project (MED 6711) as determined by the Graduate Program Committee depending on the professional background and experience of the candidate.

The Public Health Practicum is a full-time practice experience conducted in a work setting and following the guidelines set forth by the Public Health Agency of Canada (PHAC).

All course work must be completed prior to the initiation of either the Public Health Practicum or the Public Health Capstone Research Project.

**Table I - Master of Public Health Recommended Course Sequence for Full-Time Students**

Semester	Courses
Fall	MED 6270 Epidemiology I MED 6288 Policy and Decision Making MED 6700 Public Health Seminar Series I MED 6724 Communicable Disease Prevention and Control MED 6725 Public Health Leadership and Management MED Elective Course
Winter	MED 6200 Biostatistics I MED 6701 Public Health Seminar Series II MED 6721 Disease and Injury Prevention MED 6722 Environmental Health MED 6723 Health Promotion MED Elective Course
Spring	MED 6710 Public Health Practicum, or MED 6711 Public Health Capstone Project

**20.3 Courses**

A selection of the following graduate courses shall be offered to meet the requirements of candidates, as far as the resources of the Faculty allow:

6102 Critical Theory in Health and Society  
6200 Biostatistics I  
6220 Introduction to Community Health  
6247 Chronic Disease Epidemiology  
6250 Basic Clinical Epidemiology  
6270 Epidemiology I  
6275 Epidemiology II  
6280 Community Health Research Methods  
6282 Canadian Health Care System  
6288 Policy and Decision Making  
6290 Determinants of Health: Healthy Public Policy  
6293 Knowledge Transfer and Research Uptake  
6294 Advanced Qualitative Methods  
6390 Human Population Genetics  
6700 Public Health Seminar Series I (1 credit hour)  
6701 Public Health Seminar Series II (1 credit hour)  
6710 Public Health Practicum (10 credit hours)  
6711 Public Health Capstone Project (10 credit hours)  
6720 Public Health Surveillance  
6721 Disease and Injury Prevention  
6722 Environmental Health  
6723 Health Promotion  
6724 Communicable Disease Prevention and Control  
6725 Public Health Leadership and Management

## 21 Regulations Governing the Degree of Master of Science

### Professor and Dean

M. Abrahams

### Professor and Associate Dean (Graduate and Research)

M. Courage

The degree of Master of Science (M.Sc.) is offered at present in Aquaculture, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computational Science, Computational Science (Co-operative), Computer Science, Earth Sciences (Geology), Earth Sciences (Geophysics), Environmental Science, Experimental Psychology, Food Science, Geography, Instrumental Analysis, Marine Biology, Mathematics, Physical Oceanography, Physics, Statistics. Interdisciplinary studies are encouraged; applicants should consult the academic unit concerned.

### 21.1 Qualifications for Admission

- Admission is limited and competitive. To be considered for admission an applicant will normally hold at least a high second class Honours Degree, or an M.D. Degree, or the equivalent of either, both in achievement and depth of study, from an institution recognized by the Senate, and shall have knowledge of the proposed field of specialization satisfactory to the Dean.
- Any other applicant may be considered for admission provided that:
  - the applicant's undergraduate record after the first year shows an average of at least Grade B in courses in the proposed field of specialization.
  - the applicant's overall undergraduate record after the first year shows an average of at least Grade B in all courses taken.
 In addition, an applicant may be required to demonstrate a satisfactory knowledge of the proposed field of study in an examination administered by the academic unit concerned.
- Only in exceptional circumstances, and only on the recommendation of the academic unit concerned, will the Dean consider applicants who do not meet these requirements of Clause 2.
- Applicants who do not possess the prerequisite academic qualifications should consult the appropriate academic unit about a program of further undergraduate courses. Such a program will be intended to raise their qualifications to a level considered academically equivalent to Honours. Such courses may not be used to fulfill the regulation course requirements of the M.Sc. Degree.
- A high degree of literacy in English is required of all graduate students in the University.

Note: *Some Departments have specific regulations in addition to those outlined above, and prospective applicants are advised to turn to the relevant part of this Calendar and acquaint themselves with the regulations of the Department or appropriate academic unit in which they are interested.*

### 21.2 Program of Study and Research

- The program of study for the Master of Science Degree shall consist of the successful completion of a program of courses and, in accordance with the specific program regulations, either of a thesis embodying original research or of a project and report.
- Every candidate shall read at least 6 credit hours in graduate program courses in one subject or in closely related subjects, and such other courses as may be required in an individual program. Undergraduate courses may, if necessary, be included as additional courses.
- Where Departmental regulations require more than the minimum number of credit hours, the Dean, on the recommendation of the appropriate academic unit, may waive in part the credit hour requirements for a Master's Degree, provided that no student may take less than the 6 required credit hours in graduate program courses.
- Students may, with the approval of the Dean, augment their studies with 6 credit hours in other courses of their choice. The grading system in non-program courses shall be that appropriate to the particular course, and the final grades in these courses will be recorded on the student's transcripts. However, passing grades are not required in these non-program courses in order to continue in graduate studies or obtain a Master's Degree. (See General Regulation **Evaluation, Evaluation of Graduate Students**).
- Every candidate shall submit a thesis or report on an approved subject in which systematic research has been conducted under the direction of a Supervisor recommended by the academic unit concerned and approved by the Dean. The candidate may be required to take an oral examination.
- The program of courses, the thesis or report topic and the Supervisor, and all changes in these, must be approved by the Dean.

### 21.3 Evaluation

- In order to continue in the School of Graduate Studies and in order to qualify for a Master's Degree, a candidate shall obtain an A or B grade in each program course. (See General Regulation **Evaluation, Evaluation of Graduate Students**).
- When it has been determined, on the basis of consultation with the candidate, the instructors in graduate courses, and the thesis or report Supervisor, that a candidate's work has fallen below a satisfactory level, the Supervisor or the Head of the appropriate academic unit may recommend to the Dean that such a candidate be required to withdraw from the program.

### 21.4 Thesis

See General Regulation **Theses and Reports**

Note: *Every candidate in graduate studies shall comply with the **General Regulations**, the Degree Regulations and any additional requirements of the appropriate academic unit.*

### 21.5 Aquaculture

#### Administrative Committee

Mr. C. Couturier, Fisheries and Marine Institute - Chair  
 Dr. K. Gamperl, Ocean Sciences Centre  
 Dr. L. Halfyard, Fisheries and Marine Institute  
 Dr. C. Parrish, Ocean Sciences Centre  
 Dr. F. Shahidi, Department of Biochemistry

The program of study leading to the Master of Science in Aquaculture is designed to instruct students in research using scientific principles derived from a wide range of disciplines including Biology, Biochemistry and Food Science. Research problems may involve

field and laboratory studies on various marine and freshwater flora and fauna. The Aquaculture group consists of faculty members from the Fisheries and Marine Institute of Memorial University of Newfoundland, the Ocean Sciences Centre (OSC), and the Departments of Biology and Biochemistry of Memorial University of Newfoundland.

The Aquaculture Administrative Committee is responsible for the program. This Committee is composed of five appointed members, two from the OSC, two from the Fisheries and Marine Institute of Memorial University of Newfoundland, and one member from an appropriate academic unit at Memorial University of Newfoundland. In addition, the Heads of the Departments of Biochemistry and Biology, the Director of the OSC and the Head of the School of Fisheries of the Fisheries and Marine Institute of Memorial University of Newfoundland are *ex-officio* members. The Committee is appointed by the Dean of Graduate Studies on the recommendation of the appropriate Heads and Directors. The Committee makes recommendations to the Dean of the School of Graduate Studies concerning the academic requirements of the program: admission, course programs of individual students, financial support, composition of supervisory committees, and theses examiners. The Chair of the Committee will also ensure that a supervisory report form for each student in the program is submitted annually to the Dean.

### 21.5.1 Qualifications for Admission

To be considered for admission to the Master of Science in Aquaculture, an applicant shall normally hold one of the following: at least a second class Honours degree, or an equivalent both in achievement and depth of study, from an institution recognized by the Senate, or successful completion of the Diploma in Aquaculture offered by the Fisheries and Marine Institute of Memorial University of Newfoundland, with academic standing deemed appropriate by the Committee.

### 21.5.2 Program of Study

1. The Master of Science Degree requires the successful completion of a program of courses and of a thesis embodying original research.
2. All candidates will be required to take 6 credit hours in graduate courses which will normally be Aquaculture 6000 - Shellfish Culture and Enhancement, and Aquaculture 6100 - Finfish Aquaculture.
3. Candidates who do not hold the Diploma in Aquaculture will be required to complete successfully a selection of its component courses.
4. Further courses may be required depending on the background of the individual student.
5. Once in the program, M.Sc. students must achieve a minimum grade of 65% in all required courses.
6. Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the appropriate academic units, as recommended by the Administrative Committee. Any serious deficiencies in the thesis noticed at this stage should be carefully considered, in consultation with the Supervisor, for rectification.
7. The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.

### 21.5.3 Courses

6000 Shellfish Culture and Enhancement

6100 Finfish Aquaculture

6200 Aquaculture and the Environment

6201-6209 Special Topics in Aquaculture (Prerequisite: Permission of Chair of Program)

Note: Consult the Program for a list of titles and information regarding availability.

## 21.6 Biochemistry

### Professor and Head of the Department

M. Mulligan

1. The Degree of Master of Science is offered in Biochemistry or Food Science to full-time and part-time students.
2. The admission requirements for the graduate programs in Biochemistry and Food Science are as given under **Regulations Governing Master of Science Degrees**. Depending on the background and/or area of specialization, a candidate's program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.
3. The program of a candidate for the M.Sc. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head of the Department or delegate.
4. It is the responsibility of the student to arrange regular meetings with his or her supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.
5. All graduate students are expected to attend and participate in the Departmental seminars.
6. A student completing an M.Sc. Degree will be required to present a seminar on his/her research area. The seminar will normally take place during the last semester of the student's program.

Any deficiencies noted during the seminar should be carefully considered by the student and the supervisory committee prior to submission of the thesis for final examination.

### 21.6.1 Courses

A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

6200 Current Biochemical Research Topics I

6210 Current Biochemical Research Topics II

6400 Control of Intermediary Metabolism

6410 Molecular Endocrinology

6420 DNA: The Structure and Function of Genes (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)

6421 RNA: Structure, Function and Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)

6422 Regulation of Protein Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)

6430 Bioenergetics

6440 Membranes  
 6450 Proteins  
 6500 Enzymology  
 6520 Nutritional Biochemistry  
 6530 Food Biochemistry  
 6590 Molecular Biology I (*cross-listed as Biology 6590 and Medicine 6590*) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)  
 6591 Molecular Biology II (*cross-listed as Biology 6591 and Medicine 6591*) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)  
 6592 Bacterial Genetics (*cross-listed as Biology 6592*) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)  
 6593 Selected Readings in Molecular Biology (*cross-listed as Biology 6593*) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/Medicine 6590, 6591 (or equivalent)  
 6600 Metabolic Toxicology  
 6610 Comparative Biochemistry  
 6620 Biochemical Adaptation  
 6630 Marine Biochemistry  
 6640 Biochemistry of Cancer  
 6650 Science and Technology of Seafoods  
 6660 Industrial Microbiology  
 6670 Biological Waste Treatment  
 6680 Processing and Quality of Foods

## 21.7 Biology

### Associate Professor and Head of the Department

P. Marino

The Degree of Master of Science is offered in Biology and Marine Biology to full-time and part-time students. Students interested in animal behaviour should also consult the section in the Calendar describing the **Master of Science in Cognitive and Behavioural Ecology program**. In addition, a **Master of Science Degree is offered in Aquaculture**. See appropriate sections of this Calendar.

### 21.7.1 Biology

1. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.
2. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student's program and to explore any areas of weakness in the candidate's biological knowledge, especially where these relate to the intended areas of research.
3. A student will be required to take a minimum of 6 credit hours and Biology 7000 (Graduate Core Seminar).
4. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.
5. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.
6. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.
7. The candidate must present a thesis seminar of 30-40 minutes duration to the Department prior to submission of the thesis to the School of Graduate Studies. The candidate will be questioned by a panel approved by the Departmental Graduate Studies Committee, in consultation with the student's Supervisory Committee. All others in attendance will be invited to question the candidate before adjournment. Deficiencies noted at this stage should be carefully considered by the student and the Supervisory Committee prior to submission of the thesis for final examination.  
 Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).
8. Each Master's candidate shall spend at least one semester in residence as a full-time student within the Department during the program. It is recommended that this semester be at the beginning of the program.  
 Under exceptional circumstances, this requirement may be waived by the Head of the Department (or delegate).
9. If candidates, in the opinion of the Supervisor, Committee and Department, are not making satisfactory progress, they will be required to withdraw from the program.
10. Theses shall conform to **Theses and Reports** of the **General Regulations** of the School of Graduate Studies and to the regulations in the Departmental Guidelines.

### 21.7.2 Marine Biology

1. A program of study leading to a Degree of Master of Science with a specialization in Marine Biology is governed by the above regulations.
2. Students will be required to take Biology 7000 (Graduate Core Seminar) and an additional 12 credit hours. These 12 credit hours must include Biological Oceanography 7531, and at least two of 6710, 7535, 7540, 7541, 7551, 7560, and 7561. The remaining credit hours may be selected from any other Biology graduate courses or relevant graduate courses in other Departments.

### 21.7.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Research Topics in Microbiology  
 6100 Modern Problems in Botany  
 6110 Advanced Phycology  
 6120 Mycology

6350 Behavioural Ontogeny (*Cross-listed as Psychology 6350*)  
 6351 Behavioural Ecology and Sociobiology (*Cross-listed as Psychology 6351*)  
 6355 Field Course in Animal Behaviour (*Cross-listed as Psychology 6355*)  
 6400 Parasitic Protozoology  
 6410 Helminthology  
 6420 Parasitic Arthropods  
 6590 Molecular Biology I (*Cross-listed as Biochemistry 6590 and Medicine 6590*) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)  
 6591 Molecular Biology II (*Cross-listed as Biochemistry 6591 and Medicine 6591*) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)  
 6592 Bacterial Genetics (*Cross-listed as Biochemistry 6592*) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)  
 6593 Selected Readings in Molecular Biology (*Cross-listed as Biochemistry 6593*) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/Medicine 6590, 6591 (or equivalent)  
 6700 Biology of the Molluscs  
 6710 Marine Benthic Biology  
 6900 Entomology  
 6910 Applied Entomology  
 7000 Graduate Core Seminar  
 7101 Topics in Marine Biology  
 7110 Cellular Physiology and Cytology  
 7140 Physiology of Parasitism  
 7201 Topics in Cellular and Molecular Biology and Physiology  
 7210 Arctic and Subarctic Biology  
 7220 Quantitative Methods in Biology  
 7250 Topics in Wildlife Biology  
 7270 Ecology of Newfoundland  
 7300 Ornithology  
 7301 Topics in Ecology and Conservation Biology  
 7520 Advances in Fish Biology  
 7530 The Molecular Basis of Development  
 7531 Biological Oceanography  
 7535 Research Methods in Marine Science  
 7540 Plankton Dynamics  
 7541 Physiological Ecology of Phytoplankton  
 7550 Fishery Biology  
 7551 Fisheries Resource Management  
 7560 Physiology of Marine Invertebrates  
 7561 Physiology of Marine Vertebrates  
 7570 Marine Benthic Biology  
 7600 Effect of Organic and Inorganic Pollutants on Biological Systems  
 7910 Community and Ecosystem Ecology  
 7920-7960 Special Topics in Biology

## 21.8 Chemistry

### Professor and Head of the Department

P. Pickup

- The Degree of Master of Science in Chemistry is offered as full-time or part-time study.
  - Preference for admission will be given to students with a B.Sc. (Honours) Degree in Chemistry from a recognized university.
  - Students holding a B.Sc. Degree in Chemistry from a university of recognized standing with a minimum overall average of 65% and minimum average of 65% in all Chemistry courses taken after the first year will be considered for admission to the Chemistry M.Sc. program. Students not admissible under 1.a. may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.
  - Students with a first class B.Sc. in an area other than Chemistry will also be considered for admission. Students not acceptable under 1.a. or 1.b. who have a strong background in an appropriate area of specialization may, on the advice of the Supervisory Committee, be required to pass qualifying exams and/or supplementary undergraduate courses with a minimum B grade.
  - Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course program.
- Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on the recommendation of the Chemistry Deputy Head (Graduate Studies).
- The program of a candidate must be arranged by the Supervisor before the second semester of registration in consultation with the Supervisory Committee and the student. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare written annual progress reports for submission to the Dean of Graduate Studies.
- Candidates are normally required to successfully complete Chemistry 6001 (Master's Seminar) and a minimum of 6 credit hours of graduate Chemistry courses with a minimum B grade. Additional program courses may be assigned by the Supervisory Committee.
- Candidates are required to attend Departmental seminars.
- Candidates must submit a thesis deemed acceptable to two examiners as described under **Regulations Governing Master of Science Degrees**. An oral defence is not required.

### 21.8.1 Courses

6001 Master's Seminar  
 6004 Project Seminar  
 6110 Analytical Chemistry II  
 6150 Advanced Spectroscopic Techniques  
 6151 Analytical Separations and Organic Mass Spectrometry  
 6152 Electroanalytical Techniques

6153 Techniques in Sampling, Trace Analysis and Chemometrics  
 6154 Business Management and Good Laboratory Practice  
 6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)  
 6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis  
 6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques  
 6190-9 Selected Topics in Analytical Chemistry  
 6201 Bioinorganic Chemistry  
 6202 Main Group Chemistry  
 6204 Mechanisms in Catalysis  
 6205 Photochemistry of Transition Metal Complexes  
 6210 Organometallic Chemistry  
 6290-9 Selected Topics in Inorganic Chemistry  
 6300 Quantum Chemistry I  
 6301 Quantum Chemistry II  
 6302 Molecular Spectroscopy  
 6304 Computational Chemistry I  
 6310 Electronic Structure Theory  
 6323 Chemical Thermodynamics I  
 6324 Chemical Thermodynamics II  
 6340 Biophysical Chemistry  
 6350 Electrochemical Kinetics  
 6360 Solid State Chemistry  
 6380 Adsorption on Surfaces  
 6381 Surface and Interface Science  
 6382-9 Selected Topics in Physical Chemistry  
 6390-8 Selected Topics in Physical Chemistry  
 6399 Chemical Kinetics and Dynamics  
 6401 Organic Spectroscopic Analysis I  
 6402 Organic Spectroscopic Analysis II  
 6421 Natural Products Chemistry  
 6460 Organic Synthesis  
 6470 Physical Organic Chemistry  
 6490-9 Selected Topics in Organic Chemistry  
 6590-9 Selected Topics in Theoretical and Computational Chemistry  
 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

### 21.8.2 Instrumental Analysis

#### 1. Program of Study

- The Department of Chemistry in collaboration with other faculty in Science offers a course-based program in instrumental analysis leading to the Degree of Master of Science. The program is available on a full-time or part time basis and will normally require four semesters of study. The program is designed for students who wish to pursue career opportunities in all areas of applied science which require in-depth knowledge and laboratory expertise in analytical instrumentation.
- The program will be administered by a Program Committee consisting of the Deputy Head (Graduate Studies) who will be chair, the Program Co-ordinator (Chemistry) and a third faculty member from another science Department. The Program Committee will be responsible for overseeing that a level of standards be maintained.
- The Program Co-ordinator will be responsible for coordinating the course offerings and for soliciting student projects for the program to be approved by the Program Committee.

#### 2. Qualifications For Admission

Admission is limited and competitive. To be considered for admission, applicants shall normally hold a Bachelor's Degree in Science (with at least a minor in Chemistry, and having completed Chemistry 4100 or equivalent) with at least a second class standing from an institution recognized by the Senate. The Program Committee will make recommendations on admission to the Dean of Graduate Studies.

#### 3. Program Requirements

- All programs must be approved by the Program Committee and by the Dean of Graduate Studies. All **General Regulations** of the School of Graduate Studies shall apply to this Degree.
- The program requires the completion of the 24 credit hours representing the eight required program courses, one project seminar, and a project report. Normally, completion of the program will require four semesters of study.
- A project seminar will be given to the Department of Chemistry at the end of the student's program.
- Students will be required to complete a research project, the scope of which will normally require no more than two semesters of full-time effort. The Project Report shall be evaluated according to the procedures outlined in **Theses and Reports**.

#### 4. Required Courses

6004 Project Seminar  
 6150 Advanced Spectroscopic Techniques  
 6151 Analytical Separations and Organic Mass Spectrometry  
 6152 Electroanalytical Techniques  
 6153 Techniques in Sampling, Trace Analysis and Chemometrics  
 6154 Business Management and Good Laboratory Practice  
 6155 Computers in Instrumental Analysis and Basic Electronics (Same as Medicine 6070)  
 6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis  
 6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques

## 21.9 Cognitive and Behavioural Ecology

### Administrative Committee

Dr. A. Storey, Department of Psychology - Chair  
 Dr. R. Anderson, Department of Psychology  
 Dr. T. Chapman, Department of Biology

Dr. I. Fleming, Ocean Sciences Centre  
 Dr. E. Miller, Department of Biology  
 Dr. W. Montevecchi, Department of Psychology  
 Mr. P. Regular, Graduate Student Representative  
 Dr. I. Warkentin, Sir Wilfred Grenfell College

1. The Cognitive and Behavioural Ecology Program is interdisciplinary and designed to train students in research that integrates cognitive and behavioural studies at the ecological level. Molecular, developmental and evolutionary aspects of cognition and behaviour are also studied. Supervisors include faculty from the Departments of Biology and Psychology, the Ocean Sciences Centre, the Faculty of Medicine and the Environmental Science Program at Sir Wilfred Grenfell College, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.
2. The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students' annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in the Cognitive and Behavioural Ecology Program are considered for teaching assistantships in the Psychology or Biology Departments.

### 21.9.1 Master of Science

1. Students normally take four courses (12 credit hours) in the first year. Students will be required to take Quantitative Methods in Biology (BIOL 7220) or Advanced Statistics in Psychology (6000) unless they have already passed an equivalent graduate or Honours course, Behavioural Ecology and Sociobiology (CABE 6351), Field and Lab Methods in Animal Behaviour and Behavioural Ecology (CABE 7000) and one elective, in consultation with the Supervisor.
2. Upon completion but before submission of the thesis, the student is required to give a formal thesis presentation.
3. The student will be required to comply with all other regulations governing the graduate Degree of Master of Science.

**Table of Credit Restrictions - Master of Science in Cognitive and Behavioral Ecology**

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course
CABE 6240	Biopsychology 6240
CABE 6350	Biopsychology 6350
CABE 6351	Biopsychology 6351
CABE 7000	Biopsychology 7000

### 21.9.2 Courses

Biology 7220 Quantitative Methods in Biology  
 Cognitive and Behavioural Ecology 6240 Special Topics  
 Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny  
 Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology  
 Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology  
 Psychology 6000 Advanced Statistics in Psychology

## 21.10 Computational Science

### Professor and Program Chair

M. Plumer

### 21.10.1 Administrative Committee

The Administrative Committee, appointed by the Dean of the School of Graduate Studies on the recommendation of the Dean of the Faculty of Science, consists of at least one representative of each participating academic unit, and one member external to the University.

### 21.10.2 Participating Departments and Organizations

This interdisciplinary program offers the Master of Science Degree in both Computational Science and Computational Science (Co-operative). The departments of Chemistry, Computer Science, Earth Sciences, Mathematics and Statistics, Physics and Physical Oceanography and the Faculty of Engineering and Applied Science are participants in this program. Other departments and faculties may be involved, depending on the nature of the thesis or project. External organizations may provide placements for co-op students, jointly supervise students, share computing resources and participate in teaching courses.

### 21.10.3 Admission Criteria and Procedures

1. The criteria for acceptance of an applicant are: his or her anticipated successful and timely completion of the program, and the willingness of a participating faculty member to supervise the applicant.
2. The assessment of an applicant's likelihood of success will be carried out in a variety of ways. Students will normally hold a B.Sc. (Honours) Degree, or equivalent, with a strong computational orientation. A general B.Sc. Degree, complemented by relevant experience, may also be acceptable. At the time of application, the student will be invited to demonstrate his or her background in the field. For example, the successful completion of a suitable B.Sc. which included a number of computer science courses or an undergraduate B.Sc. thesis which involved scientific computing would generally be acceptable, as would work experience which involved computing in a scientific environment.

- Admission decisions will be made by the School of Graduate Studies on the recommendation of the Chair of the Administrative Committee.

### 21.10.4 Program of Study

- The Computational Science Program is designed to train students in the state-of-the-art numerical methods, high performance computer architectures, use of software development tools for parallel and vector computers, use of graphics and multimedia tools and application of these techniques to at least one scientific or engineering discipline.
- The Program is offered in thesis and project (non-thesis) versions, with the option of a co-operative education program. It is intended that the overall level of student effort and performance required in each version will be comparable.
- The work for the thesis or project will be carried out under the guidance of a supervisory committee appointed by the Dean of the School of Graduate Studies on the recommendation of the Administrative Committee. Before submission of the thesis or project report to the School of Graduate Studies for examination, each student must present a seminar suitable for an interdisciplinary audience.
- All student programs will contain a core of 9 credit hours in prescribed graduate courses. Additional courses, in an area of scientific specialization must also be completed. The course requirements for each student will be approved by the Administrative Committee on the recommendation of the student's supervisory committee, and will reflect the interdisciplinary nature of the program.
  - The three core courses are: Computational Science 6910, Matrix Computations and Applications; Computational Science 6930, Numerical Linear Algebra for High-Performance Computers; Mathematics 6210, Numerical Solution of Differential Equations. The other courses will normally be taken from the list of approved courses.
  - The thesis version requires the completion of 15 credit hours in graduate courses numbered 6000 or higher including 9 credit hours in prescribed core courses, and the submission of an acceptable thesis to the School of Graduate Studies for final examination. The thesis is to contain an original scholarly contribution. The two additional courses will normally be chosen from the list of approved courses and be in the same field as the thesis work.
  - The project version requires the completion of 24 credit hours in graduate courses, including 9 credit hours in prescribed core courses, plus a project and an acceptable project report which must be submitted to the School of Graduate Studies for final examination. At least 9 credit hours of the additional 15 credit hours will normally be chosen from the list of approved courses. Nine of the 15 additional credit hours will normally be in the same field as the project. The project, which will include an in-depth written report, shall require the equivalent of at least one and no more than two semesters of full time work.

### 21.10.5 Co-operative Education Option

- A co-operative education option will be available. Students in this option may follow the thesis or non-thesis version of the program. It is expected to take up to 24 months to complete. Students will be asked to indicate if they wish to follow this option at the time of application.
- Students who are accepted into the M.Sc. program may be provisionally accepted into the co-op option. During their first two semesters, such students will interview with the Co-operative Education Services Centre and with prospective work term employers. Satisfactory performance in this phase of the program will lead to confirmation of acceptance into the co-op option, and allow the student to spend two of the next three terms working in industrial or government settings. Upon completion of each work term, the student must submit an acceptable work report.
- Following the completion of the two work terms, each student must complete any remaining course requirements and project report or thesis. Assuming that prior written authorization of the employer and the supervisory committee was obtained and submitted to the School of Graduate Studies, students may include material from the work terms in their reports or theses. For students following the non-thesis version of the program, the two work-term reports may be combined into a single, integrated report for this purpose. All other students must write a thesis on a research project which may be based on research completed during the work terms.
- Students who are accepted into the co-op option are not guaranteed placements. In the event that a student fails to obtain two semesters of placements, but successfully completes all other requirements of the Degree, he or she will still be eligible for graduation, but without the designation of a co-op degree.

### 21.10.6 Courses

The core courses are:

Computational Science 6910 Matrix Computations and Applications  
 Computational Science 6930 Numerical Linear Algebra for High-Performance Computers  
 Mathematics 6210 Numerical Solution of Differential Equations

The following courses are identified as suitable for students in this program. Other courses may be permitted.

#### Department of Chemistry

6301 Quantum Chemistry II  
 6310 Electronic Structure Theory

#### Computational Science

601W Work Term 1  
 602W Work Term 2  
 6900-6909 Special Topics  
 6910 Matrix Computations and Applications  
 6920 Scientific Programming  
 6925 Tools of the Trade for Programming High Performance Computers  
 6930 Numerical Linear Algebra for High-Performance Computers  
 6940 Computer Based Research Tools and Applications

#### Department of Computer Science

6713 Software Engineering  
 6722 Advanced Computer Architectures  
 6728-6729 Special Topics in Computer Systems - Computer Networks  
 6731 Topics in Numerical Methods  
 6738-39 Special Topics in Numerical Methods  
 6752 Applications of Computer Graphics  
 6756 Digital Image Processing

**Department of Earth Sciences**

6994 Special Topics in Earth Sciences - Geophysical Inversion and Applications  
6171 Advanced Exploration Seismology

**Department of Mathematics and Statistics**

6102-6119 Special Topics in Applied Mathematics  
6201 Numerical Methods for Partial Differential Equations  
6210 Numerical Solution of Differential Equations (required course for Computational Science)  
6212 Numerical Methods for Initial Value Problems  
6588 Selected Topics in Statistics and Probability - Generalized Additive Models with Applications in Scientific Visualization

**Department of Physics and Physical Oceanography**

6000 Condensed Matter Physics I  
6200 Nonlinear Dynamics  
6308 Ocean Dynamics I  
6309 Ocean Dynamics II  
6310 Physical Oceanography  
6316 Ocean Measurements and Data Analysis  
6317 Ocean Acoustics  
6318 Numerical Modelling  
6320 Turbulence  
6321 Coastal Oceanography  
6323 Stability Theory  
6400 Statistical Mechanics  
6850 Quantum Mechanics I

**Faculty of Engineering and Applied Science**

9015 Ocean Engineering Hydrodynamics  
9052 Ice Properties and Mechanics  
9501 Finite Element Analysis  
9713 Stochastic Hydrology  
9815 Electromagnetic Propagation  
9821 Digital Signal Processing  
9826 Advanced Control Systems  
9861 High-Performance Computer Architecture  
9865 Advanced Digital Systems  
9869 Advanced Concurrent Programming  
9871 Information Theory and Coding

**21.11 Computer Science****Associate Professor and Head of the Department**

E. Brown

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

**21.11.1 Master of Science**

1. Admission into a Master's program in Computer Science is restricted to candidates holding at least a Bachelor of Arts or Bachelor of Science degree (major in Computer Science or closely related discipline) with a minimum average of 75% overall. When circumstances warrant, this requirement may be waived on the recommendation of the Head of the Department. Applicants should also refer to the **Qualifications for Admission** given under the **Regulations Governing the Degree of Master of Science** within the School of Graduate Studies section of the current Calendar. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) test.
2. Candidates are required to complete a minimum of 15 credit hours in graduate program courses, 9 of which must be in computer science.
3. Each candidate is required to submit an acceptable thesis. The thesis project may involve a theoretical investigation and/or the development of an original, practical system. Each candidate is required to present a tentative outline of his/her proposed research to the Supervisor, with a copy to the Department Committee on Graduate Studies, by the end of his/her third semester in the program (sixth semester for part-time students). A fifteen minute oral presentation of the proposal is to be scheduled and given within four weeks of the submission date.
4. Prior to submission of a thesis, normally in the last semester of the program, candidates are required to present a seminar on the thesis topic, methods employed and research results.
5. All candidates are expected to take an active part in seminars and other aspects of the academic life of the Department of Computer Science.

**21.11.1.1 Courses**

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

**Programming Languages**

6711 Syntax and Semantics of Programming Languages  
6712 Compiling Techniques  
6713 Software Engineering  
6714 Functional Programming  
6715 Logic Programming  
6716 Concurrent Programming  
6718-6719 Special Topics in Programming Languages

**Computer Systems**

6720 Distributed and Parallel Computing  
6721 Operating Systems Design  
6722 Advanced Computer Architectures

6723 Microprocessor Systems  
6724 VLSI Design (same as Engineering 9863)  
6725 Computational Aspects of VLSI (same as Engineering 9864)  
6726 Modelling and Analysis of Computing Systems  
6727 Introduction to High Performance Computer Systems  
6728-6729 Special Topics in Computer Systems - Computer Networks

#### **Numerical Computations**

6731 Topics in Numerical Methods  
6732 Matrix Computations  
6738-6739 Special Topics in Numerical Methods

#### **Theoretical Aspects**

6741 Advanced Automata Theory  
6742 Theory of Databases  
6743 Complexity of Computational Problems  
6745 Special Topics - Advanced Computational Geometry  
6748-6749 Special Topics in Theoretical Computer Science

#### **Applications**

6751 Database Technology and Information Retrieval  
6752 Applications of Computer Graphics  
6753 Artificial Intelligence  
6754 Post-Genomic Computational Biology  
6755 Knowledge-Based Systems  
6756 Digital Image Processing  
6758-6769 Special Topics in Computer Applications  
6770-6790 Special Topics in Computer Science

## **21.12 Earth Sciences**

### **Professor and Head of the Department**

J.M. Hanchar

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

### **21.12.1 Master of Science**

1. Admission into a Master's Degree program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is restricted to candidates holding at least a B.Sc. Degree with second class Honours. When circumstances warrant, this requirement may be waived by the School of Graduate Studies on the recommendation of the Head of the Department.
2. Each candidate will be assigned a multi-member supervisory committee. This committee shall consist of the Supervisor and at least one other member. Within two weeks of the first registration in the M.Sc. Degree program, a candidate will meet with his/her supervisory committee. Within six months, the student and the supervisory committee will agree on a written thesis proposal outlining the objectives, methods, timetable and funding for the project, and provide the proposal (signed by the student and supervisory committee) to the Head for inclusion in the student's file.
3. A candidate for the M.Sc. Degree must complete a minimum of 6 credit hours in program courses. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of the Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects.
4. All course requirements should be completed within one year from the date of first registration in the M.Sc. Degree program.
5. A candidate is required to give an oral presentation to the Department on the results of his/her research. This presentation must be given during the second year of the program.
6. The M.Sc. Degree program will conclude with a thesis examination as prescribed in the **Regulations Governing the Degree of Master of Science**.
7. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that a candidate who is not making satisfactory progress be required to withdraw from the program.

### **21.12.2 Courses**

A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

#### **Overview Courses**

7110 Physics of the Solid Earth  
7120 Crustal Geophysics  
7300 Changes in Global Paleoenvironment  
7400 Tectonic Regimes  
7410 Engineering and Environmental Geology  
7500 Chemical Fluxes in the Earth  
7810 Paleocology (same as the former 6810. Credit may be obtained for only one of 7810 or 6810)

#### **General Courses**

6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology  
6141 Rotation of the Earth  
6142 Theory of Global Geodynamics  
6152 Paleomagnetism  
6171 Advanced Exploration Seismology  
6172 Borehole Seismic  
6175 Gravity and Magnetic Methods  
6177 Mathematical Formulations of Seismic Wave Phenomena  
6210 Genesis of Mineral Deposits  
6320 Marine Geology

6400 Flow and Transport in Fractured Rock  
 6410 Advanced Engineering and Environmental Geology  
 6420 Deformation Mechanisms  
 6500 Stable Isotope Geochemistry  
 6510 Trace Element Geochemistry  
 6520 Methods in Advanced Research in Geochemistry  
 6540 Radiogenic Isotope Geochemistry  
 6550 Biogeochemistry  
 6600 Petroleum Geology  
 6740 Modern and Ancient Sedimentary Environments  
 6750 Sequence Stratigraphy  
 6820 Palynology and Paleobotany  
 6900-6999 Special Topics in Earth Sciences

## 21.13 Environmental Science

### Board of Studies

Dr. J. Wroblewski, Ocean Sciences Centre - Chair  
 Dr. C. Campbell, Sir Wilfred Grenfell College  
 Dr. B. Chen, Faculty of Engineering and Applied Science  
 Dr. R. Chuenpagdee, Department of Geography  
 Dr. P. Marino, Head, Department of Biology  
 Dr. W. Montevecchi, Department of Psychology  
 Dr. L. Tarasov, Department of Physics and Physical Oceanography  
 Dr. S. Ziegler, Department of Earth Sciences

### 21.13.1 Program of Study

1. The Environmental Science Program is an interdisciplinary graduate program involving the departments of the Faculty of Science, the Department of Geography, and the Faculty of Engineering and Applied Science of Memorial University of Newfoundland. There are three Environmental Science Graduate degree streams, the Master of Science (M.Sc., Environmental Science), Master of Environmental Science (M.Env.Sci.), and the Doctor of Philosophy (Ph.D., Environmental Science).  
 The program is available on a full or part-time basis. Admission is open to students with appropriate Science, Geography or Engineering backgrounds.
2. The program is administered by a Board of Studies appointed by the Dean of Science.

### 21.13.2 Qualifications for Admission

Admission is limited and competitive. To be considered for admission applicants shall normally hold an Honours degree in Science or Geography with at least second class standing, or equivalent, or a Bachelor's degree in Engineering from an institution recognized by the Senate or shall have qualifications and/or environmental experience acceptable to the Dean of Graduate Studies and the Board of Studies. The Board of Studies will make recommendations on admission to the Dean of Graduate Studies.

### 21.13.3 Degree Requirements

1. To the extent that resources permit, individual programs will be developed to suit students' interests and needs. However all programs must be approved by the Board of Studies and by the Dean of Graduate Studies. All **General Regulations** of the School of Graduate Studies shall apply to these degrees.
2. **Master of Environmental Science**
  - a. The Master of Environmental Science is a multidisciplinary course-based Degree, focussed on environmental issues. The Degree program provides for both multidisciplinary courses and for courses focussed on the student's specific area of interest.
  - b. The Degree program requires the completion of 27 credit hours.
    - i. Students will be required to take a minimum of 15 credit hours in program courses, 9 credit hours of which must be ENVE/ENVS 6000, ENVS 6009 and ENVS 6010 and 6 credit hours from ENVE/ENVS 6001, 6002 and 6003.
    - ii. Students will be required to take a minimum of 12 credit hours in elective courses approved by the Board of Studies, 9 credit hours of which will normally be selected from graduate courses offered by the Faculties of Science, and Engineering and Applied Science. Students are advised to consult with instructors and Faculties regarding necessary prerequisites and availability.
3. **Master of Science (Environmental Science)**
  - a. The Master of Science (Environmental Science) is a research Degree which includes a thesis and course work. The thesis research will focus on environmental topics relevant to the student's background, and will be supervised by appropriate faculty, normally in the Faculties of Science and/or Engineering and Applied Science. The course component has two aims: to broaden the students' understanding of environmental issues; and to provide further training in areas of research specialization for the thesis.
  - b. Each student will have a Supervisory Committee normally consisting of a Supervisor and two others. The Supervisory Committee will be appointed by the Dean of Graduate Studies on the recommendation of the Board of Studies for Environmental Science.
  - c. The program of each student will consist of a minimum of 15 credit hours in program courses which will include ENVE/ENVS 6000 and ENVS 6010. Of the 9 credit hours remaining in program courses, 3 credit hours will be from ENVE/ENVS 6001, 6002 and 6003 and the other credit hours will be related to the student's speciality and will normally be chosen from graduate courses offered by the Faculties of Science, and Engineering and Applied Science.
  - d. All students will be required to submit a thesis embodying the results of systematic research on an approved topic. The thesis will be evaluated according to procedures outlined in General Regulation **Theses and Reports**.

### 21.13.4 Courses

ENVE/ENVS 6000 Environmental Science and Technology  
 ENVE/ENVS 6001 Earth and Ocean Systems

ENVE/ENVS 6002 Environmental Chemistry and Toxicology  
 ENVE/ENVS 6003 Applied Ecology  
 ENVS 6004 Environmental Pollution and Mitigation (cross-listed as Eng 9601)  
 ENVS 6005 Environmental Sampling and Pollutant Analysis (cross-listed as Eng 9603)  
 ENVS 6007 Environmental Risk Assessment (same as Eng 9609)  
 ENVS 6008 Air Pollution (same as Eng 9624)  
 ENVS 6009 Environmental Science Project  
 ENVS 6010 Environmental Seminar  
 ENVS 6201-6210 Special Topics in Environmental Science

## 21.14 Food Science

See **Biochemistry**.

## 21.15 Geography

**Associate Professor and Head of the Department**

C. Mather

1. The degrees of Master of Arts and Master of Science are offered in Geography by full-time or part-time study.
2. Admission requirements are set forth in the **General Regulations** of the School of Graduate Studies and Degree Regulations for **Master of Arts** and **Master of Science**.
3. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
4. An applicant will be admitted to a graduate program only if a faculty member agrees to act as Supervisor. A supervisory committee will be established after admission, normally consisting of the Supervisor and two other individuals, one of whom will normally be a member of the Department.
5. Major research areas for graduate study at the master's level are cultural, political, historical, economic, urban, resource management, community and regional development, geomorphology, Quaternary environments, climatology and geographic information sciences.
6. Candidates will register for the M.A. program if their fields of interest lie in an area of Human Geography or for the M.Sc. if their fields of interest are in Physical Geography or Geographic Information Sciences.
7. It is expected that the program of study and research for the M.A. or M.Sc. will normally be completed in a maximum of two years of full-time work, or three years of part-time work.
8. Candidates must successfully complete a minimum of 12 credit hours of graduate program courses with a minimum grade of B in each. Geography 6000 and 6001 will be required courses for all candidates who have not already completed equivalent courses at the Honours or post-graduate level.
9. Candidates whose undergraduate Degree is not in geography will normally be required to complete some additional undergraduate program courses during their first year of study, in addition to the required graduate program courses. Normally four such undergraduate courses will be required, and a minimum grade of 70% must be obtained in each.
10. Each candidate will be required to present a seminar on their research to the Department.
11. Each candidate must submit a thesis based on their own original research. This thesis will be examined in accordance with the **General Regulations** of the School of Graduate Studies.

### 21.15.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I  
 6001 Development of Geographical Thought and Practice II  
 6002 Directed Readings in Geography  
 6100 Research Techniques in A Selected Field of Geography I  
 6101 Research Techniques in A Selected Field of Geography II  
 6120 Geospatial Modelling and Analysis  
 6150 Environmental Remote Sensing and Image Analysis  
 6200 Economic Geography I  
 6201 Economic Geography II  
 6204 Sustainable Community and Regional Development  
 6250 Conservation and Sustainability of Natural Resources  
 6251 Survey Design, Questionnaire Development and Techniques of Data Collection  
 6300 Problems in Fisheries Geography  
 6400 Fluvial Geomorphology  
 6401 Glacial Geomorphology  
 6402 Coastal Geomorphology  
 6410 Climatology  
 6420 Quaternary Geography  
 6430 Biogeography  
 6500 Cultural Geography  
 6600 Historical Geography  
 6700 Political Geography  
 6800 Urban Geography  
 6821 Advanced Computer Mapping  
 6900 Graduate Seminar in Regional Geography  
 6990-95 Special Topics in Geography

## 21.16 Geology

See **Earth Sciences**

## 21.17 Geophysics

See Earth Sciences

## 21.18 Instrumental Analysis

See Chemistry

## 21.19 Mathematics and Statistics

Professor and Head of the Department

C. Radford

The degrees of **Master of Applied Statistics** (see appropriate calendar entry), Master of Science and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters' degrees are offered by full-time and part-time studies.

### 21.19.1 Specific Requirements for the M.Sc. in Mathematics

Every candidate for the M.Sc. in Mathematics is required to complete one of two options.

- Option 1:** At least 15 credit hours in graduate courses, at most 3 of which may be from seminar courses (excluding Math 696A/B) and at least 9 of which must be in courses selected from the list below with at least 3 credit hours in three of the indicated subject areas. Remaining course selections to satisfy the total credit hour requirement for this option may be chosen from the departmental course offerings, excluding Math 6299. A thesis is required as per **General Regulations, Theses and Reports**.
- Option 2:** At least 23 credit hours in graduate courses, including Math 696A/B, Math 6299 and at least 9 credit hours in courses selected from the list below with at least 3 credit hours in three of the indicated subject areas. Remaining course selections to satisfy the total credit hour requirement for this option may be chosen from the departmental course offerings, excluding seminar courses.
  - Algebra: 6320, 6321
  - Analysis: 6310, 6311, 6312
  - Applied Mathematics: 6100, 6201 or 6212, 6120
  - Combinatorics: 6340, 6341, 6342
  - Topology: 6300 or 6301, 6332

### 21.19.2 Specific Requirements for the M.Sc. in Statistics

Every candidate for the M.Sc. in Statistics is required to take at least 18 credit hours in graduate courses, at most 3 credit hours of which may be from seminar courses. A thesis is required.

**Table of Credit Restrictions for Present Mathematics Courses with Former Mathematics Courses**

(Credit may be obtained for only one course from each of the pairs listed in this table.)

Present Course	Former Course	Present Course	Former Course
6323	6030	6212	6080
6321	6032	6310	6130
6322	6035	6330	6200
6340	6040	6331	6210
6341	6041	6332	6350
6342	6042	6312	6500

### 21.19.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

#### Mathematics

6100 Dynamical Systems  
 6101 Modern Perturbation Theory  
 6102-6119 Special Topics in Applied Mathematics  
 6104 Infinite Dimensional Dynamical Systems  
 6120 Theoretical Fluid Dynamics  
 6121 Functional Differential Equations  
 6130 Introduction to General Relativity  
 6160 Partial Differential Equations  
 6201 Numerical Methods for Partial Differential Equations  
 6202-6209 Special Topics in Numerical Analysis  
 6210 Numerical Solution of Differential Equations  
 6212 Numerical Methods for Initial Value Problems  
 6299 Master's Project  
 6300 Algebraic Topology I (Homology Theory)  
 6301 Algebraic Topology II (Homotopy Theory)  
 6302 Algebraic Topology III (Theory of Fibre Bundles)  
 6304-6309 Special Topics in Topology  
 6310 Functional Analysis  
 6311 Complex Analysis  
 6312 Measure Theory  
 6313-6319 Special Topics in Analysis  
 6320 Group Theory

6321 Ring Theory  
 6322 Nonassociative Algebra  
 6323 Homological Algebra  
 6324-6329 Special Topics in Algebra  
 6330 Analytic Number Theory  
 6331 Algebraic Number Theory  
 6332 Point Set Topology  
 6340 Graph Theory  
 6341 Combinatorial Design Theory  
 6342 Advanced Enumeration  
 6343-6349 Special Topics in Combinatorics  
 6351 Advanced Linear Algebra  
 6910 Topology Seminar  
 6940 Analysis Seminar  
 6950 Algebra Seminar  
 696A/B Graduate Seminar (2 credit hours)

#### Statistics

6503 Stochastic Processes  
 6505 Survival Analysis  
 6510 Mathematical Statistics  
 6520 Linear Models  
 6530 Generalized Linear Longitudinal Mixed Models  
 6540 Time Series Analysis  
 6545 Statistical Computing  
 6550 Nonparametric Statistics  
 6560 Continuous Multivariate Analysis  
 6561 Categorical Data Analysis  
 6570-6589 Selected Topics in Statistics and Probability  
 6590 A Course in Statistical Consulting  
 6930 Statistics Seminar

## 21.20 Physics and Physical Oceanography

### Professor and Head of the Department

B. de Young

Programs leading to the Degree of Master of Science in Physics and in Physical Oceanography are offered to both full and part-time students. Because Oceanography is multidisciplinary in nature, undergraduate students who plan to undertake Physical Oceanography studies are urged to consult the faculty member in charge of Physical Oceanography programs at their earliest opportunity, in order to ensure the appropriateness of their undergraduate course selections. The Degree of Doctor of Philosophy in Physics is offered through both full-time and part-time study in Atomic and Molecular Physics, Condensed Matter Physics, and Physical Oceanography. The following Departmental Regulations are supplementary to the General Regulations governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

### 21.20.1 Master of Science

1. Admission to a M.Sc. program in the Department of Physics and Physical Oceanography is normally restricted to candidates holding an Honours B.Sc. Degree in Physics. However, depending on background and area of specialization and with particular reference to Physical Oceanography, other Baccalaureate degrees in science, applied science or mathematics, may be accepted.
2. A program of study for the M.Sc. Degree in Physics or Physical Oceanography shall normally include a minimum of 12 graduate credit hours. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.
3. Except with the special permission of the Department and the approval of the Dean of Graduate Studies, a candidate may not take any courses in addition to those approved for his/her M.Sc. program.
4. Before submission of the thesis to the School of Graduate Studies for examination, the student must present a seminar on the topic of his/her thesis research.

#### 21.20.1.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I  
 6001 Condensed Matter Physics II  
 6002 Superconductivity  
 6003 Path Integral Techniques in Condensed Matter Physics  
 6010-19 Special Topics in Condensed Matter Physics  
 6040 Biophysics  
 6060-69 Special Topics in Interdisciplinary Areas  
 6200 Nonlinear Dynamics  
 6308 Ocean Dynamics I  
 6309 Ocean Dynamics II  
 6310 Physical Oceanography  
 6313 Physical Fluid Dynamics  
 6314 Field Oceanography  
 6315 Polar Oceanography  
 6316 Ocean Measurements and Data Analysis  
 6317 Ocean Acoustics  
 6318 Numerical Modelling

6319 Climate Dynamics  
 6320 Turbulence  
 6321 Coastal Oceanography  
 6322 Stratified Fluids  
 6323 Stability Theory  
 6324 Models in Ocean Ecology  
 6360-69 (excluding 6363) Special Topics in Physical Oceanography  
 6363 Laboratory Experiments in Geophysical Fluid Dynamics  
 6400 Statistical Mechanics  
 6402 Theory of Phase Transitions  
 6403 Stochastic Processes, Time-Dependent and Non-equilibrium Statistical Mechanics  
 6502 Electrodynamics  
 6720 Theory of Molecules  
 6721 Molecular Spectroscopy  
 6722 Light Scattering Spectroscopy  
 6730 Molecular Theory of Liquids and Compressed Gases  
 6740 Physics of Atomic Collisions  
 6760-69 Special Topics in Atomic and Molecular Physics  
 6800 Group Theory  
 6810-19 Special Topics in Theoretical and Mathematical Physics  
 6850 Quantum Mechanics I  
 6851 Quantum Mechanics II  
 6900 Techniques in Experimental Condensed Matter Physics  
 6910-19 Special Topics in Experimental and Applied Physics

#### Table of Credit Restrictions - Physics and Physical Oceanography

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course	Present Course	Former Course
6001	6051	6321	6303
6002	6822	6321	6304
6003	6820	6323	6303
6200	6821	6402	6401
6308	6312	6403	6401
6309	6311	6403	6824
6313	6301	6502	6500
6316	6302	6502	6501
6317	6823	6722	6790

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The physical oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland's unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth's "third ocean") as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see **Earth Sciences**

## 21.21 Psychology

### Professor and Head of the Department

I. Neath

The Degree of Master of Science is offered in Experimental Psychology. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the sections in the Calendar describing the **Master of Applied Social Psychology (Cooperative)** and the Master of Science and Doctor of Philosophy in Cognitive and Behavioural Ecology programs.

#### Applications

All applicants are required to submit results from the General section of the Graduate Record Examinations.

At least one letter of reference should come from someone who is familiar with the applicant's research capability.

### 21.21.1 Master of Science

A candidate may be accepted into a program leading to the M.Sc. in Experimental Psychology.

**Experimental Psychology**

1. The areas of specialization offered are: Animal Behaviour (see **Cognitive and Behavioural Ecology Program**), Behavioural Neuroscience and Clinical, Cognitive, Developmental and Social Psychology.
2. Candidates shall normally complete 15 credit hours, including: Advanced Statistics in Psychology (6000), Research Design (6001), Core Graduate Seminar in Psychology (699A/B), and 6 credit hours related to their area of specialization. Candidates will also register for the Colloquium Series in Psychology (6010) each Fall and Winter semester of their program for a maximum of four registrations.
3. Every candidate shall submit an original thesis based upon an approved experimental research topic.

**21.21.1.1 Courses**

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6000 Advanced Statistics in Psychology
- 6001 Research Design
- 6010 Colloquium Series in Psychology (repeatable, non-credit)
- 6100-6130 Special Topics in Experimental Psychology
- 6200 Learning I
- 6201 Learning II
- 6203 Behavioural Pharmacology
- 6210 Behavioural Analysis of Toxins
- 6351 Behavioural Ecology and Sociobiology (*Cross-listed as CBE 6351*)
- 6400 Theory and Methods in Social Psychology
- 6401 Social Cognition
- 6402 Group Processes
- 6403 Advanced Methods in Applied Social Psychological Research
- 6404 Project in Applied Social Psychology (*Note: This course is open only to students in the Master of Applied Social Psychology*)
- 6500 Developmental Psychology I
- 6501 Developmental Psychology II
- 6502 Developmental Changes During Old Age
- 6700 Perception
- 6710 Human Information Processing
- 6720 Human Memory
- 6800 Behavioural Neuroscience I
- 6801 Behavioural Neuroscience II
- 6810 Psychometrics
- 6910 Personality
- 699A/B Core Graduate Seminar in Psychology (3 credit hours).

## 22 Regulations Governing the Degree of Master of Science in Kinesiology

**Associate Professor and Acting Director**

A. Card

The Degree of Master of Science in Kinesiology (M.Sc. (Kinesiology)) is offered to qualified full-time and part-time students by the School of Human Kinetics and Recreation. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Human Kinetics and Recreation outlined below will apply to the Master of Science in Kinesiology program.

**22.1 Qualifications for Admission**

1. The admission requirements for the Master of Science in Kinesiology are as given under the **General Regulations** of the School of Graduate Studies. Admission is limited and competitive. Preference for admission may be given to students with undergraduate degrees in relevant disciplines, with a minimum overall B average. Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Human Kinetics and Recreation. Admission of a candidate to the program shall be made by the Dean of Graduate Studies.
2. Only in exceptional circumstances, and only on the recommendation of the Director of the School of Human Kinetics and Recreation, shall the Dean of Graduate Studies consider applicants who do not meet the requirements above.

**22.2 Program and Degree Requirements**

1. The Degree of Master of Science in Kinesiology is offered in the areas of Exercise and Work Physiology, Biomechanics/Ergonomics and Sport Psychology.
2. The program of a candidate for the Master of Science in Kinesiology shall be the responsibility of the Supervisory Committee, composed of the Supervisor and at least one other faculty member recommended with the concurrence of the Supervisor by the Director of the School, or delegate.
3. Candidates for the Master of Science in Kinesiology shall be required to complete a minimum of 15 credit hours plus a thesis. HKR 6000 is normally required for all candidates. In addition, all on-campus candidates shall be required to complete four semester-length seminar courses (HKR 6510-6513). Off-campus or part-time candidates who cannot attend the on campus seminar series can substitute 24 hours of participation in (over their two year tenure) and one presentation at national, provincial or regional conferences, workshops, professional development seminars or equivalent activities. The remaining course requirements will be selected, in agreement with the Supervisory Committee, to reflect the kinesiology areas of specializations offered with the School.
4. It is the responsibility of the student to arrange regular meetings with their supervisory committee. An annual report, prepared by the Supervisor and signed by all members of the Supervisory Committee and the student, is submitted to the Director of the School of Human Kinetics and Recreation (or delegate) as required by the School of Graduate Studies.
5. Depending on the background of the candidate or his/her area of intended specialization, a candidate's program may be modified. Such modifications may include a reduction in course requirements where a student demonstrates that he or she brings graduate level competency to their program in specific areas, or may include additional graduate or undergraduate courses, as specified by

the student's Supervisory Committee. A minimum of three courses or 9 credit hours completed in the School of Human Kinetics and Recreation is mandatory.

6. A student completing a Master of Science in Kinesiology will be required to present a thesis proposal for his or her proposed thesis normally by the end of the third semester of study. Candidates will be questioned on their proposal by a three-member panel appointed by the Director in consultation with the Supervisory Committee. Any deficiencies noted during the proposal should be carefully considered by the student and the Supervisory Committee prior to approval of the thesis topic.
7. All graduate students are expected to attend and participate in the School of Human Kinetics and Recreation seminars and thesis proposal presentations.
8. In conjunction and collaboration with other Faculties and Schools of Memorial University of Newfoundland, students may pursue their special interests through electives from departments/schools outside the School of Human Kinetics and Recreation. These courses must be approved by the Graduate Studies Committee and the Dean of Graduate Studies in the preceding semester.
9. Candidates may apply for transfer course credits. All course transfers require the approval of the Dean of Graduate Studies, on the recommendation of the Director of the School of Human Kinetics and Recreation, and are subject to General Regulation **Program Requirements, Transfer of Course Credits** of the School of Graduate Studies.

## 22.3 Evaluation

1. In order to continue as a candidate for a Master of Science in Kinesiology Degree, a candidate who receives a final grade of 'C' or less in a program course must repeat that course and obtain a minimum grade of 'B'. In the case of an elective course a suitable replacement course, acceptable to the Graduate Studies Committee of the School of Human Kinetics and Recreation, may be substituted for the failed course. Only one such repetition/replacement shall be permitted in the candidate's graduate program. Should a grade of lower than 'B' be obtained in the repeated course/replacement course, or any other program course, the candidate shall be required to withdraw from the program.
2. When the Graduate Studies Committee of the School of Human Kinetics and Recreation has determined, through consultation with the candidate, the instructors of graduate courses and the program advisor or thesis Supervisor that the candidate's work has fallen below satisfactory level, it may request that the Director of the School of Human Kinetics and Recreation recommend to the Dean of Graduate Studies that the candidate's program be terminated.

## 22.4 Period of Study

The period of study for a graduate program shall not normally exceed seven years beyond first registration.

1. A candidate in full-time attendance may register for a maximum of 12 credit hours in any regular semester and a maximum of 6 credit hours in intersession or summer session.
2. A candidate in part-time attendance may register for a maximum of 3 credit hours in any semester, including intersession or summer session.

## 22.5 Thesis

The School of Graduate Studies General Regulation describes the requirements in **Theses and Reports**.

## 22.6 Courses

6000 Quantitative Methods in Physical Education  
 6001 Qualitative Research Methods in Physical Education  
 6130 Computer Applications in Physical Education  
 6201 Foundations of Sport Psychology and Mental Training Techniques  
 6202 Intervention and Enhancement Techniques in Mental Training Consultation  
 6203 Sport Psychology Consulting  
 6310 Exercise Physiology I  
 6320 Exercise Physiology II  
 6330 The Application and Implementation of Kinesiology Technologies  
 6340 Occupational Biomechanics  
 6510-6513 Graduate Seminar Series (non-credit)  
 6610-15 Individual Reading and Research in Special Areas

## 23 Regulations Governing the Degree of Master of Science in Medicine

### Professor and Dean

J. Rourke

### Professor and Associate Dean

P. Moody-Corbett

### Professor and Assistant Dean

D. McKay

The Faculty of Medicine offers the degree of Master of Science in Medicine in eight program areas: Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, and Neurosciences. Each program area has a Co-ordinator who is responsible for communicating the interests of the programs to the Faculty of Medicine Graduate Studies Committee and participates in the admission of graduate students into the program in Medicine. The Faculty of Medicine also offers the degree of Master of Public Health.

The Degree of Master of Science in Medicine (in all of the programs excluding the Applied Health Services Research Program) is offered in the Faculty of Medicine to full-time and part-time students. The Applied Health Services Research program is offered by full-time study only. The graduate diploma programs in Community Health and Clinical Epidemiology are offered by part-time study only.

The following regulations will apply in conjunction with the **General Regulations** of the School of Graduate Studies.

## 23.1 Master of Science in Medicine

### 23.1.1 Qualification for Admission

The admission requirements for each of the M.Sc. in Medicine Program areas in Medicine are described under Programs of Study.

### 23.1.2 General Program Requirements

1. The program of study for the M.Sc. in Medicine Degree is the responsibility of the Supervisory Committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. Course requirements are set by each of the program areas and are described under **Programs of Study**. In addition, all students will be required to complete GRAD 9991 (Graduate Research Integrity Program).
4. In addition to courses and research, graduate students are expected to participate in Faculty of Medicine seminars and journal clubs.
5. The M.Sc. in Medicine requires the successful completion of a research project and a written thesis.

### 23.1.3 Program Areas

#### 23.1.3.1 Applied Health Services Research

The Applied Health Services Research program is jointly offered by the University of New Brunswick (UNB), Memorial University of Newfoundland (MUN), Dalhousie University (Dal), and the University of Prince Edward Island (UPEI). Students will be educated in an interdisciplinary environment and will develop a substantive understanding of: the Canadian health system, the conduct of ethical research, critical appraisal, appropriateness of research design for particular policy questions and determinants of health models. They will also gain first-hand exposure in a decision-making/policy environment and learn how to conduct research through completion of a thesis. Access to specific computer software and the Internet is required and will be the responsibility of each student.

1. Administration
  - a. An Advisory Board, consisting of the Deans of Graduate Studies, the Principals from each site, plus student representation as well as health care decision makers and stakeholders from the Atlantic Region will oversee the academic program across the Universities and ensure program integrity.
  - b. A Program Management Committee, consisting of the Principals and Site Co-ordinators from UNB, Memorial University of Newfoundland, Dal and UPEI will oversee the operation of the program.
  - c. At Memorial University of Newfoundland, the program shall be administered through the Office of Research and Graduate Studies (Faculty of Medicine) by a Principal who shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Medicine.
2. Qualifications for Admission
  - a. Admission is limited and competitive. To be considered for admission to the program, an applicant shall normally have a bachelor's degree with a minimum 75% average (or equivalent) from an institution recognized by the Senate. Normally, students should have completed an undergraduate course in statistics.
  - b. Students are normally admitted to the Fall semester (September). The deadline for receipt of applications is March 1. Late applications will only be considered if admissions decisions have not yet been made.
3. Program Requirements
  - a. All students will be required to successfully complete eight core courses, the Graduate Research Integrity Program, a four-month residency placement and a thesis. In addition, candidates must participate in five conference workshops each of one week duration.
  - b. Prior to submission of the thesis to the School of Graduate Studies for examination (see **General Regulation Thesis and Reports**), candidates shall present an open seminar.
  - c. Outline of program of study:

Term	Required Courses
Fall - Semester 1	Workshop 1 Theme: Orientation to first year MED 6282 MED 6284 MED 6286 Workshop 2 Theme: Research Issues and Critical Appraisal
Winter - Semester 2	MED 6288 MED 6290 MED 6292 Workshop 3 Theme: Policy and Decision Making
Spring - Semester 3	Residency Placement: All candidates are required to complete a 16-week residency placement. The residency placement is negotiated by the Principal in consultation with the student and governed by the agreements outlined in the Atlantic Regional Training Centre residency manual. Workshop 4 Theme: Orientation to second year
Fall - Semester 4	MED 6293 MED 6294 or MED 6295 Workshop 5 Theme: Communication and Dissemination
Winter & Spring - Semester 5 & 6	Thesis, including public presentation

### 23.1.3.2 Cancer and Development

The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.

#### 1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees. All courses in the program have as a prerequisite, successful completion of an advanced, upper-level biochemistry, biology or medical course, with an emphasis on molecular biology or medicine.

#### 2. Program Requirements

All students are required to attend, for credit, and participate in the Cancer and Development Journal Club (Cancer, Seminars, MED 6400-6403). One other graduate course (chosen from MED 6580, 6590, 6591, 6340, 6341 or 6342) is required for M.Sc. Medicine students although other courses may be required in individual cases.

### 23.1.3.3 Cardiovascular and Renal Science

The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.

#### 1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees.

#### 2. Program Requirements

Students will be required to take a minimum of two graduate courses. Basic Cardiovascular and Renal Physiology (MED 6140) is required and must be taken within 1.5 years after entry into the program. Students will choose a second course from MED 6141, 6142, 6143, 6144 or 6194 or any other graduate course approved by the student's supervisory committee.

### 23.1.3.4 Clinical Epidemiology

The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health care professionals interested in health care delivery research.

#### 1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees. In exceptional circumstances, a professional equivalent qualification will be considered for admission.

#### 2. Program Requirements

- Students are required to take: Biostatistics I (MED 6200), Basic Clinical Epidemiology (MED 6250), Clinical Research Design (MED 6255) and Applied Data Analysis for Clinical Epidemiology (MED 6260) plus one or more additional course(s) as recommended by the supervisory committee. In addition students are required to take the Seminar Series (MED 6400-6403).
- Students are expected to give an oral presentation of their thesis research.

### 23.1.3.5 Community Health

The graduate program in Community Health enables students to pursue research and academic studies in selected topics including community health, epidemiology, socio-behavioural health, biostatistics, health services utilization, health policy and health promotion.

#### 1. Qualifications for Admission

The admission requirements are as given under the **General Regulations** governing Master's degrees. In exceptional

circumstances, a professional equivalent qualification will be considered. Students are expected to have successfully completed at least one basic university-level statistics course.

## 2. Program Requirements

Students are required to take three core courses: Introduction to Community Health (MED 6220), Epidemiology I (MED 6270) and Community Health Research Methods (MED 6280); 2 core stream courses: either the quantitative stream, consisting of Biostatistics I (MED 6200) and Epidemiology II (MED 6275) or the qualitative stream, consisting of Advanced Qualitative Methods (6294) and Critical Theory in Health and Society (MED 6102); and 1 elective; and to attend, for credit, and participate in four semester-length seminar courses (MED 6400-6403).

### 23.1.3.6 Human Genetics

The graduate program in human genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, gene mapping, medical genetics, birth defects and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Basic Sciences, Community Health and Clinical Sciences) participate in the program.

#### 1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master's degrees. Applicants with backgrounds in the fields of genetics, biochemistry and biology are preferred.

#### 2. Program Requirements

- Students will be required to complete a minimum of two graduate courses. Within the Human Genetics program the following courses are offered: Human Molecular Genetics (MED 6393), Human Population Genetics (MED 6390), Applied Human Genetics (MED 6392) and Selected Topics in Human Genetics (MED 6391). In addition, there are a number of courses in other graduate programs which could be suitable for some students in this program, including Epidemiology I (MED 6270), Molecular Biology of Cancer (MED 6580), Molecular Biology I (MED 6590) and Molecular Biology II (MED 6591). Course selection for each student is determined by the supervisory committee in consultation with the student and is based on the area of study and past course credits.
- Students are expected to participate in the activities of the genetics group. These include the weekly Journal Club/Research Discussion Group and the Genetics Seminar Series (MED 6400-6403).

### 23.1.3.7 Immunology and Infectious Diseases

The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science oncology research. The graduate programs are designed to provide individualized training oriented towards basic research and a solid and scientific background in the discipline of immunology and infectious diseases.

#### 1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master's degrees. A Bachelor of Science Degree or equivalent is required.

#### 2. Program Requirements

Students in the program are required to take three core courses: Immunology I (MED 6127), Immunology II (MED 6128) and Advanced Immunological Methods (MED 6130). Some students may be required to take additional courses depending upon their thesis topic. All students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Series (MED 6400-6403) for a minimum of three semesters.

### 23.1.3.8 Neurosciences

The Neuroscience Program offers graduate studies in an interdisciplinary setting including faculty from biomedical science within the Faculty of Medicine and Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.

#### 1. Qualifications for Admission

The admission requirements are as given under the General Regulations governing Master's degrees. It is expected that the students will have had courses in biochemistry, biology and/or psychology with some exposure to basic university-level statistics.

#### 2. Program Requirements

- Students in the program are required to take Systems Neuroscience (MED 6196) and one other graduate level course. Additional courses may be required based on the recommendation of the supervisory committee.
- Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

## 23.2 Graduate Diploma

The Faculty of Medicine offers a Graduate Diploma providing an opportunity for professionals and individuals within the health sector to obtain or upgrade their training in Community Health and Humanities or Clinical Epidemiology.

### 23.2.1 Qualifications for Admission

To be admitted to the graduate diploma program a student must be eligible to register as a graduate student, as given under the General Regulations governing M.Sc. degrees. In special circumstances, and upon the recommendation of the Community Health and Humanities, or Clinical Epidemiology Co-ordinator, a suitable combination of training and professional experience relevant to the program may be acceptable for admission.

### 23.2.2 Program Requirements

A graduate diploma in Community Health and Humanities requires successful completion of Introduction to Community Health (MED 6220), Epidemiology I (MED 6270), 3 electives, and 2 semester-length seminar courses (MED 6400-6401).

A graduate diploma in Clinical Epidemiology requires successful completion of Medicine 6200, 6250 and 6255 and the completion of a minimum of two of the Clinical Epidemiology seminar courses: Medicine 6400-6403 Research Seminars for M.Sc. Students I-IV.

### 23.2.3 Graduate Courses

6070 Seminars in Physiological Instrumentation  
 6090-6101 Special Topics  
 6102 Critical Theory in Health and Society  
 6103-6119 Special Topics  
 6127 Immunology I  
 6128 Immunology II (Prerequisite Medicine 6127)  
 6130 Advanced Immunological Methods  
 6131-6139 Special Topics  
 6140 Basic Cardiovascular and Renal Physiology  
 6141 Cardiovascular/Renal Techniques  
 6142 Selected Topics in Cardiovascular and Renal Physiology  
 6143 Cardiovascular Anatomy  
 6144 Current Concepts in Cardiovascular and Renal Pathophysiology  
 6180 Structure, Function and Pharmacology of Muscle  
 6190 General Pharmacology  
 6192 Pharmacology of Receptors and Receptor Effector Coupling Processes  
 6193 Advanced Topics in Neuroscience  
 6194 Advanced Topics in Physiology  
 6195 Neurobiology of Nervous System Diseases  
 6196 Systems Neuroscience  
 6197 Cellular Neuroscience  
 6198 Neuroanatomy for Graduate Students  
 6199 Health Sciences: Writing and Grantsmanship  
 6200 Biostatistics I  
 6201 Elementary Statistics (one-credit hour)  
 6202 Univariate Inference (Prerequisite: 6201) (one-credit hour)  
 6203 Multivariate Inference (Prerequisite: 6202) (one-credit hour)  
 6220 Introduction to Community Health  
 6221 Concepts of Public Health (one-credit hour)  
 6222 Health Protection and Disease Prevention (Prerequisite: 6221) (one-credit hour)  
 6223 Health Promotion (Prerequisite: 6222) (one-credit hour)  
 6250 Basic Clinical Epidemiology  
 6251 Introduction to Clinical Epidemiology (one-credit hour)  
 6252 Critical Appraisal (Prerequisite: 6251) (one-credit hour)  
 6253 Clinical Measurement (Prerequisite: 6252) (one-credit hour)  
 6255 Clinical Research Design  
 6260 Applied Data Analysis for Clinical Epidemiology  
 6270 Epidemiology I  
 6271 Principles of Epidemiology (one-credit hour)  
 6272 Observational Study Design (Prerequisite: 6271) (one-credit hour)  
 6273 Survey Methodology (Prerequisite: 6272) (one-credit hour)  
 6274 Chronic Disease Epidemiology  
 6275 Epidemiology II  
 6280 Community Health Research Methods  
 6281 Theory and Approaches to Medical Publication  
 6282 Canadian Health Care System  
 6284 Research and Evaluation Design and Methods  
 6286 Ethical Foundations of Applied Health Research  
 6288 Policy and Decision Making  
 6290 Determinants of Health: Healthy Public Policy  
 6292 Qualitative and Quantitative Methods for Health Services Research  
 6293 Knowledge Transfer and Research Uptake  
 6294 Advanced Qualitative Methods  
 6295 Advanced Quantitative Methods  
 6296 Residency  
 6340 Research Topics in Cancer I  
 6341 Research Topics in Cancer II  
 6342 Basic Principles of the Pathology of Cancer  
 6390 Human Population Genetics  
 6391 Selected Topics in Human Genetics  
 6392 Applied Human Genetics  
 6393 Human Molecular Genetics  
 6394 Cancer Genetics  
 6400 Research Seminars for M.Sc. Students I (one-credit hour)  
 6401 Research Seminars for M.Sc. Students II (one-credit hour)  
 6402 Research Seminars for M.Sc. Students III (one-credit hour)  
 6403 Research Seminars for M.Sc. Students IV (one-credit hour)  
 6410 Research Seminars for Ph.D. Students I (one-credit hour)  
 6411 Research Seminars for Ph.D. Students II (one-credit hour)  
 6412 Research Seminars for Ph.D. Students III (one-credit hour)  
 6413 Research Seminars for Ph.D. Students IV (one-credit hour)  
 6420 Medical Science/Social Responsibility in Health Care: Aspects of Medical History (Same as History 6125)  
 6580 Molecular Biology of Cancer (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])  
 6590 Molecular Biology I - *cross-listed as Biology 6590 and Biochemistry 6590* (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])  
 6591 Molecular Biology II - *cross-listed as Biology 6591 and Biochemistry 6591* (Prerequisites: Biology 4241, Biochemistry 4100 [or equivalent])

## 24 Regulations Governing the Degree of Master of Science in Pharmacy

### Associate Professor and Director

L.R. Hensman

The Degree of Master of Science in Pharmacy (M.Sc. (Pharm.)) is offered to qualified full-time and part-time students by the School of Pharmacy. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply to the M.Sc. (Pharm.) program. Every candidate in graduate studies shall comply with the **General Regulations**, the Degree Regulations and all additional requirements of the School of Pharmacy.

### 24.1 Qualifications for Admission

Admission to the M.Sc. (Pharm.) program will be offered on the basis of academic excellence. The basic requirements for admission are those established by the School of Graduate Studies of Memorial University of Newfoundland. The minimum qualification for admission is a recognized four-year undergraduate degree in Pharmacy, or a recognized four-year undergraduate degree in physical, chemical or biological science, or equivalent, with an overall B average.

Applications submitted through the School of Graduate Studies will be evaluated by the Graduate Studies Committee of the School of Pharmacy. No candidate will be admitted to the program without a recommendation of acceptance by the Graduate Studies Committee. Admission of a candidate to the M.Sc. (Pharm.) program shall be made by the Dean of Graduate Studies.

### 24.2 Formulation of Program of Study

Upon acceptance to the program, the Supervisor will assess the student's research interests, background, strengths and weaknesses. The Supervisor will formulate a program of study (see below) and select a supervisory committee for the student. The program of study will be selected on the basis of the thesis research, the background of the student, and the perceived need for specific graduate courses that will complement the student's working knowledge in his/her area of research. The supervisory committee will include the Supervisor, one other academic staff person from the School of Pharmacy, and one external academic staff person from Memorial University of Newfoundland. This committee will advise the student about his/her thesis research. Accordingly, they will meet with the student within two months of his/her initial registration, at the end of the second semester (8th month of study), at the end of the fourth semester (16th month), and immediately before the student begins to write the thesis. Both the program of study and the supervisory committee must be approved by the Graduate Studies Committee.

### 24.3 Program of Study

1. Minimum requirements for the M.Sc. (Pharm.) Degree will be the successful completion of:
  - a. Six credit hours in program graduate courses chosen from those available in Pharmacy, Medicine or Biochemistry.
  - b. Pharmacy Seminar
  - c. A thesis embodying original research

2. Graduate courses will be chosen based on the academic background of the student and the area of his/her thesis research.

Note: *Qualified students accepted into the program who are considered to have an insufficient background for their thesis research may be required to successfully complete additional courses as selected by their Supervisor.*

3. Pharmacy Seminar: All candidates for the Degree of M.Sc. (Pharm.) will be required to participate in the Pharmacy Seminar during the first two years of their program. Selected topics in pharmaceutical sciences will be presented and discussed by faculty, students and visiting speakers. Graduate students will be required to present one seminar each year. In the second year of study, the graduate student will present a progress report of his/her research in the seminar. Upon successful completion of the seminar the Chair of the Graduate Studies Committee will so notify the Dean of Graduate Studies.

#### Courses

Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any of the graduate Pharmacy courses.

6000 Medicinal Chemistry  
 6001 Advanced Physical Pharmacy  
 6002 Dosage Form Design and Novel Drug Delivery Systems  
 6003 Pharmacokinetic Modelling  
 6004 Principles of General Pharmacology  
 6005 Toxicology of Therapeutic Agents and Chemicals  
 6100-6104 Special Topics in Pharmacy

#### M.Sc. (Pharm.) Thesis

Every candidate shall submit a thesis to the School of Graduate Studies. The thesis shall contain original research conducted by the candidate and approved by the supervisory committee.

In preparation for the thesis examination, the candidate will provide a copy of the thesis to each member of the supervisory committee. Each member of this committee will submit a written report to the Chairman of the Graduate Studies Committee.

Before the thesis is submitted, the student shall present an open seminar on the topic of investigation to the School of Pharmacy. Any serious deficiencies noticed at this stage should be carefully considered, in consultation with the supervisory committee, for revision.

Three copies of the thesis shall be submitted to the School of Graduate Studies through the School of Pharmacy, in a form and format as specified by the School of Graduate Studies.

As specified in General Regulation **Theses and Reports** of the School of Graduate Studies, the written thesis will be reviewed by examiners appointed by the Dean of Graduate Studies on the recommendation of the Director of the School of Pharmacy or the Chairman of the Graduate Studies Committee.

## 25 Regulations Governing the Degree of Master of Social Work

Assistant Professor and Acting Director

E. Oliver

The degrees of Master of Social Work and Doctor of Philosophy are offered in social work.

The Master of Social Work (M.S.W.) may be completed by part-time or full-time study. All program components are offered by distance format, and not in a regular classroom format. "Distance delivery" includes course delivery using any or all of web-based format, traditional correspondence (readings packages, mailed assignments), and/or teleconferencing, audio-conferencing, and/or videoconferencing.

For students admitted prior to Fall 2011, the focus of the M.S.W. program is advanced clinical practice. However, the School of Social Work has undertaken a major redesign of the M.S.W. program. As a result, for students admitted beginning Fall 2011, the focus of the new M.S.W. program will be creative approaches to critical thinking for leadership in diverse social work practice. The program allows professionally qualified social workers holding the Degree of B.S.W. or an equivalent professional undergraduate degree in Social Work to undertake intensive advanced work in a specialized area of social work knowledge and practice. The new regulations applicable to the revised program have been incorporated into the regulations below.

The program is designed to be accessible to students in remote and rural areas, and assumes that: (1) students will have a computer and Internet access; and (2) can travel to St. John's for the institute portion of the three practice courses. Students studying outside St. John's, Newfoundland and Labrador, will also be expected to incur charges for Internet services, teleconference charges and travel and accommodation expenses.

Entrance into all courses and the offering of any course in an academic year is by approval of the School, consistent with the student's program. Students are admitted only into a designated program of studies.

The School of Social Work may deliver special offerings of the M.S.W. and/or other programs of the School to identified groups of out-of-province students where numbers warrant. These offerings will be self supporting, and therefore subject to an additional one-time non-refundable tuition fee as approved by the Board of Regents and payable on first registration following formal admission to the program. Students will also pay appropriate tuition fees for each semester during their tenure in the program.

Admission to the special offerings of these programs will be competitive, using the same procedures and standards that are in place for students applying to the St. John's campus program(s).

Subject to approval by the Graduate Studies Committee of the School of Social Work, students admitted to an out-of-province program offering may apply to transfer to the equivalent program on the St. John's campus. In such instances, the fee structure under which the student was admitted will not change. Subject to approval by the Graduate Studies Committee of the School of Social Work, students admitted to a St. John's based program may apply to transfer to the equivalent out-of-province program. In these instances, students transferring from the St. John's based program offerings to an equivalent out-of-province offering will be required to pay a pro-rated one-time fee upon formal transfer to the special offering.

### 25.1 Qualifications for Admission

1. Admission to the M.S.W. program is limited, selective, and competitive. Meeting the minimum criteria for admission does not guarantee acceptance to the program.
2. To be considered for admission, an applicant shall hold a Bachelor of Social Work (B.S.W.) degree (or an equivalent professional undergraduate degree in social work approved by the Graduate Studies Committee of the School of Social Work for recommendation to the Dean) from an institution recognized by the Senate, with at least second class standing, and an average of at least 70% in the last 60 undergraduate credit hours.
3. In addition to the stated academic requirements, the applicant must have completed, subsequent to obtaining the B.S.W. degree, at least two years employment in professional social work practice or in a comparable human service discipline or activity. Extensive relevant experience prior to undergraduate degree work may be recognized in full or partial fulfillment of this requirement.
4. For ten percent of seats per year, priority is given to applicants of First Nations/Aboriginal ancestry who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see **Qualifications for Admission**). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.
5. For an additional ten percent of seats per year, priority is given to applicants who are members of other equity groups (e.g., members of sexual minority groups; members of racial/ethnic minority groups; persons with disabilities; and persons disadvantaged by their economic position/background) who meet the minimum criteria for admission. When the number of eligible applicants wishing to be considered under this clause exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see **Qualifications for Admission**). Applicants wishing to be considered under this clause shall complete the Educational Equity section of the Supplementary Information form at the time of application.
6. Notwithstanding the above, and in keeping with the School's commitment to achieving equitable representation in the student body, the Graduate Studies Committee of the School of Social Work, at its discretion, may give preference to additional applicants of First Nations/Aboriginal ancestry and/or members of other equity groups who meet the minimum criteria for admission.
7. Notwithstanding the above, and in keeping with the University's special obligation to educate the citizens of Newfoundland and Labrador, when the number of eligible applicants exceeds the number of seats available, priority will normally be given to bona fide residents of Newfoundland and Labrador (see **Qualifications for Admission**).
8. Applicants will be deemed bona fide residents of Newfoundland and Labrador if at the time of application they are currently residing or have a permanent address in the province.

### 25.2 Procedure for Admission

1. Applicants must submit an application for admission with supporting documentation to the School of Graduate Studies, which approves recommendations for admission made by the Graduate Studies Committee of the School of Social Work. The supporting documentation will consist of: an official transcript of the applicant's previous academic record submitted directly from the institution(s) attended; a criminal record check; a statement of previous professional employment; a list of any published or unpublished works, a declaration of program emphasis and educational objectives; and two letters of appraisal, to be submitted by two referees, one assessing the applicant's previous academic performance and one assessing the applicant's previous practice performance. Letters of appraisal are to be submitted directly to the School of Graduate Studies by the referees.
2. The deadline date for receipt of applications for admission in September of each year is January 15 of the same year. All application forms and supporting documentation for admission to the program must be submitted to the School of Graduate Studies on or before

the deadline of January 15. Under special circumstances, late applications and admissions in other semesters may be considered.

3. The Graduate Studies Committee of the School of Social Work may require the applicant to appear for a personal interview with one or more faculty members.
4. A person who meets the basic admission requirements under **Qualifications for Admission**, may, space permitting, take SCWK 6011 without applying for and being admitted to the M.S.W. program. Beginning Fall 2011, a person who meets the basic admission requirements under **Qualifications for Admission**, may, space permitting, take SCWK 6012 without applying for and being admitted to the M.S.W. program. Persons wishing to take courses under this provision must contact the M.S.W. Student Services Coordinator at least two months prior to the semester in which the course is scheduled. If there are available seats in the course, the applicant will need to submit to the School of Social Work the appropriate form requesting permission to register in a graduate course with evidence of B.S.W. graduation, academic transcripts, and a brief professional resume, and apply or reapply for admission to Memorial University of Newfoundland as an undergraduate.
5. A person who has completed an M.S.W. degree is eligible to register in any M.S.W. course offering, space permitting.

### 25.3 Plan of Study

1. A student's plan of study will be developed cooperatively by the student and the M.S.W. Student Services Coordinator.
2. Specified supplementary studies may be required to ensure requisite knowledge pertinent to the requirements for the degree.
3. A student electing a thesis program shall be assigned a Supervisor by the Director of the School in consultation with the student. It is recommended that a thesis Supervisor be assigned as early in the program as possible. For students admitted prior to Fall 2011, the thesis Supervisor, when assigned, shall normally assume the duties of faculty advisor. For students admitted beginning Fall 2011, the thesis supervisor, when assigned, shall normally assume the duties of faculty advisor and Pathway mentor.
4. Students admitted prior to 2011 who choose the thesis route, must complete a thesis and a minimum of 21 credit hours consisting of SCWK 6011, 6312 (or 6313), 6322 (or 6314), 6332 (or 6315), 6412 (or 6413), 6422 (or 6013) and 6912 (or 6917). In addition to these courses, course route students also must complete 6432 (Research Internship), 6442 (Colloquium) and a 3 credit hour graduate elective in social work (or one of 6013 or 6014). Students in either route may be required to take additional courses.
5. a. Students admitted as of 2011, who choose the thesis route, must complete a thesis, and a minimum of 21 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6413, 6917, and at least two of SCWK 6313, 6314, and 6315. Course route students must complete a minimum of 27 credit hours consisting of SCWK 6012 (or the former 6011), 6013, 6014, 6313, 6314, 6315, 6413, 6417 and 6917. Students in either route may be required to take additional courses.
- b. In addition to the above, students will be required to register for SCWK 6000 during each of the relevant semesters as prescribed below, in accordance with their plan of study. This course comprises the academic mentorship component of the revised program and is designed to provide students with the opportunity to integrate curriculum with their individual academic and practice interests throughout their time in the program. For course route students, SCWK 6000 serves as a foundation for SCWK 6417. For thesis route students, SCWK 6000 serves as a foundation for their thesis.
  - i. Full-time students will register for SCWK 6000 beginning in the Fall of their first year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
  - ii. Part-time students will register for SCWK 6000 beginning in the Fall of their second year and in each subsequent semester in which they are actively completing course work in the M.S.W. program.
  - iii. By the end of the sixth week of the first semester in which students are registered in SCWK 6000, they are required to submit a paper to their mentor, which, once agreed upon, will serve as an individual learning contract. The paper will outline: particular areas of interest, research, or study concentration; proposed goals, objectives, outcomes, and time frame; proposed list of readings; plan of study demonstrating how work in the various courses might be integrated or connected to their area of interest; and expectations of the mentor.  
Students are also required to submit a written progress report due the last day of classes of each semester, beginning with the first semester in which they are registered in SCWK 6000. Students are also required to submit a written final report summarizing their experiences and accomplishments as per the initial learning contract. This report is due the last day of classes of the final semester in which students are registered in 6000.
  - iv. A grade of NC (No Grade Expected) will be awarded in all semesters of the course prior to the final Semester. The final grade in this non-credit course will be either Pas or Fal.

### 25.4 Field Internship SCWK 6912 (SCWK 6917 Beginning Fall 2011)

Each M.S.W. student is required to complete a 500 hour field internship that is to be conducted in a setting and supervised by a field instructor approved by the School of Social Work. The M.S.W. Field Coordinator is responsible for facilitating appropriate matches between the student, field instructor, and field internship setting. Field instructors must have as a minimum qualification an M.S.W. Degree and a minimum of two years post-M.S.W. social work employment. Although consideration will be given to all factors affecting the location and type of social work field internships, final approval of a field internship rests with the School of Social Work. The School cannot guarantee the availability of M.S.W. field instruction in all communities and at all times.

Students are responsible for their own financial support during the field internship. Part-time field internships of two semesters will require approval from the proposed agency, field instructor, and the M.S.W. Field Coordinator.

At least four months prior to the commencement of the semester in which they intend to begin SCWK 6912 (6917 beginning Fall 2011), all students shall submit a completed Intent to Register in M.S.W. Field Internship form. At least six weeks before the internship commences, students shall submit an M.S.W. Field Internship Proposal. Evaluation of the field internship will be on a PAS/FAL basis.

Students who voluntarily withdraw from the field internship without prior approval of the M.S.W. Field Coordinator and the Graduate Officer, or who conduct themselves in such a manner as to cause the agency and the M.S.W. Field Coordinator to terminate the placement, will normally be awarded a grade of FAL in the field internship.

Students who voluntarily withdraw from the field internship with the prior approval of the M.S.W. Field Coordinator and the Graduate Officer cannot be guaranteed a second internship during that semester. In this case, the student will be awarded a grade of INC for the field internship. The student shall normally complete a field internship the following semester.

### 25.5 Course Format

To increase accessibility for students in remote and rural areas, we offer courses in the following formats:

1. SCWK 6011, 6412, 6422, and social work electives (and beginning Fall 2011: SCWK 6012, 6013, 6014, and 6413) will be offered by distance delivery; that is, not in a regular classroom format.
2. SCWK 6312, 6322 and 6332 (and beginning Fall 2011: 6313, 6314, and 6315) will be offered by residential institute consisting of 36

hours of classroom instruction. These courses also include home-study and teleconference and/or Internet components scheduled prior to and/or following the institute. Students must be available on a full-time basis to attend classes and complete assignments and group projects during the institute portion of these courses. It is recommended that students take leave from their employment for the duration of a residential institute, which may be scheduled in a combination of weekday, evening and weekend hours within a two week time period. The final decision regarding the residential institute schedule rests with the School of Social Work.

3. SCWK 6912, 6432, and 6917 (beginning Fall 2011) can be completed in St. John's, or in a student's home community, where appropriate supervision is available.
4. SCWK 6442, Colloquium, may be conducted in St. John's or in a student's home community, provided suitable audio-visual recording facilities are available.
5. SCWK 6000 and 6417 (both beginning Fall 2011) can be completed in St. John's or in a student's home community.
6. In exceptional circumstances, and contingent upon student numbers and school resources, additional course sections may be offered in a regular classroom format.

## 25.6 Period of Study

For students admitted to the program under **Plan of Study** above:

1. For part-time students, the program is designed to permit completion of all degree requirements within three academic years (nine semesters) or two academic years (six semesters).
2. For full-time students, course route, admitted prior to Fall 2011, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:  
Fall semester: SCWK 6011, 6312 (institute), 6412  
Winter semester: 6322 (institute), 6422, Elective  
Spring semester: 6332 (institute), 6912 (field internship), 6432 (research internship), 6442 (colloquium)
3. For full-time students, course route, admitted beginning Fall 2011, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:  
Fall semester: SCWK 6000, 6012, 6313 (institute), 6413  
Winter semester: 6000, 6013, 6014, 6314 (institute)  
Spring semester: 6000, 6315 (institute), 6917 (field internship), 6417 (Pathway Scholarship)
4. For full-time students, thesis route, admitted prior to Fall 2011, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:  
Fall semester: SCWK 6011, 6312 (institute), 6412  
Winter semester: 6322 (institute), 6422  
Spring semester: 6332 (institute), 6912, (field internship), Thesis
5. For full-time students, thesis route, admitted beginning Fall 2011, the program is designed to permit completion of all degree requirements within one academic year (three semesters), as follows:  
Fall semester: SCWK 6000, 6012, 6313\* (institute), 6413  
Winter semester: 6000, 6013, 6014, 6314\* (institute)  
Spring semester: 6000, 6315\* (institute), 6917 (field internship), Thesis  
\* Thesis students are required to complete only two of the three institute courses.

## 25.7 Evaluation

1. Failure to attain a final passing grade of A or B in a program course, or PAS in a PASS/FAIL course, shall lead to termination of the student's program, unless a re-read has been requested. Failure to obtain the required grades in the re-read shall lead to termination of the student's program.
2. To remain in good standing students are required to maintain professional behaviour consistent with the current Code of Ethics of the Canadian Association of Social Workers ([www.casw-acts.ca/practice/code3\\_e.html](http://www.casw-acts.ca/practice/code3_e.html)). Students who are registered in their home province are required to comply with the current Code of Ethics of their provincial association of social workers. Students who are not registered in their home province are required to comply with the current Code of Ethics of the Canadian Association of Social Workers ([www.casw-acts.ca/practice/code3\\_e.html](http://www.casw-acts.ca/practice/code3_e.html)). Students who fail to meet this requirement will be required to withdraw from the School upon the recommendation of the Graduate Studies Committee.

## 25.8 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the School will allow.

### Program Core Courses Prior to Fall 2011

- 6011 Critical Thinking and Ethical Evaluation for Assessment and Intervention
- 6312 Crisis Intervention, Brief and Integrated Therapies for Diverse Individuals (Prerequisite/Co-requisite 6011)
- 6322 Family Therapy: Promotion of Strengths and Prevention of Violence in Diverse Families (Prerequisite 6011)
- 6332 Social Work Perspectives in Interdisciplinary Team Development and Group Therapy (Prerequisite 6011)
- 6412 Research Design for Social Work Assessment and Evaluation (Prerequisite/Co-requisite 6011)
- 6422 Data Analysis for Social Work Assessment and Evaluation (Prerequisite 6011 and 6412)
- 6432 Research Internship (2 credit hours) (Prerequisite 6011, 6412 and 6422)
- 6442 Colloquium Presentation Integrating Theory and Research in Advanced Clinical Practice (1 credit hour) (following completion of all other program components)
- 6912 Advanced Clinical Practice Internship (Prerequisites 6011, 6312, 6322 and Prerequisite/Co-requisite 6332)
- Graduate Research Integrity Program (refer to **Graduate Research Integrity Requirement**)

### Program Elective Courses Prior to Fall 2011

- 6230 Seminar in Community Development
- 6530 Seminar in Social Administration: Evaluation of Policies and Programs
- 6540 Supervision in Professional and Clinical Practice
- 6550 Feminist Therapy in Social Work Practice

### Program Courses beginning Fall 2011

- 6000 Pathway (mandatory repeatable non-credit course)
- 6012 Critical Thinking and Reflection (*credit may not be obtained for both 6012 and the former 6011*)

6013 Leadership for Social Justice (Prerequisite 6012)

6014 Leadership in Social Policy and Programs (Prerequisite 6012, 6013) (*credit may not be obtained for both 6014 and the former 6530*)

6313 Perspectives with Individuals and Families (Prerequisite/Co-requisite 6012) (*credit may not be obtained for both 6313 and the former 6312 or 6322*)

6314 Perspectives with Diverse Communities (Prerequisite 6012) (*credit may not be obtained for both 6314 and the former 6230*)

6315 Perspectives with Groups (Prerequisite 6012) (*credit may not be obtained for both 6315 and the former 6332*)

6413 Research Theory, Design, and Analysis (Prerequisite/Co-requisite 6012) (*credit may not be obtained for both 6413 and the former 6412 or 6422*)

6417 Pathway Scholarship (following completion of all other program components) (*credit may not be obtained for both 6417 and the former 6432 or 6442*)

6917 Field Internship (Prerequisites 6012; 6313; 6314; and Prerequisite/Co-requisite 6315) (*credit may not be obtained for both 6917 and the former 6912*)

Graduate Research Integrity Program (refer to **Graduate Research Integrity Requirement**)

Although the School does not currently offer a program in Social Policy and Administration, it has faculty expertise in these areas and, in the future, may offer the following courses:

6210 Seminar in Social Planning and Social Development

6220 Seminar in Organization Development

6510 Seminar in Social Administration: Social Policy Analysis, Development and Administration

6520 Seminar in Social Administration: Program Design and Development

6820-29 Individual Reading and Research in Special Areas

### Thesis

See **General Regulations, Theses and Reports**.

Note: Every candidate shall comply with the **General Regulations** governing the School of Graduate Studies and the M.S.W. Degree Regulations.

## 26 Regulations Governing the Degree of Master of Technology Management

### Executive Director

G. Blackwood

### Academic Director

C. Coronado

### 26.1 Administration

The Program will be administered by an Academic Director appointed by the Executive Director of the Fisheries and Marine Institute, together with an Academic Advisory Committee.

An Academic Advisory Committee will be appointed by the Dean of Graduate Studies on recommendation of the Executive Director of the Fisheries and Marine Institute. This committee will consist of the Academic Director as Chair, three members from the Marine Institute and one member from each of the Faculty of Business Administration and the Faculty of Engineering and Applied Science. Normally, all appointments will be for a period of three (3) years.

A Technical Advisory Committee consisting of a cross-section of members with professional expertise related to the technology sector, will provide regular feedback on program content, instruction, and future direction of the Program. Members of this Committee will be appointed by the Dean of Graduate Studies on recommendation of the Executive Director of the Fisheries and Marine Institute. The Academic Director will be an ex officio member and Chair of the Technical Advisory Committee. Normally all appointments will be for a period of three (3) years.

### 26.2 Program

The Master of Technology Management (MTM) is a comprehensive academic program that provides a broad understanding of the structure and operation of organizations and the factors that influence business decisions in the context of technology-based organizations. It provides a technology management focus through the development of knowledge and understanding of the nature of technical operations and the factors that have an impact on their success, as well as the ability to apply these concepts within their organizations.

The program is offered online and requires successful completion of either (i) 24 credit hours of course work, including specialized technology-management courses, courses from the Faculty of Business Administration M.B.A. program, and a comprehensive project and report (6 credit hours), or (ii) 30 credit hours of comprehensive course work. Candidates will typically register on a part-time basis, but any who register for full-time study will normally complete the program in one academic year.

#### 26.2.1 Admission Requirements

- Admission to the program is on a competitive basis. To be considered for admission to the program an applicant will normally possess a second class or better undergraduate degree from a university of recognized standing and will normally have:
  - A Bachelor of Technology, Bachelor of Maritime Studies, or other undergraduate degree with appropriate technology sector and business management course work; and
  - a minimum of two (2) years relevant employment experience.
- The deadlines for submission of applications for candidates wishing to enter studies are as follows:
  - Fall (September) semester: April 15
  - Winter (January) semester: August 15
  - Spring (May) semester: December 15

Applications received after listed deadlines will be considered as time and resources permit.

#### 26.2.2 Program of Study

- Candidates for the Master of Technology Management shall be required to complete a minimum of either:

- a. 24 credit hours of course work and a major project and report (6 credit hours). Course work includes four compulsory core courses (12 credit hours); and four elective courses (12 credit hours). Students on the project route will complete MSTM 6100: Project in Technology Management (6 credit hours).
- i. **Core Courses (Four to be completed):**  
 BUSI 8104 Organizations: Behaviour and Structure  
 BUSI 8209 Leadership and Interpersonal Skills for Managers (Prerequisite: BUSI 8104)  
 MSTM 6031 Managing Technical Operations  
 MSTM 6032 Managing Technological Innovation
  - ii. **Elective Courses (Four to be completed: minimum of one course from Category A and two from Category B):**  
**Category A**  
 BUSI 8106 Marketing  
 BUSI 8107 Managing Ethics and Responsibility  
 BUSI 8109 Accounting for Management  
 BUSI 8204 Human Resource Management (PR: BUSI 8104)  
**Category B**  
 MSTM 6022 Communication and Conflict Management  
 MSTM 6023 Strategic Planning, Policy, Participation and Management  
 MSTM 6033 Quality Systems and Management  
 MSTM 6034 Project Management  
 MSTM 6035 Information Technology Applications  
 MSTM 6036 Supply Chain Management and Advanced Technical Operations  
 MSTM 6037 Risk Analysis and Management  
 MSTM 6038 Manufacturing and Technology Management  
 MSTM 6039 Sustainability and Environmental Responsibility  
**Project in Technology Management**  
 MSTM 6100 Project in Technology Management (6 credit hours). Students will choose a topic in consultation with the Academic Director and will work independently to carry out an in-depth study of a problem or application within the area of technology management and fully document and present their findings. Preferably the problem will be directly related to a workplace situation.
- b. 30 credit hours on a comprehensive-course route. Course work includes four compulsory core courses (12 credit hours); and six elective courses (18 credit hours).
- i. **Core Courses (Four to be completed):**  
 BUSI 8104 Organizations: Behaviour and Structure  
 BUSI 8209 Leadership and Interpersonal Skills for Managers (Prerequisite: BUSI 8104)  
 MSTM 6031 Managing Technical Operations  
 MSTM 6032 Managing Technological Innovation
  - ii. **Elective Courses (Six to be completed: minimum of one course from Category A and four from Category B):**  
**Category A**  
 BUSI 8106 Marketing  
 BUSI 8107 Managing Ethics and Responsibility  
 BUSI 8109 Accounting for Management  
 BUSI 8204 Human Resource Management (Prerequisite: BUSI 8104)  
**Category B**  
 MSTM 6022 Communication and Conflict Management  
 MSTM 6023 Strategic Planning, Policy, Participation and Management  
 MSTM 6033 Quality Systems and Management  
 MSTM 6034 Project Management  
 MSTM 6035 Information Technology Applications  
 MSTM 6036 Supply Chain Management and Advanced Technical Operations  
 MSTM 6037 Risk Analysis and Management  
 MSTM 6038 Manufacturing and Technology Management  
 MSTM 6039 Sustainability and Environmental Responsibility
2. Up to three relevant elective courses (9 credit hours) may be transferred from other graduate programs within the School of Graduate Studies or from other post-secondary institutions recognized by Senate, subject to the approval of the Dean of Graduate Studies on the recommendation of the Academic Director.
  3. Those having already completed an M.B.A. degree at this University, or a degree recognized as equivalent by the Dean of Graduate Studies, may be granted advanced standing and fulfill the requirements for this degree by completing either (i) the two required MSTM courses, three electives chosen from Category B, and the Project in Technology Management (MSTM 6100) or (ii) the two required MSTM courses and five electives from Category B.

### 26.2.3 Evaluation

1. Candidates for the Master of Technology Management Degree must obtain a grade of B or better in all program courses.
2. Candidates who receive a grade of less than B in any course will be permitted to remain in the program provided the course is repeated and passed with a grade of B or better. Alternatively, the candidate may, on the recommendation of the Academic Director, and with the approval of the Dean of Graduate Studies, substitute another graduate course. Only one course repetition or substitution will be permitted during the candidate's program after which the candidate shall be required to withdraw from the program.

## 27 Regulations Governing the Degree of Master of Women's Studies

Associate Professor and Head of the Department

K. Side

The Degree of Master of Women's Studies (M.W.S.) is designed for students from any discipline who have an appropriate background in Women's Studies. The objectives of the program are to provide students with advanced courses in a broad range of Women's Studies

specialties and particularly in Women's Studies theories and methods; to equip students with the practical, theoretical and methodological skills to carry out independent research at the master's level; and to foster interdisciplinary approaches to the study of women and gender.

The program is administered by the Department of Women's Studies and the Graduate Studies Advisory Committee.

The Graduate Co-ordinator, on behalf of the Department of Women's Studies, Graduate Studies Advisory Committee, makes recommendations to the Dean of Graduate Studies concerning admission, and financial support for students, and administers all other matters pertaining to the graduate program.

## 27.1 Master of Women's Studies Degree

The Degree of Master of Women's Studies is offered by full- or part-time study. Candidates may choose a thesis or non-thesis (project or internship) program. The program draws scholarly participation from faculty members in a range of academic disciplines within the School of Graduate Studies.

## 27.2 Qualifications for Admission

1. Admission is limited and competitive. To be considered for admission, an applicant will normally hold an Honours Degree or equivalent, and will have a breadth of knowledge in Women's Studies satisfactory to the Graduate Studies Advisory Committee.
2. Applicants who do not have an adequate background in Women's Studies may be required to complete Women's Studies 4000 or equivalent normally with a grade of 75% or higher.

## 27.3 Program of Study

1. Upon admission, each graduate student in the thesis program will be assigned an academic advisor for one year. The supervisory committee, formed prior to the development of the thesis project proposal, will include two supervisors, normally from different disciplinary units. For students selecting the non-thesis option, one Supervisor will be selected.
2. All candidates are required to complete Women's Studies 6000, 6100, 6200 and 6300.
3. Three to 9 additional elective credit hours approved by the Graduate Studies Advisory Committee and the student's Supervisor(s) will be required. These elective credit hours will comprise courses selected from graduate courses in cognate academic units, and/or Women's Studies 6380, 6500 and/or from the block of special topics courses in Women's Studies 6400-6420.
4. Each student will be required to give a public seminar on her/his thesis research, project or internship after the thesis proposal has been approved and before submission of her/his final thesis/project/internship report.

## 27.4 Thesis

1. Candidates for the Degree of Master of Women's Studies (thesis option) will be required to complete a minimum of 15 credit hours. Candidates will also be required to complete a thesis.
2. A thesis proposal, approved by the student's supervisors, will be presented to the Graduate Studies Advisory Committee for its approval. The thesis proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
3. The thesis will be evaluated in accordance with the procedures outlined in General Regulation **Theses and Reports** of the School of Graduate Studies.

## 27.5 Project

1. Candidates for the Degree of Master of Women's Studies (project option) will be required to complete a minimum of 18 credit hours. Candidates will also be required to complete a project.
2. The Master's project must be interdisciplinary in nature and aimed at linking theoretical and practical knowledge by recognizing and articulating a problem relevant to Women's Studies by developing and justifying theoretical and practical approaches. The project report should consist of the project (e.g. a film or video; a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) as well as a literature-based rationale, theoretical basis and justification for its use. The length of the written portion of the project should be 50-70 pages. Regardless of the form that the project takes (e.g. a film or video) a computer project; a website; a manual or guidebook; a kit of learning resources; photographs; audio or videotape, etc.) there must be a written project report.
3. A project proposal, approved by the student's Supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The project proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
4. The project will be evaluated in accordance with procedures outlined in General Regulation **Theses and Reports** of the School of Graduate Studies.

## 27.6 Internship

1. Candidates for the Degree of Master of Women's Studies (internship option) will complete a minimum of 18 credit hours. Candidates will also be required to complete an internship.
2. Internship placements shall be for one semester. Part-time internships of two semesters will require approval from the proposed agency or institution and the Graduate Studies Advisory Committee.
3. Students, in consultation with their Supervisor and the Women's Studies Graduate Co-ordinator, will explore internship options and locate an eligible person to provide field instruction during their internship. Although consideration will be given to all factors affecting the location and type of all Women's Studies internships, the final decision regarding internship rests with the Head, Department of Women's Studies and the Dean of Graduate Studies.
4. Factors affecting the type and location of the internship include: the number of immersion hours per week; the extent to which the intern takes up a trainee, supervisory and/or research role and whether the intern would be working directly or indirectly with clients of the agency or institution.
5. Each internship shall be supervised by a Supervisory Committee of at least three members, including the candidate's Supervisor, the field Supervisor and Women's Studies Graduate Co-ordinator or her/his delegate.
6. The Supervisory Committee will meet with the intern and field instructor at least once during the internship period to make an assessment of the nature and quality of the intern's progress, and to approve any modifications to the internship.

7. The internship proposal, approved by the student's Supervisor, will be presented to the Graduate Studies Advisory Committee for its approval. The proposal must normally be approved by the Graduate Studies Advisory Committee no later than the end of the candidate's third semester in the program.
8. Regardless of the form that the internship takes, there must be a written internship report (35-50 pages). When the candidate completes the internship report, the Supervisory Committee will recommend to the Dean of Graduate Studies a grade of pass or fail. A candidate will be permitted to submit an internship report only after the Committee has determined that the internship placement has been fully completed.
9. Should the Head, Department of Women's Studies, on the recommendation of the Supervisory Committee, terminate the internship prior to its completion, it may recommend to the Dean of Graduate Studies one of the following:
  - a. submission of a new internship proposal for a different field setting (once only);
  - b. selection of the thesis or project option;
  - c. termination of the student's program.

## 27.7 Courses

6000 Feminist Theory  
 6100 Epistemological and Methodological Approaches to Women's Studies  
 6200 Graduate Seminar in Women's Studies  
 6300 Feminism as Community  
 6380 Women, Nature, Science and Technology (cross-listed as Sociology 6380)  
 6400-6420 Special Topics in Women's Studies  
 6500 Women and Communication Studies

## 28 Regulations Governing the Degree of Doctor of Philosophy

In this and following regulations and notes, "Head" and "Department" shall be understood to mean "Dean or Director" and "Faculty or School" respectively, applying the regulations to a Faculty or School in which there are no Departmental divisions.

Students should consult the General Information and Regulations Governing All Graduate Students for information concerning the Degree of Doctor of Philosophy. For information concerning the number of courses required for specific programs, students should consult the following listing for the appropriate Department.

The degree of Doctor of Philosophy (Ph.D.) is offered in selected areas in Anthropology, Archaeology, Atomic and Molecular Physics, Biochemistry, Biology, Chemistry, Cognitive and Behavioural Ecology, Computer Science, Condensed Matter Physics, Earth Sciences (Geology), Earth Sciences (Geophysics), Education, Engineering, English Language and Literature, Environmental Science, Ethnomusicology, Experimental Psychology, Folklore, Food Science, Geography, History, Interdisciplinary, Linguistics, Management, Marine Biology, Mathematics, Medicine, Pharmacy, Physical Oceanography, Social Work, Sociology, Statistics and Theoretical Physics.

### 28.1 Anthropology

**Associate Professor and Head of the Department**

M. Tate

#### 28.1.1 Program

1. The Ph.D. in Anthropology is offered in historic anthropology and ethnography of Newfoundland and Labrador, and Western Europe.
2. An applicant must normally hold a Master's Degree with a specialization in social and cultural anthropology. In exceptional circumstances, a student who has spent three semesters in the M.A. program may be recommended for transfer into the Ph.D. stream.
3. Residency: the Department requires a minimum residency of two years for Ph.D. students.
4. A supervisory committee will be established for each student as per **General Regulations, Supervision, Ph.D. and Psy.D. Candidates**.
5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Anthropology 6300 and 6890. The supervisory committee may require the candidates to complete additional graduate courses.
6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Social and Cultural Anthropology. It could also be a field language pertinent to the candidate's project. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies as per **General Regulations, Evaluation, Evaluation of Graduate Students**, 4., and will normally be completed before the Comprehensive Examination is undertaken.
7. The Ph.D. Comprehensive Examination shall be administered in accordance with **General Regulations, Comprehensive Examinations**. The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of social/cultural anthropology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate's program.
8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.
9. As stated in the **General Regulations** for Graduate Studies, the time limit for completion of the Degree is 7 years.
10. Submission of dissertation and the oral defence of dissertation will follow **General Regulations, Theses and Reports, Evaluation of Ph.D. and Psy.D. Theses**.

#### 28.1.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

6010 Cultural Ecology  
 6071 Health and Illness: Cultural Contexts and Constructions  
 6081 Anthropology of Gender

6089 Anthropology of Underclass Life  
 6100 Social Organization  
 6110 Culture and Personality  
 6140 The Community  
 6210 Language and Culture  
 6240 Atlantic Regional Studies  
 6260 Social and Economic Development  
 6280 Newfoundland Ethnography  
 6281 Labrador Ethnography  
 6282 Ethnography of a Single Region  
 6300 Fieldwork and Interpretation of Culture  
 6400 Current Themes in Cultural Anthropology  
 6410 History of Anthropology  
 6412 Anthropological Theory  
 6413 Applied Anthropology  
 6430 Audiovisual Anthropology  
 6440 Master's Research Paper (9 credit hours)  
 6580-6599 Special Areas in Anthropology  
 6600 Contemporary Debates in Anthropology  
 6890 Graduate Seminar

## 28.2 Archaeology

### Professor and Head of the Department

S. Brown

### 28.2.1 Program

1. The Ph.D. in Archaeology is offered in prehistoric and historic archaeology of Northeastern North America and the Arctic.
2. An applicant must normally hold a Master's Degree with a specialization in archaeology.
3. The Department requires a minimum residency of six semesters for Ph.D. students.
4. A supervisory committee will be established for each student as per **General Regulations, Supervision, Ph.D. and Psy.D. Candidates, 2.**
5. Students will normally be required to successfully complete two courses during their first three semesters in the program: Archaeology 6700 and 6411. The supervisory committee may require the candidates to complete additional graduate courses.
6. All candidates must demonstrate a reading knowledge of a second language to be determined in consultation with the supervisory committee. This language will normally be a language in which there is a substantial body of literature in Archaeology. The exam will be set and marked by an authority determined by the Head of the Department and the Dean of Graduate Studies (see **General Regulations, Evaluation, Evaluation of Graduate Students, 4.**) and will normally be completed before the Comprehensive Examination is undertaken.
7. The Ph.D. Comprehensive Examination shall be administered in accordance with **General Regulations, Comprehensive Examinations.** The examination may be oral, written or both, and shall consist normally of three sessions, each of up to three hours duration, within a one week period, or three (3) one week take home examinations. Candidates will prepare for these examinations by undertaking supervised readings in three fields prescribed by the three members of the comprehensive exam committee. The examination will deal with specified areas of archaeology. The examination will normally be scheduled in the third week of November each year in the second year of the candidate's program.
8. The candidate must submit a written thesis proposal for presentation to the Department two months following completion of his/her comprehensive examination.
9. As stated in the **General Regulations** for Graduate Studies, the time limit for completion of the Degree is 7 years.
10. Submission of dissertation and the oral defence of dissertation will follow **General Regulations, Theses and Reports, Evaluation of Ph.D. and Psy.D. Theses.**

### 28.2.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6020 Bioarchaeology  
 6040 Human Osteology  
 6095 Advanced Studies in Ethnohistory (same as History 6095)  
 6151 Palaeoethnobotany  
 6181 Palaeoeskimo Cultures of the Eastern Arctic  
 6182 Advances in Material Culture Analysis  
 6187 Readings in Maritime Provinces Prehistory  
 6189 Palaeopathology  
 6191 Approaches to Early Modern Material Culture  
 6192 Conservation Method and Theory  
 6290 Newfoundland and Labrador Prehistory  
 6310 Economic Analyses in Archaeology  
 6320 Ethnoarchaeology  
 6330 Archaeological Field Conservation  
 6409 History of Archaeology  
 6411 Theory and Method in the Study of Archaeology and Prehistory  
 6500 Special Topics in Historical Archaeology (Prerequisite 6191)  
 6680-6699 Special Topics in Archaeology and Prehistory  
 6700 Interpretative Methods in Archaeology  
 6701 Interpretative Methods in Historical Archaeology  
 6890 Graduate Seminar

## 28.3 Biochemistry

### Professor and Head of the Department

M. Mulligan

#### 28.3.1 Program

1. The Degree of Doctor of Philosophy is offered in Biochemistry or Food Science to full-time and part-time students.
2. The admission requirements for the graduate programs in Biochemistry and Food Science are as given under **General Regulations**. Depending on the background and/or area of specialization, a candidate's program may include additional courses taken for credit in Biochemistry, Food Science or related subjects.
3. The program of a candidate for the Ph.D. Degree shall be the responsibility of the supervisory committee, composed of the Supervisor and at least two other faculty members recommended with the concurrence of the Supervisor by the Head.
4. It is the responsibility of the student to arrange regular meetings with his or her graduate supervisory committee. A semi-annual report, prepared by the Supervisor and signed by all members of the supervisory committee, is required to be given to the Head of the Department or delegate.
5. All candidates for the Ph.D. Degree shall be required to attend and participate in Departmental seminars.
6. A candidate for the Ph.D. will be required to present a seminar on his/her research area within 18 months of starting the program and again immediately prior to the submission of thesis.

#### Additional Regulations for Each Program

##### Biochemistry (Additional)

7. A candidate for the Ph.D. in Biochemistry shall normally take the Comprehensive Examination within the first seven semesters of his or her program. The examination will have two components: the preparation of a grant proposal on a topic related to the student's research specialization followed by an oral examination of the proposal. Failure of this examination will result in the termination of the candidate's program.

##### Food Science (Additional)

8. A candidate for the Ph.D. Degree in Food Science shall be required to take the comprehensive examination normally within three semesters of his/her enrolment in the doctoral program and under no circumstances later than six semesters. The examination shall consist of two parts:
  - a. A written examination covering the following areas of food science.
    - Food Chemistry
    - Food Processing
    - Food Microbiology and Biotechnology
    - Biochemical and Food Engineering
    - Food Analysis
    - Nutrition Fundamentals
  - b. The candidate shall be required to defend orally an assigned research topic that may be related to his/her area of concentration. The candidate shall be required to provide a written submission of the research topic to the examination committee at least three weeks before the date of the oral examination. The comprehensive examination committee shall examine the candidate orally on any or all aspect(s) of the research topic and the written examination.
  - c. In order to pass the comprehensive examination, the candidate is required to pass both the written and oral segments.

#### 28.3.2 Courses

A series of advanced courses in the areas outlined below will be offered. Normally only one course will be offered per semester.

- 6200 Current Biochemical Research Topics I
- 6210 Current Biochemical Research Topics II
- 6400 Control of Intermediary Metabolism
- 6410 Molecular Endocrinology
- 6420 DNA: The Structure and Function of Genes (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)
- 6421 RNA: Structure, Function and Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)
- 6422 Regulation of Protein Synthesis (Prerequisite: An introductory course in molecular biology, or its equivalent, at the senior undergraduate level, e.g., Biochemistry 4100)
- 6430 Bioenergetics
- 6440 Membranes
- 6450 Proteins
- 6500 Enzymology
- 6520 Nutritional Biochemistry
- 6530 Food Biochemistry
- 6590 Molecular Biology I (cross-listed as Biology 6590 and Medicine 6590) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
- 6591 Molecular Biology II (cross-listed as Biology 6591 and Medicine 6591) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)
- 6592 Bacterial Genetics (cross-listed as Biology 6592) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)
- 6593 Selected Readings in Molecular Biology (cross-listed as Biology 6593) Prerequisites or Co-requisites: Biology 6590, 6591/ Biochemistry 6590, 6591/Medicine 6590, 6591 (or equivalent)
- 6600 Metabolic Toxicology
- 6610 Comparative Biochemistry
- 6620 Biochemical Adaptation
- 6630 Marine Biochemistry
- 6640 Biochemistry of Cancer
- 6650 Science and Technology of Seafoods
- 6660 Industrial Microbiology
- 6670 Biological Waste Treatment
- 6680 Processing and Quality of Foods

## 28.4 Biology

### Associate Professor and Head of the Department

P. Marino

The Degree of Doctor of Philosophy is offered in Biology to full-time and part-time students in Biology and Marine Biology. Students interested in animal behaviour should also consult the section in the Calendar describing the Doctoral programs **Cognitive and Behavioural Ecology**.

### 28.4.1 Biology

1. A student will be required to take Biology 7000 (Graduate Core Seminar).
2. Admission to a Ph.D. program in Biology shall not normally take place until after the completion of the course requirements and the submission of the thesis for the M.Sc. Degree. However, on the recommendation of the Department, this requirement may be waived by the Dean of Graduate Studies.
3. The program of a candidate shall be the responsibility of a Supervisory Committee composed of the Supervisor and at least two other appropriate members recommended to the Dean by the Head (or delegate) of the Department with the concurrence of the Supervisor.
4. The Supervisory Committee shall interview the student normally within a month of first registration, to discuss the student's program and to explore any areas of weakness in the candidate's biological knowledge, especially where these relate to the intended areas of research. The Supervisory Committee will recommend a student's subdiscipline within Biology to the Department in writing after this meeting.
5. It is the function of a Supervisory Committee to have regular meetings, at least annually, with its graduate student. A meeting report, signed by all members of the Supervisory Committee and student, must be given to the Department. A copy will be sent to the graduate student and to the Dean of Graduate Studies.
6. The candidate will present a tentative outline of the proposed research to the Supervisory Committee, with a copy to the Department by the end of the second semester, and preferably prior to commencement of the research.
7. The student will present a research seminar to the Department, normally by the end of the second semester following admission, to describe the research topic being investigated and the methodologies to be employed. This seminar provides an opportunity for the student to receive constructive input from the broad biological community.
8. When the Supervisory Committee deems it necessary, a working knowledge of a language other than English may be required.
9. Comprehensive Examination
  - a. Timing of Examination
    - i. Timing of the comprehensive examination shall follow General Regulation, 1. under **Comprehensive Examination, Ph.D. Comprehensive Examination** governing the Degree of Doctor of Philosophy. A candidate registered in a full-time Ph.D. program in the Faculty of Science, Department of Biology shall normally take the comprehensive examination during the first year of the program, and no later than one year after completion of the prescribed courses.
    - ii. The procedure shall be initiated by the candidate's Supervisor who will notify the Department of Biology, in writing, of the candidate's readiness. Failure to meet the above requirement can result in the candidate being required to withdraw from the program.
  - b. Examination Committee
 

The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Department of Biology according to Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, 2. of the **General Regulations** of the School of Graduate Studies. No more than two members of the Examination Committee may be members of the candidate's Supervisory Committee. The committee shall meet and recommend to the Department in writing an examination seminar topic within the student's previously determined subdiscipline.
  - c. Examination Procedure
 

The Department shall provide the student the examination date and the seminar topic in writing not more than six nor less than four weeks prior to the examination. The student shall provide each member of the Examination Committee a written paper on the seminar topic one week prior to the examination. The Examination Committee shall evaluate the candidate's presentation and response to questions put to him/her during the Oral Examination both on the seminar and within the student's subdiscipline of Biology.
  - d. Subsequent Action
 

The Examination Committee will meet in camera to arrive at its conclusions. The Chair shall report the results of the Examination to the Head and the Dean of Graduate Studies for transmission to the candidate. The report will include one of the following decisions: a) the student passed with distinction, passed or failed. b) if failed and it is the first examination whether the student may be re-examined.
  - e. Re-examination
 

Comprehensive Re-examination if permitted will occur not sooner than one month and not more than six months after the first. The candidate and his or her Supervisory Committee shall be informed of the deficiencies found. The format for the second examination will be determined by the Examination Committee with the approval of the Biology Graduate Studies Committee. The candidate will be informed of the topic and format four to six weeks prior to the examination. The examination will follow the procedure outlined in 8.c and d above. A failure will require the student to withdraw from the program.
10. Theses shall conform to **Theses and Reports** of the **General Regulations** of the School of Graduate Studies and the Departmental Guidelines.

### 28.4.2 Marine Biology

1. A program of study leading to a Doctor of Philosophy with a specialization in Marine Biology is governed by the above regulations.
2. To be considered for admission, applicants must have a background equivalent to that provided by the M.Sc. specialization in Marine Biology.
3. A student will be required to take Biology 7000 (Graduate Core Seminar) and 6 credit hours in Biology courses from the following group 6710, 7531, 7535, 7540, 7541, 7551, 7560, and 7561.
4. Normally students will be required to take 6 credit hours in Biology courses from the following group: 6710, 7531, 7535, 7540, 7541, 7551, 7560 and 7561.

5. Depending on the student's area of research and background additional courses may be required.

### 28.4.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Research Topics in Microbiology  
 6100 Modern Problems in Botany  
 6110 Advanced Phycology  
 6120 Mycology  
 6350 Behavioural Ontogeny (Cross-listed as Psychology 6350)  
 6351 Behavioural Ecology and Sociobiology (Cross-listed as Psychology 6351)  
 6355 Field Course in Animal Behaviour (Cross-listed as Psychology 6355)  
 6400 Parasitic Protozoology  
 6410 Helminthology  
 6420 Parasitic Arthropods  
 6590 Molecular Biology I (Cross-listed as Biochemistry 6590 and Medicine 6590) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)  
 6591 Molecular Biology II (Cross-listed as Biochemistry 6591 and Medicine 6591) Prerequisites: Biology 4241, Biochemistry 4100 (or equivalent)  
 6592 Bacterial Genetics (Cross-listed as Biochemistry 6592) Prerequisite: Biology 4241 or Biochemistry 4100 (or equivalent)  
 6593 Selected Readings in Molecular Biology (Cross-listed as Biochemistry 6593) Prerequisites or Co-requisites: Biology 6590, 6591/Biochemistry 6590, 6591/Medicine 6590, 6591, (or equivalent)  
 6700 Biology of the Molluscs  
 6710 Marine Benthic Biology  
 6900 Entomology  
 6910 Applied Entomology  
 7000 Graduate Core Seminar  
 7101 Topics in Marine Biology  
 7110 Cellular Physiology and Cytology  
 7140 Physiology of Parasitism  
 7201 Topics in Cellular and Molecular Biology and Physiology  
 7210 Arctic and Subarctic Biology  
 7220 Quantitative Methods in Biology  
 7250 Topics in Wildlife Biology  
 7270 Ecology of Newfoundland  
 7300 Ornithology  
 7301 Topics in Ecology and Conservation Biology  
 7510 Ichthyology  
 7520 Advances in Fish Biology  
 7530 The Molecular Basis of Development  
 7531 Biological Oceanography  
 7535 Research Methods in Marine Science  
 7540 Plankton Dynamics  
 7541 Physiological Ecology of Phytoplankton  
 7550 Fishery Biology  
 7551 Fisheries Resource Management  
 7560 Physiology of Marine Invertebrates  
 7561 Physiology of Marine Vertebrates  
 7570 Marine Benthic Biology  
 7600 Effect of Organic and Inorganic Pollutants on Biological Systems  
 7910 Community and Ecosystem Ecology  
 7920-7960 Special Topics in Biology

## 28.5 Chemistry

**Professor and Head of the Department**

P. Pickup

### 28.5.1 Program

The Degree of Doctor of Philosophy in Chemistry is offered as full-time or part-time study. A Master's Degree in Chemistry or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in Chemistry may be considered for direct admission into the Ph.D. program. Students currently registered in the Memorial University of Newfoundland's Chemistry M.Sc. program for a minimum of three semesters may request transfer into a Ph.D. program. The transfer should be supported by the Supervisor and the Supervisory Committee and subsequent to satisfactory presentation of a written progress report and Ph.D. research proposal.

1. Candidates are normally required to write American Chemical Society (ACS) placement test(s) in the first two weeks of the initial semester of registration in order to determine an appropriate course program.
2. Candidates will be assigned a Supervisory Committee consisting of the Supervisor and at least two other appropriate faculty members appointed by the Dean on recommendation of the Chemistry Deputy Head (Graduate Studies).
3. The program of a candidate must be arranged by the Supervisor in consultation with the Supervisory Committee and the student before the second semester of registration. It is the responsibility of the Supervisory Committee to meet at least annually with the student, to provide guidance at all stages of the candidate's program, and, in consultation with the student, to prepare annual written progress reports for submission to the Dean of Graduate Studies.
4. Candidates holding a Master's Degree from a recognized university are normally required to successfully complete a minimum of 6 credit hours of graduate Chemistry courses with a minimum grade of B and to present a Departmental seminar on a topic not directly related to the candidate's research (Chemistry 6002) as well as a seminar describing the candidate's research (Chemistry 6003). Courses taken towards a Master's Degree may not be repeated. Candidates not holding a Master's Degree must successfully complete at least 12 credit hours of graduate Chemistry courses with a minimum grade of B in addition to Chemistry 6002 and 6003.

- Candidates are required to attend Departmental seminars.
- Candidates must pass a comprehensive examination, as described in the **General Regulations**, consisting of a three-hour written part covering topics in a chosen branch of Chemistry and, subsequent to the written exam at the discretion of the comprehensive examination committee, an oral exam designed to explore areas of perceived deficiency.
- Candidates must submit and successfully defend a thesis deemed acceptable by two internal and one external examiner as outlined in the **General Regulations**.

### 28.5.2 Courses

6002 Doctoral Seminar  
 6003 Doctoral Research Seminar  
 6110 Analytical Chemistry II  
 6150 Advanced Spectroscopic Techniques  
 6151 Analytical Separations and Organic Mass Spectrometry  
 6152 Electroanalytical Techniques  
 6153 Techniques in Sampling, Trace Analysis and Chemometrics  
 6154 Business Management and Good Laboratory Practice  
 6155 Computers in Instrumental Analysis and Basic Electronics (same as Med 6070)  
 6160 Laboratory Projects in Sampling, Electroanalysis and Trace Analysis  
 6161 Laboratory Projects in Analytical Separations and Spectroscopic Techniques  
 6190-9 Selected Topics in Analytical Chemistry  
 6201 Bioinorganic Chemistry  
 6202 Main Group Chemistry  
 6204 Mechanisms in Catalysis  
 6205 Photochemistry of Transition Metal Complexes  
 6210 Organometallic Chemistry  
 6290-9 Selected Topics in Inorganic Chemistry  
 6300 Quantum Chemistry I  
 6301 Quantum Chemistry II  
 6302 Molecular Spectroscopy  
 6304 Computational Chemistry I  
 6310 Electronic Structure Theory  
 6323 Chemical Thermodynamics I  
 6324 Chemical Thermodynamics II  
 6340 Biophysical Chemistry  
 6350 Electrochemical Kinetics  
 6360 Solid State Chemistry  
 6380 Adsorption on Surfaces  
 6381 Surface and Interface Science  
 6382-9 Selected Topics in Physical Chemistry  
 6390-8 Selected Topics in Physical Chemistry  
 6399 Chemical Kinetics and Dynamics  
 6401 Organic Spectroscopic Analysis I  
 6402 Organic Spectroscopic Analysis II  
 6421 Natural Products Chemistry  
 6460 Organic Synthesis  
 6470 Physical Organic Chemistry  
 6490-9 Selected Topics in Organic Chemistry  
 6590-9 Selected Topics in Theoretical and Computational Chemistry  
 6600 Applications of Inorganic and Organometallic Chemistry to Toxicology

## 28.6 Cognitive and Behavioural Ecology

### Administrative Committee

Dr. A. Storey, Department of Psychology - Chair  
 Dr. R. Anderson, Department of Psychology  
 Dr. T. Chapman, Department of Biology  
 Dr. I. Fleming, Ocean Sciences Centre  
 Dr. E. Miller, Department of Biology  
 Dr. W. Montevecchi, Department of Psychology  
 Mr. P. Regular, Graduate Student Representative  
 Dr. I. Warkentin, Sir Wilfred Grenfell College

### 28.6.1 Program

- The Cognitive and Behavioural Ecology Graduate Program focuses on interdisciplinary animal behaviour research. Research integrates mechanistic, developmental, evolutionary and ecological perspectives on behaviour through molecular, individual and population levels of analysis. Supervisors include faculty from the Departments of Biology and Psychology, the Ocean Sciences Centre, the Faculty of Medicine and the Environmental Science Program at Sir Wilfred Grenfell College, as well as adjunct faculty from the Canadian Wildlife Service, Department of Fisheries and Oceans, the Newfoundland and Labrador Forestry and Wildlife Divisions and Parks Canada. The Departments of Biology and Psychology jointly offer the Master of Science and the Doctor of Philosophy degrees in Cognitive and Behavioural Ecology.
- The Administrative Committee is responsible for the Program. Committee members are appointed by the Dean of Science, on the recommendation of the Chair of the Committee and of the Heads of Biology and Psychology. The Committee Chair is elected by the committee members and appointed by the Dean of Science. The Committee makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics, examiners and students' annual progress. Upon program completion, the Committee certifies that all requirements for the appropriate degree have been met. The Department of the Supervisor ensures that adequate facilities are provided for each candidate. Students in Cognitive and Behavioural Ecology are considered for teaching assistantships in the Psychology or Biology Departments.

## 28.6.2 Regulations

1. There are no required courses for the doctoral program. However, the Doctoral Seminar (CABE 6992) and/or other courses tailored for individual students may be included in the student's program by the Dean of Graduate Studies on the recommendation of the Chair of the Committee.
2. The comprehensive examination should be taken during the first year of the program. An Examination Committee will be struck in accordance with **General Regulations**. At least one member of the Department of Biology and of the Department of Psychology (other than the Supervisor) must be on the Examination Committee. The candidate's Supervisor will be on the Examination Committee and will be the only examiner from the candidate's Thesis Supervisory Committee. The Head of the Department of the Supervisor or his/her delegate is invited to serve on the Comprehensive Examination Committee. The Examination Committee is chaired by the Chair of the Cognitive and Behavioural Ecology Committee. The examination will include a comprehensive, integrative review paper on a research topic in Animal Behaviour. The review topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper in four months, and the oral examination will occur within six weeks of the paper's submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Cognitive and Behavioural Ecology.

## 28.6.3 Courses

Biology 7220 Quantitative Methods in Biology  
 Cognitive and Behavioural Ecology 6240 Special Topics  
 Cognitive and Behavioural Ecology 6350 Behavioural Ontogeny  
 Cognitive and Behavioural Ecology 6351 Behavioural Ecology and Sociobiology  
 Cognitive and Behavioural Ecology 6992 Doctoral Seminar  
 Cognitive and Behavioural Ecology 7000 Field and Lab Methods in Animal Behaviour and Behavioural Ecology  
 Psychology 6000 Advanced Statistics in Psychology

**Table of Credit Restrictions - Doctor of Philosophy in Cognitive and Behavioral Ecology**

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course
CABE 6240	Biopsychology 6240
CABE 6350	Biopsychology 6350
CABE 6351	Biopsychology 6351
CABE 7000	Biopsychology 7000

## 28.7 Computer Science

**Professor and Head of the Department**

W. Banzhaf

The degrees of Master of Science and Doctor of Philosophy are offered in Computer Science.

### 28.7.1 Doctor of Philosophy

1. Admission into the Ph.D. program in Computer Science is normally restricted to candidates holding a Master's Degree (or equivalent) in Computer Science or a closely related area. Others may be considered for admission. See **Qualifications for Admission** of the **General Regulations**. International applicants are strongly encouraged to submit results of the (general) Graduate Record Examination (GRE) Test.
2. Each candidate for the Ph.D. shall complete a program of graduate courses prescribed by the supervisory committee. The normal minimum will be 9 credit hours.
3. The candidate shall take the Comprehensive Examination within the time limits specified in **Comprehensive Examinations** of the **General Regulations**. Students should consult the Departmental guidelines for a detailed description of the content of the Comprehensive Examination.
4. The Ph.D. Degree program will conclude with an oral defence of the thesis as described in **Theses and Reports** of the **General Regulations**.

### 28.7.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

#### Programming Languages

6711 Syntax and Semantics of Programming Languages  
 6712 Compiling Techniques  
 6713 Software Engineering  
 6714 Functional Programming  
 6715 Logic Programming  
 6716 Concurrent Programming  
 6718-6719 Special Topics in Programming Languages

#### Computer Systems

6720 Distributed and Parallel Computing  
 6721 Operating Systems Design  
 6722 Advanced Computer Architectures  
 6723 Microprocessor Systems  
 6724 VLSI Design (same as Engineering 9863)  
 6725 Computational Aspects of VLSI (same as Engineering 9864)  
 6726 Modelling and Analysis of Computing Systems

6727 Introduction to High Performance Computer Systems  
6728-6729 Special Topics in Computer Systems - Computer Networks

#### Numerical Computations

6731 Topics in Numerical Methods  
6732 Matrix Computations  
6738-6739 Special Topics in Numerical Methods

#### Theoretical Aspects

6741 Advanced Automata Theory  
6742 Theory of Databases  
6743 Complexity of Computational Problems  
6745 Special Topics - Advanced Computational Geometry  
6748-6749 Special Topics in Theoretical Computer Science

#### Applications

6751 Database Technology and Information Retrieval  
6752 Applications of Computer Graphics  
6753 Artificial Intelligence  
6754 Post-Genomic Computational Biology  
6755 Knowledge-Based Systems  
6756 Digital Image Processing  
6758-6769 Special Topics in Computer Applications  
6770-6790 Special Topics in Computer Science

## 28.8 Earth Sciences

### Professor and Head of the Department

J.M. Hanchar

The degrees of Master of Science and Doctor of Philosophy are offered in Earth Sciences (Geology) and Earth Sciences (Geophysics) by full-time and part-time study.

### 28.8.1 Doctor of Philosophy

1. Admission into a Ph.D. program in Earth Sciences (Geology) and Earth Sciences (Geophysics) is normally restricted to candidates holding a Master's Degree or its equivalent. Candidates holding B.Sc. (Honours) degrees who show evidence of exceptional ability may be considered for a direct entry into a Ph.D. program. In exceptional circumstances, a candidate with a B.Sc. (Honours) Degree who has spent not less than 12 months in an M.Sc. Degree program may be recommended for transfer into a Ph.D. program, provided that the candidate can demonstrate, to the satisfaction of the Department of Earth Sciences, his/her ability to pursue research at the doctoral level.
2. A candidate for the Ph.D. Degree is normally required to complete 6 credit hours in addition to the credit hours required for the M.Sc. Degree. The courses must be selected from the overview and general courses below or with the approval of the supervisory committee and Head of Department, other graduate level courses including those offered by other departments. Depending on background and/or area of specialization, a candidate also may be required to complete additional courses in earth sciences or related subjects. All course requirements should be completed within 12 months from the date of the first registration in the Ph.D. program.
3. The Ph.D. Comprehensive Examination shall normally be taken in the first semester of registration in the Ph.D. program.  
Note: *Detailed descriptions of the Ph.D. Comprehensive Examination are available upon request from the General Office of the Department of Earth Sciences.*
4. The Ph.D. Thesis Proposal Examination shall normally be taken in the second semester of registration in the Ph.D. program.  
Note: *Detailed descriptions of the Ph.D. Thesis Proposal Examination are available upon request from the General Office of the Department of Earth Sciences.*
5. The Ph.D. Degree program will conclude with a thesis examination and an oral defense of thesis as prescribed in the **General Regulations, Theses and Reports**.
6. The Supervisor and the Head of the Department may recommend to the Dean of Graduate Studies that the program of a candidate who is not making satisfactory progress be terminated, in accordance with **General Regulation, Termination of a Graduate Program**.
7. A candidate is required to give an oral presentation to the Department on the results of his/her research. The presentation must be given during the second or third year of the program.

### 28.8.2 Courses

A selection of courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow.

#### Overview Courses

7110 Physics of the Solid Earth  
7120 Crustal Geophysics  
7300 Changes in Global Paleoenvironment  
7400 Tectonic Regimes  
7410 Engineering and Environmental Geology  
7500 Chemical Fluxes in the Earth  
7810 Paleoecology (same as former 6810. Credit may be obtained for only one of 7810 or 6810)

#### General Courses

6070 Quantitative Techniques in Mineralogy and Metamorphic Petrology  
6141 Rotation of the Earth  
6142 Theory of Global Geodynamics  
6152 Paleomagnetism  
6171 Advanced Exploration Seismology  
6172 Borehole Seismic  
6175 Gravity and Magnetic Methods  
6177 Mathematical Formulations of Seismic Wave Phenomena

6210 Genesis of Mineral Deposits  
 6320 Marine Geology  
 6400 Flow and Transport in Fractured Rock  
 6410 Advanced Engineering and Environmental Geology  
 6420 Deformation Mechanisms  
 6500 Stable Isotope Geochemistry  
 6510 Trace Element Geochemistry  
 6520 Methods in Advanced Research in Geochemistry  
 6540 Radiogenic Isotope Geochemistry  
 6550 Biogeochemistry  
 6600 Petroleum Geology  
 6740 Modern and Ancient Sedimentary Environments  
 6750 Sequence Stratigraphy  
 6820 Palynology and Paleobotany  
 6900-6999 Special Topics in Earth Sciences

## 28.9 Education

### Associate Professor and Dean

D. Dibbon

### Associate Professor and Associate Dean

T. Seifert

The degrees of Master of Education and Doctor of Philosophy are offered in Education.

The Degree of Doctor of Philosophy in Education is offered to qualified candidates, normally by full-time study. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the Faculty of Education outlined below will apply.

### 28.9.1 Admission to the Ph.D. Program

General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out in the University Calendar under School of Graduate Studies, General Regulation **Qualifications for Admission, Ph.D. Program**.

In addition, the following admission requirements apply:

1. an 'A' standing in a Master's Degree in Education or in an equivalent Master's Degree from an accredited university;
2. evidence of scholarly work, such as a master's thesis, directed research project, or qualifying research paper;
3. normally, completion of two years of professional experience in an educational setting.

### 28.9.2 Supervisory Committee

Each candidate will have a supervisory committee comprised of a minimum of three members, at least two of whom shall be members of the Faculty of Education. The thesis Supervisor shall be a faculty member in the Faculty of Education, Memorial University of Newfoundland.

### 28.9.3 Components of Study

#### 1. Courses

- a. Students are required to successfully complete two courses on the doctoral program.

Education 7001 - Doctoral Seminar in Education: Area of Specialization

Education 7002 - Advanced Educational Research

- b. Based on a consideration of educational background and research interest, students may be required to complete (or have completed at the masters level) as many as two (2) additional courses in research related to their program focus and specialty.
- c. Normally, no more than four courses may be undertaken on a candidate's program.
- d. Education 7003-30 - Special Topics (offered as required)

#### 2. Comprehensive Examination

The candidate shall undertake a written and an oral comprehensive examination, which will follow General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination** which sets out the procedures for the comprehensive examination.

- a. A candidate in a Ph.D. program in Education shall normally take the written Comprehensive Examination prior to the seventh semester of the program. The candidate will have completed required courses prior to taking the Comprehensive Examination. In preparation for the Comprehensive Examination, the doctoral candidate, with the guidance of the candidate's Supervisor, will undertake study of the sub-disciplines/areas of concentration identified by the candidate and supervisory committee and approved by the Doctoral Committee. Normally, these will include the candidate's area of concentration and two additional sub-disciplines/areas of concentration.
- b. Such study of sub-disciplines will normally include but not be limited to developing a reading list of important historical and current publications within the sub-disciplines, identifying emerging research emphases within the sub-disciplines, and writing scholarly review papers of these publications.
- c. In preparation for the written comprehensive examination, the doctoral candidate and the supervisory committee will agree on the topics to be examined. The examination will be written over a two day period.
- d. Normally, the oral comprehensive examination will occur within six weeks of the written examination, which if judged to be successful by the Comprehensive Examination Committee, will form the basis of an oral comprehensive examination.
- e. The procedure for scheduling the Comprehensive Examination shall be initiated by the candidate's Supervisor who will notify, in writing, the Dean of Education of the candidate's readiness. The date of both the written examination and the oral examination will be determined by the Dean of Education. The candidate will receive a written notice of the scheduled date for both examinations from the Dean of Education.
- f. The Comprehensive Examination Committee shall be appointed by the Dean of Graduate Studies in accordance with School of

Graduate Studies General Regulation **Comprehensive Examination, Ph.D. Comprehensive Examination** on the recommendation of the Dean, Faculty of Education. There will be six members of the Comprehensive Examination Committee as follows:

- Dean of Education or delegate (Chair)
- Chair of the Doctoral Committee of the Faculty Council of Education
- Candidate's Supervisor
- Second member of candidate's supervisory committee
- Dean of School of Graduate Studies or delegate (non-voting)
- Member of the Faculty of Education or educational community selected by the Dean of Education.

In the event that the Chair of the Doctoral Committee is the candidate's Supervisor, the Dean of Education shall appoint an additional member.

3. Ph.D. Thesis Regulations
  - a. The candidate must submit a thesis proposal based on his/her own research interest to all members of the Supervisory Committee for critical evaluation. Normally, the proposal must be approved prior to the eighth semester of the program. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection or acceptance with recommended changes.
  - b. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted and deemed acceptable by the Supervisory Committee within a semester. Failure to resubmit within this time period will lead to termination of the candidate's program.
  - c. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses, and present the findings in a scholarly manner.
  - d. Each candidate will be required to present a seminar on her/his thesis research to the Faculty.
  - e. Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the General Regulation **Theses and Reports, Evaluation of Ph.D. Theses** governing the School of Graduate Studies.

### 28.9.4 Courses

- 7001 Doctoral Seminar in Education: Area of Specialization
- 7002 Advanced Educational Research
- 7003-30 Special Topics

## 28.10 Engineering and Applied Science

### Professor and Dean, Pro Tempore

J. Quaicoe

### Professor and Associate Dean (Graduate Studies)

L. Lye

The degree of Doctor of Philosophy (Ph.D.) is offered in the Faculty of Engineering and Applied Science and may be obtained either through full-time or part-time studies. The Ph.D. degree can be obtained through programs in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Oil and Gas Engineering.

### 28.10.1 Qualifications for Admission

Admission to the Ph.D. program is limited and competitive. All applicants must meet the minimum qualifications described in the **General Regulations** for the School of Graduate Studies. Admission is normally restricted to candidates holding a Master's Degree in Engineering or a related area. Decisions on admission, however, will also take into account such things as the applicant's rank in class, referees' assessments, general performance throughout the applicant's previous academic programs, and the availability of supervisors in the area of the applicant's interest. In cases of demonstrated ability, a student enrolled in the M.Eng. program may be allowed to transfer to the Ph.D. program without the completion of all the M.Eng. Degree requirements. As well, in exceptional cases, direct entry to the Ph.D. program, after completion of a Bachelor's Degree in Engineering or a related area, is possible.

Normally, applicants will be considered in January for admission for the following September. In special cases, applicants may also be considered in April and August. Applications should be made sufficiently far in advance to permit the University to obtain all relevant documents and review the application.

### 28.10.2 Program of Study and Research

A Ph.D. program shall normally consist of three components:

1. a minimum of 6 credit hours consisting of graduate courses recommended by the student's supervisory committee
2. a comprehensive examination as detailed in **Regulations for Ph.D Comprehensive Examination**.
3. a thesis satisfying the requirements of the **General Regulations** for the School of Graduate Studies.

In cases of direct entry after a Bachelor's Degree or promotion from a Master's program before fulfilment of the Master's course requirements, it is likely that the student will be required to take more credit hours than the normally required minimum. In such cases, the requirements for the course component of the student's program will be reviewed on an individual basis by the student's supervisory committee and the Dean of the Faculty of Engineering and Applied Science.

### 28.10.3 Regulations for Ph.D. Comprehensive Examination

#### Timing

The Comprehensive Examination for Ph.D. candidates in the Faculty of Engineering and Applied Science shall be conducted in two parts: I) General Examination and II) Examination of the Research Proposal. A candidate registered full-time in the Ph.D. Program shall normally take Part I of the exam within four semesters of the start of their program and Part II within six semesters. Part-time students will normally take Part I of the exam within four semesters of the start of their program and Part II within seven semesters. Students transferring from a Master of Engineering program will normally complete both parts within seven semesters of the start of their Master of Engineering program.

The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Dean of Engineering

and Applied Science, normally within three semesters of the start of the student's program.

#### Examination Procedure

Part I General Examination is an oral examination of the candidate's mastery of selected sub-disciplines of Engineering and Applied Science related to their area of research. The candidate will be apprised of the sub-disciplines in writing no later than three months prior to the examination. The examination is open to the University community; however, only members of the Committee are permitted to ask questions. The Committee may make four recommendations following this examination: i) the candidate may proceed to Part II of the Comprehensive Examination, ii) the candidate may proceed to Part II but will be assigned additional course work to their program of study, iii) the candidate will be assigned additional study materials and redo Part I in 2 to 8 weeks, iv) the candidate fails. Part I may only be redone once and failing Part I means that the Comprehensive Examination is failed without proceeding to Part II.

Part II Examination of the Research Proposal shall consist of i) a research proposal, normally of no more than 10,000 words, that should clearly define the research problem, survey literature, present the research method or experimental design, and may include a summary of results already obtained, and ii) a 20 to 30 minute presentation. The candidate should submit the written proposal at least one month prior to the presentation which is open to the University community and will be followed by questions from the Committee and the audience.

#### Committee Recommendations

Following Part II, the Examination Committee will meet in camera to decide a final recommendation for the Committee Chair to forward to the Dean of Graduate Studies. The possible recommendations in accordance with **General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination** are "pass with distinction", "pass", "re-examination" or "fail".

### 28.10.4 Courses

For a list of graduate courses offered by the Faculty of Engineering and Applied Science refer to the list of "Core Courses" and the list of "Other Courses" offered for the Master of Engineering program.

## 28.11 English Language and Literature

### Associate Professor and Interim Head of the Department

L.F. Balish

The degrees of Master of Arts and Doctor of Philosophy are offered in English Language and Literature.

Candidates for the M.A. in English may complete the program as either part-time or full-time students. Candidates for the Ph.D. in English must be in attendance as full-time students for at least three semesters of the program.

### 28.11.1 Doctor of Philosophy

1. Admission to the Ph.D. in English is limited and competitive. Applicants should have a Master's Degree in English or its equivalent from a recognized university and should have an outstanding academic record.
2. All candidates will be required to complete 15 credit hours in graduate courses. These courses will be selected by the candidate in consultation with the candidate's Supervisory Committee.

While candidates will normally be free to choose graduate courses of interest to them, it will be a primary responsibility of their Supervisory Committees to ensure that any serious deficiencies in their record of previous courses, graduate and undergraduate, are remedied, particularly in the area of proposed thesis research.

3. Candidates who have not previously taken English 7003 or its equivalent will take English 7003, which will count as one of the required courses for the Ph.D. Students who have taken English 7003 or its equivalent before entering the Ph.D. program must still complete 15 credit hours.
4. Candidates who have not completed English 4900 or English 5900 or an equivalent course will be required to complete English 5900, which will not count as one of the required courses for the Ph.D. The course will be graded "pass" or "fail". As in other graduate courses a grade of 65B or above is considered a pass.
5. Candidates must submit a thesis proposal which includes a statement of topic, a working title, a plan of research and a preliminary bibliography. The thesis proposal should be approved by the Supervisory Committee and submitted to the Departmental Graduate Studies Committee for its approval before the Comprehensive Examination and before the end of the fifth semester. The Departmental Graduate Studies Committee shall return the thesis proposal to the candidate no later than one month after receiving it.
6. Reading knowledge of a second language will be required of all candidates. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, a passing grade in an approved second-language course for graduate students, or performance satisfactory to the Department in an arranged reading proficiency test (in which a dictionary may be used).

The language requirement should be completed before the Comprehensive Examination is taken.

The second language will normally be French. In exceptional circumstances, and on the recommendation of the Supervisory Committee and the Departmental Graduate Studies Committee, a language other than French may be substituted.

The Supervisory Committee may also require a demonstrated reading knowledge of an additional language (other than French or the substituted language) if such knowledge is deemed necessary for the student's research interests.

7. The Ph.D. Comprehensive Examination in English is a written examination prepared by the candidate's Comprehensive Examination Committee.

In accordance with **General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination**, the candidate's Comprehensive Examination Committee will include the Head (or the Head's delegate, usually the Graduate Co-ordinator), the candidate's Supervisor, and three other members of the Department.

The written examination shall consist of three parts: a four-hour examination in the student's area of concentration and two three-hour examinations in two other specified areas. In accordance with **General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination**, the examination shall take place before the end of the seventh semester.

Candidates will be graded "pass with distinction", "pass", "re-examination", or "fail", in accordance with **General Regulation Comprehensive Examinations, Ph.D. Comprehensive Examination**, 4. Candidates who are marked for "re-examination" will be re-examined in the area or areas in which the Comprehensive Examination Committee has determined that the candidate's performance is deficient. The nature of this re-examination (and whether it will be written or oral) is left to the discretion of the Comprehensive Examination Committee.

### 28.11.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow.

- Notes: 1. *Since it is impossible to list in detail the many topics that may from time to time be offered, the titles below refer only to the major periods and general subject areas in which specific courses may be available. The content and approach in specific courses will vary according to the research interests of students and faculty involved in the course. Students should consult the Department's annual Graduate Student Guide (or the Graduate Co-ordinator) for detailed descriptions of specific course offerings. Normally, no fewer than 30 credit hours in graduate courses are offered in any given academic year.*
2. *English 5900 cannot be counted as one of the required graduate courses in any program.*
3. *All students will normally take English 7003 - Trends in Contemporary Literary Theory, usually in their first semester.*
4. *Students who took graduate courses in English at Memorial University of Newfoundland before 1997 should consult with the Department before selecting further courses.*

5900 Bibliography and Research Methods  
 6403 Etymology (same as Linguistics 6403)  
 6420 English Dialectology I  
 6421 English Dialectology II  
 6999 Master's Essay (for non-thesis students)  
 7003 Trends in Contemporary Critical Theory  
 7004 English Phonology and Morphology  
 7005 The Syntactic Structure of English  
 7032 Studies in Old English I  
 7033 Studies in Old English II  
 7034 Studies in Middle English I  
 7035 Studies in Middle English II  
 7036 Studies in Middle English III  
 7037 Studies in 16th-Century Literature I  
 7038 Studies in 16th-Century Literature II  
 7039 Studies in 16th-Century Literature III  
 7040 Studies in 16th-Century Literature IV  
 7041 Studies in 17th-Century British Literature I  
 7042 Studies in 17th-Century British Literature II  
 7043 Studies in 17th-Century British Literature III  
 7044 Studies in 17th-Century British Literature IV  
 7045 Studies in 18th-Century British Literature I  
 7046 Studies in 18th-Century British Literature II  
 7047 Studies in 18th-Century British Literature III  
 7048 Studies in 18th-Century British Literature IV  
 7049 Studies in 19th-Century British Literature I  
 7050 Studies in 19th-Century British Literature II  
 7051 Studies in 19th-Century British Literature III  
 7052 Studies in 19th-Century British Literature IV  
 7053 Studies in 20th-Century British Literature I  
 7054 Studies in 20th-Century British Literature II  
 7055 Studies in 20th-Century British Literature III  
 7056 Studies in 20th-Century British Literature IV  
 7057 Studies in Pre-19th Century American Literature  
 7058 Studies in 19th Century American Literature I  
 7059 Studies in 19th-Century American Literature II  
 7060 Studies in 19th-Century American Literature III  
 7061 Studies in 20th-Century American Literature I  
 7062 Studies in 20th-Century American Literature II  
 7063 Studies in 20th-Century American Literature III  
 7064 Studies in 20th-Century American Literature IV  
 7065 Studies in Pre-19th Century Canadian Literature  
 7066 Studies in 19th-Century Canadian Literature I  
 7067 Studies in 19th-Century Canadian Literature II  
 7068 Studies in 19th-Century Canadian Literature III  
 7069 Studies in 20th-Century Canadian Literature I  
 7070 Studies in 20th-Century Canadian Literature II  
 7071 Studies in 20th-Century Canadian Literature III  
 7072 Studies in 20th-Century Canadian Literature IV  
 7073 Studies in Newfoundland Literature I  
 7074 Studies in Newfoundland Literature II  
 7075 Studies in Newfoundland Literature III  
 7076 Studies in Anglo-Irish Literature I  
 7077 Studies in Anglo-Irish Literature II  
 7078 Studies in Modern Drama  
 7079 Studies in Post-Colonial Literature I  
 7080 Studies in Post-Colonial Literature II  
 7081 Studies in Post-Colonial Literature III  
 7082 Studies in Critical Theory I  
 7083 Studies in Critical Theory II  
 7084 Studies in Critical Theory III  
 7085 Special Readings in English I  
 7086 Special Readings in English II  
 7087 Special Readings in English III  
 7020-25 Special Topics in English

## 28.12 Environmental Science

### Board of Study

Dr. J. Wroblewski, Ocean Sciences Centre - Chair  
 Dr. C. Campbell, Sir Wilfred Grenfell College  
 Dr. B. Chen, Faculty of Engineering and Applied Science  
 Dr. R. Chuenpagdee, Department of Geography  
 Dr. P. Marino, Head, Department of Biology  
 Dr. W. Montevecchi, Department of Psychology  
 Dr. L. Tarasov, Department of Physics and Physical Oceanography  
 Dr. S. Ziegler, Department of Earth Sciences

### 28.12.1 Program

1. The Environmental Science Graduate Program focuses on interdisciplinary research. Supervisors include faculty from all Departments in the Faculty of Science and the Ocean Sciences Centre, the Department of Geography, the Faculty of Engineering and Applied Science, the Faculty of Medicine, and the Environmental Science Program at Sir Wilfred Grenfell College, as well as adjunct faculty from the Department of Fisheries and Oceans.

2. The Board of Study is responsible for the Program. Board members are appointed by the Dean of Science, on the recommendation of the Chair of the Board. The Board chair is elected by the members of the Board of Study and appointed by the Dean of Science. The Board makes recommendations to the Dean of Graduate Studies concerning admissions and academic requirements. In consultation with supervisors, recommendations are made concerning course programs, financial support, thesis committees, comprehensive and thesis topics and examiners, students' annual progress. Upon program completion, the Board certifies that all requirements for the appropriate degree have been met. The department of the supervisor ensures that adequate facilities are provided for each candidate. Students in Environmental Science are considered for teaching assistantships in the Faculty of Science and the Department of Geography.

An 'Oversight Board' will be established, consisting of Deans or designates from participating Faculties, and the Dean of Graduate Studies.

### 28.12.2 Doctor of Philosophy

1. There are three required courses for the doctoral program. All students take ENVS 6010 and those with a disciplinary Master's degree in Science from a recognized university take ENVS 6000. Other courses tailored for individual students are included in the student's program by the Dean of Graduate Studies on the recommendation of the Chair of the Board of Study.

2. The comprehensive examination should be taken on completion of all course work. An Examination Committee will be struck in accordance with the **General Regulations**. At least two members of the Board of Study must be on the Examination Committee. The candidate's Supervisor will be on the Examination Committee and will be the only examiner from the candidate's Thesis Supervisory Committee. The Head of the Department of the Supervisor or his/her delegate is invited to serve on the Comprehensive Examination Committee. The Examination Committee is chaired by the Chair of the Environmental Science Program. The examination will be both written and oral. The topic is assigned by the Examination Committee, which also determines the submission date for the paper, and the date of the examination. Normally, the student will write the paper within four months, and the oral examination will occur within six weeks of the paper's submission. This paper will form the basis of a public seminar. The Examination Committee will question the candidate about the paper, the topic and its broader relationship with Environmental Science.

3. The most important requirement is the writing of the doctoral thesis. The research thesis is based on the results of systematic, independent research on an approved scientific topic. To ensure the research is interdisciplinary, the supervisory committee must be made up of members from at least two different departments. The candidate will be required to present a Ph.D. research proposal to the supervisory committee. The completed thesis will be evaluated according to the **General Regulations** of the School of Graduate Studies. It must contribute significantly to knowledge in the field of Environmental Science.

### 28.12.3 Courses

6000 Environmental Science and Technology  
 6001 Earth and Ocean Systems  
 6002 Environmental Chemistry and Toxicology  
 6003 Applied Ecology  
 6004 Environmental Pollution and Mitigation  
 6005 Environmental Sampling and Pollutant Analysis  
 6007 Environmental Risk Assessment  
 6010 Environmental Seminar  
 6201-6209 Selected Topics in Environmental Science

## 28.13 Ethnomusicology

### Professor and Director

E. Waterman

### Associate Professor and Associate Director

M. Cheramy

The Doctor of Philosophy program in Ethnomusicology is administered by the School of Music in consultation with the Department of Folklore, and generally in response to recommendations from an Interdisciplinary Advisory Committee with representation from both academic units, chaired by the Program Co-ordinator.

The Degree of Ph.D. in Ethnomusicology is offered by part-time and full-time study. This program is a research Degree, generally involving extended fieldwork. The resources of the Memorial University of Newfoundland Folklore and Language Archive are available to graduate students in Ethnomusicology.

### 28.13.1 Qualifications for Admission

Applicants may be admitted to the program if they have at least a B+ average in a M.A. Degree in Ethnomusicology, another field of Music, or other relevant discipline in the Humanities or Social Sciences with evidence of specialization in music. Applicants from a discipline other than Music will be expected to demonstrate the following skills:

- Competent performance in any musical tradition, as judged by a musician knowledgeable about that tradition.
- Knowledge of culturally appropriate language for discussion of performance techniques in that tradition.
- Ability to discuss musical details on the basis of aural and/or written sources, as appropriate to that tradition.

Candidates for admission may, at the discretion of the Interdisciplinary Advisory Committee, be required to write diagnostic examinations measuring skills and knowledge in music literacy, theory, or aural perception. Candidates with deficiencies in any of these areas may be required to take remedial course work prior or in addition to the required program.

Upon completion of M.A. course work, students who have attained an A average may wish to be considered for transfer to the Ph.D. program. Students who seek this option must apply to the Interdisciplinary Advisory Committee to be considered for transfer one month prior to the completion of their M.A. courses or by the end of the 5th semester (see General Regulation **Qualifications for Admission, Master's Program**).

### 28.13.2 Program Requirements

The Ph.D. program may be completed within twelve to fifteen consecutive semesters of full-time study, depending on fieldwork requirements. The Degree is normally taken by completing course work, comprehensive examinations, a language proficiency requirement, and a Ph.D. thesis, defended in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies.

1. Students must complete a minimum of 21 credit hours of course work. If required courses have been completed at the M.A. level, electives may be substituted (with approval of the Interdisciplinary Advisory Committee). The required courses are:
  - a. Music 8001; Folklore 6010, 6030.
  - b. ONE of Music 6002 or Folklore 7100.
  - c. Nine credit hours of electives selected from courses listed below or from relevant courses offered in another discipline (with the approval of the Interdisciplinary Advisory Committee). Ph.D. students may take up to two courses (6 credit hours) in a cognate discipline.
  - d. Reading proficiency in one language other than English, relevant to the research area, demonstrated to the satisfaction of the Interdisciplinary Advisory Committee. The choice of language must be approved by the Interdisciplinary Advisory Committee. The language exam should normally be completed before the comprehensive exams.
2. Comprehensive examinations will be administered in a major area, minor area, and theoretical/interdisciplinary area; a component of the comprehensive examination will test audio-visual skills. Bibliographies and discographies for several focussed topics will be developed by the student in consultation with his/her supervisory committee and will be the basis of examination questions. The written portion of the examination will be scheduled over a one-week period. The Comprehensive Examination Committee will normally schedule a consultation with the student to discuss the written essays within one month following the completion of the written examination. For further information see General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**.
3. Students must complete a thesis, examined and defended in accordance with General Regulation **Theses and Reports** of the School of Graduate Studies. A thesis proposal, including a working title, statement of purpose and research scope, outline of theoretical and methodological approach, working plan, and preliminary bibliography, together with proposed membership of the supervisory committee, must be submitted to the Interdisciplinary Advisory Committee no later than the fifth semester of study. The thesis shall demonstrate the candidate's ability to carry out original and independent research, develop the necessary theoretical and methodological framework, and present the findings in a scholarly manner.

### 28.13.3 Courses

#### Theories and Methods:

Music 6001 Research Methods  
 Music 6002 Graduate Seminar  
 Music 7001 Research Problems and Methods in Ethnomusicology  
 Music 8001 Theoretical Issues in the Study of Music  
 Folklore 6010 Survey of Folklore Genres and Processes  
 Folklore 6020 Field and Research Methods  
 Folklore 6030 Folklore Theories  
 Folklore 6040 Feminist Theories: Perspectives and Issues  
 Folklore 6080 Vernacular Theories  
 Folklore 6090 Ethnology  
 Folklore 7100 Advanced Folkloristics II: Research and Ethnography

#### Form and Performance:

Music 7005 Performance Option  
 Folklore 6100 Song and Music  
 Folklore 6120 Ballad  
 Folklore 6130 Folk Music Canons and Documentary Sound Recordings  
 Folklore 6200 Folktale  
 Folklore 6210 Legend  
 Folklore 6220 Personal Experience Narrative  
 Folklore 6250 Language and Play  
 Folklore 6260 Ethnography of Communications  
 Folklore 6300 Ethnography of Belief  
 Folklore 6310 Health Systems  
 Folklore 6350 Custom  
 Folklore 6360 Traditional Drama  
 Folklore 6400 Material Culture  
 Folklore 6410 Vernacular Architecture  
 Folklore 6420 Art and the Artifact  
 Folklore 6430 Food and Culture  
 Folklore 6720 Folklore and Literature

#### Area and Genre Studies:

Music 7010 World Music: Music of Asia and Oceania  
 Music 7011 World Music: Music of Africa and the Americas

Music 7012 Canadian Musical Traditions  
 Music 7013 Music and Culture  
 Music 7017 Folksong  
 Music 7018 Jazz and Blues: The Roots of Popular Music  
 Folklore 6120 Ballad  
 Folklore 6600 Folklore of Newfoundland  
 Folklore 6610 Folklore of Canada  
 Folklore 6620 Folklore of the United States  
 Folklore 6630 Folklore of the British Isles  
 Folklore 6770 The Global and the Local

**Social Identities:**

Music 7006 Urban Ethnomusicology  
 Music 7007 Music in the Study of Gender, Race and Class  
 Music 7009 Music and Place  
 Folklore 6510 Occupational Folklore  
 Folklore 6551 Indigenous Expressive Cultures in Cross-cultural Encounter  
 Folklore 6730 Folklore and Gender  
 Folklore 6780 Ethnicities

**Independent Study:**

Music 7026-29 Directed Reading in Ethnomusicology  
 Folklore 6570-79 Reading Course in Folklore

**Special Topics:**

Music 6800-09 Special Topics in Music  
 Music 7800-09 Special Topics in Music  
 Folklore 6511-29 Special Topics in Folklore  
 Folklore 6570-79 Reading Course in Folklore

**Public and Applied Ethnomusicology and Folklore:**

Music 6700 Music Industries Seminar  
 Music 6750 Music Industries Internship (2 credit hours)  
 Folklore 6740 Public Sector Folklore  
 Folklore 6760 Archiving  
 Folklore 6790 Museums: Perspectives and Practices  
 Folklore 6800 Applied Folklore

**Interdisciplinary Perspectives:**

Music 7008 Media Studies  
 Folklore 6700 Folklore and Culture  
 Folklore 6710 Oral Tradition and Oral History  
 Folklore 6750 Popular Culture: Theory and Debate

## 28.14 Folklore

**Associate Professor and Head of the Department**

D. Tye

The Degree of Doctor of Philosophy in Folklore is offered by part-time and full-time study and is primarily a research Degree. The program normally requires extensive fieldwork research in Newfoundland and/or the Maritimes.

Integral to the teaching of the Department of Folklore is the work of the Memorial University of Newfoundland Folklore and Language Archive; see section under **Master of Arts, Folklore**.

### 28.14.1 Doctor of Philosophy

1. An applicant for admission to the Ph.D. program in Folklore must hold an M.A. Degree in Folklore, or its equivalent as determined by the Head of the Department and the Dean, with an average grade in M.A. courses of not less than 80%.
2. All Ph.D. students in the Folklore program must complete *at least* 18 credit hours in program graduate courses which shall include Folklore 7000 and 7100. Candidates will normally be free to choose graduate courses of interest to them in Folklore or related disciplines, though it will be a primary responsibility of their committees to ensure that any serious deficiencies are made good. At the end of the second semester of the program and further status of the candidate will be reviewed.
3. Second Language Requirements:
  - a. All Ph.D. candidates are required to demonstrate an adequate reading knowledge of a second language - normally a common, modern language.
  - b. Reading knowledge is defined as a minimum B grade in a second-year language course taken within the previous five years, or performance satisfactory to the Department in an arranged reading proficiency test.
  - c. The selection of a second language can be based on the student's research requirements.
  - d. The selection of a second language must be made in consultation with the student's faculty advisor or Supervisor. Confirmation that the choice is acceptable must be obtained from the Department.
  - e. The language requirement must normally be fulfilled before a student takes the Ph.D. Comprehensive Examination.
4. Comprehensive Examination for the Ph.D.:
  - a. The Ph.D. Comprehensive Examination shall be administered in accordance with **General Regulations, Comprehensive Examinations**. Candidates will prepare for three examinations by undertaking supervised readings in three fields decided by the Comprehensive Examinations Committee. The basic principle is to integrate knowledge within specific areas of folklore and folklife scholarship. The examination normally will be written with the format to be determined by the Comprehensive Examination Committee in consultation with the student. Assessment will be based on the examination of three papers each of one week duration or three closed book examinations each of eight hours duration. The Committee will recommend to the Dean of Graduate Studies a grade of PAS (pass), FAL (fail), or PWD (pass with distinction).
  - b. Examination normally will take place only upon the completion of the second language requirements and no earlier than the end of the first year after admission to candidacy but no later than one year after the completion of the program courses. The

examination normally will be scheduled in the second semester following the candidate's completion of courses.

5. Ph.D. Thesis:

- a. The candidate will normally submit a thesis proposal based on his/her own interests no later than the end of the fourth semester of the program. The thesis proposal will include a working title, names of preferred Supervisor and two other Committee members, statement of topic, plan of research, statement of methodological and theoretical approach, a brief review of the literature and a preliminary bibliography. The proposal will be circulated to the Department for critical evaluation on the basis of which the candidate will be informed, within one month, by the Supervisor, of its acceptance, rejection, or acceptance with recommended changes.
- b. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and present the findings in a scholarly manner.

## 28.14.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, normally after consultation with the Head of the Department or the Graduate Studies Administrator, and as far as the resources of the Department will allow. Courses are structured according to the categories of: Theories and Methods, Issues, Form and Performance, Special Topics, Regional, National and International Heritage, Social Identities, Public and Applied Folklore, Interdisciplinary Perspectives and Required (Ph.D.):

### Theories and Methods

6010 Survey of Folklore Genres and Processes  
 6020 Field and Research Methods  
 6030 Folklore Theories  
 6040 Feminist Theories: Perspectives and Issues  
 6080 Vernacular Theories  
 6090 Ethnology

### Issues

6050 Issues in Folkloristics  
 6060 Issues in Folk Literature  
 6070 Issues in Folklife

### Form and Performance

6100 Song and Music  
 6120 Ballad  
 6130 Folk Music Canons and Documentary Sound Recordings  
 6200 Folktale  
 6210 Legend  
 6220 Personal Experience Narrative  
 6250 Language and Play  
 6260 Ethnography of Communications  
 6300 Ethnography of Belief  
 6310 Health Systems  
 6350 Custom  
 6360 Traditional Drama  
 6370 Ritual, Festival and Public Display  
 6400 Material Culture  
 6410 Vernacular Architecture  
 6420 Art and the Artifact  
 6430 Food and Culture  
 6720 Folklore and Literature

### Special Topics

6511-29 Special Topics in Folklore  
 6550 Special Research in Folklore  
 6551 Indigenous Expressive Cultures in Cross-Cultural Encounter  
 6552-69 Special Research in Folklore  
 6570-79 Reading Course in Folklore

### Regional, National and International Heritage

6600 Folklore of Newfoundland  
 6610 Folklore of Canada  
 6620 Folklore of the United States  
 6630 Folklore of the British Isles  
 6640 Traditional Culture of Scotland  
 6650 Culture and Traditions of Ireland  
 6660 Folklore of the Francophone Regions  
 6690 International Folklore

### Social Identities

6510 Occupational Folklife  
 6730 Folklore and Gender  
 6770 The Global and the Local  
 6780 Ethnicities

### Public and Applied Folklore

6740 Public Sector Folklore  
 6760 Archiving  
 6790 Museums: Perspectives and Practices  
 6800 Applied Folklore

### Interdisciplinary Perspectives

6700 Folklore and Culture  
 6710 Oral Tradition and Oral History  
 6750 Popular Culture: Theory and Debate

**Required (Ph.D.)**

7000 Advanced Folkloristics I

7100 Advanced Folkloristics II Research and Ethnography

Credit may not be obtained for both 6010 and the former 6110; 6020 and the former 6111; 6030 and the former 6112; 6100 and the former 6430; 6120 and the former 6445; 6300 and the former 6230; 6350 and the former 6230; 6400 and the former 6501; 6720 and the former 6460.

**28.15 Food Science**See **Biochemistry**.**28.16 Geography****Associate Professor and Head of the Department**

C. Mather

**28.16.1 Doctor of Philosophy**

1. To be admitted to the program, an applicant must have completed either a Master of Arts or a Master of Science Degree, or its equivalent, in Geography or a related discipline. In exceptional circumstances, a candidate who has completed either a B.A. (Honours) or B.Sc. (Honours) Degree, and who has spent not less than 12 months in a M.A. or M.Sc. Degree program may apply for transfer into a Ph.D. program. A successful application for transfer will require that the candidate demonstrate to the satisfaction of the Department an ability to pursue research at the doctoral level.
2. The deadline for submission of applications for admission is January 15. Candidates will normally commence their programs in the Fall semester.
3. Research areas for graduate study at the Doctoral level are cultural, political and historical geography, economic geography, resource management, community and regional development, physical geography and geographic information sciences.
4. An applicant will be admitted to a doctoral program only if a faculty member agrees to act as Supervisor, and at least two other individuals are willing to serve on the supervisory committee.
5. All candidates must successfully complete Geography 6000 and 6001 if these courses, or equivalent courses, have not been included in their Master's program. In addition, all candidates are required to successfully complete a minimum of 3 credit hours in graduate program courses.
6. The supervisory committee may decide that a candidate successfully completes an examination for reading or speaking a language other than English.
7. After the successful completion of all required courses, candidates must take a comprehensive examination which will have both a written and an oral component.
8. Following successful completion of the comprehensive examination the candidate will submit a written research proposal to the supervisory committee. The proposal must then be approved by the Committee prior to the commencement of research by the candidate.
9. Each candidate will be required to present a seminar on their research to the Department.
10. The Ph.D. program will conclude with the examination and oral defence of the completed thesis in accordance with the appropriate sections of the **General Regulations** governing the School of Graduate Studies.

**28.16.2 Courses**

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Development of Geographical Thought and Practice I

6001 Development of Geographical Thought and Practice II

6002 Directed Readings in Geography

6100 Research Techniques in A Selected Field of Geography I

6101 Research Techniques in A Selected Field of Geography II

6120 Geospatial Modelling and Analysis

6150 Environmental Remote Sensing and Image Analysis

6200 Economic Geography I

6201 Economic Geography II

6204 Sustainable Community and Regional Development

6250 Conservation and Sustainability of Natural Resources

6251 Survey Design, Questionnaire Development and Techniques of Data Collection

6300 Problems in Fisheries Geography

6400 Fluvial Geomorphology

6401 Glacial Geomorphology

6402 Coastal Geomorphology

6410 Climatology

6420 Quaternary Geography

6430 Biogeography

6500 Cultural Geography

6600 Historical Geography

6700 Political Geography

6800 Urban Geography

6821 Advanced Computer Mapping

6900 Graduate Seminar in Regional Geography

6990-95 Special Topics in Geography

**28.17 Geology**See **Earth Sciences**.

## 28.18 Geophysics

See **Earth Sciences**.

## 28.19 History

**Professor and Head of the Department**

C. Youé

The degrees of Doctor of Philosophy and Master of Arts are offered in History by full-time or part-time study.

### 28.19.1 Doctor of Philosophy

1. The Ph.D. Degree in History is offered in the following areas:
  - a. Canadian History
  - b. Maritime History
  - c. Newfoundland History
2. An applicant must hold either a Master's Degree in History or a Bachelor's Degree in History with first-class Honours or their equivalents as determined by the Head of the Department and the Dean.
3. All candidates must successfully complete History 7000 and 7001 in the first year of the program. The Supervisory Committee may require the candidate to complete additional graduate courses.
4. All candidates must demonstrate in accordance with regulations established by the School of Graduate Studies a reading knowledge of French before taking the comprehensive examination. On the recommendation of the Supervisory Committee a modern language other than French may be substituted. In addition, the Supervisory Committee may require a demonstrated reading knowledge of a second language other than French or English (or the substitute language).
5. Candidates will undertake supervised reading in fields prescribed by the Department. The Supervisors of these programs of reading, along with the thesis Supervisor, will comprise the student's Supervisory Committee. This reading will prepare the student for the comprehensive oral examination.
6. Candidates must submit a thesis proposal, deemed acceptable by the Supervisory Committee, to the Department before sitting the comprehensive examination.
7. Candidates will normally sit the comprehensive oral examination in the second year of the program.
8. Interested applicants are urged to consult with the Head of the Department on these prerequisites and other requirements before filing an application for admission.

### 28.19.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the Department will allow:

6000 Advanced Studies in Newfoundland History  
6010 Advanced Studies in Canadian History  
6020 Advanced Studies in the History of the United States  
6030 Advanced Studies in French History  
6040 Advanced Studies in British History  
6050 Advanced Studies in German History  
6060 Advanced Studies in North Atlantic History  
6070 Advanced Studies in Social History  
6075 Advanced Studies in Labour and Working Class History  
6080 Advanced Studies in Intellectual History  
6090 Advanced Studies in Women's History  
6095 Advanced Studies in Ethnohistory  
6100 Advanced Studies in Military History  
6105 Advanced Studies in Diplomatic History  
6110 Advanced Studies in Maritime History  
6120 Advanced Studies in Economic and Business History  
6125 Medical Science and Social Responsibility in Health Care: Aspects of Medical History (*Cross-listed as Medicine 6420*)  
6130 Quantification and Measurement in History  
6140-59 Research in Special Topics  
6160-79 Reading Courses (Special Topics)  
6190 Theory and Method  
6200 Masters Seminar I  
6999 Masters Research Paper (12 credit hours)  
7000 Ph.D. Seminar I  
7001 Ph.D. Seminar II

## 28.20 Interdisciplinary

**Associate Professor and Director**

S. MacKinnon

The Degree of Doctor of Philosophy (Interdisciplinary) is offered by part-time and full-time study.

The **General Regulations** of the School of Graduate Studies and the regulations outlined below will apply.

### 28.20.1 Administration

1. The program shall be administered by a Director, together with the School of Graduate Studies Interdisciplinary Ph.D. Committee (ID Ph.D. Committee).
2. The program of study of each student will be guided for the duration of the program by a Supervisory Committee of either three (3) or five (5) faculty members, appointed by the Dean of Graduate Studies on the recommendation of the ID Ph.D. Committee at the time of admission.

In addition, the Director shall be an ex officio member of each Interdisciplinary Ph.D. Supervisory Committee.

Duties of this Committee shall involve supervising the overall program of study, including the recommendation of appropriate courses, the setting and scheduling of comprehensive examinations, the development of a research proposal, and the thesis-writing and final examination.

The Supervisory Committee is also responsible for recommending fellowship support to the ID Ph.D. Committee and to the Dean of Graduate Studies at the time of admission and throughout the student's program.

3. Normally, the "academic home" for the student is in the Department or faculty/school of the primary Supervisor.

### 28.20.2 Deadlines for Applications

1. The deadline for Fall admission is March 1 for commencement in September, October 1 for commencement in January, and February 1 for commencement in May. Students seeking admission to the program should start preparing their admission file well in advance of the application deadline.

Admissions shall be considered by the ID Ph.D. Committee and recommendations shall be made to the Dean of Graduate Studies.

### 28.20.3 Admission

1. Prospective students should normally hold a Master's Degree and have an excellent academic record. Applications for admission must include:
  - a. Three letters of reference
  - b. A detailed research proposal
  - c. Letters expressing a commitment to the research project and to supervisory duties from three Memorial University faculty members, one of whom is prepared to assume the role of academic Supervisor or co-supervisor and at least one whose unit of primary responsibility is a Ph.D. granting Department.
  - d. Letters of endorsement from the administrative heads of each of the units involved in the proposed program.
  - e. A statement from the University Librarian indicating the adequacy of Library resources to satisfy the demands of the research program.

### 28.20.4 Program of Study

1. a. Students will normally be required to take 12-18 credit hours of courses to be determined by the Supervisory Committee. These must include at least one course from each participating discipline. Directed reading courses may be included to support the development of the thesis work.
- b. Where appropriate, extra language and/or methodology courses may be prescribed. See **Evaluation, Evaluation of Graduate Students**, 4. concerning language(s) requirement.
2. Comprehensives
 

The scope, format, and number of required comprehensive examinations shall be determined by the Supervisory Committee in consultation with the student and in accordance with the needs of his/her particular program of study. Students will be required to take a comprehensive examination after the completion of all required course work, which can be no later than the end of the seventh semester of study. Comprehensive examinations shall follow procedures in accordance with General Regulation, **Comprehensive Examinations, Ph.D. Comprehensive Examination**, with the exception of 2.
3. Thesis
  - a. A thesis proposal, including a working title, statement of purpose and research scope, outline of theoretical and methodological approach, working plan and preliminary bibliography must be submitted to the Supervisory Committee no later than the end of the fifth semester of study. If approved by the Committee, the proposal shall be recommended to the ID Ph.D. Committee for final approval.
  - b. Students must complete a thesis, examined and defended in accordance with General Regulation, **Theses and Reports** of the School of Graduate Studies. The thesis shall give evidence of the candidate's ability to develop independent and original research.

## 28.21 Linguistics

### Professor and Head of the Department

M. MacKenzie

The degrees of Master of Arts and Doctor of Philosophy are offered in Linguistics.

### 28.21.1 Doctor of Philosophy

1. The Degree of Doctor of Philosophy is offered in the following areas:
  - a. Languages in which the Department has demonstrated expertise, especially languages of the Newfoundland and Labrador Area.
  - b. Historical and Comparative Linguistics.
  - c. Language Variation and Language Contact.
2. In order to be admitted to the Ph.D. in Linguistics, a student shall normally hold a Master's Degree in Linguistics. In the case of a student who does not meet the above requirement but who holds a language-oriented Master's Degree, a program of additional linguistics courses, supplementary to those normally considered to be required in the Ph.D. program, may be required.
3. The program of each candidate must be approved by the Dean of Graduate Studies upon the recommendation of the Supervisory Committee in consultation with the Head of the Department.
4. Candidates who fulfill the requirement in Clause 2 and who otherwise possess the qualifications of Ph.D. candidates will embark on a program approved on an individual basis. This will normally include not less than 18 credit hours in graduate courses, at least 6 credit hours of which must be at the 7000-level.
5. Where needed, each program will include appropriate courses to ensure that the student will have completed 9 credit hours from graduate courses in each of two required fields selected from the following:
  - a. Phonetics and Phonology
  - b. Morphology and Syntax

- c. Comparative and Historical Linguistics
  - d. Dialectology and Sociolinguistics
6. The comprehensive examination (see Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination** of the **General Regulations**) includes two written and two oral examinations. Students must meet all language requirements prior to undertaking their comprehensive examination.
    - a. The written examinations consist of two separate research papers. These papers will be submitted to the Examination Committee. At least one of the papers must be in one of the core areas of phonetics/phonology, morphology, syntax or semantics. The topic selected for each paper must obtain the prior approval of the Graduate Studies Committee of the Department. In each of these papers, candidates must demonstrate knowledge of the literature on the topic selected, general mastery of the discipline of linguistics and ability to undertake independent research.
    - b. The Examination Committee will examine the candidate orally, on each paper, within one month of submission. Questioning can be as wide-ranging as the Committee deems necessary to ensure that the student displays a thorough and comprehensive knowledge of the area in question.
    - c. The Examination Committee shall consist of the Head of Department (or delegate) who shall Chair the Committee, the Supervisor, the Dean of Graduate Studies (or delegate), and other members necessary to satisfy General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination, 2.**, who may normally include the members of the Supervisory Committee. If the Head of Department is also a member of the Supervisory Committee, an additional representative of the Department shall be appointed to chair the Examination Committee.
  7. Initially, candidates must obtain approval for their Ph.D. thesis topics from the Graduate Studies Committee of the Department, in consultation with the Supervisory Committee. The thesis topic is normally selected before the end of the second full year in the program. Once the topic is approved, a more detailed thesis proposal must be presented to the Department in both written and oral format, and must receive formal Departmental approval prior to the writing of the thesis.
  8. Proficiency in a language other than the candidate's first language will be required, as demonstrated by a minimum B grade in a second-year language course, or performance satisfactory to the Department in an arranged reading proficiency test. A structural knowledge of a non-Indo-European language is also required, as demonstrated by a minimum B grade in a field methods/language structure course or other performance satisfactory to the Department. Depending on the program, a reading knowledge of one or more additional languages may be required. Students must meet all language requirements before undertaking their comprehensive examinations.
  9. All Ph.D. students are advised to consult the Linguistics department's Graduate Handbook for details on program requirements and for general information relating to the graduate program.

## 28.21.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of students, as far as the resources of the Department will allow. Full information is to be found in the Department's Graduate Brochure.

- 6050-54 Structure of a North American Aboriginal Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6050-54 series. Students may not obtain credit for any of the previously offered 6010, 6011, 6020, 6021, 6030, 6031, 6040, 6041 in addition to a course in the 6050-54 series.)
- 6055-59 Structure of an Uncommonly-Taught Language (Credit restriction: Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the 6055-59 series.)
- 6100 Issues in Morphosyntax (Credit may not be obtained for both Linguistics 6100 and the former 6001)
- 6110 Selected Topics in Transformational Grammar
- 6115 Topics in the Syntax of A Selected Language (Prerequisite: 6001 or 6110)
- 6150 Principles of Language Acquisition
- 6151 Selected Topics in Language Acquisition (Prerequisite: 6150)
- 6200 Generative Phonology
- 6201 Selected Topics in Phonology (Prerequisite: 6200)
- 6210 Sociolinguistics (Credit restriction: A student may not obtain credit for both 6210 or the former 6211)
- 6212 Selected Topics in Language and Gender
- 6220 Areal and Temporal Variations in Language
- 6300-09 Special Subjects
- 6350 General Romance Linguistics
- 6390 Franco-Canadian
- 6400 Comparative and Historical Linguistics
- 6401 Morphosyntactic Change (Prerequisite: 6400)
- 6403 Etymology (cross-listed as English 6403)
- 6410 Comparative Structure of a Selected Language Family (Prerequisite: 6011 or 6031 or 6403)
- 6420 English Dialectology I
- 6421 English Dialectology II
- 6430 Selected Topics in Linguistic Variation (Prerequisite: 6220 or the former 6211)
- 6500 Field Methods
- 6601 Modern Linguistic Theories
- 6700 Experimental Phonetics
- 6701 Selected Topics in Experimental Phonetics (Prerequisites: 6200, 6700)
- 6800 Selected Topics in Morphology
- 6880 Selected Topics in Semantics
- 7000 Seminar in Research Methods
- 7001 Analytical issues in Linguistics
- 7100 Topics in North American Native Languages (Prerequisites: a course from series 6050-6054 or the former 6011, 6031, 6041)
- 7200 Advanced Topics in Syntax (Prerequisites: 6110, plus either 6001 or 6115)
- 7400 Seminar in Comparative and Historical Linguistics (Prerequisite: 6400 or 6410)
- 7430 Seminar in Linguistic Variation (Prerequisite: 6430)
- 7800 Seminar in Morpho-semantics (Prerequisite: 6800)
- 7900-03 Special Topics in Linguistics

Note: *Appropriate equivalent credits may be given for courses taken at the Summer Institute of the Linguistic Society of America, or a similar institute. Students are encouraged to attend these institutes. They should, however, consult the Head of the Department as to what courses may be appropriate for credit.*

## 28.22 M.D.-Ph.D.

1. The M.D.-Ph.D. program is offered by full-time study to highly motivated students with an excellent academic record who wish to obtain an M.D. and a Ph.D., and whose academic excellence, research potential, and the suitability of the proposed research training environment is acceptable to the Program Admissions and Advisory Committee.
2. The purpose of the M.D.-Ph.D. program is to provide medical education, including clinical skills and training in health research.
3. The M.D.-Ph.D. program will be overseen by the Program Admissions and Advisory Committee (P.A.A.C.). The P.A.A.C. will be responsible for the recruitment and oversight of the program of highly qualified trainees.
4. The P.A.A.C. is composed of the M.D.-Ph.D. Program Director(s), a representative from the Faculty of Medicine, one or more faculty members representing the School of Graduate Studies and a senior M.D.-Ph.D student.
5. M.D.-Ph.D students are jointly enrolled in the M.D. program and the Ph.D. program. The student's Ph.D. program is overseen by the administrative head of the appropriate academic unit in which the student is enrolled. The M.D. program is overseen by the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine.

### 28.22.1 Qualifications for Admission

1. To be admitted into the M.D.-Ph.D. program, applicants must first meet the admission requirements of both the M.D. and Ph.D. programs. Admission to the Ph.D. program shall be by the Dean of Graduate Studies on the recommendation of the head of the appropriate academic unit. Admission to the M.D. program is by the Dean of Medicine on the recommendation of the Assistant Dean, Admissions, Faculty of Medicine.
2. Normally, students will enter the M.D.-Ph.D. program from the M.D. program after successful completion of the pre-clerkship phase or from the Ph.D. program after one or two years of the graduate program and acceptance into the M.D. program.

### 28.22.2 Program of Study and Research

1. The program of study for the Ph.D. is described in the University Calendar entry for the student's chosen discipline. For the purposes of timing of the comprehensive examination, only the semesters in the Ph.D. component of the program will be counted.
2. The program of study for the M.D. follows the General Regulations governing the M.D. Degree.
3. During the Ph.D. component, students are expected to maintain clinical skills by arrangement with the Assistant Dean, Undergraduate Medical Education, Faculty of Medicine, and will be required to demonstrate competency in clinical skills before resuming full-time studies in the clerkship phase of the M.D. component.
4. During the M.D. component (including the clerkship phase), students, where required, are expected to participate in seminars and journals clubs in their area of research specialization.
5. The Ph.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the Ph.D. Degree. The M.D. will be awarded to students in the M.D.-Ph.D. program on completion of all academic requirements appropriate to the M.D. Degree.

### 28.22.3 Evaluation

Failure to maintain academic standing in either the Ph.D. or M.D. components will lead to termination of the M.D.-Ph.D. program which will be annotated on the student's transcript. On failure of the M.D. component, the Dean of Graduate Studies may approve transfer to a Ph.D. program on the recommendation of the administrative head of the appropriate academic unit. On failure of the Ph.D. component, the Dean of Medicine may approve transfer to a M.D. program on the recommendation of the Assistant Dean of Undergraduate Medical Education.

### 28.22.4 Courses

See course listing under the regulations for the relevant Ph.D. program and also for the M.D. program in the General Regulations governing the M.D. degree.

## 28.23 Management

### Professor and Dean

W. Zerbe

### Associate Professor and Associate Dean (Academic Programs)

T. Clift

### Professor and Associate Dean (Research)

J. Parsons

The Degree of Doctor of Philosophy in Management is offered in the Faculty of Business Administration. The designation refers to management in the broad context. The Degree will offer specializations corresponding to functional areas in management. The Degree currently is offered with specializations in: (i) operations and information management, and (ii) organizational behaviour and human resources management.

The Degree of Doctor of Philosophy in Management is offered by full-time study to qualified candidates. The **General Regulations** of the School of Graduate Studies and the Degree Regulations of the Faculty of Business Administration outlined below, will apply.

### 28.23.1 Admission to the Ph.D. Program

Admission is limited and competitive. General qualifications for admission to the Ph.D. Programs at Memorial University of Newfoundland are set out under **General Regulations, Qualifications for Admission**. Applicants from all disciplines will be considered.

In addition, applicants must have completed the GMAT with a minimum score of 600 (or GRE with a combined score of 1100).

### 28.23.2 Supervisory Committee

Until a supervisory committee has been formed, the Ph.D. Program Director will be the designated advisor of each Ph.D. student. Each candidate will have a supervisory committee consisting of three or more members, at least two of whom shall be members of the Faculty of Business Administration. The thesis Supervisor shall be a doctorally qualified faculty member in the Faculty of Business Administration, Memorial University of Newfoundland, having a recent (past five years) research track record suitable to provide

research supervision at the Ph.D. level. The supervisory committee will be appointed no later than the end of the first year of studies.

Students are encouraged to find a Supervisor within the first year of the program and, together with the Supervisor, find the remaining committee members by the time all required courses are completed.

### 28.23.3 Components of Study

#### 28.23.3.1 Courses

Students are required to complete successfully a program of courses, normally over the first two years of the program. Students without an adequate background in the functional areas of business may be required to take additional breadth courses. Such determination will be made by the Ph.D. Admission Committee when a student is accepted into the program.

1. **Required for all Specializations**

Philosophy 6015 Theory of Knowledge  
Business 9901 Approaches to Management Research

2. **One of**

Business 9902 Modelling Methods in Management Research  
Business 9903 Quantitative Methods in Management Research\*  
Business 9904 Qualitative Methods in Management Research\*\*  
Business 9901 is to be completed before any of Business 9902, 9903, 9904 is attempted.

3. Graduate Research Integrity Program (non-credit)

\*Alternatively, students may elect to take Education 6467 if Business 9903 is not offered in a particular year, on the approval of the Ph.D. Program Director.

\*\*Alternatively, students may elect to take Education 6466 if Business 9904 is not offered in a particular year, on the approval of the Ph.D. Program Director.

#### Operations and Information Management (OIM) Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Operations and Information Management specialization:

Business 9910 Optimization  
Business 9911 Data and Process Models in Information Systems Development  
Business 9912 Probabilistic Models  
Business 9913 Human-Computer Interaction and Decision Support Systems  
Business 9914 Supply Chains: Models and Management  
Business 9915 Electronic Commerce  
Business 991A/B Seminar in Operations and Information Management Research A/B  
Business 9917 Special Topics in Operations Management  
Business 9918 Special Topics in Information Systems

**Recommended Sequence for Operations and Information Management (OIM) Specialization Table**

Semester	Courses
Year 1, Fall	Philosophy 6015 Theory of Knowledge BUSI 9901 Approaches to Management Research BUSI 9910 Optimization BUSI 9911 Data and Process Models in Information Systems Development
Year 1, Winter	BUSI 9902 (Modelling), 9903 (Quantitative), or 9904 (Qualitative) Methods in Management Research BUSI 9912 Probabilistic Models BUSI 9913 Human-Computer Interaction and Decision Support Systems Graduate Research Integrity Program (non-credit)
Year 1, Spring	Summer Research Project
Year 2, Fall	BUSI 9914 Supply Chain: Models and Management BUSI 9915 Electronic Commerce BUSI 991A Seminar in Operations and Information Management Research (Part A) Graduate Program in Teaching (Recommended (non-credit))
Year 2, Winter	BUSI 991B Seminar in Operations and Information Management Research (Part B) BUSI 9917 Special Topics in Operations Management BUSI 9918 Special Topics in Information Systems

#### Organizational Behaviour and Human Resources Management Specialization Courses

In addition to the above-noted courses required for all specializations, the following courses are required for the Organizational Behaviour and Human Resources Management specialization.

1. Required courses:

Business 9920 Foundations in Organizational Behaviour  
Business 9921 Foundations in Human Resources Management  
Business 9922 Foundations in Industrial Relations  
Business 9923 Foundations in Organization Theory

Note: Waivers shall not be granted in the Ph.D. program for previously completed course work at either the undergraduate or master's level.

2. Four of:

Business 9924 Current Issues in Organizational Behaviour  
Business 9925 Current Issues in Human Resources Management  
Business 9926 Current Issues in Industrial Relations  
Business 9927 Current Issues in Organization Theory  
Business 9928 Special Topics in Organizational Behaviour/Organization Theory

Business 9929 Special Topics in Human Resources Management/Industrial Relations  
Any other graduate course subject to the approval of the Supervisor

**Recommended Sequence for Organizational Behaviour and Human Resources Management Specialization Table**

Semester	Courses
Year 1, Fall	Philosophy 6015 Theory of Knowledge BUSI 9901 Approaches to Management Research BUSI 9920 Foundations of Organizational Behaviour BUSI 9921 Foundations of Human Resources Management
Year 1, Winter	BUSI 9902 (Modelling), 9903 (Quantitative), or 9904 (Qualitative) Methods in Management Research BUSI 9922 Foundations of Industrial Relations BUSI 9923 Foundations of Organization Theory Graduate Research Integrity Program (non-credit)
Year 1, Spring	Summer Research Project
Year 2, Fall	Two of: BUSI 9924, 9925, 9926, 9927, 9928, 9929** or any other graduate course subject to the approval of the Supervisor Graduate Program in Teaching (Recommended (non-credit))
Year 2, Winter	Two of: BUSI 9924, 9925, 9926, 9927, 9928, 9929** or any other graduate course subject to the approval of the Supervisor

\*\* Offerings subject to scheduling

### 28.23.3.2 Summer Research Project

During the first summer in the program, students will complete a research project under the supervision of a qualified faculty member in the area of specialization. Projects must be presented in the course BUSI 991B Seminar in Operations and Information Management Research during the second year of the program or an equivalent course in other specializations.

### 28.23.3.3 Comprehensive Examination

Students shall undertake a mandatory written comprehensive examination, following General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**, which sets out the procedures for the comprehensive examination.

In addition:

1. A candidate in the Ph.D. Program in Management shall normally take the written Comprehensive Examination by the end of the seventh semester of the program. The candidate must have successfully completed all required courses prior to writing the Comprehensive Examination. The scope of the Comprehensive Examination will be determined by the Examining Committee (as defined in General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination**) under the guidance of the Supervisory Committee.
2. A list of topics/areas for the Comprehensive Examination will be provided to the student no later than three months prior to the date of the examination.
3. The written examination will take place in three phases over a one-week period.
4. Based on the results of the written examination, the Examining Committee may schedule a supplementary oral examination on any topics covered on the written examination. The oral examination request must be made to the Dean within two weeks of completion of the written examination. The oral examination, if any, must take place within six weeks of completion of the written examination.
5. The scheduling of the Comprehensive Examination will be initiated by the student's Supervisor who will notify the Dean of the Faculty of Business Administration. The date of the written examination will be determined by the Dean of the School of Graduate Studies. The student will be provided with written notice of the scheduled dates of the written examinations. In the case of oral examinations, requests will be initiated by the Examining Committee or the student (as described above in 4.) through the School of Graduate Studies.

### 28.23.3.4 Ph.D. Thesis Regulations

1. The candidate must submit a thesis proposal to all members of the Supervisory Committee for evaluation and approval by the end of the eighth semester of the program. Within one month of submitting the proposal, the Candidate will give a public oral presentation of the proposal, attended by the Committee. The presentation will provide the Committee and others in attendance with an opportunity to raise questions about the proposal research. Immediately following the presentation, the Supervisory Committee will meet to assess the proposal. Assessment will result in one of the following three outcomes: (1) accept; (2) accept with changes; or (3) reject. The results of this assessment will be provided to the student following the meeting. Assessments of accept with changes or reject will be accompanied by written comments within one week of the proposal presentation.
2. If the proposal is rejected, the candidate will be permitted a second proposal. This proposal must be submitted and deemed acceptable by the Supervisory Committee within four months of the original proposal presentation. Failure to resubmit within this time period will lead to termination of the candidate's program.
3. The Ph.D. thesis will constitute an independent and original research contribution.
4. The Ph.D. thesis will be evaluated according to the process established in General Regulation **Theses and Reports, Evaluation of Ph.D. Theses** governing the School of Graduate Studies.

## 28.24 Mathematics and Statistics

**Professor and Head of the Department**

C. Radford

The degrees of **Master of Applied Statistics** (see appropriate calendar entry), **Master of Science** and Doctor of Philosophy are offered in the Department of Mathematics and Statistics. The Masters' degrees are offered by full-time and part-time studies. The Department also participates in the interdisciplinary Ph.D. Program in Theoretical Physics.

### 28.24.1 Doctor of Philosophy

The following regulations should be read in conjunction with the **General Regulations** of the School of Graduate Studies.

- Candidates shall be assigned a supervisory committee consisting of the Supervisor (or Co-Supervisors) and at least two other members of faculty appointed by the Dean on the recommendation of the Head.
- A candidate shall complete at least 6 credit hours in graduate courses in the area of specialization. Candidates not holding a Masters Degree shall, in addition, complete, or have already completed successfully, the course requirements for a Memorial University of Newfoundland Master's Degree in mathematics or in statistics, as appropriate. Any candidate may be required to take additional courses.
- The Comprehensive Examination consists of two parts, called the "qualifying review" and the "intermediate review". Successful completion of both the qualifying and intermediate reviews constitutes successful completion of the Comprehensive Examination in the sense of General Regulation **Comprehensive Examinations**.
  - The **qualifying review** consists of written examinations and takes place as soon as the Supervisory Committee deems appropriate, but not later than the end of the candidate's third semester in the doctoral program. Its main purpose is to ensure that the candidate has a reasonably broad general knowledge of mathematics or of statistics, as appropriate.
  - The **intermediate review** consists of an oral presentation on the candidate's thesis topic followed by an oral examination based on the presentation although questions of a general nature relating to the field of specialization are also permitted. It must take place no later than the end of the candidate's seventh semester in the doctoral program. Its purpose is to ensure that the candidate has specialized knowledge in his/her chosen area sufficient to do original research of a high level.

More details concerning the Department's comprehensive examinations can be obtained from the Department.

### 28.24.2 Specific Regulations for the Ph.D. in Mathematics

A Master's Degree in mathematics or related area from a recognized university is normally required for entry into the Ph.D. program. Students holding a Bachelor's Degree (Honours or equivalent) in mathematics may be considered for direct admission into the Ph.D. program. Students currently registered in Memorial University of Newfoundland's M.Sc. program in mathematics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.

### 28.24.3 Specific Regulations for the Ph.D. in Statistics

A Master's Degree in statistics from a recognized university is normally required for entry into the Ph.D. program. Students currently registered in Memorial University of Newfoundland's MAS or M.Sc. program in statistics may request a transfer into a Ph.D. program. Such transfer must be supported by the intended Ph.D. supervisory committee and the Graduate Studies Committee.

In addition to general Departmental requirements, each candidate for the Ph.D. in statistics will be required to present at least one paper at a graduate seminar on a topic to be approved by his or her Supervisor.

**Table of Credit Restrictions for Present Mathematics Courses with Former Mathematics Courses**

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course	Present Course	Former Course
6323	6030	6212	6080
6321	6032	6310	6130
6322	6035	6330	6200
6340	6040	6331	6210
6341	6041	6332	6350
6342	6042	6312	6500

#### 28.24.3.1 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

##### Mathematics

6100 Dynamical Systems  
 6101 Modern Perturbation Theory  
 6104 Infinite Dimensional Dynamical Systems  
 6102-6119 Special Topics in Applied Mathematics  
 6120 Theoretical Fluid Dynamics  
 6121 Functional Differential Equations  
 6130 Introduction to General Relativity  
 6160 Partial Differential Equations  
 6201 Numerical Methods for Partial Differential Equations  
 6202-6209 Special Topics in Numerical Analysis  
 6210 Numerical Solution of Differential Equations (for Computational Science students only - required core course)  
 6212 Numerical Methods for Initial Value Problems  
 6300 Algebraic Topology I (Homology Theory)  
 6301 Algebraic Topology II (Homotopy Theory)  
 6302 Algebraic Topology III (Theory of Fibre Bundles)  
 6304-6309 Special Topics in Topology  
 6310 Functional Analysis  
 6311 Complex Analysis  
 6312 Measure Theory  
 6313-6319 Special Topics in Analysis  
 6320 Group Theory  
 6321 Ring Theory

6322 Nonassociative Algebra  
 6323 Homological Algebra  
 6324-6329 Special Topics in Algebra  
 6330 Analytic Number Theory  
 6331 Algebraic Number Theory  
 6332 Point Set Topology  
 6340 Graph Theory  
 6341 Combinatorial Design Theory  
 6342 Advanced Enumeration  
 6343-6349 Special Topics in Combinatorics  
 6351 Advanced Linear Algebra  
 6910 Topology Seminar  
 6940 Analysis Seminar  
 6950 Algebra Seminar

#### Statistics

6503 Stochastic Processes  
 6505 Survival Analysis  
 6510 Mathematical Statistics  
 6520 Linear Models  
 6530 Generalized Linear Longitudinal Mixed Models  
 6540 Time Series Analysis  
 6545 Statistical Computing  
 6550 Nonparametric Statistics  
 6560 Continuous Multivariate Analysis  
 6561 Categorical Data Analysis  
 6570-6589 Selected Topics in Statistics and Probability  
 6590 A Course in Statistical Consulting  
 6930 Statistics Seminar

### 28.24.4 Specific Regulations for the Ph.D. in Theoretical Physics

The **Ph.D. in Theoretical Physics** is an interdisciplinary program offered jointly with the Department of Physics and Physical Oceanography. The regulations for this program are described under the **Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics**

### 28.25 Medicine

#### Professor and Dean

J. Rourke

#### Professor and Associate Dean

P. Moody-Corbett

#### Professor and Assistant Dean

D. McKay

The Faculty of Medicine offers the degree of Doctor of Philosophy in seven program areas: Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases and Neurosciences. Each program area has a Co-ordinator who is responsible for communicating the interests of the program to the Faculty of Medicine Graduate Studies Committee and participate in the admission of graduate students into the graduate program in Medicine. The Faculty of Medicine also offers the opportunity for students registered in the Doctor of Medicine (M.D.) program to obtain a Ph.D. in a combined and integrated M.D.-Ph.D. program.

### 28.25.1 Doctor of Philosophy

#### 28.25.1.1 Qualifications for Admission

The admission requirements for the Ph.D. are as given under the **General Regulations** governing Ph.D. degrees.

#### 28.25.1.2 Program of Study and Research

1. The program of study for a Ph.D. Degree is the responsibility of the supervisory committee composed of a Supervisor and at least two other faculty members.
2. It is the responsibility of the supervisory committee to meet regularly (at least annually) with the student and to provide guidance at all stages of the candidate's program. An annual report prepared by the Supervisor and signed by the student and all members of the committee is required to be submitted to the Assistant Dean of Research and Graduate Studies (Medicine).
3. Graduate Students are expected to participate in Faculty of Medicine seminars and journal clubs, for some of the program areas these are available as required courses.
4. Course requirements are set by each of the program areas and are described under Program Requirements. Some supervisory committees may require some students to successfully complete specified course work.
5. Graduate Students in the Ph.D. degree are required to successfully complete the comprehensive examination before the end of the seventh semester. The comprehensive examination consists of both written and oral components and is in accordance with the **General Regulations** governing Ph.D. degrees.
6. Graduate students in the Ph.D. degree must complete an original piece of research, a written dissertation which must be successfully defended in an oral examination in accordance with the **General Regulations** governing Ph.D. degrees.

#### 28.25.1.3 Program Areas

1. Cancer and Development
  - a. The graduate program in Cancer and Development offers study in fundamental cell and molecular biological areas including viral oncogenesis, growth factors and oncogenes in developmental models, programmed cell death and drug resistance.

- b. Program Requirements: Students are required to participate in the Seminar Series (MED 6410-6413).
2. Cardiovascular and Renal Sciences
  - a. The graduate program in Cardiovascular and Renal Sciences enables students to pursue research and academic studies in selected topics including hypertension and stroke, neural and endothelial control of vasculature and blood pressure as well as physiological mechanisms promoting heart failure. The faculty participating in the program consists of basic cardiovascular scientists and renal clinicians. Teaching within the program is integrated with the M.D. program.
  - b. Program Requirements: Students are required to successfully complete MED 6140 if this course has not been previously taken. Students are required to present their thesis research to the Cardiovascular and Renal Sciences group.
3. Clinical Epidemiology
  - a. The program in Clinical Epidemiology is aimed at university graduates intending a career in health services, faculty members seeking advanced training in clinical epidemiology, medical doctors and health care professionals interested in health care delivery research.
  - b. Program Requirements: Students are required to successfully complete all of the following courses if they have not been previously completed: Special Topics in Health Technology Assessment (MED 6095), Biostatistics I (MED 6200), Basic Clinical Epidemiology (MED 6250), Clinical Research Design (MED 6255) and Applied Data Analysis for Epidemiology (MED 6260). Students are required to take the Ph.D. Seminar Series (MED 6410-6413).
4. Community Health
  - a. The graduate program in Community Health enables students to pursue research and academic studies in selected topics including community health, epidemiology, socio-behavioural health, biostatistics, health services utilization, health policy and health promotion.
  - b. Program Requirements: Students are required to take the Ph.D. Seminar Series (MED 6410-6413).
5. Human Genetics
  - a. The graduate program in Human Genetics will enable students to pursue academic studies and research in a number of areas of genetics including cancer genetics, genetic epidemiology, gene mapping, medical genetics, birth defects and population genetics. Faculty members from all three divisions of the Faculty of Medicine (Biomedical Sciences, Community Health and Clinical Sciences) participate in the program.
  - b. Program Requirements: Students are required to take the Genetics Seminar Series (MED 6410-6413).
6. Immunology and Infectious Diseases
  - a. The Immunology and Infectious Diseases group has an interdisciplinary character and consists of faculty from biomedical science and oncology research. The graduate programs are designed to provide individualized training oriented towards basic research and a solid scientific background in the discipline of immunology and infectious diseases.
  - b. Program Requirements: Students are required to successfully complete three core courses if they have not been previously completed: Immunology I (MED 6127), Immunology II (MED 6128) and Advanced Immunological Methods (MED 6130). Students are required to attend, for credit, and participate in the Immunology and Infectious Diseases Seminar Program (MED 6410-6413).
7. Neurosciences
  - a. The Neuroscience Program offers graduate studies in an interdisciplinary setting with the core faculty in the Division of BioMedical Sciences but also including faculty from the Department of Psychology in the Faculty of Science. Graduate students may pursue research in a number of specialty areas including the physiological basis of learning and memory, stroke and neuroplasticity, neuroregeneration, signal transduction mechanisms, neuronal circuitry and membrane physiology. The Neuroscience Program is a Chapter of the Society for Neuroscience.
  - b. Program Requirements: Normally students in the Ph.D. program are required to complete two graduate level courses in Neuroscience, one of which is to be Systems Neuroscience (MED 6196). Course selection is made on the recommendation and advice of the supervisory committee. Students are expected to attend and participate in the activities of the neuroscience group including the weekly seminar and journal club.

#### 28.25.1.4 Courses

For a list of courses offered by the Faculty of Medicine refer to **Courses** offered for the Master of Science in Medicine.

## 28.26 Pharmacy

### Associate Professor and Director

L.R. Hensman

The Degree of Doctor of Philosophy in Pharmacy is offered to qualified candidates normally by full-time study. The **General Regulations** of the School of Graduate Studies of Memorial University of Newfoundland outlined in the current Calendar, and the Degree Regulations of the School of Pharmacy outlined below will apply. Every candidate in graduate studies shall comply with the **General Regulations**, Degree Regulations and all additional requirements of the School of Pharmacy.

### 28.26.1 Doctor of Philosophy

#### 28.26.1.1 Qualifications For Admission

1. Admission to the Ph.D. program is limited and competitive. Applicants must have completed an M.Sc. Degree in Pharmacy, or its equivalent in a related discipline, from a university of recognized standing.
2. Other students may be considered for admission to a Ph.D. provided that they have been registered in a M.Sc. Pharmacy program for a minimum of 12 months, and have demonstrated to the satisfaction of the Graduate Studies Committee of the School of Pharmacy an ability to pursue research at the doctoral level. Students wishing to transfer from the M.Sc. to the Ph.D. will have completed 6 credit hours. Prior to admittance to the Ph.D. program, a written thesis proposal will be submitted for assessment by the Supervisory Committee plus one additional faculty member. The recommendation of this Committee will be forwarded to the Graduate Studies Committee of the School of Pharmacy.
3. On admission to the program, a Supervisory Committee shall be appointed in accordance with General Regulation **Supervision** governing the School of Graduate Studies.

### 28.26.1.2 Program of Study and Research

1. As a minimum, each candidate shall successfully complete 6 credit hours as well as Pharmacy 6999 (Pharmacy Research Seminar). A minimum grade of 65% will be required in each course. Candidates shall complete additional undergraduate courses in Pharmacy or other related areas where the Supervisory Committee considers there to be a deficiency in the academic record. Candidates may select these courses in consultation with the Supervisory Committee. However, it will be the primary responsibility of the Supervisory Committee to ensure that deficiencies in the academic record are rectified.
2. All candidates must submit a thesis proposal to the Supervisory Committee for approval no later than the second semester of study after admission to the program.
3. All candidates must complete a comprehensive examination on or before the end of the sixth semester of study after admission to the program. The comprehensive examination will consist of two components: a written examination and an oral examination. The oral examination will normally be held no later than two weeks after successful completion of the written examination.
4. A Comprehensive Examination Committee shall be appointed in accordance with General Regulation **Comprehensive Examination**. The Committee will be responsible for preparing the questions for the written and oral examinations and evaluating the candidate's performance in the subject area. The Committee will consist of the Dean of Graduate Studies (or delegate), the Supervisor, and three other members, one of whom may be a member of the Supervisory Committee. All shall be voting members of the Committee except the Dean of Graduate Studies (or delegate).
5. Successful completion of the Ph.D program will require formal examination of the written thesis and an oral defence of the research, as prescribed in the General Regulation **Theses and Reports**. Final approval of the thesis shall be the responsibility of the School of Graduate Studies.

### 28.26.1.3 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates as far as the resources of the School will allow. Permission of the instructor and the Graduate Studies Committee of the School of Pharmacy is required for admission to any graduate Pharmacy course.

6000 Medicinal Chemistry  
 6001 Advanced Physical Pharmacy  
 6002 Dosage Form Design and Novel Drug Delivery Systems  
 6003 Pharmacokinetic Modelling  
 6004 Principles of General Pharmacology  
 6005 Toxicology of Therapeutic Agents and Chemicals  
 6100-6104 Special Topics Courses  
 6999 Pharmacy Research Seminar

## 28.27 Physics and Physical Oceanography

### Professor and Head of the Department

B. de Young

The following Departmental Regulations are supplementary to the **General Regulations** governing the M.Sc. and Ph.D. degrees. A thorough familiarity with the latter Regulations should be regarded as the prerequisite to further reading in this section.

The Department of Physics and Physical Oceanography compiles, and regularly reviews, a brochure which contains reasonably detailed descriptions of currently active research projects, as well as a comprehensive listing of recent research publications, and other material which may be of interest to prospective graduate students.

### 28.27.1 Doctor of Philosophy

The Degree of Doctor of Philosophy (Ph.D.) is offered in Atomic and Molecular Physics, in Physical Oceanography, in Condensed Matter Physics and in Theoretical Physics.

1. A program of study for the Ph.D. Degree in Atomic and Molecular Physics, Condensed Matter Physics or Physical Oceanography shall normally include a minimum of 9 graduate credit hours, beyond those required for the M.Sc. Degree. However, depending on the student's background and area of specialization, more or fewer graduate and/or undergraduate courses may be required.
2. A Comprehensive Examination (as prescribed under General Regulation **Comprehensive Examinations**) shall be an oral one, and may include the presentation of a written research proposal.
3. The **Ph.D. Program in Theoretical Physics** is an interdisciplinary program offered jointly with the Department of Mathematics and Statistics. The regulations for this program are described under the **Regulations Governing the Degree of Doctor of Philosophy - Theoretical Physics**

### 28.27.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6000 Condensed Matter Physics I  
 6001 Condensed Matter Physics II  
 6002 Superconductivity  
 6003 Path Integral Techniques in Condensed Matter Physics  
 6010-19 Special Topics in Condensed Matter Physics  
 6040 Biophysics  
 6060-69 Special Topics in Interdisciplinary Areas  
 6200 Nonlinear Dynamics  
 6308 Ocean Dynamics I  
 6309 Ocean Dynamics II  
 6310 Physical Oceanography  
 6313 Physical Fluid Dynamics  
 6314 Field Oceanography  
 6315 Polar Oceanography  
 6316 Ocean Measurements and Data Analysis  
 6317 Ocean Acoustics  
 6318 Numerical Modelling

6319 Climate Dynamics  
 6320 Turbulence  
 6321 Coastal Oceanography  
 6322 Stratified Fluids  
 6323 Stability Theory  
 6324 Models in Ocean Ecology  
 6360-69 (excluding 6363) Special Topics in Physical Oceanography  
 6363 Laboratory Experiments in Geophysical Fluid Dynamics  
 6400 Statistical Mechanics  
 6402 Theory of Phase Transitions  
 6403 Stochastic Processes, Time-Dependent and NonEquilibrium Statistical Mechanics  
 6502 Electrodynamics  
 6720 Theory of Molecules  
 6721 Molecular Spectroscopy  
 6722 Light Scattering Spectroscopy  
 6730 Molecular Theory of Liquids and Compressed Gases  
 6740 Physics of Atomic Collisions  
 6760-69 Special Topics in Atomic and Molecular Physics  
 6800 Group Theory  
 6810-19 Special Topics in Theoretical and Mathematical Physics  
 6850 Quantum Mechanics I  
 6851 Quantum Mechanics II  
 6900 Techniques in Experimental Condensed Matter Physics  
 6910-19 Special Topics in Experimental and Applied Physics

#### Table of Credit Restrictions - Physics and Physical Oceanography

(Credit may be obtained for only one course from each of the pairs of courses listed in this table.)

Present Course	Former Course	Present Course	Former Course
6000	6050	6318	6304
6001	6051	6321	6303
6002	6822	6321	6304
6003	6820	6323	6303
6200	6821	6402	6401
6308	6312	6403	6401
6309	6311	6403	6824
6313	6301	6502	6500
6316	6302	6502	6501
6317	6823	6722	6790

Members of the Department carry out research in several areas of experimental and theoretical physics, including atomic and molecular physics, condensed matter physics, physical oceanography, theoretical geophysics and applied nuclear physics. In atomic and molecular physics, there are experimental programs in collision-induced infrared absorption spectroscopy, electron emission spectroscopy of simple molecules, molecular ions and free radicals, laser-induced fluorescence spectroscopy, and Raman spectroscopy, and theoretical work on atomic and molecular collisions. The work in condensed matter physics includes experimental programs in solid state nuclear magnetic resonance on systems of biophysical interest, Raman spectroscopy of lipid bilayers and membranes, studies of phase transitions using Brillouin and Raman spectroscopy, studies of instabilities and pattern formation in simple fluid dynamical systems, and spectroscopic studies of molecular crystals. Theoretical condensed matter physics research involves studies of magnetism, superconductivity, and the statistical mechanics of polymers and lipid bilayers. The Physical Oceanography group carries out field and laboratory research on several projects which take advantage of Newfoundland's unique oceanographic environment, using acoustic and other remote sensing techniques. These include studies of circulation on the Newfoundland and Labrador shelves, Labrador current dynamics, fjord dynamics, submarine canyons and sediment transport dynamics in the nearshore zone and on the shelf. Theoretical oceanographic studies involve the modelling of ocean circulation, gravity wave phenomena and other aspects of ocean dynamics. Research in theoretical geophysics is concentrated on whole-Earth dynamics, with special emphasis on the physics of the liquid core (the Earth's "third ocean") as inferred from its wave spectrum and the associated momentum transfer to the deformable solid parts of the Earth. In nuclear physics, research is done on the atmospheric concentrations of radioactive elements and on dosimetry for medical applications.

Note: For Geophysics, see **Earth Sciences**.

## 28.28 Psychology

### Professor and Head of the Department

I. Neath

The Degree of Master of Science (M.Sc.) is offered in Experimental Psychology. Interested students should also see the **Master of Science in Cognitive and Behavioural Ecology**. The Degree of Doctor of Philosophy is offered in Experimental Psychology. Interested students may wish to consult the section in the Calendar describing the **Doctor of Philosophy in Cognitive and Behavioural Ecology program**.

### Applications

1. All applicants are required to submit results from the General section of the Graduate Record Examinations.
2. At least one letter of reference should come from someone who is familiar with the applicant's research capability.

### 28.28.1 Doctor of Philosophy

1. An applicant must hold either a Master's Degree or an Honours Bachelor's Degree with first class standing to be considered for admission. The program of study will be specified at the time of admission. Decisions on (a) whether to include courses in the program, and if so, (b) which specific courses are to be included will be based on the student's background and the proposed thesis topic.
2. **Comprehensive Examination**  
The Ph.D. comprehensive in Experimental Psychology shall be taken during the first year of the student's program. The examination will consist of two parts: (1) an essay, the topic of which is different from the subject of the thesis, and (2) an oral examination which tests the candidate's ability to integrate the essay into the broad area of Psychology. The essay topic will be assigned by the Examining Committee in consultation with the student and Supervisor. The essay should not be a précis of the literature, but a critical appraisal of a subject. This should identify important unresolved issues, and where possible suggest solutions to them.

### 28.28.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

- 6000 Advanced Statistics in Psychology
- 6001 Research Design
- 6010 Colloquium Series in Psychology (repeatable, non-credit)
- 6100-6130 Special Topics in Experimental Psychology
- 6200 Learning I
- 6201 Learning II
- 6203 Behavioural Pharmacology
- 6210 Behavioural Analysis of Toxins
- 6351 Behavioural Ecology and Sociobiology (Cross-listed as CAFE 6351)
- 6400 Theory and Methods in Social Psychology
- 6401 Social Cognition
- 6402 Group Processes
- 6403 Advanced Methods in Applied Social Psychological Research
- 6404 Project in Applied Social Psychology *NOTE: This course is open only to students in the Master of Applied Social Psychology*
- 6500 Developmental Psychology I
- 6501 Developmental Psychology II
- 6502 Developmental Changes During Old Age
- 6700 Perception
- 6710 Human Information Processing
- 6720 Human Memory
- 6800 Behavioural Neuroscience I
- 6801 Behavioural Neuroscience II
- 6810 Psychometrics
- 6910 Personality
- 6990 Doctoral Seminar I
- 6991 Doctoral Seminar II
- 6992 Doctoral Seminar in Cognitive and Behavioural Ecology (Cross-listed as CAFE 6992)
- 699A/B Core Graduate Seminar in Psychology (3 credit hours).

### 28.29 Social Work

#### Assistant Professor and Acting Director

E. Oliver

#### 28.29.1 Doctor of Philosophy

The degrees of Master of Social Work and Doctor of Philosophy are offered in Social Work.

Course work commences in the Spring Semester and is completed over five semesters. The program includes two Spring Semester residencies, at which time students must attend on a full-time basis, and Fall and Winter semester courses which can be taken on or away from campus.

1. An applicant for admission to the Ph.D. program in Social Work must hold a Master's Degree in social work, or equivalent professional social work Degree as determined by the Graduate Studies Committee of the School of Social Work. All applicants should also have a minimum of three years post-B.S.W. practice experience.
2. All Ph.D. students in the social work program must complete at least 24 credit hours in regulation graduate courses. These include:
  - a. 6 credit hours in foundation courses (7010 and 7020)
  - b. 6 credit hours in advanced practice courses (7310, 7320); or 3 credit hours in advanced practice courses (7310) and 3 credit hours on social work education (7510)
  - c. 9 credit hours on research (7411, 7421 and 7431)
  - d. 1 internship chosen from the Internships on Advanced Social Work Practice (7910), Social Work Education (7920) or Applied Social Work Research (7930).
3. Comprehensive Examination
  - a. A candidate registered in a Ph.D. program in Social Work shall normally take the Comprehensive Examination no later than the seventh semester in the program. Prior to proceeding to the Comprehensive Examination, candidates must have completed all required course work and the internship.
  - b. The Examination Committee shall be appointed by the Dean of Graduate Studies on the recommendation of the Director (School of Social Work). It shall consist of:
    - i. the Ph.D. Program Co-ordinator who will serve as representative of the Director of the School of Social Work and who shall occupy the Chair
    - ii. the candidate's Supervisor
    - iii. the Dean of Graduate Studies or delegate

- iv. three other members recommended by the Director of the School of Social Work. One of these normally will be on the candidate's Supervisory Committee.

Including the Supervisor, no more than two members of the Examination Committee may be nominated from the candidate's Supervisory Committee. All members of the Examination Committee, including the Chair, but excluding the Dean of Graduate Studies or delegate, shall be voting members.

- c. The Ph.D. Comprehensive in Social Work will consist of a written paper which has two main parts. The first part will contextualize the student's substantive area through a comprehensive analysis and discussion of its place in and development from social work theory and the profession's history. This part should demonstrate a comprehensive understanding of competing theoretical frameworks and orientations in social work and should demonstrate appreciation for historical developments generally as well as specifically to the student's substantive area of interest. The second part of the paper will focus specifically on the student's substantive area. In consultation with the Examination Committee, the student will identify an area of empirical research that may be undertaken and will prepare a written statement that includes: an introduction and formulation of at least two related research questions; a literature review that is consistent with these questions, which presents a critical evaluation of the literature, and that synthesizes the literature into the student's own theoretical framework; two competing research designs for answering the research question and a critical compare and contrast that leads to an argument for one design over the other. The focus and content of the written work will be defined by the Examination Committee in consultation with the student, and will be approved by the Ph.D. Program Co-ordinator in the School of Social Work. The written product shall be no less than 50 pages and not more than 75 pages. It will be orally defended. The student shall have up to one semester (13 weeks) to submit the paper.
  - d. The Ph.D. examination procedure shall be initiated by the candidate's Supervisor who will notify, in writing, the Director (School of Social Work) of the candidate's readiness. The candidate's Examination Committee will then be appointed according to section 3.b. (above).
  - e. Following the oral defence, the Examination Committee shall meet *in camera* to arrive at its conclusions. Evaluation of the candidate will be based on the following criteria:
    - i. demonstration of knowledge of social work theory, research, and issues relevant to the topic of inquiry in both the written and oral presentation.
    - ii. coherency of oral presentation and written paper (i.e. conceptualization, cogent argumentation, sufficient referencing of statements, clear writing style).
  - f. The Chair shall report the results of the examination to the Dean of Graduate Studies in accordance with General Regulation **Comprehensive Examinations, Ph.D. Comprehensive Examination, 4.**
4. Ph.D. Thesis
- a. A Supervisory Committee will be appointed for each student as indicated under the General Regulation **Supervision.**
  - b. The candidate must submit a thesis proposal to the Supervisory Committee based on her/his own interest, and normally the proposal must be approved by the end of the eighth semester of the program. The proposal will be circulated to the Supervisory Committee for critical evaluation. The Chairperson of the Supervisory Committee will inform the candidate within one month of its acceptance, rejection, or acceptance with recommended changes.
  - c. If the proposal is not acceptable, the candidate will normally be permitted a second attempt. The revised proposal must be submitted within a semester. Failure to resubmit within this time period will lead to termination of the candidate's program.
  - d. The thesis shall give evidence of the candidate's ability to carry out independent and original research, develop the necessary theoretical and methodological framework and analyses and present the findings in a scholarly manner.

### 28.29.2 Courses

The following courses that are offered during the spring semester residency will be offered every other year, as far as the resources of the School will allow:

- 7010 Philosophical and Historical Base of Social Work Practice (S\*)
- 7020 Critical Thinking for Social Work Practice (S)
- 7310 Tutorial on Field of Practice (F\*\* or W\*\*\*)
- 7320 Tutorial in Advanced Social Work Practice (S)
- 7411 Philosophy of Science and Research Design (S)
- 7421 Qualitative Data Analysis (S)
- 7431 Quantitative Data Analysis (S)
- 7510 Social Work Education (S)
- 7910 Internship on Advanced Social Work Practice (F)
- 7920 Internship on Social Work Education (F)
- 7930 Internship on Applied Social Work Research (F)

\*S = Spring Semester, \*\*F = Fall Semester, \*\*\*W = Winter Semester

### 28.30 Sociology

Associate Professor and Head of the Department

A. Micucci

The Doctor of Philosophy (Ph.D.) is offered in Sociology by full-time and part-time study. Graduate courses are taught as tutorials or small seminars.

#### 28.30.1 Doctor of Philosophy

- 1. The Ph.D. degree in Sociology is offered in accordance with **General Regulations** and current department strengths.
- 2. To be admitted to the program an applicant must have completed either a Master of Arts or Master of Philosophy Degree or hold an equivalent qualification.
- 3. All Ph.D. candidates must complete a minimum of 6 credit hours in graduate courses in sociology, including Sociology 6150 Social Theory and Sociology 6040 Methods of Sociological Research, if these or equivalent courses have not been taken previously.

The supervisory committee in consultation with the Head or Graduate Officer will determine which additional courses, if any, may be required to ensure that candidates undertake appropriate course work in their area of research.

- 4. Proficiency in a second language will be required when the candidate's supervisory committee determines that knowledge of this

second language is necessary for the purpose of the proposed doctoral research.

5. A written comprehensive examination, which may be followed by a supplementary oral examination, shall be completed by full-time students no later than the end of the second year of the program.

Normally, part-time students shall take the examination within one year of the completion of prescribed courses. In accordance with **General Regulations**, candidates must demonstrate knowledge of their special areas of research within the context of the discipline of Sociology. The examination shall consist of three parts: social theory, research methods, and a special area.

6. No more than two years after having been admitted to the program the candidate must submit a thesis proposal that is considered satisfactory by the Supervisory Committee.

### 28.30.2 Courses

A selection of the following graduate courses will be offered to meet the requirements of candidates, as far as the resources of the Department will allow:

6040 Methods of Sociological Research  
 6090-94 Special Area in Sociology  
 6120 Social Organization  
 6130 Social Stratification  
 6140 The Community  
 6150 Social Theory  
 6160 Theory Construction and Explanation in Sociology  
 6240 Sociology in Medicine  
 6280 Social and Economic Development  
 6300 Maritime Sociology  
 6310 Political Sociology  
 6320 Gender and Society  
 6330 Science and Technology  
 6340 Comparative North Atlantic Societies  
 6350 Environmental Sociology  
 6360 Sociology of Work  
 6370 Feminist Theory and Methods  
 6380 Women, Nature, Science and Technology (cross-listed as Women's Studies 6380)  
 6390 Sociology of Culture  
 6610 Socialization  
 6620 Current Topics in Social Behaviour  
 6880 Sociology Graduate Seminar

### 28.31 Theoretical Physics

#### Board of Studies

Dr. I. Booth, Department of Mathematics and Statistics - Chair  
 Dr. C. Radford, Department of Mathematics and Statistics  
 Dr. J. Whitehead, Department of Physics and Physical Oceanography  
 Dr. I. Afanassiev, Department of Physics and Physical Oceanography

#### 28.31.1 Program

1. The Theoretical Physics Program is an interdisciplinary Doctor of Philosophy program offered jointly by the Department of Mathematics and Statistics and the Department of Physics and Physical Oceanography. It is broadly based and includes several subdisciplines with the common denominator that each applies advanced mathematical techniques to the study of physical problems. The subdisciplines include, though are not necessarily limited to, theoretical astrophysics, general relativity, partial differential equations of mathematical physics, quantum mechanics, classical and quantum field theory, theoretical condensed matter physics, many-body theory, advanced classical mechanics and non-linear processes, and theoretical and geophysical fluid mechanics.
2. The program is administered by the Board of Studies which is appointed by the Dean of Science in consultation with those faculty members active in the program. The Board of Studies will consist of two members from the Department of Physics and Physical Oceanography and two members from the Department of Mathematics and Statistics. The Program Chair is elected by the Board of Studies and appointed by the Dean of Science. Responsibilities of the Board include making recommendations to the School of Graduate Studies concerning admissions to the program, determining course requirements, and administering comprehensive exams. It also determines minimum levels of funding, administers the School of Graduate Studies and Graduate Teaching Assistant budgets, and monitors students' annual progress through the submission of annual supervisory committee reports.

#### 28.31.2 Regulations

The following regulations should be read in conjunction with the **General Regulations**:

1. A program of study for the Ph.D. Degree in Theoretical Physics shall normally include a minimum of 9 graduate credit hours in courses offered by the Department of Mathematics and Statistics and/or the Department of Physics and Physical Oceanography. The courses will be determined by the student's supervisory committee in consultation with the Program Chair and approved by the Board of Studies. In special circumstances more or fewer graduate courses and/or undergraduate courses may be required.
2. Students are required to pass a single Comprehensive Examination as prescribed under **Comprehensive Examinations, Ph.D. Comprehensive Examination**. This shall be an oral one, and may include the presentation of a written research proposal.
3. The most important requirement is the writing of a doctoral thesis which demonstrates the student's ability to independently and originally attack and solve a significant problem in theoretical physics. The thesis must definitively advance the subject which it treats.

## 29 Regulations Governing the Degree of Doctor of Psychology

### Administrative Committee

Dr. C. Arlett, Department of Psychology - Director  
Ms. B. Cater, Eastern Health  
Ms. S. Chaulk, Graduate Student Representative  
Dr. K. Hadden, Department of Psychology  
Dr. O. Heath, University Counselling Centre  
Dr. G. Hurley, University Counselling Centre  
Dr. J. Spiegel, Association of Newfoundland Psychologists

The Doctor of Psychology (Psy.D.) degree in clinical psychology is offered by the Department of Psychology in partnership with the University Counselling Centre. This program is designed to prepare clinical psychologists to provide a variety of psychological services to individuals, families and communities.

### 29.1 Administration

1. The Director is appointed by the Head of the Psychology Department following a consultative process that includes the faculty most directly associated with the Psy.D. program.
2. The Psy.D. Administrative Committee consists of the Director, representatives from academic units involved in the program, and a representative from the Association of Newfoundland Psychologists. The Psychology Department Head, on the recommendation of the Director, appoints Committee members.
3. The Psy.D. Administrative Committee is chaired by the Director, and is the main body for developing and monitoring policy, procedures, and program content. The administrative committee makes recommendations concerning admission and termination, financial support, thesis and comprehensive committees, and thesis topics and examiners. The Committee oversees individual student programs of study and monitors their annual progress.

### 29.2 Admission Criteria

1. Students with Master's level degrees who wish to be considered for the program must have completed the undergraduate degree in Psychology and the undergraduate course requirements described below.
2. Applicants are required to have an undergraduate Honours degree in psychology that includes senior courses in each of the following areas: biological bases of behaviour, cognitive-affective bases of behaviour, social bases of behaviour, individual behaviour, and historical foundations of psychology, as well as an Honour's thesis. Students will only be admitted on a full-time basis and must start their program in the Fall semester.
3. Admission to the program is competitive. Applicants will be ranked according to academic aptitude, personal and interpersonal competence, clinical and professional potential, and availability of a supervisor. The application shall include academic transcripts, results of the Graduate Record Examination (verbal, quantitative and analytical subtests), three letters of recommendation and a statement of interests and objectives. One letter of recommendation must specifically address the suitability of the applicant for clinical work. Applicants who are short-listed will be interviewed, either in person or via telephone. Work experience, research experience, extra-curricular activities, and clinically relevant public service will be taken into consideration.

### 29.3 Program of Study

#### 29.3.1 Comprehensive Examination

The Psy.D. comprehensive exam, consisting of a written and an oral component, shall be taken during the third year of the program. The exam is intended to demonstrate clinical application of the knowledge acquired through course work and practica. The comprehensive exam will be administered according to the guidelines prescribed in the University Calendar for Ph.D. comprehensive examinations.

#### 29.3.2 Thesis

Students will complete a thesis that is applied in nature and relevant to the practice and science of clinical psychology and the communities it serves. The School of Graduate Studies **General Regulations** concerning evaluation of Ph.D. theses will be followed.

#### 29.3.3 Predoctoral Internship

All students will be required to complete a twelve-month, 1750 clock-hour predoctoral internship.

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 General Information

Various types of awards are available to students of Memorial University of Newfoundland. Included are scholarships, bursaries, fellowships, studentships, prizes, medals and loans.

A scholarship is based on academic performance and is awarded to the student with the highest average meeting the conditions of the scholarship. Scholarship standing is required for all scholarships.

A bursary is based primarily on financial need and may be awarded to full-time students who have a minimum GPA of 2 (out of a possible 4) and meet the other conditions of the bursary.

An award is offered to recognize special achievements or to assist with special projects or travel. Awards may be given to students with a minimum of clear standing (as defined by the University) and meeting the other conditions of the award.

A grant is an award for which need is a prime consideration, normally with the provision that the recipient be, or remain, in good academic standing. Grants are issued at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Loans are granted to students on an "ad hoc" basis with need being the prime consideration. Loans are normally repaid before the commencement of subsequent semester. Interest is charged on outstanding loans. Administration of loans is at the discretion of the Director of Student Success Programs, Student Affairs and Services.

Some scholarships and awards may be held for more than one year, but are renewable only if the student maintains scholarship standing and first class standing.

Entrance scholarships are awarded for the Fall Semester.

Unless otherwise noted, entrance scholarships are open to Canadian citizens and permanent residents graduating from secondary school who are admitted to Memorial University of Newfoundland on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing. They are also open to students in the above category who may not be coming directly from high school. This is limited to those who have previously graduated from high school, are admitted to the University on the basis of high school grades and current entrance standards and who meet the current definition of scholarship standing.

Distinct undergraduate entrance scholarships are available for international students. The values will vary but will not exceed \$3,000 each. To be considered for these scholarships, a student must be eligible to pay international undergraduate tuition fees, must register for a minimum course load of 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland and normally have fewer than 31 credit hours of transfer credits. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

The selection of candidates for international entrance scholarships will be based on a number of criteria, including academic standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants), principals' and teachers' letters of recommendation and school and community activities.

Scholarship standing for undergraduate entrance students (who are Canadian citizens or permanent residents graduating from secondary schools within Canada) is defined as a 75% average compiled from the final grades received in secondary school courses required for University admission. Students in level three who, have a 90% or higher average on 3000 level credits from the list of courses covered under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Applicants Who Have Followed the High School Curriculum of the Newfoundland and Labrador**, may be provisionally offered scholarships. Students graduating from High Schools in other provinces in Canada may be eligible based on corresponding criteria from their provincial secondary program. The provisional offer will remain in effect until University admission averages are determined.

Scholarship standing for undergraduate students is defined as a 75% average at the end of two out of the last three semesters in the previous scholarship year and the successful completion of not less than 30 credit hours in those two semesters. In considering students who complete more than 30 credit hours in those two semesters, the average on the actual number of credit hours taken will be reviewed. Students who fail one or more courses during the scholarship year, regardless of the number of courses completed, will not be eligible for scholarships.

For Co-op students who do not meet the above definition because of scheduled work terms, scholarship standing is defined as a 75% average over the most recent two academic semesters in the preceding four semesters in which they must have been enrolled as regular full-time Co-op students. Those who fail an academic course or work term during the four semester period will not be eligible for scholarships.

Not all students who meet the above definitions of scholarship standing will receive a scholarship.

Students transferring to Memorial University of Newfoundland from Universities/Colleges in Canada which are members of the Association of Universities and Colleges of Canada (AUCC) and who meet scholarship standing as defined by Memorial University of Newfoundland will be eligible for undergraduate scholarships in the year in which they transfer. Such students must notify the Scholarships, Bursaries and Awards Office in writing of their intention to transfer and provide a complete transcript for the year in question.

Awards must be taken during the scholarship year for which they are awarded and the student must be registered full time or in a recognized work term in order to receive their scholarship, unless stated otherwise in the terms of reference. The scholarship year runs from May 1st - April 30th.

A student may receive in any one scholarship year one general award of any value administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards or more than one award to a combined value of 1.5 times the per semester tuition for 15 credit hours. In addition, students may receive, upon recommendation of the appropriate academic unit, awards administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards such that the total of general and academic unit specific awards does not exceed three times the per semester tuition for 15 credit hours.

Students who have obtained scholarship standing as defined above need not apply for general scholarships. Inquiries from students with special circumstances and/or concerning scholarships with special terms should be referred to the Scholarships, Bursaries and Awards

Office, University Centre, Room 4018, or by telephone to (709) 737-3956.

Students attending the Sir Wilfred Grenfell College in Corner Brook are eligible for all General Scholarships. You may make scholarship inquiries at the Student Affairs Office on that campus or the Scholarships, Bursaries and Awards Office.

Students wishing to apply for awards administered by other authorities should consult the appropriate section of the Scholarships, Bursaries and Awards portion of the Calendar and/or the Scholarships, Bursaries and Awards Office.

In addition to undergraduate awards listed herein, limited information is included concerning Studentships, Fellowships and Graduate Awards. Further inquiries may be made to the Scholarship Committee, though students are advised to consult the Heads of their Departments, the Dean of the Faculty or the Dean of Graduate Studies concerning these particular awards.

If you would like access to information on these and other post-secondary scholarships, awards, and bursaries available through the Internet, visit the Scholarships Office website at [www.mun.ca/scholarships](http://www.mun.ca/scholarships).

## 2.1 Government Assistance

Students who have a demonstrated financial need may, upon application, receive financial support from the Canada Student Loan Plan and if they so qualify, from the Provincial Government Student Assistance Program. A single application form for both sources of support is available in writing to The Student Aid Division, Department of Education, Government of Newfoundland and Labrador, Box 8700, St. John's, NL, A1B 4J6 or by telephone to (709) 729-4244.

## 3 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Entrance Students May Qualify

### Anthony Insurance Entrance Scholarship

This scholarship is the result of a generous endowment to Memorial University of Newfoundland by Anthony Insurance in memory of Robert C. Anthony B founder of Anthony Insurance Inc. and the Insurance Corporation of Newfoundland. Mr. Anthony, an inductee of the Newfoundland and Labrador Business Hall of Fame, started his career as a teacher in rural Newfoundland and placed great emphasis on the value of education. The scholarship is intended to help a deserving, high-school graduate attend Memorial University of Newfoundland who would otherwise find it difficult due to financial considerations. The value of the scholarship is full-time tuition for one semester. Eligible candidates must have graduated from a Newfoundland and Labrador high school with a minimum of 75% in Level III courses and must intend to enroll at Memorial University of Newfoundland on a full-time basis. Additional scholarships may be awarded annually as endowment fund growth permits. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

### The Arnold's Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship

This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold's Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of \$500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applicants are received from Fishers or Fishers' descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fisheries Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Rm. 4018, Smallwood Centre, Memorial University of Newfoundland, A1B 5S7. Completed applications must be returned to the FLC for appropriate verification.

### The Atlantic Canada Marine Biodiversity Essay Contest Tuition Scholarship

Memorial University of Newfoundland is a participant in the Atlantic Canada Marine Biodiversity Essay Contest which is operated by the Centre for Marine Biodiversity. This contest is open to Grade 12 students from across Atlantic Canada. The first prize winner receives a waiver of tuition fees for two semesters if he or she attends Memorial University of Newfoundland. The two runners up receive partial waiver of tuition fees if they attend Memorial University of Newfoundland. Students are notified of their status in the Essay Contest by the Centre for Marine Biodiversity and the successful candidates are informed of their tuition scholarship by the university, after the Centre for Marine Biodiversity informs the university of the contest winners. Further information can be found on the web site of the Centre [www.marinebiodiversity.ca](http://www.marinebiodiversity.ca). The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Science.

### The Mary L. (Mollie) and Peter T. Bailey Memorial Scholarship

This scholarship, donated by the family of the late Mary L. (Mollie) and Peter T. Bailey, has a value of at least \$500.00. It is open to students entering first-year studies who are required to move away from home to attend Memorial University of Newfoundland. In making the award, scholarship standing and need will be considered.

### The Baird-Stephenson Scholarship

This Scholarship, valued at \$1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

### The Warren and Catherine Ball Memorial Entrance Scholarship

This scholarship was established in 2005 by a generous donation from the estate of Dr. and Mrs. Ball. The endowment will provide scholarships at the value of \$7,500.00 per annum for up to four years of study to students entering Memorial University of Newfoundland for the first time. The number of the annual scholarships will be based on a portion of the annual income, as per the Awards Program Spending Policy. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

### The Donald M. Balsom Award

The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at \$500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injured Association. In special circumstances, the award may be held for more than one year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA

as needed.

#### **Bank of Montreal Scholarship**

These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Bank of Montreal. Interest on the fund will provide several scholarships to full-time students entering Memorial University of Newfoundland in any field of study who have scholarship standing and demonstrated financial need. These scholarships will be valued at two semesters tuition for five courses. They are renewable for up to four years provided the candidate(s) maintains first class and scholarship standing.

#### **The Birks Family Foundation Bursaries**

The Birks Family Foundation has established a plan of annual contributions to the student aid funds of recognized Canadian universities for the creation of the Birks Family Foundation Bursaries. The Bursaries are awarded by the Foundation on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

#### **The Glenn Roy Blundon Memorial Scholarship**

This scholarship, valued at \$500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Gary Bourne Memorial Scholarship**

This scholarship is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary's colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment it will be awarded on the basis of scholarship standing to an undergraduate student who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Edward Patrick Browne Memorial Scholarships**

In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students. These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Director of the School of Human Kinetics and Recreation.

#### **The Jo Anne Butler Entrance Scholarship**

This scholarship has been made available to the Memorial University Of Newfoundland, through the generosity of Fairfax Financial Holdings Limited in honour of Jo Anne Butler. This scholarship will be awarded annually to an undergraduate student entering the first year of an academic program at Memorial University of Newfoundland. It will be valued at \$5,000.00 per year. Eligible students must be Canadian citizens or permanent residents, graduating from a Canadian secondary school or CEGEP, who demonstrate financial need and have achieved a minimum final admission average of 80%. Outstanding achievements or commitments in community and/or other extra curricular activities may also be considered. The scholarship is renewable for up to four additional years if scholarship standing is maintained. Renewal will also be dependant on continuation of full-time enrolment in the undergraduate program in which the recipient began and he/she must not already have received a degree. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Greg Campbell Memorial Entrance Scholarship**

These scholarships are the result of a generous donation by Eleanor Swanson to commemorate the memory of her late husband, J. Gregory Campbell. Interest on the fund will provide two scholarships to full time undergraduate students entering first year of any faculty or school at Memorial University of Newfoundland. The scholarships will be awarded on the basis of scholarship standing and financial need.

#### **The William Campbell Memorial Alumni Scholarship**

This scholarship, valued at a portion of the income on the investment, will be awarded annually to a student entering any first year program offered at Memorial University of Newfoundland. The recipient must be a graduate of Menihek High School. If the selected candidate pursues the College Transfer Program at the Labrador West Campus of the College of the North Atlantic, the scholarship may be deferred for one year on the condition that the student enters Memorial University of Newfoundland the following year. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing as defined by the University.

#### **The Canadian Federation of University Women St. John's Bursaries**

Two bursaries, valued at \$1500.00 each, are offered annually by the Canadian Federation of University Women (CFUW) St. John's to female students in full-time or part-time studies. The awards are made on the basis of scholarship standing and financial need and are not restricted to any particular faculty or year of study. The first of these bursaries is named in memory of Dr. Edith M. Manuel, well-known Newfoundland educator and charter member of CFUW St John's who died in 1984. The second is named for Olga Anderson, a long-time member of CFUW St. John's. Further information regarding the CFUW is available at [www.cfuw.org](http://www.cfuw.org).

#### **The William J. and Florence Carew Labrador Student Scholarship/Bursary**

A Scholarship/Bursary, established in 1975 by Miss Helen F. Carew, was renamed in 1990 in memory of her parents William J. and Florence Carew and is valued at \$600.00 annually. The award shall be made to a student from Labrador entering Memorial University of Newfoundland. In making the award, need as well as academic standing, will be considered.

#### **The Daniel Cleary Entrance Scholarship**

Daniel Cleary is a native of Harbour Grace, NL and a NHL hockey player who played with the Detroit Red Wings when they won the Stanley Cup in 2008. Mr. Cleary is the first resident of the province to have played on a Stanley Cup winning team. The Daniel Cleary Entrance Scholarship is established as the result of funds raised from an event, and sale of merchandise, celebrating Mr. Cleary and the Red Wings' victory. The scholarship will be awarded annually to an entering full-time undergraduate male or female student in any program of study at Memorial University of Newfoundland. To be eligible, candidates must demonstrate scholarship standing and have participated in the highest level of minor hockey in Newfoundland and Labrador in their graduating year. The scholarship is valued at a portion of the income on the endowment or \$1000, whichever is greater, and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Clayton and Alice Cook Scholarship**

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-

grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required to identify students in the first category and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **Country Ribbon Scholarship**

This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at \$1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Dr. Clarence B. Crummey Memorial Entrance Scholarship**

This scholarship is in memory of the late Dr. Clarence Crummey, Jubilee Scholar of the first graduating class of Memorial University College 1927. It is valued at a minimum of \$1,000.00 annually and will be awarded to an entering student to Memorial University of Newfoundland from the Bonavista Bay area. It will be awarded based on scholarship standing.

#### **The Reverend Doctor Levi Curtis Bursary**

This bursary has a value of at least \$200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Charlotte Penwell Dolimount Memorial Scholarship**

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Grand Bank and Fortune. Where possible preference will be given to students planning to do a Bachelor of Education at Memorial University of Newfoundland.

#### **Eastlink Entrance Scholarship**

Each year, Eastlink awards two entrance scholarships valued at \$4,000.00 each to students planning to attend Memorial University of Newfoundland in the Fall. In order to qualify for these awards, candidates must be dependants or spouses of subscribers of Eastlink, reside in one of the communities serviced by Eastlink, be enrolled as a full-time student, possess scholarship standing as defined by the University, and hold no other concurrent scholarship. In deciding on candidates of equal academic attainment, need will be the determining factor. A special application is required and is available in writing to Eastlink, 17 Duffy Place, P.O. Box 12155, Station A, St. John's, NL, A1B 4L1.

#### **The Fraser Edison Scholarship**

This scholarship is the result of a donation to the *Opportunity Fund* in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956. The scholarship will be awarded on the basis of scholarship standing to a student in any year or field of study.

#### **The Facilities Management Undergraduate Scholarship**

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund* Campaign. The fund will provide one or more scholarships valued at a minimum of \$500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone(709) 737-3956.

#### **The Daniel Fraad Jr. Memorial Entrance Scholarship**

This scholarship was established by Jack and Susan Rudin in memory of Mr. Fraad who ran Allied Aviation at Gander International Airport for many years before his death. Valued at a minimum of \$3,000, it will be awarded annually to an entrance student(s) on the basis of scholarship standing.

#### **The Dr. G.A. Frecker Memorial Alumni Bursaries**

The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at \$500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Sir Wilfred Grenfell College at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

#### **The Clarice Diamond Fry Memorial Scholarship**

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to graduates of high schools in Glovertown and Eastport. However, preference will be given to students who are residents of Glovertown. Where possible preference will be given to students planning to do a Bachelor of Education degree at Memorial University of Newfoundland.

#### **The Fry Family Foundation Junior Leadership Award**

This award is the result of the generosity of the Fry Family Foundation. Valued at \$1,200.00, it is awarded annually to Grade Nine students from Newfoundland and Labrador schools. Award recipients will receive \$200.00 immediately (i.e. at the end of grade nine) and the remaining \$1,000.00 upon entry to Memorial University of Newfoundland at the end of Level III. The award will also provide the student with opportunities for involvement in leadership development and community services activities. Schools with grade nine graduating classes of forty-five (45) or more student are eligible to nominate candidates. This award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the school Guidance Councilor or Principal.

#### **Fry Family Foundation St. John Bosco Scholarship**

One or more scholarships valued up to \$5,000.00 annually, will be awarded to Level III students from Shea Heights or Blackhead, NL. In awarding the scholarship academic standing will be considered. The scholarship will be awarded to students who plan to attend Memorial University of Newfoundland in the fall semester immediately following their completion of high school. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The General Motors Undergraduate Scholarship**

This scholarship was established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of

a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. It will be awarded on the basis of scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Joan Haire Memorial Scholarship**

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone(709) 737-3956.

#### **The Frank & Margaret Hamilton Gander Collegiate Entrance Scholarship**

This scholarship is funded annually through the Frank and Margaret Hamilton Memorial Fund at the Canadian Medical Foundation in support of high school graduates from Gander Collegiate. It will be awarded at \$1,750 annually to a student entering their first year of undergraduate study at Memorial University of Newfoundland and is open to any discipline. The student must be in scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Frederick J. Hancock Scholarship**

This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found from the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Dr. Leslie Harris Memorial University Alumni Association Scholarships**

Memorial University of Newfoundland and its Alumni Association have established these scholarships to honour former University President, Dr. Leslie Harris, and to recognize excellence. Several scholarships, valued at a minimum of \$16,000.00 (\$4,000.00 annually for up to 4 years) will be awarded annually and may be renewed if first class and scholarship standing are maintained. These scholarships are tenable in all undergraduate programs at the University and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The A. Harvey & Company Limited Scholarship Program**

On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at \$1,500.00. The deadline date for applying is the last Friday in July. In order to qualify candidates must:

- a. Be a dependent or spouse of employees of the company;
- b. Be enrolled as a full-time student;
- c. Posses scholarship standing as defined by the University; and
- d. Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. Further information and application forms are available in writing from A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John's, NL, A1C 5V6

#### **The Judge Higgins Memorial Entrance Scholarship**

This scholarship was established in memory of the late Judge William Higgins and is valued at a portion of the annual interest on the endowment. It will be open to all students entering first-year studies at Memorial University of Newfoundland. In making the award, scholarship standing and financial need will be considered. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Imperial Tobacco Canada Entrance Scholarship**

This scholarship was made possible by a donation in 1998 to Memorial University of Newfoundland by Imperial Tobacco Canada in support of the *Opportunity Fund Campaign*. The scholarship is valued at a minimum of \$2,000.00 annually. It will be awarded to an entrance student on the basis of scholarship standing.

#### **The Irving Oil Limited Scholarships**

These scholarships are the result of a generous endowment to Memorial University of Newfoundland by Irving Oil Limited in 1999 as a part of the *Opportunity Fund Campaign*. Interest on the endowment will provide several scholarships to full-time students entering Memorial University of Newfoundland in any field of study who have scholarship standing. Where two or more students are tied academically, financial need will be the determining factor. Two scholarships, valued at \$6,000.00 each, will be awarded annually to the general entering student population and, as funds permit, one or more scholarships valued at approximately \$3,000.00 each will be awarded with preference to students who are dependents of full-time permanent employees of Irving Oil Limited. The latter will be split equally between the Eastern and Western regions of the province with Grand Falls-Windsor providing the boundary line. Communities west and north of Grand Falls-Windsor (including Labrador) will be considered part of the western region and those east and south of Grand Falls-Windsor (including Grand Falls-Windsor itself) will be considered part of the eastern region. If in a given year there are not enough eligible candidates from the employees' dependant pool, these scholarships will also be open to the general entrance student population. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrolment at Memorial University of Newfoundland).

#### **The P.F. Kearney Memorial Scholarship**

A minimum of two scholarships will be provided annually from the interest on a bequest to the University in memory of Mr. P.F. Kearney. The scholarships will be awarded to students attending Memorial University of Newfoundland from schools within geographic boundaries of the Exploits Valley Integrated and Exploits White Bay Roman Catholic School Boards. Preference will be given to entering students but in the event that no entering students are eligible in a given year they may be awarded to undergraduates in any year or field of study on the basis of scholarship standing.

#### **Key Tag Scholarships**

Up to three scholarships, valued at \$500.00 per annum, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Scholarships. These scholarships are awarded annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, the Committee may consider other physically disabled students. In making the awards, financial need, initiative and scholastic achievement will be

considered. In special circumstances, the scholarships may be held for more than one year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Killam American Undergraduate Scholarship**

This scholarship fund is the result of gifts to Memorial University of Newfoundland in memory of Isaac Walton Killam of Nova Scotia made by the charitable trusts of his sisters in Massachusetts. The fund will provide one or more non-renewable entrance scholarships, valued up to \$3,000.00 (Canadian), to undergraduate students from the United States wishing to study at Memorial University of Newfoundland. Eligible candidates will be citizens of the United States who meet current admission requirements to Memorial University of Newfoundland and demonstrate scholarship standing comparable to that prescribed for Newfoundland and Labrador and Canadian applicants. Recipients will normally be required to have fewer than 31 credit hours of transfer credits and to register at Memorial University of Newfoundland as full-time undergraduate students for at least four courses in each of two semesters in their first academic year at Memorial University of Newfoundland. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director of Student Recruitment.

#### **The Iris Kirby Memorial Scholarship**

This award, valued at \$650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded in the Winter semester on the basis of the Fall semester's results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **Korea Veterans' Association Scholarship**

Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of \$500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canadian Korea War Veteran and who has scholarship standing. In a year when there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild beyond first year studies. If there is still no eligible student, the scholarship may be awarded to any first year student at Memorial who has scholarship standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available from the Scholarships, Bursaries and Awards Office, Rm. 4018, University Centre.

#### **The Labrador Fishermen's Union Shrimp Company Memorial Scholarship**

These scholarships, two valued at \$2,500.00 each annually, were created in honour of the six crew members who died in the 1990 airplane crash in Greenland. They will be awarded to entrance students from Coastal Labrador on the basis of scholarship standing. The first scholarship will be to a student from the Red Bay to Lance au Clair area and the second one to a student from the Lodge Bay to Cartwright area.

#### **The Locke's Electrical Limited 50th Anniversary Scholarship**

This scholarship is the result of an endowment established by Locke's Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke's Electrical Limited or one of its affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke's Electrical Limited, Corner Brook.

#### **The Thelma Marsh Scholarship**

This scholarship is a result of an ongoing gift to Memorial University of Newfoundland by Mrs. Thelma Marsh of St. John's. The scholarship, valued at \$2,000.00 annually, is to be awarded to an entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

#### **The Memorial University of Newfoundland 50th Anniversary Scholarships**

These scholarships are a result of donations made to the Memorial University of Newfoundland *Opportunity Fund Campaign*. Established in 1999, they are awarded annually to students entering the University in Fall semester who have received a provincial government scholarship. The University will offer a scholarship of matching value to students who receive The Junior Jubilee, The Constable W. C. Moss, The Centenary of Responsible Government and the Provincial Electoral District Scholarships.

#### **The Memorial University of Newfoundland Alumni Entrance Scholarship**

This scholarship is made possible by a donation from the Memorial University of Newfoundland Alumni Association. The scholarship is valued at \$5,000.00 per year and is renewable to a maximum of an additional four years provided first class and scholarship standing are maintained. The scholarship is tenable in all undergraduate programs at this University.

#### **Memorial University of Newfoundland Endowment Scholarships**

These scholarships, established by Memorial University of Newfoundland, are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

#### **The Memorial University of Newfoundland Faculty Association Scholarship Fund**

The Memorial University of Newfoundland Faculty Association (MUNFA) has established a trust fund to provide scholarships and bursaries to needy students in good academic standing. Assistance from this fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Ditte Koster Memorial Scholarship. This award honours the late Ditte Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the *Opportunity Fund* in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

#### **The Memorial University of Newfoundland International Entrance Scholarship**

These scholarships have been established by Memorial University of Newfoundland as part of an agreement by the Board of Regents, in May 2003, that a portion of the tuition fees for international undergraduate students would be set aside for International Scholarships. The values will vary but will not exceed \$3,000.00 each annually. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least 9 credit hours in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director,

Office of Student Recruitment.

**The G.H. Morgan and Son Scholarship**

This scholarship is the interest on a sum donated by a member of the Morgan Printing Co., Ltd., in memory of the founders of the firm, the late G.H. Morgan, Esq., and his son, the late Albert MacGregor Morgan, Esq. At the request of the donor, it is awarded annually based on the University final admission average. It will be awarded with first preference to a student from Coley's Point. If no eligible student from Coley's Point can be identified, preference will be given to students from (a) Bay Roberts, (b) the entire district of Port-de-Grave.

**The Jacob and Floral Morgan Scholarship Fund**

This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outports of this province, and of his wife Floral. One or more scholarships, valued at not less than \$2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

**The Julia E. Morgan Scholarship Fund**

This fund has been established by relatives and friends of the late Julia E. Morgan, school teacher and University Extension Services field worker. One or more scholarships valued at not less than \$2,500.00 each will be awarded annually. Preference will be given to students from the smaller outports, primarily to those who are entering Memorial University of Newfoundland for the first time.

**The M.O. Morgan Entrance Scholarships**

These scholarships, tenable at Memorial University of Newfoundland and valued at a minimum of \$2,000.00 each, are open to entrance students. They have been funded in part by a donation received from the Albatross Hotel of Gander and the Mount Peyton Hotel of Grand Falls. They will be awarded on the basis of academic excellence.

**The Edward G. Mullins Memorial Scholarship**

This scholarship valued at \$500.00 annually has been established by the Newfoundland and Labrador Branch of the Kidney Foundation of Canada. It honours the memory of the late Edward G. Mullins who had kidney disease and was a dedicated volunteer of the Foundation. Preference will be given to applicants who have kidney disease, who have completed a minimum of 18 credit hours over two semesters in the previous scholarship year with a minimum average of 75% in the courses which comprise those credit hours and are enrolled full time at the University. However, if in a given year such an applicant(s) is not available, dependents of someone who has/had kidney disease may qualify. Such applicants must be enrolled full time at Memorial University of Newfoundland and have scholarship standing. In deciding on candidates of equal academic attainment from the latter group, need may be the determining factor. In some cases the scholarship may be held for more than one year. A special application is required and must be submitted to the scholarship office. Applications may be obtained in writing to The Kidney Foundation of Canada, Scholarships, Bursaries and Awards Office Newfoundland & Labrador Branch, Room 4018, University Centre, P.O. Box 7342, Memorial University of Newfoundland, St. John's, NL, A1E 3Y5, or by telephone to (709) 753-8999 or (709) 737-3956.

**The MUNSU Undergraduate Scholarship**

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 737-3956.

**Harvey and Doris Murcell Scholarship**

This scholarship has been established from funds donated by Harvey and Doris Murcell. Scholarships of at least \$1,000.00 shall be awarded under the following conditions:

- a. A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.
- b. Four scholarships to students of any year from high schools in the Conception Bay North area.
- c. Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

**Newfoundland Ranger Force (1935-50) Scholarship**

This scholarship is made possible by a generous donation to Memorial University of Newfoundland by the Newfoundland Ranger Force (1935-49) Association. Valued at a portion of the income on the investment the Scholarship will be awarded to students entering first year of studies at Memorial University of Newfoundland. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for approximately 12 months prior to enrolment at Memorial University of Newfoundland). The Scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Elsie and Stephen O'Neill Bursary**

The children of Elsie and Steve O'Neill established this bursary in appreciation of their parents' support and encouragement toward their higher education. The bursary, will be valued at \$500 annually and will be awarded to a single mother with first preference to a current part-time undergraduate student. She must also have been enrolled part-time for two or more semesters prior to the semester in which the scholarship was awarded and have maintained a B average in those semesters. If no student meeting the above criteria can be identified, the bursary will be awarded to an undergraduate single mother who is currently registered at the university (part-time or full-time), who meets the financial need criteria and who has maintained a B average in the courses completed in the previous scholarship year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Florence O'Neill Scholarships**

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to \$1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Sir Wilfred Grenfell College in Corner Brook.

**The Dr. Hugh O'Neill Entrance Scholarship**

These scholarships are the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. Four scholarships valued at \$1,000.00 each will be awarded annually to full-time undergraduate students entering first year of any faculty at

Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need.

**The R.A. Parsons Scholarship Fund**

The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

**The Selby Parsons Memorial Scholarship**

This scholarship, awarded annually in memory of the late Mr. Selby Parsons, an early graduate of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mr. Parsons. It is open to outport students in their first year. Academic standing as well as financial need will be taken into consideration in making the award. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship.

**The John Lewis Paton Entrance Scholarship**

This scholarship is the result of an endowment left to the University from the estate of the late Dr. John Lewis Paton. Valued at a minimum of \$2,500.00 annually, the scholarship will be awarded on the basis of scholarship standing to students entering Memorial University of Newfoundland.

**The Rose Patten Single Mother Scholarship**

This scholarship has been established by Ms. Patten to encourage and assist women to develop their full academic potential. Valued at the interest on the endowment, it is open to single mothers who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. It will be awarded taking into consideration financial need as well as scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Elaine Pitcher Memorial Scholarship**

This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Poole Family Scholarship**

The Poole Family Scholarship, valued at \$5,000.00 per year and renewable for up to three additional years, is funded by a generous annual gift from the charitable trust established by Mr. Terry Poole who attended high school in Corner Brook and now resides in Calgary, Alberta. The scholarship will be awarded annually to a full-time undergraduate student entering into their first year of study in any program at Memorial University of Newfoundland (at any campus). To be eligible, candidates must demonstrate financial need and scholarship standing. Preference will be given to candidates who graduated from a high school in western Newfoundland. Recipients may attend any of Memorial University of Newfoundland's campuses. The scholarship is renewable for up to three additional years as long as candidates maintain scholarship standing, and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards

**The Quebec-Labrador Foundation Scholarships**

The Quebec-Labrador Foundation offers three scholarships at \$500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards.

The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

**Robert Gillespie Reid Memorial Scholarships**

These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

**Rotary Club of St. John's Entrance Scholarships**

These scholarships, valued at a minimum of \$1000.00 each, were established by the Rotary Club of St. John's, Newfoundland, to assist qualified students entering first year of studies at the University. Scholarship standing, as well as financial need, are to be considered in making the awards. The number of awards to be made is contingent on the annual interest on the capital investment.

**The Royal Canadian Legion Branch No. 1 Memorial Bursaries**

Two awards, the first known as the W.R. Dawe Memorial Bursary and the second known as the Walter E. Williams Memorial Bursary, are sponsored by the St. John's Branch No. 1 of the Royal Canadian Legion. These are valued at \$750.00 each and are tenable only at Memorial University of Newfoundland. The awards recognize the contributions of Mr. Dawe and Mr. Williams to the province of Newfoundland and to the Royal Canadian Legion, St. John's Branch No. 1. They are open to Branch No. 1 members' children and grandchildren upon entrance to first year studies at the University. A special application, available from the Branch office or the University's Awards Office, must be completed and returned by August 31 of each year. The awards will be made on the basis of academic standing and need.

**Royal Canadian Legion (St. John's Branch No. 1) Memorial Wall Scholarships**

These scholarships, three at \$1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

**The Saval Scholarship Fund in Memory of the Honourable Walter Stanley Monroe**

Funded by the interest accruing on a donation from the Estate of Maurice H. Saval, at least two scholarships, valued at \$1,000.00 each, will be awarded annually to students entering Memorial University of Newfoundland in full-time undergraduate studies. These scholarships are in memory of the Honourable Walter Stanley Monroe. The scholarships will be awarded on the basis of academic excellence.

**The Dr. Maurice Saval Scholarship/Bursary Fund**

This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

**The September 11, 2001 International Scholarship**

As a result of the tragic events in New York, USA on September 11, 2001, nearly 13,000 air travellers were diverted to airports in Newfoundland to ensure their safety. In St. John's, 475 of them were housed on Memorial University of Newfoundland's St. John's campus for several days. Some of the passengers have shown their gratitude to Memorial University of Newfoundland by making donations to establish a fund which will assist students from other countries to attend Memorial University of Newfoundland. This fund will be a perpetual memorial to those who died in the tragic events of that day, while also providing both international students and our community with the opportunity for enrichment through exposure to new cultures and ways of life. To be considered for these scholarships, a student must be eligible to pay the full international undergraduate fee, must register for at least four courses in each of two semesters in their first academic year at Memorial University of Newfoundland, should normally have fewer than 31 credit hours of transfer credits and meet scholarship standing (comparable to that prescribed for Newfoundland and Labrador and Canadian applicants). These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, Office of Student Recruitment.

**Shad Valley Scholarships**

Three renewable scholarships, valued at \$12,000 each (\$3000 a year for up to 4 years), are available to high school students who have applied to Memorial University of Newfoundland. The scholarships are open to students who are either current participants or have previously participated in Shad Valley. The scholarships cannot be held in conjunction with any other scholarship awarded by the University. A minimum of scholarship standing is required and the process is very competitive. Applications for the scholarship may be obtained from the Scholarships and Awards Office, Room 4018, University Centre, or by telephoning (709) 737-3956 or through the website at [www.mun.ca/scholarships](http://www.mun.ca/scholarships). The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Desmond and Annie Single Scholarships**

These two scholarships were established as a result of a generous contribution from Ralph (B.Sc. '68) and Marsha Single in memory of Ralph's parents, Desmond and Annie Single. The available funds will be split evenly between the two awards. Both scholarships will be awarded to first year full-time undergraduate students in any area of study, and selection will be made based on a combination of academic merit (scholarship standing) and demonstrated financial need. For one scholarship, preference will be given to students from the west coast (ideally the Bay of Islands region); for the other, preference will be given to students from the Conception Bay South region. For both scholarships the award will be paid out over two years, with one-third of the award in the candidates' first (entering) year and two thirds will be paid in the candidates' second year as long as the candidate maintains scholarship standing. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Wesley and Daisy Snelgrove Memorial Scholarship**

This scholarship fund is established through a generous gift from members of the family of Wesley and Daisy Snelgrove and will provide two scholarships annually, valued at a portion of the income from the endowment. To be eligible, students must be Level III graduates from Baccalieu Collegiate in Old Perlican and must be entering full-time studies at Memorial University of Newfoundland (including the Fisheries and Marine Institute), pursuing an undergraduate degree and have scholarship standing. One scholarship, valued at 60% of the spendable earnings, will be awarded to the eligible student with the highest academic average. The second scholarship, valued at 40% of the spendable earnings, will be awarded to the eligible student with the second highest average. Both of the scholarships should be awarded even if the students have received another entrance scholarship from the University. In the event that there are no entering students from Baccalieu Collegiate in a given year, successful recipients from previous years who are currently enrolled at Memorial University of Newfoundland will be considered based on scholarship standing. In the event that no such students are entering or attending this University, the scholarships will be awarded to students from the Federal Electoral District in which Grates Cove is located. In the latter case, if possible, the first scholarship will be awarded to the student who is entering the School of Nursing with the highest academic average and the second to a student entering into their first year in the Faculty of Education with the highest academic average. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Marie Sullivan (1917-2003) Scholarship**

This scholarship, valued at a minimum of \$2,500.00, has been established by Mrs. Sullivan's eleven children. All attended Memorial University of Newfoundland after completing high school in Baie Verte. The scholarship is in recognition of and appreciation for their mother's unwavering commitment to her family and her encouragement to pursue a higher education. It will be awarded to an entrance student on the basis of scholarship standing and financial need.

**The Swimming Newfoundland and Labrador Entrance Scholarship**

This scholarship, valued at \$1,000.00 annually, is available to a first year student who will attend Memorial University of Newfoundland and be a member of the Memorial University of Newfoundland Seahawks Varsity Swim Team. The scholarship recipient will have been a competitive swimmer in the Province of Newfoundland and Labrador for a minimum of three years and be a swimmer in good standing with Swimming Newfoundland and Labrador. This scholarship will be awarded on the basis of scholarship standing, however, in deciding on candidates of equal academic standing, financial need may be used as a determining factor. Applications may be obtained in writing to the Swimming Newfoundland and Labrador office, RPO MacDonald Drive, Box 21248, St. John's, NL, A1A 5B2, or telephone to (709) 576-7946, or by fax to (709) 576-7493.

**The TD Bank Financial Group Bursary**

The TD Bank Financial Group has established this bursary as part of their commitment to helping students succeed in their post-secondary studies. The bursary is available to part-time or full-time students at Memorial University of Newfoundland who demonstrate financial need. Recipients may be residents of any province or territory in Canada. Valued at the interest on the endowment, the bursary will be awarded to entrance students in any field of study.

**Arthur W. Toms Scholarship**

This Scholarship was established by the family of the late Arthur W. Toms who was a farmer, fisherman, Co-op Field Officer, Rural Development Officer, Mayor, and Justice of the Peace, and who played a significant and leading role in the development of La Scie and other communities along the northeast coast of Newfoundland. Valued at a portion of the income on the investment, this scholarship will be awarded based on scholarship standing to a student entering Memorial University of Newfoundland as a full-time student. The scholarship will be open to students from Cape John Collegiate, La Scie, NL. If no suitable candidate is available from Cape John Collegiate preference will be given to students from the Baie Verte Peninsula. If no suitable candidate is available from the Baie Verte Peninsula preference will be given to students from Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The James Tucker Memorial Scholarship**

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 737-3956.

**The George Weston Entrance Bursary**

This bursary, valued at a minimum of \$1,000.00, will be awarded annually to a Memorial University of Newfoundland entrance student on the basis of scholarship standing and need. It will be renewable for up to four years (initial + 3) providing first class and scholarship standing is maintained and the recipient continues his/her studies in a Bachelor of Arts or a Bachelor of Science. This bursary will be awarded to a student who was born in one of the Atlantic Provinces.

**The Women's Association of Memorial University of Newfoundland Faculty/Staff Scholarship**

The Women's Association of Memorial University of Newfoundland (WAMUN) has established a \$1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

- a. children of full-time faculty or staff; or
- b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

This scholarship is based on scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Women's Association of Memorial University of Newfoundland Single Parent Undergraduate Scholarship**

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to single parents enrolled in any faculty, school or year of study at Memorial University of Newfoundland. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Marjorie Wyght-Barre Memorial Scholarship**

This scholarship, named in memory of Mrs. Marjorie Wyght-Barre (1907-1965) of Montreal, is the result of an endowment created by her husband, Major P.H. Barre. This scholarship, valued at the annual accrued interest on the initial endowment, is to be awarded annually to a Memorial University of Newfoundland entrance student from Newfoundland and Labrador. It will be awarded on the basis of scholarship standing and financial need.

**The James W. Youden Bursary**

This bursary, valued at a portion of the income from the endowment, is a result of a generous donation by James W. Youden from Chamberlains, NL. Though not a graduate of Memorial University of Newfoundland, Mr. Youden's children are all alumni, and Mr. Youden holds a firm belief in the value and power of a university education to transform lives. The bursary recipient will be a full-time undergraduate student in his or her first year of study, with demonstrated financial need and in good academic standing. Preference will be given to students entering either the Faculty of Arts or Education. The recipient must reside in an area of Newfoundland and Labrador outside of metropolitan St. John's and Corner Brook. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

## 4 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Already in Attendance at the University May Qualify

### 4.1 General

The following are not specific to an academic discipline.

**Affinity NL (Ottawa) Scholarship**

This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland's Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Rural is defined as outside St. John's and Corner Brook as determined by the Centre for Institutional Analysis and Planning, or an equivalent University or Government body. When awarded to an undergraduate student, the Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. When awarded to a graduate student, it will be awarded by the Dean of Graduate Studies upon the recommendation of the Awards and Medals Committee.

**The Arnold's Cove, Come By Chance, North Harbour Fishers and Newfoundland Transshipment Scholarship**

This scholarship was established by Newfoundland Transshipment Limited (NTL) as part of an agreement between them and the Fishers Liaison Committee (FLC) of the Arnold's Cove, Come By Chance and the North Harbour area. This scholarship, valued at the annual interest on the initial endowment to a maximum of \$500 per student, will be awarded on the basis of scholarship standing to a Fisher or his/her descendant(s) who is registered as a full-time student at Memorial University of Newfoundland in any year or field of study. In the event that no applicants are received from Fishers or Fishers' descendants in a given year, the scholarship may be awarded to another student from above noted geographic areas. Eligibility of applicants under the above criteria will be verified by the Fisheries Liaison Committee (FLC). Memorial University of Newfoundland is encouraged to ensure that the scholarship is alternated between communities and their eligible students. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956. Completed applications must be returned to the FLC for appropriate verification.

**The Ashbridge Scholarships/Bursaries**

These awards, at least three at \$500.00 each, are tenable to students beyond the first-year level of undergraduate programs. They are awarded on the basis of need and scholarship standing.

**Baccalieu Trail Scholarship**

This scholarship, valued at a portion of the income on the endowment, is made possible by the fund raising efforts of the Baccalieu Trail Chapter of the Alumni Association of Memorial University of Newfoundland. Based on scholarship standing the scholarship will be awarded to a student who is a resident of the Baccalieu Trail Region or has been a permanent resident of the region for the completion of their secondary education. The student must have successfully completed their first year of study and be entering second year of full-time study at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Baird-Stephenson Scholarship**

This Scholarship, valued at \$1,000.00 is to be awarded annually to a Memorial University of Newfoundland student in any year or field of study. It is named for Mrs. Edna Baird-Stephenson and her late husband, both of whom were former members of Memorial University of Newfoundland's faculty. The Scholarship will be awarded on the basis of academic excellence.

**The Donald M. Balsom Award**

The Newfoundland Brain Injury Association (NBIA) has established this award to honour Donald M. Balsom, former Associate Director of Memorial University of Newfoundland's School of Continuing Education and brain injury survivor. Valued at \$500.00, it will be awarded annually to a brain injured undergraduate student who is registered either part-time or full-time, in any year or field of study at Memorial University of Newfoundland, who has some volunteer experience with the NBIA and who is in clear academic standing at the University. In the event that no applications are received from brain injured students the award may be given to a student who has made a significant contribution as a volunteer to the Brain Injury Association. In special circumstances, the award may be held for more than one year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with NBIA as needed.

**Barnes House Bursaries**

Two bursaries of \$600.00 each have been donated by Dr. Charles Loader former Proctor of Barnes House and are tenable only by residents of Barnes House, Paton College, who have resided in the House for at least one semester prior to application. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of a committee established by the Proctor of Barnes House. In making the awards, financial need and academic performance in the previous year will be taken into consideration. The bursaries will not be given to students who hold other major awards and will be paid in two equal instalments over two semester, payment in the second semester being dependent upon the recipients maintaining at least a "B" average. If there are no suitable candidates, the bursaries will not be awarded.

Applications are available from the Residence Assistants, the Proctor or the Paton College Office. The deadline date for application is March 15.

**The Birks Family Foundation Bursaries**

The Birks Family Foundation has established a plan of annual contributions to the student aid funds of recognized Canadian universities for the creation of the Birks Family Foundation Bursaries. The Bursaries are awarded by the Foundation on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

**Bishop Jones Memorial Hostel Group Scholarship**

This scholarship was established by the Bishop Jones Memorial Hostel Group. The scholarship, valued at a portion of the income from the endowment, will be awarded annually to a female student who meets the minimum academic requirements for a scholarship and is enrolled full-time in her second year of study at Memorial University of Newfoundland. It is open to residents of Newfoundland and Labrador whose permanent address is outside the metro region of the campus they are attending. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Glenn Roy Blundon Memorial Scholarship**

This scholarship, valued at \$500.00, has been established by the family, friends and fellow students of the late Glenn Roy Blundon, a former student of Memorial University of Newfoundland who, despite his severe physical disability, succeeded in his studies and made a significant contribution to student life. In the awarding of this scholarship, preference will be given to academically qualified students with disabilities but those enrolled in the Special Education Program may be considered when no candidates are available from the first group. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Gary Bourne Memorial Scholarship**

This scholarship is the result of an endowment to the University funded largely by donations resulting from fundraising efforts of Gary's colleagues at the Office of Financial and Administrative Services. Valued at a portion of the annual accrued interest on the endowment it will be awarded on the basis of scholarship standing to an undergraduate student who is a dependent of a current, retired or deceased staff member of Memorial University of Newfoundland. An application is required and may be obtained from the Scholarships, Bursaries and Awards Office. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Doctor William Boyle Scholarships**

Under the will of the late Dr. Robert William Boyle, the University, in 1956, received bequests establishing two scholarships, one in memory of the testator's mother, Sophie (Maddock) Boyle, to be awarded to a female student attending the University; and the other in memory of his father, Albert Desbrisay Boyle, to be awarded to a male student attending the University. The scholarships are to be awarded to the students who, having attended the University for a period of at least two years, are, in the opinion of the governing body of the University, best qualified in virtue of all-round attainment. Each scholarship will be tenable for two years and the emolument will be the income accruing from the bequest during the period of tenure of the scholarship.

**The Burke House Scholarship**

One bursary of \$700.00 is tenable by a resident of Burke House, Paton College, who has resided in the House for at least two semesters prior to application. In making the award, financial need, academic performance, and leadership contribution will be taken into consideration. The bursary will be awarded to a student who does not hold a concurrent major award and will be paid in two equal installments over a two-semester period, payment in the second semester being dependent on the recipient maintaining at least a "B" average. If in any year there is no suitable candidate, the bursary will not be awarded for that year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of a committee established by the Proctor of Burke House. Application forms are available from the Academic Don, the Proctor, or the Paton College Student Housing Office.

**The Calgary Alumni Scholarship**

This scholarship is being established through the fund raising efforts of the Calgary Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who

demonstrates academic excellence. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Canadian Federation of University Women St. John's Bursaries**

Two bursaries, valued at \$1500.00 each, are offered annually by the Canadian Federation of University Women (CFUW) St. John's to female students in full-time or part-time studies. The awards are made on the basis of scholarship standing and financial need and are not restricted to any particular faculty or year of study. The first of these bursaries is named in memory of Dr. Edith M. Manuel, well-known Newfoundland educator and charter member of CFUW St. John's who died in 1984. The second is named for Olga Anderson, a long-time member of CFUW St. John's. Further information regarding the CFUW is available at [www.cfuw.org](http://www.cfuw.org).

#### **The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Golden Jubilee Scholarship**

This scholarship valued at a portion of the income on the investment, will be awarded to a student entering the final year of undergraduate studies at Memorial University of Newfoundland. Based on scholarship standing, the scholarship will be available to a student majoring in a field of study that is covered by the fields of interest of the Canadian Institute of Mining, Metallurgy and Petroleum specifically; Earth Sciences, Geophysics, Geography, Economics, Environmental Science, Engineering, Business and Commerce. Financial need may be taken into consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Chow-Fagan Scholarship for Single Mothers**

This scholarship, valued at \$1,000 annually was established by Deborah Chow-Fagan. To be eligible, candidates must be single mothers who are full-time undergraduate students; preference will be given to students who have scholarship standing. If no full-time students are eligible in a given year, second preference will be given to a part-time student who is a single mother. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a special application which may be obtained from the Scholarships and Awards Office, Room 4018, University Centre, or by calling (709) 737-3992.

#### **The Marion (Ward Hue) Christian Memorial Scholarship**

This scholarship, valued at a portion of the income from the endowment, is the result of a generous donation by Dr. David Ward, and is established in memory of his mother, Marion (Ward Hue) Christian. Originally from Trinity, Trinity Bay, Marion worked with the Department of Public Health helping elderly adults learn to read before going on to Columbia University and Emory College to study special education and geriatrics. She later served as the Deputy Director of the Hoyles Home, St. John's until her retirement. The scholarship recipient will be a full-time undergraduate student beyond first year who must demonstrate financial need as well as scholarship standing. The student must be from an area of Newfoundland and Labrador outside of metropolitan St. John's and Corner Brook. Although students in all areas of study are eligible, preference will be given to those studying in the sciences. The Scholarship will be awarded by the Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Coca-Cola Scholarship for International Studies**

This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's *Opportunity Fund* Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

#### **The Compass Group Canada Scholarship**

From a sum of money donated by Compass Group Canada, a scholarship fund has been established for students who reside in Paton College, who have completed their second year of studies while in residence and who will return to residence for their third year. The awards, valued at a minimum of \$1,000.00, will be made annually on the basis of academic excellence. The purpose of the scholarship is to encourage senior students of high academic calibre to live in residence.

#### **The Raymond J. Condon Memorial Alumni Scholarship**

This scholarship, valued at \$1,000.00, will be awarded to a student who has completed the first year College Transfer Program at the Labrador West Campus of the College of the North Atlantic and is transferring to Memorial University of Newfoundland the following year. The recipient must be of scholarship standing as defined by the University. The Senate Committee on Undergraduate Scholarships, Bursaries and Awards will award the scholarship upon recommendation of the Principal, Labrador West Campus.

#### **The Clayton and Alice Cook Scholarship**

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required to identify students in the first category and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **Country Ribbon Scholarship**

This scholarship is available to dependants (sons, daughters or wards) of employees of Country Ribbon. Valued at \$1,000.00 annually it will be awarded, with first preference, to an entrance student registered for full-time studies at Memorial University of Newfoundland. If no suitable candidate can be identified from the first group the scholarship may be awarded to an undergraduate student registered for full-time studies at Memorial University of Newfoundland. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Crowley Bursaries**

These bursaries, one or more valued at a minimum of \$1,000.00 each annually, are the result of the interest on an endowment to the University by Mr. Ronald Crowley. In awarding these bursaries preference will be given to undergraduate sons or daughters of fisherpersons whenever possible. However, when such candidates cannot be identified the bursaries will be awarded to other eligible undergraduate students at Memorial University of Newfoundland. In both cases candidates may be in any year or field of study. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need as defined by the University.

#### **The Reverend Doctor Levi Curtis Bursary**

This bursary has a value of at least \$200.00 and is awarded each year to a student who is a candidate for the ministry of the United Church, a child of a minister of the United Church, or the child of a needy United Churchman. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Donald W.K. Dawe Memorial Scholarship**

This annual scholarship, valued at \$500.00, has been established by the family, friends and associates of the late Donald W.K. Dawe, Q.C., who attended the Memorial University College in 1933-34. In making the award, preference may be given in the first instance to a needy and academically qualified student beyond the first year from outport Newfoundland and Labrador.

**Director's Award for Exemplary Work Terms**

Four awards will be offered annually to students enrolled in full-time co-operative education programs at Memorial University of Newfoundland. One award for each of the Engineering, Business, Human Kinetics and Recreation programs, and one award for the programs in Applied Social Psychology, Computer Industry Internship Option and Economics. The recipients will receive a framed certificate and their names will be inscribed on a permanent plaque mounted in the Division of Co-operative Education. Nominations will be made by the co-operative education co-ordinators of the students' respective Faculty or School to the Director of Co-operative Education. Nominations may also be made by employers. The deadline for nominations is January 30. The awards will be presented during National Co-operative Education Week. Only students who have completed a work term in the previous calendar year and have obtain a pass with distinction (PWD) in both the work performance evaluation and the communication component of the work term are eligible. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Co-operative Education.

**The Vivian Douglas Memorial Scholarship**

This scholarship has been established from a donation to the University by Mrs. Edna Baird-Stephenson in honour of her housekeeper Mrs. Vivian Douglas from Grand Bank. It is valued at the annual accrued interest on the initial donation and will be awarded to a student beyond first year in any field of study. It will be awarded annually on the basis of scholarship standing and financial need.

**The Doyle House Awards**

These awards are the result of fundraising by the Doyle House Academic Committee. Three, valued at \$100.00 each, will be awarded annually to residents of Doyle House. They will be awarded in the Winter semester of each year as follows:

- Highest senior resident average; to a resident of Doyle House who has resided there two consecutive semesters prior to receiving the award and who has a minimum of 70% average.
- Highest freshman resident average; to a student who had resided in Doyle House for the current and previous semester and who had a minimum of 70% average in the Fall Semester.
- Most improved average; to a student who has shown the greatest academic improvement during the most recent two semesters, who has been a resident of Doyle house for two consecutive semesters prior to receiving the award and who has a minimum of 70% average in the most recent semester he/she must have achieved at least a 50% average.

These awards will be made by the Committee in Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from a committee representing Student Housing, Food and Conference Services and Doyle House. Additional information can be obtained from the Residence Assistants, Academic Don or Proctor of Doyle House.

**The Dr. J. Douglas Eaton Scholarships**

Upon the retirement of Dr. J. Douglas Eaton from the position of Vice-President (Student Affairs & Services) in 1983, the student body of Memorial University of Newfoundland donated a sum of money to fund two undergraduate scholarships in his honour, valued at \$500.00 each. These awards, tenable to students beyond first year will be made on the basis of academic standing and demonstrated active participation in student life. In cases of competition between students of equal standing, need shall be the determining factor in awarding the scholarships. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee, consisting of members of MUNSU and the Office of Student Affairs & Services.

**The Fraser Edison Scholarship**

This scholarship is the result of a donation to the *Opportunity Fund* in 1999 by Mr. Fraser Edison. It will be valued at the annual interest on the endowment and will be awarded to an undergraduate student who has a recognized physical disability. An application is required and the scholarship will be awarded on the basis of scholarship standing to a student in any year or field of study. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Facilities Management Undergraduate Scholarship**

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund* Campaign. The fund will provide one or more scholarships valued at a minimum of \$500 each to students who are children, grandchildren, nieces, nephews, brothers, sisters or spouses of current or retired employees of the Department of Facilities Management, Memorial University of Newfoundland. Preference in awarding the scholarship(s) will be given to entrance students but undergraduates may also qualify. The scholarship(s) will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 737-3956.

**The Ralph L. Finley Scholarships**

Under the will of the late Mr. Ralph L. Finley, the University in 1987 received a bequest establishing two scholarships. The awards are to be tenable to needy undergraduate students, residing in the University residences during the academic year, who attain a minimum average of 70%. The value of the awards will depend on the income accruing from the bequest during the period of tenure of the scholarships. The amounts to be awarded are to be applied to the recipients' tuition and/or residence fees.

**The Charlie (Moo Sic) Fong Memorial Scholarship**

This scholarship, valued at the annual interest (approximately \$600.00 - \$700.00 annually), is the result of an endowment by the Fong family in memory of their great-grandfather, Mr. Charlie (Moo Sic) Fong. It was established to commemorate the 100th anniversary of the first Chinese settler in Newfoundland and to promote an awareness of the Chinese Cultural and Historical background in the province. It will be awarded on the basis of scholarship standing and financial need to an undergraduate student at Memorial University of Newfoundland with a Chinese heritage. The scholarship will be given early in Winter semester and presented to the student at a local function held to celebrate the Chinese New Year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Dr. G.A. Frecker Memorial Alumni Bursaries**

The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at \$500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Sir Wilfred Grenfell College at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

**Friends of India Association Scholarship**

This award, valued at \$500.00, is awarded annually from funds donated by the Friends of India Association. The scholarship is open to any student registered at Memorial University of Newfoundland who is beyond first year studies. This scholarship will be awarded on the

basis of scholarship standing.

#### **The General Motors Undergraduate Scholarship**

This scholarship was established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide one or more scholarships to support individuals who qualify as Native People, members of a Visible Minority and/or Physically Disabled. It will be awarded to students in any year or faculty or school at Memorial University of Newfoundland. It will be awarded on the basis of scholarship standing and an application may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Joan Haire Memorial Scholarship**

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709)737-3956.

#### **The Frederick J. Hancock Scholarship**

This scholarship is the interest on a sum of money donated to the University by Frederick J. Hancock, former Sergeant of the Newfoundland Constabulary who served as a member of the Force for twenty-five years until his retirement in 1963. Preference in the awarding of this scholarship will be given to sons and daughters of active, retired or deceased members of the Royal Newfoundland Constabulary. Candidates must be enrolled in full-time studies at the University and possess scholarship standing. When no candidates can be found from the above category, the scholarship may be awarded to any full-time student on the basis of academic merit. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The A. Harvey & Company Limited Scholarship Program**

On the occasion of its 125th anniversary, A. Harvey & Company Limited established this scholarship tenable at Memorial University of Newfoundland and valued at \$1,500.00. In order to qualify candidates must:

- a. Be a dependent or spouse of employees of the company;
- b. Be enrolled as a full-time student;
- c. Posses scholarship standing as defined by the University; and
- d. Hold no other concurrent scholarship.

Preference will be given to entrance students; however, if there is no eligible candidate enrolled in first year studies, then the scholarship may be awarded to a senior undergraduate student attending Memorial University of Newfoundland who fulfills the above criteria. In deciding between candidates of equal academic attainment need will be the determining factor. The deadline date for applying is the last Friday in July. Further information and application forms are available in writing to A. Harvey & Company Limited, 87 Water Street, P.O. Box 5128, St. John's, NL, A1C 5V6

#### **The C. D. Howe Memorial Foundation Scholarship**

These scholarships result from a contribution by the C. D. Howe Memorial Foundation. The Annual income from this endowment will be utilized to fund up to six scholarships valued at the cost of one year's tuition for full-time students, the amount varying depending on the number of courses taken. The scholarships will be awarded to undergraduate students entering second, third, fourth or fifth years of study in any undergraduate program. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need, and a recommendation from the appropriate Dean or academic Director.

#### **The Kathleen Huckabone Bursary**

This bursary was established by the family of Kathleen Huckabone in August, 2004 as a special tribute, on the occasion of her 70th birthday. Valued at \$2,000.00 and awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, it is given to a first year student at Memorial University of Newfoundland who is a graduate of a high school in the Eastport/Salvage area, is in need of financial assistance and has completed one semester of full-time studies with satisfactory standing. If no candidates meet the foregoing criteria, the bursary may be awarded to an undergraduate student from the Eastport/Salvage area in any year of study at Memorial University of Newfoundland.

#### **The Bishop Jones Memorial Hostel Group Scholarship**

This scholarship was established by the Bishop Jones Hostel Group. The scholarship, valued at a portion of the income from the endowment, will be awarded annually to a female student who meets the minimum academic requirements for a scholarship and is enrolled full-time in her second year of study at Memorial University of Newfoundland. It is open to residents of Newfoundland and Labrador whose permanent address is outside the metro region of the campus they are attending. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Ethel H. Judson Memorial Scholarship**

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her late sister Ethel. It will be awarded annually to a Memorial University of Newfoundland student in any year or field of study. The scholarship will be awarded on the basis of academic excellence.

#### **Key Tag Scholarships**

Up to three scholarships, valued at \$500.00 per annum, are donated by the Newfoundland Branch of the War Amputees of Canada, and are to be known as the Key Tag Scholarships. These scholarships are awarded annually to amputee students in any year or field of study at Memorial University of Newfoundland. In the event that no applications are received from amputee students, the Committee may consider other physically disabled students. In making the awards, financial need, initiative and scholastic achievement will be considered. In special circumstances, the scholarships may be held for more than one year. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Iris Kirby Memorial Scholarship**

This award, valued at \$650.00 annually, has been established by the friends and colleagues of the late Iris Kirby. Iris was an active feminist and advocate of encouraging women to develop their fullest potential. The scholarship is open to women enrolling in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning after at least five years out of full-time study. Applicants should have been resident in Newfoundland for at least one year before applying. The scholarship will be awarded in the Winter semester on the basis of the Fall semester's results. In deciding on candidates of equal academic attainment, a commitment to the goal of an equal status for women in our society will be considered. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**Korea Veterans' Association Scholarship**

Twenty-six thousand, seven hundred and ninety-one (26,791) Canadians served in the Korean Theatre between the beginning of hostilities in 1950 and the signing of the cease-fire in 1953. Another 7,000 served between the cease-fire and the end of 1955. This scholarship was established to honour the men and women of the various Canadian Military Units that served in the United Nations Forces during that period of time. One scholarship of \$500 is awarded annually to a student who meets the following criteria: A full-time first year student at Memorial University of Newfoundland who is the child or grandchild of a Canadian Korea War Veteran and who has scholarship standing. In a year when there is no eligible child or grandchild in first year, the scholarship may be awarded to a child or grandchild beyond first year studies. If there is still no eligible student, the scholarship may be awarded to any first year student at Memorial who has scholarship standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application which is available from the Scholarships, Bursaries and Awards Office, Rm. 4018, University Centre.

**Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University**

The Law Foundation of Newfoundland and Labrador annually offers up to five Legal Research Awards valued at \$500 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues, or topics treated in a legal context, in a senior level course in any discipline at the undergraduate level and in any graduate course for students at the graduate level. The papers submitted by and with endorsement of course professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two and graduate students will receive one or more of the five Awards available annually. In the case of undergraduate students the Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the Awards will be made by the Dean, School of Graduate Studies. In both cases they will act upon the recommendation of the Foundation's selection committee. Please note that papers, if available on computer, must also be submitted in electronic format. An additional \$500 will be provided annually by the Law Foundation to Queen Elizabeth II Library for the purchase of research materials and resources. Total Awards \$3,000.

**The Locke's Electrical Limited 50th Anniversary Scholarship**

This scholarship is the result of an endowment established by Locke's Electrical Limited, Corner Brook, on the occasion of their 50th anniversary. Valued at the interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student in any year of study who is a child or grandchild of a current or retired staff member of Locke's Electrical Limited or one of its affiliates. If the scholarship is not awarded in one year then two may be awarded the following year. An application is required and may be obtained from, and returned to, Locke's Electrical Limited, Corner Brook.

**The Dr. Wayne E. Ludlow Scholarship**

This scholarship is the result of an endowment made by the undergraduate students of Memorial University of Newfoundland in honour of Dr. Wayne E. Ludlow on his retirement, in 1999, from the position of Dean of Student Affairs and Services. Valued at a portion of the income on the endowment, this scholarship is tenable to students beyond second year, based on scholarship standing and demonstrated active participation in student life. Factors to be considered will include but not be limited to involvement in student government, clubs and societies and student media. Financial need may also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a selection committee of members of MUNSU and the Office of Student Affairs and Services.

**The Arthur and Sonia May Scholarship**

The scholarship, which is expected to be between \$4,000 and \$5,000 (based on the annual interest on its endowment), has been established by Arthur and Sonia May on the occasion of the University's 50th Anniversary as a degree-granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before March 31.

**The Hector and Fanny McNeil Memorial Trust Fund Scholarships**

From the interest accruing from this fund, at least two scholarships, at \$500.00 each, will be awarded annually to academically deserving students at Memorial University of Newfoundland beyond first year.

**The Memorial University Golf Tournament Scholarship**

This scholarship fund was established in 1998 as a result of entry fees and donations from corporate and individual participants in the Annual Memorial University Scholarship Golf Tournament. Proceeds from this tournament have developed an endowment that supports scholarships valued at a portion of the annual income on the investment. These scholarships will be awarded to undergraduate students in second or third year who have maintained an A average. The students must be continuing on in a degree program at the University and would not have otherwise received a general scholarship of equal or higher value. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Memorial University of Newfoundland Endowment Scholarships**

These scholarships, established by Memorial University of Newfoundland are awarded annually to students in any year or faculty with approximately 50% of those awarded in a given year allocated for Entrance Students. The number and value of the annual scholarships vary depending on the interest earned. They are awarded on the basis of scholarship standing.

**The Memorial University of Newfoundland Faculty Association Scholarship Fund**

The Memorial University of Newfoundland Faculty Association has established a trust fund to provide scholarships and bursaries to needy students in good academic standing. Assistance from this fund is available to entering students as well as to those further along in their studies and may be re-applied for in subsequent years. The first of the MUNFA Scholarships awarded each year is the Ditte Koster Memorial Scholarship. This award honours the late Ditte Koster who, up to the time of her death, was a professional librarian at the University. As a contribution to the *Opportunity Fund* in 1999, the Faculty Association pledged to pay the University the interest from their trust for the period January 1, 2000 to March 31, 2004. The matching money from this pledge will be contributed to the University's general Scholarship Endowment Fund allowing the University to award additional general scholarships.

**The Elsa S. Morgan Memorial Scholarship**

This scholarship, valued at \$500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his wife, Elsa S. Morgan. Dr. Morgan was born at Port-de-Grave, Conception Bay, Newfoundland and spent all of his professional life in the United States. The scholarship is awarded to a deserving student of scholarship standing who has completed the first year of studies and is proceeding to the second year. Preference will be given to students from the district of Port-de-Grave.

**The Jacob and Floral Morgan Scholarship Fund**

This fund has been established by relatives and friends of the late Jacob Morgan, a teacher for thirty years in the outposts of this province, and of his wife Floral. One or more scholarships, valued at not less than \$2,500.00 each will be awarded annually. Preference

will be given to students from the smaller outports, primarily to those who are entering the University for the first time.

**The John Thomas and Amy Susannah Morgan Memorial Scholarship**

This scholarship, valued at \$500.00, was donated by the late Dr. John M. Morgan, B.Sc., M.D., in memory of his parents, John Thomas and Amy Susannah Morgan. The scholarship is awarded to a deserving student of scholarship standing, who has completed his or her first year of studies and is proceeding to second year. Preference will be given to students from the district of Port-de-Grave/Harbour Grace.

**The M.O. Morgan Alumni Scholarships**

At least three scholarships valued at a minimum of \$1000.00 each, gifts of the Memorial University of Newfoundland Alumni Association, are awarded annually to students beyond first year on the basis of academic excellence.

**The Edward G. Mullins Memorial Scholarship**

This scholarship valued at \$500.00 annually has been established by the Newfoundland and Labrador Branch of the Kidney Foundation of Canada. It honours the memory of the late Edward G. Mullins who had kidney disease and was a dedicated volunteer of the Foundation. Successful applicants must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University). Preference will be given to applicants who have kidney disease, who have completed a minimum of 18 credit hours over two semesters in the previous scholarship year with a minimum average of 75% in the courses which comprise those credit hours and are enrolled full time at the University. However, if in a given year such an applicant(s) is not available, dependents of someone who has/had kidney disease may qualify. Such applicants must be enrolled full time at Memorial University of Newfoundland and have scholarship standing. In deciding on candidates of equal academic attainment from the latter group, need may be the determining factor. In some cases the scholarship may be held for more than one year. A special application is required and must be submitted to the scholarship office. Applications may be obtained from The Kidney Foundation of Canada, Newfoundland & Labrador Branch, 58 Kenmount Rd. St. John's, NL, A1B 1W2, or by telephone to (709) 753-8999, or from the Scholarships and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland or by telephone to (709) 737-3956.

**The MUNSU Undergraduate Scholarship**

This scholarship fund is the result of an endowment which began in 1996 as a part of the *Opportunity Fund* Campaign. The fund will provide a scholarship valued at the annual interest on the endowment, to students who are children, grandchildren, or spouses of current (worked a minimum of 15 of the last 24 months) or retired employees of MUNSU, Memorial University of Newfoundland or of previous employees who had a minimum of ten years of service to MUNSU. In the event that there are no eligible candidates from the above group in a given year the scholarship will be open to nieces or nephews of current, retired or previous employees of MUNSU (as per above). It will be open to entrance students as well as undergraduates. The scholarship is not renewable and individuals will not normally hold the scholarship more than once unless there is no other eligible candidate in a given year. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 737-3956.

**The MUNSU 25th Anniversary Scholarship**

This scholarship is the result of an endowment established by MUNSU (1994) and is valued at the annual accrued interest. It will be awarded to a student who has completed at least one year at Memorial University of Newfoundland. Based on scholarship standing and active participation in student life, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the President, MUNSU.

**Harvey and Doris Murcell Scholarships**

This scholarship has been established from funds donated by Harvey and Doris Murcell. Scholarships of at least \$1,000.00 shall be awarded under the following conditions:

- a. A scholarship to two entrance students who are residents of Harbour Grace who attended High School in Conception Bay North.
- b. Four scholarships to students of any year from high schools in the Conception Bay North area.
- c. Other scholarships as the fund will bear.

The scholarships shall be awarded based on scholarship standing.

**The Newfoundland and Labrador Neurotrauma Initiative Award**

This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students applications are available from the Scholarships, Bursaries and Awards Office, Room UC4018, University Centre, (709) 737-3956. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Inco Innovation Centre, (709) 737-2600. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

**The Elsie and Stephen O'Neill Bursary**

The children of Elsie and Steve O'Neill established this bursary in appreciation of their parents' support and encouragement toward their higher education. The bursary, which will be valued at \$500 annually, will be awarded to a single mother with first preference to a current part-time undergraduate student. She must also have been enrolled part-time for two or more semesters prior to the semester in which the scholarship is awarded, and have maintained a "B" average in those semesters. If no student meeting the above criteria can be identified, the bursary will be awarded to an undergraduate single mother who is currently registered at the university (part-time or full-time), who has maintained a "B" average in the courses completed in the previous scholarship year and has financial need. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Florence O'Neill Scholarships**

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to \$1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Sir Wilfred Grenfell College in Corner Brook.

**Oil and Gas Week Scholarship**

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

**The R.A. Parsons Scholarship Fund**

The purpose of this fund is to provide scholarships to students in good academic standing and in proven financial need. There are no restrictions as to year or field of study.

**The John Lewis Paton Scholarship**

This scholarship is awarded out of the income from the Fund established in 1926 by John Lewis Paton to enable graduates of the Memorial University College to continue university training. Known until 1946 as the Memorial University College Scholarship, it has been re-named to honour the memory of the first President of the College. This scholarship has a value of at least \$300.00. It is awarded annually to a student who has successfully completed three years of a degree course. In making the award, scholastic achievement and promise, qualities of character, economic need and other relevant factors will be taken into account.

**The Rose Patten Single Mother Scholarship**

This scholarship has been established by Ms. Patten to encourage and assist women to develop their full academic potential. Valued at the interest on the endowment, it is open to single mothers who are enrolled in full-time undergraduate studies at Memorial University of Newfoundland. It will be awarded taking into consideration financial need as well as scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Elaine Pitcher Memorial Scholarship**

This scholarship is the result of an endowment to the University from a bequest left by Elaine Pitcher, a donation from Xerox Canada and donations from family, friends and colleagues of Elaine. Valued at a portion of the annual accrued interest on the endowment, it will be awarded on the basis of scholarship standing to an undergraduate student who is a child of a current or retired staff member of Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**The Pro Vice-Chancellor's Prize**

The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Instructors are invited to nominate examples of their undergraduate students' course work for the Pro Vice-Chancellor's Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the committee. Students may also submit their own course work for consideration. Instructors' comments should not appear. In accepting nomination or making application, students agree to publication. Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking. The value of the prize is \$500 cash or a \$1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, Honourable mention may be accorded to entries beyond the available number of prizes.

**The Quebec-Labrador Foundation Scholarships**

The Quebec-Labrador Foundation offers three scholarships at \$500.00 each to students enrolled in studies at Memorial University of Newfoundland. The first award, which is funded from the Larry Shields Fund of the Foundation, is awarded annually on the basis of academic performance and financial need to undergraduate students who are (a) native born to Newfoundland and Labrador; and (b) planning to study, or currently studying, Native American and/or Inuit cultures. In the event that a candidate who meets this specific criteria cannot be found in a particular year, the award may be given to a student in any year from one of the study fields and geographic locations indicated below for the second and third awards.

The second and third awards will be awarded annually on the basis of academic performance and financial need to students in any year providing that they come from one of the following areas: the Northern Peninsula, Fogo, Labrador South, or the Lower North Shore of Quebec (from Natashquan to Blanc Sablon). In awarding these two scholarships, special consideration will be given to those applicants studying in the fields useful to the development of the regions served by the Foundation, e.g. Education, Business, Nursing and Health, Forestry, Fisheries, Engineering and Natural Resources.

**150 RCAF Wing Memorial Scholarship**

This Scholarship, valued at a portion of the annual accrued interest on the endowment, will be tenable only at Memorial University of Newfoundland to a full time undergraduate student in any year or field of study, based on scholarship standing. Consideration may be given to students demonstrating financial need. The Scholarship will be available to: (i) a Wing member (as defined by the Constitution) or \*relative of a Wing member; (ii) an Air Force Veteran or a \*relative of an Air Force Veteran; (iii) an Air Cadet/ex Air Cadet of the 515 North Atlantic Squadron (defined as any person who has served for two years and is/was in good standing at present or at the time of departure from his/her Air Cadet Unit). \*Note: Relative is defined as son/daughter; grandson/daughter; great-grandson/daughter; brother/sister; nephew/niece. The Scholarship may be awarded to the same applicant more than once. If in any given year, there is no eligible candidate, two scholarships may be awarded in the following year at the discretion of the trustees. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. Applications are available at 150 RCAF Wing or from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland. Applicants will be required to submit a personal letter of application, stating goals, personal achievements and financial need. Applications are to be submitted in writing to 150 RCAF Wing - Memorial Scholarship Committee, 565 Roosevelt Avenue, Pleasantville, St. John's, NL, A1A 5B2. You may contact us by telephone to (709) 753-8970.

**Robert Gillespie Reid Memorial Scholarships**

These scholarships are the result of the annual interest from a bequest left to Memorial University of Newfoundland by Mr. Reid. Scholarships valued at two semesters tuition for a full course load, will be awarded annually to students of scholarship standing. These scholarships are open to both Entrance and Undergraduate students.

**Royal Canadian Legion Ladies' Auxiliary Scholarships**

Two scholarships to the value of \$300.00 each, tenable only at Memorial University of Newfoundland, will be awarded to children or grandchildren of veterans. These awards will be made to applicants with the highest scores in any year, providing they have resided in Newfoundland for a period of five years and have completed at least one year at Memorial University of Newfoundland. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

**Royal Canadian Legion (St. John's Branch No. 1) Memorial Wall Scholarships**

These scholarships, three at \$1,000.00 each, have been donated by St. John's Branch No. 1 of the Royal Canadian Legion. They were made possible through funds raised in the construction of a Memorial Wall located at the Branch's club rooms. The scholarships are tenable only at Memorial University of Newfoundland to undergraduate students in any faculty, school or year and will be awarded on the basis of scholarship standing and financial need.

**R.S.V.P. Residence Scholarship**

This scholarship is the result of fundraising by the Residence Scholarship and Volunteer Program (RSVP) Committee during the early 1990's. One or more scholarships will be awarded annually from the interest earned on the initial endowment. The scholarship(s) will be awarded to full-time undergraduate students who are beyond first year, resided in residence the previous year and are returning to residence for another year. To be considered candidates must have scholarship standing and must have been actively involved in various aspects of residence life. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Director, Student Housing and Food Services.

**The St. John's Port Authority Scholarship**

This scholarship, valued at \$2,500.00, was established by the St. John's Port Authority. It will be awarded annually to a student who has lived at least twelve months in Newfoundland before commencing his or her post-secondary studies and who is entering third year or beyond in a marine related field. The scholarship shall be awarded on the basis of academic excellence.

**The Jeanne F. Sanger Memorial Scholarship**

This scholarship, awarded annually in memory of Jeanne F. Sanger, former student and library staff member of Memorial University of Newfoundland, is under the sponsorship of the family and friends of the late Mrs. Sanger. It is awarded on the basis of scholarship standing and need to a second-year student upon completion of first-year studies. The value of the award will be based on income accruing from the fund during the period of tenure of the scholarship.

**The Dr. Maurice Saval Scholarship/Bursary Fund**

This fund has been established through the generosity of Dr. Maurice Saval, one of the co-founders in St. John's of the Newfoundland American Insurance Company. From the interest accruing on the fund, a number of scholarships/bursaries will be awarded annually to financially needy and academically deserving undergraduate students. The awards will be open to full-time students in first and second year.

**Sceptre Investment Counsel Limited Bursary**

Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

**Sodexho Scholarship**

This scholarship, valued at the annual interest, is the result of a donation to the University from Sodexho. It will be awarded on the basis of scholarship standing to a full-time undergraduate student in any year or field of study.

**The Toronto Alumni Scholarship**

This scholarship is being established through the fund raising efforts of the Toronto Alumni Branch of the Memorial University of Newfoundland Alumni Association. The scholarship, valued at a portion of the income on the investment, will be available to an undergraduate student, beyond first year, in any field of study who is a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University) and who demonstrates both academic excellence and leadership qualities. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Student Affairs and Services.

**The James Tucker Memorial Scholarship**

This scholarship is the result of an endowment which began in 1997 as a part of the *Opportunity Fund Campaign*. The fund will provide a scholarship valued at a minimum of \$500 to students who are children, grandchildren, nieces, nephews or spouses of current, retired or deceased employees or former employees with a minimum of five years service in the Department of Technical Services, Memorial University of Newfoundland. Preference in awarding the scholarship will be given to entrance students but undergraduates may also qualify. The scholarship will be awarded on the basis of scholarship standing but in the case of ties between candidates, need may be used as a determining factor. A special application will be required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, telephone (709) 737-3956.

**VendaWash Residence Award**

The VendaWash Residence Award is valued at \$1,000.00 annually. The award will be given to a student currently residing in University residence (Winter Semester) who also lived in residence the previous Fall Semester and who has shown exceptional leadership in raising environmental awareness and in participation in environmental projects and activities. The recipient must have a minimum of a 70% cumulative average, be in clear academic standing and must be nominated for the award. Students may nominate themselves or may be nominated by another student or a member of Housing, Food and Conference Services staff. The Award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of Housing, Food and Conference Services in consultation with the Manager of Residence Life.

**The James J. Walsh Memorial Scholarship**

These two scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at \$500.00 each. One scholarship will be tenable in the Faculty of Business Administration. (Refer to **Faculty of Business Administration**). The second scholarship will be open to any student enrolled full-time at Memorial University of Newfoundland who has scholarship standing and demonstrates financial need.

**The Women's Association of Memorial University of Newfoundland Faculty/Staff Scholarship**

The Women's Association of Memorial University of Newfoundland (WAMUN) has established a \$1,200.00 annual scholarship available to students in any faculty or year at Memorial University of Newfoundland, providing they are either:

- a. children of full-time faculty or staff; or
- b. children of deceased or retired faculty or staff, who at the time of death or retirement, were employed full-time.

This scholarship is based on scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Women's Association of Memorial University of Newfoundland Mature Student Undergraduate Scholarship**

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of three years or more. They must have been residents of Newfoundland and Labrador for at least a year prior to enrolling. This scholarship is awarded in Winter semester based on Fall semester results in which a minimum average of 75% will be required. Financial need will be considered. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Women's Association of Memorial University of Newfoundland Single Parent Undergraduate Scholarship**

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to single parents enrolled in any faculty, school or year of study at Memorial University of Newfoundland. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of financial need and scholarship standing. A special application is required and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **The Women's Association of Memorial University of Newfoundland Undergraduate Scholarship**

This scholarship, valued at \$1,200.00, is awarded annually from funds donated by the Women's Association of Memorial University of Newfoundland. It is restricted to undergraduate students who are beyond second year of studies and who will continue at Memorial University of Newfoundland in an academic program. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing.

#### **The Zonta Club Scholarship**

This scholarship has been established by members of the Zonta Club to encourage and assist women to develop their full academic potential. Valued at a minimum of \$1,000.00, it is open to women enrolled in full-time undergraduate studies at Memorial University of Newfoundland who are entering or returning, having been away from full-time study for a period of five years or more. It will be awarded in Winter semester based on Fall semester's results whereby a minimum average of 75% will be required. In deciding on candidates of equal academic attainment, financial need may be considered.

## **4.2 Faculty of Arts**

The following are available to Faculty of Arts students based on a recommendation from the Dean, Faculty of Arts or the appropriate Director or Department Head.

#### **The Atreya-Haritha Scholarship in Mathematics**

This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at \$1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

#### **Avalon Classics Award**

The Avalon Classics Award was established in order to encourage students to explore the revolutionary civilizations of ancient Greece and Rome, from their rich material culture to the brilliant thinkers and captivating languages. Valued at \$500, it will be awarded annually to a Classics student (Major or Minor) who receives the highest mark in the course *Science and Technology in the Ancient World*. The Classics course *Greek and Roman Medicine* will be substituted in any year where *Science and Technology* is not offered; in any year where neither is offered the award will be given to the Classics student who received the highest mark in a course deemed by the Head, Department of Classics, to cover similar material. The Award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Classics.

#### **The Edna Baird-Stephenson Scholarship in Women's Studies**

This scholarship, valued at \$500.00, has been established by the Memorial University of Newfoundland Alumni Association, through its Annual Fund. It honours distinguished alumna Edna Baird-Stephenson, B.A., B.H.S., one of the first female graduates of Memorial University College and long-time employee of Memorial University of Newfoundland, now retired. The scholarship is open to full or part-time students enrolled in the Women's Studies Program at Memorial University of Newfoundland who have successfully completed a minimum of 21 credit hours in two of the three semesters in the previous scholarship year and achieved a minimum 75% average at the end of those two semesters. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on a recommendation from the Head, Department of Women's Studies.

#### **The E.A. Bishop (1889-1953) Memorial Scholarship**

This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. It will be awarded on the basis of a special application which may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **Bishop Spencer College Alumni Association Bursary**

This bursary was established by the Bishop Spencer College Alumni Association. The bursary will be valued at a portion of the income from the endowment and will be awarded annually to a female student who is enrolled in the fourth year of any undergraduate degree program in the Faculty of Arts. The recipient must meet the minimum academic and financial requirements for a bursary as defined by the University. The Bursary will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Arts.

#### **The Dr. Jim Black Award in Linguistics**

This prize, valued at \$250, is made possible through an annual donation from Jim Black, a retired faculty member in the Department of Linguistics. It will be awarded to a first or second year student who receives the highest combined marks in both Linguistics 1103 or

2103 and Linguistics 1104 or 2104 within the same academic year. The recipient must have declared a major in Linguistics by the end of the academic year in which the courses were completed. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Linguistics.

#### **W.J. Blundon Scholarship**

The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

#### **The Marion and Rod Browne Family Memorial Scholarship**

This scholarship established by Mr. Rod Browne and his wife Marion in memory of deceased members of the Browne family is tenable at Memorial University of Newfoundland and is valued at not less than \$1500. It is based on academics and awarded to a student majoring in French. Selection will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French & Spanish.

#### **The Maurice J. Burke Memorial Scholarship**

This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Folklore Department on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

#### **The Canadian Institute of Mining, Metallurgy and Petroleum (Newfoundland Branch) Golden Jubilee Scholarship**

This scholarship valued at a portion of the income on the investment, will be awarded to a student entering the final year of undergraduate studies at Memorial University of Newfoundland. Based on scholarship standing, the scholarship will be available to a student majoring in a field of study that is covered by the fields of interest of the Canadian Institute of Mining, Metallurgy and Petroleum specifically; Earth Sciences, Geophysics, Geography, Economics, Environmental Science, Engineering, Business and Commerce. Financial need may be taken into consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Canadian Tire Scholarships**

These scholarships are the result of an endowment to the University by Canadian Tire Corporation Limited as part of their commitment to community service and to Memorial University of Newfoundland via the *Opportunity Fund* Campaign. The endowment will fund three scholarships in the Faculty of Arts, valued at the annual interest on the initial endowment. The scholarships will be awarded to undergraduate students entering third or fourth year in the Faculty of Arts - one each to students majoring in Economics, Linguistics, and Sociology. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of each of the three academic departments.

#### **Reverend Professor A.C. Cheyne Scholarship in Religious Studies**

This fund has been established by the estate of the late Reverend Professor A.C. Cheyne. It is based on scholarship standing and is awarded to a full-time undergraduate student in any year of study who is majoring in Religious Studies. The scholarship will be valued at a portion of the income on the investment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Religious Studies.

#### **The Captain James Cook Memorial Scholarship**

A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province. One or more scholarships, valued at not less than \$600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

#### **The Clayton and Alice Cook Scholarship**

This scholarship has been established by Mr. Clayton D. Cook, retired Newfoundland/CN Railway Trainman. The scholarship will be valued at a portion of the income on the endowment and awarded annually. To be eligible, candidates must be enrolled full-time in an undergraduate program at Memorial University of Newfoundland, be residents of Newfoundland and Labrador (as defined by the University) and have scholarship standing. First preference will be given to candidates who are sons, daughters, grandchildren, great-grandchildren or wards of the Newfoundland/CN Railway Trainmen. When an eligible student meeting these criteria cannot be identified, second preference will be given to students enrolled in the Newfoundland Studies program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. A special application is required to identify students in the first category and may be obtained from the Scholarships and Awards Office, Room 4018, University Centre or by calling (709) 737-3956.

#### **Michael Cook Scholarship**

The Michael Cook Scholarship will be awarded annually to a student who has completed English 3350 (Theatre) and English 3351 (The Physical Stage) and who shows definite promise and purpose in pursuing the study of theatre and drama at Memorial University of Newfoundland. The value of the scholarship is \$1,000.00. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of English Language and Literature.

#### **The John and Jane Crosbie Scholarship**

This scholarship is the result of an endowment to the University started by the Honourable John C. Crosbie, P.C., O.C., Q.C., in 1996 while he was Chancellor and Campaign Chair and further funded by volunteers of *The Opportunity Fund* in honour of Mr. Crosbie's commitment to Memorial University of Newfoundland. Valued at a portion of the annual income on the initial endowment, the scholarship(s) (each valued at a minimum of \$1,000.00) will be awarded to one or more undergraduate student(s) beyond first year in the Faculty of Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

#### **The John and Anna Daley Scholarship**

This scholarship, valued at a minimum of \$1,000.00 annually, has been established by the Daley family in honour of their parents John and Anna. It will be awarded on the basis of scholarship standing to an undergraduate student beyond first year in the Faculty of Arts. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

#### **The Dr. Madeleine Darte Scholarships in English**

These scholarships, up to four each year and having a value of not less than \$250.00 each, have been established by Mrs. J.M. Darte

and Mrs. France Darte McCabe in memory of Dr. Madeleine Darte, Lecturer and Assistant Professor of English at this University from 1971-75. In awarding these scholarships, preference will be given to students in the Honours program in English, but students in good standing in the General Degree program in English will also be considered. In addition to the student's academic record, financial need may also be taken into account. Applications for these scholarships should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

#### **The Sally Davis Scholarship**

The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at \$1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Women's Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Women's Studies) who is in financial need. An individual may receive the award twice but no more. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Women's Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Women's Studies Program.

#### **The Dominion of Canada General Insurance Company Scholarship**

This scholarship is the result of a donation to Memorial University of Newfoundland by the Dominion Group Foundation. The scholarship, valued at the annual interest, will be awarded to a student in first year of the Faculty of Arts. It will be awarded on the basis of scholarship standing and financial need.

#### **The Ernest Joseph Ennis Scholarship**

This scholarship was established by Ernest Joseph Ennis of Merasheen, Placentia Bay, retired School Supervisor, in memory of Dr. Hatcher, Ms. Monnie Mansfield, and Professors Fraser, Gillingham, and Andrews of the Memorial University College. This scholarship, valued at the accrued interest, shall be awarded to an entrance student of scholarship standing with preference to a student planning to study Economics or Political Science.

#### **Faculty of Arts CFUW St. John's Scholarship**

This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's. One scholarship valued at \$2,000 may be awarded annually to a woman enrolled full-time in her 3rd or 4th year of undergraduate studies in the Faculty of Arts. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships Bursaries and Awards on the recommendation of the Dean, Faculty of Arts.

#### **The Faculty of Arts Dean's List Scholarship**

This scholarship, established by donors to the *Opportunity Fund* who have directed that their donations be used for scholarships within the Faculty of Arts, is valued at approximately \$1,000.00 annually. It is awarded to a student who achieves high ranking on the Dean's List of the Faculty of Arts and who meets the requirements for scholarship standing, but who is not in receipt of other significant scholarship funding. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

#### **The Leida Finlayson Memorial Scholarship**

This fund has been established by relatives and friends of Leida Finlayson, former General Manager of the Newfoundland Historic Trust. The scholarship, valued at a portion of the accrued interest, is to be awarded annually to a Memorial University of Newfoundland undergraduate student, beyond second year, studying political science and/or history. Based on scholarship standing and financial need the scholarship will be awarded to a resident of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering the University). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

#### **The E.B. Foran Memorial Scholarship**

This scholarship, awarded in memory of the late Mr. E.B. Foran, longtime associate of municipal government in St. John's, is valued at \$500.00 and is sponsored by the Newfoundland and Labrador Federation of Municipalities. It is open to students beyond first year at Memorial University of Newfoundland who demonstrate scholarship standing and who are majoring in Political Science with an emphasis on municipal government. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Political Science Department.

#### **The Senator Eugene Forsey Scholarship**

Established by the Government of Newfoundland and Labrador, this scholarship honours a native Newfoundlander, Senator Eugene Forsey, as one of Canada's foremost authorities on the Canadian Constitution, and recognizes his great commitment to Canada and this province. The scholarship, tenable at Memorial University of Newfoundland, and valued at \$2,000.00, shall be awarded to a student in third year, or beyond, who has shown excellence in Canadian Policy Analysis or Canadian Governmental Studies.

#### **The G. Alain Frecker and Helena M. Frecker Memorial Scholarship**

This scholarship has been established by the family of G. Alain Frecker and Helena M. Frecker to honour their parents' life-long commitment to Memorial University of Newfoundland and to the pursuit of excellence in education. Helena M. Frecker was the first graduate of Memorial College and a long-time faculty member in the Department of English at Memorial University of Newfoundland. Dr. G. Alain Frecker was the first faculty member in the department of Engineering at Memorial College. He maintained a close relationship with Memorial University of Newfoundland as a senior public servant, as a member of the Provincial Cabinet, and as University Chancellor from 1971 to 1979. This scholarship, tenable at Memorial University of Newfoundland and valued at a portion of the accrued interest on the endowment, will be awarded to an undergraduate student beyond second year in the Faculty of Arts and majoring in the Humanities or any Social Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

#### **Daniel Freeman Memorial Scholarship**

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

**The Allan and Clara Gillingham Scholarship in Russian Studies**

On the occasion of their fiftieth wedding anniversary, this scholarship has been established by Mr. and Mrs. Gillingham, who both hold fond memories of studying the Russian language themselves. Valued at \$500.00, this scholarship will be awarded annually to a student who is pursuing a program of Russian Studies at Memorial University of Newfoundland. Candidates will be selected on the basis of academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Head, Department of German and Russian.

**James A. Good Scholarship in Philosophy**

This scholarship has been established by friends and colleagues in Memory of James A. Good. Mr. Good was a successful investment banker and Partner at Capital Canada Limited in Toronto. He earned his B.A. in Philosophy and Political Science from Memorial University of Newfoundland, an M.A. in Philosophy from Dalhousie University, and undertook doctoral studies in Philosophy at the University of Toronto where he was also a lecturer. He was Chief of Staff to the Honourable John C. Crosbie, a position he maintained across the portfolios of Justice, Transport, Finance, International Trade and Fisheries. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student majoring in Philosophy on the basis of scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Philosophy.

**The Graham Family Scholarship**

This scholarship, established by Mrs. Kathleen Birchall and Dr. David Graham, is valued at a portion of the income on the investment. It will be tenable at Memorial University of Newfoundland and will be awarded to an outstanding student majoring in French with preference given to students enrolled in the Honours program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French and Spanish.

**The R. Bertram Green Class Scholarship**

This scholarship is the result of a bequest to the University by Rev. Dr. Robert Bertram Green. Valued at the annual interest on the initial endowment, it will be awarded to an undergraduate student in second or third year in the Faculty of Arts, majoring in either Classical or Modern Languages, Economics, English, History, Philosophy, or Political Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Arts.

**Greystone Managed Investments Scholarship**

This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded, to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.

**The Mary A. Griffiths Memorial Bursary Fund for Folklore Field Research (Undergraduate)**

This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). One or more bursaries valued at a minimum of \$250.00 each will be awarded annually to undergraduate folklore students who wish to pursue field research. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Folklore. Selection will be made on the basis of a submitted research proposal as well as demonstrated financial need. Application forms and guidelines are available from and should be submitted to the Folklore Department. The deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.

**The Alan D. Hall Award**

This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement in and commitment to the music community. For the Faculty of Arts the award will go to a student beyond first year enrolled in the program leading to a Diploma in Performance and Communications Media or to a student enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music or the Dean, Faculty of Arts.

**The Gunther Hartmann Scholarship**

This scholarship has been established by family, friends and colleagues in memory of Dr. Gunther Hartmann who was a member of the Department of Political Science from 1968-2000. Dr. Hartmann fostered student interest in international affairs not only through his teaching, but through the United Nations Association and the Model United Nations program. In awarding the scholarship preference will be given to a Political Science student, third year or beyond, who has excelled in courses in International Relations, International Organization, or International Law and has been active in Model United Nations or similar organizations. Based on scholarship standing the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science.

**The Michael Harrington Research Prize in Newfoundland History**

This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is valued at a minimum of \$500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or towards an honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

**Heaslip Scholarship**

This scholarship is made possible by a generous donation from The William and Nona Heaslip Foundation. Two scholarships, valued at \$15,000.00 each, will be available to students in their second year of undergraduate studies at Memorial University of Newfoundland. To be eligible students must be registered for full-time studies, must have scholarship standing, must be in financial need, and must have demonstrated outstanding involvement in university and/or community affairs. Preference will be given to students in the Faculty of Arts. This scholarship is renewable for an additional two years providing full-time registration, scholarship standing, financial need and continued outstanding involvement in university and/or community affairs are demonstrated. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships Bursaries and Awards based on a recommendation from the Dean, Faculty of Arts.

**The Aidan Hennebury Memorial Scholarship in Classics**

This scholarship is the result of an endowment to Memorial University of Newfoundland via the *Opportunity Fund Campaign* by the law firm of Martin, Whalen, Hennebury & Stamp in memory of former partner Mr. Aidan Hennebury. The donation will fund a scholarship valued at the annual interest on the endowment. The scholarship will be awarded to an undergraduate student beyond second year who is majoring in Classics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Classics.

**The Elizabeth C. Hesson Memorial Scholarship in German**

This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of \$1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

**The Hollinger English Language and Literature Scholarship**

This scholarship, donated by Hollinger Inc., will be awarded to a Memorial University of Newfoundland student who is beyond second year and is majoring in English Language and Literature. It will be valued at the annual interest and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of Scholarship Standing and upon recommendation of the Head, Department of English.

**The A.C. Hunter Travel Award in French**

This award has a value of not less than \$600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

**The Muriel H. Hunter Award in Spanish**

This award, valued at \$600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the 694 Scholarships, Bursaries and Awards 2010-2011 recommendation of the Department of French and Spanish.

**Dr. Byron Hynes Memorial Scholarship**

Friends of Dr. Byron Hynes have established this scholarship in his memory. It is valued at \$1,000.00 and will be awarded on an annually rotating basis to a student majoring in either Economics or Geology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the head of the appropriate department.

**The Imperial Tobacco Canada Scholarship in Archaeology**

This scholarship, established by Imperial Tobacco Canada in support of the *Opportunity Fund Campaign*, has a minimum value of \$2,000.00 annually. It will be awarded to a senior student in archaeology who is registered in (or is planning to enter) the honours program, specializing in historic archaeology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Archaeology.

**The H.H. Jackson Travel Scholarship in German**

This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of \$500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department Head, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

**The Jeroboam Poetry Prize in English**

The proceeds from a sum of money donated to the University in 2001 by the editors of Jeroboam Books will be awarded in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full-time or part-time students in any year of study at the University upon submission of original, unpublished work. In keeping with the tradition of Jeroboam, the work should reflect some aspect of traditional or contemporary Newfoundland. Entry forms and further information may be obtained by contacting the Department of English. The selection of winners will be the responsibility of a special committee composed of the Department of English faculty members. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

**The Barend Kieffe Memorial Award**

This award was established by friends of Dr. Barend Kieffe, in his memory. It is a book prize to be given annually to a student in Philosophy. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Philosophy.

**The Dr. B.K. Kim Scholarship in Statistics**

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least \$500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

**The Cornelia Learning/Annie Butler Moores Scholarship**

In memory of her maternal and paternal grandmothers, Mrs. Dorothy Young of Pasadena, California, has established the Cornelia Learning and Annie Butler Moores Scholarship in the Faculty of Arts. This perpetual scholarship, valued at approximately \$500.00, is

open to Arts students of scholarship standing with demonstrated financial need.

#### **The John and Lucy Lee and Family Memorial Bursary**

This bursar has been established by family members to honour the memory of John and Lucy Lee of Petty Harbour and their deceased children. It is valued at a portion of the interest on the endowment and will be awarded to a full-time student in Religious Studies. The recipient of this bursary will have demonstrated scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Religious Studies.

#### **The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics**

This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least \$500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

#### **The Susan McCorquodale Memorial Scholarship**

Established by her friends and colleagues, this scholarship honours the memory of Susan McCorquodale, former member of the Political Science department at Memorial University of Newfoundland. The scholarship will be valued at the annual interest on the endowment and shall be awarded to a senior student majoring in Political Science who is concentrating in one of the areas to which Susan was committed - Newfoundland Politics, Public Policy or Public Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Political Science.

#### **The Reverend G. Lloyd Morgan Memorial Scholarship**

This scholarship, awarded annually, has been donated by Mr. Baxter Morgan and his wife Lorraine to the Religious Studies Department of the University in memory of Mr. Morgan's brother, The Reverend G. Lloyd Morgan, B.A., B.D., who served with the United Church Ministry in Newfoundland for over twenty-five years.

It has a value of \$500.00 and is awarded for academic excellence to a student who has completed two years of study in the Religious Studies Department of the University. Preference will be given to a student who has a major interest in the comparative study of religion. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Religious Studies Department.

#### **The John M. and Elsa S. Morgan Scholarships**

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

#### **The MUN Classics Society Prize in Latin**

This prize has been established by the MUN Classics Society of 2001-2002 to reward students achieving academic excellence. This prize will be valued at approximately \$150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Classics, to the student who is working toward an undergraduate degree in Classics and receives the top mark in the Classics 1120 and 1121 (Introduction to Latin) courses on the St. John's campus.

#### **The Stephan Muzychka Bursary in Spanish**

This bursary, valued at a portion of the annual interest, has been established by an endowment from the family of Professor Muzychka who taught Spanish Language and Literature at Memorial University of Newfoundland from 1960 until his death in 1985. Mr. Muzychka was born in 1926 in Pukiw, Ukraine. He attended the Ukrainian Teacher's Training College and later the University of Madrid where he received his MA in Philosophy in 1959. He joined Memorial University of Newfoundland's Department of Modern Languages (at the old Parade Street Campus) and later became Head of the Department of Spanish. First preference, for this bursary, will be to a student majoring or minoring in Spanish who is beyond second year. If no candidate is available from the first preference the bursary will be awarded to a student beyond second year studying modern languages. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Head, Department of French and Spanish.

#### **The Newfoundland & Labrador Hydro Scholarships**

These scholarships are the result of an endowment to the University provided by Newfoundland and Labrador Hydro. Valued at the annual interest on the endowment, up to ten of these scholarships will be awarded, initially in amounts of \$1,000.00 each and increasing as endowment income permits, to undergraduate students in the Faculty of Arts at the second year and beyond. Half of the available scholarships will be for students of scholarship standing majoring or minoring in one of the interdisciplinary programs in the Faculty, and half will be for students of scholarship standing who are named to the Dean's List and who achieve exceptionally high overall averages, normally 85% or better. Those directed at students enrolled in interdisciplinary programs will be awarded on the recommendation of interdisciplinary Program Co-ordinators; those for Dean's List students will be awarded on the recommendation of the Dean of Arts. In both cases financial need may be taken into consideration. Preference will be given to students meeting these criteria who are not already in receipt of significant scholarship funding from other sources.

#### **The Newfoundland St. Andrews Society Scholarship**

This scholarship is the result of a gift from the Newfoundland St. Andrews Society to Memorial University of Newfoundland. Valued at a portion of the interest on an endowment, the scholarship will be awarded to a student from the Faculty of Arts whose studies and accomplishments most closely support the aims of the Newfoundland St. Andrew's Society; To foster and encourage the love of Scotland, its history, literature, music and national games in a Newfoundland context. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

**The Honourable Fabian A. O'Dea Q.C., LL.D Scholarship**

This scholarship has been established by the O'Dea family in memory of their father, the Honourable Fabian O'Dea; Memorial University of Newfoundland Alumnus, Rhodes Scholar, Lieutenant Governor of Newfoundland, and recipient of honorary degrees from both Memorial University of Newfoundland and The Law Society of Newfoundland. It is valued at \$1,000 per year. To commemorate Dr. O'Dea's work in Newfoundland cartography, the scholarship is to be awarded to a student majoring in Geography who achieves scholarship standing. Preference is to be given to a student who is physically or learning disabled but if there is no such candidate in a given year it will be awarded to any eligible undergraduate Geography student. The scholarship is to be awarded by The Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Geography.

**The Dr. Paul O'Neill Scholarship for Excellence in Newfoundland and Labrador Studies**

The Historic Sites Association of Newfoundland and Labrador established this scholarship in honour of Dr. Paul O'Neill, LL.D., C.M., in recognition of his contributions to the study and promotion of Newfoundland and Labrador culture and history. The scholarship is valued at \$1000 and will be awarded annually to an undergraduate student at Memorial University of Newfoundland, who is enrolled in a Bachelor of Arts degree program. There is no restriction by major or minor, but applicants must have shown excellence and outstanding enthusiasm and interest in some area of Newfoundland Studies as part of their degree program. Preference will be given to a student who has not received other major scholarships in the same academic year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Arts.

**The Senator Gerald R. Ottenheimer Language Scholarship**

This scholarship, valued at the annual interest on the initial endowment, has been established via *The Opportunity Fund* in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs or the English Language and Literature programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level it will be awarded on the basis of scholarship standing to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

**The Stuart O. Pierson Prize**

The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the History department and the Co-ordinator of the Masters of Philosophy program in Humanities. Eligible students will be enrolled full time, in either the Masters of Philosophy Humanities program, or in the M.A. or B.A.(Hons.) programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

**Mary Pittman-Robbins Scholarship in Archaeology**

This scholarship, valued at a portion of the income on the investment, has been established by students and colleagues of Mary Pittman-Robbins. The scholarship is to be awarded to a senior student in Archaeology who has completed the honours program specializing in Prehistoric Archaeology or Physical Anthropology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Department Head in consultation with the Archaeology faculty.

**The Dr. Clarence W. Powell Memorial Scholarship**

This scholarship was established in memory of honorary graduate of Memorial University of Newfoundland, Dr. Clarence W. Powell. It is valued at a minimum of \$1,000.00 annually and will be awarded to a student entering the third year of the Political Science Program who has scholarship standing, has shown leadership in university and/or community activities and who has not received another scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Political Science.

**The Psychology Society Award**

The Psychology Society Award has been established by the students of the Psychology Society to encourage and support their fellow students. This award will be given to an undergraduate student majoring in Psychology or Behavioural Neuroscience who is beyond their second year of study and meets the minimum academic requirements for an award. It will be based on academic achievement in Psychology or Behavioral Neuroscience courses as well as involvement in the internal and external Psychology or Behavioral Neuroscience community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Psychology.

**The Bobbie Robertson Scholarship in History**

This scholarship was established by friends, family and colleagues of the late Bobbie Robertson. It will be valued at the annual accrued interest on the initial endowment and will be awarded on the basis of scholarship standing to a history major with preference given to students in Newfoundland and Labrador history. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History.

**The Dr. Grenville R. Robinson Award in French**

This award was established in memory of the late Dr. Grenville Robinson, a former professor of the Department of French at Memorial University of Newfoundland. Valued at a portion of the income on the investment, it will be awarded each Spring to a student in the Department of French on the basis of his/her performance in any three or more of the following French courses: 3100, 3101, 3500, 3501, 3502, 3503, 3504 and 3506 and his/her contribution to the general activities of the Department. The successful recipient must be a full-time student and have completed between 60-90 credit hours towards a Bachelor of Arts at Memorial University of Newfoundland with a major or minor in French. The recipient will also receive a book prize and a certificate. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of French and Spanish.

**The Rotary Club (St. John's Northwest) Scholarship**

This scholarship has been established by the Rotary Club of St. John's Northwest. It is valued at \$1,000.00 annually and will be awarded to a full-time student beyond first year, pursuing a Bachelor of Arts or a Bachelor of Science with a major in one of the Social Sciences, who has demonstrated a commitment to community service. The recipient of this scholarship will be a long-term resident of Newfoundland and Labrador who completed high school in this province and will have demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the joint recommendation of the Dean of Arts and the Dean of Science. This scholarship will be presented at one of the regular meetings of the Rotary Club of St. John's Northwest and the recipient will be asked to speak about their goals and community service work.

**Dr. Edward ("Ted") Russell Scholarships in English**

In memory of Dr. Edward ("Ted") Russell, author and teacher, who was a Lecturer and Assistant Professor of English at this University from 1965-73, a fund has been established to provide one or more scholarships for students majoring in English. These scholarships will

be awarded to promising students who have completed their first year of University studies and are entering the second year of a degree program with English as their major subject. In addition to the student's academic records, financial need may also be taken into account. Applications should be sent to the Head of the Department of English. Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of English.

#### **The Russian Ambassador's Award for Excellence in Russian Language and Literature**

This award was established in 1999 to commemorate the 200th Anniversary of the birth of the Russian poet Alexander Pushkin. It is a book prize to be given annually for outstanding achievements in studying the Russian Language and Literature. It will be awarded to an honours student in the Russian Language and Literature program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Co-ordinator, Russian Programs.

#### **The Scotiabank Bursaries for International Study**

These bursaries, funded by a generous donation from Scotiabank to *The Opportunity Fund*, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at \$1,000.00 each and five at the graduate level valued at \$2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

#### **Ron and Gwen Seary Memorial Scholarship**

Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English Language and Literature and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

#### **The Roberta H. Sellars Scholarship**

This scholarship is the result of an endowment by the Rev. Walter C. Sellars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year in either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

#### **Tracey Sloane Memorial Scholarship in Political Science**

This scholarship, valued at \$500.00 annually is the result of contributions by Tracey Sloane's coworkers at Aliant. The scholarship is established in memory of Tracey, who was pursuing a Master's degree in Political Science, as a tribute to her love of learning. The scholarship recipient will be a full-time undergraduate student majoring in Political Science. The student must demonstrate scholarship standing and may be enrolled in any academic year. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation of the Head, Department of Political Science.

#### **Spurrell-Bartlett Bursary**

This bursary was endowed by Morris and Janet Bartlett to honour their parents, Willis and Marjorie Spurrell and Francis and Jane Bartlett, who were devoted to the promotion of education in Newfoundland. It is valued at the annual accrued interest and is available to students in the Faculty of Arts, preferably from rural Newfoundland and Labrador. The bursary shall be awarded based on scholarship standing and need.

#### **The St. Aiden's Presbyterian Church Memorial Scholarship**

This scholarship, valued at approximately \$1,000.00 will be awarded annually to a student who has completed at least two years of study in the Department of Religious Studies at Memorial University of Newfoundland. It will be awarded annually on the basis of scholarship standing and need. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

#### **Statistical Society of Canada Scholarship**

This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum academic requirement for a scholarship. The scholarship will be valued at \$750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

#### **Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics**

The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

#### **The Robert Westcott Memorial Scholarship**

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

#### **The Dr. Louise Whiteway Prize in Newfoundland History**

A bequest to the University by the late Dr. Louise Whiteway has funded a \$100.00 prize in Newfoundland history. The prize will be awarded annually to a Memorial University of Newfoundland student who is considered to be the most promising student in Newfoundland history. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of History.

#### **The Jacques Whitford Newfoundland Geoscience Scholarship**

This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and

Newfoundland Geosciences Limited as a contribution to the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

**The Dr. John Whittaker Memorial Prize in Greek**

This prize is in memory of Dr. John Whittaker, former professor of Classics at the University. The prize will be valued at approximately \$150.00 annually. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Head, Department of Classics, to the student who is working toward an undergraduate degree in classics and receives the top mark in the Classics 1130 and 1131 (Introduction to Greek) courses on the St. John's campus.

**The Honourable Gordon A. Winter, O.C. Scholarship**

This scholarship, donated by The Standard Manufacturing Company in recognition of the contribution of the Honourable Gordon A. Winter to the public life of Newfoundland and Labrador, is awarded annually for academic excellence to a student entering fourth-year political science. The award, valued up to \$500.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Political Science. The value of the award will be determined by the interest accruing on the fund.

**xwawe Jamie Morry Memorial Scholarship**

This scholarship has been established by xwawe in memory of Jamie Morry, a valued employee. One or more scholarships (for a total value of \$2,000.00) will be awarded annually to students of scholarship standing and financial need enrolled in the Faculty of Arts who are doing a program in either Newfoundland Studies or Folklore. If no student meeting the above criteria is eligible, the scholarship will be open to any undergraduate student in the Faculty of Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation by the Dean, Faculty of Arts.

### 4.3 Faculty of Business Administration

The following are available to students in the Faculty of Business Administration based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see **Scholarships, Bursaries and Awards, General Information**.

**The AMC Brokerage Limited Scholarship**

This non-renewable scholarship, valued at \$1,000, was established by AMC Brokerage Ltd. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, with either a finance or marketing specialty, and have scholarship standing. This scholarship is non-renewable and will be awarded to a different student every year for each of the five available years. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Baine Johnston Corporation Scholarship for International Study**

This scholarship was established from contributions to the University's *Opportunity Fund Campaign* by Baine Johnston Corporation. Valued at the annual interest on the endowment, the scholarship will be awarded to an undergraduate Business student who is on an academic international exchange or on a Harlow term. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration.

**The Lawrence S. Bloomberg Scholarship in Business Administration**

This scholarship was established by a donation from First Marathon Securities to Memorial University of Newfoundland's *Opportunity Fund Campaign*. The scholarship, valued at the annual accrued interest, will be awarded to an undergraduate student in the Faculty of Business Administration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

**The Ernest C. Boone Award**

The Ernest C. Boone Award was established by a donation from Mrs. Audrey Boone through the Tanglers Group of the St. John's Rotary Club to commemorate the late Ernest Boone, prominent Newfoundland entrepreneur and founder of E.C. Boone Limited. The award valued at \$500.00 will be granted to a student with a minimum of clear standing, as defined by the University, who is completing the Advertising Management course and who best demonstrates motivation, enthusiasm and perseverance. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration in consultation with the course instructor.

**The Eric Briffett Small Business Scholarship**

This scholarship valued at \$1,000.00, was established in honour of Eric Briffett by his four children. Mr. Briffett was born in Rosedale, Newfoundland in 1916. He, along with his brothers, formed and operated Louis Briffett and Sons Ltd. a successful logging, sawmilling, lumber, and building supply business in Central and Eastern Newfoundland, with retail outlets in Glovertown and Pound Cove, Bonavista Bay. He retired in 1988 at the age of 71. The scholarship will be awarded to a second or third year undergraduate Business student who was born in Newfoundland and Labrador or whose parents were born in Newfoundland and Labrador. Preference will be given to students studying Small Business and/or Entrepreneurship. The scholarship shall be awarded on the basis of financial need, personal values and scholarship standing. The qualifying student must demonstrate strong personal values including a strong work ethic and high personal integrity. The student must have maintained a minimum of a B average in the prior semester. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

**The Bristol Group Scholarship for International Study**

This scholarship, valued at a portion of the annual interest, is available to undergraduate students, in the Faculty of Business Administration. It was established with contributions from The Bristol Group. It is awarded to recognize students of scholarship standing who are participating either on an exchange term or Harlow term and who have a demonstrated interest in international studies. Students who are considered for this scholarship are expected to be completing courses which fulfill a concentration in marketing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

**The Browning Harvey Ltd. Scholarship**

This scholarship, valued at \$1,000.00, has been donated by Pepsi-Cola Ltd. It is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community, will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Greg Campbell Memorial Business Award**

This award is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this award must have a demonstrated record of active community involvement, volunteer work, and/or service in the Faculty/University. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

**The Greg Campbell Memorial Business Scholarship**

This scholarship is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one scholarship to a full-time undergraduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work, and/or service in the faculty/University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

**Canadian Association of Petroleum Producers (CAPP) Award for Exemplary Work Terms in the Upstream Petroleum Industry**

This award was established by the Canadian Association of Petroleum Producers. Two awards, valued at \$500.00 each, will be given annually to students who have completed work terms with employers related to the oil and gas industry. This includes employers involved in the upstream petroleum industry, oilfield supply/service companies, petroleum industry associations and applicable government departments or agencies involved in regulating the petroleum industry. One award will be given to a student who has completed Work Term 2, and the second award to a student who has completed Work Term 3 within the Bachelor of Commerce (Co-operative) Degree Program. In order to be considered for an award, an applicant must submit a Nomination Form completed by the applicant's employer for the work term for which the award is being sought. Recommendations will be based upon the nomination, the applicant's work report which has applicability to the oil and gas industry, and the applicant's work performance. All submissions will be reviewed by members of Business Co-operative Education and recommendations will be made to the Dean, Faculty of Business Administration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

**Judy Caul Memorial Bursary**

The Judy Caul Memorial Bursary has been established by Production Services Network in memory of Judy Caul who worked with their company for over 10 years and was a valued employee and dedicated Human Resources Professional. Valued at \$1,000 annually, this Bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce Program, Faculty of Business Administration, who has chosen Human Resources as their discipline. The bursary will be awarded to a student who meets the minimum academic requirements of a bursary and displays leadership ability and who demonstrates financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Certified General Accountants Association of Newfoundland Scholarship**

The C.G.A. Association of Newfoundland offers a \$1,000.00 scholarship to a student majoring in Accounting who is entering the final year of studies. In addition to the cash award, \$1,500.00 will be applied to the student's tuition costs through enrolment in the C.G.A. program within three years of their undergraduate University graduation date.

**The Certified Management Accountants of Newfoundland & Labrador Scholarship**

The Society of Management Accountants of Newfoundland and Labrador offers annual scholarships with a value of \$1000 each to full-time students concentrating in accounting who have completed or are presently completing Business 7160 Advanced Topics in Managerial Accounting. Candidates must be pursuing a career in management accounting as evidenced by writing or being exempted from the first CMA national entrance exam and registering for the CMA program with the Society of Management Accountants of Newfoundland & Labrador. Selection will be based on the students' character, financial need and scholarship standing. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the Dean, Faculty of Business Administration.

**The Chartered Accountants' Education Foundation of Newfoundland, Inc. Scholarship**

The CA Education Foundation, formed by the Institute of Chartered Accountants of Newfoundland, offers five scholarships annually to students enrolled in the B.Comm.(Co-op) programs as follows:

- two scholarships of \$2000 each to students entering either term six or seven
- two scholarships of \$1250 each to students entering term five
- one scholarship of \$1250 to a student entering term four

These scholarships will be awarded to students who have expressed a strong interest in pursuing the Chartered Accounting designation. Selection will be based upon academic standing and demonstrated leadership abilities. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Rob Crosbie Scholarship for International Study**

This fund was established from contributions to the University's *Opportunity Fund* Campaign by Mr. Rob Crosbie. The scholarship, valued at \$1,250.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

**The DaimlerChrysler Scholarship**

This scholarship, valued at \$5,000.00 annually, is the result of a generous endowment to Memorial University of Newfoundland by DaimlerChrysler Canada Inc. in support of The *Opportunity Fund*. The scholarship will be available to an undergraduate student in the Faculty of Business Administration who is in second year or beyond. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

**Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland**

This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Sir Wilfred Grenfell College, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland

exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland's Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland's M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Sir Wilfred Grenfell College, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Principal of Sir Wilfred Grenfell College. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

#### **Paddy Dobbin Scholarship in the Faculty of Business Administration**

The Paddy Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin, a St. John's native who married Rita Power on March 17, 1929. From his early life Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children to never fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (iBBA) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

#### **The Ernst and Young Scholarship in International Business**

This fund was established from contributions to the University's *Opportunity Fund* Campaign by the partners Ernst & Young, St. John's and its predecessor. This scholarship, valued at the accrued interest on the endowment, will be awarded to an undergraduate student in the Faculty of Business Administration entering academic Term 6 in the cooperative education program. In awarding this scholarship, preference will be given to students with scholarship standing and a demonstrated interest pursuing a career in accounting. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

#### **Faculty of Business Administration Associates' Scholarship Fund**

This fund was established through the contributions of members of the Associates' Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account.

In the case of the undergraduate program, scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration. In the case of the graduate program, the scholarships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

#### **The Fagan Scholarship in the Faculty of Business Administration**

This scholarship, valued at \$1,000.00 annually, was established by Steve Fagan, B. Comm. (Co-op) '81. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration who have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

#### **The P.J. Gardiner Award for Small Business and Entrepreneurship**

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland's School of Business and a local entrepreneur. This award is valued at \$5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student's genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies upon the recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

#### **The Peter Gardiner Award for International Study**

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial's School of Business. Interest from the fund will provide one or two annual awards of \$2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland's Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

#### **The Brian J. Grant Scholarship for International Study**

This scholarship was endowed through a donation to the University's *Opportunity Fund* campaign by Mr. Brian J. Grant in 1999. The scholarship, valued at the annual interest on the endowment, will support an undergraduate business student who is on an academic international exchange. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

#### **The Great-West Life Scholarship in Business Administration**

This scholarship was established by a donation to Memorial University of Newfoundland from Great-West Life. One scholarship, valued at a minimum of \$1500 annually, will be awarded to an undergraduate student in the Faculty of Business Administration. The scholarship will be awarded to a student who has been involved in student life and has made a contribution to the university community through his/her leadership on campus. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

**The William A. Gruchy Memorial Scholarship**

This scholarship, valued at \$1000.00, has been donated by Pepsi-Cola Canada Ltd., in memory of Mr. William Gruchy, a long-time associate of Browning Harvey Ltd., Pepsi-Cola's franchised bottling business in St. John's. The award is open to undergraduate students of scholarship standing, enrolled in Business Administration, who have demonstrated leadership ability. Activities within various student organizations, participation on faculty committees, and/or contribution to the larger community, will be considered in determining appropriate candidates. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

**The James B. Hand Memorial Scholarship in Business Administration**

This scholarship was established through a contribution to the *Opportunity Fund* by friends, family and former business associates in memory of Mr. Jim Hand. Interest on the fund will provide one or more scholarships for undergraduate students in the Faculty of Business Administration. The scholarship(s) will be awarded on the basis of scholarship standing, but such factors as financial need and contribution to Business Administration may be taken into account. The scholarship(s) will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Rolf G. Hattenhauer Scholarship Fund**

This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

**Hibernia/ExxonMobil Scholarships**

These scholarships, established by the Hibernia Management and Development Company Ltd. and enhanced by ExxonMobile Canada, are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:

- 2 to students entering Term 3 of the Faculty of Engineering and Applied Science
- 2 to students entering Term 3 of the Faculty of Business Administration

Each year one scholarship will be awarded to a male and one to a female in each of the above disciplines. Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrollment for the term of study). The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

**The Jim Hood Memorial Scholarship**

This scholarship was established through the generous bequest of Jim Hood, an alumnus and friend of the Faculty of Business Administration. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate and graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletics at Memorial University of Newfoundland and/or in the community. In the case of the undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration. In the case of the graduate student, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

**The J. Carson Hudson Memorial Scholarship**

In memory of local businessman and entrepreneur J. Carson Hudson, this scholarship, valued at a portion of the income on the investment, has been established by LeGrow's Travel Limited to encourage students' participation in small business and to assist a student entering the Faculty of Business Administration. This scholarship is renewable for two successive academic years provided that scholarship standing has been maintained. Preference will be given to those students who have enrolled in a full course load at the undergraduate level and have been away from the educational system for a period of two years or longer, working in an area of small business. Financial need may be a consideration. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Scott Hussey and Karen Joseph Memorial Scholarship in Business Administration**

This scholarship was established from contributions to Memorial University of Newfoundland by fund raising efforts of the Commerce Class of 1985 and other friends and relatives of Scott and Karen. The scholarship, valued at a portion of the annual income, will be awarded to an undergraduate student beyond Term 4 in the Co-op program of the Faculty of Business Administration. It is not necessarily intended for the student with the highest academic average but rather a student who combines scholarship standing and leadership ability. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Business Administration. While financial need is not to be considered a major criterion, it can be used as a deciding factor in the case of students who may otherwise be equally qualified in a given year.

**International Personnel Management Association Award**

A \$250.00 award will be presented annually to an outstanding student in the undergraduate course, Advanced Personnel Management. The recipient will be recommended by the Scholarship Advisory Committee of the Faculty of Business Administration acting upon the advice of the course instructor. Scholastic abilities, financial need and class participation will be the basis upon which the award will be made. The recipient of the award will also be eligible for one year's free membership in the local Chapter of IPMA-Canada.

**The Ron Joyce Foundation Scholarships**

These scholarships are the result of a generous endowment to Memorial University of Newfoundland by the Ron Joyce Foundation. Interest on the fund will provide scholarships to full-time undergraduate students entering Memorial University of Newfoundland's Faculty of Business Administration who are Canadian citizens with scholarship standing and demonstrated financial need. These scholarships will be valued at two semester's tuition for five courses (30 credit hours) and are renewable for up to four years (3 years plus original) provided the candidates maintain first class and scholarship standing. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

**The Dan Kroeker Award**

The Dan Kroeker Award, valued at \$500, is made possible through an annual donation from Dan Kroeker. The Award is available to a

deserving student enrolled full-time in the Bachelor of Commerce (Co-op) program who is in clear academic standing. Candidates will submit a two to three page essay outlining any financial initiatives/ideas that they have for the improvement/development of Newfoundland and Labrador. The submissions will be judged by a scholarship selection committee in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The A. Bruce LeMessurier Scholarship for Entrepreneurship**

This scholarship, valued at a portion of the income on the investment, was established by Sally Lou LeMessurier in memory of her husband A. Bruce LeMessurier. It will be awarded to a student beyond first year in an undergraduate Business program who has demonstrated interest in small business and entrepreneurship through completion of course work, and involvement in volunteer activities in the university and the community related to entrepreneurship. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

**Henry and Royce Meinhardt Memorial Bursary**

The Henry and Royce Meinhardt Memorial Bursary is endowed through a gift from the Smallwood family (Cathy, Ray, Melissa, Amanda and Matthew) in memory of Henry and Royce Meinhardt, who had two grandchildren choose to study in the Faculty of Business Administration. Though from a modest background, Henry and Royce Meinhardt were entrepreneurially minded and hard workers who founded several businesses in Saint John, New Brunswick. Henry and Royce believed passionately that personal development through formal education as well as the general acquisition of knowledge was critical to the attainment of many personal goals. This bursary will be awarded to a full-time undergraduate student in the Bachelor of Commerce program, who will be participating in an international exchange (Harlow or other university with an exchange agreement in place). The bursary, valued at a portion of the income on the investment, will be awarded to a student who meets the minimum academic requirements of a bursary as defined by Memorial University of Newfoundland, demonstrates financial need and a good work ethic. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Business Administration.

**Molson Breweries Scholarships**

Two scholarships, valued at \$1000.00 each, will be awarded to Newfoundland students entering the Faculty of Business Administration from first year university. The scholarships will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**Molson Breweries Scholarships**

Two scholarships of \$500.00 each are to be awarded to Newfoundland students commencing Term 5 and Term 6 respectively of the Business Administration program. Scholarship standing as well as financial need will be taken into consideration in selecting candidates. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**Mr. Sub Scholarship**

This scholarship valued at \$500.00 annually, will be awarded to a student in the Faculty of Business Administration on the basis of scholarship standing and community involvement. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The John J. Murphy Scholarship in Business Administration**

This scholarship, valued at \$500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year (Terms 1 and 2) of the Business Administration program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration.

**The Newfoundland and Labrador Hydro Corporation Scholarships in Business Administration**

These scholarships, offered annually by the Newfoundland and Labrador Hydro Corporation, are valued at \$1000.00 each. They are tenable in the Faculty of Business Administration at Memorial University of Newfoundland and are distributed as follows:

- Two to students entering Term 7
- Two to students entering Term 6
- One to a student entering Term 5

The scholarships will be awarded on the basis of academic excellence, taking into consideration such factors as financial need and character. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

**Oil and Gas Week Scholarship**

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

**The James R. Pearcey Scholarship for Entrepreneurism**

This scholarship is the result of a generous donation by the donor, Mr. Wade. K. Dawe, Bachelor of Commerce'92. It is valued at \$10,000.00 per annum and is established in memory of James R. Pearcey, a Civil Engineering graduate and former president of his 1993 class, at Memorial University of Newfoundland. The scholarship recipient will be a student in the Faculty of Business Administration in any academic year, in good academic standing and who shows clear evidence of a significant propensity toward entrepreneurial activities and study as assessed by an essay competition. The recipient will be selected by a faculty committee, the composition of which will be determined by the Scholarships Office, but will include representation by both the Faculty of Business Administration and the Faculty of Engineering and Applied Science. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of this committee.

**Jude Pearson Memorial Scholarship in the Faculty of Business Administration**

This scholarship, valued at \$500 annually, was established by the Class of 1999 in memory of classmate, Jude Pearson. Eligible candidates must be full-time undergraduate students in the Commerce program of the Faculty of Business Administration, and have scholarship standing. Preference will be given to students from Bell Island and those demonstrating financial need. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Maureen Penney Class of 1982 Award**

This award is available to a deserving student completing Term 3 of the Bachelor of Commerce (Co-op) program. The student selected to receive the award will be academically strong, and be an active participant in student life with demonstrated potential for leadership roles. The award, valued at \$500 has been made available through the contributions of the graduating class of 1982, in memory of fellow classmate, Maureen Penney. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**Pinsent Scholarship in the Faculty of Business Administration**

This scholarship, valued at \$1,000.00 annually, was established by Mark Pinsent, B. Comm (Co-op) '80. To be eligible, candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Additionally, candidates must be on work term and participating in an international work placement. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The PMI NL Chapter Jamie Morry Memorial Scholarship**

This scholarship, valued at \$500, was established by the Newfoundland and Labrador Chapter of the Project Management Institute in memory of Jamie Morry to acknowledge his commitment to the discipline of project management. The scholarship is open to undergraduate students of scholarship standing enrolled in Business Administration, doing a concentration in Management Information Systems (MIS) or Management Science who have demonstrated an interest in project management. In order to be considered for this scholarship, students must be nominated by a faculty member in the Faculty of Business Administration. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Public Accountants Licensing Board Scholarship**

This scholarship will be awarded annually to an undergraduate business student entering the final year of an academic program in the Faculty of Business Administration. It will be valued at a portion of the income on the endowment. Selection of the successful candidate will be based on scholarship standing and demonstrated interest in pursuing public accounting as a profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration.

**The Gar Pynn Memorial Harlow Scholarship**

This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The RBC Investments Scholarship**

This scholarship, in memory of Maxwell J. Pratt, has a value of \$1,000.00 and is open to a student entering Term 7 of the Business Administration program who is majoring in the area of Finance. Selection of the successful candidate will be based on academic merit and the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Scotsburn Dairy Group Scholarship**

This scholarship was established from contributions to the Memorial University of Newfoundland's *Opportunity Fund* Campaign by The Scotsburn Dairy Group. This scholarship, which will be valued at a portion of the accrued interest on the endowment, is intended to recognize academic excellence and will be awarded to a Newfoundland and Labrador student entering term 5 of the Business Cooperative Education program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Business Administration.

**The Dr. Robert W. Sexty Scholarship for Social Responsibility**

The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

**Dr. Lessey Sooklal Scholarship**

This fund was established in memory of Dr. Lessey Sooklal, who joined the School of Business in 1978 (later renamed the Faculty of Business Administration), and was an active member of the faculty until his death in 2006. A full Professor in the area of Human Resource Management, Dr. Sooklal shared his passion for the subject with his students and colleagues. The fund will provide an annual scholarship, valued at a portion of the income on the investment, to an undergraduate student in Business Administration who is concentrating in Human Resource Management. The scholarship will be awarded to students in Terms 6 or 7 of the Bachelor of Commerce program, or the final year of the Bachelor of Business Administration program. The main criteria in awarding the scholarship are scholarship standing and excellence in and commitment to the area of Human Resource Management. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

**The St. John's Maple Leafs Legacy Scholarship**

This scholarship was established by the Leafs Foundation Inc. and the St. John's Maple Leafs Booster Club to recognize the contribution of the St. John's Maple Leafs hockey team to youth and community in the Province. Valued at a portion of the income on the investment, the scholarship is open to full-time undergraduate or graduate students in the Faculty of Business Administration who meet scholarship standing and who have been active in athletic or extracurricular activities at Memorial University of Newfoundland and/or in the community. In the case of undergraduate students the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty of Business Administration. In the case of graduate students, the scholarship will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of the Faculty of Business Administration.

**The James P. Steinhauer Memorial Scholarship in Small Business and Entrepreneurship**

This scholarship is awarded out of income from a bequest by Mrs. S. Louise Steinhauer made in memory of her husband James and her son James, both prominent St. John's entrepreneurs. The scholarship will be awarded to a student in Term 5 of the commerce program who is completing a concentration in Small Business/Entrepreneurship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the Dean, Faculty of Business

Administration.

#### **The Sun Life Financial Scholarship in Applications of Technology**

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Principal of Sir Wilfred Grenfell College.

#### **The Toromont Scholarship**

This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

#### **The Ralph Vincent Memorial Business Scholarship**

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in first year Business Administration at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Business Administration.

#### **The James J. Walsh Memorial Scholarships**

Two undergraduate scholarships, established by the Walsh family to commemorate the memory of a dear husband and father, James J. Walsh, are tenable at Memorial University of Newfoundland and are valued at \$500.00 each. One scholarship will be tenable in the Faculty of Business Administration to a physically handicapped student. If no physically handicapped student is available, the award will be open to any student enrolled in the Faculty provided that the student is in good academic standing and demonstrates financial need. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Business Administration.

#### **The Robert Westcott Memorial Scholarship**

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

#### **Geoffrey H. Wood Foundation Scholarship**

This scholarship, established by the Geoffrey H. Wood Foundation, is currently valued at \$2,500.00 and will be awarded annually to an undergraduate student in Term 4 or later in the Faculty of Business Administration who has consistently demonstrated academic excellence. The scholarship is non-renewable and is to be awarded with a maximum of one other concurrent award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Business Administration.

#### **The Wood Gundy Scholarship for Undergraduate Business Students**

The Wood Gundy Scholarship for Undergraduate Business Students will be awarded annually to a student of scholarship standing in Business Administration, who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Business Administration.

#### **The Wright-Green Undergraduate Award in Business Studies**

The Wright-Green Undergraduate Award in Business Studies valued at \$500, honours a century of service by two small businesses in rural Newfoundland – Robert Wright and Sons (Harry and Ralph) and George Green and Bros., later George Green and Son (Robert) Ltd. Both enterprises were an integral part of the social fabric of their respective communities of Greenspond and Valleyfield. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration. The recipient of this award should have completed or be enrolled in course(s) in French. If there is no suitable student with a focus in French in any particular year, consideration may be given to a student with a similar focus in an alternate second language. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

## **4.4 Faculty of Education**

The following are available to students in the Faculty of Education based on a recommendation from the Dean.

#### **The Gordon Billard Award in Education**

A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Student Affairs and Services. Academic achievement and financial need will be considered.

#### **The Chesley and Katherine Brown Bursary**

This bursary, valued at a portion of the income on the endowment, has been established by the children of the late Lieutenant-Colonel and Mrs. William Chesley Brown. Lt.-Colonel Brown (1899-1962) guided the Salvation Army's educational program for thirty-five years. For the final twelve years he served as the Superintendent of Education for the Salvation Army within the Department of Education. Mrs. Lt.-Colonel Katherine England Brown (nee Cave; 1900-1977) taught at the Salvation Army Training College for Officers and was active in the Home and School Association of the Salvation Army College for a number of years. Candidates must be full time undergraduate students with demonstrated financial need and clear academic standing. The Bursary will be awarded to students in the Faculty of Education, with preference for those entering their first year. The bursary is renewable as long as the recipient remains in clear

academic standing and continues as an undergraduate student in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

#### **The Bruton Scholarship Fund**

Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton's request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at \$500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

#### **The William J. FitzGerald Memorial Bursary**

This Bursary was donated by Barbara C. FitzGerald in memory of her father, William J. FitzGerald (1897-1971) who was a St. John's businessman for many years. The award, valued at the annual interest on an endowment, is directed at a full time student in the Faculty of Education with first preference to students in the high school program who demonstrate scholarship standing and financial need. In the event that an eligible student in the high school program is not available in a given year, the Bursary will be awarded to a Bachelor of Education student in one of the other programs as deemed appropriate by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Education.

#### **The Carrie E. Hodder Memorial Scholarship**

This scholarship, valued at the annual accrued interest on an initial endowment, has been established by the husband of the late Carrie E. Hodder as a tribute to her 36 year contribution to education as a teacher in the province of Newfoundland and Labrador. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Education on the basis of scholarship standing to students enrolled in Elementary Education.

#### **The Dr. Ethel M. Janes Memorial Scholarship in Education (Undergraduate)**

From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at \$2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education program within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded upon completion of the second year of studies at Memorial University of Newfoundland to a student enrolled in the primary/elementary education program as a first degree. Instalments of \$1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years provided first-class standing is maintained. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

#### **The Grace Layman Scholarship in Education**

This scholarship, valued at a minimum of \$1,000.00 is the gift of Professor Grace Layman who devoted her life to the development of educational drama in Newfoundland. It is awarded to a student from the Faculty of Education at Memorial University of Newfoundland who has demonstrated ability and interest in drama education. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

#### **The Effie and Leander Mercer Scholarship**

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

#### **The A. Baxter Morgan Memorial Scholarship**

This scholarship has been established by Lorraine, spouse of the late Mr. Morgan. He began his career as a teacher after graduation from Memorial University College. Later, he operated his own business in Newfoundland until his retirement to Clarke's Beach. It will be valued at \$500.00 annually and will be awarded to a full-time student in the second year of the Faculty of Education program. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

#### **The John M. and Elsa S. Morgan Scholarships**

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

#### **The Dr. M.O. and Grace Morgan Harlow Bursary**

This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre. Bursaries awarded in fall and spring will be based on a recommendation from the Dean, Faculty of Education. These bursaries will be

awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

#### **The Newfoundland & Labrador Teachers' Association Scholarship**

From a sum of money donated to the Anniversary Fund by the Newfoundland & Labrador Teachers' Association, a \$500.00 scholarship has been established at Memorial University of Newfoundland. This scholarship will be awarded annually on the basis of academic excellence and character to a senior student enrolled in the Faculty of Education. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Education.

#### **The Patti Lynn Noonan Memorial Harlow Travel Bursary**

This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti-Lynn's motto was "Live life to the fullest and appreciate it and always tell the people you love that you love them". Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

#### **The Mary O'Keefe Memorial Scholarships**

These scholarships were established with a bequest from Mary O'Keefe. Valued at a portion of the annual interest on the endowment, they will be awarded to two full-time students entering the first year of a program in the Faculty of Education. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

#### **The Dr. Hugh O'Neill Education Scholarship**

This scholarship is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One scholarship valued at \$2,500.00 will be awarded annually to a full-time undergraduate student in the Faculty of Education at Memorial University of Newfoundland. In awarding the scholarship, first preference will be given to a student from a third world country but in the event of no such eligible student in a given year the scholarship may be awarded to another education student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing, financial need and a recommendation from the Dean, Faculty of Education.

#### **The Dr. Herbert Lench Pottle Scholarship**

This scholarship has been established by the family of Dr. Pottle who served as a member of the Commission of Government (1947-49) and as the Minister of Public Welfare (1949-55) in the Government of Newfoundland. His career also included educational administration, magistrate, author and member of the first Board of Regents at Memorial University of Newfoundland. Valued at the annual interest on the endowment, this scholarship will be awarded to an undergraduate student in the Faculty of Education. Preference will be given to residents of Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need and a recommendation from the Dean, Faculty of Education.

#### **The Dr. Herbert Lench Pottle Scholarship in Education**

This scholarship has been established by Helen Louise Wesanko in memory of her father, Dr. Herbert Lench Pottle. Valued at a portion of the income on the investment, the scholarship will be awarded to an undergraduate student in the Faculty of Education with preference given to students who are entering the Faculty. The student must be a native-born Newfoundlander or a graduate of a Newfoundland High School. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Education.

#### **Scott Memorial Scholarship**

This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than \$500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon a recommendation approved by the Dean, Faculty of Education and/or the Director, School of Human Kinetics and Recreation.

#### **Ron and Gwen Seary Memorial Scholarship**

Two scholarships from the interest on a fund established by the family, colleagues and students of Ron and Gwen Seary shall be awarded. One scholarship shall be given to a student beyond second year who is majoring in English Language and Literature and who is recommended by the Head of the Department. One scholarship shall be awarded to a student in Primary/Elementary Education who shows promise in Art Education and who is recommended by the Dean, Faculty of Education.

#### **The Tony Walsh Scholarship**

This scholarship has been established by a donation from James A. Martin in memory of Tony Walsh, teacher 1898-1994. Valued at \$800.00 it will be awarded to a student entering their second year of undergraduate studies in the Faculty of Education. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing with preference given to students who have demonstrated leadership, determination and dedication.

## **4.5 Faculty of Engineering and Applied Science**

The following are available to students in the Faculty of Engineering and Applied Science based on a recommendation from the Dean. For definition of scholarship standing for co-op students, see **Scholarships, Bursaries and Awards, General Information**,

#### **The Afshin Assemi Memorial Award**

This award has been established in memory of Afshin Assemi (Term 8 Electrical, 1991) and is valued at a portion of the income on the investment. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Faculty of Engineering and Applied Science Program. The criteria for selection will be on the basis of outstanding contribution to the betterment of student life within the Faculty of Engineering and Applied Science over the course of his/her academic career. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Class representatives before arriving at their decision. If it is decided that two candidates are equally deserving of the Award, then joint awards may be given at equal valued.

**Amirix Systems Inc. Scholarship for Computer Engineering**

This scholarship, valued at \$2500 annually, is established by AMIRIX Systems Inc. of Halifax, NS, and is awarded to a Computer Engineering student in Term 5 of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland. The recipient of this scholarship will have demonstrated scholarship standing as well as extracurricular involvement in any of the following areas: athletics, fine arts, student body activities and/or volunteer work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Engineering and Applied Science.

**The American Bureau of Shipping (ABS) Scholarship**

The American Bureau of Shipping Scholarship will be awarded to eight full-time undergraduate students who demonstrate scholarship standing and are enrolled in the Faculty of Engineering and Applied Science in any academic terms in the following disciplines: Ocean and Naval Architecture, Civil, Mechanical & Electrical. Preference will be given to students who have strong academics/work experience in the area related to a career in structural; offshore/marine industries. Winners of these scholarships will have preference (upon application) for work term placements with the American Bureau of Shipping in Houston (must be eligible for T-N Visa). Valued at \$5000 each, the scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The Atlantic Canada Water Works Association Award for Excellence in Water Engineering Studies**

This award has been established by the Atlantic Canada Water Works Association (ACWWA) and is valued at \$500.00 annually. It will be awarded to a Civil Engineering student in his/her final term who has shown excellence in water-related engineering studies. The successful candidate must have demonstrated excellence in the following subject areas; Fluid Mechanics, Hydraulics, Hydrology and Water Resources and Hydrotechnical Engineering. In addition, preference will be given to students who have completed and excelled in at least one work term related to water engineering. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science in consultation with the Discipline Chair of Civil Engineering.

**The C.H. Ballam Scholarship**

This scholarship was established by the Honourable Charles H. and Mrs. Ballam as a memorial to their son Ulric, a former Engineering student at the University. The scholarship has a value of \$250.00. It is awarded annually during the Winter semester of Engineering One on the recommendation of the Dean of Engineering and Applied Science. In making the award, academic achievement, character and financial need are taken into account. An application is required.

**The E.F. Barnes Scholarship**

This scholarship, valued at \$500.00, has been endowed by Stirling Kelloway in honour of the late Mr. E.F. Barnes, founder of E.F. Barnes Machine and Fabricating Shop Limited which built the first all steel vessel in Newfoundland and developed the only marine engine ever built in the Province.

The award will be made each year during the Fall semester to a student in Term 6, on the recommendation of the Dean of Engineering and Applied Science. The selection of the winner will be based on scholastic achievement in Academic Term 5. Financial need will be an additional consideration. This scholarship will not be awarded to a student who is already holding a scholarship during the same academic year.

**Paul S. Batstone Memorial Scholarship**

This scholarship, valued at a portion of the annual interest, was established in memory of Paul S. Batstone who spent 20 years promoting co-operative education at Memorial University of Newfoundland and was a co-ordinator in the Faculty of Engineering and Applied Science until his death in 2003. Based on scholarship standing, it will be awarded to a senior student completing a spring work term who has demonstrated a high level of commitment to Engineering Co-operative Education and has made a significant contribution to their employer in the past work term. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science with a nomination from the student's employer and input from the Office of Co-operative Education.

**Dr. S.M. Blair Memorial Alumni Awards for Excellence in Engineering**

Two scholarships, established by the Memorial University of Newfoundland Alumni Association in memory of Dr. Sidney M. Blair, have a value of \$500.00 each and are awarded annually to students entering Term 3 of the Engineering program and Term 5 of the Civil Engineering program who have achieved an appropriate scholarship average in academic courses of the preceding terms. The awards are made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Dean of Engineering and Applied Science.

**The Wally J. Campbell Memorial Scholarship**

This scholarship has been established in memory of Professor W. J. Campbell who helped establish the engineering program at Memorial University of Newfoundland and taught in the program until 1995 when he retired. The scholarship, one or more, is valued at a minimum of \$500.00 and will be awarded to a student entering term three who has completed all elements of the program prior to Term 3. Scholarship standing, leadership and contribution to student life will be considered in making the award. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

**The Dr. S.J. Carew Memorial Scholarships**

These two scholarships, established in memory of Dr. S.J. Carew, are valued at a portion of the income on the endowment and are awarded annually in the Winter Semester to students in Engineering One of the Bachelor of Engineering program. The scholarships will be awarded on the basis of financial need and scholarship standing with the recipients having achieved at least a strong "B" average in Fall Semester of Engineering One. The scholarships will not be awarded to candidates holding scholarships of equal or greater value. The scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

**The Chevron Canada Resources Engineering Scholarship**

This scholarship, valued at the interest on an endowment to the *Opportunity Fund* by Chevron Canada Resources, will be awarded annually on the basis of scholarship standing to a student during the Winter semester of Engineering One of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

**Stephen Crooks Memorial Scholarship**

This scholarship, valued at \$1000.00, has been established in memory of Stephen Crooks (Civil 1982-Memorial University of Newfoundland). It will be awarded to an Engineering student, on the basis of sound scholastic record, who has completed at least five academic terms in Engineering. The student's contribution to the Engineering Faculty and Applied Science and the University, performance during work terms, and overall perseverance within the program will also be taken into consideration. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Engineering and Applied Science.

**The Wilfred and Rose Davis Scholarship in Engineering**

This scholarship, a gift from Wilfred J. (Memorial University College 1946) and Rose Davis, is awarded annually to a student entering or engaged in Engineering One. The award is valued at the interest earned annually from the endowment and will not be awarded to candidates holding other scholarships of greater value. This scholarship is based on scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean, Faculty of Engineering and Applied Science.

**Det Norske Veritas Scholarship**

The Det Norske Veritas Scholarship is donated by the Norwegian Ship Classification Society of that name. The \$500.00 scholarship is awarded to the student in the graduating class in Naval Architectural Engineering who has achieved the highest total marks in terms five to eight inclusive. The award is made solely on academic criteria, and may be held in addition to not more than one other award having monetary value. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Engineering and Applied Science.

**Engineering One Entry Scholarships in Engineering**

These scholarships are endowed by Mr. Wing Soon Oue of Seven Seas Restaurant, Corner Brook, and have a value of up to \$500.00 each. They are awarded annually to two students entering Engineering One, providing they hold no other awards of greater value. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Engineering and Applied Science.

**The J.M.C. Facey Engineering Scholarship**

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador enrolled in Engineering One at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

**Daniel Freeman Memorial Scholarship**

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

**The General Motors Scholarship for Women in Engineering**

This scholarship is one of several established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide a scholarship valued at a minimum of \$1,000.00 annually to support and encourage more women to study and work in Engineering, thereby increasing the contributions of women to engineering and scientific endeavours. This scholarship is tenable at Memorial University of Newfoundland to female students regardless of age, with preference to those who are entering the Faculty of Engineering and Applied Science. However, female students already enrolled in Engineering studies may be eligible if in a given year an eligible entering student is not available. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

**The General Motors Scholarship in Engineering**

This scholarship was established by General Motors of Canada Limited with contributions to the University's *Opportunity Fund* Campaign. Interest from the fund will provide a scholarship valued at a minimum of \$1,000.00 annually to support individuals who are first generation students in a family (immediate family) to enroll in Engineering. It will be awarded to a student in any term of the Bachelor of Engineering program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

**The John P. Greene Scholarship**

This scholarship is funded by Mrs. Amelia Greene to honour her late husband, John P. Greene, a retired engineering instructor at the Fisheries and Marine Institute. The scholarship is awarded to a full-time undergraduate student in the Ocean and Naval Architectural program in the Bachelor of Engineering Degree. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Sciences.

**The Halliburton Energy Services Scholarship in Mechanical Engineering**

This fund, a gift to Memorial University of Newfoundland by Halliburton Energy Services via *The Opportunity Fund* campaign, will provide a scholarship valued at approximately \$1,500.00 annually. It will be awarded on the basis of scholarship standing to a student in academic terms 5 or 6 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**Hibernia/ExxonMobil Scholarships**

These scholarships, established by the Hibernia Management and Development Company Ltd. and enhanced by ExxonMobil Canada, are tenable at Memorial University of Newfoundland and are valued at an amount determined by the annual income on the investment. They are awarded annually as follows:

- 2 to students entering Term 3 of the Faculty of Engineering and Applied Science
- 2 to students entering Term 3 of the Faculty of Business Administration

Each year one scholarship will be awarded to a male and one to a female in each of the above disciplines. Candidates for these awards must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrollment for the term of study). The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Deans, Faculty of Business Administration and Faculty of Engineering and Applied Science.

**The Honeywell Limited-Honeywell Limitée Scholarship**

This scholarship, the gift of Honeywell Limited-Honeywell Limitée, is valued at the annual interest on the initial endowment. It will be awarded on the basis of scholarship standing to a student in Term 5 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The IEEE Newfoundland and Labrador Section Term 4 Scholarship**

This scholarship was established by an endowment from the Newfoundland and Labrador Section of IEEE (The Institute of Electrical and Electronics Engineers). It is valued at a portion of the annual interest accrued on the initial endowment and awarded annually to a full-time undergraduate student in Term 4 of the Electrical and Computer Engineering or Computer Engineering Programs at Memorial University of Newfoundland. The recipient must be an active student member of IEEE and be of scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to the IEEE student branch will be considered. In this regard, candidates must submit a one page letter describing their IEEE involvement, their professional goals and their student activities in the areas of electrical and computer and/or computer engineering. A student may not hold the scholarship more than once. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of a special selection committee of the IEEE, Newfoundland and Labrador Section.

**The IEEE Scholarship**

This scholarship was established by the members of the Newfoundland and Labrador section of IEEE (The Institute of Electrical and Electronics Engineers). This Scholarship has a value of \$1000. It is awarded annually to a full-time undergraduate student in Term 6 of the Electrical and Computer Engineering Program at Memorial University of Newfoundland. The recipient must be a student member of IEEE and possess scholarship standing as defined by the University. In addition to the student's academic achievement, contributions to the IEEE student branch will be considered. This Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science, acting on the advice of the IEEE Newfoundland and Labrador Section.

**The Integrated Informatics Award of Excellence**

This award is established through a generous gift from Jason and Christa Humber, and will provide one award annually, valued at a portion of the income from the endowment. To be eligible, students must be senior engineering students enrolled in their final undergraduate year (Term 8) in the Offshore Oil and Gas option of the Faculty of Engineering & Applied Science at Memorial University of Newfoundland. The award will be given to a student who has achieved the highest total marks in offshore oil and gas courses in terms 6 and 7. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Dean, Faculty of Engineering & Applied Science.

**The Jacques Whitford Newfoundland Geoscience Scholarship**

This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

**The Kiewit Offshore Services Award**

These awards, valued at \$1000 each for two students are offered annually by Kiewit Offshore Services (KOS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Naval, Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

**The Peter Kiewit Sons Co. Ltd. Award**

These awards, valued at \$1000 each for two students are offered annually by Peter Kiewit Sons Co. (PKS). Each award also includes the possibility for the recipient to complete one or more work terms with this well-renowned general contracting company. The eligible candidates should have completed, as a minimum, their Term 4 in Civil, Mechanical or Electrical Engineering with good scholarship standing and have demonstrated a strong interest to work in the construction industry during their previous work terms, preferably with the Kiewit Group. Factors to be taken into account include character qualities, team spirit, personal initiative, leadership, reliability and mobility. Financial need may also be a consideration. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Sciences with the appropriate input from the Chairpersons and Faculty acting on the advice of a special selection committee of the Kiewit Group.

**The Gene H. Kruger Memorial Scholarship**

These scholarships are the result of a generous donation by Joseph Kruger II in memory of his father, Gene H. Kruger. Valued at a portion of the income on the investment, they will be awarded to two students in the Faculty of Engineering and Applied Science who were born and have lived in Newfoundland all of their life. Particular emphasis should be given to those who are studying Mechanical and Electrical Engineering as well as those studying information technologies. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and financial need on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The Wallace Allison MacCallum Memorial Scholarship**

This scholarship valued at the annual interest, was established by the MacCallum family in honour of their father, Wallace. It will be awarded to a third or fourth year Engineering student at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science. Factors such as, interest in the humanities and international affairs, marine technology, contribution to his/her engineering class, and athletic involvement may also be taken into consideration.

**The John Madvig Bursary**

This bursary will be awarded annually to a student in the Faculty of Engineering and Applied Science who is studying in the Naval Architectural Engineering program at Memorial University of Newfoundland. The value of the bursary will be based on the annual interest earned on the initial endowment. It will be awarded to a Canadian citizen on the basis of academic standing and financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Engineering and Applied Science.

**The Effie and Leander Mercer Scholarship**

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by

the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

#### **The Professor Bill Milne Memorial Scholarship**

The scholarship is established in memory of Professor William (Bill) Milne, the founder of the program now known as Ocean and Naval Architectural Engineering. This scholarship, valued at a portion of the income from the endowment, is the result of contributions by Ruth Milne and Prof. Milne's former students and colleagues. The scholarship recipients will be full-time undergraduate students enrolled in Term 4 of the Ocean and Naval Architectural Engineering program. Candidates must have maintained scholarship standing in Terms 1 to 3, and have demonstrated involvement in formal professional associations, such as the Society of Naval Architects and Marine Engineers. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Engineering & Applied Science.

#### **NACE International (Atlantic Canada Section) Prize**

This prize has been established by the National Association of Corrosion Engineers and is valued initially at \$500.00 annually. It will be awarded to an Electrical or Mechanical Engineering student in Academic Term 5 in the engineering program at Memorial University of Newfoundland. The successful candidate must have demonstrated excellence in Engineering 3911 - Chemistry and Physics of Engineering Materials I. In addition, preference will be given to students who have completed and excelled in at least one work term related to corrosion engineering or has carried out a laboratory experiment or has performed research in corrosion and/or corrosion mitigation. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science in consultation with the Atlantic Canada Section of NACE International. The successful candidate will be encouraged to join NACE International as a student member to encourage his or her interest in corrosion mitigation.

#### **The Newfoundland and Labrador Hydro Corporation Scholarships in Engineering and Applied Science**

Five scholarships are offered annually by the Newfoundland and Labrador Hydro Corporation and are valued at \$1,000.00 each. They are distributed as follows:

- two to students enrolled in the Fall semester of Engineering One based on previous scholastic achievement
- two to students enrolled in the Winter semester of Engineering One based on that term's results
- one to a student enrolled in Term 8 based on the cumulative average in Engineering.

The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of Engineering and Applied Science. Need may be considered. The awards will not be made to students who hold other concurrent scholarships of significant value.

#### **The Newfoundland and Labrador Federation of Municipalities Civil Engineering Scholarship**

This scholarship, the gift of the Newfoundland and Labrador Federation of Municipalities, is valued at \$500.00. It will be awarded annually to a Civil Engineering student at Memorial University of Newfoundland. Financial need and other factors may also be taken into account. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

#### **The Newfoundland Design Associates Limited Scholarship in Engineering**

This fund donated to Memorial University of Newfoundland via *The Opportunity Fund* by Newfoundland Design Associates Limited, will provide a scholarship for a full time undergraduate student in academic Term 2 of the Engineering Program. The scholarship, valued at the annual interest on the initial endowment, is based on scholarship standing and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The Newfoundland Road Builders/Heavy Civil Association Scholarship**

This scholarship has been established by the Newfoundland and Labrador Road Builders/Heavy Civil Association and is valued at \$1,000.00 annually. It will be awarded to a Civil Engineering student who has achieved scholarship standing and is in Term 6 of their program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Engineering and Applied Science.

#### **Professor Calvin Noble Memorial Award**

The award, valued at \$1,000.00, will be given annually to an undergraduate student in any year of the Faculty of Engineering and Applied Science. The recipient must be in clear academic standing and must have made a significant contribution to the Faculty of Engineering and/or to university life as a whole during his/her studies at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The Noranda Scholarship**

This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the Opportunity Fund campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

#### **The William O'Reilly Memorial Scholarship**

This scholarship established in memory of William O'Reilly (Engineering Class '76), has a value of \$500.00, and is awarded annually to a student in Term 5 or Term 8 of the Engineering program. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science in consultation with a representative of the Engineering Class of '76. Economic need will be the major consideration but the candidate will be required to have at least a "B" average in the previous semester. The scholarship will not be awarded to a candidate holding a scholarship of equal or greater value.

#### **Oil and Gas Week Scholarship**

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

#### **Fritz Potter Memorial Award**

This award has been established in memory of Fritz Potter (Civil Engineering Graduate, 1991) and is valued at \$500.00. It will be awarded during the Winter semester and is intended for students enrolled in Term 8 of the Civil Engineering program. The criteria for selection will be on the basis of outstanding contribution to the spirit of the Civil Engineering graduating class over the course of their

studies at Memorial University of Newfoundland. It will be administered by the Engineering Scholarship Committee which will accept recommendations from the Engineering Society Executive. The Engineering Society Executive should consult with Term 8 Civil Engineering class before arriving at their decision. If it is decided that two candidates are equally deserving of the award, then joint awards may be given valued at \$250.00 each. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon a recommendation from the Faculty of Engineering.

#### **The Professional Engineers and Geoscientists Newfoundland and Labrador Engineering Scholarships**

Two scholarships, the gifts of the Professional Engineers and Geoscientists Newfoundland and Labrador, are awarded annually to students entering the Engineering program. The awards are valued at \$1,000.00 each and will not be awarded to candidates holding other scholarships of greater value. One of the scholarships will be awarded on the basis of scholastic achievement and financial need; the other primarily on the basis of scholastic achievement. These scholarships will be awarded by a committee of the Professional Engineers and Geoscientists Newfoundland and Labrador. Further information regarding application forms, etc., is available from the Dean of Engineering and Applied Science.

#### **The Professional Engineers and Geoscientists Newfoundland and Labrador Past President's Engineering Scholarship**

This scholarship, valued at a minimum of \$1,000.00, was established by the Professional Engineers and Geoscientists Newfoundland and Labrador to mark the centennial year of Engineering as an organized profession in Canada. It is awarded annually on the basis of scholastic achievement to a student entering the Fall semester of Engineering One of the Engineering program at Memorial University of Newfoundland. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, in consultation with the Dean of Engineering and PEGNL.

#### **Rutter Engineering and Automation Inc. Scholarship in Engineering**

This scholarship, valued at the annual interest on the endowment, will be awarded annually to a student in Term 4 of the Electrical Engineering program at Memorial University of Newfoundland. Candidates for this scholarship must be of scholarship standing but consideration may also be given to their financial circumstances. All candidates must be residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a period of 12 months immediately prior to enrollment for the term of study). The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The Sandwell Engineering Inc. Scholarship**

This scholarship, valued at the annual interest on their initial endowment, was established by Sandwell Engineering Inc. and is awarded annually to a student in the Winter semester of Engineering One of the Bachelor of Engineering program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Engineering and Applied Science.

#### **The Schlumberger Canada Limited Scholarships**

These scholarships, 15 valued at \$1,000.00 each annually are funded by Schlumberger Canada Limited and are available to the Faculty of Engineering and Applied Science. They will target students in the Bachelor of Engineering program with two scholarships being allocated to Engineering One, two scholarships to each of terms three through seven, and three for term eight. The scholarships will be awarded on the basis of scholarship standing and a cumulative average of 75% or higher, to residents of Newfoundland and Labrador (a person who has maintained permanent residence in the province for a minimum of twelve months immediately prior to entering academic term one of the program). Where possible the scholarships shall be divided proportionally between male and female students based on male and female enrollment and subject to compliance to the above criteria. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The Shell Canada Engineering Scholarship**

This fund a gift to Memorial University of Newfoundland by Shell Canada via *The Opportunity Fund* campaign, will provide three scholarships valued at approximately \$1,500.00 each annually. They will be awarded on the basis of scholarship standing to students in academic terms 5, 6, 7 or 8 of the Mechanical Engineering Program at Memorial University of Newfoundland. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The Charlie Sheppard Memorial - Hatch Scholarship**

The Charlie Sheppard Memorial - Hatch Scholarship, valued at a portion of the income on the endowment, has been established by Hatch, in memory of Charlie Sheppard. The scholarship will be awarded to two full-time undergraduate students in the Faculty of Engineering and Applied Science who are in the Winter semester of Engineering One and have scholarship standing. All other criteria being equal, preference will be given to a student from a rural community in Newfoundland and Labrador. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **Structural Design Inc. Scholarship in Engineering**

This scholarship is the result of a commitment to *The Opportunity Fund* by Structural Design Inc. It will provide one scholarship of \$500 to full-time students in Term 7 specializing in Structural Engineering. The scholarship, based on scholarship standing, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science. In the case of a tie between two students, need may be a determining factor.

#### **The Sun Life Financial Scholarship in Applications of Technology**

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Principal of Sir Wilfred Grenfell College.

#### **The Sun Microsystems of Canada Scholarship**

This fund, donated to Memorial University of Newfoundland via *The Opportunity Fund* by Sun Microsystems of Canada, will provide a scholarship for a full-time undergraduate student in Academic Term 5 of the Computer Engineering program. The scholarship, valued at the annual interest on the endowment, is based on scholarship standing and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The David S. Templeton Scholarship**

This scholarship is the gift of Newfoundland Power Inc. The exact value is reviewed on an annual basis and is currently set at \$2,000.00. It is awarded annually to a student entering Term 4 who has completed all components of the program up to Term 4. Academic

excellence is a major criterion but should be coupled with exemplary work term results. In addition, the candidate should have strong interpersonal and communications skills as well as good understanding of the needs and aspirations of their fellow citizens and a desire to use engineering as a vehicle to make our world a better place. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean, Faculty of Engineering and Applied Science in consultation with the President of the Company. No application is required.

#### **The Charles O. Thomas Scholarship**

This scholarship is a gift of The Thomas Fuller Construction Company (1958) Limited, in memory of Mr. Charles O. Thomas, who was supervisor of construction of the National Research Council Institute for Marine Dynamics on this campus, 1982-85. The value of the award will be based upon the interest accrued on the principal sum donated, up to the amount of \$750.00. The award is made to the student in the Faculty of Engineering and Applied Science who obtains the highest overall average in Terms 3, 4, and 5 and who does not already hold a scholarship administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in that same academic year. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Engineering and Applied Science.

#### **Bob Thorburn Memorial Scholarship**

The Bob Thorburn Memorial Scholarship was initially established at Memorial University of Newfoundland during the *Opportunity Fund* through a gift from Quadratec Inc., and recently fully endowed by Quadratec Inc. This fund will provide a scholarship for a full-time undergraduate student in Academic Term 4 of the Engineering Program in either the Electrical and Computer or the Mechanical Engineering disciplines. The scholarship, valued at the annual interest on the endowment, is based on scholarship standing. Students demonstrating financial need may also be considered. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Engineering and Applied Science.

#### **The Toromont Scholarship**

This scholarship, valued at the annual interest on the endowment, has been established by Toromont Industries Ltd. as part of the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis between students in Business Administration and Engineering and Applied Science. It will be awarded on the basis of scholarship standing, extracurricular activities, and need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean of the appropriate discipline.

#### **The ITT W&WW Scholarship in Engineering**

This scholarship is provided by a donation of \$7,500 from ITT W&WW. It is valued at \$2,500.00 annually and will be provided to Memorial University of Newfoundland for a three year period. It will be awarded on the basis of scholarship standing to undergraduate students enrolled in any year of the Engineering program at Memorial University of Newfoundland studying either Civil, Electrical or Mechanical Engineering. The scholarship will be awarded on a yearly basis by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Engineering and Applied Science.

#### **Women in Engineering Memorial Scholarship**

This scholarship has been established to commemorate the sudden and tragic deaths of fourteen women at L'Ecole Polytechnique in Montreal on December 6, 1989. Thirteen of the women who died so violently were pursuing studies in engineering, historically a non-traditional field for women. It is hoped this annual \$2,500.00 scholarship will encourage more women to study and work in this profession, thereby increasing the contribution of women to engineering and scientific endeavours. Funding support is provided by the Faculty of Engineering & Applied Science, C-CORE, Memorial University of Newfoundland Alumni Association and individual contributions. This award is tenable at Memorial University of Newfoundland to female students regardless of age, who are entering the Faculty of Engineering and Applied Science. To be eligible, applicants must demonstrate a commitment to the advancement of women in Engineering fields and an active involvement in wider issues of social concern to women, as well as sound scholastic ability. The committee may also consider applications from female students already enrolled in Engineering studies, provided they meet the eligibility criteria above. A special committee, consisting of representatives from the Faculty of Engineering and Applied Science, C-CORE, Memorial University of Newfoundland's Alumni Association, Women's Studies and Women in Science and Engineering meets annually to consider applications for this scholarship. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of this committee.

#### **Dr. James A. Wright Memorial Scholarship**

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Sir Wilfred Grenfell College. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

## **4.6 Faculty of Medicine**

The following are available to students in the Faculty of Medicine based on a recommendation from the Dean.

#### **The Dr. Brian Gerard Adams Memorial Bursary Fund**

This bursary has been established by the friends and family of Dr. Brian Gerard Adams, in his memory. The bursary, valued at \$500.00, is available by application on the completion of second year medical studies. The recipient must be in good academic standing and demonstrate financial need. The bursary is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Alcohol and Drug Dependency Commission Commemorative Awards**

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

#### **The Dr. Andrew Bagby and Son Zachary Andrew Memorial Bursary**

This bursary was initiated in memory of Andrew Bagby and his son Zachary by David and Kathleen Bagby, parents of Andrew. It will be awarded to a medical student in any year of study who is in good academic standing. The recipient must have an engaging demeanor and must relate with ease to people at all levels, as this was a unique characteristic of Dr. Bagby. Most important of the selection criteria, the student should be judged by his/her peers to have a positive, caring attitude fostering a sense of camaraderie within class life. The nominee must have demonstrated a genuine concern for, and shown a desire to impact positively on the lives of, his/her classmates.

This will be assessed through either letters of reference or by a personal interview with a member of the selection committee. Nomination forms are available at the Office of Student Affairs, Faculty of Medicine. Selection will take place in April of each year and will be announced at the Annual Awards ceremony in the fall. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

#### **The Erika Bartlett Memorial Bursary**

This bursary is the result of an endowment to the University funded by donations from family and friends of the Bartlett family, as well as students, staff and faculty members of the Faculty of Medicine. This bursary is valued at a portion of the annual accrued interest on the endowment and is available to a staff member and a medical student in alternate years. The Erika Bartlett Bursary is administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and awarded on the basis of a recommendation from the Dean, Faculty of Medicine. Applications are available at the Office of Student Affairs, Faculty of Medicine.

#### **Selection Criteria Staff Member**

To be eligible a candidate must:

1. Complete the appropriate application form,
2. Be employed full-time with the Faculty of Medicine,
3. Use the bursary to fund study at the undergraduate level,
4. Submit a grade to the selection committee upon completion of the course.

#### **Selection Criteria Medical Student**

To be eligible a student must:

1. Be registered in the fourth year of medical studies.
2. Be matched to a postgraduate program in Oncology (Medicine/Surgery/Radiology). If a student is not matched to an Oncology program then the recipient will be chosen at the discretion of the selection committee.

#### **The Donald Cant Studentship**

The annual Donald Cant Studentship, valued at \$750.00, is for researching and writing an original essay, suitable for publication, on some aspect of the History of Medicine. The studentship is open to any student enrolled in the M.D. program, Faculty of Medicine, Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships on the basis of a proposal to be submitted by January 31 of each year.

#### **Central Regional Integrated Health Authority and Dr. J.F. Brown Bursary**

Each year an award is made available to students from the former Central West Board. The annual income shall be awarded as a bursary to a student of any year from the former Central West area who demonstrates the greatest need and who, in the opinion of the Dean, has achieved adequate academic performance. Should for any reason a bursary not be awarded, the entire amount is to be returned to the fund, and the award made the following year in the usual manner. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships. Applications may be submitted in September of each year.

#### **Cooze Keinath Scholarship**

This scholarship, valued at \$1,000.00 is established by Dr. Derek Cooze, a graduate of the Faculty of Medicine, Class of '85 and his spouse, Dr. Kim Keinath. It will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Medicine.

#### **The Christopher & Donna Cox Scholarship**

This scholarship, established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at \$500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the Scholarship will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The Scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

#### **The Dr. John M. Darte Memorial Fund (Medicine)**

This fund, in memory of the first Professor and Chairman of Pediatrics at Memorial University of Newfoundland's Faculty of Medicine (1968-75), has been established by Mrs. J.M. Darte and Mrs. France Darte McCabe. With the income from this fund, up to four awards will be made annually with a value of \$650.00 each. To be considered for an award from this fund, a student must be in good academic standing but other factors, such as financial need, will be considered. The selection will be made in accordance with prevailing policies of the Faculty of Medicine and the University.

#### **The Walter Davis Award**

This award was established by the Newfoundland Lung Association to honour the work of Mr. Walter Davis in the field of chest diseases particularly, tuberculosis. The recipient will be the student in the Faculty of Medicine who achieves the best performance in the first year respiratory course. It will be valued at \$500.00 annually and awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Dr. Ralph John Day Award**

This award is available to a student in the pre-clerkship program who completes the best undergraduate project in bowel or liver cancer, including other metastatic disease. This award is a result of a donation from Mrs. Jean Day in memory of her late husband, Dr. Ralph John Day. The value of the award will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

#### **The Hunter W. Earle Memorial Scholarships in Medicine**

These scholarships have been made possible from the proceeds of a memorial fund established by colleagues of the late Dr. Hunter W. Earle and a generous donation from Mrs. Marilyn Pasternak, widow of Dr. Earle. Two scholarships will be made available annually to students enrolled in the Faculty of Medicine at Memorial University of Newfoundland, who best exemplify the characteristics of leadership, sportsmanship and interest in student activities and who have maintained a good academic standard. The scholarships, valued at a portion of the annual income on the endowment, will be awarded to students who have completed the Clinical Clerkship and will be presented at the Annual Convocation Dinner in May. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and

Scholarships.

**The Isidor Epstein Memorial Scholarship**

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than \$700.00 is to be awarded as often as possible to an outstanding second year student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

**The Faculty of Medicine Opportunity Fund Scholarship**

This scholarship is the result of an endowment created from several general donations to the *Opportunity Fund* by various alumni and friends of the University and in particular of the medical school. Valued at the annual interest on the endowment, it will be awarded annually to a medical student in the first year of study at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

**The Frank & Pat Fagan Family Scholarship for Academic Excellence and Community Leadership**

This scholarship has been established through a generous donation by Frank and Pat Fagan. Frank, Pat and their two sons, Andrew and Richard are graduates of Memorial University of Newfoundland. Frank and Pat have spent their lives involved in community activities to enhance the lives of the people of the province of Newfoundland and Labrador. As a family, they believe strongly in the importance of education as well as community involvement and volunteerism. The Fagan family wants to express their gratitude for the quality of education they all attained at Memorial University of Newfoundland and the opportunities this has afforded them.

This prestigious scholarship will be awarded annually to an academically outstanding (top 10 in the class) student who has completed the Preclerkship component of the M.D. program and who demonstrates a significant record of community leadership, prior to entry or during the medical program. Only residents of the province of Newfoundland and Labrador are eligible to apply. The scholarship will be paid out to the recipient in two installments, one after completion of second year and one during the third year of medical studies. The recipient will be known as the 'Fagan Family Scholar'. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Dean, Faculty of Medicine, and based on an application to be submitted by January 31 of the second year of medical studies. The Office of Student Affairs, Medicine will receive applications and assist the Dean with the selection.

**The Dr. Bruce A. Fraser Award for Clerkship Electives**

This award is made possible by a bequest from the estate of Dr. Bruce A. Fraser who was professor of Anatomy, Faculty of Medicine, Memorial University of Newfoundland from 1979-1992. The award, valued at the annual accrued interest on the endowment, is available to two (2) medical students doing clerkship elective in the United Kingdom and/or Ireland. Selection will be made on the basis of scholarship standing, financial need, and personal reference/interview. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine. A special application is required for this award and is available at the Student Affairs Office, Faculty of Medicine. Deadline for submission of applications is May 31st in any given year.

**The Dr. Henry Gault Memorial Scholarship**

Friends and colleagues of the late Dr. Henry Gault have established this scholarship in his memory. Dr. Gault had an international reputation in nephrology research, and was instrumental in building a strong program of clinical and research nephrology at the General Hospital and the Faculty of Medicine. Valued at a portion of the income on the investment, one or more, scholarships will be awarded at the end of the fourth year of undergraduate medical studies to a student who has demonstrated both interest in clinical research and academic excellence within Internal Medicine. Applications are available from the Student Affairs Office, Faculty of Medicine. Deadline for submission is January 31st. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

**The Dr. Peter Grant Memorial Scholarship**

This scholarship, valued at a portion of the income from the endowment, has been established through generous gifts from the classmates, friends and family of Dr. Peter Grant, Medicine class of 1994, to honor his enduring spirit. The scholarship will be awarded annually, based on scholarship standing and financial need, to a second year medical student who has contributed greatly to the class spirit. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries, and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

**The Dr. David G. Greenland Memorial Bursary in Family Medicine**

This bursary, established through a generous contribution from Heather Greenland in memory of her late husband, Dr. David G. Greenland, is valued at \$2,500 per annum. Dr. Greenland loved to mentor new doctors and was heavily involved in continuing medical education in Grand Falls, NL for many years prior to passing away in 2005. The bursary will be awarded to a full-time undergraduate student in the Faculty of Medicine with demonstrated financial need and in good academic standing. To be eligible, students must be in their third year of study or beyond and have demonstrated dedication to the practice of family medicine by indicating the intention to go into Family Medicine residency. Preference will be given to students from central Newfoundland as defined by the University. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

**The Dr. Wulf Grobin Memorial Scholarship in Medicine**

This scholarship has been established by Ida Parsons in memory of Dr. Grobin, a compassionate physician and humanitarian. Dr. Grobin was born in Latvia and studied in Switzerland, England and Scotland before moving to Newfoundland. He practised medicine in Brooklyn, Bonavista Bay from 1938-1943 and St. John's from 1945-1958 when he moved with his family to Toronto. There he continued his medical career in the area of diabetes and the elderly. He had many varied interesting medical and personal experiences as an outdoor doctor, and developed a great warmth and affection for Newfoundland and Newfoundlanders, which lasted until his death in March of 2001. Valued at the accrued interest on the initial endowment and based on academics and financial need, the scholarship will be available to a student at the end of their first year in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

**The Dr. Abdalla M. Hanna Memorial Bursary in Medicine**

Named in memory of Dr. Abdalla M. Hanna, a well known surgeon in St. John's, this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is a resident of Newfoundland and Labrador and who is in financial need. Valued at a portion of the income on the endowment, the bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

**Donald and Elizabeth Hillman Prize in Pediatrics**

This Prize is to be awarded to the most outstanding student in Pediatrics in the Clinical Clerkship Year (Third-Year Medical Studies). The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the

Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Dr. Laura Hiscock Memorial Bursary**

This bursary, valued at a portion of the income from the endowment, has been established through generous gifts from the classmates, friends and family of Dr. Laura Hiscock, Medicine class of 1992, in memory of Laura's life and to honour her enduring spirit. Laura was passionate about life and had an outstanding ability to maintain balance between work and leisure. She was devoted to family and enjoyed helping and encouraging others; she supported other people and enjoyed celebrating their accomplishments, it seemed, as much as her own. She excelled at sports but was also an outstanding "sportsman", with a belief that doing your best was what really mattered. The bursary will be awarded annually to the Memorial University of Newfoundland medical student who, in addition to demonstrated financial need, best demonstrates the qualities Laura embodied: passion for life, devotion to family, work-life balance, selflessness, support of others, and good sportsmanship. To be eligible students must be in their third year of medical studies or beyond. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs, Medicine will assist the Dean in his or her choice of an appropriate candidate.

#### **The Mary Honeygold Scholarship/Bursary**

Established in memory of Mary Honeygold by her family, this scholarship/bursary is to be awarded to a student enrolled in the Faculty of Medicine, Memorial University of Newfoundland, on the basis of academic merit and need. Preference will be given to a student who has stated and/or demonstrated an interest in practising medicine in rural Newfoundland upon graduation. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Marie T. Kennedy Bursary**

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least \$5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student, in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

#### **The Dr. J.H. King Memorial Scholarship in Medicine**

This scholarship, valued at \$500.00, has been donated to the University by Mrs. Gertrude King, widow of Dr. J.H. King, Specialist in Eyes, Ears, Nose and Throat, who practised in Corner Brook for more than thirty years (1947-1978). The scholarship is open to students in second year of Medicine at Memorial University of Newfoundland who demonstrate the most promise. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Dr. Kevin Keough Medical Entrance Scholarship**

This scholarship, valued at a portion of the income on the endowment, has been established through a generous donation by Dr. Ming Jarm Lau, MUNMed Class of 1982. The scholarship is named after Dr. Kevin Keough who was the supervisor of Dr. Ming Jarm Lau for his Master's Thesis in Biochemistry (1978). Dr. Kevin Keough should be remembered as a Professor who believes in bringing out the best in his students and mentees. He has done this by his own example of forever challenging himself and by taking his mentees' best interests to heart. This prestigious entrance scholarship will be awarded annually to an academically outstanding (minimum scholarship standing) student upon entry to first year studies in the Faculty of Medicine. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean, Faculty of Medicine.

#### **The Nichole Michelle Lane Cancer Research Scholarship**

This scholarship is provided through the generosity of the Candlelighters Association of Newfoundland and Labrador in memory of Nichole Michelle Lane. It is awarded annually to a second-year medical student enrolled at Memorial University of Newfoundland who has undertaken the most outstanding summer research project in the area of cancer and particularly in the area of pediatric cancer. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Dr. Janice E. Lessard Scholarship in Geriatric Medicine**

This Scholarship is awarded annually from income derived from an endowment donated by Dr. Janice E. Lessard, an alumna of Memorial University of Newfoundland, Faculty of Medicine and a practising Gerontologist, Toronto. It is to be awarded annually to a student who has completed third year of medical studies. The student will have demonstrated a desire to improve the functional and social well-being of the frail and elderly.

This award, in the amount of \$1,000.00, will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

#### **The Medical School Essay Undergraduate Award**

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any undergraduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships. Awards are also available to postgraduate and graduate students in the Faculty of Medicine.

#### **The Medical Practice Associates Scholarship for Academic Achievement**

Medical Practice Associates, the business association of all full-time clinical faculty members in the Faculty of Medicine, offers three prestigious undergraduate scholarships annually. These scholarships are valued at \$1,500.00 in Medicine Year 1 and Year 2 and \$2,000.00 in Medicine Year 4. They are awarded to the student earning the highest overall grades in each of the 1st, 2nd, and 4th years of undergraduate medical studies. The Medicine Year 4 scholarship will be awarded to the recipient of the University Medal for Academic Excellence in Medicine. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The Effie and Leander Mercer Scholarship**

The scholarship was established by Dr. Jean Mercer in honour of her parents, Effie and Leander Mercer. Valued at the annual interest on the endowment, an award will be made alternately to a third year student in Medicine, Engineering and Post-Secondary Education (formerly Vocational Education). In any given year, if no student is eligible in the designated faculty it may be awarded to a student in one of the other two faculties. The successful student must have done most of his/her studies as a mature student. It will be awarded by

the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation of the respective Dean. Financial need must also be taken into account.

#### **The Gordon Mercer Rural Medicine Bursary**

Named for the Founding Officer for Student Affairs in the Faculty of Medicine (1972), this bursary is awarded to a student entering first year studies in the Faculty of Medicine who is from a rural community (as defined by the university) in Newfoundland and Labrador and who is in financial need. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine.

#### **The John M. and Elsa S. Morgan Scholarships**

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

#### **The Dr. Charles Nardini Memorial Award**

This award was initiated by the Class of 1986 in memory of a classmate who was tragically killed in a skidoo accident in the Spring of 1986. Valued at approximately \$500.00 annually, it will be given to a fourth year medical student who has scholarship standing. He/she should be selected by his/her classmates and judged as follows: The student who best exemplified the characteristics of leadership, friendliness, good humour, care and concern for fellow students and patients.

Selection will take place after completion of fourth year. The student will be nominated by classmates and recommended on the basis of a majority vote. Preference, when possible will be given to students from Labrador. The recommendation must be submitted to the Dean's Advisory Committee on Awards, Bursaries and Scholarships, Faculty of Medicine. It will then be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

#### **The Dr. Francis L. O'Dea Scholarship**

This scholarship is established to commemorate the memory and work of Dr. Francis L. O'Dea in the field of Obstetrics and Gynecology, and is valued at a portion of the income on the investment. It is awarded annually to a third-year student in the Faculty of Medicine at Memorial University of Newfoundland, whose special interest lies in the area of Obstetrics and Gynecology. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Dean of Medicine and a Faculty Selection Committee.

#### **Mary E. Pedersen, M.D. Scholarship in Medicine**

This scholarship is made possible by a generous donation from Mary E. Pedersen, B.Sc., B.Med.Sc, M.D., CCFP, ABFP, FAAF. Five scholarships, valued at \$1,000.00 each, will be awarded annually, based on scholarship standing, to second year undergraduate medical students at Memorial University of Newfoundland. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

#### **The Pathology Prize**

This prize is awarded by the Pathology Department to the second-year student in the Faculty of Medicine whose performance in the General and Systems Pathology courses is considered by the members of the Discipline of Pathology to be most distinguished. The prize was initiated in 1984 by the members of the Discipline in recognition of the distinguished contributions by Dr. S.N. Huang, a previous Chairman of the Discipline, to Pathology and to medical education at Memorial University of Newfoundland. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **The William and Frances Pound Scholarship**

This scholarship is the result of a donation to the *Opportunity Fund* by Alumnus, Dr. Bernard Kai Fai So of Hong Kong. It is in recognition of the kindness and generosity shown to Dr. So by Mr. And Mrs. Pound during his years as a student at Memorial University of Newfoundland. Valued at the annual interest on the endowment, it will be awarded annually to a medical student at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Medicine.

#### **The Dr. Calvin N. Powell Bursary in Medicine**

This bursary, which was established by Dr. Powell, is valued at \$1,000.00. It will be awarded annually to a student entering the third or fourth year of medical studies at Memorial University of Newfoundland on the basis of scholarship standing and demonstrated financial need. The recipient will hold no other concurrent award. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

#### **The Harry Roberts Prize in Pharmacology**

In recognition of the contribution made to the community and to the medical profession by Dr. H.D. Roberts, Elizabeth Drugs Limited offers an annual prize of \$200.00 to the medical student who has shown academic excellence in the field of Pharmacology. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the decision of the Dean of Medicine's Advisory Committee on Awards, Bursaries, and Scholarships.

#### **The Dr. J.B. Roberts Memorial Scholarship**

Friends and colleagues of the late Dr. J.B. Roberts have established this scholarship in his memory. It will be awarded annually to a medical student for the most outstanding performance in second year clinical skills. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean, Faculty of Medicine.

**The Ryan Scholarship**

This scholarship, established by Helen Ryan in memory of family members, Mary B.H., Thomas Sr., Thomas Jr. and Mary, is valued at a portion of the accrued interest on an endowment. Based on scholarship standing and financial need it will be awarded annually to a student in the Faculty of Medicine. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Medicine.

**The Morris and Graham Wilansky Memorial Award**

This award has been established through a generous donation by family and friends of Morris and Graham Wilansky, in their memory. The scholarship will be awarded annually to the second-year medical student who has achieved highest academic excellence in the Neurosciences course. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Medicine.

## 4.7 Faculty of Science

The following are available to Faculty of Science students based on a recommendation from the Dean, Faculty of Science or the appropriate Director or Department Head.

**The Dr. H.J. Anderson Departmental Awards in Chemistry**

Four awards have been established through the Department of Chemistry to honour retired Faculty member and Professor Emeritus, Dr. H.J. Anderson. The recipients of these awards will have demonstrated academic excellence in Chemistry courses, Best Marks in Chemistry 2400 and 2401, Best Third Year Performance by a Chemistry Major, Second Best Third Year Performance by a Chemistry Major, and Best Fourth Year Performance by a Chemistry Major (not receiving a convocation award). These awards will be presented in May and June of each year based on the most recent year's academic performance. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Chemistry.

**The Hugh J. Anderson Chemistry Scholarship**

The scholarship is valued at \$5,000, and is provided via a contribution to Memorial University of Newfoundland by Mr. Darryl Fry. It will be awarded on the basis of scholarship standing to residents of Newfoundland and Labrador who have completed first year chemistry at Memorial University of Newfoundland and are declared majors in Chemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Head, Department of Chemistry.

**The Dr. Cater W. Andrews Scholarship**

This scholarship, valued at a minimum of \$1,000.00, the gift of former students and colleagues of the late Dr. C.W. Andrews, is awarded to a Memorial University of Newfoundland student graduating with a B.Sc. in Biology who plans to pursue graduate work at Memorial University of Newfoundland in marine and/or freshwater biology. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Biology Department. In making the selection, exceptional industry and interest in the field, together with scholarship standing, will be the main criteria taken into account.

**The Astrazeneca Undergraduate Scholarship**

This scholarship, valued at \$4,000.00 annually, has been established by AstraZeneca Canada Inc. It will be awarded to Bachelor of Science students in their final year of the Honours program. It will be awarded on an annually rotating basis between Biology, Biochemistry and Chemistry respectively. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head of the appropriate department.

**The Atlantic Canada Marine Biodiversity Essay Contest Tuition Scholarship**

Memorial University of Newfoundland is a participant in the Atlantic Canada Marine Biodiversity Essay Contest which is operated by the Centre for Marine Biodiversity. This contest is open to Grade 12 students from across Atlantic Canada. The first prize winner receives a waiver of tuition fees for two semesters if he or she attends Memorial University of Newfoundland. The two runners up receive partial waiver of tuition fees if they attend Memorial University of Newfoundland. Students are notified of their status in the Essay Contest by the Centre for Marine Biodiversity and the successful candidates are informed of their tuition scholarship by the university, after the Centre for Marine Biodiversity informs the university of the contest winners. Further information can be found on the web site of the Centre at [www.marinebiodiversity.ca](http://www.marinebiodiversity.ca). The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Dean, Faculty of Science.

**The Atreya-Haritha Scholarship in Mathematics**

This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at \$1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

**The Au Family Scholarship in Biochemistry**

This scholarship is valued at the interest accruing annually on an endowment given to Memorial University of Newfoundland by the Au family. It is open to students entering their final year of study in the Biochemistry program who, during their studies, combined a record of high academic achievement and scholarship standing with active involvement in extracurricular activities within the University, including athletic prowess at the varsity level. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

**Donald and Evelyn Barton Chemistry Scholarship**

This scholarship is the result of an endowment to Memorial University of Newfoundland in memory of Dr. Donald Barton who was a faculty member with the Department of Chemistry from 1962 to 1992. This scholarship, valued at a portion of the annual income, will be awarded to a student majoring in Chemistry who is beyond their first year of study and who has demonstrated scholarship standing. It will be awarded by the Senate committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry in consultation with the Chemistry Department Scholarships Committee.

**The Bennett/Khan Bursary in Biology**

This bursary is made possible through a fund established by an anonymous donor in honour of Dr's Gordon Bennett and Rasul Khan. Valued at the interest on the initial endowment, it will be awarded annually to a full time student beyond second year who is majoring in Biology with particular reference to parasitology or another branch of invertebrate zoology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

**The E.A. Bishop (1889-1953) Memorial Scholarship**

This scholarship, established to honour the memory of E.A. Bishop, a teacher in Newfoundland and Labrador, is the result of a generous donation to Memorial University of Newfoundland by his son, John. Interest on the fund will provide a scholarship to full-time undergraduate students after completion of their first year at Memorial University of Newfoundland who are dependants of teachers in

the public school system of Newfoundland and Labrador. Applicants must be students in the Faculties of Arts or Science and be of scholarship standing. The scholarship is valued at approximately two semesters tuition for five courses. If, in any year, there is no eligible candidate, the scholarship will not be awarded; however, a student may be awarded the scholarship more than once. It will be awarded on the basis of a special application which may be obtained from the Scholarships, Bursaries and Awards office, room 4018, University Centre, telephone (709) 737-3956.

#### **W.J. Blundon Scholarship**

The W.J. Blundon Scholarship, in memory of Professor W.J. Blundon, Head of the Department of Mathematics and Statistics from 1948 to 1976, will be awarded on the basis of academic excellence to students majoring in Mathematics and/or Statistics. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Mathematics and Statistics.

#### **BP Canada Energy Company Scholarships in Earth Sciences**

These Scholarships, the gift of BP Canada Energy Company, are valued at \$2,500.00 each annually and are awarded to two students in the Earth Sciences program at Memorial University of Newfoundland. One scholarship will be awarded to a student in Geology and one to a student in Geophysics. Normally students must be registered full-time in the semester for which these scholarships are granted, however, in the case of a student who has met all academic requirements for their Honours degree, except the Honours dissertation, part-time registration will be accepted. Candidates must have demonstrated high academic achievement, and expressed an interest in oil and gas exploration and development through their choice of courses and/or dissertation subjects. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

#### **The Dr. S. W. Breckon Scholarship in Physics**

This scholarship, valued at \$1000.00, is the gift of former students and colleagues of Dr. Breckon and is awarded to the full-time honours Physics student who has the best overall academic performance upon completion of the third or fourth year honours Physics program and subsequent enrollment in the following year.

The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Department of Physics. Applications should be directed to the Head of the Department of Physics.

#### **The Murray H. Brooker Scholarship for Excellence in Chemistry**

The scholarship is valued at the annual interest on an endowment established in memory of Dr. Murray H. Brooker who was a professor in the Department of Chemistry when he passed away in 2000. It will be awarded to a student who is beyond first year at Memorial University of Newfoundland, who is a declared major in Chemistry and who has been accepted to work in a Chemistry Laboratory for the current/upcoming summer. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

#### **The Dr. Werner D. Bruckner Scholarship**

This scholarship, valued at \$500.00, honours the memory of Werner D. Bruckner, Head of the Department of Geology at this University from 1959 to 1968, J. P. Howley Research Professor from 1968 to 1977 and Professor Emeritus, 1978. It is awarded annually to an undergraduate student majoring in Earth Sciences. The award will be based upon scholarship standing but, in recognition of other concerns held as particularly important by Dr. Bruckner, financial need and qualities of character will also be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

#### **The Bruton Scholarship Fund**

Dr. F.A. Bruton, friend and colleague of J.L. Paton, taught Nature Study to teachers in three successive Memorial University College summer schools, from 1926-28, at Paton's request. At his death in 1930, Dr. Bruton made a bequest to the College from which two Bruton Scholarships are awarded. These scholarships, valued at \$500.00 each, are awarded annually to students who have demonstrated interest in Plant Biology. One award will be available to a student majoring in Biology whose special interest is in the field of Plant Biology. The second award will be available to an Education student whose main area of interest is in the teaching of science, in particular, plant biology. In the absence of a suitable candidate from the one department, two awards may be made by the other department in accordance with the above conditions. Academic ability and financial need will be taken into consideration in making these awards. They will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the department concerned.

#### **Buchans Scholarship Fund of ASARCO Incorporated**

ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for post-graduate study and research, valued at \$5000.00; or two scholarships for undergraduate study, valued at \$500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

#### **The Chevron Canada Resources Scholarship in Geology and Geophysics**

This scholarship, valued at a portion of the annual income on an endowment created at Memorial University of Newfoundland by Chevron Canada Resources, will be awarded annually to an undergraduate 3rd or 4th year student studying Geology or Geophysics in the Department of Earth Sciences. It will be awarded on the basis of scholastic standing and financial need to a student who graduated from a high school in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

#### **The Churchill Falls (Labrador) Corporation Limited Science Scholarship**

These scholarships valued at approximately \$2,500.00 each annually, are the result of an endowment to *The Opportunity Fund* by the Churchill Falls (Labrador) Corporation Limited. They will be awarded to second year students or beyond entering the Faculty of Science. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science. All else being equal, preference will be given to students from Labrador.

#### **The Canadian Society for Chemistry 1996 Conference and Exhibition Scholarship**

This scholarship, valued at the annual interest on the initial endowment, was established in recognition of the efforts of the Organizing Committee and the over 100 volunteers for the 1996 Canadian Society of Chemistry Conference which was hosted by Memorial University of Newfoundland. This scholarship will be awarded annually to a student in Chemistry based on the results of the National CIC Chemistry examinations or its successors. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

**The Captain James Cook Memorial Scholarship**

A fund was established in 1979 by members of the Department of Geography to honour the memory of Captain James Cook (1728-79), explorer, navigator and cartographer, whose years of painstaking mapping of the coasts of Newfoundland and Labrador laid the basis for a comprehensive and scientific knowledge of the geography of the province.

One or more scholarships, valued at not less than \$600.00, will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Department of Geography to a student or students demonstrating particular merit in Geography.

**The Dr. Douglas L. Cooper Memorial Scholarship**

This scholarship fund has been established in honour of Dr. Cooper who was the first department head of Chemistry at Memorial University of Newfoundland. The fund will provide several scholarships valued at a minimum of \$1,500.00 each annually. They will be awarded to Chemistry students entering their third year of a Bachelor of Chemistry program (General or Honours). If there are not enough eligible third year students in a given year, it will be open to those in their fourth year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Chemistry.

**The Ernst R. Deutsch Memorial Scholarship in Geophysics**

This scholarship is named in honour of Dr. Deutsch, a long-time faculty member at Memorial University of Newfoundland who passed away in 2000. Valued at a portion of the income on the investment the scholarship will be awarded annually to a senior undergraduate student in the Earth Sciences (or related field of Physics) whose concentration is Geophysics. If there is no qualified undergraduate student, the scholarship will be awarded to a full-time graduate student in Earth Sciences who has received an undergraduate degree from Memorial University of Newfoundland and whose area of concentration is Geophysics. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences in the case of an undergraduate student; in the case of a Graduate Student it will be awarded by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences.

**The Faculty of Science Opportunity Fund Scholarship**

This scholarship is the result of an endowment created from several general donations to the *Opportunity Fund* by various alumni and friends of the University and in particular of the Faculty of Science. Valued at the annual interest on the endowment, it will be awarded annually to a student beyond first year in the Faculty of Science at Memorial University of Newfoundland on the basis of scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Science.

**Dr. L.A.W. Feltham Scholarship**

This scholarship began with fundraising within the Biochemistry Department during the 1996 *Opportunity Fund* Campaign. It is named for Dr. Feltham, the founding head of the department. The interest on the endowment will provide a scholarship for a student in the B.Sc. Program in Biochemistry. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student beyond second year on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

**The Daniel Freeman Memorial Scholarship**

This scholarship was established from the contributions of many family members, friends, and fellow students in memory of Danny Freeman, a former Engineering student at Memorial University of Newfoundland. The scholarship, valued at a portion of the accrued interest, will be awarded annually, on a rotating basis, to students enrolled in either Engineering or Mathematics. Preference will be given to candidates with disabilities with consideration given to quality of character and overall perseverance. If a successful candidate is not recommended by the discipline on rotation in a given year an eligible student from the other discipline may be awarded the scholarship for that year. If no candidates are available from the first group any student enrolled in either Engineering or Mathematics (discipline to be determined by the rotation schedule in a given year) will be considered. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering or the Head, Department of Mathematics and Statistics.

**The Dr. Patricia Giovannetti Memorial Bursary**

The Newfoundland and Labrador College of Dietitians sponsors this Bursary of \$600.00 awarded annually to a student completing the second year of the Dietetics program in the Department of Biochemistry at Memorial University of Newfoundland and who is attending Acadia University the following year. The scholarship will be awarded on the basis of scholastic standing and financial need, to a student who is planning to enter a dietetic internship program upon graduation. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of the Biochemistry Department.

**The Samuel, Millicent and Thomas Grandy Memorial Scholarship**

This scholarship, established in 1998 by the Grandy Family to honour the memory of their parents, will be valued at a portion of the annual accrued interest on the initial endowment. It will be awarded on the basis of scholarship standing and demonstrated aptitude and potential in the science of computing to an undergraduate student beyond first year in full time study of the Computer Science program (declared major for B.Sc.) at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Computer Science.

**Greystone Managed Investments Scholarship**

This scholarship, valued at a portion of the income on the investment, is made possible by a generous contribution from Greystone Managed Investments. This scholarship will be awarded, to an undergraduate student beyond first year, on a rotating basis between the Faculty of Science and the Faculty of Arts. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of the Faculty on rotation.

**Dr. Byron Hynes Memorial Scholarship**

Friends of Dr. Byron Hynes have established this scholarship in his memory. It is valued at \$1,000.00 and will be awarded on an annually rotating basis to a student majoring in either Economics or Geology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the head of the appropriate department.

**The Marie T. Kennedy Bursary**

In her will, Ms. Marie Theresa Kennedy left a bequest to Memorial University of Newfoundland to allow one or more bursaries of at least \$5,000.00 to be awarded annually. To be considered, a candidate must be a full-time undergraduate student, in any year of study, majoring in Science or Medicine - it will be awarded on a rotating basis. Students receiving scholarships or bursaries from other individuals or institutions, for the same scholarship year, will not be eligible. The bursary will be awarded on the basis of need and academic effort by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the appropriate Dean.

**The Dr. B.K. Kim Scholarship in Statistics**

This scholarship will be awarded annually to an undergraduate student whose major subject of study is Statistics. The award honours

the memory of the late Dr. B.K. Kim who taught in the Department of Mathematics and Statistics from 1976-84. The scholarship, with a value of at least \$500.00, will normally be based on academic achievement in third year and/or fourth year courses and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

#### **The John Kingston Memorial Scholarship**

This scholarship, valued at \$600.00, was established in memory of John F. Kingston, a former member of the faculty of the Department of Chemistry at Memorial University of Newfoundland. It will be awarded annually to a student majoring in Chemistry, who has completed at least 18 credit hours in Chemistry courses, on the basis of academic merit and financial need. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Chemistry.

#### **The Dr. Chu-in Charles Lee Scholarship**

This scholarship is established through generous contributions by family, friends, students, professors and the academic community in memory of Dr. Chu-in Charles Lee, who served as Deputy Head of the Department of Mathematics and Statistics for many years. Valued at a portion of the income on the endowment, the scholarship will be awarded on the basis of scholarship standing to senior full-time undergraduate students in their 3rd or 4th year majoring in Mathematics and/or Statistics. To be considered, candidates must take a minimum of four (4) senior Mathematics and /or Statistics courses in a given year with preference given to the student who achieves the highest average on these courses. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head of the Department of Mathematics and Statistics.

#### **The Julius and Bella Levkovitz Memorial Scholarship**

This scholarship is awarded out of income derived from a bequest to Memorial University of Newfoundland by the late Mrs. Bella Levkovitz. From this income a scholarship of not less than \$700.00 is to be awarded as often as possible to an outstanding student in second, third or fourth year, or graduate studies in Pure or Applied Science at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Dean, Faculty of Science.

#### **The LGL Limited Scholarship in Marine Science**

This scholarship, valued at \$3,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

#### **The Hugh Lilly Memorial Scholarship**

This scholarship, presently valued at a minimum of \$3000.00 per annum, will be awarded to the most promising graduate in the Geosciences at Memorial University of Newfoundland who is continuing studies at the post-graduate level, here or elsewhere. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. Selection of the winning candidate will rest with the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Earth Sciences Department.

#### **The Hugh Lilly Undergraduate Scholarship**

This scholarship, valued at \$300.00 per annum, will be awarded to an undergraduate student entering the third year of studies in a Geology major program. The award honours the memory of the late Hugh Lilly, an instructor in the Earth Sciences Department. In making the award, academic achievement, character and financial need may be taken into consideration. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Earth Sciences Department.

#### **The Loughney-Brosnan Scholarship in Biochemistry**

This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by the Loughney family. It is open to an undergraduate student studying the honours program in Biochemistry at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the Biochemistry (Honours) Program. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

#### **The William Kenneth Macleod Scholarship**

This scholarship is the result of a donation to Memorial University of Newfoundland in 2002, in memory of Mr. MacLeod. Mr. MacLeod was a recipient of the Provincial Government Senior Jubilee Scholarship in the early 1930's. The scholarship will be valued at the annual interest on the endowment and will be awarded to a Newfoundland and Labrador undergraduate student who has a recognized disability (physical or learning). The scholarship will be awarded on the basis of scholarship standing to a student in the Faculty of Science. Where possible, preference will be given to financially needy students as determined by the University. In a year when a student meeting the above criteria cannot be identified, the scholarship may be awarded to any undergraduate student who demonstrates need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of an application.

#### **The Mrs. E.D. Matthews Memorial Scholarship in Mathematics and Statistics**

This scholarship honours the memory of the late Mrs. Evelyn Matthews who taught in the Department of Mathematics and Statistics, Memorial University of Newfoundland, from 1959-78. It has a value of at least \$500.00, and will be awarded on an annual basis to an undergraduate student whose major subject of study is Mathematics or Statistics. The scholarship will be based on academic merit and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Mathematics and Statistics.

#### **The Carmen and Olive Mews Chemistry Scholarship**

This scholarship is the result of an endowment to Memorial University of Newfoundland from the estates of Carmen and Olive Mews. Carmen Mews enjoyed a long career with the Department of Chemistry. He and his wife Olive, both of whom were keenly interested in the welfare of undergraduate students, wished to endow a scholarship to support a student majoring in Chemistry. This scholarship, valued at a portion of the annual interest, will be awarded to a student beyond their first year of study who has demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Head, Department of Chemistry.

#### **The Grace Morgan Scholarship in Nutrition**

This scholarship is valued at the interest accruing on an endowment given to Memorial University of Newfoundland by Mrs. Grace Morgan. It is open to an undergraduate student studying nutrition at Memorial University of Newfoundland and will be awarded on the basis of scholarship standing. Preference will be given to a student entering the final year of the nutrition program. It will be awarded by

the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biochemistry.

#### **The Dr. George Moskovits Award**

This award is made possible through a fund established by former students and colleagues of Dr. George Moskovits to honour his retirement from the Department of Biology in 1984. The award is valued at \$200.00 and will be made annually to a full-time senior student who has shown outstanding performance in the field of cell biology/microbiology. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biology.

#### **The E.R.W. Neale Undergraduate Scholarship of the G.A.C. (Newfoundland Section)**

The E. R. W. Neale Undergraduate Scholarship is offered annually by the Newfoundland Section of the Geological Association of Canada. The scholarship is open to declared majors in Earth Sciences at Memorial University of Newfoundland. One scholarship valued at \$1000 will be offered annually, on the basis of academic achievement, financial need and character. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

#### **The Newfoundland Gardening Scholarship**

This scholarship is the result of proceeds from the sale of a book by Dr. Peter J. Scott entitled *Newfoundland Gardening*. It will be awarded annually to a Biology student who is graduating and intends to pursue a career in plant biology. In the event that such a candidate is not available, it will be awarded to a second year Biology student from Memorial University of Newfoundland going on to study horticulture. The scholarship will be valued at the interest accruing on the initial endowment and will be awarded on the basis of scholarship standing by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Biology.

#### **The Newfoundland Home Economics Association Scholarship**

This scholarship, valued at \$800.00, will be awarded annually to a student enrolled in the Dietetics Program at Memorial University of Newfoundland, preferably to a student in the second year of the program. Where possible it will be given to an Honours candidate. This scholarship is tenable for one year and will be awarded on the basis of scholarship standing and financial need. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Biochemistry.

#### **The Newfoundland Margarine - Unilever Canada Scholarship**

This scholarship, valued at the annual interest on an initial endowment, will be awarded annually to a student enrolled in the Nutrition major in the Department of Biochemistry at Memorial University of Newfoundland. The award will normally be given to an honours student in his/her final year. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Biochemistry.

#### **The Newfoundland and Labrador Outfitter's Association Scholarship**

This scholarship, valued at \$500.00, will be awarded annually to a student in a science program at Memorial University of Newfoundland who is registered in at least his or her third year of studies. The scholarship recipient must plan to pursue an undergraduate academic program leading to a career in Inland Fisheries, Wildlife Management, Wildlife Biology, or a related field of study. The scholarship will be awarded on the basis of academic excellence. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate department head.

#### **The Noranda Scholarship**

This scholarship valued at the annual interest, has been established by the Noranda Foundation as part of the *Opportunity Fund* campaign. It will be awarded on an annually rotating basis between students in Earth Sciences and Engineering and Applied Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean/Department Head of the appropriate discipline.

#### **Oil and Gas Week Scholarship**

Valued at \$1,000 each, these undergraduate scholarships are established by a gift over three years from the organizers of Oil and Gas Week, a program of events held annually in St. John's, NL for the purpose of promoting the oil and gas industry. Two scholarships will be awarded each year. To be eligible, students must be enrolled full-time beyond the first year of an undergraduate program in the Department of Earth Sciences, the Faculty of Engineering and Applied Science, or the Faculty of Business Administration. Eligible candidates must also have scholarship standing and preference will be given to students who graduated from a high school in Newfoundland and Labrador outside of the metropolitan St. John's area. Each year the two recipients must be from different faculties, with each identified academic unit to be represented no more than twice in the three year period of the term of the fund. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on a recommendation from the appropriate academic discipline.

#### **The Dr. V. Stephen Papezik Scholarship**

This scholarship, valued at a minimum of \$1000.00, honours the memory of Dr. V. Stephen Papezik, Professor of Geology at Memorial University of Newfoundland from 1961 to 1984. It is awarded annually to an undergraduate student majoring in Earth Sciences whose specialization is closest to mineralogy.

The award will be based upon scholarship standing but in deciding on candidates of equal scholastic attainment, need may be the deciding factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

#### **The Bruce Pardy Family Scholarship**

This scholarship, valued at the annual interest on an endowment, has been established by the Pardy Family. It will be awarded annually to an undergraduate student in the Faculty of Science. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Dean, Faculty of Science.

#### **The Maureen Penney Memorial Scholarship**

This \$400.00 scholarship, donated by the Geological Association of Canada, honours the memory of Maureen Penney, B.Comm.(MUN), who was Associate Secretary-Treasurer of the Geological Association of Canada from 1983 to 1989. It is awarded annually to a second- or third-year undergraduate student majoring in Earth Sciences. In making the award, academic achievement will be the primary consideration, but other factors, such as involvement in student activities, will be taken into account. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

#### **The Dennis R. Prince Memorial Scholarship**

The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a

distinguished career as a geologist with twenty-nine years at Falconbridge Ltd.

The annual scholarship, valued at \$2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander

Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

#### **Professional Engineers and Geoscientists Newfoundland and Labrador Past Presidents' Geoscience Scholarship**

This scholarship valued at a minimum of \$1,000.00 was established by the Professional Engineers and Geoscientists Newfoundland and Labrador. It is awarded annually on the basis of scholarship standing to a Geoscience student at Memorial University of Newfoundland. It is open to either graduate or undergraduate students in any given year and will be allocated as such at the discretion of the Department Head. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Earth Sciences in consultation with PEGNL. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Earth Sciences, in consultation with PEGNL.

#### **Rees Scholarship**

This scholarship, funded by Memorial University of Newfoundland alumnus Michael Rees (B.Sc. '99), is awarded annually to a student entering their second year of full-time undergraduate studies majoring in Earth Sciences at Memorial University of Newfoundland. The scholarship is valued at \$1,000 and will be awarded to a Newfoundland and Labrador high school graduate solely on the basis of scholastic achievement (minimum of scholarship standing). It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head of the Department of Earth Sciences.

#### **The Rotary Club (St. John's Northwest) Scholarship**

This scholarship has been established by the Rotary Club of St. John's Northwest. It is valued at \$1,000.00 annually and will be awarded to a full-time student beyond first year, pursuing a Bachelor of Arts or a Bachelor of Science with a major in one of the Social Sciences, who has demonstrated a commitment to community service. The recipient of this scholarship will be a long-term resident of Newfoundland and Labrador who completed high school in this province and will have demonstrated scholarship standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the joint recommendation of the Dean of Arts and the Dean of Science. This scholarship will be presented at one of the regular meetings of the Rotary Club of St. John's Northwest and the recipient will be asked to speak about their goals and community service work.

#### **The Roberta H. Sellars Scholarship**

This scholarship is the result of an endowment by the Rev. Walter C. Sellars in recognition of his wife Roberta for her loyal and loving support, particularly while he was struggling through university. The scholarship will be awarded annually to a full-time student in any year in either the Faculty of Arts or Science on a rotating basis. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on scholarship standing and financial need and upon the recommendation of the appropriate Dean.

#### **The Rick Sheppard Memorial Scholarship**

This scholarship, valued at \$500.00 has been established by the friends and colleagues of Rick Sheppard, a graduate of Memorial University of Newfoundland (Geology-Class of '81), who died in the Ocean Ranger Disaster. The award is open to undergraduate students majoring in Geology. Academic standing, financial need and active participation in the Alexander Murray Geological Club will be taken into consideration in selecting candidates. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Head, Department of Earth Sciences.

#### **The James (Jay) Stackhouse Memorial Scholarship**

From a sum of money donated to the University by the friends of the late James (Jay) Stackhouse, a geologist who graduated from this University in 1976, a scholarship has been established for students majoring in the Earth Sciences at Memorial University of Newfoundland. Undergraduate students in their penultimate year of the program may apply. The value of the award will be determined by the annual interest earned on the fund. The scholarship will be awarded at the end of the fall semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Head, Department of Earth Sciences.

#### **Statistical Society of Canada Scholarship**

This scholarship has been established by a generous donation from the Statistical Society of Canada. It is based on scholarship standing and is awarded to an undergraduate student in any year of study who is majoring in Statistics and meets the minimum academic requirement for a scholarship. The scholarship will be valued at \$750. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of the Department of Mathematics and Statistics.

#### **The Sun Life Financial Scholarship in Applications of Technology**

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Principal of Sir Wilfred Grenfell College.

#### **The Eric A. Swanson Scholarship in Earth Sciences**

This scholarship, valued at \$3,000.00, is established by Eleanor Swanson in honour of her father, Eric. It will be awarded annually to a student in the Faculty of Science, who is following a program of studies in Earth Sciences. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Head, Department of Earth Sciences.

#### **Teck Scholarships in Earth Sciences**

These scholarships are made possible by a generous contribution by Teck Resources Limited, a Canadian mining company. Two scholarships are available annually to full-time undergraduate students majoring in Earth Sciences: one for a student in the third year of

the program and the other for a student in fourth year. To be eligible, candidates must have scholarship standing and must demonstrate strong leadership skills, superior communication skills and a commitment to community and citizenship. Interested applicants should provide to the Head, Department of Earth Sciences one academic and one non-academic letter of reference attesting to their strengths in these areas, along with a cover letter indicating their desire to be considered for the scholarship. Applications will be due by the end of September each year with recipients selected by November and scholarships awarded shortly thereafter. Applicants should contact the Department of Earth Sciences Main Office for specific deadlines. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Head, Department of Earth Sciences.

**Dr. Siegfried Thomeier Memorial Prize in Pure Mathematics**

The prize, the interest from a donation by an anonymous donor, is awarded to a fourth or fifth year student majoring in Mathematics with a concentration in Pure Mathematics. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Mathematics and Statistics.

**The Eugene Vincent Memorial Scholarship**

This undergraduate scholarship has been established by the Baie Verte-Springdale Branch of the Canadian Institute of Mining and Metallurgy, in memory of the late Eugene Vincent, a former President and active member of the Branch. The award, which has a value of at least \$300.00, will be restricted to residents of Newfoundland and Labrador who are enrolled beyond the first-year level of the Earth Sciences program at Memorial University of Newfoundland and who are intending to pursue careers in the mining field. Selection of a candidate will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences.

**The Robert Westcott Memorial Scholarship**

This scholarship was established by Mrs. Mary Westcott in memory of her late husband, Mr. Robert Westcott. It is valued at a portion of the annual interest on an endowment and will be awarded on a rotating basis to students beyond first year who have a strong commitment to post-secondary education and who are majoring in Business Administration and/or Economics. It will be based on scholarship standing and financial need and will be awarded to a student who was born in Newfoundland and Labrador. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean/Department Head of the appropriate discipline.

**The Dr. Howard Louis White Memorial Award in Chemistry**

This award is the result of a donation to Memorial University of Newfoundland from family members of the late Dr. White, class of 1941. It is awarded to a student majoring in Chemistry who is in 2nd year or beyond. Valued at the annual accrued interest on an initial endowment and based on academic standing, it is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting upon a recommendation from the Head, Department of Chemistry.

**The Jacques Whitford Newfoundland Geoscience Scholarship**

This scholarship, valued at the annual interest on their endowment, has been established by Jacques Whitford Environment Limited and Newfoundland Geosciences Limited as a contribution to the *Opportunity Fund Campaign*. It will be awarded on an annually rotating basis to students in the Faculty of Engineering and Applied Science (particularly Civil Engineering), the Faculty of Science (particularly Biological Sciences) and Archaeology. Successful candidates are to be of scholarship standing and preferably show an interest in environmental issues. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Dean/Director/Department Head of the appropriate discipline.

**The Williams Science Scholarships**

These scholarships valued at \$1,500.00 each are the result of an endowment started by Dr. Hank Williams. One scholarship from the fund shall be awarded to the most promising second year student entering the Earth Science Program and others, as the fund will allow, will be awarded to second year students entering the Faculty of Science. These scholarships shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Head, Department of Earth Sciences and the Dean, Faculty of Science respectively. In the event that there is no acceptable candidate in Earth Sciences Department in a given year, all scholarships for that year will be awarded to students in the Faculty of Science upon recommendation of Dean.

**The Dr. June G. Winter Memorial Scholarship**

This scholarship valued at the interest on the endowment was established in memory of Dr. June G. Winter, a former member of faculty in the Department of Chemistry. The scholarship will be awarded annually to a female student in her first year of chemistry studies and will be based on the results of the Chemical Institute of Canada (CIC) National Chemistry Examination. The scholarship is tenable only by students who attended school and wrote the CIC examination in Newfoundland and Labrador. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Chemistry.

**The Walker Wood Foundation Bursary in Science**

Valued at \$4,000 annually, this bursary is established as a result of a generous contribution from Sue and Neil Wood, friends of Memorial University of Newfoundland. The bursary is available to full-time undergraduate students who graduated from a high school in rural Newfoundland and Labrador and who are entering into their first year of study at Memorial University of Newfoundland with the intention to complete a Bachelor of Science degree. Eligible students must have demonstrated financial need, and preference will be given to candidates who also demonstrate that they are active in the community. The bursary is renewable for three additional years as long as the recipient formally majors in an area within the Faculty of Science, maintains a 70% average, good academic standing and full-time status. In the event that the recipient does not meet the criteria for renewal, the bursary will be transferred to a selected candidate in the corresponding year of study in the Faculty of Science. The bursary is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Science.

**Dr. James A. Wright Memorial Scholarship**

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Sir Wilfred Grenfell College. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Lee Wulff Scholarship**

A fund was established in 1991 to honour the memory of Lee Wulff (1905-1991), a renowned American sportsman, author, conservationist and environmentalist, who spent a considerable amount of time exploring the waters, barrens and woodlands of Newfoundland, promoting its abundant wildlife resources and supporting conservation. A single scholarship, valued at no less than \$1,500.00 will be awarded annually from this fund, to a third year Biology major wishing to pursue further studies in biological sciences, with emphasis on conservation and environment. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head of Biology and the Dean of Science and will be based on academic

excellence in biological sciences and a demonstrated interest in conservation and the environment.

## 4.8 School of Human Kinetics and Recreation

The following are available to students in the School of Human Kinetics and Recreation based on the recommendation of the Director.

### The Edward Patrick Browne Memorial Scholarships

In his will, Edward Browne, a distinguished and beloved member of the University community, and a life-long supporter of the growth and development of the sport of basketball at provincial and national levels, left a bequest to Memorial University of Newfoundland for the awarding of scholarships to students.

These scholarships are awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the advice of the Director of the School of Human Kinetics and Recreation.

### Frank T. Butler Memorial Scholarship

This scholarship was established in memory of Frank T. Butler, a committed and successful athlete, coach and sport administrator at Memorial University of Newfoundland. Frank Butler was the backbone of Memorial University of Newfoundland Athletics for close to 30 years and his contribution to sport at this University and in the province of Newfoundland and Labrador, has been felt at many levels. This scholarship will be awarded to support student-athletes in their pursuit of post-secondary study. Currently valued at \$1,000, the scholarship will be awarded to student-athletes who meet the requirements for scholarship standing and who best combine the values that Frank admired most: athletic commitment, academic success and contribution as an ambassador in the community. The scholarship will be open to all student-athletes who are current members of a varsity team at Memorial University of Newfoundland. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Athletics.

### The Nita Chambers (Sutton) Award

Nita Chambers (Sutton), a graduate of Stella Maris High School in Trepassey and Memorial University of Newfoundland in St. John's, was a spirited and talented participant in basketball at both the scholastic and intercollegiate levels. This award fund has been established in Nita's memory through the fund-raising efforts of her family, friends, colleagues, team-mates, and former instructors. Valued at a portion of the annual interest, it will provide financial assistance to deserving male and female student-athletes who have graduated from high schools in Newfoundland and Labrador and who compete for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. To be eligible for this fund students will be required to maintain a minimum cumulative average of 65% within the previous academic year of study at Memorial University of Newfoundland. Funds will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

### The CSEP/SCPE (Canadian Society for Exercise Physiology) Undergraduate Student Award

The CSEP/SCPE Undergraduate Award recognizes excellence in academic achievement among undergraduate students. It is offered in Canadian universities which offer an undergraduate degree in physical education, human kinetics, or related disciplines. It will be awarded to graduating students who achieve the highest academic standing in their undergraduate class in the scientific portion of their curriculum. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation. One award, in the form of an engraved medallion and a certificate, is granted annually at each university.

### Elizabeth Dale NLVA Scholarship

This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the female volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the female varsity volleyball team for both years. If an athlete receives a scholarship in her first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Director, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

### The Margaret (Mag) Davis Memorial Scholarship

This scholarship has been established in memory of Margaret (Mag) Davis, former graduate of Memorial University of Newfoundland, dedicated physical education teacher and well-known athlete who excelled in the sports of softball, field hockey, ice hockey, soccer, ball hockey, curling, squash and golf. Valued at a minimum of \$500 annually, it will be awarded to a female undergraduate student studying in the programs of the School of Human Kinetics and Recreation. In awarding this scholarship, preference will be given to students who have demonstrated athletic ability and scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Director, School of Human Kinetics and Recreation.

### The Marie and Paul Devlin Athletics Scholarship

This scholarship, valued at a portion of the annual income on the initial endowment, was established by Memorial University of Newfoundland alumnus, Dr. William Devlin. Dr. Devlin is a medical school graduate and a former varsity athlete at Memorial. In awarding this scholarship, preference will be given to undergraduate students who combine academic achievement, leadership and athletic prowess at the varsity level. This scholarship is tenable in all undergraduate programs at this University. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Director, School of Human Kinetics and Recreation.

### The J. Douglas Eaton Alumni Scholarship

This scholarship was established by the Alumni Association of Memorial University of Newfoundland to commemorate the 30th Anniversary of degree programs in the School of Human Kinetics and Recreation and to honour Dr. Eaton a former department head. The value of the scholarship will be determined by the interest accruing from the initial endowment. The scholarship shall be awarded to the student who attains the highest academic standing in the third year of the Bachelor of Physical Education, Bachelor of Recreation or Bachelor of Kinesiology. Recipients must also demonstrate commitment and service in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on recommendations from the Director of the School.

### Everest 2010 Mountain of Learning Experimental Education Award

This Award was established by TA Loeffler, faculty member in the School of Human Kinetics and Recreation, on the occasion of her second attempt on Mount Everest. The award, in honour of her grandmother, Frida Loeffler, celebrates Frida's lifelong love of learning. The award will be valued at a portion of the income on the endowment and will be awarded annually to a student who meets the minimum academic requirements for an award as defined by the University. The recipient may be enrolled in any one of the three cooperative education degree programs in the School of Human Kinetics and Recreation. To be eligible for this award, the student will have demonstrated an exceptional commitment to experiential education through their participation in activities or work terms related to their intended profession. The award will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and

Awards upon recommendation of the Director, School of Human Kinetics, in consultation with the School's Cooperative Education Coordinators. The award is presented annually at the Fall HKR Awards Celebration.

#### **The Matthew J. Foster Alumni Scholarship**

This scholarship, established by the School of Human Kinetics and Recreation, Memorial University of Newfoundland, commemorates the 30th Anniversary awarding of the first Bachelor of Physical Education Degrees at Memorial University of Newfoundland and honours Mr. Foster (department head/director - 1964 until his retirement in 1986). They will be valued at the interest accruing from the initial endowment and awarded to the student in the second year of a program offered by the School of Human Kinetics and Recreation who attains the highest academic standing. Recipients should also have demonstrated leadership in activities related to their intended profession. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation from the Director of the School.

#### **The Dr. M.O. and Grace Morgan Scholarship in Physical Education**

This fund is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. One or more scholarships, valued at a portion of the annual accrued interest, will be awarded to a Physical Education student in the first year of the Bachelor of Physical Education degree program. The recipients will have demonstrated scholarship standing as well as leadership in the professional preparation and/or services program of the School of Human Kinetics and Recreation. These Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation.

#### **The Newfoundland and Labrador Basketball Association Merit Awards**

These awards, of varying amounts, have been established by the Newfoundland and Labrador Basketball Association. They shall be awarded to Memorial University of Newfoundland students who are members of one of the University's basketball teams and in good academic standing. These awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in conjunction with the Director, School of Human Kinetics and Recreation.

#### **The Newfoundland and Labrador Volleyball Association Awards**

These awards, valued at the interest accruing from the principal amount, have been established by the Newfoundland and Labrador Volleyball Association from monies contributed by supporters of volleyball including coaches and players. They shall be awarded to Memorial University of Newfoundland students, male and/or female, who are in good academic standing, displaying commitment and leadership in the game of volleyball and who are members of one of the University's varsity volleyball teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation.

#### **The Newfoundland & Labrador Soccer Association Awards**

These awards, valued at \$500.00 each have been established by the Newfoundland Soccer Association and shall be awarded to two or more Memorial University of Newfoundland students, one male and one female, who are in good academic standing, displaying commitment and leadership in the game of soccer and who are members of one of the University's soccer teams. The awards shall be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation.

#### **The Proactive Physiotherapy Award in Human Anatomy**

This annually funded award, valued at \$250, is the result of a contribution from Proactive Physiotherapy, a company owned and operated by two alumni of Memorial University's School of Human Kinetics and Recreation, Chris Cluett and Justin Whittle. This award is available to the candidate who receives the highest mark in the on-campus offering of HKR 2310, Human Anatomy each year. To be eligible, students must be enrolled full-time as undergraduates in the School of Human Kinetics and Recreation and be in clear academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Human Kinetics and Recreation. The award is presented annually at the Fall HKR Awards Celebration.

#### **The School of Human Kinetics and Recreation 30th/25th Anniversary Scholarship**

In the calendar year 1994 the School commemorated 30 years of professional preparation in physical education/recreation and 25 years of Atlantic University Sport (AUS) competition at Memorial University of Newfoundland by hosting Anniversary Celebrations. The Steering Committee of these Anniversary Celebrations in co-operation with the two major organizing committees of these events established a \$500.00 Scholarship to be awarded annually to the undergraduate student who combines academic achievement and athletic prowess at the varsity level. In awarding this scholarship, preference will be given to candidates who have demonstrated ability and desire to coach, and to children of either graduates of the School or of former varsity athletes. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the School of Human Kinetics and Recreation.

#### **School of Human Kinetics and Recreation CFUW St. John's Scholarship**

This scholarship has been established by The Canadian Federation of University Women (CFUW) St. John's. One scholarship valued at \$2,000 may be awarded annually to a woman enrolled full-time in her third or fourth year of undergraduate studies in the School of Human Kinetics and Recreation. To be eligible, candidates must have scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships Bursaries and Awards on the recommendation of the Director, School of Human Kinetics and Recreation.

#### **Scott Memorial Scholarship**

This scholarship, established by Winslow and Eileen Scott in memory of their late son Bradford, a former student of Memorial University of Newfoundland, is valued at not less than \$500.00. In awarding this scholarship, preference will be given to students in the Bachelor of Education Intermediate/Secondary Program who have completed the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) degree at Memorial University of Newfoundland. If a suitable candidate cannot be found in this category it will be awarded to a senior student in the Bachelor of Physical Education or Bachelor of Physical Education (Co-operative) program who is doing the teaching option. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon a recommendation approved by the Dean, Faculty of Education and/or the Director, School of Human Kinetics and Recreation.

#### **Sea-Hawks Athletics Awards**

A limited number of athletic awards are available annually to first year and returning student-athletes who exhibit leadership, achievement and athletic success. The annual number and value of awards will vary. To be eligible for these awards, returning athletes must be a current member of a Memorial University of Newfoundland Sea-Hawks Athletic team and have achieved a minimum average of 65% based on the previous academic year of study at Memorial University of Newfoundland. First-year athletes will also be eligible to receive provided they have an 80% final admission average. The School of Human Kinetics and Recreation Selection Committee may consider other criteria including financial need, service to the University and the community. These awards will be administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation in consultation with the coaches of varsity teams.

**The Michael 'Beecher' Smith Heart Award**

The Michael 'Beecher' Smith Heart Award will be awarded to a student-athlete who demonstrates outstanding leadership, dedication and commitment, while bringing a positive attitude to their team. This award is presented in honour of the characteristics that Michael 'Beecher' Smith, a former Memorial University of Newfoundland wrestler, exemplified. The recipient must be a current member of a varsity team and have met the minimum academic requirements for an award. It will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of Athletics.

**The Harold Squires Scholarship**

This scholarship, valued at a portion of the annual interest, was established by Memorial University of Newfoundland Alumnus and long-time employee Harold Squires. In awarding this scholarship preference will be given to a student who competes for the Memorial University of Newfoundland Sea-Hawks in the sport of basketball. Based on scholarship standing it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Human Kinetics and Recreation in consultation with the coaches of the varsity basketball teams.

**The St. John's Association of Basketball Officials Award**

From a sum of money donated by the St. John's Association of Basketball Officials an award valued at a portion of the annual income on the investment is to be provided annually to a full-time or part-time Memorial University of Newfoundland student, either graduate or undergraduate, who is an active member of the University basketball community. The candidate must meet the University's definition of Clear Standing. In the case of graduate students the award will be made by the Dean, School of Graduate Studies. In the case of undergraduate students the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In both cases the award is based on the recommendation of the executive of the St. John's Association of Basketball Officials.

**The Swimming Newfoundland and Labrador Bursary**

This bursary, valued at \$1,000.00 annually, is available to a student continuing beyond their first year of studies at Memorial University of Newfoundland. The bursary recipient will be a swimmer in good standing with Swimming Newfoundland and Labrador and will be a returning member to the Memorial University of Newfoundland Seahawks Varsity Swim Team. Awarding of this bursary will be based on swimming performance at the varsity level. It will be awarded to a student in good academic standing at the University. Applications may be obtained in writing to the Swimming Newfoundland and Labrador Office, RPO MacDonald Drive, Box 21248, St. John's, NL, A1A 5B2 or by telephone to (709) 576-7946 or fax: to (709) 576-7493.

**Lorne Woolridge NLVA Scholarship**

This scholarship has been established by the Newfoundland and Labrador Volleyball Association (NLVA) and will be awarded annually, on the basis of scholarship standing, to a new recruit to the men's volleyball program. This scholarship is renewable, for a second year, providing the recipient maintains scholarship standing and is a member of the men's varsity volleyball team for both years. If an athlete receives a scholarship in his first year and does not return to the team in the following year, it is at the discretion of the coach to award the scholarship to another returning athlete. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Director, School of Human Kinetics and Recreation acting on the advice of the team coach and the NLVA Executive.

## 4.9 School of Music

The following are available to students in the School of Music based on a recommendation from the Director.

**The James E. Austin Memorial Scholarship**

From a sum of money donated by the firm of Dicks & Co. Limited, a scholarship has been established in honour of the late James E. Austin, former Chairman of the Board of the Company. The scholarship, valued at \$500.00, is to be awarded annually on the basis of academic excellence to a full-time student enrolled in the School of Music at Memorial University of Newfoundland who is entering the fifth semester of the Conjoint Degree program. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Director, School of Music.

**Dr. Andreas Barban Memorial Scholarship**

This Scholarship was established in memory of Dr. Andreas Barban, distinguished musician and scholar, and former instructor in the School of Music. The scholarship, valued at not less than \$1,000.00 will be awarded to a full-time Bachelor of Music student beyond the first year whose principal applied study is piano, and who has demonstrated musical potential and academic excellence. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Jonas (Joe) Barter Scholarship in Music**

This scholarship, valued at \$500.00, is awarded annually from the income derived from a trust fund given to the University by the family and friends of the late Jonas (Joe) Barter. It is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academic excellence, based on the advice of the Director, School of Music. Preference will be given to a student who has completed three years of study in the area of Music Composition.

**The Yvonne Belanger Memorial Bursary**

This fund was established by her family to cherish the memory of musician, teacher and mother, Yvonne Belanger. The bursary will be awarded annually to full-time Bachelor of Music students beyond first year on the interest accrued on this endowment. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music with the criteria for eligibility being musically, musical achievement, financial need, and scholarship standing.

**The Amanda Bishop Memorial Scholarship**

This fund was established by the family of Amanda Bishop to cherish the memory of a loving and caring daughter and sister whose life-long ambition was to study voice in preparation for a career in the performing arts. With a value of at least \$500.00, this scholarship will be awarded annually to a student beyond the first year of the music degree program in good academic standing, whose performance medium is voice and who has demonstrated dedicated commitment to the betterment of the music community. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Charles J. Bown Memorial Entrance Scholarship in Music**

This scholarship was established in 2001 in memory of Charles J. Bown (1963-2000) who graduated from Memorial University of Newfoundland in 1985 with a Bachelor of Music and Music Education. He went on to obtain his Master's degree in vocal performance from the University of Ottawa in 1994. He was actively involved in music as an educator, choir director, soloist and organist until his death on October 24, 2000. Valued at the annual interest on the endowment, the scholarship will be awarded to a student entering the Bachelor of Music program at Memorial University of Newfoundland who has demonstrated musical potential, academic ability and financial need. Preference will be given to a student whose major applied study is in voice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Dennis G. Browne Memorial Scholarship**

This scholarship, valued at the accrued interest on an endowment, established by the firm of Patterson Palmer Hunt Murphy, in memory of the late Dennis G. Browne, who was a member of their law firm; will be awarded to a student enrolled beyond first year in the Bachelor of Music program. The scholarship will be awarded on the basis of scholarship standing and demonstrated musical potential. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Buell-Olson Scholarship**

This scholarship, valued at a portion of the income on the investment, was established by Dr. Gerry B. Olson, who was a Henrietta Harvey Visiting Professor in the School of Music in 1983-84 and a long time contributor to the vitality of instrumental music in Newfoundland and Labrador. It was renamed in 2006 on the occasion of the retirement of Dr. Donald Buell in recognition of his seminal role in instrumental music and music education in Newfoundland and Labrador. It is to be given to a student entering the first year of the Bachelor of Music program. Preference will be given to a student from Newfoundland and Labrador whose principal applied study is in woodwind, brass or percussion. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the School of Music.

**The Canadian Broadcasting Corporation (Newfoundland & Labrador Region) Entrance Scholarship in Music**

This scholarship, valued at not less than \$500.00, is to be awarded annually from a sum of money donated by the Canadian Broadcasting Corporation (Newfoundland and Labrador Region). The scholarship will be awarded on the basis of academic standing and demonstrated music potential, to a student from Newfoundland and Labrador entering the first semester of full-time study toward the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Dr. G. Albert Cooper Bursary**

This bursary, valued at the accrued interest on an initial endowment, is awarded annually to a full-time Bachelor of Music student beyond second year who has demonstrated academic excellence, musical potential and need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Director, School of Music.

**Olga Davis Scholarship in Music**

This scholarship was established in honor of Mrs. Olga Davis, for whom music constitutes an essential part of life. It is derived from a generous gift by Dr. John Guy and Ms. Jennifer Guy (Davis) to the School of Music. The scholarship, valued at \$1000 will be awarded annually to a Music student beyond first year who is a resident of Newfoundland and Labrador. The recipient must demonstrate both musical excellence in his or her applied study as well as financial need. The scholarship will be awarded by the Senate Committee of Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**Karl Diemer Memorial Bursary**

This fund has been established by Mme Roberte Diemer in memory of her husband, Corner Brook businessman, Karl Diemer. Trained as a professional singer, Mr Diemer had a great love for music and encouraged young musicians. The bursary, valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical potential and scholarship standing, as well as financial need. If there are no voice candidates in a given year, the award will be made to a student whose performance medium is strings. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**ECMA Legacy Scholarship**

This scholarship, valued at \$1000.00, has been established by the East Coast Music Association. It will be awarded annually to a student in any year of the Music program who demonstrates scholarship standing. The Scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Frederick and Isabel Emerson Memorial Scholarship**

This scholarship has been established in memory of Frederick and Isabel Emerson by their children. Mr. Emerson, lawyer, musician, and a former lecturer and member of the Board of Regents, was involved in setting up and teaching music classes in the early days of the Memorial University College. The scholarship, valued at not less than \$500.00, is awarded annually to a full-time music degree student beyond the second semester. Selection of candidates will be made on the basis of academic standing, financial need and character. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Ed Goff Memorial Scholarship**

This scholarship valued at a minimum of \$2,500.00 is to be awarded to a student in any year in the Bachelor of Music degree program who shows musical potential and has scholarship standing. Preference will be given to a student whose principle applied study is saxophone. It may be renewed for the duration of the student's program, up to a maximum of four years, if he or she continues to excel musically and maintain scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Gower Youth Band Entrance Scholarship in Music**

This scholarship, in the value of at least \$1,000.00, is sponsored by The Gower Youth Band in honour of former members who have become professional musicians and music educators. The scholarship is open to all students in brass, woodwind or percussion entering the first year of full-time study in the School of Music, and is awarded on the basis of musical excellence and potential as demonstrated at the entrance audition. This award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Alan D. Hall Award**

This award has been established in memory of Alan D. Hall by his friends and family. A longtime faculty member in the Department of English at Memorial University of Newfoundland, he was deeply engaged in Music and Theatre throughout his life. The award, valued at a portion of the income on the investment, will alternate between the School of Music and the Faculty of Arts on a yearly basis. For the School of Music the award will go to a Music student beyond first year who demonstrates a high level of achievement on their instrument of applied study as well as involvement and commitment to the music community. For the Faculty of Arts the award will go to a student beyond first year enrolled in the program leading to a Diploma in Performance and Communications Media or a student enrolled in the program leading to a Bachelor of Arts degree with a major in Drama and Music. The eligible student must demonstrate a high level of achievement in theatre, as well as involvement in and commitment to the theatre community. To qualify for this award, students must meet the academic requirements for an award as outlined by the University. The award will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music or the Dean, Faculty of Arts.

**The Ben Heppner 25th Anniversary Scholarship in Music**

This scholarship was established through the generosity of Canadian tenor, Ben Heppner, who donated his fee for a recital given on the

occasion of the 25th anniversary of the founding of the School of Music. Proceeds from the concert were matched by the *Opportunity Fund* to endow the scholarship. Valued at a portion of the annual interest on the endowment, it will be awarded annually to a student in the Bachelor of Music degree program on the basis of musical and academic excellence. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Winnifred Holloway Memorial Scholarship**

This scholarship is the result of a bequest left to the University by Mrs. Velda Richards of St. John's. The scholarship, valued at approximately \$1,000.00, will be awarded annually to a female student who is full-time in the Bachelor of Music program and who is beyond first year. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music on the basis of musical talent, financial need, and scholarship standing.

**The William J. House Memorial Scholarship**

This scholarship, valued at a portion of the income on the investment, has been established in memory of William J. House by his widow, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the School of Music, to a full-time organ student from Newfoundland and Labrador who shows promise and purpose of continuing in that field.

**The Howse of Flowers Music Scholarship**

This scholarship, valued at not less than \$500.00, is awarded annually to a full-time music degree student beyond the second semester who has demonstrated academic excellence and musical potential. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of the Director, School of Music.

**The Imperial Tobacco Canada Entrance Scholarship in Music**

This scholarship, established in 1998 by Imperial Tobacco Canada in support of the *Opportunity Fund* Campaign, has a minimum value of \$2,000.00 annually. It will be awarded on the basis of scholarship standing and demonstrated music potential, to a student entering the first semester of full-time study toward the Bachelor of Music degree at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Music.

**The Kiwanis Club of St. John's Music Scholarship/Bursary**

This scholarship/bursary, valued at \$750.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music, to a promising student who is continuing studies in music at this University. Selection of candidates will be made on the basis of financial need, academic standing and character. The scholarship/bursary is not restricted to any particular year of study.

**The Margaret Krause Scholarship in Music**

This scholarship has been established in memory of Mrs. Margaret Krause, a pianist and cellist, who lived in St. John's during the years 1955-58 with her husband, Dr. Lucjan Krause, a professor of physics at Memorial University of Newfoundland's Parade Street location. During this time Margaret played much chamber music with local musicians and their children Janet and Catherine were born. Catherine (also a cellist) subsequently became Director of the Health Sciences Library at Memorial University of Newfoundland. One scholarship valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in scholarship standing whose principal instrument of applied study is a bowed string instrument. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of the School of Music.

**The Dame Vera Lynn Scholarship in Music**

This scholarship, valued at a maximum of \$2500.00 over five years (\$500.00 per year), was established to honour Dr. Vera Lynn, the distinguished musician and honorary graduate of Memorial University of Newfoundland. It is open to all students entering the first year of full-time study in the School of Music and is awarded on the basis of academic standing and musical potential as demonstrated at the entrance audition. The recipient must maintain scholarship standing to retain the scholarship. A relinquished scholarship may be re-awarded at the discretion of the Director, School of Music. This award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music. Application forms may be obtained from the School.

**The R.F. (Bob) Macleod Memorial Entrance Scholarship in Music**

This scholarship, with a value of at least \$300.00, has been established in memory of Mr. R.F. (Bob) MacLeod, pianist, organist, and entertainer. The scholarship is awarded annually to a student entering the first year of full-time study toward the Bachelor of Music degree. In making the award preference will be given to a student from rural Newfoundland and Labrador. Academic standing, character and financial need will be considered. The award is to be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the advice of the Director, School of Music.

**The Pat and Margaret Maloney Scholarship in Music**

This scholarship was established by Dr. Aidan Maloney in honor of the lasting contributions of Margaret Maloney and her late husband Patrick to the musical life of our community. With Margaret's indelible passion for singing and Patrick's innate talent as a "kitchen" musician, music and life were synonymous to them. Individually gifted and together dynamic, they shaped a legacy shared by not only family, but our community at large. The scholarship, valued at a portion of the income on the investment, will be awarded annually to a Music student beyond first year who demonstrates musical excellence in her or his applied study. The scholarship will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Marquis Limited (Colonel Sanders) Bursary in Music**

This fund was established to provide financial assistance to students from Newfoundland and Labrador whose permanent residence is outside the St. John's metropolitan area, and who are entering the first year of full-time study in the School of Music. The number of awards given annually and the value of each shall be determined by the Director, School of Music. The award(s) is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The David McCurdy Memorial Bursary**

This bursary, established by the family and friends of the late David McCurdy, a former student of this University, is valued at \$300.00 and is awarded annually to a student enrolled in the School of Music. In making the award, interest and ability in Music, as well as financial need, will be considered. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Joan McNamara Furlong Award**

This scholarship, awarded annually in memory of Mrs. Joan McNamara Furlong, is provided from the interest accumulated on a continuing endowment given for this purpose by her family. At the request of the sponsors it will be awarded to a second- or third-year student in voice who shows definite promise and purpose of continuing in that field, and of making a cultural contribution to the community. The scholarship will be utilized by the successful candidate to further studies in voice at Memorial University of Newfoundland. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Karen Keirstead Mills Memorial Scholarship in Music**

This scholarship was established in 1991 in memory of Karen Keirstead Mills, a former organ student and voice instructor in the School of Music. The scholarship, valued at not less than \$1,000.00, will be awarded to a full-time Bachelor of Music student who is normally beyond the first year and who has demonstrated musical potential and academic ability. Preference will be given to a student whose major applied study is in voice or organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Dorothy Duff Moores Memorial Entrance Scholarship in Music**

This scholarship in memory of Dorothy Duff Moores, a lover and supporter of music, is provided from the interest accumulating on an endowment given for this purpose by her son Frank D. Moores and family friends. Valued at a portion of the income on the investment, it is awarded annually to a student of outstanding academic and musical ability who is entering the first semester of full-time study towards the Bachelor of Music degree. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**Mrs. Grace Morgan Scholarship in Music**

This fund was established in 1982 by faculty members of the School of Music in recognition of the interest and support given by Mrs. Grace Morgan to music at Memorial University of Newfoundland. Further funding resulted from a bequest to the University by Dr. M.O. Morgan after his death in 1995. Four scholarships, each valued at not less than \$2,500.00, will be awarded annually from the income derived from the fund. Two scholarships will be awarded to students entering the first semester of full-time study toward the Bachelor of Music degree, and two scholarships will be awarded to students beyond the first year of the music degree program. In making the awards, academic standing and musical potential will be considered. Whenever possible, at least one of the awards will be given to a student in piano and at least one of the awards will be given to a student in organ. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**Carl Morrissey Bursary in Music**

This bursary is established in memory of Mr. Carl Morrissey by his family and friends. Through this bursary they hope his love of and involvement in music will continue to encourage young musicians, as he did so often. The bursary, valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student in the School of Music in any year of study based on financial need and demonstrated music potential. The recipient must meet the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Arthur and Dorothy Noseworthy Entrance Scholarship in Music**

This scholarship, valued at not less than \$1,000.00, is to be awarded annually from the interest accruing from an endowment fund established by the Noseworthy family in honour of their parents. The scholarship will be awarded on the basis of academic excellence and demonstrated musical potential to a student entering the first semester of full-time study toward the Bachelor of Music degree. Preference will be given to a student whose principal instrument is organ. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Dr. Hugh O'Neill Prize in Piano**

This prize is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One prize valued at \$500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in piano. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Music.

**The Dr. Hugh O'Neill Prize in Violin**

This prize is the result of a generous donation to Memorial University of Newfoundland by The O'Neill Foundation. One prize valued at \$500.00 will be awarded annually to the top graduating undergraduate student in the School of Music, who majored in violin. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Music.

**The G. Calvin Powell Memorial Scholarship**

This scholarship, valued at \$500 has been established by Rebecca Eleanor Powell in memory of her grandfather G. Calvin Powell whose love of the arts and encouragement towards Ms. Powell were influential in her desire to study music. It will be awarded annually to a student beyond first year in the School of Music on the basis of scholarship standing and excellence on his or her instrument of applied study. The Scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**Rex E. Rood Memorial Scholarship**

This scholarship has been established in memory of Rex E. Rood by his wife and daughter. Although not a musician or performer, Mr Rood had a deep love and knowledge of classical music which he shared with his family and which formed an integral part of his life. He enjoyed orchestral arrangements, choral works and solo voices, but was particular fond of operatic tenors.

This scholarship, valued at \$2000.00 per year, is to be awarded to a student in any year of the Bachelor of Music degree program who demonstrates musical potential and academic excellence. Preference will be given to a student whose principal applied study is voice, in particular a tenor, bass or baritone. The award may be renewed for the duration of the student's program, up to a maximum of five years, if the recipient continues to excel musically and maintains scholarship standing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Music.

**The Dr. Ignatius A. Rumbolt Scholarship in Music**

This scholarship, valued at a portion of the income on the investment, was established in memory of Dr. Ignatius A. Rumbolt, distinguished musician, music educator, builder of the choral tradition in Newfoundland and Labrador, and honorary graduate of Memorial University of Newfoundland. The scholarship is awarded to a student beyond first year in the Bachelor of Music degree program who has demonstrated academic excellence and musical potential. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**School of Music Faculty Scholarship/Bursary Fund**

These scholarships/bursaries of the value of at least \$300.00 each are awarded out of income derived from a fund established in 1976 by the faculty members of the School of Music. The awards are made annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music, to promising students who are continuing their studies in Music at this University. Selection of candidates will be on the basis of musicianship, academic standing, financial need and participation in School of Music activities.

**The Sergeants Mess of Newfoundland Memorial Entrance Scholarship in Music**

From the revenue accruing from War Savings Bonds purchased in 1940 by the Sergeants Mess of Newfoundland, a fund was established in 1990 to provide an annual scholarship of not less than \$500.00 to a student entering the first semester of full-time study in the School of Music. Academic excellence and musical potential as demonstrated at the entrance audition will be considered. The award

is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Grace M. Sparkes Alumni Entrance Scholarship/Bursary in Music**

The Memorial University of Newfoundland Alumni Association has established, from its Alumni Annual Fund, an entrance scholarship/bursary in Music. The award, valued at not less than \$500.00, will be given annually to a student entering the first semester of full-time study towards the Bachelor of Music degree. Academic standing, musical potential and financial need will be considered. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Grace M. Sparkes Scholarship in Music**

This scholarship was established by Mrs. Sparkes, former Alumni of the year and devoted friend of Memorial University of Newfoundland. Valued at approximately \$500.00, it will be given annually to an undergraduate student in full-time study towards the Bachelor of Music degree. Scholarship standing and musical potential will be the main considerations in awarding this scholarship. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Harold and Maxine Stanley Award**

The award is established in memory of Mr. Harold Stanley by his family and friends. The award valued at a portion of the income on the investment, will be awarded annually to a full-time undergraduate student beyond first year in the School of Music. The recipient must meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Gordon M. Stirling Memorial Scholarship/Bursary**

This fund was established by the Stirling Ryan law firm in memory of their late senior partner Gordon M. Stirling. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based upon the recommendation of the Director, School of Music. The award will be available to an exceptional student(s) enrolled in the School of Music to assist with travel and other expenses to enable such student(s) to perform at events of major musical importance outside the province. Scholarship standing, musical ability, financial need, and the benefits such exposure would confer on the student(s) will be taken into consideration by the Committee. The value of the award will be based on the interest income accruing on the capital sum in the fund.

**Wesley Male Choir Bursary**

This bursary was established in memory of William Collins and his two sons, John and Calvin 'Robert' Collins, who were all members of the Wesley Male Choir. It is derived from a generous gift by the late Mr. Calvin 'Robert' Collins to the Choir. The bursary valued at a portion of the income on the investment, will be awarded annually to a voice student beyond first year who demonstrates musical excellence in their applied study as well as financial need and meets the minimum academic requirements for a bursary. If there are no voice candidates in a given year, the award will be made to a student in another performance medium. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Mary C. Whiteley Entrance Scholarship in Music**

This scholarship is awarded annually to a student entering first year in the School of Music at Memorial University of Newfoundland. It is awarded on the basis of scholarship standing and musical potential as demonstrated in the entrance audition. The value of this scholarship is determined by the amount of interest accrued on the principle sum. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

**The Mrs. H.B. Young Memorial Scholarship**

This scholarship has been established by Mrs. Helen Marquis in memory of her mother, Mrs. H.B. Young, and is awarded annually to a full-time student at the School of Music. The value of the award will be based on the income accruing from the fund during the period of tenure of the scholarship. In selecting candidates, academic achievement, financial need and character will be taken into consideration. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Music.

## 4.10 School of Nursing

The following are available to students in the School of Nursing based on a recommendation from the Director.

**The Alcohol and Drug Dependency Commission Commemorative Awards**

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

**The Kathleen M. Baird Memorial Scholarship**

This scholarship is made possible through a fund established by Mrs. Edna Baird-Stephenson in memory of her sister Kathleen M. Baird (1903-1985). The scholarship will be valued at the annual accrued interest on the endowment and awarded annually to a student in the second year of the Bachelor of Nursing (Collaborative) Program on the basis of scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Nursing.

**The Eleanor and Norval Blair Travel Scholarship in Nursing**

This scholarship is made possible through a donation to the *Opportunity Fund* Campaign in 1998 by Mr. and Mrs. Blair. The scholarship, valued at the annual accrued interest on the endowment, shall take the form of a travel grant to a student in the Bachelor of Nursing (Collaborative) program at the Memorial University of Newfoundland School of Nursing site who has demonstrated excellence in nursing practice. The recipient will be a student in the third or fourth year of the program who will pursue each of the clinical practicum courses in the given semester. First preference will be given to those students going outside the province of Newfoundland and Labrador to complete their clinical. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Director, School of Nursing.

**The Barbara Fowlow Memorial Scholarship**

This scholarship is made possible by a fund established by friends and colleagues in memory of Barbara Fowlow, a graduate of Memorial University of Newfoundland's School of Nursing. Valued at the annual interest on the initial endowment, it is awarded annually to a student who is entering the final year of the Bachelor of Nursing (Collaborative) Program. Preference in awarding the scholarship will go to students who have shown an interest in Cardiovascular Nursing and/or been involved in student life through volunteer work,

involvement in Student Societies etc., during their university years, particularly within the School of Nursing. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Director, School of Nursing.

#### **Glendinning and Miller Family Scholarship in Nursing**

This scholarship was established by Jane Carol Glendinning-Johnson, Andrea (Glendinning) Sumsion, and Barbara (Glendinning) Smith to honour and remember Andrew and Jane (Bethune) Glendinning and Hugh and Barbara (Green) Miller, their respective offspring and other family members, and to recognize their belief in the value of education which has carried down to the present generation. This scholarship, valued at a portion of the accrued interest on an initial endowment, will be awarded annually to a student registered full-time in the Bachelor of Nursing (Collaborative) Program at Memorial University of Newfoundland. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Director, School of Nursing.

#### **The Mirdza Kajaks Scholarship**

This scholarship, established by Mirdza Kajaks, is valued at a portion of the accrued interest on the endowment. It will be awarded annually to a full-time student entering the first year of the Bachelor of Nursing (Collaborative) Program at the Western Regional School of Nursing. It is the wish of Mrs. Kajaks that the recipient plans to practice in Newfoundland and Labrador upon completion of studies. Whenever possible such students will be given first preference. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Director, School of Nursing.

#### **The Marilyn Marsh Scholarship**

This scholarship is made possible by a fund established by former students and colleagues of Marilyn Marsh on the occasion of the Twenty-Fifth Anniversary of the School of Nursing. The scholarship is awarded annually to a student who has completed the second year of the Bachelor of Nursing (Collaborative) Program at the Memorial University of Newfoundland site. Criteria (in order of priority) for this award are:

- Demonstrated clinical excellence
- Participation in student/school activities
- Academic standing

The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Director of the School of Nursing.

#### **The John M. and Elsa S. Morgan Scholarships**

These scholarships have been bequeathed to the University by the late Dr. John M. Morgan, B.Sc., M.D., and have been named to commemorate Dr. Morgan and his wife Elsa. Up to twenty-five scholarships will be made available annually to undergraduate students who have completed at least one year of studies at Memorial University of Newfoundland within the areas specified below and who will be continuing in these programs. The scholarships, valued at a minimum of \$1,000.00 each, will be disbursed as follows:

- up to five to the Faculty of Medicine
- up to four to the School of Nursing
- up to four to the Faculty of Education
- up to four to the Department of Philosophy
- up to four to the Department of Anthropology
- up to two to the Department of Religious Studies (with preference to students of comparative religions)
- up to two to students in Newfoundland Studies

The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the appropriate Dean/Director/Department Head. Preference will be given, where possible, to students from the Port-de-Grave District.

#### **The Margaret Fitzpatrick Morgan Scholarship in Nursing**

This fund was established by the late Dr. M.O. Morgan in memory of his wife, the late Margaret Fitzpatrick Morgan. One or more scholarships valued at not less than \$2,500.00 each will be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards to a student or students registered full-time in the Bachelor of Nursing (Collaborative) Program. Preference will be given to students entering the first year of the program preferably from rural Newfoundland and Labrador.

#### **The Elizabeth Lindsay Robbins Scholarship in Nursing**

This scholarship was created by Elizabeth (Betty) L. Robbins who was born on May 15, 1911 in Strathaven, Lanarkshire County, Scotland. Betty graduated in Nursing from Stobhill General Hospital, Glasgow, Scotland on October 31, 1940 and received a Certificate from the Central Midwives Board for Glasgow on December 13, 1940. She came to Newfoundland on Jan 20, 1947 and married Frederick Robbins in St. John's on March 1, 1947. Mr. Robbins was a Newfoundland war veteran from Burlington, Notre Dame Bay, who had served with the Royal Navy during the Second World War.

This scholarship, valued at a portion of the annual accrued interest on an endowment (a minimum of \$2,500.00 annually), will be awarded to a student in the third year of the Bachelor of Nursing (Collaborative) Program. The scholarship will be awarded on the basis of scholarship standing, financial need, and nursing professional practice. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Nursing.

#### **The Katharine Roberts Memorial Scholarship**

This Katharine Roberts Memorial Scholarship has been endowed by Edward and Douglas Roberts in memory of their mother Katharine. The scholarship is valued at \$4,500.00 a year, and will be awarded annually to a student in any year of the Bachelor of Nursing (Collaborative) Program.

The first preference in awarding the scholarship will be given to Bachelor of Nursing (Collaborative) Program students from the electoral Districts of The Straits and White Bay North, Lake Melville and Cartwright-L'Anse au Clair (or other Districts embracing the communities in those Districts, which were established by the House of Assembly in 1995). If no suitable candidate comes forward from one of these Districts in any given year, the scholarship may be awarded to a Nursing student from a rural community elsewhere in Newfoundland and Labrador.

The scholarship will be awarded on the basis of scholarship standing, but in the case of a tie between two equally deserving students, financial need may be used as a determining factor. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Nursing.

#### **The School of Nursing Class of 1976 Bursary**

The Bursary, valued at a portion of the income on the endowment, will be awarded on the basis of financial need to a student who is registered full time at Memorial University of Newfoundland's School of Nursing and who has completed their first year clinical placement of the Bachelor of Nursing Collaborative program. Candidates must have displayed a passion for patient care through their respective clinical placements and have met the minimum academic requirements for a bursary. Students must have a supporting letter of

recommendation detailing how they have demonstrated a passion for patient care from their clinical course instructor. In the event there is more than one suitable candidate for the bursary preference will be given to a student who comes from outside of the St. John's area. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Nursing.

#### **The St. John's Home Care Scholarship for Excellence in Community Health Nursing**

This scholarship valued at the annual accrued interest on the initial endowment will be awarded to a full-time or part-time student enrolled in the Bachelor of Nursing (Post RN) or Master of Nursing Program at Memorial University of Newfoundland with preference given to candidates enrolled in the Bachelor of Nursing (Post-RN) Program. Candidates must also have employment experience in community health nursing and demonstrated recent voluntary involvement in a community organization(s). Minimum academic requirements are a 75% overall average in either the completed diploma program in nursing or completed courses in either the B.N. (Post-RN) or Masters Program. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of Graduates the scholarship will be awarded by the Dean of Graduate Studies. In both instances the award will be based upon a recommendation from the Director, School of Nursing.

#### **The Sybil Gertrude Rusted Toy Memorial Bursary**

This bursary, established by Dr. Nigel Rusted in memory of his sister Sybil, is valued at a portion of the accrued interest on an endowment. Sybil, the daughter of Rev. Canon Ernest and Faith (Hollands) Rusted, was born in Upper Island Cove April 2, 1911. She was educated at schools in Upper Island Cove, Carbonear, Girl's College in New York and the Royal Victoria Hospital in Montreal. The bursary will be awarded annually to a student entering the first year of the Bachelor of Nursing (Collaborative) Program with first preference to students from the Conception Bay North area, who have demonstrated ability and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Nursing.

#### **The Janet P. Winsor Bursary**

This bursary, valued at a portion of the accrued interest on the initial endowment, is awarded annually to third year students enrolled in the B.N.(Collaborative) Program who demonstrate financial need over and above academic excellence. The candidates must have scholarship standing as well as demonstrate financial need. At least one bursary will be awarded in each of the three sites. The criteria for this award includes excellence in Year 3 clinical courses (Nursing 3501 and 3511) supported by a letter of recommendation from clinical instructors. The student's file may also be used to determine examples of clinical excellence. Each Committee on Undergraduate Studies will select the student at their site. This bursary will be awarded at the Graduation and Awards Ceremony in the Spring, but not necessarily to the highest academic student. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the Director, School of Nursing.

## **4.11 School of Pharmacy**

The following are available to students in the School of Pharmacy based on a recommendation from the Director.

#### **The Abbott Prize**

Abbott Laboratories Limited awards an annual prize consisting of \$250. This prize is awarded to a student of high academic merit. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the Recommendation of the Director, School of Pharmacy.

#### **The Alcohol and Drug Dependency Commission Commemorative Awards**

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honours Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean/Director/Head of the respective Faculty or School.

#### **Amerisource-Bergen Canada Scholarship/Bursary**

This award of \$500.00 is provided to a student who has successfully completed the first year of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

#### **The Kristine Cadigan Memorial Award**

This award is given in memory of Kristine Cadigan, a student in the Class of 2008, who died suddenly in May 2005 after having completed one year of the Pharmacy program. The award is open to any student in the Pharmacy program and recognizes a well-rounded and deserving student who is never afraid to help out when needed, dedicated to what he/she does, displays interest in a variety of different activities, involved in activities both inside and outside the School of Pharmacy, committed to the profession and shows significant academic accomplishment. The award consists of a plaque and \$250.00. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Director, School of Pharmacy.

#### **Canadian Pharmacists Association (CPhA) Centennial Award**

This award offered by the Canadian Pharmacists Association consists of a \$300.00 cash prize and a travel tour of approximately one week to visit manufacturing laboratories and health facilities in Toronto, Montreal or Ottawa and to attend the annual conference of the Association. It is made to a student who is completing the third year of the Pharmacy program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

#### **The CAPSI/WYETH - Guy Genest Passion for Pharmacy Award**

This award, valued at a portion of the income from the endowment, is the result of a generous lead donation by the student membership of the CAPSI organization (Canadian Association of Pharmacy Students and Interns). It is established in honour of Mr. Guy Genest, a passionate individual, who has demonstrated unwavering support of Canadian Pharmacy students and interdisciplinary healthcare practices. The award recipient will be a pharmacy student in any academic year, in clear academic standing (as defined by the University), who shows clear evidence of dedication to and passion for the profession of pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Director, School of Pharmacy.

#### **The J. Joseph Dicks Memorial Bursary in Pharmacy**

This bursary, valued at a portion of the income from the endowment, is the result of a generous donation by the family in memory of Mr. J. Joseph Dicks, a prominent pharmacist who achieved great success in his profession and community. The bursary will be awarded to a full-time Pharmacy student in any year of the program who demonstrates financial need and has a minimum GPA of 2 out of a possible 4. The recipient will also exemplify similar character as Mr. Dicks, who overcame personal challenge to achieve success. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Pharmacy.

**The Drug Store Pharmacy (Dominion) Bursaries**

The Pharmacy division of Dominion Canada has established two bursaries of \$500.00 each. These bursaries are provided to two deserving students who have demonstrated significant financial need. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Director, School of Pharmacy.

**The G.R. Duncan Prize in Pharmacy**

This award of \$100.00 is to be given annually to a student in any year of the pharmacy program who displays school spirit, is involved in school-related extra curricular activities, and promotes the profession of pharmacy. The recipient shall be chosen by student ballot. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

**The Excellence in Compounding Award**

This award is given to a student completing the first year of the Pharmacy program who obtains the highest mark in the compounding laboratory portion of the first year pharmaceuticals courses. The award is valued at \$150.00. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**Fisher Scientific Award**

This award of \$250.00 is provided to the Pharmacy student who makes the best presentation at the Annual Research Forum at the School of Pharmacy. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

**The Edward D. Freeman Bursary**

This bursary honours the memory of Edward D. Freeman, a prominent Harbour Grace pharmacist who was a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board). Valued at a portion of the income from the endowment it shall be awarded to a deserving student of good academic standing in the School of Pharmacy on successful completion of Pharmacy Year III to enable the student to complete his/her studies with financial assistance. This bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Pharmacy.

**The Charles E. Frosst Scholarship in Pharmacy**

This award of \$1,000.00, a Merck Manual and Merck Index, is presented by Merck Frosst Canada Inc. to the top first-year student of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

**The Robert Heale Memorial Bursary**

This bursary, valued at \$250.00 annually, honours the memory of Robert Heale, an honorary life member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board) who practised for over 50 years as a community pharmacist; and trained many pharmacists before pharmacy training programs were in place in Newfoundland. It is awarded to a student in any year of the pharmacy program who demonstrates scholarship standing and financial need. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of a recommendation from the Director, School of Pharmacy.

**The Dr. L.R. Hensman Prize**

This prize is awarded to the Pharmacy student who places first in the CAPSI sponsored patient interview competition. A \$100.00 cash prize will be awarded. This prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

**The J. Keith Lawton Memorial Bursary**

This bursary has been established by the Board of Directors and employees of Lawton Drug Stores with the support of the Sobeys Foundation, to honour the memory of J. Keith Lawton. The value of the award will represent the interest generated from the endowment each year. It will be awarded to a deserving student selected from all students enrolled in the Pharmacy program. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the School of Pharmacy.

**The L.J. Lawton Memorial Award**

A plaque, donated by the Canadian Pharmacists Association in memory of Louis J. Lawton, a founder of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), is presented each year as an Honour Award to a student entering the final year of the Pharmacy program. The recipient shall be chosen by the students and faculty by ballot in recognition of a commitment to the School of Pharmacy as well as a high degree of academic ability and showing of promise in making significant contributions to the profession of Pharmacy. In addition, this shall be accompanied by a miniature award and monetary award valued at the income from the endowment each year. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

**The McKesson Scholarship/Bursary**

McKesson provides two awards valued at \$250 each. These awards will be open to all students enrolled in the School of Pharmacy and will be awarded on the basis of academic merit and financial need. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The Merck Scholarship**

This award consists of \$1,000, a Merck Manual and a Merck Index. It is presented by Merck Frosst Canada Inc. to the top second-year student of the Pharmacy program. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Director, School of Pharmacy.

**The Novopharm Scholarship/Bursary**

Novopharm Limited provides two awards in the amount of \$500 to be granted annually to students achieving excellence in one of pharmaceutical manufacturing, biopharmaceuticals, or medicinal chemistry. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The James J. O'Mara Awards**

The James J. O'Mara Awards were created to honour the memory of James O'Mara, a prominent Newfoundland pharmacist who tirelessly worked as an advocate for a university based School of Pharmacy. He served as the President of the NPhA from 1970-72 and was Secretary/Registrar of what is now the Newfoundland and Labrador Pharmacy Board from 1981-1990. An award will be given to one student in each year of the pharmacy program. The students will be selected based on top performance in the Pharmacy Skills courses for the year of study, as recommended by the course coordinators. Each award is valued at a portion of the income from the endowment. The awards are conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the School of Pharmacy.

**The Ottawa Pharmacy Alumni Scholarship**

The Ottawa Pharmacy Alumni Scholarship has been generously provided by Dr. Co Pham, Dr. Roland Halil and Ms. Hao Nyugen. The scholarship is valued at \$1000 and will be presented annually to a student in their third or final year of the Bachelor of Science (Pharmacy) program. The scholarship recognizes a student who demonstrates a strong commitment to extra-curricular activities within Memorial University of Newfoundland and the external community and meets the minimum academic requirements for a scholarship. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of the School of Pharmacy.

**The Panta Pharmaceutical Passion for Compounding Award**

The Panta Pharmaceutical Passion for Compounding Award has been generously provided by Panta Pharmaceutical. The award is valued at \$250.00 and will be presented annually to a student in the Bachelor of Science (Pharmacy) program. The award recognizes excellence in pharmacy compounding. The successful candidate must have demonstrated a passion for the art of compounding, have been recommended by their clinical skills coordinator and meet the minimum academic requirements for an award. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director of the School of Pharmacy.

**The PharmaChoice Award**

The PharmaChoice Award, valued at \$500 annually, is given to a student in the School of Pharmacy. Candidates must demonstrate satisfactory performance in the Pharmacy Administration course and be in clear academic standing as defined by the University. Candidates must also have displayed interest in retail pharmacy as evidenced by past work experience as well as having expressed an interest in working in the field after graduation. The Award will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Pharmacy.

**Pharmasave Community Service Award**

Pharmasave provides one award in the amount of \$1250. This award is provided to a student entering the 2nd year of the pharmacy program who has made outstanding contributions to his or her community through volunteer service. Students must be in clear academic standing and be actively involved in volunteer work which has an impact on community life. Students will be eligible to win this award only once during his/her tenure at the School. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Pharmacy.

**Pharmasave Pharmacy Innovation in Patient Care Award**

Pharmasave provides two awards in the amount of \$1250 each. These awards are provided to students in clear academic standing who are entering the 3rd or 4th year of the pharmacy program who show leadership in the development and implementation of a "non-dispensing" patient care program/service offered by a community pharmacy. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Pharmacy.

**Ratiopharm Entrance Award**

Ratiopharm Inc. provides a \$1,000.00 award annually to a student entering first year Pharmacy. The recipient will be selected on the basis of academic achievement and admission requirements. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The Jaclyn Rogerson Memorial Bursary in Pharmacy**

The Jaclyn Rogerson Memorial Bursary in Pharmacy, valued at a portion of the income from the endowment, is established in loving memory of Jaclyn Rogerson, a well respected graduate from the School of Pharmacy's Class of 2004. The bursary is a result of gifts to Memorial University of Newfoundland by Jaclyn's family and friends to honour her commitment to the pharmacy profession and her community. As a gifted communicator and empathetic pharmacist, Jaclyn succeeded in providing caring support to her patients and community. The bursary will be awarded to a student entering their final year in the Bachelor of Science (Pharmacy) program at Memorial University of Newfoundland. Based on financial need and a minimum GPA of 2 (out of a possible 4), preference will be given to a student who also demonstrates a combination of a strong ability to communicate and empathize with patients, school spirit or who actively engages in community service. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director of the School of Pharmacy.

**Sandoz Canada Inc. Scholarship/Bursary**

Sandoz Canada Inc. offers annually three awards of \$500.00 each which are open to all students enrolled in the School of Pharmacy. They are to be awarded to students of good academic standing with an aptitude for Pharmacy. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The Sanofi-Aventis Canada Inc. Scholarships**

Sanofi-Aventis Canada Inc. offers annually two scholarships in the amount of \$750.00 each to deserving students entering the first year of the Pharmacy program. The selection will be based on academic achievement and admission requirements. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Director, School of Pharmacy.

**The Schering-Plough Canada Limited Scholarship Bursary**

The Schering-Plough Canada Limited offers annually an award of \$350 which is open to all students enrolled in the School of Pharmacy. In addition, a permanent award in the form of a text book will also be given. The award is given to a deserving student of good academic standing. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The School of Pharmacy Entrance Scholarships**

The School of Pharmacy provides two awards annually in the amount of \$1,000.00 each to students entering the first year of the program. Recipients will be selected on the basis of academic achievement and admission requirements. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The Shoppers Drug Mart Associates Scholarships/Bursaries**

Shoppers Drug Mart provides three scholarships/bursaries valued at \$600.00 each. These awards will be open to all students enrolled in the School of Pharmacy and will be awarded on the basis of academic merit and financial need. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The Augustus Stafford Memorial Scholarship**

This award is presented to honour a founding member of the Newfoundland Pharmaceutical Association (now the Newfoundland and Labrador Pharmacy Board), the late Augustus Stafford of St. John's. The award, consisting of \$300, is given to the student achieving the highest academic standing in the first year of the Pharmacy program. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**The Wyeth Award of Excellence**

Wyeth Limited presents an annual award consisting of a certificate mounted on a plaque and a \$200 cash prize. The award is presented for excellence in Clinical Pharmacy by a graduating pharmacy student. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Pharmacy.

**4.12 School of Social Work**

The following are available to students in the School of Social Work based on the recommendation of the Director.

**The Alcohol and Drug Dependency Commission Commemorative Awards**

These awards have been established to commemorate the Alcohol and Drug Dependency Commission (1982-1992). In an effort to promote the pursuit of addictions studies in various disciplines, it is hoped that recipients will pursue careers in addiction-related fields. Up to three awards, valued at \$750.00 each, are available annually and open to students who have completed a major or published paper at the undergraduate or graduate level or are completing an Honors Dissertation on addictions issues. It will be awarded on a rotating basis to students in Pharmacy, Nursing, Medicine, and Social Work with a Faculty or School receiving only one award in any given scholarship year. These awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean/Director/Head of the respective Faculty or School.

**The Lyndsey Anne Antle Award in Social Work**

This award is being established by the family of Lyndsey Anne Antle who was a student in the School of Social Work at Memorial University of Newfoundland and would have graduated on May 26, 2006. Unfortunately this did not happen. She was struck by a vehicle on June 19, 2005 and passed away as a result of severe injuries on June 22, 2005. Lyndsey strived for excellence in everything she did and truly believed in giving her all to work, family, friends and anyone who needed a helping hand. Her natural wisdom, warmth and strong conviction to helping others made her a great human being and she would have made a wonderful social worker. This award is valued at \$300.00 and will be awarded annually to the student in the graduating class who has the highest average for years four and five of the Social Work program combined. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Social Work.

**The Jackie Brown Memorial Social Work Scholarship**

This scholarship has been established in the memory of Jackie Brown, a dedicated social worker who was an activist for social justice. Valued at \$500.00 annually, it will be awarded to a full time undergraduate social work student who best epitomizes Jackie's commitment and energy to creating positive change related to a social justice issue in his/her community. The award, however, is not necessarily intended for the student with the highest academic standing. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Social Work.

**The Christopher & Donna Cox Scholarship**

This scholarship, established through a generous contribution by Dr. Donna Hardy Cox and Dr. Christopher Cox, is valued at \$500 per annum. Drs. Donna Hardy Cox and Christopher Cox, both alumni of Memorial University of Newfoundland, have established this scholarship in gratitude for their well-rounded student life and academic experiences. To be eligible, candidates must be full-time undergraduate students. The scholarship will be awarded annually on a rotating basis between the School of Social Work and the Faculty of Medicine, beginning with the latter. In Medicine, the Scholarship will be awarded to a graduating M.D. student who has a strong academic record and who has expressed an interest in specializing in Oncology. In the School of Social Work it will be awarded to a graduating B.S.W. student who is in scholarship standing and who has made the greatest contribution to student and community leadership. The Scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based on the recommendation of the Dean/Director of the appropriate discipline.

**The Memorial University of Newfoundland Social Work Scholarship**

This scholarship, at a value of at least \$350.00, is awarded annually to a Social Work major enrolled in full-time study at Memorial University of Newfoundland. In the awarding of this scholarship, scholastic standing and financial need will be taken into account. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of Social Work and may be renewed in a subsequent year.

**The Professor John S. Morgan Scholarship**

This scholarship has been named to honour the late Dr. John S. Morgan, an honorary graduate of the University who served as Visiting Professor of Social Work during the 1976-77 academic year. It is valued at \$500.00 per annum and will be awarded on the basis of academic merit to an undergraduate student enrolled in the School of Social Work. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the School.

**The John J. Murphy Scholarship in Social Work**

This scholarship, valued at \$500.00, is awarded annually to a student who has achieved academic excellence upon completion of the first year of the Social Work program. The award, however, is not necessarily intended for the student who has received the highest average in this category. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Director, School of Social Work.

**The Elizabeth A. Newlands Memorial Scholarship in Social Work**

This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program at Memorial University of Newfoundland. Valued at a minimum of \$1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Director, School of Social Work.

**The Dr. J. Victor Thompson Scholarship in Social Work**

This scholarship, valued at not less than \$650.00 is awarded annually to a full-time Social Work student upon completion of at least 90 credit hours in Social Work and other courses at Memorial University of Newfoundland. The award will be made on the basis of academic excellence by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of the Director, School of Social Work.

## 5 Scholarships, Bursaries, and Awards Administered By the Senate Committee on Undergraduate Scholarships, Bursaries and Awards for Which Undergraduate Students Attending the Sir Wilfred Grenfell College at Corner Brook May Qualify

Although students on the Corner Brook campus are eligible for other awards listed in this booklet, the following awards are tenable specifically at Sir Wilfred Grenfell College:

### **The Fred Aldrich Science Scholarship**

This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student at Sir Wilfred Grenfell College who is in the fourth semester of full-time study, who has accumulated at least 45 credit hours, and who is registered in a science program at Memorial University of Newfoundland. The scholarship may be held at either Corner Brook or St. John's. Valued at \$1,000.00, the award is made on the basis of outstanding academic performance. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College and the Head of Science at the College.

### **The Katy Bindon Scholarship**

This scholarship, one or more valued at \$1,000.00 each annually, was created by friends of Dr. Katy Bindon with the assistance of the local branch of the Memorial University of Newfoundland Alumni Association and colleagues at Sir Wilfred Grenfell College. It was created to mark the contribution that Dr. Bindon made at the college during her tenure as its Principal from 1991-1997. The scholarship is to be awarded to a student entering his or her fourth year in any degree program offered at Sir Wilfred Grenfell College. The recipient should have combined academic excellence with an outstanding contribution to student life at SWGC. The scholarship is to be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

### **The Breakwater Folklore/Folklife Series Award**

The Breakwater Books Folklore Prize is awarded annually for outstanding student performance in undergraduate folklore courses at Sir Wilfred Grenfell College. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Social Science at the College in consultation with Folklore Faculty.

### **Edward P. Browne Scholarship**

This scholarship was established by individual members of faculty, staff and student body of Sir Wilfred Grenfell College in memory of the late Edward P. Browne. Professor Browne was Co-ordinator of Physical Education and Recreation at Grenfell College from its opening until his death in 1982. The scholarship is open to all full-time students who have spent at least two semesters at Grenfell College. It is awarded on the basis of academic standing, participation in college life and financial need. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from the College. The value of the award will be determined from the interest accrued on the principal sum donated.

### **Canadian Coast Guard Newfoundland Region Alumni Association Bursary**

This Bursary is made possible by the Canadian Coast Guard Alumni. Valued at \$500.00 annually, it will be awarded to a 2nd year Visual Arts student who excels in drawing and painting. Financial need will also be taken into consideration. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee of Sir Wilfred Grenfell College in consultation with the Head, Division of Fine Arts.

### **Canadian Society for Chemistry Silver Medal**

This medal is presented annually to the student at Sir Wilfred Grenfell College with the highest average in third-year Environmental Chemistry courses. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of Science at the College.

### **The Nicola Carlson Memorial Award**

The Nicola Carlson Memorial Award is presented in honour of Mrs. Nicola Carlson, a Memorial University of Newfoundland alumnus and Sir Wilfred Grenfell College employee. The award will be presented annually to a Western Regional School of Nursing student who has demonstrated skills in or has expressed a desire for future education in the fields of oncology nursing or palliative care nursing. The student must meet the minimum academic requirements for an award. The award is presented by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director of the Western Regional School of Nursing.

### **The City of Corner Brook J.R. Smallwood Scholarship**

This scholarship was established in 1991 by the City of Corner Brook to honour the Honourable Joseph R. Smallwood, first Premier of Newfoundland, who contributed significantly to the educational and cultural development of Newfoundlanders. This fund, donated by the City is a tangible mark of the support given by the City to Sir Wilfred Grenfell College since the campus opened in Corner Brook. The scholarship valued at \$1,000.00 will be awarded to a student who is a resident of the City of Corner Brook in the final year of high school who is proceeding to Sir Wilfred Grenfell College. The award will be made, upon application, to a student of outstanding academic merit and promise who has demonstrated active participation in school and community life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, acting on the recommendation of a special selection committee appointed by the Principal, with a representative from City Council.

### **Corner Brook Pulp and Paper Limited Scholarships**

From funds donated annually by Corner Brook Pulp and Paper Limited, a number of scholarships are available to students attending Sir Wilfred Grenfell College, valued from \$250.00-\$500.00 each, available to students in any faculty or year of study. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at the College.

### **The Cottage Crafts Association Scholarship**

This scholarship is supported by the interest on \$5000.00 donated by Cottage Crafts Association, Corner Brook. It is awarded to a student in Fine Arts at Sir Wilfred Grenfell College. Preference will be given to a student with an interest in fibre arts, including costume design, textile design or textile manufacturing. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the College.

### **Decker Family Environmental Scholarship**

This scholarship was established by the Decker Family. The scholarship, valued at \$1,000 will be awarded annually to a student enrolled at Sir Wilfred Grenfell College either in the Bachelor of Science program in Environmental Science, the Bachelor of Arts program in Environmental Studies, or the Bachelor of Resource Management program in Sustainable Resource Management. Students must meet the minimum academic requirement for a scholarship. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Sir Wilfred Grenfell College Scholarship Committee.

**The James Alexander Doull Memorial Scholarship in Humanities**

This scholarship was established by Professor Floy Andrews Doull, to honour the memory of James Alexander Doull, teacher, colleague and friend. This scholarship, valued at a portion of the annual accrued interest, will be awarded annually to a student registered full-time in the Humanities Program at Sir Wilfred Grenfell College. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Humanities, Sir Wilfred Grenfell College.

**Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland**

This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Sir Wilfred Grenfell College, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland's Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland's M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Sir Wilfred Grenfell College, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Principal of Sir Wilfred Grenfell College. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

**Dr. Wynanne Downer Bursary for Women**

This bursary was established by the Canadian Federation of University Women, Corner Brook Club, in memory of Dr. Wynanne Downer who was a founding member. The bursary, valued at a portion of the income from the endowment, will be made to a female student who graduated from a high school in Newfoundland and Labrador and who is pursuing a degree at Sir Wilfred Grenfell College. Preference will be given to a female student who entered university as a mature student (twenty-one years or older), who is beyond her first year of studies, is in financial need and meets the minimum academic requirements for a bursary. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College. Applications will be available at Student Services, AS232, Sir Wilfred Grenfell College and/or may be downloaded from the CFUW Corner Brook website.

**The Environmental Science Merit Scholarship**

One Merit Scholarship, valued at \$2,500.00 annually will be awarded to an outstanding student entering the fourth year of the Environmental Science program at Sir Wilfred Grenfell College. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Chair of Environmental Science, Sir Wilfred Grenfell College.

**Duncan A. Ferguson Prize in Psychology**

This prize was established by family, friends and colleagues in memory of Dr. Duncan A. Ferguson. It will be awarded annually to a student in his/her final year of a Psychology program at Sir Wilfred Grenfell College. The chosen student will have demonstrated strong academic performance and have contributed to the spirit of student life within the Psychology program. This prize, valued at \$500, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair, Psychology program, Sir Wilfred Grenfell College, in consultation with the Psychology faculty and the Ferguson family.

**The Madeline Fowler Prize in English**

This prize, valued at \$200.00, is in memory of Madeline Fowler. The prize is normally awarded to a senior student in the B.A. Specialization in English engaged in full-time studies at Sir Wilfred Grenfell College. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of English at the College.

**The Dr. G.A. Frecker Memorial Alumni Bursaries**

The Memorial University of Newfoundland Alumni Association has established, from its Annual Fund, five bursaries named in honour of the late Dr. G.A. Frecker, Chancellor, Memorial University of Newfoundland, 1971-79, and valued at \$500.00 each. Four of the bursaries are tenable at the St. John's campus and one at the Sir Wilfred Grenfell College at Corner Brook. The bursaries will be awarded annually to full-time students in any faculty or year on the basis of academic standing and financial need.

**The Joanne Swan Greenlee Prize in Historical Studies**

This prize, valued at \$500.00 will be awarded in memory of Joanne (Swan) Greenlee, who, for two decades, delighted in the hearty appetites and lively conversation of Grenfell students who gathered to discuss history at her home. It will normally be awarded to a full-time senior student, at Sir Wilfred Grenfell College, majoring in Historical Studies who displays outstanding cumulative merit in four History courses during the academic year. This prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Chair of Historical Studies.

**The Rufus Guinchard Entrance Scholarship**

This scholarship has been established by the Newfoundland government in honour of the late Rufus Guinchard. The award, valued at \$2,000.00, is presented annually to a student entering Sir Wilfred Grenfell College, who has demonstrated a commitment to the preservation of Newfoundland heritage and culture. This commitment may be reflected in Newfoundland music, folklore, art or writing. Applicants for the Rufus Guinchard Scholarship should submit, with their application, either a statement of their interests relevant to this scholarship, or a completed piece of work. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, based upon the recommendation of the Scholarship Committee at Grenfell College.

**The Ida Harvey Scholarship**

This scholarship, in memory of Ida Harvey, is supported by a fund established in 1988 on the occasion of the opening of the Fine Arts Building. It is awarded on merit to any student in a Bachelor of Fine Arts Program by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**Historical Studies Merit Award**

This book prize is awarded to a student who has made an outstanding contribution to the life of the Historical Studies Program at Sir Wilfred Grenfell College. The faculty of that program will fund the prize. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Historical Studies Faculty.

**The E.J.F. Hodgett Scholarship in Science**

This scholarship was established by friends and colleagues of Professor Ferriss Hodgett on the occasion of his retirement, in celebration of his outstanding contributions and service to Memorial University of Newfoundland, and in particular Sir Wilfred Grenfell College. Professor Hodgett, a native of Belfast, in the north of Ireland, served as Vice-Principal of Grenfell College from 1975-1992. This scholarship, valued up to two semesters' tuition, will be awarded to the student entering second year at Sir Wilfred Grenfell College who has attained scholarship standing and has received the second highest overall average in his/her first year having completed at least four courses in the Natural Sciences. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation of the Scholarship Committee of Sir Wilfred Grenfell College.

**The Gervase C. Hollander Prize in Biology**

This prize was established in 1982 by Mrs. Hollander in memory of her husband, a former teacher and school supervisor with the Humber-Bay St. George Roman Catholic School Board. Valued at approximately \$100.00, it is awarded annually to a second-year student who has completed three or more courses in Biology beyond the first year and who have demonstrated excellence and initiative in both the theoretical and practical aspects of Biology. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head of Science at Sir Wilfred Grenfell College.

**Husky Energy SeaRose Bursary**

The bursary is made possible through a generous donation from Husky Energy, as operator of the White Rose Project, in recognition of the donation of art work by Sir Wilfred Grenfell College's Fine Arts students. The art work is displayed on the FPSO (Floating Production Storage and Offloading) vessel the *SeaRose*. The bursary is being established to provide travel funding to students who, for financial reasons, would not otherwise have the opportunity to travel. Valued at \$2,000.00 annually, it will be awarded on a rotating basis between Visual Arts and Theatre Arts students attending Harlow Campus. To be eligible to receive the bursary students must have clear standing and demonstrate artistic merit and financial need. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College in consultation with the Head, Division of Fine Arts.

**The Imperial Tobacco Canada Fine Arts Scholarship**

This scholarship, established in 1998 by Imperial Tobacco Canada in support of the *Opportunity Fund* Campaign, has a minimum value of \$2,000.00 annually. It will be awarded on the basis of scholarship standing to a full-time student in the Bachelor of Fine Arts who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Visual and Theatre Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College in conjunction with the Head, Division of Fine Arts.

**The F. L. Jackson Award in Philosophy**

F. L. Jackson taught Philosophy at Memorial University of Newfoundland for twenty-nine years, for nine years serving as Head of the Department. Professor Jackson conceived the Department of Philosophy as a window on the grand tradition of philosophy, especially for Newfoundlanders, and it is this spirit which animates philosophy at Sir Wilfred Grenfell College. The F. L. Jackson Award will be given to students whose written work is distinguished by its appreciation of the history of philosophy. Generally there will be one award granted per academic year. It will be valued at a minimum of \$100 and will be awarded to a student in any year of study. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College and in consultation with the Philosophy faculty.

**The Olof Lindgren Scholarship**

This scholarship, the value of which will be determined by the annual interest accrued, is supported by a fund established by Dr. Orvil Olsen, a former Professor of Biology at Sir Wilfred Grenfell College, in memory of his grandfather Olof Lindgren, a Saskatchewan pioneer farmer, who was a firm believer in the value of education as a means of enhancing the quality of life. It is awarded to a student who has completed at least two years at Sir Wilfred Grenfell College and plans to proceed with the full degree on that campus. In awarding the scholarship, preference will be given to a student who has shown an interest in both the natural and physical sciences, and the arts. This award is based upon academic excellence. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**The William and Naomi Lundrigan Scholarship**

The William and Naomi Lundrigan Scholarship shall be awarded to an entrance student attending Sir Wilfred Grenfell College, Corner Brook. One scholarship, valued at not less than \$2,000.00 will be awarded annually. The recipient must spend at least one semester at Sir Wilfred Grenfell College. The Lundrigan Scholarship will not be awarded to a student receiving another scholarship of equal or greater value administered by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. It will be paid in two equal instalments (September and January) with the second instalment being conditional on the student maintaining a 70% average in the courses which comprise the 15 credit hours completed during the previous semester. This scholarship will be awarded on the basis of scholarship standing, however, character, economic need, and any other relevant factors may be considered. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Selection Committee at the College.

**The Kathleen Wagstaff MacCallum Memorial Scholarship**

This scholarship, was established by the MacCallum family in honour of their mother, Kathleen. Valued at the annual interest, it will be awarded to a Fine Arts student beyond first year at Sir Wilfred Grenfell College who is specialising in Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Sir Wilfred Grenfell College in consultation with the Head, Division of Fine Arts. Factors such as financial need, family and community involvement, and contribution to the class may also be taken into account.

**The Maxim Mazumdar Memorial Scholarship in Theatre**

This scholarship is supported by a fund established by Theatre Newfoundland and Labrador in memory of Maxim Mazumdar, founding Artistic Director of T.N.L. It is awarded to a Sir Wilfred Grenfell College student who has completed the first year in the Theatre Degree Program and who has shown the most promise in any area of the Program. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**The Dr. M.O. and Grace Morgan Scholarship in Fine Arts**

This scholarship is the result of an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan. Valued at a portion of the annual accrued interest, it will be awarded to a Fine Arts student beyond first year at Sir Wilfred Grenfell College. It will rotate annually between Visual Arts and Theatre Arts. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Sir

Wilfred Grenfell College in consultation with the Head, Division of Fine Arts.

#### **The Maxwell and Emily Mullett Scholarship**

This scholarship is supported by the interest on monies donated by Maxwell and Emily (Wicks) Mullett. It is awarded to a student in the final year of studies in Visual Arts at Sir Wilfred Grenfell College on the basis of achievement and promise. Preference is given to Newfoundland and Labrador students. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

#### **The Orvil Olsen Biology Prize**

This prize was established to commemorate the tenth anniversary of the opening of Sir Wilfred Grenfell College. It is valued at approximately \$100.00 annually. Dr. Olsen taught Biology at the College from its opening until his retirement in 1980. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head of Science at Sir Wilfred Grenfell College to an outstanding student of first year Biology.

#### **The Florence O'Neill Scholarships**

An endowment donated to the University by Florence O'Neill, Ed.D., C.M., LL.D., honorary graduate of Memorial University of Newfoundland, distinguished for her contribution to the fields of adult education and community development, will fund annual scholarships valued up to \$1,000.00 each. These awards will be made available to full-time undergraduate students, preferably to those from rural Newfoundland and Labrador, on the basis of scholarship standing. One shall be given annually to a student attending the Sir Wilfred Grenfell College in Corner Brook.

#### **The Raymond J.G. Pafford (1937-1997) Memorial Scholarship**

This scholarship, established in 2000 by Mrs. Roberta Pafford, in memory of her husband Raymond, is valued at the annual interest on an endowment. It will be awarded on the basis of scholarship standing to a full-time student in any year of study of the Bachelor of Fine Arts program who shows promise and plans to continue in the field. It will rotate annually between the disciplines of Theatre Arts and Visual Arts. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College in conjunction with the Head, Division of Fine Arts.

#### **The Palliser Prize in History**

This prize is in honour of Captain Hugh Palliser, RN, Governor and Commander-In-Chief at Newfoundland from 1764 until 1768; in 1764 he became the first governor to visit western Newfoundland. It is awarded annually to a full-time student beyond first year who has earned no more than 90 credit hours and has earned the highest cumulative average in at least five History courses. This student would normally be studying towards a degree or minor in Historical Studies. The prize is valued at \$250.00 and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College and the members of the Historical Studies program. In the event that no student qualifies in any given year the award will not be given.

#### **The Pausanias Award in Classics for Study Abroad**

Named for the second century traveller and geographer, this award is available to students at Sir Wilfred Grenfell College who enroll in field study courses in the culture, history and/or civilization of ancient Greece or Rome. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College in consultation with the Head, Division of Arts at the College.

#### **Al Pittman Harlow Travel Award**

The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman's friends and family. Mr. Pittman was one of Newfoundland's most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Sir Wilfred Grenfell College who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The Award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Theatre and the Scholarship Committee at Sir Wilfred Grenfell College.

#### **The C.F. Poole Scholarship**

This scholarship was established from funds donated by friends of Dr. Cyril F. Poole on the occasion of his retirement as Principal of Sir Wilfred Grenfell College. Dr. Poole, a native of Pilley's Island, Notre Dame Bay, was committed to excellence throughout his distinguished career as a university teacher and administrator in several Canadian universities including Sir Wilfred Grenfell College, where he served as Principal from 1977 to 1990. The scholarship honouring his contribution to excellence in education will be awarded annually to a Sir Wilfred Grenfell College student of outstanding academic merit and promise. Valued at approximately \$1,000.00, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on recommendation from the College.

#### **The James C. Pratt Memorial Scholarship**

This scholarship, valued at a minimum of \$1000.00, has been established in memory of James C. Pratt by his daughter, Mrs. Daphne L. House. The scholarship is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair of Visual Arts at Sir Wilfred Grenfell College, to a full-time student in the discipline of Bachelor of Fine Arts (Visual Arts) who shows promise and purpose of continuing in that field.

#### **The Refreshments Canada Scholarship**

This scholarship, donated by the soft drink industry of Newfoundland and Labrador, is valued at \$2,000.00 and will be awarded annually to an outstanding full-time student beyond first year of the Environmental Science Program at Sir Wilfred Grenfell College. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the Basis of scholarship standing and a recommendation from the Scholarship Committee at Sir Wilfred Grenfell College in consultation with the Chair of Environmental Science.

#### **The Francis J. Ryan Memorial Scholarship**

This fund was established by the Stewart McKelvey Stirling Scales law firm in memory of their late senior partner Francis J. Ryan. Valued at the annual interest on the endowment, the award will be made to a Fine Arts student specializing in Visual Arts at Sir Wilfred Grenfell College. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and a recommendation from the Scholarship Committee at Sir Wilfred Grenfell College in consultation with the Head, Division of Fine Arts. Financial need may be taken into account.

#### **Sir Wilfred Grenfell College Residence Scholarship**

This award, valued at \$500.00, is available to a student who has spent at least two semesters in residence at the College. Academic performance and contribution to college life will be the main criteria for choosing the recipient. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation from the College.

**Sir Wilfred Grenfell College Scholarship Fund**

Funds are available for the purpose of providing scholarships to students in their first and second year of studies at Sir Wilfred Grenfell College. The scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at the College. Academic standing and financial need will be taken into account when making the awards.

**The Sisters of Mercy Anniversary Scholarship**

This scholarship was established by the Sisters of Mercy to commemorate the 100th anniversary of the arrival of the sisters on the west coast of Newfoundland in 1893. The Sisters of Mercy, educators in Newfoundland since 1842, have been associated with Memorial University of Newfoundland since the University was established. The scholarship valued at a minimum of \$1,000.00 will be awarded annually to a student from Western/Northern Newfoundland or Labrador entering Sir Wilfred Grenfell College with full-time status. Academic standing and promise will be the main criteria. Consideration may be given to candidates' financial circumstances. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**John A. Snow Prize in Mathematics**

This prize, in memory of John A. Snow, will be awarded to a student attending Sir Wilfred Grenfell College beyond their third year of studies, who has excelled in a number of Mathematics courses. The prize of \$200.00 will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards in consultation with the Mathematics professors of Sir Wilfred Grenfell College.

**The Honourable P. Lloyd and Elizabeth Soper Scholarship**

This scholarship is provided from a fund established by the Honourable P. Lloyd and Elizabeth Soper. It will be awarded to a student at Sir Wilfred Grenfell College who has completed his or her first year of studies and is continuing as a full-time student at the College for the second year. The scholarship, valued at a minimum of \$1000.00, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**The Sun Life Financial Scholarship in Applications of Technology**

The Sun Life Financial Scholarship in Applications of Technology is consistent with the company's belief that education is key to the future well-being of individuals, business and society. The scholarship, valued at the annual interest on the endowment, will be designated on an annually rotating basis to a student on the Corner Brook campus and the St. John's campus. It will be awarded to a student within the faculties of Science, Engineering and Applied Science and Business Administration who is focussing his/her studies on the application of technology and has demonstrated scholarship standing. In addition, the student will have actively participated in extra-curricular activities and have been active in student life. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the appropriate Dean and/or the Principal of Sir Wilfred Grenfell College.

**The Visual Arts Entrance Scholarship**

This scholarship, established by the Corner Brook and Area Branch of the Alumni Association of Memorial University of Newfoundland, is awarded annually to a student commencing first-year studies in the Visual Arts Program of the Bachelor of Fine Arts at Sir Wilfred Grenfell College. Valued at \$500.00, the award is made on the basis of previous academic performance and the quality of the portfolio submission. This scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**The Wabush Mines Fine Arts Travel Bursary**

These bursaries are the result of an endowment to Memorial University of Newfoundland from Wabush Mines as part of their contribution to *The Opportunity Fund*. Valued at the annual interest on the endowment, they will support Fine Arts students at Sir Wilfred Grenfell College wishing to travel and gain exposure to Visual and Performing Arts. They will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of academics, financial need and a recommendation from the Scholarship Committee at Sir Wilfred Grenfell College in consultation with the Head, Division of Fine Arts.

**The Dr. Harriet Ware Memorial Scholarship in Fine Arts**

This scholarship, valued at the annual interest on the initial endowment, is supported by a fund established by Martin Ware in memory of his mother, Dr. Harriet Ware. It will be awarded to a Sir Wilfred Grenfell College student who has completed the third year of a Bachelor of Fine Arts program in Theatre and is continuing in that program. The scholarship will be awarded to a student with scholarship standing who has also maintained at least a 70% average in non-theatre courses in their overall academic performance. Preference may be given to a single parent. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Scholarship Committee at Sir Wilfred Grenfell College.

**The Alan and Patricia Wright Psychology Conference Travel Bursary**

This award was established by Dr. Sandra Wright in memory of her parents, Alan and Patricia Wright, both former educators who believed strongly in the importance of education. Applications will be available through Psychology Faculty members in January of each year. It will be given annually to a fourth year Psychology major engaged in full-time studies at Sir Wilfred Grenfell College. The purpose of the award is to offset the cost of travel to a Psychology conference (for example APICS, CPA or CSBBS). Funds must be used for travel to and from a conference in the year it is awarded. Valued at \$700, one award is available each academic year. Applications will be read and the recipient chosen by Psychology faculty at Sir Wilfred Grenfell College based on academic performance in Psychology courses and the merit of the proposal. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Psychology and the Scholarships Committee at Sir Wilfred Grenfell College.

**Dr. James A. Wright Memorial Scholarship**

One annually funded scholarship is established by a gift from Leprechaun Resources Ltd. in memory of Dr. James A. Wright, former professor in the Department of Earth Sciences. The scholarship, valued at \$1,000, is available to full time undergraduate students in their second year of study at Memorial University of Newfoundland with a preference for students enrolling at Sir Wilfred Grenfell College. To be eligible, students must meet the minimum academic requirements for a scholarship and must have graduated from a high school on the West Coast of Newfoundland, as defined by the University. Preference will be given to students pursuing any area of study within the Faculty of Science or the Faculty of Engineering and Applied Science. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

## 6 Convocation Awards

Convocation Medals and Awards are given at the Spring Convocation each year however, students who graduated at the previous Fall Convocation will also be considered for these awards. The "scholarship year" shall be defined as "May 1-April 30".

**Governor-General's Medals**

Two Governor-General's Medals are awarded at Convocation: the Gold Medal to the graduate student who achieves the highest academic standing in his/her Graduate degree program; and the Silver to the undergraduate student obtaining a first degree who stands

highest in the graduating class and has an average of first-class standing.

This prize, a book award, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

**The Captain Robert A. Bartlett Science Award**

As a spontaneous expression of their admiration and affection for a man who has a lasting place in the history of polar exploration, the Explorers' Club of New York and two kindred organizations - the Wilderness Club of Philadelphia and the Harvard Travellers' Club of Massachusetts - donated a sum of money to this University, as a memorial to Captain Bartlett. The University has placed this money in a trust fund, the interest on which is the value of the award. It will be based primarily on academic excellence. Consideration may also be given to the demonstration of the spirit of scientific exploration. The award is made annually to a student graduating in Science, on the recommendation of the President.

**The Brepols Book Prize in Medieval Studies**

Brepols Publishing, Turnhout, Belgium, an international academic publisher with a very strong interest in medieval studies, has agreed to donate a prize consisting of a book to be selected from their current catalogue, to be awarded each year to an outstanding student graduating with Medieval Studies as a second major. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Co-ordinator of Medieval Studies. If in any year there is no outstanding candidate in the opinion of the Co-ordinator, it will not be awarded.

**The Reginald H. Brown Q.C. Memorial Scholarship**

The Reginald H. Brown Q.C. Memorial Scholarship is established at Memorial University of Newfoundland in memory of Reginald H. Brown, K. St. J., Q.C., through generous lead donations by Pamela Brown and Reg's colleagues at Cox & Palmer. Described as "a lawyer's lawyer", Reg Brown was a loyal friend and colleague who combined a very challenging and successful litigation practice with the leadership of his law firm as managing partner of Cox & Palmer, an Atlantic Canadian law firm established only two weeks before his death in early 2007. Reg balanced his demanding professional life and leadership in service of his profession and the community with the philosophy that family came first. The Reginald H. Brown Q.C. Memorial Scholarship is to be awarded at convocation to a student graduating from any area of study and accepted at law school. Selection will be made on the basis of academic excellence (with a minimum of scholarship standing) and demonstrated leadership qualities as epitomized by Reg in charitable, athletic, artistic or political endeavours, whether in student life or in the community at large. The scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**Dick Buehler Award in Theatre**

This award is given to a student, at Spring Convocation, who has successfully completed all the Theatre courses or the requirements for the Diploma in Performance and Communications Media who will continue their training at an institution of higher learning or as an apprentice to an approved professional theatre or film company. Preference will be given to a student whose primary interest is in technical theatre. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Co-ordinator, Diploma In Performance and Communications Media.

**The Faculty of Business Administration Advisory Board B.B.A. Award for Excellence**

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Business Administration program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program, the University, or the community. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the Faculty of Business Administration.

**The Faculty of Business Administration Advisory Board B.Comm. (Co-op) Award for Excellence**

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to an outstanding student in the graduating class of the Bachelor of Commerce (Co-op) program. The recipient will be selected based on a combination of academic performance, demonstrated leadership and general contribution within the program. This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean of the Faculty of Business Administration.

**The Faculty of Business Administration Advisory Board M.B.A. Award for Excellence**

This award, established by the Advisory Board of the Faculty of Business Administration, is to be presented annually to the outstanding student in the graduating class of the M.B.A. program. The recipient will be selected based on academic performance, demonstrated leadership and general contribution within the program. Selection will be made by the Scholarship Advisory Committee of the Faculty of Business Administration, acting on the advice of the Dean of the Faculty.

**Faculty of Business Administration Dean's Award**

These awards are made by the Dean of the Faculty, on the advice of his colleagues, to graduating students who have demonstrated academic excellence together with leadership qualities within the Faculty of Business Administration and/or the University.

**Faculty of Business Administration Dean's MBA Award**

This award is made by the Dean of the Faculty, on the advice of colleagues, to a graduating MBA student in recognition of academic excellence together with demonstrated leadership qualities in graduate student activities and service to the Faculty and/or the University.

**The Canadian Association of Geographers (CAG) Award**

The Canadian Association of Geographers (CAG) Award is given to the top student graduating with an Honours or General degree majoring in Geography in each university in Canada. The award at Memorial University of Newfoundland is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon a recommendation from the head of the Geography Department. Recipients receive a one-year membership in the association which includes a Subscription of *The Canadian Geographer*, a professional journal.

**Canadian Society for Civil Engineering, CSCE, Newfoundland Section Convocation Award**

Each year the local section of the Canadian Society for Civil Engineering awards a prize which consists of a certificate and \$200.00 cash to the top student graduating with a Bachelor of Engineering - Civil, from Memorial University of Newfoundland. The successful candidate will have demonstrated commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The Canadian Society of Mechanical Engineering Medal for Academic Excellence**

Each year the Canadian Society of Mechanical Engineering awards a medal and certificate for outstanding achievement to a graduating student in the baccalaureate program in Mechanical Engineering who also demonstrates commitment, dedication and consistent performance in academic as well as work terms. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The Chancellor's Graduate Award**

The Chancellor's Graduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to graduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Dean, Student Affairs and Services and the Dean, School of Graduate Studies.

**The Chancellor's Undergraduate Award**

The Chancellor's Undergraduate Award is given at Convocation to the student of the graduating class who has demonstrated the greatest leadership contribution to undergraduate student life and other areas of the community during his or her university years. It is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the President in consultation with the Dean, Student Affairs and Services.

**The Cox and Palmer Prize in Law and Society**

This prize is for the student graduating from the Law and Society major or minor program with the highest academic average. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Co-ordinator of the Law and Society program.

**The Dean's Honour Award in Engineering**

This award is in recognition of outstanding contribution made to the Faculty of Engineering and Applied Science through leadership in student affairs and service to the community while maintaining high academic standing.

**The David Dunsiger Award for Excellence**

This award is for excellence in graduate studies in the Faculty of Engineering and Applied Science, and commemorates the contribution of Dr. A. David Dunsiger, a member of the Faculty of Engineering and Applied Science from 1974-79. It is awarded at the Spring Convocation to a graduate in the preceding year who produces work of outstanding quality. The recipient will be selected by the Faculty of Engineering Scholarship Advisory Committee, on the advice of the Dean of Engineering and Applied Science and the Dean of Graduate Studies.

**The French Ambassador's Prize**

This prize, the gift of the Ambassador of France to Canada, is a book award made at Convocation to an outstanding graduate whose major was French. The award is made on the recommendation of the Head of the Department of French and Spanish.

**Fry Family Foundation Graduate Leadership Award**

The Fry Family Foundation Leadership Award is presented to a graduate student who has been selected as Memorial University of Newfoundland's most outstanding graduate student leader. It provides an award of \$5,000.00 to the student who has contributed significantly to student life at Memorial University of Newfoundland, has assumed a variety of leadership responsibilities in various positions and has made a significant contribution to the betterment of their community. This award is given at Convocation to the student who has been selected to receive the Chancellor Award which is the most prestigious leadership recognition awarded by Memorial University of Newfoundland. This award will be made by the Dean, School of Graduate Studies.

**Fry Family Foundation Undergraduate Leadership Award**

The Fry Family Foundation Leadership Award is presented to an undergraduate student who has been selected as Memorial University of Newfoundland's most outstanding student leader. It provides an award of \$2,500.00 to the student who has contributed significantly to student life at Memorial University of Newfoundland, has assumed a variety of leadership responsibilities in various positions and has made a significant contribution to the betterment of their community. This award is given at Convocation to the student who has been selected to receive the Chancellor Award which is the most prestigious leadership recognition awarded by Memorial University of Newfoundland. This Award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The A.C. Hunter Prize in English**

The A.C. Hunter Prize in English, established by the late Mrs. A.C. Hunter in memory of her husband, formerly Head of the Departments of English and French, and Dean of Arts and Science at this University, has a value of \$100.00 and is awarded annually at the Spring Convocation to the graduating student majoring in English who stands highest in the General Degree program. The prize is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

**The IEEE Newfoundland and Labrador Section Award**

This award, which consists of a certificate and cash prize, is presented at the Spring Convocation to a graduating student in the Faculty of Engineering and Applied Science (Electrical and Computer Engineering Program) who has had a consistently good academic record in the professional courses required for the degree and who has made a significant contribution to the Faculty and to the IEEE student branch. It is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Engineering and Applied Science.

**The MBA Award for Academic Excellence**

This award is to be presented annually to the student in the graduating class of the MBA program who achieves the highest academic standing.

**Margaret Waterman Kelly Teaching Prize**

This prize, valued at \$500, is named in memory of Margaret Waterman Kelly, a teacher in pre-Confederation Newfoundland whose life exemplified the highest ideals of education and volunteerism. This prize was established by her daughter, Ursula Kelly, to commemorate this lifework. The prize will be awarded to a female student from Newfoundland and Labrador, enrolled in the Faculty of Education who, upon graduation with a Bachelor's degree in Education (Primary, Elementary or Secondary), has demonstrated excellence in teaching combined with commitment to community service. The Prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean, Faculty of Education.

**The William J. May Prize in Post-Secondary Studies (Undergraduate)**

This prize, valued at a portion of the annual income on the endowment, was established by friends and family of the late Mr. William J. May. Mr. May was Director of Technical and Vocational Education for the province for a number of years and received an Honorary Doctorate from Memorial University of Newfoundland for his contributions to that field. The prize will also consist of a small certificate suitable for framing and will be awarded to the undergraduate student of the graduating class who receives the Medal of Excellence for Post-Secondary Studies (formerly Vocational Education) in his/her graduating year. In a year when there is no suitable candidate it will not be awarded. The prize will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Education.

**The Memorial University of Newfoundland English Student Society (MESS) Award**

This award was established in 2000 as a result of funds raised by the Memorial University English Students' Society (MESS) and the Faculty of the Department of English Language and Literature. The MESS Award recognizes the outstanding contribution to student life at Memorial University of Newfoundland made by the Memorial English Students' Society. It will be awarded annually at the Spring Convocation to one or more graduating English Honours or Major students who have consistently good academic records and who have made outstanding contributions to student life. The award will be valued at the annual interest on the endowment and will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature.

**The Grace Morgan Prize in Biochemistry (Nutrition)**

This prize is for the student graduating in honors Biochemistry (Nutrition) with the highest standing. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Head, Department of Biochemistry.

**The Margaret Fitzpatrick Morgan Medal in Nursing**

This award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Director, School of Nursing, Memorial University of Newfoundland

**The Harvey and Doris Murcell Scholarship in Religious Studies**

This scholarship, donated to the University by Doris and the late Harvey Murcell of Harbour Grace, and valued at \$500.00, is awarded to a graduating student majoring in Religious Studies. To be eligible for the award, a student must have scholarship standing. Financial need, and the student's contribution to the Department of Religious Studies, may be considered. The award is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Religious Studies.

**Newfoundland & Labrador Association of Social Workers' Student Award**

The Newfoundland and Labrador Branch of the Canadian Association of Social Workers makes this award annually to a graduating B.S.W. student selected by the Association in consultation with the School of Social Work.

**The Newfoundland & Labrador Teachers' Association Medal**

This medal is awarded to a graduating student in Education who has had a consistently good academic record in the professional courses required for the degree and who has made an outstanding contribution to the Faculty of Education and to the University.

**Professional Engineers and Geoscientists Newfoundland and Labrador Anniversary Award**

The Professional Engineers and Geoscientists Newfoundland and Labrador offers an Award in the Faculty of Engineering and Applied Science to mark the occasion of fifty years of Engineering education at Memorial University of Newfoundland. The award, to be tenable by a student in each year's graduating class, is to be awarded on the following conditions:

- a. high academic standing;
- b. outstanding leadership qualities;
- c. involvement in extracurricular activities;
- d. all-round contribution.

The selection of the winner is to be based on the recommendation of a Selection Committee within the Faculty.

**Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence**

The Professional Engineers and Geoscientists Newfoundland and Labrador has established an "Award for Excellence", which may be made to a student at Memorial University of Newfoundland who obtains an Engineering degree in not more than eight consecutive academic terms and who has completed the prescribed courses with the highest average mark in all the courses. This award takes the form of a framed "Award for Excellence", suitably engraved, and presented by PEGNL at or about the time of Convocation

**Professional Engineers and Geoscientists Newfoundland and Labrador Award for Excellence in Geoscience**

The Professional Engineers and Geoscientists Newfoundland and Labrador have established an award for excellence in Geoscience which shall be awarded to the graduating student at Memorial University of Newfoundland who has shown the highest degree of academic excellence during his/her geoscience education. It takes the form of a framed "Award for Excellence" which is engraved and presented by PEGNL on or about the time of convocation. The award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Earth Sciences.

**The Prize of the Ambassador of the Federal Republic of Germany**

This prize, a book award, the gift of the Ambassador of the Federal Republic of Germany in Canada, is to be awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of German and Russian, to a graduating student who has majored in German Language and Literature and has a consistently good academic record at the University.

**Drs. James and Leslie Rourke Dean's Convocation Award in Medicine**

This award has been established by a generous donation from Dr. James Rourke, who started as Dean of Medicine in 2004, and Dr. Leslie Rourke. The award recipient will be the graduating medical student who has made an outstanding personal contribution to bettering the lives of others through volunteer work and humanitarian acts while maintaining high academic standing. Consideration will be given to students who have exhibited the following characteristics: altruism, kindness and compassion. The award, valued at a portion of the income on the investment, is made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the basis of a recommendation from the Dean, Faculty of Medicine. The Office of Student Affairs of the Faculty of Medicine will assist the Dean in his or her choice of an appropriate candidate,

**The Society of Chemical Industry Merit Award**

The student graduating in Honours Chemistry and Biochemistry with the highest standing will receive a suitably engraved gold key and a year's Subscription to Chemistry and Industry. The recipient must have obtained an overall average of at least 75%, completed the course program in the normal number of years, and be recommended to the Senate Committee on Undergraduate Scholarships, Bursaries and Awards by the Heads, Department of Chemistry and Biochemistry.

**The Spanish Ambassador's Prize**

This Prize, the gift of the Ambassador of Spain to Canada, is a book award made at Convocation to an outstanding graduate whose major or minor was Spanish. The award is made on the recommendation of the Head of the Department of French and Spanish.

**The George M. Story Convocation Medal in Arts**

This award was established in memory of Dr. George M. Story, Professor Emeritus of Memorial University of Newfoundland. The medal and a \$100.00 prize are awarded to the student graduating with a Bachelor of Arts who has demonstrated, as did Dr. Story, both academic excellence and a strong commitment to serving the University and the community. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Dean of Arts.

**The Swiss Ambassador's Prize**

One prize in French and one in German are awarded annually to graduating students who have majored in these languages. The prize in French is awarded on the recommendation of the Head, Department of French and Spanish, and the prize in German on the recommendation of the Head, Department of German and Russian.

**The Leslie Thoms Convocation Award**

This award, valued at the interest on an endowment, was provided by friends and family of the late Mr. Thoms. It will be awarded at convocation to the undergraduate student of the graduating class who has shown positive, outstanding leadership in student affairs and activities during his or her university career while carrying a full-time course load for the majority of their undergraduate studies and maintaining good academic standing. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Student Affairs and Services.

**The Moire A. Wadleigh Graduate Award for Excellence in Environmental Science**

This award for graduate students in the Environmental Science Program was established in memory of Dr. Moire A. Wadleigh, friend and colleague, caring teacher, dedicated scientist and beacon of excellence in Environmental Science and Geoscience. Two awards will be presented annually: one to the student completing the best Master of Science thesis in Environmental Science within the previous 12 months, the second to the student in the Master of Environmental Science program with the best project and report completed in that year. Successful students must have achieved an average of at least 80% in courses required for the program. Awards will be made by the Dean of Graduate Studies upon recommendation of the Board of Studies of the Graduate Program in Environmental Science.

**The Dr. James L. Walker Convocation Award**

This award was established in memory of Dr. James L. Walker, a Brandon University department head, psychology professor and research consultant whose innovative teaching, socially relevant research and integration of research into treatment programs for Alzheimer's patients transformed the lives of students, colleagues and patients. Valued at \$1,000, it will be awarded at convocation to a graduating undergraduate student in the Psychology honors program who has demonstrated both academic excellence (a minimum of clear standing) and leadership within their community. The award will be conferred by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of Psychology.

**The Captain George C. Whiteley English Prize**

This prize is the gift of Mr. George C. Whiteley, Jr., a student of Memorial University College, 1926-27, in memory of his father, the late Captain George C. Whiteley. The prize, of the value of \$100.00, is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of English Language and Literature, to the student who graduates with B.A.(Hons.) in English with the highest standing. In the event that at any convocation there is no Honours graduate in English, the prize may be awarded to a graduating student of outstanding academic merit and promise in the General Degree program who is selected and recommended for the award by the Department of English. Other things being equal, the prize will be awarded to a student who has produced original work of literary merit.

## 7 Scholarships, Bursaries, and Awards Available for Undergraduate Students for Study Outside Newfoundland and Labrador

### The Gordon Billard Award in Education

A donation has been made to Memorial University of Newfoundland by Mr. Gordon Billard for the purpose of establishing a fund to provide financial assistance to Education students who live at the University's Harlow campus while undertaking approved studies in Great Britain. The award is intended to enhance the student's educational experience in Britain. Its value will be based on the annual interest on the fund. It will be awarded during the Spring Semester by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Student Affairs and Services. Academic achievement and financial need will be considered.

### The Coca-Cola Scholarship for International Studies

This scholarship, valued at the annual interest on its endowment, has been established from contributions to the University's *Opportunity Fund* Campaign by The Coca-Cola Foundation. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree.

### Paddy Dobbin Scholarship in the Faculty of Business Administration

The Paddy Dobbin Scholarship is endowed through a gift from the Dobbin family members (children and grandchildren) in memory of Paddy Dobbin, a St. John's native who married Rita Power on March 17, 1929. From his early life Paddy demonstrated a strong entrepreneurial spirit, a man not afraid of hard work or taking risks. He instilled these qualities in his eleven children. Paddy guided with much love and a spirit that anything was possible. Through example, he taught his children to never fear challenges, feeling there was always something to be learned. The scholarship is open to undergraduate students of scholarship standing, enrolled in the Faculty of Business Administration in the International Bachelor of Business Administration (iBBA) program, who have been accepted for, but not yet undertaken, the study abroad component of their program. Preference will be given to students who have been active in extracurricular activities at Memorial University of Newfoundland and/or in the community. The scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

### The Harlow Development Corporation Scholarship

The Harlow Development Corporation, Harlow, England, has made a grant to establish a scholarship fund to financially assist students from Memorial University of Newfoundland who wish to live at the University's Harlow campus while undertaking approved studies in Great Britain. The fund will also provide scholarships to students who are residents of Harlow and who wish to study at Memorial University of Newfoundland, or some other institute of learning, in Newfoundland. It is hoped that interest on the fund will finance five or six annual scholarships at £250 each.

### Harlow Travel Awards

A number of travel awards, each valued to a maximum of £250 will be awarded to full-time undergraduate students registered at the Harlow Campus in a Memorial University of Newfoundland approved program. Preference will be given to students who are permanent residents of the Province of Newfoundland and Labrador and are attending the Harlow Campus for a minimum of six consecutive weeks residing on the campus for the duration of the award. Eligibility for these awards requires a minimum of clear academic standing in the previous scholarship year. The awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Harlow Scholarship Trustees. Application forms are available in-person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C5S7, or by telephone to (709) 737-3956, or on the Harlow Campus web site at [www.mun.ca/harlow](http://www.mun.ca/harlow).

### The Ann Elizabeth Crosbie (Perlin) Harvey Memorial Harlow Scholarship

This scholarship, valued at the interest on an endowment, was established by The Perlin Family Trust to assist undergraduate students from Memorial University of Newfoundland who wish to pursue their studies at the Harlow Campus in Harlow, England. It will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing with preference being given to students studying Theatre, and/or Drama Studies. Applications for this scholarship are available in-person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 737-3956.

### The Elizabeth C. Hesson Memorial Scholarship in German

This scholarship was established in memory of Dr. Elizabeth C. Hesson, Head of the Department of German and Russian from 1986 to 1989 and a member of that Department from 1969 to 1989, through the generosity of her family, colleagues and friends. The scholarship has a value of \$1,000.00, and is normally awarded to a German major who has completed at least the second year of study at Memorial University of Newfoundland and who has demonstrated a high level of academic performance in German. The scholarship shall be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Head, Department of German and Russian, and is designed to assist the student to undertake a program of German studies in German-speaking Europe. In addition to academic excellence, financial need may be taken into account. This scholarship will not necessarily be awarded every academic year.

### The A.C. Hunter Travel Award in French

This award has a value of not less than \$600.00 and is awarded annually. It has been established in memory of Dean A.C. Hunter through the generosity of Mrs. Hunter, the Provincial Government of Newfoundland, the Board of Regents of Memorial University of Newfoundland and Dean Hunter's former students and friends. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in French who wishes to pursue a program of study of one or more semesters' duration, in French language, literature or culture, at a recognized institution in metropolitan France. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

### The Muriel H. Hunter Award in Spanish

This award, valued at \$600.00, is awarded out of income derived from a bequest to the University by the late Mrs. Muriel H. Hunter, wife of the late Dr. A.C. Hunter and former Lecturer in Spanish at the Memorial University College. The award shall take the form of a travel grant to a student, in second year or beyond, majoring or minoring in Spanish who wishes to pursue a program of study of one or more semesters' duration, in Spanish or Spanish-American language, literature or culture, at a recognized institution in metropolitan Spain or Latin America. Eligibility for this award requires a minimum of clear academic standing (as defined by the University) in the previous scholarship year. The award shall be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, on the recommendation of the Department of French and Spanish.

**The H.H. Jackson Travel Scholarship in German**

This scholarship was established upon the retirement of Dr. Herbert H. Jackson, Professor Emeritus and first Head of the Department of German and Russian from 1967 to 1980, through the generosity of his colleagues and students. The scholarship has a minimum value of \$500.00 and is awarded annually by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards, upon the recommendation of the Department Head, to a candidate who has completed at least the second year of study at Memorial University of Newfoundland, has demonstrated a high level of academic performance in German, and is planning to undertake a program of studies and/or work assignment in a German-speaking country.

**The Arthur and Sonia May Scholarship**

The scholarship, which is expected to be between \$4,000 and \$5,000 (based on the annual interest on its endowment), has been established by Arthur and Sonia May on the occasion of the University's 50th Anniversary as a degree granting institution, and in gratitude for the outstanding experience they enjoyed as students. It will be awarded to a student who has completed at least two years of a degree program at Memorial University of Newfoundland and who has been accepted to attend a recognized university outside Canada for one or two semesters of study for transfer credit to Memorial University of Newfoundland towards completion of his/her undergraduate degree. Applications may be made to the Scholarships, Bursaries and Awards Office, Room 4018, University Centre on or before March 31.

**The Dr. M.O. and Grace Morgan Harlow Bursary**

This bursary, valued at a portion of the annual accrued interest on an endowment to Memorial University of Newfoundland from the estate of Dr. and Mrs. Morgan, was established to encourage and assist undergraduate students to attend the University's Harlow Campus. It is open to full-time Memorial University of Newfoundland students attending the Harlow Campus. Up to three bursaries of equal value will be awarded annually to two students in the Faculty of Education (one each in the Spring and Fall semesters) and one to a student in any field of study (in the Winter semester). An application is required to identify those students planning to attend Harlow in the winter semester only and may be obtained from the Scholarships, Bursaries and Awards Office, Room 4018, University Centre. Bursaries awarded in fall and spring will be based on a recommendation from the Dean, Faculty of Education. These bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards.

**The Patti Lynn Noonan Memorial Harlow Travel Bursary**

This Bursary, valued at a portion of the income from the endowment, is established in memory of Patti Lynn Noonan by her family. Patti-Lynn's motto was "Live life to the fullest and appreciate it and always tell the people you love that you love them". Patti Lynn will always be remembered for her smile, her laughter, her love of life, her devotion to family, friends and the students in her care, her courage and her determination. Patti Lynn's experience at Harlow was a highlight of her time at Memorial University of Newfoundland. The purpose of the Bursary is to enable the recipient to travel outside of Harlow while studying at Memorial University of Newfoundland's Harlow campus. To be eligible, students must have demonstrated financial need, be in good academic standing, and be accepted to study at the Harlow campus. Preference will be given to students enrolled in the Faculty of Education. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on the recommendation of the Dean of the Faculty of Education.

**Al Pittman Harlow Travel Award**

The Al Pittman Harlow Travel Award has been established in his memory by Al Pittman's friends and family. Mr. Pittman was one of Newfoundland's most esteemed poets and playwrights and he believed that observing the different helps us to see the familiar in a new light. Therefore, travel, in enabling us to experience a different place, culture and context, has the power to heighten and enhance our perspective of home. The award will go to a student in the fourth year of study in the Theatre Program at Sir Wilfred Grenfell College who best exhibits a passion for and commitment to theatre, as well as an appreciation of place and how physical and cultural landscape can impact perspective, and who meets the minimum academic requirements for an award. The Award will be made at the beginning of the semester in which the student is scheduled to depart for England (for approved study at the Harlow campus) and will be valued at a portion of the income on the endowment. This scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Program Chair, Theatre and the Scholarship Committee at Sir Wilfred Grenfell College.

**The Gar Pynn Memorial Harlow Scholarship**

This scholarship is endowed through a gift from Marg Pynn, family, and friends in memory of Gar Pynn, past director and faculty member of the Faculty of Business Administration. Eligible candidates must be full-time undergraduate students in the Faculty of Business Administration, and have scholarship standing. Preference will be given to students applying to complete an academic term at Memorial University of Newfoundland's Harlow Campus. The scholarship, valued at a portion of the income on the investment, will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration.

**The Rhodes Scholarship**

A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department.

The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least £3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of Newfoundland or from the Scholarships, Bursaries and Awards Office at Memorial University of Newfoundland. Inquiries may be directed in writing to the Secretary of the Selection Committee to Dr. S. Ann Colbourne, 88 Hugh's Pond Road, Portugal Cove-St. Philips, NL, A1M 2C6, by telephone to (709) 777-5219, by fax to (709) 777-5849, or email to acolbourne@nl.rogers.com.

**The Rothermere Harlow Travel Bursary**

This bursary was established by the Rothermere Foundation to enable full-time undergraduate students to attend a complete semester of study at the Harlow Campus of Memorial University of Newfoundland. Four bursaries, valued at £2,500 each, are awarded annually to students in financial need who have a minimum GPA of 2 (out of a possible 4). The first preference in awarding this bursary will be to students from communities in central Newfoundland. If there are not enough eligible candidates from central Newfoundland in a given year then students from other regions of Newfoundland and Labrador may be considered. The bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards based on a recommendation from the Scholarship Committee of the Harlow Campus Trust. A special application is required which may be obtained from the Scholarships and Awards Office, Room 4018, Smallwood Centre, Memorial University of Newfoundland, St. John's, NL A1B 5S7 or online at [www.mun.ca/scholarships](http://www.mun.ca/scholarships).

**Dr. Edmund de Rothschild Harlow Travel Bursary**

This bursary was established to enhance the student's educational experience while studying at Memorial University of Newfoundland's Harlow Campus, by providing funds to defray cost of travel and field work. Travel bursaries valued at a portion of the accrued interest on the endowment to a maximum of £250.00 will be awarded to full-time, undergraduate students registered at the Harlow Campus in a program approved by Memorial University of Newfoundland. The bursary will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards and will be based on need. Eligibility for a bursary requires a minimum overall cumulative GPA of 2. Application forms are available in-person or by writing the Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 737-3956. Applications must be accompanied by a letter of recommendation from a faculty member, including confirmation that the travel is in support of the approved program

**The Scotiabank Bursaries for International Study**

These bursaries, funded by a generous donation from Scotiabank to The Opportunity Fund, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at \$1,000.00 each and five at the graduate level valued at \$2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

## 8 Government of Newfoundland and Labrador Scholarships

### 8.1 For Students Graduating From High School

The following scholarships are made available by the Government of Newfoundland and Labrador and are awarded by the Minister of Education to high school students in the province. They are based on the Department of Education scholarship score which is derived from the results of public exams. In excess of 200 scholarships are awarded each year.

**a. The Junior Jubilee Scholarship**

This scholarship has a value of \$2,500.00. It is awarded annually to the high school graduate who achieves the highest Department of Education scholarship score.

**b. The Electoral District Scholarships**

These scholarships, valued at \$1,000.00 each, are awarded annually to the three high school graduates in each electoral district who achieves the highest Department of Education scholarship score.

**c. The Centenary of Responsible Government Scholarships**

Fifty-five scholarships, valued at \$1,000.00 each, are awarded to high school graduates based on the Department of Education scholarship score provided they have not already been awarded another government scholarship.

**d. Constable W.C. Moss Scholarship**

This scholarship has a value of \$1,000.00. It is awarded annually to a son or daughter of a member of the Royal Newfoundland Constabulary, or of the Royal Canadian Mounted Police (active, retired or deceased), who achieves the highest Department of Education scholarship score. The Constable W.C. Moss Scholarship requires an application which is available from high school principals.

### 8.2 For Undergraduate Students in Attendance at Memorial University of Newfoundland

**a. The Centenary of Responsible Government Scholarships**

The Government of Newfoundland and Labrador provides these scholarships, valued at \$1,000.00 each, to students pursuing an undergraduate program of study. These scholarships are awarded by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland. They are awarded on the basis of scholarship standing and no application is necessary.

**b. The Senior Jubilee Scholarship**

The Senior Jubilee Scholarship, valued at \$3,000.00, is provided by the Government of Newfoundland and Labrador. It is awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to the student at the University who attains the highest average in the courses completed during the first two semesters of their second academic year. No application is necessary.

**c. The Doctor Arthur Barnes Scholarship**

**The Doctor William W. Blackall Scholarship**

**The Doctor Vincent P. Burke Scholarship**

**The Reverend Doctor Levi Curtis Scholarship**

**The Ronald K. Kennedy Scholarship**

These scholarships, valued at \$1,200.00 each, are provided by the Government of Newfoundland and Labrador. They are awarded annually by the Minister of Education on the recommendation of the Senate Committee on Undergraduate Scholarships, Bursaries and Awards at Memorial University of Newfoundland, to students who have completed two years of a degree program at the University. They are awarded on the basis of scholarship standing and no application is necessary. Normally these scholarships are tenable at Memorial University of Newfoundland but in special circumstances may be held elsewhere.

The values of the above awards are subject to change.

## 9 Scholarships, Bursaries, and Awards Administered By Other Authorities

### Association of Registered Nurses of Newfoundland

- a. **Bachelor of Nursing Program Scholarship** - \$500.00. Criteria: Must be a full-time student enrolled in the Bachelor of Nursing program with a 75% average in completed university credit courses, excluding first year. Deadline date for application is September 30.
- b. **Bachelor of Nursing (Post-RN) Program Scholarship** - 2 Scholarships of \$1000.00. Criteria: Must be a full-time student with a minimum of 70% average in completed university courses and be a 'member in good standing' with the ARNN and a current member of the ARNN Education & Research Trust. Deadline date for application is September 30.
- c. **Mona Fisher Cancer Nursing Scholarship** - \$1000.00. Criteria:
  - i. Must be a full-time student who has completed either the 3rd year of the Bachelor of Nursing Program or of the 1st year Bachelor of Nursing (Post-RN) Program.
  - ii. Must have a minimal 75% average in the 3rd year of the B.N. Program or the 1st year of the Bachelor of Nursing (Post-RN) Program.
  - iii. Must be interested in Oncology Nursing.
  - iv. Must be recommended by the School of Nursing.
 The deadline date for application is September 30.
- d. **ARNN Chapter Scholarships** - \$200.00 to \$300.00. Most Chapters or regional branches of the ARNN provide scholarships for nursing students from their region. Interested students should contact the in writing to The Association of Registered Nurses of Newfoundland, P.O. Box 6116, St. John's, NL, A1C 5X8, or by telephone to (709) 753-6040, or their local chapter.

### The Baxter Corporation - Jean Goodwill Scholarship

Two \$5,000 scholarships sponsored by Baxter Corporation, are awarded annually, and are administered by the Association of Indian and Inuit Nurses of Canada. The aim of the scholarships is to encourage nurses of Indian and Inuit ancestry who intend to serve in the Northwest Territories or Yukon, by helping them obtain the specialized knowledge they will require.

Consideration will be given to applicants of Indian and Inuit ancestry who intend to serve in the North, including:

- a. Students who are graduating from a registered nurses' course and are accepted into one of the following specialized training programs:
  - i. community health nursing,
  - ii. outpost nursing,
  - iii. midwifery;
- b. Graduate nurses already serving in isolated communities, who are accepted into one of the specialized training programs listed above;
- c. Those who are or will be enrolled in a Bachelor level nursing program.

The successful applicant must provide documentation of his/her efforts to secure employment in isolated northern native communities.

Completed applications must be received by the President of the Indian and Inuit Nursing of Canada by July 1 each year. Successful candidates will be notified by August 1. Further information may be obtained by writing to President Aboriginal Nurses Association of Canada, 55 Murray Street, 3rd Floor, Ottawa, Ontario K1N 5M3 or by telephone to (613)230-1864 or by fax: to (613)230-1542.

### The Bishop Spencer College Alumnae Association Scholarship

The Bishop Spencer College Alumnae Association will be awarding one \$1,000.00 (Canadian) Scholarship per each academic year for post-secondary studies at an accredited post-secondary institution. The program of studies must be a minimum of two years duration or an equivalent period of studies and is not limited to the first year of studies. The scholarship will be available to either a former student of Bishop Spencer College, St. John's (as defined by the constitution of the BSCAA), **OR** any female relative of a former student of Bishop Spencer College, St. John's **OR** any other female person as deemed qualified by the Scholarship Committee. Application forms and/or further information may be obtained in writing to Bishop Spencer College Alumnae, Association Scholarship, P.O. Box 39111, St. John's, NL, A1E 5Y7 or by email to bscaas@hotmail.com.

### The Patricia Blackburn Memorial Bursary Fund

This fund has been established at Sir Wilfred Grenfell College, Memorial University of Newfoundland, in memory of Patricia Blackburn and her grandson Erik Blackburn. The annual income is to be used at the discretion of the Principal to facilitate or improve the educational opportunities of deserving young people from rural Newfoundland & Labrador. The fund will assist one or more promising students who would otherwise be unable to attend or to continue university.

### The Bristol Laboratories of Canada Prize

This prize of \$200.00 is to be used for the purchase of Medical books. It is to be awarded to a first-year medical student on the basis of academic performance as well as the interests and the needs of the student. Works on Pharmacology and Therapeutics will ordinarily be included in the books selected. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

### Calder Scholarship

The Calder Scholarship, valued at \$500.00 has been created by the Town of Burgeo to honour Drs. Mike and Ann Calder for their combined sixty years of service to the town. It will be awarded annually to a student who has graduated from a school in Burgeo, who is enrolled in a post-secondary program of studies which leads to a career in the health care field. Students must apply, prior to November 30, on an application form provided by the Town of Burgeo. Students in any year of their programs may apply.

### Cal Callahan Memorial Bursary

Each year this Association offers a bursary, or bursaries, totalling six thousand dollars (\$6,000.00) to sons, daughters, or legal wards of persons who derive their principal income from the Pipeline Industry and whose employers are Members of this Association. The purpose of these bursaries is to give financial assistance to students who are beginning undergraduate studies in a full program leading to a Degree or Certificate in any field, at a recognized University or College in Canada. Selection will be made by the Executive Committee, based upon scholastic record and financial need, provided the applicant otherwise qualifies. Applications may be obtained from the Pipe Line Contractors Association of Canada, Suite 720, 5915 Airport Road, Mississauga, Ontario, L4V 1T1, and must be returned by not later than September 30th accompanied by a receipt or other proof of enrollment.

### Canadian Armed Forces University Training Plans

Selected students may qualify for financial assistance through these Canadian Armed Forces University Training Plans: the Regular

Officer Training Plan (ROTP); the Regular Officer Training Plan (ROTP-Coop, M.U.N. only); the Dental Officer Training Plan (DOTP); the Medical Officer Training Plan (MOTP); and the Reserve Entry Scheme-Officers (RESOP). Full details may be obtained in writing from The Canadian Forces Recruiting Centre, Government of Canada Building, 354 Water Street, St. John's, NL, A1C 1C4 or The Canadian Forces Recruiting Detachment, Herald Towers Building, Suite 407, 4 Herald Avenue, Corner Brook, NL, A2H 4B4.

**Canadian Federation of University Women (Saint John, NB) Jean Flemming Memorial Scholarship for Mature Students - \$1,500**

The Canadian Federation of University Women – Saint John offers this scholarship to a mature female student pursuing degree studies at a Canadian university. Eligible candidates must be over 24 years of age, a resident of the greater Saint John area, and have completed a minimum of 30 credit hours – equivalent of one full year of study. The priority considerations in awarding the scholarship are academic merit and financial need. Preference will be given to those pursuing a degree on a full-time basis or who agree to register on a full time basis on receipt of the scholarship.

**The Canadian Gerontological Nursing Association**

Sancella/CGNA Nursing Scholarship - 2 awards of \$1000.00. The purpose is to provide support to outstanding Registered Nurses undergoing further education in either an undergraduate nursing degree program, or a post graduate degree program that is relevant to career development in the field of Gerontological Nursing.

The candidate must:

- Be a member of the Canadian Gerontological Nursing Association.
- Be registered to practise nursing in a Canadian Province.
- Have gained acceptance to a suitable full-time program in a recognized educational institution at the time of taking up the award.
- Exhibit interest in and potential for, a career in Gerontological nursing in Canada.
- Be a Canadian citizen or permanent resident at the time of taking up the award.

The scholarship is administered by the CGNA and further information regarding criteria can be obtained by writing to CGNA, c/o Nancy Bol, Parkwood Hospital, 801 Commissioners Rd. E., London, Ontario N6C 5J1.

**Canadian Hydrographic Association Awards**

A sum of two thousand dollars (\$2,000.00) will be awarded to a full time student in second year of a science or survey program at a bona fide university or a technological college in Canada. The award is intended to assist a deserving student in financing his/her education in a field related to survey sciences. The award will be made annually to the student judged the most deserving based on the information contained in the applications received. The applications are available from the Canadian Hydrographic Association, Institute of Ocean Sciences, 9860 West Saanich Road, Sidney, B.C. B8L 4B2, Attention: Barry M. Lusk. C.L.S.

**Canadian Lung Association Fellowship/Research Grant Program**

From funds provided by the Christmas Seal Campaign, fellowships and research grants are awarded by the Canadian Lung Association on recommendations from the Canadian Thoracic Society, Canadian Nurses' Respiratory Society, and Physiotherapy Section.

Through the Canadian Thoracic Society, fellowships are awarded to physicians or to those holding doctorate degrees in the health sciences for periods of research training in the area of respiratory disease.

Through the Canadian Nurses' Respiratory Society, fellowships and research grants are awarded in the area of respiratory nursing at the Master's or post-Master's level.

The Physiotherapy Section of the Canadian Lung Association offers fellowships to physiotherapists pursuing post-graduate training, with respiratory research as the major component.

Information and application forms may be obtained in writing to Canadian Lung Association, 75 Albert Street, Suite 908, Ottawa, Ontario, K1P 5E7.

**Canadian Nurses Foundation Scholarships & Fellowships Competition**

Scholarships and fellowships are awarded to nurses pursuing education at the baccalaureate, master and doctoral levels. In addition to non-specific studies, awards are available for specific area of practice such as northern nursing, occupational health, dialysis nursing, neurological nursing, oncology nursing, community health, gerontology nursing, pediatric nursing and nursing administration. Applications must be members of CNA and CNF, be Canadian citizens and agree to work in Canada for a period of one year for each year of financial assistance. Application forms are available from their website [www.canadiannursesfoundation.com](http://www.canadiannursesfoundation.com) or in writing to Canadian Nurses Foundation, 50 Driveway, Ottawa, Ontario K2P 1E2 or by telephone to (613)237-2133 or by fax to (613)237-3520.

**Canadian Soroptimist Grants for Women - \$5,000.00**

This grant is available to female students pursuing a course of studies leading to a career of service to people who are in their final year of a four year undergraduate program. Further information may be obtained in writing to Soroptimist Foundation of Canada, c/o Doreen Dodd, St. Paul's College, Westmount Rd., N., Waterloo, Ontario N2L 3G5.

**The Canadian Union of Public Employees, Local 1516, Scholarships**

CUPE Local 1615 offers five scholarships annually valued at \$500 each. The scholarships are available to students entering or already in a program of study at Memorial University of Newfoundland or a two-year program at any other recognized institution in St. John's or Corner Brook, who are children of CUPE Local 1615 members. The scholarships are awarded by the CUPE Scholarship Committee on the basis of academic ability only. Application forms are available from the CUPE Local 1615 Scholarship Committee.

**The CANQUA '95 Undergraduate Research Awards**

The national meeting of the Canadian Quaternary Association (CANQUA) was hosted by Memorial University of Newfoundland in 1995. As part of the legacy of that meeting, CANQUA is pleased to announce the creation of an undergraduate research award in Quaternary studies at Memorial University of Newfoundland. The award, valued at \$200, is intended to support honours thesis research in any discipline related to the Quaternary Period. Two additional awards of one-year membership in CANQUA (including journal Subscription) will be granted in the same competition. Candidates will be selected on the basis of a submitted research proposal and academic excellence. Application forms and guidelines are available from, and should be submitted to, the Geography Department. Deadline date for submission of applications is March 31.

**Children of War Dead (Education Assistance) Act**

This Act provides fees and monthly allowances for children of veterans whose death was attributable to military service. Inquiries should be directed to the nearest District Office of the Department of Veterans Affairs.

**CIBA Student Award**

The CIBA collection of medical illustrations provided by CIBA Pharmaceuticals is presented annually to the first-year student showing the most promise in the field of Anatomy. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

**The Co-op Atlantic McEwen Scholarship**

To honour the memory of Wesley H. McEwen, Co-op Atlantic annually offers two university entrance scholarships of \$1000.00 each per year, available to a student for up to four years. The awards help deserving students reach their educational goals and are designed to

improve understanding and knowledge of co-operation and co-operatives. Applicants must be (a) a full-time employee, or the dependent of a full-time employee, of Co-op Atlantic or one of its member co-operatives; or (b) dependents of members or members of member co-operatives of Co-op Atlantic. Further information may be obtained in writing to The Manager, Corporate Administrative Services, Co-op Atlantic, P.O. Box 750, Moncton, New Brunswick E1C 8N5.

#### **The Donald E. Curren Scholarships**

These scholarships (four of \$1000.00 each and four of \$500.00 each) are open to mobility impaired students who have been accepted by a university in the Atlantic Provinces, with preference to paraplegics and quadriplegics. The scholarships will be awarded on merit, and on such other criteria as the Selection Committee may determine. Recipients must be Canadian citizens or permanent residents, and residents of the Atlantic Provinces. Application deadline is July 15. Application forms may be obtained in writing to Donald E. Curren Scholarship Fund, c/o Canadian Paraplegic Association, Nova Scotia Division, 5599 Fenwick Street, Halifax, Nova Scotia B3H 1R2.

#### **Dr. Wynanne Downer Award for Women**

This award was established by the Canadian Federation of University Women, Corner Brook Club, in memory of Dr. Wynanne Downer who was a founding member. The award, valued at a minimum of \$500.00 will be made to a female student from Newfoundland and Labrador who is pursuing a degree at Sir Wilfred Grenfell College. The award will be made annually by the members of the CFUW, Corner Brook. Preferences for this award will be given to a mature female student (twenty-one years or older), who is in good academic standing and beyond her first year of studies. Financial need will be considered. Applications for this award are available from the Scholarships and Awards Office, Memorial University of Newfoundland, Room 4018, University Centre, St. John's, NL, A1C 5S7, or the Student Affairs Office, Sir Wilfred Grenfell College, Room AS233, Corner Brook, NL A2H 6P9.

#### **Epilepsy Newfoundland and Labrador**

##### **a. The Jim Hierlihy Memorial Scholarship**

This scholarship, valued at \$1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who have diagnosed epilepsy and are a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Evaluations will be based on a combination of the applicant's grades, extracurricular activities, and financial aid.

##### **b. The Mature Student Scholarship**

This scholarship, valued at \$1000, will be awarded annually to an undergraduate student at any post-secondary institution in Canada or the United States, who is at least 21 years of age, who has diagnosed epilepsy and is a member in good standing of Epilepsy Newfoundland and Labrador, at the time of scholarship application. Current board or staff members are not eligible to apply for these scholarships. Former board or staff members and/or their family members can apply, if they have been out of the service of Epilepsy Newfoundland and Labrador for two years. This two year period will be calculated as two years prior to the scholarship award date.

Award holders must be prepared to enter or be currently entered in a post-secondary training institution in the academic year of application. Scholarship applications must be received by Epilepsy Newfoundland and Labrador no later than November 1st of the academic year. Notification of award will be made no later than November 15th. The award holder must submit to Epilepsy Newfoundland and Labrador confirmation of admission or enrollment as soon as possible after selection, but not later than January 15th of the academic year. The successful applicant should be available, in person, to receive their award at a formal presentation.

Further information, memberships or applications may be obtained in writing to Epilepsy Newfoundland and Labrador, 261 Kenmount Road, St. John's, NL, A1B 3P9 or by telephone to (709) 722-0502, or by fax to (709) 722-0999, or by e-mail: epilepsy@nf.aibn.com, or through the website at www.epilepsynl.com.

#### **Terry Fox Humanitarian Award Program**

This program is intended to encourage Canadian youth to seek the high ideals represented by Terry Fox, by the granting of commemorative scholarships for the pursuit of higher education. The value of each award is \$3000.00 annually for a maximum of four years or until a first degree is obtained. Selection criteria for recipients will be based on demonstration of the highest ideals and qualities of citizenship and humanitarian service while in pursuit of excellence in their academic, amateur sport, fitness, health, community service and related endeavours. Deadline for the submission of applications is February 1st. Applications are available in writing to Terry Fox Humanitarian Award Program, Simon Fraser University, 8888 University Drive, Burnaby, BC V5A 1S6 or by fax to (604) 291-3311.

#### **Charles E. Frosst Medical Scholarship**

This scholarship, valued at \$1,000.00, will be awarded at the end of the fourth year to the student who, in the opinion of the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships, has shown the most promise in the field of Therapeutics. A suitably inscribed bronze medal is also presented to each year's winner.

#### **Galxo/Harlow Award in Clinical Pharmacy**

Galxo Canada Inc. offers \$2,500.00 annually which provides travel expenses allowing two students in the final year of the pharmacy program to undergo the last rotation of their clinical structured practice experience in London, England. Students reside at Harlow Campus. Students must apply for this award. Recipients are selected on the basis of academic achievement as well as their performance on a required assignment. The award is not given to an applicant if all criteria for the award are not met. The selection will be made by clinical faculty, School of Pharmacy.

#### **Glory of Mozart Chamber Music Travel Bursary**

This award was established by the 1991 St. John's International Mozart Chamber Music Competition Committee.

The award will be available to students enrolled in the Bachelor of Music degree program who are participating as members of a chamber ensemble at an event of major musical importance outside the province. The bursary will be used to assist with travel and other expenses involved in attending the event. Musical ability, academic standing, financial need and the benefits to the students from attending the event may be taken into account in making the award. The value of the award will be based on the interest income accruing on the capital sum in the fund. Applications for this award should be submitted in writing to the Director of the School of Music.

#### **The Ford Hewlett Memorial Oncology Scholarship**

A scholarship, valued at \$1000, has been established by the Canadian Cancer Society, in memory of Mr. Ford Hewlett of Springdale, Newfoundland, who was a very dedicated volunteer of the Society. The scholarship is awarded annually to a third year medical student who has demonstrated interest in the field of research or clinical oncology.

#### **S.R. Hussey Memorial Scholarship Fund**

This fund was established some years ago by the Canadian Council of the Blind Clubs of the Atlantic region for the purpose of assisting registered blind students in continuing their education. The fund is available to registered blind students in the Atlantic region who are attending a recognized university. The fund is also available to assist the children of registered blind persons. Blind students interested in making application for assistance from this fund should contact the nearest office of the Canadian National Institute for the Blind for further information.

#### **Imperial Tobacco Canada Scholarship Fund for Disabled Students**

Purpose: To encourage young Canadian disabled students to pursue university studies with the ultimate objective of obtaining a

university degree.

Field of study: Undergraduate program in any field of study.

Value: Each scholarship is valued at \$1500.00 annually.

Number: Minimum 5.

Duration: One academic year - may be renewable upon application.

Conditions: Candidates must be disabled according to the following 1975 United Nations Declaration: A disabled person is "any person unable to ensure himself or herself wholly or partly the necessities of a normal individual and/or social life, as a result of a deficiency, either congenital or not, in his or her physical or mental capabilities."

Candidates must be Canadian citizens. Candidates must have successfully completed the schooling requirements or equivalent for admission to an undergraduate program of study, or be presently registered as a full-time undergraduate student as defined by the University, and have successfully completed the last academic year. Candidates must not be employees or franchisees, or dependents of employees or franchisees of Imasco or any of its subsidiaries. Where tenable: At any Canadian university which is a member of, or affiliated to a member of the AUCC. Further information: Additional information and application forms may be obtained in writing to The Awards Officer, Canadian Awards Section, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1. Completed applications in duplicate are to be returned to AUCC not later than June 1st.

#### **Imperial Oil Ltd. Higher Education Awards (for Sons and Daughters of Employees and Annuitants)**

The Higher Education Awards program provides full tuition and compulsory fees for sons and daughters of Imperial Oil Ltd. employees, annuitants, or deceased employees. Students must be accepted at any approved Canadian University or Community College. The student must begin their education within six years of starting secondary school (grade 9), and must have an average of at least 70% in the subjects required for admission by the institution. Students who do not qualify upon graduation from secondary school may be eligible should they achieve the equivalent of a 70% average while in post secondary education. Once an award is granted, the student must pass all subjects and complete a "full workload" each year. A student may qualify for up to four awards in a five year period, which begins when the student first starts post secondary education. Application forms and brochures explaining the program in more detail are available in writing to Administrative Management Services, Awards Division, P.O. Box 414, Pickering, Ontario L1V 2R6 or by telephone to (416)420-0642 or by fax: to (416)420-2516 or through the website at [www.uregina.ca/awards/scholarships/](http://www.uregina.ca/awards/scholarships/).

#### **Indian and Inuit Health Careers Program**

Medical Services Branch of Health and Welfare Canada provides Bursary and Scholarship Awards for Indian and Inuit Health Careers. This program encourages and assists students of Indian and Inuit ancestry to pursue educational opportunities leading to professional health careers. Application forms and further information available at the Scholarship and Awards Office, Room 4018 (University Centre) or by calling (709) 737-3956.

#### **The International Grenfell Association Scholarship Program**

A number of scholarships and awards are available to students resident in the region served by the Grenfell Regional Health Services:

##### **a. The IGA Scholarships (three at \$3000.00 per semester for up to four years)**

Two of these awards are available to high school graduates upon entrance to a degree-granting institution; application deadline date January 31. One award is reserved for undergraduate students already in attendance at a university; application deadline date May 15. These awards may be renewed if scholarship standing is maintained (at 70% or better).

##### **b. The IGA Bursary Fund Awards**

Discretionary awards of not more than \$2000.00 each are available for study at community colleges, technical institutes and universities to students qualifying on the basis of academic achievement, industry, potential and financial need. Applications may be submitted prior to May 15. A special bursary of \$3000.00 to a mature student, out of high school five years or more, is also available.

Application forms and further information are available in writing to Mr. Paul Canning, General Business and Grant Programs, International Grenfell Association, 66 Birmingham Street, St. John's, NL, A1E 5M8, or by telephone to (709) 745-6162 or by fax to (709) 745-6163, or by email to [iga@nfld.net](mailto:iga@nfld.net).

#### **Dr. Jerzy Jarmasz Memorial Scholarship (\$500)**

This award was endowed in 2003 by the co-donors, Mrs. Mercedes Jarmasz and the Polish Heritage Foundation of Canada. It is available to any student of Polish origin. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is June 30. Application forms are available at [www.polishheritagefoundation.org/](http://www.polishheritagefoundation.org/).

#### **Kin Canada Bursaries**

Applicants to the Kin Canada Bursaries must be Canadian citizens or permanent residents and must be full-time students in the process of graduating from high school, or currently studying or registered at a post-secondary institution. Anyone interested in applying for these bursaries may use the standard application form available at [www.bursary.ca](http://www.bursary.ca) and submit it to the Kinsmen, Kinette or Kin Club nearest your permanent residence by February 1st. Disbursements take place in May.

#### **The Leonard Foundation Scholarships**

Additional Application Forms are available in writing to Grace Singh, Secretary, The Leonard Foundation, c/o The Canada Trust Company, 20 Eglinton Avenue West, Toronto, Ontario M4R 2E2, or by telephone to (416) 361-8745, or by fax to (416) 361-8753, or Scholarships, Bursaries and Awards Office, Room 4018, University Centre, Memorial University of Newfoundland, or by telephone to (709) 737-3956, or by fax to (709) 737-2347.

#### **Gerry Lynch Memorial Scholarship**

This scholarship, valued at \$3,000.00, is awarded annually at the NLMA annual meeting to a graduating Memorial University of Newfoundland Medical student in good standing. Applicants are required to write a research paper of 1500-2000 words on a topic selected each Fall by the NLMA Board of Directors. The scholarship is administered by the Canadian Medical Foundation and will be available in perpetuity.

#### **The Merck Frosst Award**

Merck Sharp & Dohme Canada Limited provides an annual award of \$1,000.00 (or, when necessary, two awards of \$500.00 each) to a third-year student of each Canadian medical school. This award is intended to recognize the efforts of the medical student who has shown the most promise in the field of Therapeutics. A copy of the current edition of the Merck Manual will be offered together with the monetary prize. The awards are made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships

#### **The Dr. Leonard A. Miller Award**

This award, in memory of Dr. Leonard A. Miller, is given annually to the most outstanding student in the study of Community Medicine. The award, in the amount of \$500.00, is funded jointly by the Faculty of Medicine and the General Hospital. The selection of the recipient for the award will be made at the completion of first year medical studies. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

**The National Sea Products Limited Scholarships**

Five university entrance scholarships valued at \$1500.00 each are made available annually by National Sea Products Limited. The awards are open to children of permanent employees of the company or its wholly-owned subsidiaries, and to children of crew members of the company's offshore trawlers who have been employed with the company for at least twelve months. Further information and application forms are available in writing to The Awards Officer, National Programs Division, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1.

**The Natural Medicines Comprehensive Database Recognition Award**

This award is presented to an outstanding graduating pharmacy student who has shown an interest in evidence-based approach to patient care, in particular when considering natural medicines. The winner receives the current edition of the Natural Medicines Comprehensive Database Book, access the Database online, complimentary enrollment in the Natural Medicines Comprehensive Database continuing education series, and an award certificate.

**Newfoundland Light & Power Co. Limited Employees' Association Scholarships**

Sons and daughters of Newfoundland Light & Power Co. Limited employees and certain other relatives of single employees, may apply for the above scholarships if they intend to pursue post-secondary study. In applying, applicants should note that employees must be members of the Newfoundland Light & Power Co. Limited Employees' Association and regular contributors to its Scholarship Fund. Applications and information are available in writing to Employees' Association, Newfoundland Light & Power Co. Limited, P.O. Box 8910, Kenmount Road, St. John's, NL, A1B 3P6.

**Newfoundland Medical Association Awards**

The Newfoundland Medical Association will make two awards of \$1,000.00 available to students at the end of second year of medical studies. These awards are intended to recognize potential interest in the organizational aspects of the profession of medicine as judged by the contribution made by the student to the governance of the medical school. While academic excellence is not the main criterion, recipients should be in good academic standing. The recipient should be identified to the Executive of the Association for approval upon recommendation by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

**The Ocean Ranger Scholarships and Bursaries**

To commemorate the tragic loss of the 84 crew members of the Ocean Ranger on February 15, 1982, a scholarship and bursary program has been established by the Ocean Ranger Disaster Fund. These awards, valued at \$500.00 per year, are tenable at Memorial University of Newfoundland, the Fisheries and Marine Institute, and the College of the North Atlantic to students who are entering or pursuing a post-secondary program of studies at one of these three institutions. In selecting candidates, preference will be given to the daughters, sons and/or widows of those who were lost. In the absence of eligible candidates from this group, the scholarships and bursaries may be awarded to other students at the discretion of the Ocean Ranger Scholarship Committee. Information and application forms may be obtained from the Office of Student Affairs at any of the institutions noted above.

**The Gregory J. Power Poetry Awards**

The proceeds from a sum of money donated to the University by Mr. Gregory J. Power will (depending on the merit of submissions) be awarded as first, second, and third-place prizes in an annual poetry competition administered by the Department of English, Memorial University of Newfoundland. The competition will be open to full or part-time students at the University upon submission of original, unpublished work. The selection of winners will be the responsibility of the Head, Department of English, acting on the advice of a special committee. Entry forms and further information may be obtained by contacting the Department of English.

**Prize in Psychiatry**

To be awarded by the Psychiatry Department to the most outstanding student in Psychiatry in the Clinical Clerkship Year (Third-Year Medical Studies).

**The Pro Vice-Chancellor's Prize**

The Strategic Framework for Memorial University of Newfoundland states that Memorial will enrich undergraduate education by helping students to experience the excitement of intellectual discovery, introducing undergraduates more effectively to the wider academic enterprise. In encouragement of this objective and in recognition of superior writing and scholarship by undergraduate students that deserves a wider audience, the Vice-President (Academic) and Pro Vice-Chancellor has established a series of prizes for the best undergraduate scholarship done each year at the University.

Instructors are invited to nominate examples of their undergraduate students' course work for the Pro Vice-Chancellor's Prize. The professor will certify that the work is original and the student's own work, and submit it to his/her head/director who will transmit it to the committee. Students may also submit their own course work for consideration. Instructors' comments should not appear. In accepting nomination or making application, students agree to publication.

Nominations and applications will be assessed by a selection committee consisting of five academic staff members and chaired by the Associate Vice-President (Academic). The committee will adjudicate entries for their intellectual originality, cogency, facility of expression, and adherence to principles of scientific inquiry and critical thinking.

The value of the prize is \$500 cash or a \$1000 scholarship tenable in a graduate program at Memorial University of Newfoundland. Up to five prizes will be awarded each year. At the discretion of the selection committee, honourable mention may be accorded to entries beyond the available number of prizes.

**Rixon Rafter Scholarship Fund**

This fund was established in memory of Rixon Rafter, a former student of the Ontario School for the Blind, who became a successful newspaper owner in Ontario. Awards from this fund are intended to supplement, but not replace assistance available to students from existing sources. The amount granted to students from this fund is determined by the Rixon Rafter Scholarship Committee and financial need is taken into consideration. Registered blind students may request assistance from the fund by contacting the nearest Canadian National Institute for the Blind office in their area.

**The Rhodes Scholarship**

A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholars obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance. Scholars may, however, hold the Scholarship for only 1 year. Those Scholars who elect to read for a D.Phil. at the time of admission may apply for a third year on stipend. The Rhodes Scholar must present a definite plan of study for that period satisfactory to his/her College and to the Rhodes Trustees. A Rhodes Scholar may apply to any one of the courses of study available at the University of Oxford, subject to the consent of the college or, in the case of graduate study, the relevant faculty or department.

The stipend of a Rhodes Scholarship consists of a direct payment to the University and to the Scholar's College of approved fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance, which is paid directly to the Scholar at the rate of at least ?3,480 per annum to cover board, lodging and other expenses. The sum provided should be sufficient to enable a Scholar to meet the necessary expenses for term-time and vacations, but those who can afford to supplement it to a modest extent from their own resources are advised to do so. Reasonable travel expenses to and from Oxford will be paid by the Trust. Application forms containing full particulars can be obtained from the Secretary of the Selection Committee for the Province of

Newfoundland or from the Scholarships, Bursaries and Awards Office at Memorial University of Newfoundland. Inquiries may be directed to the Secretary of the Selection Committee in writing to Dr. S. Ann Colbourne, 88 Hugh's Pond Road, Portugal Cove-St. Philips, NL, A1M 2C6, or by telephone to (709) 777-5219, or by fax to (709) 777-5849, or by email to acolbourne@nl.rogers.com

#### **Robin Hood Multifoods Scholarship**

One scholarship, valued at \$1000.00 for a two-year period, is made available by Robin Hood Multifoods to a student entering first-year university. For students entering Memorial University of Newfoundland, priority will be given to those enrolled in a Nutrition or Biology program. The award will be made on the basis of a candidate's participation in youth activities and priority is given to 4-H members, providing that the candidate meets the necessary academic and financial need requirements. Information and applications are available in writing to The Co-ordinator, Youth Services Division, Confederation Building, St. John's, NL, H3C 1E3.

#### **The G. Allan Roeher Institute Awards**

The G. Allan Roeher Institute offers bursaries to graduate students and research grants (up to \$8000 each) to post-graduate students and faculty members or associates, who are interested in the field of mental handicap or related fields. These awards are made possible through the support of the Scottish Rite Charitable Foundation of Canada. Further information and application forms may be obtained in writing to The Secretary, Bursaries and Grants Adjudicating Committee, G. Allan Roeher Institute, Kinsmen Building, York University, 4700 Keele Street, Downsview, Ontario M3J 1P3.

#### **Wojciech Rogozinski Memorial Scholarship (\$1000)**

This award was endowed in 2007 by the donors, Mr. George Tymowski and Mrs. Danuta Tymowski. It is available to any student of Polish origin who demonstrates financial need. One scholarship is awarded each year. In order to be eligible, applicants must have completed two years of studies. The application deadline is December 31. Application forms are available at [www.polishheritagefoundation.org/](http://www.polishheritagefoundation.org/).

#### **Royal Canadian Legion Scholarships**

##### **a. Provincial Command Scholarships**

Two scholarships, valued at \$750.00 each, are awarded annually to students entering University for the first time who are children of ex-service personnel, or of Life, Ordinary or Associate Voting Members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made.

##### **b. Dominion Command Scholarships**

Two scholarships, valued at \$750.00 each, are awarded annually to students in their second, third, or fourth-year of university, who are the children of ex-service personnel, or of Life, Ordinary or Associate Voting members of the Legion. Actual financial need is taken into account in addition to scholastic standing when awards are made. Application forms available in writing to The Newfoundland & Labrador Command, The Royal Canadian Legion, P.O. Box 5745, St. John's, NL, A1C 5X3.

#### **The Robert B. Salter Scholarship in Medicine**

This scholarship is awarded annually from income derived from an endowment by Dr. Robert B. Salter, Professor and Head of Orthopedic Surgery at the University of Toronto, who has had a long association with the Grenfell Mission. This scholarship is to be awarded to the third-year undergraduate medical student who best exemplifies the qualities of compassionate and competent patient care. Preference will be given to students born in Newfoundland and Labrador. The award is made by the Dean of Medicine's Advisory Committee on Awards, Bursaries and Scholarships.

#### **Diana Lemire Savidant Memorial Bursary**

Diana Lemire Savidant (1943-1994) was born and raised in Rouyn, Quebec and moved to Prince Edward Island in 1973. Always an avid student, she also gained respect as an art teacher. Applications for the scholarship will be accepted from female residents of Prince County 18 years of age and older. The award will be given to the applicant who displays the most potential for development and that sense of exploration in the visual arts epitomized by Diana Lemire Savidant's own career. Financial need will be an important factor in determining the recipient but not necessarily the only one. Applicants are expected to be pursuing the arts as a career option or serious avocation. Eligible programs include: study in the visual arts at recognized post-secondary institutions; summer schools or professional level courses and advanced workshops and seminars, minimum duration of five days.

The bursary will be awarded in June of each year commencing in 1996 and the amount of the bursary will be determined each year based on the return on the capital fund invested. The award will be presented in the form of a cheque or bank draft payable jointly to the successful applicant and the educational institution. The Awards Committee may vary this rule if it is not applicable. No award will be made with respect to expenses already incurred. Should the program applied for be cancelled or the recipient withdraw or fail to enroll, the funds must be returned to the East Prince Women's Information Centre.

Applicants will be invited in March of each year through public announcements and other means with an application deadline of May 15. All applications must be accompanied by a resume and a full description of the program being pursued. The applicant should include a one page summary of personal background in art achievement and what goals are being pursued by following the study program for which support is being requested. Applicants selected for a finalist interview must be prepared to display a small portfolio of work, preferably in more than one medium. Where the program is more than one year in duration applicants are eligible to re-apply. Applications will be received until May 15 and may be obtained in writing to East Prince Women's Information Centre, 75 Central Street, Summerside, PE C1N 3L2 or by telephone to (902) 436-9856.

#### **The Society of United Fishermen Memorial Scholarships**

There shall be awarded annually by this Society two scholarships of a combined value of \$600.00. These scholarships are awarded to children of members or deceased members of the Society. The scholarships are tenable at Memorial University of Newfoundland or any other institution of learning at which the student might wish to continue his or her studies in the year following graduation from high school. Further information and application forms may be obtained in writing to The Grand Secretary, Society of United Fishermen, P.O. Box 1434, St. John's, NL. The deadline date for application is July 1st.

#### **The St. John Ambulance Bursary**

This bursary of \$1,000.00 is awarded to a student who is eligible for admission to a Bachelor's Program at a recognized University or Community College. Post-basic nurse applicants are required to be members of their Provincial/Territorial Nurses' Association and hold current registration or a Certificate of Competence. All applicants must have a St. John Ambulance Affiliation and must demonstrate financial need. The application deadline is March 15. Further information and applications forms is available in writing from St. John Ambulance Provincial Council or in writing to St. John Ambulance National Headquarters, 312 Laurier Ave. E., Ottawa, Ontario K1N 6P6 or by contacting Jean Wills, Deputy Director of Training Health Care by telephone to (613) 236-7461 or by fax to (613) 236-2425.

#### **The Surgery Prize in Anatomy**

This prize, valued at \$500.00, is awarded annually to a first-year student who has demonstrated a high proficiency in Anatomy, particularly in the practical field. Nomination of a candidate is made by the Professors of Anatomy and the Professor & Chairman of Surgery. The award is made by the Dean of Medicine's Advisory Committee on Scholarships, Awards and Bursaries.

**The Patrick Tasker Masonic Educational Fund**

This fund was established to provide financial assistance for the education of children of deceased, incapacitated and/or needy Masons who were or are members of participating Masonic Lodges in Newfoundland. The fund provides a limited number of scholarships (up to a value of \$800.00), payment of tuition fees for first-year students, and interest-free loans. In addition to the above, four entrance scholarships of \$500.00 each are available to the dependants of any eligible member of the Masonic Fraternity within the province of Newfoundland and Labrador. These scholarships are awarded on the basis of academic achievement in Grade XII and are tenable at Memorial University of Newfoundland or at any other approved post-secondary institution in the province. Further information and applications forms is available in writing from The Patrick Tasker Masonic, Education Fund, P.O. Box 5481, St. John's, NL, A1C 5W4, ATTN: The Secretary.

**Waterford Hospital Board of Management Scholarships**

The Waterford Hospital Board of Management annually awards two scholarships, valued at \$500.00 each and tenable at Memorial University of Newfoundland, to children of employees of the Hospital. The awards are made on the recommendation of a Selection Committee especially appointed by the Board for that purpose. One of the scholarships is to be awarded to a female and the other to a male. Generally they are to be awarded to students who are entering the University for the first time. In the absence of suitable entrance applicants, the scholarships may be re-awarded or awarded to other children of employees who are beyond first year. In selecting suitable applicants academic standing as well as financial need will be taken into account. Applications for the scholarships may be obtained from the Administrator of the Hospital and must be completed and returned to that office by May 1st of any year.

**The Western Memorial Regional Hospital Scholarship**

This scholarship of \$500 is derived from interest on funds invested by the Medical Staff of the Western Memorial Regional Hospital and is awarded annually to a student who is entering the third year of medical studies at Memorial University of Newfoundland. The recipient shall be a bona fide resident of that area served by the Western Memorial Regional Hospital and shall have high academic standing. The scholarship is awarded by the Medical Staff of Western Memorial Regional Hospital in consultation with the Dean of Medicine. Applications should be made in July of each year to The Chief of Staff, Western Memorial Regional Hospital, P.O. Box 2005, Corner Brook, NL, A2H 6J7.

**The Jacques Whitford Student Incentive Program**

The student incentive program will provide a four month paid position with a \$2,000 award at the end of the work period. Both co-op work terms and summer positions will be considered. To be eligible candidates must be: full-time students with at least 50% of their credits achieved, have an 80% average, be fluent in English for all offices and fluent in French for the Montreal office, be legally entitled to work in the country to which they are making application and have excellent communication skills. Application forms for Memorial University of Newfoundland students are available from and should be returned to the office of the Associate Dean, Faculty of Engineering and Applied Science or the Faculty of Science. Applications must include: resume, official university transcript and a one page letter outlining candidate's aspirations. Deadline for application is January 31.

**The Margaret Williams Trust Fund**

This fund was established to promote the development of librarianship in Newfoundland and Labrador by providing funds for scholarships, research, special projects and work exchange opportunities. The value of awards will depend upon the annual interest earned on the fund. Further information and applications forms is available in writing from Chairman, Board of Trustees, Margaret Williams Trust Fund, Queen Elizabeth II Library, Memorial University of Newfoundland, St. John's, NL, A1B 3Y1.

**Work Term Scholarships & Awards in Engineering**

- W.W. Cossitt** - This award is intended for the Senior Engineering Student (Work Term 4, 5, & 6) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The award is made available by the Association of Professional Engineers and Geoscientists of Newfoundland (APEGN) once per semester and has a monetary value of \$200. APEGN provides final choice of the winner, based upon review of the reports of a select number of students recommended by the Division of Co-operative Education. The Division's recommendation is based upon: a) Student work performance; b) Student work report; c) Student academic standing; d) Supervisor nomination. The prize is awarded by the Scholarship and Awards Committee of APEGN.
- Canadian Construction Research Board** - This award is valued at \$200 per semester and given to a senior Engineering Work Term (Work Terms 4, 5 & 6) student for a report which deals with the research aspects of the construction industry. The Division of Co-operative Education will submit nominations to the Canadian Construction Research Board for final selection of a winner.
- ENES - Eastern Newfoundland Engineering Society** - This award is intended for the Junior Engineering Student (Work Term 1, 2, & 3) who has made the most important contribution to an employer and therefore to the Co-operative Engineering Program. The Award is made available by the Eastern Newfoundland Engineering Society (ENES) once per semester and has a monetary value of \$200. ENES provides final choice of the winner, based upon review of the reports of a select number of students recommended by the Division of Co-operative Education. The Division's recommendation is based upon: a) Student work performance; b) Student work report; c) Student academic standing; d) Supervisor nomination. The prize is awarded by the Scholarship and Awards Committee of ENES.

## 10 Loan Funds

**Maude Abbott Memorial Scholarship Loan Fund**

This fund was established by the Federation of Medical Women of Canada. Small loans are available to any woman medical student or first-year intern. In special cases a loan of up to \$1000.00 may be granted to a medical woman for recognized post-graduate training. Loans are repayable within five years of date of issue, after which time interest will be charged at the rate of 5% compounded annually. Information regarding these loans may be obtained in writing to Secretariat, Federation of Medical Women of Canada, P.O. Box 8244, Ottawa, Ontario K1G 3H7.

**The Association of Professional Engineers of Newfoundland Loan Fund**

Established by the Association of Professional Engineers of Newfoundland for Engineering students during their time at this University. Apply to the Dean of Engineering and Applied Science, Memorial University of Newfoundland.

**The Breezeway Emergency Trust Fund**

In May, 1984, the Board of Directors of the Breezeway Bar gave to the University a sum of money, to be used as an emergency loan/bursary fund for needy undergraduate students. The Fund is administered by the Director, Student Support Programs through the Manager, Scholarships, Bursaries and Awards, and within guidelines already developed by the office for awards to financially needy students. These awards will not normally exceed \$300.00.

**Canada Student Loans Program Newfoundland and Labrador Student Loans Program**

The Canada and Newfoundland and Labrador Student Loans Programs have been instituted by the Federal and Provincial Governments to provide assistance for students at universities and other institutions of post-secondary education.

The authorizing agency for Newfoundland and Labrador may be contacted in writing to Student Financial Services Division, Department

of Youth Services and Post-Secondary Education, P.O. Box 8700, St. John's, NL, A1B 4J6, or by telephone to (709) 729-5849, or by fax to (709) 729-2298, or by e-mail to [studentaid@gov.nl.ca](mailto:studentaid@gov.nl.ca), or through the website at [www.ed.gov.nl.ca/studentaid/](http://www.ed.gov.nl.ca/studentaid/).

The procedure is as follows:

- Students seeking financial assistance must apply on an official application form for the academic year in which they are requesting assistance. Students may choose to apply on a paper application or via the Internet. It is the students' responsibility to ensure all required documentation has been submitted to our office.
- If applications are successful, each student will be given certificates of eligibility for their federal and provincial student loans. In general, to receive a federal student loan, applicants must be enrolled in at least 60% of a full course load. In order to receive a provincial student loan, applicants must be enrolled in at least 80% of a full-course load.
- Having received the certificates of eligibility, students may then approach a designated postal outlet to negotiate the Canada Student Loan and the provincial authorized agency/lender to negotiate the Newfoundland and Labrador Student Loan.
- A Canada Student Loan up to a maximum of \$165 per week of study may be granted. A Newfoundland and Labrador Student Loan up to a maximum of \$110 per week of study may be granted (up to \$200 per week provincial student loan for Memorial University of Newfoundland Medical Students).
- As long as students maintain full-time studies the interest on the loan will be paid by the government. Repayment will begin 6 months after a student ceases full-time studies.

#### **Canadian Forces Personnel Assistance Fund Education Assistance Loan Program**

- The Canadian Forces Personnel Assistance Fund offers an Education Assistance Loan Program to assist serving and former members and their dependants with costs of full-time postsecondary education. This program consists of low interest loans of \$1,200 and \$1,500, then in \$500 increments up to a maximum of \$4,000 per student, per year, up to a maximum of \$16,000 lifetime per student. It should be noted that a period of 12 months must elapse before a new application can be considered.
- Serving or former members are eligible to apply; they must have served in the Canadian Army, after 1st October 1946, or in the Canadian Forces, after 31 January 1968, and have a minimum of one year Regular Force military service. Selection may be based on family income, years of service and individual family circumstances.
- Loans are repaid by the member over a twelve, twenty-four, thirty-six or forty-eight month period.
- Application forms are available on our website at [sisip.com/en/Downloads\\_e/ealp\\_e.asp](http://sisip.com/en/Downloads_e/ealp_e.asp), or from the Canadian Forces Base Financial Counsellors, district offices of Veterans Affairs Canada, and the Provincial Command offices of the Royal Canadian Legion. They may also be obtained by contacting the CFPAP office at 234 Laurier Avenue West, Ottawa, Ontario, K1P 6K6, telephone 6137603447 or toll free 8887539828.
- For those who wish to obtain their loan in time for the semester beginning in September, your submission should arrive at CFPAP by 30 June. Otherwise, applications will be accepted throughout the year until the funds allotted for the EALP are exhausted.

#### **The Gerald S. Doyle Engineering Scholarship Loan Fund**

By the generosity of the late G.S. Doyle, Esq., O.B.E., there are a number of scholarship loans available each year to Engineering students. The loans are normally in the amount of \$500.00 per year, but may, when circumstances warrant, extend up to \$1,000.00 per year. The loans are made by the Dean of Students Affairs and Services on the recommendation of the Dean of Engineering and Applied Science. These loans may be granted for three successive years and are repayable at convenient times before graduation. Applications are available from the Office of the Associate Dean of Engineering and Applied Science.

#### **Helen M. Lodge Loan Fund**

The bequest of the late Professor Helen M. Lodge, formerly Professor of Education at this University.

#### **F.W. Rowe Student Loan Fund**

Based on royalties from Dr. Rowe's book, *The Development of Education in Newfoundland*. At the author's suggestion, priority is to be given to the children of active, retired or deceased teachers.

## **11 Scholarships, Bursaries and Awards Available to Graduate Students**

### **11.1 Awards Administered By the School of Graduate Studies**

Information on all graduate awards listed below can be obtained from the Dean of Graduate Studies.

#### **Affinity NL (Ottawa) Scholarship**

This scholarship is made possible by the fund raising efforts of the Ottawa Affinity Newfoundland and Labrador group and is valued at a portion of the income on the investment according to Memorial University of Newfoundland's Awards Program Spending Policy. Based on scholarship standing (academic excellence), it will be awarded in an alternating fashion to a first year undergraduate student (entering their second year) and then a first-year graduate student (entering the first year of either a Master's or Ph.D. program). The student must be from a rural community in Newfoundland and Labrador, express an interest in returning to work in rural Newfoundland, and be registered for full-time studies at Memorial University of Newfoundland. Rural is defined as outside St. John's and Corner Brook as determined by the Centre for Institutional Analysis and Planning, or an equivalent University or Government body. When awarded to an undergraduate student, the Scholarship will be awarded by the Senate Committee on Undergraduate Scholarship, Bursaries and Awards. When awarded to a graduate student, it will be awarded by the Dean of Graduate Studies upon the recommendation of the Awards and Medals Committee.

#### **The Hira & Kamal Ahuja International Graduate Fellowship**

The Hira & Kamal Ahuja International Graduate Fellowship, valued at a portion of the income on the endowment, has been established by Hira Ahuja, a former faculty member in the Faculty of Engineering and Applied Science. The Fellowship will be awarded to three full-time international graduate students enrolled in the thesis-based program in the Faculty of Engineering and Applied Science. The fellowship will be awarded on the basis of academic excellence. Preference will be given to students who have served the East Indian community in Canada, through volunteer work. The Fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Engineering and Applied Science.

#### **F.A. Aldrich Graduate Award**

The F.A. Aldrich Graduate Award has been established in memory of the first Dean of Graduate Studies at Memorial University of Newfoundland. Up to three annual awards of \$2,000.00 may be made. Awards will be made by the Dean of Graduate Studies to alumni of Memorial University of Newfoundland who are in the first year of a full-time graduate program and will be based on academic merit,

and need only if all other things are equal. If the application is based on need, please make a case.

#### **The Archaeology Unit Scholarship**

This scholarship, which is made possible by the Newfoundland Marine Archaeology Society, will be awarded annually to a full-time master's student, who is in his/her second year of study in the area of Archaeology. Valued at \$1,000.00 this scholarship will be awarded by the Dean of Graduate Studies based on a recommendation from the Head, Department of Anthropology on the basis of academic standing.

#### **The Atreya-Haritha Scholarship in Mathematics**

This scholarship is the result of a generous donation by Dr. K.R. and Nandinin Kothandaraman. Valued at \$1000 annually, it will be awarded on the basis of scholarship standing to a full-time student, either a senior level undergraduate or a graduate student in Mathematics and/or Statistics. In the case of an undergraduate student, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of Mathematics and Statistics. In the case of a graduate student, it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the head, Department of Mathematics and Statistics.

#### **The William H. and Bertha Baird Memorial Scholarship**

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Edna Baird-Stephenson in memory of her parents. It will be awarded to a full time graduate student at either the Master's or doctoral level. Eligible candidates should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post secondary institutions. The award, based on academic excellence, will be made by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee.

#### **The Barrowman Biochemistry Graduate Travel Awards**

The income from this endowment will be used to provide a number of awards to graduate students registered in the Department of Biochemistry, so that they may attend scientific conferences. Preference will be given to full-time students but part-time students will also be considered. It is anticipated that about three awards will be made each year. The awards will be made by the Dean of Graduate Studies upon the recommendation of the Head, Department of Biochemistry.

#### **The Barrowman Community Health Graduate Travel Awards**

The income from this endowment will be used to provide a number of awards to full-time graduate students pursuing a research program in the Division of Community Health, so that they may attend scientific conferences. The awards will be made by the Dean of Graduate Studies on the recommendation of the Assistant Dean, Research and Graduate Studies, Faculty of Medicine.

#### **The Dean M. Ian Bowmer Graduate Travel Award in Medicine**

This award is made possible through the generous contribution of funds by Dr. M. Ian Bowmer, former Dean of the Faculty of Medicine at Memorial University of Newfoundland, as well as contributions by faculty and staff, to endow a graduate travel award in his name. This endowment will provide an annual award, valued at a portion of the income from the endowment, to a full-time graduate student pursuing a research program at the Masters or Doctoral level in the Faculty of Medicine, assisting the presentation of the student's research at a conference. The award will be competitive and based on an abstract or paper to be presented at the meeting. The award will be made by the Dean of Graduate Studies on the recommendation of the Associate Dean, Research and Graduate Studies, Faculty of Medicine. Application forms are available from, and should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

#### **The Dr. Joe Brown Graduate Research Award in Aquatic Ecology and Aquaculture**

This award was established to commemorate the life and work of Dr. Joe Brown through initial contributions by his family, friends, colleagues and students. As a Professor (Research) at the Ocean Sciences Centre from 1984 to 2005, Joe established a unique reputation both for his scholarly work in the areas of behavioural ecology of fishes and cold-water aquaculture and for his radiant, passionate sense of humour, humanity and empathy, particularly concerning students. The award in support of research activities will be normally available annually to a full-time graduate student in the second or subsequent year of study in the areas of aquatic ecology or aquaculture, and is valued at a portion of the income from the endowment. Given on the basis of scholarly merit and quality of research, the award will be made by the Dean of the School of Graduate Studies upon recommendation from the Director of the Ocean Sciences Centre.

#### **The David Buchan Graduate Research Award in Folklore**

The Research Award is established in memory of Dr. David Buchan, a leading international ballad scholar, faculty member in the Department of Folklore from 1979 to 1994, and the first Memorial University of Newfoundland Research Professor. Administered by the School of Graduate Studies, two awards of \$500 will normally be given each year to fund costs related to national/international travel for the accomplishment of, or the presentation of, folklore research by students in the graduate program in folklore at Memorial University of Newfoundland. The awards, given on the basis of scholarly merit combined with the quality of a research proposal or conference paper abstract, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the Department of Folklore, who will be advised by the Department of Folklore's Scholarships, Bursaries and Awards Committee.

#### **Buchans Scholarship Fund of ASARCO Incorporated**

ASARCO Incorporated has established a scholarship fund, the annual interest on which will provide for students enrolled in the Department of Earth Sciences, Memorial University of Newfoundland, either a scholarship for post-graduate study and research, valued at \$5000.00; or two scholarships for undergraduate study, valued at \$500.00 each. The latter scholarships will be available only when no suitable candidate can be found for the former. In order to qualify for these awards, students must be native-born Newfoundlanders or graduates of Newfoundland high schools. In the case of the graduate scholarship, the award will be made by the Dean of Graduate Studies on the recommendation of the Head, Department of Earth Sciences; in the case of the undergraduate scholarships, by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Head, Department of Earth Sciences. Should no candidates be available in any year, the awards may be held over.

#### **The Maurice J. Burke Memorial Scholarship**

This scholarship, valued at a portion of income on the investment, was established by the family of the late Maurice Burke. Mr. Burke served in the Provincial Department of Education in the Teacher Certification Division for thirty-five years. He was also a columnist and author with a personal and professional interest in Newfoundland culture and folklore celebrating the uniqueness of Newfoundland outport life. It will be awarded alternately to a full-time graduate or undergraduate student in the Department of Folklore on the basis of scholarship standing. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases the scholarship will be awarded on the basis of a recommendation from the Head, Department of Folklore.

#### **The Dr. Alfred T.H. Burness Graduate Award in Medicine**

The award is established by the generous donations of family and friends of the late Dr. Alf Burness to commemorate the thoughtful and patient graduate supervision and kindness provided by Dr. Burness (Division of Basic Sciences, Medicine 1976 – 1991) to graduate students in the Faculty of Medicine. The award is intended to encourage graduate students to produce work of outstanding quality.

The award will be given annually to a full-time graduate student pursuing a research program at the Masters level in the Faculty of Medicine who has successfully completed three semesters of the program. Selection will be based on course work, research, and other related accomplishments. Candidates must apply in writing, including a statement of eligibility as well as details of their area of research and progress, i.e. publications, presentations, other awards, etc. Each application must be supported by a reference from the candidate's supervisor verifying the candidate's area of research and progress to date. Applications should be submitted to, the Faculty of Medicine, Office of Research and Graduate Studies.

The award will be made by the Dean of Graduate Studies on the recommendation of a Committee including the Assistant Dean, Research and Graduate Studies (Medicine) and the Graduate Program Coordinators (Medicine).

#### **Faculty of Business Administration Associates Scholarship Fund**

This fund was established through the contributions of members of the Associates' Program of the Faculty of Business Administration. The fund will provide scholarships for undergraduate and graduate students in the Faculty. Awards will be made on the basis of academic standing but such factors as financial need and contribution to the Faculty may be taken into account. In the case of the undergraduate program, scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration. In the case of the graduate program, the scholarships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration.

#### **The Greg Campbell Memorial Business Scholarship**

This scholarship is the result of a generous donation by Eleanor Swanson in memory of her late husband, J. Gregory Campbell. Interest on the fund will provide one award to a full-time graduate student in the Faculty of Business Administration who is entering the final year of study. Candidates for this scholarship must have scholarship standing and a demonstrated record of active community involvement, volunteer work and/or service in the faculty/University. If there are no suitable candidates in this category, the scholarship may be awarded to a candidate on the basis of academic standing. The scholarship will be awarded by the Committee on Graduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, School of Graduate Studies.

#### **Canadian College of Teachers Scholarship**

This scholarship, valued at \$1,000.00, is sponsored by the Cabot Chapter of the Canadian College of Teachers and is awarded annually to a full-time graduate student in the Faculty of Education for outstanding research. The award is made on the basis of application by a student or nomination by the student's supervisor. The application or nomination may take the form of a thesis or project proposal, but preferably be supported by an explanation of why the work involved is particularly meritorious. Applications should be forwarded to the office of the Associate Dean of Graduate Programs and Research, Faculty of Education. The scholarship will be awarded by the Dean, School of Graduate Studies, upon recommendation of the Dean, Faculty of Education.

#### **The Rob Crosbie Scholarship for International Study**

This fund was established from contributions to the University's *Opportunity Fund* Campaign by Mr. Rob Crosbie. The scholarship, valued at \$1,000.00 annually, will support a Business student (graduate or undergraduate) who is on an academic international exchange and who has shown interest in pursuing a career in the oil and gas industry. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

#### **The Sally Davis Scholarship**

The Sally Davis Scholarship has been established to celebrate the memory and life work of Sally Davis. Contributions to the scholarship fund have come from family and friends who were so lovingly and generously influenced by Sally during her long life. The scholarship, valued at \$1000.00, will be awarded annually in the Spring Semester. Eligible candidates must be full-time students in the Master of Women's Studies program. Preference will be given to a candidate studying in one of the following areas: peace and international understanding, literacy, children, labour movement, gun control, or environment. If there is no qualified graduate applicant in a particular year, the award may be offered to an undergraduate (who is registered in a minor in Women's Studies) who is in financial need. An individual may receive the award twice but no more. In the case of graduates it is awarded by the Dean of Graduate Studies upon recommendation of the Co-ordinator, Women's Studies Program. In the case of undergraduates, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Co-ordinator, Women's Studies Program.

#### **Craig Dobbin Memorial Scholarship for Master of Business Studies at the Waterford Institute and Memorial University of Newfoundland**

This scholarship has been established by Mr. Pat O'Callaghan, the Ireland Business Partnership, the Ireland Newfoundland Partnership, the Provincial Department of Education, and Craig Dobbin family members in memory of Mr. Craig Dobbin. It will be awarded on an annually rotating basis to students at The Waterford Institute of Technology (WIT) and Memorial University of Newfoundland. In year one, and every alternating year thereafter, the scholarship will be awarded to a recent honors graduate (in the past 2 to 3 years) of one of the undergraduate business programs in the Faculty of Business Administration program or Sir Wilfred Grenfell College, Memorial University of Newfoundland who is accepted into the Master of Business program, at the Waterford Institute of Technology, Waterford, Ireland. In the event that there is no such candidate, the scholarship will be awarded to two Memorial University of Newfoundland exchange students (undergraduate or graduate) to study (one academic term) at the Waterford Institute of Technology. In year two, and every alternating year thereafter, the scholarship will be awarded to an undergraduate student from the Waterford Institute of Technology who will be selected to attend Memorial University of Newfoundland's Faculty of Business Administration's M.B.A. program. In order for a WIT student to complete the program in one year, they must have an honors undergraduate business degree, or a business degree with significant academic standing. The student must meet Memorial University of Newfoundland's M.B.A. admission requirements. The student may take two years to complete the degree; however, scholarship funding will be available for one year only. In the event that no such student is selected from the Waterford Institute, then WIT will select a business undergraduate or graduate student to complete a student exchange (one academic term) at the Faculty of Business Administration or Sir Wilfred Grenfell College, Memorial University of Newfoundland. Scholarship recipients will be required to complete and present a report on an aspect of the Ireland Newfoundland Partnership. In the case of Memorial University of Newfoundland undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean, Faculty of Business Administration or the Principal of Sir Wilfred Grenfell College. In the case of Memorial University of Newfoundland graduate students, the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

#### **Eaton Foundation Scholarship**

This scholarship, valued at \$1,500.00, is to be awarded to a student who has left full-time employment of five years or more to enter full-time studies in the MBA program, for completion or near completion of the degree. Selection of the candidate for the scholarship will be made on the basis of academic merit and financial need. Awards will be made on the recommendation of the Dean, Faculty of Business Administration, and the Dean of Graduate Studies. Preference will be given to Canadian citizens and permanent residents.

#### **The Echos du Monde Classique/Classical Views Internship Fund**

This fund jointly sponsored by the journal *Echos du Monde Classique/Classical Views* and the School of Graduate Studies, was

established to support a full-time graduate student in Classics to train as an editorial intern with *EMC/CV*. It is awarded on the basis of academic standing to a full-time graduate student entering the Department of Classics and is valued at \$10,000.00 per annum, paid over a period of three successive academic semesters. It may be renewed for one additional year. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of *Echos du Monde Classique/Classical Views*.

#### **Ethnomusicology Award for Field Research**

This fund has been established by Beverley Diamond and Clifford Crawley to advance research in ethnomusicology in Canada on the occasion of the beginning of graduate studies in the field at Memorial University of Newfoundland. One or more awards, valued at a portion of the income on the investment, will be awarded annually to full-time graduate ethnomusicology students in clear academic standing who wish to pursue field research. Selection will be made on the basis of a submitted research proposal. Application forms and guidelines are available from and should be submitted to the School of Music. The deadline date for submissions of applications to the Chair of the Interdisciplinary Advisory Committee for Ethnomusicology is March 31. If there are no suitable candidates in a given year the awards will not be awarded. The awards will be awarded by the Dean, School of Graduate Studies on the recommendation of the School of Music's Scholarships and Awards Committee in consultation with the Interdisciplinary Advisory Committee for Ethnomusicology.

#### **The Faculty of Business Administration Jacinta Sheppard Fellowship**

This fellowship, made possible through a donation by the Faculty of Business Administration, is in honour of Jacinta Sheppard, an MBA student who passed away in 1997 after a lengthy illness. While in the MBA program, Ms. Sheppard demonstrated academic excellence and a dedication to learning. This fellowship has a value of \$1,000.00 annually, and will recognize a full-time student who, in the opinion of a Selection Committee, Faculty of Business Administration, has demonstrated these same qualities. The award will be made by the Dean of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

#### **The Dr. Alex Faseruk MBA Scholarship for Excellence in Service**

The Dr. Alex Faseruk MBA Scholarship for Excellence in Service will be awarded annually to a full-time MBA student of scholarship standing who has demonstrated outstanding service through participation in student, faculty or university activities and/or contribution to the larger community. This award is in recognition of Dr. Faseruk's contribution to the Faculty of Business Administration as Professor of Finance and Coach of MBA case competition teams. The value of this scholarship will be determined by the annual income derived from the endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Associate Dean, Academic Programs, Faculty of Business Administration.

#### **The J. Bruce and Helen H. French Graduate Scholarship in Physics**

This scholarship valued at the annual accrued interest on an initial endowment, will be awarded to a female student at any level of a graduate program in physics on the basis of excellence in both course work and research. If, in a particular year, a qualified female student is not available, the scholarship may be awarded to a male student who meets the other conditions. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Head, Department of Physics.

#### **The P.J. Gardiner Award for Small Business and Entrepreneurship**

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial University of Newfoundland's School of Business and a local entrepreneur. This award is valued at \$5,000.00 annually and will recognize student creativity, innovation and entrepreneurship as evidenced by a student's genuine interest in small business and entrepreneurship through the establishment or the intention to establish a new venture. Students in any program of study (graduate or undergraduate) are eligible. To apply for the P. J. Gardiner Award, students are to provide a written report or plan describing their venture. Award finalists will then be asked to make an oral presentation to the Award Selection Committee. The Award Selection Committee will consist of faculty members from the Faculty of Business Administration and the business community at large. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards acting on the recommendation of this panel. In the case of graduate students the awards will be made by the Dean, School of Graduate Studies upon the recommendation of the Committee on Graduate Studies of the Faculty of Business Administration.

#### **The Peter Gardiner Award for International Study**

This fund was established from contributions to the University's Anniversary Fund to commemorate the memory of the late Peter Gardiner, a former Director of Memorial's School of Business. Interest from the fund will provide one or two annual awards of \$2,500.00 each to support Business students (graduate and/or undergraduate) to study at Memorial University of Newfoundland's Harlow Campus or at another university outside Canada. In the case of undergraduate students, the awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students, the awards will be made by the Dean of Graduate Studies upon recommendation of the Faculty Committee on Graduate Studies.

#### **The Mary A. Griffiths Memorial Bursary Fund for Folklore Field Research (Graduate)**

This fund has been established by the Memorial University of Newfoundland Folklore Society in memory of Mary A. Griffiths, B.A. (Folklore). One of more bursaries valued at a minimum of \$250.00 each will be awarded annually to graduate Folklore students who wish to pursue field research. The awards will be made by the Dean of Graduate Studies on the recommendation of the Head of the Department of Folklore. Selection will be made on the basis of a submitted research proposal as well as demonstrated financial need. Application forms and guidelines are available from and should be submitted to the Folklore Department. Deadline date for submission of applications is January 31. If there are no suitable candidates in a given year the bursaries will not be awarded.

#### **The Michael Harrington Research Prize in Newfoundland History**

This award was established by the family of Michael Francis Harrington Sr., journalist, author and Newfoundland historian. The prize is valued at a minimum of \$500.00 and will be awarded annually to an undergraduate or graduate student doing research in Newfoundland history. To be considered, undergraduate students must be history majors planning to do research for a course in Newfoundland history or towards an honours thesis. Graduate students must be writing a thesis on some aspect of Newfoundland history. In some instances it may be awarded as a travel grant which will assist students with travel expenses incurred while undertaking their research. In the case of undergraduates it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the Head, Department of History. In the case of graduates it will be awarded by the Dean, School of Graduate Studies, also upon recommendation of the Head, Department of History.

#### **The Professor Elmer Harp Jr. Legacy Collection's Award**

Dr. Elmer Harp Jr. was one of Newfoundland and Labrador's pioneer archaeologists. He conducted influential research on the Northern Peninsula and the Strait of Belle Isle, with a primary focus on Port au Choix. This award is given annually to a full-time student enrolled in graduate studies in Archaeology at Memorial University of Newfoundland. Preference will be given to candidates conducting thesis research using Dr. Harp's legacy artifact collections from Port au Choix. It will be awarded by the Dean of Graduate Studies based upon the recommendations of the Head, Department of Archaeology.

#### **The Dr. Austin J. Harte Memorial Scholarship**

The Dr. Austin J. Harte Memorial Scholarship commemorates the memory of Austin Harte who was a member of the Faculty of

Education, Memorial University of Newfoundland from 1991-1995. The scholarship, which is valued at one thousand dollars (\$1,000.00), may be awarded annually to a student in a graduate program, in the Faculty of Education. In order to be eligible for consideration, candidates must be registered full time and satisfy all other conditions as stipulated by the University. The Scholarship will be awarded by the Dean, School of Graduate Studies upon the recommendation from the Dean, Faculty of Education. A special application is required and may be obtained from the Faculty of Education and/or the School of Graduate Studies. Deadline for Application: March 15.

#### **A.G. Hatcher Memorial Scholarship**

Normally, up to three A. G. Hatcher Memorial Scholarships are awarded annually commencing in the Fall Semester. The awards are to be made solely on the basis of high academic merit. Typically a minimum of a first class degree is required. One scholarship shall be awarded to an applicant who graduated with an undergraduate degree from Memorial University of Newfoundland, one to an applicant who graduated with an undergraduate degree from a Canadian university, and, one to an applicant who graduated with an undergraduate degree from a foreign university. The value of the scholarship is \$15,000, and it may be held for one year only. Recipients holding a major external award of \$15,000 or greater will retain \$3,000 of the A. G. Hatcher Memorial Scholarship. One nomination from each category listed above, for these awards, should be forwarded to the Dean or Director by June 1st. Deadline for the Dean or Director to submit nominations to the School of Graduate Studies is June 15th.

#### **The Rolf G. Hattenhauer Scholarship Fund**

This fund was established by the Labour Management Co-operation Committee to commemorate the late Professor Rolf G. Hattenhauer, a well-known Newfoundland arbitrator who was actively involved in setting up the Committee. Professor Hattenhauer was a member of the Department of Commerce (later the Faculty of Business Administration) at Memorial University of Newfoundland from 1965 until his death in 1983, and during the year 1969-70 served as Head (pro tem) of the Department. The fund will provide scholarships and fellowships on a rotating basis in undergraduate and graduate studies in Business Administration.

In the case of the undergraduate scholarships, preference will be given to students in Terms 6 and 7 of the Bachelor of Commerce program who are majoring in Labour Relations. These scholarships will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation of the Dean of Business Administration.

In the case of the graduate fellowships, preference will be given to those students in the Master of Business Administration program who are concentrating in or conducting research on the area of personnel and industrial relations. The graduate fellowships will be awarded by the Dean of Graduate Studies on the recommendation of the Dean of Business Administration. If a suitable graduate student is not available in a given year the scholarship for that year may be awarded to an undergraduate student.

#### **The Imperial Tobacco Canada Limited Graduate Scholarship in Business Studies**

This scholarship valued at the annual accrued interest on an initial endowment was established from a generous donation made by Imperial Tobacco Canada Limited. Two awards, valued at \$3,000.00 each, will be made annually to entering full-time graduate students whose area of specialization is business studies. The scholarship may include, at the discretion of the donor, an invitation to their head office to meet their management team. The award may be renewed for a second year provided that academic standing is maintained. Selection of the candidates will be made on the basis of academic merit. The award will be made by the Dean, School of Graduate Studies, on the recommendation of the Awards and Medals Committee.

#### **The Dr. Ethel M. Janes Memorial Scholarship in Education (Graduate)**

From a sum of money endowed to Memorial University of Newfoundland by the late Dr. Ethel M. Janes, one scholarship valued at \$2,000.00 will be awarded annually on the basis of scholastic achievement. Dr. Janes, a Professor of Education at Memorial University of Newfoundland for twenty-eight years, devoted most of her professional career to study, research and teaching in primary and elementary education. Her contribution to the development of primary and elementary teacher education programs within the faculty was significant, as was her influence on primary and elementary education in the schools. Two generations of prospective teachers were her students. This scholarship will be awarded on the basis of academic standing in a first Memorial University of Newfoundland Education degree to a graduate student with a specialization in reading or language arts. In the event that in any given year no graduate student qualifies for the award, this scholarship will be awarded to an undergraduate student. Instalments of \$1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years, provided first-class standing is maintained. This award will be made by the Dean of Graduate Studies upon the recommendation from the Dean, Faculty of Education.

#### **Law Foundation of Newfoundland and Labrador Legal Research Awards for Students of Memorial University**

The Law Foundation of Newfoundland and Labrador annually offers up to five Legal Research Awards valued at \$500 each to students at Memorial University of Newfoundland. The Awards are for outstanding research papers on one or more legal issues, or topics treated in a legal context, in a senior level course in any discipline at the undergraduate level and in any graduate course for students at the graduate level. The papers submitted by and with endorsement of course professor or lecturer will be judged initially by the Dean, Director, or Department Head who will make a recommendation to a special selection committee comprised of appointees of Memorial University of Newfoundland and the Law Foundation. Undergraduate students will receive a minimum of two and graduate students will receive one or more of the five Awards available annually. In the case of undergraduate students the Awards will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students the Awards will be made by the Dean, School of Graduate Studies. In both cases they will act upon the recommendation of the Foundation's selection committee. Please note that papers, if available on computer, must also be submitted in electronic format. An additional \$500 will be provided annually by the Law Foundation to Queen Elizabeth II Library for the purchase of research materials and resources. Total Awards \$3,000.

#### **The LGL Limited Scholarship in Marine Science**

This scholarship, valued at \$1,000.00, was established by LGL Limited. It will be awarded annually to a student in the Faculty of Science who is following a program of studies related to Marine Science. The successful candidate will be either a fourth year undergraduate student doing an honours program or a graduate student. Wherever possible, preference will be given to a student from a fishing family, but other students will be considered. In the case of undergraduate students the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies. In both cases it will be based upon a recommendation from the Dean, Faculty of Science.

#### **The Maritime Awards Society of Canada (MASC) Maritime Studies Scholarship**

The Maritime Awards Society of Canada has established an annual scholarship tenable at Memorial University of Newfoundland. The successful candidate will be a Canadian citizen studying in a "maritime based" program at either the Masters or Doctoral level. This scholarship will have a value of at least \$5,000.00 a year and in some cases may be renewed for a second year. It will be awarded by the Dean of Graduate Studies upon the recommendation of the appropriate Academic Unit.

#### **Maritime History Internship**

This fund, jointly sponsored by the Canadian Nautical Research Society and the School of Graduate Studies, is designated to support a graduate student in history to train as an editorial intern with the journal *The Northerner Mariner/Le Marin du nord*. It will be awarded on the basis of academic standing to a graduate student pursuing studies in the area of maritime history. The award will normally be made to an entering student, but may be made to a student already enrolled in the graduate program. Valued at \$12,000.00 per year, it will be

paid over a period of three successive academic semesters and may be renewed. Masters students may be renewed for one additional year and doctoral students may be renewed for up to two additional years. The internship will be awarded by the Dean of Graduate Studies on the recommendation of the editors of *The Northerner Mariner/Le Marin du nord* and the Department of History.

#### **The Edgar Raymond Martin Memorial Scholarship in Music**

This scholarship, valued at the annual interest on the endowment, has been established by Mrs. Helen MacLeod in memory of her brother Edgar Martin. Edgar completed a Bachelor of Science at McGill University, Montreal in 1942 and died later that year while returning to St. John's aboard the S.S. Caribou which was torpedoed, causing the loss of 137 lives. Edgar was 19 years old and had a profound love for classical music. In his memory, this scholarship will be awarded to a full-time graduate student in the School of Music. It will be awarded by the Dean, School of Graduate Studies based on a recommendation from the Director, School of Music.

#### **James and Muriel Martin Award in Music**

The James and Muriel Martin Award was established through a generous gift to the School of Music by Mrs. Helen MacLeod, on behalf of her parents. James and Muriel Martin, lifelong residents of St. John's, Newfoundland, were enthusiastic participants in the local music scene in the early half of the twentieth century. The award, valued at a portion of the income on the investment, will be given annually to a full-time graduate student (MA or PhD) enrolled in the ethnomusicology program, with preference to a student whose focus is on the research, collection or preservation of music in Newfoundland and Labrador. It will be granted by the Dean, School of Graduate Studies on the recommendation of the Director, School of Music.

#### **The Margaret D. McLean Scholarship**

The Margaret D. McLean Scholarship, valued at the annual accrued interest on the initial endowment, is awarded to a graduate of the basic Bachelor of Nursing Program of Memorial University of Newfoundland. The successful candidate must be enrolled in a doctoral program of Nursing (or related field). In the event that an appropriate application from a doctoral candidate is not available, students enrolled in a Master's Program in Nursing (or related field) who intend to obtain a doctorate, may be considered. The scholarship will be based on academic excellence in the Bachelor of Nursing Program and in any graduate courses completed. It will be awarded by the Dean of Graduate Studies upon recommendation of the Director, School of Nursing.

#### **Master of Women's Studies Graduate Travel Award**

Funded through generous contributions to the Department of Women's Studies, this award is available bi-annually (one time in each of the Fall and Spring semesters) to full-time or part-time students enrolled in the two-year Master of Women's Studies (MWS) program. This award is established to assist with travel to scholarly conferences for the purpose of presenting academic papers and/or posters. Successful applicants must be enrolled in the first two years of the MWS program and must submit the following criteria, with a copy of the Graduate Student Request for Travel Assistance form, to the Department of Women's Studies: acceptance of a paper/poster presentation, written support of co-supervisors, relevance to the students' program of study and the estimated cost of travel. Students must meet the minimum academic requirements for an award and are eligible to receive this award one time only during the enrolment in the two-year MWS program. The deadlines for submission are December 1st and May 1st for the Fall and Spring semesters respectively. Successful applicants are eligible to receive up to \$100 for travel within North America and up to \$200 for travel outside of North America. It will be awarded by the Dean of Graduate Studies based on the recommendation of the Graduate Coordinator who will be advised by the Graduate Studies Advisory Committee.

#### **The Medical School Essay Graduate Student Award**

The Medical School Essay Award is supported by the K.B. Roberts Scholarship Fund, which was established in appreciation of the contribution made to the Faculty of Medicine by Dr. Kenneth Roberts. The award, valued at a portion of the income on the endowment, will be awarded annually to any graduate medical student registered full-time in the current academic year following a competition in the form of an essay or short monograph pertaining to any aspect of medicine or the medical sciences. The essay, not exceeding 5,000 words, should include an interpretative element that indicates the importance and relevance to Medicine, Health and Society. Should there be two essays that are of very high caliber but one is obviously the better provision may be made for an honourable mention award of lesser value. Submission deadline is April 30, in any given year, to the Office of Student Affairs HSC Room 2713. The recipient of this award will have their essay printed in the Memorial University Journal of Human Health. The award is made by the Dean of Graduate Studies on the recommendation of the Dean's Advisory Committee on Awards, Bursaries and Scholarships in the Faculty of Medicine.

#### **The Gordon Mertz Memorial Fellowship in Physical Oceanography**

This fund was established as a memorial for Dr. Gordon Mertz by his family. Dr. Mertz was a Physical Oceanographer at the Northwest Atlantic Fisheries Centre of the Department of Fisheries and Oceans. Interest from the fund will be used to provide a fellowship which will be awarded annually on the basis of academic excellence to a full-time graduate student working in an area of Physical Oceanography with applications in Fisheries Oceanography or Marine Ecology. The fellowship will be awarded by the Dean of Graduate Studies upon recommendation of the Head, Department of Physics and Physical Oceanography.

#### **The W.F. Morneau Scholarship**

This scholarship, valued at the interest on the initial endowment will be awarded by the Dean, School of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration to a Newfoundland student who has been granted direct entry on a full-time basis to Term 3 of the Master of Business Administration Program and who has exhibited a high level of ambition. Financial need may also be taken into consideration when awarding this scholarship.

#### **The Neil Murray Graduate Research Award in Folklore**

The Research Award, sponsored by the Newfoundland and Labrador Arts Council, is established to commemorate the energy of Neil Murray in his encouragement and promotion of our provincial folk music traditions. Open to students currently registered in the graduate program in folklore at Memorial University of Newfoundland, two awards of \$250, or one of \$500, will normally be given each year. These awards are designed to fund costs related to the accomplishment of, or the presentation of, research on the traditional performing arts in Newfoundland, including song, dance, drama, or narrative and/or the cultural traditions of the Newfoundland fishery. The awards, given on the basis of demonstrated academic merit and a research proposal or conference paper abstract demonstrating original, creative and innovative thought, will be made by the Dean, School of Graduate Studies upon the recommendation of the Head, Department of Folklore, who will be advised by the Selection Committee. Applications should be directed to the head, Department of Folklore. The deadline for application is March 1st each year.

#### **The National Scholarship in Ocean Studies at Memorial University of Newfoundland**

The federal Department of Fisheries and Oceans (DFO) has helped to establish The National Scholarship in Ocean Studies to be awarded to an outstanding Ph.D. candidate in an aspect of ocean studies which may include: chemistry, biochemistry, biology, physics, earth sciences, geography, economics or engineering. The award valued at \$18,000 per annum for a maximum of three successive years may be held in conjunction with other major awards. The award is made only on the basis of academic excellence and the successful candidate must exhibit and maintain first-class standing. Guidelines and applications for the scholarship are available from the School of Graduate Studies. Final selection of the candidate will be made by a committee which reports to the Dean of the School of Graduate Studies. A one-time grant of up to \$2,000 may be made in support of travel to appropriate conferences where the student is presenting research findings. Deadlines for applications will be July 1 in any one year when the scholarship is available, and application should be made on appropriate forms available from the School of Graduate Studies.

**The Newfoundland and Labrador Neurotrauma Initiative Award**

This award, valued at a portion of the income on the investment, is made possible by a generous endowment from the Newfoundland and Labrador Neurotrauma Initiative Program, a partnership between the Rick Hansen Man in Motion Foundation, the Canadian Paraplegic Association, the Brain Injury Association and the Government of Newfoundland and Labrador. The award will be available on an annually rotating basis between undergraduate and graduate students, with first preference given to a student who has been identified with a brain or spinal cord injury. For undergraduate students applications are available from the Scholarships, Bursaries and Awards Office, Room UC4018, University Centre, (709) 737-3956. Graduate Students are required to apply specifically to the School of Graduate Studies, Room IIC 2021, Inco Innovation Centre, (709) 737-2600. If no candidate is available with a brain or spinal cord injury, preference will be given to a student who is studying in any field related to neurotrauma. If it is not awarded at the level of study (i.e. graduate/undergraduate) on rotation in a given year, it may be awarded to a student studying at the other level for that year. In the case of undergraduates, the award will be made by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies on the recommendation of the Awards and Medals Committee. This award is open to part-time or full-time students with clear academic standing.

**The Elizabeth A. Newlands Memorial Scholarship in Social Work**

This scholarship has been named to honour the late Mrs. Elizabeth Newlands, one of the first graduates of the B.S.W. Program at Memorial University of Newfoundland. Valued at a minimum of \$1,000.00 annually, it will be awarded on the basis of academics to either a graduate or undergraduate student enrolled in the School of Social Work. If granted to an undergraduate the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If awarded to a Graduate Student, it will be awarded by the Dean, School of Graduate Studies. In either case the scholarship will be awarded on the basis of an appropriate recommendation from the Director, School of Social Work.

**The Nopah Consulting Limited Bursaries in Earth Sciences**

Three bursaries, valued at \$2,500 each, will be awarded annually to full-time graduate students who are enrolled in a masters program in the area of geology and whose topic of research is directly related to Newfoundland and Labrador. These bursaries will be awarded on the basis of demonstrated financial need and academic standing. They are tenable at Memorial University of Newfoundland and may be renewable for a second year. They will be awarded by the Dean of Graduate Studies, on the recommendation of the Head, Department of Earth Sciences.

**The Senator Gerald R. Ottenheimer Language Scholarship**

This scholarship, valued at the annual interest on the initial endowment, has been established via *The Opportunity Fund* in memory of Senator Ottenheimer through the generosity of White Ottenheimer & Baker, Barristers & Solicitors. It will be awarded on a rotating basis to students majoring in one of the language programs or the English Language and Literature programs at Memorial University of Newfoundland (graduate or undergraduate). At the undergraduate level it will be awarded on the basis of scholarship standing to a student in second year or beyond who plans to pursue one of the above noted areas of specialization. In the case of graduate students it will be awarded to a full-time student doing the Masters of Arts in one of the disciplines noted. If the successful candidate is an undergraduate, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. If the winner is a graduate student, it will be awarded by the Dean, School of Graduate Studies. In both cases it will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

**The Stuart O. Pierson Prize**

The Stuart Pierson prize, valued at a portion of the annual interest, will be awarded annually on the joint recommendation of the Head of the History department and the Co-ordinator of the Masters of Philosophy program in Humanities. Eligible students will be enrolled full time, in either the Masters of Philosophy Humanities program, or in the MA or BA Hons. programs in History. Preference will be given to students who show particular promise in the history of ideas, historiography, or the history of science. In the case of undergraduate students, the scholarship is awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduate students, it will be awarded by the Dean, School of Graduate Studies.

**The Dennis R. Prince Memorial Scholarship**

The Dennis R. Prince Memorial Scholarship has been made available by the Prospectors and Developers Association of Canada, Falconbridge Ltd., the Porcupine Prospectors and Developers Association, the mining community, colleagues, friends and family of the late Dennis Prince. Dennis graduated from Memorial University of Newfoundland in 1970 with a B.Sc. Honours degree. He led a distinguished career as a geologist with twenty-nine years at Falconbridge Ltd.

The annual scholarship, valued at \$2,000.00 and an engraved Brunton compass, will be awarded to a final year student specializing in mineral exploration and development in the honours program of the undergraduate degree in Earth Sciences at Memorial University of Newfoundland. If there is no qualified undergraduate student a graduate student who has been accepted for post-graduate studies in mineral exploration and development at Memorial University of Newfoundland and who intends to pursue a career in the mineral industry, will be considered. The qualifying student must demonstrate scholarship standing, strong personal values including a strong work ethic and high personal integrity. Active participation and leadership in geological associations and activities such as The Alexander

Murray Geology Club and the Geological Association of Canada may be taken into consideration as well as financial need. In the case of undergraduates the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates it will be awarded by the Dean, School of Graduate Studies. In both cases it will be based on a recommendation from the Head, Department of Earth Sciences in consultation with the PDAC and the Prince family.

**The Gar Pynn Scholarship in Business**

This endowed scholarship is made possible through a very kind donation to Memorial University of Newfoundland by an anonymous donor in recognition of Professor Pynn's contribution to the Faculty of Business Administration over his 27 years of service. A scholarship valued at approximately \$2,000.00 will be awarded annually to a full-time student at the end of his or her first year of full time study in the M.B.A. Program. It will be awarded to the student who has best demonstrated a combination of academic excellence, significant contributions to the faculty and leadership in student life within the M.B.A. Program. The scholarship will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

**The Rothermere Foundation Fellowships**

These Fellowships, the gift of the first Chancellor of the University, have been established to aid and encourage students who have taken their first degree at this University to pursue their studies for a British higher degree at a university of their choice in the United Kingdom. It is not intended that students who have obtained most of their education in Britain be eligible for a Fellowship. Awards are made by the Rothermere Fellowships Trust, on the recommendation of the President of Memorial University of Newfoundland.

The conditions of the award are as follows:

1. Candidates shall have completed a bachelor's degree at Memorial University of Newfoundland and have completed or be about to complete a master's degree either at Memorial University of Newfoundland or at another university in North America.
2. Fellowships will be awarded only to candidates who are proceeding to the United Kingdom to work for a British higher degree. Fellowships will not be awarded to candidates who wish to extend their stay in Britain to obtain a further British higher degree.

Persons who are full-time members of a faculty of Memorial University of Newfoundland are not eligible for a Rothermere Fellowship.

3. The awards will be restricted to a maximum tenure of three years or the period requested in the candidate's application, whichever is the lesser. Continuation beyond the first year will depend on certification of competence and satisfactory progress.
4. Candidates must accept and complete the term of years for which the Fellowship has been awarded unless the requirements for the qualifications for which the Fellowship was awarded have been completed before the term expires. No interruption of tenure or postponement of the date of commencement of the Fellowship will be allowed.
5. One Fellowship is usually awarded each year.
6. The value of the stipend is currently £14,514 per annum, plus tuition fees. The fees will be paid direct to the university concerned upon receipt of an invoice. The stipend will be credited to the Fellow's banking account in quarterly instalments.
7. The Trust will pay for a return airfare, economy class, for Fellows from Newfoundland to England, and back to Newfoundland in each year of their Fellowship (a year being twelve months from the start of the Fellowship and every twelve months of the Fellowship thereafter). Flights must be economy return. The Trust will reimburse the air fare in the final year of award, on the proviso that the student must use the return portion to travel back to Newfoundland within one month of completing the Fellowship.
8. Completed applications must be submitted in duplicate to this office before the 30th of November and must be accompanied by the following documentation, also in duplicate:
  - a. an official transcript of marks from Memorial University of Newfoundland and from any other university attended;
  - b. a letter of recommendation from the dean of the faculty or school in which the applicant was registered as an undergraduate at Memorial University of Newfoundland;
  - c. a letter of recommendation from the head of the department in which applicant majored as an undergraduate at Memorial University of Newfoundland; and
  - d. a letter of recommendation from the applicant's present master's level supervisor;
  - e. as indicated in Section 15 of the application, applicants must submit a personal statement on how their research will contribute or be of value to Newfoundland and Labrador. The statement must also contain a section on the candidate's commitment to Newfoundland and Labrador.

Note that additional letters of recommendation and other information in support of the application may be submitted at the applicant's discretion.

Applicants are encouraged to begin the process of applying to universities in the United Kingdom before submitting the Rothermere Fellowship application.

Further information may be obtained by writing Margot Brown, Executive Director/Assistant to the President, Room AA2028, Arts and Administration Building, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone to (709) 737-8216, or by fax to (709) 737-2059, or by e-mail to mbrown@mun.ca.

#### **Royal Bank Fellowship in Marine Studies**

This fellowship is provided through the generosity of the Royal Bank of Canada. It is valued at \$5,000 and is open to full-time graduate students in fields related to marine studies including, but not limited to, marine biology, aquaculture, biopsychology, fisheries resource management, maritime history, cold ocean engineering, folklore and naval architecture. The award, given on the basis of academic merit, will be made by the Dean of the School of Graduate Studies upon recommendation from the Head of the appropriate academic units in the above noted areas. The award is not renewable but re-applications will be considered.

#### **The Very Reverend Edward and Marjorie Rusted Harlow Travel Award**

This is an award for graduate students who wish to travel to Harlow either to undertake graduate thesis-related research or who have enrolled in a graduate course that is offered at the Harlow Campus. One award of \$2,000.00 will be made annually to help defray the expenses for airfare and accommodation. Applications are to be made to the Dean of Graduate Studies and must be received by April 30th. Details of application are available from the School of Graduate Studies. The award will be made upon the recommendation of the Dean's Advisory Committee on Medals and Awards.

#### **Sceptre Investment Counsel Limited Bursary**

Sceptre Investment Counsel, one of Canada's leading pension and mutual fund managers and an important partner to Memorial University of Newfoundland for several years, has established this bursary as a demonstration of its commitment to community support. Valued at the accrued interest on their endowment, one or more bursaries will be awarded annually on a rotating basis between undergraduate and graduate students in any field of study. Successful candidate(s) must be Newfoundland residents demonstrating financial need and displaying qualities of leadership. In the case of undergraduates, it will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards using scholarship standing as the primary determinant. Graduate students can make application in writing to the Dean of Graduate Studies. The award will be made by the Dean on the recommendation of the Awards and Medals Committee.

#### **School of Graduate Studies F.A. Aldrich Fellowships**

Six to eight fellowships valued at \$20,000 per annum on the doctoral level and \$15,000 on the masters level will be awarded to incoming full-time Canadian students. Renewal for one year at the doctoral level will be possible. These fellowships were established to celebrate the 25th Anniversary of the School of Graduate Studies in 1999 from a portion of the proceeds of the *Opportunity Fund* and in honour of Memorial University of Newfoundland's first Dean of the School of Graduate Studies, Dr. F.A. Aldrich (1970-1987). Recipients will be selected by the Dean of the School of Graduate Studies, on the recommendation of the Awards and Medals Committee, on the basis of exceptional academic achievement.

#### **School of Pharmacy Millennium Graduate Fellowship**

This fellowship, valued at the annual accrued interest on an initial endowment from the School of Pharmacy, is to be awarded annually to a full-time graduate student in Pharmacy and will be in addition to the regular graduate student support held. The award is made on the basis of academic excellence in both course work and research and is normally renewable once only, for a Master's recipient and twice only, for a doctoral recipient. Preference will be given to Canadian citizens and permanent residents. The award will be made by the Dean of Graduate Studies on the recommendation of the Director of Pharmacy.

#### **The Scotiabank Bursaries for International Study**

These bursaries, funded by a generous donation from Scotiabank to *The Opportunity Fund*, are intended to help students broaden their educational experience and cultivate an international perspective through study abroad while pursuing studies in the Faculty of Arts at Memorial University of Newfoundland. Fifteen or more bursaries will be available with approximately ten at the undergraduate level valued at \$1,000.00 each and five at the graduate level valued at \$2,000.00 each. The undergraduate bursaries will be awarded on the basis of scholarship standing to full-time students who are participating in one of the overseas Field Schools or study abroad opportunities sponsored by the Faculty of Arts. These include the Arts semester in Harlow (every Fall) as well as Summer programs at

Harlow and in other countries such as Ireland, Malta, Russia, etc. In addition, students wishing to participate in formal exchange programs through the faculty of Arts, such as those with the University of Keele, will also qualify. The graduate bursaries will be based on academics as well and will assist full-time Faculty of Arts master's and doctoral students (including those in interdisciplinary programs) to travel to other countries for the purpose of thesis research and thesis-related study. In both cases financial need may be taken into consideration. In the case of undergraduates the bursaries will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards. In the case of graduates they will be awarded by the Dean, School of Graduate Studies. In both cases the bursaries will be awarded on the basis of a recommendation from the Dean, Faculty of Arts.

#### **The Dr. Jorge Segovia Scholarship in Health Services Research**

This scholarship has been established in honour of Dr. Jorge Segovia (former Associate Dean of Community Health and Professor Emeritus of Social Medicine). It is valued at \$500.00 annually and will be awarded to any full-time graduate student doing Health Service Research at Memorial University of Newfoundland. The recipient of this scholarship will be selected on scholarship standing through such accomplishments as best paper, best thesis, or best research project. The scholarship will be awarded by the Dean, School of Graduate Studies, on the recommendation of the Dean, Faculty of Medicine, in consultation with the Associate Dean Community Health.

#### **The Dr. Robert W. Sexty Scholarship for Social Responsibility**

The scholarship, valued at a portion of the income on the investment, will be awarded annually to a full-time or part-time student enrolled in any undergraduate or graduate business program. The scholarship will be awarded to a student who has demonstrated commitment to social responsibility through academic achievement in a social responsibility course or ethics in business related courses, or successful completion of an M.B.A. research project relating to social responsibility, or involvement in social responsibility as exemplified through university or community service. In the case of undergraduate students, the scholarship will be awarded by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards on the basis of scholarship standing and the recommendation of the Dean, Faculty of Business Administration. In the case of graduate students the scholarship will be awarded by the Dean, School of Graduate Studies on the recommendation of the Dean, Faculty of Business Administration.

#### **Dr. Alfred K. Snelgrove Graduate Scholarship in Earth Sciences**

A bequest from Dr. Alfred K. Snelgrove makes possible up to two scholarships, valued at \$5,000.00 per annum, for students applying for or enrolled in a graduate program in the Department of Earth Sciences. These scholarships are intended primarily for Canadian citizens or permanent residents, and are awarded by the Dean of Graduate Studies on the recommendation of the Head of the Department of Earth Sciences. The scholarships are tenable for one year, and may be renewed. They may be held in addition to other scholarships and fellowships, and will be awarded only to applicants whose academic excellence and research potential can be clearly demonstrated.

#### **Special Scholarships for Students to Pursue Graduate Studies Related to Resource Development**

The "Special Scholarships for Studies in the Sciences Related to Resource Development" will be in the amount of \$7500.00 annually for students registered in full-time post-graduate studies at Memorial University of Newfoundland, in programs leading to the Master's and/or Doctorate degrees in the Sciences related to Resource Development. A scholarship may be renewed and awarded for one additional year only.

The scholarships are to be tenable at Memorial University of Newfoundland; but under special circumstances may include approved studies abroad. Eligible candidates normally should be residents of the province, or should have been resident in the province for at least three years prior to entering the program, excluding time spent at post-secondary institutions.

Candidates will normally have a First-Class Undergraduate Degree, or a Second-Class Degree with First-Class standing in courses in their major field of study. Candidates should apply for the scholarships to the Office of the Dean of Graduate Studies, Memorial University of Newfoundland.

#### **The Dr. Anna C. Templeton Memorial Graduate Scholarship**

This fund was established from a bequest to the University by Dr. Anna C. Templeton. Awarded annually and valued at approximately 75% of the earned interest, the scholarship is open to full-time graduate students in any year of their program who are residents of Newfoundland and Labrador. Preference will be given to students who have demonstrated leadership in teaching, promotion or development of craft or home economics in the province of Newfoundland and Labrador. Normally the award will be made to a student in the Faculty of Arts, the Faculty of Science, the School of Nursing, the School of Social Work or at Sir Wilfred Grenfell College, or the Fisheries and Marine Institute. The scholarship will be awarded by the Dean, School of Graduate Studies upon recommendation from the head of appropriate academic units in the above-noted areas. The award is not renewable, but reapplications will be considered.

#### **The Dr. Wilfred Templeman Memorial Scholarship**

In commemoration of the 15<sup>th</sup> Anniversary of the cod moratorium, the Provincial Government has created this award in honour of Dr. Wilfred Templeman, a pioneer of fisheries research in Newfoundland and Labrador. This scholarship will be available to full-time students pursuing a graduate program in which groundfish research is the primary focus. Successful applicants will receive \$2,500 per year for a maximum of two years for work towards a graduate degree in a program appropriately related to the stated goals of the scholarship. The application should contain a brief description of the research being undertaken towards the graduate degree and a statement of how the research is consistent with the goals of the scholarship donor. Candidates should apply for the scholarship to the Office of the Dean of Science no later than the last day of December of the first academic year of their graduate program. Awards will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science.

#### **The J. Beryl Truscott Graduate Scholarship**

This fund is established in memorial to J. Beryl Truscott, a long-time employee of the Marine Sciences Research Laboratory, and is administered by the School of Graduate Studies. It is valued at \$2000.00 and is normally awarded annually to a full-time student pursuing a graduate program in either Chemistry or Biochemistry. Awards will be made by the Dean of Graduate Studies based upon recommendations from the Head, Department of Biochemistry and the Head, Department of Chemistry.

#### **The Leslie Tuck-Avian Ecology Award**

This endowed scholarship is named in honour of the late Dr. Leslie Mills Tuck, the first Dominion Wildlife Officer and Canadian Wildlife Service Officer in Newfoundland and Labrador. Author of two definitive and award-winning books on Newfoundland birds, *The Murres* (1961) and *The Snipes* (1972), Leslie Tuck was a J.L. Paton Research Chair in the Department of Psychology following his retirement from the Canadian Wildlife Service, and a member of the Natural History Society of Newfoundland and Labrador which he was instrumental in sustaining. The award, valued at \$1,000 annually, will be made by the Dean of Graduate Studies on the recommendation of the Dean of Science. A committee appointed by the Dean of Science shall select a nominee on the basis of a 500 word essay on the student's research and its relevance to the avian ecology and ecosystem preservation in Newfoundland and Labrador. Eligible candidates must be full-time graduate students in biopsychology, biology or psychology. The winning essay will be published in *The Osprey*, the quarterly publication of the Natural History Society of Newfoundland and Labrador.

#### **University Support**

A limited amount of University Support may be awarded to full-time students working toward graduate degrees at this University. Awards will be made by the Dean of Graduate Studies on the recommendations of Departments. These awards may be supplemented by remuneration for extra duties performed in the Departments at the discretion of Department Heads.

**The George Weston Graduate Scholarships**

Two scholarships valued at a minimum of \$2,000.00 each, will be awarded annually to full-time graduate students, one in the field of Marine Biology and one in the field of Marine Engineering. These students must have been born in one of the Atlantic Provinces. Tenable at Memorial University of Newfoundland, these scholarships will be awarded by the Dean of Graduate Studies upon recommendation from the Deans of Science and Engineering.

**Women's Association of Memorial University of Newfoundland Graduate Student Scholarship**

Two Master's level and two Ph.D. level scholarships valued at \$1,200.00 each are awarded annually to full-time students entering a program in the School of Graduate Studies. Of the Master's level awards, one shall be for a thesis program, and one for a non-thesis program. Financial need as well as scholarship standing will be taken into consideration. The awards will be made upon the recommendation of the Dean of Graduate Studies.

**The Wood Gundy Scholarship for Graduate Business Students**

The Wood Gundy Scholarship for Graduate Business Students will be awarded annually to an MBA student of scholarship standing who has demonstrated leadership ability through participation in student, faculty or University activities and/or contribution to the larger community. Preference will be given to students with a demonstrated career interest in the area of finance. The value of this scholarship will be determined by the annual income derived from the initial endowment. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Business Administration.

**Dr. Lynda Younghusband Counselling Award**

The Dr. Lynda Younghusband Counselling Award has been established by Dr. Younghusband to promote the counselling profession and to improve access to the national conference for students. This award will be given to either a full-time or part-time graduate student enrolled in the Master of Education (Counselling Psychology) program and who is attending the national conference of the Canadian Counselling Association to present a scholarly paper or poster. The recipient must meet the academic requirements for an award. It will be awarded by the Dean of Graduate Studies upon the recommendation of the Dean, Faculty of Education.

**The Big Ben's Graduate Scholarship in Archaeology**

This scholarship is funded through a generous annual contribution by Big Ben's to honor the amity and patronage of graduate students in Archaeology over the years. This scholarship is awarded annually to a full-time student enrolled in graduate studies in Archaeology. Candidates must be in the first two years of the Master's program or the first four years of the Doctoral program and must have at least scholarship standing. The award will be based on academic merit, with preference given to recipients with demonstrated leadership and public-spirited service to Memorial University of Newfoundland's graduate program in Archaeology. It will be awarded by the Dean, School of Graduate Studies based upon recommendation of the Head, Department of Archaeology.

**The Bowring/Harlow Scholarship**

The Board of C.T. Bowring & Co. Ltd., London, England, together with Mr. Edgar Bowring and Mr. Peter Bowring, former Chairmen of that Company, have made available to Memorial University of Newfoundland, through the Harlow Campus Trust, a grant to establish a scholarship fund for students at the post-baccalaureate level who wish to live at the University's Harlow Campus while undertaking approved studies in Great Britain. It is hoped that interest on the fund will finance up to two annual scholarships of £600 each. In special circumstances the interest may be applied to a single award. In making the award, scholastic achievement and financial need will be considered. The scholarships are awarded by the Trustees of the Harlow Campus Trust on submissions of the Dean of Graduate Studies and the Co-ordinator of Harlow following recommendations from the Faculties/Schools responsible for the applicants' academic programs.
