Your place to become

Explore your ingenuity. Discover your creativity. Make those around you stand up and take note - you are here to challenge commonness, to transform your world and ours. We set the stage for you, here at the edge of North America.

Memorial University of Newfoundland. A place where innovative programs set on four campuses encourages you to become an explorer. Where some of the world's most challenging faculty work with you to step beyond the ordinary. And where you'll discover that this is the place where people and ideas become.

Memorial University of Newfoundland. Become

The 2010-2011 *University Calendar* is on-line at [www.mun.ca/regoff/calendar.php](http://www.mun.ca/regoff/calendar.php).

## IN MEMORIAM

Three hundred and ten former students of the Memorial University College offered themselves for active service in the Second Great War, 1939-1945. The University holds in special honour the past students who have been reported dead or missing and whose names are here given.

DAVID MONROE BAIRD  
LAWRENCE BANIKHIN  
JOHN HAMILTON BARRETT  
WALTER ROBERT BUTT  
HERBERT BOND CLARKE  
ROY CLARKE  
WILLIAM BRADLEY COLLINS  
THOMAS JOSEPH DELANEY  
JOHN KEVIN EVANS  
VICTOR RAYMOND FRENCH  
NEIL WILLOUGHBY HARNETT  
WILLIAM PALMER HOWSE  
DAVID SIMPSON KERR  
BRENDAN DAVID LACEY  
HAROLD LEWIS LEARNING  
LIONEL EDGAR LEGGE  
WALLACE CLIFFORD LUTHER  
EDGAR RAYMOND MARTIN  
DAVID GORDON MORRIS  
CLARENCE WALTER PARSONS  
ALEXANDER DUNCAN SAINT  
ARTHUR JAMES SAMSON  
BERNARD THOMAS SCAMMELL  
FRANCIS SMITH  
ERIC AUGUSTUS SNOW  
CHARLES HENRY STEWART  
JAMES ROBIN STICK

## 1 Note

The contents of this calendar set forth the intentions of the University at the time of publication, with respect to the matters contained therein. THE UNIVERSITY EXPRESSLY RESERVES THE RIGHT TO DEVIATE FROM WHAT APPEARS IN THE CALENDAR, including both the content and scheduling therein, in whole or in part, and including, without limiting the generality of the foregoing, the right to revise the content of, and to cancel, defer, reschedule or suspend, in whole or in part, the scheduling of particular periods of instruction, courses, or programs, and the academic program of the University, and to alter, accelerate or defer fees and charges, and to do any or all of the above either in order to serve what the University considers to be the best interests of the academic or student community or of the University itself, or because of any circumstance or occurrence, whether occurring by or through the wilful act or negligence of the University, its agents, servants and employees, or otherwise and whether or not beyond the reasonable or other control of the University, and without limiting the generality of the foregoing, as a result of circumstances or occurrences including financial resources, natural catastrophe or disaster, the health, safety and well-being of the employees or students of the University, labour disagreements or disputes, slow-downs, work-stoppages, and strikes. THE UNIVERSITY DOES NOT ACCEPT, AND HEREBY EXPRESSLY DISCLAIMS, ANY OR ALL RESPONSIBILITY OR LIABILITY to any person, persons or group, for any loss, injury, damages or adverse effect, either direct or indirect, consequential or otherwise, arising out of any one or more of such deviations. The University hereby disclaims liability to any person who may suffer loss as a result of reliance upon any information contained in this calendar.

Each and every of the subsequent provisions contained in this Calendar, and the relationship, both legal and otherwise, between the University, and its students, is expressly subject to and governed by the above provisions.

The Office of the Registrar will assist students with any questions or problems which might arise concerning the interpretation of academic regulations. It is, however, the responsibility of students to see that their academic programs meet the University's regulations in all respects.

## 2 The Memorial University of Newfoundland Code

All members of the Memorial University of Newfoundland Community, which includes students, faculty, and staff, shall treat others with respect and fairness, be responsible and honest, and uphold the highest standards of academic integrity.

## 3 Glossary of Terms Used in This Calendar

In this calendar "Grenfell College" refers to Sir Wilfred Grenfell College and "Marine Institute" refers to the Fisheries and Marine Institute of Memorial University of Newfoundland. "University", when capitalized, refers to Memorial University of Newfoundland.

**Academic standing:**

is an enrolment status normally determined each semester by a regular evaluation procedure used to assess whether or not students are meeting the standards prescribed for continuing in the University and/or their programs.

**Academic unit:**

refers to a centre, department, division, faculty, program or school, other than an administrative unit, as the context requires.

**Academic year:**

runs from September 1 to August 31.

**Accelerated course:**

is a course that is offered in a shorter time frame than a semester or session.

**Administrative unit:**

refers to an office, division or centre, other than an academic unit, as listed in the **Offices of the University** section of the Calendar.

**Appeal:**

is the challenge of, or the request for review of, a judgment regarding the application of regulations.

**Assignment:**

is an evaluative exercise including but not limited to assigned work, term papers and projects.

**Certificate:**

is an academic designation awarded for the completion of a specified program of study which is of shorter duration than a degree or diploma.

**Challenge for credit:**

is the request for consideration of academic credit resulting from experience or knowledge gained elsewhere for which transfer credit cannot be awarded.

**Co-requisite course:**

is a course which may be taken concurrently with or successfully completed prior to the course for which it is required.

**Course:**

is a unit of work in a particular subject normally extending through one semester or session, the completion of which normally carries credit toward the fulfilment of the requirements of certain degrees, diplomas or certificates.

**Course number:**

courses are designated by four characters. The first character signifies the level of the course. Where all four characters are numeric, the last three are used by academic units to indicate various information such as course sequence and area of study. Where the last character is alphabetic, the letter:

**A** or **B** identifies a linked course. No credits or points are given until the "B" part is completed.

**C** identifies an English course that does not carry credit towards a degree, diploma or certificate.

**F** identifies a foundation course that is intended to remedy a specific academic weakness and does not carry credit towards a degree, diploma or certificate.

**W** identifies a course in either a work term in a co-operative program or a special project in certain of the professional schools and faculties and may or may not be assigned credit hours.

**X** identifies a course which represents an entire semester's work and carries 15 credit hours.

**Courses offered outside of the normal time frame:**

are those with different start and/or end dates than those of the semester or session.

**Credit hour:**

is the measure used to reflect the relative weight of a given course toward the fulfilment of appropriate degree, diploma, certificate, major, minor, or other program requirements. A weight of 1 credit hour normally means that the course meets for lectures one hour per week for the duration of a semester or two hours per week for the duration of a session. Unless otherwise indicated, a course normally has a credit value of 3 credit hours.

**Credit-restricted courses:**

are courses which are closely related but not equivalent. Credit is limited to one of the credit-restricted courses. Normally, credit-restricted courses cannot be substituted, one for the other, to satisfy program requirements.

**Cross-listed courses:**

are courses which are listed under two or more academic units and which can be taken for credit from one unit only. Cross-listed courses can be substituted, one for the other, to satisfy program requirements.

**Degree:**

is an academic designation awarded for the completion of a specified program of study which is of longer duration than a diploma or certificate.

**Diploma:**

is an academic designation awarded for the completion of a specified program of study which is of shorter duration than a degree and longer duration than a certificate.

**Distance education course:**

is a university course designed for people who wish to study outside a traditional university setting. Instructors and students are separated by time and/or space. Distance education courses include correspondence, teleconference and world wide web courses.

**Equivalent courses:**

are those which are determined to be equal for credit determination, although the subject area or course number will differ. These are normally identified with the phrase "Same as".

**Examination:**

is an evaluative exercise including but not limited to tests, quizzes or mid-terms, final or supplementary examinations.

**Foundation course:**

is a course intended to remedy a specific academic weakness and is identified by the letter "F" as the last character of the course number. A foundation course does not carry credit towards a degree, diploma or certificate.

**GPA:**

is the abbreviation for grade point average.

**Head of academic unit:**

includes but is not limited to co-ordinator, dean, department head, director, principal, or equivalent.

**Inactive courses:**

are courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year.

**Lecturing period:**

is a designated period of lectures within a semester or session as defined by the University Diary.

**Linked course:**

is a course comprising two components and is normally identified by the letter "A" or "B" as the last character of the course number. No credits or points are given until the "B" part is completed.

**Major:**

is a subject or field of study which a student normally specializes in during the course of degree studies.

**Minor:**

is a subject or field of study which a student normally pursues secondary to a major during the course of degree studies.

**Prerequisite course:**

is a course which must be successfully completed prior to commencing the course for which it is required.

**Program:**

is a series of courses, the successful completion of which, if all requirements are met, qualifies the candidate for a degree, diploma or certificate.

**Registration:**

is the process of selecting, enrolling in, and being assessed fees for courses.

**Registration period:**

is, in any semester, the period extending from the first day of registration to two weeks following the first day of lectures, as stated in the University Diary. In any session, it is the period extending from the first day of registration to one week following the first day of lectures, as stated in the University Diary.

**Repeatable course:**

is a course that may be taken for credit in several semesters to a maximum number of credit hours. All such courses shall have specified both the number of credit hours assigned per semester and the maximum number of credit hours to be awarded.

**Semester:**

is a period of approximately fourteen consecutive weeks during which there are at least twelve weeks of lecture. Normally the Fall semester commences in early September, the Winter semester in early January, and the Spring semester in early May.

**Session:**

is a period of approximately seven consecutive weeks in the Spring semester during which there are at least six weeks of lecture. The first half of Spring semester is designated as Intersession; the second half of Spring semester is designated as Summer session.

**Student-Web/Student Self-Service:**

is a suite of e-business student services including registration and the provision of personalized student information.

**Transcript:**

is the complete and unabridged report of a student's academic record.

**Transfer credit:**

is academic credit granted for work completed at an institution other than Memorial University of Newfoundland.

**Waiver:**

is the permission granted by the appropriate authority for exemption from a particular program requirement and/or a particular university regulation.

## 4 University Diary for the Academic Year 2010-2011

June 1, 2010, Tuesday	Registration begins for residents and for undergraduate medical students
July 1, 2010, Thursday	Academic year begins for residents
July 13, 2010, Tuesday	Registration begins for eligible students registering in undergraduate courses, Fall semester 2010
August 2, 2010, Monday	Deadline for registration and fees payment for interns/residents Registration begins for graduate students, Fall semester, 2010
August 23, 2010, Monday	Fall work term begins for co-operative education students
August 30, 2010, Monday	Sessions begin for pre-clerkship medical students and third-year clerkship medical students (class of 2012)
September 1, 2010, Wednesday	Final date for filing applications for admission to graduate programs commencing in Winter semester 2011. Applications received after this date will be processed as time and resources permit. Applicants should note that most graduate academic units have earlier deadlines and should be contacted directly for further information Deadline for registration for undergraduate medical students
September 6, 2010, Monday	Labour Day. No lectures
September 6 & 7, 2010 Monday & Tuesday	Orientation for all new first semester undergraduate students
September 8, 2010, Wednesday	Lectures begin, Fall semester Fall internship begins for Education students Deadline for fees payment, Fall semester Deadline for fees payment, undergraduate medical students, Fall semester
September 14, 2010, Tuesday	Regular meeting of the Senate
September 15, 2010, Wednesday	Final date for receipt, by the Registrar, of replacement grades for "Incomplete" grades in undergraduate and graduate courses, Spring semester (Intersession, Summer session and 14-week) 2010
September 22, 2010, Wednesday	End of regular registration period and last day for undergraduate and graduate students to add courses, Fall semester Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, Fall semester
September 29, 2010, Wednesday	Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Fall semester Final date for graduate students to withdraw from programs without incurring liability for tuition fees, Fall semester Final date for departments to submit Recommendation for Award of Degree in order for graduate students to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring any liability for continuance fees, Fall semester
October 1, 2010, Friday	Final date for filing applications for undergraduate admission/re-admission to Winter semester 2011. Applications received after this date will be processed as time and resources permit
October 6, 2010, Wednesday	Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Fall semester. No tuition fees are refunded for courses dropped after this date
October 8, 2010, Friday	Annual Fall Convocation, Sir Wilfred Grenfell College session, Corner Brook
October 11, 2010, Monday	Thanksgiving Day. No lectures. Fall semester break begins at St. John's Campus and Sir Wilfred Grenfell College
October 12, 2010, Tuesday	Regular meeting of the Senate
October 13, 2010, Wednesday	Lectures resume at St. John's Campus and Sir Wilfred Grenfell College. Lectures will follow the Monday schedule on this day only
October 15, 2010, Friday	Lectures will follow the Tuesday schedule on this day only
October 21 & 22, 2010, Thursday & Friday	Annual Fall Convocation, St. John's
October 26 to 30, 2010, Tuesday to Saturday	MUNdays: Join in this annual festival of events at both Corner Brook and St. John's campuses - celebrating creativity, diversity, service and leadership at Memorial University of Newfoundland

## 8 General Information 2010-2011

October 27, 2010, Wednesday	Last day for undergraduate students and graduate students to drop courses without academic prejudice, Fall semester Final date for departments to submit Recommendation for Award of Degree in order for graduate students to receive a 50% refund of continuance fees, Fall semester
November 8, 2010, Monday	Registration begins for eligible students registering in undergraduate courses, Winter semester 2011
November 9, 2010, Tuesday	Regular meeting of the Senate
November 10, 2010, Wednesday	Ceremony of Remembrance, St. John's: Join the university community to commemorate the people of the province who fought and died in the First and Second World Wars, and for whom this university is a living memorial
November 11, 2010, Thursday	Remembrance Day holiday. No lectures
November 12, 2010, Friday	Mid-term break for pre-clerkship medical students
November 15, 2010, Monday	Lectures resume for pre-clerkship medical students
November 24, 2010, Wednesday	Final date for departments to submit Recommendation for Award of Degree in order for graduate students to receive a 25% refund of continuance fees, Fall semester
December 3, 2010, Friday	Lectures end, Fall semester Registration begins for graduate students, Winter semester 2011
December 8, 2010, Wednesday	Examinations begin, Fall semester Final date for submission of work reports by co-operative education students
December 10, 2010, Friday	Fall internship ends for Education students
December 14, 2010, Tuesday	Regular meeting of the Senate
December 17, 2010, Friday	Examinations end, Fall semester Sessions end for pre-clerkship medical students Fall work term ends for co-operative education students
December 19, 2010, Sunday	Sessions end for third-year clerkship medical students (class of 2012)
December 23, 2010, Thursday	Sessions end for fourth-year clerkship medical students (class of 2011)
January 1, 2011, Saturday	Final date for filing applications for admission to graduate programs commencing in Spring semester 2011. Applications received after this date will be processed as time and resources permit. Applicants should note that most graduate academic units have earlier deadlines and should be contacted directly for further information
January 3, 2011, Monday	Winter work term begins for co-operative education students Winter internship begins for Education students
January 4, 2011, Tuesday	Sessions begin for third and fourth-year clerkship medical students (classes of 2011 and 2012)
January 5, 2011, Wednesday	Orientation for all new first semester undergraduate students Sessions begin for pre-clerkship medical students
January 6, 2011, Thursday	Lectures begin, Winter semester Deadline for fees payment, Winter semester Deadline for fees payment, undergraduate medical students, Winter semester
January 11, 2011, Tuesday	Regular meeting of the Senate
January 13, 2011, Thursday	Final date for receipt, by the Registrar, of replacement grades for "Incomplete" grades in undergraduate and graduate courses, Fall semester 2010 Final date for submission of Master's and Doctoral Theses and Reports for examination, by candidates who expect to receive their degree at the Spring Convocation 2011. Theses and Reports received after this date will be processed as time and resources permit
January 15, 2011, Saturday	Final date for filing, with the Registrar, applications for Degrees and Diplomas for the Spring Convocation 2011. Applications received after this date will be processed as time and resources permit
January 20, 2011, Thursday	End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Winter semester Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, Winter semester
January 27, 2011, Thursday	Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Winter semester Final date for graduate students to withdraw from programs without incurring liability for tuition fees, Winter semester Final date for departments to submit Recommendation for Award of Degree in order for graduate students to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring any liability for continuance fees, Winter semester

February 1, 2011, Tuesday	Final date for filing undergraduate applications for admission/re-admission to Spring semester (14-week, Intersession and Summer session) 2011. Applications received after this date will be processed as time and resources permit
February 3, 2011, Thursday	Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Winter semester. No tuition fees are refunded for courses dropped after this date
February 8, 2011, Tuesday	Regular meeting of the Senate
February 21, 2011, Monday	Winter semester break begins at St. John's Campus and Sir Wilfred Grenfell College
February 24, 2011, Thursday	Lectures resume at St. John's Campus and Sir Wilfred Grenfell College Final date for undergraduate and graduate students to drop courses without academic prejudice, Winter semester Final date for departments to submit Recommendation for Award of Degree in order for graduate students to receive a 50% refund of continuance fees, Winter semester
March 1, 2011, Tuesday	Final date for filing undergraduate applications for admission/re-admission to Fall semester 2011. Applications received after this date will be processed as time and resources permit
March 8, 2011, Tuesday	Regular meeting of the Senate
March 24, 2011, Thursday	Final date for departments to submit Recommendation for Award of Degree in order for graduate students to receive a 25% refund of continuance fees, Winter semester
March 25, 2011, Friday	Sessions end for Spring break for pre-clerkship medical students
March 28, 2011, Monday	Registration begins for eligible students registering in undergraduate courses, Spring semester (14-week courses, Intersession and Summer session) 2011
April 1, 2011, Friday	Winter internship ends for Education students
April 4, 2011, Monday	Sessions begin for pre-clerkship medical students
April 6, 2011, Wednesday	Lectures end, Winter semester
April 11, 2011, Monday	Examinations begin, Winter semester Final date for submission of work reports by co-operative education students
April 12, 2011, Tuesday	Regular meeting of the Senate
April 15, 2011, Friday	Registration begins for graduate students, Spring semester (14-week courses, Intersession and Summer session) 2011 Sessions end for fourth-year clerkship medical students (class of 2011)
April 20, 2011, Wednesday	Examinations end, Winter semester
April 21, 2011, Thursday	Winter work term ends for co-operative education students
April 22, 2011, Friday	Good Friday. No classes or examinations
April 25, 2011, Monday	Spring work term begins for co-operative education students
May 1, 2011, Sunday	Final date for filing applications for admission to graduate programs commencing in Fall semester 2011. Applications received after this date will be processed as time and resources permit. Applicants should note that most graduate academic units have earlier deadlines and should be contacted directly for further information
May 2, 2011, Monday	Lectures begin for engineering students in Academic Terms 4 and 7
May 9, 2011, Monday	Lectures begin, Intersession and 14-week Spring semester Deadline for fees payment, Spring semester (14-week courses, Intersession and Summer session)
May 10, 2011, Tuesday	Regular meeting of the Senate
May 13, 2011, Friday	Annual Spring Convocation, Sir Wilfred Grenfell College session, Corner Brook
May 16, 2011, Monday	Final date for receipt, by the Registrar, of replacement grades for "Incomplete" grades in undergraduate and graduate courses, Winter semester 2011 End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Intersession Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, Intersession
May 19, 2011, Thursday	Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Intersession
May 23, 2011, Monday	End of Regular Registration Period and last day for undergraduate and graduate students to add courses, 14-week Spring semester Last day for undergraduate students to drop courses and receive a 100% refund of tuition fees, 14-week Spring semester Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Intersession. No tuition fees will be refunded for Intersession courses dropped after this date No lectures for pre-clerkship medical students

10 General Information 2010-2011

May 24, 25, 26, 27, 2011 Tuesday, Wednesday, Thursday & Friday	Annual Spring Convocation, St. John's
May 30, 2011, Monday	Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, 14-week Spring semester Final date for graduate students to withdraw from programs without incurring any liability for tuition fees, 14-week Spring semester Final date for departments to submit Recommendation for Award of Degree in order for graduate students to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring any liability for continuance fees, Spring semester
June 2, 2011, Thursday	Final date for undergraduate and graduate students to drop courses without academic prejudice, Intersession
June 6, 2011, Monday	Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, 14-week Spring semester. No tuition fees will be refunded for 14-week Spring semester courses dropped after this date
June 17, 2011, Friday	Lectures end, Intersession
June 20, 2011, Monday	Examinations begin, Intersession Semester break begins, 14-week Spring semester
June 22, 2011, Wednesday	Examinations end, Intersession
June 23, 2011, Thursday	Lectures resume, 14-week Spring semester
June 24, 2011, Friday	Sessions end for pre-clerkship medical students Final date for submission of Master's and Doctoral Theses and Reports for examination, by candidates who expect to receive their degree at the Fall Convocation 2011. Theses and Reports received after this date will be processed as time and resources permit
June 27, 2011, Monday	Lectures begin for undergraduate students and for graduate courses, Summer session Final date for undergraduate and graduate students to drop courses without academic prejudice, 14-week Spring semester Final date for departments to submit Recommendation for Award of Degree in order for graduate students to receive a 50% refund of continuance fees, Spring semester
June 30, 2011, Thursday	Academic year ends for residents
July 1, 2011, Friday	Memorial Day holiday. No lectures
July 4, 2011, Monday	End of Regular Registration Period and last day for undergraduate and graduate students to add courses, Summer session Last day for undergraduate students to drop course and receive a 100% refund of tuition fees, Summer session
July 7, 2011, Thursday	Last day for undergraduate students to drop courses and receive a 50% refund of tuition fees, Summer session
July 11, 2011, Monday	Last day for undergraduate students to drop courses and receive a 25% refund of tuition fees, Summer session. No tuition fees will be refunded for Summer session courses dropped after this date
July 15, 2011, Friday	Final date for filing, with the Registrar, applications for Degrees and Diplomas for the Fall Convocation 2011. Applications received after this date will be processed as time and resources permit
July 21, 2011, Thursday	Final date for undergraduate and graduate students to drop courses without academic prejudice, Summer session
July 25, 2011, Monday	Final date for departments to submit Recommendation for Award of Degree in order for graduate students to receive a 25% refund of continuance fees, Spring semester
July 29, 2011, Friday	Lectures end for Engineering students in Academic Terms 4 and 7
August 5, 2011, Friday	Lectures end, 14-week Spring semester
August 6, 2011, Saturday	Lectures end, Summer session Lectures will follow the Friday schedule for Summer session courses
August 8, 2011, Monday	Examinations begin, 14-week Spring semester and Summer session Final date for submission of work reports by co-operative education students
August 10, 2011, Wednesday	Examinations end, Summer session
August 13, 2011, Saturday	Examinations end, 14-week Spring semester
August 19, 2011, Friday	Spring work term ends for co-operative education students
August 26, 2011, Friday	Sessions end for third-year clerkship medical students (class of 2012)

## 5 Governing Bodies and Staff

### 5.1 The Board of Regents 2009-2010

#### Officers of the Board

Robert E. Simmonds, QC, St. John's, Chair of the Board  
Eleanor Swanson, St. John's, Vice-Chair of the Board  
Tina Pardy, Secretary to the Board

#### Ex-Officio Members

The Chancellor  
The President and Vice-Chancellor  
The Vice-President (Academic)

#### Members Appointed by the Lieutenant-Governor in Council

Sheila Ashton, Corner Brook  
Gilbert Bennett, St. John's  
Jerry Byrne, St. John's  
Pat Coish-Snow, Clarenville  
Mary Cormier, Corner Brook  
Brian Dalton, St. John's  
Michelle Daye, Grand Falls  
Martin Gould, St. John's  
Noreen Greene-Fraize, St. John's  
Jim Keating, St. John's  
Bill Matthews, St. John's  
Vinod Patel, St. John's  
Tony Roche, St. John's  
Kathleen Roul, Lawn  
Donna Stone, St. John's

#### Members Elected by the Memorial University of Newfoundland Alumni Association

Julie Browne, Calgary  
Rex Gibbons, St. John's  
Jennifer (Davis) Guy, St. John's  
Ken Marshall, St. John's  
Eleanor Swanson, St. John's  
Auburn Warren, St. John's

#### Student Members Appointed by the Lieutenant-Governor in Council

Adam Daniels, Memorial University of Newfoundland Students' Union  
Vacant, Graduate Students' Union  
Vacant, Grenfell College Students' Union  
Vacant, Marine Institute Students' Union

### 5.2 The Senate 2009-2010

#### Ex-officio Members

Dr. Christopher Loomis: President, *pro tempore* and Chairman  
General Rick Hillier: Chancellor  
Dr. Reeta Tremblay: Vice-President (Academic), *pro tempore*  
Dr. Ray Gosine: Vice-President (Research) *pro tempore*  
Dr. Holly Pike: Acting Principal, Sir Wilfred Grenfell College  
Dr. Mark Abrahams: Dean, Faculty of Science  
Mr. Glenn Blackwood: Executive Director, Fisheries and Marine Institute  
Ms. Lorraine Busby: University Librarian  
Dr. Antony Card: Acting Director, School of Human Kinetics and Recreation  
Mr. Glenn Collins: University Registrar and Secretary of the Senate  
Dr. David Dibbon: Dean, Faculty of Education  
Dr. Noreen Golfman: Dean, School of Graduate Studies  
Dr. Tom Gordon: Director, School of Music  
Dr. Linda Hensman: Director, School of Pharmacy  
Ms. Rachelle Cochrane: Assistant Deputy Minister (for Deputy Minister), Department of Education  
Ms. Karen Kennedy: Director, Division of Lifelong Learning  
Dr. Judith McFetridge-Durdle: Director, School of Nursing  
Professor Ellen Oliver: Acting Director, School of Social Work  
Dr. John Quaiocoe: Acting Dean, Faculty of Engineering and Applied Science  
Dr. James Rourke: Dean, Faculty of Medicine  
Dr. Noel Roy: Acting Dean, Faculty of Arts  
Dr. Lilly Walker: Dean, Student Affairs and Services  
Dr. Wilfred J. Zerbe: Dean, Faculty of Business Administration

#### Elected Members

Dr. Faith Balisch: Faculty of Arts, Humanities

Dr. William Schipper: Faculty of Arts, Humanities  
Dr. Peter Trnka: Faculty of Arts, Humanities  
Professor Donna Walsh: Faculty of Arts, Humanities  
Dr. Erwin Warkentin: Faculty of Arts, Humanities  
Professor Gary Riser: Faculty of Arts, Social Sciences  
Dr. Christopher Sharpe: Faculty of Arts, Social Sciences  
Dr. Dale Foster: Faculty of Business Administration  
Dr. Jim Wyse: Faculty of Business Administration  
Dr. Walter Okshevsky: Faculty of Education  
Dr. Andrea Rose: Faculty of Education  
Dr. Glyn George: Faculty of Engineering & Applied Science  
Dr. Dennis Peters: Faculty of Engineering & Applied Science  
Mr. Bert Riggs: Library  
Dr. Jennifer Connor: Faculty of Medicine  
Dr. Jim Connor: Faculty of Medicine  
Dr. Christopher Kovacs: Faculty of Medicine  
Dr. Donald McKay: Faculty of Medicine  
Dr. Karen Mearow: Faculty of Medicine  
Dr. Amin Ali Muhammad: Faculty of Medicine  
Dr. P. Peter Wang: Faculty of Medicine  
Dr. Robert Adamec: Faculty of Science  
Dr. Janet Brunton: Faculty of Science  
Dr. Adrian Fiech: Faculty of Science  
Dr. Sue Ghazala: Faculty of Science  
Dr. George Jenner: Faculty of Science  
Dr. Serpil Kocabiyik: Faculty of Science  
Dr. Paul Marino: Faculty of Science  
Mr. Carl Clarke: Fisheries and Marine Institute  
Mr. Cyr Couturier: Fisheries and Marine Institute  
Mr. Donald Haynes: Fisheries and Marine Institute  
Mr. Ray Roche: Fisheries and Marine Institute  
Professor Vivienne Kuester: School of Human Kinetics & Recreation  
Dr. Jane Leibel: School of Music  
Professor Marilyn Beaton: School of Nursing  
Dr. Debbie Kelly: School of Pharmacy  
Dr. Dennis Kimberley: School of Social Work  
Dr. Sudhir Abhyankar: Sir Wilfred Grenfell College  
Professor David Carroll: Sir Wilfred Grenfell College  
Dr. Paul Wilson: Sir Wilfred Grenfell College

#### Graduate Students

Mr. Sebastien Despres  
Ms. Catherine Jalbert  
Mr. Arvindh Prashanth Raman

#### Undergraduate Students

Mr. Cameron Campbell  
Mr. Travis Collins  
Mr. Brad Evoy  
Ms. Stephanie Lawlor  
Mr. Ryan Marshall  
Ms. Heidi Morris  
Mr. Terry Randell  
Mr. Bradley Russell  
Ms. Julia Whittle  
Ms. Rebecca Winsor

### 5.3 University Officers and Staff

#### Visitor

Hon. J.C. Crosbie, P.C., O.C., Q.C., B.A.(Hons.) *Queen's*, LL.B. *Dalhousie*, LL.D. *Dalhousie*, LL.D. *Memorial*; Lieutenant-Governor of Newfoundland and Labrador

#### Chancellor

General R.J. Hillier (Retired), CMM, MSC, CD, B.Sc. *Memorial*

#### Chairman of the Board of Regents

R.E. Simmonds, QC, B.Comm. *Memorial*, LL.B. *Dalhousie*

#### President and Vice-Chancellor Pro Tempore (July 1, 2009 - June 30, 2010)

C.W. Loomis, B.Sc.(Hons.), M.Sc., Ph.D. *Queen's*

#### President and Vice-Chancellor (July 1, 2010 - )

G. Kachanoski, B.Sc.(Hons.), M.Sc. *University of Saskatchewan*, Ph.D. *University of California (Davis)*

#### Vice-President (Academic) Pro Tempore

R.C. Tremblay, B.A.(Hons.), M.A. *Kashmir*, M.Phil *Jawaharlal Nehru, New Delhi*, M.A., Ph.D. *Chicago*

**Vice-President (Administration and Finance)**

K. Decker, B.Comm.(Hons.) *Memorial*, C.A. (Newfoundland)

**Vice-President (Research) Pro Tempore**

R.G. Gosine, B.Eng. *Memorial*, Ph.D. *Cambridge*, P.Eng.

**Associate Vice-Presidents (Academic)**

G.A. Gardner, B.Sc. *Guelph*, M.Sc., Ph.D. *British Columbia*  
D. Neville, B.Sc. *Memorial*, M.Sc. *Toronto*, M.Sc., Sc.D *Harvard*

**Acting Vice-President for Corner Brook**

H. Pike, B.A. *Memorial*, M.A. *Dalhousie*, Ph.D. *N.Y.*

**Vice-Principal, Sir Wilfred Grenfell College at Corner Brook**

W.J. Iams, B.A. *John Hopkins*, M.Sc. *Dalhousie*, Ph.D. *Memorial*

**Executive Director, Fisheries and Marine Institute**

G. Blackwood, B.Sc.(Hons.), M.A. *Memorial*

**Dean, Student Affairs and Services**

L.J. Walker, B.A. *Jamestown College*, M.A., Ph.D. *University of North Dakota*

**President Emeritus**

A.W. May, O.C., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *McGill*, DU  
*Ottawa*, D.Sc. *Memorial*, LL.D. *Brock*

**DEANS**

**Faculty of Arts**

Dr. N. Roy, Acting Dean  
Professor P. Ayers, Associate Dean (Undergraduate)  
Dr. F. White, Associate Dean (Research and Graduate)

**Faculty of Business Administration**

Dr. W.J. Zerbe, Dean  
T. Clift, Associate Dean (Academic Programs)  
Dr. J. Parsons, Associate Dean (Research)

**Faculty of Education**

Dr. D. Dibbon, Dean  
Dr. K. Goodnough, Acting Associate Dean (Undergraduate Programs)  
Dr. T. Seifert, Associate Dean (Graduate Programs)

**Faculty of Engineering and Applied Science**

Dr. J. Quaicoe, Dean *pro tempore*  
Dr. K. Hawboldt, Acting Associate Dean (Research)  
vacant, Associate Dean (Undergraduate Studies)  
Dr. S. Butt, Acting Associate Dean (Graduate Studies)

**Faculty of Medicine**

Dr. J. Rourke, Dean  
Dr. S. Peters, Vice-Dean  
Dr. K. Mearow, Associate Dean for Basic Medical Sciences  
Dr. J. Connor, Associate Dean for Community Health and Humanities  
Dr. F. Moody-Corbett, Associate Dean for Research and Graduate Studies (Medicine)  
Dr. P. Parfrey, Associate Dean for Clinical Research

**Faculty of Science**

Dr. M. Abrahams, Dean  
Dr. A. Foster, Interim Associate Dean (Administration and Undergraduate Studies)  
Dr. M. Courage, Associate Dean (Graduate and Research)

**School of Graduate Studies**

Dr. N. Golfman, Dean  
Dr. F. Murrin, Associate Dean

**DIRECTORS**

**Alumni Affairs and Development**

Dr. P. Blackwood, Director  
L. Cadigan, Assistant Director

**Animal Care Services**

Dr. L. Husa, Director

**Centre for Institutional Analysis and Planning**

P. Chancey, Director

**Computing and Communications**

G. Mowbray, Director  
R. Campbell, Acting Associate Director, Operations

B. Power, Associate Director, Research, Policy and Planning

**Distance Education and Learning Technologies**

A.M. Vaughan, Director  
R. Wells, Associate Director, Learning Technologies and Media Design

**Division of Co-operative Education**

Dr. P. Rans, Director  
A. Raheja, Associate Director

**Division of Lifelong Learning**

K. Kennedy, Director  
E.M. Healey, Assistant Director

**Division of Marketing and Communications**

V. Collins, Executive Director  
P. Morris, Director, Public Affairs  
I. Muzychka, Associate Director, Communications  
M. Pickard, Associate Director, Marketing

**Enterprise Risk Management**

D. Head, Director

**Facilities Management**

D. Miles, Director  
K. Hiscock, Assistant Director (Development and Renewal)  
W. Marsh, Assistant Director (Operations and Maintenance)

**Faculty Relations**

M. Cooper, Director  
A. Wyse, Associate Director

**Financial and Administrative Services**

D. Collis, Director  
G. Pike, Associate Director

**Administration and Finance**

D. Waterman, Director, Sir Wilfred Grenfell College

**General Counsel**

## 6 Offices of the University

Fisheries and Marine Institute, Sir Wilfred Grenfell College, Special Divisions and members of Faculties and Schools are listed in the appropriate sections of the University Calendar.

### 6.1 Alumni Affairs and Development, Office of

[www.mun.ca/alumni](http://www.mun.ca/alumni)**Director**Blackwood, P., B.Sc.(Hons.) *Memorial*, M.Sc., Ph.D. *Western Ontario***Associate Director - Development**O'Neill, J.M., B.Mus. *Memorial*, M.Mus. *University of Calgary***Assistant Director - Alumni Affairs**Cadigan, L., B.A., B.Comm. *Memorial***Manager, Advancement Services and Operations**Williams, E.R., B.Ed., M.Ed. *Memorial***Communications Co-ordinator, Managing Editor Luminus Magazine**Fürst, B., B.A. *Mount Royal College*

The Office of Alumni Affairs and Development exists to foster connections between alumni and the University. In addition we offer opportunities for alumni to connect with each other. Our team works to develop services and benefits, manage events, bring you news about other alumni and the University and create opportunities for alumni and friends to give back to the University.

### 6.2 Computing and Communications, Department of

[www.mun.ca/cc/](http://www.mun.ca/cc/)**Director**Mowbray, G., B.Sc. *Memorial***Associate Director, Operations**Campbell, R., B.Sc., M.Sc. *Memorial***Associate Director, Research, Policy and Planning (on secondment)**

Power, B.

**Manager, Finance and Administration**

Earles, D.

**Associate Director, Client Relationships**Dawson, B., B.Sc.(Hons.), B.Ed., M.A.S. *Memorial***Acting Manager, Communications**Farrell, T., B.Sc. *Memorial***Manager, Technical Support**Dodge, R., B.Sc. *Memorial***Manager, IT Security**Forward, K., B.Sc. *Memorial***Acting Manager, Software Services**Harlick, L., B.Sc. *Memorial***Manager, Personal Computing**Shaw, M., B.Sc., B.Ed. *Memorial***Assistant Manager, Mail and Print Services**Maloney, R., B.A. *Memorial***Central Room Supervisor**

Predham, R.

The Department of Computing and Communications is responsible for centralized computing, data and voice communications, and mail. Services include computing and network operations, consulting, applications development and support, computer labs, web site development and support, and help desk services. Computing and Communications also provides application management services through our partnership with Edutech Services Inc. and high performance computing and research services through our partnership with ACEnet.

### 6.3 Co-operative Education, Division of

[www.mun.ca/coop/home](http://www.mun.ca/coop/home)**Director**Rans, P., B.A.(Hons.) *East Anglia*, M.A. *Sheffield*, Ph.D., M.P.A. *Dalhousie*

**Associate Director**

Raheja, A., B.Eng. *Bangalore, M.B.A. Memorial*

**Business Co-ordinators**

Murphy, L.J., B.Admin. *RMC, M.B.A. Memorial, CHRP*  
Noseworthy, S., B.A., B.Ed., M.B.A. *Memorial*  
Raheja, V., B.Comm. *Madras, M.B.A. Memorial, A.C.A.*  
Skanes, H., B.Comm. *Memorial, M.B.A. York*

**Computer Science, Applied Social Psychology, Economics and Political Science Co-ordinator**

Newhook, R., B.A. *Memorial*

**Engineering and Applied Science Co-ordinators**

Hudson, J.F., B.Eng. *McGill, P.Eng.*  
Jacobs, W.K., B.Eng. *Memorial, P.Eng.*  
Jin, G., B.Eng. *Memorial*  
Oldford, D.B., B.Sc. *Memorial, B.Eng. Dalhousie*  
Raheja, A., B.Eng. *Bangalore, M.B.A. Memorial; Associate Director*  
Smith, G., B.Eng., M.B.A. *Memorial, P.Eng.*  
Sullivan, P., M.B.A. *Ottawa*  
Wadden, N., B.Eng. *Memorial*

**Human Kinetics and Recreation Co-ordinators**

Downey, J.A., B.Sc., M.Sc. *Memorial*  
Innes, G., B.A.(Hons.) *York, M.A.L.S. Wesleyan*

The Division of Co-operative Education is responsible for combining classroom education with practical work experience. The Division links the paid work terms the students experience with their chosen program of studies. A number of Memorial University of Newfoundland's co-op programs are accredited by the Canadian Association for Co-operative Education, the national body and accrediting agency for co-operative education in Canada. The accredited institution affirms that: (i) each work situation is developed and/or approved by the co-operative educational institution as a suitable learning situation; (ii) the co-operative student is engaged in productive full time work rather than merely observing; (iii) the co-operative student receives remuneration for the work performed; (iv) the co-operative student's progress on the job is monitored by the co-operative educational institution; (v) the co-operative student's performance on the job is supervised and evaluated by the student's co-operative employer; and (vi) the total co-operative work experience is at least thirty percent of the time spent in academic study. Co-operative education programs at this University are offered in a variety of degree programs organized through a centralized division. The goal of the Division of Co-operative Education is to fuse academic knowledge with practical experience, creating highly qualified and knowledgeable professionals prepared to meet the demands of today's workforce.

## 6.4 Enterprise Risk Management

[www.mun.ca/erm/home/](http://www.mun.ca/erm/home/)

**Director**

Head, D., B.Comm. (Co-op), M.B.A. *Memorial*

**Risk Analyst**

Tucker, R.

**Internal Audit Project Manager**

Royle, D., B.Comm. *Memorial, CMA, CFP*

**Internal Auditor**

Wells, K., B.B.A. *Acadia*

The function of Enterprise Risk Management is to take a leading role working with all areas of the University, including the Marine Institute, Sir Wilfred Grenfell College, Harlow campus and the Separately Incorporated Entities to identify, assess and develop mitigation strategies that will reduce the likelihood of anything getting in the way of a program or project goal. Enterprise Risk Management's role is wide-ranging, encompassing the internal audit function, insurance and liability in addition to an extensive array of risk issues.

## 6.5 Facilities Management, Department of

[www.mun.ca/facman/about/](http://www.mun.ca/facman/about/)

**Director**

Miles, D., P.Eng.

**Assistant Director (Capital Projects)**

Guthrie, R., MNAA, MRAIC

**Assistant Director (Development and Renewal)**

Hiscock, K., P.Eng.

**Assistant Director (Operations and Maintenance)**

Whelan, C.

**Manager of Administrative Services**

Murphy, P.

**Manager, Building Services and Grounds**

Walsh, R.

**Manager of Campus Enforcement and Patrol**

Browne, J.

**Manager, Central Utilities**

Dunne, J.

**Manager of Custodial Services**

Budden, K.

**Manager, Energy Systems and Controls**

Peach, D.

**Manager, Engineering & Development**

Daniels, J., P. Eng., M.A.Sc., P.M.P.

**Manager, Space Planning & Administration**

Michalak, M.

**Manager, Work Control Center**

Marshall, T.

The founders of Memorial University of Newfoundland dedicated the University itself as a living memorial to those who served in the two world wars. Guided by this heritage and mission, the Department of Facilities Management embraces its responsibility to maintain, protect, and further develop the University's major infrastructure. The Department's team is committed to the pursuit of excellence in all of its operations including facilities engineering and development, central utilities, energy systems and controls, custodial services, building services and grounds, campus enforcement and patrol, sustainability, administrative services and space planning and administration.

**6.6 Faculty Relations, Office of**

[www.mun.ca/facultyrelations/index.php](http://www.mun.ca/facultyrelations/index.php)

**Director of Faculty Relations**Cooper, M., B.Comm.(Hons.) *Memorial*, M.I.R. *University of Toronto*, LL.B. *Dalhousie***Associate Director of Faculty Relations**Wyse, A., B.A.(Hons.), M.A. *Memorial*, M.P.A. *University of Western Ontario***Faculty Relations Advisor**McKinnon, I., B.Comm.(Co-op), MER *Memorial*

The Office of Faculty Relations is responsible for the negotiation and administration of the following collective agreements for faculty and per course instructors:

1. Memorial University of Newfoundland and Memorial University of Newfoundland Faculty Association (MUNFA), December 13, 2007 - August 31, 2009
2. Memorial University of Newfoundland and Lecturer's Union of Memorial University of Newfoundland (LUMUN), February 5, 2009 - August 31, 2012.

As well, the Office of Faculty Relations addresses labour relations matters arising out of the collective bargaining relationships with MUNFA and LUMUN, including grievance and arbitration proceedings and Labour Relations Board matters. In addition, the Office of Faculty Relations:

1. is involved in all aspects of the employment of academic staff. The Office makes per course, extra teaching, and contractual academic appointments less than one year;
2. sets the starting salaries of all academic personnel, and determines eligibility for leaves;
3. provides advice, assistance, and education in all matters involving faculty, including the recruitment process, promotion and tenure, discipline, sabbatical, and administrative leave eligibility, and all collective agreement matters;
4. provides immigration assistance and advice for arriving faculty and staff, orientation opportunities for new faculty, and provides educational opportunities for academic administrators; and
5. is involved in policy development, implementation and administration.

**6.7 Financial and Administrative Services, Department of**

[www.mun.ca/finance/Welcome/](http://www.mun.ca/finance/Welcome/)

**Director**Collis, D., B.Comm. *Memorial*, C.A.**Associate Director**Pike, G., B.Comm.(Hons.) *Memorial*, CMA**Associate Director, Budgets**Pike, L., B.Comm., M.B.A. *Memorial***Manager, Financial Systems**Hillyard, B., B.Sc., M.B.A. *Memorial***Manager, Financial Reporting & Analysis**Whelan, H., B.Comm. *Memorial*, CA**Financial Analyst**

Mooney, P., CGA

**Manager, Printing Services**

Cranford, B.

**Manager, Research Accounting Office**

Rose, S.

**Staff Accountant - Travel and Disbursements**

Clancey, P.

**Senior Staff Accountant - Cashier's Office**

Hanson, G.

**Staff Accountant - Accounts Payable**

Noseworthy, L.

**General Office Supervisor, Science Building**

Hicks, M.

**General Office Supervisor, Education Building**

Bourne, C.

The Department of Financial and Administrative Services oversees the financial and budgetary operation of Memorial University of Newfoundland. The Department consists of 80+ employees providing quality services in the areas of Administration, Disbursements, Accounts Payable, Customs, Tendering, Grants, Cashier's Office, Systems, Budgets, Printing Services and two General Offices located in the Education Building and Science Building.

## 6.8 General Counsel, Office of

[www.mun.ca/generalcounsel/index.php](http://www.mun.ca/generalcounsel/index.php)

**General Counsel**

Hollett, K., B.A. *Memorial*, LL.B. *Dalhousie*

**Associate General Counsel**

French, G., B.Comm. (Hons.)(Co-op) *Dalhousie*, LL.B. *New Brunswick*, LL.M. *Toronto*

The Office of the General Counsel provides legal and strategic advice to the University, the senior administration, and the Board of Regents; provides education initiatives on legal matters affecting the University; and works with the University on the development of policies and procedures to ensure legal compliance and best practices.

## 6.9 Health and Safety, Department of

[www.mun.ca/health\\_safety/](http://www.mun.ca/health_safety/)

**Director**

Miller, S., B.N. *Memorial*, MScA *McGill*, CRSP, COHN©

**Radiation Safety/Bio-safety Officer**

Woods, D., B.Sc. *Mississippi State*

**Health and Safety Advisor (Boating/Diving)**

Foley, S.

**Health and Safety Advisor (Laboratory Safety)**

Battock, B.

**Health and Safety Advisor (General)**

Gosse, D.

The Department of Health and Safety provides leadership for the planning, directing and management of Memorial University of Newfoundland's Health and Safety Program. In meeting the University's goal of providing a safe and healthy environment which supports teaching, research and University life, the Department provides expert health and safety advice to the University community on the full range of health and safety matters including ergonomics, work place organization, accident and injury prevention, fire safety, air quality analysis, radiation safety, bio-safety/infection control, and hazardous materials handling and disposal. The Department monitors the University's health and safety performance to identify opportunities for continued improvement. It oversees the delivery of training programs which meet regulatory requirements and which provide members of the University with the information and skills needed to carry out their work and studies safely.

## 6.10 Human Resources, Department of

[www.mun.ca/humanres/about/](http://www.mun.ca/humanres/about/)

**Director**

Hollett, L., B.A. *McMaster*, M.I.R. *Toronto*, CHRP

**Associate Director**

Horlick, C., B.Comm. *Memorial*

**Manager - Recruitment and Compensation**

Clarke, M., B.Comm. *Memorial*

**Manager - Finance and Payroll**

Hatcher, C.

**Manager - Organizational Development**

Barker, R., B.Comm. *Memorial*, M.B.A. *Virginia Polytechnic Institute & State University*

**Manager - Benefits and Pensions**

Roberts, G., B.Sc. *Memorial*

**Manager - Administration and Systems Integration**

Mullett, B.

**Manager - Employee Relations**Curran, L., B.A., B.B.A., *Memorial*, CHRP**Manager - Human Resources (Medicine)**Wooley, E., B.Comm. *Memorial***Acting Team Lead - Advisory Services**Norman, J., B.B.A. *St. Francis Xavier*, CHRP

The Department of Human Resources is more than payroll, pensions and benefits. The Department of Human Resources provides the foundation to advance and maintain a strong institutional culture that values the contributions of all within the organization. This culture is based on clear values that are accepted and put into practice by all: the principles of respect, recognition, support, equity and fairness, effective leadership, recruitment and retention, learning and development, work-life balance (including health and wellness) and career opportunity. Human Resources works to provide optimal service delivery to clients and ensure best practices in internal processes through measurement. Through a long-term strategy in Human Resources, Memorial University of Newfoundland continues to implement the people development strategy (mentoring, succession, coaching, leadership and career development), transfer knowledge to new employees, meet employment equity targets, improve employee satisfaction, and enhance connections prior to and into retirement. Complete details and contact information is available at [www.mun.ca/humanres/about](http://www.mun.ca/humanres/about).

**6.11 Information Access and Privacy Protection Office (IAPP)**[www.mun.ca/iapp/home/](http://www.mun.ca/iapp/home/)**Co-ordinator**

Smith, R.

**ATIPP Analyst**

Corcoran, M.

**ATIPP Analyst**

El-Gohary, S.

The Information Access and Privacy Protection Office (IAPP) was created in November 2005 to assist the University in complying with the provincial Access to Information and Protection of Privacy Act (ATIPP) and other applicable privacy legislation, as well as developing best practices in information access and privacy protection matters.

The IAPP Office benefits from the guidance of the IAPP Advisory Committee and works with the university wide Privacy Working Group. The IAPP Advisory Committee provides strategic direction and general guidance to the IAPP Office. The Privacy Working Group implements policy and procedures throughout the University. It includes senior administrative staff from the 46 principal units of the University. Using guidelines, policy, procedures and standards established by the IAPP Advisory Committee, members lead a team in their own units to implement best practices in privacy protection and bring personal information handling practices into compliance with the ATIPP Act and other pertinent privacy protection legislation.

**6.12 Institutional Analysis and Planning, Centre for**[www.mun.ca/ciap/](http://www.mun.ca/ciap/)**Director**Chancey, P.F., B.Sc., B.Comm., M.Ed. *Memorial***Senior Institutional Analysts**Leake, R.M., B.B.A.(Hons.), M.B.A. *Memorial*, C.G.A.Pippy, S.E., B.Sc.(Hons.), M.Sc. *Memorial***Senior Planning Analyst**Myrick, K.A., B.Comm., M.B.A. *Memorial*, M.A. *University of Windsor*

The Centre for Institutional Analysis and Planning (CIAP) is responsible for the collection, analysis and dissemination of information and facilitation of decision-support and planning initiatives at Memorial University of Newfoundland.

**6.13 Marketing and Communications, Division of**[www.mun.ca/marcomm/home/](http://www.mun.ca/marcomm/home/)**Executive Director**Collins, V., B.A. *Memorial***Director, Public Affairs**Morris, P., B.A. *Memorial***Manager of Finance and Administration**

Kelly, H.

**Associate Director, Marketing**Pickard, M., B.Comm.(Hons.) *Memorial***Associate Director, Communications**Muzychka, I., B.A.(Hons.) *Memorial*, M.A. *Toronto***News Service Editor**Sorensen, D., B.A.(Hons.), M.A. *Memorial***Communications Co-ordinator (Alumni Affairs and Development)**Furst, B., B.A. *Mount Royal College***Communications Co-ordinator (Arts)**Harron, J., B.A. *Toronto*

**Communications Co-ordinator (Business)**

Locke, J., B.A. *Memorial*

**Communications Co-ordinator (Executive)**

Porter, M., B.S. *King's College*, B.A. *Mount Allison University*

**Communications Co-ordinator (Health Sciences)**

Gray, S., B.A.(Ed.) *Memorial*

**Communications Co-ordinator (Human Resources)**

O'Dea Dawson, S., B.Ed., B.Comm.(Co-op), B.A. *Memorial*

**Communications Co-ordinator (Marketing and Communications)**

Green, J., B.A. *Memorial*, B.J. *King's College*

**Communications Co-ordinator (Recruitment)**

Hunt, J., Dip. Corporate Comm. *Sheridan College*, B.A. *Memorial*

**Communications Co-ordinator (Research)**

Osmond, M., B.J. *King's College*, B.A. *Dalhousie*

**Communications Co-ordinator, Sir Wilfred Grenfell College**

Gill, P., B.A. *Memorial*, B.J. *King's College*

**Communications Co-ordinator (Science)**

Foss, K., B.J. *King's College*

**Manager, Image Services**

Mackinnon, J.

**Manager, Web Content Services**

Whittle, P., B.Comm., B.A.(Hons.) *Memorial*

**Marketing Manager**

Hulan, J., B.A. *Memorial*

The Division of Marketing and Communications is Memorial University of Newfoundland's public relations and communications centre. The Division is dedicated to serving the University's internal and external communications needs, as well as to responding to the community's needs for information about Memorial University of Newfoundland. The Division provides general information about Memorial University of Newfoundland, communications counsel and planning, news services including the Gazette, *today.mun.ca* and *Studio 1024*, the University's weekly news podcast, as well as media relations and issues management (including crisis communications coordination). The Division also has expertise in institutional marketing, university event management (including Convocation), photography (including a university photo bank), graphic design, co-ordination of promotional projects, institutional web management and web content development. The Division can provide advice on protocol, government relations, issues management, special event planning, and marketing planning.

## 6.14 President, Office of the

[www.mun.ca/president/](http://www.mun.ca/president/)

**President and Vice-Chancellor Pro Tempore (July 1, 2009 - June 30, 2010)**

Loomis, C.W., B.Sc.(Hons.), M.Sc., Ph.D. *Queen's*

**President and Vice-Chancellor (July 1, 2010 - )**

Kachanoski, G., B.Sc.(Hons.), M.Sc. *University of Saskatchewan*, Ph.D. *University of California (Davis)*

**Executive Director**

Brown, M., M.B.A. *Royal Roads*

**Archivist/Historian**

Baker, M., B.A.(Hons.), M.A. *Memorial*, Ph.D. *Western*

The Office of the President undertakes the management and administration of the University as directed by the Board of Regents. The President provides leadership and overall strategic direction for both the academic and business affairs of the University.

## 6.15 Queen's College (Affiliated Institution)

Information regarding Queen's College may be found at **General Information, Queen's College.**

## 6.16 Registrar, Office of the

[www.mun.ca/regoff/home/](http://www.mun.ca/regoff/home/)

### University Registrar

Collins, G.W., B.Sc., B.Ed., M.Sc. *Memorial*

### Deputy Registrar

Singleton, S.M., B.Sc. *Memorial*, M.Sc. *Queen's*

### Assistant Registrar/Systems Manager

Baggs, R., B.Sc. *Memorial*

### Assistant Registrar

Bruce, R., B.Ed.(Primary), B.Sp.Ed., M.Ed. *Memorial*

### Assistant Registrar

Burry, J., B.Sc. *Memorial*

### Assistant Registrar

Byrne, I.J., B.A. *North Carolina*, M.A. *Memorial*

### Assistant Registrar

Gill, P., B.A. *U.N.B.*, M.A. *Manchester*

### Assistant Registrar

Hillman, M.E., B.A.(Hons.) *Memorial*, M.A. *Toronto*

### Assistant Registrar

MacFarlane, M.K., B.A. *Memorial*

### Assistant Registrar/Graduation Manager

McCann, P., B.A., B.Ed. *Memorial*

### Assistant Registrar/Admissions Manager

Murray, M., B.Comm. *Memorial*

### Assistant Registrar/Enrolment Services Manager

Porter, J.M., B.Comm.(Co-op)(Hons.) *Memorial*, MBA *York*

### Assistant Registrar

Puxley, M.J., B.A. *Memorial*

### Manager, Administration and Finance

Thorne, L., B.Comm. *Memorial*

### Assistant Registrar

Walsh, L., B.A., B.Ed.(Secondary) *Memorial*

The Office of the Registrar provides academic support services and systems to prospective and current students - from initial contact, to application, academic advising, registration, and graduation - and strives to implement continuous improvements to these services and systems. Together with offices at Sir Wilfred Grenfell College and the Marine Institute, the Office of the Registrar serves the University community, including those involved in distance learning.

The Office of the Registrar's current mission and vision is to: Encourage and facilitate the transition from potential applicant to registered student to graduate. Develop and implement strategies designed to enhance student success. Serve as a catalyst in formulating and implementing academic regulations, policies and procedures; provide accurate and timely information and advice about these to the academic community and the general public. Provide innovative and technologically advanced information systems to facilitate the most effective and efficient delivery of services. Respond to change and commit to improving the quality of our services within the context of the themes outlined in the University's Strategic Framework. In carrying out this mission, the Office strives to be sensitive to the needs of students, faculty, staff, co-workers, and the general public, and to treat each individual with fairness, respect and understanding. Responsibility for the Secretariat for Senate and for several major Senate and Faculty Committees also rests with this Office.

### 6.16.1 Academic Advising Centre

[www.mun.ca/regoff/advising/](http://www.mun.ca/regoff/advising/)

**Manager**

Preston, R., B.Comm.(Hons.), M.B.A. *Memorial* (on leave)

**Senior Faculty Advisor (Science)**

Batten, D.L., B.Sc.(Hons.) *Memorial*, M.Sc. *Queen's*

**Senior Faculty Advisor (Arts)**

Dawe, L., B.A. *Memorial*, M.A. *Toronto*

**Academic Advisor/Co-ordinator, University Liaison**

Donovan, M., B.Sc.(Hons.) *Memorial*, LL.B. *Osgoode Hall*

**Academic Advisor/Co-ordinator, University Liaison**

Knight, K., B.Comm. *Memorial*

**Academic Advisor/Co-ordinator, University Liaison**

O'Neill, R., B.A., B.Ed. *Memorial*

The Academic Advising Centre is committed to providing up-to-date information on Memorial University of Newfoundland's programs, student services, and other information concerning the student's first year at this University to first year students, as well as undeclared students, international students, faculty advisers, and high school guidance counsellors. In addition, advisors will answer questions about the regulations or requirements governing a program in which a student is enrolled or one for which admission is being sought.

## 6.17 Research, Office of

[www.mun.ca/research/overview/](http://www.mun.ca/research/overview/)

**Acting Director**

Perchard, C., B.Comm. *Memorial*

**Acting Assistant Director (Contracts)**

Peach, J.

**Office Administrator and Assistant to the Director**

Williams, E.

**Contracts Co-ordinator**

Chafe, R.

**Contracts Co-ordinator**

Barnes, D.

**Grants Co-ordinator**

Hopkins, J.

**Grants Co-ordinator**

Gill, V.

**Co-ordinator (Internal Grants and ICEHR)**

Butler, E.

The Office of Research is responsible for the administration, facilitation, and recording of scholarly research carried out by individual researchers as well as teams of researchers at Memorial University of Newfoundland. It is the institutional approval point for research funding applications as well as for grant funding agreements, research contracts and other formal agreements required in the conduct of research throughout the institution, the value of which currently amounts to between \$80 million and \$90 million annually. The Office carries out a facilitative role with a wide range of research funding agencies and organizations locally, nationally and internationally with particular focus on Canada's three national granting councils – the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council of Canada, and the Social Sciences and Humanities Research Council of Canada.

## 6.18 Sexual Harassment Office

[www.mun.ca/sexualharassment/home/](http://www.mun.ca/sexualharassment/home/)

**Sexual Harassment Advisor**

Morris, C., B.Ed, B.S.W. *Memorial*, R.S.W.

The Sexual Harassment Office implements the *University Wide Procedures for Sexual Harassment Complaints* aimed at providing a method for the resolution of sexual harassment complaints which may arise at Memorial University of Newfoundland. This policy prohibits sexual harassment by any member of the University community. Any member may make a complaint of sexual harassment against another member of the University community. Memorial University of Newfoundland is committed to providing an environment that is respectful and inclusive – thus free of sexual harassment. The services of the Sexual Harassment Office is available to all campuses of Memorial University of Newfoundland. A copy of the *University Wide Procedures for Sexual Harassment Complaints* is available at [www.mun.ca/finance/policies\\_procedures/university\\_sexual\\_harassment.php](http://www.mun.ca/finance/policies_procedures/university_sexual_harassment.php).

## 6.19 Student Affairs and Services, Office of

[www.mun.ca/student/home](http://www.mun.ca/student/home)

### Dean

**Administrative Assistant**

Dwyer, R.

Created in 1996, the Office of Student Recruitment's primary goal is to recruit undergraduate students to Memorial University of Newfoundland. Each year, the recruitment team completes a wide range of recruitment activities including high school visits, career fairs and information sessions. The Office of Student Recruitment also implements the University's campus tour program. Through the development of a number of promotional materials and its website, the Office of Student Recruitment provides a wealth of information and advice to prospective undergraduate students.

### 6.21 Technical Services, Department of

[www.mun.ca/ts/](http://www.mun.ca/ts/)

**Director**

**Computers and Data Communications Supervisor, Electronics Division**

Decker, K.

**Biomedical Electronics Supervisor**

Snook, C.

**Machine Shop Supervisor, Biomedical Division**

Connors, C.

**Supply Supervisor**

Brazil, B.

The Department of Technical Services offers a wide range of biomedical, electronics and mechanical services to our users within Memorial University of Newfoundland and the health care community. These services range from electronics, biomedical, machining, glassblowing, welding, sheet metal, computer repairs, refrigeration, instrument repairs and scale model making. The Department provides expert advice and service to faculty, students, and researchers. It assists with the development of custom research apparatus and provides ongoing service for state-of-the-art devices, as well as repairs to older research equipment.

## 6.23 Vice-President (Academic), Office of the

[www.mun.ca/vpacademic/](http://www.mun.ca/vpacademic/)

### Vice-President (Academic) Pro Tempore

Tremblay, R.C., B.A.(Hons.), M.A. *Kashmir*, M.Phil *Jawaharlal Nehru, New Delhi*, M.A., Ph.D. *Chicago*

### Associate Vice-Presidents (Academic)

Gardner, G.A., B.Sc. *Guelph*, M.Sc., Ph.D. *British Columbia*  
 Neville, D., B.N. *Memorial*, M.Sc.N. *Toronto*, S.M., Sc.D. *Harvard*

### Director of Academic Support Services

Millan, R., B.Voc.Ed. *Memorial*

The Office of the Vice-President (Academic) has primary responsibility for academic matters, ultimately being responsible for the programs of some 18,000 undergraduate and graduate students across a wide range of disciplines. The Vice-President (Academic) reports directly to the President and works in close collaboration with the other Vice-Presidents, Deans and other members of the senior management team of the University.

## 6.24 Vice-President (Administration and Finance), Office of the

[www.mun.ca/vpadmin/](http://www.mun.ca/vpadmin/)

### Vice-President (Administration and Finance)

Decker, K., B.Comm.(Hons.) *Memorial*, C.A. (Newfoundland)

### Director

Tibbo, C., B. Comm., M.B.A. *Memorial*

The Vice-President (Administration and Finance) is the senior administrative and financial executive officer of the University. The Office provides strategic leadership in the areas of Human Resources, Finance, Computing and Communications, Risk Management, Health & Safety, Privacy, and Facilities Management.

## 6.25 Vice-President (Research), Office of the

[www.mun.ca/research/vp/](http://www.mun.ca/research/vp/)

### Vice-President (Research) Pro Tempore

Gosine, R.G., B.Eng. *Memorial*, Ph.D. *Cambridge*, P.Eng.

The Office of the Vice-President (Research) is responsible for promoting and enhancing the university's broad range of research activities. Specific priorities for the Vice-President (Research) include: Providing leadership in the development and execution of the University's Strategic Research Plan; Supporting researchers across all academic disciplines; Encouraging the full range of research at Memorial University of Newfoundland, including fundamental and applied research and creative scholarly activities; Building partnerships with other universities, research organizations, government and the private sector, locally, nationally and internationally; Increasing research funding to Memorial University of Newfoundland and other research organizations in the province; Enhancing the dissemination, application and commercialization of research results generated at Memorial University of Newfoundland.

## 7 General Information

Memorial University of Newfoundland is the only university in Newfoundland and Labrador. It has campuses in St. John's and in Corner Brook, as well as Harlow, England.

## 7.1 The Beginning

Memorial University College was established as a memorial to the Newfoundlanders who had lost their lives on active service during the First World War; it was later rededicated to also encompass the province's war dead of the Second World War. The College opened its doors on the old Parade grounds in St. John's to a total student body of 55 on September 15, 1925.

## 7.2 University Status

The elevation of the College to the full status of a university was one of the priorities of the first post-Confederation Government. At the initial session of our Provincial House of Assembly, July 13, 1949, the intention of the Government of the day was conveyed by the then Lieutenant-Governor, the Honourable Sir Albert Walsh, in these words from the Speech from the Throne:

"It is considered that Newfoundland should have her own degree-conferring University and you will be invited to consider legislation which would confer upon the Memorial University College the status of a university. It is planned to widen and improve the functions, and thus increase the public usefulness of this institution created originally in honour of our illustrious dead of the First World War."

Royal assent was given the Bill creating The Memorial University of Newfoundland on August 13, 1949, exactly one month to the day from the opening of the House. The Board of Regents and the Senate were inaugurated in May 1950, and the first Convocation of the University was held on June 3, 1950, when the first degrees were awarded.

## 7.3 A Period of Expansion

With university status, Memorial University of Newfoundland entered a period of rapid growth that was to continue into the 70s. In 1949-1950, there was a student body of 307 in the new University; in the academic year 1961-1962, when the University moved to its present campus, the student enrolment had reached 1745 full-time and 152 part-time. Ten years later, 1971-1972, the student population, including full- and part-time students on degree programs, was 10,980.

Meanwhile, there were equally dramatic changes in the variety and extent of available academic programs. In the early years of the University, there were two Faculties (Arts and Science, and Education). While the academic structure was quite similar in 1961, when the University moved to the present campus, areas of instruction, course offerings and degrees awarded had all increased.

Today, the University offers more than 100 undergraduate and graduate degree programs through six Faculties - Arts, Science, Education, Medicine, Engineering and Business Administration; and six Schools - Graduate Studies, Nursing, Human Kinetics and Recreation, Social Work, Music and Pharmacy; and also offers degree programs in Fine Arts. Student enrolment in 2007-08 totalled 17,103. Further information regarding enrolment statistics can be found in the Fact Book at [www.mun.ca/ciap/fact\\_book.php](http://www.mun.ca/ciap/fact_book.php).

In 1975, the University established a campus in Corner Brook. The College was re-named the Sir Wilfred Grenfell College in 1979 honouring the memory of the medical missionary who pioneered medicine in Northern Newfoundland and along the coast of Labrador. Since its opening, Grenfell College has progressed from a junior college offering first- and second-year courses to providing entire degrees in the areas of arts, fine arts, science, and nursing. The first degrees, in the disciplines of theatre and visual arts, were introduced in 1988. Most recently, Grenfell College has introduced degree programs in tourism studies and a Bachelor of Education Program (Primary/Elementary) fast-track option. The College currently offers degree programs in 14 disciplines. For more information see [www.swgc.mun.ca](http://www.swgc.mun.ca).

In 1992 the Marine Institute joined the University, becoming the Fisheries and Marine Institute of Memorial University of Newfoundland. Founded in 1964, the Marine Institute offers a range of certificate, diploma and degree programs in fisheries and marine technology and is involved in research and technology transfer. For more information see [www.mun.ca](http://www.mun.ca).

Memorial University of Newfoundland's faculty and students actively participate in research and development. This University is one of the most important research facilities in Atlantic Canada and has developed numerous research programs and facilities that are among the most advanced in the world. For a complete listing of research facilities see [www.mun.ca/research/units](http://www.mun.ca/research/units).

## 7.4 The Campuses

### 7.4.1 St. John's

The St. John's campus covers a total area of approximately 220 acres. It is divided by Prince Philip Drive, a four-lane arterial road that runs east to west across the campus. To the south, the boundary is Elizabeth Avenue; to the north, Long Pond and Kelly's Farm. The western boundary follows Westerland Road, west along Prince Philip Drive and north along Wicklow Street; on the east, the campus is bounded by Higgin's Line and adjoins the St. John's Arts & Culture Centre property on Allandale Road.

On the campus to the south of Prince Philip Drive are the Arts and Administration, Science, Chemistry-Physics, Education (G.A. Hickman), Mathematics (Henrietta Harvey), Physical Education, Biotechnology, Facilities Management and Music (M.O. Morgan) buildings; as well as the Queen Elizabeth II Library, Inco Innovation Centre, Paton College residence complex, Burton's Pond Apartments, Campus Childcare Inc., and a number of smaller buildings. The Works recreation complex was opened in 2002, comprising the Aquarena, Field House and other sports and recreation facilities on campus. Spanning Prince Philip Drive is the Smallwood Centre, containing student services and student union operations, as well as recreation and dining facilities.

North of Prince Philip Drive are the Health Sciences Centre incorporating the Faculty of Medicine, the School of Nursing, the School of Pharmacy, and the General Hospital Corporation; the Engineering (S.J. Carew), the Alexander Murray, the Faculty of Business Administration, and the C-CORE (Captain Robert A. Bartlett) buildings, St. John's College, Coughlan College, Queen's College, Spencer Hall, and the Fisheries and Marine Institute on Ridge Road. The National Research Council's Institute for Ocean Technology is also located on the north side of the campus. Slightly further north is the Memorial University of Newfoundland Botanical Garden. The Ocean Sciences Centre is located to the west at Logy Bay.

The Fisheries and Marine Institute is headquartered on Ridge Road in St. John's, and is Canada's leading centre of education, training, applied research and technology transfer for the ocean industries. As part of Memorial University of Newfoundland, Marine Institute offers degrees, advanced diplomas, diplomas of technology, certificates in such fields as marine transportation, food and water quality, naval architecture, aquaculture, coastal zone management and marine environmental.

The institute has a number of state-of-the-art centres and units, including the Offshore Safety and Survival Centre (OSSC), the Safety Emergency and Response Training Centre (SERT), the Centre of Marine Simulation (CMS), the Centre for Aquaculture and Seafood Development (C-ASD), MI International and the Centre for Sustainable and Aquatic Resources (C-SAR). These areas lead to the institute in applied research and technology transfer and also provide training to a variety of industry clients.

### 7.4.2 Corner Brook

Memorial University of Newfoundland's Corner Brook campus, Sir Wilfred Grenfell College, stands on a magnificent 185-acre site with a

spectacular view of the city of Corner Brook and the Bay of Islands.

The campus was established in 1975, and in 1979 was named in honour of Sir Wilfred Grenfell, a medical missionary who pioneered medicine in northern Newfoundland and along the coast of Labrador. Located on University Drive, Grenfell College's small campus features four academic buildings. The Arts and Science building houses administrative offices, academic classrooms and labs, recreational facilities, a bookstore and a student residence. Student housing has since been expanded to include eight chalet-style apartment buildings, as ground was recently broken to construct another major residence complex on campus. The Fine Arts building features state-of-the-art facilities for theatre and visual arts programs. The Library and Computing contains the Ferris Hodgett Library, a computer lab and lecture hall facilities. The Student Centre, an annex to the Arts and Science building, provides dining and recreational space for the student population, as well as office space for the Grenfell College Student Union. The Forest Centre houses classroom, lab and lecture space, as well as the offices of the Canadian Forest Service and other partners. Through a partnership with the city of Corner Brook, Memorial University of Newfoundland recently assumed operation of the city's civic centre (the Pepsi Centre), which houses two ice surfaces, a fitness centre, and meeting, conference and concert venues.

Sir Wilfred Grenfell College's programs are a testament to the beauty that surrounds the campus. Artists find their inspiration in the landscape and culture of the area. Scientists and researchers strive to protect the natural wonder of the place. Historians research our varied history, and literary enthusiasts write about their sense of where we are. This small, spectacular campus offers a personalized undergraduate education in a wide variety of interdisciplinary experiences: students may choose from degrees in arts, business administration, fine arts, education, nursing, science or resource management. Grenfell College's low student-instructor ratio ensures that individual attention is the norm and there is ample opportunity to get to know the faculty. Further information may be obtained from the website at [www.swgc.mun.ca](http://www.swgc.mun.ca).

### 7.4.3 Harlow

#### Directors of MUN (UK) LTD

Dr. Christopher Loomis, Chair  
 Dr. Grant Gardner  
 Mr. Harvey Short  
 Mr. Derek Linfield  
 Professor John Vinney

#### General Manager

Ms. Sandra Wright

#### Finance Manager

Mr. Simon Hatchett

In 1966 the Board of Regents approved the establishment of a small residential campus at Harlow, Essex approximately midway between London and Cambridge. The Campus went through extensive modernisation in 2002 and the refurbished campus was designed to meet the needs of today's students - those from Memorial University of Newfoundland wishing to study in Europe and those in Europe interested in pursuing studies at Harlow Campus. The Campus is equipped with technologically equipped meeting facilities and residence accommodations for up to 51, as well as excellent food service capacity.

Up until March 2007, the Campus was operated by the Harlow Campus Trust, but in April 2007 the trust was replaced by a new company entitled MUN (UK), a company limited by guarantee and incorporated under English Law, to direct the operations of the Campus.

The main campus building is a converted 19th century Maltings (formerly used for drying barley for brewing) - accommodating 40 students in twin ensuite accommodation, which can be converted to single accommodation when required. In addition there is a purpose designed single bedroom for a disabled guest. A further 10 students can be accommodated in Cabot House, a self-contained residence house in a 17th century cottage with four twin rooms and two single rooms all with shared facilities.

Each bedroom in both the Maltings and Cabot House has a direct dial inward telephone and computer point with internet access (for use with personal lap-top computers).

The Campus has three fully self-contained faculty properties each with one double and one twin room. These are two apartments at 44 and 46 Market Street and St. John's Cottage.

Conference/training space is available in St. John's House, which is the main lecture hall situated in a converted Victorian Schoolhouse. The lecture hall is fully networked and has audio visual connectivity. Flexible seating arrangements means the facility can comfortably accommodate up to 30 delegates. Additional conference/training space is available in the Lord Taylor Room situated in the Maltings. This conference room is fully networked and has flexible seating arrangements accommodating up to 20 delegates.

The Resources Room in the Maltings accommodates the library and small computer suite (which is set up to be additional teaching space when required). An area of the room is designed to be quiet space with study cubicles and comfortable seating.

There are a number of scholarships, bursaries and awards available to students wishing to attend Harlow. For further information refer to the Scholarships, Bursaries and Awards section.

Specific enquires about academic programs offered at Harlow should be directed to the appropriate Dean/Director/Principal or Dr. G. Gardner, Associate Vice President (Academic), Office of the Associate Vice-President (Academic), Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by telephone at (709) 737-8411, or by fax at (709) 737-2074.

General enquiries about the Harlow Campus should be directed in writing to Ms. Sandra Wright, General Manager, Memorial University of Newfoundland, Harlow Campus, The Maltings, St. John's Walk, Market Street, Harlow, Essex CM17 0AJ, UK., or by telephone at 011 44 1279 455902, or by fax at 011 44 1279 455921, or by e-mail at [wright@hcampus.inty.net](mailto:wright@hcampus.inty.net).

Up to date information on the Harlow Campus and academic programs is available at [www.mun.ca/harlow](http://www.mun.ca/harlow).

## 7.5 Objectives of the University

The objectives of Memorial University of Newfoundland are: to develop in the province an institution of higher learning deserving of respect for the quality of its academic standards and of its research; to establish new programs to meet the expanding needs of the province; and to provide the means whereby the University may reach out to all the people.

In 1994 the University adopted a mission statement:

Memorial University is committed to excellence in teaching, research and scholarship, and service to the general public.

Memorial University recognizes a special obligation to educate the citizens of Newfoundland and Labrador, to undertake research on the challenges this province faces and to share its expertise with the community.

This mission is at the core of this University's plans for its programs, campuses and activities at home and abroad. To learn more about the University's evolving plans and priorities, see [www.mun.ca/strategicplanning/](http://www.mun.ca/strategicplanning/).

## 7.6 Presidents of Memorial University College

1925 - 1933 Mr. John Lewis Paton  
1933 - 1949 Dr. Albert G. Hatcher

## 7.7 Presidents of the University

1949 - 1952 Dr. Albert G. Hatcher  
1952 - 1966 Dr. Raymond Gushue  
1966 - 1967 Mr. M.O. Morgan (*pro tempore*)  
1967 - 1973 The Rt. Hon. the Lord Taylor of Harlow  
1973 - 1981 Dr. M.O. Morgan  
1981 - 1990 Dr. Leslie Harris  
1990 - 1999 Dr. Arthur W. May  
1999 - 2007 Dr. Axel Meisen  
2007 - 2009 Dr. H.E.A. (Eddy) Campbell (Acting)  
2009 - 2010 Dr. C. Loomis (*pro tempore*)  
2010 - Present Dr. G. Kachanoski

## 7.8 Chancellors of the University

1952 - 1961 The Rt. Hon. Viscount Rothermere of Hemsted  
1961 - 1968 The Rt. Hon. Lord Thomson of Fleet  
1971 - 1979 Dr. G. Alain Frecker  
1979 - 1988 Dr. Paul G. Desmarais  
1994 - 2008 Hon. Dr. John C. Crosbie  
2008 - Present General Rick J. Hillier (Retired)

## 7.9 Chairs of the Board of Regents (Established May, 1950)

1950 - 1954 Hon. Sir Albert Walsh  
1954 - 1968 Dr. Edmund J. Phelan  
1968 - 1974 Hon. Dr. Gordon A. Winter  
1974 - 1982 Hon. Dr. Frederick Russell  
1982 - 1991 Dr. Charles White  
1991 - 1997 Dr. Janet Gardiner  
1997 - 2002 Dr. Edward Roberts  
2002 - 2003 Chris Decker  
2003 - 2004 Dr. Georgina Hedges (*pro tempore*)  
2004 - 2006 Lorne Wheeler  
2005 - 2007 Dr. Georgina Hedges (*pro tempore*)  
2007 - 2008 Gilbert Dalton  
2008 - Present Robert Simmonds

## 7.10 University Constitution

The Constitution of the University is embodied in an Act of the House of Assembly of Newfoundland entitled *An Act Respecting the Memorial University of Newfoundland*, Chap. 231, Revised Statutes of Newfoundland (as amended). The Act delineates the authority and the functions of the University and its parts, as follows:

There shall be a university which shall be called the Memorial University of Newfoundland, consisting of a Chancellor, Convocation, Board of Regents, Senate, Faculty Councils and the Faculties and which shall be a body politic and corporate. No other university having corporate powers capable of being exercised within Newfoundland shall be known by the same name, nor shall any other university have power to grant degrees.

The University shall have full power and authority from time to time and at all times to establish and maintain such faculties, colleges, schools, institutions, departments, chairs and courses as to the Board of Regents may seem meet, and to give instructions and training; to grant degrees, including honorary degrees, diplomas and certificates of proficiency; to provide facilities for the prosecution of original research in every branch of knowledge and learning and to conduct and carry on such research work; and generally, to promote and carry on the work of a university in all its branches.

### 7.10.1 The Board of Regents

The management, administration and control of the property, revenue, business and affairs of the University are vested in a Board of Regents, consisting of:

1. three ex-officio members
  - a. the Chancellor of the University
  - b. the President of the University
  - c. the Vice-President of the University who is the Pro Vice-Chancellor;
2. six members elected by the Alumni Association of the University;
3. seventeen members appointed by the Lieutenant-Governor-in-Council; and
4. four members appointed by the Lieutenant-Governor-in-Council being full-time students of the University who
  - a. meet the requirements set out in the regulations, and
  - b. are recommended to the Lieutenant-Governor-in-Council by the board following the recommendation to the board of one candidate each from the following student unions:
    - i. the Memorial University of Newfoundland Students' Union,
    - ii. the Graduate Students' Union,
    - iii. the Marine Institute Students' Union, and
    - iv. the Grenfell College Student Union.

## 7.10.2 The Senate

Matters of an academic character are in general charge of the Senate of the University, consisting of the following:

1. The Chancellor of the University;
2. ex-officio members who shall be
  - a. the President of the University, who shall be the chairman thereof,
  - b. the Vice-President (Academic) of the University, who shall be the deputy chairman thereof,
  - c. the Deputy Minister of Education or a representative of the Deputy Minister,
  - d. the Principal of the Sir Wilfred Grenfell College,
  - e. the Deans of the Faculties of the University,
  - f. the Dean of Graduate Studies,
  - g. the University Librarian,
  - h. the University Registrar, and
  - i. such other persons holding office within the University or in any of the colleges or institutions affiliated with the University chosen in such number and manner as may be approved by the Board;
3. such members from the academic staff of the Faculties and Professional Schools of the University, exclusive of any person who is a member by virtue of paragraph 2., elected in such number and manner as may be approved by the Board, but the number elected under this paragraph shall be not less than twice the number of members named or chosen under paragraph 2.; and
4. thirteen members from the students in attendance at the University, including at least one student from the Marine Institute, one graduate student and one student from Sir Wilfred Grenfell College with all members to be chosen in a manner approved by the Board.

## 7.10.3 Convocation

Convocation of the University, as provided in the *Act*, is composed of the Chancellor, the President, the Senate, the Board of Regents, all persons who are graduates of the Memorial University College, all persons holding academic appointments with the University whose names are added to the roll of the Convocation by the Registrar of the University from time to time upon instructions from the President, and all persons who have become graduates of the University. The functions of Convocation are chiefly elective, but it may also consider all questions affecting the well-being and prosperity of the University and make representations from time to time on such questions to the Senate, which shall consider the same and return to the Convocation its conclusions thereon.

## 7.10.4 Affiliation

The *Act* provides that, subject to the approval of the Lieutenant-Governor-in-Council, the University may affiliate with any college or institution established in the province for the promotion of Arts and Science, or for instruction in Law, Medicine, Nursing, Education, Engineering, Agriculture or in any other useful branch of learning, and to dissolve any such affiliation. The institution which has become affiliated with the University under this provision is Queen's College, St. John's.

## 7.11 Queen's College

### 7.11.1 Faculty of Theology

Queen's College, founded in 1841, is an Associate Member of The Association of Theological Schools in the United States and Canada and is affiliated with Memorial University of Newfoundland. It has a Faculty of Theology which offers courses in theology and in professional training for ministry. Under Legislative authority it confers the degrees of Master of Divinity, Master of Theological Studies, and Bachelor of Theology and grants a Diploma in Theology and Ministry and an Associate in Theology.

Further information may be obtained by contacting the College in writing to The Registrar, Queen's College, St. John's, NL, A1B 3R6, or by telephone to (709) 753-0116, (877) 753-0116 (toll free), by fax to (709) 753-1214, or by e-mail to queens@mun.ca.

## 7.12 Academic Dress

The academic dress for matriculated undergraduates of the University shall be similar to the Scholar's gown of the University of Oxford. It shall be worn whenever the President so directs.

The gowns of the Bachelors shall be of black stuff. The gowns of the Masters shall be of black stuff or silk. The gowns of the Doctors shall be of fine scarlet cloth or silk, or of black stuff or silk.

The pattern of the Bachelor's gown shall be similar to that of the Oxford Bachelor's gown. The pattern of the Master's gown and the Doctor's black gown shall be similar to that of the Oxford Master's gown, except that the Doctor's gown shall have an edging of black silk braid at the opening of the sleeve. The Doctor's scarlet gown shall be similar to that of the Oxford Doctor of Divinity's gown.

The hoods of the Bachelors shall be made of black stuff, the hoods of the Masters of black silk, and the hoods of the Doctors of scarlet silk. They shall be full in shape and lined with the University colours of claret and white. The hoods of the Bachelors shall be trimmed with white fur, the tippets with velvet in the colours distinctive of the Faculty or Degree. The hoods and tippets of the Masters shall be edged with velvet in the colours distinctive of the Faculty or Degree. The hoods and tippets of the Doctors shall be edged with silk in the colours distinctive of the Faculty or Degree; however, the hood of the Doctor of Philosophy shall be of claret silk, lined and edged with claret silk.

The University hood, worn by official representatives of Memorial University of Newfoundland participating in ceremonies, shall be made of black stuff, and lined and edged with claret and white silk.

The distinctive colours for the degrees shall be:

B.A., B.A. (Police Studies), M.A. - White

B.B.A., B.Comm., B.Comm.(Co-op.), i.B.B.A., M.B.A., M.O.G.S. - Tan

B.Ed., B.Ed.(Elementary), B.Ed.(Intermediate/Secondary), B.Ed.(Native and Northern), B.Ed.(Primary), B.Ed.(Post-secondary), B.Ed. (Primary/Elementary), B.Mus.Ed., B.Sp.Ed., B.Voc.Ed., M.Ed - Light Blue

B.Eng., M.Eng. - Orange

B.F.A.(Theatre), B.F.A.(Visual Arts) - Amethyst

B.Kin., B.Kin.(Co-op.), B.P.E., B.P.E.(Co-op.), B.Rec., B.Rec.(Co-op.), M.P.E., M.Sc.(Kinesiology) - Sage Green

B.M.S., B. Tech, M.M.S.(Fisheries Resource Management) - Navy Blue

B.Mus., M.Mus. - Pink  
 B.N., M.N. - Coral  
 B.Sc., M.A.S., M.A.Sc., M.A.S.P.(Co-op), M.Env.Sc., M.Sc. - Gold  
 B.Sc.(Pharmacy), M.Sc.(Pharmacy) - Clover  
 B.S.W., M.S.W. - Ruby Gem  
 M.D., M.P.H., M.Sc.(Medicine) - Green  
 M.E.R. - Chocolate Brown  
 M.Phil., Ph.D. - Claret  
 M.W.S. - Purple

The caps of Bachelors and Masters shall be black and of the square shape, with black tassel. The caps of the Doctors shall be similar to the Oxford Doctor's bonnet.

The academic dress for the Officers of the University shall be as follows:

**Chancellor** - a silk gown heavily embroidered with gold braid

**Vice-chancellor** - a silk gown embroidered with gold braid

**Pro vice-chancellor** - a silk gown embroidered with gold braid

**Registrar and other Officers of the University** - gowns of a pattern approved by Senate

## 7.13 The University Library

The University Library consists of the Queen Elizabeth II Library, the Health Sciences Library, and the Dr. C.R. Barrett Library, Fisheries and Marine Institute, all in St. John's, and the Ferriss Hodgett Library in Corner Brook. These four units together have a collection equivalent to 2.5 million volumes and more than 26,000 current journal subscriptions. This collection serves as the major information resource for the University as well as the province. All units of the library system may be used by all students, faculty and staff, as well as the community at large.

### 7.13.1 Queen Elizabeth II Library

The Queen Elizabeth II Library was opened for service in January 1982. It is an impressive structure of 200,000 square feet on five levels. It has a seating capacity of 2,000 and can hold 1.6 million physical volumes. The Information Services Division, located on the main floor (second level), provides assistance to people wishing to make use of the library's resources and services. This division provides reference and computer-assisted bibliographic search services. Library tours and individual or group instruction in the use of the library and its resources may be arranged for students through this division. Information Services is part of the Commons, located on the Library's main floor. The Commons is a partnership between Computing and Communications, the Queen Elizabeth II Library, and the Writing Centre. The Commons provides access to print, electronic, and technology resources with the support and expertise needed to help users in the use of these resources. The wall space in the Commons is called First Space and is used to highlight the work of the fine arts students of Memorial University of Newfoundland. The Government Documents Section contains a depository collection of Canadian government documents together with an extensive collection of material from the United States and other countries and international organizations. The Lending Services Division provides interlibrary loan and services to off-campus students as well as maintaining the stacks in the library. The Library's Centre for Newfoundland Studies collects all published material pertaining to Newfoundland and Labrador, as well as manuscript materials. The Music Resource Centre, located in the School of Music, contains scores, sound recordings, and listening equipment.

### 7.13.2 Health Sciences Library

The Health Sciences Library is located on the ground floor of the Health Sciences Centre on the north campus of the University. It is a designated Canadian MEDLINE Centre which provides access to computer-assisted searches of the world's biomedical literature on demand in support of clinical, teaching, and research interests.

The Health Sciences Library has a collection of over 40,000 books on medicine, nursing, dentistry, pharmacy and allied health subjects and subscribes to more than 1700 paper and electronic journals. It maintains an audio-visual collection of over 1500 titles, which includes videotapes, slides, microfiche/film and audio cassettes.

### 7.13.3 Dr. C.R. Barrett Library

The Dr. C.R. Barrett Library is located on the main floor of the Fisheries and Marine Institute. It offers a comprehensive range of library and audio-visual services to students, faculty, and staff at the Fisheries and Marine Institute, the College of North Atlantic Engineering Technology Centre and to the Newfoundland and Labrador marine industries.

The library collection supports study and research in fisheries and aquaculture, marine engineering, nautical science, and the aquatic environment. The collection also includes significant holdings in engineering.

Library holdings include 50,000 books and technical reports, 400 current magazine and newspaper subscriptions, print and electronic reference sources, 1,400 films and videos, maps and pamphlets. The collection includes 4,500 ship drawings.

### 7.13.4 Ferriss Hodgett Library

The Ferriss Hodgett Library is located on levels 2 and 3 of the Library & Computing Building, Sir Wilfred Grenfell College, Corner Brook campus, with seating for 203 users and includes group study rooms, audio-visual and computer carrels.

The Library holds over 100,000 books and 450 current subscriptions, along with collections of audio-visual materials, government documents, microforms, periodicals, and access to many e-journals.

A full range of public services is available including reference assistance, orientation tours and interlibrary loans, as well as access to electronic information resources, Internet, spreadsheet, word processing, and presentation software.

## 8 Student Affairs and Services

The Dean of Student Affairs and Services is the senior person responsible for the coordination and implementation of support services for students and serves as a liaison between the student body and university administration. The primary goal of the Dean is to promote a welcoming and supportive environment so that students are able to maximize their opportunities for learning and personal development. The Dean provides leadership and direction so that students' educational experiences are enriched by the provision of programs that respond to their intellectual, emotional, occupational, financial, personal, physical and social needs. The Dean is administratively responsible for the divisions of Career Development and Experiential Learning, Counselling, Student Health Service, Student Success Programs, University Bookstore, University Centre and Housing, Food and Conference Services. As an advocate for

students, the Dean works collaboratively with all members of the university community to ensure that policies, procedures and programs foster the optimal development for all students.

## 8.1 Canadian Forces University Training Plans

Selected students may qualify for financial assistance through these Canadian Forces University Training Plans: the Regular Officer Training Plan (ROTP), the Regular Officer Training Plan (ROTP-Coop), the Dental Officer Training Plan (DOTP), the Medical Officer Training Plan (MOTP), and the Reserve Entry Scheme Officer (RESO). Full details may be obtained in writing to the Canadian Forces Recruiting Centre Detachment St. John's, Sir Humphrey Gilbert Building, 165 Duckworth Street, St. John's, NL or the Canadian Forces Recruiting Centre Detachment Corner Brook, CIBC Building, 9 Main Street, Suite 203, Corner Brook, NL.

## 8.2 Career Development and Experiential Learning

Career Development and Experiential Learning encompasses a broad range of programs designed to assist undergraduates, graduate students, and alumni of the University explore their career options. The Department includes the Centre for Career Development, Cooperative Education Services Centre and the Student Volunteer Bureau.

### 8.2.1 Centre for Career Development

The Centre for Career Development assists students and alumni explore their career options. The Centre provides labour market information, employability skills workshops, individual consultations, and employment counselling, and enables students to gain practical career-related experiences through graduate, summer, and part-time employment.

The Centre operates on a drop-in basis designed to help students gather information relevant to educational and career goals, and develop both short and long-term career plans. Workshops are offered to enhance the job search process for students and alumni.

The Centre currently markets Memorial University of Newfoundland students to local, national, and international employer groups as well as assists employers with their on-campus recruitment needs. Information sessions and career fairs are provided to assist students in their transition to the world of work.

Postings for summer, part-time, and graduate employment are advertised throughout the year at [www.mun.ca/cdel/career/ccd.php](http://www.mun.ca/cdel/career/ccd.php). Students are encouraged to check the Centre's postings on a regular basis. The Centre for Career Development is located on the fourth floor of the Smallwood Centre in UC4002 and is open from 9:00 a.m. to 5:00 p.m..

### 8.2.2 Co-operative Education Services Centre (CESC)

The Co-operative Education Services Centre (CESC) is responsible for providing a range of services common to all Co-operative Education programs at the University. This includes coordinating marketing initiatives on behalf of all co-op programs at the university; developing and maintaining business and government participation in the co-op programs; assisting the job placement process for more than 700 students per semester; encouraging the development of professional and scholarly skills pertinent to co-operative education; designing and implementing an integrated automated office information system; administering the Offshore Career Awards Program, and the Small Enterprise Co-operative Placement Assistance Program (SECPAP).

## 8.3 Counselling Centre

The primary function of the Counselling Centre is to help students develop their personal capabilities. Through individualized personal counselling and a wide range of programs, students are encouraged and helped to develop their own unique resources and thereby promote personal growth and intellectual development. The Centre also serves as a training centre for advanced students in a number of helping professions. Services will be offered free of charge to students in three basic areas.

### 8.3.1 Chaplaincy

The Chaplaincy is currently comprised of chaplains representing the Anglican, United, Salvation Army, Pentecostal and Roman Catholic denominations. The Chaplaincy attempts to provide resources, guidance and support for members of the university community. The Chaplaincy also seeks to bring a faith dimension to contemporary issues such as peace, justice, technology and science. The chaplains offer individual pastoral counselling as well as joint programs including weekly workshops, discussion groups, social activities and worship opportunities. Schedules of events are available from the chaplains or through the website at [www.mun.ca/ministries/](http://www.mun.ca/ministries/). The Chaplaincy is located at UC5001.

### 8.3.2 Glenn Roy Blundon Centre for Students with Disabilities

The Glenn Roy Blundon Centre for Students with Disabilities coordinates services for students with disabilities and those with short-term illnesses and injuries attending Memorial University of Newfoundland's St. John's campus. Services and accommodations include: assistance arranging academic accommodations for tests and exams (medical or psycho-educational documentation is required), access to adaptive technology and software, orientation of new students, note-taking assistance, card access to wheelchair elevators and lifts on campus, in-servicing of faculty and staff regarding disability issues and accommodations, and a liaising network between students, faculty, staff, and community groups. A copy of the University's Policy on Academic Accommodations for Students with Disabilities is available at [www.mun.ca/policy/site/index.php](http://www.mun.ca/policy/site/index.php). For further information contact the Centre by visiting the University Centre, room UC4007, or by telephone to (709) 737-2156 (Voice), (709) 737-4763 (TTY), or by e-mail to [blundon@mun.ca](mailto:blundon@mun.ca), or through the website at [www.mun.ca/blundon](http://www.mun.ca/blundon).

For information about the services available at Sir Wilfred Grenfell College, contact the Student Services Learning Centre in person to AS235, or by telephone to (709) 637-6268, or through the website at [www.swgc.mun.ca/lcentre/Pages/default.aspx](http://www.swgc.mun.ca/lcentre/Pages/default.aspx).

For information about the services available at the Fisheries and Marine Institute, contact the Student Services Guidance Office in person to W3013C, or by telephone to (709) 778-0310, or by email to [guidance@mi.mun.ca](mailto:guidance@mi.mun.ca), or through the website at [www.mi.mun.ca/guidance/](http://www.mi.mun.ca/guidance/).

### 8.3.3 Individual and Group Counselling for Other Personal Concerns

In addition to individualized personal counselling, the Centre offers specialized group and/or training programs. For many students the fear of testing, fear of asserting one's self and continued mental and physical stress can lead to poor academic performance or personal problems. These, and other such difficulties, can be dealt with on either an individual or group basis, depending upon the student's needs. The Counselling Centre routinely offers a variety of groups: Assertiveness Training, Developing Healthy Relationships, Mood Management, Test Anxiety, and others on demand.

### 8.3.4 Learning Enhancement Programs

Through a number of short groups and structured activities, students may actively enhance their learning capabilities. Most of the learning programs offered train participants to employ a number of organizational techniques to comprehend and, later, to recall important concepts. Specific programs offered through the Centre apply these ideas to the areas of Speed Reading and Comprehension, Organizing Ideas for Term Papers and Essays, and Oral Communication.

### 8.3.5 Psycho-Educational Testing

A psycho-educational assessment program is offered on a fee-for-service basis for students seeking academic accommodations.

The Counselling Centre is located in the Smallwood Centre, and is open 9:00 a.m. to 1:00 p.m. and 2:00 p.m. to 5:00 p.m. (4:30 p.m. in the summer), Monday through Friday. All services are free of charge to students and appointments can be made in person at UC5000, or by telephone to (709) 737-8874, or email at [counselc@mun.ca](mailto:counselc@mun.ca), or by visiting the website at [www.mun.ca/counselling/home/psychoed.php](http://www.mun.ca/counselling/home/psychoed.php).

### 8.3.6 UCC 2020: Applied Cognitive and Affective Learning Strategies for Undergraduate Students

This 3 credit hour course is an introduction to cognitive and affective learning strategies and techniques with an emphasis on the application of these techniques in the students' own learning repertoires together with an overview of relevant research from cognitive psychology and related fields. Topics covered will include information processing, memory, forgetting, problem solving, metacognition, general and specific learning strategies, learning styles, and affective strategies.

### 8.3.7 Wellness Programs

Wellness Programs co-ordinate a broad range of health and wellness services for the student community. Our main mission is to raise awareness to the many self-care skills needed for all. Our programs consist of the peer helper program and the many other outreach events organized by this office. Located in the Counselling Centre, wellness education works with in collaboration with various campus and community organizations to help facilitate wellness promotion at the University.

Inquiries may be made in-person at UC5002A, by telephone to (709) 737-2659, or through the website at [www.mun.ca/student/healthy/](http://www.mun.ca/student/healthy/).

## 8.4 Firearms On Campus

Students are reminded that firearms (including air-rifles, air-guns and sling shots) may not be brought into, or used in, any part of the University except the rifle range.

## 8.5 Housing, Food and Conference Services

It is the responsibility of each student to locate accommodation on or off the Campus. Accommodation on campus is available at Paton College and Burton's Pond Apartments. All residents of on-campus housing must abide by the rules and regulations as set out by Housing, Food and Conference Services. Eligibility for admission or readmission to Paton College or Burton's Pond Apartments is based on several factors, including responsible behaviour and potential to contribute to the quality of student life. Housing Services reserves the right to refuse admission or re admission to any student. The processing fee is non-refundable and non-creditable in all instances. Further information and applications about on campus accommodations may be obtained through the website at [www.mun.ca/hfcs](http://www.mun.ca/hfcs), or by email to [housing@mun.ca](mailto:housing@mun.ca), or by telephone to (709) 737-7590/91/92, or in writing to Housing, Food and Conference Services, Room 309 Hatcher House, Memorial University of Newfoundland, St. John's, Newfoundland and Labrador A1B 3P7.

### 8.5.1 Burton's Pond Apartments

Burton's Pond Apartments is a residential complex located at the eastern end of Memorial University of Newfoundland's St. John's campus. This complex houses approximately 512 single students in four apartment buildings Cabot Court, Cartier Court, Gilbert Court, and Guy Court. Fifteen two-bedroom family units are contained in Baltimore Court, and there is a service building - Corte Real Court - containing a computer room, a laundry centre, a study room, a common room, and students' mail boxes which are accessible to residents 24 hours a day. Each apartment unit in the four single students buildings is occupied by four students, each of whom has a private bedroom and share the kitchen, living room and bathroom. All residents entering Burton's Pond Apartments will be required to sign a two-semester occupancy agreement for the Fall and Winter Semesters.

### 8.5.2 Off-Campus Housing

Housing, Food and Conference Services also offers a method to find off-campus housing in and around the St. John's area. Off-Campus Housing (OCH) provides information, enhanced web resources and programming to students of Memorial University of Newfoundland who secure off-campus housing through their website. The objective is to help make the work of finding and securing housing easier for students and landlords. Housing, Food and Conference Services personnel will conduct site visits, review the rental properties using the Off-Campus Housing Amenity Checklist, and update the web site information. These listings are provided for information only; they are not endorsed in any way by Memorial University of Newfoundland or Housing, Food and Conference Services. The University does not take any responsibility for these accommodations. Further information may be obtained on the website at [www.housing.mun.ca/och](http://www.housing.mun.ca/och), or by email [och@mun.ca](mailto:och@mun.ca), or telephone to (709) 737-3765.

### 8.5.3 Paton College

Paton College is a residential complex located at the eastern end of Memorial University of Newfoundland's St. John's campus. This complex, which houses approximately 1000 students in ten dormitories, offers both single gender (female only) and co-ed living. Offers of rooms at Paton College are conditional on students being accepted and registered at Memorial University of Newfoundland or the Fisheries and Marine Institute. Students who are not accepted to the University must notify the Student Housing Office of their intention to cancel accommodations immediately upon notification from the University. All accommodations at Paton College are on a room and board basis. Occupancy of rooms extends from the day before registration until 12:00 noon the day after the last regularly scheduled undergraduate examination. Residence fees cover the period of a particular semester only. Those residents who have an academic requirement to be in residence between semesters may be provided with room accommodation if space is available and approved by Housing, Food and Conference Services. An additional charge for such accommodation will be applied to the student's account. Housing, Food and Conference Services reserves the right to deny accommodation outside the normal semester period if space is needed for other purposes. All new registrants entering Paton College will be required to sign a two-semester occupancy agreement for the Fall and Winter semesters. All students in Paton College are required to purchase a 10, 14 or 19 meal plan. Meal tickets are valid from the breakfast meal on the day following the first day of Paton College registration. The ticket expires with the evening meal on the

day of University's last regularly scheduled undergraduate examination. Refunds will not be issued to students for room accommodations and/or meal tickets.

## 8.6 International Student Advising

The International Student Advising Office is located in Corte Real, Burton's Pond Complex, Room 1000 C. Settlement and integration of foreign students are two major functions of the advisors. New students must meet with the International Student Advisors upon arrival for advice concerning their stay at the University and their compulsory health insurance program. Further information may be obtained by telephone to (709) 737-8895 or through the website at [www.mun.ca/isa/main](http://www.mun.ca/isa/main).

## 8.7 Student Financial Services

Information regarding the Canada - Newfoundland and Labrador Student Loans Program is available from Student Financial Services, Department of Education, located in Coughlan College. Student Financial Services can be reached by telephone to (709) 729-4244/5849, email at [www.studentaid@gov.nl.ca](mailto:www.studentaid@gov.nl.ca) or through the website at [www.ed.gov.nl.ca/studentaid/](http://www.ed.gov.nl.ca/studentaid/).

## 8.8 Student Health Service

The staff at Student Health Service are available to provide comprehensive health care and to assist students in taking responsibility for their own health. Primary functions of the Service are the diagnosis and treatment of illness, the activation and maintenance of wellness and the promotion of health education programs.

The Student Health Service is located in room UC4023 on the fourth floor of the Smallwood Centre, and is open Monday through Friday, 8:30 a.m. to 4:00 by appointment only, except for emergencies. Walk in clinics are scheduled throughout the week. Further information may be obtained by telephone to (709) 737-7597 or through the website at [www.mun.ca/health/](http://www.mun.ca/health/).

### 8.8.1 International Students

International students are automatically enrolled, upon registration, in the mandatory emergency medical insurance plan. International students may opt in their dependents. A personal medical card will be issued by the international Student Advising (ISA) Office and must be presented by the student each time medical or hospital services are required. The student must also sign a claim form for each medical or hospital service rendered. MCP cards are required for international students that are MCP eligible and should be presented first in the event of medical care. Further information may be obtained by contacting the International Student Advising Office.

Graduate international students eligible for provincial health coverage (MCP) should bring proof to the ISA office and opt out of the emergency plan and into the Graduate Students' Union (GSU) health plan.

Undergraduate international students eligible for provincial health coverage (MCP) should bring proof to the ISA office and opt out of the emergency plan and into the Memorial University of Newfoundland Students' Union (MUNSU) health plan.

### 8.8.2 Medical Records

All students' medical records are strictly confidential. No information is released without the request and written consent of the student.

### 8.8.3 Medical Services

Services provided include:

1. diagnosis and treatment of: physical illness, emotional problems, sexually transmitted diseases, injuries;
2. individual counselling on various aspects of health and wellness: smoking, fitness, weight control, nutrition, alcohol and drug abuse;
3. referral to: specialists, physiotherapists, hospital diagnostic services, other health care agencies;
4. reproductive health: pap smears, contraception, pregnancy - testing, referral services;
5. Injury rehabilitation programs;
6. AIDS (HIV antibody) testing: confidential blood tests, pre-test counselling, post-test counselling;
7. "Medicals" (non-insured service): pre-employment, pre-admission to professional schools, SCUBA diving, driver's license, TB skin test;
8. Educational materials on health issues
9. MCP information and application forms
10. Vaccinations

### 8.8.4 Medicals

"Medicals" (pre-employment, SCUBA, driver's licence, life insurance, etc.) are not covered by insurance plans and must be paid for by the student.

### 8.8.5 New Students

Students are encouraged to bring a copy of their medical records to the Student Health Centre. This is especially important for students who:

1. have chronic or recurrent illness, e.g. asthma, diabetes, inflammatory bowel disease, seizure disorders;
2. require refills of prescription drugs;
3. have a physical disability, e.g. cerebral palsy, spina bifida, visual or hearing impairment; or
4. have a history of mental illness.

### 8.8.6 Newfoundland and Labrador Students

MCP cards are required.

### 8.8.7 Payment

The University will bill the appropriate paying agency for the eligible medical services received at the Student Health Service.

### 8.8.8 Students From Other Canadian Provinces

Students from other Canadian provinces are required to bring their provincial medicare cards.

## 8.9 Student Success Programs

Student Success Programs is responsible for the development and administration of programs and activities for students, the identification and assessment of emerging campus trends, long range and strategic planning, fostering and supporting campus leadership as it relates to student governments, campus societies and campus policy development for students.

Student Success Programs works closely with students, staff and faculty and the community at large to maximize the quality of student and academic life for students. Student Success Programs is comprised of the following speciality areas:

### 8.9.1 Answers

Answers is a front line service centre for a variety of programs and services for students. Answers coordinates leadership programs such as Orientation for students and parents, Leadership, Education and Preparation (LEAP!), Leader Forum, Horizons and Memorial Ambassador. It also offers distribution of the Canada-Newfoundland Student Loans Program, Campus Card and locker rentals. For further information contact Answers by telephone to (709) 737-7461, by email to [answers@mun.ca](mailto:answers@mun.ca), or through the website at [www.mun.ca/answers/about](http://www.mun.ca/answers/about), or by visiting the centre at UC 3005.

### 8.9.2 Native Liaison Office

In cooperation with the Nunatsiavut Government, all native students are provided a range of services to assist with the university experience. Inquiries may be made in-person at UC4003 or by telephone to (709) 737-3495, or through the website at [www.mun.ca/nlo/about](http://www.mun.ca/nlo/about).

### 8.9.3 Scholarships, Bursaries and Awards

Student Affairs and Services administers the Scholarships, Bursaries and Awards Program for the University, distributes out of Province Financial Aid, and emergency financial aid. Inquiries may be made in-person at UC4018, by telephone to (709) 737-3956, or through the website at [www.mun.ca/scholarships/home](http://www.mun.ca/scholarships/home).

## 8.10 Student Unions

### 8.10.1 Memorial University of Newfoundland Students' Union (MUNSU)

The Memorial University of Newfoundland Students' Union Act (1968) incorporated the Students' Union (MUNSU) as the official students' union representing undergraduate students at the University's St. John's campus.

The Students' Union provides a range of advocacy work to improve the lives of its members and increase accessibility of post-secondary education. It lobbies all levels of government and other decision-making bodies and organizes campaigns around these and other issues which are important to the membership. It also provides services to improve the quality of student life: the Copy Centre and Postal Service, Health and Dental Insurance, SafeDrive / WalkSafe, the Student Handbook/Dayplanner, Breezeway Bar, CHMR-FM radio, and others. The cost of services are partially funded by Students' Union fees paid by each undergraduate student upon registration. MUNSU assists students on an individual basis to resolve student aid as well as academic-based problems and appeals. Through the offices of the Director of Advocacy, problems with appeals, assessments, repayment, and general complaints in these areas are addressed.

The Students' Union offers free legal services to students and a legal aid supervisor is available for appointment. These sessions are not considered extended legal counsel. Students who have more serious issues may be referred to the MUNSU lawyer, for one free consultation, per issue, per semester.

MUNSU has established and provides funding for a number of Resource Centres on campus: Women's Resource Centre (WRC), International Students' Centre (ISC), Lesbian-Bisexual-Gay-Transgendered Resource Centre (LBGT-MUN), MUN DISC (Disability Information and Support Centre), Students Older than Average (SOTA), Student Parents Resource Centre, and the Aboriginal Students' Centre. The Students' Union also operates over 100 student clubs organized around a wide range of academic and extracurricular activities.

The Students' Union is a member of the Canadian Federation of Students (CFS) representing over half a million students across Canada. Further information may be obtained from the website at [www.munsu.ca](http://www.munsu.ca).

### 8.10.2 Students' Union Fee

All full-time and part-time undergraduate and graduate students of the University pay compulsory fees to their respective students' unions (MUNSU or GSU) and all students, upon registration, automatically become members of either MUNSU, the undergraduate students' union, or GSU, the graduate students' union.

### 8.10.3 The Graduate Students' Union (GSU)

The Graduate Students' Union (GSU) at Memorial University of Newfoundland is an organization run for graduate students by graduate students. Founded in 1967, the GSU is one of Canada's oldest independently incorporated graduate student governments. Every graduate student at the University becomes a member of the GSU upon registration. Presently, the graduate student body consists of over 2000 full and part-time students, thereby comprising approximately 10% of the total student population at Memorial University of Newfoundland.

The Graduate Students' Union has two main functions: 1) to represent and protect the interests of the graduate students at all levels of university governance, and 2) to help enhance the quality of graduate student life at Memorial University of Newfoundland. Graduate student fees, presently \$20 per semester per student, provide the GSU with an annual operating budget. These fees are used to run the GSU office, help finance social and academic events for graduate students, provide conference aid for students presenting at conferences, and to cover other operating expenses.

The Graduate Students' Union is run by a Board of Directors consisting of the five GSU Executive officers and one student representative from each academic unit with a graduate program. Additionally, graduate students who sit on various university committees regularly attend. The Board meets once a month to assist the Executive in guiding the development and direction of the organization. The Board meetings also give students a chance to raise concerns from their individual departments and in return, to receive advice or suggestions on problem solving. These meetings are the main line of communication between the Executive officers and the graduate student population at the University. It is for this reason, that the GSU needs an active and interested Board of Directors. Graduate students who are interested in getting involved are always welcome, and should speak to their department

representative, or contact the GSU office.

The Graduate Students' Union is located in Feild Hall on the north side of campus. Operated by the GSU, Feild Hall is comprised of four floors: the top two floors for a graduate student residence, one floor for departmental graduate student offices and GSU offices, and the ground floor for Bitters - Restaurant and Lounge, the pub owned and operated by the GSU.

The Graduate Students' Union general office is located on the second floor of Feild Hall in room GH 2007. Office hours are posted outside the office door, on the answering service, and the website. You can reach the GSU by phone to (709) 737-4395, by fax at (709) 737-3395, by email to [gsu@gsumun.ca](mailto:gsu@gsumun.ca), or by writing to Graduate Students' Union, Feild Hall, GH2007, 216 Prince Philip Drive, St. John's, NL, A1B 3R5. Further information about the GSU can be obtained from the website at [www.gsumun.ca](http://www.gsumun.ca).

## 8.11 University Bookstore

The University Bookstore is the on-campus site for text, reference and general reading. The Bookstore carries stationery, school supplies, crested clothing, backpacks and memorabilia. Distance Education students are to order textbooks through Bookstore website. The University Bookstore is located at UC2006, telephone to (709) 737-7440, or website at [www.bookstore.mun.ca](http://www.bookstore.mun.ca).

## 9 Dentistry, Physiotherapy, and Occupational Therapy

### 9.1 General Information

Because admission requirements vary significantly in different institutions and from one health science to another (e.g., Dentistry, Dental Hygiene, Physiotherapy, Occupational Therapy), interested students are advised to plan carefully and early.

The Career Planning Centre, located in the University Centre in room UC4002, can provide advice or, in some instances, arrange for students to contact other sources of more detailed information. The Centre maintains considerable information on careers in the various health fields, including guides and university calendars outlining where the programs of study are available and their entrance requirements. Interested students should consult these materials as early as possible, preferably before the Orientation Week interview and first-year registration.

### 9.2 Dentistry

After having consulted the Career Planning Centre, students who require further advice about dentistry prerequisites should consult Dr. Faye Murrin, Department of Biology in room S4109, who has agreed to act as the faculty advisor for pre-dental students.

### 9.3 Occupational Therapy

Students interested in pursuing a career in Occupational Therapy may arrange an appointment with Brenda Head, who has been designated by Memorial University of Newfoundland as a liaison person for the School of Occupational Therapy at Dalhousie University. Further information may be obtained by writing Ms. Brenda Head, Memorial University of Newfoundland, Room 2765, Health Science Centre, St. John's, NL A1B 3V6, or by telephone to (709) 777-7105.

### 9.4 Physiotherapy

Physiotherapy career information is available at the Career Planning Centre. Students requiring additional assistance or advice may arrange an appointment with Janet O'Dea.

Ms. O'Dea has been designated by Memorial University of Newfoundland as a liaison person with Dalhousie University, School of Physiotherapy and as a source of advice concerning other Physiotherapy Programs in Canada. Further information may be obtained by writing Janet O'Dea, Memorial University of Newfoundland, Room 2765, Health Sciences Centre, St. John's, NL A1B 3V6, or by telephone to (709) 777-7080, or through the website at [www.med.mun.ca/OTPT/](http://www.med.mun.ca/OTPT/).

## 10 Distance Education and Learning Technologies (DELT)

### Director

Vaughan, A.M., B.A., B.Ed., *Memorial*, M.A. *British Columbia*

### Associate Director, Learning Technologies and Media Design

Wells, R., B.Sc.(Hons.), M.Ed. *Memorial*

### Manager, Operations

Langdon, J., B.Comm.(Co-op) *Memorial*, CGA

### Manager, Instructional Development Office

Dunne, M., B.A., B.Ed., M.Ed. *Memorial*, Ph.D. *OISE/UT*

### Administrative Staff

Mahon, P., Secretary

Porter, C., Administrative Staff Specialist

Distance Education and Learning Technologies (DELT) is responsible for the design, development and delivery of credit courses and degree programs via distance; advancement and support of e-learning throughout the University; and support for students and faculty in the use and application of technologies for effective teaching and learning. Through its activities DELT connects students across the province, the country and the world that have limited educational opportunities due to time and location. It also works to enhance, promote and support an e-learning vision throughout the institution. DELT strives to provide faculties and departments with the e-learning expertise and knowledge needed to progress the University's mandate in expanding and improving its online education delivery. A Memorandum of Understanding with the Department of Education's Centre for Distance Learning and Innovation (CDLI), who deliver distance education to K-12 students, allows DELT to share knowledge and information and prepare for the incoming university student.

### 10.1 Distance Education

Distance Education and Learning Technologies (DELT) offers approximately 400 courses – all of which are web-based – to approximately 17,000 course registrants annually. Courses are available in various disciplines in 10 faculties and schools with complete undergraduate and graduate degrees available via distance including bachelors' degrees in arts (Bachelor of Arts (English major), Bachelor of Arts (Police Studies)), business (Bachelor of Business Administration), maritime studies (Bachelor of Maritime Studies), nursing (Bachelor of Nursing (Post RN)), and technology (Bachelor of Technology); Masters' degrees are offered in education (Master of Education (Information Technology), Master of Education (Post-Secondary)), human kinetics and recreation (Master of Physical

Education), and nursing (Master of Nursing). Courses are delivered via the Internet, however, some courses include print materials (i.e. manual, readings, textbooks), CD/video/DVD programs and web conferencing sessions.

## 10.2 Student Service and Delivery

DELT's Student Service and Delivery model utilizes a 1-1-1 approach; one response to one inquiry by one staff representative. This model incorporates a hands-on approach with a self-service website which provides the self-directed distance student with access to relevant and important information during off-peak hours. This system effectively places specific information, such as course materials, in the hands of students thereby reducing wait times and allowing for effective communications with students on specific matters.

Further information on distance education programs may be obtained by telephone to (709) 737-8700, or toll free to (866) 435-1396, or by fax to (709) 737-6783, or through the website at [www.distance.mun.ca](http://www.distance.mun.ca).

## 10.3 Course Development (Design, Development and Delivery)

DELT combines the expertise of specialists including Instructional Designers, Multi-media specialists, Video Producers, Publications Specialists, etc. to work closely with academic units and professors to develop, manage and deliver the University's distance education programs in a manner conducive to instruction via distance. All functions encourage and support innovative teaching practices through the application of instructional technologies in both on-campus teaching and distance education.

Within this function, DELT provides a wide range of professional media development, production, post-production, and distribution services. Video services include broadcast-quality studio and mobile facilities, and production services such as digital cameras, AVID non-linear editing, digitization, international standards conversion, tape and DVD production, distribution and the Internet. Multimedia specialties include print layout and design, illustration, television graphics and animation, 3D visualization, and web design. Technical staff offer consultation, design, installation and maintenance services for multimedia teaching facilities.

Classroom Support Services provides multimedia and audiovisual support for teaching on-campus as well as the design of smart classrooms and/or the implementation of technologies in the classroom.

Further information on media production services may be obtained by telephone to (709) 737-3423 or by fax to (709) 737-6783.

## 10.4 Instructional Development Office

The Instructional Development Office provides support to the University's faculty members and graduate students in the enhancement of their teaching knowledge and skills. The Office espouses a collaborative, responsive, and pragmatic approach to developing services and programs related to teaching and learning.

Among the services provided are professional development workshops and seminars, programs for the teaching development of graduate students, and individual and small group consultations. Support is given for awards applications and other activities and initiatives that recognize the importance of university teaching. A resource centre offers a collection of books, journals, newsletters, and video programs about instruction.

Further information on instructional development services may be obtained by telephone to (709) 737-3028, or by fax to (709) 737-4635, or by e-mail to [instrdev@mun.ca](mailto:instrdev@mun.ca).

# 11 Special Divisions and Separately Incorporated Entities

## 11.1 Atlantic Canada Venture Gateway

### Director

Genge, D.

### Associate Director, Client Services

Greene, B.

### Manager, Business Relations

Vacant

### Coordinator, Finance and Administration

Mercer, M

The Atlantic Canada Venture Gateway (Gateway) is an outreach initiative of the Faculty of Business Administration. Gateway was officially launched in October 2009 and offers two main programs, an investment readiness program and an investor partnering program.

The investment readiness program prepares Atlantic Canadian technology firms to attract private equity or venture capital. Eligible clients work with Gateway management as well as a network of university, government and industry partners on issues such as corporate strategy, the preparation of investment proposals, and due diligence readiness.

The investor partnering program supports clients seeking strategic investment from international business partners. Gateway and the Higher Colleges of Technology's Dubai Men's College (DMC) in the United Arab Emirates jointly offer this program. Clients gain insight and guidance from DMC's senior advisors who provide strategic guidance and match clients with prospective investors and business partners in the Middle East region.

Specialized training programs and ongoing advisory support are also provided.

Gateway is located on the fourth floor of the Faculty of Business Administration alongside the Gardiner Centre. Further information can be obtained by contacting the Atlantic Canada Venture Gateway by telephone at (709) 737-4088 or through the website at [www.busi.mun.ca/gateway](http://www.busi.mun.ca/gateway).

## 11.2 Canadian Centre for Fisheries Innovation (CCFI)

### Board of Directors

Gregory, G. (Chair)  
Fisheries Consultant, St. John's, NL

Abrahams, Dr. M.  
Faculty of Science, Memorial University of Newfoundland

Andrews, R.

Fisheries Consultant, St. John's, NL

Blackwood, G.  
Fisheries and Marine Institute, St. John's, NL

Bonnell, C.  
Canadian Centre for Fisheries Innovation, St. John's, NL

Butler, R.  
Cooke Aquaculture, St. George, NB

Chidley, G.  
Independent Harvester, Renewals, NL

Davis, C.  
St. Anthony Seafoods, St. Anthony, NL

D'Entremont, J.G.  
Fisheries Resource Conservation Council, Ottawa, ON

Hennessey, F.  
Independent Harvester, Souris, PE

McGuinness, P.  
Fisheries Council of Canada, Ottawa, ON

Penney, C.  
Clearwater Seafood Ltd., Bedford, NS

Roche, S.  
Consultant, St. John's, NL

Stewart, S.  
Confederation Cove Mussel Co., Borden-Carlton, PE

Sullivan, B.  
Ocean Choice PEI, Souris, PE

Whyatt, S.  
Harvester, St. John's, NL

#### **Management and Administrative Staff**

##### **Managing Director**

vacant

##### **Executive Assistant**

Horan, C., B.A. *Memorial*

##### **Industrial Liaison Officer**

MacNeil, S., B.Sc. *Memorial*, Adv. Dip. *Marine Institute*

##### **Industrial Liaison Officer**

Chapman, A., B.Comm., *Memorial*

##### **Secretarial Officer**

Brophy, A.

Located at the Fisheries and Marine Institute, the Canadian Centre for Fisheries Innovation is owned by Memorial University of Newfoundland. The Centre provides scientific research and technology services to the fishing industry. Working closely with the faculty and staff of the region's universities and technical institutes, the Centre provides expert assistance in the areas of aquaculture, harvesting and processing, with the aim of enhancing the industry's productivity and profitability. CCFI's activities also include resource conservation research, equipment development and marine biotechnology. The Centre's services are available to anyone in the fishery or aquaculture industry who wishes to overcome obstacles or meet opportunities through science and technology.

CCFI is an organization structured to meet the needs of the industry quickly and efficiently. The Industrial Liaison Officers collaborate directly with clients to develop and execute industrially relevant research and development projects.

#### **Mandate**

The organization works with industry clients to identify needs. It then collaborates with scientific and technical faculty and staff to devise solutions to meet those needs. CCFI works to ensure that the initiatives are organized, on time and directed to address the specific needs of the industry clients. The Centre also funds these projects, when required.

The Centre's research and development undertakings cover all areas of importance to the fishery and aquaculture industry:

1. Environmentally Sustainable Harvesting
2. Energy Efficiency
3. Utilization of Fish Wastes
4. Resource Assessment and Surveys
5. Improved and More Efficient Fishing Platforms
6. Human Resource/Technology Applications
7. Alternative Fish and Shellfish Species for Aquaculture
8. Efficiency and Profitability in Aquaculture
9. Resolving Environmental Issues in Aquaculture

With strong representation from industry, the Board of Directors oversees the direction and mandate of the Centre to ensure that its work is always relevant to the needs of the fishery.

## 11.3 C-CORE

### Board of Directors

Oake, D. (Chair)  
President, Invenio Consulting Inc.

MacLeod, M. (Vice-Chair)  
Atlantic Canada Manager  
Chevron Canada Ltd.

Burke, G.

Zakeri, A., B.Eng. *Carleton*, M.Eng. *Toronto*, Ph.D. *Oslo*, P.Eng.

C-CORE is a Canadian not-for-profit corporation providing innovative engineering solutions to national and international clients. Its dynamic team of over 60 engineering and business experts provide advanced technology solutions to production issues and market challenges encountered in primarily the nature resource sectors including offshore oil and gas production and transportation, gas transmission (onland pipelines) and mining. International and national government clients also use the services of C-CORE to address security, sustainability and safety issues related to their regulatory and operating needs.

In business since 1975, C-CORE's specialized engineering services are focussed on technology adaptation and integration, design recommendations and engineering analyses. Project teams are assembled based on client need and draw upon the corporation's core expertise in:

- Radar and Vision Systems
- Ice Engineering
- Geotechnical Engineering

Many complex projects require a multi-faceted solution where this expertise is combined for a complete, end-to-end solution.

From the corporation's headquarters on Memorial University of Newfoundland's Campus in St. John's, Newfoundland and Labrador as well as its office in Ottawa, ON staff work with an international network of partners, often through alliances, to ensure the best solutions for clients.

C-CORE's in house facilities include an Acutronic 680-2 centrifuge machine, a full scale buried pipeline modelling facility, mechanical,

electrical, and soils laboratories to support its research and development activities, and excellent computing capabilities including the connection to a high speed network.

C-CORE works in close collaboration with Memorial University of Newfoundland, in particular the Faculty of Engineering and Applied Science and offers many opportunities for graduate and undergraduate students to work on industry relevant projects and for its employees to pursue higher education.

## 11.4 Centre for Collaborative Health Professional Education

### Acting Co-Directors

Heath, O., B.A. *McGill*, M.Sc., Ph.D. *Memorial*; Assistant Professor; Joint appointment University Counselling Centre and Community Health and Humanities, Faculty of Medicine

Keamey, A., B.N., Ph.D. *Memorial*, M.H.Sc. *Toronto*, R.N., Adjunct Professor, Dalhousie University 2007-2012; Assistant Professor, Joint appointment School of Nursing and Community Health and Humanities, Faculty of Medicine

### Academic Staff

Curran, V.R., B.A. *Memorial*, Dip.Ad.Ed. *St. Francis Xavier*, M.Ed. *Dalhousie*, Post Grad Cert. *British Columbia*, Ph.D. *Guelph*; Associate Professor of Medical Education, Faculty of Medicine, Cross appointment with Faculty of Education

Sharpe, D.B., Cert.Ed. *Loughborough College*, B.Ed., M.Ed. *Alberta*, Ph.D. *Texas A and M*; Professor, Faculty of Education

### Faculty Scholars

Callanan, T., B.Sc., M.D. *Memorial*, Dip.Psych. *McGill*, FRCPC; Member, Canadian Psychoanalytic Society; Associate Professor and Chair of Psychiatry, Faculty of Medicine; Cross Appointed to Counselling Centre

Hardy Cox, D., B.S.W. *Memorial*, M.S.W. *Carleton*, Ed.D. *Maine*; Associate Professor, School of Social Work; Cross appointment with Faculty of Education

Heath, O., B.A. *McGill*, M.Sc., Ph.D. *Memorial*; Assistant Professor; Joint appointment University Counselling Centre and Community Health and Humanities, Faculty of Medicine

Kearney, A., B.N., Ph.D. *Memorial*, M.H.Sc. *Toronto*, R.N.; Adjunct Professor, Dalhousie University 2007-2012

Slater, A., B.Sc. *Waterloo*, M.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC; Professor and Chair of Medicine, Faculty of Medicine

Snow, N., B.N., M.N. *Memorial*, C.P.M.H.N.©; Faculty, Centre for Nursing Studies

Sullivan, M., B.A. *York*, M.S.W. *Carleton*, Ph.D. *Toronto*; Associate Professor, School of Social Work

### Staff

Hollett, A., Research Coordinator

Kirby, B., Interprofessional Education Project Manager

Silver, S., Administrative Assistant

The Centre was established in September 1999 in response to a growing emphasis on interprofessional health care. Centre oversight is provided through a Governing Council comprising: the Deans of the Faculties of Education and Medicine; the Directors of the Schools of Human Kinetics and Recreation, Nursing, Pharmacy and Social Work; the Director of the Counselling Centre; or their representatives.

The Centre's mission is to enhance education in the health and social care professions through research and development in collaborative, interprofessional educational programming. Key activities of the Centre include:

- promoting, developing, facilitating and coordinating collaborative, interprofessional educational programs;
- providing expertise for enhancing the design, delivery, and evaluation of educational programs;
- promoting education-related training through the organization of educational development opportunities for faculty members;
- developing research projects and supporting collaborative research in health professional education and interprofessional practice; and
- promoting health professional education as an academic pursuit.

All members of the University community including faculty, staff, and students are invited and encouraged to be engaged in the activities of the Centre. Academic Staff Members may hold an appointment as either a Faculty Scholar or Faculty Associate of the Centre. Faculty Scholars are appointed by the Governing Council on the recommendation of the respective Dean or Director based on their active engagement in academic development and scholarly activity related to the field of interprofessional collaboration and education. Faculty Associates actively participate in curriculum development or instruction of interprofessional education programs coordinated by the Centre. They are reviewed and approved by the Governing Council on an annual basis.

Further information may be obtained by contacting the Centre in writing to the Centre for Collaborative Health Professional Education, Memorial University of Newfoundland, Health Sciences Centre H2901, St. John's, NL Canada, A1B 3V6, or by telephone at (709) 777-6912, or by fax at (709) 777-6576, or through the website at [www.med.mun.ca/cchpe](http://www.med.mun.ca/cchpe).

## 11.5 Centre for Earth Resources Research (CERR)

For a complete listing see Research Units in the Faculty of Science section of the University Calendar.

## 11.6 Centre for Material Culture Studies

### Advisory Committee

Dean of Arts, Chair

Dick, J., Government of Newfoundland and Labrador

Ferguson, M., The Rooms Provincial Museum

Jarvis, D., Heritage Foundation of Newfoundland and Labrador

Lovelace, Dr. M., Folklore

### Director

Pocius, Dr. G.L., Folklore

The Centre for Material Culture Studies was established in 1988 to initiate, promote, and sponsor research on material culture within both the University and the general community. The Centre acts as a multidisciplinary forum for Memorial University of Newfoundland faculty members as well as visiting researchers from other institutions, including government agencies. The Centre houses a wide range of visual and documentary resources relating to material culture. Since 2008, the Centre has also been involved with the Province of Newfoundland and Labrador's work on Intangible Cultural Heritage, facilitating the provincial ICH Inventory.

## 11.7 Core Research Equipment and Instrument Training Network (CREAIT)

### Director

Miller, D., B.Sc. (Hons.), M.Sc. *Memorial*; Winner of the President's Award for Exemplary Service, 2005

### Manager, Partnerships & Projects MRP/CREAIT

Kielley, M.

### Manager of Finance and Administration

Samson, J., B. Voc. Ed. *Memorial*

The pan-university Core Research Equipment and Instrument Training Network (CREAIT) is designed to maximize the impact of Memorial University of Newfoundland's institutional investments in research through enhanced access to and utilization of major research equipment. CREAIT consists of eight interconnected satellites across the St. John's campus and is responsible for maintaining and operating thematic clusters of multi-user equipment.

Duties of the CREAIT Network include training faculty and students in the use of core research equipment, such as high-field NMR; assisting faculty with major equipment acquisitions; maintaining and operating major research equipment and facilities; promoting the development of new research partnerships, including access to core research equipment and facilities by private sector users on a cost-recovery basis.

Individuals seeking more information about the core research equipment available at Memorial University of Newfoundland or the CREAIT Network should contact the Director by e-mail at [dmiller@mun.ca](mailto:dmiller@mun.ca), by telephone at (709) 737-2409, by fax at (709) 737-6193, or in-person at the Inno Innovation Centre, room IIC1001B.

## 11.8 Fisheries Conservation Group

### Chair

Rose, G.A., B.Sc. *Guelph*, M.Sc. *Laurentian*, Ph.D. *McGill*; Cross appointed with Department of Biology

### Chief Technician

Pike, D.R., B.Sc. *Memorial*, Adv. Dip. *Marine Institute*

### Research Associate

Mello, L.G.S., B.Sc. *Rio Grande*, M.Sc. *UQAR*, Ph.D. *Memorial*

The Fisheries Conservation Group is an academic unit initially created at Memorial University of Newfoundland in 1996 as an NSERC Industrial Research Chair to develop an independent fisheries research program to complement Government programs and provide an integrative focus for fisheries research at the University. The Group now conducts research and training in fisheries science and conservation, with students in the M.Sc. and Ph.D. programs in biology and behavioural ecology, the M.M.S. program in marine science and fisheries, and the M.Env.Sc. program in environmental sciences.

The Fisheries Conservation Group works independently with both the Provincial Department of Fisheries and Aquaculture and the Federal Department of Fisheries and Oceans in conducting research on the Newfoundland and Labrador fisheries. The Group also undertakes extensive international collaborations with marine research groups around the world, and has trained scientists now working in more than 10 countries.

A focus of the Group is the use of high-technology in the study of marine ecosystems and the conservation of fisheries, with a focus on acoustics, telemetry, and GIS applications. Further information may be obtained through the website at [fishcons.mi.mun.ca/](http://fishcons.mi.mun.ca/).

## 11.9 Folklore and Language Archive (MUNFLA)

### Chair, Advisory Committee

Dean of Arts

### Chair, Management Committee

Smith, Dr. P.

### Archivist

Fulton, P.

### Archival Assistant

Cox, P.

### Folklore Transcriber

Reddy, B.

### Honorary Research Associate (Language and Folklore)

Widdowson, Dr. J.D.A.

Memorial University of Newfoundland Folklore and Language Archive (MUNFLA) is Canada's foremost repository for recorded and collected items of Newfoundland and Labrador folklore, folklife, language, oral history and popular culture. Established in 1968, it is one of the oldest archives at Memorial University of Newfoundland. The Archive is an integral part of the teaching and research activities of the Department of Folklore at the graduate and undergraduate levels. It is a member of the Association of Newfoundland and Labrador Archives and the Canadian Council of Archives.

The Archive contains diverse materials, donated by more than 11,000 contributors, covering topics such as custom and belief, childlore, material culture and work techniques, song, music, dance, tale, legend, personal experience narrative, poetry, riddles and conundrums, proverbs and foodways. Special holdings include the field notebooks of Maud Karpeles who compiled *Folk Songs from Newfoundland* (1971); E. R. Seary's collection of research materials on family names; the folklore collections of Herbert Halpert and John Widdowson; the extensive Newfoundland and Labrador song collections of Kenneth S. Goldstein and MacEdward Leach; Lawrence R. Smith's linguistic materials on Labrador Inuktitut and Southern Avalon dialect; 12,000 Canadian Broadcast Corporation recordings; the Lorne Russwurm international collection of country music; and Franco-NL materials from the Centre d'Études Franco-Terreneuviennes. Overall, the collection contains 40,000 audio tape recordings, 4,000 commercial recordings, 20,000 photographs, 2,000 printed documents, 16,000 manuscripts, and 800 video tape recordings.

Further information can be obtained by writing Memorial University of Newfoundland Folklore and Language Archive, Department of

Folklore, ED-4038, G. A. Hickman Building, St. John's, NL Canada A1B 3X8, or by e-mail at [munfla@mun.ca](mailto:munfla@mun.ca), or by telephone at (709) 737-8401, or by fax at (709) 737-4718, or through the website at [www.mun.ca/folklore/munfla](http://www.mun.ca/folklore/munfla).

## 11.10 Gardiner Centre

### Director

Hurley, B.

### Office Administrator

Amo, M.

### Program Developer

Arscott, S.

### Client Relations Coordinator

Collins, J.

### Associate Director, Finance and Administration

Gardiner, S.

### Associate Director, Business Development

Morrissey, B.

### Client Service Specialist

Tiller, K.

### Manager of Programs

Wright, J.

The Gardiner Centre is the outreach unit of the Faculty of Business Administration. The Gardiner Centre was established in 2008 by the amalgamation of the Centre for Management Development and P.J. Gardiner Institute for Enterprise and Entrepreneurship. Its mission is to advance business knowledge and skills and provide leading solutions for individuals, in both the public and private sectors, seeking success for themselves, their business or their organization.

The Gardiner Centre works with a variety of organizational clients from both the private and public sectors, including professional and industry associations, and not-for-profit agencies and groups. Whether through public events, open enrolment or customized training or student consulting, the Gardiner Centre is positioned to connect clients with the Faculty of Business Administration's expertise and to help an organization grow.

The Gardiner Centre facilities, located on the fourth floor of the Faculty of Business Administration building at the University, provide an interactive adult learning environment which is custom-designed to provide clients with everything they need to ensure a relaxing, retreat-like atmosphere, conducive to learning.

Further information may be obtained by contacting the Gardiner Centre by telephone at (709) 737-7977 or through the website at [www.mun.ca/gardinercentre](http://www.mun.ca/gardinercentre).

## 11.11 GENESIS Group Inc.

### President and CEO

King, D.J.

GENESIS Group Inc. is a separately incorporated entity of Memorial University of Newfoundland and is governed by a board of directors representing industry, academia, and government. It serves the whole university community and facilitates the linkage to the business community. The Genesis Group is located on the third floor of the Inco Innovation Centre. The Genesis Research division, as its primary goal, identifies and commercializes promising technologies arising from research at the University. Areas of expertise include Biotechnology and Medicine, Physical Sciences and Engineering and Information Technology and Communications. Key industrial sectors include the mining and oil and gas industries. In addition to its central role of transferring technology to the private sector, the research group assists the province's small and medium-size businesses to access the vast physical and human resources of the University. Genesis Research focuses on new technologies, processes, and services and seeks to enhance, improve, and/or diversify an existing industry's capability. The Genesis Centre division is a support network to help knowledge-based businesses/entrepreneurs create high-growth enterprises. The Centre mobilizes the province's business community and a network of world class mentors to help the entrepreneurs develop comprehensive business plans, raise equity capital and secure global market access. Genesis Bio-labs, located on Mt. Scio Road, is a wet lab facility to support start-ups in the biotechnology sector. Genesis Innovation Works, located on the second floor of the Inco Innovation Centre, is a prototype development centre and an on-campus collaborative research facility for university/industry partnership initiatives.

Further information may be obtained by contacting the GENESIS Group Inc. by telephone at (709) 737-4527 or through the website at [www.genesis.mun.ca/](http://www.genesis.mun.ca/).

## 11.12 Harris Centre

Yetman, D., B.A. *Carleton*, B.Sc., M.Sc. *Memorial*, MCPM *York*

### Operations Manager

Adams Warburton, J.S., Dip. AIT *Information Technology Institute*

### Assistant to the Director

Fitzgerald, R.

**Knowledge Mobilization Coordinator**Follett, K., B.A. *Memorial***Library Resources Coordinator**Rahal, P., B.A. *Memorial*, B.L.S. *McGill*, M.L.I.S. *Western***Professional Associate**Vardy, D., B.A.(Hons.), B.Comm. *Memorial*, M.A. *University of Toronto*, M.A. *Princeton University*

The Leslie Harris Centre of Regional Policy and Development is tasked with coordinating and facilitating the University's educational, research and outreach activities in the areas of regional policy and development. The Centre works with all faculties and departments within the University and serves as a reliable point of access for all stakeholders seeking to work with the University in activities related to regional policy and development. The Harris Centre interprets regional as all communities and regions in Newfoundland and Labrador and policy and development includes all issues that affect the ability of communities and regions to be prosperous and sustainable. The Harris Centre seeks to connect faculty, staff and students with opportunity for practical application in Newfoundland and Labrador while representing the integrity and independence of University research, teaching and outreach.

Further information may be obtained by contacting The Harris Centre by telephone at (709) 737-6170, by e-mail at [harriscentre@mun.ca](mailto:harriscentre@mun.ca), or through the website at [www.mun.ca/harriscentre/index.php](http://www.mun.ca/harriscentre/index.php).

**Research Support**

Ryan, E.A., Manager, HRU, B.Sc.(Hons.) *Memorial*, M.Sc. *Queen's*  
 Keough, T.M., B.Sc.(Hons.), M.Sc.(Medicine) *Memorial*, Senior Researcher  
 Heath, S., B.Sc. *Memorial*, Database and Computer Support

The Health Research Unit was established in 1991 as a unit of the Faculty of Medicine within the Division of Community Health. It makes available the professional skills, expertise and information resources of the Division to other faculty, government departments, non-government agencies and organizations, and the community.

The purpose of the Health Research Unit is to improve the health of the Newfoundland and Labrador community-at-large through research focussed on the prevention of disease and the protection and promotion of health.

**Research Themes**

1. Measurement of health status in community/workforce populations;
2. Assessment of the health care system;
3. Development and management of health information systems;
4. Design and analysis of health surveys and audits; and
5. Evaluation of health and social programs

The Health Research Unit may be contacted by telephone at (709) 777-8385 or through the website at [www.med.mun.ca/hru/](http://www.med.mun.ca/hru/).

**11.14 Institute of Social and Economic Research (ISER)****Board of Directors**

Byrne, Dr. P., Departments of English and Folklore, Director  
 Cullum, Dr. L., Department of Sociology  
 Dunn, Dr. C., Department of Political Science  
 Jamieson, Dr. S., Department of French and Spanish  
 Lockett, Dr. C., Department of English  
 Loomis, Dr. C., Vice-President (Academic) *pro tempore*  
 Rankin, Dr. L., Department of Archaeology  
 Riggs, Mr. B., QEII Library  
 Simms, Dr. A., Department of Geography  
 Tremblay, Dr. R., Dean of Arts - *virtute officii*  
 Whitaker, Dr. R., Department of Anthropology

**Administrative Staff**

Harding, M., Administrative Staff Specialist

Browne, S., Secretary

### **Purpose And Mandate**

The purpose of the Institute shall be to undertake, sponsor, and publish research within such disciplines and in such parts of the world as are deemed of relevance to Newfoundland and Labrador. Without limiting the generality of the above, research pertaining directly to social and economic development in Newfoundland and Labrador shall be of special importance.

### **Organization**

The Institute is an integral part of, and not an autonomous appendage, of the University. It is so organized that all its officers serve the University in other capacities and it is ultimately responsible to the President and Board of Regents of the University. The management of its affairs is vested in an Executive Committee, while the day-to-day responsibilities are in the hands of the Director. Since September 2006, the Executive Committee has also served as the Board of Directors of the J.R. Smallwood Foundation for Newfoundland and Labrador Studies.

### **Fellowships**

In general, ISER fellowships function to supplement and stimulate research interests of faculty and graduate students working within the research mandate of ISER. Terms and conditions of ISER fellowships may be obtained in writing to ISER, Institute of Social and Economic Research, Memorial University of Newfoundland, St. John's, Newfoundland and Labrador, A1C 5S7, or by telephone at (709) 737-8156, or by email at [iser@mun.ca](mailto:iser@mun.ca), or through the website at [www.mun.ca/iser/](http://www.mun.ca/iser/).

### **ISER Books**

The Institute publishes research falling within the ISER mandate - more than 90 titles to date. Many of the books originate in research undertaken by ISER itself. Some notable ISER books, however, have originated outside the Institute. Authors are invited to submit completed manuscripts that fall within ISER's mandate. Further information may be obtained in writing to ISER Books, Memorial University of Newfoundland, St. John's, Newfoundland and Labrador, A1C 5S7, or by telephone at (709) 737-3453, or my email at [iser-books@mun.ca](mailto:iser-books@mun.ca), or through the website at [www.mun.ca/iser/](http://www.mun.ca/iser/).

## **11.15 International Centre**

### **Executive Director/International Liaison Officer**

vacant

### **International Projects Administrator/Office Manager**

Clarke, C.

### **Purpose And Mandate**

The International Centre is in general concerned with:

1. coordinating and promoting the University's global endeavour, including international exchanges and development projects;
2. promoting internationalization of the University's teaching and research mandate by providing a formal institutional link with the University's faculties and academic units;
3. developing and managing international projects and investigating funding sources, with particular reference to development assistance;
4. providing program information and advice to faculty and staff and act as the central contact with the Canadian International Development Agency and other similar bodies; and
5. pursuing new opportunities to develop partnerships with the private sector and other educational institutions to keep the centre self-sufficient in the future.

## **11.16 International Programs Office (IPO)**

### **Director**

Burns, M.

### **International Program Officer (Academic)**

Bonnell, E.

### **International Program Officer (Study Abroad)**

Vacant

### **International Support Officer**

Wang Lei

The International Programs Office (IPO) was established in October 2008 and brings together all the international activities of the Faculty of Business Administration other than outreach or research activities under the responsibility of the Associate Dean (Academic Programs) of the Faculty. The activities previously undertaken by the Centre for International Business Studies and by the Fellow in International Business are continued in this new Office under a dedicated support unit headed by a Director of International Programs.

The IPO has direct responsibility for the development and enhancement of academic programs and curriculum including but not limited to the International Bachelor of Business Administration (i.B.B.A.), the International Business Minor, the International Business Concentration, professional accreditation (CITP) and future internationally focussed initiatives at the graduate level. The IPO also has responsibility for development and management of a global range of international mobility opportunities in the Faculty, including student exchange, the Harlow Program and other international summer schools and short programs. In addition the IPO plays a major role in recruiting international students to the Faculty and providing support to these students. These activities involve the development and management of strategic partnerships with leading international universities whereby international students may study for part of their degree in their home country.

The activities of the IPO as a whole, which also include continued facilitation of internships for recent international business graduates as well as the maintenance of close working relationships with regional government and business organisations, play a key role in building the regional and national skilled worker capacity essential for global competitiveness.

Further information may be obtained by contacting the International Programs Office by telephone at (709) 737-7659 or through the website at [www.business.mun.ca/international/](http://www.business.mun.ca/international/).

## 11.17 The J.R. Smallwood Foundation for Newfoundland and Labrador Studies

### Board of Directors

Tremblay, Dr. R., Dean of Arts - Virtute Officii  
Gosine, Dr. R., Vice-President (Research), *pro tempore*  
Byrne, Dr. P., Director  
Cullum, Dr. L., Department of Sociology  
Dunn, Dr. C., Department of Political Science  
Jamieson, Dr. S., Department of French and Spanish  
Lockett, Dr. C., Department of English  
Rankin, Dr. L., Department of Archaeology  
Riggs, Mr. B., QEII Library  
Simms, Dr. A., Department of Geography  
Whitaker, Dr. R., Department of Anthropology

### Administrative Staff

Harding, M., Administrative Staff Specialist  
Browne, S., Secretary

### Purpose And Mandate

The Smallwood Foundation was established with funds transferred in trust from the J.R. Smallwood Heritage Foundation. The Foundation administers the income from such funds for the promotion and support of research focussing on Newfoundland and Labrador. The board supports research proposals in the humanities and social sciences from both inside and outside the university community.

### Organization

Effective September 1, 2006, the Executive Committee of ISER also serves as the Board of Directors of the J.R. Smallwood Foundation. In accordance with its mandate, the board awards grants to individual scholars and organizations which have clearly defined objectives and which serve to develop the academic understanding and general appreciation of the province's society, history and culture. Full details of grant categories and application procedures are available on the Foundation's web site at [www.mun.ca/smallwood/](http://www.mun.ca/smallwood/).

Further information may be obtained in writing to The Director, J.R. Smallwood Foundation for Newfoundland and Labrador Studies, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.

## 11.18 Labrador Institute

### Director

Chaulk, Dr. K

### Associate Director

MacDonald, M.

### Administrative Staff Specialist

Dickers, B.

### Labrador Associate

Sparkes, Dr. R.

### Program Coordinators

Butler, J.  
Pottle-Fewer, K.  
Turner, M.

### Purpose And Mandate

The Labrador Institute of Memorial University of Newfoundland was established by the University to stimulate, coordinate, and support major University projects and programs designed to promote the well-being of the people of Labrador and to expand the Labrador knowledge base. Its location in Happy Valley-Goose Bay affords it a perspective on regional and aboriginal needs and issues that direct the operations of the Institute. The Institute identifies opportunities in research where the capabilities of the University may enhance our knowledge of Labrador and address concerns of the community, and puts forward educational needs for continuing human resource and cultural development.

The Institute is the main contact point for the University in Labrador and maintains communications with aboriginal and community groups and the Faculties and Schools of the University to ensure that there is a timely response to research and educational opportunities.

The Institute facilitates and coordinates the activity of personnel at the University as they undertake cultural, research, and educational activities. It partners with Faculties and Schools to solicit funds for research and the delivery of educational programs, and with other social, cultural and educational institutions in Labrador. A Labrador based archive provides a reference collection of publications on Labrador and other northern regions for public use.

The Labrador Institute works with the Office of Research which acts as the agent within the University to receive and disburse Northern Scientific Training Program grants received from the Department of Indian Affairs and Northern Development. The Institute also serves as the University's representative on the Association of Canadian Universities of Northern Studies and supports the University's membership in the University of the Arctic.

The Institute is not a regulatory body but it is available to advise on the normal process of grant applications by individuals. The Institute recommends that notice or copies of such applications be filed with the Institute to obviate duplication of effort within the University. It also maintains and administers an invaluable archival collection of Labrador materials. It is the Institute's intent to collect and disseminate all pertinent copies of research conducted by or through the University.

### Organization

The Director of the Labrador Institute reports to the Vice-President (Academic).

The Advisory Board, comprised of Labrador residents, has both geographic and aboriginal representation appointed by the Vice-President (Academic). The Board provides direct input from the community and offers advice on how the University can serve the needs of Labrador.

Further information may be obtained by contacting the Institute in writing to the Labrador Institute, P.O. Box 490, Station B, Happy

Valley-Goose Bay, NL, A0P 1E0, or by telephone at (709) 896-6210, or by fax at (709) 896-2970.

## 11.19 Major Research Partnerships

### Acting Director

Miller, D., B.Sc. (Hons.), M.Sc. *Memorial*; Winner of the President's Award for Exemplary Service, 2005

### Manager, Administration and Finance

Samson, J., B. Voc. Ed. *Memorial*

### Manager, Partnerships & Projects MRP/CREAIT

Kielley, M.

Major Research Partnerships is responsible for financial and administrative support for Memorial University of Newfoundland's existing major, AIF-funded research projects, and for assisting in the development of new major projects.

Further information may be obtained by telephone at (709) 737-6100 or by fax at (709) 737-6193.

## 11.20 Maritime History Archive

### Chair, Board of Directors

Handcock, Dr. W.G. [Retired]

### Board Members

Burton, Dr. V., Department of History

Fischer, Prof. L., Department of History

Hart, A. [Retired]

Staveley, Dr. M., Department of Geography [Retired]

Wareham, H., Archivist

In 1986 the Maritime History Archive was established as a separate unit within the Faculty of Arts as a result of reorganization of the Maritime History Group. Its functions include the acquisition, organization, and preservation of materials relating to the history of sea-based activities and societies, with a special emphasis on the North Atlantic Basin.

Since the mid-1970's the Public Record Office, London, England has transferred 22,000 ft. of original documentation in the series "Agreements on Account of Crew" for the period of 1863-1938, 1951-1976 to the Maritime History Archive. These documents represent an incomparable source for the study of the movements and manning of British Empire vessels throughout the world. Combined with collections relating to fisheries, commerce, and other sea-based activities, the crew agreements have made the Maritime History Archive an internationally known resource centre for the study of maritime history.

The Archive is housed in the Mathematics Building and is open to the public Monday through Friday, 9 a.m. to 1 p.m. and 2 p.m. to 4:00 p.m. A research service (for a fee) to undertake small research projects and answer queries pertaining to its subject area is also available.

## 11.21 The Maritime Studies Research Unit (MSRU)

### Chair

Burton, V., History

### Members

Bradley, D., Maritime History Archive

Cadigan, S., History

Dickinson, A.B., International Program

Fischer, L., History

Janzen, O., History, Sir Wilfred Grenfell College

Klein, R., Social Work

Moloney, C., Engineering

Neis, B., Sociology

Pope, P.E., Anthropology and History

Power, N., Sociology

Romkey, R., English

Walsh, V., Maritime History Archive

Wareham, H., Maritime History Archive

The Maritime Studies Research Unit (MSRU) is a research unit within the Faculty of Arts, whose purpose is to foster interdisciplinary research on maritime studies, understood as the interpretation of human behaviour in marine and coastal environments, in the past and to the present day. The Unit furthers this objective with workshops, colloquia, publications, and research projects and by providing advice and support to other units within the University. Membership in the MSRU is open to faculty and staff of Memorial University of Newfoundland with research interests in maritime studies. Other scholars with parallel interests, including graduate students in the University's Faculty of Arts, are eligible for associate membership. Currently, the MSRU has associate members in Canada, England, Nigeria, Scotland and the United States.

## 11.22 Memorial University of Newfoundland Botanical Garden

### Staff

Nicholls, K.W., Director

Bishop, M.A., Research Liaison

Boland, J.T., Research Horticulturist

Carter-Barfoot, J., Environmental Education Assistant

Cooper, J., Gift Shop Manager

Madden, A.M., Interpretation Co-ordinator

Owens, P.R., Grounds Maintenance Worker

Smith, S., Membership and Special Projects Coordinator

Walsh, T.G., Nursery Manager

White, C.P., Head Gardener

Williams, L.J., Grounds Maintenance Foreman

Memorial University of Newfoundland Botanical Garden, Mount Scio Road, comprises ten acres of cultivated gardens and 100 acres of natural habitat that includes the 14-acre Oxen Pond. The main objectives are to undertake and provide opportunities for biological, ecological, and horticultural education and research for the University, the general public, school children and other organized groups while stimulating public interest and enjoyment of the Newfoundland and Labrador flora, fauna and environment.

An interpretative program is designed to provide information on native plants, animals, and horticulture to community groups and the general public, including a curriculum based school program. A field centre houses indoor displays, a library, a tea room, and a lecture room. Numerous interpreted nature trails are maintained through a variety of natural habitats. Cultivated areas include the rock garden, peat beds, woodland beds, cottage garden, heritage garden, wildlife garden, shade garden, vegetable garden, and herbaceous border.

Research activities include rare plant conservation, site restoration, invasive species, non-timber forest products, medicinal and ornamental plant research and development.

The Memorial University of Newfoundland Botanical Garden is available for university classes and research year-round. It is open to the public daily from May through November. Further information may be obtained through the website at [www.mun.ca/botgarden/](http://www.mun.ca/botgarden/).

### 11.23 Newfoundland and Labrador Centre for Applied Health Research (NLCAHR)

#### Director

Bornstein, Dr. S.

The Newfoundland and Labrador Centre for Applied Health Research (NLCAHR) was established in September 1999 as a joint venture of the Department of Health and Community Services, the Health Care Corporation of St. John's and Memorial University of Newfoundland. Since its inception, the Centre has provided support for applied health research in the province through its grant and awards programs, its knowledge transfer activities and its capacity development services.

NLCAHR's mission is to contribute to the effectiveness and efficiency of the health and community service system of Newfoundland and Labrador and to the physical, social, psychological health and well-being of the province's population by supporting the development and the use of applied health research in this province

The Centre's work revolves around three principal goals:

1. to help build human capacity and organizational resources for undertaking and supporting high-quality applied health research in the province;
2. to increase the amount and impact of high-quality applied health research undertaken on the priority research themes of Newfoundland and Labrador; and
3. to help increase the effective use of research evidence in the province's health and community services system.

NLCAHR fosters and supports inter-disciplinary collaboration and serves as a bridge between researchers and decision-makers in government, the provincial healthcare system and community organizations. The Centre funds health research through annual peer-reviewed research grant competitions; supports research training by awarding fellowships at the master's, doctoral, and postdoctoral levels; and runs a number of other programs to encourage and support applied health researchers in Newfoundland and Labrador. The Centre's flagship knowledge exchange program, the Contextualized Health Research Synthesis Program (CHRSP), is a collaborative effort of researchers and health system leaders that seeks to identify urgent issues involving health services and health technologies that are of pressing interest to Newfoundland and Labrador. CHRSP teams work to identify the highest quality research on these issues and to interpret it in light of the unique geographic, economic, demographic and other characteristics of this province.

The research supported by the Centre is broad in scope and includes research in the areas of health services delivery and evaluation, health economics and policy, healthcare utilization and systems, community and population health, health-related social sciences, and applied clinical research focussing on the process of delivering care rather than therapeutics or diagnostics

Further information may be obtained by contacting the Centre in writing to the Newfoundland and Labrador Centre for Applied Health Research, Suite 300, 95 Bonaventure Avenue, St. John's, NL, A1B 2X5, or telephone at (709) 777-6993, or fax at (709) 777-6734, or e-mail at [nlcahr@mun.ca](mailto:nlcahr@mun.ca), or through the website at [www.nlcahr.mun.ca](http://www.nlcahr.mun.ca).

The *Newfoundland Quarterly*, a journal established in 1901, focuses on the arts, culture, history, industry and people of Newfoundland and Labrador. This journal is published by the *Newfoundland Quarterly* Foundation Board, a not-for-profit charitable foundation. Owned by Memorial University of Newfoundland, the *Newfoundland Quarterly* features contributions from the province's top writers and visual artists as well as writings by our most prominent people. Many contributors have a presence on the national and international stage. The *Newfoundland Quarterly* can be contacted by telephone at (709) 737-2426, or by email at [nfq@mun.ca](mailto:nfq@mun.ca), or through the website at [www.newfoundlandquarterly.ca](http://www.newfoundlandquarterly.ca).

## 11.25 Ocean Engineering Research Centre (OERC)

### Administration

Qiu, W., B.Eng., M.A.Sc. *Dalian University of Technology*, Ph.D. *Dalhousie*, P.Eng., Associate Professor, Ocean and Naval Architectural Engineering; Acting Director

### Engineering Technologist

Clarke, T.

### Scope And Objectives

The Ocean Engineering Research Centre (OERC) is an integral part of the Faculty of Engineering and Applied Science at Memorial University of Newfoundland and has contributed to the success of the Faculty's research and academic programs.

The overall goal of the OERC is to generate research activity that has high potential for impact. The OERC draws upon faculty expertise and its relationships with industry, other research institutes, and branches of government to create networks of people who share common goals. The scope of applied research and consulting activities carried out by members of the OERC is broad, including ocean engineering related to the offshore, marine transportation, and fishing industries. In addition to faculty experience, the OERC operates a 58 metre long towing tank with wave generation capabilities.

### Organization

The St. John's marine research community is vibrant and collaborative. Within the University the Centre maintains ties with C-CORE (by joint appointments of faculty and collaborative projects), with the Ocean Science Centre and the Fisheries and Marine Institute. Similar ties are maintained with the Institute for Ocean Technology (IOT) of the National Research Council (NRC), which is located adjacent to the Faculty of Engineering and Applied Science on the University campus. The Centre collaborates with and serves various small and large private sector firms with ocean engineering interests. The Centre works with Oceanic Consulting Corporation to provide marine performance evaluation services to the world's oceans industries. An alliance between the University, NRC and Marineering Limited of St. John's, Oceanic uses the ocean engineering capabilities and facilities of the University and NRC to support clients and projects around the world.

## 11.26 Ocean Sciences Centre

For a complete listing, see Research Units in the Faculty of Science section of the University Calendar.

## 11.27 The Works/Memorial University Recreation Complex Incorporated (MURC)

### Board of Directors

Thistle, B., Chairperson  
Donovan, M., Vice Chair

Other members of the volunteer Board include representatives from the student body, the University, and the community at large.

### Staff

Richardson, A., Director/General Manager  
Beson, M., Manager of Finance  
Coffey, K., Manager of Maintenance - Field House  
Kenny, E., Manager of Maintenance - Aquarena  
Neil, C., Manager of Fitness and Student Services  
O'Connor, J., Manager of Aquatic's/Recreation

### The Works/MURC

The Works is a separately incorporated entity with a volunteer Board of Directors.

The Works manages the Field House, Aquarena, and recreation facilities on the St. John's campus. These world class facilities offer a variety of fitness, aquatic, recreation, and sport programs for all ages and for all members of the University and the community at large.

There are approximately 250 employees at The Works and the majority of these employees are current or graduated students of Memorial University of Newfoundland.

Further information may be obtained by contacting The Works by telephone at the Field House (709) 737-3000, or the Aquarena at (709) 737-3799, or through the website at [www.theworksonline.ca](http://www.theworksonline.ca).

# 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Fees and Charges

The fees and charges indicated herein are as of the date of printing. The University reserves the right to make changes to the regulations, fees and charges listed below. Any questions concerning fees and charges for the Cashier's Office in St. John's should be directed in writing to the Cashier's Office, Memorial University of Newfoundland, Arts and Administration Building, A1023, St. John's, NL, A1C 5S7, or by e-mail at [cashiers@mun.ca](mailto:cashiers@mun.ca), or by telephone at (709) 737-8228, or through the website at [www.mun.ca/finance/Welcome/](http://www.mun.ca/finance/Welcome/). Any questions concerning fees and charges for the Bursar's Office in Corner Brook should be directed in writing to the Bursar's Office, Sir Wilfred Grenfell College, University Drive, Corner Brook, NL, A2H 6P9, or by telephone at (709) 637-6286, or through the website at [www.swgc.mun.ca/bursar/Pages/default.aspx](http://www.swgc.mun.ca/bursar/Pages/default.aspx).

### 2.1 Information Governing Payment of Fees and Charges

#### 2.1.1 General Regulations

1. Tuition fees, residence fees, student union fees and health/dental insurance are due once a student registers regardless of the method of registration, and must be paid by the fee deadline to avoid a late payment penalty.
2. Students who are using a scholarship, bursary, Canada Student Loan, or other award for the payment of fees may be permitted to have their tuition fees outstanding until they have received the award or Canada Student Loan.

#### 2.1.2 Methods of Payment

1. Cash/Debit card: must be paid in person at the Cashier's Office in St. John's or the Bursar's Office in Corner Brook.
2. Cheque: may be mailed, or delivered in person, to the Cashier's Office in St. John's or Bursar's Office in Corner Brook, or placed in the night deposit slot at the Cashier's Office in St. John's. A dishonoured charge will be made for each cheque tendered to the University and not honoured by the bank. A student with a dishonoured cheque record must pay fees by cash, certified cheque or money order.
  - Dishonoured cheque charge: \$25
3. Credit card: Visa and MasterCard are the only accepted cards. Payment using this method should be done via the web at [www.mun.ca](http://www.mun.ca).
4. Payroll deductions: graduate students receiving funding through the University payroll system may elect to pay their tuition and other charges by payroll deduction. The policy and form for payroll deductions are available at the School of Graduate Studies, the Cashier's Office, and at [www.mun.ca](http://www.mun.ca).
5. Student Aid: students paying fees from a Canada Student Loan will have the amount owing signed out automatically from their loans.
6. Telephone and on-line banking: information on the use of telephone or on-line banking systems can be obtained from local branches of banks.
7. Tuition voucher: students receiving a tuition voucher must present the tuition voucher and pay the balance of their fees to the Cashier's Office by the published deadlines to avoid being assessed a late payment fee.

#### 2.1.3 Penalties for Noncompliance with Payment of Fees and Charges

1. Students who, without approval, pay their fees later than the deadlines specified in the **University Diary** will be assessed a late payment fee.
  - Late payment fee (assessed by the Director of Financial and Administrative Services): Maximum of \$75
2. Students who have not paid all fees or arranged for fee payment with the Director of Financial and Administrative Services prior to the first day of lectures, as stated in the **University Diary**, may have their registration cancelled at the discretion of the University. Such students will then be required to reregister after all fees are paid and after the first day of lectures, as stated in the **University Diary**, but no later than the end of the regular registration period.
3. Outstanding accounts, including accounts outstanding pending the receipt of a scholarship, bursary, or similar award, must be paid in full by cash, money order, or certified cheque. Students with outstanding accounts will:
  - be ineligible to register for courses for a subsequent semester;
  - not be permitted into residence;
  - not be issued an academic transcript;
  - not be awarded a degree, diploma or certificate.
4. Accounts outstanding on the last day of examinations in a semester/session will be charged interest at the prime interest rate less 1.8% per annum. Such interest will apply effective the first day of lectures in that semester.

## 2.2 Application and Admission Fees

Unless otherwise noted, these application and admission fees are non-refundable.

### 2.2.1 Undergraduate Students

1. University Calendar fee: a University Calendar will be supplied free to undergraduate students newly admitted to the University.
  - University Calendar fee for others: \$5
2. General Application Processing Fee: this fee is payable with each application for admission or readmission to the University.
  - Undergraduate students who have never attended a post-secondary institution or who have previously attended Memorial, excluding medical students: \$40
  - Undergraduate students who have attended a post-secondary institution outside of Newfoundland or who are non-Canadian

- applicants, excluding medical students: \$80
  - Medical students: \$75
3. Fees in addition to General Application Processing Fee
    - Challenge for credit is charged at one half of the fee associated with the credit hour value of each course
  4. Admission Fees in addition to General Application Processing Fee
    - Bachelor of Technology: \$300
    - Bachelor of Maritime Studies: \$300
  5. Application Fee in addition to General Application Processing Fee
    - School of Pharmacy: \$75
  6. Penalties for Noncompliance with Payment of Application and Admission Fees
    - Late fees: all late fees are payable when assessed.
    - **Late application fee**  
Up to one week after deadline: \$30  
Each subsequent week to final date for receipt of applications: \$10

## 2.2.2 Graduate Students

1. Application Processing Fee: payable with each application for admission to the University.
  - Application Processing Fee: \$40

## 2.3 Tuition and Related Fees

### 2.3.1 Undergraduate Students (other than Medical Students)

1. Unless otherwise specified, tuition fees are charged according to the credit hour value associated with the registered course(s). Courses are 3 credit hours unless otherwise indicated.
2. For the purposes of calculating tuition:
  - the credit hour value of each of the A and B components of a linked course shall be equivalent to one half of the credit hour value of the B component (see **Glossary of Terms Used in the Calendar**);
  - the credit hour value of F courses and non-degree courses (i.e. certificate programs) shall be three; and
  - the credit hour value of courses with "W" in the final position of the course number, excluding co-operative education work terms, shall be three.
3. Fees for citizens of Canada and permanent residents
  - Fee per credit hour: \$85
  - Co-operative education work terms: \$323
  - Maritime Studies/Technology Management 4100 and Maritime Studies/Technology Management 4200: \$1,154
  - Computer Science 3700 (per semester): \$154
4. Fees for international students
  - Fee per credit hour: \$293.33  
Fee per credit hour: \$323.00
  - Co-operative education work terms  
Students entering September 2003: \$1,020  
Students entering prior to September 2003: \$840
  - Maritime Studies/Technology Management 4100 and Maritime Studies/Technology Management 4200: \$1,779  
Maritime Studies/Technology Management 4100 and Maritime Studies/Technology Management 4200: \$1,868
  - Computer Science 3700 (per semester): \$533.32
5. Tuition refunds based on withdrawal from course(s)
  - Students dropping courses within two weeks following the first day of lectures in any semester will not be liable for tuition fees for those courses. Students dropping courses after that time will receive tuition fee refunds on a prorated basis. Any student who drops a course from two weeks to three weeks following the first day of lectures in any semester shall have 50% of the tuition refunded. Any student who drops a course from three weeks to four weeks following the first day of lectures in any semester shall have 25% of the tuition refunded. No tuition will be refunded for courses dropped after four weeks following the first day of lectures in any semester. For the actual dates relating to these refunds, see the **University Diary**.
  - In the case of sessions, accelerated courses and courses offered outside of the normal time frame of a semester or session, the tuition refund drop periods will be prorated accordingly.

### 2.3.2 Undergraduate Students (Medical Students)

1. Fees for citizens of Canada and permanent residents
  - Annual tuition fee (September 1 - \$3,125, January 1 - \$3,125): \$6,250
2. Fees for international students
  - Annual tuition fee: \$30,000

### 2.3.3 Graduate Students

1. Fees are payable at the time of registration. All graduate students must be registered in each semester of the three-semester academic year throughout the period of their program until all academic requirements for the degree have been met and they have been deemed eligible to graduate by the School of Graduate Studies. Final dates in each semester for notification of completion of academic requirements, in order to be deregistered from Graduate Registration 9000/Medicine 9900 without incurring liability for continuance fees, are included in the **University Diary**.

2. There is a minimum fee for all graduate degrees. The amount of this fee for both Canadian and international students will depend on the semester fees in effect during his or her period of registration. Semester fees are subject to review at least annually. They are:

Program	Fee Per Semester for Citizens of Canada and Permanent Residents	Fee Per Semester for International Students	# of Semesters Fee Must Be Paid
Masters candidate:			
Plan A	\$733	\$953	6
Plan B	\$486	\$632	9
Plan C	\$1,010	\$1,312	3
Master of Science in Medicine (Applied Health Services Research)	\$2,000	\$2,000	6
Graduate Diploma Candidate	\$323	\$420	9
Doctoral program candidate (for students admitted prior to September 1, 2004)	\$911	\$1,183	9
Doctoral program candidate (for students admitted after September 1, 2004)	\$683	\$887	12

3. M.D.-Ph.D program:

- M.D. component - standard M.D. fees for four years
  - Ph.D. component - standard Ph.D. fees plus continuance fees, if required, during the active Ph.D. component
4. At the time of first registration, each masters's candidate must select a payment plan. The fee payable in the first and subsequent semesters will depend upon the payment plan selected. Once selected, the payment plan will remain in effect for the duration of the student's period of registration, and cannot be changed. Payment Plan C is available for selected programs only.
5. A student who completes his or her program in a period of time shorter than that covered by the selected payment plan will, in his or her final semester be required to pay the difference between the product of the semester fee in effect in that final semester and the number of times which a fee should have been paid in accordance with the payment plan selected, and the actual amount paid.
6. A student whose program extends beyond the period covered by the selected payment plan will be assessed the appropriate program continuance fee for each additional semester of registration. Continuance fees will be charged until the program is complete.
7. The program continuance fees per semester for citizens of Canada and permanent residents entering prior to September 2004 are:
- Masters candidate: \$334
  - Graduate Diploma candidate: \$162
  - Doctoral candidate: \$570
8. The program continuance fees per semester for citizens of Canada and permanent residents, and international students entering September 2004 are:
- Masters candidate: 8.15% of the total program fee for Plan A
  - Graduate Diploma candidate: 8.15% of the total program fee
  - Doctoral candidate: 8.15% of the total program fee
9. The program continuance fees per semester for international students entering prior to September 1, 2004 are:
- Masters candidate: \$434
  - Graduate Diploma candidate: \$210
  - Doctoral candidate: \$741
10. The semester fees listed above cover only the courses (if any) prescribed for the program by the academic unit and approved by the Dean of Graduate Studies. A student taking courses which are not part of the approved program must pay for them separately in accordance with the fee schedule for undergraduate courses.
11. A graduate student who is permitted by the Dean of Graduate Studies to transfer from a diploma program to an allied master's program or from a master's program to a doctoral program before the former is completed will be required to pay the difference between the fees for the two programs, based on the semester fee in effect during each semester of the new program. This additional payment shall be made over the duration of the remaining semesters for which program fees are owed, or over three semesters, whichever is greater.
12. A graduate student who wishes to withdraw from his or her graduate program must inform the Dean of Graduate Studies, in writing, within three weeks after the first day of lectures in the semester. Failure to do so will result in the student being held responsible for the fees due to the end of that semester. Administrative fee for approved retroactive requests for leave of absence or withdrawal from program: \$25
13. Where a thesis is required by a particular degree or program, a fee will be charged to cover the cost of binding two copies of the thesis.
- Thesis binding fee: \$20
14. Special Fees: In addition to the semester fees, the following programs charge a special fee:
- Doctor of Philosophy in Management  
\$12,000: \$1,000 to be paid in each of twelve consecutive semesters
  - Master of Applied Science in Computer Engineering (Plan A)  
Canadian: \$15,302 - charged \$9,181 in semester 1 and \$6,121 in semester 2  
International: \$20,282 - charged \$12,169 in semester 1 and \$8,113 in semester 2
  - Master of Applied Science in Environmental Systems Engineering and Management (Plan A)

- Canadian: \$11,602 - charged \$6,961 in semester 1 and \$4,641 in semester 2
- International: \$16,282 - charged \$9,769 in semester 1 and \$6,513 in semester 2
- Master of Applied Science in Oil and Gas Engineering (Plan A)
  - Canadian: \$11,602 - charged \$6,961 in semester 1 and \$4,641 in semester 2
  - International: \$16,282 - charged \$9,769 in semester 1 and \$6,513 in semester 2
- Master of Business Administration (Executive Option in Petroleum)
  - \$34,000: \$8,500 charged over four consecutive semesters
- Master of Education (Information Technology)
  - \$2,550: \$1,275 charged in semester 1 and \$1,275 charged in semester 4
- Master of Engineering Management (Plan A)
  - Canadian: \$11,602 - charged \$6,961 in semester 1 and \$4,641 in semester 2
  - International: \$16,282 - charged \$9,769 in semester 1 and \$6,513 in semester 2
- Master of Nursing (Nurse Practitioner Option)
  - \$12,813: charged in semester 4 for students on Plan A and semester 7 for students on Plan B
- Master of Public Health
  - \$1,460: charged \$730 in semester 1 and \$730.00 charged in semester 2
- Master of Technology Management
  - \$4,602: \$2,301 charged in semester 1 and \$2,301 charged in semester 2
- Post-Master of Nursing (Nurse Practitioner) Diploma
  - \$12,813: charged in semester 1

### 2.3.4 Post-Graduate Residents and Interns

- Registration fee per annum: \$500

### 2.3.5 Lifelong Learning

1. Diploma in Information and Communication Technology Students
  - Option 1: Full-time and includes a work term (payable over three consecutive semesters): \$15,000
  - Option 2: Full-time without a work term (payable over three consecutive semesters) \$5,000, \$5,000, and \$3,000): \$13,000
  - Option 2: Part-time without a work term (payable over seven consecutive semesters): \$10,000
  - Repeat Course fee: \$295 per credit hour
  - Program Continuance Fee for full-time students who do not complete the program in the normal program period: \$352

### 2.3.6 Distance Education and Learning Technologies (DELT)

1. For distance education courses, there are administrative fees which are charged in addition to the tuition fees for these courses. These fees cover the cost of course materials (excluding textbooks), rental of video and audio tapes and management of web courses.
  - Administrative fees (per credit hour for Newfoundland and Labrador addresses): \$17
  - Administrative fees (per credit hour for out of province addresses): \$34
  - Change of examination location fee: \$50
  - Deferred examination fee: \$65

## 2.4 Residence (Housing) and Meals Fees and Charges

### 2.4.1 St. John's Campus

For additional information on residences see the section of the Calendar dealing with Student Housing.

1. General Residence Fees: this fee will not be refunded and will not be credited to the student's account.
  - Residence application fee: \$20 per semester
2. Residence deposit: \$500
3. Residence fees during semesters: the fees and charges below are per semester, per person, unless otherwise noted. For further information, contact Student Housing and Food Services.
  - Paton College
    - Double: \$1,087
    - Single: \$1,328
  - Meal Plans
    - 19 meals per week: \$2,015
    - 14 meals per week: \$1,932
    - 10 meals per week: \$1,788
  - Burton's Pond Apartments
    - Single: \$1,522
    - Family Unit (per month, per apartment): \$795
4. Residence fees between semesters: students who request to stay in residence between semesters may be accommodated providing space is available and notice is given in writing to Student Housing and Food Services. Students are required to pay the full charge on receipt of notification of acceptance.

Room rates (per night, per person)

- Paton College and Burton's Pond Apartments: \$11

5. Penalties for noncompliance with payment of fees and charges

- Students with outstanding fees will not be permitted into residence without approval from the Director of Financial and Administrative Services.
- Students not returning to residence must cancel a room assignment by the established deadline date. Failure to do so will result in a cancellation charge.  
Cancellation charge: \$500

## 2.4.2 Sir Wilfred Grenfell College

The fees and charges below are per semester, per person, unless otherwise noted.

1. General residence fees: this fee will not be refunded and will not be credited to the student's account.
  - Residence application fee: \$20
2. Residence deposit: charged only to students who are applying to live in residence for the first time (due May 31 for Fall semester; November 15 for Winter semester). The deposit is creditable and may be refunded when all conditions pertaining to it are met.
  - Residence deposit: \$500
  - Cancellation fee for returning students who fail to cancel residence/chalet rooms for Fall and Winter semester: \$500.00
3. Residence fees during semesters
  - Room: \$1,264
  - Apartments  
Single: \$1,472  
Family Apartment (per month): \$595.00  
Bachelor Unit (per semester): \$1,385
4. Residence fees between semesters: students who need to stay in residence between semesters may be accommodated providing space is available and reasonable notice is given in writing to Student Housing. Students are required to pay the full charge on receipt of notification of acceptance.  
Room rates (per night, per person)
  - Apartment: \$12
  - Residence: \$10

## 2.5 Student Organization Fees

Student organization fees are collected by the University as a service to the student body. They are payable prior to, or at the time of, registration.

### 2.5.1 St. John's Campus

All fees are per semester and are compulsory unless otherwise noted.

1. Undergraduate students (full-time)
  - General fees  
Student Union fee: \$39.10  
Canadian Federation of Students' fee (not collected Spring semester): \$4.01  
Canadian Federation of Students - Newfoundland and Labrador fee (not collected Spring semester): \$4.01  
Media Fee: \$4
  - Health/Dental Plans  
Students who have alternative health and dental coverage may opt out of the plan(s) by completing a Waiver of Participation form at the MUNSU Office. The deadline to opt out of the health and dental plans for any given academic year is two weeks after the first day of lectures in September. Only students who were not full time or not enrolled in the Fall semester may opt out in the Winter semester. The deadline will be two weeks after the first day of classes.  
Student Health Plan: \$81  
Dental Plan: \$65
2. Undergraduate students (part-time)
  - Student Union fee: \$16.76
  - Canadian Federation of Students - Provincial (not collected Spring semester): \$4.01
  - Canadian Federation of Students - Federal (not collected Spring semester): \$4.01
  - Media fee: \$4
3. Graduate students
  - Union fee: \$20
  - Canadian Federation of Students - Provincial (not collected Spring semester): \$4.01
  - Canadian Federation of Students - Federal (not collected Spring semester): \$4.01
  - Drug and Health Insurance Plan fee (per annum): \$479.31
  - Dental Insurance Plan fee (per annum): \$200.58
4. Post-graduate residents and interns
  - Union fee (per annum): \$5
5. Nursing students (fee collected in the Fall semester)
  - Canadian Nursing Students' Association fee (full-time students, per annum): \$5

- Canadian Nursing Students' Association fee (part-time students, per annum): \$3

## 2.5.2 Sir Wilfred Grenfell College

1. Undergraduate Students (full-time)
  - Health Plan: \$81.50
  - Dental Plan: \$55.50
  - Student Union fee: \$49
  - SUB. Fund (not collected Spring semester): \$5
  - Canadian Federation of Students - Newfoundland and Labrador fee (not collected Spring semester): \$4.01
  - Canadian Federation of Students' fee (not collected Spring semester): \$4.01
2. Undergraduates (part-time)
  - Union fees: \$11

## 2.5.3 International Student Health Insurance (varies from year to year)

1. All students (undergraduate and graduate) studying on a student visa at Memorial University of Newfoundland will be required, as a condition of registration, to purchase health insurance. Such students should check with the International Student Advisor for the current rate.

## 2.6 Fees and Charges Pertaining to Appeals

### 2.6.1 Challenge for Credit Fee

- Fee: one half of the fee associated with the credit hour value of the course

### 2.6.2 Supplementary Examination Fee

- Fee: \$50

### 2.6.3 Reread of Final Examination Fee

- Fee: \$50

## 2.7 Miscellaneous Fees and Charges

### 2.7.1 Recreation Fee (The Works)

Students must pay a recreation fee which will be adjusted according to the Consumer Price Index (CPI) on September 1 of each year.

- Fee (St. John's Campus and Fisheries and Marine Institute)
- Per semester: \$51.80
- Per session: \$25.90

### 2.7.2 Student Parking Fees

Students may purchase permits on a semester or per annum basis.

- Per semester: \$13.80
- Per annum: \$41.40

### 2.7.3 Books and Supplies

1. Students should be prepared to meet an expenditure to cover the cost of textbooks and supplies each semester. Students should consult their professors before purchasing any new or used textbooks or laboratory manuals.

### 2.7.4 Damages or Destruction to University Property

1. Unwarranted damages or destruction to University property will be charged to the responsible party or parties, and are payable when assessed.

## 2.8 Appeal of Fees and Charges Regulations

Appeal of Fees and Charges Regulations apply to **Undergraduate Students (other than Medical Students), 5.** only. It is intended to recognize and be sensitive to students who experience devastating, unforeseen and/or catastrophic events during the semester and therefore withdraw from a course or courses. Students are permitted to appeal for refund of tuition associated with dropped course(s) only, not for refund of incidental fees including, but not limited to, medical/dental coverage, MUNSU fees, recreation fees, etc.

### 2.8.1 Responsibilities in the Tuition Refund Appeals Process

The University has established financial regulations, procedures and deadlines through its governing bodies for the guidance of students. Students are expected to take into account their personal and academic circumstances, in order to meet university financial regulations, procedures, and to satisfy financial requirements and deadlines.

#### 2.8.1.1 Students' Responsibilities in the Tuition Refund Appeals Process

It is incumbent upon students to:

- be aware of and adhere to all financial regulations, requirements and published deadlines, especially the refund schedule published in the University Diary;
- familiarize themselves with published tuition refund appeals procedures;

- submit tuition refund appeals and all supporting documentation no later than one month after the official release of grades for the semester of the dropped course(s); and
- provide appropriate authenticating materials.

### 2.8.1.2 The University's Responsibilities in the Tuition Refund Appeals Process

It is incumbent upon the University to:

- make available to students advice and guidance regarding options, deadlines, required documentation, and tuition refund appeal route by way of written notification, the University website, personal appointment or other forms of communication;
- direct students to the appropriate office for information on tuition refund appeals;
- attend to tuition refund appeals efficiently and ensure parties receive fair, consistent and ethical treatment;
- supply students with reasons for decisions to deny a tuition refund appeal; and
- maintain parties' right to confidentiality.

### 2.8.2 Guidelines for the Tuition Refund Appeals Process

1. Transparency should guide all steps of the tuition refund appeal process. In the case of an appeal, the parties should have access to all documents submitted.
2. The principles of fairness should be applied in appeal procedures and decisions.
3. Information submitted in support of an appeal will be kept confidential.

### 2.8.3 General Information and Procedures for Tuition Refund Appeals

1. A tuition refund appeal must be filed no later than one month after the official release of grades for the semester of the dropped course(s).
2. Any tuition refund appeal should be made in writing, by the student, clearly stating the basis for the appeal and should be directed to the Committee Coordinator, Tuition Refund Appeals Committee, c/o The Cashier's Office, Memorial University of Newfoundland, St. John's, NL A1C 5S7.
3. Successfully dropping a course academically does not guarantee that a tuition refund appeal will be successful. Academic difficulty in a course and/or missing a published refund deadline is not sufficient grounds for an appeal.
4. For assistance in the tuition refund appeals process, students are advised to consult with the Committee Coordinator.
5. In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include a faculty advisor, staff advisor, a counselor, a representative from the Memorial University of Newfoundland Students' Union (MUNSU) or other individual who is willing to undertake the role of student advisor or facilitator.
6. The Tuition Refund Appeals Committee may decide to deny or uphold an appeal. If it upholds an appeal, the Committee may prorate the tuition refund depending upon the student's length of participation in the course(s) and other factors.
7. The decision of the Tuition Refund Appeals Committee is final.

### 2.8.4 Information Required for Medical Certificates

Please refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Information Required for Medical Certificates from Health Professionals.**

## 3 Admission/Readmission to the University (Undergraduate)

### 3.1 Admission/Readmission Information

This section applies to all undergraduate applicants except those applying to the Faculty of Medicine.

Applicants seeking admission to the Faculty of Medicine should refer to the **Faculty of Medicine** regulations for information.

Applicants seeking admission to a particular faculty or school may be required to submit a supplementary faculty or school application in addition to the application for admission/readmission and should refer to appropriate faculty or school regulations for procedures, deadlines, admission requirements and further information.

1. Applications for admission/readmission should be submitted by the deadline dates listed in the **University Diary**. Applications received later or post-marked later than the stated deadline dates will be processed as time and resources permit. Application forms and other information may be obtained by contacting the University in writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by e-mail at [admissions@mun.ca](mailto:admissions@mun.ca) or through the website at [www.mun.ca/regoff/home/](http://www.mun.ca/regoff/home/).
2. Each application must be accompanied by a \$40.00 application processing fee. An additional application processing fee of \$40.00 is required from non-Canadian applicants or applicants transferring from post-secondary institutions outside of Newfoundland and Labrador. Neither fee is refundable nor will it be credited to the applicant's financial account under any circumstances. Information regarding other fees and charges is specified under **Fees and Charges**.
3. Applicants who have previously attended Memorial University of Newfoundland and have not registered for courses for the past two consecutive semesters (Fall, Winter, Spring) are required to submit a new Application for Admission/Readmission together with the \$40.00 application processing fee.
4. The admission criteria required of each category of applicant is specified under **Categories of Applicants, Admission Criteria And Required Documentation**.
5. Admission to some courses, programs and/or the University may be limited by the University when it deems the facilities and resources available to it are not adequate to provide for additional students. Consequently possession of the minimum requirements does not guarantee that an applicant will be granted admission to a course, a program and/or the University.
6. The University may set its own matriculation examinations either in separate subjects or in all those required for matriculation, and may refuse admission to any applicant failing to attain a satisfactory standard in these examinations.
7. The University reserves the right to refuse admission to any applicant.
8. Applicants may be required to provide medical evidence of their fitness to pursue university studies.

## 3.2 English Language Proficiency Requirements

Since English is the primary language of instruction at this University, all applicants seeking admission to Memorial University of Newfoundland must possess an adequate knowledge of written and spoken English as a prerequisite to admission. Regardless of country of origin or of citizenship status, applicants will be required to provide proof of proficiency in the English language based on one of the following forms.

### 3.2.1 English Language Secondary Institution

Applicants are required to have successfully completed the equivalent of three years of full-time instruction in an English language secondary institution as recognized by Memorial University of Newfoundland including successful completion of appropriate course(s) in English at the Grade XII or equivalent level. English as a Second Language (ESL) courses are not acceptable for meeting this requirement.

### 3.2.2 English Language Post-Secondary Institution

Applicants who have attended a recognized post-secondary institution where English is the language of instruction must have successfully completed the equivalent of 30 credit hours. These 30 credit hours must include 6 transferable credit hours in English courses. For information on transfer credit refer to **Transfer Credit**.

### 3.2.3 Test of English as a Foreign Language (TOEFL)

A minimum score of 550 is required on the paper-based test or 213 on the computer-based test of the Test of English as a Foreign Language (TOEFL). A minimum score of 79 with at least 20 in each of Reading and Writing, and no less than 17 in Listening and Speaking is required on the internet-based TOEFL. The official results of the TOEFL must be forwarded to Memorial University of Newfoundland directly from the Educational Testing Service.

Information regarding the TOEFL program is available from the Educational Testing Service (E'S), TOEFL/TSE Services, P.O. Box 6151, Princeton, New Jersey, U.S.A., 08541-6151, from U.S. embassies or consulates, or from offices of the U.S. Information Services. The Division of Lifelong Learning at Memorial University of Newfoundland is an official E'S testing centre and may be contacted at (709) 737-7979 or online at [www.mun.ca/lifelonglearning](http://www.mun.ca/lifelonglearning).

Applicants will be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information refer to **English Language And Mathematics Placement Tests**.

### 3.2.4 Michigan English Language Assessment Battery (MELAS)

A minimum score of 85 is required on the Michigan English Language Assessment Battery (MELAS). The official results of the MELAS must be forwarded to Memorial University of Newfoundland directly from the appropriate testing authority.

Information on the Michigan English Language Assessment Battery (MELAS) testing program may be obtained from the Testing and Certificate Division, University of Michigan, 2001 North University Building, Ann Arbor, Michigan, U.S.A., 48109-1057.

Applicants will be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information refer to **English Language and Mathematics Placement Tests**.

### 3.2.5 Canadian Academic English Language (CAEL) Assessment

Minimum band scores between 50 and 60 in each of the four skills tested (Reading, Writing, Listening, Speaking), with at least two band scores of 60 are required on the Canadian Academic English Language (CAEL) Assessment. The official results of the CAEL must be forwarded to Memorial University of Newfoundland directly from the appropriate testing authority.

Information regarding the Canadian Academic English Language (CAEL) Assessment may be obtained from the Ottawa Test Centre, School of Linguistics and Applied Language Studies, Carleton University, 215 Paterson Hall, 1125 Colonel By Drive, Ottawa, Ontario, K1S 5B6.

Applicants will be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information refer to **English Language and Mathematics Placement Tests**.

### 3.2.6 Canadian Test of English for Scholars and Trainees (CanTEST)

Minimum band scores of 4.5 in the listening comprehension and reading comprehension sub-tests and a score of 4 in writing are required on the Canadian Test of English for Scholars and Trainees (CanTEST).

The official results of the CanTEST must be forwarded to Memorial University of Newfoundland directly from the appropriate testing authority.

Applicants will be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information contact the Department of English Language and Literature.

### 3.2.7 Memorial University of Newfoundland's Intensive English Program

Applicants are required to have successfully completed Memorial University of Newfoundland's Intensive English Program together with an acceptable score, as noted above, on the CAEL administered by the Department of English Language and Literature at the University.

Applicants may be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information, refer to the section of this Calendar describing the **Faculty of Arts' English as a Second Language programs**.

### 3.2.8 International English Language Testing System (IELTS)

A minimum overall band score of 6.5, with at least band 6 in each of Writing and Reading. The official results of the IELTS must be forwarded to Memorial University of Newfoundland directly from the appropriate testing authority.

Information regarding the IELTS may be obtained from the IELTS Subject Officer, University of Cambridge Local, Examinations

Syndicate, 1 Hills Road, Cambridge, CB1 2EU, U.K. or via [www.ielts.org/](http://www.ielts.org/).

Applicants will be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information refer to **English Language and Mathematics Placement Tests**.

### 3.2.9 Other

Other forms of proof of English language proficiency, acceptable to the University Committee on Admissions, may be considered.

Applicants will be required to write a placement test in English language prior to the commencement of classes to determine the appropriate course in English for which they should register. For further information refer to **English Language and Mathematics Placement Tests**.

## 3.3 Categories of Applicants, Admission Criteria and Other Information

The categories of applicants applying for admission/readmission as well as the admission criteria and other related information are listed below. Before a final admissions decision can be reached all required documents must be received. All documents must be official and be forwarded directly to the Admissions Office, Office of the Registrar from the appropriate institution(s) or source(s). Photocopied documents are not acceptable unless duly certified.

### 3.3.1 Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador

#### 3.3.1.1 Admission Criteria

The courses below are courses designed for students who intend to seek post-secondary education at the University or other institutions whose programs demand levels of proficiency equivalent to those required by the University. Applicants shall have completed Graduation Requirements for high school as set down by the Department of Education and obtained credits in the following subjects with an overall average of not less than 70% compiled from the grades received in those courses at the 3000 level.

- **English:** English 3201 (2 credits); or the former combination of Language 3101 (1 credit) and one of Thematic Literature 3201(2 credits) or Literary Heritage 3202 (2 credits).
- **Academic or Advanced Mathematics:** One of Mathematics 2200, 2201, 2204, or 2205 and one of Mathematics 3200, 3201, 3204, or 3205 (valued at 2 credits each).
- **Laboratory Science:** Four credits in Laboratory Science (i.e. Biology, Chemistry, Earth Systems, Physics), including at least two credits at the 3000 level chosen from one of Biology 3201, Chemistry 3202, Earth Systems 3209, or Physics 3204 (valued at two credits each). The remaining two credits may be selected from 2000-level courses in the above-noted subject areas or from Science 1206.
- **Social Science/Modern or Classical Language:** Two credits at the 3000 level in a Social Science area or in a Modern or Classical Language.
- **Electives:** Two credits at the 3000 level in elective courses chosen from the subjects above or from additional courses approved by the Department of Education for offering at the 3000 level for certificate purposes.

#### 3.3.1.2 Other Information

- **Early Acceptance:** Applicants in their final year of high school who have completed or who are completing a slate of courses which meets the course requirements specified in **Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador**, may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are released by the appropriate authorities, that the applicant has successfully met the requirements for admission as specified above in **Admission Criteria**. Applicants who fail to meet the minimum admission requirements at that time will have their acceptance revoked. This does not preclude the application of selective admission criteria for particular faculty/school programs.
- **Advanced Placement:** Applicants completing Advanced Placement courses through the Advanced Placement Program offered by the College board should also refer to **Transfer Credit Advanced Placement (AP)**.
- **English Language Proficiency Requirements** will apply to all applicants.

### 3.3.2 Applicants Who Have Followed the High School Curricula of Other Provinces of Canada

#### 3.3.2.1 Admission Criteria

- Applicants from other provinces of Canada are required to have successfully completed Grade XII in the University Preparatory Program (in the case of Quebec students, Secondary V Certificate) with a passing mark in each of the following Grade XII academic or advanced-level subjects and an overall average of not less than 70% compiled from the grades received in the courses selected:
  - English
  - Mathematics
  - Laboratory Science (1 of Biology, Chemistry, Earth Science, Geology or Physics)
  - Social Science/Modern Classical Language
  - Elective
- For further information concerning specific provinces, applicants may contact the University by writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by e-mail at [admissions@mun.ca](mailto:admissions@mun.ca) or through the website at [www.mun.ca](http://www.mun.ca).

#### 3.3.2.2 Other Information

- **Early Acceptance:** Applicants in their final year of high school who have completed or who are completing, a slate of courses which meets the course requirements in **Applicants Who Have Followed the High School Curricula of Other Provinces of Canada** may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are received by the Office of the Registrar from the appropriate authorities, that the applicant has

successfully met the minimum requirements for admission as specified above in **Admission Criteria**. Applicants who fail to meet the minimum admission requirements at that time will have their acceptance revoked. This does not preclude the application of selective admission criteria for particular faculty/school programs.

- **Advanced Placement:** Applicants completing Advanced Placement courses through the Advanced Placement Program offered by the College Board should refer to **Transfer Credit Advanced Placement (AP)**.
- Applicants seeking credit for enriched High School Grade XII courses or Ontario Grade XIII/OAJ courses should refer to **Transfer Credit Enriched Courses and Ontario Grade XIII/OAJ**.
- **English Language Proficiency Requirements** will apply to all applicants.

### 3.3.3 Applicants Who Have Followed the College of the North Atlantic Comprehensive Arts and Science College Transition Program

#### 3.3.3.1 Admission Criteria

Students who do not meet the requirements for admission to Memorial University of Newfoundland under one of the two categories above but who do hold a high school diploma may be eligible for admission under this category. Students applying under this category must successfully complete all qualification requirements for the award of the Comprehensive Arts and Science (CLAS) Transition Year Certificate from the College of the North Atlantic. A full outline of this program is available in the College of the North Atlantic Calendar which is available online at [www.cna.nl.ca](http://www.cna.nl.ca).

This does not preclude the application of selective admission criteria for particular faculty/school programs. Students may wish to consider the course requirements for their intended program of study at Memorial University of Newfoundland when selecting CLAS Transition Year courses for completion of the Transition Year Certificate program.

#### 3.3.3.2 Early Acceptance

Applicants who have completed, or who are completing, a slate of courses which meets the **Admission Criteria** as described above for applicants completing the College of the North Atlantic CLAS College Transition Year program may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are received by the Office of the Registrar from the College of the North Atlantic, that the applicant has successfully met the minimum requirements for admission as specified above in **Admission Criteria**. Applicants who fail to meet the minimum admission requirements at that time will have their acceptance revoked.

#### 3.3.3.3 Other Information

- English Language Proficiency Requirements will apply to all applicants.

### 3.3.4 Applicants For Concurrent Studies

#### 3.3.4.1 Admission Criteria

- Applicants in or about to enter their final year of high school with a superior academic record (i.e. normally an overall average of 85% or above) may apply to enrol in university courses (excluding distance education courses). The applicant for concurrent studies must be enrolled in a high school and completing a slate of courses that meets the course requirements for admission to the University as specified in **Applicants Who Have Followed the High School Curriculum of Newfoundland and Labrador**.
- Applicants will be required to submit a letter requesting enrolment in a specific course; an official high school transcript; and a letter from the high school principal or guidance counsellor clearly recommending admission for concurrent studies.
- Applicants must submit a completed application for admission/readmission together with the appropriate fee. For further information refer to **Fees and Charges**.
- An applicant for concurrent studies wishing to enrol in courses at the St. John's campus will be permitted to do so based on the recommendation of the University Committee on Admissions. Applicants wishing to enrol in courses at the Corner Brook campus will be permitted to do so based on the recommendation of the Special Admissions Committee at Sir Wilfred Grenfell College. Eligibility to enrol is limited to one semester but may be renewed on the recommendation of the relevant committee.
- Enrolment for concurrent studies students will normally be limited to three credit hours in a given semester. Fees and deadlines are the same as for regularly admitted students. University credit will be awarded after successful completion of the course(s) and successful completion of the requirements for admission to the University.

#### 3.3.4.2 Other Information

- **English Language Proficiency Requirements** will apply to all applicants.

### 3.3.5 Applicants Who Have Followed the Adult Basic Education Program (ABE)

#### 3.3.5.1 Admission Criteria

Applicants shall have completed the Level III Adult Basic Education Certificate (ABE) with the approved combination of thirty-six credits set down by the Department of Education and successfully completed, with an overall average of not less than 70%, the following courses as outlined below:

- **Communication Skills:** IC 3112 and IC 3321 **OR** English 3101A, 3101B, and 3101C
- **Mathematics:** One of the following groups:
  - Mathematics: IM 3115, 3211, 3212, 3213, and 3216 **OR**
  - Mathematics: IM 3218, 3219, and 3221 **OR**
  - Mathematics: 2104A, 2104B, 2104C, 3104A, 3104B, and 3104C
- **Science:** One of the following patterns:
  - Biology: IBT 3113, 3115, 3211, 3212A/B, 3214, and 3316 **OR**
  - Biology: 2101A, 2101B, 2101C, 3101A, 3101B, and 3101C
  - Chemistry: ICH 3111, 3112, 3113, 3114, 3116, 3117, 3118, and 3215 **OR**
  - Chemistry: 2102A, 2102B, 2102C, 3102A, 3102B, and 3102C

- Geology: IS 3212
- Physics: IP 3111, 3112, 3213, 3215, and 3216 **OR**
- Physics: 2104A, 2104B, 2104C, 3104A, 3104B, and 3104C

### 3.3.5.2 Other Information

- **English Language Proficiency Requirements** will apply to all applicants.

## 3.3.6 Applicants For Mature Student Status

### 3.3.6.1 Admission Criteria

- An applicant, 21 years of age or older within one month after the beginning of the semester or the session to which admission is being sought, who has not fulfilled the admission criteria outlined in any of the above categories may be admitted to the University with the approval of the University Committee on Admissions.
- Applicants for mature student status will be required to submit proof of age; two letters of reference from persons competent to assess the candidate's ability to proceed with university studies; a letter from the applicant outlining the grounds for requesting special consideration; and high school marks and marks from post-secondary institutions, if applicable.
- Applicants will be required to submit a completed application for admission/readmission together with the appropriate fee. For further information refer to **Fees and Charges**.
- Applicants for mature student status may be required to show through an interview that they possess the potential to proceed with university studies.
- Since admission as a mature student is not on the grounds of age alone, the University Committee on Admissions reserves the right to refuse admission to any applicant.

### 3.3.6.2 Other Information

- **English Language Proficiency Requirements** will apply to all applicants.

## 3.3.7 Applicants Who Are Senior Citizens

### 3.3.7.1 Admission Criteria

- An applicant, 60 years of age or older within one month after the beginning of the semester/session to which admission is being sought, may be admitted to the University as a senior citizen, upon submission of a birth certificate or other proof of age.

## 3.3.8 Applicants From Other Countries

Applicants from other countries not listed below may contact the University by writing to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7, or by e-mail at [admissions@mun.ca](mailto:admissions@mun.ca) or through the website at [www.mun.ca](http://www.mun.ca) for further information.

### 3.3.8.1 United Kingdom - Admission Criteria

- Applicants from the United Kingdom are required to have the General Certificate of Education or the Scottish Leaving Certificate of Education with a minimum of "Ordinary" or "Lower-Level" passes in five subjects acceptable to the University Committee on Admissions.
- Applicants completing the "Higher Level" subjects of the Scottish Leaving Certificate and applicants completing the "Advanced Level" subjects of the General Certificate of Education should refer to **Transfer Credit**.
- Also refer to 2.3.7.4, **Other Information**.

### 3.3.8.2 Hong Kong, Malaysia, West Indies and West Africa - Admission Criteria

- Applicants from Hong Kong, Malaysia, West Indies and West Africa are required to have the General Certificate of Education with passes in five academic subjects at the "Ordinary Level" acceptable to the University Committee on Admissions.
- Applicants completing the "Advanced Level" subjects of the General Certificate of Education should refer to **Transfer Credit**.
- Also refer to 2.3.7.4, **Other Information**.

### 3.3.8.3 United States - Admission Criteria

- Applicants from the United States must have completed a High School University Preparatory Program (Grade XII) with a passing mark in the appropriate Grade XII course in each of the five areas listed below with an overall average of not less than 70% in the courses selected.
  - English
  - Mathematics
  - Laboratory Science (1 of Biology, Chemistry, Earth Science, Geology or Physics)
  - Social Science/Modern Classical Language
  - Elective
- Also refer to 2.3.7.4, **Other Information**.

### 3.3.8.4 Other Information

- **Early Acceptance:** Applicants in their final year of high school who have completed, or who are completing, a slate of courses which meets the course requirements as specified under **Applicants From Other Countries** may be granted early acceptance prior to the writing of final examinations. This early acceptance will be subject to verification, when final examination results are received by the Office of the Registrar from the appropriate authorities, that the applicant has met the minimum requirements for admission as specified under **Applicants From Other Countries**. Applicants who fail to meet all requirements at that time will have their acceptance revoked. This does not preclude the application of selective admission criteria for particular faculty/school programs.
- Applicants from other countries should submit official matriculation certificates at least two months prior to the commencement of the

semester to which they are seeking admission. Certificates in a language other than English or French should be accompanied by notarized English translations.

- Applicants from other countries may be required to submit with their application, a statement of satisfactory financial resources.
- **English Language Proficiency Requirements** will apply to all applicants.

### 3.3.9 Applicants Transferring From Other Recognized Universities or Colleges

#### 3.3.9.1 Admission Criteria

- The admission of applicants from other recognized universities or colleges will be subject to the regulations for **Admission/Readmission to the University** in addition to **General Academic Regulations, Regulations for Continuance and Readmission**. In order to allow sufficient time for assessment of possible transfer credit, applicants should refer to **Transfer Credit** for information on the transfer credit application and evaluation process and requirements.

#### 3.3.9.2 Other Information

- In addition to the \$40.00 non-refundable application processing fee, a fee of \$40.00 is required of all applicants who apply for admission from post-secondary institutions outside of Newfoundland and Labrador and/or non-Canadian applicants. Neither fee is refundable nor will it be credited to the applicant's financial account in any circumstances. For further information refer to **Fees and Charges**.
- Students applying for transfer from other recognized universities or colleges shall submit their High School Diploma and official transcript(s) from all universities and colleges attended. All documents must be forwarded directly to the Admissions Office, Office of the Registrar from the appropriate institution(s). These documents must be certified and official and received in the Office of the Registrar not later than two months prior to the first day of lectures in any semester, as stated in the **University Diary**. An application is not considered complete until these documents have been received.
- Applicants transferring from other universities or colleges should also see **Transfer Credit**.
- **English Language Proficiency Requirements** will apply to all applicants.

### 3.3.10 Applicants Who Are Requesting Special Admission

Where circumstances warrant, applicants not meeting the regulations for **Admission/Readmission to the University** may be admitted to Memorial University of Newfoundland with the approval of the University Committee on Admissions.

#### 3.3.10.1 Admission Criteria

- Applicants must submit a completed application for admission/readmission together with the appropriate fee. For further information refer to **Fees and Charges**
- Applicants must submit a letter to the Committee outlining the grounds for requesting special consideration and provide a letter from a school principal, guidance counsellor, employer or other responsible person substantiating those grounds.
- In order to allow sufficient time for reasonable and consistent consideration of special cases, supporting letters must be received at least one week prior to the beginning of the semester to which admission is being sought.

#### 3.3.10.2 Other Information

- **English Language Proficiency Requirements** will apply to all applicants.

## 3.4 English Language and Mathematics Placement Tests

In addition to the following, more detailed information regarding the English language and Mathematics placement tests is available from the Department of English Language and Literature and the Department of Mathematics and Statistics respectively.

### 3.4.1 English Language Placement Test

1. With the exception of applicants who demonstrate English language proficiency under the regulations, **English Language Proficiency Requirements, English Language Secondary Institution** and **English Language Post-Secondary Institution**, all other applicants will be required to write a placement test in English language. This test must be taken prior to the commencement of classes to determine the appropriate English course for which an applicant should register. For further information concerning English language proficiency requirements refer to **English Language Proficiency Requirements**.
2. Students whose performance in the placement test in English language indicates that appropriate placement is in English 102F will be required to register in, and successfully complete English 102F before registering in higher level courses in English.

### 3.4.2 Mathematics Placement Test

1. Applicants intending to register for the first time in any 1000 level mathematics course must submit a score for either an Advanced Placement Calculus Examination or other standardized tests acceptable to the Department of Mathematics and Statistics.
2. Students whose score in the Advanced Placement Calculus examination or other standardized test is not acceptable to the Department of Mathematics and Statistics will be required to register in a mathematics course determined by the Department of Mathematics and Statistics.

## 3.5 Transfer Credit

Applicants wishing to be considered for advanced standing or transfer credit must submit, in addition to the Application for Admission/Readmission, an Application for Transfer Credit Evaluation which can be obtained from the Office of the Registrar.

Official transcript(s) and calendar descriptions and/or outlines of courses claimed for credit are also required and should be sent directly to Memorial University of Newfoundland from the institution attended.

In order to allow sufficient time for evaluation, these documents should be received at least two months prior to the commencement of the registration period for the semester to which the applicant is seeking admission. It is the student's responsibility to provide the pertinent documents, and until they are received, the Office of the Registrar is unable to commence an evaluation or to advise students of their standing at this University.

When transfer credit is awarded for work completed at another institution, only equivalent Memorial University of Newfoundland

course(s) and credit(s) are recorded on the Memorial University of Newfoundland transcript. Grades received from other institutions are not recorded nor included in averages.

Applicants who have not received the results of a transfer credit evaluation prior to the assigned registration time for the semester in which they propose to begin studies should contact the Admissions Office for further assistance.

Outlined below are the various categories for which transfer credit may be considered.

### 3.5.1 Advanced Placement (AP)

- Memorial University of Newfoundland may recognize for transfer credit certain courses completed through the Advanced Placement Program offered by the College Board. Award of credit for AP courses will be subject to the achievement of a minimum grade of 3 in each subject claimed for credit (in certain subjects a minimum grade of 4 may be required).
- Award of credit for AP courses will be subject to evaluation and recommendation by the appropriate University academic unit and University Regulations.
- The applicability of all transfer credits, whether specified or unspecified, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.5.2 Enriched Courses And Ontario Grade XIII/OAJ

- Certain Grade XII enriched courses and certain Ontario Grade XIII/OAJ subjects may be recognized for introductory (normally first year) credits, where applicable, provided that the subjects claimed for credit are recommended as equivalent to Memorial University of Newfoundland courses by the relevant University academic unit(s). In addition, the applicant must have obtained an overall average in these courses of not less than 65% with a passing grade in each subject claimed for credit. Applicants who have not obtained the overall average requirement of 65% in these courses will be required to have obtained a mark of not less than 65% in individual subjects claimed for credit.
- Award of credit for Grade XII enriched and Ontario Grade XIII/OAJ courses will be subject to evaluation and recommendation by the appropriate University academic unit(s) and University Regulations.
- The applicability of all transfer credits, whether specified or unspecified, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.5.3 Advanced Or Higher Levels

- The "Advanced Level" subjects of the General Certificate of Education will generally be accepted for credit to a maximum of 12 credit hours in each subject provided that a minimum grade of 'D' in each subject claimed for credit has been obtained.
- The "Higher Level" subjects of the Scottish Leaving Certificate will generally be accepted for credit at the first year level.
- Award of credit will be subject to evaluation and recommendation by the appropriate academic unit(s) and University Regulations.
- The applicability of all transfer credits, whether specified or unspecified, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.5.4 International Baccalaureate Diploma

- Memorial University of Newfoundland will consider for transfer credit the "Higher Level" subjects and certain "Standard" or "Subsidiary" level subjects, provided that the subjects claimed for credit are recommended as equivalent to Memorial University of Newfoundland courses by the relevant University academic unit(s), and the candidate has achieved a minimum grade of 4 in individual subjects claimed for credit. In certain subjects a minimum grade of 5 may be required.
- The applicability of all transfer credits, whether specified or unspecified, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.5.5 Member Institutions of the Association of Universities and Colleges of Canada (AUCC)

- All university-level course work completed by transfer students during the first two years of university study taken at universities/colleges that are ordinary members of the Association of Universities and Colleges of Canada (AUCC) will be recognized for transfer credit. In the first instance, the evaluation of such course work for appropriate credit will be conducted by University academic units. In instances where appropriate credit cannot be granted by academic units or where no University academic unit exists at this University for the evaluation of particular transfer credits, the Office of the Registrar will award the appropriate unspecified credits in an unspecified discipline.
- Applicants who have completed course work beyond the first two years of university study may be considered for further transfer credit subject to evaluation and recommendation by the appropriate academic unit(s) and University Regulations.
- The applicability of all transfer credits, whether specified, unspecified or in an unspecified discipline, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.5.6 Other Universities, Colleges and Institutes

- Memorial University of Newfoundland may recognize for transfer credit certain courses offered by the College of the North Atlantic, the Fisheries and Marine Institute of Memorial University of Newfoundland, and certain other community colleges, technical colleges, institutes and CEGEPs.
- Memorial University of Newfoundland may recognize for transfer credit certain courses offered by other recognized universities or university colleges.
- Award of credit will be subject to evaluation and recommendation by the appropriate academic unit(s) and University Regulations.
- The applicability of all transfer credits, whether specified or unspecified, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.5.7 Caribbean Advanced Proficiency Exams

- Memorial University of Newfoundland may recognize for transfer credit certain courses completed through the Caribbean Advanced Proficiency Examinations. These examinations will generally be accepted for credit to a maximum of 12 credit hours for each 2 unit

course and 6 credit hours for each 1 unit course.

- Credit will be considered on an individual basis and award of credit will be subject to evaluation and recommendation by the appropriate University academic unit(s) and University Regulations.
- The applicability of all transfer credits, whether specified, unspecified or in an unspecified discipline, is subject to appropriate program regulations.
- Information regarding course equivalencies can be obtained from the Admissions Office, Office of the Registrar.

### 3.6 Challenge for Credit

Memorial University of Newfoundland recognizes that some students may have achieved competence in certain subject areas through experience gained elsewhere. This experience, which may warrant consideration for academic credit at the undergraduate level, may consist of courses taken at "non-university" institutions or skills acquired from work or learning outside the university. It should be noted that challenge for credit is not offered for Work Terms or Internships.

Since course challenge is not offered by all academic units nor for all courses within a unit, students are advised to consult with the appropriate academic unit to determine whether or not a particular course is offered for challenge.

Where challenge for credit is offered, it is available under the following conditions:

1. Challenge for credit is available only to those students who have applied for admission or who are currently registered at the University.
2. Applications to challenge for credit are available at the Office of the Registrar. Completed applications must be submitted to the Office of the Registrar and must receive approval from the head of the academic unit offering the course(s). The academic unit may require documentary material from the student and/or an interview before making its decision whether or not to accept the challenge. The academic unit involved will be responsible for deciding the scheduling and appropriate method of evaluation, which may consist of a variety of possible modes of evaluation including written, practical and oral.
3. A student who has applied for transfer credit evaluation may not apply to challenge for credit until the transfer credit evaluation has been completed.
4. Memorial University of Newfoundland will consider for credit courses that have been granted credit through a challenge for credit process by another recognized university or college. Award of credit will be subject to University Regulations and evaluation and recommendation by the appropriate academic unit(s).
5. For the purpose of satisfying the regulations residence requirements for a first degree and residence requirements for a second degree under **General Academic Regulations (Undergraduate)**, a successful challenge for credit shall be considered the equivalent of a transfer credit and shall be recorded on the transcript as a pass (PAS). Challenge grades are not included in averages. For further information refer to **Residence Requirements for a First Degree** and **Residence Requirements for a Second Degree**.
6. The appropriate fee must be paid at the time of application. For further information refer to **Fees and Charges**. If the application is accepted for consideration, the fee is not refundable nor is the student permitted to withdraw the challenge.

## 4 Academic Advising

During their period of study at the University, students are expected to make some very important academic decisions, the consequences of which can significantly affect the course of their academic careers. While the responsibility for making these decisions rests with students individually, they are not expected to make such decisions without access to sound academic advice.

Students should seek advice on matters such as course selection, registration, dropping/adding course registrations, selecting/changing an academic program, entrance requirements for degree programs and interpretation of university regulations. It is especially true that students in the early stages of their degree program should seek academic advice.

Students who are considering enrolling at the University or who are in their first year of study at the University or who have not declared an academic program can obtain academic advice from the following sources: those students attending the St. John's Campus should contact the Academic Advising Centre, Office of the Registrar, located in the Science Building room SN 4053, at (709) 737-8801; those students attending the Sir Wilfred Grenfell College campus should contact the Manager, Academic Advising at the Office of the Registrar, located in the Arts and Science Building in room AS 270, at (709) 637-6298.

Students who have declared their major or have been accepted to a School or Faculty can obtain academic advice from a faculty adviser assigned by their School/Faculty/Department. Students should contact the head of the relevant academic unit to be assigned a faculty adviser.

Students are also encouraged to approach their professors for academic advice or for referral to the appropriate source of advice.

While it is the responsibility of students to see that their academic programs meet regulations in all respects, academic advice is provided as a service of the University.

## 5 General Academic Regulations (Undergraduate)

Memorial University of Newfoundland is governed by the principles of fairness, academic integrity and the timely provision of information and by regulations whose purpose is to ensure fair and equitable treatment for the entire University community. Some regulations deal with the normal workings of the University (continuance, registration deadlines, etc.) and pertain to all undergraduate students. Other regulations, however, especially those concerned with classification of degrees and academic conduct, apply to certain students in certain specific situations.

The Office of the Registrar will assist students with any questions or problems which arise concerning the interpretation of regulations. It is, however, the responsibility of the student to see that his or her program meets University regulations in all respects. Every student has the right to request waiver of **General Academic Regulations (Undergraduate)**. In addition, every student has the right to appeal decisions resulting from a request for waiver of **General Academic Regulations (Undergraduate)**. For further information refer to **Waiver of Regulations** and **Appeal of Regulations**.

Descriptions and regulations for individual programs can be found in the appropriate academic-unit section of this Calendar. The terminology is explained in the **Glossary of Terms Used in This Calendar**.

### 5.1 Classification of Students

#### 1. Full-time students:

- a. Students who have been admitted to this University and who are registered for the duration of any semester in at least 9 credit

- hours or at least 5 credit hours in a session are deemed full-time students.
- b. Notwithstanding the above and the regulations governing the Marine Institute technology diploma programs, students who have been declared as pre-Bachelor of Technology or pre-Bachelor of Maritime Studies are deemed full-time students if they are registered for either: three non-degree courses and a minimum of 3 degree credit hours, or two non-degree courses and a minimum of 6 degree credit hours.
  - c. Students who are registered for the duration of any semester in a co-operative education work term, the internship required of the Computer Industry Internship Option (CIIO), or the studentship required of the School of Pharmacy will be deemed full-time students.
  - d. Provided he or she has been admitted to the University, the President of the Memorial University of Newfoundland Student Union (MUNSU) shall be deemed, for the purpose of membership on University committees, the Senate and the Board of Regents, to be a full-time student during his or her tenure, to a maximum of one term, while President of the Union.
2. **Part-time students** are students who have been admitted to the University and who are registered for fewer than 9 credit hours in any semester or fewer than 5 credit hours in any session.
  3. **First-year students** are students who have earned fewer than 18 credit hours.
  4. **Second-year students** are students who have earned from 18 to 47 credit hours inclusive.
  5. **Third-Year Students** are students who have earned from 48 to 77 credit hours inclusive.
  6. **Fourth-Year Students** are students who have earned from 78 to 107 credit hours inclusive.
  7. **Fifth-Year Students** are students who have earned not fewer than 108 credit hours.

## 5.2 Degree and Departmental Regulations

Every student seeking a bachelor's degree shall comply with all the course requirements governing the award of that degree.

### 5.2.1 Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science

1. A student completing a degree program in the Faculty of Arts or in the Faculty of Science will normally follow the degree regulations in effect in the academic year in which the student first completes a course(s) at Memorial University of Newfoundland. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.
2. In the case of departmental regulations for a major or minor, a student will normally follow regulations in effect in the academic year in which the student first completes a course in that subject at the 2000 level or above which may be applied to the major or minor program respectively. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.

### 5.2.2 Year of Degree and Departmental Regulations - All Other Faculties and Schools

1. A student registered in any faculty or school, other than the Faculty of Arts or the Faculty of Science, will normally follow regulations in effect in the academic year in which the student first completes a course(s) in that faculty or school following formal admission to that program. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.
2. A student in the Faculty of Business Administration, Faculty of Education, Faculty of Engineering and Applied Science, School of Nursing, Faculty of Medicine, School of Pharmacy, or School of Social Work, who fails to obtain promotion or is not registered for full-time studies for more than one semester and is readmitted to full-time studies in the faculty or school will normally follow regulations in effect at the time of readmission.
3. A student in the School of Music who is required to withdraw from the Bachelor of Music degree program for academic reasons, or who has withdrawn from the principal applied study course will normally follow regulations in effect at the time the student is readmitted to the School. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.

### 5.2.3 Further Credentials

1. Students may obtain more than one undergraduate degree at this University but not in the same major subject. Students are also encouraged to consider proceeding to more advanced studies at the honours or graduate level.
2. A student will not be awarded the same bachelor's degree more than once by this University (e.g., if a student has been awarded a Bachelor of Arts degree from this University the student will not be awarded a second Bachelor of Arts degree from this University).
3. A student who has completed a Bachelor's degree from this University may complete the requirements for another major or minor. A notation indicating the completion of the requirements for the additional major or minor will be included on the student's academic record.
4. For further information refer to **Residence Requirements - Second Degree**.

### 5.2.4 Time Limits

1. Notwithstanding these regulations, the University may place limits on the time permitted to complete a program under any given set of regulations. In addition, detailed scheduling of courses and/or practical experience, e.g., work terms, internships, field placements, may be changed as the University deems appropriate or necessary.

## 5.3 Residence Requirements

### 5.3.1 General Information

1. Residence requirements are met by attendance at classes on a campus and/or by the number of credit hours completed at this University.

### 5.3.2 First Degree

1. For a first bachelor's degree students shall have completed a minimum of 24 credit hours through attendance at classes on the campus of a recognized university or university college. Distance education courses may be used to satisfy the requirements of this clause only for the degrees of Bachelor of Business Administration, Bachelor of Business Administration (Honours), Bachelor of Maritime Studies, Bachelor of Nursing (Post-RN) and Bachelor of Technology.

2. Students shall complete at this University the last 30 credit hours required for the degree. There are exceptions to this requirement as follows:
  - Where special circumstances warrant, and only if at least half the courses required for the degree are completed at this University, the appropriate committee on undergraduate studies may permit students to complete, at another recognized institution, not more than 15 of the last 30 credit hours or equivalent required for the degree. The courses which comprise those credit hours must be approved by the appropriate academic unit.
  - Courses taken at universities and/or colleges which are included in formal institutional exchange agreements with this University are not subject to the requirements of this clause.
  - Courses taken at Francophone universities, as required under specific degree program regulations, are not subject to the requirements of this clause.
3. Students who have taken courses in the subject of their major at another university are required to complete at least 12 credit hours in that subject at this University.

### 5.3.3 Second Degree

A student who has already completed a bachelor's degree may undertake a second bachelor's degree, but not in the same major, subject to the condition outlined below:

1. Every student for a second bachelor's degree, with the exception of students completing the Bachelor of Technology or Bachelor of Maritime Studies degrees, shall complete at least 30 credit hours at this University beyond those required for the first degree. These credit hours must be applicable to the degree sought. Students who have completed a first degree at this University may be permitted to take at another university up to 6 of the 30 credit hours required in this clause.
2. Students completing the Bachelor of Technology or Bachelor of Maritime Studies as a second degree must complete at least an additional 9 credit hours beyond their first degree and the work completed as required for admission to the Bachelor of Technology/Bachelor of Maritime Studies degree. These credit hours must be applicable to the degree sought.

## 5.4 Registration

### 5.4.1 General Information

1. Students register using the Student Web/Self-Service at [www.mun.ca/regoff/](http://www.mun.ca/regoff/).
2. No student may register after the end of the registration period. In the case of accelerated courses and courses offered outside the normal time frame of a semester or session the registration period will be prorated with respect to all associated deadlines.
3. The University reserves the right to require a student to withdraw without academic prejudice from a course, courses, or program in which the student is improperly registered.

### 5.4.2 Student Responsibility

1. Students are strongly encouraged to seek academic advice before registering.
2. The responsibility for taking all steps necessary for registering and ensuring that a student's registration is appropriate, correct, and proper rests solely with the student. The University will make every effort, through its various academic counselling and advising services, to ensure that students are informed of the suitability and accuracy of their registrations.
3. Students must register for courses at or after the assigned registration time and before the end of the registration period as defined in the **University Diary**.

### 5.4.3 Registration Priority

1. The University uses a registration priority system that assigns the date and time that students register. Priority for registration is determined by a combination of three factors: closeness to graduation (i.e., number of credit hours completed); a student's academic achievement (i.e., GPA), and a student's program of study (i.e., degree, major, minor).
2. Academic units may reserve spaces in course sections for students in a particular degree, major, minor, or the like.
3. For further information on registration priority consult the publication *Undergraduate Registration Procedures*.

## 5.4.4 Adding Courses

### 5.4.4.1 General Information

- Specific deadlines for adding courses in any semester or session are stated in the **University Diary**. In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for adding courses will be prorated accordingly.
- No course will be considered to have been added until the Registrar has received official notification and certified the add.
- Attending classes or informing an instructor of the intent to add a course does not constitute an official adding of a course.
- Only under special circumstances may a course(s) be added after the end of the registration period. For information contact the Office of the Registrar.
- Before the end of the registration period a student may, upon formal notification to the Registrar, change the course(s) for which he or she was originally registered by adding and/or dropping a course(s).

### 5.4.5 Course Weight/Course Load

Course load is the sum of course weights. In a session the course load is double. For the purposes of determining course load, each course is weighted with the credit hour value associated with that course, unless otherwise specified as follows:

- The course weight of each of the A and B components of a linked course shall be equivalent to one half of the credit hour value of the B component.
  - The course weight of courses with C or F as the last character shall be three.
  - The course weight of courses with W as the last character will vary according to individual program requirements.
1. **Semester Course Load:** The normal course load in a semester shall be 15 credit hours, except where academic regulations require more than that number. No student shall register for more than 15 credit hours or more credit hours than required by degree

regulations in a semester except with the written permission of the dean, director, principal, or executive director of the student's faculty, school, college or institute.

2. **Session Course Load:** The normal course load in a session shall be 6 credit hours. No student shall register for more than 6 credit hours in a session except with the written permission of the dean, director, principal, or executive director of the student's faculty, school, college or institute.

## 5.4.6 Dropping Courses

### 5.4.6.1 General Information

- Specific deadlines for dropping courses in any semester or session are stated in the **University Diary**. In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for dropping courses without academic prejudice will be prorated accordingly.
- No course will be considered to have been dropped until the Registrar has received official notification and certified the drop.
- Ceasing to attend classes, or informing an instructor of the intent to drop a course, does not constitute an official dropping of a course.
- A student who drops all courses in any given semester will be considered to have withdrawn from the University for that semester. A student who has withdrawn from the University, before the start of classes in any semester, is deemed to be not registered for that semester. For information regarding applying for readmission to the University refer to **Admission/Readmission to the University (Undergraduate)**.
- In the event that a student drops a co-requisite course, the student will be required to drop the course for which that course is a co-requisite.
- Before the end of the registration period a student may, upon formal notification to the Registrar, change the course(s) for which he or she was originally registered by adding and/or dropping a course(s).

### 5.4.6.2 Dropping Courses Without Academic Prejudice

- Until the end of the second week following the first day of lectures in any semester, a student may, upon formal notification to the Registrar, drop a course without academic prejudice. A course dropped under these circumstances will not be entered on the student's record.
- From the beginning of the third week to the end of the seventh week following the first day of lectures in any semester, a student may, upon formal notification to the Registrar, drop a course without academic prejudice. A grade of DR will be assigned in these circumstances and will be entered on the student's record.
- From the beginning of the eighth week following the first day of lectures in any semester to the last day to add courses in the following semester, a student who is prevented from completing the requirements of a course by illness, bereavement, or other acceptable cause, duly authenticated in writing, may drop a course without academic prejudice. This may occur only with the approval of both the course instructor and the head of the academic unit of the student's program or in the case of students who have not declared a program, the head of the academic unit of the course in question. A grade of DR will be assigned in these circumstances and will be entered on the student's record.

### 5.4.6.3 Dropping Courses With Academic Prejudice

Students dropping courses except under the provisions outlined under **Dropping Courses Without Academic Prejudice** will have the letter grade of DRF and a numeric grade of 0% entered on his or her record for each course dropped.

### 5.4.6.4 Work Terms

Students registered for a co-operative education work term should refer to the appropriate academic-unit section of this calendar with respect to regulations regarding work terms.

### 5.4.6.5 Tuition Fee Implications

- A student who drops a course within two weeks following the first day of lecture in any semester will not be liable for tuition fees for that course. Tuition fee refunds for dropping courses after that period will be prorated in accordance with **Fees and Charges - Tuition Refunds Based on Withdrawal from Course(s)**.
- In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for dropping courses without financial liability will be prorated accordingly.

## 5.4.7 Withdrawing from the University

### 5.4.7.1 General Information

- A student who drops all courses in any given semester will be considered to have withdrawn from the University for that semester. A student who has withdrawn from the University, before the start of classes in any semester, is deemed to be not registered for that semester. For information regarding applying for readmission to the University refer to **Admission/Readmission to the University (Undergraduate)**.
- A withdrawal is not official until the Registrar has received official notification and certified the changes.
- Ceasing to attend classes, or informing an instructor of the intent to drop a course, does not constitute an official withdrawal.

### 5.4.7.2 Withdrawing from the University Without Academic Prejudice

- Until the end of the second week following the first day of lectures in any semester as stated in the **University Diary**, a student may, upon formal notification to the Registrar, withdraw from the University without academic prejudice. Courses dropped under these circumstances will not be entered on the student's record.
- From the beginning of the third week to the end of the seventh week following the first day of lectures in any semester as stated in the **University Diary**, a student may, upon formal notification to the Registrar, withdraw from the University without academic prejudice. The letter grade DR will be assigned to all courses in these circumstances.
- From the beginning of the eighth week following the first day of lectures in any semester to the last day to add courses in the following semester as stated in the **University Diary**, a student who is prevented from completing the semester by illness, bereavement, or other acceptable cause, duly authenticated in writing, may withdraw from the University without academic

prejudice. This may occur only with the approval of the dean, director, principal, or executive director of the student's faculty, school, college or institute and upon formal notification to the Registrar. The letter grade DR will be assigned to all courses in these circumstances.

- In the case of sessions, accelerated courses, and courses offered outside the normal time frame of a semester or session, deadlines for withdrawing from the University will be prorated accordingly.
- Students who withdraw from the University for medical reasons for one or more semesters may not be permitted to re-enter unless they can provide medical evidence, satisfactory to the Director of Student Health Service, of fitness to pursue studies.

#### 5.4.7.3 Withdrawing from the University With Academic Prejudice

Any student withdrawing from the University except under the provisions outlined under **Withdrawing from the University Without Academic Prejudice** will have the letter grade DRF and a numeric grade of 0% entered on his or her record for each course withdrawal.

#### 5.4.7.4 Work Terms

Students registered for a co-operative education work term should refer to the appropriate academic-unit section of this calendar with respect to regulations governing withdrawing from work terms.

### 5.4.8 Auditing of Courses

1. Individuals auditing courses must have met the University's admission or readmission requirements as stated in **Admission/Readmission to the University (Undergraduate)**.
2. In order to audit any course, an individual must receive permission from the instructor in that course and the head of the academic unit in which the course is offered. Permission cannot be given until the number of registrations is known. Factors to be considered shall include class size, impact on students registered for credit, and other matters judged relevant by the academic unit.
3. Individuals auditing courses shall limit their participation to that deemed appropriate by the instructor.
4. Auditors are not permitted to write formal examinations or have their work formally assessed.
5. Audited courses will not be considered as meeting prerequisites, admission, or course requirements for any undergraduate programs, nor will audited courses be listed on the individual's transcript of University studies.

### 5.5 Attendance

1. Attendance regulations must be approved by the Senate and will be allowed only in cases where the academic unit has demonstrated that attendance is necessary for safety reasons, for teaching practical skills, or for attaining other clearly specified objectives. This may include an attendance regulation that may, by itself, cause a student who contravenes the regulation to fail or be dropped from a course.
2. The course where an attendance regulation is to be enforced must have the statement "attendance required" included in the calendar description.

### 5.6 Evaluation

#### 5.6.1 Method of Evaluation

1. The method of evaluation in any course shall be determined by the academic unit subject to all University regulations.

#### 5.6.2 Informing Students of the Method of Evaluation

1. The method of evaluation and required prerequisites or co-requisites shall be made known to students before the end of the first week of lectures in any semester or session.
2. This information shall be in typewritten or computer-generated format and shall be provided in paper form to the students present in each class during the first week of lectures. In the case of Web-based courses, this information may be provided electronically.
3. The following shall be included in the explanation of the method of evaluation:
  - the allocation of marks for all parts of the evaluation, e.g., assignments, laboratory projects, presentations, tests, mid-term examinations, final examinations;
  - the approximate dates of all parts of the method of evaluation that will take place in class, e.g., tests, mid-term examinations, presentations, and assignments; and
  - the dates on which all parts of the evaluation to be completed out of class are due.
4. Methods used for notification of grades earned in all parts of the method of evaluation and for the return of graded evaluative instruments will be in keeping with the Access to Information and Protection of Privacy Act.
5. When it is determined that there will be a common final examination for day and evening sections of a course, students must be so informed in the explanation of the method of evaluation for the course and prior to the end of the registration period.

#### 5.6.3 Changing the Method of Evaluation

1. The explanation of the method of evaluation, as made available to the class in the first week of lectures, shall be changed only if:
  - exceptional circumstances warrant the change; and
  - the head of the academic unit approves the proposed change; and
  - accommodation is made for students who demonstrate to the faculty member that they are disadvantaged by the change.

#### 5.6.4 Good Writing Skills

1. Regardless of the method of evaluation, good writing skills are required for effective communication. Students are, therefore, expected to demonstrate proficiency in logical organization, clarity of expression and grammatical correctness in their writing. For further information refer to **Grading - Good Writing**.

#### 5.6.5 Completing a Course

1. When it is prescribed that students, once registered, must complete a particular course, it is understood that they shall, when

required, attend lectures given in the course, perform laboratory projects, and exercises that may be assigned and any other written or oral exercises prescribed, write or otherwise answer tests and examinations given in the course throughout the semester or session, including any final examinations, and shall obtain an overall passing grade in the course in accordance with the prescribed evaluation procedures.

## 5.7 Examinations

### 5.7.1 Scheduling of Examinations

1. No laboratory examinations totalling more than one laboratory period in length shall be given in any laboratory course in any week during a lecturing period in any semester or session. Such examinations shall be administered in the laboratory time period assigned for that course section. The application of this clause in the Faculty of Engineering and Applied Science and the Faculty of Medicine is subject to interpretation by the appropriate committee on undergraduate studies. The Senate Committee on Undergraduate Studies may grant a waiver of this clause for laboratory examinations in individual courses in a given term upon recommendation of the appropriate committee on undergraduate studies. Such waivers will be considered only if it can be shown that such laboratory examinations do not conflict with regularly scheduled sessions of another course for any student involved.
2. Any other examinations shall not extend beyond the class period assigned to that course section in any week during a lecturing period in any semester or session. The application of this clause in the Faculty of Engineering and Applied Science and the Faculty of Medicine is subject to interpretation by the appropriate committee on undergraduate studies. The Senate Committee on Undergraduate Studies may grant a waiver of this clause for examinations in individual courses in a given term upon recommendation of the appropriate committee on undergraduate studies. Such waivers will be considered only if it can be shown that such examinations do not conflict with regularly scheduled sessions of another course for any student involved.
3. During the last two weeks of the lecturing period in any semester or the last week of the lecturing period in any session, no examinations or assignments, whether in-class or take home, shall be administered or assigned. However, assignments of which students have been notified under **Evaluation** may be submitted and oral and laboratory examinations may be administered. Courses taught outside the regular time-frame are exempt from the application of this regulation. The appropriate faculty or school undergraduate studies committee may, upon the recommendation of the head of an academic unit, grant a waiver of this clause with the proviso that the total value of all examinations or assignments thereby permitted in a course shall not exceed 20% of the final mark in that course. Such waivers will be considered only in exceptional circumstances or in the case of particular courses where it can be shown that the nature of the course determines the need for evaluation during the normally prohibited period. In the latter case, students must be notified of the method of evaluation in accordance with **Evaluation**. At the end of each semester, the Senate Committee on Undergraduate Studies must be notified of waivers granted.
4. No examinations of any nature shall be held between the last day of lectures and the start of the formal examination period in any semester or session. The application of this clause to the Faculty of Education (with respect to accelerated courses), the Faculty of Medicine, the School of Human Kinetics and Recreation (with respect to accelerated courses and courses offered outside the normal time frame during the Spring semester) and the School of Nursing is subject to interpretation by the appropriate committee on undergraduate studies.
5. In the event of an officially declared emergency which results in the cancellation or interruption of in-class examinations or tests previously scheduled and notified to be held in the final class period of the third last week of lectures of a semester or the second last week of lectures of a session, teaching units may reschedule such examinations or tests in the next regularly scheduled class or as early as possible in the second last week of lectures of a semester or the last week of lectures of a session. In no circumstances can the rescheduled examinations or tests be held in the last week of lectures of a semester.

### 5.7.2 Scheduling of Final Examinations

1. Final examinations, if any, whether of the normal two-hour duration or longer, shall be held in each course at the end of the semester during which it was given in accordance with the schedule of examinations published by the Office of the Registrar. The application of this clause to the Bachelor of Education (Intermediate/Secondary) and all degree programs offered by the School of Human Kinetics and Recreation is subject to interpretation by the appropriate committee on undergraduate studies.
2. Normally, course sections offered during the day will have their final examinations, if any, scheduled in the day, and course sections offered in the evening will have their final examinations, if any, scheduled in the evening. When a student is unable for good reason to write a final examination scheduled outside the provisions of this clause, the student will be entitled to write a deferred examination. For further information refer to **Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations**.
3. When an academic unit determines that there will be a common final examination for day and evening sections of a course, students must be so informed in the explanation of the method of evaluation for the course and prior to the end of the registration period.
4. Where possible, academic units should inform the Office of the Registrar when they submit their class schedules if it is anticipated that a common final examination will be required for day and evening sections of a course, so that this information can be publicized in the class schedule for the appropriate semester. Academic units should indicate whether the examination is to be held during the day or the evening.

### 5.7.3 Exemptions From Final Examinations and Procedures for Applying to Write Deferred Examinations

1. A student who is prevented from writing a final examination by illness or bereavement or other acceptable cause, duly authenticated in writing, may apply, with supporting documents, to have the course graded or have the final examination deferred. This application must be made within one week of the original date of the examination to the head of the appropriate academic unit.
2. The decision regarding the request of the student to have a course graded or have the final examination deferred, including information on the appeals route open to the student in the case of a negative decision, must be communicated in writing to the student and to the Registrar within one week of the receipt of the student's complete application. For further information refer to **Appeal of Regulations**.
3. In those cases where the academic unit accepts the extenuating circumstances the student may be permitted to write a deferred examination or, with the consent of both the academic unit and the student, the grade submitted may be based on term work alone. An interim grade of ABS will be assigned by the academic unit in the case of a student granted a deferred examination. This grade will be replaced by the final grade which must be received by the Registrar within one week following the start of classes in the next academic semester or session.
4. A student who is prevented from writing a deferred examination by illness, bereavement, or other acceptable cause, duly authenticated in writing, may apply, with supporting documents, to the head of the appropriate academic unit to have the deferred

examination further deferred. This application must be submitted within one week of the scheduled date of the deferred examination. The examination will be postponed to a time not later than the last date for examinations in the semester following that in which the student was enrolled in the course.

#### 5.7.4 Access to Final Examination Scripts

1. A student has a right to see his or her final examination script. However, the script is the property of the University and the University retains full possession and control of the script at all times. This regulation upholds the authority and judgement of the examiner in evaluation.
2. To access a final examination script, a student must make a written request to the head of the academic unit in which a course is offered. This request is subject to the following conditions:
  - Any such request must be made following release of examination results for the semester in which the course was taken and within one month of the official release of grades by the University.
  - The final examination script must be viewed in the presence of the course instructor or other person delegated by the head of the academic unit. Both the instructor and the student have the right to be accompanied by a registered student or a member of the faculty or staff of the University.
  - The final examination script must not be taken away or tampered with in any way.

#### 5.7.5 Rereading of Final Examination Scripts

1. A student may apply to have a final examination script reread whether or not he or she has obtained a passing grade in that course.
2. A student who wishes to have a final examination script reread must make application in writing to the Office of the Registrar within one month of the official release of grades by the University. When a rereading is requested, the University will make every reasonable attempt to have the rereading conducted by a faculty member(s) other than the original marker(s). Students are advised to refer to relevant academic units for policies and procedures governing re-reads of examinations.
3. An appropriate fee per course must be paid at the time of application. For further information refer to **Fees and Charges - Reread of Final Examination Fee**. If the final numeric grade is raised after rereading, the fee is refunded. If the final numeric grade is unchanged or lowered, the fee is forfeited.

### 5.8 Grading

#### 5.8.1 Letter Grades, Numeric Grades and Points Per Credit Hour

The academic standing of each student will be based upon the course(s) for which he or she was registered as of seven weeks following the first day of lectures in any semester. The final evaluation submitted to the Registrar shall consist of one of the following letter grades with the appropriate numeric grade and points awarded for each credit hour as follows:

Letter Grades	Numeric Grades	Points Per Credit Hour
A	80-100%	4
B	65-79%	3
C	55-64%	2
D	50-54%	1
F	below 50%	0
PWD (pass with distinction) - indicates excellent performance	no numeric grade	not applicable
PAS (pass) - indicates performance meets expectations	no numeric grade	not applicable
FAL (fail) - indicates failing performance	no numeric grade	not applicable
DR (drop) - drop without academic prejudice	no numeric grade	not applicable
DRF (drop fail) - drop with academic prejudice	0%	0
ABS (absent) - absent for acceptable cause	no numeric grade	not applicable
INC (incomplete) - incomplete pending final grade	no numeric grade	not applicable
AEG (aegrotat)	no numeric grade	not applicable

#### 5.8.2 Descriptions of Letter Grades

- "A" indicates excellent performance with clear evidence of: comprehensive knowledge of the subject matter and principles treated in the course, a high degree of originality and independence of thought, a superior ability to organize and analyse ideas, and an outstanding ability to communicate.
- "B" indicates good performance with evidence of: substantial knowledge of the subject matter, a moderate degree of originality and independence of thought, a good ability to organize and analyse ideas, and an ability to communicate clearly and fluently.
- "C" indicates satisfactory performance with evidence of: an acceptable grasp of the subject matter,

some ability to organize and analyse ideas, and an ability to communicate adequately.

- "D" indicates minimally acceptable performance with evidence of:
  - rudimentary knowledge of the subject matter,
  - some evidence that organizational and analytical skills have been developed, but with significant weaknesses in some areas, and a significant weakness in the ability to communicate.
- "F" indicates failing performance with evidence of:
  - an inadequate knowledge of the subject matter,
  - failure to complete required work,
  - an inability to organize and analyse ideas, and
  - an inability to communicate.

### 5.8.3 Good Writing

1. Students at all university levels should have reasonably sophisticated and effective communication skills and are expected to demonstrate proficiency in logical organization, clarity of expression and grammatical correctness. Good writing is expected of students in all courses. Upon graduation students should be capable of expressing complicated ideas clearly and concisely and should be able to develop arguments in a logical manner. When, in the judgement of the instructor, a student persistently fails to display a reasonable standard of writing, the instructor may consider this when assigning a final grade.
2. Good writing is characterized by the following qualities:
  - **Content**
    - critical insight and freshness of thought,
    - clear and penetrating ideas,
    - perceptive, pure grasp of subject,
    - intelligent use of primary and secondary sources, and
    - a sense of completeness about the handling of the topic.
  - **Organization**
    - effective introduction and conclusion,
    - main idea is clear and logical development follows,
    - smooth transitions, and
    - good use of details.
  - **Style**
    - appropriate, accurate, precise and idiomatic diction, and
    - sentences varied in kind, length and effect.
  - **Mechanics**
    - consistently correct spelling,
    - accurate use of punctuation,
    - grammatically correct sentences, and
    - well organized paragraphing.

### 5.8.4 Linked Course

1. A linked course is a course comprising two components and is normally identified by the letter "A" or "B" as the last character of the course number. No credits or points are assigned to the "A" part of a linked course. No credits or points are given until the "B" part is completed. Credits and points will be awarded upon successful completion of the B part and will be attributed to the B part only.

### 5.8.5 Incomplete Grades

1. A student who, for extenuating circumstances, is unable to complete the requirements of a course may, with the approval of the appropriate academic unit, be granted a letter grade of incomplete (INC) in the course. This grade shall be valid for only one week following the start of classes in the next academic semester or session as stated in the **University Diary**. In the event that a numeric grade has not been received by the Registrar by this deadline the INC shall be changed to the letter grade F with a numeric grade 0%.
2. Students unable to complete the requirements of a course by the end of one week following the start of classes in the next academic semester or session as stated in the **University Diary**, may be permitted an extension of time not exceeding the end of the semester following that in which the INC was given. Such an extension may be granted by the appropriate committee on undergraduate studies, on the recommendation of the academic unit. In special circumstances, students registered for a Social Work Internship may be given an extension not exceeding two semesters. Students registered in one of HKR 2210, 2220, 3210, 3220, 4210 or 4220 may be given an extension not exceeding three semesters, by the Academic Council of the School of Human Kinetics and Recreation.

### 5.8.6 Calculation of Averages

Only courses evaluated using final grades with associated numeric grades and points are included in the calculation of all averages. In calculating current averages the grades obtained in the A part of linked courses shall be included, while the grades obtained in foundation courses and work terms shall be excluded. Credit received as a result of transfer credit and challenge for credit are not included in the calculation. These calculations may be expressed as averages or grade point averages.

1. **Current average:** is a method of expressing a student's performance for the semester. The current average is based on final grades. The current average is calculated by computing the sum of the numeric grade in each course multiplied by the course weight and dividing that sum by the total of the course weights.
2. **Cumulative average:** is a method of expressing a student's performance over his or her academic career recorded since the beginning of the 1980-81 academic year. Where any given course, or an equivalent or cross-listed course, is attempted two or more times and is not repeatable, only the best attempt is included in the average. The cumulative average is calculated by computing the sum of the numeric grade in each course multiplied by the credit hour value and dividing that sum by the total number of credit hours attempted.
3. **Current grade point average:** is a method of expressing a student's performance for the semester. The points associated with each letter grade are multiplied by the course weight. The current grade point average is calculated by dividing the total number of grade

points earned by the total of the course weights.

- Cumulative grade point average: is a method of expressing a student's performance over his or her academic career recorded since the beginning of the 1980-81 academic year. Where any given course, or an equivalent or cross-listed course, is attempted two or more times and is not repeatable, only the best attempt is included in the average. For each course used in the calculation, the points associated with each letter grade are multiplied by the course credit hour value. The cumulative grade point average is calculated by dividing the total number of points earned by the total number of credit hours attempted.

### 5.8.7 Aegrotat Status

- Students in their final semester or session before graduation, who have been absent from a final examination where one has been scheduled or who have been prevented from completing the semester's or session's work, for reasons which qualify them to write a deferred examination, may, in exceptional circumstances, be given credit for the course on the recommendation of the Senate Committee on Undergraduate Studies.
- Application for aegrotat status, with full details duly authenticated, must be made to the Registrar, indicating each course for which the application is being made, within one week after the last day of final examinations.

## 5.9 Dean's, Director's, and Principal's List

### 5.9.1 General Information

Memorial University of Newfoundland acknowledges the academic success of its students in various ways. One of these is by naming students to the appropriate dean's, director's, or principal's list. Annually, every academic unit will name to its list a maximum of 10% of its students, selected on the basis of academic performance in the nominating period.

### 5.9.2 Procedure and Criteria

- At the end of the Winter semester, academic units will nominate students to the appropriate list based on academic performance in the three preceding semesters, Spring, Fall, and Winter.
- Students on the dean's, director's, and principal's lists will be selected based on the following minimum criteria:
  - The student must have obtained a grade point average of at least 3.5 in the credit hours completed in the preceding Spring, Fall, and Winter semesters.
  - The student must have attended full-time in at least two of the three preceding semesters.
  - The student must have successfully completed at least 27 credit hours over the preceding Spring, Fall, and Winter semesters, although an academic unit may require that the 27 credit hours be completed in any two of the three preceding semesters.
  - In consideration of specific program requirements, individual academic units may include students who have successfully completed, over the three preceding semesters, a course load other than 27 credit hours, but which is consistent with the course load defined by the program.
- A notation will be placed on the student's transcript indicating that the student has been named to the dean's, director's, or principal's list.

## 5.10 Continuance and Readmission

These regulations will be applied at the end of each semester to any student who is registered in a course load of at least 9 credit hours on the last day for adding courses in a semester or session, including a student who later drops courses and changes status to that of a part-time student.

### 5.10.1 Eligibility for Continuance

#### 5.10.1.1 Academic Criteria for Continuance in the University

At the end of each semester, in order to be eligible for continuance in the University, a student is required either:

- to obtain a current average of 50% in the courses for which he or she is registered on the last day for dropping courses without academic prejudice, or
- to have obtained a cumulative average of at least 55%.

#### 5.10.1.2 Academic Criteria for Continuance in Programs of Study

- Most academic units have separate promotion or advancement criteria for continuation of students in specific programs of study. Students are advised to check the regulations of the appropriate academic unit for details. The appropriate committee on undergraduate studies may, at any time, require a student to withdraw for academic reasons.

#### 5.10.1.3 Other

- Students who meet the academic criteria for continuance in the University but who have not registered for courses for two or more consecutive semesters are required to apply for readmission to the University in accordance with the **Admission/Readmission to the University (Undergraduate)** regulations.
- These regulations notwithstanding, the continuance of any student at this University is subject to all University regulations.

### 5.10.2 Academic Warning

- Any student who, for the first time, fails to meet the requirements outlined under **Eligibility for Continuance - Academic Criteria for Continuance in the University** will be given an academic warning.
- Certain conditions may be set for students who have been given an academic warning. Any conditions will be set by the head of the appropriate academic unit and will be administered in conjunction with the Registrar. These conditions may include, but are not limited to the following:
  - restrictions on course load,
  - enrollment in courses designed to improve academic competence,
  - involvement with programs designed to enhance success in university studies, such as those which teach time management,

- study, or similar skills,
- regular meetings with a faculty advisor.

### 5.10.3 Ineligibility for Readmission

1. Any student who has previously been given an academic warning and who again fails to meet the requirements, as outlined under **Eligibility for Continuance - Academic Criteria for Continuance in the University**, at this or another recognized university or college, will not be eligible for readmission to the following two semesters.
2. Any student who has previously been given an academic warning and who fails, for the second time, to meet the requirements, as outlined under **Eligibility for Continuance - Academic Criteria for Continuance in the University**, at this or another recognized university or college, will not be eligible for readmission to the following three semesters. To be considered for readmission after this period, the student will need the recommendation of the head of the appropriate academic unit, or, in the case of a student with an undeclared program of study, a senior faculty advisor.
3. Any student who fails, for the third time, to meet the requirements, as outlined under **Eligibility for Continuance - Academic Criteria for Continuance in the University**, at this or another recognized university or college, will be considered for readmission only on appeal following a period of withdrawal of at least six semesters. This appeal will be considered by the Senate Committee on Undergraduate Studies only on the recommendation of the head of the appropriate academic unit, or in the case of a student with an undeclared program of study, a senior faculty advisor.
4. Certain conditions may be set for students who are readmitted after a period of ineligibility. These conditions are outlined under **Academic Warning**.
5. Academic units reserve the right to deny readmission where a student has been determined to have engaged in unprofessional conduct. The code of ethics of the appropriate profession will serve as the guidelines when making this determination. However, should there not be an appropriate code of ethics, the following standard will apply: unprofessional conduct is that conduct which involves a breach of the duties required by professional ethics.
6. The University reserves the right to deny a student readmission where, in the opinion of the Senate Committee on Undergraduate Studies, following appropriate professional consultation, there is a reasonable likelihood that the student's health or behaviour could endanger the lives, health, or safety of other persons on-campus or off-campus where such a location pertains to University studies. If the University denies a student readmission, the student must be advised of the nature of the case, must be provided with an opportunity to answer the case, and must be advised of the right to appeal before the penalty imposed takes effect. For information regarding the appeal procedure refer to **Appeal of Regulations**.
7. These regulations notwithstanding, the readmission of any student at this University is subject to all University regulations.

## 5.11 Academic Misconduct

### 5.11.1 Principles

Within the University community there is a collective responsibility to maintain a high level of scholarly integrity. Students are expected to adhere to those principles which constitute proper academic conduct. Academic misconduct cannot be condoned or even appear to be condoned. Students have the responsibility to know which actions, as described under **Academic Offences**, could be construed as dishonest or improper. Students are reminded that for further guidance on proper scholarly behaviour they should seek advice from their instructors and faculty advisors.

### 5.11.2 General Information

1. These procedures shall apply to all academic offences relating to undergraduate studies involving, but not limited to, those students who either have been or who are enrolled at Memorial University of Newfoundland. Notification of an allegation of academic misconduct will be forwarded to the last known mailing address of the student as noted on the files at the Office of the Registrar, and to the official University email address of the student. The University reserves the right to implement action under these procedures where an allegation has been made against a student but where reasonable efforts to contact the student are unsuccessful.
2. Meetings and interviews stipulated in this regulation will be held in person, or at a distance using telephone or other interactive technologies.
3. A student who wishes to attend classes, laboratories or other educational activities while an investigation under these procedures is being carried out, can do so only with the written permission of the academic unit concerned. Permission to do so will only be granted with the understanding that if the allegation of academic misconduct is proven and the penalty involves either probation or suspension, credit will not be granted for work completed prior to a finding of guilt. This provision excludes students charged with an offence under the *Code of Student Conduct*. For information regarding the *Code of Student Conduct* contact the **Office of Student Affairs and Services**.
4. Although a student can continue in a program of studies, if eligible, while an investigation under these procedures is being carried out, the University does not accept liability for any consequences to the student's progress. However, the University may take these consequences into account, as appropriate and to the extent feasible, in cases where charges are dropped or the student is not found guilty. The consequences arising from an investigation and any negative decision rendered may include retroactive effects on grades or promotion within a program.
5. A student accused of academic misconduct may consult advisors or facilitators. Such advisors may include a representative from a Memorial University of Newfoundland student union, an international student advisor, a faculty advisor, a University counselor or a faculty member who is familiar with these Regulations and who is willing to undertake the role of advisor whether resolution is sought through **Procedures for Resolution of Alleged Academic Offences at the Unit Level** or **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies**.

### 5.11.3 General Procedure

1. When a member of the University community (faculty, staff, student) has grounds for belief that an academic offence has been committed there should be an attempt between the parties concerned to resolve allegations of minor offences. If the alleged offence is not deemed to be minor by the accuser, or resolution proves impossible, or one party is dissatisfied with the resolution, the matter shall be reported, without delay, to the head of the appropriate academic or administrative unit. If resolution is achieved and it is agreed that an academic offence has been committed, then the offence, together with the penalty applied, shall be reported to the head of the academic or administrative unit.
2. Where resolution is not achieved, and if in the judgment of the head of the academic or administrative unit, the alleged offence warrants resolution at the unit level, the individuals involved will be advised to attempt to resolve the matter through **Procedures for**

**Resolution of Alleged Academic Offences at the Unit Level.** In the event that no resolution is possible through these procedures between the individual parties, the head of the academic or administrative unit will institute proceedings through the Senate Committee on Undergraduate Studies.

3. If, in the judgment of the head of the academic or administrative unit, the alleged offence against University regulations is such as to warrant resolution through the Senate Committee on Undergraduate Studies, the head of the academic or administrative unit will refer the matter to the Secretary of the Senate Committee on Undergraduate Studies, and **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies** will be implemented.
4. In all cases, it is the responsibility of the academic or administrative unit to ensure that fairness and impartiality are achieved in the treatment of students.

### 5.11.4 Academic Offences

1. In the following section the plural shall be deemed to include the singular.
2. Academic offences shall be deemed to include, but shall not be limited to, the following:
  - Cheating on examinations or any other tests, theses, assignments, work term reports, projects or internship reports: includes copying from another student's work or allowing another student to copy from one's own work; consulting with any unauthorized person during an examination or test; using unauthorized aids; or knowingly recording or reporting false empirical or statistical data. The work referred to includes examinations, theses, assignments, work term reports, projects, internship reports, or any other tests which are to be used in judging the student's performance in a course or program of study, or on any special tests which the University may offer.
  - Impersonating another student or allowing oneself to be impersonated: includes the imitation of a student or the entrance into an arrangement with another person to be impersonated for the purposes of taking examinations or tests or carrying out laboratory or other assignments.
  - Plagiarism: is the act of presenting the ideas or works of another as one's own. This applies to all material such as essays, laboratory reports, work term reports, design projects, seminar presentations, statistical data, computer programs, research results and theses. The properly acknowledged use of sources is an accepted and important part of scholarship. Use of such material without acknowledgment is contrary to accepted norms of academic behaviour. Information regarding acceptable writing or by email practices is available through the Writing Centre at [www.mun.ca/writingcentre/about/](http://www.mun.ca/writingcentre/about/).
  - Theft of examination papers or other material: includes obtaining by any improper means examination papers, tests, or any other such material.
  - Use and/or distribution of stolen material: includes the use of material which the student knows to have been improperly obtained and/or the distribution of such material.
  - Submitting false information: includes falsifying academic forms or records, submitting false credentials, medical or other certificates, or making a false, misleading or incomplete declaration to the University.
  - Submitting work for one course or work term which has been or is being submitted for another course or work term at this or any other institution without express permission to do so: includes the presentation of an essay, report or assignment to satisfy some or all of the requirements of a course when that essay, report, or assignment has been previously submitted or is concurrently being submitted for another course without the express permission of the professor(s) involved.
  - Failure to follow relevant University/Faculty/School guidelines on ethics.

### 5.11.5 Procedures for Resolution of Alleged Academic Offences at the Unit Level

#### 5.11.5.1 General Information

These procedures will not be applied to cases involving alleged offences on final examinations, any other evaluative instruments worth 40% or more of the final grade, allegations of impersonation or allegations of submission of forged documents. Such alleged offences are governed by the **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies**.

#### 5.11.5.2 Explanation of Procedures

If, upon receiving a report of an alleged academic offence, the head of the academic or administrative unit decides that an attempt should be made to resolve the matter at the unit level the following procedures shall apply:

- Normally within one week of notification, the head of the appropriate academic or administrative unit shall request a meeting with the accuser and the accused and at the meeting the head shall state the allegation, review the **Procedures for Resolution of Alleged Academic Offences at the Unit Level** including the range of applicable penalties, and arrange a second meeting between the accuser and the accused only.
- At the second meeting the accuser and accused shall endeavour to obtain a mutually satisfactory resolution of the matter.
- The accuser and accused shall report jointly to the head of the academic or administrative unit on the result of their second meeting.
- If the report is of a resolution which the head of the academic or administrative unit considers to be fair and equitable the matter shall be considered closed. If the head of the academic or administrative unit considers the reported resolution to be unfair and/or inequitable he or she will endeavour to obtain an alternative satisfactory resolution directly with the parties.
- Should all reasonable efforts to obtain a resolution at the unit level fail, the head of the academic or administrative unit will refer the case to the Secretary of the Senate Committee on Undergraduate Studies and shall inform the accuser and the accused accordingly. From this stage onward **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies** will apply.
- At any stage of the Procedures for Resolution of Alleged Academic Offences at the Unit Level, the student may ask that his or her case be referred to the Secretary of the Senate Committee on Undergraduate Studies, and thereafter the **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies** will apply.
- Should the accused be found guilty, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to the Office of the Registrar.

#### 5.11.5.3 Failure to Appear or Respond

- If at any stage of the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.

- If at any stage of the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, the accuser fails to appear at a scheduled meeting to defend an allegation, without reasonable cause, the action will be dismissed.

#### 5.11.5.4 Penalties in the Case of Resolution at the Unit level

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining the severity of penalties. The range of penalties and their determination are:

- Resubmission of work with appropriate reduction in grade: will allow a student to complete and submit the work a second time.
- Reprimand: will be in the nature of a warning by the head of the academic or administrative unit to the student that the student's behaviour has been unacceptable to the University.
- Reduction of grade: will apply to an examination, test, or assignment to which an offence is relevant, and will be decided by the head of the academic or administrative unit.

### 5.11.6 Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies

#### 5.11.6.1 General Information

If the matter cannot be resolved following the **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, or if, in the opinion of the head of the academic or administrative unit, the allegation involves a major breach of University regulations, or in cases involving alleged offences on final examinations, evaluative instruments worth 40% or more of the final grade, allegations of impersonation or allegations of submission of forged documents, the following **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies** shall apply. In the application of these procedures, in the case of students attending Sir Wilfred Grenfell College, the Sir Wilfred Grenfell College Sub-committee of the Senate Committee on Undergraduate Studies shall assume the role and authority defined below for the Senate Committee on Undergraduate Studies.

#### 5.11.6.2 Explanation of Procedures

- If the head of the academic or administrative unit (in the case of departmentalized faculties, the head in consultation with the dean) is satisfied that the student has a serious allegation to answer, that person shall inform the student in writing or at the official University email address of the student, normally within one week, of the nature of the allegation against him or her. In addition, the head of the academic or administrative unit shall report to the Secretary, Senate Committee on Undergraduate Studies, c/o Office of the Registrar, who will, normally within one week, appoint as an investigator a Chair of a Faculty/School Committee on Undergraduate Studies other than the Chair of that Faculty/School's Committee. The investigator will interview separately the accuser, the accused and relevant witnesses. At these interviews the investigator, the accuser, the accused and relevant witnesses all have the right to be accompanied by a registered student or a member of the faculty or staff of the University.
- Upon completion of these interviews, the investigator shall submit a written report of all findings to the Secretary, Senate Committee on Undergraduate Studies, c/o Office of the Registrar. Normally, the report will be submitted within four weeks of appointment as an investigator.
- The Secretary of the Senate Committee on Undergraduate Studies shall present this report to both the accuser and accused for perusal and comment. Once in receipt of this report, the accuser and accused shall have two weeks in which to submit to the Secretary, Senate Committee on Undergraduate Studies any additional comments on the report that the person wishes to be considered in the deliberations of the Senate Committee on Undergraduate Studies.
- The Secretary of the Senate Committee on Undergraduate Studies shall present to the Senate Committee on Undergraduate Studies for decision all information received from the investigator as well as comments from the accuser and accused. The investigator shall attend the meeting held to consider the case to answer questions raised by the Senate Committee on Undergraduate Studies and to provide information pertinent to the case, but shall be absent from the voting process.
- Once a vote is taken, should the accused be found guilty, the Senate Committee on Undergraduate Studies shall take appropriate action in accordance with **Penalties in the Case of Resolution by the Senate Committee on Undergraduate Studies**.

#### 5.11.6.3 Failure to Appear or Respond

- If at any stage of the **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies**, the accused fails to respond to a charge, without reasonable cause, within two weeks of notification of an allegation, action may be taken on the charge in the absence of the accused.
- If at any stage of the **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies**, the accuser fails to appear at a scheduled interview to defend an allegation, without reasonable cause, the action will be dismissed.

#### 5.11.6.4 Penalties in the Case of Resolution by the Senate Committee on Undergraduate Studies

A student who has been found guilty of an academic offence will be subject to a penalty or penalties commensurate with the offence. Some cases may warrant more than one penalty for the same offence, and previous academic misconduct will be taken into account in determining severity of penalties. Enforcement of penalties resulting from **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies** will be overseen by the Registrar. In addition to a Reprimand, which shall be in the nature of a warning by the Senate Committee on Undergraduate Studies to the student that the student's behavior has been unacceptable to the University, the range of penalties and their determination is:

- Reduction of grade: will apply to an examination, test, or assignment to which an offence is relevant, or to the entire course, and will be decided by the Senate Committee on Undergraduate Studies.
- Rescinding of scholarships, bursaries or other awards: the recommendation for rescinding of scholarships, bursaries or other awards will be made by the Senate Committee on Undergraduate Studies to the Senate Committee on Scholarships and Awards for a final decision. The Senate Committee on Undergraduate Studies will notify the accused, in writing or by email, of the recommendation.
- Probation: the period of probation will be determined by the Senate Committee on Undergraduate Studies and shall not exceed six consecutive semesters. The impact of being placed on probation is that the commission of any further academic offence during the period of probation may lead to suspension or expulsion.
- Suspension: will apply to a course, department, faculty, school, or the University. The period of suspension will be determined by the Senate Committee on Undergraduate Studies and shall not exceed six consecutive semesters

- Expulsion: the recommendation for expulsion from the University will be made by the Senate Committee on Undergraduate Studies to the President of the University for a final decision. Prior to the President's decision, the Senate Committee on Undergraduate Studies will notify the accused, in writing or by email, of the recommendation for expulsion from the University. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the President's final decision concerning expulsion from the University. Any such appeal should be made in writing or by email to the Executive Committee of Senate, c/o the Office of the Registrar.
- Rescinding of degree: the recommendation for the rescinding of a degree previously awarded by the University will be made by the Senate Committee on Undergraduate Studies to Senate for a final decision. Prior to Senate's decision, the Senate Committee on Undergraduate Studies will notify the accused, in writing, of the recommendation for rescinding of the degree. The accused will be allowed a period of two weeks following the date of release of such notification to lodge an appeal before the Senate's final decision concerning the rescinding of the degree. Any such appeal should be made in writing to the Executive Committee of Senate, c/o the Office of the Registrar.

### 5.11.7 Transcript Entries Related to Penalties

1. Transcript entries shall relate to the penalty(ies) imposed as follows:

Penalty	Transcript Entry
Reprimand	No transcript entry
Reduction of Grade	Entry of final grade for course
Probation	"On probation at the University for academic misconduct until [Day, Month, Year]"
Suspension	"Suspended from the University/Faculty/School/Program/Course for academic misconduct until [Day, Month, Year]"
Expulsion	"Expelled from the University for academic misconduct effective [Day, Month, Year]"

2. The transcript entries for "probation" or "suspension" will be removed entirely upon the expiration of the penalty.

### 5.11.8 Disposition of Documentation

1. The disposition of documents relating to allegations under these procedures shall be as follows:
  - In cases where the accused was not found guilty, none of the documentation shall be retained.
  - In the case of a resolution effected through **Academic Misconduct - General Procedure** or **Procedures for Resolution of Alleged Academic Offences at the Unit Level**, a brief description of the offence and the penalty(ies) applied shall be forwarded by the head of the academic or administrative unit to and retained by the Office of the Registrar, separate from the student files.
  - In the case of a resolution effected through the **Procedures for Resolution of Alleged Academic Offences by the Senate Committee on Undergraduate Studies**, all documentation shall be forwarded to and retained in the Office of the Registrar, separate from the student files.

## 5.12 Graduation

### 5.12.1 Application for Graduation - Degrees, Diplomas and Certificates

Students in their graduating year must apply to the Registrar to be admitted to a degree or to be awarded a diploma or certificate. Application must be made on the prescribed form which is available from the Office of the Registrar at [www.mun.ca/regoff/forms.php](http://www.mun.ca/regoff/forms.php) and on Student Web/Self-Service at [www.mun.ca/regoff/](http://www.mun.ca/regoff/). The deadlines for application are listed in the **University Diary** for the Spring and Fall convocations.

1. No student can be awarded a degree, diploma or certificate unless and until an average of at least 2 points has been obtained on the total number of credit hours required for such degree, diploma or certificate. The degree of Doctor of Medicine is not included in this requirement since all courses comprising the degree are graded on a PAS or FAL basis.
2. It is the duty of the Registrar to certify to the Senate, where appropriate, that students for degrees, diplomas and certificates have met all the regulations and requirements of the University.

### 5.12.2 Classification of General Degrees

1. General degrees are awarded as "Classified", "Unclassified" or are not classified, in compliance with such regulations as may be required by the academic unit(s) offering the program(s). Refer to the degree regulations of the academic units for further information.
2. General degrees are awarded in three classes based on the system for granting points set forth in **Grading - Letter Grades, Numeric Grades and Points per Credit Hour**, and determined as follows:
  - A student who obtains an average of 3.5 points or better on the total number of credit hours required for the degree shall be awarded the degree with First-Class Standing and provided that all other degree requirements are met.
  - A student who fails to obtain First-Class Standing but who obtains an average of 2.75 points or better on the total number of credit hours required for the degree shall be awarded the degree with Second-Class Standing provided that all other degree requirements are met.
  - All other students will be awarded the degree with Third-Class Standing, provided that they obtain an average of 2 points or better on the total number of credit hours required for the degree and provided that all other degree requirements are met.
3. When a student obtains credit for more credit hours than are required for the degree, his or her total degree points shall include only those received for the credit hours required. In eliminating from the total points those received for credit hours beyond the requirements of the degree, the credit hour(s) for which the student receives the fewest points shall be disregarded, provided that no credit hour is disregarded that is a requisite for the degree.
4. Where a student receives more than one classified bachelor's degree, the class of each degree will be determined independently by applying the scheme set forth in **Classification of General Degrees** and provided that in determining the points total for each degree only those credit hours may be counted which are applicable towards the degree concerned.

5. A student who has been granted credit for courses completed at Memorial University of Newfoundland before the introduction of the point system, and/or one who has been given credit for courses completed at another university, will have the class of his or her degree determined by applying the scheme set forth in **Classification of General Degrees** in proportion to the total of required credit hours completed at Memorial University of Newfoundland since the introduction of the point system.
6. An Unclassified degree will be awarded a student who has completed at Memorial University of Newfoundland, fewer than one-half of the credit hours required for the degree, or fewer than one-half of the required credit hours since the introduction of the point system. All students shall, however, obtain an average of 2 points or better on the total number of the credit hours required for the degree taken at this University since the introduction of the point system.
7. The following degrees are not classified: Bachelor of Education (Intermediate/Secondary), Bachelor of Engineering, Bachelor of Maritime Studies, Bachelor of Music Education, Bachelor of Post-Secondary Education (as a second degree), Bachelor of Science (Pharmacy), Bachelor of Special Education, Bachelor of Technology, Doctor of Medicine, and all degrees offered by the School of Human Kinetics and Recreation.

### 5.12.3 Classification of Honours Degrees

1. Honours degrees may be classified or not classified in compliance with such regulations as may be required by the academic unit offering the program. Refer to the appropriate degree regulations of the academic units for further information.
2. A student who has been granted credit for courses completed at Memorial University of Newfoundland before the introduction of the point system, and/or one who has been given credit for courses completed at another university, will have the class of his or her honours degree determined in proportion to the total number of required credit hours completed at Memorial University of Newfoundland since the introduction of the point system.
3. An honours degree awarded a student who has completed at Memorial University of Newfoundland, fewer than one half of the credit hours required for the degree, or fewer than one half of the required credit hours since the introduction of the point system, may be Unclassified or not classified.

### 5.12.4 Diplomas and Certificates

1. Diplomas and certificates are not classified.

## 5.13 Waiver of Regulations

1. All undergraduate regulations notwithstanding, the University reserves the right, in special circumstances, to modify, alter or waive any regulation in its application to individual students where, in the judgment of the head of the appropriate academic unit or the appropriate committee, merit and equity so warrant. In keeping with the principle that decisions to waive regulations should be made as close as possible to the University officer or committee with responsibility for the regulations, requests for waivers, which normally must be made in writing, must be directed as follows:
  - Course Prerequisites or Co-requisites: the head of the academic unit of the course(s) in question.
  - Departmental Regulations: the appropriate committee on undergraduate studies upon the recommendation of the head of the appropriate department.
  - Faculty or School Regulations: the appropriate committee on undergraduate studies. Such waivers shall not reduce the total number of credit hours required for a minor, major, certificate, diploma, or degree program.
  - General Academic Regulations (Undergraduate): the Senate Committee on Undergraduate Studies on the recommendation of the appropriate committee on undergraduate studies. Such waivers shall not reduce the total number of credit hours required for a minor, major, certificate, diploma, or degree program.
  - Scholarships, Bursaries, Awards, Medals and Prizes Regulations: the Committee on Undergraduate Scholarships, Bursaries and Awards on the recommendation or request of the head of the appropriate academic unit.
2. Any student whose request for waiver of regulations has been denied has the right to appeal. With the exception of verbal requests for waiver of Course Prerequisites or Co-requisites, the student will be advised in writing of the reasons for the decision and of the avenue of appeal that may be taken. For information regarding the appeal procedure refer to **Appeal of Regulations - Appeal Procedures**.

## 5.14 Appeal of Regulations

### 5.14.1 General Information

1. Every student has the right to appeal decisions resulting from the application of University regulations.
2. Appeals will be considered in the case of health issues, bereavement and/or other acceptable cause, duly authenticated.
3. For assistance in the appeals process, students are advised to consult with the Office of the Registrar.
4. In preparing an appeal a student may consult advisors or facilitators. Such advisors or facilitators may include a representative from a Memorial University of Newfoundland student union, an international student advisor, a faculty advisor, a counsellor or a faculty member who is familiar with the appeals process and who is willing to undertake the role of student advisor or facilitator.
5. Appeals are made before specific committees that exist at the University to provide an objective review of cases. The appeals process is designed to assist students at critical points in their university career, and to provide an accessible and transparent process for students. Refer also to **Appeal Procedures** for information concerning where appeals should be directed.
6. The principle of fairness should be applied to all parties in appeals processes and decisions. Fairness includes, but is not limited to, such practices as all parties to the appeal receiving timely and adequate notice, all parties to the appeal having the opportunity to be heard, all parties to the appeal being made aware of the evidence considered by the committee and no individual sitting in judgment on an appeal at a higher level who has already been a party to the decision at a lower level. Any member of a committee hearing an appeal, who was previously involved in a decision making process at a lower level of process, will abstain from voting.
7. While the University makes provision for students to appeal regulations, the academic, financial or other consequences of the appeals process rests with the student.
8. When an appeal is denied, the student will be advised in writing of the reasons for the decision and of further steps that can be taken in the appeals process. A student whose appeal is denied by the Executive Committee of Senate may appeal to the Senate. Appeals to the Senate will be heard in the first instance by the Senate Committee on Academic Appeals and that committee will investigate the appeal and submit a report to the Senate with its findings and recommendations as expeditiously as possible. Students have the right to appear in person before the Senate Committee on Academic Appeals, and have the right to be accompanied by another

person to assist them with their presentation. Normally, however, the presentation of the student's case rests with the student. Advance notice of the student's intention to appear and the identity of the accompanying individual, if any, must be provided to the Secretary of the Senate Committee on Academic Appeals. Should the student's appeal be denied by the Senate, the student will be advised that within the University no further appeal is possible.

9. Student appeals are heard anonymously. However, this provision does not apply to a student who elects to appear in person before the Senate Committee on Academic Appeals as outlined in Clause 8 above.

### 5.14.2 Appeal Procedures

1. Normally, the responsibility for making an appeal before the appropriate committee of the University rests with the student.
2. A student who is ineligible to officially register for courses but who wishes to attend classes, laboratories or other educational activities while an appeal is in progress can do so only with the written permission of the academic unit offering the courses. Such permission will not be unnecessarily withheld.
3. Any student whose request for waiver of regulations has been denied has the right to appeal. Normally, any such appeal must be made in writing, clearly stating the basis for the appeal, and must be directed as follows:
  - Course prerequisites or co-requisites: to the appropriate committee on undergraduate studies.
  - Departmental Regulations: to the appropriate committee on undergraduate studies where the department refuses to recommend the waiver, or to the Senate Committee on Undergraduate Studies, c/o The Office of the Registrar, where the appropriate committee on undergraduate studies denies the request for waiver.
  - Faculty and School Regulations: to the Senate Committee on Undergraduate Studies, c/o The Office of the Registrar.
  - General Academic Regulations (Undergraduate): to the Executive Committee of Senate, c/o The Office of the Registrar.
  - Scholarships, Bursaries, Awards, Medals and Prizes Regulations: to the Executive Committee of Senate, c/o The Office of the Registrar.
4. Appeals cannot be made on the basis of the grades awarded in individual courses, as the student will normally have had the opportunity to contest grades immediately after the release of examination results (see **Access to Final Examination Scripts and Rereading of Final Examination Scripts**). Dissatisfaction with grades is not sufficient grounds for an appeal.
 

Notwithstanding the above, and recognizing that the awarding of grades is an academic matter within the purview of experts in a discipline or subject area, students who wish to question the grades awarded in individual courses may consult with the following in the order given:

  - the course instructor
  - the head of the appropriate academic unit
  - the Dean, Director, Principal or Executive Director of the appropriate Faculty, School, College or Institute.

### 5.14.3 Information Required in Letters of Appeal

1. Appeals must be made in writing, clearly stating the basis for the appeal, and must be directed to the secretary of the appropriate University committee.
2. In the letter of appeal, the student must clearly and fully provide: name, current address, telephone number, Memorial University of Newfoundland e-mail address, student ID number, the decision being appealed and the remedy being sought. The grounds for the appeal, including health issues, bereavement and/or other acceptable cause, must be stated in the letter of appeal. Students must present independent evidence to corroborate statements made in the letter of appeal. Preferably, this evidence will come from a professional, such as a health professional, a counsellor, or a professor. However, letters from other knowledgeable parties may be acceptable.
3. In cases where an appeal is based on health issues, the student must produce a certificate from a health professional in the form of a note or letter. Such a note must be sufficiently specific to allow appropriate consideration of the student's case. The note must also clearly state that, in the opinion of the health professional, the problem was serious enough to have interfered with the student's work. Students should refer to **Information Required in Certificates from Health Professionals** for more complete information.
4. Students claiming bereavement as grounds must provide proof of death and evidence of a close personal relationship between themselves and the deceased.
5. **Confidentiality:** The committees to which appeals are made do require substantial information about the reasons for the appeals in order to make their decisions. However, the committees also recognize the students' rights to confidentiality. With this in mind, a student may discuss the reasons for his or her appeal with a University, College or Institute counsellor, who, with the student's permission and provided sufficient reasons exist, may then write a letter to the appropriate committee confirming that there were sufficient grounds for an appeal, without disclosing the special personal and confidential details of the case.

### 5.14.4 Information Required in Certificates from Health Professionals

1. Students who request permission to drop courses, to withdraw from University studies, to have examinations deferred or to obtain other waivers of University, departmental or course regulations based on health issues are required by the University to provide, in support of the request, a certificate from a health professional in the form of a note or letter. Such notes must be sufficiently specific to allow a proper consideration of students' cases. The University requires that all such notes must be on letterhead, must be signed by the health professional, must confirm the specific dates on which the student visited the health professional and should include details on the following:
  - the degree to which the health issue (or treatment, in the case of medication, for example) is likely to have affected the student's ability to study, attend classes, or sit examinations.
  - the length of time over which the student's abilities were likely hampered by the condition (e.g., recurring and severe back pain over a two-month period would likely have a more adverse effect on studies than a single episode of back pain requiring bed rest for a week)
  - the fitness of the student to resume studies (it is in the student's best interest not to return to studies prematurely).
2. **Confidentiality:** The University respects the confidentiality of all material contained in such notes. Students should request that their health professional retain a copy of such a note in case the note needs to be verified or reissued at a later date.

## 6 Non-Academic Regulations

### 6.1 Discipline

The President may use all means deemed necessary for maintaining discipline. Students found guilty of misbehaviour may be suspended or fined on the authority of the President, or expelled from the University by the President on the authority of the Board of Regents. (See the *Code of Student Conduct*)

#### 6.1.1 Traffic and Parking Regulations On Campus

Students, employees, service personnel, and other persons having a direct association with the University, Health Sciences Centre, or the Fisheries and Marine Institute wishing to park a vehicle in a designated area on campus must obtain a parking permit. Traffic and parking regulations on campus are enforced by Campus Enforcement and Patrol assisted by the Royal Newfoundland Constabulary.

Application forms for vehicle parking permits, copies of the Traffic and Parking Rules and Regulations, and other information pertaining to traffic and parking on campus, are available at the Campus Enforcement and Patrol Office, Facilities Management Building, Room FM1018, or the Health Sciences Centre, Room H2720, or the Fisheries and Marine Institute, Room C2210. Additional information regarding the Traffic and Parking Rules and Regulations is also available at [www.mun.ca/facman/parking\\_roads/](http://www.mun.ca/facman/parking_roads/).

**Acting Dean**

Roy, N., B.A. *McGill*, Ph.D. *Johns Hopkins*; Professor of Economics

**Associate Dean (Research and Graduate)**

White, F.H., B.A. *Ohio State*, M.A. *Kansas*, Ph.D. *Southern California*; Associate Professor of German and Russian

**Associate Dean (Undergraduate)**

Ayres, P.C.R., M.A., Dip. Ed., B.Litt. *Oxon*; Associate Professor of French and Spanish

**Manager, Finance and Administration**

Corbett, L., Diploma in Business Administration *Memorial*

**Department of Anthropology****Head**

Tate, M., B.A. *York*, M.Sc. *London*, Ph.D. *London School of Economics*; Associate Professor

**Professores Emeriti**

Briggs, J.L., M.A. *Boston*, Ph.D. *Harvard*, F.R.S.C.; University Research Professor, Awarded 1986, Henrietta Harvey Professor, 1994-1997  
Leyton, E.H., B.A., M.A. *British Columbia*, Ph.D. *Toronto*  
Paine, R.P.B., M.A., D.Phil. *Oxon*, F.R.S.C.; Henrietta Harvey Professor, 1973-1994, C.M.

**Honorary Research Professors**

Andersen, R.R., B.A. *Knox*, M.A. *Emory*, Ph.D. *Missouri*  
Nemec, T.F., B.A., M.A., Ph.D. *Michigan*  
Tanner, A., B.A., M.A. *British Columbia*, Ph.D. *Toronto*

**Professor**

Fife, W., B.A.(Hons.) *Winnipeg*, M.A. *Western Ontario*, Ph.D. *McMaster*

**Associate Professors**

Carbonella, A., B.A., M.A., Ph.D. *City University of New York*  
Clark, J.R., B.A. *Memorial*  
Roseman, S.R., B.A.(Hons.) *Toronto*, M.A., Ph.D. *McMaster*; Winner of the President's Award for Outstanding Research 2002-2003  
Whitaker, R., B.A.(Hons.) *Memorial*, M.A. *York*, Ph.D. *California*

**Assistant Professors**

Davis, R., B.A.(Hons.) *Queen's*, M.A., Ph.D. *Memorial*  
Gordon, K.E., B.A.A. *Ryerson*, M.A. *Windor*, Ph.D. *York*

**Adjunct Professors**

Sider, G., B.A. *Pennsylvania*, M.A. *Toronto*, Ph.D. *New School for Social Research*

**Department of Archaeology****Head**

Brown, S.C., B.A. *Melbourne*, Ph.D. *Toronto*; Professor

**Professor Emeritus**

Tuck, J.A., A.B., Ph.D. *Syracuse*, F.R.S.C.; University Research Professor, Awarded 1984; Henrietta Harvey Professor, 1999-2005

**Honorary Research Professor**

Jerkic, S.M., B.A. *Beloit College*, M.A., Ph.D. *Toronto*

**Professors**

Deal, M., B.A. *Dalhousie*, Ph.D. *Simon Fraser*  
Pope, P.E., B.A. *Princeton*, M.Litt. *Oxford*, M.A., Ph.D. *Memorial*; F.S.A.; Winner of the President's Award for Outstanding Research, 2001-2002; University Research Professor, Awarded 2008  
Renouf, M.A.P., B.A., M.A. *Memorial*, Ph.D. *Cantab*; Winner of the President's Award for Outstanding Research 1992-1993; Canada Research Chair in North Atlantic Archaeology

**Associate Professors**

Blaser, M.E., Lic. *Buenos Aires*, M.A. *Carleton*, Ph.D. *McMaster*; Canada Research Chair in Aboriginal Studies  
Rankin, L., B.A. *British Columbia*, M.A. *Trent*, Ph.D. *McMaster*  
Whitridge, P.J., B.A. *Toronto*, M.A. *McGill*, Ph.D. *Arizona State*

**Assistant Professors**

Gaulton, B., B.A., M.A., Ph.D. *Memorial*  
Grimes, V.H., B.A. *Memorial*, M.Sc., Ph.D. *Bradford*  
Moro Abadia, O., B.A.(Hons.), D.E.A., Ph.D. *Cantabria*

**Adjunct Professor**

Sutherland, P.D., B.A.(Hons.) *Toronto*, Ph.D. *Alberta*

**Department of Classics****Head**

Allen, T.J., B.A. *Amherst*, M.A. *Texas at Austin*, Ph.D. *Alberta*; Associate Professor

**Assistant Professors**

Levett, B., B.A. *Trent*, M.A. *Calgary*, Ph.D. *Washington*  
Maynes, C., B.A. *Alberta*, M.A., Ph.D. *Toronto*  
Roman, L., B.A. *Harvard*, Ph.D. *Stanford*  
Simonsen, K., B.A. *British Columbia*, M.A., Ph.D. *Toronto*

**Adjunct Professor**

Rossiter, J.J., M.A. *Edinburgh*, Ph.D. *Alberta*

**Department of Economics****Interim Head**

Tsoa, E.Y., B.A. *Taiwan*, M.A., Ph.D. *Notre Dame*; Professor

**Professor Emeritus**

Schrank, W.E., B.Mech.Eng. *Cooper Union*, M.Indl.Eng. *New York*, M.S., Ph.D. *Wisconsin*

**Professors**

Feehan, J.P., B.A. *Memorial*, M.Sc. *London School of Economics*, Ph.D. *Carleton*; Director, J.R. Smallwood Foundation  
Locke, L.W., B.Sc., B.A. *Memorial*, M.A., Ph.D. *McMaster*  
May, J.D., B.Comm. *Queen's*, D.Phil. *York (England)*; Cross appointments to the Faculty of Business Administration and the Division of Community Health and Humanities  
Wernerheim, C.M., B.A. *Simon Fraser*, Ph.D. *Uppsala*

**Associate Professors**

Chu, K.H., B.Soc.Sc. *Hong Kong*, M.Phil. *Chinese University of Hong Kong*, Ph.D. *Toronto*  
Lynch, S.J., B.A. *Wilfrid Laurier*, M.A. *McMaster*  
Martinez-Espineira, R., Licenciatura *Santiago de Compostela*, M.Sc., D. Phil. *York, England*  
Riser, G.E., B.S. *Utah*  
Waples, M.J., B.Ec.(Hons.) *Sydney*, M.A. *Waterloo*, Ph.D. *McMaster*, C.A. *Australia*

**Assistant Professor**

Lyssenko, N., M.A. *St. Petersburg State University*, Ph.D. *Carleton*

**Department of English Language and Literature****Interim Head**

Balisch, L.F., B.A. *King's College*, B.Ed. *Dalhousie*, M.A., Ph.D. *Memorial*; Associate Professor

**Professores Emeriti**

Buchanan, R., B.A. *Keele*, Ph.D. *Birmingham*  
Gardner, P.G., M.A. *Cantab.*, Ph.D. *Liverpool*, F.R.S.L.; University Research Professor, Awarded 1988  
Kirwin, W.J., B.A. *Bowdoin*, M.A., Ph.D. *Chicago*, D.Litt. *Memorial*  
Miller, E., B.A., B.A.(Ed.), M.A., Ph.D. *Memorial*; Winner of the President's Award for Distinguished Teaching, 1991-92  
O'Flaherty, P.A., M.A. *Memorial*, Ph.D. *London*  
Pitt, D.G., B.A. *Mount Allison*, M.A., Ph.D. *Toronto*, LL.D. *Mount Allison*; D. Litt. (Honorary), *Memorial*

**Honorary Research Professor**

Gardner, P.G., M.A. *Cantab.*, Ph.D. *Liverpool*, F.R.S.L.; University Research Professor, Awarded 1988

**Professors**

Byrne, P.A., B.A. *Iona*, M.A., Ph.D. *Memorial*; Cross appointment, Department of Folklore; Director, Institute of Social and Economic Research  
Cumming, M.D., B.A.(Hons.) *Wilfrid Laurier*, B.Ed. *Lakehead*, M.A., Ph.D. *Western Ontario*, Winner of the President's Award for Outstanding Research, 1989-1990  
Dalton, M., B.A.(Hons.) *Toronto*, M.A. *Memorial*  
Golfman, N., B.A. *Alberta*, M.A., Ph.D. *Western Ontario*

Jones, G.P., B.A. *Leeds*, M.A. *McMaster*, Ph.D. *London*  
 Legge, V.E., B.A., B.Ed., M.A., Ph.D. *Memorial*; Winner of the  
 President's Award for Distinguished Teaching, 2007-2008  
 Lynde, D.C., B.A.(Hons.) *Queen's*, M.A., Ph.D. *Toronto*  
 Mathews, L.M., B.A.(Hons.), M.A. *Carleton*, Ph.D. *British*  
*Columbia*; Coordinator, Diploma in Professional Writing  
 Nichol, D.W., B.A.(Hons.), M.A. *Carleton*, Ph.D. *Edinburgh*; Winner  
 of the President's Award for Outstanding Research, 1993-1994;  
 Graduate Co-ordinator  
 O'Dea, S., O.N.L., B.A., M.A. *Memorial*, Winner of the President's  
 Award for Distinguished Teaching, 1988-1989; Public Orator  
 O'Dwyer, B.T., B.A. *Saint Mary's*, M.A. *Memorial*, P.G.Dip. *The*  
*Hague*, Ph.D. *Edinburgh*  
 Rompkey, R.G., O.C., C.D., ChNM (France), M.A., B.Ed.  
*Memorial*, Ph.D. *London*, F.R.S.C., F.R.Hist.S.; University  
 Research Professor, Awarded 2001  
 Schipper, W., B.A., M.A. *Windsor*, Ph.D. *Queen's*  
 Schrank, B., B.A. *Brooklyn*, M.A., Ph.D. *Wisconsin*  
 Shorrocks, G., B.A.(Hons.), P.G.C.E. *Birmingham*, M.A., Ph.D.  
*Sheffield*  
 Staveley, A., B.A.(Hons.), Post.grad. Dip.Ed. *Reading*, M.A., Ph.D.  
*Memorial*; Winner of the President's Award for Distinguished  
 Teaching, 1994-1995; Deputy Public Orator

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity

## 2 Faculty Description

The Faculty of Arts offers a wide range of undergraduate and graduate programs in the social sciences and the humanities, offering excellence in both teaching and research. These degree programs examine culture, thought, prehistory and history, human interactions and the social and natural forces that constantly transform our society. An Arts education can provide incomparable advantages. Students gain the critical-thinking, analytical and communication skills needed to succeed and adapt in a changing world. This can lead to exciting, productive careers. One of Memorial University of Newfoundland's largest and most diverse units, the Faculty of Arts is a place where you can study what fascinates you, and pursue a program that suits your aspirations for learning and career. At the graduate level, students find unique programs and the freedom to develop their knowledge and expertise. Our faculty conduct research in a wide variety of areas, making discoveries that foster our understanding of the past, present and future. Our alumni work in a wide variety of fields not only in Newfoundland and Labrador, but also in Canada and the rest of the world. Their services are in demand because they have learned to define and analyse problems, to think creatively, and to communicate to others. Members of the faculty are also actively engaged in the community, whether helping to understand complex problems, working with groups to preserve culture, hosting public lectures and readings, or helping raise awareness of significant issues relevant to the well-being of people and

communities.

Additional information regarding the Faculty of Arts is available at [www.mun.ca/arts/about/](http://www.mun.ca/arts/about/).

### 3 Limited Enrolment Courses

Certain course offerings in the Faculty of Arts will be identified as being Limited Enrolment Courses and will be clearly identified as such in the University Timetable. Students who have registered for a Limited Enrolment Course must confirm their registration either (1) by attending at least one of the first three hours of lectures in the course (and the first meeting of any laboratory section of the course, if appropriate); or (2) by notifying the department in writing within the first five university working days of the semester. Students who do not confirm their registration *may* be dropped from the course on the recommendation of the Head of Department.

### 4 Degree Regulations

In these regulations, all references to Heads of Departments and Program Supervisors are to be read as "Head of Department or delegate" and "Program Supervisor or delegate".

#### 4.1 Regulations for the General Degree of Bachelor of Arts

Students completing a degree program in the Faculty of Arts will normally follow the degree regulations in effect in the academic year in which they first entered Memorial University of Newfoundland. This is determined by the year of the student number. However, students may elect to follow subsequent regulations introduced during their tenure in the program.

##### 4.1.1 Degree Components

The General Degree of Bachelor of Arts consists of the following components:

1. courses from a set of Core Requirements, some of which may also satisfy requirements of the Major and Minor programs
2. an approved concentration of courses known as the Major program
3. an approved concentration of courses known as the Minor program
4. elective courses

A candidate for the General Degree of Bachelor of Arts must complete a minimum of 120 credit hours in courses subject to the following regulations.

##### 4.1.2 Core Requirements

All candidates must complete the following Core Requirements. Courses satisfying Core Requirements may also be used to satisfy requirements of Major and Minor programs, subject to Notes 1., 2. and 3. below:

1. **English Requirement.** Six credit hours in courses in English at the first-year level.
2. **Second Language Requirement.** Six credit hours in courses in a single language other than English, or demonstration of equivalent competency in a second language.
3. **Numeracy/Science Requirement.** Six credit hours in courses chosen from the Science list below.
4. **Humanities Requirement.** Twelve credit hours in courses in at least two disciplines chosen from the Humanities List below. These courses are exclusive of the minimum requirements for English and a second language as stated in a. and b. above.
5. **Social Sciences Requirement.** Twelve credit hours in courses in at least two disciplines chosen from the Social Sciences List below.
6. Students who are concurrently completing the Bachelor of Commerce (Co-operative) degree should refer to the entry **Joint Degrees of Bachelor of Arts and Bachelor of Commerce (Co-operative)** immediately following these regulations.
7. **Research/Writing Requirement.** Completion of 6 credit hours in courses in Social Sciences or Humanities which are designated research/writing courses will satisfy Clause 2. f. and may concurrently satisfy 6 credit hours from Clause 2. d. and/or 2. e. above.

Students are strongly advised to complete the Core Requirements within the first 60 credit hours of the undergraduate program.

Notes: 1. *To satisfy the minimum Core Requirements, students shall take no more than 9 credit hours in courses from any one discipline.*

2. *Students may apply up to 9 credit hours of the Core Requirements towards the Major program and up to 9 credit hours of the Core Requirements towards the Minor program.*

3. *Specific Core Requirements may also be satisfied by the demonstration of equivalent competency in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, e.g., advanced standing, challenge for credit, etc.*

##### Distribution of Humanities, Social Science, and Science:

**Humanities:** Classics, English, French & Spanish\*, German & Russian\*, History\*\*, Philosophy, Religious Studies, Law & Society 2000\*\*, Medieval Studies 2000, Women's Studies 2000\*\*

**Social Science:** Anthropology, Archaeology, Economics, Environmental Studies 1000 and 2000, Folklore, Geography\*\*, History\*\*, Linguistics, Political Science, Sociology, Law & Society 2000\*\*, Women's Studies 2000\*\*

**Science:** Biochemistry, Biology, Chemistry, Computer Science, Earth Sciences, Economics 2010 and 2020, Engineering, Environmental Science, Geography\*\*, Mathematics and Statistics, Physics, Psychology, Science 1000, 1150, 1151, 3000, 3001

*\*Where a department offers two distinct disciplines, students who major and minor in that department can apply up to 18 credit hours from the Major and Minor to satisfy Core Requirements. For example, a student doing a German Major and a Russian Minor may complete 18 credit hours applicable to core requirements in courses in the Department of German and Russian: 9 credit hours in German to fulfill the second language requirement as well as 3 of the required 12 credit hours in a humanities discipline. The remaining 9 credit hours in Humanities could be fulfilled by Russian courses done for the Minor.*

*\*\*All non-laboratory Geography courses are designated Social Science courses. All Geography courses with laboratories are designated Science courses. The three-course limit in one department for meeting Core Requirements will apply.*

*\*\*\*Where a department or program is listed in both the Humanities and Social Science Lists, the three-course limit in one department for meeting Core Requirements will apply.*

##### 4.1.3 The Major Program

A candidate shall complete an approved concentration of courses to be known as the Major program, consisting of not fewer than 36 nor more than 45 credit hours taken in a subject listed in Clause 3. a. or 3. b. below.

1. Major programs are available in the following subjects and are administered by departments: Anthropology, Archaeology, Classics, Computer Science, Economics, English Language and Literature, Folklore, French, Geography, German, History, Linguistics, Mathematics and Statistics, Philosophy, Political Science, Psychology, Religious Studies, Russian, Sociology, Spanish, Women's Studies.
2. Major programs are available in the following subjects which, because of their interdepartmental character, will each be administered jointly by the participating departments through a Program Supervisor. These programs shall require not fewer than 36 nor more than 54 credit hours for the Major.
  - a. Drama and Music
  - b. Canadian Studies
  - c. Medieval Studies
  - d. Sociology/Anthropology
3. A candidate who has completed courses in the area of the Major at another university is required to complete at least 12 credit hours in that subject at this University.
4. A candidate must follow the regulations for the Major programs as set forth in the appropriate section of the Calendar.
5. The Head of the Department or Program Supervisor of the Major program will advise the candidate on the selection of courses in the Major.
6. In Departments which offer programs leading to both a degree of Bachelor of Arts and a degree of Bachelor of Science, candidates are free to choose the degree program they wish to follow and may change from one to the other; however, they may not obtain both degrees in the same Major subject.

#### 4.1.4 The Minor Program

A candidate shall complete an approved concentration of courses to be known as the Minor program, consisting of at least 24 credit hours taken in a subject other than that of the Major chosen either from Clause 3.a. above or from the Minor programs listed below.

1. A candidate must follow the regulations for the Minor program as set forth in the appropriate section of the Calendar.
2. The Head of the Department or Program Supervisor of the Minor program will advise the candidate on the selection of courses in the Minor.
3. A candidate who has completed courses in the area of the Minor at another university is required to complete at least 6 credit hours in that subject at this University.
4. A Minor program in Business Administration is available to candidates for the Bachelor of Arts degree. This program is governed by regulations which are detailed under the Calendar entry for the Faculty of Business Administration.
5. A Minor in Music History is available to students who meet the prerequisites for Music 1107 and 1127. This program is governed by regulations which are detailed under the Calendar entry for the School of Music.
6. A Minor in Music and Culture is available in the School of Music. This program is governed by regulations which are detailed under the Calendar entry for the School of Music.
7. Minor programs are available in the Faculty of Science. These programs are governed by regulations which are detailed under the Faculty of Science Calendar entries for each department.
8. Up to 12 credit hours in courses offered by a single department as part of a multidisciplinary program may be used to satisfy the requirements for the Minor, provided they are in accordance with the regulations governing that Minor.
9. Multidisciplinary Minor programs are available in Aboriginal Studies, European Studies, Film Studies, Law and Society, Medieval Studies, Newfoundland Studies, Russian Studies, and Women's Studies. In addition, a Sociology/Anthropology Interdepartmental Minor program is available. These programs are governed by regulations which are detailed under the Calendar entries for Aboriginal Studies, European Studies, Film Studies, Law and Society, Medieval Studies, Newfoundland Studies, Russian Studies, Sociology/Anthropology, and Women's Studies.
10. As an alternative to a Minor, a candidate may complete a second Major program and must follow all General and Departmental or Program Regulations for this Major program.

Note: *Departmental regulations are not intended to debar students from completing more than the minimum required credit hours in the subjects of their Major and Minor.*

#### 4.1.5 Electives

In accordance with Regulations outlined under **Core Requirements, The Major Program** and **The Minor Program** above, candidates must complete a minimum of 78 credit hours in courses offered by departments within the Faculty of Arts. Courses in Computer Science, Mathematics and Statistics, and Psychology may be applied to this requirement.

The remaining 42 credit hours (for a total of 120 credit hours required for the degree) will be electives; these may be chosen from offerings in Arts, Science, Business and Music (History and Theory only). Candidates may include as open electives up to 15 of these 42 credit hours in any subject area, with the exception of courses which are clearly practical or professional:

1. Outdoor Pursuits or Expeditions in Environmental Studies
2. Internships, Student Teaching or Practicum in Education
3. Activity and Coaching courses in Human Kinetics and Recreation
4. Applied Music or Ensemble Techniques in Music
5. Nursing Practice or Clinical Practicum in Nursing
6. Clinical Clerkship in Pharmacy
7. Field Placements in Social Work
8. Master Classes in Fine Arts (Theatre)
9. Studio Courses in Fine Arts (Visual)

## 4.2 Admission to Programs in the Faculty of Arts

Note: *These regulations shall also apply to multidisciplinary and interdepartmental programs. In such cases, the student should contact the Program Coordinator or supervisor.*

Declaration of the Bachelor of Arts as a degree program may be made at the time of application to the University or by means of the

Change of Academic Program Form following admission to the University.

Students who intend to complete a degree in the Faculty of Arts must also declare their Major and their Minor (or second Major) chosen according to Regulations 3. and 4. above. In most cases, this declaration may be made at the time of application to the University or, following admission to the University, by means of the Declaration/Change of Academic Program Form, which must be submitted to the Office of the Registrar.

Students are encouraged to declare their Major and their Minor (or second Major) no later than the semester in which they next attend the University following completion of 18 credit hours in courses applicable to their program(s).

Students are strongly advised to consult with departments or program coordinators or supervisors before making a declaration to the department or program of their intended Major or Minor.

In the case of programs with authorized admission requirements which go beyond the general admission requirements of the University, students should make formal application to the department, coordinator or supervisor after completion of the program's admission requirements.

### 4.3 Graduation Requirements

In order to graduate with the General Degree of Bachelor of Arts, a candidate shall obtain:

1. An average of 60% or higher on the minimum number of courses prescribed for the Major program, excluding 1000-level courses, and
2. An average of 60% or higher on the minimum number of courses prescribed for the Minor program, excluding 1000-level courses, and
3. An average of 2.0 points or higher per credit hour on the courses in Arts disciplines as indicated in Clause 3.a. above.

Notes: 1. *In the context of this regulation, any student attaining a grade of 55% or less in any course beyond the 1000-level in the Major or Minor is required to seek the advice of the appropriate department(s) at the beginning of the next semester to ensure that adequate progress is being maintained.*

2. *The minimum number of courses prescribed shall be understood to include any specific courses prescribed in the regulations of any department but excluding any 1000-level courses listed.*

### 4.4 Regulations for the Honours Degree of Bachelor of Arts

A program is offered leading to the Honours Degree of Bachelor of Arts. An Honours degree requires, over and above the requirements of the General degree, a concentration at an advanced level in an approved field, consisting of a subject or subjects of specialization and/or related subjects, and a high quality of work throughout the program. An Honours degree is of distinct advantage to candidates who plan advanced work or careers in their chosen fields and also to those who have a clear commitment to some special field of study. An Honours degree with first or second class standing is, in many cases, a prerequisite for admission to a graduate program.

Students completing a degree program in the Faculty of Arts will normally follow the degree regulations in effect in the academic year in which they first entered Memorial University of Newfoundland. This is determined by the year of the student number. However, students may elect to follow subsequent regulations introduced during their tenure in the program.

#### 4.4.1 Admission and Registration

1. Admission to Honours programs is competitive and limited, depending upon available resources. Candidates should consult the criteria established for the program in question. To be considered for admission to an Honours program, a candidate shall submit an "Application for Admission to the Honours Program" form to the Registrar. The application must be approved by the Head of the Department or Program Supervisor of the Subject of Specialization before the candidate can be admitted to the program.

Note: *A candidate who wishes to enter an Honours program is strongly advised to consult the Head of the Department or Program Supervisor at the earliest possible date, as it may not be possible to complete the requirements for the degree in the normal time if the decision to embark on the program is delayed beyond the end of the second year.*

2. Students who have been awarded the General Degree of Bachelor of Arts may convert it to an Honours Degree of Bachelor of Arts by applying to the department of specialization and the Registrar and, upon approval of such application by the Department, completing the requirements for the Honours degree as set forth in the regulations.
3. Upon entering the program, the candidate shall be assigned a Faculty Advisor by the Head of the Department or Program Supervisor. The Faculty Advisor will be responsible for advising the candidate and the Head of the Department or Program Supervisor with respect to the candidate's program of studies.

#### 4.4.2 Subjects of Specialization

Subjects which may be chosen as Subjects of Specialization for the Honours Degree of Bachelor of Arts are the following:

1. Those administered by Departments through the Head of the Department: Anthropology, Archaeology, Classics, Computer Science, Economics, English Language and Literature, Folklore, French, Geography, German, History, Linguistics, Mathematics, Philosophy, Political Science, Psychology, Religious Studies, Sociology, Spanish (at present, only for Joint Honours).
2. Those which, because of their interdepartmental character, are administered by two or more Departments through a Program Supervisor: see **Sociology/Anthropology Interdepartmental Studies**. (No other programs yet approved.)
3. Joint Honours Programs: A candidate may undertake a program of Joint Honours in two Subjects of Specialization (see **Course Requirements**, 3.a).

#### 4.4.3 Course Requirements

Candidates for the Honours Degree of Bachelor of Arts shall complete a program of studies which shall consist of not fewer than 120 credit hours subject to the following regulations:

1. All candidates are required to complete the Core Requirements as detailed in the **Regulations for the General Degree of Bachelor of Arts**. These include:
  - a. English Requirement
  - b. Second Language Requirement
  - c. Numeracy/Science Requirement
  - d. Humanities Requirement
  - e. Social Science Requirement

- f. Research/Writing Requirement
2. All candidates must also
- Pass a general comprehensive examination in a Subject of Specialization. This examination may be written, or oral, or a combination of both. The comprehensive examination shall count as 3 credit hours in the Subject of Specialization;
  - Submit an Honours essay on an approved topic which, at the discretion of the Head of the Department or the Program Supervisor, may be followed by an oral examination thereon. Normally, the Honours essay will count as 3 credit hours in the Subject of Specialization, or as 6 credit hours in the case of linked (A/B) honours essays (please consult departmental regulations).
- A copy of the Honours essay must be submitted to the University Library upon completion. All Honours essays in the University Library shall be available for unrestricted consultation by students and faculty except under very exceptional circumstances which must be approved by the Committee on Undergraduate Studies. Copyright remains with the author. A signed release form must accompany an essay or dissertation when it is submitted to the University Library.
- Note: *The semester in which the candidate sits for the comprehensive examination, and/or the semester in which the Honours essay is to be submitted, may be decided by the candidate after consultation with the Head of the Department or Program Supervisor.*
3. Further courses shall be chosen either
- In consultation with the Faculty Advisor and with the approval of the Head of the Department or Program Supervisor of the Subject of Specialization, but in such a way that the candidate's program shall include not fewer than 60 credit hours in courses applicable to the Subject of Specialization, including the comprehensive examination and/or the Honours essay, at least 36 of which must be at the 3000 level or above, and not fewer than 24 credit hours in a Minor subject or program according to the Departmental or Program Regulations covering that Minor, and the total number of credit hours which may be applied to the degree is not fewer than 120; or
  - In consultation with the Faculty Advisors and with the approval of the Head of the Department or Program Supervisor of the Subject of Specialization, but in such a way that the candidate's program shall include not fewer than 60 credit hours in courses applicable to the Subject of Specialization, including the comprehensive examination and/or the Honours essay, at least 36 of which must be at the 3000 level or above, and not fewer than 36 credit hours in a Major subject or program according to the Departmental or Program Regulations governing that Major, and the total number of credit hours which may be applied to the degree is not fewer than 120.
  - In consultation with the Faculty Advisors and with the approval of the Heads of the Departments or Program Supervisors of two Subjects of Specialization (Joint Honours), but in such a way that the candidate's program shall include not fewer than 42 and not more than 51 credit hours in courses approved for each of the Subjects of Specialization, including the comprehensive examination and/or the Honours essay, of which at least 27 shall be at the 3000 level or above in each of the Subjects of Specialization, and the total number of credit hours which may be applied to the degree is not fewer than 120.
  - In the case of Joint Honours, the candidate may choose the Subject of Specialization for the Honours essay and/or comprehensive examination.
  - Other courses to make up the total of 120 credit hours may be chosen from any subjects listed under 2.a. with Canadian, Medieval, Russian and Women's Studies added to the list of subjects and from courses listed under and in accordance with **Regulations for the General Degree of Bachelor of Arts, Clause 5. Electives.**

#### 4.4.4 Departmental Regulations

Candidates for Honours degrees shall also comply with such additional requirements of the appropriate Department(s) as are approved by the Senate and printed in the Calendar.

#### 4.4.5 Academic Standing

In order to graduate with an Honours degree, a candidate shall obtain:

- a grade of 70% or better, OR an average of 75% or higher in the minimum number of courses [including the required courses in the Honours subject(s) prescribed by the Department [or, in the case of Joint Honours, Departments] concerned, excluding 1000-level courses. A grade of 70% or better must be obtained in the Honours essay and/or comprehensive examinations; and
- an average of at least 2.75 points on the total number of credit hours in the courses required for the degree. (See **General Academic Regulations (Undergraduate), Classification of General Degrees.**)

Note: *Students who wish to fulfill the requirements of Clause 5. a. above using repeated or substituted courses must obtain approval of the Head of the Department and the Committee on Undergraduate Studies. The Honours essay and/or comprehensive examinations may not be repeated or substituted.*

#### 4.4.6 Classification of Degrees

- If a candidate's general average is 3.25 points or better per credit hour in required courses and his/her average is 3.5 points or better per credit hour in the courses in the Honours subject (excluding 1000-level courses), the candidate shall be awarded an Honours degree with First Class standing.
- If a candidate fulfils the conditions of Regulation 5. above but not of Regulation 6. a., the candidate shall be awarded an Honours degree with Second Class standing.
- Classification will be given to the degree awarded a candidate who has completed (i) fewer than one half of the courses required for the degree at this University, or (ii) who has completed fewer than one half of the courses required for the degree at this University since 1959. All candidates for such degrees shall, however, fulfil the condition of clause 5. on the courses taken at this University since September 1959 in order to qualify for the degree.
- A declared candidate for an Honours degree who fails to attain the academic standing specified in clause 5. above, but fulfils the academic requirements for a General degree shall be awarded a General degree, the classification of which shall be determined in accordance with **General Academic Regulations (Undergraduate), Classification of General Degrees.**

### 4.5 Regulations Governing Co-operative Education Program

See Department of Economics

### 4.6 Joint Degrees of Bachelor of Arts and Bachelor of Commerce (Co-operative)

Any student who is admitted into the Bachelor of Commerce (Co-operative) program may simultaneously complete the requirements for

a Bachelor of Arts program. Under those circumstances, regulations for the Bachelor of Commerce (Co-operative) program will be relaxed as follows. Notwithstanding clauses 4. c and 4.d of **The Curriculum** under the **Regulations for the General Degree of Bachelor of Commerce (Co-operative)**, students in the Bachelor of Commerce (Co-operative) program who are concurrently completing the Bachelor of Arts degree will be permitted to make the following adjustments to those clauses:

1. clause 4.c. - no fewer than 15 credit hours, but no more than 36 credit hours, in Business electives which must be chosen from **Table 4 Business Electives**.
2. clause 4.d. - no fewer than 12 credit hours, but no more than 33 credit hours, in elective courses chosen from the Faculty of Arts.

These adjustments to the normal curriculum will only be permitted for students who are graduating with the Bachelor of Commerce (Co-operative) degree and the Bachelor of Arts degree at the same convocation. In order to meet all of the requirements of both degree Programs at the same time, students who are completing the joint degrees are strongly advised to follow the Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly with the Bachelor of Arts) Table below.

**Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly with the Bachelor of Arts)**

Terms A/B	6 credit hours in English courses which must include English 1110 or 1021 Mathematics 1000 Economics 2010 and 2020 Business 1000 12 additional credit hours in non-Business electives [see Note 1. below]
Fall Academic Term 1	Business 1101 Business 1210 Statistics 2500 6 credit hours chosen from: Business 1600, Business 2010, Business 2400, Business 2710, and 3 credit hours in Major, Core or elective courses (see Note 1. below)
Winter Academic Term 2	Business 2101 Business 2210 Remaining 9 credit hours chosen from: Business 1600, Business 2010, Business 2400, Business 2710, and 3 credit hours in Major, Core or elective courses [see Note 1. below]
Spring	[see Note 2. below]
Fall Academic Term 3	Business 3310 Business 3401 Business 3700 At least 6 credit hours in Major, Core or elective courses [see Note 3 below]
Winter	Business 399W [see Note 2. below]
Spring Academic Term 4	Business 4000 Business 4050 Business 4320 Business 4330 Business 4500
Fall	Business 499W [see Note 2. below]
Winter Academic Term 5	Business 5301 At least 12 credit hours in Major, Core or elective courses [see Note 3. below]
Spring	Business 599W [see Note 2 below]
Fall Academic Term 6	Business 7000 At least 12 credit hours in Major, Core or elective courses [see Note 3. below]
Winter Academic Term 7	At least 15 credit hours in Major, Core or elective courses [see Note 3. below]

- Notes: 1. *The Bachelor of Arts requires completion of a Major program, a Minor program, a set of Core Requirements, and elective courses, totalling at least 78 credit hours in courses offered by departments within the Faculty of Arts (or Computer Science, Mathematics and Statistics, and Psychology). When the Bachelor of Arts is completed jointly with the Bachelor of Commerce (Co-operative):*
- a. Minor program requirements are satisfied by Business courses specified in the **Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly With The Degree of Bachelor of Arts)** Table above.*
  - b. Core requirements for English and Numeracy/Science are satisfied by courses completed in Terms A/B or during Terms 1 or 2 of the Bachelor of Commerce (Co-operative) degree.*
  - c. It is recommended that the Core Requirement for 6 credit hours in courses in a second language be completed in Terms A/B of the Bachelor of Commerce (Co-operative) degree program.*
  - d. Core requirements for 6 credit hours in research/writing courses may be satisfied by including two such courses within the 78 credit hours in courses offered by departments within the Faculty of Arts. Please consult the Undergraduate Registration Procedures booklet to determine research/writing course offerings in any given semester.*
  - e. Major requirements for the Bachelor of Arts may be satisfied in 36 to 45 credit hours, depending on the department or program chosen. Students are strongly recommended to seek advice from the department or program of their Major to ensure that their proposed degree program is possible within the constraints of course scheduling and prerequisites.*
2. *Students are advised that, in order to complete the joint degrees within the minimum 150 credit hours, they must complete at least five of the courses required for the Bachelor of Arts as opportunities arise and as courses are offered. These courses may be completed during the Spring semesters between Terms A/B and Term 1, between Terms 2 and 3, or during any of the three Work Terms (for example, in the evening or by distance), or as sixth courses during any of the academic terms (following submission of a course load waiver).*
3. *To meet the requirements for the Bachelor of Commerce (Co-operative), not fewer than 15 and not more than 36 credit hours in Business electives must be chosen from **Table 4 Business Electives**. Students intending to complete the joint degrees in the minimum number of 150 credit hours should ensure that at least 78 of these credit hours are completed in courses offered by departments within the Faculty of Arts (or Psychology, Mathematics and Statistics, and Computer Science). Careful planning, particularly in the selection of elective courses as well as in the sequence of Major program courses, is therefore recommended to ensure timely completion of the joint degrees.*

## 5 Diploma Programs Offered in the Faculty of Arts

### 5.1 Objectives

Diploma programs are of distinct advantage to candidates who wish to complement their studies in one or more fields of specialization with a program that will help them relate their knowledge to growing sectors of the economy and to areas of increasing social concern. These programs assume and build upon the theoretical knowledge acquired in the completion of an undergraduate degree and will assist in easing the transition of graduates to the workplace.

### 5.2 Components

Courses satisfying the Honours, Major, Minor and elective components of an undergraduate degree may also be used to satisfy the requirements of a diploma program.

Diploma programs consist of between 24 and 36 credit hours in courses as specified in individual programs, including a field component of 6 credit hours in an approved instructional field placement and/or instructional field courses.

The purpose of the field component of the program is to provide students with an opportunity for practical and instructional field-oriented experiences as a means of broadening and reinforcing the other courses taken in the diploma program. The instructional field component may take a number of forms, depending on the nature of individual programs. Without limiting the generality of the definition, the instructional field component typically includes observation of and instruction in practical techniques and methods and their application, as well as the maintenance and submission of documentation and reports appropriate to the area of study.

Instructional field placements and instructional field courses may not normally be repeated.

### 5.3 Admission to Diploma Programs

Students seeking information about specific diploma programs should contact the diploma program coordinator, the Office of the Dean of Arts, or the Office of the Registrar.

1. Admission to all diploma programs is competitive and limited, depending upon available resources. For additional requirements stipulated by individual diploma programs, see the appropriate Calendar entry below.
2. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the two preceding semesters), an application to the Diploma Program and any other required documentation.
3. Applicants for admission to diploma programs must apply by completing the appropriate form available from the Office of the Registrar.

### 5.4 Graduation Requirements

1. To be eligible for the award of a diploma, a student must have obtained an overall average of 60% or higher in the courses prescribed for that program.
2. A minimum of 9 credit hours in courses prescribed for the diploma program must be completed at this University.

### 5.5 Diploma in Applied Ethics

Program Co-ordinator: Dr. P. Trnka, Department of Philosophy.

The Diploma helps to prepare students for the ethical challenges of various professions and for work as ethical consultants and analysts in government and private institutions (e.g., hospitals, businesses, environmental agencies).

#### 5.5.1 Admission Requirements

Admission to the Diploma program is limited and competitive. Applicants with a B.A. or B.Sc. in hand and senior undergraduates will be preferred. Experience working in the health care or environmental sectors is an asset. Students interested in applying to the program should contact the Program Co-ordinator. Formal application is made through the Office of the Registrar.

#### 5.5.2 Program of Study

The Diploma consists of 24 credit hours, including an Instructional Field Placement. A concentration in either bioethics, mental health ethics, or environmental ethics is required: courses toward a concentration must be chosen with the approval of the Program Co-ordinator.

#### 5.5.3 Course List

Philosophy 2230

One of Philosophy 2551 or 2552 or 2561

One advanced (3000 or 4000 level) course in ethics or philosophy of law, approved by the Co-ordinator

Philosophy 4900 or 4300-4310

Philosophy 5000

Two additional, elective courses, approved by the Co-ordinator.

### 5.6 Diploma in Creative Writing

Program Co-ordinator: Dr. L. Mathews, Department of English Language and Literature

#### 5.6.1 Program Description

The Diploma aims to develop students' skills in writing in a variety of genres conventionally described as "creative," such as fiction, poetry, drama, and creative non-fiction. It will also offer students the opportunity to take, as options, courses that provide a background in contemporary literature in these genres.

The eight course, 24 credit hour program will comprise at least five and as many as eight creative writing courses in at least three and as many as four genres. The overall aim of the program is to help students produce work that merits publication. To this end, the focus of the creative writing courses will be on the composition, critiquing, and editing of the students' own work, and, in both the creative writing and contemporary literature courses, on analysing examples of excellent contemporary writing.

## 5.6.2 Admission Requirements

As has traditionally been the case, students will compete for admission to individual Creative Writing courses via the portfolio system. The Diploma will be earned by accretion.

## 5.6.3 Program of Study

Students are required to complete a minimum of 24 credit hours of course work, including at least 15 credit hours from the following: English 3900, English 3901, English 3902, English 3903, English 4910, English 4911, English 4912, and English 4913

The remaining courses must be taken from:

1. additional courses from the above list
2. one or more special topics courses in Creative Writing (English 4920-4930)
3. one or more of English 3100, 3155, 3156, 3158, 3160, 3161, 3171, 3172, 3173, 4080, 4270, 4302, 4822
4. one or more courses from the Diploma in Professional Writing

## 5.7 Diploma in English as a Second Language

Program Co-ordinator: J. Benger, Department of English Language and Literature

This program prepares students for positions in private language schools and community colleges in Canada and overseas, working primarily with adults whose first language is not English. The Diploma combines expertise from the Department of English Language and Literature, the Department of Linguistics, and the Faculty of Education. The required courses provide a solid understanding of the characteristics and needs of adult ESL learners.

### 5.7.1 Admission Requirements

Admission to the Diploma Program in ESL is limited and competitive. A high level of English language proficiency is required. Students are advised to notify the program coordinator of their intention to apply for admission into this program. Formal application is made through the Office of the Registrar, normally in the second semester of the student's second year of study.

### 5.7.2 Program of Study

Students are required to complete a minimum of 27 credit hours of course work, including: 15 credit hours in language courses in English and/or Linguistics, 6 credit hours of Education studies, 6 credit hours of instructional field placement (Practicum). This practicum will acquaint students through observation and practice with Teaching English as a Second Language to adult learners.

### 5.7.3 Course List

Education 2222  
Education 4950  
English 2390  
English 3650  
English 5100  
English/Linguistics 3105  
Linguistics 2104  
Linguistics 3155

## 5.8 Diploma in Geographic Information Sciences

Program Co-ordinator: Dr. R. Devillers, Department of Geography

The Diploma in Geographic Information Sciences is of interest to students from a broad range of backgrounds. It is a valuable complement to social and natural sciences programs such as anthropology, biology, computer sciences, earth sciences, history, economics, engineering, health and medicine, physical oceanography, environmental sciences and environmental studies. The fields of remote sensing, geographic information systems (GIS) and cartography provide the most effective methods of gathering, managing, analysing and representing geographic information. Remote sensing images provide a resourceful information to observe and study the cultural and physical landscapes. Examples of remote sensing applications include the monitoring of spatial changes, environmental quality evaluation, natural resources exploration, assessment and monitoring, and archaeological site assessment. Geographic information systems enable the compilation, organization and processing of spatial (maps) and non-spatial (text, statistics, graphs) data. Socio-economic, political and environmental management decision-making is supported by the results of GIS analyses and modelling. Cartography involves the compilation, organization and visual representation of spatial information. A variety of geographical information can effectively be communicated through cartography.

### 5.8.1 Admission Requirements

Admission to the Diploma in Geographical Information Sciences is limited and competitive. Students are advised to notify the program coordinator of their intention to apply for admission into this program. Students who wish to enter this program must apply through the Office of the Registrar by April 1 for Fall semester registration and by October 15 for Winter semester registration.

To be considered for admission to the Diploma in Geographic Information Sciences, students will normally have completed 24 credit hours, including the courses listed in 1., 2., and 3., with an overall average of at least 65%.

1. Geography 1050 or one 1000-level course in applicant's Bachelor's Major program.
2. Mathematics 1000 or equivalent.
3. Two 1000- or 2000-level core courses in student's Bachelor's Major program, excluding the courses listed in 1. and 2. above.

Students who fulfill the eligibility requirements compete for a limited number of available spaces. Selection is based on academic performance.

### 5.8.2 Continuation Requirements

To be considered for the field placement courses Geography 4290 and 4919, the candidates for the Diploma in Geographic Information Sciences will normally have completed at least seven courses required for the program, with an overall average of 65%.

### 5.8.3 Program of Study

Students are required to complete a minimum of 30 credit hours of courses as listed below.

Note: *The course Mathematics 2050 is a prerequisite to some of the fourth year courses required for the diploma.*

### 5.8.4 Course List

Computer Science 1710  
 Geography 2195  
 Geography 3202  
 Geography 3250  
 Geography 3260  
 Geography 4202  
 Geography 4250  
 Geography 4261  
 Geography 4290  
 Geography 4919

## 5.9 Diploma in Heritage Resources

Acting Program Co-ordinator: Prof. P. Ayres, Associate Dean of Arts (Undergraduate)

Building on the student's academic grounding in anthropology/archaeology, folklore, history, geography, and other relevant disciplines, the program offers training in object documentation, identification, conservation, and display. Required courses give students both an awareness of the broad range of heritage resources - including objects, sites, landscapes, documents - and specific skills to deal with public perceptions of objects and artifacts. The program also includes a course in tourism management. Elective courses enable students to pursue their particular disciplinary interests.

The Diploma in Heritage Resources helps prepare students to work in the expanding heritage sector in Newfoundland or elsewhere. Students with this diploma will be better able to compete for positions in museums and historic sites and for employment with heritage consultants, and to participate in contracts involving heritage policy and planning, all part of the increasing regional and global importance of cultural tourism. The diploma in Heritage Resources will also be an advantage to students wishing to study heritage or cultural resources management at the graduate level.

This diploma program draws on the expertise of faculty members in various departments and faculties.

### 5.9.1 Admission Requirements

Admission to the Diploma in Heritage Resources program is limited and competitive. Students are advised to notify the Program Co-ordinator of their intention to apply for admission into this diploma program. Formal application is made through the Office of the Registrar, normally in the second semester of the student's second year of study.

### 5.9.2 Program of Study

Students are required to complete a minimum of 30 credit hours of course work, including 6 credit hours in instructional field courses, from the lists of required and elective courses below, with:

- at least 15 credit hours from the 'Required Courses' listed below, which must include 3 credit hours in a field course in Cultural Resources Management and at least 12 credit hours chosen from Material Culture, Archaeological Conservation, Collections Management, Introduction to Museums & Historic Sites and Tourism Management.
- at least 12 credit hours from the Elective Courses listed below, chosen to include at least 3 credit hours in a course designated as an instructional field course. Instructional field-oriented courses will deal with a wide array of artifact-related research in historic sites/museums. These instructional field courses will be advertised by the Program Co-ordinator.

### 5.9.3 Course List

#### 5.9.3.1 Required Courses

Archaeology 3587

## 5.10 Diploma in Performance and Communications Media

Program Co-ordinator: J. Skidmore, Department of English Language and Literature

Memorial University of Newfoundland offers a specialized Diploma Program in Performance and Communications Media. This Diploma draws on the expertise of the Drama Specialization, Department of English, Distance Education and Learning Technologies (DELT), and CBC Television. Students receive an introduction to multi-media in the area of dramatic arts and video techniques. Students will be introduced to the wide applications of stage and video craft through a program of project-oriented courses. Required courses give students specific skills in stage and video craft and enable students to specialize in their own particular practical area of interest.

The Diploma in Performance and Communications Media prepares students to work in the cultural industries in Newfoundland (or other parts of North America). Students with this unique training are better able to work across existing media.

### 5.10.1 Admissions

**Academic Requirements:** Applicants for the Diploma program must satisfy the general admission requirements of the University.

**Interviews:** In addition to meeting the general requirements of the University for admission to diploma programs, applicants for the Diploma in Performance and Communications Media must undergo an audition/interview to the satisfaction of the Program Co-ordinator. Enrolment in the Diploma in Performance and Communications Media is limited and competitive. Students are advised to notify the Program Co-ordinator in their first year if they intend to apply for this Diploma. Formal application normally takes place in the second semester of second year.

### 5.10.2 Program of Study

1. Students must complete a minimum 18 credit hours of course work in the following required courses with an overall average in these courses of at least 65%: English 3350, English 3351, English 3816, English 4400, English 4401, and English 4402.
2. Students must also complete 6 credit hours in English 5000 - Instructional Field Placement. Admission to this instructional field placement course is by application to the Program Co-ordinator, normally at least three months before the beginning of the placement, and is limited to students who at the time of admission have completed the six courses listed above with an overall average of at least 65% and who already hold a first degree or are in their final year of a degree program as confirmed by the Office of the Registrar.

## 5.11 Diploma in Police Studies

Program Co-ordinator: A. Morris, Department of Sociology

The Diploma Program in Police Studies is offered to students who are recruit cadets of the Royal Newfoundland Constabulary. The program provides recruit cadets with academic and experiential learning components of a degree program relevant to their future work as police officers.

### 5.11.1 Admission Requirements

Admission to the Diploma program is limited and competitive. Applicants to the Diploma program must be recruit cadets of the Royal Newfoundland Constabulary who satisfy the **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**, and at the time of admission must have completed either a university degree in any discipline from a recognized university, or have completed at a post-secondary institution, the equivalent of 15 credit hours, which should normally include 6 credit hours in English, 6 credit hours in Psychology, and 3 credit hours in Sociology.

### 5.11.2 Continuation Requirements

Students dismissed as recruit cadets by the Royal Newfoundland Constabulary will be required to withdraw from the Diploma in Police Studies.

### 5.11.3 Program of Study

Following admission to the diploma program and until completion of all diploma program requirements, students must normally carry a course load of 15 credit hours in each of the Fall and Winter semesters. Students must complete a total of 36 credit hours in the following required courses:

#### 5.11.3.1 Required Courses

Political Science 3620 or the former Political Science 3521  
 Political Science 3820 or the former Political Science 3720  
 Psychology 2150  
 Psychology 3640  
 Social Work 3310  
 Sociology 3290  
 Sociology 3306  
 Sociology 3395  
 Sociology 4212  
 Police Studies 2000  
 Police Studies 5000

**2000 Introduction to Policing in Canada** is an introduction to Policing in Canada: This course will examine the concept of policing, its organization and operation. It will provide an overview of the history and development of policing in Canada, with a focus on Newfoundland and Labrador. It will discuss the various roles and responsibilities of the police in society. It will explore the issue of police decision making, the exercise of police powers and the use of discretion by police officers. Several other issues related to policing will be discussed including police recruitment and training, professional role of the police, stress on the job, policing in a diverse society, etc.

Prerequisites: Completion of a minimum of 30 university credit hours or acceptance into the Diploma in Police Studies program.

**5000 Instructional Field Placement in Police Studies (6 credit hours)** is a one-semester course offered in the Spring Semester, following completion of ten courses specified for the diploma program, designed to integrate knowledge acquired in coursework with the training curriculum provided by the Royal Newfoundland Constabulary to its recruit cadets. In consultation with the course instructor, students will prepare and submit a reflective report linking their observation of and instruction in the practical techniques and methods of police work with the broad range of knowledge acquired in other courses taken in

the diploma program. Enrolment in this course is restricted to students admitted to the Diploma Program in Police Studies and who remain in good standing as recruit cadets of the Royal Newfoundland Constabulary.

Prerequisites/Co-requisites: Completion of two semesters of course work in the Diploma Program in Police Studies.

### 5.11.3.2 Alternate Courses

Anthropology 2414  
 Archaeology 2492  
 English 2160

 Sociology/Anthropology 3240  
 Women's Studies 1000

## 5.12 Diploma in Professional Writing

Program Co-ordinator: TBA

### 5.12.1 Program Description

The Diploma in Professional Writing (DPW) aims to develop students' skills in a variety of genres such as the report, feature article, satirical commentary, speech, song lyric and review. Students complete 24 credit hours in which they are introduced to professional writing as a process: they draft, revise and edit their work in preparation for publication in various media.

The 6 credit hour instructional field placement is completed in a professional situation, e.g., a division of the University, an arts organization, government or the media. Students also attend seminars on professional writing and submit journals about their work experience.

### 5.12.2 Admission Requirements

Applicants to the Diploma in Professional Writing should include a letter of application, a transcript (if the applicant is a student or a graduate of a university program), and a portfolio of work. Admission to the diploma is limited. The following are eligible to apply:

1. students taking a Bachelor of Arts or another degree program;
2. graduates of a Bachelor of Arts or another degree program; and
3. individuals without a degree who wish to develop skills in writing and editing. Such applicants must meet the prerequisite requirements for the Diploma in Professional Writing courses.

### 5.12.3 Program of Study

Students are required to complete a minimum of 24 credit hours of course work, including:

1. One of English 2010 or English 2020
2. English 3910, English 3920, and English 4914
3. One of English 3817, English 3911, English 3912, English 3913 and English 3914.
4. One of English 3900, 3901, 3902, 3903, 4910, 4911, 4912, 4913.
5. English 5200 (6 credit hours).

Further information regarding the Diploma in Professional Writing may be obtained at [www.mun.ca/english/diplomas/professional.php](http://www.mun.ca/english/diplomas/professional.php).

## 6 Waiver of Regulations for Undergraduate Students

Regulations involving course prerequisites or co-requisites, departmental regulations, and faculty regulations may be waived where circumstances so warrant. The routing of requests for such waivers and the procedure for appealing unfavourable decisions are outlined in the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.

## 7 Harlow Campus Semester

This is an integrated interdisciplinary Arts program offered each Fall semester at the Harlow Campus, England. The content of the program changes each Fall, depending upon the departments involved. Credits for the program equal 15 credit hours, with the allocation of credits to departments changing each Fall. Students wishing to enrol in a Harlow semester must have completed at least 48 credit hours at the university level, and satisfy any prerequisites which may be required. Enrolment is competitive. The relevant admission criteria, as well as other information, may be obtained from the Office of the Dean of Arts.

## 8 Programs, Regulations, and Course Descriptions

### 8.1 Aboriginal Studies

Program Co-ordinator: Dr. D. Wharram, Department of Linguistics

The Minor in Aboriginal Studies is a multi-disciplinary program offered to candidates for the degree of Bachelor of Arts. The Minor program is an alternative to a Minor offered by a single department and satisfies the degree requirement for a Minor.

#### 8.1.1 Regulations

Students who minor in Aboriginal Studies shall complete a minimum of 24 credit hours including Anthropology 2414 (3 credit hours) plus one course in any three of the following disciplines: Education, English, Geography, History, Law and Society, Linguistics, Social Work, and Sociology (9 credit hours). The remaining 12 credit hours can be chosen from any of the courses in the program. Students enrolled in the Bachelor of Education (Native and Northern) Degree Programs must contact the Native and Northern Teacher Education Office for information on which Education courses may be used for the Aboriginal Studies Minor.

#### 8.1.2 Course List

##### Anthropology

Anthropology 2414

##### Archaeology

Archaeology 2481, 3290, 3291, 3510

##### Education

Education 2023, 2361, 3573, 4020

##### English

English 2160

##### Geography

Geography 2495

##### History/Anthropology

History/Anthropology 3515, 3520, 3525

##### History

History 2200, 4222

##### Law and Society

Law and Society 3012

##### Linguistics

Linguistics 1030, 1031, \*2020, \*2021, \*2025, \*2026, \*2030, \*2031, \*2040, \*2041, 2060, 4050-4054

##### Social Work

Social Work \*3230, \*3511, \*3530, 5522, 5614

##### Sociology/Anthropology

Sociology/Anthropology 2220, 3240, 4070

\* Courses marked with an asterisk \* are infrequently offered or offered only in Labrador.

Note: *The normal departmental prerequisites are applicable, but Department Heads may waive course prerequisites in cases where alternate preparation can be demonstrated.*

### 8.2 Anthropology

All students who major in Anthropology will be assisted by a faculty advisor who will help them in planning their academic programs. For this purpose, it is essential that students register with the Department at an early stage of their studies.

#### 8.2.1 General Degree

##### 1. First Courses

Anthropology 1031 or an equivalent course or courses are required of all students wishing to concentrate in Anthropology.

The following courses, cross-listed with the Department of Sociology and identified by the designation "S/A", are also taught at the introductory level: 2200, 2210, 2220, 2230, 2240, 2260, 2270, 2280 and 2350. These courses can be taken as first courses or may be taken following a departmental introductory course.

##### 2. Major Options

The Department of Anthropology offers undergraduate programs concentrating in a) Social/Cultural Anthropology; b) Interdisciplinary Studies in Sociology and Anthropology.

The student majoring in Anthropology must meet the requirements listed under **Degree Regulations, Regulations for the General Degree of Bachelor of Arts**. Under these regulations, a minimum of 36 credit hours in Anthropology is required. Specific regulations for each option follow:

- a. **Social/Cultural Anthropology:** Students wishing to concentrate in this option must take Anthropology 1031; 6 credit hours in Anthropology courses at the 2000-level chosen from Anthropology 2410, 2411, 2412, 2413; 6 credit hours from Social/Cultural Anthropology offerings at the 4000-level, of which one must be 4410 or 4412; the remaining 21 credit hours are to be chosen from any of the Anthropology or Sociology/Anthropology (S/A) 3000- or 4000-level offerings. Students should note that the completion of Anthropology 1031 and one 2000-level Anthropology course is a prerequisite for all Anthropology 3000-level courses, and that two Anthropology courses at the 2000-level or above are prerequisites for all Anthropology 4000-level courses.
- b. **Interdisciplinary (S/A) option:** Students wishing to concentrate in this option must take at least 24 credit hours in Sociology/Anthropology courses, plus a minimum of 12 credit hours in courses selected from the offerings of the Anthropology or the Sociology Department or both. Specific requirements are detailed under the **Sociology/Anthropology Interdepartmental Studies**.

### 3. Minor Options

A minor in Anthropology or Sociology/Anthropology may be achieved by completing any one of three sets of courses:

- a. **Social and Cultural Anthropology:** Anthropology 1031; 6 credit hours in courses at the 2000 level chosen from 2410, 2411, 2412, 2413; and 15 credit hours chosen from Anthropology offerings at the 3000 level or above, including at least 3 credit hours in a course at the 4000 level.
- b. **Sociology/Anthropology ("S/A"):** see the regulations listed under the **Sociology/Anthropology Interdepartmental Studies**.

Note: *Students completing a major or minor in Anthropology or Sociology cannot elect to major or minor in the S/A program.*

## 8.2.2 Honours Degree

1. Admission: see **Regulations for the Honours Degree of Bachelor of Arts**.
2. Students intending an Honours program are required to complete 60 credit hours in Anthropology following the requirements for the Major option, including Anthropology 4995, (or 4996). Students must also meet the requirements of the **Regulations for the Honours Degree of Bachelor of Arts**.

## 8.2.3 Regulations for Joint Honours, Anthropology and Another Major Subject

1. Candidates must fulfil the requirements of the **Regulations for the Honours Degree of Bachelor of Arts**.
2. Candidates must complete:
  - a. Anthropology 1031;
  - b. Six credit hours in courses chosen from Anthropology 2410, 2411, 2412, 2413;
  - c. Fifteen credit hours in Anthropology courses at the 3000 level, chosen in consultation with a supervisor;
  - d. Fifteen credit hours in Anthropology courses at the 4000 level, with a grade of 70 or better. These must include Anthropology 4410 and one of 4000 or 4412.

## 8.2.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Students should note that credit may not be obtained for an Archaeology course if, prior to 2007, the student received credit for that course when it was designated as an Anthropology course.

S/A course descriptions may be found in this Calendar under the **Sociology/Anthropology Interdepartmental Studies**.

Anthropology courses are designated by ANTH.

**1031 Introduction to Social and Cultural Anthropology** is a general introduction to Anthropology emphasizing different forms of society and culture. Cultures within and outside the Western tradition will be examined, ranging from small-scale to more complex pre-industrial societies.

Note: *Credit may be obtained for only one of ANTH 1031, the former ANTH 1000 or 2000.*

**2200 Communities (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2210 Communication and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2220 Labrador Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2230 Newfoundland Society and Culture (S/A)** (same as Folklore 2350) (see **Sociology/Anthropology Interdepartmental Studies**)

**2240 Canadian Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2260 War and Aggression (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2270 Families (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2280 The City (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2300 Newfoundland and Labrador Folklore** (same as Folklore 2300) is a survey of the various types of Folklore: tale, song, rhyme, riddle, proverb, belief, custom, childcare and others, with stress on their function in the Newfoundland community culture. Individual collection and analysis of materials from the students' home communities, supplemented by data from the M.U.N. Folklore and Language Archive.

Prerequisite: FOLK 1000 or 2000, or Anthropology 1031.

Note: *Credit may be obtained for only one of ANTH 2300, Folklore 2300, and the former Folklore 3420.*

**2350 Religious Institutions (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2410 Classics in Social and Cultural Anthropology** is an examination of selected milestone monographs, ground-breaking studies for subdisciplinary

specialties, and major syntheses. This course qualifies as a Research/Writing course.

**2411 Anthropologists in the Field** is based on the fact that anthropologists base many of their ideas on experiences they have while living in other cultures. This course examines the human relationships through which anthropologists explore cultures and how in turn these relationships affect the anthropologists and the development of their discipline. This course qualifies as a Research/Writing course.

**2412 Threatened Peoples** is an examination of key social and cultural factors involved in the global extinction of small-scale societies; the intrusive influences that jeopardize small-scale societies, such as disease, economic and military incursion; the role of international non-governmental agencies in aid of threatened peoples; and the role of the anthropologist in this human crisis.

**2413 Modern World Cultures** is an examination of significant studies of 20th century populations and their implications for understanding the human condition.

**2414 Regional Studies: Aboriginal Peoples of North America** is a survey course dealing with the various tribal and band societies of North America, with special emphasis on the northern portion. The student will be introduced to the cultural history and language distribution of the area along with an examination of the major regional divisions. Several societies will be studied in more detail as case studies in the ethnographic analysis of specific cultural situations. The course will also deal with the effect on these cultures, through the historic period, of European trade, conquest, and settlement, again with special emphasis on the Canadian region.

Note: *Credit may be obtained for only one of ANTH 2414 and the former 3281.*

**2500 Oral Literature** (same as Folklore 2500) is an examination of the major genres of folk literature: folk narrative, folk poetry and song, folk drama, and the traditional generic forms within folk speech. An introduction to the textual, comparative and contextual methods of analysis. The literature discussed will be international in scope.

Prerequisite: FOLK 1000 or 2000, or Anthropology 1031.

Note: *Credit may be obtained for only one of ANTH 2500, Folklore 2500, the former Folklore 3400, the former English 3400, and the former Sociology/Anthropology 3400.*

**3050 Ecology and Culture** is a survey of the basic principles and perspectives of human and cultural ecology and ecological anthropology. Emphasis will be placed on the evolutionary development of basic ecological adaptations: foraging, horticulture, pastoralism, agriculture and industrialism. Major ecosystems and human adaptive adjustments to them will also be surveyed, especially arctic, mountain, desert, grassland and tropical rainforest ecosystems.

**3052 Anthropology and Directed Social Change** - inactive course.

**3053 Anthropology of Religion** (same as Religious Studies 3053) is a critical evaluation of anthropological research on religion, centering on seminal thinkers and major theoretical traditions. Special attention is given to the study of belief systems, and to relationships between belief and ritual.

Note: *Students may not receive credit for both Religious Studies 3053 and Anthropology 3053.*

**3054 Play and Culture** is an examination of the phenomenon of play in a variety of human cultures, and in such forms of activity as religion, politics, festival, speech, performance, and artistic creation. Principal themes are the

functional role of play in social relations, and the meaningful role of play in social thought.

**3058 Urban Anthropology** is an examination of anthropological studies of urban populations and population segments, such as ethnic groups and categories, occupations, neighbourhoods, etc.

**3060 The Idea of Culture** - inactive course.

**3061 Culture and Social Inequality** examines the role of culture in mediating different forms of social inequality, exploring the idea that culture is not only a way of life but also a way of managing power between unequals, from individuals to social classes. Readings in the course concentrate on cultural techniques of social control.

**3062 Anthropology in Social Policy-making** - inactive course.

**3063 Ethnicity and Culture** - inactive course.

**3064 Anthropology and the Study of Social Problems** - inactive course.

**3082 Bandits, Rebels, and Revolutions** examines types of social conflict specific to different kinds of class-based society, including social banditry, primitive rebellions, and peasant revolutions. More generally, social conflict is used to explore the variety of ways that pre-industrial societies have been made part of the modern world economy.

**3083 Cultural Crises and the Environment** is an examination of social and cultural aspects of dilemmas in the use of renewable and non-renewable resources such as animals, arable land, forests, fisheries, air, water, fossil fuel, and nuclear energy. Special attention to Third World and marginal populations.

**3100 Dominance and Power (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3140 Social Movements (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3210 Persistence and Change in Rural Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3220 Work and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3240 Regional Studies: Contemporary Native Peoples of Canada (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**) - inactive course.

**3241 Regional Studies: The Atlantic (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**) - inactive course.

**3242 European Societies (S/A)** is a survey of cultural and social variation in Europe, especially since 1950. Topics covered include micro-level concerns, such as kinship, religiosity, politics, economic and gender relations in small communities, as well as macro-level concerns, such as labour migration, state formation, social movements, and nationalism.

**3249 Peoples of the Pacific (S/A)** - inactive course.

**3254-3257 Regional Studies (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3260 Social and Economic Development (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3280 Regional Studies: The Arctic** is a courses on studies of cultural, ecologic, economic and social systems in the northern circumpolar regions.

**3305 The Anthropology of Gender** aims to provide students with a comprehensive introduction to the major research questions that have been addressed by anthropologists concerned with the study of gender. A variety of empirical examples are used to demonstrate the variation in what it means to be 'female' or 'male' across disparate time periods and cultural contexts.

**3314 Gender and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3317 Oil and Society (S/A)** - inactive course.

**3318 Culture and Aging (S/A)** is an introduction to the study of aging from a social and cultural perspective. Distinctions between the biological and social elements of the aging process will be examined. The overview of social and cultural gerontology includes social, economic and political influences on later life, as well as the culture-based needs and aspirations of the aged.

**3320 Terrorism and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3330-3339 Interdisciplinary Specialties (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3384-3389 Regional Studies in Anthropology**

**3402-3409 Anthropological Specialties** will have a topic of current interest and importance announced by the Department for each term. Prerequisites: Six credit hours in Anthropology.

**3584 Historical Anthropology** (same as Archaeology 3584 and History 3535) will explore selected issues in historical anthropology, with special reference to the Mediterranean and North Atlantic worlds. Students will read specific case studies in order to explore the theoretical issues raised by the attempt to understand historically-documented past cultures. In order to give practical examples of methodology classes will analyse primary source material. Students will be introduced to the textual analysis of myth and legal records, to the interpretation of images and to the analysis of patterns in material culture. The course will consider specific current interpretive issues, particularly the rise of individualism, the consumer revolution and the cultural construction of gender.

Note: *Credit may be obtained for only one of ANTH 3584, Archaeology 3584, and History 3535.*

**3590 Hunter-Gatherer Studies** (same as Archaeology 3590) examines past and present hunting and gathering societies from various areas of the world, both from an ethnographic and an archaeological perspective. Prerequisites: 1030 and 1031.

Note: *Credit may be obtained for only one of ANTH 3590 and Archaeology 3590*

**3600 The Use of Theory in Sociology and Anthropology (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3610 Society and the Life Cycle (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3630 New Media Methods in Social Research (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3700 Social and Cultural Change (S/A)** - inactive course.

**4000 Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4030 Taboo and Law** - inactive course.

**4070 Aboriginal Self-Governance (S/A)** - inactive course.

**4071 Social and Cultural Aspects of Health and Illness (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4072 Social and Cultural Aspects of Death (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4073 Studies in Underclass Life (S/A)** is a critical inquiry into the social sources of human misery and suffering that characterize life in the underclass

**4074 Ritual and Ceremony (S/A)** - inactive course.

**4077 Advanced Studies in Terror and Society (S/A)** - inactive course.

**4081 Advanced Seminar in the Anthropology of Gender** is a seminar that focuses on the critical analysis of cross-cultural research on gender roles, ideologies, and identities. Each year, particular emphasis is placed on the topics that are the current subject of extensive theoretical enquiry and debate in feminist anthropology.

Prerequisites: ANTH 3305 or permission of the instructor

**4089 Language and Social Change (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4091 Oil and Development (S/A)** - inactive course.

**4092 Gender and Social Theory (S/A)**

**4110 Culture and Personality (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4140-4149 Advanced Interdisciplinary Specialties (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4200-4209 Special Areas in Anthropology** is a series of individual or small group tutorials and reading courses on topics of special or current interest. Prerequisite: Departmental permission.

**4280 Advanced Newfoundland Ethnography** - inactive course.

**4300 Fieldwork and the Interpretation of Culture** is an analysis of the experience and process of anthropological fieldwork. The focus of the course will be not only on the problems of the anthropologist but also on the anthropologist as problem. Exercises, readings, and seminar discussions will examine such topics as: learning to observe; the relationships among perspective, data, and interpretation; participating, observing, and helping; negotiation of roles and rules for dialogue; problems of "acceptance", "relevance", and ethics.

**4301 The Intensive Study of One Culture** - inactive course.

**4302 Biography and Culture** - inactive course.

**4370 Culture and Traditions of Ireland** (same as Folklore 4370) is an examination of the culture and traditions of Ireland through an interdisciplinary approach; historical, geographical, cultural and literary factors will be considered. Emphasis will be on the contemporary scene.

Note: *Credit may be obtained for only one of ANTH 4370 and Folklore 4370*

**4410 History of Social and Cultural Anthropology** is a detailed

examination of critical issues in the history of anthropology and its various subdisciplines from ancient times to the formation of schools of thought in the late 19th and 20th centuries.

Prerequisite: At least fourth-year standing in an Arts degree program, including 24 credit hours in Anthropology courses.

**4412 Modern Cultural Theory** is an evaluation of current approaches to culture through psychological, social-structural, critical, and symbolic Anthropology. Emphasis on major works, schools, and personages.

**4422 The Craft of Writing Anthropological Narrative** is a seminar open to senior students in any discipline, which examines in detail both the mechanics and the sensitivities necessary to produce literate analysis.

**4440 Music and Culture** (same as Folklore 4440 and Music 4440) examines traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk-popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

Note: *Credit may be obtained for only one of ANTH 4440, Folklore 4440, and Music 4440*

**4450 Land Tenure and Culture** - inactive course.

**4451 Ethnography of Gambling** - inactive course.

**4452 The Fisheries Revolution** - inactive course.

**4990 Honours Essay (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4991 Comprehensive Examination (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4995 Honours Essay** is required as part of the Honours program.

**4996 Comprehensive Examination** - inactive course.

## 8.3 Archaeology

The Undergraduate Coordinator assists all Archaeology majors and minors in planning their academic programs. For this purpose students should register with the Department at an early stage of their studies.

### 8.3.1 General Degree

#### 1. First Courses

Archaeology 1030 is required of all students wishing to concentrate in Archaeology.

Archaeology 2480 is a prerequisite for most 3000 and 4000-level Archaeology courses and Archaeology 2430 is a prerequisite for all 3000 and 4000-level Bioarchaeology courses.

#### 2. Major

The Student majoring in Archaeology must meet the requirements listed under **Degree Regulations, Regulations for the General Degree of Bachelor of Arts**. Under these Regulations, a minimum of 36 credit hours in Archaeology is required. Students wishing to concentrate in this option must take 15 credit hours from **Group 1 (Core Courses)** which must include 1030, 2480, 4182 and 4411; 9 credit hours from **Group 2 (Field and Laboratory Courses)**; 3 credit hours from **Group 3 (Regional Courses)**; 6 credit hours from **Group 4 (Topical Courses)**. The remaining 3 credit hours may be in any other Archaeology course, except 2491, 2492 or 2493.

**Course Groupings for the Archaeology Program:**

**Group 1 (Core Courses):** 1030, 2430, 2450, 2480, 2582, 2590, 4182, 4411.

**Group 2 (Field and Laboratory Courses):** 3583, 3585, 3586, 3587, 3591, 3650, 3710, 3800, 3850, 3900, 4041, 4151, 4152, 4153, 4171, 4191.

**Group 3 (Regional Courses):** 2481, 3290, 3291, 3500, 3505, 3510, 3515, 3520, 3525, 3580, 3588, 3592, 3651.

**Group 4 (Topical Courses):** 3001, 3020, 3040, 3561, 3584, 3590, 3593, 3750, 3860, 4015, 4043, 4150, 4170, 4172, 4173, 4500, 4994.

#### 3. Minor

A minor in Archaeology may be achieved by completing the following courses: Archaeology 1030 and 2480; 6 credit hours in Archaeology courses at the 3000-level; 3 credit hours in Archaeology courses at the 4000-level, 9 credit hours chosen from Archaeology courses at any level, except Archaeology 2491, 2492 or 2493.

### 8.3.2 Honours Degree

1. Students intending an Honours program are required to be majors and must complete 60 credit hours in Archaeology, including Archaeology 4994 and Archaeology 4995 (or Archaeology 4996). Students must also meet the **Regulations for the General Degree of Bachelor of Arts**, and **Regulations for the Honours Degree of Bachelor of Arts**.

### 8.3.3 Regulations for Joint Honours, Archaeology and Another Major Subject

1. Candidates must fulfill the **Regulations for the Honours Degree of Bachelor of Arts**.

2. Candidates must complete

- a. Archaeology 1030;
- b. Archaeology 2480 and 3 other credit hours in Archaeology at the 2000 level;
- c. Fifteen credit hours in Archaeology courses at the 3000 level, chosen in consultation with a supervisor; and
- d. Archaeology 4182 and 4411 and 9 other Archaeology credit hours at the 4000 level, with a grade of "B" or better.

### 8.3.4 Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Students should note that credit may not be obtained for an Archaeology course if, prior to 2007, the student received credit for that course when it was designated as an Anthropology course.

Archaeology courses are designated by ARCH.

**1030 Introduction to Archaeology and Bioarchaeology** is a broad overview of Archaeology and Bioarchaeology introducing the concepts of human biological and cultural evolution and the methods and techniques by

which these are investigated. The course is designed to provide the basis for further study in the disciplines.

**2430 Principles of Bioarchaeology** investigates the human animal as we exist now and as we developed through time. Students will discover how the study of fossil remains, living and extinct primates, and the applications of the principles of genetics, adaptation and variation of human evolution help to provide an understanding of how biology and culture have interacted to produce modern humans.  
Prerequisite: ARCH 1030

**2450 Principles of Archaeological Science** introduces the student to a broad range of scientific approaches used in archaeology. The course provides an overview of the historical development of archaeological science and a survey of the current techniques used to investigate materials recovered from archaeological contexts, including biomolecular methods, paleoethnobotany, zooarchaeology, geoarchaeology, dating techniques, remote sensing and conservation.

Prerequisite: ARCH 1030

**2480 Principles of Archaeology** is an introduction to archaeological techniques, methodology and theory. Lectures cover the development of the discipline, techniques of survey and excavation, methods of analysis and the interpretation of prehistory.

Prerequisite: ARCH 1030

**2481 Ancient Civilizations of the Americas** is a survey course introducing the archaeology and ethnohistory of various pre-contact civilizations of North, Central and South America. Archaeological Evidence will be used to explore the rise of civilizations in the Americas and particular civilizations will be examined and compared based on ideology, economy and administration.

Prerequisite: ARCH 1030

**2491 Popular Archaeology** is a course on how human history is reconstructed from archaeological remains. Methods and techniques of archaeology are illustrated through discussion of archaeological research currently in progress, both in Newfoundland and Labrador and elsewhere in the world.

Note: *This course may not be used for credit toward a major or minor in Archaeology.*

**2492 Forensic Archaeology** is an examination of procedures and techniques used by Biological anthropologists and archaeologists to obtain data pertinent to investigations by law enforcement and medical authorities; evidence concerning the identification of human remains and the cause, time and manner of death.

Note: *This course may not be used for credit toward a major or minor in Archaeology.*

**2493 Archaeology on Film** explores the use of archaeology as a popular backdrop to many films and documentaries. Yet, the manner in which archaeology is represented in modern film is hardly realistic, or is it? The portrayal of archaeology in popular film will be discussed in order to determine what movies convey to the public about archaeological method and theory as well as the historical stories that archaeologists investigate.

Note: *This course may not be used for credit toward a major or minor in Archaeology.*

**2582 Principles of Historical Archaeology** (same as History 2582) will introduce students to historical archaeology, with special reference to the North Atlantic, 1000 to 1900 AD. The archaeology of specific sites will be examined in order to raise issues about theory and method. Students will be introduced to palaeography; historic maps; documentary archaeology; the survey, excavation and analysis of complex sites; material culture and subsistence studies; cultural resource management and theoretical approaches including historical anthropology, ethnohistory, world systems and consumer studies.

Prerequisite: ARCH 1030

Note: *Credit may be obtained for only one of ARCH 2582, the former ARCH 3582, Anthropology 3582, or History 2582.*

**2590 Basic Research and Writing about the Archaeological Past** is aimed at introductory level students who are curious about how archaeologists uncover evidence about the past. It is also designed to help students to become better researchers and writers. Readings will explore a variety of short classics in archaeology, from debates about when and where humans first evolved to recent research on the historical archaeology of Newfoundland. This course qualifies as a research writing course.

**3001 Art, Architecture and Medieval Life** (same as Medieval Studies 3001, History 3020, Folklore 3001) is an examination of the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. This course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the cloister.

Prerequisite: It is recommended but not obligatory, that students should have successfully completed one of the following courses: ARCH 2480, ARCH 2582, Folklore 1000 or 2000, History 2320 Medieval Studies 2001, History 2330/Medieval Studies 2002, or Medieval Studies 2000.

Note: *Credit may be obtained for only one of ARCH 3001, the former ARCH 3589, Anthropology 3589, Medieval Studies 3001, History 3020, Folklore 3001*

**3020 What is Human?** discusses how humans have long considered themselves unique. Through readings, discussions and presentations this seminar will explore exactly how distinctive humans are in their biological, behavioural, and intellectual traits and whether there is, in fact, something which sets us apart from all other creatures.

Prerequisite: ARCH 2430

**3040 The Human Skeleton** reflects genetic, environmental and cultural influence. This course, emphasizing identification of individual bones in the skeleton, techniques for obtaining size and shape differences in individual bones and the entire skeleton, estimation of group numbers and death rates, and diagnosis of disease and other abnormal conditions, provides a means of assessing all of these influences on past human populations.

Prerequisite: ARCH 2430

**3290 Newfoundland and Labrador Prehistory** is a seminar and reading course on the culture history of Newfoundland and Labrador from about 9,000 years ago until the time of European settlement. Particular attention will be paid to the interactions among the several ethnic and cultural groups upon whose history this course focuses.

Prerequisite: ARCH 1030

**3291 Maritime Provinces Prehistory** is cultural developments in the area which today includes the Maritime Provinces and northern Maine, from the entry of humans into the region until the time of European contact. Emphasis is placed on cultural adaptations to a changing regional environment and the evidence for intercultural contact.

Prerequisite: ARCH 1030

**3500 Prehistory of Africa, Asia and Europe I** examines the early stages of cultural evolution in the Old World. Topics include: earliest human origins in Africa; the dispersal of humans throughout the Old World; the appearance of modern-type humans during the last ice age.

Prerequisite: ARCH 1030

**3505 Prehistory of Africa, Asia and Europe II** is a survey of the more recent stages of human cultural evolution in the Old World. Topics include: complex behaviour of modern-type hunter-gatherers of the last ice age; the domestication of plants and animals in early farming communities.

Prerequisite: ARCH 3500

**3510 Prehistory of the New World** is a survey of cultural development in the Americas from the entry of humans until the time of European contact. Topics include: the earliest human migrations and the dispersal of human groups throughout the New World; the development of complex hunting-gathering societies; the origins of agriculture and sedentism.

Prerequisite: ARCH 1030

**3515 Prehistory of Mesoamerica** (same as History 3515) discusses the Spanish explorers arriving in Mesoamerica i.e. Mexico and Guatemala of today, and how they discovered rich and complex civilizations that had developed independently of European or Asian influence. This course traces the development of Mesoamerican civilizations from their known origins to the point at which growth was terminated by Spanish intervention.

Prerequisite: ARCH 1030

Note: *Credit may be obtained for only one of ARCH and History 3515.*

**3520 The Early Ethnohistory of North America's Native People** - inactive.

**3525 The Later Ethnohistory of North America's Native People** - inactive.

**3561 Ethnoarchaeology** is a subfield of archaeology that uses recent ethnographic information to interpret and explain the material remains of past human behaviour. This course compares the goals and methods of ethnoarchaeologists with those of ethnographers and archaeologists. Case studies are used to illustrate the different approaches and concerns of ethnoarchaeologists working in different regions of the world.

Prerequisite: ARCH 2480, or permission of instructor.

**3580 Bronze Age Archaeology of the Eastern Mediterranean** (same as Classics 3580) examines the archaeological evidence that underlies the current reconstruction of the Bronze Age in the eastern Mediterranean. The Bronze Age of the Aegean and the island of Cyprus is essentially prehistoric and inaccessible except through the methods of archaeology; physical dating techniques, geoarchaeology, residue studies, palaeobotany, zooarchaeology, forensic anthropology, underwater archaeology and cultural resource management. Pieced together these give us a compelling picture of the cultural history, lifeways and the dynamics of cultural change during this important period. Emphasis is placed on the role of Cyprus as a physical and cultural link between peoples of the Aegean and the Near East.

Prerequisite: ARCH 1030 or permission of instructor.

Note: *Credit may be obtained for only one of ARCH 3580 and Classics 3580.*

**3583 Archaeological Field School Orientation** is designed to familiarize students with field and laboratory techniques. Students will learn about research design and the methodologies involved in archaeological site survey and mapping. Students will be instructed in the identification of archaeological sites, completion of site inventory forms, the use of surveying instruments, and the creation of accurate site maps, using these instruments as well as the concepts associated with archaeological excavation, mapping, recording and photography. Finally, students will be given basic instruction in artifact identification, processing and cataloguing. This course is intended to be a precursor to Arch 3585 and 3586 (Archaeology Field School).

Prerequisite: ARCH 2480

**3584 Historical Anthropology** (same as Anthropology 3584 and History 3535) will explore selected issues in historical anthropology, with special reference to the Mediterranean and North Atlantic worlds. Students will read specific case studies in order to explore the theoretical issues raised by the attempt to understand historically-documented past cultures. In order to give practical examples of methodology classes will analyse primary source material. Students will be introduced to the textual analysis of myth and legal records, to the interpretation of images and to the analysis of patterns in material culture. The course will consider specific current interpretive issues, particularly the rise of individualism, the consumer revolution and the cultural construction of gender.

Prerequisite: ARCH 2582, or any 2000-level History course.

Note: *Credit may be obtained for only one of ARCH 3584, Anthropology 3584, History 3535.*

**3585-3586 Archaeology Field School** offers students practical introduction to archaeological fieldwork (3585) and laboratory techniques (3586). These courses provide instruction and experience in site mapping, sampling

strategies, the recovery and conservation of archaeological materials (i.e., artifacts and ecofacts) and the cleaning, cataloguing and cultural interpretation of artifacts and features. The students will also receive an introduction to archaeological research concerning prehistoric and/or historic cultures of a selected region.  
Prerequisite: ARCH 3583

**3587 Archaeological Conservation** is an introduction to principles and techniques for the preservation of archaeological materials, with an emphasis on conservation in the field.  
Prerequisite: ARCH 2480 or ARCH 2450

**3588 Arctic Archaeology** - inactive.

**3590 Hunter-Gatherer Studies** (same as Anthropology 3590) examines past and present hunting and gathering societies from various areas of the world, both from an ethnographic and an archaeological perspective.  
Prerequisite: ARCH 1030 or Anthropology 1031  
Note: *Credit may be obtained for only one of ARCH 3590 and Anthropology 3590.*

**3591 Collections Management** (same as Folklore 3591) will introduce students to the problems of collections storage with respect to environment, materials and artifact access. Students will become familiar with the materials encountered in archaeological and ethnographic collections. The storage of specific historic and prehistoric collections from Newfoundland and Labrador will be examined with the purpose of providing practical examples of methodology.  
Prerequisite: One of ARCH 2450, 2480 or 2582  
Note: *Credit may be obtained for only one of ARCH 3591 and Folklore 3591.*

**3592 Norse Archaeology** explores the influence of the Vikings on the medieval world and the place of L'Anse aux Meadows within this cultural milieu. Students will be introduced to Viking-Age archaeological and literary texts to gain knowledge of specific questions and problems concerning multicultural contact within the Viking-Age world, specifically the North Atlantic region. They will also gain an appreciation of the challenges associated with using interdisciplinary evidence as well as migration and multicultural issues in the past and present.  
Prerequisite: ARCH 1030  
Note: *Credit may be obtained for only one of ARCH 3592 and former ARCH 3685.*

**3593 Archaeology of Children** examines emerging archaeological and bioarchaeological research on children and childhood. Topics include play, learning work, embodiment, identity, death, narrative approaches to children's lives, and the paleoanthropology of childhood.  
Prerequisite: ARCH 2480  
Note: *Credit may be obtained for only one of ARCH 3593 and former ARCH 3684.*

**3650 Artifacts of Colonial North America** provides students with practical experience in the analytical methods used to identify, date and interpret the different types of artifacts encountered on seventeenth- and eighteenth-century archaeological sites in Colonial North America. In depth discussions on manufacture, technology, form and function provide the necessary background for a better understanding of concepts relating to artifact identification, provenance, dating techniques, theoretical approaches and other current issues. Practical, hands-on exercises will help reinforce weekly topics and teach students the fundamentals required to interpret artifact assemblages from the historic period.  
Prerequisite: ARCH 2480, or ARCH 2582

**3651 Archaeology of Colonial North America** focuses on the history and archaeology of North American colonization and covers the period of European exploration and settlement from approximately 1500 to 1700. A diverse range of topics will be discussed including: contracts and interaction with native peoples; early colonies and seasonal outposts; established settlements; war, trade and economics; the material record; the built landscape; daily life in colonial society and maritime archaeology.  
Prerequisite: ARCH 1030  
Note: *Credit may be obtained for only one of ARCH 3651, the former ARCH 3862, or Anthropology 3682.*

**3680-3689 Studies in Archaeology and Prehistory** will include the consideration of current developments in methods, techniques and theory as applied to selected areas of the world.  
Prerequisite: ARCH 2480, or equivalent

**3710 Museums and Historic Sites** (same as Folklore 3700) is an introduction to museums and historic sites, their work, and their role in societies past and present. Various types of museums and historic sites will be discussed using local, national and international examples, looking at their collections and exhibitions policies. Practical issues will also be discussed; these include museum exhibit display techniques, public programming, virtual museums, and the museum profession.  
Prerequisite: ARCH 2480 or ARCH 2582  
Note: *Credit may be obtained for only one of ARCH 3710 and Folklore 3700.*

**3750 Archaeology of Warfare** is a broad overview of archaeological research conducted at sites associated with human conflict spanning from ancient Greece to World War II. Weekly lectures will provide students with a solid background on the various means by which archaeologists study and excavate sites relating to war, conflict and subjugation. A broad range of

topics will be covered including remote sensing and field survey techniques, the changing technology and tactics of war, battlefield sites, POW camps, sunken naval vessels, aviation sites, fortifications and frontier outposts.  
Prerequisite: ARCH 2480 or ARCH 2582

**3800 Fieldwork in Vernacular Architecture: Drawings and Photography** - inactive.

**3850 Material Culture** (same as Folklore 3850) is an examination of various interpretive theories of objects as cultural products. Problems of defining the artifact will be discussed, as well as the strengths and limitations of using objects in historical and ethnographic research. Questions discussed include form, design, decoration, diffusion, and the role of the creator of the object. Besides, folkloristic work on material culture, a variety of interdisciplinary approaches will be considered. Emphasis will be on the material folk culture of Newfoundland and its European antecedents.  
Note: *Credit may be obtained for only one of ARCH 3850 and Folklore 3850.*

**3860 Vernacular Architecture** (same as Folklore 3860 and History 3860) is a historical survey of vernacular architectural forms in various regions of North America, with attention to Newfoundland materials. Issues discussed include the relationship of house form and culture, the concepts of antecedents, diffusion, innovation and evolution of building forms and technologies, and the siting of buildings in the landscape. Dwelling houses, outbuildings, churches and industrial vernacular architecture will be included.  
Note: *Credit may be obtained for only one of ARCH 3860, Folklore 3860, and History 3860.*

**3900 Newfoundland Vernacular Furniture** (same as Folklore 3900) is an introduction to the furnishings of the Newfoundland domestic interior, involving case studies from public and private collections. The focus of the course will be on furniture, looking at both urban and outport forms. The cultural context of typical furnishings will be discussed, as well as details of furniture form and construction. While furniture will be emphasized, other objects of domestic material culture may be included; glass, ceramics, metalware and textiles.  
Note: *Credit may be obtained for only one of ARCH 3900 and Folklore 3900.*

**4015 Cultural Resource Management** (same as Folklore 4015 and Geography 4015) is a study of cultural resource management: the definition and recognition of cultural resources, the application of policy in managing cultural resources, and the identification and consideration of contemporary issues in cultural resource management. Three hours of lecture and three hours of seminar per week.  
Prerequisite: ARCH 2480 or ARCH 2582  
Note: *Credit may be obtained for only one of ARCH 4015, Folklore 4015, and Geography 4015.*

**4041 Palaeopathology** looks at disease, diet, genetics, accidents and maternal health factors as contributors to variations in the human skeleton. In this lecture and laboratory course these factors are diagnosed from bones, and aspects of the culture, health, economy and environment of the skeletal individuals are examined.  
Prerequisites: ARCH 2430 and ARCH 3040

**4043 Biomolecular Archaeology** is a rapidly developing, multidisciplinary subfield of archaeology concerned with unraveling aspects of human behaviour and adaptation from ancient biomolecules preserved in artifacts and biological remains. Through lectures, directed readings and seminars this course aims to review and critically assess the many facets of biomolecular archaeology, including how biological and (geo)chemical methods can be used to address questions of diet, migration and ancestry in the past.  
Prerequisite: ARCH 2430 or ARCH 2450

**4050-4059 Special Projects in Bioarchaeology** includes directed reading, seminars and lab analysis of various skeletal collections. Topics to be covered may include primate behaviour, forensic anthropology, stable and radiogenic isotope analysis and various aspects of human evolution.  
Prerequisite: ARCH 2430 or ARCH 2450

**4150 Environmental Change and Quaternary Geography** (same as Geography 4150) examines methods of reconstructing Quaternary environments, effects of Quaternary environmental changes on landform, with special reference to North America, development and characteristics of glacial and nonglacial climates. Three hours of lecture and three hours of laboratory per week.  
Prerequisite: Six credit hours in physical geography or in archaeology at the 3000-level; or permission of the instructor.  
Note: *Credit may be obtained for only one of ARCH 4150 and Geography 4150.*

**4151 Paleoethnobotany** is a combined directed readings/laboratory course on palaeoethnobotany. Palaeoethnobotany concerns the recovery and analysis of archaeological plant remains as a basis for understanding human and plant interactions in the archaeological record. This course focuses on recent palaeobotanical research in northeastern North America.  
Prerequisite: ARCH 2450, ARCH 2480, or the permission of the instructor.

**4152 Zooarchaeology** aims to introduce the student to the wide range of information that can be gleaned about past human groups from the animal remains they left behind after butchery, meals, toolmaking and other activities. Students will also gain practical experience in the identification

and analysis of faunal remains.

Prerequisite: ARCH 2450 or ARCH 2480

Note: *Credit may be obtained for only one of ARCH 4152, the former ARCH 4195, or Anthropology 4195.*

**4153 Lithic Analysis** explores the range of techniques used to study stone tools, including material and provenance identification, morphology and functional analysis, temporal and cultural typology, measurement, illustration, experimental manufacture, use wear and breakage patterns, refitting, debitage analysis and spatial distribution.

Prerequisite: ARCH 2450 or ARCH 2480

Note: *Credit may be obtained for only one of ARCH 4153, the former ARCH 4196, or Anthropology 4196.*

**4160-4169 Special Projects in Archaeology** are courses which may be offered from time to time as demand arises. They may involve readings, seminars and actual analysis of archaeological collections on, for example: The Neolithic of Western Asia; the Rise of Civilization in Western Asia Scandinavian Prehistory; Palaeoethnobotany; and Technology and Material Culture.

Prerequisite: One of ARCH 2450, 2480, 2481, 2582 or permission of the instructor.

**4170 Settlement and Subsistence Studies in Archaeology** - inactive.

**4171 Iroquoian Archaeology** is a lecture course examining the culture developments of the Iroquoian peoples of Northeastern Canada and the USA. Using both archaeological and ethnohistoric materials, this course will outline and explain the changing social, political and economic traditions of this culture group from their origins through the early contact period.

Prerequisite: ARCH 2480

Note: *Credit may be obtained for only one of ARCH 4171 and former ARCH 4190.*

**4172 Postcolonial Archaeology** critically explores the history and contemporary practice of archaeology in light of the political claims of (formerly) subjugated groups. Topics to be discussed include archaeological antecedents of a postcolonial perspective (postprocessualism, critical archaeology), political economy of archaeology, interests of indigenous and other descendant groups, repatriation, national and transnational archaeologies, and community archaeology.

Prerequisite: ARCH 2480 or ARCH 2582

Note: *Credit may be obtained for only one of ARCH 4172, the former ARCH 4192, or Anthropology 4192.*

**4173 Archaeology of the Body** explores the possibility of a more

encompassing archaeology of embodied experience, starting from archaeological work on gender and recent reconceptualizations of the body in social, cultural and feminist theory. Topics to be discussed include the notion of bodily practice, biopolitics, sexuality, hybridity, violence, identity, sensory experience, disability and aging.

Prerequisite: ARCH 2480

Note: *Credit may be obtained for only one of ARCH 4173, the former ARCH 4191, or Anthropology 4191.*

**4182 History of Archaeology** is an intensive study of the emergence and maturation of archaeology as a discipline within the social sciences, particularly in Western Europe and North America, during the 19th and 20th centuries.

Prerequisite: ARCH 2480

**4190-4199 Selected Topics in Archaeology and Prehistory** is a seminar course focusing on recent theoretical and methodological developments in archaeological research.

Prerequisite: One of ARCH 2450, 2480, or 2582

**4411 Theory and Method in Archaeology and Prehistory** is a seminar course focusing on recent theoretical and methodological developments in archaeological research.

Prerequisites: ARCH 2480 and ARCH 4182

**4500 Special Topic in Historical Archaeology** is a consideration of current developments in methods, techniques, and theory in Historical Archaeology.

Prerequisite: ARCH 2582, or permission of instructor.

**4994 Past Material - Advanced Research and Writing** is a directed reading course and is a prerequisite for the Honours Essay in Archaeology (ARCH 4995). Readings will be chosen to complement students' specialization and to prepare them for the honours essay. Assignments will emphasize short essays and will provide students with the opportunity to improve their professional writing skills in the fields of archaeology, material culture and heritage.

Prerequisite: ARCH 2480

**4995 Honours Essay** is required as part of the Honours program.

Prerequisite: ARCH 4994

**4996 Comprehensive Examination** is an alternate option to the Honours Essay.

## 8.4 Arts

**1200 Learning Across Disciplines** - inactive course.

## 8.5 Canadian Studies

Program Supervisor: TBA

### 8.5.1 Program and Regulations

- This is a multidisciplinary Major program in Canadian Studies offered to candidates for the Bachelor of Arts degree; and it is offered only as a second Major in conjunction with a disciplinary Major.
  - Since the program draws upon courses in several departments, it is administered by an interdepartmental committee (The Canadian Studies Co-ordinating Committee). The Program Supervisor will advise students upon the selection of courses in the Major.
- To qualify as a Major in Canadian Studies, students must complete a minimum of 36 credit hours in courses exclusive of their disciplinary Major, including,
  - A core of at least 12 credit hours from the following courses: English 2150, Geography 3405, History 2210, Political Science 2800, Sociology/Anthropology 2240
  - Canadian Studies 4000.
  - The remaining credit hours shall be chosen from the courses listed below, from at least four different departments, and exclusive of any courses applied towards the first Major (\* indicates cross-listed courses). In the event that a course from the above core is part of the disciplinary Major, a student will be required to complete the additional credit hours from the courses listed below.

Anthropology 3240\*

Economics 3030, 3150, 3620\*, 3711\*, 4025, 4026

English 2151, 3152, 3153, 3156, 3157, 3158, 4821, 4822

Folklore 3950, 4300, 4420\*

French 3651, 3653, 4310\*, 4420\*, 4500, 4501, 4502

Geography 2105, 3701, 4640

History 1013, 2200, 3130, 3140, 3150, 3620\*, 3630\*, 3650, 3821, 4240, 4241, 4242, 4245, 4249, 4250, 4251

Law and Society 2000, 3011, 3015

Linguistics 2025, 2026, 2030, 2031, 2060, 4310\*

Music 3016

Political Science 1000, 1010, 3280, 3600, 3610, 3650, 3800, 3810, 3820, 3830, 3860, 3870, 3890, 4630, 4860, 4870.

Religious Studies 3902, 3903

Sociology 3240\*, 3306, 3395

Sociology/Anthropology 3240\*

And any special topics courses approved for inclusion in this list by the Committee on Undergraduate Studies, Faculty of Arts.

- In addition, a demonstration of adequate knowledge in both written and oral French is required. A candidate is deemed to have demonstrated adequate knowledge upon either passing an examination set by the French Department or by completing French

2100 with a "B" standing.

- The normal departmental prerequisites are applicable, but Department Heads may waive course prerequisites in the Canadian Studies area for Canadian Studies Majors when alternate preparation can be demonstrated.

## 8.5.2 Course Descriptions

Canadian Studies courses are designated by CNST.

**4000 Interdisciplinary Seminar in Canadian Studies** will expose students to the interdisciplinary approach to the study of Canada through a series of lectures and discussions conducted by members of departments represented on the Canadian Studies Major Program Co-ordinating Committee and through the preparation of formal written work which explores a specific theme from a variety of disciplinary perspectives.

Prerequisite: Permission of the Supervisor of the Canadian Studies Major Program.

Note: *Credit may not be obtained for both CNST 4000 and History 4247.*

## 8.6 Classics

### 8.6.1 Programs and Regulations

Programs of the Department of Classics are designed to acquaint students with the ancient Greek and Roman cultures from which Western Civilization has developed. The Department endeavours to instruct with and utilize the full range of evidence available, including texts in Greek and Latin as well as material culture. Furthermore, it is understood that a degree of access can often be achieved by studying antiquity through translated sources. The Department therefore is committed to offering a wide range of courses and programs designed to explore the many aspects of the discipline.

### 8.6.2 General Degree

#### 8.6.2.1 Major in Classics

Candidates for a Major in Classics are advised to choose their program in consultation with the Department.

The major program consists of a minimum of 39 credit hours in Classics courses in accordance with the following:

- Either Classics 1120 and 1121 or Classics 1130 and 1131
- At least 15 credit hours must be at the 3000 level or above
- An additional 18 credit hours at any level. With the exception of first year language courses, no more than two 1000-level courses may be counted towards the major.

#### 8.6.2.2 Minor in Classics

Students wishing to pursue a minor in Classics will take 24 credit hours in Greek and Roman Studies courses. In place of any of these the student may substitute courses in Greek or Latin.

#### 8.6.2.3 Honours in Classics

Candidates for Honours in Classics shall consult the Department before finalizing their program.

- Classics 1120 and 1121 and Classics 1130 and 1131;
- At least 9 credit hours selected from Classics 2200, 2300, 3200, and 3300;
- Classics 4999;
- At least 36 additional credit hours in Classics at the 3000 level or above, of which 18 must be in Latin or Greek. Classics 2302 may be substituted for a course at the 3000 level.

#### 8.6.2.4 Joint Honours in Classics

Classics may be combined with another subject to form a Joint Honours program. The Joint Honours Program in Classics shall include at least 51 credit hours in Classics, including the following.

- Classics 1120 and 1121 or Classics 1130 and 1131;
- At least 6 credit hours selected from Classics 2200, 2300, 3200, and 3300;
- At least 30 additional credit hours in Classics at the 3000 level or above, of which at least 15 must be in Greek or Latin. Classics 2302 may be substituted for courses at the 3000 level.

#### 8.6.2.5 Honours in Greek and Roman Studies

Candidates for Honours in Greek and Roman Studies shall consult the Department before finalizing their program.

- One of following: Classics 1050, 1051, 1052, 1100 or 1200;
- Either a. or b.:
  - Classics 1120 and 1121
  - Classics 1130 and 1131
- 15 credit hours in courses at the 2000 level;
- 36 credit hours in courses at the 3000 level or above, including 4999.

#### 8.6.2.6 Joint Honours in Greek and Roman Studies

Greek and Roman Studies may be combined with another subject to form a Joint Honours program. The Joint Honours Program in Greek and Roman Studies shall include at least 51 credit hours in Classics.

- One of following: Classics 1050, 1051, 1052, 1100 or 1200;
- Either a. or b.:
  - Classics 1120 and 1121
  - Classics 1130 and 1131
- 15 credit hours in courses at the 2000 level;

4. 27 credit hours in courses at the 3000 level or above.

### 8.6.3 Prerequisites

Note: *Although there are no formal prerequisites for any course in Greek and Roman Studies, students are encouraged to ensure that they have adequate preparation for the courses numbered above 3000 in which they intend to register.*

1. Classics 3200 is the normal prerequisite for any Latin course in the 4000 series.
2. Classics 3300 is the normal prerequisite for any Greek course in the 4000 series.

In special circumstances, prerequisites may be waived with the permission of the Head of the Department.

Medieval Studies 3000 may be substituted for a Greek and Roman Studies course in both the Classics degree programs (Honours, Joint Honours and general degree) and the Greek and Roman Studies degree programs (Honours, Joint Honours and general degree).

### 8.6.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Classics courses are designated by CLAS.

#### 8.6.4.1 Greek Course Descriptions

**1130 Elementary Ancient Greek I** is an introduction to the grammar and syntax of ancient Greek, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.

Note: *Students may not receive credit for CLAS 1130 and the former CLAS 130B.*

**1131 Elementary Ancient Greek II** is a continuation of the work begun in Elementary Ancient Greek I.

Note: *Students may not receive credit for CLAS 1131 and the former CLAS 130B.*

Prerequisite: CLAS 1130 or its equivalent.

**2300 Intermediate Ancient Greek** is a continuation of the grammar, syntax, reading, and composition completed in the elementary program.

Prerequisite: CLAS 1131.

**2302 Readings in New Testament Greek** (same as Religious Studies 2302).

Note: *Students may not receive credit for CLAS 2302 and Religious Studies 2302.*

**3300 Advanced Ancient Greek** refines the skills developed in Intermediate Greek and applies them to selected readings of Greek authors.

Prerequisite: CLAS 2300

Note: *Students may not receive credit for CLAS 3300 and the former 2305.*

**4300 Greek Tragedy**

**4305 Greek Comedy**

**4310 Greek Epic Poetry**

**4315 Attic Orators**

**4320 Greek Lyric Poetry**

**4325 Greek Historians**

**4340 Greek Philosophical Authors**

**4355-4365 Special Topics in Greek Readings** will have authors and readings selected by the Department.

**4370 Hellenistic Poetry**

**4391 Special Authors**

**4999 Honours Essay** is a requirement of the Honours program.

#### 8.6.4.2 Latin Course Descriptions

**1120 Elementary Latin I** is an introduction to the grammar and syntax of Latin, with particular attention paid to the acquisition of basic skills in reading, composition, and aural comprehension.

Note: *Students may not receive credit for CLAS 1120 and the former CLAS 120A.*

**1121 Elementary Latin II** is a continuation of the work begun in Elementary Latin I.

Prerequisite: CLAS 1120 or its equivalent.

Note: *Students may not receive credit for CLAS 1121 and the former CLAS 120B.*

**2200 Intermediate Latin** is a continuation of the grammar, syntax, reading, and composition completed in the elementary program.

Prerequisite: CLAS 1121.

**3200 Advanced Latin** refines the skills developed in Intermediate Latin, and applies them to selected readings of Latin authors.

Prerequisite: CLAS 2200.

Note: *Students may not receive credit for CLAS 3200 and the former CLAS 2205.*

**4202 Medieval Latin** same as Medieval Studies 4021)

**4205 Latin Lyric Poetry**

**4210 Latin Historians**

**4215 Latin Orators**

**4220 Latin Hexameter Poetry**

**4225 Latin Epistolography**

**4235 Latin Philosophical Authors**

**4240 Latin Drama**

**4245 Latin Elegiac Poetry**

**4250 Latin Satire**

**4265-4275 Special Topics in Latin Readings** will have authors and readings selected by the Department.

**4291 Special Authors**

**4999 Honours Essay** is a requirement of the Honours program.

#### 8.6.4.3 Greek and Roman Studies Course Descriptions

Note: *For the following courses, no knowledge of Greek or Latin is required. Students are strongly advised to have completed at least one 1000-level or 2000-level Greek and Roman Studies course before registering in any 3000-level or higher Greek and Roman Studies course.*

**1051 Gods in Classical Mythology** is an introduction to some of the major myths of ancient Greece and Rome, with particular attention to the gods. The myths will be studied with reference to their social and historical contexts, literary and artistic representations, and modern theories of interpretation.

Note: *Students may not receive credit for both CLAS 1051 and the former CLAS 1050.*

**1052 Heroes in Classical Mythology** is an introduction to some of the major myths of ancient Greece and Rome, with particular attention to the heroes. The myths will be studied with reference to their social and historical contexts, literary and artistic representations, and modern theories of interpretation.

Note: *Students may not receive credit for both CLAS 1052 and the former CLAS 1050.*

**1100 Introduction to Greek Civilization** is a general illustrated survey of the origins and evolution of Ancient Greek Civilization. The course introduces the student to Greek social and political institutions, religion and myth, and achievements in art, philosophy, science and literature, as well as the influence of Ancient Greece on the modern world.

Note: *This course may qualify as a Research/Writing course.*

**1200 Introduction to Roman Civilization** is a general illustrated survey of the origins and evolution of Ancient Rome. The course introduces the student to social, political, and legal institutions, the growth of the Roman Empire, Roman art, literature, and religions, as well as Rome's pervasive influence in the modern world.

Note: *This course may qualify as a Research/Writing course.*

**2010 Greek Art and Architecture** is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Greece.

**2015 Roman Art and Architecture** is an introduction, through illustrated lectures, to the study of the art and architecture of Ancient Rome.

**2020 History of the Hellenistic World** is a survey of the history of the Mediterranean world and the Near East from the death of Alexander the Great in 323 BC until the incorporation of the Kingdom of Egypt in the Roman Empire in 30 BC. Particular attention is given to the influence of the new monarchies on political, social and cultural developments in both Greek and non-Greek communities.

**2025 Introduction to Ancient History** (same as History 2020) is an

introduction to the history of ancient city-states, kingdoms and empires, including economic, social, political and cultural developments.

**2035 History of Classical Greece** (same as History 2035) is a survey of Greek History from the Bronze Age to the death of Alexander the Great, with special reference to the social and political institutions of the fifth century B.C.

**2041 History of the Roman Republic** (same as History 2041) is a survey of Roman history from the early monarchy to the death of Julius Caesar, with special reference to the society and politics of the late Republican period.  
Note: *Students may not receive credit for CLAS 2041, History 2041, and the former CLAS/History 2040.*

**2042 History of the Roman Empire** (same as History 2042) is a survey of Roman history from the death of Julius Caesar to the rise of Constantine, with special reference to the society and politics of the early Imperial period.  
Note: *Students may not receive credit for CLAS 2042, History 2042, and the former CLAS/History 2040.*

**2055 Women in the Ancient World** is an examination of the role of women in ancient Mediterranean civilizations from the perspectives of social and political history and culture. Critical assessments of relevant scholarship and methodologies will be included.

**2400 Literature of Ancient Greece** introduces students to Greek Literature from the Archaic to the Imperial Periods. Students will study epic poetry, drama and other genres typical of these periods. Students will also be introduced to important themes, methodologies and scholarship. This course may be offered as a research/writing course. Consult each semester's Undergraduate Registration Procedures for the R/W designation.  
Note: *Students may not receive credit for Classics 2400 and Classics/English 3110.*

**2500 Literature of Ancient Rome** introduces students to Latin Literature from the Republican to the Late Antique Periods. Students will study epic poetry, drama and other genres typical of these periods. Students will also be introduced to important themes, methodologies and scholarship. This course may be offered as a research/writing course. Consult each semester's Undergraduate Registration Procedures for the R/W designation.  
Note: *Students may not receive credit for both Classics 2500 and Classics/English 3111.*

**2701 History of Ancient Philosophy** (same as Philosophy 2701) is a survey of the origin and development of Western philosophy among the Greeks and Romans.

**2900 Science and Technology in the Ancient World** is an introduction to significant developments in ancient Greek and Roman science and technology with emphasis on interpreting the primary evidence, including written sources (in translation) and material remains, assessing the historical context, and considering the nature of advancements.

**3010 Greek Religion** (same as Religious Studies 3010) is a study of the role of religion in the private and public life of the Greek world.  
Note: *Students may not receive credit for CLAS/Religious Studies 3010 and the former CLAS/Religious Studies 3121.*

**3020 Roman Religion** (same as Religious Studies 3020) is a study of the role of religion in the private and public life of the Roman world.  
Note: *Students may not receive credit for CLAS/Religious Studies 3020 and the former CLAS/Religious Studies 3121.*

**3030 Greece and Persia** is a study of relations between Greece and Persia from the foundation of the Persian Empire to the death of Alexander the Great.

**3040 Socrates and Athens** is an introduction to and examination of Socrates within the context of Athenian political, social, cultural, intellectual, and religious life, and against the background of the fifth-century enlightenment and the sophistic movement.

**3050 Augustus and Rome** is a course that examines the Age of Augustus (27 B.C. to A.D. 14) which witnessed not only Rome's greatest achievements in literature and art but also the replacement of republican government by a monarchy; this course, based on original sources, examines the period through its most powerful and influential figure.

**3150 Early Christian Thought: The First Five Centuries** (same as Religious Studies 3150) is an advanced study of selected themes and personalities in Christian thought and literature from the second to the sixth centuries. Particular attention will be given to the controversies centring on the doctrines of the Trinity and the Person of Christ.

**3270 Christianity and the Roman Empire** - inactive course.

**3405 Tragic Drama in Greece and Rome** is a detailed examination of the

tragic dramas of ancient Greece and Rome. A selection of plays by Aeschylus, Sophocles, Euripides and Seneca will be read in English translation. Topics to be discussed include the development of ancient tragedy, its literary, performative and thematic traditions, its representation of social and historical conditions, and its influence on later tragic drama.  
Note: *Students may not receive credit for Classics 3405 and the former Classics 2805.*

**3410 Comic Drama in Greece and Rome** is a detailed examination of the comic dramas of ancient Greece and Rome. A selection of plays by Aristophanes, Menander, Plautus and Terence will be read in English translation. Topics to be discussed include the development of ancient comedy, its literary and thematic traditions, its representation of social and historical context, and its influence on later comic drama.  
Note: *Students may not receive credit for Classics 3410 and the former Classics 2810.*

**3415 Epic Poetry in Greece and Rome** offers a detailed and in-depth study of the epic poetry of ancient Greece and Rome. The course will examine the poems of Homer, Apollonius of Rhodes and Virgil in English translation. Instructors may include additional poems. Topics to be discussed include the development of epic poetry, its literary traditions and its role in Greek and Roman society.  
Note: *Students may not receive credit for Classics 3415 and the former Classics 2060.*

**3420 Lyric Poetry in Greece and Rome** is a study of Greek and Roman poetry often conventionally termed 'lyric', including such genres as choral and solo songs, elegy, epigram, love poetry, and others. A selection of important works from Archaic Greece to Augustan Rome will be studied with reference to their social and literary contexts.

**3500-3510 Special Topics in Classics** will have topics determined by the Department.

**3580 Bronze Age Archaeology of the Eastern Mediterranean** - inactive course.

**3600 Ancient Myth and Cult** (same as Religious Studies 3600) develops the students' knowledge of myth and material culture by examining specific religious sites in the Greek and Roman world as foci of ritual practice. Students will learn to integrate knowledge of the physical remains with the literary and ritual evidence in order to obtain a more integrated understanding of religious life in ancient Greece and Rome.  
Note: *Students may not receive credit for Classics 3600 and Religious Studies 3600.*

**3700 The Ancient World in Film** examines the representation of the history and cultures of the ancient world in film. A selection of films will be studied and extensive reference will be made to the ancient evidence which informs them. The ancient world's impact on modern Western society will be considered together with the film industry's recasting of the ancient world in response to modern social and historical developments.

**3710-3729 Special Topics in Classics** (available only as part of the Harlow campus semester)

**3900 Greek and Roman Medicine** examines the medical theories and practices of the ancient Greek and Roman world by taking account of ancient texts (in translation) as well as evidence from material culture, including art and architecture. Topics may include the relationship between science and medicine, concepts of health and illness, the role of the healer, practical applications, gender differentiation of patients, and legacy of ancient practices.

**4000 Seminar in Greek History and Society** - inactive course.

**4010 Seminar in Roman History and Society** is a seminar in Roman History and Society.

**4020 Seminar in Greek Literature and Culture** is a seminar in Greek Literature and Culture.

**4030 Seminar in Roman Literature and Culture** is a seminar in Roman Literature and Culture.

**4100-4109 Special Topics in Greek and Roman Studies** will have topics announced by the Department and may include field studies in topography, Greek and Roman art and architecture, archaeology, and related areas, to be held in the Mediterranean and other regions of Graeco-Roman influence. Prerequisite: Permission of the instructor and the Head of the Department.

**4999 Honours Essay** is a requirement of the Honours program.

## 8.7 Communication Studies

Program Co-ordinator: Dr. E. Warkentin, Head, Department of German and Russian

This inter-disciplinary Major program is offered to candidates for the Degree of Bachelor of Arts. It is offered in conjunction with a major or a minor in a single discipline.

The Communication Studies program aims to provide explanatory frameworks and critical methodologies, drawn from a variety of disciplines, for understanding how communication and media are integral to the changing relationships between a variety of agents and

agencies, from the individual to the nation-state and from personal interactions to international relations.

### 8.7.1 Program and Regulations

1. Students who major in Communication Studies shall complete a minimum of 36 credit hours in courses which shall include the following:

**Core Courses:**

Communication Studies 2000  
Communication Studies 2001  
Communication Studies 4000

2. Students are required to complete an additional 27 credit hours in at least 3 different disciplines and chosen from the lists below including:

- A maximum of 12 credit hours from **List B**;
- A maximum of 12 credit hours at the 2000 level in addition to Communication Studies 2000 and Communication Studies 2001;
- A minimum of 9 credit hours at the 3000 level; and
- A minimum of 3 credit hours at the 4000 level in addition to Communication Studies 4000.

3. **Elective Courses:**

Courses may be selected from the following two lists and/or as approved by the Program Coordinator.

• **List A**

English 2700: Writing and Gender I  
Folklore 1060: Folklore and Culture  
Folklore 3850: Material Culture  
Folklore 3930: Folklore and Popular Culture  
Linguistics 2100: Language and Communication  
Philosophy 2571: Technology  
Philosophy 3600: Philosophy of the Humanities  
Philosophy 3620: Philosophy of Art  
Philosophy 4250: Seminar in Metaphysics and Epistemology  
Philosophy 4300: Seminar in Ethics  
Political Science 3350: Public Opinion and Voting  
Political Science 3860: Media and Politics in Canada  
Sociology/Anthropology 2210: Communication and Culture  
Sociology/Anthropology 3630: New Media Methods in Social Research  
Religious Studies 2812: Religion and Popular Culture  
Women's Studies 2005: Identities and Difference  
Women's Studies 3005: Feminist Texts, Theories and Histories  
Women's Studies 4107: Women and Technological Change  
Any Special Topics courses approved for inclusion in this list by the Committee on Undergraduate Studies, Faculty of Arts, upon the recommendation of the Program Co-ordinator.

• **List B**

English 2850: What is Film?  
English 2851: Introduction to Film Form and Film Theory  
English 3813: Theories of National Cinema  
German 3000: German Film I  
German 3001: German Film II  
German 3002: Post-Wall Cinema  
German 3003: DEFA, The Cinema of East Germany  
History 3748: History of Film: The American Cinema  
History 3790: Reel American History: US History through its Films, 1895-1945  
History 3795: Reel American History: US History through its Films since WWII  
History 4695: The Middle Ages on Film  
Religious Studies 1022: Jesus in Film  
Russian 3023: Post-Soviet Russia: Media and Film  
Any Special Topics courses approved for inclusion in this list by the Committee on Undergraduate Studies, Faculty of Arts, upon the recommendation of the Program Co-ordinator.

The normal departmental prerequisites are applicable, but Department Heads may waive course prerequisites in cases where alternate preparation can be demonstrated.

### 8.7.2 Course Descriptions

In accordance with Senate's Policy Regarding Inactive Courses, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Communication Studies courses are designated by CMST.

**2000 Critical Approaches to Popular Culture** considers critical issues and approaches in the study of popular culture. It will explore the ways in which everyone is both a user of and is used by popular culture. A variety of critical approaches to studying popular culture will be examined: Production, Texts, Audience, and History.

**2001 Introduction to Communication Theory** provides an introduction to theoretical approaches to organization, use and manipulation of language, including semiotics, performativity, mass and group communications, sociolinguistics and interpersonal communication. We will examine notions of influence, rhetoric, social judgment, deception, subject formation, globalization and cultural hybridity within the field of communications.  
Prerequisite: CMST 2000

**4000 Advanced Communications Theory** engages communication theories, such as interpersonal, organizational, intercultural, or international communication, seeking to understand how and why mediated communication works have found their explanatory power to be useful. The course will aim to analyze various communication theories, apply communication theories to everyday life, write a theoretical literature review, and form sound hypotheses or focused research questions to advance theory.  
Prerequisites: CMST 2000 and 2001 and 9 additional credit hours chosen from **Program and Regulations, Elective Courses, List A or B.**

## 8.8 Computer Science

For Departmental Regulations and Course Descriptions, see **Faculty of Science** section of the Calendar.

The following undergraduate programs are available in the Department of Computer Science:

1. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
2. Computer Internship Option (CIIO) (B.Sc. and B.Sc. Honours only)
3. Computer Science and Economics Joint Major (B.Sc. Only)
4. Computer Science and Geography Joint Honours (B.Sc. only)
5. Computer Science/ and Geography Joint Major (B.Sc. only)
6. Computer Science and Physics Joint Honours
7. Computer Science and Physics Joint Major
8. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
9. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
10. Computer Science and Statistics Joint Honours
11. Computer Science and Statistics Joint Major (B.Sc. only)
12. Honours in Computer Science (B.A., B.Sc.)
13. Honours in Computer Science (Software Engineering) (B.Sc. only)
14. Major in Computer Science (B.A., B.Sc.)
15. Minor in Computer Science (B.A., B.Sc.)

## 8.9 Drama and Music

Note: *The Major program in Drama and Music is currently under review and will not be available for admission for the 2010-2011 year. For further information please contact the Department of English Language and Literature.*

1. a. This is an Interdisciplinary Major Program in Drama and Music offered to candidates for the Bachelor of Arts degree, under paragraph 3. b. of the Regulations for the General Degree of Bachelor of Arts.  
 b. Since the program is interdisciplinary, it is administered by an interdepartmental committee (The Drama and Music Co-ordinating Committee). The Program Supervisor will advise students upon the selection of courses in the Major.
2. To qualify as a Major in Drama and Music, students must complete a minimum of 54 credit hours as follows:
  - a. **Department of English - Drama Courses**  
 Students must complete at least 27 credit hours in English, as follows:
    - i. Six credit hours in English at the 1000 level, preferably including 1102
    - ii. 2002, 3350, 3351, 4400, 4401
    - iii. Three additional credit hours in English at the 2000 level
    - iv. Three credit hours in courses chosen from 3021, 3022, 3156, 3171, 3181, 3200, 3201, 3260, 3302, 4302.
  - b. **School of Music - Music Courses**
    - i. Students must complete at least 27 credit hours in Music, as follows:
      - Two of Music 2011, 2012, 2014
      - Music 1107, 1108, 1117, 1118, 1127 or 1137, and 1128 or 1138
      - Music 2107 and 2117
      - Music 2311
      - Music 2013 or Music 3007
      - Two credit hours of conducted ensemble.
    - ii. Further courses in music theory and/or music history may be chosen as Arts electives.
    - iii. Course prerequisites stipulated in the course descriptions must be met. In particular, note the prerequisites for Music 1107 and 1127.
    - iv. Most music courses are not offered every semester, and some are offered only in alternate years.

## 8.10 Economics

The following programs are available in the Department:

1. Major in Economics (B.A. or B.Sc.)
2. Honours in Economics (B.A. or B.Sc.)
3. Honours in Economics (Co-operative), (B.A. or B.Sc.)
4. Minor in Economics
5. Joint Programs (B.Sc. Only)
6. Joint Program (Co-operative) (B.Sc. Only)
7. Major in Economics (Co-operative) (B.A. or B.Sc.)

### 8.10.1 Admission Regulations (B.Sc.)

Students are normally admitted to the B.Sc. Program upon successful completion of 30 credit hours which must include:

1. Six credit hours in English courses
2. Six credit hours in Mathematics courses

### 8.10.2 Major in Economics (B.A. or B.Sc.)

1. Students may Major in Economics as part of either a B.A. or a B.Sc program. See the General Regulations for the B.A. and B.Sc. Degrees as appropriate.

2. Economics 2010 and 2020 are prerequisites for all other Economics courses except Economics 2070.
3. Economics 2550, 3000 and 3010 are prerequisites for all 4000-level courses.
4. Candidates shall consult with the Head of the Department or delegate when choosing courses for a Major in Economics.
5. Mathematics 1000 or its equivalent is the prerequisite for Economics 3000, 3010, and 3550.
6. B.A. candidates who undertake a Major in Economics shall complete Statistics 2500 and at least 39 credit hours in courses in Economics of which:
  - a. 2010, 2020, 2550, 3000, 3001, 3010 and 3550 are obligatory.
  - b. Eighteen credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000-level.
  - c. Candidates may, with the approval of the Head of the Department or delegate, substitute Statistics 2510 for Statistics 2500.
7. B.A. candidates majoring in Economics shall complete a minor of 24 credit hours in one other approved subject, or a second Major in accordance with General Regulations. It is recommended that the Minor or second Major be chosen from the following subjects: Business, Mathematics, Political Science, Statistics, Computer Science, History, Geography, Philosophy, Sociology, or Anthropology.
8. B.Sc. candidates who undertake a Major in Economics shall complete at least 42 credit hours in courses in Economics of which:
  - a. 2010, 2020, 2550, 3000, 3001, and 3010 are obligatory
  - b. Six credit hours shall be chosen from either 3550 and 3551, OR 4550 and 4551
  - c. Eighteen credit hours shall be chosen from among the various Economics courses in consultation with the Head of the Department or delegate, and will include at least 9 credit hours in courses at the 4000-level.
9. B.Sc. candidates must complete credits from other Science disciplines as follows:
  - a. Mathematics 1000, 1001, and 2050
  - b. Statistics 2510, or its equivalent, and an additional 3 credit hours of Statistics
  - c. Computer Science 1700, and an additional 3 credit hours of Computer Science. With the approval of the Head of the Department or delegate, candidates may substitute another 1000-level Computer Science course for Computer Science 1700. Minors in Computer Science should enroll in Computer Science 1710.
  - d. At least 3 credit hours in an additional science subject other than Mathematics/Statistics, Economics, and Computer Science

### 8.10.3 Honours in Economics (B.A. or B.Sc.)

1. See the General Regulations for the B.A. and B.Sc. (Honours) Degrees.
2. All candidates shall consult with the Head of the Department or delegate when choosing courses for an Honours program.
3. All candidates shall complete all non-Economics courses required of B.A. or B.Sc. Majors, and at least 60 credit hours in courses in Economics, of which 2010, 2020, 2550, 3000, 3001, 3010, 3011, 3550, 3551, 4550 and 4551 shall be chosen.
4. Twenty-four credit hours in electives in Economics shall be chosen in consultation with the Head of the Department or delegate, including at least 9 credit hours in courses at the 4000-level. In addition, all Economics Honours candidates are required to write an essay.

### 8.10.4 Minor in Economics

1. Economics 2010, 2020, 3000, and 3010 are obligatory.
2. Mathematics 1000 or its equivalent is the prerequisite for Economics 3000, 3010 and 3550.
3. Twelve credit hours in Economics electives shall be chosen in consultation with the Head of the Department or Delegate.
4. Course prerequisites stipulated in the General Degree regulations and in the course descriptions shall apply to a Minor in Economics.

### 8.10.5 Joint Programs

Programs for Joint Majors in Economics and Computer Science, Pure Mathematics, Applied Mathematics or Statistics, and a Joint Major in Statistics and Economics (Co-operative) are found under the heading **Joint Programs** in the entry for the Faculty of Science.

Students who wish to take a Joint Major in Economics and Computer Science, Mathematics or Statistics must arrange their program in consultation with the heads of the respective departments and comply with the General Regulations for the Majors Degrees.

### 8.10.6 Major in Economics (Co-operative) (B.A. or B.Sc.)

#### Economics Co-operative Education Option (ECEO)

This Economics Program is available to full-time Economics majors (B.A. and B.Sc.) only.

The ECEO provides an excellent mutual opportunity for students and employers. Qualified students will obtain rewarding employment experience in fields related to Economics for several months of continuous duration. Students will learn valuable practical skills in an employment situation during their course of study. Furthermore, paid employment will help to defray the cost of their education. The timing of the Work Terms and the structure of the ECEO generally are such that employers stand to gain from the acquired employable skills of economists in training. The objectives of the Work Term component of the ECEO are embodied in the Work Term descriptions below. The descriptions serve to guide the student and the employer toward achieving these objectives.

#### 1. Admission Requirements

- a. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the Co-operative program.
- b. Applicants should note that it is possible to enter Term 1 only in the Fall semester commencing in September of each academic year. Application forms are available in the Department of Economics. The deadline for applications for admission to Term 1 is March 1.
- c. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Students with weak overall academic records are unlikely to be admitted.
- d. To be eligible for admission to Term 1 an applicant must have successfully completed a minimum of 30 credit hours with an overall average of at least 65% as follows: All applicants must have completed Economics 2010 and 2020; at least 6 credit hours

in English\*; Mathematics 1000; and 15 credit hours chosen from courses in the Faculties of Arts\*\* Business or Science. B.Sc. applicants must have completed Mathematics 1001.

\*It is recommended that students complete English 1110 as one of these English courses.

\*\*It is also advised that B.A. students choose courses which can satisfy the requirements for the Core Program (see **Arts Degree Regulations** for these requirements), including courses in a second language.

- e. Students may apply for admission to Advanced Standing.
- f. Transfer students from other universities will be placed in that term of the program judged to be appropriate considering equivalent credits, as determined by the Department.

## 2. Program of Study

- a. Promotion from each of Terms 1 through 6 requires a passing grade in all specified required courses and an overall average of at least 60% in all courses including electives. A student who fails a required course or fails to maintain the overall average of 60% will not be promoted to the next term and will be required to withdraw from the program. The student in question may apply for readmission in a subsequent year after passing the specified required course(s) previously failed, or re-establishing the 60% average.
- b. In addition to the 30 credit hours required for admission, students are required to complete the six academic terms in the ECEO program for a total of 120 credit hours. Students must complete three Work Terms which follow Academic Terms 2, 4, and 5.
- c. Courses shall normally be taken in academic terms or "blocks" in the sequenced course load and order as set out in the table **Major in Economics (Co-operative Option) B.A. Academic Course Program** or in the table **Major in Economics (Co-operative Option) B.Sc. Academic Course Program**. Unspecified credits may be used to fulfill elective requirements only.
- d. **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) Classification of Students** notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

## 3. Work Term Placement

- a. General management of the work terms in the ECEO is the responsibility of the Division of Co-operative Education (DCE). It is responsible for assisting potential employers to become involved in the program, organizing competitions for Work Term employment, arranging student-employer interviews and facilities, data base management, and for the continual development of employment opportunities. The program co-ordinator (hereafter referred to as co-ordinator) is an Academic Staff member who will work with the department to counsel students, visit students on their work assignments and evaluate the work term.
- b. Work placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, the DCE has no responsibility for placement until they have been re-admitted to the program.
- c. A student who applies for admission to the co-op program gives permission to the University to provide a copy of the applicant's resume, university transcript and work term evaluations to potential employers.
- d. A student who has been accepted to the ECEO program may obtain his/her own work term placement outside the competition. Such employment positions must be confirmed by the employer, and must be approved by the co-ordinator.
- e. Students are expected to submit, within a month from starting a Work Term, a plan of the intended work that term.
- f. Salaries paid to co-operative students are determined by employers based on their internal wage structures, and tend to increase as the student progresses through the program and assumes more responsibility. However, students should not expect the income from work terms to make them completely self-supporting.

## 4. Registration and Evaluation of Performance

- a. In Work Terms I, II, and III, students must register for Economics 299W, 399W, and 499W respectively.
- b. Student performance evaluations are to be completed by the employer and returned to the co-ordinator. The Work Term evaluations shall consist of two components:

### i. On-the-job Student Performance:

Job performance shall be assessed by the co-ordinator in consultation with the department using information gathered during the Work Term and input from the employer towards the end of the Work Term. Formal written documentation from the employer shall be sought. Evaluation of the job performance will result in one of the following classifications: OUTSTANDING, ABOVE EXPECTATIONS, SATISFACTORY, MARGINAL PASS, FAIL.

### ii. The Work Report:

- Students are required to submit a Work Term report to the co-ordinator on the first day of final exams.
- Work Term reports shall be evaluated by a faculty member and the co-ordinator.
- If an employer designates a report to be of a confidential nature, both employer and the co-ordinator must agree as to the methods to protect the confidentiality of such a report before the report may be accepted for evaluation.
- Reports must contain original work related to the Work Term placement. The topic must relate to the work experience and will be chosen by the student in consultation with the employer. The topic must be approved by the co-ordinator or a faculty member of the Department of Economics.

Evaluation of the work term will result in one of the following classifications: OUTSTANDING, ABOVE EXPECTATIONS, SATISFACTORY, MARGINAL PASS, FAIL.

The evaluation of the job performance and the work term report are recorded separately on the transcript. Overall evaluation of the work term will result in one of the following final grades being awarded:

- Pass with Distinction: Indicates OUTSTANDING PERFORMANCE in both the work report and the job performance.
- Pass: Indicates that PERFORMANCE MEETS EXPECTATIONS in both the work report and the job performance.
- Fail: Indicates FAILING PERFORMANCE in the work report or the job performance.

For promotion from the Work Term, a student must obtain at least a Pass. Students should also refer to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)** of the University.

The grades awarded for each work term will be noted on the transcript of the student.

- c. If a student fails to achieve the Work Term standards specified above the student will be required to withdraw from the program. Such a student may reapply to the program after a lapse of two semesters, at which time the student will be required to repeat the Work Term with satisfactory performance before being admitted to any further academic term in the Faculty. A given work term may be repeated only once, and not more than two work terms may be repeated in the entire program.

- d. In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadline date specified in Clause b. of the Admission section 1. above.
- e. A student who withdraws from a Work Term without acceptable cause subsequent to a job placement will be required to withdraw permanently from the Co-operative education program. Students who drop a Work Term without prior approval from both the co-ordinator and the Head of the Department of Economics, or who fail to honour an agreement to work with an employer, or conduct themselves in such a manner as to cause their discharge from the job will normally be awarded a failed grade for the Work Term in question. Permission to drop a Work Term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved Work Term in lieu of the one dropped.

### 8.10.7 Honours in Economics (Co-operative), (B.A. or B.Sc.)

#### 1. Admission Requirements

See Major in Economics (Co-operative), (B.A. or B.Sc.) Economics Co-operative Education Option (ECEO) and the General Regulations for the B.A. and B.Sc. (Honours) Degrees.

#### 2. Program of Study

- a. See the General Regulations for the B.A. and B.Sc. (Honours) Degrees.
- b. All candidates shall consult with the Head of the Department or delegate when choosing courses for an Honours program.
- c. All candidates shall complete all non-Economics courses required of B.A. or B.Sc. Majors, and at least 60 credit hours in Economics, of which 2010, 2020, 2550, 3000, 3001, 3010, 3011, 3550, 3551, 4120, 4550 and 4551 shall be chosen.
- d. Twenty-one credit hours in electives in Economics shall be chosen in consultation with the Head of the Department or delegate, including at least 6 credit hours in courses at the 4000-level. In addition, all Economics Honours candidates are required to write an essay.
- e. Promotion from each of Terms 1 through 6 requires a grade of 70% in all specified required courses and an overall average of at least 70% in all courses including electives. A student who fails a required course or fails to maintain an overall average of 70% will not be promoted to the next term and will be required to withdraw from the program. The student in question may be eligible from readmission in the subsequent year after passing the specified required course(s) previously failed, or re-establishing the 70% average. See also **UNIVERSITY REGULATIONS - Regulations for the Honours Degree**.
- f. In addition to the 30 credit hours required for admission, students are required to complete the six academic terms in the ECEO program for a total of 120 credit hours. Students must complete three Work Terms, which follow Academic Terms 2, 4 and 5.
- g. Courses shall normally be taken in academic terms or "blocks" in the sequenced course load and order set out in the table **Honours in Economics (Co-operative Option) B.A. Academic Course Program** or in the table **Honours in Economics (Co-operative Option) B.Sc. Academic Course Program**. Unspecified credits may be used to fulfill elective requirements only.
- h. **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, Classification of Students notwithstanding, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

#### 3. Work Term Placement

See Major in Economics (Co-operative), (B.A. or B.Sc.) Economics Co-operative Education Option (ECEO).

#### 4. Registration and Evaluation of Performance

See Major in Economics (Co-operative), (B.A. or B.Sc.) Economics Co-operative Education Option (ECEO).

**Major in Economics (Co-operative Option) B.A. - Academic Course Program Table**

<b>Term 1 (Fall)</b> Economics 3000 Economics 3550 Statistics 2500 Six Credit Hours in Minor, Core and elective courses [see Notes 1. and 2. below]	<b>Work Term II (Spring)</b> Economics 399W
<b>Term 2 (Winter)</b> Economics 3001 Economics 3010 Economics 2550 Six credit hours in Minor, Core and elective courses [see Notes 1. and 2. below]	<b>Term 5 (Fall)</b> Six further credit hours in Economics courses Nine credit hours in Minor, Core and elective courses [see Notes 1. and 2. below]
<b>Work Term I (Spring)</b> Economics 299W	<b>Work Term III (Winter)</b> Economics 499W
<b>Term 3 (Fall)</b> Economics 4550 Twelve credit hours in Minor, Core and elective courses [see Notes 1. and 2. below]	<b>Term 6 (Spring)</b> Six further credit hours in Economics courses Nine credit hours in Minor, Core and elective courses [see Notes 1. and 2. below]
<b>Term 4 (Winter)</b> Economics 3011 Economics 4120 Economics 4551 Six credit hours in Minor, Core and elective courses [see Notes 1. and 2. below]	

Notes: 1. Courses specified for admission to and completion of the ECEO only partially satisfy the Core Requirements for the Degree of Bachelor of Arts. Additional Core Requirements are 6 credit hours in the same second language, 3 credit hours in a Social Science course (other than Economics), 12 credit hours in Humanities courses, as well as 6 credit hours in research/writing courses (which may be met within the major and minor programs and/or in courses completed for the Social Science and Humanities requirements). These additional requirements should be completed before and following admission to Term 1 as part of the Minor program and elective components of the degree. Students are reminded that careful planning is necessary to ensure that all Core and minor requirements are satisfied.

2. A minor is required for a B.A. degree in Economics.

**Major in Economics (Co-operative Option) B.Sc. - Academic Course Program Table**

<b>Term 1 (Fall)</b> Economics 3000 Economics 3550 Statistics 2510 Computer Science 1700 Three credit hours in elective courses [see Note 1.]	<b>Work Term II (Spring)</b> Economics 399W
<b>Term 2 (Winter)</b> Economics 3001 Economics 3010 Economics 2550 Mathematics 2050 Three credit hours in elective courses [see Note 1.]	<b>Term 5 (Fall)</b> Six further credit hours in Computer Science courses [see Note 2.] Nine credit hours in elective courses [see Note 1.]
<b>Work Term I (Spring)</b> Economics 299W	<b>Work Term III</b> Economics 499W
<b>Term 3 (Fall)</b> Economics 4550 Three further credit hours in Economics courses Nine credit hours in elective courses	<b>Term 6 (Spring)</b> Six further credit hours in Economics courses Nine credit hours in elective courses [see Note 1.]
<b>Term 4 (Winter)</b> Economics 3011 Economics 4120 Economics 4551 Three further credit hours in Statistics courses [see Note 2.] Three credit hours in elective courses [see Note 1.]	

- Notes: 1. Elective courses should be chosen with reference to the Regulations for the General Degree of Bachelor of Science, since courses specified for admission to and completion of the ECEO only partially satisfy these regulations. In particular note that (i) at least 78 credit hours (26 courses) in Science subjects are required and that (ii) at least 3 credit hours in an additional Science subject other than Mathematics/Statistics, Economics and Computer Science must be included in these Science courses.
2. The Statistics and Computer Science elective courses may both be taken in either Term 4 or 5.

**Honours in Economics (Co-operative Option) B.A. - Academic Course Program Table**

<b>Term 1 (Fall)</b> Economics 3000 Economics 3550 Statistics 2500 Six credit hours in Minor, Core and elective courses [see Notes 1. and 2.]	<b>Work Term II (Spring)</b> Economics 399W

<b>Work Term I (Spring)</b> Economics 299W	<b>Work Term III (Winter)</b> Economics 499W
<b>Term 3 (Fall)</b> Economics 4550 Six further credit hours in Economics courses [see Note 3.] Six credit hours in Minor, Core and elective courses [see Notes 1. and 2.]	<b>Term 6 (Spring)</b> Six further credit hours in Economics courses [see Note 3.] Nine credit hours in Minor, Core and elective courses [see Notes 1. and 2.]
<b>Term 4 (Winter)</b> Economics 3011 Economics 3551 Economics 4120 Economics 4551 Three credit hours in Minor, Core and elective courses [see Notes 1. and 2.]	

- Notes: 1. Courses specified for admission to and completion of the ECEO only partially satisfy the Core Requirements for the Degree of Bachelor of Arts (Honours). Additional Core Requirements are six credit hours in the same second language, three credit hours in a Social Science course (other than Economics), twelve credit hours in Humanities courses, as well as six credit hours in research/writing courses (which may be met within the major and minor programs and/or in courses completed for the Social Science and Humanities requirements). These additional requirements should be completed before and following admission to Term 1 as part of the Minor program and elective components of the degree. Students are reminded that careful planning is necessary to ensure that all Core and minor requirements are satisfied.
2. A minor is required for a B.A. degree (Honours) in Economics.
3. Twenty-one credit hours in electives in Economics shall be chosen in consultation with the Head of Department or delegate, including at least 6 credit hours in courses at the 4000-level. In addition, all Economics Honours candidates are required to write an essay.

## Honours in Economics (Co-operative Option) B.Sc. - Academic Course Program Table

<b>Term 1 (Fall)</b> Economics 3000 Economics 3550 Statistics 2510 Computer Science 1700 [see Note 1] Three credit hours in elective courses [see Note 2.]	<b>Work Term II (Spring)</b> Economics 399W
<b>Term 2 (Winter)</b> Economics 3001 Economics 3010 Economics 2550 Mathematics 2050 Three credit hours in elective courses [see Note 2.]	<b>Term 5 (Fall)</b> Six further credit hours in Computer Science courses [see Note 4.] Nine further credit hours in Economics courses [see Note 3.]
<b>Work Term I (Spring)</b> Economics 299W	<b>Work Term III (Winter)</b> Economics 499W
<b>Term 3 (Fall)</b> Economics 4550 Six further credit hours in Economics courses [see Note 3.] Six credit hours in elective courses [see Note 2.]	<b>Term 6 (Spring)</b> Six further credit hours in Economics courses [see Note 3.] Nine credit hours in elective courses [see Note 2.]
<b>Term 4 (Winter)</b> Economics 3011 Economics 3551 Economics 4120 Economics 4551 Three further credit hours in Statistics courses [see Note 4.]	

- Notes: 1. Another 1000-level Computer Science course may be substituted for Computer Science 1700 with the approval of the Department Head.  
2. Elective courses should be chosen with reference to the Regulations for the Honours Degree of Bachelor of Science, since courses specified for admission to and completion of the ECEO only partially satisfy these regulations. In particular note that (i) at least 90 credit hours in Science subjects are required and that (ii) at least three credit hours in an additional Science subject other than Mathematics/Statistics, Economics and Computer Science must be included in these Science courses.  
3. Twenty-one credit hours in electives in Economics shall be chosen in consultation with the Head of Department or delegate, including at least 6 credit hours in courses at the 4000-level. In addition, all Economics Honours candidates are required to write an essay.  
4. the Statistics and Computer Science elective courses may both be taken in either Term 4 or 5.

### 8.10.8 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Economics 2010 and 2020 are prerequisites for all advanced courses in Economics. Either course may be taken for semester credit by those intending to complete only 3 credit hours in Economics.

Economics courses are designated by ECON.

**2010 Introduction to Microeconomics I** examines scarcity and opportunity cost. Demand and supply. Elasticity. Household demand: marginal utility. Household demand: indifference curves. Production functions. Short-run and long-run cost functions. Perfect competition in the short run and the long run. Monopoly.

**2015 Introduction to Microeconomics II** - inactive course.

**2020 Introduction to Macroeconomics** covers national income accounting, aggregate income analysis, money, banking and foreign trade.

**2070 The Structure and Problems of the Newfoundland Economy** - inactive course.

**2550 Economic Statistics and Data Analysis** is an analysis of economic statistics and the use of economic data. A course designed to introduce students to the task of economic data collection, description and analysis. Emphasis will be on interpretation and analysis of data using computer software programs.  
Prerequisite: Statistics 2500 or equivalent.

**3000 Intermediate Micro Theory I** is the basic microeconomic theory course; consumer demand, indifference curve analysis, theory of production and cost, factor substitution, and the theory of the firm under perfect competition and monopoly.

**3001 Intermediate Micro Theory II** is a continuation of basic microeconomic theory; the theory of imperfect competition, theory of factor pricing under various market structures, general equilibrium and welfare economics.  
Prerequisite: ECON 3000.

**3010 Intermediate Macro Theory I** is aggregate analysis including consumer, investment, government and international sectors, the role of money, determinants of aggregate supply, and the effects of autonomous behavioural changes and fiscal and monetary policies on unemployment,

price levels and the balance of payments.

**3011 Intermediate Macro Theory II** is a consideration of modern theories of macroeconomics, dynamics, empirical evidence and simulation of the national economy. Emphasis on the availability and effectiveness of government policy instruments.  
Prerequisite: ECON 3010.

**3030 International Economics - Issues and Problems in a Canadian Context** is an intermediate course in international economics. The course covers the theory of comparative advantage, the structure and policy issues of the Canadian balance of payments, the foreign exchange market and the institutional aspects of international commerce.

**3070 The Structure and Problems of the Newfoundland Economy** is an analysis of the structure of the economy of Newfoundland. Basic economic theory will be applied to current economic issues and problems in Newfoundland.

**3080 Natural Resource and Environmental Economics** is application of economic analysis to renewable and nonrenewable natural resource industries such as the fishery, forestry, and mining. Emphasis is given to the criteria for optimal resource use under various market structures and their implications for public policy. Issues of environmental resource management and pollution control will also be covered.

**3140 Economic Analysis in Health Care** evaluates the role of economic analysis to health and medical care. Topics in the application of cost effectiveness analysis [and cost-benefit analysis] to health care programs, as well as comparisons of the Canadian experience with other health care systems will be discussed.

**3150 Money and Banking** examines the operation of the money and banking system, with special emphasis on Canadian problems. Monetary theory will be treated in relation to income theory and foreign trade.

**3360 Labour Market Economics** is an intermediate course concentrating on Canadian labour issues. The course investigates the labour market decisions that workers face and the influence of government decisions. Course topics also include factors affecting a firm's demand for labour, wage determination in non-union market, the role of unions, the various structure of wages and wage differentials in the Canadian setting.

Note: *Students who have completed the former ECON 4360 may not receive credit for ECON 3360.*

**3550 Mathematical Economics I** examines linear algebra and differential calculus, with applications to economics.  
Prerequisite: Mathematics 1000 or equivalent with a "B" standing, or Mathematics 2050.

**3551 Mathematical Economics II** covers integral calculus, difference and

differential equations, with applications to Economics.  
Prerequisite: ECON 3550.

**3600 Industrial Revolutions of the 18th and 19th Centuries** - inactive course.

**3610 International Economic History of the 19th and 20th Centuries** - inactive course.

**3620 Canadian Economic History to the End of the 19th Century** - inactive course.

**3630 Canadian Economic History in the 20th Century** - inactive course.

**3711 Intergovernmental Relations** is (I.) federal-provincial-municipal fiscal relations in Canada: intergovernmental tax agreements and equalization payments. (II.) Co-operative federalism: shared-cost programs and opting-out arrangements. (III.) Intergovernmental bargaining in the following issue areas: tax reform; administration of justice; welfare policy; post-secondary education.

Prerequisites: ECON 2010 and ECON 2020

Note: *Credit may be obtained for only one of ECON 3711 and the former Political Science 3711.*

**4000 Advanced Microeconomic Analysis** is an advanced treatment of theoretical and applied microeconomic theory, including topics such as intertemporal choice, risk and information, game theory and competitive strategy, index numbers, public goods, externalities, input-output analysis, linear programming, duality theory and empirical microeconomic studies.  
Prerequisite: ECON 3001

**4010 Economics of Development in Less Developed Countries** is a problem and policy approach to the economics of development, with emphasis on the issues of poverty, inequality and unemployment. General economic principles, theories and models are examined in the context of less developed economies, and global, institutional and structural implications are drawn.

**4011 Economic Planning and Development** - inactive course.

**4025 Public Expenditure** is an analysis of the theory of public expenditure. Relationship to resource allocation and distribution of income. Market failure and the rationale for government intervention. Theory of public goods. Public choice mechanisms. Expenditure patterns in Canada. Public sector budgeting. Public enterprise pricing and investment rules. Introduction to cost-benefit analysis.

Note: *Credit may not be obtained for both ECON 4020 and ECON 4025.*

**4026 Taxation** is an analysis of the theory of taxation. Relationship to resource allocation and distribution of income. Incentive effects of taxation. Tax incidence. Tax structure in Canada at federal, provincial and local levels. Note:

Note: *Credit may not be obtained for both the former Economics 4020 and Economics 4026.*

**4030 International Trade** is pure theory of trade, commercial policy, price discrimination and cartels, commercial policy for developing countries and the customs union.

**4031 International Monetary Problems** is an advanced course in open economy macroeconomics covering balance of payments adjustment under fixed and flexible exchange rates; exchange rate movements and capital movements; the international monetary system; interdependence in the world economy.

**4040 Economics of Education** - inactive course.

**4050 Inflation: Theory and Policy** - inactive course.

**4060 Development of Economic Thought I** is Adam Smith to Karl Marx. A study in the development of Classical Economics with emphasis on the contributions of Smith, Malthus, Ricardo, Mill and Marx.

**4061 Development of Economic Thought II** - inactive course.

**4070 Forestry Economics** - inactive course.

**4080 Advanced Fisheries Economics** - inactive course.

**4085 Advanced Environmental Economics** is an advanced treatment of the environmental consequences of economic activities and the associated policy issues.

**4090 Mineral and Petroleum Economics** is an introduction to some of the theoretical economic problems and practical solutions involved in the exploration, development and production phases of mineral and petroleum mining in Newfoundland and Labrador.

**4100 Industrial Organization and Public Policy** is the study of the basic characteristics of structure, behaviour and performance of industry with particular reference to the Canadian economy. Relation of industrial structure to social purpose is examined, with an emphasis on public regulations of monopoly and the objectives and implementation of anti-combines policy.

**4120 Applied Welfare Economics and Cost Benefit Analysis** investigates

some current criteria of welfare theory found in the literature and then outlines the principles used in measuring changes in consumer and producer welfare. The theory of cost benefit analysis is examined and then the principles are applied to a variety of projects, some of which are proposed to take place in Newfoundland and Labrador.

**4140 Health Economics** - inactive course.

**4150 Monetary Theory** examines empirical studies in money. Readings in current literature. Monetary theory with applications to problems of employment and foreign trade.

**4361 Labour Market Theory and Income Distribution** - inactive course.

**4550 Econometrics I** covers estimation of the general linear regression model with emphasis on fundamental theory and examples from published empirical research.

**4551 Econometrics II** covers further problems in econometric theory and technique: multicollinearity, autocorrelation, nonlinear estimation, and the identification and estimation of systems of equations. Published empirical research will be discussed and each student will be expected to perform an original empirical study.

Prerequisite: ECON 4550.

**4999 Honours Essay** is required as part of the Honours program.

### 8.10.8.1 Work Term Descriptions

The following Work Terms are a requirement of the Bachelor of Arts and Bachelor of Science Co-operative Education Option only.

**299W Work Term I** follows the successful completion of Academic Term 2. For most students, it represents their first work experience in a professional environment and as such represents their first opportunity to evaluate their choice of pursuing a career in Economics. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. (A detailed description of each job is normally posted during the job competition.)

As one component of the Work Term, the student is required to complete a work report. The work report, as a minimum requirement should

1. analyse an issue/problem related to the student's work environment.
2. demonstrate an understanding of the structure of a professional report, and show reasonable competence in written communication and presentation skills. (Students should consult the evaluation form provided in the placement package.)

Late reports will not be graded unless prior permission for a late report has been given by the co-ordinator.

Note: *Seminars on professional development, conducted by the CESC, are presented during Academic Term 2 to introduce and prepare the student for participation in the subsequent work terms. Topics may include, among others, work term evaluation, work report writing, career planning employment seeking skills, resume preparation, self-employment, ethics and professional concepts, behavioural requirements in the work place, assertiveness in the work place and industrial safety.*

**399W Work Term II** follows the successful completion of Academic Term 4. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems.

The Work Report, as a minimum requirement should

1. analyse an issue problem related to the student's work environment and demonstrate an understanding of practical application of concepts relative to the student's academic background
2. demonstrate competence in creating a professional report, and
3. show competence in written communication and presentation skills.

Late reports will not be graded unless prior permission for a late report has been given by the co-ordinator.

**499W Work Term III** follows the successful completion of Academic Term 5. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the problem-solving and management processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of professionals and should exercise greater independence and responsibility in their assigned work functions.

The Work Report should reflect the growing professional development of the student and, as a minimum requirement, will

1. demonstrate an increased ability to analyse a significant issue/problem related to the student's experience in the work environment
2. demonstrate a high level of competence in producing a professional report, and
3. show a high level of competence in written communication and presentation skills.

Late reports will not be graded unless prior permission for a late report has been given by the co-ordinator.

## 8.11 English Language and Literature

### 8.11.1 General Degree

1. One of English 1000, 1050, 1080, the former 1100 and one of English 1001, 1051, 1101, 1102, 1103, 1110 are prerequisites for all other courses. In the case of students whose first language is not English and who take 1020 or 1030, that course and one of English 1000, 1001, 1021, 1050, 1051, 1080, 1101, 1102, 1103 or the former 1100 are prerequisites for all other courses.
2. Students who choose English as their Major must include 36 credit hours in courses in the subject, including:
  - a. English 2000 and 2001;
  - b. English 2390;
  - c. English 3200 or 3201;
  - d. Three credit hours in Canadian literature;
  - e. Three credit hours in American literature;
  - f. Six credit hours at the 4000-level;
  - g. Six credit hours in additional English courses.

Notes: 1. At least 6 credit hours must be at the 3000-level.

2. Students must normally complete English 2000 and English 2001 before they are eligible to register for courses at the 4000-level.

3. In addition to the general major defined in 2. above, students may take a specialization in theatre/drama within the English major. Admission to this specialization is by application only, and application may be made only after English 2002 has been completed. Normally students will apply for admission at the end of their second year. Application forms are available from the Department.

In this specialization, students must complete 39 credit hours in courses as follows:

- a. Six credit hours in English courses at the first-year level (see Clause 1. above).
  - b. English 2000, 2002, 2390, 3350, 3351, 4400, 4401;
  - c. Three credit hours in one of 3200, 3201;
  - d. Three credit hours in one of 4300, 4301;
  - e. Three credit hours in one of English 3156, 3171, 3260 or 4302;
  - f. Three credit hours in one of English 3021, 3022, 3181, or 3302.
4. In addition to the general major defined in 2. above students may take a specialization in language within the English major. In this specialization students must complete 42 credit hours in courses as follows:
    - a. Six credit hours in courses at the first-year level (see Clause 1. above).
    - b. English 2000, 2400, 2401;
    - c. Three credit hours in one of 2390, 3651;
    - d. Three credit hours in one of 3200, 3201;
    - e. At least 21 credit hours chosen from the following courses, of which at least two courses shall have an initial digit "3" and at least two courses an initial digit "4": 2600, 2601, 3500, 3501, 3650, 3651, 3700, 3814, 4403, 4420, 4421, 4500, 4501, 4600, and 4601.
 Students in this specialization are advised to take 2390 before 3650 and to take 2400 before 2401.
  5. Students who choose English as their minor must complete at least 24 credit hours in the subject. These must include:
    - a. One of English 2002, 2003, 2004, 2120, 2121, 2210, 2211, 2212, 2213, 2214, 2811;
    - b. English 2390;
    - c. One of English 3200 or 3201;
    - d. Three credit hours in Canadian literature;
    - e. Six credit hours in additional English courses.

Note: At least 6 credit hours must be at the 3000-level.

Requirements for the minor may not be chosen from courses conducted by another Department.

6. No student shall register in any course having an initial digit "3" unless he/she has successfully completed at least 6 credit hours in courses having an initial digit "2".
7. No student shall register in any course having an initial digit "4" unless he/she has successfully completed at least 6 credit hours in courses having an initial digit "3".
8. English 3395 (Grenfell College) will be accepted as a substitute for English 2390 for fulfilling the requirements of the English major.
9. The programs at the Sir Wilfred Grenfell College contain some courses that are not available in St. John's. Hence, students wishing to transfer from the St. John's campus to Grenfell College may have difficulty in completing their program in a timely fashion.

### 8.11.2 Honours Degree With English as Major Subject

1. Courses will be chosen in consultation with the Head of Department.
2. Students who choose to complete an Honours in English must complete 60 credit hours in the subject, including:
  - a. English 2000 and 2001;
  - b. English 2390;
  - c. One of English 3200 or 3201;
  - d. Three credit hours in Canadian literature;
  - e. Three credit hours in American literature;
  - f. English 4100 and 4101;
  - g. English 4900;
  - h. Three credit hours in pre-19th century literature (excluding 3200 and 3201);
  - i. Three credit hours in 19th century literature;
  - j. Three credit hours in 20th century literature;

- k. Two of 2600, 2601, 3500, 3501, 3600;
- l. Nine credit hours in additional English courses, six of which must be at the 4000-level;
- m. English 4999.

Notes: 1. At least 36 of the 60 credit hours required must be in English courses at the 3000-level or above. Courses at the 4000-level may not be chosen from those conducted by another department.

2. A course that considers more than one national literature or century fulfills only one requirement for the Honours degree in English.

- 3. In their final year, all Honours candidates are required to present an Honours Essay (4999); the topic of the Honours Essay is to be approved by the Head.
- 4. English 3395 (Grenfell College) will be accepted as a substitute for English 2390 for fulfilling the requirements of the English Honours degree.

### 8.11.3 Joint Honours Degree in English and Another Major Subject

- 1. See **Regulations for the Honours Degree of Bachelor of Arts**.
- 2. Candidates shall complete at least 39 credit hours in courses in English beyond the first-year; and a student's program must be approved by the Head of the Department and conform to the General Regulations for Joint Honours degrees.
- 3. The 39 credit hours shall include:
  - a. English 2000 and 2001;
  - b. English 2390;
  - c. One of English 3200 or 3201;
  - d. Three credit hours in Canadian literature;
  - e. English 4100 and 4101;
  - f. English 4900;
  - g. Three credit hours in pre-19th century literature (excluding 3200/3201);
  - h. Three credit hours in 19th century literature;
  - i. Three credit hours in 20th century literature;
  - j. Six credit hours in additional English courses at the 4000-level.

Note: At least 36 of the 60 credit hours required must be in English courses at the 3000-level or above. Courses at the 4000-level may not be chosen from those conducted by another department.

### 8.11.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Some sections of English 2000, 2001, 2002, 2010, 2122, 2211, 2214, 3175 and 3817 may qualify as Research/Writing courses for the B.A. Core requirements. Consult each semester's Undergraduate Registration Procedures booklet for the R/W designation.

English courses are designated by ENGL.

- Notes:
1. Lists of texts and readings for courses may be obtained from the Secretary of the Department of English.
  2. Courses for which there is insufficient demand will not be given.
  3. ENGL 1000, 1050, 1080, and the former 1100 are courses for students who have attained a standard in Level III English acceptable to the Department.
  4. ENGL 1050 and 1051 are courses for students who have completed Level III English at a level of attainment acceptable to the Department.
  5. ENGL 1020 is a course for students whose first language is not English and who have passed 102F or have attained a standard acceptable to the Department on the English Placement Test.
  6. ENGL 1001, 1051, 1101, 1102, 1103, 1110 are courses which may be taken by students who have successfully completed 1000, 1050, 1080 or the former 1100. ENGL 1000, 1001, 1050, 1051, 1080, 1101, 1102, 1103, or the former 1100 are courses which may be taken by students who have successfully completed 1020 or 1030.
  7. Students cannot receive credit for more than one of ENGL 1000, 1050, 1080, 1100 or for more than one of 1001, 1051, 1101, 1102, 1103, 1110.
  8. Students cannot receive credit for both ENGL 1020 or 1030 and ENGL 1110, nor can they receive credit for both ENGL 1110 and ENGL 2010.
  9. Students may not receive credit for more than 6 credit hours in first-year courses in English (this includes unspecified first-year transfer credits).
  10. Students who have passed 1020 may take as their second English course one of 1021, 1080, 1101, 1102, or 1103.

**100C Survey of the English Language I** - inactive course.

**101C Survey of the English Language II** - inactive course.

**102C Survey of the English Language III** - inactive course.

**102F Foundation English** is a non-credit course designed for students

whose first language is other than English and whose knowledge and use of English do not meet the standards for entry into the regular first-year English courses.

Lectures: Four hours per week plus one hour conversation class.

Laboratory: One hour per week.

**103C Survey of the English Language IV** - inactive course.

**1020 Writing for Second Language Students I** is an introduction to the use of English with emphasis on composition for non-native English-speaking students.

Lectures: Three hours per week.

Note: Admission to ENGL 1020 will be determined on the basis of the departmental English Placement Test or successful completion of ENGL 102F.

**1021 Writing for Second Language Students II** develops skills in critical reading and writing of academic English, with emphasis on research and writing syntheses from sources, for non-native English-speaking students.

Lectures: Three hours per week.

Prerequisite: ENGL 1020.

**1030 Writing** - inactive course.

**1031 Prose Literature** - inactive course.

**1080 Critical Reading and Writing I** is an introduction to such literary forms as poetry, short fiction, drama, and the essay. Emphasis is placed on critical reading and writing: analysing texts, framing and using questions, constructing essays, organizing paragraphs, quoting and documenting, revising and editing.

Lectures: Three hours per week.

Note: Credit will not be given for both ENGL 1080, and 1000, 1050 or the former 1100.

**1101 Critical Reading and Writing II (Fiction)** is a study of such forms as the novel, the novella, the story sequence. Emphasis is placed on critical reading and writing: analysing texts, framing and using questions, constructing essays, organizing paragraphs, conducting research, quoting and documenting, revising and editing.

Lectures: Three hours per week.

Prerequisite: ENGL 1000 or 1020 or 1030 or 1050 or 1080 or the former 1100.

**1102 Critical Reading and Writing II (Drama)** is a study of drama. Emphasis is placed on critical reading and writing: analysing texts, framing and using questions, constructing essays, organizing paragraphs, conducting research, quoting and documenting, revising and editing.

Lectures: Three hours per week.

Prerequisite: ENGL 1000 or 1020 or 1030 or 1050 or 1080 or the former 1100.

Note: ENGL 1102 may not be used instead of ENGL 2002 as a prerequisite for entry into the Theatre-Drama specialization within the Major.

**1103 Critical Reading and Writing II (Poetry)** is a study of poetry. Emphasis is placed on critical reading and writing: analysing texts, framing and using questions, constructing essays, organizing paragraphs, conducting research, quoting and documenting, revising and editing. Lectures: Three hours per week. Prerequisite: ENGL 1000 or 1020 or 1030 or 1050 or 1080 or the former 1100.

**1110 Critical Reading and Writing II (Context, Substance, Style)** is an examination of prose texts such as essays, articles and reviews. Students write for different purposes and audiences. Emphasis is placed on critical reading and writing: analysing texts, framing and using questions, constructing essays, organizing paragraphs, conducting research, quoting and documenting, revising and editing. Prerequisite: ENGL 1000 or 1050 or 1080 or the former 1100. Lectures: Three hours per week. Notes: 1. Credit can be obtained for only one of ENGL 1110 or ENGL 2010.  
2. Credit can be obtained for only one of ENGL 1020, 1030 or 1110.

**2000 Major Writers to 1800** is an introduction to the work of major authors by detailed study of selected texts. There is an emphasis on the various skills of essay writing. Note: Students can receive credit for only one of ENGL 2000, 2005, and 2110.

**2001 Major Writers from 1800** is an introduction to the work of major authors by detailed study of selected texts. There is an emphasis on the various skills of essay writing. Note: Credit can be obtained for only one of ENGL 2001, 2007, and 2111.

**2002 Drama** is a survey of drama from the Greeks to the present day. Note: Credit can be obtained for only one of ENGL 2002 and 2350.

**2003 Poetry** is a study of poetry, which aims to increase the students critical understanding and appreciation of poetry, conducted through an examination of a wide variety of kinds and techniques.

**2004 Short Fiction** is a study of short fiction which aims to give the students an appreciation of the short story as a literary form. The course will deal with the nature, history and development of short fiction by considering a variety of authors and stories.

**2010 Comprehension, Writing and Prose Style I** emphasizes the development of (a) the capacity to understand and appreciate the varieties of prose through close analysis of a wide range of examples, and (b) the ability to write expository and other kinds of prose. Note: This course may not be taken for credit by students who have completed ENGL 1110.

**2013 Twentieth Century Musicals** (same as Music 2013) is a survey of twentieth-century musical theatre. Selected works, presenting different styles and periods, will be examined in detail. There will be a strong, required listening/viewing component to this course. The ability to read music is not required. Music 2013 cannot be taken for credit by students enrolled in the Bachelor of Music program. Notes: 1. Credit for this course may not be applied to the Bachelor of Music degree.  
2. Credit can be received for only one of ENGL 2013, Music 3007, or Music 2013.

**2020 Comprehension, Writing and Prose Style II** is a continuation of the work begun in ENGL 1110 and ENGL 2010. Prerequisite: ENGL 1110 or ENGL 2010.

**2030 Comprehension, Writing and Prose Style** - inactive course.

**2031 Modern Canadian Fiction** - inactive course.

**2110 Survey of English Literature I** - inactive course.

**2111 Survey of English Literature II** - inactive course.

**2120 Introduction to Tragedy** - inactive course.

**2121 Introduction to Comedy** - inactive course.

**2122 Introduction to World Literature in English** introduces students to the significant body of literature written in English that stands outside the dominant British/North American canon. The course emphasizes the teaching of various skills of research and essay writing including principles of documentation. Students will be required to complete a major research project and to write several shorter essays.

**2150 Modern Canadian Fiction** is a study of representative Canadian fiction since 1930, including such authors as Ross, Buckler, Davies, Laurence, Atwood, Ondaatje and Findley.

**2151 New Canadian Fiction** is a study of fiction of Canadian writers since the 1970s.

**2160 North American Aboriginal Literature** will introduce aboriginal literature in a social, political and historical context. Beginning with the oral tradition (songs, narratives, legends, and orations), it will focus on different works by North American aboriginal writers: poetry, drama, short stories and novels.

**2211 The English Novel from 1800-1900** is a study of representative

English novels of the nineteenth century including works by such authors as Austen, the Brontës, Dickens, Thackeray, Gaskell, Eliot, Trollope and Hardy. Note: This course may not be taken for credit by students who have completed ENGL 2200.

**2212 The Twentieth-Century British Novel** is a study of representative British novels of the twentieth century, including works by such authors as Conrad, Forster, Joyce, Lawrence, Woolf, Waugh, Lessing and Murdoch. Note: This course may not be taken for credit by students who have completed ENGL 2201.

**2213 The Twentieth-Century American Novel** is a study of representative American novels of the twentieth century, including such authors as James, Dreiser, Fitzgerald, Hemingway, Faulkner, Hurston, Morrison, Pynchon, DeLillo and Silko. Note: This course may not be taken for credit by students who have completed ENGL 2201.

**2214 Nineteenth-Century American Fiction** is a study of representative American fiction of the nineteenth century including works by such authors as Poe, Hawthorne, Melville, Stowe, Twain and Chopin. Note: Students can receive credit for only one of ENGL 2214 and 2215.

**2250 Drama: Structure, Form and Practice** - inactive course.

**2390 Introduction to Modern English Structures** is a practical introduction to the descriptive study of the English language with emphasis on syntax.

**2400 History of the English Language to 1500** (same as Linguistics 2400) is a study of the early stages of the English Language: the Indo-European background; pronunciation and spelling, grammar, vocabulary and meaning in Old and Middle English. Prerequisite: ENGL 2390 or Linguistics 2103

**2401 History of the English Language from 1500 to Modern Times** (same as Linguistics 2401) is the English language since the Great Vowel Shift: sounds and grammar; standardization and varieties; eighteenth-century attitudes and nineteenth-century scholarship; semantic and lexical change. Notes: 1. Students can receive credit for only one of ENGL 2401 and 3395.  
2. Students are urged to take ENGL 2400 before registering for ENGL 2401. Prerequisite: English 2390 or Linguistics 2103.

**2600 Introduction to Middle English** is a study of the language and literature of the later medieval period, excluding Chaucer.

**2601 Introduction to Early Middle English** - inactive course.

**2700 Writing and Gender I** requires students to investigate the construction of gender in a variety of fiction and non-fiction works, through journals, critical analysis, web discussion, presentations for peers on the themes of the course, and original fiction and non-fiction. Students will be expected to share most of their work with their peers. This course qualifies as a research and writing course.

**2811 Science Fiction and Fantasy** introduces the literary sub-genres of science fiction and fantasy. It examines the traditional canonical backgrounds from which popular literatures derive, studies the formulaic patterns and explores the place of science fiction and fantasy in popular culture.

**2812-2820 Special Topics** will have topics to be studied announced by the Department.

**2850 What is Film** is designed to introduce students to the medium of film. It is aimed at marking a shift from the natural enjoyment of movies to a critical understanding and to modes of film practice. Focus will be on the elements of film as components of cinematic style and meaning and on various approaches to the study of film.

**2851 Introduction to Film Form and Film Theory** is concerned with developing visual literacy skills, while also providing terminology and theory necessary to critically engage film. Special attention is paid to film form, historical/social contexts for the production and reception of visual images, and the roles that progressive reproduction technologies, spectatorship, and seeing play in understanding our contemporary world through and beyond visual culture.

**3001 Satire** is a study of satire from classical times, examining major forms of satiric expression such as the monologue, the parody and the long narrative.

**3002 Medieval Books** (same as Medieval Studies 3000, History 3000, Religious Studies 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, books of hours, etc.) and their uses. Prerequisite: Medieval Studies 2000, 2001 or 2002 or permission of the instructor.

**3003 English Studies** - inactive course.

**3006 Women Writers in the Middle Ages** (same as Medieval Studies 3006 and Women's Studies 3001) will study selections from the considerable corpus of women's writings in the Medieval period, as well as issues which

affected women's writing. All selections will be read in English translation.

**3021 English Drama to 1580** is a study of the development of English drama from the Middle Ages to 1580. The course may also consider the popular arts, such as folk plays and mummung.

**3022 Drama 1580-1642** is a study of the development of English drama (excluding Shakespeare) from 1580 to 1642.

Note: *Students can receive credit for only one of ENGL 3022 and 4317.*

**3100 Practical Criticism** is a study of poetry through close reading and analysis to reveal meaning, methods, tone and technique.

**3105 Issues in the Acquisition of English and the Adult Learner** (same as Linguistics 3105) focuses on selected issues in the grammatical, lexical, and pragmatic components of adult-learner English. Techniques of contrastive analysis, error analysis, performance analysis, and discourse analysis of corpora from adult English learners are presented and practised. Prerequisites: ENGL 2390, 3650; Linguistics 2104; Education 2222; ENGL 2010 is recommended.

**3120 Tragedy** - inactive course.

**3121 Comedy** - inactive course.

**3130 The English Novel to 1800** is a study of eighteenth-century English novels by such authors as Burney, Defoe, Fielding, Manley, Richardson, Sterne and Smollett.

Prerequisites/Co-requisites: Students will have successfully completed two second-year English courses.

Note: *Students can receive credit for only one of ENGL 3130 and the former ENGL 2210.*

**3152 Canadian Literature to 1918** is a study of the development of Canadian literature from its beginnings to the end of World War I.

Note: *This course may not be taken for credit by students who have completed ENGL 3145, 3147, or 3150.*

**3153 Canadian Literature, 1918-1945** - inactive course.

**3155 Newfoundland Literature** is a study of Newfoundland literature with emphasis on representative writers since 1900.

Note: *Students can receive credit for only one of ENGL 2155 and 3155.*

**3156 Modern Canadian Drama** is a study of a number of representative plays which illustrate the development of modern drama and theatre in Canada.

Note: *Students can receive credit for only one of ENGL 3156 and 4307.*

**3157 Canadian Literature 1945-1970** is a study of the development of Canadian literature from 1945 to 1970.

Note: *This course may not be taken for credit by students who have completed ENGL 3146, 3148, 3151, or 3154.*

**3158 Canadian Literature 1970 to the Present** is a study of recent developments in Canadian literature.

Note: *This course may not be taken for credit by students who have completed ENGL 3146, 3148, 3151, or 3154.*

**3160 Empire and After: Introduction to Post-Colonial Writing** offers a broad overview of post-colonial studies in English. The course provides an introduction to key ideas in the field and a study of representative texts.

**3161 Nation, Region, Identity: Studies in Post-Colonial Literatures** concentrates on examples of writing from within a single formerly colonized region, or nation, such as the Caribbean, Africa, the Indian sub-continent or Australasia.

**3171 Anglo-Irish Drama** - inactive course.

**3172 Anglo-Irish Poetry** - inactive course.

**3173 Anglo-Irish Prose** is a study of representative Anglo-Irish prose by such authors as Swift, Edgeworth, Stephens, Yeats, O'Casey, Joyce, Behan, Lavin, O'Connor, O'Flaherty and Moore.

Note: *This course may not be taken for credit by students who have completed ENGL 3170 or 4190.*

**3175 Irish Literature** is a study of major Irish writers such as Yeats, Joyce, O'Casey, Heaney, Friel and O'Brien.

Note: *This course may not be taken for credit by students who have completed any of ENGL 3171 or 3172 or 3173.*

**3181 Drama of the Restoration and Eighteenth Century** - inactive course.

**3190 Scottish Literature** is a study of representative Scottish poetry and prose from the mid-eighteenth to the twentieth century including selected works by such writers as Boswell, Burns, Hogg, Scott, Galt, Stevenson, Conan Doyle, Buchan, MacDiarmid, Garioch and Muriel Spark.

**3200 Shakespeare** is a study of six tragedies and romances such as Romeo and Juliet, Julius Caesar, Hamlet, Othello, King Lear, Antony and Cleopatra, Macbeth, The Winter's Tale, The Tempest.

**3201 Shakespeare** is a study of six comedies and histories such as Love's Labour's Lost, The Taming of the Shrew, A Midsummer Night's Dream, The Merchant of Venice, Much Ado About Nothing, As You Like It, Twelfth Night, Measure for Measure, 1 Henry IV, 2 Henry IV, Henry V.

**3260 American Drama** is a study of works by dramatists such as O'Neill, Rice, Maxwell Anderson, Sherwood, Williams, Hellman, Odets, Saroyan, Inge, Miller, Albee, Wilder and Kopit.

Note: *Students can receive credit for only one of ENGL 3260 and 4308.*

**3302 Nineteenth-Century Drama** - inactive course.

**3333 English Literature and Medical Humanities** focuses on the human condition and explores our biological, psychological and spiritual journeys of pain, suffering and death as revealed through literary texts. These texts vary among the literary genres of poetry, short stories, drama, novels, etc.

**3350 Theatre** is an introduction to principles of directing and acting, through lectures, discussion and stage production. This course will have three hours of lectures and three hours of workshops.

**3351 The Physical Stage and Video Technique** is an introduction to the fundamentals and vocabulary of design, lighting and stagecraft and film/video craft, including sound, properties, etc.

**3460 Folklore and Literature** (same as Folklore 3460) will examine the interrelationships among folklore forms and literary genres, the influence of oral traditions on written literatures, and consider the theoretical issues raised by these interrelationships. The primary emphasis will be on the interpretation of literature from the perspective of folk tradition. Extensive reading, oral and written reports will be required.

Note: *Credit may not be obtained for both ENGL/Folklore 3460 and the former ENGL/Folklore 4450.*

**3500 Old English Language and Poetry** introduces students to the basic elements of Old English grammar and vocabulary through the practice of translating one or more poems from Old English into modern English and the study of the Old English poetic corpus in modern translations.

Notes: 1. *It is strongly recommended that students complete ENGL 2390 prior to taking this course.*

2. *Students who have completed ENGL 250A/B cannot receive credit for either ENGL 3500 or ENGL 3501.*

**3501 Old English Language and Prose** - inactive course.

**3600 Chaucer** is a study of representative poems.

**3650 Structure of Modern English: Phonology and Morphology** is a study of standard English pronunciation and regional variations; stress intonation, terminal junctures, inflectional and derivational morphology. Informal speech and written English are compared.

**3651 Structure of Modern English: Syntax** - inactive course.

**3700 Introduction to Old Norse** - inactive course.

**3710-3729 in English (available only as part of the Harlow Campus Semester)**

**3811-3820 (Excluding 3813, 3816, 3817 and 3819) Special Topics** will have topics to be studied announced by the Department.

**3813 Theories of National Cinema** examines films from various imperial, colonial, national and diasporic cinemas in the context of debates about what constitutes a national cinema. Students are normally expected to have taken at least one of English 2850 or English 2851.

**3816 Television** is an introduction to the principles of acting for the camera through lecture, discussion and studio work.

Prerequisites: ENGL 3350 and 3351.

Note: *Admission priority will be given to students in Diploma in Performance and Communications Media.*

**3817 Writing and Gender II** explores differences related to gender in a wide variety of writing, not only in texts, but also in their production, reception and functions. All students are required to keep a journal, to share some of their writing with the class, and to participate in class discussions.

**3819 The Gothic** offers an introduction to the Gothic mode, from its origins in Horace Walpole's novel. *The Castle of Otranto* (1764), to classic works like Bram Stoker's *Dracula* (1897), to move recent incarnations in novels, short fiction, and poetry. Among other things, this course will explore the Gothic's recurrent themes of sin, sex, violence, and religion, its subversive response to dominant cultures and historical contexts, and its philosophical roots in notions of sensibility, horror, and the sublime.

Prerequisites/Co-requisites: 6 credit hours in English at the 2000-level

**3830 Women Writers** is a course setting women writers in the context of literary history.

Note: *Students can receive credit for only one of ENGL 2805, 3810, and 3830.*

**3840-3870 Special Topics** will have topics to be studied announced by the Department.

**3900 Introduction to Creative Writing: Fiction** is conducted as a seminar using models of contemporary writing and the students' own work. Each student will be required to submit work regularly.

Notes: 1. *Students can receive credit for only two of ENGL 3900, 3901, and 3905.*

2. *Normally, admission to this course will be based on the instructor's evaluation of the student's writing. Class size will be limited.*

**3901 Introduction to Creative Writing: Poetry** is conducted as a seminar using models of contemporary writing and the students' own work. Each student will be required to submit work regularly.

Notes: 1. *Students can receive credit for only two of ENGL 3900, 3901, and 3905.*

2. *Normally, admission to this course will be based on the instructor's evaluation of the student's writing. Class size will be limited.*

**3902 Introduction to Creative Writing: Playwriting** is conducted as a seminar using models of contemporary dramatic writing and the students' own work. Each student will be required to submit work regularly.

Prerequisites: The regular prerequisites for 3000-level offerings, plus submission of a portfolio specified by the instructor and permission of the instructor.

Note: *Students can receive credit for only one of ENGL 3902 and the former ENGL 3842.*

**3903 Introduction to Creative Writing: Nonfiction** is conducted as a seminar using models of contemporary writing and the students' own work. Each student will be required to submit work regularly.

Prerequisites: The regular prerequisites for 3000-level offerings, plus the submission of a portfolio specified by the instructor and permission of the instructor.

**3910 Investigative Writing** will permit students to learn to draft and edit short investigative pieces; and they complete an article or essay, and an investigative project that attends to ethics guidelines, research, documentation, interviewing protocols, and writing and editing for a specific context. The course is conducted as a seminar using the students' own work. Each student will be required to submit work regularly. Some work may be done collaboratively.

Prerequisites/Co-requisites: Normally, admission to this course will be based on the instructor's evaluation of the student's writing. Class size will be limited.

**3911 Writing Satire** uses models of contemporary satire as a basis for students' own work. Guest satirists will be invited to meet with students who will write satirical sketches, articles and/or plays based on their own experiences in response to current affairs and topical items of interest. Students will engage in at least one collaborative project.

Prerequisites: English 2010 or English 2020 (or equivalent).

**3912 Song-Writing** uses models from early ballads to contemporary hits and near-misses as a basis for students' own work. Guest song-writers will be invited to meet with students to discuss their compositions. Students will analyse song lyrics, write their own songs and collaborate on a major class project. The ability to sing or play a musical instrument or to read or write sheet music, while desirable, is not required.

Prerequisites: English 2010 or English 2020 (or equivalent).

**3913 Write to Speak** develops the student's ability to speak on all occasions, formal and informal, expected and unexpected. Students will deliver speeches of varying types and lengths on a regular basis throughout the semester.

Prerequisites: English 2010 or English 2020 (or equivalent).

**3914 Professional Writing Online** is a web-based course designed to help students make the best use of electronic resources and to explore new possibilities for writing and publishing online.

Prerequisites: English 2010 or English 2020 (or equivalent).

**3920 Reviewing** permits students to analyse and practice reviewing of three kinds: (a) performance; (b) film, TV video; (c) books.

Prerequisites/Co-requisites: Normally, admission to this course will be based on the instructor's evaluation of the student's writing. Class size will be limited.

**4000 English Literature and History of Ideas I** is a study of European thought and culture as they affect the history and development of English literature from the Middle Ages to the eighteenth century.

Note: *This course may not be taken for credit by students who have completed ENGL 400A and 400B.*

**4001 English Literature and the History of Ideas II** is a study of European thought and culture as they affect the history and development of English literature from the eighteenth century to the present.

Note: *This course may not be taken for credit by students who have completed ENGL 400A and 400B.*

**4010 Literature, 1485-1600: Prose and Poetry** is a study of the literature of the English Renaissance, including Tudor humanism, Elizabethan prose fiction, and such writers as Wyatt, Surrey, Sidney and Spenser.

**4030 British Literature, 1600-1660** is a study of selected works by such authors as Bacon, Donne, Jonson, Overbury, Browne, Herbert, Burton, Walton, Vaughan and the Cavalier poets.

**4031 British Literature 1660-1700** is a study of selected works by such authors as Milton, Marvell, Clarendon, Bunyan, Evelyn, Pepys, Behn and Dryden.

**4040 British Literature, 1700-1750** is a study of selected works by such representative authors as Addison, Steele, Defoe, Swift, Shaftesbury, Pope, Thomson and Young.

**4041 British Literature, 1750-1790** is a study of selected works by such

representative authors as Burke, Johnson, Boswell, Walpole, Gray, Collins, Cowper, Smart, Chatterton, Goldsmith and Sheridan.

Note: *Neither ENGL 4040 nor 4041 may be taken for credit by students who completed ENGL 404A and 404B.*

**4050 British Literature, 1790-1830** is a study of selected works of Blake, Wordsworth, Coleridge and Hazlitt.

**4051 British Literature, 1790-1830** is a study of selected works of Byron, Shelley, Keats, Lamb and De Quincey.

Note: *Neither ENGL 4050 nor 4051 may be taken for credit by students who completed ENGL 405A and 405B.*

**4060 Victorian Literature I** is a study of selected works by such writers as Carlyle, Tennyson, the Brownings, the Brontës, Arnold, and Morris.

**4061 Victorian Literature II** is a study of selected works by such writers as Dickens, Thackeray, Gaskell, George Eliot, Meredith, Trollope, and the Rossettis.

**4070 British Literature, 1890-1920** is a study of representative writers such as Hardy, Wilde, Conrad, Housman, Forster, Edward Thomas, Owen, D. H. Lawrence, Mansfield, Virginia Woolf.

**4071 British Literature, 1920-1945** is a study of representative writers such as Virginia Woolf, Eliot, Bowen, Orwell, Graham Greene, Auden, Empson, Waugh and Dylan Thomas.

**4080 British Literature since 1945** is a study of representative writers of the period, such as Larkin, Murdoch, Hughes, Jennings, Geoffrey Hill, Powell, Pinter, Kingsley Amis and Ishiguro.

**4100 Critical Theory I** is a survey of critical approaches to literature, from Plato to the end of the nineteenth century.

Note: *Students are advised to take this course towards the end of their program.*

**4101 Critical Theory II** is a survey of critical approaches to literature in the twentieth century.

Note: *Students can receive credit for only one of ENGL 4101 and 4105. Students are advised to take this course towards the end of their program.*

**4210 Shakespeare's English History Plays** is a course for students who have completed ENGL 3200 or 3201. Plays studied: King John, Richard II, Henry IV, Henry V, Henry VI, Richard III, Henry VIII.

Prerequisite: ENGL 3200 or 3201.

Note: *Students can receive credit for only two of ENGL 4210, 4211, and 4316.*

**4211 Shakespeare's Roman and Greek Plays** is a course for students who have completed ENGL 3200 or 3201. Plays studied: Titus Andronicus, Julius Caesar, Antony and Cleopatra, Troilus and Cressida, Coriolanus, Timon of Athens, Pericles, Cymbeline.

Prerequisite: ENGL 3200 or 3201.

Note: *Students can receive credit for only two of ENGL 4210, 4211, and 4316.*

**4251 American Literature to 1880** is a course on representative fiction, prose and poetry, including works by such authors as Edwards, Cooper, Hawthorne, Melville, Thoreau, Emerson, Poe, Whitman and Dickinson.

**4260 American Literature from 1880 to 1928** traces the development of American literature from the closing of the frontier to the beginning of the Depression through the study of such writers as Adams, James, Crane, Dreiser, Cather, Robinson and Frost.

Note: *Students can receive credit for only three of ENGL 3215, 4260, 4261, and 4270.*

**4261 American Literature from 1928 to 1945** concentrates on the study of American fiction, drama and poetry in the period between the two World Wars. The course includes such writers as Hemingway, Faulkner, Fitzgerald, O'Neill, Stevens, Cummings and Hart Crane.

Note: *Students can receive credit for only three of ENGL 3215, 4260, 4261, and 4270.*

**4270 American Literature Since 1945** is a study of representative writers of the period, such as Stevens, Lowell, Wilbur, Plath, McCullers, Bellow, Malamud.

Note: *Students can receive credit for only three of ENGL 3215, 4260, 4261, and 4270.*

**4300 Modern Drama I** examines drama from Ibsen to the present day, principally of the realistic tradition, studied through representative plays.

Prerequisite: ENGL 2002 or permission of the Head of Department.

Note: *Students can receive credit for only one of ENGL 3275 and 4300.*

**4301 Modern Drama II** is a study of twentieth-century developments: expressionism, surrealism, theatre of the absurd, studied through representative plays.

Prerequisite: ENGL 2002 or 4300 or permission of the Head of Department.

Note: *Students can receive credit for only one of ENGL 4301 and 4305.*

**4302 Contemporary British Drama** is a study of representative dramatic works of contemporary British drama.

**4400 Directing** is the analysis, production plans and execution of selected projects.

Prerequisites: ENGL 3350 and 3351 or permission of the instructor, in consultation with the Head of the Department.

**4401 Producing the Play** is a full semester working with a selected play, to culminate in public performance. Students will be required to participate fully in all aspects of the production, except direction, which will be the responsibility of the instructor.

Prerequisites: ENGL 3350 and 3351 or permission of the instructor, in consultation with the Head of the Department.

**4402 Producing the Documentary** is a full semester working on a selected project, to culminate in the creation of a completed video. Students, working in groups established by the Program Co-ordinator, will be required to participate in all aspects of production.

Prerequisites: ENGL 3350, 3351 and 3816.

Note: *Admission priority will be given to students in Diploma in Performance and Communications Media.*

**4403 Etymology-History of English Words** - inactive course.

**4420 English Dialectology I** (same as Linguistics 4420) is scope and applications of dialect study; history of English dialects; standard versus non-standard varieties; development of dialect study, especially linguistic geography; non-standard dialect and literature.

**4421 English Dialectology II** (same as Linguistics 4421) is field-work and transcription; modern linguistic geography; structuralist dialectology; occupational dialects; other recent approaches.  
Prerequisite: ENGL 4420.

**4422 Stylistics** is a study of the main influences of language on literature. By far the most common kind of material studied is literary; attention is largely *text-centred*. The goal is not simply to describe the formal features of texts, but to show their functional significance for interpretation.  
Prerequisites: ENGL 2390 and two third-year courses in English literature.

**4500 Old English Language and Literature I** - inactive course.

**4501 Old English Language and Literature II** - inactive course.

**4600 Middle English Language and Literature I** - inactive course.

**4601 Middle English Language and Literature II** - inactive course.

**4800 Spenser and Milton** - inactive course.

**4805 Blake** is a study of a selection of Blake's major writings.

**4810-4819 (Excluding 4817) Special Topics** will have topics to be studied announced by the Department.

**4817 Utopias and Dystopias in Literature** is a study of representative literary utopias and dystopias, both classic and modern.  
Prerequisite: Two 3000-level English courses.

**4821 Canadian Literature in Context I** - inactive course.

**4822 Canadian Literature in Context II** is a study of some of the main concepts in Canadian culture since World War II as they affect the history and development of Canadian literature.

Prerequisite: Completion of three credit hours chosen from courses at the 2000 or 3000 level in Canadian literature, or permission of the instructor.

Note: *This course may not be taken for credit by students who have completed ENGL 4820.*

**4850 Contemporary Canadian Poetry** is a seminar course in contemporary Canadian poetry. Students will have the opportunity to study collections by six English Canadian contemporary poets - not just new work by established older writers, but also first collections by younger writers. The work of poets from across Canada will be chosen.

Note: *Students can receive credit for only one of ENGL 4850 and 3148.*

Prerequisites: Two English courses at the 3000-level.

**4851 Canadian Exploration Literature** will examine Canada's early exploration and travel literature and show how it has shaped our contemporary fiction. Early texts may be studied from an anthology of exploration writings, such as Germaine Warkentin's *Canadian Exploration Literature: An Anthology*. Several contemporary novels will also be studied and may include Wayne Johnston's *The Navigator of New York* and John Steffler's *The Afterlife of George Cartwright*.

Prerequisite: Two English courses at the 3000-level.

**4852-4860 Special Topics in Canadian Literature** will have topics to be studied announced by the Department.

**4900 Bibliography I** is an introduction to methods needed for advanced study of English: aspects of literary detection; studies in the material form of

the book, from sheep or tree to finished product; a guide to the editing of books.

**4901 Bibliography II** - inactive course.

**4910 Advanced Creative Writing: Fiction** is a seminar for students who wish to write publishable literary fiction. Class size will be limited. Students will be expected to produce at least 15,000 words during the semester. Regular participation is also required.

Prerequisites: Completion of ENGL 3900 with a grade of 70 or higher *and* submission of a portfolio *and* permission of the instructor.

**4911 Advanced Creative Writing: Poetry** uses models of contemporary writing and the students' own work. This course is designed to develop further the technical skill of those students who have reached a high level of achievement in the introductory creative writing course in poetry, English 3901 (or who have a body of work of exceptional accomplishment) and to help them move towards publication in literary journals and chapbooks.

Prerequisites: Normally, admission to this course will be based on the instructor's evaluation of the student's writing and on the achievement of a minimum grade of 70% in ENGL 3901 or ENGL 3900.

**4912 Advanced Creative Writing: Playwriting** is conducted as a seminar using models of contemporary writing and the students' own work. Each student will be required to submit work regularly.

Prerequisites: Successful completion of at least one Creative Writing course at the 3000-level, plus a portfolio specified by the instructor and permission of the instructor.

**4913 Advanced Creative Writing: Nonfiction** is conducted as a seminar using models of contemporary writing and the students' own work. Each student will be required to submit work regularly.

Prerequisites: Successful completion of at least one Creative Writing course at the 3000-level, plus submission of a portfolio specified by the instructor and permission of the instructor.

**4914 Advanced Editing** is editing for the workplace: An intensive course in drafting and editing. Students will be expected to work both individually and collaboratively.

Prerequisites: Normally, students will (a) be enrolled in the Diploma in Professional Writing and (b) have successfully completed at least two of the following: ENGL 3001, 3817, 3903 (or other course designated Creative Writing), 3910, 3920. Normally, admission to this course will be based on the instructor's evaluation of the student's writing. Class size will be limited.

**4920-4930 Special Topics in Creative Writing** will have topics to be studied announced by the Department.

**4999 Essay for Honours Candidates** is required as part of the Honours program.

**5000 Instructional Field Placement** is a 6 credit hour course which occurs upon completion of course work in the Diploma in Performance and Communications Media. The curriculum emphasis is on the application of acquired skills. Continuing the project-oriented structure built into the practical courses, students will be placed with existing projects in the professional communities of film, television, theatre or video.

Prerequisites: ENGL 3350, 3351, 3816, 4400, 4401, 4402, with an overall average of 65% in these courses.

Note: *Restricted to students in Diploma in Performance and Communications Media. Admission is by application to the Program Co-ordinator, normally at least three months before the beginning of the placement, and is limited to students who at the time of admission have completed the six courses listed above with an overall average of at least 65% and who already hold a first degree or are in their final year of a degree program as confirmed by the Office of the Registrar. Credit for this course can be used only towards the Diploma in Performance and Communications Media.*

**5100 ESL Instructional Field Placement** is a 6 credit hour practicum consisting of classroom observation, group discussion of observations, one-to-one tutoring and classroom teaching practice. Participation in a weekly discussion group and submission of preliminary and final reports are required.

Prerequisite: ENGL 3105 or Linguistics 3105.

**5200 Instructional Field Placement in Professional Writing** is a 6 credit hour course which has students, upon completion of the courses in the Diploma in Professional Writing (18 credit hours), placed in work-place environments where they will contribute under supervision to the planning, drafting and editing of documents.

Prerequisites: Completion of the six courses in the program, with an overall average of 65% in these courses.

## 8.12 English as a Second Language

The English as a Second Language office, affiliated with the Department of English Language and Literature, and under the auspices of the Faculty of Arts, offers year-round programs for adult students wishing to improve their English language skills and learn about Canadian culture. These include:

1. A five-week intensive English Language Summer School program;
2. English language preparation for students enrolled in graduate programs such as the Master's in Business Administration and Master's of Engineering;

3. Tutorials, workshops, and conversation programs for current Memorial University of Newfoundland students in undergraduate and graduate degree programs;
4. Custom-designed language and culture programs for schools, universities, or businesses. These can be developed on contract and are either for general learning purposes or to suit the needs of specific disciplines or professions; and
5. Twelve-week non-credit Intensive English Programs which are offered year-round on a semesterized basis.

Information regarding the above services is available from the Director of English as a Second Language programs at Memorial University of Newfoundland. Information regarding the Intensive English Programs is provided below.

A Diploma in teaching English as a Second Language is also offered through the Faculty of Arts. Information regarding that program can be found under the Faculty of Arts in this Calendar.

### 8.12.1 Intensive English Program

Memorial University of Newfoundland's full-time, non-credit Intensive English Program (IEP) is designed to improve English language skills for academic, professional and personal purposes. Reading, writing, speaking and listening skills are covered, and workshops on culture and social activities promoting integration with the local community also form part of the program.

The IEP is offered at intermediate to advanced levels in each of the Fall, Winter, and Spring terms. The program consists of two required courses: English as a Second Language 011F, Core Intensive English, and English as a Second Language 012F, Speaking, Listening, and Culture. Students admitted to the IEP must normally register for both courses each semester.

Students wishing to complete the Intensive English Program in preparation for admission to Memorial University of Newfoundland as undergraduate degree students may apply for this program at the same time as they apply for admission to undergraduate studies. Subject to **General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate)**, governing admission for undergraduate studies, and the regulations in place for admission to specific programs, students may be provisionally admitted for studies at an undergraduate level in an upcoming term if they are currently enrolled in the Intensive English Program. The **General Academic Regulations (Undergraduate), Admission/Readmission to the University (Undergraduate)**, governing Admission/Readmission to this University, also contained in this Calendar, should be reviewed carefully by students as well.

Final admission for provisionally admitted students will be subject to successful completion of the Intensive English Program with an acceptable score on the Canadian Academic English Language (CAEL) Assessment. The CAEL Assessment is administered as part of the Intensive English Program at the end of each semester. Students enrolled in the Intensive English Program may be considered for enrolment in the Intensive English Bridge Program under the conditions described as the Admission requirements for that program.

Students at any level in the program may take the CAEL Assessment at the end of the semester. The number of semesters of Intensive English study required to achieve a student's desired level of proficiency will vary according to his or her initial proficiency level and individual progress rate.

#### 8.12.1.1 Admission Requirements

Applicants to the Intensive English Program:

1. must be at least 18 years old, and
2. must hold a valid high school diploma, and
3. should have an elementary level of English proficiency.

Applications for the Intensive English Program must be submitted directly in writing to Director, English as a Second Language Programs, Memorial University of Newfoundland, St. John's, NL, A1B 3X9, Canada.

#### 8.12.1.2 Program Requirements

1. Full participation is an essential part of the language learning process in this program. For this reason regular attendance is required. No more than 10% of instructional days may be missed without documented reasons that are acceptable to the Director of English as a Second Language programs. Students who fail to meet the minimum attendance requirements may not be permitted to re-enroll in the IEP in the following semester.
2. Evaluation of students may include, but not be limited to, any or all of the following: projects, assignments, quizzes, oral presentations, and class participation.

### 8.12.2 Intensive English Bridge Program (IEBP)

The Intensive English Bridge Program (IEBP) is intended for applicants to Memorial University of Newfoundland who have been provisionally admitted as undergraduate students and who are students in the advanced level of the Intensive English Program (IEP). It requires ten to fifteen hours of classroom language instruction in reading, writing, grammar, and listening. The emphasis is on English for Academic Purposes. Students in this program may register for an undergraduate credit course concurrently, in consultation with the Director of English as a Second Language Programs.

#### 8.12.2.1 Admission

Candidates for the Intensive English Bridge Program must have:

1. been provisionally accepted to undergraduate studies at Memorial University of Newfoundland;
2. achieved an average of Band 40 in the CAEL with a Writing sub-score of at least 40, a paper-based TOEFL score of 520, a computer-based TOEFL score of 190, an iBT TOEFL score of 68, or an IELTS score of 5.5 with no sub-score less than 5; and
3. achieved a grade of "C" or better with a satisfactory attendance level (90%) in both ENGS 011F and ENGS 012F if enrolled in the Intensive English program in the previous semester.

A student may be considered as a candidate for the Intensive Bridge Program under the following conditions:

#### 8.12.2.2 Program Requirements

1. Students admitted to the Intensive English Bridge Program must register for the course English as a Second Language 011F.
2. Students in this program may normally register for no more than one credit course, chosen in consultation with the director or coordinator of the English as a Second Language Program.
3. Students may register in the Intensive English Bridge Program for a maximum of two semesters.
4. Full participation is an essential part of the language learning process in this program. For this reason regular attendance is required. No more than 10% of instructional days may be missed without documented reasons that are acceptable to the Director of English

as a Second Language programs. Students who fail to meet the minimum attendance requirements may not be permitted to re-enroll in the IEBP in the following semester.

### 8.12.2.3 Course Descriptions

**011F Core Intensive English Program** covers reading through a variety of types of texts, vocabulary development, writing development, and academic listening and note-taking skills. Students will be placed into appropriate sections following a placement test.

**012F Speaking, Listening, and Culture** includes development of speaking and listening abilities through a wide variety of tasks and communicative activities, including discussions, debates, conversation, role-plays, and presentations. Listening activities promote comprehension of rapid conversational English, while discussion topics enrich students' understanding of Canadian culture. Students will be placed into appropriate sections following a placement test.

## 8.13 European Studies

Program Co-ordinator: Dr. E. Warkentin, Department of German and Russian

### 8.13.1 Minor in European Studies

The Minor in European Studies is a multi-disciplinary program offered to candidates for the general and honours degrees of Bachelor of Arts, Bachelor of Business Administration, Bachelor of Commerce (Co-operative) and Bachelor of Science. The Minor in European Studies requires the completion of at least 9 credit hours at the Harlow Campus or as part of an approved exchange program with a European university. The Minor is an alternative to a Minor offered by a single department and satisfies degree requirements for a Minor. The objective of the program is to explore contemporary Europe through the study of its politics, society, history and culture. The program consists of a series of inter-related courses in different disciplines focussing on present-day Europe and its recent history (19th and 20th centuries), and is coordinated by a Program Co-ordinator in consultation with the Director of the Harlow Campus.

### 8.13.2 Regulations

Students who minor in European Studies shall complete a minimum of 24 credit hours including:

1. European Studies 2000
2. History 2310
3. One of French 3650, German 2901, German 3000, German 3001, German 3005, History 3005, Russian 2900, Russian 2901, Russian 3005, Spanish 3400
4. One of European Studies 3000-3030 (Special Topics in European Studies) or 3 credit hours from the European Studies Course List below.
5. Twelve additional credit hours from the European Studies Course List below including at least 9 credit hours completed at the Harlow Campus or as part of an approved exchange program with a European university or an approved study abroad program.

No more than 12 credit hours from any one discipline shall be applied to the Minor in European Studies. Students should consult the European Studies Minor Program Co-ordinator on the availability of courses at Harlow (or in exchange programs or study abroad programs) and at the St. John's and Sir Wilfred Grenfell College campuses.

### 8.13.3 Course Descriptions

Courses marked with an asterisk normally may be taken only after completion of at least one prerequisite at the 2000 level or beyond. Other courses, especially at the 3000 level and above, are normally taken after one or more introductory courses in the discipline are completed.

## Visual Arts

Visual Arts \*3702 (Grenfell College), \*4701 (Grenfell College), \*4702 (Grenfell College)

- Notes: 1. *Students should consult the European Studies Program Co-ordinator on the applicability of special topics and other courses not listed above to the European Studies Minor program. In particular, courses taught at the Harlow Campus by other academic units and dealing with the broad themes of the program may be applicable to the Minor in European Studies. Such courses may be offered by Grenfell College, the Faculty of Business Administration, the Faculty of Science, the School of Music, and other faculties and schools.*
2. *The suffix -097 indicates course sections offered at the Harlow Campus by various academic units.*
3. *Courses in the series 3710 to 3729 indicate courses which form part of programs offered by the Faculty of Arts only at the Harlow Campus.*
4. *Up to 6 credit hours in the discipline of a student's major programs may count towards the minor, but these shall be in addition to the minimum course requirements for the major*
5. *Normal prerequisites, policies on the waiver of prerequisites and credit restrictions in the respective departments will apply.*

**2000 Europe in the Twentieth Century** (same as History 2350 and Political Science 2990) is a social, economic and political history of Europe from World War I to the present. The course examines the shift from war and depression to peace and prosperity. Examining the rise and demise of fascism and communism, postwar reconstruction, and Europe's changing position in the world, it explores the interplay between domestic and international politics and Europe's position in the international order.

- Notes: 1. *Recommended for students considering a Harlow semester, exchange programs in Europe, or further courses in European history or politics.*
2. *Credit may be obtained for only one of European Studies 2000, History 2350, Political Science 2990, and the former Political Science 2350.*

**3000-3030 Special Topics in European Studies** will be a reflection on modern Europe through the study of one or more of the following: film, comparative literature, art, architecture, music, etc.

## 8.14 Film Studies

Program Co-ordinator: Dr. J.O. Buffinga, Department of German and Russian Language and Literature

The Minor in Film Studies is an interdisciplinary program. It consists of a complement of core courses that is supported by elective courses in cognate disciplines. The objective of the program is to teach students to think historically, theoretically and analytically about film within the broad context of humanistic studies.

### 8.14.1 Minor in Film Studies

1. Students who choose the Minor in Film Studies must complete at least 24 credit hours, including:
  - a. English 2850 and 2851;
  - b. 18 credit hours selected from the Film Studies **Course List** below ;
  - c. a maximum of 6 credit hours at the 1000 level; and
  - d. a minimum of 6 credit hours at the 3000 level or higher

Note: *Not more than 3 credit hours in courses in the student's Major Program may also be used to satisfy the requirements of the minor in Film Studies.*

#### 2. Course List

 Russian 3023

## 8.15 Folklore

The study of Folklore deals with oral literature and traditional culture. Students study both the form and function of various kinds of Folklore. They also examine the influence of oral tradition upon written literatures.

A student benefits by coming to the study of Folklore with a strong concentration in one of the affiliated fields, such as English or other modern literature, Classics, Linguistics, Sociology and Anthropology, Geography, History, Psychology, or Religious Studies. Students should note that certain specialized areas of Folklore call for training in Biology.

### 8.15.1 General Degree

A student interested in Folklore is advised to take several courses in Anthropology and Archaeology and at least an introductory course in language and dialect. Other courses should be complementary to the area of special interest. A student whose major interest is Newfoundland Folklore should have, for example, courses in Newfoundland Geography and Newfoundland History; and courses in the History and Geography of Ireland and England would be desirable. One interested primarily in Canadian Folklore would do well also to study the Geography, History and Literature of Canada. Such combinations of reinforcing courses in History, Geography, Literature, etc., can be varied according to the student's needs and goals.

Folklore 1000 (or 2000) is the prerequisite for all other courses in Folklore, except 1050, 1060 and those courses cross-listed with other Departments.

### 8.15.2 Major in Folklore

A student registered to major in Folklore must take a minimum of 36 credit hours in courses as follows:

1. Eighteen required credit hours: 1000 (or 2000), 2100, 2300, 2401, 2500, 4470;
2. Six credit hours from Group A - Folk Literature Genres: 3100, 3200, 3250, 3300, 3450, 3612, 3618, 4810;
3. Six credit hours from Group B - Folklife Genres: 3001, 3591, 3606, 3650, 3700, 3713, 3820, 3830, 3850, 3860, 3870, 4460;

4. Six credit hours from Group C - Topics: not more than 3 of which can be taken from courses at the 1000 level: 1050, 1060, 2230, 2700, 3350, 3360, 3460, 3591, 3601, 3613, 3618, 3700, 3714, 3800, 3900, 3910, 3920, 3930, 3940, 3950, 4015, 4300, 4310, 4320, 4350, 4360, 4370, 4400, 4410, 4420, 4440, 4480, 4810.

Students who declare a major in Folklore should have completed Folklore 1000 (or 2000); it is recommended that students intending to major in Folklore take Folklore 2100 as early in their programs as possible.

All students who major in Folklore will be assisted by a faculty advisor who will help them in planning their academic program. Consequently, it is essential that students consult with the Department at an early stage in their studies.

### 8.15.3 Minor in Folklore

A student declaring a minor in Folklore must take a minimum of 24 credit hours including:

1. Fifteen required credit hours: 1000 (or 2000), 2100, 2300, 2401, 2500;
2. Nine additional credit hours in Folklore - not more than 3 of which can be taken from courses at the 1000 level.

Students who declare a minor in Folklore should have completed Folklore 1000 (or 2000); it is recommended that students intending to minor in Folklore take Folklore 2100 as early in their programs as possible.

### 8.15.4 Honours Degree in Folklore

See **General Regulations for Honours Degree**. An Honours candidate in Folklore must complete a minimum of 60 credit hours, including the 36 as prescribed for the Major in Folklore. The remaining courses will normally include one of the following options:

1. Folklore 400X
2. Folklore 4998
3. Folklore 4999

### 8.15.5 Joint Honours Degree in Folklore and Another Major Discipline

See **General Regulations for Honours Degrees**. A minimum of 84 credit hours in the two subjects selected, with the approval of the Heads of both Departments, is required.

Of the credit hours required in the two subjects selected, not fewer than 42, and not more than 51, must come from each discipline. The candidate may choose the discipline in which to complete the Honours Essay or the Comprehensive Examination. If the student chooses the 400X option, the Folklore component will consist of the major in Folklore plus 400X, for a maximum of 51 credit hours in Folklore. Students are advised to choose an option as soon as possible after declaring the second subject of the Joint Honours degree.

### 8.15.6 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Folklore courses are designated by FOLK.

**1000 Introduction to Folklore** will discuss the role that tradition plays in communication, art and society through an examination of folklore materials from Newfoundland and the English-speaking world. Readings and "listenings" will emphasize the use of folklore in context, e.g., the proverb in speech and the folksong in childrearing. Students will be urged to analyse the traditions in their own lives through special assignments. A student may not receive credit for both FOLK 1000 and 2000.

**1050 Folklore Studies** - inactive course.

**1060 Folklore and Culture** - inactive course.

**2000 Introduction to Folklore** - inactive course.

**2100 Folklore Research Methods - An Introduction** is designed to provide the basic introduction to the research resources, tools and methods regularly employed in the area of Folklore. On the one hand, the course will examine what types of Library and Archive resources can be useful to the folklorist and, on the other hand, it will explore how folklorists in fieldwork situations should handle people, and how they can capture for posterity a record of the interviews that they have conducted and the events that they have observed. This course qualifies as a Research/Writing course.

Note: *It is strongly recommended that majors and minors take this course before taking 3000 and 4000 level courses.*

**2230 Newfoundland Society and Culture** (same as Sociology/Anthropology 2230) examines the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary island Newfoundland.

**2300 Newfoundland and Labrador Folklore** (same as Anthropology 2300) is a survey of the various types of Folklore: tale, song, rhyme, riddle, proverb, belief, custom, childlore and others, with stress on their function in the Newfoundland community culture. Individual collection and analysis of materials from the students' home communities, supplemented by data from the M.U.N. Folklore and Language Archive.

Prerequisite: FOLK 1000 or 2000, or Anthropology 1031.

Note: *Credit may be obtained for only one of FOLK 2300, the former FOLK 3420, and Anthropology 2300.*

**2401 Folklife Studies** is an examination of the traditional cultures of Europe and North America with special reference to Newfoundland. A selection of the following areas will be covered: settlement patterns, architecture, work and leisure patterns in the folk community, calendar customs, rites of

passage, folk religion, folk medicine, language and folk culture, folk costume, foodways and folk art.

Note: *Credit may not be obtained for both FOLK 2401 and the former FOLK 3500.*

**2500 Oral Literature** (same as Anthropology 2500) is an examination of the major genres of folk literature: folk narrative, folk poetry and song, folk drama, and the traditional generic forms within folk speech. An introduction to the textual, comparative and contextual methods of analysis. The literature discussed will be international in scope.

Prerequisite: FOLK 1000 or 2000, or Anthropology 1031.

Note: *Credit may be obtained for only one of FOLK 2500, Anthropology 2500, the former FOLK 3400, the former English 3400, and the former Sociology/Anthropology 3400.*

**2700 Ethnography of the University** allows students to develop their skills in cultural documentation as they work within a team-based approach to record and analyse Memorial University's unofficial culture. Course readings cover ethnographic practices and issues as well as the dynamics of student and work culture. Through a series of hands on fieldwork assignments students engage in research, cultural description, analytic writing and presentation. In documenting local university culture, they learn about the variety, persistence, and flexibility of traditional culture as it lives in the present. This course qualifies as a Research/Writing course.

**3001 Art, Architecture and Medieval Life** (same as Medieval Studies 3001, History 3020, Archaeology 3001) is an examination of 7th the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. This course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the cloister.

Note: *It is recommended, but not obligatory, that students should have successfully completed one of the following courses: Archaeology 2480, FOLK 1000 or 2000, History 2320/Medieval Studies 2001, History 2330/Medieval Studies 2002, Medieval Studies 2000.*

**3100 Folktale** is a study of oral fictional folk narrative, including animal tale, Märchen, jest, formula tale and related forms. Special attention to European and American texts and scholarship. Extensive reading, oral and written reports. Collecting of Newfoundland texts will be encouraged.

Note: *Credit may not be obtained for both FOLK 3100 and the former FOLK 4200.*

**3200 Music, Song and Tradition** (same as Music 3017) introduces students to a wide range of traditional song. Students will hear and discuss local, regional and international examples. Ability to read music or familiarity with music theory not required.

Note: *Credit may be obtained for only one of FOLK 3200, Music 3017, and the former FOLK 4445.*

**3250 The Ballad** is an examination of one of the major genres of international folk literature. Concerns include a taxonomic exploration of the sub-genres (tragic, comic, romantic, belief, historical, religious, riddling, and medieval minstrelsy ballads), and such topics as transmission, function,

context, and aesthetics. Similarities and dissimilarities in the methodologies for dealing with written literature and the literature of tradition will also be considered.

Note: *Credit may not be obtained for both FOLK 3250 and the former FOLK 4445.*

**3300 Folk Drama** is a survey of the main forms of traditional drama found in Great Britain and North America with reference to related European and non-western traditions. The origins, history and regional variations of these forms will be considered together with questions of social function, performance and aesthetics. The history of research in the area of folk drama will be examined along with related methodological and theoretical issues.

**3350 Folklore of the Body** examines how the body is socially constructed and how it is represented through folklore genres from narrative, to material culture and custom. It considers how culture is both inscribed on the body and how it is bodily performed.

Notes: 1. *Normally FOLK 1000 is required.*

2. *Credit may not be obtained for both FOLK 3350 and the former FOLK 3611.*

**3360 Sex/Folklore/Power** is 1) an introduction to the many ways that sexual identities are displayed, developed, and categorized through informal and everyday cultural performances, i.e., folklore; 2) a study of how such performances relate to various folklore genres, including folk language and narrative, music/song/ballad, material culture/space, and festival/ritual; and 3) an examination of how social power structures are (de)constructed and negotiated through folk processes involving sexuality/sexual identities.

**3450 Language and Play** is an examination of such forms as the rhyme, riddle, proverb and proverbial saying, game, etc. Emphasis on problems of function and classification. Material will be chiefly from the British and North American traditions. Collecting will be encouraged.

**3460 Folklore and Literature** (same as English 3460) will examine the interrelationships among folklore forms and literary genres, the influence of oral traditions on written literatures, and consider the theoretical issues raised by these interrelationships. The primary emphasis will be on the interpretation of literature from the perspective of folk tradition. Extensive reading, oral and written reports will be required.

Note: *Credit may not be obtained for both FOLK/English 3460 and the former FOLK/English 4450.*

**3591 Collections Management** (same as Archaeology 3591) will introduce students to the problems of collections storage with respect to environment, materials and artifact access. Students will become familiar with the materials encountered in archaeological and ethnographic collections. The storage of specific historic and prehistoric collections from Newfoundland and Labrador will be examined with the purpose of providing practical examples of methodology.

**3601-3640 (Excluding 3606, 3612 and 3618) Special Topic in Folklore** will have topics to be studied announced by the Department.

**3606 Folklore and the Supernatural** attempts to understand the nature of surviving and declining tradition by examining patterns of belief and the features of supernatural folklore. The course focuses on the phenomenological features of supernatural traditions; explanatory frameworks and their internal logic; means of developing and maintaining belief; functions and structures of belief traditions; and relationships between genres of belief. The general approach of this course is ethnographic, focussing on the ethnography of belief systems.

**3612 Urban Legend** provides an introduction to the study of one of the most rapidly expanding and exciting areas of folk narrative research. The course looks at the main features of the urban legend and the topics they cover. Examination is also made as to how, when, where and why stories of this type are used, including their incorporation into television programs, films and literature.

**3618 Jazz and Blues: The Roots of Popular Music** - inactive course

**3650 Artifacts of Colonial America** (same as Archaeology 3650) provides students with practical experience in the analytical methods used to identify, date and interpret the different types of artifacts encountered on seventeenth- and eighteenth-century archaeological sites in Colonial North America. In-depth discussions on manufacture, technology, form and function provide the necessary background for a better understanding of concepts relating to artifact identification, provenance, dating techniques, theoretical approaches and other current issues.

Note: *Credit may not be obtained for Archaeology 3650 and either of the former Anthropology 3683 or Archaeology 3683.*

**3700 Museums and Historic Sites** (same as Archaeology 3710) is an introduction to museums and historic sites, their work, and their role in societies past and present. Various types of museums and historic sites will be discussed using local, national and international examples, looking at their collections and exhibitions policies. Practical issues will also be discussed; these include museum exhibit display techniques, public programming, virtual museums, and the museum profession.

**3710-3729 Special Topics in Folklore** is available only as part of the Harlow Campus Semester.

**3800 Fieldwork in Vernacular Architecture: Drawings and Photography**

- inactive course.

**3820 Folk Custom** provides an introduction to the study of the forms of British, European, and North American folk custom. Issues for discussion will include the diffusion, functions, maintenance and invention of calendar, seasonal, occupational, and life-cycle customs. As such, we will review much of the new scholarship which has shifted folkloristic attention from origins of customs to the analysis of custom as symbolic behaviour. Current work on the study of custom has examined, for example, the legitimization of class interests via traditional customs, the play of metaphor in festivals, and the symbolic statement of social obligations through life-cycle ritual.

Note: *Credit may not be obtained for both FOLK 3820 and the former FOLK 3600.*

**3830 Foodways** as a term embraces a variety of traditions which focus on dietary practices as well as the preparation and allocation of food. As an introduction to foodways, the course will begin by looking at a variety of regional foods. In addition, both historical and contemporary approaches to the supply, storage, preparation and serving of food will be considered. In fact, we will be looking, from both practical and theoretical perspectives, at the whole range of cookery and food habits - from the acquisition of raw materials to the allocation of portions.

**3850 Material Culture** (same as Archaeology 3850) is an examination of various interpretive theories of objects as cultural products. Problems of defining the artifact will be discussed, as well as the strengths and limitations of using objects in historical and ethnographic research. Questions discussed include form, design, decoration, diffusion, and the role of the creator of the object. Besides folkloristic work on material culture, a variety of interdisciplinary approaches will be considered. Emphasis will be on the material folk culture of Newfoundland and its European antecedents.

**3860 Vernacular Architecture** (same as Archaeology 3860 and History 3860) is a historical survey of vernacular architectural forms in various regions of North America, with attention to Newfoundland materials. Issues discussed include the relationship of house form and culture, the concepts of antecedents, diffusion, innovation and evolution of building forms and technologies, and the siting of buildings in the landscape. Dwelling houses, outbuildings, churches and industrial vernacular architecture will be included.

**3870 An Introduction to the History of Western Architecture Since the Renaissance** - inactive course.

**3900 Newfoundland Vernacular Furnishings** (same as Archaeology 3900) is an introduction to the furnishings of the Newfoundland domestic interior, involving case studies from public and private collections. The focus of the course will be on furniture, looking at both urban and outport forms. The cultural context of typical furnishings will be discussed, as well as details of furniture form and construction. While furniture will be emphasized, other objects of domestic material culture may be included: glass, ceramics, metalware and textiles.

**3910 Occupational Folklore** includes readings, lectures, and directed fieldwork aimed at identifying, documenting, and analysing the role of tradition in contemporary occupational groups and work settings. Interdisciplinary theoretical perspectives on the nature of work and the characteristics of traditional, industrial and service occupations will be examined. Major topics of study will include work techniques, the uses of verbal and non-verbal codes, alienation, defensive behaviour, and labourlore.

**3920 Folklore and Education** - inactive course.

**3930 Folklore and Popular Culture** is an examination of the transitional processes involved in the development of folk societies to mass cultures with regard to folklore and the products of popular culture. In addition, sensory and technological media theories will be scrutinized and evaluated in conjunction with cultural comparisons of the qualities and functions of: folksong, disc recordings and the radio; folktales, television melodrama and popular film; folk art and popular "techno-art" forms.

Note: *Credit may not be obtained for both FOLK 3930 and the former FOLK 2400.*

**3940 Folklore in Medieval Society** - inactive course.

**3950 Women and Traditional Culture** is an introduction to the ways in which women shape and/or are shaped by traditional culture. Readings and lectures will explore roles and contributions of women as folklore collectors, examine representations of women in folklore forms, and analyse women's creation of their own traditions.

**4015 Cultural Resource Management** (same as Archaeology 4015 and Geography 4015) is a study of cultural resource management: the definition and recognition of cultural resources, the application of policy in managing cultural resources, and the identification and consideration of contemporary issues in cultural resource management. This course will have three hours of lecture and three hours of seminar per week.

**4100 History and Memory** (same as History 4100) is a course which recognizes that memory is not one of the natural parts of ourselves, nor is remembering a way of connecting with a single reference point in a social reality outside ourselves. These things are socially determined. Starting here, this course is designed to have students reflect on what they know about the past and how they know about it. The class will examine how individual and social memory works, concentrating on particular historical

contexts.

Note: *Credit may not be obtained for both History 4100 and the former History 4569.*

**4300 Folklore of Canada** - inactive course.

**4310 Studies in Newfoundland Folklore** studies rural and urban Newfoundland with specific reference to a culture in transition. Folklore is examined as one of the channels through which a people maintain, change and adapt various cultural patterns. The course will include field trips when feasible.

Prerequisite: FOLK 2300.

Note: *Credit may not be obtained for both FOLK 4310 and the former FOLK 3421.*

**4320 Folklore of the United States** - inactive course.

**4350 Folklore of the British Isles** - inactive course.

**4360 Traditional Culture of Scotland** - inactive course.

**4370 Culture and Traditions of Ireland** - inactive course.

**4400 Traditional Culture of French-Newfoundlanders** - inactive course.

**4410 Folklore of France** - inactive course.

**4420 French Folklore in the New World** - inactive course.

**4440 Music and Culture** (same as Anthropology 4440 and Music 4440) examines traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk-popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

**4460 Folk Religion** (same as Religious Studies 4460) is an examination of folk responses to organized religion, surveying the religious forms and interpretations not specifically delineated by Theology. Areas of focus include: folk religious concepts of space and time; religion and healing; witchcraft and the devil; religious folk art and music; religious verbal art; the role and power of the holy person; the saint system; and community social activities sponsored by the church. A discussion of some current popular

religious movements will also be included. Attention will be given to material in the MUN Folklore and Language Archive, and research based on field data will be encouraged.

Note: *Credit may not be obtained for both FOLK 4460 and the former FOLK 4240.*

**4470 Spaces and Places** critically examines how physical space is transformed into cultural place through folklore. The study of region will be used to introduce scholarship on a number of issues central to contemporary folkloristics: sense of place, space and place analysis, space and place as theory, critical regionalism, nationalism and vernacular regionalisms. Students will learn how folklore and localization interact to counter fears and assumptions regarding globalization, homogenization, and the loss of local or regional identities.

**4480 Oral History** (same as History 4480) is a seminar which deals with the uses of oral sources, particularly those which have a traditional dimension, for the study of history. The uses of oral testimony in the study of traditional modes of life and work, and in social and political history will be discussed.

**4500-4520 Special Topic in Folklore** will have topics to be studied announced by the Department.

**4600-4615 Special Research in Folklore** will be determined by the Department.

**4700-4715 Directed Reading Course** will be offered as determined by the Department.

**4810 Documents Management** (same as History 4810) is an introduction to the management of records and documents, both official and private.

**400X Folklore in the Community Context** - inactive course.

**4998 Honours Comprehensive Examination** may be written or oral, or a combination of both (3 credit hours).

**4999 Honours Essay** (3 credit hours) is required as part of the Honours program.

## 8.16 French and Spanish

The Department of French and Spanish offers the following programs:

1. French Major
2. French Minor
3. Honours Degree in French
4. Joint Honours in French
5. Frecker program in French Immersion
6. Canadian Third Year In Nice
7. Spanish Major
8. Spanish Minor

### 8.16.1 French Major Program

Students who choose French as their Major must complete at least 42 credit hours in French, including:

1. 2100 and 2101 OR 2159 and 2160
2. 2300
3. 2601 and 2602
4. 3100 and 3101
5. At least two of 3500, 3501, 3502, 3503, 3504 or 3506
6. At least 6 credit hours at the 4000 level

Notes: 1. *No more than 6 credit hours at the 1000 level may be used to fulfil the minimum requirements of the Major in French.*

2. *No more than 12 transfer credit hours may be used to fulfil the minimum requirements of the Major in French.*

3. *By the time of their graduation, all students majoring in French must have spent at least four weeks at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.*

4. *It is strongly recommended that students in the Major program complete Classics 1120.*

### 8.16.2 French Minor Program

Students who choose French as their Minor must complete at least 24 credit hours in French, including:

1. 2100 and 2101 OR 2159 and 2160
2. 3100 OR 3101

Notes: 1. *No more than 6 credit hours at the 1000 level may be used to fulfil the minimum requirements of the Minor in French.*

2. *No more than 6 transfer credit hours may be used to fulfil the minimum requirements of the Minor in French.*

### 8.16.3 Honours Degree in French

In addition to the following regulations students are advised to see the General Regulations for Honours Degrees.

An Honours degree in French shall consist of at least 60 credit hours in French, including:

1. 2100 and 2101 or 2159 and 2160
2. 2300

3. 2601 and 2602
4. 3100 and 3101
5. At least two of 3500, 3501, 3502, 3503, 3504 or 3506
6. A minimum of 21 credit hours at the 4000 level, including French 4900 and 4999.

Notes: 1. *Classics 1120 may be substituted for 3 credit hours in French.*  
 2. *By the time of their graduation, all students completing the Honours program in French must have spent at least two semesters at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.*  
 3. *No more than 24 transfer credit hours may be used to fulfil the minimum requirements of the Honours program in French.*

### 8.16.4 Joint Honours

French may be combined with any other subject approved in the General Regulations to form a Joint Honours program. Candidates will establish their program in consultation with the Heads of the Departments of their chosen Honours subjects.

The Joint Honours program in French shall include at least 51 credit hours in French, including the same requirements as the French Major with the exception of a minimum of 15 credit hours at the 4000 level.

Notes: 1. *Classics 1120 may be substituted for 3 credit hours in French beyond the first-year level.*  
 2. *By the time of their graduation, all students completing the Joint Honours program in French must have spent at least two semesters at an approved Francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.*  
 3. *No more than 18 transfer credit hours may be used to fulfil the minimum requirements of the Joint Honours program in French.*

### 8.16.5 Transfer Credit for Language Courses

Students who successfully complete French language immersion programs offered by recognized universities and colleges in Canada and elsewhere may apply to have their courses evaluated for equivalent Memorial University of Newfoundland credit. To do so, they must follow such procedures as may be specified by the Office of the Registrar; they may also be required to sit a placement test administered by the Department of French and Spanish. The result achieved on this placement test will influence any determination of the number and level of transfer credits to be awarded.

Students intending to participate in the Summer Language Bursary Program or the Student Fellowship Programs are particularly advised to consult the Head of the Department of French and Spanish before leaving Memorial University of Newfoundland. All students intending to request transfer of credit are strongly advised to obtain a Letter of Permission from the Office of the Registrar before registering for any course of study offered by another institution.

Notes: 1. *In any event, no more than 9 transfer credit hours in French at the first-year level, and 18 at the second-year level, may be granted to any student.*  
 2. *See specific program regulations for restrictions placed on the maximum number of transfer credit hours applicable to the Minor, Major, Honours and Joint Honours programs.*

### 8.16.6 Supplementary Examinations

Students registered for French 1500, 1501, and 1502 whose overall final mark is less than 50% but no lower than 45F may write a supplementary examination subject to the following regulations:

1. Students will be admissible to the supplementary examination only if the average of all other components of the final mark is at least 50%.
2. The supplementary examination will normally be identical to the deferred examination, if any, administered in the same course for that semester and will in any case be written at the time of administration of deferred examinations and will be similar in content and level of difficulty to the final examination originally written.
3. Students who are eligible to sit the supplementary examination must apply to the department within one week following the release of final grades by the Office of the Registrar.
4. Students who pass the supplementary examination will receive a new final grade calculated according to the same method and weighting as the original, but with the mark on the supplementary examination replacing that given for the original written final examination. This new final grade, if higher than the original, will replace the original grade on the student's transcript, subject to the condition that the final mark will not exceed the student's pro-rated term mark. The student's transcript will indicate that the course result was earned as the result of a supplementary examination.
5. A student may write a supplementary examination for any one registration in a course only once; if the course result following the supplementary examination is a fail then the course must be repeated in order to obtain credit.
6. Students taking these courses through the College of the North Atlantic who successfully pass a supplementary examination will receive Memorial University of Newfoundland credit for the course.

### 8.16.7 Frecker Program

The Frecker Program is a one-semester immersion program offered by Memorial University of Newfoundland in St-Pierre. Students who successfully complete this program will receive 15 credit hours in French as specified in Note 3. below. All students will board with French families and will participate in extra-curricular activities designed to take full advantage of the French milieu.

Notes: 1. *The minimum prerequisites for admission to the program are successful completion of French 1502 and permission of the Head of the Department following written application. Admission to the program will be on a competitive basis and will depend on marks obtained in French courses at Memorial University of Newfoundland and on instructors' recommendations.*  
 2. *The cost of room and board is partially subsidized by the Federal Government Bursary Program in the case of residents of Newfoundland and Labrador. (A limited number of non-bursary students may be admitted to the program.)*  
 3. *Students who are admitted to this program will register for French 2100, 2101, 2300, 2900, and 2601 or 2602.*

### 8.16.8 Canadian Third Year in Nice Program

Memorial University of Newfoundland is a member of a consortium of Canadian universities (with Guelph University, The University of Western Ontario, The University of Windsor), which offer the Canadian Third Year in Nice Program. This program enables students to spend a full academic year studying at the Université de Nice-Sophia Antipolis in the South of France. Canadian Students participating in this program are accompanied by a faculty member from one Of the Canadian universities participating in the program. This person teaches two of the five courses which students complete each semester in Nice, the other three being chosen from the offerings of the Université de Nice. Specific Memorial University of Newfoundland credits are awarded for successful completion of the courses taught by the Canadian coordinator and a block of unspecified transfer credits are awarded for the courses offered by the Université de Nice. All courses completed under this program will be offered outside the normal time frame for courses offered at Memorial University of Newfoundland. Fall Semester courses will be completed between October and January each year, Winter Semester courses between

February and May. This is the time frame of Sessions I and II at the Université de Nice-Sophia Antipolis.

L'université Memorial fait partie du consortium des universités canadiennes qui offre le programme Canadian Third Year in Nice. Ce programme permet à des étudiants et étudiantes de passer une année académique à l'université de Nice-Sophia Antipolis dans le sud de la France. Les étudiants et étudiantes canadiens qui participent à ce programme sont encadrés par un professeur d'une des universités qui participent à ce programme. Chaque semestre, cette personne enseigne deux cours sur les cinq cours. Les trois autres cours sont choisis parmi les cours enseignés à l'université de Nice. Les cours du professeur canadien donneront droit à des crédits spécifiés, alors que les cours suivis avec les professeurs niçois donneront droit à des crédits non spécifiés. Le calendrier sera différent de celui de l'université Memorial : les cours d'Automne auront lieu de septembre à janvier et ceux d'hiver de février à mai, suivant le calendrier des sessions I et II de l'université de Nice-Sophia Antipolis.

## COURSES

### Session I (Fall Semester):

- 3102 French Language Studies at Nice (I)
- 3102 Études de la langue française à Nice (I)
- 3507 Advanced French Studies at Nice (I)
- 3507 Études françaises à Nice (I)

### Session II (Winter Semester):

- 3103 French Language Studies at Nice (II)
- 3103 Études de la langue française à Nice (II)
- 3508 Advanced French Studies at Nice (II)
- 3508 Études françaises à Nice (II)

- Notes: 1. *The above-mentioned courses are offered only at the Université de Nice-Sophia Antipolis in France. Les cours mentionnés ci-dessus ne sont offerts qu'à l'Université de Nice-Sophia Antipolis en France.*
2. *French 3102/3103 can be substituted for French 3100/3101 for the purposes of French program requirements and as course prerequisites. Les cours Français 3102/3103 pourront remplacer les cours Français 3100/3101 pour satisfaire aux exigences du programme de français.*
3. *Students should consult the Head of the Department regarding course selection. Les étudiants et étudiantes doivent consulter la direction du département concernant le choix des cours.*

## 8.16.9 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

French courses are designated by FREN.

- Notes: 1. *The Department of French and Spanish offers three consecutive credit courses in French language at the first-year university level, offering a complete overview of basic oral and written French. New students may choose to register initially in FREN 1500 or 1501; a diagnostic test is offered to assist students with initial course selection or to confirm that initial course selection is appropriate. Students with a limited background in French should register for FREN 1500 and continue with 1501. Students with a strong background in high-school French should bypass 1500 and begin their university study with 1501, especially if they intend to proceed beyond the first-year level. Very well-prepared students may apply to the Department for permission to enter 1502 directly. Bypassing one or more of these courses may enable students to include a larger number of advanced electives in their degree program. FREN 1500, 1501 and 1502 require three hours of instruction per week and two additional hours of language laboratory work or conversation class, or both.*
2. *Students may not register concurrently for more than one of FREN 1500, 1501 and 1502 except with the permission of the Head of the Department.*
3. *FREN 2159 and 2160 are courses designed for former French immersion students as well as others with exceptional backgrounds in French, and are intended as an alternative to the 1500, 1501, 1502, 2100, 2101 sequence.*
4. *Students who have successfully completed one or more credit courses in French language will not subsequently be permitted to receive credit for courses not previously completed and judged by the Department to be of a lower level than those already completed. Students returning to the study of French after an absence should consult the Department for current information on these restrictions before registering. Students who wish to return to a previously completed course to improve their standing may do so only with the permission of the Head of the Department.*
5. *Students wishing to enrol in courses at the 4000-level must have completed at least FREN 3100 or 3101 and such additional prerequisites as may be specified (see individual calendar entries for details).*

**1500 Introduction à la langue française, niveau universitaire I** cours pour débutants et pour ceux dont les connaissances du français sont très faibles. La permission de s'inscrire à ce cours ne sera pas accordée a ceux qui ont complété le Français 3202 (Immersion française au High School). Voir ci-dessus la note 1.

Note: *Les étudiants ne peuvent obtenir de crédit pour Français 1500 et l'un ou l'autre des cours Français 1010 et 1011 (désormais supprimés).*

**1500 Introductory University French I** is a course for beginners and for students whose background in French is very weak. Permission to register

for this course will not be given to students who have completed Français 3202 (High School French immersion).

See Note 1. above.

Note: *Students may not receive credit for both 1500 and the former FREN 1010 or 1011.*

### **1501 Introduction à la langue française, niveau universitaire II**

Voir ci-dessus la note 1.

Préalable: High School FREN 3200 ou permission du chef du département. Les étudiants qui ont complété un programme d'immersion devraient consulter le chef du département avant de s'inscrire a ce cours.

Note: *Les étudiants ne peuvent obtenir de crédit pour Français 1501 et Français 1050 (désormais supprimé).*

### **1501 Introductory University French II**

See Note 1. above.

Prerequisite: High School FREN 3200 or permission of the Head of the department. Ex-immersion students should consult the Head of the Department before registering for this course.

Note: *Students may not receive credit for both 1501 and the former FREN 1050.*

### **1502 Introduction à la langue française, niveau universitaire III**

Voir ci-dessus la note 1.

Préalable: Français 1501 avec une note minimale de 60% ou la permission du chef du département.

Note: *Les étudiants ne peuvent obtenir de crédit pour Français 1502 et Français 1051 (désormais supprimé).*

### **1502 Introductory University French III**

See Note 1. above.

Prerequisite: FREN 1501 with a grade of at least 60% or by permission of the Head of the Department.

Note: *Students may not receive credit for both 1502 and the former FREN 1051.*

### **2100 Français intermédiaire I** rédaction, grammaire et pratique orale.

Préalables: Français 1502 avec une note minimale de 60%.

**2100 Intermediate French I** is a course on composition, grammar and practice in oral skills.

Prerequisite: FREN 1502 with a grade of at least 60%.

**2101 Français intermédiaire II** continuation du travail de rédaction, de grammaire et de communication orale.

Préalable: Français 2100.

**2101 Intermediate French II** is further work in composition, grammar and oral skills.

Prerequisite: FREN 2100.

**2159 Français avancé pour étudiants de première année I** ce cours est conçu principalement pour développer les compétences linguistiques des étudiants qui ont reçu leur formation dans les programmes d'immersion. La compréhension et l'expression écrites et orales seront développées au moyen d'exercices pratiques oraux et écrits. Les étudiants ayant des qualifications équivalentes peuvent s'inscrire à ce cours avec la permission du chef du département.

**2159 Advanced French for First-year Students I** is primarily intended to build on the language skills acquired by students in immersion programs. Development of reading, writing, listening and speaking ability through

practical oral and written exercises. Other qualified students may register with the permission of the Head of Department.

**2160 Français avancé pour étudiants de première année II** révision intensive de la grammaire et pratique de la langue écrite et parlée pour assurer la précision linguistique à l'oral ainsi qu'à l'écrit et supprimer les anglicismes.

Préalable: Français 2159 ou Français 1060 (désormais supprimé).

Note: *Les étudiants ne peuvent obtenir de crédit pour Français 2160 et Français 2100 ou 2101.*

**2160 Advanced French for First-year Students II** is an intensive review of French grammar with oral and written practice. Particular attention will be paid to ensuring precision in language use in both oral and written forms and to eradicating anglicisms.

Prerequisite: French 2159 or the former French 1060.

Note: *Students may not receive credit for both French 2160 and French 2100 or 2101.*

**2300 Phonétique** introduction pratique à la phonétique du français. Emploi des symboles de l'alphabet phonétique, transcription phonétique et phonétique corrective.

Préalable: Français 1502 ou équivalent.

**2300 Phonetics** is a practical introduction to French phonetics, including the International Phonetic Alphabet and phonetic transcription as well as corrective phonetics.

Prerequisite: FREN 1502 or equivalent.

**2601 Grammaire et texte** les étudiants exploreront des stratégies de lecture qui faciliteront la compréhension de textes narratifs et descriptifs divers. Ce cours sera enseigné normalement en français.

Préalables: Français 1502 ou 2159 ou équivalent.

**2601 Grammar and Reading** will explore reading strategies in a variety of narrative and descriptive readings in French. This course will normally be taught in French.

Prerequisites: FREN 1502 or 2159 or equivalent.

**2602 Pratique de la lecture** les étudiants exploreront des stratégies qui faciliteront la compréhension de textes informatifs et argumentatifs divers. Ce cours sera enseigné normalement en français.

Préalables: Français 2601 ou équivalent.

**2602 Reading Practice** will explore reading strategies in a variety of readings in FREN intended to inform or persuade. This course will normally be taught in French.

Prerequisites: FREN 2601 or equivalent.

**2900 Survol des cultures francophones** accent mis sur la compréhension et l'expression orales.

Préalable: Français 1502 ou équivalent. Les étudiants ayant reçu moins de 70% pour 1051 devraient normalement compléter Français 2100 avant de s'inscrire à ce cours.

Note: *Ce cours est un préalable pour 3650-3651-3653. Les étudiants ayant complété Français 2500 ne peuvent obtenir de crédit pour Français 2900.*

**2900 A Survey of Francophone Cultures** places emphasis on oral comprehension and expression.

Prerequisite: FREN 1502 or equivalent. Students who have obtained less than 70% in 1051 are, however, advised to complete FREN 2100 before attempting this course.

Note: *This course is a prerequisite for 3650-3651-3653. Students who have completed FREN 2500 may not obtain credit for FREN 2900.*

**3100 Grammaire et analyse de textes** révision des catégories nominale et verbale du français (morphologie, nombre, genre, temps, aspect, mode, voix). Analyse grammaticale et stylistique des textes avec un accent particulier sur l'emploi du verbe en français. Travaux d'expansion lexicale.

Préalables: Français 2101 ou 2160 et au moins un autre cours de français de niveau 2000.

**3100 Grammar and Textual Analysis** is a revision of the French noun and verb systems (morphology, number, gender, tense, aspect, mood, voice). Grammatical and stylistic textual analysis with special emphasis on the use of verbs in French. Vocabulary enrichment.

Prerequisites: FREN 2101 or 2160 and at least one other 2000-level course in French.

**3101 Stylistique et analyse de textes** rôle et fonction des parties du discours; exploitation sémantique (synonymie, polysémie); tropes et figures de style. Analyse grammaticale et stylistique de textes avec un accent particulier sur ces phénomènes. Travaux d'expansion lexicale.

Préalable: Français 3100.

**3101 Stylistics and textual analysis** examines role and function of the parts of speech in French; semantic enrichment (synonymy, polysemy); tropes and figures of speech. Grammatical and stylistic textual analysis with special emphasis on these phenomena. Vocabulary enrichment.

Prerequisite: FREN 3100.

**3102 Études de la langue française à Nice (I)** est un cours obligatoire lors du premier semestre du programme Canadian Third Year in Nice. Le contenu de ce cours correspond à un cours de langue de troisième année de l'université responsable de la coordination.

Préalable: Admission au programme Canadian Third Year in Nice, Français

2101 ou permission de la direction.

**3102 French Language Studies at Nice (I)** is a required course of Session I of the Canadian Third Year Program in Nice. The content of this course will be the equivalent of a language course at the third year level.

Prerequisite: Admission to the Canadian Third Year Program in Nice and French 2101, or permission of the Head of the Department.

**3103 Études de la langue française à Nice (II)** est un cours obligatoire lors du deuxième semestre du programme Canadian Third Year in Nice. Le contenu de cours est la suite du cours de langue enseigné pendant le semestre précédent et correspond à un cours de langue de troisième année de l'université responsable de la coordination.

Préalable: Admission au programme Canadian Third Year in Nice et Français 3102

**3103 French Language Studies at Nice (II)** is a required course of Session II of the Canadian Third Year Program in Nice. The content of this course will be the continuation of the language course offered during the previous semester and will be the equivalent of a language course at the third year level in the university that sends the Coordinator.

Prerequisite: Admission to the Canadian Third Year Program in Nice and French 3102.

**3300 Rhétorique et art oratoire** convaincre par le discours et le dialogue. Le cadre du cours est la rhétorique: mémoire, invention, disposition, élocution, diction. Exercices oraux variés. Deux heures et demie de cours et une heure de classe de conversation par semaine.

Préalables: Deux cours de français au niveau 2000.

**3300 Rhetoric and Public Speaking** is convincing and arguing in French. The course will be structured by rhetoric: memory, invention, disposition, elocution, diction. Various oral exercises. Two and a half hours of instruction plus one 50-minute period of conversation class per week.

Prerequisites: 6 credit hours in FREN at the 2000 level.

**3302 Histoire de la langue française** (identique à Linguistique 3302) Une étude des origines du français qui porte sur l'influence du gaulois, du latin vulgaire, du francique et de la division langue d'oc/langue d'oïl; survol des dialectes, de la morphologie et de la syntaxe de l'ancien français, ainsi que de l'évolution de l'ancien français au moyen français, en tenant compte de la phonologie, de la morphologie, de la syntaxe et du vocabulaire.

Préalables: Français 2101 (ou 2160) et 2300; Etudes classiques 1120 fortement recommandé.

**3302 History of the French Language** (same as Linguistics 3302) is a study of the origins of French, including the influence of Gaulish, Vulgar Latin, Frankish and the langue d'oc/langue d'oïl division, a survey of the dialects, morphology and syntax of Old French and of the evolution from Old to Middle French, including phonology, morphology, syntax and vocabulary.

Prerequisites: French 2101 (or 2160) and 2300; Classics 1120 is strongly recommended.

**3310 Phonologie et morphologie du français** (identique à Linguistique 3310) Une étude de la structure phonologique et morphologique du français. Données des variétés régionales et non-standard en contraste avec le français standard: règles formelles pour rendre compte des régularités observées. Interaction de la phonologie et de la morphologie dans la liaison et d'autres contextes. La flexion et la dérivation. On prescrit des articles de recherche sur l'un ou plusieurs des thèmes à l'étude et un rapport rédigé en français sur l'un ou plusieurs des articles. Ce cours est normalement enseigné en français.

Préalable: Français 2300 ou la permission du professeur.

Note: *Il est fortement conseillé que les étudiants n'ayant pas complété Français 2300 complètent au moins un cours du niveau 2000 avant de suivre Français 3310.*

**3310 Phonology and Morphology of French** (same as Linguistics 3310) is an examination of the phonological and morphological structure of French. Data from regional and non-standard varieties contrasted with data from standard French: formal rules to deal with observed regularities. Interactions of phonology and morphology in phenomena such as liaison. Derivational and inflectional morphology. Research articles on one or more of the topics dealt with in the course will be assigned as readings, and a written report in French based on one or more of the articles is to be submitted as part of the term work. This course will normally be taught in French.

Prerequisite: French 2300 or permission of the instructor.

Note: *Students who have not completed FREN 2300 are strongly advised to complete at least one 2000-level course in French before attempting FREN 3310.*

**3311 Initiation à la linguistique générale: aspects de la théorie linguistique française** (identique à Linguistique 3311) Étude pratique du système verbal du français et une exposition approfondie des systèmes de l'aspect, de la voix et des modes. Les concepts fondamentaux de la linguistique serviront de cadre à cette exposition: la distinction langue/parole et le rapport avec les entités sous-jacentes et de surface; le langage comme activité et la génération des éléments de surface à partir des systèmes sous-jacents. Ce cours sera normalement enseigné en français.

Préalable: Un cours en linguistique ou Français 2100 ou 2159.

**3311 Introduction to General Linguistics: Aspects of French Linguistic Theory** (same as Linguistics 3311) is a practical examination of the French verbal system, with a thorough exposition of the systems of aspect, voice, tense and mood. The fundamental concepts of linguistics will form the framework of this exposition: the langue/parole distinction and its

relationship to underlying and surface entities, language as activity and the generation of surface elements from underlying subsystems. This course will normally be taught in French.

Prerequisite: A Linguistics course or FREN 2100 or 2159.

**3500 Introduction à la prose de langue française** une attention particulière sera accordée à la poésie du Canada français et de la France.

Préalables: Français 2602 ou équivalent.

**3500 An Introduction to Prose Literature in French** pays particular attention to the literatures of French Canada and France.

Prerequisites: FREN 2602 or equivalent.

**3501 Introduction au théâtre de langue française** une attention particulière sera accordée aux littératures du Canada français et de la France.

Préalables: Français 2602 ou équivalent.

**3501 An Introduction to Drama in French** pays particular attention to the literatures of French Canada and France.

Prerequisites: FREN 2602 or equivalent.

**3502 Introduction à la poésie de langue française** une attention particulière sera accordée à la poésie du Canada français et de la France.

Préalables: Français 2602 ou équivalent.

**3502 An Introduction to Poetry in French** pays particular attention to the literatures of French Canada and France.

Prerequisites: FREN 2602 or equivalent.

**3503 Thématique** un ou quelques thèmes reliés étudiés à travers un choix de textes d'expression française.

Préalables: Français 2602 ou équivalent.

**3503 Study of Theme** is the study of a particular theme or of interrelated themes in selected French-language texts.

Prerequisites: FREN 2602 or equivalent.

**3504 Histoire littéraire** l'étude d'une ou de quelques époques à travers un choix de textes d'expression française.

Préalables: Français 2602 ou équivalent.

**3504 Literary History** is the study of one or more literary periods through selected French-language texts.

Prerequisites: FREN 2602 or equivalent.

**3506 Cinéma francophone** un cours d'initiation conçu pour familiariser l'étudiant avec les principales productions et directions du cinéma français. Ce cours est enseigné en français, et les films projetés ne seront pas nécessairement sous-titrés en anglais. Il est donc recommandé que les étudiants aient une bonne compréhension auditive du français.

Préalables: Français 2602 ou équivalent.

**3506 French Cinema** is a survey course designed to acquaint students with the major productions and trends in French cinema. The course is taught in French, and films screened will not necessarily have English subtitles. It is therefore recommended that students have a good aural comprehension of French.

Prerequisites: FREN 2602 or equivalent.

**3507 Études françaises à Nice (I)** est un cours obligatoire lors du premier semestre du programme Canadian Third Year in Nice. La personne responsable de la coordination choisit un cours de littérature, linguistique ou culture enseigné dans son université.

Préalable: Admission au programme Canadian Third Year in Nice, Français 2602 ou permission de la direction

**3507 Advanced French Studies at Nice (I)** is a required course of Session I of the Canadian Third Year Program in Nice. The Coordinator will choose among a French literature, linguistics or culture course taught at his or her university.

Prerequisite: Admission to the Canadian Third Year Program in Nice and French 2602, or permission of the Head of the Department

**3508 Études françaises à Nice (II)** est un cours obligatoire lors du deuxième semestre du programme Canadian Third Year in Nice. La personne responsable de la coordination choisit un cours de littérature, linguistique ou culture enseigné dans son université.

Préalable: Admission au programme Canadian Third Year in Nice et Français 3507

**3508 Advanced French Studies at Nice (II)** is a required course of Session II of the Canadian Third Year Program in Nice. The Coordinator will choose among a French literature, linguistics or culture course taught at his or her university.

Prerequisite: Admission to the Canadian Third Year Program in Nice and French 3507

**3650 Culture française** introduction à la culture française. Pratique de la langue orale et écrite.

Préalable: Français 2101 ou 2602 et Français 2300 ou 2900.

**3650 French culture** is an introduction to the culture of French. Practice in oral and written French.

Prerequisite: French 2101 or 2602 and French 2300 or 2900.

**3651 Culture québécoise** introduction à la culture du Québec. Pratique de

la langue oral et écrite.

Préalable: Français 2101 ou 2602 et Français 2300 ou 2900.

**3651 Quebec culture** is an introduction to the culture of Quebec. Practice in oral and written French.

Prerequisite: French 2101 or 2602 and French 2300 or 2900.

**3653 Culture franco-canadienne hors Québec** introduction à la culture d'expression française du Canada à l'extérieur du Québec. Pratique de la langue orale et écrite.

Préalable: Français 2101 ou 2602 et Français 2300 ou 2900.

**3653 Canadian Francophone** culture outside Quebec is an introduction to the culture of French-speaking regions of Canada other than Quebec. Practice in oral and written French.

Prerequisite: French 2101 or 2602 and French 2300 or 2900.

**3654 La Francophonie Mondial** étudie le rôle, la diversité de la langue française, ses statuts et défis dans le monde francophone en dehors de la France et du Canada. Préalable: Français 2900 (ou sur autorisation du directeur de département).

Préalable: Français 2101 ou 2602 et Français 2300 ou 2900.

**3654 Francophone World** studies the role, the diversity of the French language, its status and challenges in the French-speaking world outside France and Canada.

Prerequisites: French 2101 or 2602 and French 2300 or 2900.

**3800 Étude interdisciplinaire en culture française** - cours désactivé.

**3800 Interdisciplinary Topics in French Culture** - inactive course.

**4100 Perfectionnement de l'expression** pratique intensive de la stylistique du français écrit; exploration des registres; rédaction de textes en vue d'un lectorat francophone (correspondance, rapport, réclamation, etc.). Pratique du français oral, niveau avancé.

Préalables: Français 3100 et 3101 ou Français 3102 et 3103.

**4100 Advanced French Expression** is an intensive review of the stylistics of written French, including levels of expression and composition of texts with a Francophone audience in mind (correspondence, reports, etc.). Advanced oral practice.

Prerequisites: FREN 3100 and 3101 or FREN 3102 and 3103.

**4101 Traduction et stylistique comparée** initiation aux principes et aux méthodes de la traduction (thème et version). Stylistique comparée du français et de l'anglais.

Préalables: Français 3100 et 3101 ou Français 3102 et 3103.

**4101 Translation and comparative stylistics** is an introduction to principles and methods of translation from French to English and English to French. Comparative stylistics of French and English.

Prerequisites: FREN 3100 and 3101 or FREN 3102 and 3103.

**4120-4129 Sujets spéciaux de langue française** cours avancés portant sur des aspects spécialisés de la langue française. Les sujets traités seront annoncés chaque année par le Département.

Préalables: Français 3100 et 3101 ou Français 3102 et 3103.

**4120-4129 Special topics in French language** are advanced courses on specialized topics in French language. Subjects to be treated will be announced each year by the Department.

Prerequisite: FREN 3100 et 3101 or FREN 3102 and 3103.

**4301 Étude des dialectes, patois et argots de France** - cours désactivé.

**4301 French dialects, patois, and argots** - inactive course.

**4310 La langue française au Canada** - cours désactivé.

**4310 The French Language in Canada** - inactive course.

**4400 Culture traditionnelle des Franco-Terre-Neuviens** - cours désactivé.

**4400 Traditional Culture of French-Newfoundlanders** - inactive course.

**4410 Folklore de France** - cours désactivé.

**4410 Folklore of France** - inactive course.

**4420 Folklore français du Nouveau Monde** - cours désactivé.

**4420 French Folklore in the New World** - inactive course.

**4610 Mouvement littéraire I** histoire de la littérature d'expression française à travers l'étude d'un mouvement ou d'un courant littéraire jusqu'au romantisme (et indépendamment des genres): courtoisie, libertinage, libre pensée, baroque, humanisme, classicisme, romantisme, etc.

Préalables: Deux d'entre 3500, 3501, 3502, 3503, 3504, 3506 ou un cours dans cette série avec une note de 80% ou plus.

**4610 Literary Movement I** is French literary history through the study of a movement or trend in literature up to romanticism: courtoisie, libertinage, libre pensée (free thought), the baroque, humanism, classicism, romanticism, etc.

Prerequisites: Two of: 3500, 3501, 3502, 3503, 3504, 3506 or one course in that series with a grade of 80% or above.

**4620 Mouvement littéraire II** histoire de la littérature d'expression française

à travers l'étude d'un mouvement ou d'un courant littéraire à partir du réalisme (et indépendamment des genres): réalisme, naturalisme, symbolisme, surréalisme, existentialisme, féminisme, postmodernisme, absurde, nouveau roman, roman du terroir, etc.  
Préalables: Deux d'entre 3500, 3501, 3502, 3503, 3504, 3506 ou un cours dans cette série avec une note de 80% ou plus.

**4620 Literary Movement II** is French literary history through the study of a movement or trend in literature since realism: realism, naturalism, symbolism, surrealism, existentialism, feminism, postmodernism, the absurd, nouveau roman, roman du terroir, etc.  
Prerequisites: Two of: 3500, 3501, 3502, 3503, 3504, 3506 or one course in that series with a grade of 80% or above.

**4630 Genre littéraire I** étudie d'un genre littéraire à travers une littérature d'expression française et à travers les siècles; quelques genres dits traditionnels (poésie, romanesque, théâtre): poème, épopée, roman, conte, nouvelle, tragédie, comédie, drame.  
Préalables: Deux d'entre 3500, 3501, 3502, 3503, 3504, 3506 ou un cours dans cette série avec une note de 80% ou plus.

**4630 Literary Genre I** is a study of a genre from French-literature of different periods to be chosen among the traditional or canonical forms (poetry, narrative fiction, theatre): poem, epic, novel, short story, novella, tragedy, comedy, drama.  
Prerequisites: Two of: 3500, 3501, 3502, 3503, 3504, 3506 or one course in that series with a grade of 80% or above.

**4640 Genre littéraire II** étudie d'un genre littéraire à travers une littérature d'expression française et à travers les siècles; les autres genres (littéraires et paralittéraires): essai, pamphlet, manifeste; mémoires, journal, autobiographie; littérature fantastique; paralittérature (best-sellers, policier, espionnage, science fiction, etc).  
Préalables: Deux d'entre 3500, 3501, 3502, 3503, 3504, 3506 ou un cours dans cette série avec une note de 80% ou plus.

**4640 Literary Genre II** is a study of a genre from French-language literature of different periods to be chosen among other literary and popular genres such as: essay, tract, manifesto; memoirs, diary, autobiography; personal writing, fantasy, best sellers, detective novel, spy novel, science fiction, etc.  
Prerequisites: Two of: 3500, 3501, 3502, 3503, 3504, 3506 or one course in that series with a grade of 80% or above.

**4650 Critique littéraire** abordera un corpus particulier (textes de différents auteurs ou d'un auteur) par l'intermédiaire de la critique littéraire: symbolique, thématique, mythocritique, sociocritique, psychocritique, philocritique, histoire de la critique, etc.  
Préalables: Deux d'entre: 3500, 3501, 3502, 3503, 3504 ou un cours dans cette série avec une note de 80% ou plus.

**4650 Literary Criticism** will, using a critical perspective, study a particular selection of literary works. The critical approach may be any of the following: symbolics, thematic, mythocriticism, sociocriticism, psychocriticism, philocriticism, history of criticism, etc.  
Prerequisites: Two of: 3500, 3501, 3502, 3503, 3504 or one course in that series with a grade of 80% or above.

**4651-4659 Sujets spéciaux en culture francophone** cours avancés portant sur des domaines spécialisés de la culture de la culture de la Francophonie. Les sujets traités seront annoncés chaque année par le Département.  
Préalable: Français 3100, 3101 et un autre cours de français de troisième

## 8.16.10 Spanish

### 8.16.10.1 Spanish Major Program

A Major in Spanish consists of a minimum of 36 credit hours in Spanish chosen from the courses listed below.

Note: *It is strongly recommended that students in the Spanish Major Program complete Classics 1120 and 1121.*

### 8.16.10.2 Spanish Minor Program

A Minor in Spanish consists of a minimum of 24 credit hours in Spanish from the courses listed below.

### 8.16.10.3 Study Abroad Programs in Spanish

The Spanish section of the Department of French and Spanish offers students the opportunity of participating in Study Abroad programs in Spanish. These programs are designed to provide an intensive immersion experience in a Spanish-speaking country each summer. On successful completion of one of these programs, students will be awarded specific credits applicable to their academic program at Memorial University of Newfoundland.

A Study Abroad program in Spanish will be offered each summer, provided that there is sufficient enrolment. All such courses will be offered outside the normal time frame for courses offered at Memorial University of Newfoundland.

#### Courses

Spanish courses are designated by SPAN.

**2010 Intermediate Spanish Language Studies** will emphasize the development of aural comprehension and oral expression in Spanish in an intensive immersion setting. The course will also include work on written expression and comprehension.  
Prerequisite: SPAN 1001 or permission of the Head of the Department.

**2020 Intermediate Hispanic Cultural and Literary Studies** will focus on hispanic literary and cultural studies at the intermediate level and in an intensive immersion setting.  
Prerequisite: SPAN 1001 or permission of the Head of the Department.

année.

**4651-4659 Special topics in Francophone culture** are advanced courses on specialized topics in Francophone culture. Subjects to be treated will be announced each year by the Department.  
Prerequisite: French 3100, 3101 and one other third-year French course.

**4660 Théorie littéraire** approche d'un corpus particulier par l'intermédiaire de la théorie littéraire: théorie de la littérature, théorie de l'écriture féminine, sémiotique, pragmatique, herméneutique, rhétorique, poétique, narratologie, philosophie, psychanalyse, etc.  
Préalables: Deux d'entre: 3500, 3501, 3502, 3503, 3504, 3506 ou un cours dans cette série avec une note de 80% ou plus.

**4660 Literary Theory** studies a particular selection of literary works by using a theoretical perspective. The theoretical approach may be any of the following: theory of literature, theory of women's writing, semiotics, pragmatics, hermeneutics, rhetoric, poetics, narratology, philosophy, psychoanalysis, etc.  
Prerequisites: Two of: 3500, 3501, 3502, 3503, 3504, 3506 or one course in that series with a grade of 80% or above.

**4820-4829 Sujets spéciaux de littérature d'expression française** cours avancés portant sur des aspects spécialisés de la littérature d'expression française. Les sujets traités seront annoncés chaque année par le Département.  
Préalables: Deux d'entre: 3500, 3501, 3502, 3503, 3504, 3506 ou un cours dans cette série avec une note de 80% ou plus.

**4820-4829 Special topics in French-language literature** are advanced courses on specialized topics in literature written in French. Subjects to be treated will be announced each year by the Department.  
Prerequisite: Two of: 3500, 3501, 3502, 3503, 3504, 3506 or one course in that series with a grade of 80% or above.

**4900 Dissertation I pour la spécialisation en français** l'étudiant/e choisira un sujet de recherches en accord avec son directeur ou sa directrice de recherches, préparera une proposition détaillée et remettra un premier jet d'une partie de sa dissertation. Il ou elle devra rencontrer son directeur ou sa directrice de recherches régulièrement.  
Préalable: Admission dans le programme de spécialisation et permission du directeur du département.

**4900 Honours Essay I** under the direction of their assigned supervisors, students will select an honours essay topic, prepare a research proposal, and submit a draft of at least one section of the honours essay. Students are expected to meet regularly with their supervisors.  
Prerequisite: Admission to the honours program in French and permission of the Head of Department.

**4999 Dissertation II pour la spécialisation en français** l'étudiant/e continuera l'écriture de sa dissertation sous la direction de son directeur ou de sa directrice de recherches. Il ou elle devra rencontrer son directeur ou sa directrice de recherches régulièrement.  
Préalable: français 4900 avec une note minimale de 70%.

**4999 Honours Essay II** under the direction of their assigned supervisors, students will complete the writing of their honours essay. Students are expected to meet regularly with their supervisors.  
Prerequisite: Completion of FREN 4900 with a minimum grade of 70%.

**3010 Advanced Spanish Language Studies** will be similar to SPAN 2010 but at a more advanced level.  
Prerequisite: SPAN 2001 or permission of the Head of the Department.

**3020 Advanced Hispanic Cultural and Literary Studies** will be similar to SPAN 2020 but at a more advanced level.  
Prerequisite: SPAN 2001 or permission of the Head of the Department.

**6900 Reading in Spanish** is a graduate service course.

- Notes: 1. *The above mentioned courses are offered only in the context of a study-abroad program in a Spanish speaking country.*  
2. *Students will be required to register for either SPAN 2010/2020 or SPAN 3010/3020 in any one program.*  
3. *Students who are unsure whether they meet the prerequisites for any of the courses listed above should consult the Co-ordinator for Spanish.*

#### 8.16.10.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Spanish courses are designated by SPAN.

**1000 Elementary Spanish I** is an introductory course, grammar, reading and oral Spanish.

**1001 Elementary Spanish II** is a continuation of Elementary Spanish I.  
Prerequisite: SPAN 1000.

**2000 Intermediate Spanish I** is a continuation of the basic grammar, reading, and oral Spanish completed in the elementary program.  
Prerequisite: SPAN 1001.

**2001 Intermediate Spanish II** is a continuation of Intermediate Spanish I.  
Prerequisite: SPAN 2000.

**3000 Spanish Literature of the 18th and 19th Century I** - inactive course.

**3001 Spanish Literature of the 18th and 19th Century II** - inactive course.

**3100 Spanish Literature of the Golden Age: Poetry and Drama** - inactive course.

**3101 Spanish Literature of the Golden Age: Prose** is a general introduction to the historical and cultural background and development of sixteenth and seventeenth century Spanish prose literature through study of *Lazarillo de Tormes*, *Don Quixote* and *El Buscón*. Special emphasis is laid on the picaresque novel and on the originality of Cervantes and the creation of the first truly "modern" novel.  
Prerequisite: SPAN 2001.

**3200 Spanish Literature 20th Century I** is a general survey of Spanish literary works of the twentieth century, with a detailed study of representative authors.  
Prerequisite: SPAN 2001.

**3201 Spanish Literature 20th Century II** - inactive course.

**3300 Hispanic Cinema and Culture** - inactive course.

**3400 Spanish Civilization** - inactive course.

**3401 Spanish-American Culture and Civilization** explores Spanish-American culture and civilization from pre-Columbian times to the present through an examination of native (Aztec, Incan, Mayan, Quechua and Muisca) cultures and the impact on them of European discovery and colonization of the New World. Particular attention will be paid to the situation of the Indian and the mestizo in Spanish America and to the background of the various independence movements in the region.  
Prerequisite: SPAN 2001.

**3500 Spanish-American Literature I: 1500-1880** examines the

#### 8.16.10.5 Course Descriptions

**1000 Elementary Italian I** is for beginners in Italian. Introduction to the fundamentals of Italian grammar, with particular attention to the acquisition of basic skills in oral and written communication.  
Lectures: Four hours per week.  
Laboratory: One hour per week.

**1001 Elementary Italian II** is a continuation of Elementary Italian I.  
Lectures: Four hours per week.  
Laboratory: One hour per week.  
Prerequisite: Italian 1000.

**2000 Italian Language and Culture (Intermediate Level) I** covers work in reading, oral comprehension, speaking and writing. Lectures and Language Laboratory.  
Prerequisite: Italian 1001

**2001 Italian Language and Culture (Intermediate Level) II** covers work in reading, oral comprehension, speaking and writing. Lectures and Language Laboratory.  
Prerequisite: Italian 2000

### 8.17 Geography

The following undergraduate programs are available in the Department of Geography:

1. Major in Geography (B.A. or B.Sc.)

development of Spanish-American literature from the European conquest to the Romantic movement, beginning with a comparison between Spanish and native American writing at the time of the conquest. The Baroque, Neo-classical and Romantic ages will be studied through the writings of such authors as Sor Juana Inés de la Cruz, Altamirano, Inclán and Flores.  
Prerequisite: SPAN 2001.

**3501 Spanish-American Literature II: 1880-1980** - inactive course.

**3502 Spanish-American Cuento** - inactive course.

**3600 Spanish American Literature 20th Century** is a study of representative works of Spanish-American literature of the twentieth century.  
Prerequisite: SPAN 2001.

**3601 Spanish American Literature 20th Century II** - inactive course.

**3700 Advanced Spanish I** covers oral Spanish, composition and reading of contemporary literary materials; phonetics.  
Prerequisite: SPAN 2001.

**3701 Advanced Spanish II** is a continuation of Advanced Spanish I.  
Prerequisite: SPAN 3700.

**3800-3809 Special Topics in Spanish-language literature** - See Departmental website for particulars.  
Credit Restrictions: May vary with each new course. Currently N/A.  
Prerequisites/Co-requisites: SPAN 2001 or equivalent. May vary with each new course.

**3850-3859 Special Topics in Spanish-language culture** - See Departmental website for particulars.  
Credit Restrictions: May vary with each new course. Currently N/A.  
Prerequisites/Co-requisites: SPAN 2001 or equivalent. May vary with each new course.

**4000 Medieval Spanish Literature I: Verse** - inactive course.

**4001 Medieval Spanish Literature II: Prose** - inactive course.

**4200 Nineteenth Century Spanish Novel** - inactive course.

**4201 Modern Spanish Novel** - inactive course.

**4500 Twentieth Century Spanish-American Novel** - inactive course.

**4501 Modernism in Spanish-American Literature** - inactive course.

**4502 Modern Spanish-American Drama** - inactive course.

**4503 Contemporary Spanish-American Poetry** - inactive course.

**4700 Oral and Written Spanish Composition I** - inactive course.

**4701 Oral and Written Spanish Composition II** - inactive course.

**4800 Directed Reading Course in Spanish** - inactive course.

2. Honours in Geography (B.A. or B.Sc.)
3. Minor in Geography
4. Joint Programs
5. Focus Area in Geography
6. Diploma in Geographic Information Sciences

### 8.17.1 Major in Geography (B.A. or B.Sc.)

1. Students may complete a Major in Geography as part of either a B.A. or B.Sc. program. See the Regulations for the General Degree of Bachelor of Arts and Regulations for the General Degree of Bachelor of Science degrees as appropriate.
2. All students who major in Geography shall consult with their assigned faculty advisor, or the Head of the Department, who will help them in planning their academic program. For this purpose, it is essential that students declare their major at an early stage of their studies.
3. The Major in Geography consists of 45 credit hours in Geography courses including:
  - a. 1050, or 1000 & 1001, or 1010 & 1011;
  - b. 2001, 2102, 2195, 2226, 2302, 2425;
  - c. 3222, 3226;
  - d. Nine credit hours from courses at the 3000-level;
  - e. At least 9 credit hours chosen from courses at the 4000-level;
  - f. Further credit hours in courses at the 3000-level or above, to fulfil the required 45 credit hours in Geography courses.
4. B.Sc. candidates must complete 15 credit hours in science courses outside Geography at the 2000-level or above.

### 8.17.2 Honours in Geography (B.A. or B.Sc.)

1. Students intending to take an Honours degree in Geography must apply for entry to the Honours program through the Office of the Registrar.
2. Students accepted in the Honours program must:
  - a. Comply with the **Regulations for the Honours Degree of Bachelor of Arts or Regulations for the Honours Degree of Bachelor of Science** as appropriate.
  - b. Arrange their program in consultation with the Head of the Department.
3. For the Honours Degree, a candidate will be required to have completed at least 60 credit hours in courses in Geography, including:
  - a. Forty-five credit hours in courses as listed under Major in Geography.
  - b. Geography 3230, 4990 and 4999.
  - c. Six additional credit hours at the 4000-level.

### 8.17.3 Minor in Geography

The Minor in Geography consists of 24 credit hours in Geography courses, including:

1. 1050, 2001, 2102, 2195, 2302, 2425; and 6 credit hours in electives taken from Geography courses at the 3000- or 4000- level, or
2. 1000 and 1001, or 1010 and 1011; 2001, 2102, 2195, 2302, 2425; and 3 credit hours in electives taken from Geography courses at the 3000- or 4000- level.

### 8.17.4 Joint Programs

Regulations for the Joint Honours in Computer Science and Geography, Joint Honours in Geography/Earth Sciences, and Joint Major in Computer Science and Geography are found under the heading **Joint Programs** in the entry for the Faculty of Science.

Students who wish to take a Joint Major or a Joint Honours in Geography and another subject must arrange their program in consultation with the heads of the Departments concerned, and comply with the General Regulations of the appropriate Faculty.

### 8.17.5 Focus Area in Geography - Bachelor of Education (Primary/Elementary)

The focus area in Geography is applicable only to the Bachelor of Education Primary/Elementary degree programs offered by the Faculty of Education. Please see **Focus Areas** under the Faculty of Education for program details.

### 8.17.6 Diploma in Geographic Information Sciences

Information regarding the Diploma Program in Geographic Information Sciences may be found under the heading Diploma Programs Offered in the Faculty of Arts.

### 8.17.7 General Prerequisites and Credit Restrictions

1. Mathematics 1000, or equivalent, is a prerequisite for Geography 3110, 3120, 3140, 3150, 3250, 3260;
2. It is strongly recommended that all 2000-level core courses be completed before registration in 3000-level courses. All 2000-level core courses must normally be completed prior to registration in a 4000-level course.
3. It is strongly recommended that Geography 3222 and 3226 be completed before registration in 4000-level courses.
4. Credit may not be obtained for Geography 1050 and any one of Geography 1000, 1001, 1010, or 1011.

### 8.17.8 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Specific prerequisites for courses may be waived only with permission of the instructor and the Head of Department.

Geography courses are designated by GEOG.

**1050 Introduction to the Principles and Practice of Geography** focuses on five areas in geography which continue through courses in other years of the geography program: physical, cultural, economic, resources, and geographic information sciences. The lectures are linked to assignments,

which provide both experience in the application of geographical skills and develop insight into the presence of geography at both the local and global scales.

Note: *Credit may not be obtained for GEOG 1050 and any of 1000, 1001, the former 1010, or the former 1011.*

**2001 Cultural Geography** is an introduction to the study of culture in geography, emphasizing both the history of the field from classic studies of landscapes to contemporary scholarship and themes of recent importance. These include the relationship between nature and culture: imperialism and colonialism; place, identity, and power; and global cultures of commodities, media, and tourism.

Prerequisite: GEOG 1050, or the former 1011, or 1001.

**2102 Physical Geography: The Global Perspective** is a study of form, process, and change in natural systems at and near the surface of Earth, viewed as human environment. Emphasis is on global and regional scales in the systematic study of climate, water, landforms and vegetation. Three hours of lecture and three hours of laboratory per week.

Prerequisite: GEOG 1050, or the former 1011, or 1001.

Note: *Credit may not be obtained for GEOG 2102 and the former 2100 or 2101.*

**2105 Canada's Natural Environments and Landscapes** examines the characteristics and development of the natural environments and landscapes of each of the major regions of Canada. The diversity of natural environments is illustrated through discussion of the climatic, hydrological, biogeographical, and geomorphic processes responsible for shaping the land. The impact of both gradual and rapid (catastrophic) changes on local, national, and global scales will be emphasized.

Notes: 1. *This course is complementary to GEOG 3405; students are encouraged to take both.*

2. *Credit may not be obtained for both GEOG 2105 and the former 3100.*

**2195 Introduction to Geographic Information Sciences** is an introduction to the fields of cartography, remote sensing, and geographic information systems (GIS). Geographic information collection, representation and analysis methods are the topics for the course. An emphasis is given to applications of maps and satellite images.

**2226 Field Methods I** is designed to introduce students to the practice of geography in the field. Field techniques will focus on the observation, identification, and collection of primary data. This course provides a basis for further study in advanced geography courses.

Prerequisite: GEOG 1050, or permission of the instructor.

Note: *This course is a one credit hour course.*

**2290 Historical Geography of Newfoundland** is an examination of the spatial development of settlement in Newfoundland from the period of early European contacts to the present century. Themes include the impact of Europeans on native occupation, the regional background of European migrations, the regional growth of population and the spread of settlement as manifested on the cultural landscape. This course also serves as an option in the Newfoundland Studies Minor program.

Note: *Credit may not be obtained for both GEOG 2290 and the former 3290.*

**2302 Issues in Economic Geography** covers basic issues and ideas in economic geography. The development of a regional economy will be related to underlying economic, cultural and physical factors.

Prerequisite: GEOG 1050, or the former 1011, or 1001.

**2425 Natural Resources** is an introduction to the concepts of natural resources, environment and conservation: the nature and distribution of natural resources; methods of use, allocation and development of natural resources and the role of various physical, social, economic, political and technological factors influencing decision-making about resources.

Prerequisite: GEOG 1050, or the former 1011, or 1001.

Note: *Credit may not be obtained for both GEOG 2425 and 3325.*

**2495 Regional Geography of Labrador** is a holistic study of the Geography of Labrador, including the terrain, geology, Quaternary history, climate, vegetation, and fauna; the cultural geography of Labrador, including Innu, Inuit, Métis, and Settler people and communities; economic activities in Labrador, and the interaction of the Labrador economy within Newfoundland, Canada, and globally; the management of physical and human resources; and the geographic techniques used to investigate and understand Labrador's unique Geography.

Note: *Credit may not be obtained for both GEOG 2495 and the former 3495.*

**3000 Population Geography** - inactive course.

**3010 The Evolution of Urban Form** - inactive course.

**3110 Physical Geography of the Watershed** - inactive course.

**3120 Climatology** is an analysis of the energy and moisture budgets and circulation of the atmosphere at the macro-scale, together with an examination of resulting climate characteristics for selected world regions.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 2102; Mathematics 1000.

**3140 Biogeography** is the application of ecological concepts to the study of the spatial variations in the distribution of plants and vegetation. Laboratory

work emphasizes terrestrial flora of Newfoundland.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 2102; Mathematics 1000.

**3150 Geomorphology** is a study of the relationships between geomorphic processes and landforms. Practical work will involve collection of data and samples in the field and analytical laboratory techniques.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 2102 or Earth Sciences 2905; Mathematics 1000.

Note: *Credit may not be obtained for both GEOG 3150 and the former Earth Sciences 3700.*

**3202 Introduction to Cartography** is an introduction to the field of cartography and its different components, including: projections, generalization, cartographic design, data classification, topographic and thematic mapping. Laboratory exercises will utilize Geographic Information Systems software.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: Six credit hours at the 2000-level.

Note: *Credit may not be obtained for both GEOG 3202 and the former GEOG 2200.*

**3210 History of Map Making** is an examination of the major characteristics of the evolution of the art and science of map-making from the earliest time to the present. Emphasis is on the development and application of theory and method in the cartographic process.

**3222 Research Design and Quantitative Methods in Geography** is an introduction to principles of research design, and to the use of quantitative techniques. This course provides students with a basic understanding of data collection, entry, and analysis and presentation skills most commonly used by geographers. Practical, computer-based exercises are an essential part of the course.

Three hours of lecture and three hours of laboratory per week.

Prerequisite: GEOG 1050, or the former 1011, or 1001 and at least 9 credit hours from GEOG 2001, 2102, 2195, 2302, 2425.

Note: *It is strongly recommended that this course be completed before registration in a 4000-level geography course. Credit may not be obtained for both GEOG 3222 and the former GEOG 2220.*

**3226 Field Methods II** is designed to provide students with field experience at a more advanced level, building on GEOG 2226. In this course, the students will experience the field research process from the initial observation of a site through research and analysis to completion of a written report.

Prerequisite: GEOG 2226.

Note: *This is a two credit hour course.*

**3230 Field Course** will normally be taken by Geography Majors just prior to the Fall Semester of their third year. The course will be held off campus and is designed to provide experience in instrument and field techniques in physical, economic and cultural Geography.

**3250 Introduction to Remote Sensing** is an introduction to digital image analysis. Will include many aspects of pre-processing and processing of airborne and satellite imagery.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 2195; Mathematics 1000.

**3260 Introduction to Geographic Information Systems (GIS)** introduces the principles of GIS as they relate to spatial data input, structures, management, integration, analysis and output. Laboratory exercises permit students to use GIS software and explore how it can be applied to a wide variety of disciplines and real world issues.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 2195; Mathematics 1000.

Note: *Credit may not be obtained for both GEOG 3260 and the former GEOG 4251.*

**3303 Location Theory** is the theoretical basis of the study of economic geography. Theories of movement of people, goods and ideas, as well as theories of land-use, facility location and the development of agglomerations are examined.

Prerequisite: GEOG 2302.

Note: *Credit may not be obtained for 3303 and the former 2300, 2301, 2303.*

**3320 Fisheries Geography** - inactive course.

**3340 Techniques of Regional Analysis** - inactive course.

**3350 Community and Regional Planning and Development** introduces students to regional planning and development theories, techniques and approaches. Understanding of networks of development actors at community and regional scales, methods of delineating regions, links between theory and practice in planning and development. Focus on Canadian experiences and a sustainable development perspective.

Prerequisite: GEOG 2302 or permission of the instructor.

**3405 Canada** is a study of the regional geography of Canada, with emphasis on social, economic and political characteristics. The course is a core course in the Canadian Studies Major program. This course is complementary to GEOG 2105; students are encouraged to take both.

Prerequisites: GEOG 2001, 2102 and 2302; or 6 credit hours in courses for the Major in Canadian Studies; or permission of the instructor and the Head of the Department.

Note: *Credit may not be obtained for both GEOG 3405 and the former GEOG 2400.*

**3425 Geographical Analysis of Resources** is the geographic study of contemporary North American issues in resources and their management. Emphasis will be placed on air and water quality issues, lands and forest resources, energy resources, and coastal zone resources. A number of substantive areas in resource analysis will be considered, including resource appraisal, landscape evaluation, and environmental impact assessment. Prerequisite: GEOG 2425 or equivalent.

Note: *Credit may not be obtained for both GEOG 3425 and the former 4400.*

**3510 Geography of the Seas** is an introductory course in marine science and management treating the world's oceans as a geographic unit. The course covers basic physical, geological and biological marine science and applications of basic science to management issues facing the oceans today.

Prerequisites: GEOG 2102, 2425 or permission of instructor.

**3610 Cultural Landscape** is an investigation of a principal subject of study in cultural geography; the human imprint on the land. The course will include a detailed consideration of the origin of landscape studies in geography; newer approaches emphasizing visual and representational aspects of landscapes; and several diverse case studies, historical and contemporary, concerned with struggles over their definition.

Prerequisite: GEOG 2001.

**3620 Migration and Colonization** is a study of population movements associated with colonization and frontier development.

Prerequisite: GEOG 2001.

**3701 Urban Geography** is an examination of the evolution, structure and dynamics of cities and urban systems.

Prerequisite: GEOG 2302.

**3710-3729 Special Topics in Geography (available only as part of the Harlow Campus Semester)** will have topics to be studied announced by the Department.

**3800 Political Geography** is a geographic study of political ideas and processes. The course will consist of a historical discussion of the origins and trajectory of geopolitics, from the beginning of the 20th century to contemporary uses. Key themes in political geography, including strategy and statecraft, decolonization and nationalism, global technologies, and environmental security will be discussed.

Prerequisite: GEOG 2001.

**3900-3909 Special Topics in Geography** will have topics to be studied announced by the Department.

Prerequisite: Permission of the instructor and the Head of the Department.

**3990-3999 Special Topics in Geography** will have topics to be studied announced by the Department.

Prerequisite: Permission of the instructor and the Head of the Department.

**4010 Cultural Geography** is concepts and methods in the study of cultural geography.

Prerequisites: GEOG 2001 and at least one of 2290, 3000, 3010, 3610, 3620, 3800.

**4015 Cultural Resource Management** (same as Archaeology 4015 and Folklore 4015) is a study of cultural resource management: the definition and recognition of cultural resources, the application of policy in managing cultural resources, and the identification and consideration of contemporary issues in cultural resource management.

Three hours of lecture and three hours of seminar per week.

**4120 Applied Climatology** - inactive course.

**4141 Glacial Environments** is an examination of the landforms, processes and sediments of past and present glacial environments. Course work will stress broad applications to environmental science.

Three hours of lecture and three hours of laboratory/field work per week.

Prerequisite: Six credit hours in physical geography courses at the 3000-level; or permission of Head of Department.

Note: *Credit may not be obtained for both GEOG 4141 and the former Earth Sciences 4701.*

**4150 Environmental Change and Quaternary Geography** (same as Archaeology 4150) covers methods of reconstructing Quaternary environments; effects of Quaternary environmental change on landforms, with special reference to North America; development and characteristics of glacial and non-glacial climates.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: Six credit hours in physical geography or in archaeology courses at the 3000-level; or permission of Head of Department.

**4190 Coastal Geomorphology** is an advanced course in geomorphology of coastal regions in all climate zones. Covers reflective and dissipative beaches, barrier systems, coastal sand dunes, deltas, tidal flats, estuaries, reefs, bedrock and karst shorelines, ice-dominated shorelines, and influence of climate change and sea level change on coastal environments.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 3150 or permission of instructor.

Note: *Credit may not be obtained for both GEOG 4190 and the former GEOG 4180.*

**4202 Advanced Cartography** will provide students with advanced knowledge in computer-based cartography required to produce final geographic datasets and maps. Laboratory exercises will utilize Geographic Information Systems software.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 3202 or permission of instructor.

**4220 Advanced Quantitative Methods** - inactive course.

**4250 Environmental Image Analysis** is remote sensing techniques applied to various environmental problems. Techniques include selection of the system for data acquisition (airborne or satellite imagery), planning of a ground truth survey, and of data processing. Applications to high and low density urban areas, agricultural, forestry, coastal zone, oceanic, and environmental monitoring.

Three hours of lecture and three hours of laboratory per week.

Prerequisite: GEOG 3250.

**4261 Advanced Methods in Geographic Information Systems (GIS)** explores the nature and use of advanced GIS algorithms, discrete and continuous data structures, computational methods and analysis of error for the purpose of analysing and modelling spatial patterns and processes. Laboratory exercises permit students to use GIS software to explore as well as develop problem solving and modelling skills for a wide variety of real world applications.

Three hours of lecture and three hours of laboratory per week.

Prerequisites: GEOG 3260; Mathematics 2050; Computer Science 1710; (or equivalent, with permission of instructor and the Head of Department).

**4290 Geographic Information Sciences Practicum** is practical experience with the geographic information sciences fields of cartography, remote sensing or geographical information systems. Students will serve as interns in governmental, institutional or private agencies, or in non-profit organizations.

Six hours per week or a total of 72 hours of research or laboratory work.

Prerequisites/Co-requisites: GEOG 4202, 4250, 4261, and to be enrolled in the Diploma in Geographic Information Sciences.

**4300 World Fisheries: Current Discourse and Future Directions** is a seminar course on the key concepts, principles and challenges in fisheries resources worldwide. Topics of discussion include the state of world fisheries, analysis of various management approaches and tools, and future scenarios for world fisheries.

Prerequisite: Six credit hours in Geography at the 3000-level or permission of Head of Department.

**4320 Regional Development Seminar** is focussed on understanding the region and regional development in theoretical terms and in a policy context. The central question of the course is: how do we understand the region and regional development in a globalizing world? What are the policy options for people interested in making regional development work in a global economy? The case studies will cover both the developing and the developed world.

Prerequisite: GEOG 2302 or permission of Head of Department.

**4405 Outdoor Recreational Resources and Planning** is an introduction to the major themes and techniques in the study of outdoor recreation. A theoretical framework will provide a base for the evaluation of the complex issues involved in managing a physical resource for recreational purposes. North American examples will be emphasized.

Three hours of lecture and three hours of laboratory per week.

Prerequisite: GEOG 2425 or 3325.

Note: *Credit may not be obtained for both GEOG 4405 and GEOG 4909.*

**4410 Research Seminar in Resources** offers the opportunity to undertake advanced work in a number of resource sectors such as energy, fisheries, forests, lands, air and water. The emphasis will be on learning through experience. Students will be expected to initiate and complete suitable research projects in close consultation with faculty involved.

Prerequisites: GEOG 2425 or 3325.

**4600 Historical Geography** is a study of concepts and methods in historical geography. The field concerned with geographies of the past and their relation to the present. Themes will include the history of geography as a discipline, particularly its relevance to imperialism and state power; changing relationships between humans and the natural environment; and histories of the spaces of social life and human identity.

Prerequisites: GEOG 2001 and at least one of 2290, 3000, 3010, 3610, 3620, 3800.

**4640 Historical Geography of Canada** (formerly GEOG 3240) explains the geographical dimensions of Canada, past and present, in terms of spatial origins and processes of geographical change in the population, economy and landscape of the country. Themes will include: changing perceptions of the environment; the historical demography of immigration and initial settlement; the reconstruction of past regional geographies; the sequent occupance of particular regions; the human alteration of the natural landscape.

Prerequisites: GEOG 2001 and at least one of 2290, 3000, 3010, 3610, 3620, 3800; or 12 credit hours in core courses for the Major in Canadian Studies.

Note: *Credit may not be obtained for both GEOG 4640 and the former GEOG 3240.*

**4650 Conservation in Biology and Geography** (same as Biology 4650) is an examination of how biological and geographical principles can be applied

to conserving biological diversity in the natural world under conditions of exploitation and habitat loss. Special emphasis will be given to relevant provincial examples.

Three hours of lecture per week and 3 hours of seminar/discussion group per week.

Prerequisites: 30 credit hours in either Biology or Geography and permission of the course co-ordinator.

Note: *Credit may not be obtained for both GEOG 4650 and Biology 4650.*

**4700 Seminar in Advanced Urban Geography** will provide senior students with the opportunity to immerse themselves in the analysis of a small number of problems related to contemporary urban structure and growth.

Prerequisite: GEOG 3701.

**4900-4918 Special Topics in Geography** will have topics to be offered announced by the Department of Geography.

Prerequisite: Permission of the instructor and the Head of the Department of Geography.

**4919 Integrative Practicum in Geographic Information Sciences** is an

applied or research project integrating aspects of cartography, geographical information systems and remote sensing. Students will have access to the GISciences Research Laboratory to complete their project. This is the capstone course for the students registered in the Geographic Information Sciences diploma program. It will involve the knowledge and experiences acquired over the years in the program.

Six hours per week or a total of 72 hours of individual research or laboratory work.

Prerequisites/Co-requisites: GEOG 4202, 4250, 4261, and to be enrolled in the Diploma in Geographic Information Sciences.

**4990 Nature of Geography** is an examination of the major philosophical issues in the nature of geography and recent changes in geographical method. Particular emphasis will be placed on the implications of the quantitative, systems, behavioural and ecological approaches in geography, the use of models, the place of theory and the study of process in geography. This course is primarily intended for Honours students.

**4999 Dissertation Honours Degree** is required of the Honours degree.

## 8.18 German and Russian Language and Literature

### 8.18.1 German

#### 8.18.1.1 General Degree

All candidates who did not matriculate in German will begin their study with Elementary German 1 (1000) or equivalent.

#### 8.18.1.2 German Language and Literature Major Program

Candidates majoring in German must comply with the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)** and arrange their program in consultation with the Head of the Department. Students majoring in German may choose from three streams: literature, cultural studies, or business and commerce streams. The choice of stream will determine the courses required for a major. It is highly desirable that, during their course of study, all students majoring in German spend at least one semester of study in a German-speaking country.

#### Major Streams

##### 1. Literature Stream

Candidates majoring in German (Literature stream) will normally be required to complete a minimum of 36 credit hours in German including at least 24 credit hours in the following courses or their equivalents: German 1000, 1001, 2010, 2011, 3010, 3011, 3900 and 3901. Exceptional students may be extended an invitation to participate in a graduate level seminar.

**Suggested Course Pattern for the Major in German (Literature Stream) Table**

First-Year	Second-Year	Third-Year	Fourth-Year
German 1000 German 1001	German 2010 German 2011 Recommended: German 3912, 3913, or other electives	German 3010 German 3011 German 3900 German 3901 Recommended: two 3 credit hour electives	

##### 2. Cultural Studies Stream

Candidates majoring in German (Cultural Studies stream) will normally be required to complete a minimum of 36 credit hours in German, including at least 24 credit hours in the following courses or their equivalents: German 1000, 1001, 2010, 2011, 2900, 2901, 3010, and 3011. Exceptional students may be extended an invitation to participate in a graduate level seminar.

**Suggested Course Pattern for the Major in German (Cultural Studies Stream) Table**

First-Year	Second-Year	Third-Year	Fourth-Year
German 1000 German 1001	German 2010 German 2011 German 2900 German 2901	German 3010 German 3011 Recommended: four 3 credit hour electives	

##### 3. Business and Commerce Stream

Candidates majoring in German (Business and Commerce stream) will normally be required to complete a minimum of 36 credit hours in German, including at least 24 credit hours in the following courses or their equivalents: German 1002, 1003, 2010, 2011, 2012, 3010, 3011, and 3902. The candidate will be required to complete a period of work of not less than four weeks with a company in a German-speaking country, or with approval of the Department Head, a company that can provide the student with an environment that requires substantial work to be done in German.

**Suggested Course Pattern for the Major in German (Business and Commerce Stream) Table**

First-Year	Second-Year	Third-Year	Fourth-Year
German 1002 German 1003	German 2010 German 2011 German 2012 one 3 credit hour elective	German 3010 German 3011 German 3902 four 3 credit hour electives	

#### 8.18.1.3 German Language and Literature Minor Program

A Minor in German will consist of a minimum of 24 credit hours. Students must obtain credit for: German 1000, 1001 (or their

equivalents), 2010, 2011.

### 8.18.1.4 German Studies Minor Program

A Minor in German Studies is offered as a special program of an interdisciplinary nature, consisting of a minimum of 24 credit hours in courses as follows:

1. Eighteen credit hours in German, including: 1000; 1001 (or their equivalents); 2010 and 2011; 2900; 2901;
2. Six credit hours taken in either additional courses in German and/or from cognate courses offered by other departments, such as History 3370, 3380, Philosophy 3850, 3851, 3860, to be chosen through prior consultation with the Head of the Department.

Note: *German 2030, 2031, 2900, 2901, 2910, 3000, 3001, 3002, 3003, 3005, 3902, 3911, 3912, 3913, 3914, 3915 and the Special Topics courses in German Studies may not be used as part of the Faculty of Arts requirements for 6 credit hours in a second language.*

### 8.18.1.5 Honours Degree

Candidates wishing to take an Honours degree in German must arrange their program in consultation with the Head of the Department. They will be required to comply with the University regulations for Honours degrees, to take a minimum of 60 credit hours in German with at least a 'B' standing, and to write a comprehensive examination or present a Honours Essay in their final year. Courses in German must include the following required 27 credit hours: German 1000, 1001 (or their equivalent), 2010, 2011, 3010, 3011, 4010, 4011, and 4998 or 4999. Candidates reading German in a Joint Honours degree program will take a minimum of 42 credit hours in German, which must include the following 24 credit hours in courses German 1000, 1001 (or their equivalents), 2010, 2011, 3010, 3011, 3900, 3901 with at least a 'B' standing. .

**Suggested Course Pattern for the Honours Program Table**

First-Year	Second-Year	Third-Year	Fourth-Year
German 1000 German 1001	German 2010 German 2011 German 2900 German 2901 Recommended: two 3 credit hour electives at the 2000 level or higher	German 3010 German 3011 German 3900 German 3901 Recommended: two 3 credit hour electives at the 3000 level or higher	German 4010 German 4011 German 4998 or 4999 two 4000 level literature courses taught in German one 3 credit hour elective

### 8.18.1.6 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department. The Department offers several courses in Germany during the Spring/Summer semester.

See the Departmental web page at [www.mun.ca/german](http://www.mun.ca/german) for details on the German Field School.

German courses are designated by GERM.

**1000 Elementary German I (F) & (W)** is a course intended to give beginners a basic knowledge of the spoken and written language and culture of the German-speaking countries. Credit will not be given for both GERM 1000 and 1002.

**1001 Elementary German II (F) & (W)** is a continuation of Elementary German I with the same basic text. Credit will not be given for both GERM 1001 and 1003.  
Prerequisite: GERM 1000.

**1002 Elementary Business German I** is a course intended to give beginners a basic knowledge of spoken and written German with an emphasis on developing skills pertinent to business and commerce. Credit will not be given for both GERM 1000 and 1002.

**1003 Elementary Business German II** is a continuation of Elementary Business German I with the same basic text. Credit will not be given for both GERM 1001 and 1003.  
Prerequisite: GERM 1002.

**2010 Intermediate German I** is a completion of the fundamentals of the German language, with a continued strong cultural component.  
Prerequisite: GERM 1000 and 1001 or equivalent.

**2011 Intermediate German II (W)** is a grammar review and introduction to literature.  
Prerequisite: GERM 2010 or consent of the Head of the Department.

**2012 German Reading and Aural Comprehension for Business and Commerce** focuses on active reading and listening skills needed in a business and commerce setting. Students will learn how to collect information and discern critical content in various communications media.  
Prerequisite: GERM 1003 or consent of the Head of the Department.

**2030 Reading German I (F)** - inactive course.

**2031 Reading German II (W)** - inactive course.

**2510 Intermediate Composition and Conversation I (W)** - inactive course.

**2511 Intermediate Composition and Conversation II (S)** is a continuation

of Intermediate Composition and Conversation I. This course includes a 4-week field school in Germany in August, which lengthens the time frame for the course by approximately two weeks.

Prerequisite: GERM 1001 and consent of the Head of the Department.

**2900 Introduction to German Culture I (F)** is a study of the major cultural trends and movements of German-speaking Europe to the beginnings of the modern age. Lectures are given in English. This course qualifies as a research/writing course.

**2901 Introduction to German Culture II (W)** is a study of the major cultural trends and movements of German-speaking Europe in the modern age. Lectures are given in English. This course qualifies as a research/writing course.

**2910 Myths of the North** is a study of the major myths of the Celtic and Germanic peoples as embodied in the literary and artistic remains of the early history of Northern Europe, and of the influence of these myths on later art and literature. Lectures and readings in English.

**3000 German Film I** is a survey of German film from the beginnings to 1945.

**3001 German Film II** is a survey of West German film from 1945 to 1990.

**3002 Post-Wall Cinema (W)** is a study of German cinema from 1990 to the present. It addresses a number of issues that are clearly identified with a post-Wall, unified Germany, such as German unification itself, the new German comedy of the 1990's, the transnationalization of German cinema, the treatment of the Nazi and the Communist past, the rediscovery of the social as a narrative focus, and on the evolving cinematographic directions taken by contemporary German film. The movies are subtitled and lectures and readings are in English.

**3003 DEFA The Cinema of East Germany** is an examination of East German cinema through its feature films addressing issues in the context of Germany's divided status and its split screen from 1946 to 1990.

**3004-3009 (Excluding 3005) Special Topics in German Studies I** will have topics to be studied announced by the Department.

**3005 West to East: Aspects of the German Intellectual Influence on Russia** (same as Russian 3005 and History 3005) examines the fluidity of ideas across geo-political borders, languages and cultures, by exploring how the German intellectual discourse was received and reinterpreted by Russians in their literary, artistic and cultural dialogue. Ideas about the Romantic Hero become conflated with theories involving the Will, the Nietzschean Superman and the Proletarian Revolutionary, personified and embodied in what some scholars characterize as political/cultural Gods (Lenin, Stalin, Hitler).

**3010 Advanced German I (F)** aims at a high level of accomplishment in German pronunciation, composition and translation through practice in the spoken language, written exercises and the reading of more advanced literary material.

Prerequisite: GERM 3010 or consent of the Head of the Department.

**3011 Advanced German II (W)** is a continuation of Advanced German I. Prerequisite: GERM 3010 or consent of the Head of the Department.

**3510 Advanced Composition and Culture (S)** aims to increase accuracy and fluency in written and spoken German with emphasis on culture. This course includes a 4-week field school in Germany in August, which lengthens the time frame for the course by approximately two weeks. Prerequisite: GERM 1001 and consent of the Head of the Department.

**3511 Advanced Composition and Conversation (S)** aims to increase accuracy and fluency in written and spoken German with emphasis on grammar review. This course includes a 4-week field school in Germany in August, which lengthens the time frame for the course by approximately two weeks. Prerequisite: GERM 1001 and consent of the Head of the Department.

**3900 Survey of German Literature I (F)** is a study of the chief periods of German literature based on works of representative authors. A general survey from the earliest works to 1805. Prerequisite: GERM 2011 or the consent of the Head of Department.

**3901 Survey of German Literature II (W)** is a study of the chief periods of German literature based on works of representative authors. A general survey from 1805 to the present. Prerequisite: GERM 2011 or the consent of the Head of Department.

**3902 Business Culture in the German-Speaking World** familiarizes students for a work-term or internship in a German speaking environment. It covers business practices and culture in addition to business etiquette and protocols. Prerequisite: GERM 2012 or the consent of the Head of Department.

**3911 Faust and the Magus Tradition** is a study of the legend of Faust's pact with the devil from the Middle Ages to the present in art, music and literature, and its influence on various cultures in both Europe and America. Lectures and readings in English.

**3912 Modern German Literature in Translation I (Pre-1945) (F)** is a study of the works of some major modern German authors. Lectures and readings in English.

**3913 Modern German Literature in Translation II (Post-1945) (W)** is a study of the works of some major modern German authors. Lectures and readings in English.

**3914 German Women Writers in English Translation** studies representative works by prominent German, Austrian, and Swiss women writers from the 19th-century to the present day, their place in German literary history, and the impact of their individual voices. Prerequisite: Women's Studies 2000 (or permission of the Department Head).

**3915 National Socialist Ideology and Culture** examines German culture within the context of National Socialist era. Special attention will be focussed on how language, art and literature were used in National Socialist propaganda.

**4000 German Literature of the Eighteenth Century I (F)** is a study of the historical and cultural background of the eighteenth century, of Enlightenment and Storm and Stress. Reading and discussion of representative works with emphasis on Lessing, Goethe and Schiller. Taught in German. Prerequisite: GERM 3011 or the consent of the Head of Department.

**4001 German Literature of the Eighteenth Century II (W)** is a study of the

historical and cultural background of the eighteenth century, of Storm and Stress and Classicism. Reading and discussion of representative works with emphasis on Goethe and Schiller. Taught in German.

Prerequisite: GERM 3011 or the consent of the Head of Department.

**4010 Advanced Stylistics I (F)** is specialized study of the more complex areas of German grammar, style, and idiomatic usage, involving intensive practice in composition and oral expression, and focussed on detailed work with contemporary cultural materials such as newspapers, television, and film. This course is taught in German.

Prerequisite: GERM 3011 or the consent of the Head of Department.

**4011 Advanced Stylistics II (W)** is a continuation of Advanced Stylistics I. This course is taught in German.

Prerequisite: GERM 4010 or consent of the Head of the Department.

**4100 German Literature of the 19th Century I (F)** is a study of the leading exponents of nineteenth-century literature, including the background of Romanticism and the young Germany movement. Taught in German.

Prerequisite: GERM 3011 or the consent of the Head of Department.

**4101 German Literature of the 19th Century II (W)** is a study of the leading exponents of nineteenth-century literature, including the background of Poetic Realism and Naturalism. Taught in German.

Prerequisite: GERM 3011 or the consent of the Head of Department.

**4200 German Literature of the Twentieth Century I (F)** traces the important literary movements up to 1945, using a number of representative authors. Reading of selected dramas, novels, poems and short stories. This course is taught in German.

Prerequisite: GERM 3011 or the consent of the Head of Department.

**4201 German Literature of the Twentieth Century II (W)** traces the important post 1945 literary movements, using a number of representative authors. Reading of selected dramas, novels, poems and short stories. This course is taught in German.

Prerequisite: GERM 3011 or the consent of the Head of Department.

**4300 Middle High German Language and Literature I (F)** is an introduction to the German language, literature and culture of the eleventh to fifteenth centuries: historical linguistics, Middle High German grammar and the court epic.

Prerequisite: One of German 2011, 2511, 3011 or the consent of the Head of Department.

**4301 Middle High German Language and Literature II (W)** - inactive course.

**4400 Early Modern German Literature I (F)** is reading, interpretation and critical analysis of representative works of German literature written in the Age of Reformation and the early Baroque period.

Prerequisite: One of German 2011, 2511, 3011 or the consent of the Head of Department.

**4401 Early Modern German Literature II (W)** - inactive course.

**4802-4825 Special Topics in German Studies II** will have topics to be studied announced by the Department.

**4998 Comprehensive Examination for Honours Students** is the comprehensive examination required for honours students.

**4999 Honours Essay for Honours Students** is required as part of the Honours program.

## 8.18.2 Russian

Information regarding the Russian Studies program can also be found online at [www.mun.ca/german/russian/course\\_descriptions.php](http://www.mun.ca/german/russian/course_descriptions.php).

Russian 1000 and 1001 are prerequisites for all other Russian courses except Russian 2030, 2031, 2600, 2601, 2900, 2901, 3005, 3023 and 3910.

Russian 2600, 2601, 2900, 2901, 3023, 3005, 3023 and 3910 may not be used as part of the Faculty of Arts requirement of 6 credit hours in a second language.

### 8.18.2.1 Russian Language and Literature Major Program

A Major in Russian consists of a minimum of 36 credit hours in Russian including Russian 2600, 2601, 2900, 2901 and 3010, as well as 6 credit hours in courses at the 4000 level.

### 8.18.2.2 Russian Language and Literature Minor Program

A Minor in Russian consists of a minimum of 24 credit hours in Russian including 12 credit hours in the following: Russian 1000, 1001, 2010, and 2011.

Students should note that credit for courses 2600 and 2601 will not normally count towards a Minor in Russian Language and Literature.

### 8.18.2.3 Russian Studies Minor

A Minor in Russian Studies is offered as a special program of an interdisciplinary nature, consisting of a minimum of 24 credit hours, namely 12 credit hours in Russian and 12 in at least two disciplines, to be chosen in consultation with the Head of Department of German and Russian from the following course offerings:

1. History 3350, History 3360, Philosophy 3890, Political Science 3020, the former Political Science 3320, Sociology 3710
2. and other such courses as may be added to the list from time to time by the Faculty of Arts Committee on Undergraduate Studies.

### 8.18.2.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department. The Department offers several courses in Russian during the Spring/Summer Semester. See the Departmental web page at [www.mun.ca/german/russian/course\\_descriptions.php](http://www.mun.ca/german/russian/course_descriptions.php) for details on the Russian Summer Program.

Russian courses are designated by RUSS.

**1000 Elementary Russian I (F)** is a course intended to give beginners the fundamentals of Russian grammar and a basic knowledge of the spoken and written language.

**1001 Elementary Russian II (W)** is a continuation of Elementary Russian I with the same basic text and a reader.  
Prerequisite: RUSS 1000 or equivalent.

**2010 Intermediate Russian I (F)** continues the linguistic study begun in the first year and to introduce students to Russian texts from literature or newspapers.  
Prerequisites: RUSS 1000 and 1001 or equivalent.

**2011 Intermediate Russian II (W)** is a continuation of Intermediate Russian I.  
Prerequisites: RUSS 1000 and 1001 or equivalent.

**2030 Russian for Reading I (F)** - inactive course.

**2031 Russian for Reading II (W)** - inactive course.

**2510 Intermediate Composition and Conversation I (F)** increases fluency in speaking and writing Russian.

**2511 Intermediate Composition and Conversation II (W)** is a continuation of RUSS 2510.

**2600 Russian Literature in Translation: Nineteenth Century** is a study of selected works of Russian authors including Pushkin, Lermontov, Gogol, Turgenev, Tolstoy, Dostoyevsky, Chekhov. This course qualifies as a Research/Writing course.

**2601 Russian Literature in Translation: Twentieth Century** is a study of selected works of Russian authors of the pre-revolutionary, Soviet and post-Soviet periods. This course qualifies as a Research/Writing course.

**2900 Russian Culture I** is a study of the evolution of Russian culture and Russian intellectual history until 1917. Lectures regularly supplemented by examples of Russian art, music and film. No prerequisite. Lectures are given in English. This course qualifies as a Research/Writing course.

**2901 Russian Culture II** is a study of the evolution of culture in the USSR and during the post-Soviet period. Insights into the social and political character of pre- and post-revolutionary Russia. Lectures regularly supplemented by examples of Russian art, music and film. No prerequisite. Lectures are given in English. This course qualifies as a Research/Writing course.

## 8.19 History

### 8.19.1 General Degree

1. See the Regulations for the General Degree of Bachelor of Arts.
2. Any one of History 1009-1015 or the sequence History 1100\* and 1101\* form the introductions to the theory and practice of history. Third and fourth-year students taking History courses as electives or to satisfy General Regulations for the B.A. Degree are encouraged to enrol in the department's second-year courses. Students cannot receive credit for more than two first-year courses.
3. All students who Major in History will be assisted by a faculty advisor who will help them in planning their academic programs. It is essential that students register with the Department at an early stage of their studies.

#### 4. Major in History

Students who undertake a Major in History must complete 36 credit hours in History, including:

- a. Three credit hours in a course beginning with the initial digit '1'. All first-year courses in History are research/writing courses.
- b. At least 12 credit hours in courses with the initial digit '2' including 3 credit hours in one of History 2200, 2210 or 2400.
- c. Students should complete at least 9 credit hours in courses with the initial digit '2' before registering in a course with the initial digit '3'. Student should pay particular attention to necessary prerequisites when scheduling courses. In addition, students should obtain advice on the appropriate courses from their faculty advisor.
- d. At least 9 credit hours in courses with the initial digit '3'. Students must complete History 3840 for which there is a prerequisite of 12 credit hours in History.
- e. Students should complete at least 3 credit hours in courses with the initial digit '3' before registering in a course with the initial digit '4'.
- f. At least 6 credit hours in courses with the initial digit '4'.
- g. Six additional credit hours in courses with an initial digit beyond '1'.
- h. The following courses may not be used to meet the requirements for a Major in History without the prior written approval of the

**3000-3009 (Excluding 3005) Special Topics in Russian Studies** will have topics to be studied announced by the Department.

**3005 West to East: Aspects of the German Intellectual Influence on Russia** (same as German 3005 and History 3005) examines the fluidity of ideas across geo-political borders, languages and cultures, by exploring how the German intellectual discourse was received and reinterpreted by Russians in their literary, artistic and cultural dialogue. Ideas about the Romantic Hero become conflated with theories involving the Will, the Nietzschean Superman and the Proletarian Revolutionary, personified and embodied in what some scholars characterize as political/cultural Gods (Lenin, Stalin, Hitler).

**3010 Advanced Russian I (F)** is an advanced study of literary texts and grammar, composition and translation with practice in the spoken language.  
Prerequisites: RUSS 2010 and 2011.

**3011 Advanced Russian II (W)** is a continuation of Advanced Russian I with the reading and discussion of selected texts from Russian short stories, magazines and newspapers.  
Prerequisites: RUSS 2010 and 2011.

**3023 Post-Soviet Russia: Media and Film** examines visual media with attention paid to the embedded cultural discourse that can only be understood with references to Russian history, language, and cultural identity. Liberated from communist ideology following the collapse of the Soviet Union, Russian film-makers refused to construct a bright future. Instead they portrayed the reality surrounding them for the first time without ideological constraints. These explorations, in turn, will raise certain questions about visual media in post-Soviet society.

**3900 Survey of Russian Literature I (F)** - inactive course.

**3901 Survey of Russian Literature II (W)** - inactive course.

**3910 The Post-Soviet Era** - inactive course.

**4001-4010 Special Topics in Russian** will have topics to be studied announced by the Department.

**4100 Russian Literature of the Nineteenth Century I** is a study of major Russian authors, including Pushkin, Lermontov, and Gogol.  
Prerequisite: One of RUSS 2011, 2511, 3011, or permission of the Head of the Department.

**4101 Russian Literature of the Nineteenth Century II** - inactive course.

**4200 Russian Literature of the Twentieth Century I** - inactive course.

**4201 Russian Literature of the Twentieth Century II** is a study of major Russian authors of the Soviet period including Sholokhov, Pasternak, Evtushenko, and Solzhenitsyn.  
Prerequisite: One of RUSS 2011, 2511, 3011, or permission of the Head of the Department.

**4800 Special Topics in Russian Studies I** will have topics to be studied announced by the Department.

**4801 Special Topics in Russian Studies II** will have topics to be studied announced by the Department.

Head: History 4480, 4800, 4821, 4822, and 4999.

- i. No more than 15 transfer credit hours in History may be used to fulfil the requirements for a Major in History.
- j. Some fourth-year courses may require completion of courses in the same topic/subject area. Such prerequisites are at the discretion of the instructor.

#### 5. Minor in History

Students who undertake a Minor in History must complete 24 credit hours in History, including:

- a. Three credit hours in a course beginning with the initial digit '1'. All first-year courses in History are research/writing courses.
- b. At least 9 credit hours in courses with the initial digit '2'.
- c. Students should complete at least 6 credit hours in courses with the initial digit '2' before registering in a course with the initial digit '3'.
- d. At least 6 credit hours in courses with the initial digit '3'.
- e. At least 3 credit hours in courses with the initial digit '4'.
- f. No more than 9 transfer credit hours in History may be used to fulfil the requirements for a Minor in History.
- g. Three additional credit hours in courses with an initial digit beyond "1".
- h. Some fourth-year courses may require completion of courses in the same topic/subject area. Such prerequisites are at the discretion of the instructor.

#### 6. Specialization in Maritime History

The Department of History offers a specialization in Maritime History. Recommended courses include History 2100\*\*, History 2110, History 3680, History 3690, and 6 credit hours from History 4670-4690.

\* For descriptions of History 1100 and 1101, see the separate section under Sir Wilfred Grenfell College.

\*\* Sir Wilfred Grenfell College only.

### 8.19.2 Honours Degree

1. Students intending to take an Honours Degree with a Major in History must comply with the Regulations for the Honours Degree of Bachelor of Arts.
2. For consideration as entrants during the Fall semester, students must make application by 30 June; for the Winter semester, by 1 November. Applications received after 30 June will be considered for the Winter semester; applications received after 1 November will be considered for the next Fall semester. Students intending to complete an Honours degree in History will be assisted by a faculty advisor who will help them in planning their academic programs. The academic programs for Honours students must be approved by the Head or delegate.
3. Students are required to complete at least 60 credit hours in History, 45 chosen in accordance with the pattern set out in the Departmental General Degree Regulation No. 4 above. In addition, students must complete History 4800, 4821, 4822, and 4999. The minimum grades required are: (a) 70%, or an average of 75%, in the prescribed number of courses, and (b) 70% in History 4999.
4. Students electing Joint Honours are required to complete at least 51 credit hours in History, 39 chosen in accordance with the pattern set out in the Departmental General Degree Regulation No. 4 above. In addition, students must complete History 4800, 4821, and 4822, with grades prescribed in Honours Degree Regulation No. 3. If the candidate chooses to do the Honours Essay (4999) in History, it must be passed with a grade of 70% or better.
5. No more than 27 transfer credit hours may be included in the minimum 60 credit hours required for the Honours degree in History.

### 8.19.3 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

History courses are designated by HIST.

**1009 Issues in Ancient and Medieval History** will introduce students to the methodology of studying ancient and/or medieval history through a close examination of textual and material remains. The course will be taught around a particular theme and/or historical period each year. This course qualifies as a research and writing course.

**1010 The North Atlantic in the Age of Expansion, 1492-1776** is a thematic examination of European imperial expansion into the North Atlantic and the Americas, starting with the discoveries of Columbus and concluding with American Independence. This course qualifies as a research/writing course.

**1011 Europe and the Wider World, 1750-1914** is a thematic examination of the political, economic, social and cultural developments in Europe and the wider world from the French Revolution to World War I. This course qualifies as a research/writing course.

**1012 The World in the Twentieth Century** will examine some of the major themes in world history since 1914. This course qualifies as a research/writing course.

**1013 Issues in Canadian History** will examine the historical context for various contemporary problems being experienced by Canadians. This course qualifies as a research/writing course.

**1014 Issues in United States History** will examine several historical themes or problems in the history of the United States. This course qualifies as a research/writing course.

**1015 Ideas and Society in the West** introduces students to early modern western history (1500 - 1800) through the study of original texts. It will combine lectures on the historical background to the texts, discussion of them and analysis of their meanings in assigned essays. This course qualifies as a research/writing course.

**1070 A History of Canada's Native Peoples** - inactive course.

**2020 Introduction to Ancient History** (same as Classics 2025) is an introduction to the history of ancient city-states, kingdoms and empires, including economic, social, political and cultural developments.

**2031 Ancient Asian History** is a study of the history of ancient India, China, and Japan with emphasis on the way of life of the people, their customs, traditions, art and heritage.

**2035 History of Classical Greece** (same as Classics 2035) is a survey of Greek history from the Bronze Age to the death of Alexander the Great, with special reference to the social and political institutions of the fifth century B.C.

**2041 History of the Roman Republic** (same as Classics 2041) is a survey of Roman history from the early monarchy to the death of Julius Caesar, with special reference to the society and politics of the late Republican period.

Note: *Students may not receive credit for HIST 2041, Classics 2041, and the former HIST/Classics 2040.*

**2042 History of the Roman Empire** (same as Classics 2042) is a survey of Roman history from the death of Julius Caesar to the rise of Constantine, with special reference to the society and politics of the early Imperial period.

Note: *Students may not receive credit for HIST 2042, Classics 2042, and the former HIST/Classics 2040.*

**2050 Introduction to the Medieval Middle East** provides an introduction to the medieval Middle East (330-1453). Students will examine the Byzantine Empire, the Sasanian Empire, and the various Islamic Empires, as well as the minority groups living under these empires, including the Coptic, Armenian, and Syriac communities.

**2110 North Atlantic History Since 1820** is a survey of the relations among the regions of the North Atlantic since 1820. Emphasis will be placed on social and economic history.

**2130 Seafaring Places and Seafaring Peoples: An Introduction to Oceanic History 1650-1850** is a study of the places and people involved in maritime activities between Europe and Asia and in India, south-east Asia, China and Japan during the period of European expansion to the region.

**2200 Canadian History to Confederation, 1867** is a survey of Canadian History to Confederation, 1867.

**2210 Canada Since 1867** is a survey of Canadian history since Confederation.

**2300 Introduction to Modern European History, 1500-1789** is an introduction to the main issues and problems in early modern European history with an emphasis on the political, social, economic and cultural developments from the sixteenth to the eighteenth century.

**2310 Europe in the Nineteenth Century, 1789-1914** is a survey of the economic, social, political and cultural developments of Europe from 1789-1914.

**2320 Medieval Europe to 1050** (same as Medieval Studies 2001) is a survey of the economic, social, political and cultural developments of the early Middle Ages.

Note: *Credit may not be obtained for both HIST 2320 and the former HIST 2030.*

**2330 Medieval Europe, 1050 to the Reformation** (same as Medieval Studies 2002) is a survey of the economic, social, political and cultural developments of Europe in the high and late Middle Ages.

Note: *Credit may not be obtained for both HIST 2330 and the former HIST 2030.*

**2340 European Urban History** examines the development of urban networks and the growth of specific towns and cities in early modern and modern Europe. We will also study how these centres were perceived, and the roles of public spaces and public festivals. Much of this course is devoted to examining the conditions found in urban centres and the impact on local inhabitants. The course concludes with a study of nineteenth-century urban boosterism.

Prerequisite: At least 3 credit hours in history.

**2350 Europe in the Twentieth Century** (same as European Studies 2000, Political Science 2990, and the former Political Science 2350) examines social, economic, and political changes from 1918 to the present including the collapse of monarchies, the emergence of mass politics, fascism and totalitarianism, World War II, postwar reconstruction and the welfare state, European integration, and Europe in the postwar economic and political order. The course will examine Britain, France, Germany, and Italy, and particularly the European Union. Special attention will be paid to the demise of class politics and the impact of postwar affluence.

Note: *Credit may be obtained for more than one of HIST 2350, European Studies 2000, Political Science 2990, and the former Political Science 2350*

**2400 A History of Atlantic Canada Since 1500** is a history of the peoples and provinces of Atlantic Canada from the time of first European contact with First Nations.

Note: *Credit cannot be obtained for HIST 2400 and the former HIST 3100.*

**2500 The Twentieth Century I** is a study of the world-wide impact of the main events and developments in the age of global interdependence.

Note: *Credit may not be obtained for both HIST 2500 and the former HIST 3700.*

**2510 The Twentieth Century II** is an historical analysis of the main issues in the contemporary world since 1945.

Note: *Credit may not be obtained for both HIST 2510 and the former HIST 3710.*

**2582 Principles of Historical Archaeology** (same as Archaeology 2582) will introduce students to historical archaeology, with special reference to the North Atlantic, 1000 to 1900 AD. The archaeology of specific sites will be examined in order to raise issues about theory and method. Students will be introduced to palaeography; historic maps; documentary archaeology; the survey, excavation and analysis of complex sites; material culture and subsistence studies; cultural resource management and theoretical approaches including historical anthropology, ethnohistory, world systems and consumer studies.

Prerequisite: Archaeology 1030

Note: *Credit may not be obtained for more than one of History 2582, Archaeology 2582, the former History 3530, and the former Archaeology 3582*

**2600 History of the United States of America to 1865** is a survey of the history of the United States of America from the origins of the independence movement to the Civil War.

Note: *Credit cannot be obtained for HIST 2600 and the former HIST 3230.*

**2610 History of the United States of America Since 1865** is a survey of the history of the United States of America since the Civil War.

Note: *Credit cannot be obtained for HIST 2610 and the former HIST 3240.*

**2665 Sickness and Health in Western Society** examines changing

understandings of disease causation and how the human body functions, the evolution of formal medical education, and the rise of medical institutions. Examples of fine art, literature, and popular culture will be integrated into lectures and seminars to help provide a comprehensive overview of what it has been like to be ill and well over the last three millennia.

**2700 Art History Survey I** (same as Visual Arts 2700) is the history of art from prehistoric times to the Renaissance.

**2701 Art History Survey II** (same as Visual Arts 2701) is the history of art from the Renaissance to the twentieth century.

**2760 An Introduction to Women's Gendered History** provides an introduction to gender studies in history. This course examines women's experience in the Western past with a view to complexities sometimes missed. It takes the gendering of history as a means to explore the significance of historical understanding in the ways in which we come to know the world.

**3000 Medieval Books** (same as Medieval Studies 3000, English 3002, Religious Studies 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, books of hours, etc.) and their uses.

Prerequisites: Medieval Studies 2000, 2001 or 2002 or permission of the instructor.

**3005 West to East: Aspects of the German Intellectual Influence on Russia** - inactive course.

**3011-3019 Special Topics in Ancient and Medieval History** are specialized studies in Ancient and Medieval history. Topics to be studied will be announced in the History Department brochure.

Note: *Credit may not be obtained for both HIST 3003 and HIST 3016.*

**3020 Art, Architecture and Medieval Life** is an examination of the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. This course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the cloister - inactive course.

Note: *It is recommended, but not obligatory, that students should have successfully completed one of the following courses: the former Anthropology 2480, Folklore 1000 or 2000, HIST 2320, Medieval Studies 2001, History 2330, Medieval Studies 2002, or Medieval Studies 2000.*

**3030 Environmental History** examines the history of human relationships to the natural environment. The focus of the course is the history of environmental changes caused by humans, the reciprocal influence of the natural environment on human cultures and societies. Case Studies will introduce patterns of ecological change associated with broad historical transformations such as colonialism, military conflict, the development of world economies, etc.

**3050 History of Warfare to 1789** is a survey of major developments in the history of warfare from the earliest times to 1789 with particular emphasis on changes in the nature and conduct of warfare, the evolution of military thinking, the organization of military and naval forces, the impact of technological change, the emergence of professionalism and the relationship between societies and armed forces.

**3060 History of Modern Warfare Since 1789** is an examination of those major developments which have affected the nature and conduct of warfare in the period since 1789, with particular emphasis on the evolution of military thinking, the impact of technology on organization and planning, the role of air power, the civil-military relationship, professionalism in the armed forces, and the changing nature of warfare, the emergence of total war, global war, guerilla warfare, and limited warfare.

**3110 History of Newfoundland to 1815** studies the growth of settlement and the manner in which a 'migratory' fishery carried on from England and Ireland changed into a 'sedentary' fishery carried on by residents of Newfoundland.

**3120 Modern Newfoundland Since 1815** examines the establishment and development of political institutions, changes in economic structure and the growth of populations.

**3130 History of French Canada Since 1791** is a discussion of political, social, economic, cultural and religious developments from the Canada Act to the present.

**3140 Social History of the Canadian Worker to 1896** - inactive course.

**3150 Social History of the Canadian Worker Since 1896** - inactive course.

**3200 Women and the Law in Newfoundland History** (same as Law and Society 3200) examines how legal reforms addressed or challenged the values of the community. Students will investigate the various ways in which Newfoundland women interacted with the law and on occasion found themselves before a magistrate.

**3250 Migration History of North America** - inactive course.

**3270 Christianity and the Roman Empire** - inactive course.

**3330 France, 1750-1852** - inactive course.

**3340 France Since 1852** - inactive course.

**3350 Imperial Russia** - inactive course.

**3360 Revolutionary and Soviet Russia** studies Russian history from the 1917 Revolutions to the emergence of the USSR as a superpower.

**3370 German History I, to the Mid-Nineteenth Century** - inactive course.

**3380 German History II, Since the Mid-Nineteenth Century** examines the history of German-speaking central Europe with special reference to the evolution of modern Germany since the mid-nineteenth century.

**3440 History of the British Empire and Commonwealth Since 1815** examines the transition from British Empire to Commonwealth of Nations.

**3450 Tudor and Stuart Britain, 1485-1714** examines the emergence of Britain under the Tudors and early Stuart monarchs.

**3460 British History Since 1714** examines British history from the accession of the Hanoverians to the welfare state.

**3480 History of Ireland, 1603 to the Great Famine** is a survey of Irish history from Hugh O'Neill's submission to the English in 1603 to the mid-nineteenth century disaster of the Great Famine.

**3490 History of Ireland Since the Great Famine** is a survey of Irish history from the mid-nineteenth century to the present.

Note: *Credit may not be obtained for both HIST 3490 and the former HIST 3470.*

**3515 Prehistory of Mesoamerica** - inactive course.

**3520 The Early Ethnohistory of North America's Native Peoples** (same as Archaeology 3520) examines the North American native response to early European contact and initial settlement. Particular attention will be paid to cultural change resulting from the adoption of European goods, participation in the fur trade, the introduction of European disease, and the adaptation to a permanent European presence.

**3525 The Later Ethnohistory of North America's Native Peoples** (same as Archaeology 3525) examines Indian and Inuit cultural history of the eighteenth and nineteenth centuries, including the fur trade, resistance and accommodation to European expansion, the emergence of revitalization movements, demographic changes, and population shifts. Special emphasis will be placed on the ethnohistory of the native peoples of what is now Canada and northern United States.

**3535 Historical Anthropology** (same as Archaeology 3584 and Anthropology 3584) will explore selected issues in historical anthropology, with special reference to the Mediterranean and North Atlantic worlds. Students will read specific case studies in order to explore the theoretical issues raised by the attempt to understand historically-documented past cultures. In order to give practical examples of methodology classes will analyse primary source material. Students will be introduced to the textual analysis of myth and legal records, to the interpretation of images and to the analysis of patterns in material culture. The course will consider specific current interpretive issues, particularly the rise of individualism, the consumer revolution and the cultural construction of gender.

Note: *Credit may not be obtained for more than one of History 3535, Archaeology 3584, and Anthropology 3584.*

**3540 History of China** - inactive course.

**3545 History of Modern Japan** - inactive course.

**3550 History of India** - inactive course.

**3555 Methods and Materials in Historical Archaeology** (same as Archaeology 3555) is a combination lecture and laboratory course designed to acquaint students with the analysis of artifacts and other evidence from historical archaeological sites. It is ordinarily intended to follow Archaeology 3480, Field and Laboratory Techniques in Archaeology.

**3560 A History of Human Rights** - inactive course.

**3570 The Modern Middle East** is an examination of the peoples and states of the Middle East and their interaction with each other and with the great powers since the mid-nineteenth century.

**3580 South Africa Since 1815** - inactive course.

**3585 Tropical Africa Since 1800** - inactive course.

**3600 Industrial Revolutions of the Eighteenth and Nineteenth Centuries** - inactive course.

**3610 International Economic History of the Nineteenth and Twentieth Centuries** - inactive course.

**3620 Canadian Economic History to the End of the Nineteenth Century** - inactive course.

**3630 Canadian Economic History in the Twentieth Century** - inactive course.

**3650 Canadian Business History** - inactive course.

**3660 The Scientific Revolution** - inactive course.

**3665 History of Western Medicine** introduces students to the major topics and themes with which historians of medicine are currently engaged. These include the nature of doctor-patient relationships, perceptions of the body, professionalization, patterns of disease, and the development of European public health movements. The course traces the practice of medicine from ancient Greece to the present although the primary focus will be on the period from the eighteenth to the early twentieth century.  
Prerequisite: At least 3 credit hours in history at the 2000 level or above.

**3675 Navies and Societies Since 1650** is an examination of the rise of modern navies since 1650 that places navies and naval decisions within broader national and international political, economic and social contexts.  
Note: *Credit may not be obtained for both HIST 3675 and the former HIST 3822.*

**3680 North Atlantic Seafaring to 1850** - inactive course.

**3690 North Atlantic Seafaring from 1850** - inactive course.

**3700 Art History: The Italian Renaissance** - inactive course.

**3701 Art History: The Renaissance Outside Italy** (same as Visual Arts 3701) examines the Renaissance outside Italy from the late fourteenth century and the international style through the sixteenth century.

**3710-3729 Special Topics in British History** are available only as part of the Harlow Campus Semester.

**3740-3750 Studies in Modern Social and Intellectual History** are selected studies in the history of modern ideas and society. Aspects to be studied will be announced in the History Department brochure.

**3760 Women in Western Society and Culture I** - inactive course.

**3770 Women in Western Society and Culture II** are selected themes in the history of women in the modern period with a focus on cultural attitudes toward women, demographic trends affecting women, the impact of changing economic roles, and the development of feminism.

Note: *Credit may not be obtained for both HIST 3770 and the former HIST 3761.*

**3780 Women in Medieval Europe, 500-1500** - inactive course.

**3785 The European Family: The Age of Faith to the Welfare State** focuses on the family in Europe from the middle ages to the early twentieth century. Topics examined will include: family structure, kinship, demography, sexuality, gender relations, child-rearing, attitudes towards the elderly and care of them, and the place of the family in the larger community.

Prerequisites/Co-requisites: At least 3 credit hours in history at the 2nd-year level, or permission of the instructors.

**3790 Reel American History: United States History through its Films, 1895-1945** interprets narrative films as historical evidence to shed light on shifts in American culture and society during the first half of the twentieth century.

**3795 Reel American History: United States History through its Films since WWII** interprets narrative films as historical evidence to shed light on shifts in American culture and society during the second half of the twentieth century.

**3800-3830 (Excluding 3822) Contemporary Problems in Historical Perspective** is an analysis of developments leading to a contemporary issue or problem selected each year or semester. Aspects to be studied will be announced in the History Department brochure.

Note: *Credit may not be obtained for both HIST 3803 and HIST 3016.*

**3840 Historical Methods** is an introduction to the methods and practices of history in the modern era. This course is compulsory for Majors and Honours students, including those intending to apply for graduate studies.  
Prerequisite: Twelve credit hours in History.

Note: *Credit may not be obtained for both HIST 3840 and the former HIST 4801.*

**3860 Vernacular Architecture** (same as Folklore 3860 and the former Anthropology 3860) is a historical survey of vernacular architectural forms in various regions of North America, with attention to Newfoundland materials. Issues discussed include the relationship of house form and culture, the concepts of antecedents, diffusion, innovation, and evolution of building forms and technologies, and the siting of buildings in the landscape. Dwelling houses, outbuildings, churches and industrial vernacular architecture will be included.

Note: *Credit may not be obtained for more than one of History 3860, Folklore 3860, and the former Anthropology 3860.*

**3870 An Introduction to the History of Western Architecture Since the Renaissance** (same as Folklore 3870) introduces students to the history of architecture in the western world, beginning with the revival of classical forms in Renaissance Italy.

**3925 The Pre-Islamic Empires of Iran** introduces students to the history of Iran from the rise of the Achaemenid Empire, through the Parthian and Sasanian Empires, to the advent of the Islamic era. Through the use of primary source material, students will be introduced to the types of historical

sources available for Iran, the problems associated with this evidence, and the different ways that we construct ancient history.

**3930 Byzantine History to 1453** will introduce students to the history of Byzantine society from its beginnings under Constantine to the fall of Constantinople to the Turks in 1453. In addition to the chronological history, students will also encounter several characteristics of Byzantine society, including religion, urbanization, and interaction with the Persian Empire.

**3935 Islamic History to 1453** will introduce students to the history of Islamic society from its beginnings under Muhammad to the rise of the Ottomans and the fall of Constantinople in the fifteenth century. We will also discuss the non-Muslim communities which co-existed with the Muslim umma or community. Through the use of primary source material, students will be introduced to the types of historical sources available for Islamic history, as well as the problems associated with this evidence. There is no prerequisite for this course although History 2050 strongly recommended.

**3999 Quantitative Approach in Historical Writing** - inactive course.

**4000-4010 Special Topics in Ancient and Medieval History** are specialized studies in Ancient and Medieval history. Aspects to be studied will be announced in the History Department brochure.

**4100 History and Memory** (same as Folklore 4100) is a course which recognizes that memory is not one of the natural parts of ourselves, nor is remembering a way of connecting with a single reference point in a social reality outside ourselves. These things are socially determined. Starting here, this course is designed to have students reflect on what they know about the past and how they know about it. The class will examine how individual and social memory works, concentrating on particular historical contexts.

Note: *Credit may not be obtained for both HIST 4100 and the former HIST 4569.*

**4110-4130 Special Topics in North Atlantic History** are specialized studies in the history of the North Atlantic. Aspects to be studied will be announced in the History Department brochure.

**4210-4229 (Excluding 4214) Special Topics in North American History** are specialized studies in the history of North America. Aspects to be studied will be announced in the History Department brochure.

**4230 Special Topics in Newfoundland History I** are specialized studies in the history of Newfoundland to the mid-nineteenth century.

**4231 Special Topics in Newfoundland History II** are specialized studies in the history of Newfoundland since the mid-nineteenth century.

Note: *Credit may not be obtained for both HIST 4231 and the former Political Science 4731.*

**4232 Special Topics in Newfoundland History III** - inactive course.

**4240-4260 Special Topics in Canadian History** are specialized studies in Canadian history. Aspects to be studied will be announced in the History Department brochure.

**4310-4330 Special Topics in European History** are specialized studies in the history of Europe. Aspects to be studied will be announced in the History Department brochure.

**4360-4380 Special Topics in European History** are available only as part of the Harlow Campus semester.

**4410-4430 Historical Problems** are specialized studies in historical problems. Aspects to be studied will be announced in the History Department brochure.

**4480 Oral History** (same as Folklore 4480) is a seminar course which deals with the uses of oral sources, particularly those which have a traditional dimension, for the study of history. The uses of oral testimony in the study of

traditional modes of life and work in social and political history will also be discussed.

**4520-4529 Special Topics in Economic and Mercantile History** are specialized studies in Economic and Mercantile history. Aspects to be studied will be announced in the History Department brochure.

**4560-4570 (Excluding 4569) Special Topics in Social and Intellectual History** are specialized studies in Social and Intellectual history. Aspects to be studied will be announced in the History Department brochure.

**4670-4690 Special Topics in Maritime History** are specialized studies in Maritime history. Aspects to be studied will be announced in the History Department brochure.

**4695 The Middle Ages on Film** will look at a variety of films set in the Middle Ages. This course will address questions such as how directors approach historical subject matter generally and the Middle Ages in particular; what subjects they choose, and how and why these change. This is a course not about film criticism, but about medievalism. This three credit hour course will consist of viewing and discussion. It is recommended that students have completed one course in Medieval History or Medieval Studies.

**4730 Art History: Modern Art I Precursors to Modernism** (same as Visual Arts 4730) is an examination of the cultural, social, and political forces which, from 1750 to 1850, were to have a major impact on modernity and later modern art.

Prerequisites: Six credit hours in art history or permission of the chair of the Visual Arts Program.

**4731 Art History: Modern Art II Early Modernism** (same as Visual Arts 4731) is an examination of the various cultural and social forces between 1850 and 1914 which shaped the rise of the Modern movement.

Prerequisites: Six credit hours in art history or permission of the chair of the Visual Arts Program.

**4800 Historiography** is an introduction to the major historians and historiographical traditions of the West. This course is for Honours students and other selected students, including those intending to apply for graduate studies.

Prerequisite: Permission of the Head of Department

**4810 Documents Management** (same as Folklore 4810) is an introduction to the management of records and documents, both official and private.

**4821 Reading Course** is a directed reading course for Honours and selected students including those intending to apply for graduate studies. Readings will be taken from a list of works by historians, or social theorists whose works are related to history.

Prerequisite: Permission of the Head of Department.

**4822 Reading Course** is a directed reading course for Honours and selected students. The readings will be chosen in such a way as to supplement a student's knowledge of his/her area of specialization and, where appropriate, to prepare the student for the honours essay. If a student intends to complete HIST 4999, a proposal for the honours essay will be a requirement of the course.

Prerequisite: Permission of the Head of Department.

Note: *Credit may not be obtained for both HIST 4822 and the former HIST 4820.*

**4830-4850 Reading Courses** are directed reading courses for selected B.A. students. Students must receive approval of Department Head or delegate before registering for these courses.

**4999 Honours Essay** is required as part of the Honours program.

Prerequisite: HIST 4822.

## 8.20 Law and Society

Program Co-ordinator: Dr. K. Side

The programs listed below are interdisciplinary programs intended to encourage students to examine different facets of law and its role in society. They are neither pre-law programs nor ones offering a certificate or qualification in legal studies. They will acquaint and confront students with different aspects of the history, philosophical basis, and role of law in modern society. They include both courses which deal explicitly with law (e.g. Canadian Constitutional Law, International Law, History of Law, Criminal Justice), and courses in social and political theory and the role of law and its norms in diverse settings e.g., S/A 3240 Regional Studies: Contemporary Native Peoples of Canada). Law and Society 2000 and Law and Society 4000 are intended to integrate the material and provide a common focus at both the beginning and the end of the programs.

As is the case in any interdisciplinary program, it will be up to the students to ensure that they have the necessary prerequisites to complete the program. For purposes of entry into the courses offered by participating departments, heads will be asked to treat these students on the same basis as their own majors.

### Programs:

The interdisciplinary Major and Minor programs are offered to candidates for the Degree of Bachelor of Arts. These programs are offered in conjunction with a major or a minor in a single discipline. In order to be awarded a Bachelor of Arts with a Major or Minor in Law and Society, candidates must complete all the requirements of the Bachelor of Arts. Candidates should contact the Program Coordinator by June 1st if they intend to begin the program in the Fall semester and by October 1st if they intend to begin the program in the Winter semester to discuss the planning of their program.

Students majoring or minoring in Law and Society may use the courses they complete to meet the requirements of either their Law and

Society major or minor or their single-discipline major or minor but not both.

### 8.20.1 Major Program Regulations

Students who major in Law and Society must complete:

1. all the requirements of the Bachelor of Arts program;
2. a minimum of 36 credit hours in courses which shall include, in addition to Law and Society 2000 and Law and Society 4000, an additional 30 credit hours in at least 3 different disciplines and chosen from the **Table** below including:
  - a. 9 credits at the 1000 or 2000 level
  - b. 15 credits at the 3000 level
  - c. 6 credits at the 4000 level

Before registering for any Law and Society 4000 level course, students must complete 18 of the 36 credit hours required for the major including Law and Society 2000. In exceptional circumstances, the Co-ordinator may waive this prerequisite.

**Elective Courses Approved for Inclusion in the Law and Society Major and Minor Programs Table**

1000 and 2000 Level Courses	3000 Level Courses	4000 Level Courses

### 8.20.2 Minor Program Regulations

A Minor program in Law and Society will consist of a minimum of 24 credit hours as outlined below:

1. Law and Society 2000 and Law and Society 4000
2. 18 credit hours chosen from the **Elective Courses Approved for Inclusion in the Law and Society Major and Minor Programs Table**, with a maximum of 6 credit hours in courses from each participating department. At least 12 of the 18 credit hours must be completed in courses numbered 3000 or higher. The normal departmental prerequisites are applicable, but Department Heads may waive course prerequisites in cases where alternate preparation can be demonstrated.  
 Up to 6 credit hours in Special Topics courses in Law and Society may be used to fulfil the 6 of the 18 credit hour requirement of this clause.
3. Students majoring in one of the participating disciplines may not use courses counted toward their major to fulfil the Law and Society minor requirements; however, up to 6 additional credit hours from their major subject area, listed above, may be used to fulfil the requirements of the minor.

### 8.20.3 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Program Co-ordinator.

Law and Society courses are designated by LWSO.

**2000 Law and Society** is an introduction to law in Canadian society and the role which it has played in societies past and present.  
 Prerequisite: Completion of at least 18 university credit hours.

**3010-3019 (Excluding 3012, 3013, 3014, 3015 and 3016) Special Topics in Law and Society** will have topics to be studied announced by the Program Co-ordinator.

**3012 Aboriginal Peoples: Concepts of Land, the Law and the Constitution** traces the historical development of Aboriginal land and resource rights; colonial and Canadian law; and the Constitution of Canada as it relates to the Indian, Inuit and Metis people of Canada. The developing concept of Aboriginal law is presented within the context of the treaty

process, Indian Act, contemporary land claims, the Canadian Constitution, and federal/provincial relations.

Prerequisite: LWSO 2000

**3013 Resource Management and Collective Bargaining** deals with the challenges facing Newfoundland and Labrador in the realm of resource policy jurisdiction. Specific topics include constitutional limitations upon the development and marketing of hydroelectricity, constitutional restrictions upon offshore oil and subsurface resources policy, and international law restrictions upon the management and control of the fisheries.  
 Prerequisite: LWSO 2000

**3014 Aboriginal and Government Relations in Newfoundland and Labrador** traces the historical development of Aboriginal and Government relations in Newfoundland and Labrador. Topics include: the current legal and constitutional status of the Inuit, Indian and Metis people within the context of land claims, application of the Indian Act, access to programs and services, and federal/provincial relations.  
 Prerequisite: LWSO 2000

**3015 Women and Law in Canada** looks at the interplay between law and status under the law, the course proceeds to look at some of the main legal issues affecting women today, such as workplace equality, family law and women and crime. This course provides students with the opportunity to

study cases in depth and apply legal theory to current issues affecting Canadian women.

Prerequisite: LWSO 2000

**3016 Western Traditions of Law and War** provides students with a historical overview of the law of war. The course goes beyond the traditional legal definition of war as an armed conflict between states, and examines whether the law of war should be applied to terrorism and wars of national liberation. Topics include: just war theory, the legality of the various means of warfare, the treatment of protected people and places and the prosecution of war criminals.

Prerequisite: LWSO 2000

**3200 Women and the Law in Newfoundland History** (same as History 3200) examines how legal reforms addressed or challenged the values of the community. Students will investigate the various ways in which Newfoundland women interacted with the law and on occasion found themselves before a magistrate.

Prerequisite: LWSO 2000

**3300 Understanding Human Rights** introduces students to the theory and practice of human rights. Course topics include: history; philosophy; and international and Canadian structures and provisions. The course includes an examination of selected areas of human rights, i.e. labour, women's and children's rights, and explores current and future applications of human rights.

Prerequisite: LWSO 2000

**3400 Organized Crime in Canada: National and Global Perspectives** examines the origins, expansion, and changing character of organized crime in Canada from the early twentieth century to the present. Laws relating to

criminal activity, law enforcement and available tools to combat organized crime are assessed according to the inherent problems of investigation, evidence, and litigation.

Prerequisite: LWSO 2000

**4000 Multidisciplinary Perspectives on Law and Society** is an appreciation and understanding of those rules and activities termed legal which can be gained from a variety of disciplinary perspectives. The purpose of this seminar is to introduce students to the different ways in which law may be approached within the social sciences and humanities. The topic or topics to be discussed in a given semester will depend on the availability and participation of faculty from participating departments. Through seminar readings, discussions and research, students will gain a wider understanding of the role of law in society and of the diverse academic approaches for understanding it.

Prerequisites: LWSO 2000 and at least 15 credit hours in courses applicable to the LWSO major or minor.

**4900 Development of Law in Newfoundland** (same as History 4232) traces the evolution of the legal system of Newfoundland and Labrador from its earliest beginnings. Students are responsible for contributing to seminar discussions and presenting a research essay on some major themes that distinguish legal developments in Newfoundland and Labrador.

Note: *Credit may not be obtained for LWSO 4900 and either History 4232 or the former History 4214.*

**4901-4909 Special Topics in Law and Society** will have topics to be studied announced by the Program Co-ordinator.

Prerequisite: LWSO 2000.

## 8.21 Linguistics

### 8.21.1 General Degree

The general degree requires 12 courses, 36 credit hours.

1. Many courses formerly offered by the Department of Linguistics have been renumbered or renamed. Students who have taken Linguistics courses at Memorial University of Newfoundland may not obtain credit for renumbered or renamed courses which the student has already taken. Students should consult with an advisor in the Department of Linguistics to ensure that they are taking the appropriate courses.
2. Prerequisites may be waived in special cases by the Head of the Department.
3. Students majoring in Linguistics must complete 36 credit hours in Linguistics, which must include the six courses numbered Linguistics 1103/2103, 1104/2104, 3000, 3100, 3201, 3500, plus 18 credit hours in courses chosen from Linguistics 1100/2100, 2060, 1105/2105, 2210, 2300, 3104, 3105, 3150, 3155, 3210, 3212, 3220, 3310, 3850, 3950-3960, 4010-4091, 4050-4054, 4055-4059, 4100, 4110, 4150, 4151, 4201, 4202, 4210, 4400, 4500, 4700, 4750-4754, 4900-4901, 4950-4960. Of these 18 credit hours, 9 must be at the 4000 level.

Notes: 1. *Students intending to pursue graduate work in Linguistics should include Linguistics 3500, 4201 and at least one of 4100 and 4110 in their programs.*

2. *In planning a Major, students are required to consult with an advisor in the Department of Linguistics to ensure that their proposed program is possible within the constraints of course scheduling and prerequisites.*

### 8.21.2 Honours Major

The honours major requires twenty courses, 60 credit hours and the joint honours requires sixteen courses, 48 credit hours.

1. See General Regulations for the Degree of Bachelor of Arts (Honours).
2. An Honours degree in Linguistics must include 60 credit hours in Linguistics courses of which the following are required: Linguistics 1103/2103, 1104/2104, 2210, 3000, 3100, 3104, 3201, 3500, 3850, 4100 (or 4110), 4201,(or 4202) 4999, and at least one of Linguistics 4010-4091, 4150, 4210, 4500, 4700, 4950-4960. Students should choose courses in consultation with their Honours Essay supervisor, to ensure that the needs and interests of the individual candidate are met, and to take into account the availability of courses which the department is able to offer. The Honours or Joint Honours student must also meet a language requirement of 6 credit hours or the equivalent in a second language. Under very special circumstances the Head of the Department may prescribe 6 credit hours in advanced courses in English dialectology in place of the above second language requirement.
3. Linguistics may also be combined with another subject or subjects to constitute a Joint Honours degree. The required courses listed above for the Honours degree, except for Linguistics 4999, will also be required for any Joint Honours degree in Linguistics. A total of 48 credit hours in Linguistics, which may include Linguistics 4999, is required for Joint Honours in Linguistics. Students should consult their Department of Linguistics advisor to ensure that they select courses which complement their other Honours Subject of Specialization.

### 8.21.3 Minor Programs

1. The General Minor requires eight courses, 24 credit hours. The following courses are required:

a. Linguistics 1103/2103 and 1104/2104

b. Any 2 courses from the following list: Linguistics 3000, 3100, 3104, 3201, 3500, 3850

c. An additional four courses selected from: Linguistics 1100/2100, 1105/2105, 2060, 2210, 2300, 3105, 3150, 3155, 3210, 3212, 3220, 3310, 3950-3960, 4010-4091, 4050-4054, 4055-4059, 4100, 4110, 4150, 4201, 4202, 4210, 4400, 4500, 4700, 4750-4754, 4900-4901, 4950-4960.

2. **Focus Area in Linguistics for B.Ed. (Primary/Elementary) Students (6 courses, 18 credit hours)**

A minimum of 18 credit hours in Linguistics is required for students who are doing a focus area in the discipline. The program is as follows:

a. Linguistics 1100 or 2100, 1103 or 2103, 1104 or 2104, 2210, and 6 credit hours in courses chosen from Linguistics 3000, 3100, 3104, 3105, 3150, 3155, 3201, 3210, 3212, 3500, 3850.

- b. Students are urged to include more than the minimum number of linguistics-related courses in their program.

### 8.21.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Linguistics courses are designated by LING.

**1100 Language and Communication** is a general and non-technical introduction to linguistic concepts which are important for understanding the nature of language, its change and its function for communication. Topics include: languages as structured systems; the systematicity of language change; the classification of languages into families and their geographical distribution; language, the brain, and language disorders; the acquisition of language; and human vs animal communication. (Intended for first-year students.)

Note: *Credit may not be obtained for both LING 1100 and 2100.*

**1103 Introduction to Linguistics: Morphology and Syntax** is an introduction to the study of the meaningful components of words and sentences. This course will demonstrate the principles by which parts of words are organized into larger units (inflectional morphology and word-formation), and by which words pattern into phrases and sentences (syntax). Synchronic and diachronic data from English and several other languages will be analysed to illustrate how language is structured.

Note: *Credit may not be obtained for both LING 1103 and 2103.*

**1104 Introduction to Linguistics: Phonetics and Phonology** is an introduction to the sounds of speech, their description (phonetics), organization (phonology), and interactions with morphology (morphophonology). The synchronic and diachronic patterns and regularities of language will be demonstrated through analysis of data selected from English and other languages.

Note: *Credit may not be obtained for both LING 1104 and 2104.*

**1105 The Wonder of Words** is an introduction to the structure of words. This course presents methods of linguistic analysis through an in-depth study of English word origins. The French, Latin and Greek origins of technical and scientific words are studied, together with the ways that these words may change in structure, sound, and meaning. The course will also provide an introduction to etymology, to writing systems and transliteration, and to the use of dictionaries.

Note: *Credit may not be obtained for both LING 2105 and the former 1101, nor for both LING 1105 and 2105.*

**1530 Reading and Writing in Innu-aimun I** is intended for fluent speakers of Innu-aimun who are planning to complete the Diploma in Native and Northern Education (T.E.P.L.). The focus of the course is to learn to read fluently in Innu-aimun and to spell correctly according to the revised standard spelling system. Emphasis will be placed on using the dictionary as a spelling tool and on the mastery of standard Innu-aimun spelling through a large number of practical exercises. Students will learn to read texts written in the standard spelling system and they will be introduced to parts of speech, gender and number, and word formation. This course is not normally offered at the St. John's campus.

Note: *Credit may not be obtained for both LING 1530 and the former LING 1030.*

**1531 Reading and Writing in Innu-aimun II** requires students to continue reading texts of increasing difficulty and continue to improve their ability to spell correctly. They will learn to interpret and apply punctuation correctly. They will be able to articulate spelling rules and to apply the notions of grammatical spelling agreement of nouns and verbs and pronouns. More complex grammatical notions will be introduced as well as the identification of derivational morphemes. Students will master the use of the dictionary as a tool for retrieving grammatical information about words. In addition, they will be introduced to original writing as a method of applying the spelling rules they have learned. This course is intended for fluent speakers of Innu-aimun who are planning to complete the Diploma in Native and Northern Education (T.E.P.L.). This course is not normally offered at the St. John's campus.

Note: *Credit may not be obtained for both LING 1531 and the former LING 1031.*

**2020 Introduction to the Structure of Inuttitit I** - inactive course.

**2021 Introduction to the Structure of Inuttitit II** - inactive course.

**2022 Issues in Oral Inuttitit** reviews issues of oral Inuttitit. Topics included will be the primary role of oral language in communication, language, acquisition and language maintenance. The nature and significance of dialect differences will also be discussed. Different types of oral language will be examined, e.g. stories, newscasts, conversation. Students will study how oral language is used within modern Labrador society and whether language attitudes are reflected in this use. Students will also consider how best to teach oral Inuttitit and different ways to test for oral proficiency. This course is intended for fluent speakers of Inuttitit who are planning to complete the Diploma in Native and Northern Education (T.E.P.L.). This course is not normally offered at the St. John's campus. Prerequisites: LING 2020.

**2023 Reading and Writing in Inuttitit** - inactive course.

**2025 Introduction to Inuttitit I** introduces students to Inuttitit (Eskimo). Students will develop a working knowledge of basic vocabulary and grammar, as well as a number of linguistic concepts that will enable them to consult a wide range of reference books. A strong emphasis will be placed on oral skills. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador.

**2026 Introduction to Inuttitit II** is a continuation of LING 2025. Students will learn further vocabulary and grammar of the language. They will also be required to submit a project based on their own investigation of some aspect of the grammar of the language (based on either reference books or fieldwork). A strong emphasis will be placed on oral skills. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador. Prerequisite: LING 2025

**2030 Introduction to Innu-aimun (Montagnais/Naskapi) I** is an introduction to the phonology and grammar of the language. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador.

Prerequisite: Admission to the Diploma in Native and Northern Education (T.E.P.L.), and LING 1530 or the former LING 1030, and LING 1531 or the former LING 1031.

**2031 Introduction to Innu-aimun (Montagnais/Naskapi) II** is a further examination of the grammar of Innu-aimun, including verb paradigms and word formation. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador. Prerequisite: LING 2030

**2040 Introduction to Mi'kmaq I** - inactive course.

**2041 Introduction to Mi'kmaq II** - inactive course.

**2060 Aboriginal Languages of Eastern Canada** is an overview of the aboriginal languages of three language families of Eastern Canada: Eskimo-Aleut (Inuttitit) and Algonquian (Innu-aimun, Mi'kmaq, Maliseet-Pasquaquoddy and Beothuk) and Iroquoian (Mohawk) with respect to both linguistic structure and current vitality. The history of language suppression and revitalization efforts, within the context of the larger issues of minority language attrition and maintenance. This course is intended for students who want to learn an Aboriginal language spoken in Newfoundland and Labrador.

**2100 Language and Communication** is a general and non-technical introduction to linguistic concepts which are important for understanding the nature of language, its change and its function for communication. Topics include: languages as structured systems; the systematicity of language change; the classification of languages into families and their geographical distribution; language, the brain, and language disorders; the acquisition of language; and human vs animal communication.

Notes: 1. *Credit may not be obtained for both LING 1100 and 2100. (Intended for students beyond first year.)*  
2. *This course may qualify as a Research/Writing course. Consult each semester's Undergraduate Registration Procedures booklet for the R/W designation.*

**2103 Introduction to Linguistics: Morphology and Syntax** is an introduction to the study of the meaningful components of words and sentences. This course will demonstrate the principles by which parts of words are organized into larger units (inflectional morphology and word-formation), and by which words pattern into phrases and sentences (syntax). Synchronic and diachronic data from English and several other languages will be analysed to illustrate how language is structured.

Note: *Credit may not be obtained for both LING 1103 and 2103.*

**2104 Introduction to Linguistics: Phonetics and Phonology** is an introduction to the sounds of speech, their description (phonetics), organization (phonology), and interactions with morphology (morphophonology). The patterns and regularities of language will be demonstrated through analysis of synchronic and diachronic data selected from English and other languages.

Note: *Credit may not be obtained for both LING 1104 and 2104.*

**2105 The Wonder of Words** is an introduction to the structure of words. This course presents methods of linguistic analysis through an in-depth study of English word origins. The French, Latin, and Greek origins of technical and scientific words are studied, together with the ways that these words may change in structure, sound, and meaning. The course will also provide an introduction to etymology, to writing systems and transliteration, and to the use of dictionaries.

Note: *Credit may not be obtained for both LING 2105 and the former 1101, nor for both LING 1105 and 2105.*

**2210 Language in Newfoundland and Labrador: An Introduction to Linguistic Variation** is a general, non-technical introduction to the languages of Newfoundland and Labrador. Topics covered include the concept of variation within language, both regional and social; the chief causes of such variation, and some of its societal and educational consequences; a survey of the regional and social dialects of Newfoundland English, and their major features; an overview of languages in the province

other than English, and their current situation.

Note: *This course may qualify as a Research/Writing course. Consult each semester's Undergraduate Registration Procedures booklet for the R/W designation.*

**2300 Philosophy of Language and Mind** (same as Philosophy 2300) is a survey of philosophical thinking about human language and thought, and about how these phenomena relate to the rest of the natural world. Topics covered include the nature of language, the relations between thought and language, and the nature of consciousness.

Note: *Credit may be obtained for only one of Linguistics 2300, the former Linguistics 2710, Philosophy 2300, and the former Philosophy 2710.*

**2400 History of the English Language to 1500** - inactive course.

**2401 History of the English Language from 1500 to Modern Times** - inactive course.

**2700-2720 (Excluding 2710) Special Topics in Linguistics** is an introduction to Uncommonly Taught Languages including the following:

**2700 Introduction to Irish Gaelic I** is an introduction to Irish Gaelic I.

**2701 Introduction to Irish Gaelic II** is an introduction to Irish Gaelic II.

**2702 Introduction to Japanese I** is an introduction to Japanese I.

**2703 Introduction to Japanese II** is an introduction to Japanese II.

Prerequisite: LING 2702.

**2704 Introduction to Japanese III** is an introduction to Japanese III.

Prerequisite: LING 2703.

**2705 Introduction to Japanese IV** is an introduction to Japanese IV.

Prerequisite: LING 2704.

**2706 Introduction to Japanese V** is an introduction to Japanese V.

Prerequisite: LING 2705.

**3000 Morphological Analysis** studies the meaningful parts from which words are built by using restricted data from a variety of languages. Practical work on selected languages will illustrate the wide range of notions which acquire formal expression in grammatical systems. Although previous knowledge of the languages to be discussed is not necessary, an important aspect of the course will be practical experience in analysing phenomena which are foreign to English. Discussion of languages taught at this University will be balanced with analysis of limited data sets from more exotic languages. Comparison of the means by which smaller units are organized into words will make possible an elementary typology of the world's languages.

Prerequisites: LING 1103/2103 and 1104/2104.

**3100 Generative Syntax** is an introduction to the syntactic theory developed by Chomsky, focussing on three essential notions: linguistic competence, universal grammar and linguistic parameters.

Prerequisite: LING 1103/2103.

**3104 Phonetics** builds on the introduction to phonetics given in 1104/2104, and deals with the wide range of sounds that are used in human languages. On the practical side, the student will systematically learn to identify, symbolize and pronounce a large number of sounds. The theoretical work will concentrate on an understanding of the articulatory, acoustic and perceptual features of speech sounds. This involves the close examination of data from foreign languages chosen to illustrate the fact that languages differ widely in their selection and organization of speech sounds. It also involves study of selected regional differences in the pronunciation of English.

Prerequisite: LING 1104/2104.

**3105 Issues in the Acquisition of English and the Adult Learner** (same as English 3105) focuses on selected issues in the grammatical, lexical, and pragmatic components of adult-learner English. Techniques of contrastive analysis, error analysis, performance analysis, and discourse analysis of corpora from adult English learners are presented and practised.

Prerequisites: English 2390, 3650; LING 1104/2104; Education 2222; English 2010 is recommended.

Note: *Credit may be obtained for only one of LING 3105 and English 3105*

**3150 Bilingualism: Linguistic, Cognitive and Educational Aspects** - inactive course.

**3155 Introduction to Language Acquisition** will examine a number of critical issues in the first and second language acquisition of syntax and phonology. Current generative approaches to first and second language acquisition will be covered, which will be exemplified with data from different languages. An introduction to phonological and syntactic speech disorders will also be offered.

Prerequisites: LING 1103/2103 and 1104/2104.

**3201 Generative Phonology** will present the basic terms, concepts, and methods of Generative Phonology. Theoretical constructs surveyed will include distinctive feature theory and syllable structure. These constructs will be exemplified using phenomena observed in natural languages, including allophony, allomorphy, and processes such as assimilation and neutralization.

Prerequisites: LING 1104/2104.

**3210 Language Variation and Change** will provide a thorough grounding in

the methods and theory underlying current approaches to language variation and change.

Prerequisites: LING 2210, or third-year standing, or permission of the instructor.

**3212 Language and Gender** is an introduction to research and critical thinking on the relationship of language and gender to culture, power, construction of identity, performance, interaction, social networks, language change, sexuality, and language in the school and workplace.

Prerequisite: LING 2210 or Women's Studies 1000.

**3220 Linguistics and Law** - inactive course.

**3302 History of the French Language** (same as French 3302)

**3310 Phonology and Morphology of French** (same as French 3310) is an examination of the phonological and morphological structure of French. Data from regional and non-standard varieties contrasted with data from standard French: formal rules to deal with observed regularities. Interactions of phonology and morphology in phenomena such as liaison. Derivational and inflectional morphology. Research articles on one or more of the topics dealt with in the course will be assigned as readings, and a written report in French based on one or more of the articles is to be submitted as part of the term work. This course will normally be taught in French.

Notes: 1. *Students who have not completed French 2300 are strongly advised to complete at least 3 credit hours in French courses at the 2000 level before attempting LING 3310.*

2. *Credit may be obtained for only one of LING 3310 and French 3310.*

Prerequisite: French 2300 or permission of the instructor.

**3311 Introduction to General Linguistics: Aspects of French Linguistic Theory** (same as French 3311) is a practical examination of the French verbal system, with a thorough exposition of the systems of aspect, voice, tense and mood. The fundamental concepts of linguistics will form the framework of this exposition: the langue/parole distinction and its relationship to underlying and surface entities; language as activity and the generation of surface elements from underlying systems. This course will normally be taught in French.

Note: *Credit may be obtained for only one of LING 3311 and French 3311*

Prerequisite: A Linguistics course or French 2100 or 2159

**3500 Historical Linguistics** will focus on: Genetic relationships between languages; the comparative method; language change found in phonetics/phonology, morphology and syntax; lexical and semantic change; the role of language and dialect contact; comparative and internal reconstruction; the typological and genetic classification of languages.

Prerequisites: LING 1103/2103 and 1104/2104.

**3850 Semantics** is an introduction to the study of linguistic meaning. Word- and sentence-level semantics, grammatical meaning, pragmatics, and logical aspects of meaning.

Prerequisites: LING 1103/2103 is required; LING 3000 and 3100 are recommended.

**3950-3960 (Excluding 3951) Special Topics in Linguistics** will have topics to be studied announced by the Department.

**3951 Language Endangerment and Revitalization** provides an introduction to the key issues surrounding the discussion of endangered languages. Causes, consequences, and efforts to reverse the process of decline (language revitalization or maintenance) are examined through consideration of case studies from around the world. Theoretical models developed to evaluate the current status and future prospects of endangered languages are also considered. The course is likely to include substantial discussion of the situation in Canada and the USA.

**4010-4091** will focus on the linguistic structure of certain languages, and are designed to provide senior students with the opportunity of being exposed to a substantial part of the grammar of a language other than those regularly offered in the Faculty of Arts. One course in this series will be offered each year, subject to availability of instructor.

Prerequisites: LING 1103/2103 and 1104/2104, or the permission of the instructor and the Head of the Department.

**4050-4054 Linguistic Structure of a North American Aboriginal Language** could study the following languages: Cree, Inuitit (Inuktitut), Innu-aimun (Montagnais/Naskapi), etc.

Prerequisites: LING 1103/2103 and 1104/2104, or the permission of the instructor and the Head of the Department.

Note: *Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the LING 4050-4054 series. Students may not obtain credit for any of the previously offered LING 4010, 4011, 4020, 4021, 4030, 4031, 4040, 4041 in addition to a course in the LING 4050-4054 series.*

**4055-4059 Linguistic Structure of an Uncommonly Taught Language** could study the following languages: Fijian, Modern Arabic, Classical and Vedic Sanskrit, or other exotic languages.

Prerequisites: LING 1103/2103 and 1104/2104, or the permission of the instructor and the Head of the Department.

Note: *Except where an exemption is supplied by the Head of the Department, a student may not obtain credit for more than one course in the LING 4055-4059 series. Students may not obtain credit for any of the previously offered LING 4060, 4061, 4065, 4066, 4070, 4071, 4080, 4081, 4090, and 4091 in addition to a course in the LING*

4055-4059 series.

**4100 Morphosyntactic Analysis** is an analysis of a wide range of linguistic data in morphology and syntax. The course will focus on essential linguistic concepts in more than one theoretical framework, and on the nature of linguistic evidence. (Usually offered in alternate years).

Prerequisites: LING 3000 and 3100.

Note: *Credit may not be obtained for both LING 4100 and the former 4001.*

**4110 Selected Topics in Generative Grammar** examines a particular topic or set of related topics which are selected by the instructor and which are important in contemporary generative theory. Readings will normally come from the primary literature. This course is usually offered in alternate years.

Prerequisite: LING 3100.

**4150 Language Acquisition II** provides an evaluation of the theoretical aspects of first and second language acquisition. Theories about the role of linguistic principles, learnability and the role of linguistic input are discussed, in light of research on the acquisition of English and other languages.

Prerequisite: LING 3155.

**4151 Advanced Topics in Phonological Acquisition** will address current empirical and theoretical issues pertaining to the first language acquisition of phonology. From an empirical perspective, we will look at developmental patterns as well as variation or lack thereof among and between learners, within and across languages. From a theoretical perspective, we will address how theoretical frameworks can, and at times cannot, account for the variation observed. Taking a universalist approach as a starting point, we will address how the language input provided by different languages can influence the learner's analysis of the phonology of this language during the course of acquisition. This influence will be both addressed in terms of grammatical learning and from the perspective of production patterns observed in the data.

Prerequisite: LING 4150.

**4201 Phonological Theory** will familiarize students with current issues in phonological theory. Issues such as phonology in the lexicon, segmental and prosodic representations, the analysis of stress and tonal systems, as well as a comprehensive introduction to constraint-based approaches to phonology will be covered. Students will further develop their ability to analyse phonological data. This course is usually offered in alternate years.

Prerequisite: LING 3201.

**4202 Selected Topics in Generative Phonology** examines a particular topic or set of related topics which are selected by the instructor and which are important in contemporary generative phonology. Readings will normally come from the primary literature. This course is usually offered in alternate years.

Prerequisite: LING 3201

**4210 Sociolinguistics** studies the detailed patterns of variation found in any given speech community, and factors which co-vary with them; the various theoretical models proposed to account for such variability. As their major assignment, students will complete a carefully restricted sociolinguistic project. This course is usually offered in alternate years.

Prerequisites: LING 3210 or permission of the instructor.

**4301 French Dialects, Patois and Argots** - inactive course.

**4310 The French Language in Canada** - inactive course.

**4350 General Romance Linguistics** - inactive course.

**4400 Historical and Comparative Linguistics** - inactive course.

**4403 Etymology: History of English Words** (same as English 4403) is

word formation, meaning and changes of meaning, and etymology. The original Germanic and Indo-European sources of English vocabulary. The influence of the Roman Empire, of Christianity, of the Danish invasions, of the Norman invasion, of the Renaissance and of British overseas trade and colonization, with an examination of loan words from these various sources. The sources of present day neologisms and slang.

Prerequisite: English/Linguistics 2400 or Linguistics 3500.

**4420 English Dialectology I** - inactive course.

**4421 English Dialectology II** - inactive course.

**4500 Introduction to Field Methods** is data collection and organization for an unfamiliar language in a simulated field situation, including methods of elicitation, data filing, preliminary analysis, and hypothesis formation and testing. In this course, you will learn to apply theoretical concepts from all major Linguistics subdisciplines, including phonetics, phonology, morphology, syntax, and historical linguistics. (Usually offered in alternate years).

Prerequisites: LING 3000, 3100, 3104, and 3201.

**4700 Experimental Phonetics** examines some empirical methods of studying the different stages of 'the speech chain' which links speaker to hearer, with special emphasis on the acoustic and perceptual stages. The source-plus-filter theory of speech production. A survey of the range of natural articulations and their acoustic effects. Some competing theories of speech perception. Acoustic versus perceptual bases for phonological features.

Prerequisite: LING 3104, or permission of the Head of Department.

**4750 Selected Topics in Phonology** will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

Prerequisite: LING 4201 or 4202.

**4751 Selected Topics in Morpho-Syntax** will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

Prerequisite: LING 4100 or LING 4110.

**4752 Selected Topics in Semantics** will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

Prerequisite: LING 4100 or 4110.

**4753 Selected Topics in Acquisition** will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

Prerequisite: LING 4150 or 4151.

**4754 Selected Topics in Linguistic Variation** will have topics to be studied announced by the Department. This course introduces students to more advanced topics in core linguistic disciplines.

Prerequisite: LING 4210.

**4900 and 4901 Independent Study** are courses that are open to advanced students wishing to do individual research in consultation with an advisor.

Prerequisite: Permission of instructor.

**4950-4960 Special Topics in Linguistics** will have topics to be studied announced by the Department.

Prerequisite: Permission of the instructor.

**4999 Honours Essay** is required as part of the honours program.

## 8.22 Mathematics and Statistics

For Departmental Regulations and Course Descriptions, see Faculty of Science section of the Calendar.

The following undergraduate programs are available in the Department of Mathematics and Statistics:

1. Applied Mathematics Honours (B.Sc. only)
2. Applied Mathematics Major (B.Sc. only)
3. Applied Mathematics and Chemistry Joint Honours (B.Sc. Only)
4. Applied Mathematics and Computer Science Joint Major (B.Sc. only)
5. Applied Mathematics and Economics Joint Major (B.Sc. only)
6. Applied Mathematics and Physics Joint Honours (B.Sc. only)
7. Applied Mathematics and Physics Joint Major (B.Sc. only)
8. Biology and Statistics Joint Honours (B.Sc. only)
9. Computer Science and Pure Mathematics Joint Honours (B.Sc. only)
10. Computer Science and Pure Mathematics Joint Major (B.Sc. only)
11. Computer Science and Statistics Joint Honours (B.Sc. only)
12. Computer Science and Statistics Joint Major (B.Sc. only)
13. Economics and Pure Mathematics Joint Major (B.Sc. only)
14. Economics and Statistics Joint Major (B.Sc. only)
15. Economics (Co-operative) and Statistics Joint Major (B.Sc. only)
16. Mathematics Minor

17. Pure Mathematics Honours
18. Pure Mathematics Major
19. Pure Mathematics and Statistics Joint Honours
20. Statistics Honours
21. Statistics Major
22. Statistics Minor

## 8.23 Medieval Studies

Program Supervisor: Dr. S. McGrath, Department of Philosophy

A multi-disciplinary program in Medieval Studies is offered for candidates for the degree of Bachelor of Arts; it may be taken only as a second Major program in conjunction with a disciplinary Major, or as a Minor program.

The objective of the program is the integrated study through core courses of a historical and cultural period, the Middle Ages, here defined as the period between Antiquity and the Modern Age. Such an approach, coordinating the methods and subjects of several disciplines, mirrors the pluralistic and interreligious framework of the age and provides context for the study of a student's first Major.

### 8.23.1 Major Program

Students majoring in Medieval Studies shall discuss their program with the Program Supervisor or delegate.

Students electing Medieval Studies as their second Major shall complete a minimum of 36 credit hours in courses which shall include the following:

1. Medieval Studies 2000 and either Medieval Studies 2001 or Medieval Studies 2002
2. Six credit hours from Medieval Studies 3000, 3001, 3002, 3003, 3004, and 3006.
3. Six credit hours in courses at the 4000 level chosen from either Medieval Studies 4000-4020 or **List A**.
4. Classics 1120 and 1121.
5. An additional 12 credit hours in courses either from the **Course Descriptions** or from **List A** below, normally to include at least 6 credit hours taken in courses at the 3000 level or above. Additional courses may be chosen in consultation with the Program Supervisor.
6. No more than 6 credit hours in courses counted for a student's first major may be counted towards the Major in Medieval Studies.

### 8.23.2 Minor Program

Students pursuing a minor in Medieval Studies shall discuss their program with the Program Supervisor or delegate.

Students electing Medieval Studies as a Minor shall complete a minimum of 24 credit hours in courses which shall include the following:

1. Medieval Studies 2000 and either Medieval Studies 2001 or Medieval Studies 2002
2. Six credit hours from Medieval Studies 3000, 3001, 3002, 3003, 3004, and 3006.
3. Three credit hours in courses at the 4000 level chosen from either Medieval Studies 4000-4020 or **List A**.
4. An additional 9 credit hours in courses either from the **Course Descriptions** or on **List A** below, normally to include at least 3 credit hours taken in courses at the 3000 level or above. Additional courses may be chosen in consultation with the Program Supervisor.
5. No more than 3 credit hours in courses counted for a student's Major may be counted towards the Minor in Medieval Studies.

### 8.23.3 List A: Other Courses Approved For Inclusion in Medieval Studies Major and Minor Programs Subject to the Foregoing Regulations

Not all these courses may be offered each year; students should check with departments with regard to availability and prerequisites.

2000 level courses or equivalent	3000 level courses	4000 level courses
Archaeology 2480 Classics 1120 Classics 1121 Classics 1130 Classics 1131 Classics 2200 Classics 2300 English 2110 English 2400, Linguistics 2400 English 2600 English 2601 German 2900 German 2910 History 2320 (same as MST 2001) History 2330 (same as MST 2002) Linguistics 2500 Music 1002 Music 2005 Religious Studies 2130 Russian 2900	Classics 3150, Religious Studies 3150 Classics 3200 Classics 3300 English 3021 English 3500 English 3501 English 3600 English 3700 French/Linguistics 3302 German 3911 History 3011-3020 History 3780 History 3270, Classics 3270, Religious Studies 3270 Linguistics 3500 Philosophy 3790 Religious Studies 3591	Biology 4270 Classics 4271 English 4403, Linguistics 4403 English 4500 English 4501 English 4600 English 4601 German 4300 German 4301 History 4000-4010 History 4695

### 8.23.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to

be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Medieval Studies courses are designated by MST.

**2000 The Cultural Legacy of the Middle Ages** will survey the formative cultures of the Middle Ages - Latin, Celtic, Arabic - as well as the rise of the new vernacular cultures, Germanic and Romance. Literary trends such as the reliance on authority, the emergence of national epic and the development of court literature will be studied. The course examines the interplay of all the arts - literature, music, art and architecture.

**2001 Medieval Europe to 1050** (same as History 2320) is a survey of the economic, social, political and cultural developments of the early Middle Ages.

Note: *Credit may be obtained for only one of MST 2001 or History 2320.*

**2002 Medieval Europe, 1050 to the Reformation** (same as History 2330) is a survey of the economic, social, political and cultural developments of Europe in the high and late Middle Ages.

Note: *Credit may be obtained for only one of MST 2002 or History 2330.*

**3000 Medieval Books** (same as English 3002, History 3000, Religious Studies 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, books of hours, etc.) and their uses.

Prerequisite: MST 2000, 2001 or 2002 or permission of the instructor.

Notes: 1. *MST 3000 may be substituted for a Greek and Roman Studies course in both the Classics degree programs (Honours, Joint Honours and general degree) and the Greek and Roman Studies degree programs (Honours, Joint Honours and general degree).*

2. *Credit may be obtained for only one of MST 3000, English 3002, History 3000 or Religious Studies 3000.*

**3001 Art, Architecture and Medieval Life** (same as History 3020, Archaeology 3001, Folklore 3001) is an examination of the development of medieval art and architecture and of the ways in which they mirror various aspects of life in the Middle Ages. The course will include a discussion of art and architecture in the countryside, in the town, in the castle, in the cathedral and in the cloister.

Prerequisite: MST 2000, 2001 or 2002 or permission of the instructor.

Notes: 1. *It is recommended, but not obligatory, that students should have successfully completed one of the following courses:*

*Archaeology 2480, Folklore 1000 or 2000, History 2320, MST 2001, History 2330, MST 2002, MST 2000.*

2. *Credit may be obtained for only one of MST 3001, History 3020, Archaeology 3001, or Folklore 3001.*

**3002 Folklore in Medieval Society** - inactive course.

**3003 Christian Thought in the Middle Ages** (same as Religious Studies 3560) is a study of the development of Christianity in the West from the eleventh century to the eve of the Reformation, through an examination of its principal thinkers and the most significant societal forces and events: the crusades, the universities, monasticism, religious dissent, and mysticism.

Note: *Credit may be obtained for only one of MST 3003 or Religious Studies 3560.*

**3004 Medieval Philosophy** (same as Philosophy 3760) are developments in Philosophy from Augustine to Ockham.

**3006 Women Writers in the Middle Ages** (same as Women's Studies 3001 and English 3006) will study selections from the considerable corpus of women's writings in the Medieval period, as well as issues which affected women's writing. All selections will be read in English translation.

Note: *Credit may be obtained for only one of MST 3006, Women's Studies 3001, English 3006 and the former MST 3351.*

**3710-3729 Special Topics in Medieval Studies** is available only as part of the Harlow Campus Semester.

**4000-4020 Special Topics in Medieval Studies** are seminars on such general, interdisciplinary or comparative subjects as, e.g., Popular Culture in the Middle Ages, The Medieval Stage, The Medieval Court, The Religious Orders, Women in Medieval Society, Medieval Universities, Scholasticism, Dante's Divine Comedy, Medieval Historiography, Arthurian Romance, Jewish Medieval Communities, Muslim Art and Architecture and The Byzantine World.

Prerequisite: MST 3000 or 3001 or permission of the instructor.

**4021 Medieval Latin** (same as Classics 4202).

## 8.24 Newfoundland and Labrador Studies

Acting Program Supervisor: Prof. P. Ayres, Associate Dean (Undergraduate)

A multi-disciplinary Minor program in Newfoundland and Labrador Studies is offered to candidates for the Bachelor of Arts degree. The objective of the program is the study of Newfoundland society and culture through a variety of disciplinary approaches rather than the concentration upon a single discipline. This Minor program is an alternative to a Minor offered by a single department. Since the program draws upon courses in several departments, it is administered by an interdepartmental committee. The Program Supervisor will advise students upon the selection of courses in the Minor.

### 8.24.1 Minor Program

1. To qualify for a Minor in Newfoundland and Labrador Studies, a student shall complete a total of 24 credit hours in courses as follows:

a. Fifteen credit hours in courses on the following list and from at least four different Departments.

Archaeology 3850 (same as Folklore 3850), 3860 (same as Folklore 3860 and History 3860)

Economics 2070, 3070

Education 3571

English 3155

Folklore 2230 (same as S/A 2230), 2300, 3850 (same as Archaeology 3850) and 3860 (same as Archaeology 3860 and History 3860)

Geography 2290, 2495

History 3110, 3120, 3200 (same as Law and Society 3200), 3860 (same as Archaeology 3860 and Folklore 3860)

Law and Society 3200 (same as History 3200)

Linguistics 2210

Music 2021, 2022, 2023 (a maximum of 3 credit hours)

Political Science 3880 or the former Political Science 3780

Religious Studies 3900, 3901

Sociology/Archaeology 2220, 2230 (same as Folklore 2230)

Note: *Religious Studies 3900/3901 deal with different periods and topics. Students can register in 3901 without having taken 3900.*

b. Nine additional credit hours in courses chosen from the above list and/or from the following, including at least 3 credit hours chosen from courses at the 4000 level:

Anthropology 4280

Folklore 4310, 4400

French 4400 (same as Folklore 4400)

History 4230, 4231

Linguistics 4220

Political Science 4650 or the former Political Science 4731

Sociology 4240

Note: *Students should consult the Program Supervisor on the applicability of special topics and other courses that have a high level of Newfoundland and/or Labrador content. The Program Supervisor can then seek permission for the inclusion of such courses in the student's minor program.*

c. Prerequisites: Normal departmental prerequisites will be required as laid down by the various Departments.

2. Up to 6 credit hours in courses counted for a student's Major Department may count towards the Minor, but these shall be in addition to the minimum course requirements for the Major.

## 8.25 Philosophy

### 8.25.1 General

Philosophy courses may be taken singly as general arts electives or as part of a Minor, Major, Honours or multidisciplinary program. Normally, Philosophy 1200 is a prerequisite for all philosophy courses at the 3000 level and above, though all courses are open to any student as electives with the permission of the Head of Department. Philosophy 1000, or the former Philosophy 1600, is not required for further courses in philosophy but is of particular value to students interested in the Social Sciences and Humanities.

### 8.25.2 Major Program

The major program in Philosophy consists of a minimum of 36 credit hours in courses chosen in accordance with the following requirements:

1. Philosophy 1200, Philosophy 2000 or 2220, Philosophy 2210, Philosophy 2230 or 3400, Philosophy 2701 or 2702, Philosophy 3730 or 3740, Philosophy 3800 or 3820 or 3830 or 3840 or 3850 or 3860 or 3880 or 3890, Philosophy 3910 or 3920 or 3940
2. One course in the 4700-4790 series
3. One course in the 4800-4890 series
4. An additional 6 credit hours in Philosophy courses

Notes: 1. *Students declaring a major in Philosophy must choose a program advisor in consultation with the Head of the Department and the faculty member concerned.*  
2. *Of the courses numbered 1000, 1001, 1003, the former PHIL 1600, not more than two may be counted towards the Major.*

### 8.25.3 Minor Program

The minor program in Philosophy consists of a minimum of 24 credit hours in courses which must be chosen in accordance with the following requirements:

1. Philosophy 1200, Philosophy 2000 or 2210 or 2220, Philosophy 2230 or 3400, Philosophy 2701 or 2702
2. One of Philosophy 3730, 3740, 3800, 3820, 3830, 3840, 3850, 3860, 3880, 3890
3. An additional 9 credit hours in Philosophy courses at the 3000-level or higher.

Notes: 1. *Students declaring a Minor in Philosophy may choose to have a program advisor by mutual agreement with a member of the Philosophy Department.*  
2. *Of the courses numbered 1000, 1001, 1003, the former PHIL 1600, not more than two may be counted towards the Minor.*

### 8.25.4 Honours Program

The full Honours program requires a minimum of 60 credit hours in Philosophy courses; Joint Honours requires a minimum of 45 credit hours in Philosophy courses. These must include:

1. Philosophy 1200, Philosophy 2000 or 2220, Philosophy 2210, Philosophy 2230, Philosophy 3400, Philosophy 2701 or 2702, Philosophy 3730 or 3740, Philosophy 3800 or 3820 or 3830 or 3840 or 3850, Philosophy 3860 or 3880 or 3890, Philosophy 3910, Philosophy 3920 or 3940
2. One course in the 4700-4790 series
3. One course in the 4800-4890 series
4. An additional 3 credit hours in courses at the 4000 level
5. Either Philosophy 4998 or 4999
6. Candidates for Joint Honours must choose 4998\*
7. Candidates for full Honours may take 4999 only with permission of the Department.
8. Other Philosophy courses to a total of 60 credit hours for Full Honours, 45 credit hours for Joint Honours.

\* Candidates for Joint Honours who elect to fulfill the honours requirement in the other discipline are not required to take the Comprehensive Examination. (See **Regulations for the Honours Degree of Bachelor of Arts**)

### 8.25.5 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Some sections of Philosophy 1000, 1200, the former Philosophy 1600, and Philosophy 2500-2599 may qualify as Research/Writing courses for the B.A. Core requirements. Consult each semester's Undergraduate Registration Procedures booklet for the R/W designation.

Philosophy courses are designated by PHIL.

**1000 Philosophy of Human Nature** is an approach to philosophical thinking by way of analysis and critique of theories of human nature, classical and modern, and the world views associated with them.

Note: *Credit may be obtained for only one of PHIL 1000 and the former PHIL 1001 or the former PHIL 1600.*

**1100 Critical Thinking** aims to impart critical analytic skills: i.e., the ability to recognize good and bad arguments, to explain why a particular argument is good or bad, and a general understanding of why a good argument ought to persuade and a bad argument ought not to persuade.

**1200 Introduction to Philosophy** is a general introduction to the study of Philosophy both as a contemporary intellectual discipline and as a body of knowledge. The course covers the main divisions, fundamental questions

and essential terminology of Philosophy through a reading of classical texts. (It is a required course for further courses in Philosophy programs. It is intended for students in first year who have completed one semester of university education).

Note: *Credit may be obtained for only one of PHIL 1200 and the former 2200.*

**2000 Introduction to Metaphysics** is an introduction to the systematic inquiry into the nature of reality. Topic may include the nature of being, time, the question of God, appearance and reality, the one and the many, mind and matter, essence and existence.  
Prerequisite/Co-requisite: PHIL 1200 or permission of the Department.

**2210 Logic** is an introduction to traditional and modern logic. Open in any year to all students wishing acquaintance with basic logical skills.

**2220 Epistemology** examines various concepts of knowledge - empirical, rational, transcendental, systematic. Their metaphysical grounds and implications. The concept of scientific knowledge; real and abstract entities; objectivity and subjectivity.

**2230 Moral Philosophy** examines the sources and validity of ethical principles which underlie individual and social action.

**2300 Philosophy of Language and Mind** (same as Linguistics 2300 and the former Linguistics 2710) is a survey of philosophical thinking about human language and thought, and about how these phenomena relate to the rest of the natural world. Topics covered include the nature of language, the relations between thought and language, and the nature of consciousness.

Note: *Credit may be obtained for only one of PHIL 2300, the former PHIL*

2710, *Linguistics 2300 and the former Linguistics 2710.*

**2400 Introduction to Philosophy of Law** employs historical and contemporary sources to explore major traditions and concepts in the philosophy of law. Topics covered include natural law, legal positivism, the nature of legal interpretation, the relationship between law and morality, and the concepts of rights, responsibility, and justice.

**2500-2550 Contemporary Issues** discusses the philosophical dimensions of an area of practical concern such as contemporary culture, professional ethics, leisure, education, the mass media, gender, war and human rights.

**2541 Philosophy and Western Spirituality** will examine Western theories and practices of soul-care which parallel and resonate with Eastern approaches. We will learn what is distinctive to Western approaches with selections from Socrates, Jesus, Paul, Plotinus, Augustine, Eckhart, Alchemy, Freud, Jung and Foucault. Students will not only gain knowledge of this lost road in Western culture, but also an understanding of themselves.

**2551 Health Ethics** examines concepts of health and illness and their ethical implications.  
Note: *Credit may be obtained for only one of PHIL 2551 and the former PHIL 2803*

**2552 Mental Health Ethics** examines concepts of mental health and illness and their ethical implications.  
Note: *Credit may be obtained for only one of PHIL 2552 and the former PHIL 2802*

**2553 Biomedical Ethics** examines medical dilemmas from legal and ethical points of view.  
Note: *Credit may be obtained for only one of PHIL 2553 and the former PHIL 2807*

**2561 Environmental Ethics** examines concepts of nature and their ethical implications.  
Note: *Credit may be obtained for only one of PHIL 2561 and the former PHIL 2809*

**2571 Technology** examines concepts of technology and their ethical implications.  
Note: *Credit may be obtained for only one of PHIL 2571 and the former PHIL 2801*

**2581 Philosophy of Film** introduces some of the central philosophers, topics and themes in the philosophy of film. Topics and themes include: the nature of film image, the relationship between film and "reality", the social/political role and function of film and the nature and value of the documentary. The course will also consider the representation of broader philosophical ideas in film. A film or films will accompany each section.

**2591 Restorative Justice** explores the phenomenon of violence. When we understand violence, the need for justice quickly comes into view. With this need, however, comes a complex mixture of personal and political affairs. Justice can be retaliatory or restorative. The meaning and consequences of each kind of approach to justice will be traced through selected ancient and contemporary authors.  
Note: *Credit may be obtained for only one of PHIL 2591 and the former PHIL 2810*

**2701 History of Ancient Philosophy** (same as Classics 2701) is a survey of the origin and development of Western philosophy among the Greeks and Romans.  
Note: *Credit may be obtained for only one of PHIL 2701 or Classics 2701.*

**2702 History of Modern Philosophy** is a survey of the development of Western philosophy since the 17th century.  
Note: *Credit may be obtained for only one of PHIL 2702, 3700, or 3701.*

**3110 Intermediate Logic** examines techniques and topics in the logic of propositions, of predicates and of induction and probability. Normally the second course in logic.  
Prerequisite: PHIL 2210 or permission of the Department

### 8.25.5.1 Philosophy of...Series

**3120 Philosophy of Language** investigates various uses of language and its relationship to thought, as well as particular features of language, such as meaning, synonymy, reference, translation and interpretation.  
Prerequisite: PHIL 1200 or permission of the Department

**3150 Philosophy of the Natural Sciences** examines major issues in the origins, methods and philosophical implications of science. Science as a form of knowledge, its relation to metaphysics; to more general theories of knowledge. Science and values.  
Prerequisite: PHIL 1200 or permission of the Department

**3160 Hermeneutics, Semiotics and Deconstruction** will examine methodological foundations of psychology, cognitive science and the social sciences, Philosophical presuppositions and implications of these approaches to human nature.

**3400 Political Philosophy** examines leading philosophical ideas concerning the origin and justification of political institutions.  
Prerequisite: PHIL 1200 or permission of the Department

**3500 Philosophy of Religion** (same as Religious Studies 3500) examines

the philosophical aspects of religious belief, religious language and theology.  
Prerequisite: PHIL 1200 or permission of the Department  
Note: *Credit may be obtained for only one of PHIL 3500 or Religious Studies 3500.*

**3600 Philosophy of the Humanities** examines the expression and interpretation in the humanistic disciplines: theology, history, art and literature, language. Philosophical Hermeneutics.  
Prerequisite: PHIL 1200 or permission of the Department

**3610 Philosophy and Literature** - inactive course.

**3620 Philosophy of Art** - inactive course.

### 8.25.5.2 Ancient, Medieval and Renaissance Series

**3730 Plato** examines selections from the works of the Greek "lovers of wisdom" - the first philosophers - particularly Plato.  
Prerequisite: PHIL 1200 or permission of the Department

**3740 Aristotle** examines the works and legacy of perhaps the most influential systematic thinker of all time.  
Prerequisite: PHIL 1200 or permission of the Department

**3760 Medieval Philosophy** - inactive course.

**3790 Late Medieval and Renaissance Philosophy** - inactive course.

### 8.25.5.3 17th to 18th Century Series

**3800 Descartes** is a systematic introduction to the works and thought of the "father of modern philosophy".  
Prerequisite: PHIL 1200 or permission of the Department

**3820 Rationalism** is a study of rationalism in Descartes, Spinoza, Leibniz and of subsequent developments of this standpoint.  
Prerequisite: PHIL 1200 or permission of the Department

**3830 Empiricism** is a study of classical empiricism in the works of Locke, Berkeley and Hume and of later developments of this philosophical standpoint.  
Prerequisite: PHIL 1200 or permission of the Department

**3840 Hume** is a study of the work and influence of Hume on theories of knowledge, metaphysics and moral philosophy.  
Prerequisite: PHIL 1200 or permission of the Department

**3850 Kant's Theory of Knowledge** is an introduction to the work of one of the most influential thinkers of the modern era, concentrating on his theory of knowledge, particularly as stated in the *Critique of Pure Reason*.  
Prerequisite: PHIL 1200 or permission of the Department

**3851 Kant's Ethics** is an introduction to the work of one of the most influential thinkers of the modern era, concentrating on his ethics, particularly as stated in *The Foundations of the Metaphysics of Morals* and *The Critique of Practical Reason*.  
Prerequisite: PHIL 1200 or permission of the Department

### 8.25.5.4 19th Century Series

**3860 Hegel** examines selections from Hegel's system with emphasis on the nature of dialectical and speculative philosophy and its enormous influence in the present time.  
Prerequisite: PHIL 1200 or permission of the Department

**3870 Utilitarianism** examines moral, political and jurisprudential themes in Bentham, J.S. Mill and their followers. Recent utilitarian theories.  
Prerequisite: PHIL 1200 or permission of the Department

**3880 Post-Idealist Thought** examines 19th century reactions to idealist systems, the critique of Metaphysics, the rise of Positivism.  
Prerequisite: PHIL 1200 or permission of the Department

**3890 Marxism** examines the political, social and historical theories of Marx and Engels and their later developments; themes in Marxist analysis of class and capitalism.  
Prerequisite: PHIL 1200 or permission of the Department

### 8.25.5.5 20th to 21st Century Series

**3900 Process Philosophy** - inactive course.

**3910 Analytic Philosophy** examines selections from established texts in contemporary analytic philosophy: Russell, Carnap, Wittgenstein and others.  
Prerequisite: PHIL 1200 or permission of the Department

**3920 Phenomenology** is an introduction to the philosophy of Husserl and some of his followers, e.g. Heidegger, Merleau-Ponty.  
Prerequisite: PHIL 1200 or permission of the Department

**3930 Pragmatism** examines the pragmatist standpoint from Peirce to the present.  
Prerequisite: PHIL 1200 or permission of the Department

**3940 Existentialism** examines the philosophy and literature of Existentialism from Kierkegaard, Nietzsche and Dostoevsky to Sartre, de

Beauvoir and Camus.  
Prerequisite: PHIL 1200 or permission of the Department  
Note: *Credit may be obtained for only one of PHIL 3940 and 3980.*

**3950 Recent Philosophy** - inactive course.

### 8.25.5.6 4000-Level and Higher

**4100 Seminar in Logic and the Philosophy of Mathematics** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4110 Seminar in Logic and the Philosophy of Mathematics** - inactive course.

**4150 Seminar in the Philosophy of Science** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4160 Seminar in the Philosophy of Science** - inactive course.

**4200 and 4210 Seminar in the Philosophy of Mind** - inactive course.

**4250 and 4260 Seminar in Metaphysics and Epistemology** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4300 and 4310 Seminar in Ethics** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4350 and 4360 Seminar in the Philosophy of Law** - inactive course.

**4400 and 4410 Seminar in Political Philosophy** - inactive course.

**4450 and 4460 Seminar in the Philosophy of History** - inactive course.

**4500 and 4510 Seminar in the Philosophy of Religion** - inactive course.

**4520 and 4530 Seminar in Philosophical Background to Literature** -

inactive course.

**4550 Seminar in the Philosophy of Language** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4560 Seminar in the Philosophy of Language** - inactive course.

**4600 and 4610 Seminar in Aesthetics** - inactive course.

**4700-4790 Seminar in Special Authors and Texts** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4800-4890 Seminar in Twentieth- and Twenty-First Century Philosophy** topics will be announced by the Department.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4900 Advanced Readings in Ethics** is an individualized course tailored to the specialized moral interests of each student.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4998 Comprehensive Examination** is part of the Honours program.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**4999 Honours Essay** is part of the Honours program.  
Prerequisite: 6 credit hours in courses at the 3000 level or permission of the Department

**5000 Instructional Field Placement in Applied Ethics** is a part-time, one semester period of practical work designed to provide experience in medical, psychiatric, environmental, or other similar settings. Students may be placed, e.g., in a government policy office or a hospital.  
Note: *Credit for this course can be used only towards the Diploma in Applied Ethics.*

## 8.26 Police Studies

Program Co-ordinator: Prof. P. Ayres, Associate Dean of Arts (Undergraduate)

This major program would be most beneficial for students who have completed the **Diploma in Police Studies**, for experienced police officers and for others working in a policing environment, and for those interested in any aspect of policing, corrections or law enforcement, who wish to obtain a university degree. Whereas students who successfully complete the Diploma in Police Studies Program are guaranteed probationary employment with the Royal Newfoundland Constabulary (RNC), no such arrangement exists with regard to those students admitted to the proposed major in Police Studies.

This major program is intended to promote critical thinking about social issues to those working in a policing environment.

### 8.26.1 Major Program

This multi-disciplinary Major in Police Studies program is offered to candidates for the Degree of Bachelor of Arts (B.A.). It is offered in conjunction with a minor in a single discipline. In order to be awarded a B.A. with a Major in Police Studies, candidates must complete all the requirements of the B.A. as outlined under **Regulations for the General Degree of Bachelor of Arts**. Candidates should contact the Program Coordinator by June 1st for Fall admission and by October 1st for Winter to discuss the planning of their program.

As is the case with any multi-disciplinary program, it is the students' responsibility to ensure that they have the necessary prerequisites to complete the program. For purposes of entry into the courses offered by participating departments, heads will be asked to make every effort to offer places to these students as early as possible in the registration process.

### 8.26.2 Admission Regulations

1. To be eligible to be considered for admission students must have:
  - a. completed 15 credit hours including Psychology 1000 and 1001, Sociology 1000 and English 1080 and 1110 or equivalent; and
  - b. a minimum overall average of 60% to be considered for admission to the program. Meeting the minimum requirements is not a guarantee of admission.

### 8.26.3 Major Regulations

1. Students who major in Police Studies shall complete a minimum of 36 credit hours in courses which shall include the following:
  - a. **Core Courses:**
    - Police Studies 2000
    - Police Studies 3000
    - Police Studies 4000

Students are required to complete an additional 27 credit hours in at least three different disciplines and chosen from the list below including:

- i. a maximum of 6 credit hours at the 1000 level;
- ii. a maximum of 9 additional credit hours at the 2000 level;
- iii. a minimum of 9 additional credit hours at the 3000 level or above; and
- iv. a minimum of 3 additional credit hours at the 4000 level.

**b. Elective Courses:**

Courses may be selected from the following list, and/or as approved by the Program Coordinator.

Archaeology 2492  
 Business 1000, 1101, 1210, 2000, 2102, 2210, 2301, 3320, 4320  
 Economics 3150  
 English 2010, 2700  
 Education 3255, 3620, 4240, 4260, 4420  
 Folklore 2230  
 History 3120, 3560, 3813  
 Human Kinetics and Recreation 1000, 1001, 2005, 4330  
 Law and Society 2000, 4000  
 Philosophy 2552, 2591  
 Police Studies 3100, 3200  
 Political Science 1000, 1010, 2800 (or the former 2710), Political Science 3610 (or the former 3741), Political Science 3620 (or the former 3521), Political Science 3681 (or the former 3791), Political Science 3820 (or the former 3720), Political Science 3880 (or the former 3780)  
 Psychology 2010, 2011, 2100, 2120, 2150, 2440, 2540, 2610, 2800, 2810, 3533, 3640  
 Religious Studies 2350, 2610, 2810, 3650  
 Social Work 1710, 2520, 3310  
 Sociology/Anthropology 2210, 2230, 2260, 2270, 2350, 3100, 3120, 3180, 3240, 3314, 3318  
 Sociology 3040, 3290, 3306, 3395, 3731, 4095, 4130, 4210, 4212  
 Statistics 2500, 2501  
 Women's Studies 1000, 2005

Notes: 1. The normal departmental prerequisites are applicable, but Department Heads may waive course prerequisites in cases where alternate preparation can be demonstrated.  
 2. Previous specialized police training may be approved for unspecified credits which may be applied to the elective requirements of the Major in Police Studies only.

**8.26.4 Course Descriptions**

**2000 An Introduction to Policing in Canada** will examine the organization of policing, its mandate and operation. It will provide an overview of the history and development of policing in Canada; examples from Newfoundland and Labrador will be used where appropriate. It will discuss the various roles and responsibilities of the police in society. It will explore the issue by police decision making, the exercise of police powers, and the use of discretion by police officers. Several other issues relating to policing will be discussed including police recruitment and training, the professional role of the police, stress on the job and policing in a diverse society.

**3000 Crime Victims and Policing** will provide an opportunity to explore contemporary victim issues, in particular, as they relate to enhancing police response and sensitivity to the needs of victims. The course will explore different types of victimization, encourage critical analysis and understanding of the impact of the CJS on victims and the role of the victim in bringing about progressive and positive changes in the CJS. It will consider recent legislative developments, programs, services and emerging issues and discuss how victim engagement can promote public confidence in the administration of justice.

Prerequisites: A minimum of 60 credit hours, including Police Studies 2000 and two additional courses from the Elective Courses List.

**3100 Gender, Crime and Criminal Justice** examines the gendered aspects of criminal offending, victimization, criminal justice responses (police, courts, corrections), and workers in the criminal justice system.

Prerequisite: A minimum of 60 credit hours including Sociology 1000 and Police Studies 2000.

**3200 Internship** is a part-time unpaid placement with a police department, Provincial Corrections, or various areas of the Department of Justice including the Sheriff's Office and Correctional Facilities. The number of openings varies and admission to the course is selective and competitive. Placements are for 12 weeks, eight hours a week, in addition to a regularly scheduled class meeting.

Prerequisites: A minimum of 60 credit hours including Police Studies 2000 and three additional courses from the Elective Courses List.

**4000 Advanced Issues in Policing** provides in depth discussion of various aspects of policing. It will discuss how social, economic and political factors influence the challenges of policing in a democratic society. It will look at police powers of arrest, search and release and how they are affected by the Charter of Rights and Freedoms. The different types of offences found in the Criminal Code and the special knowledge required to police them will be covered. The course will consider the use of police discretion, police misconduct and accountability and ethics in policing. It will also look at officer safety and stress in the work place. Several special topics related to policing will be discussed including: policing persons with mental illness, policing drug related offences, and policing racially diverse communities.

Prerequisites: A minimum of 60 credit hours, including Police Studies 2000 and three additional courses from the Elective Courses List.

**8.27 Political Science****8.27.1 Organization of Courses**

Political Science 1000 provides an introduction to the study of politics, power, law, public policy and government. Courses at the 2000-level offer an introduction to major fields and can be taken beginning in a student's first year of study. Courses at the 3000-level usually assume that students have completed at least two courses in Political Science including the corresponding 2000-level introductory course. At the 4000-level, courses are advanced seminars with small enrollment caps, and therefore have formal prerequisites.

The second digit in each course number designates a field in Political Science. Students interested in notionally concentrating in an area may be guided in their course selections, as follows:

Second Digit

0 General & Research techniques

1 Political theory

2 International politics

3 Comparative politics

6 Public policy and public administration

8 Canadian politics

9 Special topics

All Political Science courses are designated by the abbreviation POSC.

**8.27.2 Previous Calendar Regulations**

In accordance with **UNIVERSITY REGULATIONS - Year of Degree and Departmental Regulations - Faculty of Arts and Faculty of Science**, candidates for a Political Science Honours, Majors or Minor who had completed a 2000-level course or above in Political Science prior to September 2009 will normally follow the departmental regulations in effect at that time. For those students, POSC 2800 may be substituted for 2710; one of POSC 2100, 2600 or 3810 may be substituted for 2711; 3011 need not apply; and prerequisites for 4000-level courses (except POSC 4010, 4011, 4600) may be substituted with at least 12 credit hours in Political Science including at least 6 credit hours at the 3000-level. Such students may instead elect to follow the degree regulations outlined in this version of the

Calendar. A student who, prior to September 2009, had completed both of POSC 1010 and 1020 but who had not yet completed a 2000-level course or above in Political Science, is exempted from the 1000 requirement. In all other cases, such as Minors and concentrations, the corresponding renumbered course will apply (e.g., POSC 2100 for 2000, 2800 for 2710).

### 8.27.3 Honours in Political Science

- An Honours degree provides students with additional research and writing skills, may be required for admission to a graduate program, and may be useful preparation for law and other professional fields. Students considering the Honours program are encouraged to apply before their fourth semester and to begin considering a potential Honours research topic before their seventh semester. Admission to the program is in accordance with **UNIVERSITY REGULATIONS** and the **Regulations for the Honours Degree of Bachelor of Arts**.
- In addition to meeting the general requirements for the degree, candidates for a B.A.(Hons.) in Political Science must complete at least 60 credit hours in courses offered by the Department, including:
  - POSC 1000 ;
  - a minimum of 15 credit hours at the 2000-level, which must include POSC 2010, 2100, 2800, and a minimum of two of POSC 2200, 2300, 2600;
  - a minimum of 36 credit hours at the 3000-level or above, which must include;
    - a minimum of 18 credit hours at the 3000-level, which must include POSC 3010, a minimum of 3 credit hours from a course numbered 32xx or 33xx, and a minimum of 3 credit hours from a course numbered 36xx or 38xx; and,
    - a minimum of 15 credit hours at the 4000-level, which must include POSC 4010, 4011.

Notes: 1. No more than one of POSC 1010 or 1020 can be included among the 60 Political Science credit hours required for an Honours degree.  
2. For Honours, Philosophy 3870 and 3890 may be substituted for 3000-level Political Science credit hours (31xx), and Women's Studies 4005 may be substituted for 4000-level Political Science credit hours (41xx). No other such substitutions may apply.
- Candidates for an Honours degree are required to select courses as specified under **Honours in Political Science**. A possible course pattern is presented in **Table 1: Course Pattern for an Honours in Political Science**.

**Table 1: Course Pattern for an Honours in Political Science (POSC)**

Year	Political Science Courses (POSC)	Credit Hours
1 (Fall)	POSC 1000	3
1 (Winter)	POSC 2010, 2800	6
2 (Fall & Winter)	POSC 2100 and two of 2200, 2300 or 2600 One of POSC 36xx or 38xx	12
3 (Fall & Winter)	POSC 3010 and five other 3000-levels (at least one of 32xx or 33xx) One POSC course at the 4000-level	21
4 (Fall)	POSC 4010 Two other POSC courses at the 4000-level	9
4 (Winter)	POSC 4011 Two other POSC courses at the 3000- or 4000-levels	9

- Prior to enrolling in POSC 4010, all Honours students should review the *Guidelines Governing Honours Essays* available from the Head of the Department, and are required to follow these guidelines while enrolled in POSC 4010 and 4011.
- Students electing Joint Honours are required to complete at least 51 credit hours in Political Science, including POSC 2010, and including 42 credit hours chosen in accordance with the pattern set out in the degree regulations for a Bachelor of Arts with a **Major in Political Science**. If the candidate chooses to complete the Honours Essay (POSC 4010 and 4011) in Political Science, it must be passed with a grade of 70% or better.

### 8.27.4 Major in Political Science

- In addition to meeting the general requirements for the degree, candidates for a B.A. with a Major in Political Science must complete at least 42 credit hours in courses offered by the Department, including:
  - POSC 1000;
  - a minimum of 12 credit hours at the 2000-level, which must include: POSC 2100, 2800 and a minimum of two of 2200, 2300, 2600;
  - a minimum of 15 credit hours at the 3000-level, which must include: POSC 3010, a minimum of 3 credit hours from a course numbered 32xx or 33xx, and a minimum of 3 credit hours from a course numbered 36xx or 38xx; and,
  - a minimum of 9 credit hours at the 4000-level.

Notes: 1. No more than one of POSC 1010 or 1020 can be included among the 42 Political Science credit hours required for a Major.  
2. POSC 2010 is a recommended choice for a Major.  
3. For a Major, Philosophy 3870 and 3890 may be substituted for 3000-level Political Science credit hours (31xx), and Women's Studies 4005 may be substituted for 4000-level Political Science credit hours (41xx). No other such substitutions may apply.
- Candidates for a Major degree are required to select courses as specified under **Major in Political Science**. A possible course pattern is presented in **Table 2: Course Pattern for a Major in Political Science**.

**Table 2: Course Pattern for a Major in Political Science (POSC)**

Year	Political Science Courses (POSC)	Credit Hours
1 (Fall)	POSC 1000	3
1 (Winter)	POSC 2010, 2800 (POSC 2010 is a recommended choice)	6
2 (Fall & Winter)	POSC 2100 and two of 2200, 2300 or 2600 One of POSC 36xx or 38xx	12
3 (Fall & Winter)	POSC 3010 and three other 3000-levels (at least one of 32xx or 33xx)	12
4 (Fall & Winter)	Three 4000-level POSC courses	9

### 8.27.5 Minor in Political Science

- Candidates for a Minor in Political Science must complete at least 24 credit hours in courses offered by the Department, including:
  - POSC 1000;
  - a minimum of 6 credit hours at the 2000-level, which must include POSC 2800; and
  - a minimum of 12 credit hours at the 3000-level or above, which must include at least 3 credit hours at the 4000-level.

Notes: 1. No more than one of POSC 1010 or 1020 can be included among the 24 POSC credit hours required for a Minor.  
2. POSC 2010 and 3010 are recommended choices for a Minor.  
3. For a Minor, credit hours in another discipline may not be substituted for POSC credit hours.
- Candidates for a Minor are required to select courses as specified under **Minor in Political Science**. A possible course pattern is presented in **Table 3: Course Pattern for a Minor in Political Science**.

**Table 3: Course Pattern for a Minor in Political Science (POSC)**

Year	Political Science Courses (POSC)	Credit Hours
1 (Fall)	POSC 1000	3
1 (Winter)	POSC 2800	3
2 (Fall & Winter)	POSC 2010 (POSC 2010 is a recommended choice) One of POSC 2100, 2200, 2300 or 2600	6
3 (Fall & Winter)	POSC 3010 (POSC 3010 is a recommended choice) One POSC course at the 3000-level	6
4 (Fall & Winter)	One POSC course at the 3000-level One POSC course at the 4000-level	6

### 8.27.6 Concentrations in Political Science

While meeting the requirements for a B.A. (Hons) or a B.A. (Major) in Political Science, candidates may optionally select courses in one of two formal concentrations which, if completed, will be noted on the student's transcript. A possible course pattern is presented in **Table 4: Course Pattern for Optional Political Science (POSC) Concentration**.

#### 8.27.6.1 Political Science (Canadian Government)

As part of their course selection, candidates opting for a Canadian Government concentration will complete a minimum of 24 credit hours in POSC courses emphasizing public policy (second digit is "6") and/or Canadian politics (second digit is "8"). These POSC x6xx and/or x8xx credit hours must include 2600 and 2800, and at least 6 credit hours at the 4000 level.

**Table 4: Course Pattern for Optional Political Science (POSC) Concentration**

Concentration	Courses for Political Science (POSC) Honours or Major
No Concentration	Honours: See <b>Table 1</b> Major: See <b>Table 2</b>
Canadian Government	Follow applicable Table 1 or 2, choosing 2600, three 36xx/38xx and three 46xx/48xx courses.
Global Studies	Follow applicable <b>Table 1</b> or <b>Table 2</b> , choosing 2200 and 2300, three 32xx/33xx and three 42xx/43xx courses. Up to two 31xx and/or 41xx courses may be included.

### 8.27.7 Political Science Advice and Website

- Candidates for an Honours, a Major or a Minor in Political Science may consult with the Head of the Department or its Undergraduate Advisor to receive advice on Political Science course selections. As part of their non-Political Science electives, Honours or Major candidates may consider courses with associated content offered by other departments, such as Economics, History, Philosophy, Sociology, or Women's Studies. Related university programs or certificates of interest may include Aboriginal studies, Canadian Studies, Criminology, European studies, Law and Society, Newfoundland and Labrador studies, Public Administration and Police Studies.
- The Department's website at [www.mun.ca/posc](http://www.mun.ca/posc) features details about upcoming course offerings, course instructors, the

undergraduate (Honours, Major, Minor) and graduate (Master of Arts) programs, work internships, studying abroad opportunities, special events, frequently asked questions, and more. In the event of conflicting information, the official University Calendar and information issued by the Office of the Registrar shall take precedence.

### 8.27.8 Course Prerequisites

1. The following prerequisite schedule applies to Political Science courses.
  - a. All research techniques courses POSC 2010, 3010, 4010, 4011 have prerequisites specified in their descriptions.
  - b. 1000-level: No prerequisites. Suitable for students in all disciplines.
  - c. 2000-level: Except for POSC 2010, no prerequisites. Completion of POSC 1000 is generally recommended.
  - d. 3000-level: Except for POSC 3010, no prerequisites. Completion of a corresponding 2000-level area introduction course is generally recommended as outlined under **Table 5: Recommended Course Sequencing by Student's Area of Interest**.
  - e. 4000-level: Prerequisites are specified in course descriptions. Completion of at least 12 credit hours in Political Science, including 6 at the 3000-level, is generally recommended.
2. Anticipated completion of an introductory course is generally recommended prior to enrolling in a corresponding course at the next level. Students following this path may opt to take courses in the same area in the same academic year (e.g., if a 2000-level course is completed in Fall then a corresponding 3000-level course may be taken in Winter). This is presented, for illustrative purposes only, in **Table 5: Recommended Course Sequencing by Student's Area of Interest**.

**Table 5: Recommended Course Sequencing by Student's Area of Interest**

	Political Theory	International Politics	Comparative Politics	Public Policy and Administration	Canadian Politics
Overview Course	POSC 1000	POSC 1000	POSC 1000	POSC 1000	POSC 1000
Area introduction	POSC 2100	POSC 2200	POSC 2300	POSC 2600	POSC 2800
Area specialization	POSC 31xx	POSC 32xx	POSC 33xx	POSC 36xx	POSC 38xx

With the written consent of the course instructor and the Head of the Department, certain prerequisite requirements may be waived.

### 8.27.9 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department or view the website at [www.mun.ca/posc](http://www.mun.ca/posc).

Enrollment in Political Science courses is limited. First priority is given to students registered as an Honours, Major or Minor in Political Science. During this time other students may be temporarily placed on a wait list.

Political Science courses are designated by POSC.

**1000 Introduction to Politics and Government** is an introduction to basic concepts in the study of politics, power, law, public policy and government, touching on major areas of political ideologies, institutions, and current domestic and international political issues. Suitable for students in all disciplines seeking an introduction to Political Science.

**1010 Issues in Canadian Politics** explores some of Canada's most pressing and interesting political issues. This course profiles important political problems facing federal and provincial politicians and society. Suitable for students in all disciplines who have an interest in Canadian politics and who wish to develop a basic awareness of Canadian government.

**1020 Issues in World Politics** explores some of the world's most pressing and interesting political issues. This course profiles important political problems, such as a power struggle within a particular country, a controversial topic that affects an entire continent, or a major crisis that has implications for inhabitants around the world. Suitable for students in all disciplines who have an interest in international politics.

**2010 Research and Writing in Political Science** provides an overview of the research and analysis skills used in Political Science. Students can expect to learn about library research, electronic data gathering, and the elements of strong essay writing which can be applied across disciplines in the social sciences. The "political" content will vary by instructor and will address more specific topics than those ordinarily covered in 2000-level Political Science courses. This course qualifies as a Research/Writing course.

Prerequisite: POSC 1000

Note: *Credit may be obtained for only one of POSC 2010 and the former POSC 2500*

**2100 Introduction to Political Theory** is a survey of the most important political thinkers and schools of political thought. The course will ordinarily cover major political thinkers and include a selection of contemporary political ideologies.

Note: *Credit may be obtained for only one of POSC 2100 and the former POSC 2000*

**2200 Introduction to International Politics** is an examination of the "building blocks" of international politics including determinants, means, processes and ends. Emphasis is on the post-1945 period.

**2300 Introduction to Comparative Politics** is an introduction to comparative politics and techniques of comparative analysis across political jurisdictions. This course focuses on the differences between, and similarities among, a variety of countries and systems of government.

**2600 Introduction to Public Policy and Administration** outlines major concepts in, and issues relating to, the fields of public policy and administration. Examines and assesses government organization and decision-making. Topics may also include social, economic and health policy.

Note: *Credit may be obtained for only one of POSC 2600 and the former POSC 3540*

**2800 Introduction to Canadian Politics and Government** is an introduction to the structure and operations of institutions of Canadian government and the nature of political actors. Topics to be examined may include the constitution, federalism, parliament, political parties, political culture and elections.

Note: *Credit may be obtained for only one of POSC 2800 and the former POSC 2710*

**2990 Europe in the Twentieth Century** is a pre-Harlow course which examines the social, economic and political history of Europe from World War I to the present. It examines the shift from war and depression to peace and prosperity. Examining the rise and demise of fascism and communism, postwar reconstruction, and Europe's changing position in the world, this course explores the interplay between domestic and international politics and Europe's position in the international order.

Notes: 1. *Recommended for Political Science students considering a Harlow semester, exchange programs in Europe, or further courses in European politics.*

2. *Credit may be obtained for only one of POSC 2990, European Studies 2000, History 2350, the former POSC 2350.*

**3010 Empirical Methods in Political Science** is an introduction to basic concepts in the scientific approach to studying politics, and provides students with the fundamental skills for conducting empirical research using both qualitative and quantitative methods. These skills include how to construct a research project, and how to collect and analyze information. Prerequisites: POSC 2010 or another Research/Writing course, and enrollment in the Political Science Honours, Major or Minor program.

**3100 Political Theory from Plato to Rousseau** examines selected political theory from Plato to Rousseau. The theme of the course is the development of liberal democratic theory.

**3110 Political Theory from Tocqueville to Present** examines selected political theory from Tocqueville to the present. The theme of the course is the crisis in liberal democratic theory.

**3140 Feminist Political Theory** examines feminist scholarship that has challenged previously accepted notions in political theory, including

definitions of politics itself, the distinctions between public and private, the nature of citizenship, and the roles of women in civil society. This course considers different ways of looking at power and political culture in modern societies, examining these such as gender and democracy, race and class, poverty and welfare, sexuality and morality.

**3210 International Law** is an introduction to international law concerned with the interaction of the political and legal systems. Topics discussed are sources, agreements, membership, recognition, territory, jurisdiction, immunities, state responsibility, and force and war.

**3220 International Organizations** examines the origins, structures and roles of international organizations as both 'arenas' in which states pursue their interests and 'evidence' of an embryonic international society. The focus will be primarily on the workings of the United Nations, especially its 'collective security' function, and other regional security organizations.

**3250 International Political Economy** studies the interaction between world politics and international economics. Major theoretical debates regarding globalization and multinational corporations are covered, as well as current topics such as: the politics of the global monetary and financial order, international trade, foreign investment and debt, international development, and environmental issues.

**3280 Canadian Foreign Policy** is an introduction to the analysis of foreign policy, with special reference to domestic and international constraints, capabilities and ideology.

Note: *Credit may be obtained for only one of POSC 3280, the former POSC 3200, and the former POSC 3760*

**3290 Human Security** - inactive course.

**3300 European Politics** is a comparative study of government and politics in selected states of Western Europe. Emphasis will be on parties, institutions, and policy-making, particularly the ways in which states manage their economies.

**3305 Irish Politics** introduces students to the politics of the Republic of Ireland. Topics covered include the historical origins of the state, the political influence of the Roman Catholic Church, the evolution of political institutions, as well as the evolving relationship with Northern Ireland, Europe and the world.

**3310 American Politics** examines the governmental process in the United States including the role of parties and interest groups. This course will also consider select contemporary problems.

**3315 Latin American Politics** is an analysis of the forces influencing politics in contemporary Latin America with particular emphasis being given to those factors promoting political change. No prior knowledge of Latin America is assumed.

Note: *Credit may be obtained for only one of POSC 3315 and the former POSC 3430*

**3325 South Asian Politics** analyzes the history and development of political change in a selection of South Asian states with a focus on the contemporary challenges that they face in a globalized political environment.

Note: *Credit may be obtained for only one of POSC 3325 and the former POSC 3420*

**3340 Women and Politics** examines the role of women in the political process in comparative context. Topics may include the political socialization, organization, and recruitment of women; voting behaviour, and the organization of governmental institutions as a response to the concerns of women.

**3350 Public Opinion and Voting** looks at the measurement and formation of political attitudes, factors affecting attitude stability and change, and the distribution of opinion in society. Emphasizes public opinion and voting behaviour in the United States and Canada during campaigns and inter-election periods.

Note: *Credit may be obtained for only one of POSC 3350 and the former POSC 3510*

**3390 Political Parties** is a study of political parties in liberal democracies. Attention is given to the origin and development of parties, how they organize, multiparty competition and what difference parties make. Political parties in Europe, the United States, and Canada are considered in a comparative context.

Note: *Credit may be obtained for only one of POSC 3390 and the former POSC 3531*

**3600 Public Policy in Canada** is an examination of the relationship between public policy development in Canada and changes in the social and economic policy environment.

Note: *Credit may be obtained for only one of POSC 3600 and the former POSC 4790*

**3610 Public Administration in Canada** is an introduction to public administration, history of the public service in Canada, an examination of the structure and functioning of contemporary federal and provincial governments. Topics covered include cabinet organization, financial and personnel management, collective bargaining, and bilingualism.

Note: *Credit may be obtained for only one of POSC 3610 and the former POSC 3741*

**3620 Law and Society** reviews traditional theories about law, discuss their

inadequacies, and consider the benefits of a policy-oriented approach to the study of the role of law in society. The concept of law as a process of authoritative decision will be used to examine the function of the judicial authority.

Note: *Credit may be obtained for only one of POSC 3620 and the former POSC 3521*

**3650 Canadian Political Economy** introduces students to major debates about the role of the state in Canadian economic development and public policy. Topics may include: the challenges of natural resource dependency, regionalism, globalization, and the relationship between Canada and the United States.

Note: *Credit may be obtained for only one of POSC 3650 and the former POSC 3751*

**3681 Corrections Policy in Newfoundland and Labrador** examines how various political, social and economic forces have helped shape correctional policy and practice in Newfoundland and Labrador.

Note: *Credit may be obtained for only one of POSC 3681 and the former POSC 3791*

**3800 Federalism in Canada** examines relationships between government in the Canadian federation ranging from high-profile disputes to efficient diplomacy. This course reviews longstanding intergovernmental stresses such as the constitution, legislative powers, legal matters, sub-state nationalism (e.g., Quebec, Newfoundland, Labrador) and wealth distribution.

Note: *Credit may be obtained for only one of POSC 3800 and the former POSC 3710*

**3810 Political Executive in Canada** explores executive institutions and the roles of political actors, such as prime ministers, premiers and ministers, in addressing and shaping important political issues in Canada.

Note: *Credit may be obtained for only one of POSC 3810 and the former POSC 2711*

**3820 Constitutional Law in Canada** uses a casebook approach to examine critical issues of Canadian constitutional law. The development of the Canadian Constitution and processes of judicial review, as well as the legal development of federalism and protection of civil rights, are examined in detail.

Note: *Credit may be obtained for only one of POSC 3820 and the former POSC 3720*

**3830 Aboriginal Government and Politics in Canada** is an introductory course in Aboriginal governance. It examines Aboriginal culture and traditions, the variety of Aboriginal governments and governing traditions, and Aboriginal and treaty rights. Public policy issues surrounding categories of Aboriginal peoples, intergovernmental relations affecting them, and the role and significance of Aboriginal political organizations and actions are explored.

**3860 Media and Politics in Canada** draws upon communications theory to analyze major political problems and processes. Specific attention is given to Canadian politics in the news and to various print, broadcast and online media.

Note: *Credit may be obtained for only one of POSC 3860 and the former POSC 3511*

**3870 Provincial Politics** is a comparative study of politics in selected Canadian provinces and territories. Consequences of varying historical and cultural contexts will be examined with special attention to parties and movements, leadership styles, and orientations to the Canadian federation.

Note: *Credit may be obtained for only one of POSC 3870 and the former POSC 3770*

**3880 Newfoundland and Labrador Politics** is a study of the political process in Newfoundland and Labrador. Topics may include electoral behaviour and attitudes, the party system, leadership styles, the consequences of federalism, and public administration.

Note: *Credit may be obtained for only one of POSC 3880 and the former POSC 3780*

**3890 Municipal Politics** is an examination of the theory, structure and operation of local governments in Canada, with particular emphasis on Newfoundland and Labrador. Recent proposals for reform and the politics of implementing regional government and financial reorganization will be examined.

Note: *Credit may be obtained for only one of POSC 3890 and the former POSC 3790*

**3900-3979 Special Topics in Political Science** will have topics announced by the Department.

Note: *Credit restrictions will be designated on a course-by-course basis.*

**3980-3999 Special Topics in European Politics** is offered only at the Harlow (England) campus and explore selected facets of the politics of contemporary Europe. Typical themes include the European Union and its member-states, asylum and immigration, social and economic policy, foreign policy and the position of Europe in the international system. For further information about the Harlow semester consult the Department or the Faculty of Arts.

Note: *Credit restrictions will be designated on a course-by-course basis.*

**4010 Honours Essay I** develops independent research and writing skills through regular meetings with a research supervisor, the preparation of an approved research proposal, and the completion of a high quality draft of an

least one section of the Honours essay. Students are expected to follow the Department's "Guidelines Governing Honours Essays". Prior to enrolling, and ideally a semester in advance, students should contact the Head of the Department to identify a potential supervisor.

Prerequisite: Enrollment in the Honours program and permission of the Head of the Department.

Note: *Credit may be obtained for only one of POSC 4010 and the former POSC 4950*

**4011 Honours Essay II** builds on skills developed in POSC 4010, requires students to complete the writing of their Honours essay, including submitting a high quality complete draft at the midpoint of the semester, with the final complete document to follow soon afterwards. Students are expected to meet regularly with their research supervisor and to follow the Department's "Guidelines Governing Honours Essays".

Prerequisite: Completion of POSC 4010 with a minimum grade of 70%.

Note: *Credit may be obtained for only one of POSC 4011 and the former POSC 4951*

**4100 Approaches to Political Theory** is an introduction to the interpretation of political texts. Features historical and hermeneutical approaches to the study of Political Science.

Prerequisites: POSC 3100 or 3110, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4100 and the former POSC 4611*

**4110 Multicultural Citizenship** examines political theorists' interpretations and assessments of democracy and multiculturalism.

Prerequisite: POSC 3100 or 3110, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4110 and the former POSC 3793*

**4120 Contemporary Democratic Theory** examines alternative conceptions of the foundations of democracy. Theorists to be considered include Dworkin, Hayek, Nozick, Rawls, and Walzer.

Prerequisites: POSC 3100, or 3100, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4120 and the former POSC 4113*

**4200 International Law and Politics** is a research seminar on contemporary Canadian legal problems. Each semester will focus on one problem, such as Northern sovereignty, pollution, fishing zones or control of the sea.

Prerequisite: POSC 2200 and at least one POSC 32xx course, or POSC 3210, or the instructor's permission.

**4210 Arms Control and Proliferation** examines the evolution of arms control and considers the consequences of success and failure.

Prerequisite: POSC 2200 and a POSC 32xx course, or the instructor's permission.

**4215 Human Rights and International Politics** examines the evolution of global norms of human rights and consequences for the structures of the international system, international civil society, and the international political process.

Prerequisites: POSC 2200 and a POSC 32xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4215 and the former Law and Society 3300*

**4230 Theories of International Relations** examines the major theories used to understand world politics and international conflict, such as constructivism, feminism, game theory, historical structuralism, liberalism, and realism. These are explored through classic readings in international relations and case studies.

Prerequisites: POSC 2200 and a POSC 32xx course, or the instructor's permission.

**4250 The European Union** is an examination of the European Community as an emergent transnational form of governance. The course will consider the origins of the Community, the operation of its institutions, its transformation from Common Market to European Union, and the ways in which EC politics impinges on national-level politics.

Prerequisites: POSC 2200 and a POSC 32xx course, or POSC 3300, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4250 and the former POSC 3291*

**4255 Controversies in Political Economy** examines current political and public policy challenges from a political economy perspective. Topics may include globalization, major trade disputes, currency and debt crises, economic development and global environmental problems.

Prerequisites: POSC 2200 and a POSC 32xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4255 and the former POSC 4350*

**4280 American Foreign Policy** reviews the structures, process and major foreign policy perspectives of the United States of America in a global context.

Prerequisites: POSC 2200 and a POSC 32xx course, or POSC 3310, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4280 and the former POSC 3200*

**4310 Comparative Federalism** examines theories of federalism along with

the development and operation of federalism in selected nation states.

Prerequisites: POSC 2300 and a POSC 33xx course, or POSC 3800, or the instructor's permission.

**4330 Comparative Political Institutions** studies the relationship between political institutions and political outcomes. Topics will address the origin, evolution, demise and consequences of political institutions in a variety of western and non-western contexts.

Prerequisites: POSC 2300 and a POSC 33xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4330 and the former POSC 4313*

**4340 Women and Mass Politics** focuses on the gender gap in both political behaviour and participation. Focusing primarily on Canada and the United States, this course assesses patterns of involvement in political institutions, and examines differences between men's and women's political attitudes.

Prerequisites: POSC 2300 and a POSC 33xx course, or POSC 3140 or 3340, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4340 and the former POSC 4503*

**4360 Contentious Politics - Protest, Violence and Terrorism** examines protest and movement politics, insurgent and counter-insurgent politics, terrorism, and revolution.

Prerequisites: POSC 2300 and a POSC 33xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4360 and the former POSC 4740*

**4370 Democracy and Democratization** is a comparative study of the conditions necessary to develop and sustain democratic regimes and the circumstances under which transitions to democracy succeed or fail. The course will examine theoretical materials and apply them to recent and historical transitions to democratic rule.

Prerequisites: POSC 2300 and a POSC 33xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4370 and the former POSC 4301*

**4380 The Developing World** considers the practical and theoretical issues that affect the chances of the over five billion inhabitants of the developing world to secure democratic governance and material well-being.

Prerequisites: POSC 2300 and a POSC 33xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4380 and the former POSC 4450*

**4600 Public Policy Work Internship** provides career-related policy work experience with government, a political party, a non-governmental organization, a union, or another employer involved in public affairs. Job placements are for twelve weeks at eight hours per week and are typically unpaid. Class meetings and course work are required. Admission is selective and competitive. Details are available on the Department's website at [www.mun.ca/posc](http://www.mun.ca/posc).

Prerequisites: a minimum 60 credit hours, including at least 15 credit hours in Political Science courses with a minimum 70% average, and permission of the instructor.

Note: *Credit may be obtained for only one of POSC 4600 and the former POSC 4000*

**4630 Policy Analysis** is a survey of the major frameworks for the study of public policy, including decision-making theories. The course examines different stages in the policy-making process, such as policy initiation, priorities planning, choice of governing instruments, implementation and evaluation in relation to the objective and normative factors in Canadian policy environment, key institutions, dominant interests, and political leadership.

Prerequisites: POSC 2600 and a POSC 36xx course, or POSC 3600, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4630 and the former POSC 3730*

**4650 Public Policy in Resource Dependent Economies** examines the political economy of Canada's human and natural resources, such as labour, energy, fisheries, forestry, mining, and water. The political consequences of natural resource dependency on the environment and Aborigines are also discussed.

Prerequisites: POSC 2600 and a POSC 36xx course, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4650 and the former POSC 4731*

**4680 Public Policy in Newfoundland and Labrador** is a study of public policy in Newfoundland and Labrador. Examines the formation, implementation and impact of policies in one or more of the following areas: fisheries, resources, industrial development, agriculture, social policy.

Prerequisites: POSC 2600 and a POSC 36xx course, or POSC 3600 or 3880, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4680 and the former POSC 4730*

**4860 Elections in Canada** is an examination of election campaigns and electoral systems in the Canadian political system, with an emphasis on candidates, parties, voters, electioneering activities and campaign regulations.

Prerequisites: POSC 2800 and a POSC 38xx course, or POSC 3350, 3390, or 3860, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4860 and the former POSC 3700*

**4870 Regionalism in Canada** is an examination of the economic, social, and institutional determinants of regionalism and the ways in which these forces have shaped decision-making in Canada. Emphasis on the various models and frameworks used to study regionalism.

Prerequisites: POSC 2800 and a POSC 38xx course, or POSC 3800 or 3870, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4870 and the former POSC 4750*

**4880 Research in Newfoundland and Labrador Politics** requires students

to participate in advanced research projects dealing with selected aspects of the politics of Newfoundland and Labrador. Topics to be considered may include the legislature and the executive, the civil service, interest groups, parties, elections and political recruitment.

Prerequisites: POSC 2800 and a POSC 38xx course, or POSC 3880, or the instructor's permission.

Note: *Credit may be obtained for only one of POSC 4880 and the former POSC 4780*

**4900-4990 (Excluding 4950 and 4951) Special Topics in Political Science** will have a seminar topic announced by the Department.

Credit Restriction and Prerequisite: Designated on a course-by-course basis.

## 8.28 Psychology

For Departmental Regulations and Course Descriptions, see Faculty of Science section of the Calendar.

The following undergraduate programs are available in the Department of Psychology:

1. Biochemistry and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
2. Biochemistry (Nutrition) and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
3. Biology and Psychology Joint Honours (B.Sc. Hons. only)
4. Biology and Psychology (Behavioural Neuroscience) Joint Honours (B.Sc. Hons. only)
5. Major and Honours in Behavioural Neuroscience (B.Sc. only)
6. Major and Honours in Psychology (B.A. or B.Sc.)
7. Minor in Psychology (B.A. or B.Sc.)

## 8.29 Religious Studies

1. Courses in Religious Studies are designed for students who wish to study religion as an academic discipline. They are open to all students on the same basis as are other courses in the Faculty of Arts. They are recommended for
  - a. students who wish to gain an understanding of the essential teachings and beliefs of one or more of the major religions;
  - b. students who are interested in careers for which a knowledge of religious thought and practice is useful; and
  - c. students who are interested in exploring this field as an area of scholarly interest and human concern.
2. Those who plan to teach religion in the schools should complete a major or minor under the degree of Bachelor of Arts or a concentration in Religious Studies under the degree of Bachelor of Education (Primary/Elementary).
3. Religious Studies 1000, 1010, 1020, 1021, 1022, 1032, and 1200 are basic courses which introduce students to the academic study of religion. Religious Studies 1040 and 1041 (Introduction to Chinese) and Religious Studies 1050 and 1051 (Introduction to Biblical Hebrew) are courses which fulfil the language requirement in the Faculty of Arts.
4. Courses at the 2000 level represent a more focussed level of study. Courses are generally of two types: the first introduces specific religious traditions, and the second introduces religious topics or issues. All courses at the 2000 level are introductory and open to any student interested in the subject.
5. Courses at the 3000 and 4000 level in Religious Studies deal with the subject matter in greater depth and assume some previous knowledge.
6. Unless otherwise specified, Religious Studies courses do not have prerequisites. Students who register in a 3000- or 4000- level course are encouraged, however, to make sure that they have adequate preparation for that course, preferably by having completed a first- or second-year course in the field.
7. Students majoring in Religious Studies should plan their program in consultation with a representative of the Department.

### 8.29.1 General Degree

#### 8.29.1.1 Major in Religious Studies

1. A minimum of 36 credit hours in courses in Religious Studies is required. Students must complete at least one course from each of the three following groups:
  - a. 2013, 2050, 2051, 2130, 2140, 2330, 2340, 3000, 3031, 3060, 3091, 3150, 3200, 3210, 3251, 3265, 3272, 3276, 3305, 3310, 3315, 3320, 3510, 3535, 3560, 3591, 3900, 3901.
  - b. 2400, 2410, 2415, 2420, 2425, 2430, 3401, 3411, 3412, 3415, 3431, 3432.
  - c. 2610, 2810, 2811, 2812, 2820, 2830, 2850, 3640, 3650, 3680, 3800, 3810, 3811, 3812, 3820, 3830, 3831, 3850, 3860.
2. At least 18 credit hours of course work must be at the 3000 level or above.
3. With the exception of the language courses (1040, 1041, 1050, 1051), no more than two 1000-level courses can be counted as credit towards a major.

#### 8.29.1.2 Minor in Religious Studies

1. A minimum of 24 credit hours in courses in Religious Studies is required, including at least 9 credit hours in courses at the 3000 level or above.
2. With the exception of the language courses (1040, 1041, 1050, 1051), no more than two 1000-level courses can be counted as credit towards a minor.

### 8.29.2 Honours Degree

Students planning to do further work in Religious Studies should bear in mind that an Honours degree is the normal requirement for admission to Graduate Schools. Students intending to do an Honours Degree of Bachelor of Arts with a Major in Religious Studies must comply with the **General Regulations for Honours Degrees**, and must complete at least 60 credit hours in Religious Studies courses including Religious Studies 4998 (a comprehensive examination in the area of their specialization) or Religious Studies 4999 (Honours Essay). Candidates for Honours may also be required to do courses in a further subject area.

Candidates for Honours should arrange their program at the earliest opportunity, normally before the beginning of their fifth semester at the University.

Candidates will normally be required to have a reading knowledge of a language basic to their area of specialization.

In each case the program of studies leading to an Honours degree will be determined in consultation with the Head of the Department of Religious Studies, or delegate, keeping in mind the needs and interests of the individual candidate.

Candidates whose area of specialization requires a knowledge of Greek must complete Classics 1130 and 1131. In such cases these courses may be substituted for 6 of the 60 credit hours required for an Honours degree in Religious Studies.

### 8.29.3 Joint Honours Degree in Religious Studies and Another Major Subject

The attention of students is drawn to the possibility of doing a Joint Honours program that includes Religious Studies as one of the Major subjects. Such a program may be arranged in consultation with the Head of the Department of Religious Studies and the Head of the other Department concerned.

### 8.29.4 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Religious Studies courses are designated by RELS.

**1000 The Religions of the World** is an introduction to the basic beliefs and practices of the world's great religions.

Note: *Credit may not be obtained for both RELS 1000 and the former RELS 2010.*

**1010 Religion in the Modern World** is an introduction to some of the major issues confronting religion in the modern world. The focus will be on such topics as globalization and religion, religious faith and violence, freedom and authority.

**1020 Christianity in Western Civilization** is an introduction to Christianity and its place in the history of Western civilization through examples from Early Christianity, the Reformation, and the Modern Period.

**1021 Apocalypse: The End Times in Thought, Action, and Imagination** will explore the many ways in which Judaism and Christianity have anticipated and imagined the end times. Attention will be given to Jewish and early Christian notions of the Messiah and his reign, the end of the world, and the impending judgment, as well as how Christianity has coped repeatedly with the delay of the end and how millennial thought and action have affected people during periods of social and natural crises. The role of millennial expectations in our modern era and why the apocalypse is once again a powerful image in religion, film, and literature will also be covered.

**1022 Jesus in Film** is a study of how Jesus is represented in modern film. The course explores the continuing impact that the Jesus of history and faith has had on modern Western culture. The course will examine such films as *The Greatest Story Ever Told*, *The Robe*, *The Gospel According to St. Matthew* (by Pasolini), *Jesus Christ Superstar*, *Jesus of Montreal*, *The Last Temptation of Christ*, *The Life of Brian*, *The Passion of the Christ*, *The Newfoundland Passion* (video of the Squires' Paintings).

**1032 Introduction to Asian Religions and Culture** is a broadly based survey course introducing students to the religions, culture, and societies of Asia. Traditions explored may include those of India (Hinduism, Buddhism, Sikhism, Jainism), China (Daoism, Confucianism, Buddhism), Japan (Shinto, Zen Buddhism), and Korea.

**1040 Introduction to Chinese (Mandarin) I** will introduce students to the basics of Chinese vocabulary, characters, and grammar. Mandarin Chinese, the official dialect of China, Taiwan, and Singapore, will be taught. This course is not intended for native speakers.

Note: *Credit may not be obtained for both RELS 1040 and the former RELS 4904.*

**1041 Introduction to Chinese (Mandarin) II** is a continuation of RELS 1040. At the end of this course students should know over a hundred Chinese characters, which should enable them to read basic texts and carry on a simple conversation. This course is not intended for native speakers. Prerequisite: RELS 1040.

Note: *Credit may not be obtained for both RELS 1041 and the former RELS 4911.*

**1050 Introduction to Biblical Hebrew I** is designed to introduce students to the elements of Biblical Hebrew in order to prepare them for reading the Hebrew Bible/Old Testament in the original. The emphasis will be upon learning the basic grammar and syntax of Biblical Hebrew.

Note: *Credit may not be obtained for both RELS 1050 and either the former RELS 3700 or the former RELS 4900.*

**1051 Introduction to Biblical Hebrew II** is a continuation of RELS 1050. The emphasis will be upon the reading of selected Hebrew texts.

Prerequisite: RELS 1050.

Note: *Credit may not be obtained for both RELS 1051 and either the former RELS 3701 or the former RELS 4901.*

**1200 The Bible in Western Religion and Culture** is an introduction to the Bible and its impact on literature, art, film, and music in Western culture.

This course explores both the basic story line, characters, and themes in the Bible and the Bible's foundational role in the depiction and development of Western culture.

**2013 Introduction to Christianity** is a study of the Christian tradition, its development and variety. The course will include an examination of the beliefs and practices of both Eastern and Western Christianity and a study of the main differences among the major Western denominations.

**2050 Introduction to the Old Testament** is an introduction to the historical background, literary structure, and content of the Old Testament. Emphasis will be placed on the authorship and dating of the various texts that comprise the Old Testament, as well as on major themes, figures, and events. This course may qualify as a Research/Writing course. Consult each semester's registration materials for the R/W designation.

**2051 Introduction to the New Testament** is an introduction to the history and literary structure of the documents comprising the New Testament. Emphasis will be placed on the major themes found in these documents and on the distinctiveness of approach of the individual writers.

**2130 Christianity from the First Century to the Middle Ages** explores the historical development of the principal doctrines of Christianity from the period of the Early Church to the Middle Ages. Topics will include the doctrine of the Trinity, the doctrine of the Person of Christ, the nature of the Church, the doctrine of the sacraments, and early and medieval speculation on the nature of Heaven and Hell.

**2140 Christianity from the Reformation to the Present** explores the radical religious, ethical, and intellectual changes and challenges that brought about the modern world we live in: the Reformation, the Enlightenment, the Romantic Period and Pietism, and Secularism. This course may qualify as a Research/Writing course. Consult each semester's registration materials for the R/W designation.

**2302 Readings in New Testament Greek** - inactive course.

**2330 Introduction to Judaism** is an exploration of Judaism from its beginnings to the modern era. This course introduces students to the basic beliefs and practices of the Jewish faith.

**2340 Introduction to Islam** is a study of the religion of Islam in its historical and contemporary manifestations; Muhammad, the Qur'an, Islamic sects, relations with Judaism and Christianity; trends and developments in contemporary Islamic thought and practice.

Note: *Credit may not be obtained for both RELS 2340 and the former RELS 3340.*

**2350 Religious Institutions** (same as Sociology/Anthropology 2350) explores psychological, anthropological, and sociological approaches to the nature of religion. Comparative study of religious institutions and beliefs, calendrical feasts and solemnities, the nature of sacrifice and the sacred, religious roles and hierarchies, ritual innovation and revitalization.

Note: *Credit may not be obtained for both RELS 2350 and Sociology/Anthropology 2350.*

**2400 Introduction to Buddhism** is a study of the history of the Buddhist tradition in India and China, the development of the main lines of Buddhist thought, and the nature of the Chinese transformation of Buddhism.

Note: *Credit may not be obtained for both RELS 2400 and the former RELS 3400.*

**2410 Introduction to Hinduism** involves a study of the religious thought and history of India, the literature of Hinduism, the major thinkers in Hindu philosophy, and the role of Hinduism in the culture and society of India.

Note: *Credit may not be obtained for both RELS 2410 and the former RELS 3410.*

**2415 Gods and Goddesses of Hinduism** is focussed on myth, iconography and ritual of Hindu gods and goddesses from the ancient to the contemporary period. The course will explore fundamental assumptions of Hindu theistic traditions in popular practice and in formal religious institutions.

**2420 Introduction to Chinese Philosophy and Religion** is an introduction to the principal forms of tradition to emerge in China. This course examines the origins and development of Confucianism, Daoism, Moism, and Legalism. After exploring the social and historical conditions that gave rise to them, the course will explore their continuing development and role in

Chinese society.

**2425 Contemporary Issues in Chinese Religion and Culture** is an examination of religion in modern China and the Chinese diaspora in Taiwan, Singapore, and North America. Special attention will be paid to religious beliefs, practices, and institutions and the way in which modern attitudes have been framed by the past.

Note: *Credit may not be obtained for both RELS 2425 and the former RELS 3425.*

**2430 Introduction to Japanese Religions** is an examination of the nature and development of Shinto, the history and characteristics of the major sects of Japanese Buddhism, and the origins and importance of the New Religions of the 19th and 20th centuries, especially Tenrikyo and Soka Gakkai.

Note: *Credit may not be obtained for both RELS 2430 and the former RELS 3430.*

**2610 Introduction to Religious Ethics** is an introduction to religious ethics through the systematic study of selected writers and issues in biomedicine, human sexuality, and social justice. Possible topics for discussion include euthanasia, abortion, poverty, and unemployment.

Note: *Students who have successfully completed both RELS 2600 and RELS 2601 may not receive credit for 2610.*

**2800 Women in Western Religions** is an examination of the attitudes toward, and roles of, women in the Western religions, including prehistoric traditions, Judaism, Christianity, and Islam. Contemporary evaluations of these traditions from the point of view of women will also be considered.

**2801 Women in Eastern Religions** is an examination of the history of women in the traditions of Hinduism, Buddhism, Confucianism, Taoism, and folk traditions in Asia. The modern status of women in Asia and its relationship to traditional religious ideas will also be studied.

**2810 Religion and Modern Culture** is an historical examination of the impact of science on religion in Western culture. Particular emphasis will be placed on such developments as the scientific revolution, the rise of modern technology, and the emergence of modern scientific theories.

**2811 Introduction to Contemporary Religious Movements** is an introduction to contemporary religious movements in the West, including modern witchcraft, Neo-pagan religions, Mother Earth Spirituality, UFO religion, and the New Age Movement.

**2812 Religion and Popular Culture** will focus on the portrayal and treatment of religion in popular culture and will examine some of the ways in which religious and mythic themes are expressed in such pop culture forums as television shows, films, music, mass-market fiction, and material culture.

**2820 Cults and New Religious Movements** - inactive course.

**2830 Religion and Popular Music** is an introduction to the study of religious themes in popular music. The course will explore the influence of religious music on popular music and song and examine the role of music and song in the expression of religious themes.

**2850 Religion in Contemporary Canada** examines contemporary religious practices in Canada. Its perspective will be historical and sociological. It will examine indigenous traditions, the beginnings of Christianity in Canada, and how shifts in immigration policy have encouraged a diversity of contemporary religious practice. It will conclude by examining religion in contemporary Canada, particularly issues of religion and public policy (related to the Multiculturalism Act) and to shifting Christian membership.

**3000 Medieval Books** (same as Medieval Studies 3000, English 3002, History 3000) is an examination of the development and role of the manuscript book during the Middle Ages. Topics covered will include book production and dissemination; authors, scribes and audiences; and various kinds of books (e.g. glossed Bibles, anthologies, books of hours, etc.) and their uses.

Prerequisite: Medieval Studies 2000, 2001 or 2002 or permission of the instructor.

Note: *Students can receive credit for only one of RELS 3000, Medieval Studies 3000, English 3002, or History 3000.*

**3010 Greek Religion** (same as Classics 3010) is a study of the role of religion in the private and public life of the Greek world.

Note: *Students can receive credit for only one of RELS 3010, Classics 3010, and the former RELS/Classics 3121.*

**3020 Roman Religion** (same as Classics 3020) is a study of the role of religion in the private and public life of the Roman world.

Note: *Students can receive credit for only one of RELS 3020, Classics 3020 and the former RELS/Classics 3121.*

**3031 The Book of Genesis** introduces students to one of the founding texts of Western culture, the book of Genesis. Special attention will be paid to the role of myth, human origins, values, and political institutions.

Note: *Credit may not be obtained for both RELS 3031 and the former RELS 3030.*

**3053 Anthropology of Religion** (same as Anthropology 3053) is a critical evaluation of anthropological research on religion, centering on seminal thinkers and major theoretical traditions. Special attention is given to the study of belief systems, and to relationships between belief and ritual.

Note: *Students may not receive credit for both RELS 3053 and Anthropology 3053.*

**3060 The Prophets of Israel** is a study of the prophets through the relevant books of the Old Testament. Problems of text and interpretation will be discussed in relation to selected passages, but the general approach will be to bring out the creative genius and radical implications of the prophetic movement as a whole.

**3091 Visions of Human Suffering in the Hebrew Bible** introduces students to the universal problem of human suffering as it is depicted in various biblical books. Special attention will be placed on the book of Job, but notions of suffering in the Psalms, Jeremiah, Proverbs, Ecclesiastes, and some apocryphal literature will also be considered.

Note: *Credit may not be obtained for both RELS 3091 and the former RELS 3090.*

**3150 Early Christian Thought: The First Five Centuries** (same as Classics 3150) is an advanced study of selected themes and personalities in Christian thought and literature from the second to the sixth centuries. Particular attention will be given to the controversies centering on the doctrines of the Trinity and the Person of Christ.

Note: *Students may not receive credit for both RELS 3150 and Classics 3150.*

**3200 Jesus: His Life and Teaching** is a study of the ministry and thought of Jesus of Nazareth as contained in the Gospels and other New Testament writings. Attention will be given to the methods and conclusions of recent scholarship as applied to his principal teachings and to the study of the historical Jesus.

**3210 Paul and His Writings** is a study of the Pauline writings and an appraisal of the contribution to Christianity of his mission and theology on the basis of New Testament and other relevant material. Particular attention will be given to such related themes as salvation, reconciliation, grace, and justification.

**3251 The Gospel of John** is an examination of the Gospel of John and the community which produced it. Special attention will be given to the place of the Gospel in the history of early Christianity.

**3265 Ethics and the New Testament** - inactive course.

**3270 Christianity and the Roman Empire** - inactive course.

**3272 Bible, Culture and Interpretation** examines ways in which the Bible has been interpreted from the beginnings of Christianity to the present.

Note: *Credit may not be obtained for both RELS 3272 and either the former RELS 3271 or the former RELS 4200.*

**3276 Contemporary Issues and the Bible** examines the relevance of the Bible to such issues as the environmental crisis, emergent global capitalism, and technology and freedom.

Note: *Credit may not be obtained for both RELS 3276 and the former RELS 3275.*

**3305 The Religion of Ancient Israel** is an exploration of the religious thought and institutions of the kingdoms of Israel and Judah in their cultural and historical contexts from their beginnings to the sixth century B.C.E. The course introduces students to the religious beliefs, practices, and institutions of these two kingdoms prior to their destruction and prior to the development of Judaism in the post-exilic period.

Note: *Credit may not be obtained for both RELS 3305 and the former RELS 3050.*

**3310 Judaism at the Beginning of the Christian Era** will explore the developments in Jewish thought, institutions, beliefs, and practices during the time when Greek and Jewish cultures encountered one another and in which Jesus of Nazareth lived.

Note: *Credit may not be obtained for both RELS 3310 and the former RELS 3220.*

**3315 The Development of Modern Judaism** covers the period from the destruction of the Jerusalem Temple to the present and explores Judaism under the spiritual leadership of the rabbis. Approaching the material from a historical and cultural perspective, the course introduces students to the main developments of the Talmudic, Medieval, and Modern periods.

Note: *Credit may not be obtained for both RELS 3315 and either the former RELS 3302 or the former RELS 3303.*

**3320 Mysticism in Judaism and Islam** is a study of the origins, development, and importance of mysticism in the Jewish and Muslim traditions. In Judaism, the course will include a survey of Merkabah mysticism, the Qabbalah, and Hasidism. In Islam, it will include an examination of the two major streams of Muslim mysticism (Sufism) - the "drunken" and the "sober" - and the development of the Sufi Orders.

**3401 Zen, Buddhist Meditation, and Buddhist Psychology** examines the relationship between meditation and theories of human psychology in Buddhism from its origins to its formulation in Zen.

**3411 The Ramayana: A Hindu Epic and Performance Tradition** is a study of one of the most influential Epics of Hinduism, the story of Rama, the perfect king of a golden age. The course examines various versions of the narrative, the social and religious values expressed through the story, and the Epic's place in Indian politics, in dramatic performances, and in visual arts.

**3412 The Teachings of the Upanishads** is an in-depth examination of some of the principal Upanishads, foundational texts for Hindu religious

philosophy and techniques of meditation. The course also examines classical and modern interpretations of these texts.

**3415 Warrior, Wife, Witch: Ideal Females and Female Ideals in Hinduism** is a study of Hindu constructions of ideal or iconic females (e.g., Durga, the warrior goddess; Sita, the perfect wife; the Yoginis, the "witches" of Tantra) and their power in the lives of Hindu women. The course includes critical examination of the history of Hindu goddess traditions, the ideals for females in Hindu law, and Hindu women's interpretations of "ideal females".

**3431 Readings in Daoism: The Laozi and the Zhuangzi** is a course in the critical reading of the two most important texts in Daoism, the *Laozi* and the *Zhuangzi*.

Note: *Credit may not be obtained for both RELS 3431 and either the former RELS 3420 or the former RELS 3422.*

**3432 Confucius and Confucianism** - inactive course.

**3500 Philosophy of Religion** (same as Philosophy 3500) explores the philosophical aspects of religious belief, religious language, and theology.

Note: *Credit may not be obtained for both RELS 3500 and Philosophy 3500.*

**3510 Christianity in the Reformation Era** is a study of Christian thought and practice in the Reformation era. This course will examine both Protestant and Catholic efforts at reform from the late Middle Ages to the seventeenth century.

**3535 Christianity in the Modern Era** is a study of Western Christianity from the Enlightenment to the twentieth century through an examination of institutional and intellectual developments as well as changes in popular religious consciousness and practice.

Note: *Credit may not be obtained for both RELS 3535 and either the former RELS 3530 or the former RELS 3595.*

**3560 Christian Thought in the Middle Ages** (same as Medieval Studies 3003) is a study of the development of Christianity in the West from the eleventh century to the eve of the Reformation, through an examination of its principal thinkers and the most significant societal forces and events: the crusades, the universities, monasticism, religious dissent, and mysticism.

Note: *Credit may not be obtained for both RELS 3560 and Medieval Studies 3003.*

**3591 Christian Mysticism** is a study of the origins and development of the mystical tradition in Christianity from the fathers of the early Church to contemporary spirituality. The course will examine representative writers and writings from both the Western Christian tradition and Eastern Orthodoxy.

**3600 Ancient Myth and Cult** (same as Classics 3600) develops the students' knowledge of myth and material culture by examining specific religious sites in the Greek and Roman world as foci of ritual practice. Students will learn to integrate knowledge of the physical remains with the literary and ritual evidence in order to obtain a more integrated understanding of religious life in ancient Greece and Rome.

Note: *Credit may be obtained for only one of RELS 3600 and Classics 3600.*

**3640 Religion and Bioethics** is an examination of the religious ethics of health care in the light of foundational concepts of bioethics. Topics to be discussed will include the relation of religion and medicine, as well as specific issues such as abortion, euthanasia, and genetic engineering.

**3650 Religion and Social Justice** is a study of social justice issues that arise from an investigation of economic and political systems from the perspective of religious ethics. Topics addressed may include environmental ethics, ecofeminism, gender equity, pacifism, civil disobedience, poverty, and social welfare questions.

**3680 Religion and the Problem of Evil** is a study of religious approaches to the problem of evil. Attention will be paid to both traditional and contemporary efforts among the world's religions to address the problem.

Note: *Credit may not be obtained for both RELS 3680 and the former RELS 4800.*

**3800 Re/Presentations of Muslim Women: Gender, Colonialism and Islam** is presented in three parts. Firstly, there will be a grounding theoretically in Islam, Orientalism, feminism and contemporary political implications related to the study of Muslim women. Secondly, there will be a consideration of topics which have served as explanations for the "difference" of Muslim women in various contexts, both in contemporary Muslim-majority and minority political situations. Lastly, the course concludes by considering a variety of contemporary ethnographic representations of Muslim women in Egypt, Palestine, France, Turkey, Cyprus and Malaysia.

**3810 Modern Interpretations of Religion** is a study of modern attempts to analyze, interpret, and reassess the place and significance of religion in human life. Attention will be given to thinkers such as Nietzsche, Marx, Freud, Sartre, Otto, Eliade, and Tillich.

Note: *Credit may not be obtained for both RELS 3810 and the former RELS 3531.*

**3811 Contemporary Alternative Spirituality** is an in-depth examination of one or more forms of contemporary alternative spirituality. Students will study the writings of practitioners of alternative spirituality, as well as social-scientific studies of alternative spiritual groups. Religious movements to be explored include African-American alternative spirituality, Mother Earth and Creation spirituality, Neo-paganism, the New Age Movement, UFO

spirituality, and contemporary witchcraft.

**3812 Religion and Disney: Not Just Another Mickey Mouse Course** provides an in-depth examination of religious themes and issues arising from and within the philosophies of Walt Disney, the Disney animated films, other Disney feature films, and the Disney theme parks. Theoretical models drawn from the field of Religion and Popular Culture will provide the lens through which the religious dimensions of Disney and Disney fandom will be explored.

Prerequisites/Co-requisites: None. Completion of RELS 2812, Religion and Popular Culture, is recommended but not required.

**3820 Religion and the Arts** (same as Visual Arts 3820) is an examination of the role of art in the expression of religious ideas, together with a study of specific religious themes and concerns in one or more of the following: literature, film, music, painting, sculpture, and dance.

Note: *Credit may not be obtained for both RELS 3820 and Visual Arts 3820.*

**3830 Religion, Science and Technology** - inactive course.

**3831 Religious Themes in Contemporary Songwriting** is a study of religious themes in contemporary songwriting through the in-depth examination of the work of a selection of contemporary songwriters. The course will explore how religious questions and themes are handled in contemporary song and explore how song as an artistic medium expresses religious meaning. Songwriters to be explored may include the following: Bob Dylan, Bob Marley, Joni Mitchell, Leonard Cohen, Van Morrison, Tori Amos, Nick Cave, Alanis Morissette, Julie Miller, the Louvin Brothers, the Stanley Brothers, Hank Williams, etc.

**3850 Religion and Healing** - inactive course.

**3860 Implicit Religion: The Sacred in Secular Places** is an in-depth examination of the concept of implicit religion. The course will explore the concept of "the sacred" through an examination of the ideas of such theorists as Eliade, Turner, and Bailey and will examine the claims of some Religious Studies scholars that the sacred can be found in secular contexts.

**3900 Religion in Newfoundland and Labrador: Beginnings** is a study of religion and its role in Newfoundland society from the seventeenth century to the middle of the nineteenth century. Attention will be given to the origin, growth, and consolidation of the Anglican, Roman Catholic, Methodist, Moravian, and Congregational churches.

**3901 Religion in Newfoundland and Labrador: The Nineteenth and Twentieth Centuries** is a study of religion and its role in Newfoundland society from the middle of the nineteenth century to the present. The course will include the history of the Anglican, Roman Catholic, United (Methodist), Congregational, and Presbyterian churches in Newfoundland and the establishment and social significance of the Pentecostal movement and the Salvation Army.

**4201-4230 Biblical Studies: Special Subjects** are courses which will be offered at the discretion of the Department. They are designed to provide an opportunity for students majoring in Religious Studies or doing a strong concentration of courses in the area to pursue advanced study under tutorial supervision.

Prerequisite: Departmental permission.

**4300-4330 World Religions: Special Subjects** are courses which will be offered at the discretion of the Department. They are designed to provide an opportunity for students majoring in Religious Studies or doing a strong concentration of courses in the area to pursue advanced study under tutorial supervision.

Prerequisite: Departmental permission.

**4460 Folk Religion** - inactive course.

**4500 and 4510 Seminar in the Philosophy of Religion** - inactive course.

**4700-4730 Christian Thought and History: Special Subjects** are courses which will be offered at the discretion of the Department. They are designed to provide an opportunity for students majoring in Religious Studies or doing a strong concentration of courses in the area to pursue advanced study under tutorial supervision.

Prerequisite: Departmental permission.

**4801-4830 Religion, Ethics, and Modern Culture: Special Subjects** are courses which will be offered at the discretion of the Department. They are designed to provide an opportunity for students majoring in Religious Studies or doing a strong concentration of courses in the area to pursue advanced study under tutorial supervision.

Prerequisite: Departmental permission.

**4902-4910 (Excluding 4904) Language Studies: Special Subjects** are designed to provide students with some basic knowledge of the languages necessary for studying the original texts of the major world religions. The languages presently offered through the Department are Mishnaic Hebrew, Aramaic, Coptic, Pali, Tibetan, Japanese, Manchu, Arabic, and Chinese. These courses will be offered at the discretion of the Department. They are designed to provide an opportunity for students majoring in Religious Studies or doing a strong concentration of courses in the area to pursue advanced study under tutorial supervision.

Note: *In addition to those languages mentioned above, courses in Latin and New Testament Greek are available from the Department of Classics and courses in Sanskrit from the Department of Linguistics.*

**4998 Comprehensive Examination for Honours Students** will be based on a program of assigned reading related to the general subject area of the candidate's dissertation. the honours program.

**4999 Honours Essay for Honours Students** may be required as part of

## 8.30 Sociology

### 8.30.1 Programs in Sociology

The following undergraduate programs are available in the Department:

1. Major or Honours in Sociology
2. Joint Honours in Sociology and Another Major Subject
3. Major or Honours in Sociology/Anthropology
4. Minor in Sociology
5. Minor in Sociology/Anthropology

### 8.30.2 Admission to Honours Program

Admission to the Honours program in the Department of Sociology is competitive and selective. Students who wish to enter this program must submit an "Application for Admission to Honours Program" form to the Department.

To be accepted into the Honours program, a student must not only meet the criteria laid out in the Regulations for the Honours Degree of Bachelor of Arts, but must normally have obtained a cumulative average of at least 75% in 18 credit hours in courses in Sociology which must include Sociology 3040 and 3150.

### 8.30.3 General Information and Prerequisites

Credit is not given for both Sociology 1000 and the former 2000. Sociology 1000 (or the former 2000) and 6 additional credit hours in Sociology courses at the 2000-level are prerequisites for all 3000-level courses in Sociology. Sociology 3040, Sociology 3150 and 3 additional credit hours in Sociology courses at the 3000-level are prerequisites for all 4000-level courses in Sociology.

### 8.30.4 Major

#### Major Options.

A student majoring in the Department may elect one of two options: 1. Sociology; 2. Interdisciplinary Studies in Sociology and Anthropology. The interdisciplinary option is for students whose major interests lie in areas which overlap departmental boundaries. An interdisciplinary curriculum of courses is available. These courses are recommended for a) students who are interested in an interdisciplinary Sociology/Anthropology Major; b) students majoring in either Sociology or Anthropology, wishing to broaden their disciplinary perspective; c) students in other fields interested in exploring, from an interdisciplinary perspective, specific problem areas in the Social Sciences. The courses in this option are clearly indicated by the designation S/A before the course number. All students must meet the requirements listed under **Degree Regulations, Regulations for the General Degree of Bachelor of Arts**. Under these regulations a minimum of 36 credit hours in Sociology courses are required with appropriate added selections from other departments. Specific regulations for each option are:

1. **Sociology Option:** Students wishing to Major in Sociology must complete Sociology 1000 (or the former 2000), Sociology 3040, Sociology 3150, Sociology 3160, and at least 6 credit hours in Sociology at the 4000 level (see Notes 2. below). No more than an additional 6 credit hours in courses below the 3000-level may be counted toward the Major. The remaining courses, for the minimum of 36 credit hours required for the Major, may be selected from any Sociology and S/A offerings at the 3000 and 4000 levels.
2. **Interdisciplinary (S/A) Option:** Students wishing to Major in this option must complete at least 24 credit hours in S/A courses, plus a minimum of 12 credit hours in courses selected from offerings in Sociology, Anthropology, or S/A. Specific requirements are under the **Sociology/Anthropology Interdepartmental Studies**.

### 8.30.5 Minor

#### Minor Option.

A Minor in Sociology requires completion of Sociology 1000 or the former 2000, Sociology 3040, 3150, at least 3 credit hours from Sociology courses at the 4000 level (see Notes 2. below), and 12 credit hours in other Sociology or S/A courses.

- Notes: 1. *Students majoring in either Anthropology or Sociology cannot elect to Minor in the S/A Program. Likewise, S/A Majors cannot elect either Anthropology or Sociology as a Minor.*  
2. *All 4000 level Sociology courses (SOCI) can be used to fulfill the 4000 level requirements for the Major and Minor in Sociology. However, 4000 level S/A courses shall not be used.*

### 8.30.6 Honours

Honours students are required to complete at least 60 credit hours in courses in Sociology and S/A, including all courses prescribed for the Major in Sociology, and either Sociology 4995 or 4996, and must meet the requirements outlined in the **Regulations for the Honours Degree of Bachelor of Arts**.

### 8.30.7 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

S/A course descriptions may be found in this Calendar under the Sociology/Anthropology Interdepartmental Program. An S/A course carries the same Sociology credit as a Sociology course.

Sociology courses are designated by SOCI.

**1000 Introduction to Sociology** (formerly SOCI 2000) is an introduction to

the concepts, principles, and topics of Sociology. This course is a prerequisite to most departmental courses.

**2100 Social Inequality** introduces the subject of social inequality and stratification, examines social inequality in historical perspective, reviews major theories about social inequality, and considers key social developments in contemporary societies in the area of social inequality.

**2110 Economy and Society** as its principle task, explores different links that exist between economy and society. Emphasis will be put on embeddedness of economic processes in a broader social context. Several approaches to the study of the embeddedness will be discussed: economic sociology, institutional economics, law and economics, and others. Do we really live in a network society, where the most important thing is to 'get connected'? How important is it to trust people in everyday life and to what extent? What role do power and coercion play in our everyday lives? The

course will provide guidelines for finding tentative answers to these questions.

**2120 Technology and Society** is an examination of the role of technology in society. Topics may include the emergence of modern technological society, the impact of new technologies on social organization and culture, and the institutionalization of science and the production of scientific knowledge. The course also explores the ideological functions of science and technology in advanced industrial societies as well as the question of "the domination of nature".

**2200 Communities (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2210 Communication and Culture (S/A)** ((see **Sociology/Anthropology Interdepartmental Studies**)

**2220 Labrador Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**) - inactive course.

**2230 Newfoundland Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**) Cross listed with Folklore 2230.

**2240 Canadian Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2250 Changing World** is a sociological analysis of contemporary world issues and social problems.

**2260 War and Aggression (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2270 Families (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2280 The City (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**2350 Religious Institutions (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**) Cross listed with Religious Studies 2350.

**2610 Socialization** - inactive course.

**3030 Political Sociology** is an introduction to the sociological foundations of political life. Topics to be examined include voting behaviour, comparative power systems, ideologies, mass movements, parties, voluntary associations, and bureaucracies. Attention is given to the concepts of class, status, command, power, authority, and legitimacy.

**3040 Introduction to the Methods of Social Research** provides elementary familiarization with the study of sociology. To this end various strategies for posing and answering sociologically grounded questions will be explored. We take you 'behind the scenes' of the research process to provide basic research skills and strengthen your capacity to critically read and evaluate the research-based writing of others. Included in this objective is elementary training in data collection (in-depth interviews, survey research) and analysis techniques (basics of SPSS). A laboratory component helps students acquire "hands on" experience performing research.

**3100 Dominance and Power (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**) - inactive course.

**3110 Social Organizations** - inactive course.

**3120 Social Psychology** examines sociological perspectives on social psychology: the physiological and psychological basis of sign and symbol use, the context and emergence of self, identity, role, encounters, social relationships, altercasting.

**3130 Sociology of Gambling** provides a critical overview of the major social and cultural aspects of modern gambling in terms of leisure, work and economic development, social inequality, health and illness, deviance and crime, and policy. Special attention is directed at the promotion of modern gambling by the state, as demonstrated by the growth of lotteries, casinos, video lottery terminals, slot machines, and horse racing

**3140 Social Movements (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3150 Classical Social Theory** is an introduction to the work of major 19th- and early 20th-century social theorists including Marx, Durkheim, Weber and Freud.

**3160 Contemporary Social Theory** is an exploration of selected topics from issues in contemporary social theory, including theories of feminism, the state, the environment, culture, organization, and communication. Prerequisite: SOCI 3150.

**3180 Minority Groups** examines the nature of minority group status in society and various examples of minority groups in past and present societies, reviews theoretical perspectives on minority groups, and explores various aspects of the relationship between minority groups and the rest of society (formerly SOCI 3304).

**3200 Population** - inactive course.

**3210 Persistence and Change in Rural Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3220 Work and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3230 Urban Sociology** - inactive course.

**3240 Regional Studies: Contemporary Native Peoples of Canada (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3241 Regional Studies: The Atlantic (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3242 European Societies (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3249 Peoples of the Pacific (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3254-3257 Regional Studies (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3260 Social and Economic Development (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3290 Deviance** examines major sociological theories and methodological techniques central to the study of deviance and crime. The distribution, attributes and explanations of a variety of forms of deviance are examined, which may include violence, sexual deviance, delinquency, addiction, mental disorder, theft, organized crime, political deviance and corporate deviance.

**3300-3313 Sociological Specialties** will have a topic of current interest and importance, announced by the department for each term, such as racial and ethnic relations, sociology of religion, art, politics, language, conflict, stratification, knowledge, selected social problems.

**3314 Gender and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3317 Oil and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3318 Culture and Aging (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3320 Terrorism and Society (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3330-3339 Interdisciplinary Specialties (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3395 Criminal Justice** provides an introduction to the sociological perspectives on the criminal justice system (police, courts, corrections). Special attention is directed at how social structure and social inequality (class, ethnicity and race, gender) influence criminal justice decisions. Topics discussed include public opinion on crime and criminal justice, offenders and victims in the system, consensus and conflict in the creation of criminal law, finding a delicate balance between police powers for crime control and democratic rights, types of sentencing options and rationales, and the dual and conflicting goals of prisons and alternatives to incarceration. Prerequisite: SOCI 3290.

**3400 Sociology of Youth** explores the social construction of youth and reviews major theoretical approaches to the study of youth within Western Society. The course examines youth in relation to culture and identity, place and space, social inequalities, and social institutions.

**3410 Sociology of Sport** (same as Human Kinetics and Recreation 3410) is an examination of the relationship between sport and society. Areas could include social origin of sport, social history of sport, religion and sport, sport and socialization, sport and social stratification, gender and sport, violence in sport, sport and nationalism.

Note: *Credit may be obtained for only one of SOCI 3410 and Human Kinetics and Recreation 3410.*

**3420 Sociology of Gender** provides a comprehensive introduction to the major themes, theories and research questions addressed by sociologists studying 'gender'. The economic, social, cultural and political aspects of gender formations, in comparative Canadian and transnational contexts, will be examined.

**3600 The Use of Theory in Sociology and Anthropology (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3610 Society and the Life Cycle (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3630 New Media Methods in Social Research (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3700 Social and Cultural Change (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**3710 Post-Soviet Transformations** will explore problems of development in post-Soviet countries, examining them in a broader context of modernization. 'Catch-up' modernization gives rise to a set of problems related to institutional importation, e.g., a gap between formal and informal institutions. These problems exist in Russia as well as in a number of other less-developed countries.

**3720 Ethnicity and Nationalism in Contemporary Societies** - inactive course.

**3731 Sociology of Culture** is a comparative examination of major contemporary sociological texts on the relationship between culture, broadly understood as symbolic systems, and social structure

**4000 Society and Culture (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4040 Advanced Methods of Social Research** is conceptualization and empirical research. Selection of appropriate indicators. Multidimensional classification. Multivariate analysis. Special aspects of multivariate analysis. Panel analysis. Group analysis. The structure of arguments. Clarification of concepts.

Prerequisite: SOCI 3040 or equivalent.

**4070 Aboriginal Self-Governance (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4071 Social and Cultural Aspects of Health and Illness (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4072 Social and Cultural Aspects of Death (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4073 Studies in Underclass Life (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4074 Ritual and Ceremony (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4089 Language and Social Change (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4091 Oil and Development (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4092 Gender and Social Theory (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4093-4099 (Excluding 4096) Special Areas in Sociology** will have the content announced when offered

**4100-4109 (Excluding 4107) Special Topics in Institutional Analysis** is advanced analysis from a sociological perspective of issues pertaining to specific social institutions.

**4107 Women and Technological Change** (same as Women's Studies 4107) is an advanced seminar which provides an interdisciplinary survey of the effects of technology on women's lives. Topics could include: The historical development of domestic technology; changes in workplace technology and their impact on women; assessing technologies from a feminist perspective; the design of technological systems; biomedical and reproductive technologies; information technologies; biotechnology; development in architecture and design; women, development, and technology; women and weapons technology; women and ecology; future technological change and women's lives. The course will combine seminar discussions of reading with films, workplace tours and guest speakers.

Note: *Credit may be obtained for only one of SOCI 4107, Women's Studies 4107, and the former WSTD 3009.*

**4110 Culture and Personality (S/A)** (see **Sociology/Anthropology**)

**Interdepartmental Studies)**

**4120 Sociology of Art** - inactive course.

**4130 Social Stratification** - inactive course.

**4140-4149 Advanced Interdisciplinary Specialities (S/A)** (see **Sociology/Anthropology Interdepartmental Studies**)

**4150 Advanced Social Theory** - inactive course.

**4160 Theory Construction and Explanation in Sociology** - inactive course.

**4170 Sociology of Knowledge** - inactive course.

**4200-4220 (Excluding 4201, 4204, 4212 and 4213) Special Topics in Sociology** will have topics to be studied announced by the Department.

**4201 The Sociology of Gender, Health and Risk** is a seminar course that critically examines how gender structures risk factors and health outcomes and shapes how we experience and understand bodies and minds in relation to health and risk. Topics may include transgender and transsexual health, masculinities and femininities, the body, mental health, leisure and sport, the health care system, and occupational health and safety.

Prerequisites/Co-requisites: S/A 3314

Note: *Credit may be obtained for only one of SOCI 4201 and Women's Studies 3100*

**4212 Sociology of Policing** is a seminar course that focuses on how our system of policing works, the role it plays in society, the social, economic, and political factors that shape policing services, and the policies that may be implemented to strengthen policing services in the future. The popular view of the police role, detective myths and effectiveness, community policing, police socialization, policing special types of problems, police misconduct, and the expansion of private policing are considered.

**4213 Sociology of Sexuality** explores the socially constructed nature of sexuality, and examines how concepts of sexuality are used in the current North American context as well as across different times and cultures. The course explores sex and sexuality in connection to community and identity, social problems, social control, and political resistance.

**4230 Women and Development** is a senior level seminar course focussing on the processes of development, especially international development, as they affect women and relations between men and women.

Note: *Credit will not be given for both SOCI 4230 and the former SOCI 4204.*

**4240 Development Issues and Policies in Newfoundland and Labrador** is a senior-level seminar course that focuses on the interaction between sociological research and theory on the one hand and government policy-making and implementation on the other with respect to social and economic development in Newfoundland and Labrador.

**4600 Social Psychology (Advanced Seminar)** - inactive course.

**4995 Honours Essay** is a part of the honours program.

**4996 Comprehensive Examination** - inactive course.

## 8.31 Sociology/Anthropology Interdepartmental Studies

Program Supervisor: Dr. R. Whitaker, Department of Anthropology

### 8.31.1 General

The Sociology/Anthropology Interdepartmental Program is for students whose Major interests lie in areas which overlap departmental boundaries. It was originally (1973-80) a program option within both the Anthropology and Sociology Departments. The purpose of the program is to provide for a systematic study of human society through accessible works of Sociology and Anthropology which are not narrowly limited to one discipline. Courses are topical, regional or integrative in character, and a balanced plan of study will include some of each type, with the integrative courses scheduled to follow and draw together lessons of the others. The program has both Major and Minor components, the details of which are given below. In constructing their individual study plans, students should consult the Program Supervisor wherever questions arise as to the optimum sequence or suitability of particular courses. S/A program courses are also part of the Sociology and Anthropology department listings, and may be taken by students in these and other departments, providing they have the appropriate prerequisites or permission of the instructor.

### 8.31.2 Prerequisites

S/A courses at the 2000 level have no prerequisites. For courses at the 3000 or 4000 level students must have taken 6 credit hours in S/A courses at the 2000 level. For prerequisites for all Sociology and Anthropology courses other than S/A courses see the Sociology or Anthropology departmental regulations. In addition, some courses may have other specific prerequisites, as noted in this calendar, or as set out in the course description. These may, however, be waived at the discretion of the Program Supervisor or delegate for students who can demonstrate they have equivalent or alternate preparation for the course. If there is any question about this students should, in the first instance, consult the instructor.

### 8.31.3 S/A Major Program

A major in the S/A program must complete at least 36 credit hours, consisting of 24 credit hours in S/A courses, plus a minimum of 12 additional credit hours (see below).

The 24 credit hours in S/A must include the following:

1. Nine credit hours in introductory courses, including:
  - a. At least 6 credit hours in S/A courses at the 2000 level;
  - b. Three credit hours in courses chosen from Sociology 1000, Sociology 2000, Sociology 2250, Anthropology 1031, or an additional 2000 level S/A course.

Note: Ideally, the 9 credit hours in courses at the introductory level should be taken before work on the 3000 level is begun; however, one introductory course may be taken concurrent to work at the 3000 level.
2. S/A 3600, followed by S/A 4000.
3. An additional 3 credit hours from S/A courses at the 4000 level.
4. Six additional credit hours in S/A courses at the 3000 or 4000 level, to complete the 24 S/A credit hours requirement.

The 12 additional credit hours shall be completed from any Sociology, Anthropology or S/A courses, in any combination, at least 6 credit hours of which must be taken in courses at the 3000 or 4000 levels.

### 8.31.4 S/A Minor Program

A Minor in Sociology/Anthropology requires completion of 24 credit hours in S/A courses, as follows:

1. at least 9 credit hours in courses at the 2000 level
2. at least 15 credit hours in courses at the 3000 and 4000 level, including S/A 3600 and S/A 4000.

Students will normally complete at least 6 credit hours in courses at the 2000-level before proceeding to the 3000 and 4000 levels.

### 8.31.5 Honours Program

To be accepted into the Honours Program, a student must submit an "Application for Admission to Honours Program" form to the S/A Program Supervisor. A successful applicant will not only meet the criteria laid out in the **Regulations for the Honours Degree of Bachelor of Arts**, but also have a proposal accepted for an honours essay research topic, for which the student has identified a faculty member who has indicated willingness to act as supervisor.

Honours students are required to complete at least 60 credit hours of S/A, Anthropology and Sociology courses, including all courses required for the Major in Sociology/Anthropology, of which at least 39 credit hours must be in S/A courses. The courses must include either S/A 4990 or 4991 and must meet the requirements outlined in the **Regulations for the Honours Degree of Bachelor of Arts**.

### 8.31.6 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Sociology/Anthropology courses are designated by S/A.

**2200 Communities (S/A)** is an interdisciplinary examination of the concept of Community. Readings will include community studies from North America and Europe.

**2210 Communication and Culture (S/A)** is an examination of verbal and non-verbal systems of communication, and the influence of language on human cognition.

**2220 Labrador Society and Culture (S/A)** examines the Sociology and Anthropology of Labrador. The focus is on social and cultural aspects of contemporary Labrador.

**2230 Newfoundland Society and Culture (S/A)** (same as Folklore 2230) examines the Sociology and Anthropology of the Island of Newfoundland. The focus is on social and cultural aspects of contemporary island Newfoundland.

Note: Credit may be obtained for only one of S/A 2230 and Folklore 2230.

**2240 Canadian Society and Culture (S/A)** is a descriptive and analytic approach to the development of Canadian society and culture.

**2260 War and Aggression (S/A)** is a critical review of ethological, psychological and sociological approaches to the understanding of violence and organized aggression.

**2270 Families (S/A)** is a comparative and historical perspective on the family as a social institution, the range of variation in its structure and the determinants of its development.

**2280 The City (S/A)** examines varieties of urban life around the world and through history. The city as habitat and as spectacle.

**2350 Religious Institutions (S/A)** (same as Religious Studies 2350) is a comparative study of religious institutions and beliefs, calendrical feasts and solemnities, religious roles and hierarchies, ritual innovation and revitalization.

Note: Credit may be obtained for only one of S/A 2350 and Religious Studies 2350.

**3100 Dominance and Power (S/A)** is a study of dominance behaviour in human societies, surveying the range from private to public and from openly exploitative to fully legitimate power systems.

**3140 Social Movements (S/A)** is an examination of social movements which challenge prevailing social institutions and cultural values. Social movements considered may include religious cults and sects, millenarian

movements, attempts at utopian and communal living, feminism, labour and revolutionary movements.

**3210 Persistence and Change in Rural Society (S/A)** assesses the social and cultural significance of the rural experience in the face of expanding urbanism. Topics may include (a) the nature of rural society in Canada, (b) similarities between Canadian and European rural society, (c) utopian and anarchist movements in rural life, and (d) reaction of agricultural populations to external influence.

**3220 Work and Society (S/A)** - inactive course.

**3240 Regional Studies: Contemporary Native Peoples of Canada (S/A)** - inactive course.

**3241 Regional Studies: The Atlantic (S/A)** - inactive course.

**3242 European Societies (S/A)** - inactive course.

**3249 Peoples of the Pacific (S/A)** - inactive course.

**3254-3257 Regional Studies (S/A)** are interdisciplinary approaches to the study of selected regions.

**3260 Social and Economic Development (S/A)** is an examination of theories of development including a critical analysis of empirical situations to which they are applied.

**3314 Gender and Society (S/A)** is an examination of biological, psychological, social and cultural aspects of gender, with an emphasis upon contemporary directions of change in sex roles.

**3317 Oil and Society (S/A)** - inactive course.

**3318 Culture and Aging (S/A)** is an introduction to the study of aging from a social and cultural perspective. Distinctions between the biological and social elements of the aging process will be examined. The overview of social and cultural gerontology includes social, economic and political influences on later life, as well as the culture-based needs and aspirations of the aged.

**3320 Terrorism and Society (S/A)** - inactive course.

**3330 Interdisciplinary Specialities (S/A)** - inactive course.

**3331-3339 Interdisciplinary Specialities (S/A)** are interdisciplinary approaches to topics of special interest in Sociology and Anthropology.

**3600 The Use of Theory in Sociology and Anthropology (S/A)** is an examination of the nature of explanation in Sociology and Anthropology. Discusses relationships among the major integrating theories in Sociology and Anthropology and considers how empirical data can be treated from several different theoretical viewpoints. Required for S/A Majors and Minors. Open to others by permission of the instructor.

**3610 Society and the Life Cycle (S/A)** - inactive course.

**3630 New Media Methods in Social Research (S/A)** (same as Anthropology 3630). This course will explore non-print means for recording

social behaviour and will utilize various forms of the media as a descriptive and an analytic tool.

Note: *Credit may be obtained for only one of S/A 3630 and Anthropology 3630.*

**3700 Social and Cultural Change (S/A)** - inactive course.

**4000 Society and Culture (S/A)** is a seminar course designed for S/A Majors. Focuses on some of the fundamental questions of social order and social life in their philosophical and ethical dimensions, with particular reference to the history of ideas. Required course for S/A Majors and Minors. Open to others by permission of the instructor.  
Prerequisite: S/A 3600.

**4070 Aboriginal Self-Governance (S/A)** is an advanced course on contemporary issues on the development of, and barriers to, self-government among Canadian aboriginal peoples. The focus will be on topics such as land claims and claims settlements, self-government agreements and proposed agreements, economic development, environmental and social impact of industrial developments, and cultural and religious revival.  
Prerequisite: S/A 3240.

**4071 Social and Cultural Aspects of Health and Illness (S/A)** - inactive course.

**4072 Social and Cultural Aspects of Death (S/A)** covers topics which may include: symbolic meanings and values attached to death; cultural and historical variations in the management of death, e.g. treatment of the 'terminally ill', burial rites, the mourning process, and the social fate of survivors, together with the social and psychological meanings of these behaviours. Open to those without normal prerequisites by permission of the

Instructor.

**4073 Studies in Underclass Life (S/A)** is a critical inquiry into the social sources of human misery and suffering that characterize life in the underclass.

**4074 Ritual and Ceremony (S/A)** - inactive course.

**4077 Advanced Studies in Terror and Society (S/A)** - inactive course.

**4089 Language and Social Change (S/A)** - inactive course.

**4091 Oil and Development (S/A)** - inactive course.

**4092 Gender and Social Theory (S/A)** is a seminar which will develop the material covered in S/A 3314 at a more theoretical level. It will cover the history of social thought as it applies to issues of gender, and will discuss some theoretical debates in the area of gender and social theory.  
Prerequisite: S/A 3314 or permission of the instructor.

**4110 Culture and Personality (S/A)** - inactive course.

**4140-4149 Advanced Interdisciplinary Specialities (S/A)** is an advanced interdisciplinary approaches to various topics of importance in the Social Sciences. By permission of the instructor.

**4990 Sociology/Anthropology Honours Essay (S/A)** is required as part of the honours program.

**4991 Sociology/Anthropology Comprehensive Examination (S/A)** is required as part of the honours program.

## 8.32 Women's Studies

The Major in Women's Studies is a multi-disciplinary program offered to candidates for degrees in the Bachelor of Arts. The Minor in Women's Studies is a multi-disciplinary program offered to candidates for the degrees of Bachelor of Arts, Bachelor of Science, co-operative degrees offered by the Faculty of Science, Bachelor of Business Administration, and the physical education and recreation degrees offered by the School of Human Kinetics and Recreation.

The objective of these programs is to explore the experience and contributions of women from historical, cultural and interdisciplinary perspectives. Assumptions about women and gender differences and the social implications of these assumptions will be explored. Attention will be paid to existing and emerging feminist debates and issues.

### 8.32.1 Major Program Regulations

The Major Program in Women's Studies consists of a minimum of 39 credit hours. The following courses are required:

1. Women's Studies 1000, Women's Studies 2005, Women's Studies 3000, Women's Studies 3005, Women's Studies 4000, and Women's Studies 4005.
2. A minimum of 21 credit hours from the Women's Studies **Electives Courses** outlined below, selected from at least three different subject areas.
3. One of these courses may be a selected topics or directed readings course in any subject relevant to the major program.
4. A selected topics or directed readings course included in the student's major program must be approved in advance by the Committee on Undergraduate Studies on the recommendation of the Head of the Department.

Note: *Students declaring a Major in Women's Studies should consult the Head of the Department regarding course selection.*

### 8.32.2 Minor Program Regulations

Students who minor in Women's Studies shall complete a minimum of 24 credit hours in courses which shall include the following:

1. Women's Studies 1000, Women's Studies 3000, and Women's Studies 4000.
2. A minimum of 15 credit hours in courses from the Women's Studies **Electives Courses** outlined below, taken in at least three different subject areas. One of these courses may be selected topics or directed readings courses in any subject relevant to the minor program.
3. A selected topics course or directed readings course included in the student's minor program must be approved in advance by the Committee on Undergraduate Studies on the recommendation of the Head of the Department.
4. Not more than 3 credit hours in courses in the students major Program may be used to satisfy the requirements of the minor in Women's studies.

### 8.32.3 Course Descriptions

#### Core Courses

Women's Studies 1000  
Women's Studies 2005  
Women's Studies 3000  
Women's Studies 3005  
Women's Studies 4000

- Notes: 1. *Normal prerequisites and waiver policies in the respective departments will apply.*  
 2. *Some courses may not be offered on a regular basis. Consult the appropriate department for scheduling information.*

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Women's Studies courses are designated by WSTD.

**1000 Introduction to Women's Studies** considers women, women's studies and feminisms as areas of exploration from historical, cross-cultural and interdisciplinary perspectives. The aim of this course is to provide a critical framework for thinking about questions relating to gender and other forms of social difference.

Note: *Students can receive credit for only one of Women's Studies 1000 and the former Women's Studies 2000.*

**2005 Identities and Difference** examines feminist scholarship about the construction of identities and difference in cultural discourses, representation and institutions.

Prerequisite: WSTD 1000

**3000 Feminist Approaches to Research Methods** addresses the question 'what is feminist research?' It familiarizes students with basic tools and research skills for feminist enquiry. As a requirement of this course, students may be asked to design and carry out a research project.

Prerequisite: WSTD 1000

**3001 Women Writers in the Middle Ages** (same as Medieval Studies 3006 and English 3006) will study selections from the considerable corpus of women's writings in the Medieval period, as well as issues which affected women's writing. All selections will be read in English translation.

Note: *Credit may not be obtained for more than one of WSTD 3001, English 3006, Medieval Studies 3006, and the former Medieval Studies 3351.*

**3002-3020 (Excluding 3004, 3005 and 3009) Special Topics in Women's Studies** will have topics announced by the Department.

**3005 Feminist Texts, Theories and Histories** is an examination of the development of feminist theories through analyses of key texts and their connections to historical and contemporary debates within feminism.  
 Prerequisite: WSTD 1000 is required. WSTD 2005 is recommended.

**3100 Women and Health** uses an interdisciplinary perspective and will explore selected issues relating to women and their health. The material covered will help students acquire a better appreciation and understanding of some of the determinants of women's health, gender bias in health care and research, the portrayal of women's health in the popular press, and women as patients. A primary emphasis of the course will be to teach students the skills to carry out gender-based analyses of the health literature and health organizations.

Prerequisite: WSTD 1000. WSTD 2005 is recommended.

Note: *Credit may be obtained for only one of WSTD 3100 and Sociology 4201*

**3710-3720 Special Topics in Women's Studies** are available only as part of the Harlow Campus Semester.

**4000 Contemporary Feminist Issues** is an interdisciplinary seminar in Women's Studies that identifies emerging debates in contemporary feminism and analyses complex and contentious issues and how they intersect and disrupt social constructions of gender. Three hour seminar per week.

Prerequisites: Students must normally have completed WSTD 3000 and 15 credit hours in other courses applicable to the Women's Studies Major and Minor programs before taking Women's Studies 4000. WSTD 3005 is recommended. In exceptional cases, students without these prerequisites may be accepted, with the approval of the instructor of WSTD 4000 and the Head of the Department.

**4005 Feminist Praxis** examines, in considerable depth and detail, connections between feminist theories and feminist activism for social and political change. It examines how women's activism is mobilized in different historical, cultural and national contexts.

Prerequisite: Students must normally have completed WSTD 3005 and 15 credit hours in other courses applicable to the Women's Studies Major and Minor programs before taking WSTD 4005. In exceptional cases, students without these prerequisites may be accepted, with the approval of the instructor of WSTD 4005 and the Head of the Department.

**4107 Women and Technological Change** (same as Sociology 4107) is an advanced seminar which provides an interdisciplinary survey of the effects of technology on women's lives. Topics could include: The historical development of domestic technology; changes in workplace technology and their impact on women; assessing technologies from a feminist perspective; the design of technological systems; biomedical and reproductive technologies; information technologies; biotechnology; development in architecture and design; women, development, and technology; women and weapons technology; women and ecology; future technological change and women's lives. The course will combine seminar discussions of reading with films, workplace tours and guest speakers.

Note: *Credit may be obtained for only one of WSTD 4107, Sociology 4107, and the former WSTD 3009.*

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Faculty Description

The Faculty of Business Administration is known for innovative, high-quality academic programs, basic and applied research, and responsive community outreach activities, including those provided by the **Gardiner Centre**. The faculty prepares students to succeed in a competitive work place. Each business program is designed to give students the skills and experience needed to advance their careers. The faculty's close-knit community provides students with many opportunities to get involved and network with fellow

classmates.

Additional information regarding the Faculty of Business Administration is available at [www.business.mun.ca](http://www.business.mun.ca). Information about the Gardiner Centre is available at [www.busi.mun.ca/gardinercentre/](http://www.busi.mun.ca/gardinercentre/).

Students must meet all regulations of the Faculty in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

## 2.1 Faculty History

In 1954, the University approved a bachelor of commerce undergraduate degree. Over the next two decades, the Department grew substantially in the size of its student enrolment and program offerings. In 1973, it was renamed the School of Business Administration and Commerce, and the University established the first co-operative undergraduate business program in Canada. In 1981 the School was granted faculty status, reflecting the growth and diversity of its academic programs.

In 2002, the Faculty of Business Administration became the first in Atlantic Canada to be accredited by AACSB International—the Association to Advance Collegiate Schools of Business. AACSB International is one of higher education's most prestigious and rigorous accrediting bodies, stressing academic excellence and dedication to continuous improvement. This accreditation is the highest distinction offered to business schools both nationally and internationally.

## 2.2 Mission Statement

To prepare students, business and community partners to become ethically and socially responsible leaders who are innovative thinkers and creative individuals, capable of competing and succeeding in a global business environment.

## 2.3 Vision Statement

1. To become the faculty of choice for students looking for a business education characterized by creativity, adaptability, and experiential learning that is unsurpassed in Canada; and
2. To become recognized provincially, nationally and internationally for leadership and excellence in: basic and applied research, continuing management education, and business and entrepreneurial support.

## 2.4 Values Statement

1. Leadership and Innovation: We are committed to demonstrating leadership and to ensuring a professional educational environment; to being strategic in our thoughts and in our actions; and to developing and fostering an entrepreneurial culture that stretches our boundaries.
2. Respect and Diversity: We will treat people fairly and in an equitable manner; encourage mutual support and demonstrate respect for each other, for teaching and for research; embrace diverse cultures, new ideas and new approaches; and demonstrate respect for our environment.
3. Excellence: We will set high standards and challenge people to reach their potential; promote critical and analytical thinking; and demonstrate competence and relevance through high quality faculty, staff, and students.
4. Collaboration: We are committed to our relationships and to our partnerships; to being a valued partner that is open to working with others to advance mutual interests; to recognizing the role of others; and to providing a meaningful contribution to any collaborative efforts.
5. Integrity: We are committed to the highest level of integrity in the way we do things and in what we produce.

## 3 Description of Programs

Students must meet all regulations of the Faculty of Business Administration in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

All courses of the Faculty are designated by BUSI.

### 3.1 Undergraduate Programs

The following undergraduate programs are available:

1. **Minor in Business Administration:** is comprised of eight business courses (24 credit hours) and is available to students who are completing non-Business degree programs which provide for the completion of a minor.
2. **Minor in International Business:** is comprised of eight business courses (24 credit hours) and is available to students who are completing non-Business degree programs which provide for the completion of a minor.
3. **Diploma in Business Administration:** is a 20-course (60 credit hour) program designed to meet the needs of individuals who hold full- or part-time employment and wish to complement their work experience with theoretical business training. The majority of the required courses are offered through distance education.
4. **Bachelor of Commerce (Co-operative):** is a full-time, 45-course (135 credit hour) program with a structured format. This five-year degree includes three four-month work terms. Students have the opportunity to concentrate in accounting, finance, human resource management/labour relations, information systems, international business, marketing, operational research, small business and entrepreneurship, or supply chain management.
5. **Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts:** is comprised of 50-courses (150 credit hours). Students in the Bachelor of Commerce (Co-operative) program may simultaneously complete the requirements for a Bachelor of Arts program. Some degree requirements are modified for students pursuing joint degrees.
6. **Bachelor of Commerce (Co-operative) (Honours):** signifies superior academic achievement.
7. **Bachelor of Business Administration (B.B.A.):** is a 40-course (120 credit hour) general business program with a flexible course structure. This four-year degree may be completed in-class, via distance education, or a combination of both. It can be completed full- or part-time.
8. **Bachelor of Business Administration (Honours):** signifies superior academic achievement.
9. **International Bachelor of Business Administration (i.B.B.A.):** is comprised of 40 courses (120 credit hours) and is designed to produce business professionals with a global perspective. This four year degree differs from traditional business programs in its

requirements that graduates must complement the usual set of business skills with an understanding of the international environment as well as with cross-cultural skills and experience relevant to a particular global region (e.g., Asia, Europe or Latin America).

10. **International Bachelor of Business Administration (i.B.B.A.) (Honours)**: signifies superior academic achievement.

### 3.1.1 Business Co-operative Education

General management of the work terms in the Co-operative Program is the responsibility of Business Co-operative Education. Through its co-ordinators, it is responsible for assisting potential employers to become involved in the program, for the continual development of employment opportunities, for arranging student-employer interviews, for counselling of students, for visiting students on their work assignments and for the evaluation of the work term.

Students and employers choose each other through the job competition process. Job advertisements are posted and students may apply for up to twelve positions. Employers interview students, and both the students and employers express their preferences for one another.

Students are then placed by Business Co-operative Education to reflect expressed preferences. Placement is not guaranteed but every effort is made to ensure that appropriate employment is made available. In the case of students who are required to withdraw from the program, Business Co-operative Education has no responsibility for placement until they have been readmitted to the program.

Salaries paid to co-operative students are determined by employers based upon their internal wage structures, and tend to increase as the student progresses through the program and assumes more responsibility. However, students should not expect the income from work terms to make them completely self-supporting.

Students in the Co-operative Program give permission to prospective employers, in the course of the placement process, to have access to their records, which contain their academic marks and their work term evaluations. After accepting a position, students may not withdraw from a specific job situation unless prior permission is obtained from the Dean or his delegate.

## 3.2 Graduate Programs

Programs leading to the **Master of Business Administration (M.B.A.)**, the **Master of Business Administration (Executive Option in Petroleum) (EMBA)**, the **Master of Employment Relations (MER)**, and the **Ph.D.(Management)** degrees are described in the **School of Graduate Studies** section of the University Calendar.

## 4 Program Regulations

1. The Office of the Registrar and the Faculty of Business Administration will assist students with any questions or problems which might arise concerning the interpretation of academic regulations. It is, however, the responsibility of students to see that their academic programs meet the University's regulations in all respects.
2. No student shall obtain more than one undergraduate degree from the Faculty of Business Administration.
3. The Faculty of Business Administration, may recommend that transfer credit for certain Business courses be awarded on the basis of successful completion of professional courses that lead to a professional designation (e.g. C.A., C.G.A., C.M.A.). Applications for transfer credit should be made through the Office of the Registrar.
4. The Faculty of Business Administration may approve that credit for certain Business courses successfully completed through Memorial University of Newfoundland's former Extension Services Division be granted upon application to the Registrar for transfer credit evaluation.

### 4.1 Regulations for Business Minors

1. Students who are completing a non-Business degree program which provides for the completion of a minor may complete a minor in either Business Administration or International Business.
2. Students who wish to undertake either Business minor program must have completed a minimum of 30 credit hours. Application is made in the space provided on the Declaration/Change of Academic Program Form which must then be approved by the Dean of the Faculty of Business Administration, or delegate. The form may be obtained in person at the Office of the Registrar or at [www.mun.ca/regoff/registration/Declare\\_Academic\\_Program.pdf](http://www.mun.ca/regoff/registration/Declare_Academic_Program.pdf). Admission into the minor program is selective: at the time of application a student must have a cumulative average of at least 65%.
3. A **Minor in Business Administration** shall consist of 24 credit hours comprising the following courses: BUSI 1000, 1101, 1210, 3310, 4000, 4500, and two courses chosen from BUSI 1600, 2101, 2210, 3101, 3700, 4320 and 4330.
4. A **Minor in International Business** is offered as a special program of an interdisciplinary nature, consisting of 24 credit hours as follows:
  - a. BUSI 1101, 1210, 3310, 5302, Political Science 2200; and
  - b. Three further courses from BUSI 6012, 6024, 6040, 6311, 6550, 7240, a pre-requisite for one of the preceding courses and/or from cognate courses such as Economics 3030, 4030, Political Science 3210, and 3250, to be chosen through prior consultation with the Coordinator of the International Business program.
5. Course prerequisites for all courses shall apply to both Business minors. Students should note, for example, that the prerequisites for BUSI 4500 are BUSI 1101, Statistics 2500 and Economics 2010, and that the prerequisites for BUSI 5302 are BUSI 1000, Economics 2010 and 2020. It should be noted that some courses are not offered every semester.

### 4.2 Regulations for General Degree of Bachelor of Commerce (Co-operative)

#### 4.2.1 Admission Modes and Requirements

##### 4.2.1.1 Direct Entry (for High School Students)

Students may apply for admission into first year of the Bachelor of Commerce (Co-operative) program (Terms A/B) directly from high school by indicating this in the appropriate place on their Undergraduate Application for Admission/Readmission to Memorial University of Newfoundland. Direct entry from high school is subject to the applicant's final acceptance to the University and admissibility into either Mathematics 1000 or 1090. Terms A/B normally starts in September.

#### 4.2.1.2 Advanced Standing (for Current Memorial University of Newfoundland Students)

1. Students may apply for admission with Advanced Standing into terms beyond Terms A/B up to and including Term 4. Students applying for admission to a term beyond Terms A/B must have completed all of the courses required in the program up to that term, including the courses required in Terms A/B, with grades high enough to have met promotion requirements. Students applying for admission with advanced standing must complete and submit to the Office of the Registrar the Faculty of Business Administration Application For Admission, normally on or before the deadlines specified in the **University Diary** for the semester in which they intend to begin their program.
2. Admission with Advanced Standing is competitive and selective. Prospective students are therefore encouraged to consider an alternate degree program in the event that they are not accepted into the Bachelor of Commerce (Co-operative) program.
3. The primary criterion used in reaching decisions on applications for admission with advanced standing is overall academic achievement. Selection, therefore, will be based on a student's overall academic performance. Students with weak overall academic records are unlikely to be admitted.

#### 4.2.1.3 Transfers From Other Post-Secondary Institutions

1. Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the **University Diary** for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits. Subject to items 2. and 3. under **Advanced Standing (for Current Memorial University of Newfoundland Students)** above, transfer students from other universities will be placed in that Term of the program judged by the Admissions Committee of the Faculty to be appropriate considering equivalent credits. Regardless of the Term into which they are admitted, transfer students must complete a minimum of two work terms.
2. Subject to items 2. and 3. under **Advanced Standing (for Current Memorial University of Newfoundland Students)** above, graduates of a three-year community college business diploma program may be considered for admission into Term 3. Space for Term 3 admissions is limited and competitive and admission decisions will be based on overall academic performance. Specific course requirements will be determined on an individual basis at the time of admission.

#### 4.2.2 The Curriculum

1. To graduate with the Bachelor of Commerce (Co-operative) degree, every candidate shall successfully complete 135 credit hours over nine academic terms in the Co-operative Program and shall normally be required to successfully complete three work terms. The 135 academic credit hours are distributed as follows: 30 credit hours over the course of Terms A/B and 15 credit hours in each of Terms 1 through 7.
2. Students who have been admitted to the Bachelor of Commerce (Co-operative) program must complete courses in academic terms or "blocks" in the sequence, order and course load as set out in the **Table 1 Bachelor of Commerce (Co-operative) Curriculum**. Exceptions to this prescribed program, including specified course load, must have the approval of the Admissions Committee or of the Committee on Undergraduate Studies of the Faculty.
3. By the end of the Winter semester of their first year, Terms A/B students must have successfully completed the following 30 credit hours:
  - a. Six credit hours in English courses which must include English 1110 or 1021;
  - b. Mathematics 1000;
  - c. Economics 2010 and 2020;
  - d. BUSI 1000;
  - e. Twelve additional credit hours in non-Business electives\*.

\*Students who wish to complete the **Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts** [see entry immediately following The Curriculum below] are strongly advised to include courses in a second language and courses in the subject of the intended Major program.

4. The curriculum of courses and work terms beyond the 30 credit hours required in Terms A/B is as follows:
  - a. Statistics 2500
  - b. Fifty-four credit hours in core Business Administration courses: 1101, 1210, 1600, 2010, 2101, 2210, 2400, 2710, 3310, 3401, 3700, 4000, 4050, 4320, 4330, 4500, 5301, and 7000.
  - c. At least 21 credit hours but no more than 36 credit hours in Business electives which must be chosen from **Table 4 Business Electives**.
  - d. At least 12 credit hours but no more than 27 credit hours in non-Business electives.
  - e. Three work terms of four months duration each.

Unspecified credits may not be used to fulfil the requirements outlined in a., b., and e. above.
5. Notwithstanding clauses 2. and 4. and bullet three of **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate), Classification of Students**, students do not require special permission to register for courses while on work terms if the courses are in addition to the prescribed program.

**Table 1 Bachelor of Commerce (Co-operative) Curriculum**

Fall and Winter Terms A/B	6 credit hours in English courses which must include English 1110 or 1021 Mathematics 1000 Economics 2010 and 2020 BUSI 1000 12 additional credit hours in non-BUSI electives
Fall Academic Term 1	BUSI 1101 BUSI 1210 Statistics 2500 6 credit hours chosen from: BUSI 1600, BUSI 2010, BUSI 2400, BUSI 2710, and 3 credit hours of electives*
Winter Academic Term 2	BUSI 2101 BUSI 2210 Remaining 9 credit hours chosen from: BUSI 1600, BUSI 2010, BUSI 2400, BUSI 2710, and 3 credit hours of electives*
Spring	
Fall Academic Term 3	BUSI 3310 BUSI 3401 BUSI 3700 6 credit hours in elective courses*
Winter Work Term 1	BUSI 399W
Spring Academic Term 4	BUSI 4000 BUSI 4050 BUSI 4320 BUSI 4330 BUSI 4500
Fall Work Term 2	BUSI 499W
Winter Academic Term 5	BUSI 5301 12 credit hours in elective courses*
Spring Work Term 3	BUSI 599W
Fall Academic Term 6	BUSI 7000 12 credit hours in elective courses*
Winter Academic Term 7	15 credit hours in elective courses*

\* Of the 48 credit hours in elective courses required in the program from Terms 1 through 7, 21 – 36 credit hours must be chosen from Business electives in **Table 4 Business Electives** and 12 – 27 credit hours must be non-Business electives.

#### 4.2.3 Regulations for the Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts

Any student who is admitted into the Bachelor of Commerce (Co-operative) program may simultaneously complete the requirements for a Bachelor of Arts program. Under those circumstances, regulations for the Bachelor of Commerce (Co-operative) program will be relaxed as follows. Notwithstanding clauses 4.c. and 4.d. of **The Curriculum** under the **Regulations for the General Degree of Bachelor of Commerce (Co-operative)**, students in the Bachelor of Commerce (Co-operative) program who are concurrently completing the Bachelor of Arts degree will be permitted to make the following adjustments to those clauses:

1. clause 4.c. - no fewer than 15 credit hours, but no more than 36 credit hours, in Business electives which must be chosen from **Table 4 Business Electives**.
2. clause 4.d. - no fewer than 12 credit hours, but no more than 33 credit hours, in elective courses chosen from the Faculty of Arts.

These adjustments to the normal curriculum will only be permitted for students who are graduating with the Bachelor of Commerce (Co-operative) degree and the Bachelor of Arts degree at the same convocation. In order to meet all of the requirements of both degree Programs at the same time, students who are completing the joint degrees are strongly advised to follow **Table 2 Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly with the Bachelor of Arts)**.

**Table 2 Bachelor of Commerce (Co-operative) Curriculum (Completed Jointly with the Bachelor of Arts)**

Fall and Winter Terms A/B	6 credit hours in English courses which must include English 1110 or 1021 Mathematics 1000 Economics 2010 and 2020 BUSI 1000 12 additional credit hours in non-BUSI electives [see Note 1. below]
Fall Academic Term 1	BUSI 1101 BUSI 1210 Statistics 2500 6 credit hours chosen from: BUSI 1600, BUSI 2010, BUSI 2400, BUSI 2710, and 3 credit hours in Major, Core or elective courses [see Note 1. below]
Winter Academic Term 2	BUSI 2101 BUSI 2210 Remaining 9 credit hours chosen from: BUSI 1600, BUSI 2010, BUSI 2400, BUSI 2710, and 3 credit hours in Major, Core or elective courses [see Note 1. below]
Spring	[see Note 2. below]
Fall Academic Term 3	BUSI 3310 BUSI 3401 BUSI 3700 At least 6 credit hours in Major, Core or elective courses [see Note 3 below]
Winter Work Term 1	BUSI 399W [see Note 2. below]
Spring Academic Term 4	BUSI 4000 BUSI 4050 BUSI 4320 BUSI 4330 BUSI 4500
Fall Work Term 2	BUSI 499W [see Note 2. below]
Winter Academic Term 5	BUSI 5301 At least 12 credit hours in Major, Core or elective courses [see Note 3. below]
Spring Work Term 3	BUSI 599W [see Note 2. below]
Fall Academic Term 6	BUSI 7000 At least 12 credit hours in Major, Core or elective courses [see Note 3. below]
Winter Academic Term 7	At least 15 credit hours in Major, Core or elective courses [see Note 3. below]

Notes: 1. The Bachelor of Arts requires completion of a Major program, a Minor program, a set of Core Requirements, and elective courses, totalling at least 78 credit hours in courses offered by departments within the Faculty of Arts (or Computer Science, Mathematics and Statistics, and Psychology). When the Bachelor of Arts is completed jointly with the Bachelor of Commerce (Co-operative):

- Minor program requirements are satisfied by BUSI courses specified in **Table 1 Bachelor of Commerce (Co-operative) Curriculum** above.
  - Core requirements for English and Numeracy/Science are satisfied by courses completed in Terms A/B or during Terms 1 or 2 of the Bachelor of Commerce (Co-operative) degree.
  - It is recommended that the Core Requirement for 6 credit hours in courses in a second language be completed in Terms A/B of the Bachelor of Commerce (Co-operative) degree program.
  - Core requirements for 6 credit hours in research/writing courses may be satisfied by including two such courses within the 78 credit hours in courses offered by departments within the Faculty of Arts. Please consult the Undergraduate Registration Procedures booklet to determine research/writing course offerings in any given semester.
  - Major requirements for the Bachelor of Arts may be satisfied in 36 to 45 credit hours, depending on the department or program chosen. Students are strongly recommended to seek advice from the department or program of their Major to ensure that their proposed degree program is possible within the constraints of course scheduling and prerequisites.
- Students are advised that, in order to complete the joint degrees within the minimum 150 credit hours, they must complete at least five of the courses required for the Bachelor of Arts as opportunities arise and as courses are offered. These courses may be completed during the Spring semesters between Terms A/B and Term 1, between Terms 2 and 3, or during any of the three Work Terms (for example, in the evening or by distance), or as sixth courses during any of the academic terms (following submission of a course load waiver).
  - To meet the requirements for the Bachelor of Commerce (Co-operative), not fewer than 15 and not more than 36 credit hours in BUSI electives must be chosen from **Table 4 Business Electives**. Students intending to complete the joint degrees in the minimum number of 150 credit hours should ensure that at least 78 of these credit hours are completed in courses offered by departments within the Faculty of Arts (or Psychology, Mathematics and Statistics, and Computer Science). Careful planning, particularly in the selection of elective courses as well as in the sequence of Major program courses, is therefore recommended to ensure timely completion of the joint degrees.

#### 4.2.4 Minor or Cognate From Another Academic Unit

- A student enrolled in the Bachelor of Commerce (Co-operative) program may, using all of the non-Business electives required in the curriculum, complete a minor within the Faculty of Arts, the Faculty of Science, the School of Music, or offered at Sir Wilfred Grenfell College. Regulations for the minor are given under the Calendar entries for the Faculty of Arts, the Faculty of Science, and the School of Music, and under the Calendar entry for Sir Wilfred Grenfell College.
- A student enrolled in the Bachelor of Commerce (Co-operative) program may pursue a minor (or equivalent) in other non-business academic units (where minor programs exist) with permission of that academic unit and permission of the Committee on Undergraduate Studies of the Faculty of Business Administration.

#### 4.2.5 Examination and Promotion for the Bachelor of Commerce (Co-operative)

- The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business

courses. In addition, the standing of every student will be assessed by the Committee on Undergraduate Studies in accordance with the promotion requirements outlined in Clauses 2., 3., and 9. below.

- Students in Terms A/B will be considered for promotion to Term 1 at the end of the Winter semester of their first year. At that time, for promotion from Terms A/B, students must have successfully completed the 30 credit hours prescribed in 3. of **The Curriculum** above, with an overall average on those 30 credit hours of at least 65%. Students who do not satisfy these requirements will be required to withdraw from the program and will not be promoted to Term 1.

Students who have been required to withdraw following Terms A/B may be considered for readmission to the program in accordance with the entry under **Admission Modes and Requirements** above, with the heading **Advanced Standing (for Current Memorial University of Newfoundland Students)**.

A required withdrawal for failure to meet the promotion requirements from Terms A/B will not be reflected on a student's transcript.

- For promotion from each of Terms 1 through 7, the requirements are the achievement of a passing grade in at least 12 credit hours and an overall average of at least 60% in those courses required in each academic term.

Students in an academic term who do not maintain the appropriate course load as outlined in Clause 2. of **The Curriculum**, and who do not have the prior approval of the Committee on Undergraduate Studies for a reduced course load, will be required to withdraw from the program and will not be promoted.

Students completing Terms 1 through 7 who fail to achieve these standards will be required to withdraw from the program. A required withdrawal from any of Terms 1 through 7 will be reflected on a student's transcript.

Students who meet the academic promotion requirements above but who fail a core course in any of Terms 1 through 7 will be required to successfully repeat that course prior to graduation. Students who meet the promotion requirements above but who fail an elective in any of Terms 1 through 7 will be required to either successfully repeat that elective or successfully complete an additional elective to replace it prior to graduation.

- The Committee on Undergraduate Studies of the Faculty of Business Administration may promote a student notwithstanding promotion requirements listed in Clause 3. above. A decision of this nature will be made only for reasons acceptable to the Committee on Undergraduate Studies, and in the case of a student thought likely to succeed in future terms.
- Students who have been required to withdraw following any one of Terms 1 through 7 may be considered for readmission after the lapse of two semesters, at which time they will normally be required to repeat the term which they failed, unless, in the opinion of the Admissions Committee, Faculty of Business Administration, a more meaningful course of study would be appropriate.

In order to be considered for readmission, students must formally apply for readmission to the program not later than the deadlines specified in the **University Diary** for the semester in which they wish to recommence their program.

- The dates for starting and finishing each work term are shown in the **University Diary**. Successful completion of the work term requirements is a prerequisite to graduation.
- A competition for work term employment is organized by Business Co-operative Education. Students may obtain their own work term jobs outside the competition. Such jobs must be confirmed by letter from the employer and approved by Business Co-operative Education on or before the first day of the work period. By entering the competition, students give permission for Business Co-operative Education to supply their university transcripts to potential employers.
- A work report on a topic approved by Business Co-operative Education must be submitted for each work term. This report must be approved by the employer and submitted to Business Co-operative Education on or before the deadline scheduled by Business Co-operative Education. Evidence of the student's ability to gather material relating to the report, analyse it effectively, and present it in a clear, logical and concise form, will be required in the report. Late reports will not be graded unless prior permission for a late report has been given by Business Co-operative Education.
- The overall evaluation of the work term is the responsibility of Business Co-operative Education. The work term shall consist of two components:

Student performance as evaluated by a co-ordinator, given input from the employer, and a work report graded by a co-ordinator or a member of faculty.

Evaluation of the work term will result in the assignment of one of the following final grades:

- Pass with Distinction*: Indicates **EXCELLENT PERFORMANCE** in both the work report and work performance. The student is commended for his/her outstanding performance in each of the required components; pass with distinction has been awarded to each of the work report and work performance.
- Pass*: Indicates that **PERFORMANCE MEETS EXPECTATIONS** in both the work report and work performance. The student fully meets the requirements of a passing work report and completely satisfactory work term performance.
- Fail*: Indicates **FAILING PERFORMANCE** in the work report and/or the work performance.

For promotion from the work term, a student must obtain **PASS WITH DISTINCTION** or **PASS**.

If a student fails to achieve the standards outlined above, the student will be required to withdraw from the program and may be considered for readmission after the lapse of two semesters, at which time the student will be required to complete a further work term with satisfactory performance before being admitted to any further academic term in the Faculty.

- A student who has been required to withdraw from the program as a result of failing to meet the requirements of either two academic terms or two work terms will not be eligible for readmission to the program.
- Students are not permitted to drop work terms without prior approval of the Committee on Undergraduate Studies upon the recommendation of Business Co-operative Education. Students who drop a work term without permission, or who fail to honour an agreement to work with an employer, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a grade of FAL for that work term. Permission to drop a work term does not constitute a waiver of degree requirements, and students who have obtained such permission must complete an approved work term in lieu of the one dropped.

#### 4.2.6 Regulations for the Honours Degree of Bachelor of Commerce (Co-operative)

An Honours Degree of Bachelor of Commerce (Co-operative) signifies superior academic achievement.

- To be considered for an Honours Degree, the candidates must so indicate on the prescribed "Application for Graduation" form. This form may be obtained at the Office of the Registrar or on-line at the Memorial Self Service at [www3.mun.ca/admit/twbkwbis.P\\_WWWLogin](http://www3.mun.ca/admit/twbkwbis.P_WWWLogin).
- Candidates for the Honours Degree of Bachelor of Commerce (Co-operative) shall comply with all regulations governing the **General Degree of Bachelor of Commerce (Co-operative)**.

3. A candidate shall obtain at least a 75% average and a grade point average of at least 3.5 on the courses which comprise the total number of credit hours required for the degree. Candidates are not permitted to repeat or substitute courses for the purpose of meeting these criteria.
4. To be eligible for the Honours degree, a candidate must pass all of the core courses required in Terms 1 through 7 on his/her first attempt.
5. A student who has been required to withdraw from the program as a result of failing to meet the requirements for promotion from academic Terms 1 through 7 or from Work Terms 1, 2, or 3 will not be eligible for an Honours Degree.
6. An applicant for the Honours Degree who fails to fulfill the conditions of Clauses 3., 4., and 5. but fulfills the requirements for a General Co-operative Degree shall be awarded the General Degree of Bachelor of Commerce (Co-operative).

### 4.3 Commerce Concentrations

Students completing the Bachelor of Commerce (Co-operative) degree may choose to complete their Business electives in a number of different areas or to concentrate in one of the areas outlined below. In either case, students must complete at least 21 credit hours but no more than 36 credit hours in BUSI electives which must be chosen from **Table 4 Business Electives**. A concentration provides the student with the opportunity of broadening knowledge and understanding of one of the following areas. Particular attention should be paid to necessary prerequisites when scheduling courses. Students enrolled in Study Abroad programs should consult with the appropriate Faculty of Business Administration Area Group Coordinator regarding the applicability of courses taken while studying abroad to their chosen concentration.

#### 4.3.1 Accounting

Students electing an Accounting concentration should complete the following courses:

1. BUSI 3101, BUSI 5160, BUSI 5500, BUSI 6100, BUSI 6110, BUSI 6120, BUSI 6130, BUSI 7120; and
2. either BUSI 7110 or BUSI 7160. Normally students pursuing a C.M.A. designation would complete BUSI 7160.

Students intending to pursue the C.A., C.M.A., or C.G.A. designations in general should consult the appropriate body to determine the courses required.

#### 4.3.2 Finance

Students electing a Finance concentration should complete the following courses:

1. BUSI 5500, BUSI 6120, BUSI 6510, BUSI 6550, BUSI 7500, and BUSI 7510; and
2. any three of the following courses: Mathematics 2090, Economics 3000, Economics 3010, Economics 3030, Economics 3150, Economics 4025, Economics 4026, BUSI 5530, BUSI 6100, BUSI 6110, or BUSI 7150

#### 4.3.3 Human Resources and Labour Relations

Students electing the Human Resources and Labour Relations concentration should complete the following courses:

1. BUSI 6310, BUSI 6320, BUSI 7310, BUSI 7322; and
2. any four of the following: BUSI 6019, BUSI 6024, BUSI 6301, BUSI 6311, BUSI 6312, BUSI 7315, BUSI 7320, BUSI 7321, BUSI 7330, or Economics 3360

#### 4.3.4 Information Systems

Students electing an Information Systems concentration should complete the following courses:

1. Six of BUSI 5700, BUSI 5701, BUSI 5702, BUSI 5703, BUSI 6700, BUSI 6701, BUSI 7700, and BUSI 7701; and
2. a. either Geography 2195, Geography 3260, and one of Geography 3202, Geography 4202, Geography 4261  
b. or three of the following: Computer Science 1710, Computer Science 2500, Computer Science 2710, Computer Science 2760, Computer Science 3710, Computer Science 3715, Computer Science 4761, Computer Science 4767

#### 4.3.5 International Business

Students electing an International Business concentration should complete the following eight courses, of which at least five should be from the Faculty of Business Administration:

1. BUSI 5302, Political Science 2200 and either BUSI 6550 or Economics 3030; and
2. any five of the following: BUSI 6012, BUSI 6024, BUSI 6040, BUSI 6311, BUSI 6550, BUSI 7240 and other courses with global or regional business content selected in consultation with the Coordinator of the i.B.B.A. program. These may include courses taken as part of an approved Study Abroad program (up to a maximum of 9 credit hours).

#### 4.3.6 Marketing

Students electing a Marketing concentration should complete the following courses:

1. BUSI 3210, BUSI 5220, and BUSI 7230; and
2. any three of the following: BUSI 5210, BUSI 5217, BUSI 6217, BUSI 6218, BUSI 6230, BUSI 6240, BUSI 6250, BUSI 7240, or BUSI 7250

#### 4.3.7 Operational Research

Students electing a Operational Research concentration should complete the following eight courses:

1. BUSI 5401, BUSI 5402, BUSI 6400, and BUSI 7400; and
2. any four of: Computer Science 1710, Computer Science 2710, Mathematics 1001, Mathematics 2050, and any Business Information Systems course (or courses) at the 5000 level or above.

#### 4.3.8 Small Business/Entrepreneurship

Students electing a Small Business/Entrepreneurship concentration should complete the following courses:

1. BUSI 5220, BUSI 5600, BUSI 6600, BUSI 7010, BUSI 7600, and BUSI 7610; and

2. any three of the following: BUSI 6120, the former BUSI 6220, BUSI 6250, BUSI 6312, BUSI 6610, BUSI 7230, or BUSI 7240

### 4.3.9 Supply Chain Management

Students electing a Supply Chain Management concentration should complete the following courses: BUSI 5401, BUSI 5402, BUSI 6410, BUSI 6415, BUSI 7410, and BUSI 7415.

## 4.4 Regulations for the Diploma in Business Administration

1. To be considered for admission to the Diploma Program in Business Administration, applicants must normally have satisfied the following requirements:

- a. Successful completion of 15 academic credit hours as follows:
  - i. Six credit hours in English which must include English 1110 or 1021;
  - ii. Mathematics 1000;
  - iii. BUSI 1000;
  - iv. Three credit hours of non-Business electives.

Only students with an overall average of at least 60% in the courses comprising the 15 credit hours required will be considered for admission to the program.

Overall academic performance is an important criterion in reaching decisions on applications for admission, and will be considered, in addition to the average on the five courses required for admission, in the selection process. Students with weak overall academic records are unlikely to be admitted.

- b. At least five years of full-time work experience, or equivalent, that is deemed acceptable by the Admissions Committee of the Faculty of Business Administration.

In the case where students have been required to withdraw from one of the Faculty's other undergraduate programs, the Admissions Committee of the Faculty may consider this circumstance as grounds to deny admission.

2. To be eligible for the Diploma in Business Administration, a student must:
  - a. have been admitted to the Diploma Program;
  - b. successfully complete the following 45 credit hours in addition to the 15 credit hours required for admission (a total of 60 credit hours):
    - i. Economics 2010 and 2020;
    - ii. Statistics 2500 or equivalent;
    - iii. BUSI 1101, 1210, 1600, 2400, 2710, 3310, 4000, and 4500;
    - iv. Four of the following, one of which must be either BUSI 4320 or 4330: BUSI 2010, 2101, 2210, 2710, 3401, 4050, 4320, and 4330.
  - c. Achieve an overall average of at least 60% in the courses which comprise the 45 credit hours specified in clause 2. b. A student failing to meet this requirement will be required to repeat a course(s) to raise the overall average to the minimum acceptable level.
  - d. Successfully complete a comprehensive case analysis with report (BUSI 450W). BUSI 450W will not be required of students who complete BUSI 4050 from the list in 2.b.iv. above.
  - e. Students planning to pursue their Bachelor of Business Administration (see **Regulations for the General Degree of Bachelor of Business Administration (B.B.A.)**) are encouraged to note the prerequisites for BUSI 7000 and to plan their courses so that they have completed the prerequisites prior to the semester in which they plan to take BUSI 7000.
3. a. Every candidate for the Diploma in Business Administration will be required to complete at least 30 credit hours at this University. The courses comprising these credit hours must be applicable to the Diploma in Business Administration.
  - b. Every candidate for the Diploma in Business Administration, who has completed a Bachelor's degree at this University or another recognized university or university college, will be required to complete at least 30 credit hours at this University beyond those required for that degree. The courses comprising these credit hours must be applicable to the Diploma in Business Administration.

### 4.4.1 Continuance Regulations

1. The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Undergraduate Studies in accordance with the continuation requirements outlined in 2. below.
2. Students must qualify for continuation after each term of study. To continue, students must have an overall average of at least 60% over their last ten courses taken. In the event that a student has more courses than needed in the earliest term used, the courses with the highest grades in that term will be used.
3. Students who fail to achieve the standards outlined in 2. above normally will be required to withdraw from the program. They may be considered for readmission after a lapse of two semesters. In order to be considered for readmission, students must formally apply for readmission.
4. Students who are required to withdraw a second time are not eligible for readmission into the program.
5. The Committee on Undergraduate Studies of the Faculty of Business Administration may allow a student to continue who fails to achieve the standards outlined in 2. above. A decision of this nature will be made only for reasons acceptable to the Committee on Undergraduate Studies.

## 4.5 Regulations for the General Degree of Bachelor of Business Administration (B.B.A.)

### 4.5.1 The Curriculum

1. To be admitted to the B.B.A. program, students should select the B.B.A. program on their Undergraduate Application for Admission/Readmission to the University or on the Declaration/Change of Academic Program Form.

2. To graduate with the B.B.A., candidates must successfully complete the following 120 credit hours with a Grade Point Average on those 120 credit hours of at least 2.5 and a numeric average on those 120 credit hours of at least 60%:
  - a. Six credit hours of English which must include English 1110 or 1021
  - b. Mathematics 1000;
  - c. Economics 2010 and 2020;
  - d. Statistics 2500;
  - e. Business 1000, 1101, 1210, 1600, 2010, 2101, 2210, 2400, 2710, 3310, 3401, 3700, 4000, 4050, 4320, 4330, 4500, 5301, and 7000\*.
  - f. 45 credit hours of electives, of which not more than 21 credit hours may be from Business courses (which must be chosen from **Table 4 Business Electives**).

\* Students are encouraged to note the prerequisites for 7000 (Strategic Management 2) and to plan their courses so that they have completed the prerequisites prior to the semester in which they plan to take 7000.
3. Notwithstanding 1. above, graduates of a three year community college business diploma program may be eligible for exemptions for some of the curriculum requirements of the B.B.A. Students who are granted exemptions on the basis of their college business diploma will be required to complete, at this University, a minimum of 45 credit hours beyond those awarded on the basis of their college diploma. Specific course requirements will be determined on an individual basis by the Undergraduate Programs Office, Faculty of Business Administration.

#### 4.5.2 Minor or Cognate From Another Academic Unit

1. A student enrolled in the B.B.A. program may complete a minor within the Faculty of Arts, the Faculty of Science, the School of Music, or from Sir Wilfred Grenfell College. Regulations for the minor are given under the Calendar entries for the Faculty of Arts, the Faculty of Science, the School of Music, and Sir Wilfred Grenfell College.
2. A student enrolled in the B.B.A. program may pursue a minor (or equivalent) in other non-business academic units (where minor programs exist) with permission of that academic unit and permission of the Committee on Undergraduate Studies of the Faculty of Business Administration.

### 4.6 Regulations for the Honours Degree of Bachelor of Business Administration

An Honours degree of Bachelor of Business Administration signifies superior academic achievement.

1. To be considered for an Honours degree, the candidates must so indicate on the University's official Application for Graduation form. This form may be obtained at the Office of the Registrar or on-line at the Memorial Self Service at [www3.mun.ca/admit/twbkwbis.P\\_WWWLogin](http://www3.mun.ca/admit/twbkwbis.P_WWWLogin).
2. Candidates for the Honours Degree of Bachelor of Business Administration shall:
  - a. comply with all regulations governing the General Degree of Bachelor of Business Administration, and
  - b. obtain at least a 75% average and a grade point average of at least 3.5 on the 120 credit hours prescribed in **The Curriculum**.
3. Candidates are not permitted to repeat or substitute courses for the purpose of meeting the academic standing specified in Clause 2. In the case of a student who has repeated courses and/or who has completed more than 120 credit hours at the time of application for graduation, applicable courses will be taken in chronological order rather than in order of grade in calculating 2.b. above.
4. A declared candidate for an Honours degree who fails to fulfil the conditions of Clause 2. but fulfils the requirements for a General degree shall be awarded the General Degree of Bachelor of Business Administration.

### 4.7 Regulations for the General Degree of International Bachelor of Business Administration (i.B.B.A.)

#### 4.7.1 General Regulations

1. The International Bachelor of Business Administration (i.B.B.A.) program requires a total of 120 credit hours.
2. The program includes a compulsory one-semester approved program of full-time study at an overseas location. Students must normally have completed at least 72 credit hours of the program and no more than 96 credit hours of the program prior to commencement of the study abroad program.
3. The overall program must have a coherent global and regional content. In order to achieve this coherency students shall nominate a global region (e.g. Asia, Europe, Latin America) as a focus area within their program. The choice of region will affect both the choice of non-BUSI courses and the choice of location and content of the study abroad program (see **Global and Regional Content** below).

#### 4.7.2 Admission Requirements

1. Normally, admission is offered for the Fall Semester. The deadline for admission or readmission is March 1. Students applying for admission to the i.B.B.A. must submit the Faculty of Business Administration Application For Admission to the Office of the Registrar on or before this deadline. Where circumstances permit, applications will be considered for the Winter and Spring Semesters. The deadlines for admission or readmission are specified in the **University Diary**.
2. Students who are seeking admission for the Fall Semester normally must have completed all the courses required for admission by the end of the Winter Semester.
3. Applications received after the deadline will be considered only if a space is available in the program.
4. To be eligible for Admission to the i.B.B.A. program an applicant must have successfully completed the Pre-i.B.B.A. program (see **The Curriculum**, clause 1, below) with an average on those courses of at least 65%, or the equivalent at another recognized post-secondary institution. Students who are transferring from other universities must apply for admission to the University on or before the deadlines specified in the **University Diary** for the semester in which they intend to begin their program, to allow sufficient time for the evaluation of transfer credits.
5. Admission is competitive and selective. Therefore, prospective students are encouraged to consider an alternate degree program in the event that they are not accepted into the International Bachelor of Business Administration program.
6. The primary criterion used in reaching decisions on applications for admission is overall academic achievement. Selection, therefore will be based on a student's overall academic performance in addition to the average on the 30 credit hours required for admission.

Students with weak overall academic records are unlikely to be admitted.

- In the case where an applicant has been required to withdraw from one of the Faculty's other Undergraduate programs, the Admissions Committee of the Faculty may consider this circumstance as grounds to deny admission.

### 4.7.3 The Curriculum

- The i.B.B.A. program includes the following 30 credit hours that comprise the Pre-i.B.B.A. program:
  - Six credit hours of English which must include English 1110 or 1021
  - Mathematics 1000;
  - Economics 2010 and 2020;
  - BUSI 1000;
  - Political Science 2200;
  - Nine additional credit hours in non-BUSI courses, at least 6 credit hours of which must be in courses chosen from the Faculties of Arts and/or Science and/or the School of Music. It is strongly recommended that students take into account the **Global and Regional Content** requirement outlined below when choosing these additional 9 credit hours of study.
- In addition to the Pre-i.B.B.A. program requirements, the curriculum shall consist of the successful completion of:
  - Thirty-nine credit hours consisting of: Statistics 2500 and BUSI courses 1101, 1210, 2010, 2101, 2400, 3310, 3401, 3700, 4000, 4320, 4500, and either 6012 or 7000.
  - Fifteen credit hours of international business related courses, which must include:
    - BUSI 5302 and either Economics 3030 or BUSI 6550; and
    - any three from: BUSI 6311, BUSI 7240, BUSI 6012 (if not completed to fulfill 2.a. above), BUSI 6550 (if not completed to fulfill 2.b.i. above), BUSI 6040, Economics 4030\*, or Political Science 3250 or any other approved course with an international focus.

\*Students need to satisfy the pre-requisites for Economics 4030 specified in the University Calendar.
  - Thirty-Six further credit hours of which at least 12 must be in non-BUSI courses. Students should take into account the **Non-business Elective Courses** regulations under the **Global and Regional Content** requirement below when choosing these 12 credit hours of non-business electives.
  - It is recommended that students choose their elective courses so that their overall program contains at least one group of four or five courses within a chosen functional area or specialization or minor.
- At least 12 credit hours of the program described in 1. and 2. above must be completed in an approved study abroad program. The program must meet the **Location and Content of Study Abroad Program** regulations under the **Global and Regional Content** requirements below.
- For graduation, a student must be enrolled in the i.B.B.A. program, and have completed the 120 credit hours required with a minimum average of 65% on the program courses.

### 4.7.4 Global and Regional Content

Courses chosen to meet the above requirements must have a coherent global and regional content. In order to achieve this coherency, students shall nominate a global region (e.g. Asia, Europe, Latin America) as a focus area within their program. The choice of region will affect the choice of non-BUSI elective courses as well as the choice of location and content of the study abroad program.

In **Table 3 Selected Arts Courses with Global Comparative International or Regional Content** below an illustrative list has been provided, indicating a range of courses available at Memorial University of Newfoundland that offer a global or regional perspective. The latter may include languages, regional studies and other cross-cultural courses as well as approved courses in Economics.

#### 4.7.4.1 Non-business Elective Courses

- Non-business elective courses must include the following 9 non-language credit hours:
  - At least 3 further credit hours with a global and/or comparative international perspective
  - At least 6 credit hours with a chosen regional perspective
- Study of a foreign language relevant to the chosen region, commencing in the Pre-i.B.B.A. program, is highly recommended. Students selecting a regional perspective and planning to undertake their study abroad program where English is not the main language must complete 6 credit hours of the relevant language prior to undertaking study abroad.

#### 4.7.4.2 Location and Content of Study Abroad Program

- The approved study abroad program must be taken at a location consistent with the chosen region of focus. This will usually be at one of Memorial University of Newfoundland's exchange partner universities but may involve participation in Memorial University of Newfoundland's Harlow Program, or similar. Students are encouraged to carry a full 15 credit hour load while abroad but must follow a program of at least 12 credit hours or equivalent.
- To ensure that students obtain regional perspectives and skills not available at Memorial University of Newfoundland an approved program must include:
  - at foreign language locations, at least 3 credit hours of study of a regional language and at least 6 credit hours with a specific regional content.
  - at locations in Britain, Ireland, the US, Australia and New Zealand, at least 9 credit hours with a specific regional content.

For the study abroad program, courses regarded as having specific regional content would include languages, regional studies and other cross-cultural courses as well as approved courses in Economics and Business.

- Subject to these requirements there is no additional restriction as to the proportion of business or non-business courses studied abroad. For example, an approved study abroad program may contain courses entirely of an 'Arts' nature. It is also possible to select courses that have no exact equivalent at Memorial University of Newfoundland and must be counted as unspecified credit.

Courses studied abroad may be approved as counting toward any of the Curriculum course requirements listed above, but no course may count towards meeting two such requirements

Table 3 Selected Arts Courses with Global Comparative International or Regional Content

<b>Social and Cultural Anthropology</b> 1031, 2412, 2413, 3083, 4000, 4370	<b>Harlow and Other Study Abroad Programs</b> Arts courses at Harlow and at other approved exchange partners in Europe, the Asia-Pacific and Latin America

Note: The normal prerequisites will apply to all the courses listed above.

#### 4.7.5 Minor From Faculty of Arts

A student enrolled in the i.B.B.A. program may both meet the requirements of the degree and be able to complete a minor within the Faculty of Arts. Regulations for the minor are given under the Calendar entries for the **Faculty of Arts**.

#### 4.7.6 Continuance Regulations

- The Faculty Council of the Faculty of Business Administration constitutes the examining body for all examinations in Business courses. In addition, the standing of every student will be assessed by the Committee on Undergraduate Studies in accordance with the continuation requirements outlined in 2. and 3. below.
- Following entry to the program, i.B.B.A. students must qualify for continuation after each term of study. For continuation, students must have an overall average of 65% over their last ten courses taken. In the event that a student has more courses than needed in the earliest term used, the courses with the highest grades in that term will be used.  
Students who fail to achieve these standards will be required to withdraw from the program. They may be considered for readmission after a lapse of two semesters. In order to be considered for readmission, students must formally apply for readmission. A required withdrawal for failure to meet **Continuance Regulations** in the i.B.B.A. program will be reflected on a student's transcript.
- Students who are required to withdraw from the program a second time are not eligible for readmission into their program.
- The Committee on Undergraduate Studies of the Faculty of Business Administration may allow a student to continue who fails to achieve the standards outlined in 2. above. A decision of this nature will be made only for reasons acceptable to the Committee on Undergraduate Studies.

#### 4.8 Regulations for the Honours Degree of International Bachelor of Business Administration

An Honours degree of Bachelor of International Business Administration signifies superior academic achievement.

- To be considered for an Honours degree, the candidates must so indicate on the University's official Application for Graduation form. This form may be obtained on-line at the Memorial Self Service at [www3.mun.ca/admit/twbkwbis.P\\_WWWLogin](http://www3.mun.ca/admit/twbkwbis.P_WWWLogin) or at the Office of the Registrar.
- Candidates for the Honours Degree of International Bachelor of Business Administration shall:
  - comply with all regulations governing the General Degree of International Bachelor of Business Administration, and
  - obtain at least a 75% average and a grade point average of at least 3.5 on the 120 credit hours completed for the degree.
- Candidates are not permitted to repeat or substitute courses for the purpose of meeting the academic standing specified in Clause 2. In the case of a student who has repeated courses and/or who has completed more than 120 credit hours at the time of application for graduation, applicable courses will be taken in chronological order rather than in order of grade in calculating 2.b. above.
- A declared candidate for an Honours degree who fails to fulfil the conditions of Clause 2 but fulfils the requirements for a General degree shall be awarded the General Degree of International Bachelor of Business Administration.

## 5 Business Electives

Only those courses listed below are acceptable as Business electives towards the **Bachelor of Commerce (Co-operative)**, **Joint Degrees of Bachelor of Commerce (Co-operative) and Bachelor of Arts**, and **Bachelor of Business Administration** programs.

**Table 4 Business Electives**

## 6 Waiver of Faculty Regulations

Any student has the right to request waiver of Faculty regulations. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

## 7 Appeal of Regulations

Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

## 8 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the Faculty.

All courses of the Faculty are designated by BUSI.

### 8.1 Service Course Descriptions

**2000 Business Communications** focuses on the development of written and oral communication skills critical in the workplace. The common communications media are reviewed with emphasis on electronic and written correspondence. Students learn how to prepare comprehensive analytical reports including proposal writing. Attention is also given to building confidence in delivering oral presentations and preparing appropriate employment packages. A highly interactive design encourages student practice and participation.

CR: BUSI 2010

UL: may not be used to fulfil any of the requirements of any of the programs of the Faculty of Business Administration, including the minor, diploma and degrees

**2102 Introductory Accounting for Non-Business Students** provides full introductory coverage of both financial and managerial accounting. The course focuses on the most widely used accounting theory and practice.

CR: BUSI 1101 or BUSI 2101

UL: may not be used to fulfil any of the requirements of any of the programs of the Faculty of Business Administration, including the minor, certificate, diploma and degrees

### 8.2 Core Course Descriptions

Any prerequisite listed may be waived by permission of the instructor.

Enrolment in Business courses is limited and first priority will be given to students registered in the Faculty of Business Administration programs and secondarily to Business Minor Candidates who have obtained the approval of the Dean of the Faculty of Business Administration or delegate.

The following courses are being discontinued or renumbered. Students who are following the pre-2010 curriculum for the non-Co-operative Bachelor of Commerce Degree or the Bachelor of Business Administration Degree should ensure that they have completed these courses during or prior to the anticipated final offering.

Course	Final Offering
Business 2201	Winter 2011
Business 2301	Winter 2011
Business 2401	Winter 2011
Business 3320	Fall 2011
Business 4401	Spring 2012
Computer Science 2801	Winter 2011

**1000 Introduction to Business in Society** (formerly BUSI 2001) introduces the basics of business and business corporations in society, in a real-world relevant manner. Particular attention is given to societal stakeholders and to corporations' internal business processes and management functions. Major emphases include corporate social responsibilities and management ethics, and these are recurring themes in other topics such as technology, globalization and people in organizations. The course is a combination of textbook theory and guided learning activities and assignments based on finding and integrating real-world information.

CR: the former BUSI 2001

**1101 Principles of Accounting** emphasize the concepts and issues of introductory financial accounting as they relate to the Canadian conceptual framework, and will also address the strengths and weaknesses of financial reporting at an introductory level. The student will be introduced to the accounting process and analysis of the balance sheet, income statement, and the statement of changes in financial position.

CR: the former BUSI 3100, the former BUSI 2100

**1210 Introduction to Marketing Strategy** introduces students to the concepts, analyses, and activities that comprise marketing strategy, and provides practice in assessing and solving strategic problems in marketing. The course is also a foundation for BUSI 2210 Introduction to Marketing Tactics, and for advanced electives in marketing. Topics include: marketing strategy, environmental analysis, competitive analysis, customer behaviour, marketing research, segmentation, targeting, and positioning.

CR: the former BUSI 1201 or BUSI 2201 or BUSI 3200

PR: English 1110 or 1021, BUSI 1000, Economics 2010, Economics 2020

**1600 Introduction to Entrepreneurship** is an introductory course designed to give students a broad understanding of the field of entrepreneurship and the role that entrepreneurship plays in society. Topics will include the nature and theories of entrepreneurship, the characteristics and behaviours of entrepreneurs, and the entrepreneurial process in small and large firms. Students will get to think and act in a creative manner, obtain exposure to local entrepreneurs, assess their potential for entrepreneurial careers and develop attitudes and skills that will be useful in any organization. The course is also useful for those who will be dealing with smaller firms in the context of larger organizations and for those who will be working for entrepreneurs.

PR: BUSI 1000, and English 1110 or 1021

**2010 Business Research and Writing** introduces students to research, writing, and reporting processes in business. Through ongoing, multi-stage evaluation, students learn the fundamentals of business research, including analytical thinking and proposal writing involving research using secondary sources. A key focus is the writing process, including grammar, punctuation, structure, flow, and format in common business communications media. Students also develop their oral presentation competence by presenting the results of their research. A highly interactive design encourages student practice and participation.

CR: BUSI 2000

PR: BUSI 1000, and English 1110 or 1021

**2101 Managerial Accounting** provides an overview of the use of financial data for managerial decision making. The student will be introduced to basic budgeting and analysis techniques for both service-oriented and manufacturing businesses.

CR: the former BUSI 4100

PR: BUSI 1101

**2210 Introduction to Marketing Tactics** introduces students to the concepts, analyses, and activities that comprise marketing tactics, and provides practice in making decisions about tactical problems in marketing. The course is also a foundation for advanced electives in marketing. Topics include: product management, pricing, marketing communications, channels of distribution, implementation, and budgeting.

CR: the former BUSI 1201 or BUSI 2201 or BUSI 3200

PR: BUSI 1210, Mathematics 1000

**2400 Decision Modeling** provides an introduction to: spreadsheet modeling; linear optimization and the related topics of integer, assignment, and transportation models; and decision analysis including payoff matrices, decision trees, and Bayesian revision. All topics will be taught within the context of business applications.

CO: Statistics 2500

CR: the former BUSI 4401

PR: Mathematics 1000

**2710 Modeling and Implementing Business Processes** introduces techniques for understanding and modelling business processes and implementing them in modern enterprise systems. Course work will be project-based; students will create small-scale business applications, including web-based applications, using current design and development methodologies and tools.

PR: BUSI 1000, and English 1110 or 1021

**3310 Organizational Behaviour** (formerly BUSI 2301 and 4300) focuses on the study of individual and group processes in formal organizations. The student is introduced to the nature of work, the systematic approach to the study of behaviour, organizational roles and socialization, motivation, leadership, communication, and group dynamics.

CR: the former BUSI 2301 and the former BUSI 4300

PR: English 1110 or 1021

**3401 Operations Management** teaches fundamental concepts, methods, tools, and techniques to understand, analyze, and effectively manage as well as improve operations in business organizations. The course covers operations competitiveness and strategy, productivity, forecasting, capacity planning, material requirements planning, waiting lines analysis, project management, inventory management, quality control and its improvement, and supply chain management.

CO: BUSI 2710

CR: the former BUSI 5400

PR: Statistics 2500, and BUSI 2400 or the former BUSI 2401

**3700 Information Systems** examines the operational and strategic importance of information systems in organizations. Topics include: types of systems; business requirements and information systems planning; approaches to acquiring information systems; managing information systems resources; and ethics, security and privacy issues in information management.

CR: the former BUSI 3701

PR: BUSI 1000, and English 1110 or English 1021

**399W Work Term I** (see description in Work Term Descriptions and course title section below.)

**4000 Business Law I** (formerly BUSI 3000) is a course dealing with the law relating to certain aspects of business activity; includes introductory material on the nature of law and legal processes, together with a detailed study of certain aspects of the law of contract, examination of the general principles of the law of agency as they affect business operations; introduction to selected topics in company and partnership law.

CR: BUSI 3000

**4050 Strategic Management 1** introduces students to the strategic management approach. The course builds upon the knowledge and concepts developed in Business 1000 and prepares students for later business courses in their programs, especially Business 7000. Through experience and analysis in and of real or reality-based situations and issues, students will develop critical and integrative thinking and information literacy. Activity and action components of the strategic management process are the basis for student learning. The purpose of this course is to recognize the importance of situational analysis and strategy in the management process, including business functional and organizational integrative thinking, and decision-making regarding courses of action, resource allocation, and leadership.

CO: BUSI 4000 and 4330

PR: BUSI 1600, BUSI 2010, BUSI 2101, BUSI 2210, BUSI 2400, BUSI 3310, BUSI 3401

**4320 Human Resource Management** introduces the student to the design, operation and management of HRM processes, their evaluation, and their contribution to employee and organization effectiveness. The principal processes considered are staffing, development, employment relations, and compensation. Consideration of the influence of relevant organizational and external conditions on HRM is included. The course views the management of human resources as the joint responsibility of line and HRM managers.

PR: BUSI 3310 or the former BUSI 2301

**4330 Introduction to Labour Relations** (formerly BUSI 3320) provides an introduction to the field of industrial and labour relations in Canada, with primary emphasis on the labour-management relationship. Students will be introduced to the basic elements of an industrial relations system, including the participants, their roles and relationships, the social, economic, legal and political environment in which the participants interact, and the process and

outcomes of collective bargaining. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

CR: the former BUSI 3320  
PR: English 1110 or English 1021

**4500 Financial Management I** is designed to introduce the student to the role of financial management in business, financial analysis techniques, working capital management, and long-term and short-term financing.

CR: the former BUSI 4110  
PR: BUSI 1101, Statistics 2500, and Economics 2010

**450W Business Methods in Practice I** (see description in Comprehensive Case Analysis Descriptions and course title section below.)

**499W Work Term 2** (see description in Work Term Descriptions and course title section below.)

**5301 Organizational Theory** (formerly BUSI 5300) focuses on the organization, its environment, and its subsystems. From providing a basic appreciation of the role and practice of research in organizations, study extends to measures of organizational effectiveness, determinants of structure and design, power and politics, intergroup conflicts and conflict resolution, and organizational development and change.

CR: the former BUSI 5300  
PR: BUSI 3310 or the former BUSI 2301

**599W Work Term 3** (see description in Work Term Descriptions and course title section below.)

**7000 Strategic Management 2** emphasizes concepts of strategic management and strategy in various contexts and situations covering corporations and businesses, and other institutions or organizations and their purposeful activities. Through in-depth analysis of reality-based situations and strategic issues, students will develop their contextual and situational orientation, and further develop their applied, investigative critical thinking and information search skills. Further, students will be expected to develop an applied ability in the contextual and situational analysis of corporations/businesses and institutions/purposeful activities, and in corresponding strategy formulation and planning for strategy implementation. Student learning activities may be based on published business cases, decision-making and group dynamics exercises, business simulation exercises, and information search projects. Learning outcomes also may include research and information search methodologies and information literacy, and good writing.

PR: BUSI 4050, BUSI 4320, BUSI 4500, and BUSI 5301

## 8.3 Business Electives Course Descriptions

**3101 Accounting Applications** continues the study of accounting on a more in-depth and detailed basis. Building on the theory and concepts of BUSI 1101 and 2101, BUSI 3101 will emphasize the procedures and techniques required for the preparation and presentation of accounting information and general purposes financial statements.

CR: the former BUSI 3100, the former BUSI 2100  
PR: BUSI 1101

**3210 Consumer Behaviour** (formerly BUSI 5200) deals with concepts related to factors which influence the purchase and consumption behaviour of individuals including culture, social class, reference groups, perception, learning, motivation, personality and lifestyle. The unique aspects of groups and organizational buyers will also be examined.

CR: the former BUSI 5200  
PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**5000 Business Law II** is designed to show the student how principles of Law are applied to four areas of Business. The areas dealt with in this course are accounting/finance, marketing, personnel and production.

PR: BUSI 4000

**5160 Cost Accounting** (formerly BUSI 7100) deals with the use of accounting data for decision making. Topics covered include: cost estimation, pricing, joint costs, advanced variance analysis, total quality management, just-in-time, decentralization, transfer pricing, performance evaluations, activity based accounting, and backflush costing.

CR: the former BUSI 7100  
PR: BUSI 2101, or the former BUSI 3100 and the former BUSI 4100

**5210 Marketing Communications** (formerly BUSI 6210) provides a theoretical background on the nature, role and principles of marketing communications; and develops analytical and decision-making skills in planning, executing, evaluating and controlling marketing communications campaigns.

CR: the former BUSI 6210  
PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**5217 Professional Selling** provides a detailed introduction to and

application of the principles of personal selling. The course introduces the basic concepts of professional selling, including customer analysis, communication skills, effective openings and closings, and customer relations. Selling skills and concepts are developed through the extensive use of sales exercises, role-plays and presentations.

CR: the former BUSI 6220  
PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**5220 Marketing Research** (formerly BUSI 6200) is designed to acquaint the student with the use of marketing research as an aid to management. This is a comprehensive survey of the scope and methods of marketing research.

CR: the former BUSI 6200  
PR: Statistics 2500, BUSI 2010, and BUSI 2210 or the former BUSI 2201 or the former BUSI 3200

**5302 International Business** (formerly BUSI 7302) is designed to introduce students to the issues of international business: these are the processes of cultural confrontation and compromise; the problems of competitive sovereignty involving multinational corporations and the governments of host societies; the organization, structure, operation and control of diverse international businesses; and, finally, the role of multinational enterprise as a catalyst in economic development and resource employment, in particular, the North-South context. The relevance of international business as an area of study to the Canadian economy is discussed. The course is both conceptual and empirical in content.

CR: the former BUSI 7302  
PR: BUSI 1000 and Economics 2010 and Economics 2020

**5401 Linear Optimization and Extensions I: Applications** is more complex linear optimization models. Emphasis will be on formulation and computer-based sensitivity analysis, applications to other fields of business, cases in linear optimization and related fields.

PR: BUSI 2400 or the former BUSI 4401

**5402 Linear Optimization and Extensions II: Algorithms** include the simplex and revised simplex algorithms, sensitivity analysis and duality, goal optimization, advanced formulation of 0/1 models, branch and bound algorithm, network models: assignment, transportation, transshipment, shortest path, critical path, minimal spanning tree, and maximal flow.

PR: BUSI 2400 or the former BUSI 4401

**5500 Financial Management II** (formerly BUSI 7140) is an extension of BUSI 4500. Capital investment decision-making using discounted cash flow methodology; investments under certainty; financial structure and leverage; analysis of money and capital markets; further examination of long-term external financing.

CR: the former BUSI 5140, the former BUSI 7140  
PR: BUSI 4500 or the former BUSI 4110

**5530 Public Finance** (formerly BUSI 5100) recognizes the large role played by government in our society. Sources and uses of government funds at the federal, provincial and local levels will be covered. Intergovernmental fiscal problems will be examined with special emphasis on various incentive programs available to business from the three levels of government.

CR: the former BUSI 5100  
PR: Economics 2010 and Economics 2020

**5600 New Venture Creation** (formerly BUSI 5030 and BUSI 7030) covers the business creation process from the idea conception stage to the launch stage. Students learn how to search for, screen and evaluate opportunities, and to plan and assemble the required resources, including the preparation of an actual business plan. Alternatives to new venture creation, such as purchasing an existing business and purchasing a franchise, are also explored. Extensive group work is required.

CR: the former BUSI 5030, the former BUSI 7030  
PR: BUSI 1101, BUSI 1600, and BUSI 2210

**5700 Information Systems Analysis and Design** provides students with the skills to identify business problems which may be solved using information technology, determine requirements for information systems (IS) solutions, and develop detailed designs which form the basis for implementing systems. Topics may include: role of the user in systems development, systems development life cycle, requirements analysis and conceptual modelling, structured analysis and design, and trends in systems development methodologies. The importance of CASE tools in modern systems development will be emphasized through hands-on exercises.

PR: BUSI 3700

**5701 Information Systems Development** - inactive course.

**5702 Business Models and Strategy of Electronic Commerce** (formerly BUSI 6027) examines business concepts, social issues, and technology issues related to e-commerce, as well as providing an introduction to current practices, opportunities and challenges in implementing e-commerce solutions. Topics include: business models associated with web-based commerce; security, privacy, and intellectual property issues; payment and distribution systems; internet marketing; and strategic and planning issues.

CR: the former BUSI 6027  
PR: BUSI 3700

**5703 Information Security, Privacy, and Ethics** examines the use of information technology and related privacy, security, and ethical issues in the information age. Topics covered will include information and property rights and obligations; system quality; quality of life; accountability and system controls; behavioural factors that can lead to data loss; legal issues; and managerial responsibilities. The course examines these topics from individual, society, and business perspectives.

PR: BUSI 3700

**6000-6029 (Excluding 6001, 6004, 6008, 6009, 6010, 6021, 6022 and 6027) Special Topics** will have the topics to be studied announced by the Faculty.

**6010 Strategic Management of Technology and Innovation** is designed to explore the strategic management of technology and innovation for improving competitiveness and for business development. This will include market-strategy-technology connections, and technical innovation/new product development processes. Technology and technical innovation are viewed as fundamental to strategic competitiveness and business development as important elements of the management of strategic change in the business firm. In approaching technical innovation as strategic implementation, business environmental, organizational capability, human resources and management factors will be discussed.

PR: BUSI 3700, BUSI 4050, BUSI 4320, BUSI 4500, and BUSI 5301

**6040 International Business Law** develops the skills a business student must have in understanding the laws and regulations that exist and relate to international business decision making. The course will equip students with a knowledge and understanding of laws and regulations that currently prevail in international business operations.

PR: BUSI 4000

**6041-6060 Special Topics Courses** will have the topics to be studied announced by the Faculty.

**6100 Intermediate Accounting I** continues the study of financial accounting by focussing on specific topics such as current assets, long-term investments, capital assets, intangibles, current liabilities, and long-term liabilities. Emerging issues in accounting will also be covered.

PR: BUSI 3101 or the former BUSI 3100

**6110 Intermediate Accounting II** is designed to integrate the principles, concepts and skills acquired in previous accounting courses and to enhance the student's analytical and decision-making capabilities. The course will focus on specific topics related to deferred taxes, pension liabilities, shareholders' equity, and financial statement presentation. The skills acquired in earlier courses will be integrated for purposes of interpreting and analysing financial information.

PR: BUSI 3101 or the former BUSI 3100

**6120 Taxation I** is a determination of income tax liability of individuals and corporations, and a survey of sales taxes.

PR: BUSI 1101 or the former BUSI 3100, and BUSI 4000

**6130 Auditing** introduces the student to the practice of auditing and to stress the auditor's decision-making process when determining the nature and amount of evidence the auditor should accumulate. Specific topics to be covered include the auditor's legal liability, materiality, internal control, transaction cycles, and audit of information processed through electronic data processing systems.

PR: either BUSI 6100 or BUSI 6110

**6217 Salesforce Management** examines the elements of an effective salesforce as a key component of the organization's total marketing effort. The course will apply theory relating to salesforce management from a manager's point of view. Topics include the sales process, the relationship between sales and marketing salesforce structure, territory design, use of technology to improve salesforce effectiveness, and issues in recruiting, selecting, training, motivating, compensating and retaining salespeople.

CR: the former BUSI 6220

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**6218 Customer Relationship Management (CRM)** is the evolution and integration of marketing ideas, data, technology, and organizational factors. Relying on the integration of people, processes, and marketing capabilities and facilitated by information technology, effective CRM optimizes the identification, acquisition, growth, and retention of desired customers. The history of CRM and the benefits and challenges of its implementation in business and consumer markets are addressed. The course culminates in the student's creation of a CRM strategic plan.

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**6230 Services Marketing** is intended to examine the marketing of services and the role of services in supporting the marketing of tangible products. The distinction between the marketing of tangibles and intangibles will be stressed. The course will identify and examine the distinct issues which are encountered in the marketing of services and will explore appropriate strategies for implementing services marketing programs, primarily in

services organizations, including health care, transportation, telecommunications, education, etc. Specifically, the course will examine in detail the role of people in delivering services, the importance of service quality as a strategic differentiating tool, and the importance of collaboration between marketing and human resources management in the delivery of services.

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**6240 Channels and Internet Marketing** (formerly BUSI 6004) is designed to acquaint students with Internet-based marketing efforts. It addresses the use of the Internet as a digital channel and communications medium.

CR: the former BUSI 6004

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**6250 Retailing Management** (formerly BUSI 7210) provides an integrative examination of the activities involved in marketing goods and services directly to the ultimate consumer. Specifically, the following areas will be examined within a managerial framework: the evolution of retailing; retailing within the marketing channel; market analysis and planning; shopping behaviour; image and retail advertising; trading area and site analysis; store layout; shelf space utilization; merchandising; and the future prospects for retailing.

CR: the former 7210

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**6301 New Directions in Organizational Behaviour** provides an opportunity for students to explore and to develop their interests in topics in a dynamic field. Topics will be selected according to current emphases in the organizational behaviour literature.

PR: BUSI 3310 or the former BUSI 2301, and BUSI 5301

**6310 Advanced Human Resource Management** reinforces the applied aspects of theory covered in BUSI 4320 by examining approaches to (a) the avoidance of lawsuits, arbitration and performance-related problems which could result from the lack of both due process and effective policies and procedures, and (b) processes for the management of contemporary issues in Human Resource Management. Topics include problem solving in the areas of promotion policy, performance appraisal, test validation, training and development, compensation, job evaluation and pay equity, wrongful dismissal, occupational health and safety, absenteeism, substance abuse and AIDS. Students will examine cases and other material involving worker-management conflict in the above areas and seek to relate these to the legal, ethical and behavioural foundations of Human Resource Management in both unionized and non-unionized settings.

PR: BUSI 4320

**6311 International Human Resources Management** develops the skills a business student must have in understanding the processes and practices of international human resource management (IHRM) for a successful managerial career. The course will equip students with a solid knowledge and understanding of human resource functions and practices that currently prevail in global/international business operations.

PR: BUSI 4320

**6312 Employee Recruitment and Selection** (formerly BUSI 6022) is a critical factor in creating high performance work systems. This course examines the role of selection in HRM, legal issues, measurement, selection criteria, job competencies, testing, and interviewing, and making the employment decision.

CR: the former BUSI 6022

PR: BUSI 4320

**6320 Advanced Labour Relations** provides advanced level treatment of the field of industrial and labour relations in Canada, with primary emphasis on the labour-management relationship. Emphasis is placed on understanding recent problems/issues in industrial and labour relations and the range of options available for resolving these same problems. Topics examined may include: industrial relations theory; labour law reform; union growth and structure; management strategy; the role of third parties; workplace innovations; alternative dispute resolution mechanisms; union impact; public sector labour relations; comparative industrial relations; etc. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

PR: BUSI 4330 or the former BUSI 3320

**6400 Advanced Management Science** provides advanced level treatment of special topic(s) in Management Science, such as, waiting lines, stochastic dominance, stochastic dynamic programming, etc. The topic(s) to be covered in any particular year will be chosen by the Instructor and may vary from year to year.

PR: BUSI 5401 or BUSI 5402

**6410 Logistics Management** will focus on transportation, location, procurement and distribution aspects of logistics management, within local and global settings. A number of classical and latest models related to the focus areas would be introduced, and some real-life case examples discussed. The focus is on modes of transportation, transportation

management, facility location, procurement and supplier selection, distribution strategies, and global logistics.

PR: BUSI 3401, BUSI 5401 and BUSI 5402

**6415 Supply Chain Management** is about the management of the processes, assets, and flows of material and information required to satisfy customers' demands. In this course, a few important supply chain drivers will be identified and investigated in details such as inventory, information and pricing. Those drivers determine the performance of a supply chain. The understanding of these key drivers and their inter-relationships with strategy and other functions of the company are really crucial in the management of any supply chain.

CO: BUSI 3401, BUSI 3700

**6510 Investments** (formerly BUSI 6140) is a study of investment securities, risks, markets and mechanics; an appraisal of the economy, the industry and the firm; and portfolio management for personal and institutional investments.

CR: the former BUSI 6140

PR: either BUSI 4500 or the former BUSI 4110

**6550 International Finance** examines the additional risks and profitable opportunities that arise for the firm when it extends its operations into international markets. Specific topics will include the determination of exchange rates, the international monetary system, balance of payments, the foreign exchange market, international money and capital markets, the parity conditions, accounting exposure, economic exposure, transactions exposure, political risk, and global financing. Knowledge of these topic areas will give further understanding with respect to operating within the constraints of the international marketplace.

CR: the former BUSI 6008, the former BUSI 6500

PR: either BUSI 4500 or the former BUSI 4110

**6600 Managing Growth in the Small Firm** (formerly BUSI 6030) is designed to introduce the student to the challenges and opportunities of managing small growing businesses. The focus will be on functional issues and solutions within the context of growth oriented small firms. In addition, the course will explore strategic planning in the owner-managed business and strategies for growth and expansion. Extensive use will be made of cases and examples from Atlantic Canada.

CR: the former BUSI 6030

PR: BUSI 5600

**6610 Small Enterprise and Regional Development** (formerly BUSI 7031) explores the potential and constraints on efforts to foster small enterprise formation and expansion as a means to promote regional economic development. It critically examines government initiatives to promote small business as the panacea for depressed regional economies, and reviews changes in the global economy and the organization of production which may enhance small business competitiveness. Both Canadian and international cases are studied, with theoretical and empirical findings related to the Newfoundland context.

CR: the former BUSI 6009, the former BUSI 7031

**6700 Data Management** is based on the premise that data is a valuable resource which needs to be managed effectively to provide accurate, complete, timely, relevant, and accessible information to support decision making. Topics may include: enterprise data modelling, logical database design, database management systems, query languages, transaction management and concurrent access, and security.

PR: BUSI 3700 or the former BUSI 6300

**6701 Information Technology Management** examines issues of managing information systems and technology. Topics may include: success and failure in IS implementation, IS planning, economics of IS, telecommunications and network management, and legal and ethical issues.

PR: BUSI 3700 or the former BUSI 6300

**7010 Business and Society** examines the inter-relationships among business, government, society and the environment. Topics include: the social-economic business system, business ideologies, social responsibilities of business, business ethics, stakehold and issues management, and selected current issues in business.

PR: BUSI 5301

**7110 Accounting Theory** deals with the theoretical issues of specific topics such as the accounting standard setting process, the Canadian conceptual framework, assets, liabilities, revenues, expenses, not-for-profit organizations, related party transactions, and financial statement presentation and disclosure. Considerable emphasis will be given to emerging issues.

PR: BUSI 6100, BUSI 6110, BUSI 6120, and BUSI 6130

**7120 Advanced Financial Accounting** covers specific topics such as long-term investments, consolidated financial statements, joint ventures, segmented financial information, foreign exchange transactions, and fund accounting.

PR: BUSI 6100 and BUSI 6110

**7150 Taxation II** is designed to provide a detailed and comprehensive

analysis of income taxation as well as sales taxation and customs duties and excise taxes. Information relating to the use of trusts, partnerships, and joint ventures will be included, as well as the use of various tax shelters and international tax implications in business planning. The concentration will be on how tax planning for both individuals and corporations can be a significant element in the regular decision-making process, especially for the private corporation.

PR: BUSI 6120

**7160 Advanced Topics in Managerial Accounting** introduces the student to an in-depth study of advanced qualitative and quantitative methodology available to the managerial accountant. The application of mathematical models and behavioural theories to realistic challenges faced by various fiscal entities will be stressed. Class instruction will include the use of cases and rely heavily on a multidisciplinary approach towards solving the unstructured problem.

PR: BUSI 5160

**7230 Marketing Management** is designed to integrate the principles, concepts and skills acquired in previous marketing courses and to enhance the student's analytical and decision-making capabilities with regard to developing marketing strategies. The course will focus on: market analysis, marketing planning, the strategic decisions to be made within the framework of the marketing mix (product, price, promotion, and distribution); and the control systems related to the marketing program. The use of market research and knowledge from other functional areas of the organization (accounting, finance, economics, etc.) will be considered throughout the course.

PR: BUSI 2010, BUSI 3210 or the former BUSI 5200, BUSI 4500, and BUSI 5220

**7240 International Marketing** provides an understanding of the effects that the international dimension has upon the strategies and management of the marketing efforts of the firm. In particular, the student is introduced to the analysis techniques of the various environments that constitute a country analysis. Entry strategies are discussed with an emphasis upon the export process. Finally, the standardization/adaptation question is discussed in the context of each element of the marketing mix.

CR: the former BUSI 6001

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**7250 Business and Industrial Marketing** (formerly BUSI 7220) presents a comprehensive view of business markets, including industrial, institutional, and government markets. There is a balanced focus on strategy development and implementation. Particular attention is given to organizational buying behaviour, relationship management, global competitiveness, and the marketing of new high technology products and services.

CR: the former BUSI 7220

PR: BUSI 2010 and BUSI 2210 or the former BUSI 2201, or the former BUSI 3200

**7310 Seminar in Human Resource Management** seeks to integrate policies, procedures and methods covered in BUSI 6310 with other functional areas which impact upon the management of Human Resource Systems. Stakeholder assumptions about: work-force characteristics; management philosophy; business strategy; labour markets; laws and society; task technology and unions will be examined via a combination of cases, readings, research, peer discussion and dialogue with guest speakers.

PR: BUSI 6310

**7315 Human Resource Management Training** exposes students, through a variety of methods including lecture, discussion, case analysis, research, and the development of a detailed training program, to many topics in the area of human resource management training; including: needs analysis, training design, on and off-the-job training methods, technology and training, training implementation and delivery, transfer of training, and training evaluation.

CR: the former BUSI 6021

PR: BUSI 6310

**7320 Collective Agreement Administration and Arbitration** provides advanced coverage of the substantive and procedural rights of employers, unions and employees under collective agreements, and the means by which disputes over these rights are resolved through the grievance arbitration process. Topics examined include: the legal framework and place of grievance arbitration in the industrial relations system; the nature and scope of the arbitrator's role; preparation for and conduct of arbitration hearings; arbitral jurisprudence; alternative dispute resolution processes; and the development of a sound labour relations climate. Students will undertake extensive reviews of labour arbitration cases and will examine the impact of jurisprudence on the philosophy and practice of management in the private and public sectors. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

PR: BUSI 6320

**7321 Dispute Settlement in Labour Relations** provides advanced level

study of conflict in industrial relations, its determinants, the various institutional procedures used to deal with it, and the effectiveness of these same procedures. Topics examined include: theories of industrial conflict; the legal framework; union and employer strategies; interest dispute resolution; the right to strike and alternatives to same; the role and effectiveness of alternative forms of voluntary and compulsory third party assistance; etc. Students may be exposed to various role playing exercises that are applicable to industrial and labour relations.

PR: BUSI 6320

**7322 Labour Law** provides an overview of laws regulating the employment relationship in Canada, including the common law, general employment and collective bargaining laws, and the Charter of Rights and Freedoms. Emphasis is placed on the law of collective bargaining in the private sector, including the acquisition and termination of bargaining rights, unfair labour practices, the duty to bargain, industrial conflict and the administration of the collective agreement.

PR: BUSI 6320

**7330 Organizational Development** - inactive course.

**7400 Simulation in Management** emphasizes the use of simulation modeling technique to study and analyze management systems. Generally, simulation is considered as an experimental technique and is used in problem situations whose complexity precludes the use of analytical problem solving techniques. Topics to be covered include: simulation methodology, model building, developing and building simulation models, simulation languages, generation of random numbers, and simulating a business system. Computers and case studies will be used to study various applications of simulation in Business.

PR: : BUSI 5401 or BUSI 5402

**7410 Project Management** introduces appropriate methodology and theory for selecting, planning and managing projects. This includes the project portfolio selection, the initial creation of a plan in terms of the breakdown of the tasks, construction of the relationships and dependencies inherent in any plan, and controlling the execution of the activities according to the plan as the project proceeds. Emphasis will be placed on resource allocation, leveling and management, critical path analysis, risk analysis, accounting for uncertainties and time-cost trade offs. The role of the project manager and project team as well as issues related to multi-project management will also be addressed.

PR: BUSI 3401 and BUSI 5401

**7415 Managing Business Process Flows** employs a logical, rigorous approach to studying the fundamentals of business processes. This approach is based on modeling business process and its flows, studying causal relationships between the business process and its performance, and formulation implications for managerial action by determining business process drivers and their impact on process management and performance. The focus is on business process flow, capability, productivity, variability, control, improvement, risk sharing and management, coordination and integration.

PR: BUSI 3401, BUSI 3700, BUSI 5401

**7500 Advanced Finance** (formerly BUSI 7130) examines advanced developments in finance. Several topics will be selected, researched and discussed. These topics shall vary as financial practices change.

CO: BUSI 6510

CR: the former BUSI 7130

PR: BUSI 5500

**7510 Options and Futures** (formerly BUSI 7170) is an extension of BUSI 6510 Investments which will introduce the student to the workings of the options and futures markets. Specific topics will include the institutional structure of the markets, option pricing, strategies such as straddles and spreads, hedging, spot/forward/futures markets, speculation, risk transference and market efficiency considerations.

CR: the former BUSI 7170

PR: BUSI 6510 or the former BUSI 6140

**7600 Current Topics in Entrepreneurship** (formerly BUSI 7032) endeavours to address recent research findings in various aspects of entrepreneurship. Students will have the opportunity to pursue issues in entrepreneurship development covering a wide range of topics using publications, journals and conference proceedings.

CR: the former BUSI 7032

PR: BUSI 5600

**7610 Regulatory and Taxation Issues for Small Business** is designed to provide students with a general knowledge base of the various tax and other regulatory issues that should be considered in starting a business. The role that tax plays in decision making will be examined as well as the types of corporate funding to establish a new business through government grants, conventional loans and tax credits as provided under the Income Tax Act. Alternative corporate structures will be examined as well as aspects of employee compensation and business valuations. Practical aspects of starting your own business, such as registration requirements, will also be examined.

PR: BUSI 6120

**7700 Strategic Information Systems** - inactive course.

**7701 Current Topics in Information Systems** examines new developments and trends in information systems. The scope of the course includes: implications of emerging hardware and software technologies, emerging systems applications, and the state-of-the-art in IS management practice. Specific topics will change each year. Readings assigned from professional and academic journals will form the basis of class discussion.

PR: BUSI 5700, BUSI 6700, and BUSI 6701

## 8.4 Work Term Descriptions

The following work terms are a requirement of the Bachelor of Commerce Co-operative program only.

The objectives of the Work Term component of the Business Administration Co-operative Program are embodied in the Work Term descriptions below. The descriptions serve to guide the student and employer toward achieving these objectives and to guide Business Co-operative Education and the Faculty of Business Administration in monitoring and evaluating each student's progress.

**399W Work Term 1** follows the successful completion of Academic Term 3. For most students, it represents their first professional work experience in a business environment and as such represents their first opportunity to evaluate their choice of pursuing a career in business administration. Students are expected to learn, develop and practice the high standards of behaviour and performance normally expected in the work environment. (A detailed description of each job is normally posted during the job competition.)

As one component of the work term, the student is required to complete a work report. The work report, as a minimum requirement should

1. analyse an issue/problem related to the student's work environment,
2. demonstrate an understanding of the structure of a professional report, and
3. show reasonable competence in written communication and presentation skills. Students should consult **UNIVERSITY REGULATIONS - Good Writing**, and the evaluation form provided in the placement package.

Note: *Seminars on professional development, conducted by Business Co-operative Education, are presented during Academic Term 3 to introduce and prepare the student for participation in the subsequent work terms. Topics may include, among others, work term evaluation, work report writing, career planning, employment seeking skills, resume preparation, self-employment, ethics and professional concepts, behavioural requirements in the work place, assertiveness in the work place and industrial safety.*

**499W Work Term 2** follows the successful completion of Academic Term 4. Students are expected to further develop and expand their knowledge and work-related skills and should be able to accept increased responsibility and challenge. In addition, students are expected to demonstrate an ability to deal with increasingly complex work-related concepts and problems. Students should conscientiously assess the various business opportunities relative to their individual interests.

The Work Report, as a minimum requirement should

1. analyse an issue/problem related to the student's work environment and demonstrate an understanding of business concepts relative to the student's academic background,
2. demonstrate competence in creating a professional report, and
3. show competence in written communication and presentation skills.

**599W Work Term 3** follows the successful completion of Academic Term 5. Students should have sufficient academic grounding and work experience to contribute in a positive manner to the management and problem-solving processes needed and practiced in the work environment. Students should become better acquainted with their discipline of study, should observe and appreciate the attitudes, responsibilities, and ethics normally expected of business managers and should exercise greater independence and responsibility in their assigned work functions.

The Work Report should reflect the growing professional development of the student and, as a minimum requirement, will

1. demonstrate an ability to analyse a significant business issue/problem related to the student's experience in the work environment,
2. demonstrate a high level of competence in producing a professional report, and
3. show a high level of competence in written communication and presentation skills.

## 8.5 Comprehensive Case Analysis Description

The following course of study is an academic requirement of the Diploma in Business Administration and does not carry academic credit.

**450W Business Methods in Practice** is a non-credit course in which each student will undertake an analysis of an assigned case. A written report is mandatory. Evidence of the student's understanding of various business methods and the ability to gather material relating to the report, analyse it effectively, and present it in a clear, logical and concise form, will be

required in the report.

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Faculty of Education Degree Regulations

### 2.1 Mission Statement for the Faculty of Education

The Faculty of Education of Memorial University of Newfoundland, under the terms of THE MEMORIAL UNIVERSITY ACT, accepts as its primary responsibility the professional preparation of those who will give leadership in education. The responsibility includes the professional preparation of teachers, administrators and specialists who will work in elementary, and intermediate, and secondary schools and post-secondary institutions. The work of the Faculty incorporates undergraduate and graduate studies and continuing

education. The mandate includes specialized research for the improvement of pedagogical practice, and broadly based research for the advancement of knowledge. The Faculty initiates and responds to change through a wide range of programs and a variety of field services. It seeks to prepare educators who will have a reasoned philosophy of education, an appreciation of what knowledge is of most worth, a genuine love of learning, and the ability to think critically. It strives to prepare educators who have an understanding of the past, a plan for the present, and a vision for the future.

Additional information regarding the Faculty of Education is available at [www.mun.ca/educ/home/](http://www.mun.ca/educ/home/).

## 2.2 Degree Programs

The following Degree and Diploma Programs are offered through the Faculty of Education:

1. Bachelor of Education (Primary/Elementary) as a First Degree
2. Bachelor of Education (Primary/Elementary) as a Second Degree
3. Bachelor of Education (Intermediate/Secondary)
4. Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education
5. Bachelor of Music Conjoint with Bachelor of Music Education
6. Bachelor of Music Education as a Second Degree
7. Bachelor of Education (Native and Northern)
8. Bachelor of Special Education
9. Bachelor of Education (Post-Secondary) as a First Degree
10. Bachelor of Education (Post-Secondary) as a Second Degree

## 2.3 Diploma Programs

Diploma in Adult Teacher Education

Diploma in Native and Northern Education (T.E.P.L.)

Diploma in Post-Secondary Education

## 2.4 Student Responsibility Clause

The Office of Undergraduate Student Services, Faculty of Education, will assist students with questions or problems which may arise concerning their programs. It is, however, the responsibility of students to see that their academic programs meet the Faculty of Education and the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.

## 2.5 Teacher Certification

Teacher Certification is a Provincial responsibility. Students are advised to contact Teacher Certification in writing at Teacher Certification and Records, Department of Education, P.O. Box 8700, St. John's, NL, A1B 4J6, or by visiting the website at [www.ed.gov.nl.ca/edu/k12/teaching/certification.html](http://www.ed.gov.nl.ca/edu/k12/teaching/certification.html) for advice regarding Teacher Certification Regulations.

## 2.6 Admission

Note: *It is possible that individuals who have been convicted of a crime against a person may not be accepted into a school for any activities which are required under the Faculty of Education degree and diploma regulations.*

1. Admission to programs within the Faculty of Education is limited, selective and highly competitive. Meeting minimum admission requirements does not guarantee acceptance to a program. The Faculty reserves the right to limit the number of spaces available in each program. When the number of eligible applicants exceeds the number of spaces available in a particular program, preference may be given to students who are permanent residents of Newfoundland and Labrador.
2. Applicants for admission to a program within the Faculty of Education must submit the appropriate completed Faculty application form, and if applicable a form for admission/readmission to the University. Application forms and transcripts from institutions other than Memorial University of Newfoundland must be sent to the Office of the Registrar in accordance with the deadlines specified for each program in the **Application Deadline Dates** table. Letters of reference and personal statement as required by the application form must be forwarded directly to the Faculty of Education Undergraduate Admissions Office. Students who must apply for admission/readmission to the University must also submit the General Application for Admission/Readmission to the Office of the Registrar within the deadlines specified in the **University Diary**.

## Application Deadline Dates

Program	Commencement Date	Application Deadline
Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program	Spring	December 1
Bachelor of Education (Primary/Elementary) as a First Degree Integrated Delivery Program	Fall	December 1
Bachelor of Education (Primary/Elementary) as a Second Degree	Spring	December 1
Bachelor of Education (Intermediate/Secondary)	Fall	January 15
Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education	Spring	December 1
Bachelor of Music Education - first and second degree	Fall	January 15
Bachelor of Special Education	Fall	January 15
Native & Northern Teacher Education Programs	ongoing intake	
Bachelor of Education (Post-Secondary) - first and second degree - and Diploma in Post-Secondary Education	Fall Winter Spring	June 15 October 1 January 15
Diploma in Adult Teacher Education	Fall Winter Spring	June 15 October 1 January 15

- Admission to programs within the Faculty of Education is determined by a Selections Committee and is based on the criteria listed for each degree/diploma program. Applicants who are completing courses at this or another institution and for whom final and complete transcripts are not yet available may be granted provisional acceptance to the program to which they are applying pending the receipt of final transcripts. This provisional acceptance will remain valid until final transcripts are received. Deadline for receipt of final transcripts is June 15th. Provisionally accepted applicants may be granted a final acceptance upon review of the final transcript by the Selections Committee. The Faculty reserves the right to deny admission to a candidate who, in the opinion of the Selections Committee, is deemed unsuitable for admission to a program.
- Students who have been admitted to a program in the Faculty of Education requiring a teaching internship are advised that they may be assigned to any Provincial school district and are responsible for all travel and accommodation costs associated therewith.
- Students who have been admitted to a particular degree program offered by the Faculty of Education and who wish to change to another degree program within the Faculty must submit a new Faculty application form to the Office of the Registrar that will be considered in competition with all other students.
- In special circumstances, the Committee on Undergraduate Studies, on recommendation from the Admissions Committee may, at its discretion, consider an applicant or group of applicants as an exception to the requirements.
- Students who decline an offer of admission to the Faculty of Education, withdraw from the program, or who do not register for courses during the academic year in which admission is granted must, if they wish to be subsequently considered for admission, submit a new application in competition with other applicants.
- An unsuccessful applicant has the right to appeal against the decision of the Admissions Committee not to offer him/her a place, if it is felt by the applicant that the decision was reached on grounds other than those specified in the admission requirements listed in the Faculty of Education section of the Calendar. The appeal should be made in writing within twenty-one days of the notification of the decision and should be directed to the Dean of Education. The letter should state clearly and fully the grounds for the appeal. If the Dean of Education, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated. Normally, appeals will only be considered in the case of procedural error and/or receipt of new information that is relevant to the application. Students are advised to refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations** section of the University Calendar.

## 2.7 Regulations for Readmission and Advancement

These regulations apply to all programs except the Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program, Bachelor of Education (Primary/Elementary) as a Second Degree, Bachelor of Education (Intermediate/Secondary), and the Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education which have separate readmission and advancement regulations.

- Following admission to a program of the Faculty of Education, all full-time students must obtain a semester average of at least 65% in order to remain in clear standing in the Faculty.
  - These regulations will be applied to part-time students only after they have completed 12 consecutive credit hours on a part-time basis.
- Students who fail to obtain a semester average of 65% but who are eligible for readmission under **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)** will be placed on probation in the Faculty. Probationary students who fail to obtain a 65% average during the next semester in which they complete courses will be required to withdraw from the Faculty.
- Students completing the Bachelor of Education (Primary/Elementary), Bachelor of Music Conjoint with Bachelor of Music Education, or the Bachelor of Music Education as a Second Degree who attain a grade of FAL (fail) in their internship will either:
  - be required to withdraw from the program; or
  - with the recommendation of the Office of Undergraduate Student Services, Faculty of Education, repeat the internship in another school setting.
- Students who have been required to withdraw from the Faculty of Education may, after a lapse of at least two semesters, apply for readmission to the Faculty. Students who are readmitted under this Clause will be considered probationary and must meet requirements stated in Clause 2. above.
- Students who are required to withdraw from the University under **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)** will be required to withdraw from the Faculty of Education.

6. Students who have been required to withdraw from the Faculty on two occasions will be ineligible for future readmission.
7. Notwithstanding Clauses 1. through 4., the Committee on Undergraduate Studies on recommendation from the Admissions Committee reserves the right to require students to withdraw from the Faculty at any time if, in the opinion of the Committee, they are deemed unsuitable for continued attendance in the programs.
8. Students who have been required to withdraw from the Faculty may register only in those Education courses listed as applicable for non-Education students.
9. In exceptional circumstances, the Committee on Undergraduate Studies may waive the Readmission and Advancement regulations for the Faculty of Education as stated above.

## **2.8 Regulations for Readmission and Advancement for the Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program, Bachelor of Education as a Second Degree, Bachelor of Education (Intermediate/Secondary), and Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education**

1. Students must successfully complete all courses, attain an overall semester average of at least 65%, and a grade of PAS (pass) in the internship. Students failing to meet any of the above criteria will be required to withdraw from the program.
2. Notwithstanding Clause 1., the Committee on Undergraduate Studies, on recommendation from the Admissions Committee, reserves the right to require students to withdraw from the Faculty at any time if, in the opinion of the Committee, they are deemed unsuitable for continued attendance in the programs.
3. In exceptional circumstances, waiver of these regulations may be granted by the Committee on Undergraduate Studies, Faculty of Education, on advice of the Office of Undergraduate Student Services.

## **2.9 Registration in Education Courses (Non-Education Students)**

Registration in Education courses is normally restricted to those students who have been admitted to a degree or diploma program in the Faculty of Education. Students in first year or students in other Faculties or Schools who have completed not fewer than 24 credit hours may register for the following courses in Education without acceptance to a program: 2040, 2800, 2801, 2803, 3210, 3211, 3565, 3570, 3571, 3590, and 3660.

Such students are advised to consult degree or diploma regulations to determine which, if any, of the above courses can be applied to their program.

## **2.10 Registration in Education Courses for Teacher Certification Upgrading and the Post-Secondary Instructors Certificate (as issued by the Department of Education, Government of Newfoundland and Labrador)**

Students having completed a degree program in Education, or equivalent, who wish to register in Education courses for certification upgrading purposes and students requiring Education courses for the Post-Secondary Instructors Certificate should contact the Office of Undergraduate Student Services at least one month in advance of registration for permission and procedure.

## **2.11 Bachelor of Education (Primary/Elementary)**

The Bachelor of Education (Primary/Elementary) degree program is designed to prepare teachers for kindergarten through grade six. The program is available both as a First Degree and as a Second Degree.

### **2.11.1 Bachelor of Education (Primary/Elementary) as a First Degree**

The Bachelor of Education (Primary/Elementary) as a First Degree is a 150 credit hour program. All students will attend full time during the Professional Year which involves both a specific set of courses and a field experience. The Professional Year is followed by a one semester teaching internship and a subsequent semester of study intended to allow students to build on strengths and remedy weaknesses that may have become apparent during the internship. Basic computer keyboarding skills will be expected during the first semester of this program.

The Bachelor of Education (Primary/Elementary) as a First Degree is offered in two delivery formats:

1. **Bachelor of Education (Primary/Elementary) as a First Degree Integrated Delivery Program**
2. **Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program**

Refer to the **Application Deadline Dates** table for application deadlines.

#### **2.11.1.1 Admission**

1. Applications for admission for both Integrated and Consecutive Delivery are considered together. Consideration will be given to the courses for which students are registered at the time of assessment of applications. Applicants for Integrated Delivery who have completed all requirements for admission by the end of the Spring semester of the year that admission is being sought will be considered as time and resources permit.
2. To be considered for admission, students must have successfully completed 60 credit hours as outlined in Clauses a. - h. below with a cumulative average of at least 65% or an average of at least 65% on the last attempted 30 credit hours. Students applying to the Consecutive delivery option must have completed a total of 78 credit hours including a completed Focus Area. The 60 credit hours are:
  - a. twelve credit hours in English including at least 6 credit hours at the 2000 level or above - ESL courses cannot be used to satisfy this requirement;
  - b. six credit hours in Mathematics or 3 credit hours in Calculus;
  - c. six credit hours in Psychology;
  - d. Science 1150 and 1151; or 9 credit hours from 3 separate Science areas. The science areas are: Biochemistry, Biology, Chemistry, Earth Science, Environmental Science, or Physics; or a Focus Area in Science;
  - e. six credit hours chosen in any combination from Anthropology, Archaeology, Economics, Folklore, Geography, History,

- Linguistics, Political Science, Religious Studies, Sociology;
- f. six credit hours in French (recommended) or 6 credit hours in a single language other than English, or demonstration of equivalent competency in a second language;
  - g. fifteen credit hours as part of a Focus Area; and
  - h. additional credit hours from areas other than Education.
3. In assessing applications to the Bachelor of Education (Primary/Elementary) as a First Degree program, consideration will be given to student's:
    - a. overall academic performance; and
    - b. personal statement and references as outlined on the application to the Faculty.

### 2.11.1.2 Regulations for the Degree of Bachelor of Education (Primary/Elementary) as a First Degree

1. Candidates for the degree of Bachelor of Education (Primary/Elementary) as a First Degree will be required to complete a minimum of 150 credit hours in accordance with **Table 1** or **Table 2** below. Including the courses required for admission and completion of the focus area, a minimum of 75 of these credit hours will be in non-Education courses. Students:
  - a. will normally follow the appropriate Program Plan as outlined below;
  - b. must enrol full-time during the Professional Year; and
  - c. may enrol in the Internship only after successful completion of the Professional Year.

Students will normally complete the Bachelor of Education (Primary/Elementary) as a First Degree in the academic terms, sequence and course load as set out in either **Table 1, Bachelor of Education (Primary/Elementary) as a First Degree Integrated Delivery Program Plan** or in **Table 2, Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program Plan**.

### 2.11.1.3 Bachelor of Education (Primary/Elementary) as a First Degree Integrated Delivery Program Plan

To complete the 150 credit hour Bachelor of Education (Primary/Elementary) Integrated Delivery Program, students must have 75 credit hours from areas other than Education, including a completed focus area, plus the 75 credit hours in Education specified in **Table 1 Bachelor of Education (Primary/Elementary) as a First Degree Integrated Delivery Program Plan**.

**Table 1 Bachelor of Education (Primary/Elementary) as a First Degree Integrated Delivery Program Plan**

<b>Education Semester One - Fall</b> Education 3618 Education 3951 HKR 2001 6 credit hours in non-Education Electives
<b>Education Semester Two - Winter</b> Education 3484 Education 3619 Education 3952 6 credit hours in non-Education Electives
<b>Education Semester Three - Fall (Professional Year Semester One)</b> Four Education courses from 3120, 3131, 3273, 3312, 3322, 3940, 3962 (to be determined by the Office of Undergraduate Student Services) One of Education 2050, 2194, 2530*, 3050, 4205, 4240 or 4242 *Required for students completing a music focus area Non-credit Field Experience (five days)
<b>Education Semester Four - Winter (Professional Year Semester Two)</b> Four additional Education courses from 3120, 3131, 3273, 3322, 3543, 3940, 3962 (to be determined by the Office of Undergraduate Student Services) One of Education 2050, 2194, 2530*, 3050, 4205, 4240 or 4242 *Required for students completing a music focus area Non-credit Field Experience (five days)
<b>Education Semester Five - Fall</b> Education 401X: Undergraduate Teaching Internship (15 credit hours)
<b>Education Semester Six* - Winter</b> Education 4240 (or an Education elective if Education 4240 has been completed previously) Education 4362 Education 4383 Education 4425 3 credit hours in an Education Electives *Students have the option of completing <b>Education Semester Six</b> courses in the Spring semester following the Professional Year.

### 2.11.1.4 French Immersion Option

The French Immersion Option is only available in the Bachelor of Education (Primary/Elementary) Integrated Delivery Program.

In addition to meeting the Admission Requirements for the Bachelor of Education (Primary/Elementary) Degree Program, students applying for this option must have French as a Focus Area. Admitted students will spend the two semesters of the Professional year in a French milieu.

These students must meet all requirements for the Bachelor of Education (Primary/Elementary) Integrated Delivery Program except as modified in Clauses 1.-3. below:

Students must successfully complete:

1. prior to the beginning of the Professional Year
  - a. at least 27 credit hours in French, including French 3100 and 3101,

- b. either high school French Immersion including Francais 3202 or at least four weeks of study in a French milieu,
  2. the Professional Year in a French milieu, including the equivalent of Education 4155 and Education 3050, and
  3. the internship in a French Immersion setting.
- Students who are interested in the French Immersion Option should contact the Office of Undergraduate Student Services, Faculty of Education, at their earliest opportunity.

### 2.11.1.5 Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program Plan

To complete the 150 credit hour Bachelor of Education (Primary/Elementary) Consecutive Delivery Program students must have at least 75 credit hours from areas other than Education and the 69 credit hours in Education specified in **Table 2 Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program Plan**. The additional 6 credit hours required for the degree may be either Education or non Education credits.

**Table 2 Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program Plan**

<b>Professional Year Semester I - Spring</b> Education 3120 Education 3273 Education 3312 Education 3618 Education 3951 Education 3962
<b>Professional Year Semester II - Fall</b> Education 3322 Education 3484 Education 3543 Education 3619 Education 3940 Education 4240 Non-credit Field Experience (ten days)
<b>Semester III - Winter</b> Education 401X Education 4425
<b>Semester IV - Spring</b> Education 3131 Education 3952 Education 4362 Education 4383 3 credit hours in an Education Elective HKR 2001

Note: *Due to the nature of the French Immersion option of the primary/elementary program, the Consecutive Delivery Program is not available to applicants preparing to be French Immersion teachers.*

### 2.11.1.6 Focus Areas:

#### English (24 credit hours):

1. Six credit hours at the 1000 level
2. English 2390 or 3395
3. Three credit hours chosen from English 2000, 2001, 2005-2007, 3200, 3201, 3205
4. Three credit hours chosen from English 2002-2004, 2010 or 2020, 2350, 2351
5. Six credit hours chosen from English 2146, 2150, 2151, 2155, 2156, 2160, 3145, 3147-3149, 3152, 3155-3158
6. Three additional credit hours in English at the 2000 level or above

#### Folklore (24 credit hours):

1. Folklore 1000 or 2000
2. Folklore 2100, 2300, 2401, 2500
3. Three credit hours chosen from Folklore 3450 or 3930
4. Six credit hours in Folklore chosen from the 3000 or 4000 level

#### French (18 credit hours):

A maximum of 6 credit hours at the 1000 level

1. French 2100 or equivalent
2. French 2101 or equivalent
3. French 2300 or equivalent
4. French 3100 or equivalent
5. At least four weeks at an approved francophone institution in a French-speaking area or have acquired equivalent work experience in a francophone environment.

It is recommended that students complete at least one of French 2900, 3650, 3651, 3652, or 3653

Note: *Students may wish to select the French Immersion option listed at the end of Program Plan: Bachelor of Education (Primary/Elementary).*

#### Geography (18 credit hours):

1. Geography 1050, 2001, 2102, 2195, 2302, and 2425; or
2. Geography 1000 and 1001, or 1010 and 1011, and 12 credit hours in courses chosen from Geography 2001, 2102, 2195, 2302,

2425

**History (18 credit hours):**

1. Three credit hours chosen from History 1010-1015, 1100, 1101
2. Nine credit hours in History at the 2000 level
3. History 3110, 3120

**Linguistics (18 credit hours):**

1. Linguistics 1100 or 2100
2. Linguistics 1103 or 2103
3. Linguistics 1104 or 2104
4. Linguistics 2210
5. Six credit hours chosen from Linguistics 3000, 3100, 3104, 3105, 3150, 3155, 3201, 3210, 3212, 3500, 3850

**Mathematics (18 credit hours including):**

No more than 6 credit hours at the 1000 level and at least 3 credit hours at the 3000 level.

**Music (18 credit hours):**

1. Music 1120
2. Six credit hours chosen from Music 2011, 2012, 2014, 3014 or 3015, 3016
3. Six credit hours chosen from Music 3017, 3018, 4440
4. Three credit hours chosen from Music 2021, 2022, 2023, 2611 or 2614

**Physical Education (HKR) (18 credit hours):**

1. Human Kinetics and Recreation 1000, 2210, 2300
2. Nine credit hours chosen from Human Kinetics and Recreation 2310, 2320, 3330, 3340, 2601

**Religious Studies (18 credit hours including):**

1. Religious Studies 1000
2. Three credit hours from Religious Studies 2013, 2130, 2140, 2330, 2340
3. Three credit hours from Religious Studies 2400, 2410, 2420, 2425, 2430
4. Three credit hours from Religious Studies 2350, 2610, 2810, 2811, 2812, 2820, 2830
5. Six credit hours in Religious Studies at the 3000 level or above

**Science (18 credit hours including):**

At least 6 credit hours in each of two subject areas selected from Biochemistry, Biology, Chemistry, Earth Science, Environmental Science, or Physics.

**Theatre Arts (18 credit hours)**

For information on the Theatre Arts Focus Area contact the Undergraduate Admissions Office, Faculty of Education.

**Visual Arts (18 credit hours)**

Courses in Art History may be used to satisfy this requirement in whole or in part. For information on the Visual Arts Focus Area contact the Undergraduate Admissions Office, Faculty of Education.

**2.11.2 Bachelor of Education (Primary/Elementary) as a Second Degree**

The Bachelor of Education (Primary/Elementary) as a Second Degree is a 72 credit hour program. It is intended for candidates who have completed an appropriate Bachelor's degree.

**2.11.2.1 Admission**

1. Refer to the **Application Deadline Dates** table for application deadlines. Consideration will be given to the courses for which students are registered at the time of assessment of applications. Students attending institutions other than Memorial University of Newfoundland must supply transcripts indicating Fall semester grades by February 1.
2. To be considered for admission to the Bachelor of Education (Primary/Elementary) as a Second Degree program, individuals must have:
  - a. been awarded a Bachelor's Degree, or approved (prior to program startup) for the award of a Bachelor's Degree from a university recognized by Memorial University of Newfoundland;
  - b. achieved a cumulative average of at least 65% or an average of at least 65% on the last attempted 30 credit hours;
  - c. completed a minimum of:
    - i. six credit hours in English - ESL courses cannot be used to satisfy this requirement.;
    - ii. six credit hours in Mathematics or 3 credit hours in Calculus;
    - iii. six credit hours in Psychology;
    - iv. Science 1150 and 1151 or 6 credit hours in science in any combination to be chosen from: Biochemistry, Biology, Chemistry, Earth Science, Environmental Science and Physics;
    - v. six credit hours in any combination to be chosen from: Anthropology, Archaeology, Economics, Folklore, Geography, History, Linguistics, Political Science, Religious Studies and Sociology;
    - vi. six credit hours in French (recommended) or 6 credit hours in a single language other than English, or demonstration of equivalent competency in a second language; and
    - vii. the equivalent of a completed focus area as per the Faculty of Education **Focus Areas** or the completion of a major or minor within the initial Bachelor's degree program in a subject area classified as a focus area.

Notes: 1. It is recommended that students have 9 credit hours in science.

2. Applicants with French as a focus area must also have completed at least 4 weeks at an approved francophone institution in a French-speaking area or have acquired equivalent work experience in a Francophone environment.

3. In assessing applications to the Bachelor of Education (Primary/Elementary) as a Second Degree program, consideration will be given to the following:

- a. overall academic performance; and
- b. personal statement and references as outlined on the application to the Faculty.

### 2.11.2.2 Regulations for the Degree of Bachelor of Education (Primary/Elementary) as a Second Degree

1. In addition to meeting these regulations, students must also meet **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Second Degree**.
2. To obtain the Bachelor of Education (Primary/Elementary) as a Second Degree, students will be required to complete a minimum of 72 credit hours. The 72 credit hours are the same as those outlined in **Table 2 Bachelor of Education (Primary/Elementary) as a First Degree Consecutive Delivery Program Plan**.
3. Students will normally attend full-time and complete the Bachelor of Education (Primary/Elementary) Second Degree program in the academic terms, sequence, and course load as set out in Table 2.

### 2.11.3 Waiver Guidelines for Education 401X

1. Education 401X may, in special circumstances and upon individual request, be waived by the Office of Undergraduate Student Services in accordance with the guidelines listed below. Students requesting waiver should apply in writing and submit evidence of the following:
  - a. Permanent certification and tenure.
  - b. A minimum of five years teaching experience (or equivalent) in an environment appropriate to the degree sought.
  - c. Recommendation from an individual in an administrative position i.e. School Principal or Superintendent, attesting to the satisfactory quality of the teaching experience.
2. Students whose requests for waiver of the internship are approved must substitute in its place 15 appropriate credit hours in Education. These replacement credit hours will be determined by the Office of the Undergraduate Student Services on an individual basis and must be approved by the Committee on Undergraduate Studies.

## 2.12 Bachelor of Education (Intermediate/Secondary)

The Bachelor of Education (Intermediate/Secondary) is a second degree program designed to prepare Intermediate and Secondary School teachers. All students attend full-time and should graduate in one calendar year. The program is designed to provide students with an early field experience, a sequenced set of courses prior to a full semester internship and a range of courses after the internship designed so that students can reflect on their school experiences and make further connections between theory and practice.

### 2.12.1 Admission

1. Refer to the **Application Deadline Dates** table for application deadlines. Consideration will be given to the courses for which students are registered at the time of application. Applicants who will have completed all requirements for admission by the end of the Spring semester of the year that admission is being sought will be considered as time and resources permit. Students attending institutions other than Memorial University of Newfoundland must supply transcripts indicating Winter semester grades no later than June 15.
2. To be considered for admission to the Bachelor of Education (Intermediate/Secondary) Degree Program, individuals must have:
  - a. been awarded a Bachelor's Degree from a university recognized by Memorial University of Newfoundland;
  - b.
    - i. completed 36 credit hours in a subject listed under Academic Disciplines in Clause 3. below (Religious Studies, Business Studies and Newfoundland and Labrador Studies cannot be used to satisfy the 36 credit hour requirement), and
    - ii. completed 24 credit hours in a subject listed under Academic Disciplines in Clause 3. below but different from that in b. i. and
  - c. achieved an overall average of at least 65% in each of the sets of courses in b. i. and b. ii.
3. Academic Disciplines are deemed to be the disciplines on the following list. Courses from other disciplines deemed by the Admissions Committee to be equivalent to courses in any of the listed Academic Disciplines will be acceptable.

Biochemistry**	Economics	History	Political Science
Biology**	English	Mathematics (Pure Mathematics,	Religious Studies
Business Studies***	Environmental Science**	Applied Mathematics, Statistics)	Theatre Arts
Canadian Studies	French	Newfoundland and Labrador Studies	Visual Arts
Chemistry**	General Science	Physical Education*	
Earth Sciences**	Geography	Physics**	

\*In order to be considered for admission within this Academic Discipline, students must have completed courses in the following areas: Anatomy, Physiology, Motor Learning, Kinesiology, Evaluation and Testing in Physical Education, Primary/Elementary Physical Education Curriculum and Teaching, Issues and Trends in HPERS and a minimum of 6 activities.

\*\*Students who use General Science as an Academic Discipline may use courses from these separate science disciplines in any combination, but must complete a minimum of 12 credit hours in each separate science discipline used.

\*\*\*Students who use Business Studies as an academic discipline must have at least a minor in Business Administration.

Notes: 1. When calculating averages in the first and second teachable areas, no more than two 1000-level courses in each of the first and second teachable areas will normally be used.

2. A limited number of program spaces are allocated to each discipline. Students who are admitted with a particular Academic Discipline and who wish to change to a different Academic Discipline must obtain permission of the Office of Undergraduate Student Services. Such changes may not be possible in particular areas.

3. Applicants are advised that admission to the program on the basis of academic disciplines is dependent on sufficient numbers of students to warrant the offering of applicable methodology courses in those disciplines in any given year.

4. Candidates who are registered in their final semester of their first Bachelor's Degree program during the Winter semester must have satisfied the academic requirements set out in Clause 2. above upon completion of their first degree program.
5. In assessing applications to the Bachelor of Education (Intermediate/Secondary) Program, consideration will be given to the following:
  - a. average in each of the two academic disciplines;
  - b. overall academic performance; and

- c. personal statement and references as outlined on the application to the Faculty.
- 6. Because of the structured, sequential nature of this program, students must attend full-time. Students who drop any course which is part of the program will be dropped from the entire program.
- 7. Students who have been admitted to the program but choose not to attend in the Fall semester of their year of admission will lose their admission status. Such a student may reapply for admission at a later date, and must submit a new application which will be considered in competition with those of all other applicants.

### 2.12.2 Regulations for the Degree of Bachelor of Education (Intermediate/Secondary)

1. A candidate for the degree of Bachelor of Education (Intermediate/Secondary) shall complete 51 credit hours; including a non-credit field experience, 36 credit hours, and a 15 credit hour internship in a sequence as prescribed by the Program Plan (see below). Candidates must also have complied with the Regulations for Readmission and Advancement for this program.
2. The non-credit early field experience shall include a minimum of thirty hours of school visitation during the first semester of the program.
3. The 36 credit hours shall include:
  - a. twenty-four credit hours as follows:
    - i. Education 4005, 4240, 4260, 4361, 4381, and 4950
    - ii. Two of the following: Education 4120, 4121, 4142, 4154, 4161, 4174, 4175, 4180, 4181, 4190, 4203. These methodology courses must be chosen to match the Academic Disciplines under which the student was admitted. Those whose discipline is Geography are required to do either Education 4180 or 4174. Those whose area is Social Studies (academic disciplines of Business Studies, Canadian Studies, Economics, Geography, History, Newfoundland and Labrador Studies, and Political Science) are required to do Education 4180. Students whose first and second academic disciplines are in Social Studies are required to do Education 4180 and 4181. Students whose first and second academic disciplines are in the sciences (Biochemistry, Biology, Chemistry, Earth Sciences, Environmental Sciences, General Science, Physics) are required to do Education 4174 and 4175.
  - b. twelve credit hours in electives chosen from the list below:  
Education 2222, 2900, 3210, 3211, 3255, 3565, 3570, 3571, 4144, 4151, 4163, 4172, 4182, 4204, 4242, 4275, 4340, 4350, 4354, 4356, 4382, 4420, 4425, 4580, 4610, 4901, 4945.

Note: In addition to the above courses, students intending to apply to the Bachelor of Special Education degree program must complete Education 4350.

### 2.12.3 Bachelor of Education (Intermediate/Secondary) Program Plan

#### Semester 1 (Fall)

Classroom Observation  
Education 4005  
Education 4260  
Education 4361  
Two Methods Courses from Clause 3.a.ii.  
Education 4950

#### Semester 2 (Winter)

Education 405X

#### \*Semester 3 (Spring)

Education 4240  
Education 4381  
4 Electives from Clause 3. b.

\*Courses may be offered in the Spring, Intersession and/or Summer Session.

## 2.13 Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education

The Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education is a program designed to prepare both Intermediate/Secondary and Technology Education teachers. Students in the program will complete a number of courses that address the development of basic skills and competencies in a variety of technological areas and how to apply them through design and problem solving processes in a school classroom/laboratory setting. All students attend full-time and should graduate in four semesters. This conjoint program is designed to provide students with an early field experience, a sequenced set of courses prior to a full semester internship and a range of courses after the internship designed so that students can reflect on their school experiences and make further connections between theory and practice.

### 2.13.1 Admission

1. Consideration will be given to the courses for which students are registered at the time of application. Refer to the **Application Deadline Dates** table for application deadlines. Students attending institutions other than Memorial University of Newfoundland must supply transcripts indicating Fall semester grades no later than February 1.
2. To be considered for admission to the Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education program individuals must have:
  - a. been awarded a Bachelors Degree from a university recognized by Memorial University of Newfoundland;
  - b. completed 36 credit hours in a subject listed under Academic Disciplines in Clause 3. below; and
  - c. achieved an overall average of at least 65% in the courses chosen to meet b. above.
3. Academic Disciplines are deemed to be the disciplines on the following list. Courses from other disciplines deemed by the Admissions Committee to be equivalent to courses in any of the listed Academic Disciplines will be acceptable.

Biochemistry**	Economics	Geography	Physics**
Biology**	English	History	Political Science
Canadian Studies	Environmental Science**	Mathematics (Pure and Applied Mathematics, Statistics)	Theatre Arts
Chemistry**	French	Physical Education*	Visual Arts
Earth Sciences**	General Science		

\*In order to be considered for admission within this Academic Discipline, students must have completed courses in the following areas: Anatomy, Physiology, Motor Learning, Kinesiology, Evaluation and Testing in Physical Education, Primary/Elementary Physical Education Curriculum and Teaching, Issues and Trends in HPERS and a minimum of 6 activities.

\*\* Students who use General Science as an Academic Discipline may use courses from these separate science disciplines in any combination, but must complete a minimum of 12 credit hours in each science discipline used.

Notes: 1. When calculating the average in the 36 credit hours required under clause 2. b. above, no more than two 1000-level courses will normally be used.

2. A limited number of program spaces are allocated to each discipline. Students who are admitted with a particular Academic Discipline and who wish to change to a different Academic Discipline must obtain permission of the Office of Undergraduate Student Services. Such changes may not be possible in particular areas.

3. Applicants are advised that admission to the program is dependent on sufficient numbers of students to warrant the offering of applicable methodology courses in those disciplines in any given year.

- Candidates who are registered in their final semester of their first Bachelor's Degree program during the Winter semester must have satisfied the academic requirements set out in Clause 2. above upon completion of their first degree program.
- In assessing applications to the Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education Program, consideration will be given to the following:
  - average in courses in clause 2. b.;
  - overall academic performance; and
  - personal statement and references as outlined on the application to the Faculty.
- Because of the structured, sequential nature of this program, students must attend full-time. Students who drop any course which is part of the program will be dropped from the entire program.
- Students who have been admitted to the program but choose not to attend in the Spring semester of their year of admission will lose their admission status. Such a student may reapply for admission at a later date, and must submit a new application which will be considered in competition with those of all other applicants.

### 2.13.2 Regulations for the Degree of Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education

- A candidate for the degree of Bachelor of Education (Intermediate/Secondary) conjoint with the Diploma in Technology Education shall complete 66 credit hours including a non-credit field experience, 27 credit hours in Intermediate/Secondary Education, 24 credit hours in Technology Education, and a 15 credit hour internship in a sequence as prescribed in the **Bachelor of Education (Intermediate/Secondary) Conjoint With the Diploma in Technology Education Program Plan**. Candidates must also have complied with the Regulations for Readmission and Advancement for this program.
- The non-credit early field experience shall include a minimum of thirty hours of school visitation during the second semester of the program.
- The 27 credit hours in Intermediate/Secondary Education shall include:
  - twenty-one credit hours as follows:
    - Education 4005, 4240, 4260, 4361, 4381, and 4950
    - One of the following: Education 4120, 4121, 4142, 4154, 4161, 4174, 4180, 4190. The methodology course must be chosen to match the Academic Discipline under which the student was admitted. Those whose discipline is Geography are required to do either Education 4180 or 4174. Those whose area is Social Studies (academic disciplines of Canadian Studies, Economics, Geography, History, and Political Science) are required to do Education 4180.
  - six credit hours in electives chosen from:
 

Education 2222, 2900, 3210, 3211, 3255, 3565, 3570, 3571, 4144, 4151, 4163, 4172, 4182, 4242, 4275, 4340, 4350, 4354, 4356, 4382, 4420, 4425, 4580, 4610, 4901.

Note: Students intending to apply to the Bachelor of Special Education degree program should complete Education 4240 or Education 4242 and 4350.
- The 24 credit hours in Technology Education shall include Education 2711, 2750, 2751, 3750, 3751, 4750, 4751, 4752.

### 2.13.3 Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education Program Plan

#### \*Semester 1 - Spring

Education 2711  
Education 2750  
Education 2751  
Education 3750  
Education 3751

#### Semester 2 - Fall

Classroom Observation  
Education 4005  
Education 4260  
Education 4361  
One Method Course from 3.a.ii. and Education 4751  
Education 4950

#### Semester 3 - Winter

Education 405X

#### \*Semester 4 - Spring

Education 4240

Education 4381  
 Education 4750  
 Education 4752  
 2 electives from clause 3.b.

\*Courses may be offered in the Spring, Intersession and/or Summer Session.

## 2.14 Bachelor of Music Education

The Bachelor of Music Education Program is designed to prepare music teachers in all facets of school music education: foundations of music education; and primary/elementary, intermediate/secondary classroom music; choral and instrumental music education. The program consists of 30 credit hours of course work in music education and general foundational education and a 15 credit hour teaching internship. The program is delivered in two formats: Bachelor of Music Conjoint with Bachelor of Music Education and Bachelor of Music Education as a Second Degree.

Refer to the **Application Deadline Dates** table for application deadlines.

## 2.15 Bachelor of Music Conjoint with Bachelor of Music Education

### 2.15.1 Admission

1. Applications for admission are considered once a year normally to the Fall semester. Consideration will be given to the Winter semester courses for which students are registered at the time of application.
2. At the time of application, students must have been formally admitted to, and be in clear standing with, the School of Music.
3. To be considered for admission, students must have successfully completed a minimum of 45 credit hours with either a cumulative average of at least 65% or an average of at least 65% on their last attempted 30 credit hours.

Within the 45 credit hours, students must have completed the following:

- a. at least 6 credit hours in English and/or research/writing;
- b. at least 3 credit hours from the following: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282;
- c. at least 12 credit hours in Music, in addition to the 3 credit hours used to satisfy Clause 3.b. above.

*Note: To ensure appropriate academic advising of candidates, a personal interview and demonstration of proficiency in basic keyboard and aural skills will be conducted during the Fall Semester following admission. Sample materials will be made available from faculty members prior to the skills demonstration.*

4. In assessing applications, consideration will be given to the following:
  - a. average in the courses required for admission in Clause 3. above;
  - b. overall academic performance; and
  - c. personal statement and references as outlined on the application to the Faculty. One reference must be from a faculty member of the School of Music.

## 2.16 Regulations for the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education

1. A candidate for the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education shall be required to complete a minimum of 159 credit hours in accordance with the regulations for the Degree of Bachelor of Music, following General Musical Studies major and Clause 2. below.
2. A candidate shall complete the following 45 credit hours in Education:
  - a. One of Education 3618, 3619, 4260
  - b. Education 4362 or 4383
  - c. Education 2510, 2520, 2530, 3920 (including a 2 hour twice weekly laboratory component), 3925, 4240, and 4830
  - d. Education 403X (15 credit hour Internship)
  - e. Three other credit hours in Education other than Music Education. It is recommended that these 3 credit hours be used toward the acquisition of instructional content in a second teachable area.
3. A maximum of two of the following courses in music education may be used to fill requirements of Regulation 6.d. of the Bachelor of Music and Bachelor of Music Education Conjoint Degree Program: the former 4835, the former 4840, the former 4845, the former 4850, the former 4855, the former 4860.

## 2.17 Bachelor of Music Education as a Second Degree

### 2.17.1 Admission

1. Applications for admission are considered once a year normally to the Fall semester. Consideration will be given to the Winter semester courses for which students are registered at the time of application.
2. A candidate who has been awarded a Bachelor's degree in Music (or equivalent) from a recognized post-secondary institution may be admitted to the program leading to the degree of Bachelor of Music Education provided that the pattern of courses for the first degree is acceptable to the Selections Committee of the Faculty of Education.

## 2.18 Regulations for the Bachelor of Music Education as a Second Degree

1. The degree of Bachelor of Music Education may be awarded upon the successful completion of at least 30 additional credit hours in accordance with clause 2. below.
2. A candidate shall complete the following 45 credit hours in Education:
  - a. One of Education 3618, 3619, 4260
  - b. Education 4362 or 4383
  - c. Education 2510, 2520, 2530, 3920 (including a 2 hour twice weekly laboratory component), 3925, 4240, and 4830

- d. Education 403X (15 credit hour Internship)
- e. Three other credit hours in Education other than Music Education. It is recommended that these 3 credit hours be used toward the acquisition of instructional content in a second teachable area.

Note: *To ensure appropriate academic advising of candidates, a personal interview and demonstration of proficiency in basic keyboard and aural skills will be conducted during the Fall Semester following admission. Sample materials will be made available from faculty members prior to the skills demonstration.*

## 2.19 Bachelor of Education (Native and Northern)

The Bachelor of Education (Native and Northern) is a teacher education program designed for Native students in Labrador who intend to pursue a teaching career in the communities of northern Labrador. It would be of particular interest to students who wish to continue their studies beyond the Diploma in Native and Northern Education.

### 2.19.1 Regulations for Admission/Readmission and Advancement to the Bachelor of Education (Native and Northern)

1. Students who wish to enter the program must submit an application to the Office of Undergraduate Student Services, Faculty of Education.
2. Applicants to the Bachelor of Education (Native and Northern) must complete the general application form for admission to the University and the application form for admission to the Faculty of Education, Native and Northern Program.
3. Normally, to be considered for admission, a student must have completed a minimum of 15 credit hours with an average of at least 55% in those courses and be in clear standing.  
Note: *Students may be considered for conditional admission to the program upon admission to the University. Students admitted conditionally will be admitted in clear standing after successful completion of 15 credit hours with an average of not less than 55% percent.*
4. Students who have completed more than 15 credit hours prior to admission to the program will be permitted to apply those credit hours, where appropriate, towards the Bachelor of Education (Native and Northern) provided an average of at least 60% has been obtained in all courses beyond the first 15 credit hours.
5. Students who have been admitted to the Bachelor of Education (Native and Northern) will normally be governed by Regulations 2. and 4. - 9. of the Regulations for Readmission and Advancement of the Faculty of Education. For this program only, advancement regulations will be applied upon the completion of each 15 credit hour segment throughout the duration of the program and will be assessed on the basis of the average obtained on those 15 credit hours.
6. Students who have not met the requirements for direct entry from high school, but are eligible for entry on other criteria, will be assessed for literacy in English through procedures in accordance with University regulations. Where necessary, courses may be provided to give students an opportunity to upgrade their literacy skills.
7. Within the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Residence Requirements**, candidates for the Bachelor of Education (Native and Northern) Degree shall have completed a minimum of 12 credit hours as full time students through attendance at classes for the duration of at least one semester on a campus of Memorial University of Newfoundland.

### 2.19.2 Regulations for Students on the Primary/Elementary Education Route

1. Candidates for the degree of Bachelor of Education (Native and Northern), Primary/Elementary route, shall be required to complete a minimum of 150 credit hours in accordance with the clauses 2. - 6. below and in consultation with the Office of Undergraduate Student Services.
2. The following academic credit hours are compulsory:
  - a. twelve credit hours in English
  - b. six credit hours in Math
  - c. six credit hours in Science
  - d. six credit hours in Anthropology
  - e. six credit hours in Linguistics (Inuktitut or Innu-aimun)
  - f. three credit hours in Psychology]
  - g. a concentration of four courses from each of two of the following subject areas: Aboriginal Studies, Art, Folklore\*, French, Geography, History, Linguistics\*, Mathematics, Music/Music Education, Physical Education, Religious Studies, Science, Theatre Arts\*

Note: *\*Only one of these subject areas may be chosen.*
3. Candidates shall be required to complete a minimum of 60 credit hours in education, to be determined from an approved list, in consultation with the Office of Undergraduate Student Services. Included in those credit hours will be:
  - a. At least 3 credit hours in Education from each of the following areas:  
Administration, Assessment of Primary/Elementary Children, Arts, Childhood Development, Children's Literature, Curriculum Development, Introductory Overview of Native Education, Language Arts, Mathematics, Native Education Issues and Trends, Reading, Science, Social Studies, Social Context of Education, Tests and Measurement, Teaching English as a Second Language, Teaching Strategies
  - b. Three credit hours from one of the following areas:
    - i. Teaching of Inuktitut or Innu-aimun for students who are proficient speakers of one of these languages
    - ii. Language and culture for students who are not proficient speakers of Inuktitut or Innu-aimun
  - c. Further credit hours in Education to complete the required total of 60 must be chosen from appropriate course offerings of the Faculty of Education, in consultation with the Office of Undergraduate Student Services.
4. Candidates who are proficient speakers of Inuktitut or Innu-aimun and who plan to teach one of these languages and/or plan to teach in one of these languages shall complete at least 3 credit hours from each of the following areas:
  - a. Language literacy skills
  - b. Language teaching skills
5. a. In addition to satisfying clause 3 above, all candidates shall be required to complete a 15 credit hour internship (Education

404X).

Note: *Candidates who have completed the Diploma in Native and Northern Education in Labrador and have successfully completed at least five years as a teaching assistant or certified teacher may apply to the Office of Native Education for a waiver of the internship requirement. In cases where waivers are granted, candidates will be required to complete 15 credit hours in Primary or Elementary Education to be determined from an approved list, in consultation with the Office of Undergraduate Student Services.*

- b. Students may enrol in the Internship Program only after successful completion of the credit hours required in clauses 2. and 3. a. and b. above.
6. Further credit hours to complete the required total of 150 may be selected from any subject area outside of Education or from other credit hours in Education which are approved for the primary/elementary area.

### 2.19.3 Regulations for Students on the Secondary Education Route

1. Candidates for the degree of Bachelor of Education (Native and Northern), Secondary route, shall be required to complete a minimum of 150 credit hours in accordance with clauses 2. - 6. below and in consultation with the Office of Undergraduate Student Services.
2. The following academic credit hours are compulsory:
  - a. six credit hours in English
  - b. six credit hours in Anthropology
  - c. six credit hours in Linguistics (Inuktitut or Innu-aimun)
  - d. three credit hours in Psychology
  - e. Either

i. A concentration of eight courses in each of two of the following areas: Aboriginal Studies, Art, Biochemistry, Biology, Canadian Studies, Chemistry, Computer Science, Earth Sciences, Economics, English, Folklore\*, French, Geography, History, Linguistics\*, Mathematics (Pure and Applied Mathematics, Statistics), Newfoundland Studies\*, Physical Education, Physics, Political Science\*, Religious Studies, and Theatre Arts\*

Note: \* Only one of these subject areas may be chosen.

Or

ii. A concentration of eight courses from one subject area in clause 2. e. i. above, and four courses from each of two of the other subject areas, other than the subject area chosen for the eight-course subject area concentration.

Courses from other disciplines deemed to be equivalent to courses in any of the above listed academic disciplines will be accepted.

3. Candidates shall be required to complete a minimum of 54 credit hours in Education, to be determined from an approved list, in consultation with the Office of Undergraduate Student Services. Included in those credit hours will be:
  - a. At least 3 credit hours in Education from each of the following areas:  
Administration, Curriculum Development, Educational Psychology, Introductory Overview of Native Education, Native Education Issues and Trends, Reading, Social Context of Education, Student Evaluation, Teaching English as a Second Language, Teaching Strategies
  - b. Appropriate teaching methodology courses to correspond with concentrations in clause 2. e. to be determined from an approved list, in consultation with the Office of Undergraduate Student Services
  - c. Three credit hours from one of the following areas:
    - i. Teaching of Inuktitut or Innu-aimun for students who are proficient speakers of one of these languages
    - ii. Language and culture for students who are not proficient speakers of Inuktitut or Innu-aimun
  - d. Further credit hours in Education to complete the required total of 54 must be chosen from appropriate course offerings of the Faculty of Education, in consultation with the Office of Undergraduate Student Services.
4. Candidates who are fluent speakers of Inuktitut or Innu-aimun, and who plan to teach one of these languages and/or plan to teach in one of these languages, shall complete at least 3 credit hours from each of the following areas:
  - a. Language literacy skills
  - b. Language teaching skills

Note: *These courses are cross listed as Education/Linguistics. Where candidates complete four courses under clause 4., in addition to the two linguistics courses required in clause 2. c., only one additional four course concentration shall be required under clause 2. e. ii.*

5. a. In addition to satisfying clause 3. above, all candidates shall be required to complete a 15 credit hour internship (Education 404X)
 

Note: *Candidates who have completed the Diploma in Native and Northern Education in Labrador and have successfully completed at least five years as a teaching assistant or certified teacher may apply to the Office of Native Education for a waiver of the internship requirement. In cases where waivers are granted, candidates will be required to complete 15 credit hours in Secondary Education to be determined from an approved list in consultation with the Office of Undergraduate Student Services.*
- b. Students may enrol in the Internship Program only after successful completion of the credit hours required in clauses 2. and 3. a., b., and c. above.

Note: *Students who do not register for courses during the academic year in which admission is granted will be dropped from the program and must, if they wish to be subsequently considered for admission, submit a new application which will be considered in competition with those of all other applicants.*

6. Further credit hours to complete the required total of 150 may be selected from any subject area outside of Education or from other credit hours in Education which are approved for the secondary area.

### 2.20 Bachelor of Special Education

This degree program is for the preparation of Special Education teachers and is available through part-time or full-time study. A limited number of courses are available through distance education. Candidates must comply with the University's **Regulations for a Second Degree** as outlined in the General Regulations section of the Calendar. Refer to the **Application Deadline Dates** table for deadlines.

There are four Education courses applicable to the Special Education degree program that may be completed prior to admission (following completion of an Education degree). They are Education 3040, 3640, 3660, 3941 (please see the **Course Descriptions** section for prerequisites).

### 2.20.1 Admission

1. Consideration will be given to the courses for which students are registered at the time of application. Provisional acceptance may be granted to students who will successfully complete all prerequisites prior to commencement of Program. A percentage of program spaces will be allocated to applicants having relevant teaching experience.
2. To be considered for admission candidates shall have a minimum of a 65% average in the last 60 attempted credit hours (not including the internship) and also meet the following requirements:
  - a. hold a degree in Primary and/or Elementary, Music Education, or Intermediate/Secondary Education from Memorial University of Newfoundland or another Education degree deemed appropriate by the Faculty of Education, AND have credit for one of Education 4240 or 4242 or the former Education 3220 or 3230 (or equivalent). Intermediate/Secondary graduates must also have credit for Education 4350; Music Education graduates must also have credit for both Education 3312 and 3543 or 4350.
  - b. have successfully completed a professional internship in education or have equivalent teaching experience prior to admission.

### 2.20.2 Regulations for the Degree of Bachelor of Special Education

To be eligible for the Degree in Special Education, a student must have completed:

1. The Memorial University of Newfoundland Bachelor of Education Degree Primary and/or Elementary, Music Education, or Intermediate/Secondary, or another Education degree deemed appropriate by the Faculty of Education, and
2. 36 credit hours as follows:
  - a. Required courses: Education 3600, 3610, 3620, 3630, 3650; and
  - b. 21 credit hours selected from the following elective offerings in Special Education: Education 3040, 3640, 3660, 3680, 3690, 3941, 4505, 4510, 4515, 4520, 4530, 4540, 4541, 4543.

### 2.20.3 Waiver Guidelines - Education 3650

Following completion of Education 3600, students who have at least two years experience as a Special Education teacher, and who provide written reports from their principal or other appropriate authority, certifying the quality of their experience, to the Office of Undergraduate Student Services, may be granted waiver of Education 3650 upon approval by the Faculty of Education. Candidates approved for the waiver must substitute in its place one 3 credit hour course in Special Education. Students may contact the Office of Undergraduate Student Services for additional information and application forms.

## 2.21 Bachelor of Education (Post-Secondary) and Diploma in Post-Secondary Education

### 2.21.1 Admission

1. To be considered for admission to the Post-Secondary Education Degree and Diploma programs, a student must meet, in addition to the general admission requirements of the University, special admission requirements as outlined below. Refer to the **Application Deadline Dates** table for application deadlines.
2. Occupational training as verified by one of:
  - a. a certificate of qualification as a journeyman for a designated trade;
  - b. a certificate or diploma from a technical or business school or college;
  - c. an appropriate undergraduate degree from a university;
  - d. satisfactory completion of a program equivalent to a., b. or c. above.
3. At least one year of work experience or equivalent in the occupational area in which training was obtained. This experience must be subsequent to the completion of or concurrent with the occupational training program.

Note: *Training and experience will be assessed and verified by the Selections Committee for Post-Secondary Education.*

### 2.22 Regulations for the Degree of Bachelor of Education (Post-Secondary) as a First Degree

1. A candidate for the Bachelor of Education (Post-Secondary) Degree will be required to complete the equivalent of at least 120 credit hours approved by the Office of Undergraduate Student Services. The 120 credit hours must include:
  - a. Twenty-one credit hours as follows: Education 2710, 2720, 2730, 2801, 3280, 3801, 4700
  - b. Twenty-one credit hours to be chosen from: Education 2800, 2803, 2806, 3440, 3710, 3720, 3730, 4710, 4730, 4760-4780.
  - c. Six credit hours in English.
  - d. Thirty non-Education credit hours patterned to strengthen the area of teaching specialization and/or provide the development of depth in a related field of study as approved by the Office of Undergraduate Student Services. Education 4760-4780 may be used to satisfy non-Education specialization course credit hour electives if not already used to satisfy clause 1.b. above.
  - e. Twelve additional credit hours from any subject areas outside of Education. Six of these 12 credit hours may be chosen from courses listed in clause 1.b. above if not already used to satisfy the requirements of clause 1. b.
2. Advanced standing to a maximum of 30 credit hours may be awarded for students possessing at least a combined total of six years of training and work experience in the occupational area in which training was obtained. Students who because of a deficiency of work experience are not eligible to receive the maximum of 30 credit hours advanced standing will be required to obtain further work experience and/or to complete additional university courses, either or both of which must be approved by the Admissions Subcommittee for Post-Secondary Education.
3. At least half the credit hours required under clauses 1. a. and b. above must be completed at this University.

### 2.23 Regulations for the Degree of Bachelor of Education (Post-Secondary) as a Second Degree

1. Candidates must also comply with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Second Degree**.

2. To obtain the Bachelor of Education (Post-Secondary) as a second degree a candidate must complete at least 36 credit hours in Education. The 36 credit hours must include:
  - a. Twenty-one credit hours as follows: Education 2710, 2720, 2730, 2801, 3280, 3801, 4700.
  - b. Fifteen credit hours of which 6 must be chosen from Education 2800, 2803, or 2806, and 9 must be chosen from 3440, 3710, 3720, 3730, 4710, 4730 or 4760-4780
3. At least 9 of the credit hours required under clause 2.a. must be completed at this University.

Note: *Work competence and experience related to occupational area is required for acceptance to this program as outlined in the Admission Requirements but no advanced standing will be granted.*

## 3 Diploma Regulations

### 3.1 Regulations for the Diploma in Post-Secondary Education

1. A candidate for the Diploma in Post-Secondary Education will be required to complete 60 credit hours as outlined below:
  - a. Twenty-one credit hours as follows: Education 2710, 2720, 2730, 2801, 3280, 3801, 4700.
  - b. Nine credit hours to be chosen from: Education 2803, 3440, 3710, 3720, 3730, 4710, 4730, 4760-4780.
2. Advanced standing to a maximum of 30 credit hours may be awarded for students possessing at least a combined total of six years of training and work experience in the occupational area in which training was obtained. Students who because of a deficiency of work experience are not eligible to receive the maximum of 30 credit hours advanced standing will be required to obtain further work experience and/or to complete additional University courses, either or both of which must be approved by the Admissions Sub-Committee for Post-Secondary Education.
3. At least 24 of the credit hours required under clause 1.a. and b. must be completed at this University.

Note: *The requirement of Education 4700 may be waived by the Office of Undergraduate Student Services in consultation with the post-secondary group.*

#### 3.1.1 Waiver Guidelines - Education 4700

1. Students who have at least two years of Post-Secondary teaching experience, and who produce written reports from their former principal or other appropriate authority to the Office of Undergraduate Student Services certifying the quality of their experience, may be excused from Education 4700. Students who are excused from taking the student teaching course must substitute in its place Education 2900 or an appropriate course in Education designated Adult or Post-Secondary to make up the required total for the degree.

### 3.2 Regulations for the Diploma in Adult Teacher Education

Refer to the **Application Deadline Dates** table for application deadlines.

1. To be admitted to the Diploma Program in Adult Teacher Education, an applicant shall:
  - a. be admitted to this University,
  - b. satisfy at least one of the following:
    - i. have been admitted to the Faculty of Education,
    - ii. have been approved by the Office of Undergraduate Student Services.
2. To be eligible for the Diploma in Adult Teacher Education, a student shall complete a total of 30 credit hours in Education courses as follows: 2710, 2800, 2801, 2803, 2806, 2730 or 3430, 3440, 4450, two of 3280, 3210, 3801.
3. A maximum of 12 credit hours referred to in Clause 2. above and which have already been counted toward a degree or diploma may also be counted toward the Diploma in Adult Teacher Education.
4. At least 21 of the credit hours required for the Diploma in Adult Teacher Education must be completed at this University.
5. The requirement for a specific course, or courses, may in special circumstances, and upon individual request, be waived by the Committee on Undergraduate Studies. Such waivers shall not reduce the total number of credits required for the Diploma.

#### 3.2.1 Waiver Guidelines of Education 4450

Students who have at least two years of experience teaching adults, and who produce written reports from their former principal or other appropriate authority to the Office of Undergraduate Student Services, certifying the quality of their experience may be excused from Education 4450. Students who are excused from taking the practicum must substitute in its place an appropriate course in Education to make up the required total for the diploma.

### 3.3 Regulations for the Diploma in Native and Northern Education in Labrador

1. The Diploma in Native and Northern Education in Labrador (T.E.P.L.) is a teacher education program in Labrador with Options in Classroom Teacher or Core Language Teacher.
2. Admission to the T.E.P.L. program requires a regular application for admission to Memorial University of Newfoundland and a special application for admission to the program. Application forms may be obtained from the Office of Native and Northern Teacher Education Programs, Faculty of Education, Memorial University of Newfoundland, St. John's, NL, A1B 3X8.
3. A candidate for admission to this program must normally be a speaker of either Innu-aimun or Inuktitut and meet the General Admission Requirements of the University as outlined in the Calendar.
4. To be eligible for the Diploma in Native and Northern Education, a candidate shall complete a total of 60 credit hours as follows: The following 30 credit hours are required for both **Option A - Classroom Teacher** and **Option B - Core Language Teacher**. Education 2022 or 2032, Education 2655, Education 3001, Education 3002, Education 3321, Education 4220 or 4230, English 1030, Linguistics 1530, Linguistics 1531, and Linguistics 2020 or 2030
5. For **Option A - Classroom Teacher** - the following 30 credit hours are compulsory in addition to those in 4. Above.
  - a. Education 2182, Education 2194, Education 2200, Education 2350, Education 3007, Education 3140, Education 3281, Education 3961, Education 4330, Sociology/Anthropology 2220
  - b. Professional Seminars. This is a non-credit component which is compulsory and will include seminars dealing with topics such as: Classroom Management, Organizational Skills, Healing, Computer Training and Resource Development.

6. For **Option B - Core Language Teacher** - the following 30 credit hours are compulsory in addition to those in 4. above.
- Education 2035, Education 2036, Education 2037, Education 2038, Education 2039, the former Education 2041, Education 3007, Education 4221 or 4231, Education 4330, Linguistics 2021, or 2031
  - Professional Seminars. This is a non-credit component which is compulsory and will include seminars dealing with topics such as: Classroom Management, Organizational Skills, Healing, Computer Training, and Resource Development.

Note: Courses designated for the T.E.P.L. program (designated by T) are intended for students registered in this program, but may be opened to other students upon permission of the Office of Undergraduate Student Services.

## 4 Waiver of Regulations of the Faculty of Education

Regulations involving course prerequisites or co-requisites, departmental regulations, and faculty regulations may be waived where circumstances so warrant. The routing of requests for such waivers and the procedure for appealing unfavourable decisions are outlined in the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

## 5 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Dean of the Faculty.

Students wishing waiver of Education 3650, Education 4700, post-session block or Education 401X should refer to the waiver guidelines under each appropriate program.

All courses of the Faculty are designated by ED.

### Legend:

**PE:** Courses for students on the Primary/Elementary program

**IS:** Courses for students on the Intermediate/Secondary program

**ISI:** Courses for students on the Intermediate/Secondary Conjoint with the Diploma in Technology Education program

**T:** Courses for students on the T.E.P.L. Diploma program

**A:** Courses for students on the Diploma in Adult Teacher Education program

**ME:** Courses for students on the Music Education program

**PS:** Courses for students on the Post-Secondary Education programs

**SE:** Courses for students on the Special Education program

**NPE:** Courses for students on the Native and Northern Teacher Education program - Primary/Elementary route

**NS:** Courses for students on the Native and Northern Teacher Education program - Secondary route

**2022 The Teaching of Inuttut (T,NPE)** focuses on the preparation of materials and classroom strategies for the teaching of Inuttut in Primary and Elementary schools in Native communities. Attention will be given to linguistic difficulties encountered in schools by children whose first language is English.

**2023 Language and Culture in Education (NPE,NS)** is an overview of issues of language and culture in Native and Northern Education. Emphasis will be placed on examination and development of curricula and materials that recognize cultural diversity (especially Aboriginal cultures), foster the teaching and maintenance of Aboriginal languages, and support the work of Aboriginal language specialists in the classroom.

**2032 The Teaching of Montagnais (T,NPE)** - inactive course.

**2035 The Teaching of History and Culture of Labrador Inuit and Innu (T)** applies the principles of effective teaching to the learning of history and culture as it applies to the Labrador Inuit and Innu. Topics include specific teaching strategies and examination of the selection and use of learning resources for unit planning, development and evaluation.

**2036 The Teaching of Aboriginal Issues (T)** examines the teaching of specific current events relevant to Labrador Inuit and Innu. This will include issues in the areas of education/environment/society politics/self-government/industry and the economy. Class sessions will include a workshop mode of learning (public speaking, panel debates, use of Internet, research, survey and interviews).

**2037 Aboriginal Drama (T)** introduces drama as a way of transmitting culture and values and as a vehicle to communicate. Topics include an examination of the foundation, values and assumptions of drama (with emphasis on aboriginal forms) as an effective means of curriculum implementation in Innu-aimun and Inuktitut. An activity-centred approach will be emphasized.

**2038 Aboriginal Music and Art (T)** is a study of music and art in cultural transmission. The course will develop skills in reading and writing associated

with Innu and Inuit cultures, and will emphasize activities for exploring the elements of music. Innu and Inuit art forms will be explored as well as art as decoration in Innu and Inuit society.

**2039 Cultural Camp (T)** is intended for aboriginal people to learn about ways of helping and healing that are traditional to their own culture and to learn ways of effectively incorporating those cultural aspects in the school curriculum of aboriginal schools. This course includes a one-week field trip to an isolated camp in coastal Labrador, where students and instructors will live according to traditional cultural practices under the guidance of community elders.

**2040 Basic Interpersonal Communication (PE)** is designed to help students develop confidence through self-expression, and acquire skills in interpersonal relationships.

CR: the former ED 2041

**2050 Introduction to Drama Education (PE,ME)** is designed to introduce students to the use of drama as a learning medium. Students will be expected to participate in and to critically analyse practical drama sessions in order to gain an understanding of the fundamental nature of drama. Students will be engaged in a variety of teacher devised drama structures to introduce them to the theory and practice of selected pioneers in the field. Reference will be made to some aspects of child development such as play, cognition, affect and language and their relationship to learning through drama. It is expected that students will begin to formulate a rationale for the use of drama education in their future classroom practice.

CR: the former ED 2030

**2182 An Introduction to the Teaching of Science in the Primary and Elementary Grades (T,ME,NPE)** is an introductory course illustrating fundamental processes and concepts of Science, and how these may be communicated to the elementary child. Content will be chosen which relates to the prevailing elementary school Science program. Typical concepts include measurement, energy in selected physical and biological systems, fundamental ecology, communities of living things, environmental change, the particulate nature of matter, and simple astronomy.

**2194 Physical Education in the Primary and Elementary Grades (PE,T,ME,NPE)** examines the curriculum organization in physical education for the Primary and Elementary grades; instructional material and teaching techniques for these grades; creative, aesthetic, and health-developing aspects of physical education.

CR: the former ED 3070, or the former ED 2192 taken during the 1984-85 or 1985-86 academic years

**2200 Language Arts (PE,T,NPE,ME)** is an examination of the methods and materials used in the teaching of the language arts with special reference to the effect on the overall educational development of the child whose first language is not English.

**2202 Education in Native and Northern Communities - An Overview (PE,NPE,NS)** is a general introductory course for students planning to teach in a classroom where Innu and/or Inuit children are in attendance. Emphasis will be placed on creating an awareness of the religion, philosophy, cultural values and way of life of Native peoples; the legal and administrative processes concerning Native peoples from the past to the present; a historical perspective in Native education; and contemporary issues and trends in Native education. This course will provide the necessary foundation for the training of teachers who are sensitive to the influence of culture on the values, behaviour, needs and motivations of children.

**2222 Teaching English as a Second Language (PE,IS,NPE,ISI, NS)** includes selection and preparation of materials, and suitable classroom strategies for teaching English as a second language. Stress will be on the methods appropriate to cope with linguistic difficulties encountered in schools by children whose first language is not English.

**2350 An Introduction to the Teaching of Mathematics in the Primary and Elementary Grades (T,NPE)** examines intuitive notions of a mathematical system with special emphasis on the concepts, basic mathematical properties and skills associated with the number systems of

arithmetic. Additional topics will include relations, functions and basic concepts of Geometry related to the Mathematics programs of the elementary school.

**2361 The School and Community (NPE,NS)** is a study of the factors which constitute the educational setting in the Native community in comparison with other cultural settings. The school as an institution of cultural transmission and cultural change within the Native and Northern setting will be investigated. An examination of roles played by local individuals and groups in the education process will be addressed. Models to improve communication between school and the community will be studied.

**2430 Administration and Supervision in Native and Northern Education (NPE,NS)** is a study of the administrative structures involved in the education of children of Innu and Inuit backgrounds. The study examines the administrative structures of the past and present with particular reference to the problems which arise in the administration of schools in remote, isolated regions. Further, the study includes an overall examination of the alternative Native processes of education relevant to the philosophy of Native people.

**2510 Elementary School Music Methods (ME)** is a course designed to introduce students to current philosophies and methodologies in the field of elementary classroom music. Students will examine materials currently available and be encouraged to develop and create their own. Emphasis will be on learning to evaluate materials as to suitability for musical concepts, class organizations, etc.

CR: the former ED 3180

UL: may be used to replace the former Education 3180 in the requirements for the former degree regulations

**2520 Voice and Choral Methods (ME)** examines current pedagogical practices, procedures and materials for use with all levels of school choirs. In addition, this course will examine the anatomy and physiology of the changing voice as a basis for proper vocal development in the classroom setting.

**2530 Primary School Music Methods (ME,PE)** examines current pedagogical practices, procedures and materials for use in the Primary School music program. The focus of this course will be on the Kodaly Method.

PR: Primary/Elementary program students must have completed the focus area in Music

**2655 Recognizing and Protecting Children's Needs (T)** studies situations teachers encounter that foster and limit children's basic cognitive, social and emotional growth. Attention is paid to the nature and development of these needs and to situations (particularly those involving neglect and physical, sexual and psychological abuse) that impact on how needs are met. Attention will be paid to the recognition of both positive and abusive situations.

**2710 Course Organization and Development in Post-Secondary Education (A,PS)** examines the development of procedures for the identification of concepts in instructional units; analysis of tasks and identification of related competencies; development of resource units.

CR: ED 2711

**2711 Course Organization and Development in Technology Education (ISI)** is an examination of the development, structure and organization of technology education curriculum locally and internationally; applications of design and problem solving instructional strategies; the management of resources in technology education laboratories; the development of resource units for teaching.

CR: ED 2710

**2720 Introduction to Post-Secondary Education (PS)** is a study of the back-ground of Post-Secondary Education and of its development and present forms in Newfoundland, other provinces of Canada, and other countries; an examination of current programs in Post-Secondary Education; the role of federal and provincial governments in Post-Secondary Education.

**2730 General Methods of Teaching in Post-Secondary Education (A,PS)** is an introduction to the methodology of teaching psychomotor and cognitive skills; selection of appropriate methods for individual and group instruction; organizing laboratory and shop instruction; principles of instructional management.

**2750 Introductory Design and Materials Processes (ISI)** examines theory and practice of teaching problem solving, design and materials processes. Topics and laboratory activities include production and computer assisted design.

**2751 Introductory Communications and Power Technology (ISI)** examines theory and practice of selected technical skills in communications, energy and power and their practical application in a technology education laboratory. Topics include micro-computer components, systems and operations; communication networks; basic electronics; and control systems.

**2800 Introduction to Adult Education (A,PS)** is a review of the history of the Adult Education movement. The rationale for the investment of public or

private resources in the education or training of adults. An examination of current educational philosophies related to Adult Education.

**2801 The Adult as Learner (A,PS)** examines the implications for adult programs and instructional strategies of difference among adults in abilities, attitudes, interests, skills, social roles.

**2803 Educational Aspects of Adult Development (A,PS)** is an examination of the educational aspects of adult development from early adulthood through middle age to later maturity.

**2806 Sociology of Adult Education (A,PS)** explores the sociological context of adult learning. The interrelationship between particular social factors (e.g., age, sex, occupational structure) and the need for adult educational programs are studied. The potential effects of such programs on society are examined with reference to community development. Special emphasis is given to societal change as it relates to education as a way of life.

**2900 Introduction to Statistics in Education (PE,IS,ISI,ME)** is a laboratory course which takes a practical case study approach to survey and quasi-experimental quantitative methods in education, together with supporting statistical concepts of probability, descriptive and inferential statistics sampling and sampling distributions, correlation and bivariate regression.

**3001 Supervised Practice Teaching in Native Schools I (T)** is a four month period as a teaching assistant involved in the preparation of teaching materials, teaching assigned lessons and participating in other activities related to the duties of a teacher. This session is to be under the direction of a co-operating teacher and a university professor.

**3002 Supervised Practice Teaching in Native Schools II (T)** is a four month continuation of the experiences provided in Education 3001 with added responsibilities, and increased development of competencies essential for teaching. Prospective interns for the Fall semester should apply not later than February 15; prospective interns for the Winter semester should apply not later than September 30. Prospective interns for the Spring semester should apply not later than October 15. Applications received after these dates will be considered in terms of the number of spaces available.

PR: ED 3001

**3007 Teaching Strategies in Native and Northern Schools (T,NPE,NS)** will examine a broad range of teaching strategies and instructional methods which may be used in classrooms. Students will be encouraged to incorporate elements of the Native and northern perspective in order to bring relevance to the province-wide curriculum. Particular emphasis will be placed upon how Native groups perceive education and the methods they view as appropriate.

CR: the former ED 2230, the former ED 2240, the former ED 4320

**3009 Drama Education in the Primary and Elementary Grades (PE,ME)** will focus on the practice and acquisition of the basic teacher skills and strategies that are particularly appropriate to the effective implementation of drama as a learning medium in the primary and elementary grades.

PR: ED 2050

**3040 The Assessment and Development of Children's Language Abilities (PE,SE)** will focus on techniques for assessing language abilities in primary and elementary grade children and will provide models for developing strategies in implementing language instruction appropriate to children's needs.

PR: ED 4350, 3543, or the former 3540 or 3545

UL: recommended for all candidates who anticipate working as resource-based special education teachers

**3050 The Teaching of French as a Second Language in the Primary and Elementary Grades (PE,ME)** is an introduction to the general principles of second-language teaching, to the curriculum materials currently prescribed for use in the schools, and to a consideration of teaching strategies and evaluation techniques associated with these materials.

PR: French 2101

**3052 and 3053 Institute for Teachers of Core French in the Elementary Grades (PE)** - inactive course

**3120 Foundations of Art Education (PE,ME,NS)** develops an understanding of art in relation to current theories of education and art education and to provide individual exploration of an experience in appropriate techniques. Curriculum will be examined with the focus on understanding how to provide favourable conditions and experiences for high quality individual development in visual expression.

CR: the former ED 2020, the former ED 3110, the former ED 3112

**3121 Education Through Art (PE,NS,ME)** - inactive course.

**3131 Music Education in the Primary/Elementary Grades (PE)** is designed to provide the prospective primary/elementary classroom teacher with the knowledge, skills and understandings necessary for presenting basic music concepts and skills to students and for using music as a means for teaching or enriching other areas of the curriculum. Course work will include study in the three facets of general classroom music: scholarship of

the discipline, musicianship, and classroom methodology.

CR: former ED 3130

UL: not applicable towards the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education or the Bachelor of Music Education as a Second Degree

**3140 Creative Arts (T,NPE)** is a study of the relationship of music, art and drama to the teaching-learning process with emphasis on Native content. An activity-centred approach will be emphasized.

**3150 Bilingualism: Linguistic, Cognitive and Educational Aspects (PE)** - inactive course.

**3210 An Introduction to Guidance Services (A,PE,IS,ISI)** is an introduction to guidance services in the modern school with specific emphasis on its history, purpose, basic concepts and principles, and services. Students are introduced to the nature of counselling, ways of developing effective interpersonal relationships within the school environment, and the role of the school counsellor and other educational personnel in the provision of guidance services.

**3211 Introduction to Career Education (PE,IS,ISI)** is an introduction to contemporary concepts and practices of career education and to theories of career development. Emphasis is on the practical application of theory and basic principles to the design and delivery of career education programs and to career counselling. Attention will be given to continuing career counselling and career development needs of individuals as well as to groups with special needs.

CR: the former ED 4906

**3255 Child Abuse and the School-Age Child (PE,IS,ISI)** will discuss the general issues of child abuse including definitions, detection, reporting, protection, prevention, and the educational implications of child abuse. A number of specific issues including provincial policies presently in force in Newfoundland and Labrador and elsewhere will be examined. The teacher's role in collaboration between officials in education, social work, health and justice agencies will be explored with a view to preventing abuse and modifying the circumstances of abused children.

**3273 Science in the Primary/Elementary Grades (PE)** is a practical course designed to develop approaches to Science teaching based on student investigation of scientific phenomena. Examples are drawn from both provincial and other major curricula.

CR: the former ED 2180, the former ED 3270, the former ED 3275

**3280 Educational Assessment (A,PS)** is a study of the broad spectrum of educational assessment focussing specifically on the development of objectives, the construction and use of formal teacher-made tests, the use of informal assessment techniques, the interpretation and application of assessment data, continuous evaluation, criterion-referenced measurement, and emerging trends in assessment.

CR: the former ED 4912

**3281 Tests and Measurements (T,NPE,NS)** examines basic concepts of evaluation involving teacher-made and standardized tests, with particular reference to validity and reliability in cross-cultural situations.

CR: the former ED 4912

**3290 Identifying Learner Diversity within a Context of Culture (PE,IS,ISI)** - inactive course.

**3312 Language Arts in the Primary/Elementary School I (PE)** provides students with a holistic view of the learning and teaching of language arts (i.e., the receptive language abilities of viewing, listening and reading, and the expressive language abilities of speaking and writing). This course will help students develop a theoretical perspective on two major aspects of language, that being "knowledge of language" (i.e., knowledge of the structures of language) and "knowledge about language" (i.e., knowledge about attitudes and perceptions towards language and the various purposes of language). This course will extend students' understanding of the importance of the home/community influences upon emergent and developmental literacy and language development.

CR: the former ED 2210, the former ED 2220, the former ED 3305, the former ED 3315

**3321 Native Literature (T,NPE)** is an examination of Native literature with special emphasis on writings of Native peoples for Native children. Literature which presents the Native point of view will be examined in the light of historical and current developments in Native and northern conditions.

**3322 Children's Literature in the Primary/Elementary School (PE)** focuses on the personal and educational values for using children's literature in the classroom, examines the literary genres appropriate for primary/elementary children and explores meaningful literacy extensions to develop children's literacy strategies and skills. In addition, the course examines guidelines for evaluating children's literature for literacy and aesthetic qualities. Instructional strategies to integrate children's literature across the curriculum are explored.

Note: Credit may be obtained for only one of Education 3322, the former 2060, the former 2065, the former 3310, or the former 3320.

**3430 General Methods of Instruction of Adults (A)** is a study of the various processes of Adult Education: discussion groups, case studies, role playing, individual and group discovery, demonstrations, simulation exercises, action research, report writing and lectures.

**3440 Organization and Administration of Programs in Adult Education (A,PS)** examines alternative provincial or regional methods of organization for the provision of Adult Education. The statutory framework within which Adult Education functions.

**3484 Computers and Learning Resources for Primary/Elementary Teachers (PE)** focuses on the integration of computer software and other learning resources into primary/elementary school teaching. Laboratory components will be scheduled so that students may learn how to use and implement communications, applications and curricular software.

CR: the former ED 3480, ED 3801, the former ED 4480, the former ED 4905

**3515 Current Approaches to Reading in the Primary and Elementary Grades (PE)** - inactive course.

**3542 Reading in the Primary and Elementary Grades (NPE)** is concerned with the teaching of reading in the primary and elementary grades. Special attention is given to the learning needs of children whose first language is not English. Emphasis is placed upon understanding the nature of the reading process and the current practices used in classroom reading instruction for kindergarten through grade six.

CR: the former ED 2110, the former ED 2120, the former ED 3540, the former ED 3543, the former ED 3545

UL: applicable only to students enrolled in the Bachelor of Education (Native and Northern) Degree program

**3543 Language Arts in the Primary/Elementary School II (PE)** provides students with a social-psychological perspective on children's learning to read, reading and reading to learn. Students will explore current and traditional models of the reading process and the importance of home/school/community contexts for fostering literacy learning. Students will apply instructional strategies for children's learning of story, book and print concepts, word identification, fluency, vocabulary development and comprehension for a variety of texts.

CR: the former ED 2110, the former ED 2120, the former ED 3540, ED 3542, the former ED 3545

PR: ED 3312

**3565 Gender and Schooling (PE,IS,ISI)** is an introduction to the study of gender and education. It includes a historical overview of the link between gender and schooling as well as an examination of contemporary theoretical perspectives and research relating to the role of the school in gender development in general and gender inequality in particular. Implications for educational policy and practices will also be explored.

**3570 History of North American Education (PE,IS,ISI)** examines the development of education in North America; the role of the church in early Canadian education; education after Canadian Confederation; the growth of the Newfoundland denominational system of education.

**3571 The History of Education in Newfoundland Since 1800 (PE,IS,ISI)** is a survey of the main trends in the development of the educational system; the social, religious and demographic factors which have affected educational progress; the place of education in the cultural development of Newfoundland.

**3573 History of Native and Northern Education in Canada (PE,NPE,NS)** - inactive course.

**3585 Multiculturalism and Education (PE,IS,ISI)** - inactive course.

**3590 Moral Education (PE)** is an exploratory course which attempts to foster understanding of the nature and scope of moral education by (a) focussing on issues and problems affecting morality and on their bearing on moral education, and by (b) offering an overview of contemporary moral development theories and research, educational strategies, and relevant curricular materials.

**3600 Academic and Behavioural Evaluation (SE)** applies the theories of test development in establishing a competent understanding of the utilization of diagnostic and prescriptive instruments as well as teacher-made tests as they apply to the area of exceptional children.

**3610 Nature and Characteristics of Mental Retardation (SE)** aims to provide an understanding of the nature and characteristics of mental retardation and the psycho-social implications of this area of exceptionality.

**3618 Nature of the Primary/Elementary School Child - Development (ME,PE)** is intended to provide students with an awareness and understanding of the origins of many aspects of child behaviour and competence. While focussing on the development and nature of the "normal" child, where appropriate, contrasts and comparisons will be made between the development of "normal" and "exceptional" individuals.

CR: the former ED 2610, the former ED 3240

**3619 Nature of Primary/Elementary School Child - Learning and Cognition (ME,PE)** provides an introduction to human learning, motivation and cognition and to the related concepts and theories underlying children's classroom learning and behaviour. Focus will be on typical development with some attention to atypical (exceptionality) functioning in these areas. The course will familiarize students with the concepts and vocabulary used to describe classroom learning and with explanations and justifications for many educational and instructional activities and practices. Particular attention will be paid to application of this knowledge to instruction and classroom management and to the facilitation of learning.

CR: the former ED 3616, the former ED 3615  
PR: ED 3618

**3620 Nature and Characteristics of Emotional/Behavioural Disorders (SE)** includes an examination of procedures for the early identification of children with behavioural disabilities and major systems of classification of behaviour problems. It will also include an analysis of: aberrant adjustment mechanisms, deviant development and specified behaviour problems with implication for therapeutic education.

PR: ED 4240, or the former ED 3220 or ED 3230

**3630 Nature and Characteristics of Learning Disabilities (SE)** is a survey of characteristics as well as problems of identification, and the evaluation of children who are potentially average or above in intelligence, but who are failing to learn in the school environment; and who are manifesting such behaviours as lack of motor development, auditory and visual perceptual handicaps, language deficiencies and behaviour control disorders.

CR: the former ED 3231

**3640 Current Issues in Special Education (PE,SE)** consists of a study of special and selected problems related to the teaching of special education with particular emphasis placed on special education within the Province of Newfoundland and Labrador.

PR: ED 4240, or the former ED 3220 or ED 3230

**3650 Practicum in Special Education (SE)** encompasses practicum for Special Education students in any of the areas of exceptionality with opportunity for supervised participation in public school, private school, or institutionalized Special Education programs. The main emphasis will be on supervised diagnosis and remediation on a one-to-one basis between the practicum student and the exceptional child. Case conferences and seminars will be held regularly throughout the term.

PR: completion of 18 credit hours in Special Education including ED 3600

**3660 A Study of the Gifted Child (PE,ME,SE)** is an examination of the nature and characteristics of gifted children, with emphasis upon methods of identifying gifted children, implications of giftedness for learning and instruction and reviews of several educational programs for the gifted.

**3680 Therapeutic Interventions for Students with Autism Spectrum Disorder (ASD) in Educational Settings (SE)** will examine: the nature of ASD with particular focus on methods of behavioural assessment and specific therapy techniques. Support programs will be considered within an ecological context that prioritizes collaborative planning with parents and other therapeutic agents.

**3690 Collaborative Practice (SE)** examines the theoretical and practical aspects of collaborative practice within an interagency model of case planning for students with diverse learning needs. Emphasis is on exploring issues of power/empowerment, consultation, communication, conflict resolution/problem-solving, advocacy and collaboration. Perspectives of parents and families, educators, and community resource professionals will be explored. The course strives to create a family-focussed approach to effective planning in contemporary schools.

**3691-3699 Special Topics Courses in Special Education (SE)** will have topics to be studied announced by the Faculty of Education.

**3710 Group Instruction in Post-Secondary Education (PS)** is an in-depth study of various methods of group instruction; planning and presenting demonstration teaching units; practice in techniques of group instruction.

PR: ED 2710 and ED 2730

**3720 Individualized Instruction in Post-Secondary Education (PS)** is a study of the various systems of individualized instruction; the theoretical basis for individualizing courses, individual differences, organizing individualized courses, selection and development of materials; management of individual student progress.

PR: ED 2710 and ED 2730

**3730 Curriculum and Instructional Development in Post-Secondary Education (PS)** examines the social, cultural, philosophical, and economic forces influencing changes in Post-Secondary curriculum and instructional methods. Study of current Post-Secondary Education curriculum designs, problems and trends; methods of gathering curriculum information; procedures for revising and evaluating a curriculum.

PR: ED 2710 and ED 2730

**3750 Intermediate Design and Materials Processing Technology (ISI)** is a continuation of theory and practice of teaching technical skills and design

processes developed in Education 2750. Topics elaborate on computer assisted design and problem solving with application of advanced construction techniques.

**3751 Intermediate Communications and Power Technology (ISI)** is a continuation of theory and practice of technical skills in communications, power and energy developed in Education 2751. Topics include energy sources, control systems, graphic communication processes and electronic communications.

**3801 Educational Media I (A,PS)** introduces students to audio visual communications with emphasis on equipment operation and basic local production of instructional materials; and the application of computers to education. A two-hour laboratory period will be arranged after the first class period.

CR: the former ED 3480, ED 3484, the former ED 4480, the former ED 4905

**3920 Instrumental Teaching Methods (ME)** examines current pedagogical practices, procedures and materials for teaching brass, woodwinds, and percussion in band and orchestral school settings.

LH: a 2 hour twice weekly laboratory section (MUN Lab Band and Orchestra) designed to provide practical teaching experience and methodology in both band and orchestral settings

**3925 Intermediate/Secondary School Music Methods (ME)** examines current pedagogical practices, procedures and materials for teaching Music in the intermediate/secondary schools.

**3940 Mathematics in Primary and Elementary Grades (PE, ME)** is a general overview of aspects of teaching Mathematics in the primary and elementary grades. Theories of child development as they relate to Mathematics teaching, characteristics of Mathematics topics in primary and elementary grades, and the implications for teaching will be the major topics to be discussed in this course.

CR: the former ED 2340, the former ED 2310, the former ED 2320

**3941 Diagnosing and Directing Learning in Primary and Elementary Mathematics (PE,T,SE)** is a study of aspects of diagnosis and remediation in primary and elementary Mathematics, and of the basis for constructing and applying diagnostic techniques. An examination, development, and application of a variety of manipulative aids to be used in the teaching of Mathematics in the primary and elementary grades.

PR: ED 3940

**3945 and 3946 Institute in Teaching of Junior High School Mathematics Courses (PE)** will focus on the nature of junior high Mathematics instruction and how it should differ from elementary and high school instruction. Emphasis will be placed on the transition between informal and formal approaches to the teaching of junior high Mathematics. The Van Hiel levels and their implications for instruction in geometry will be discussed. Activities appropriate to the teaching of junior high Mathematics will be developed and demonstrated. A particular focus in this component of the Institute will be on activities appropriate to the new program and how they can be integrated into the junior high Mathematics curriculum.

PR: ED 3940 (or equivalent) or ED 4161 (or equivalent) or permission of the instructor

**3951 Curriculum, Instruction, and Assessment in the Primary/Elementary School I (PE)** is designed to engage students in an introduction to curriculum, instruction, and assessment in the primary/elementary school through active participation in problem solving. Students will be introduced to the different ways that primary/elementary school children view and make sense of their world (i.e., the linguistic, mathematical, scientific, and artistic). Working through such a framework, students will be introduced to instructional strategies and planning, formative and summative assessment, and issues inherent in the management of the primary/elementary classroom, as they create multi-disciplinary, thematic, resource-based units.

**3952 Curriculum, Instruction, and Assessment in the Primary/Elementary School II (PE)** is designed to engage students in a deeper exploration of issues in curriculum, instruction, and assessment in the primary/elementary school through active participation in problem solving. Students will be introduced to the different ways that primary/elementary school children view and make sense of their world. Working through such a framework, students will be introduced to instructional strategies and planning, formative and summative assessment, and issues inherent in the management of the primary/elementary classroom, as they create multi-disciplinary, thematic, resource-based units.

PR: ED 3951

**3961 Social Studies in Native and Northern Schools (T,NPE)** will include an examination of teacher planning, appropriate teaching strategies for and the evaluation of pupil learning in the social studies within those contexts, in addition to exploring the nature and purposes of social studies education in Native and northern schools.

CR: the former ED 2150, the former ED 3960

**3962 Social Studies in the Primary/Elementary School (PE)** is an introduction to the social studies program at the primary/elementary school

level. Topics to be explored include the nature and purposes of the social studies curricula, approaches to teaching and learning in this curricula area, selecting and utilizing learning resources, and conducting assessment in the social studies.

CR: the former ED 2160, the former ED 3960

**4005 Effective Teaching (IS,ISI)** is an introduction to the principles and practices of effective teaching. Topics include decision making, classroom management, planning, general models of teaching such as direct teaching and inquiry-based instruction, and specific teaching strategies such as questioning, grouping, and discussion techniques. Provision will be made for students to engage in simulated teaching.

**401X Undergraduate Teaching Internship (PE)** (equivalent to 15 credit hours in Education) is designed as an extended practicum affording students an opportunity to integrate theory and practice in a working situation, the internship consists of intensive classroom experience extending over one semester during the final stage of the program. During this period, students will be provided with educational experiences in which the interrelationships among the components of the university program are brought into focus through the teaching exercise.

The internship is intended to help students develop their individual style of teaching, to enable students to recognize the scope and complexity of a classroom teacher's role and responsibility, and to provide opportunities for the study of children as individuals and in groups, both in the classroom and other school settings.

Beginning with orientation activities early in the semester, students' responsibilities will include observing and analysing teaching-learning activities, preparing and presenting student-learning activities, assessing both personal and class progress, and participating in discussions with co-operating teachers and faculty advisers. Throughout the internship semester, students will be required to participate in seminars related to in-school work.

AR: Attendance is mandatory. With respect to holidays, interns follow the schedule of the school and not that of the University.

CR: the former ED 302X and ED 403X

OR: students may not be placed in their first district of choice and may be assigned to another Provincial school district

PR: successful completion of the professional year. Students completing a Focus Area in French must have completed the courses in French required under the regulations for this focus area, and Education 3050.

**4020 Issues and Trends in Native Education (NPE,NS)** is a seminar course dealing with research, current problems and issues associated with Native Education within a Canadian, and in particular, a Newfoundland and Labrador context.

**403X Internship in Music Education (ME)** (equivalent to 15 credit hours in Education) is a one-semester internship in one or more schools to permit student teaching experiences in choral, classroom and instrumental teaching situations in the primary, elementary and intermediate/secondary schools.

AR: Attendance is mandatory. With respect to holidays, interns follow the schedule of the school and not that of the University.

OR: students may not be placed in their first district of choice and may be assigned to another Provincial school district

**404X Internship in Native and Northern Education (NPE,NS)** (equivalent to 15 credit hours in Education) is a one-semester internship in a school setting that will enable students to become directly involved in the teaching/learning process through observation and practice. Activities during the semester will involve seminars to assist students in the assessment of teaching methodologies most appropriate for the curriculum in Native schools. Student placement will be in a school setting depending upon the program route which students have followed.

AR: Attendance is mandatory. With respect to holidays, interns follow the schedule of the school and not that of the University.

PR: see Bachelor of Education (Native and Northern) Degree Regulations

**405X Internship in the Intermediate/Secondary School (IS,ISI)** (equivalent to 15 credit hours in Education) is an extended practicum which is school based. The purpose of the Internship is to provide opportunities for Interns to apply theories of teaching and learning in classroom settings, to develop effective teaching practices and to become reflective practitioners. The responsibility for the professional development and evaluation of the Intern is shared between a classroom teacher and a University Supervisor.

AR: Attendance is mandatory. With respect to holidays, interns follow the schedule of the school and not that of the University.

OR: students may not be placed in their first district of choice and may be assigned to another Provincial school district

OR: students completing the Bachelor of Education (Intermediate/Secondary) Conjoint with the Diploma in Technology Education will be placed for part of the internship in a Technology Education classroom setting

PR: Students wishing to complete an internship in French Immersion must complete Education 4154 and obtain the permission of the Office of Undergraduate Student Services. Normally, French Immersion interns have the equivalent of a major in French and a minimum of two semesters in a French milieu.

**4120 The Teaching of Art in the Intermediate and Secondary School (IS,ISI,ME)** examines current philosophies and methodologies in teaching art. Topics include curriculum implementation, organization and management, evaluation, safety, and advocacy.

**4121 Teaching Theatre Arts in the Intermediate and Secondary School (IS,ISI,ME)** examines the place of Theatre Arts in the intermediate and secondary school; the relationship between Theatre Arts and Drama in Education; and the most appropriate methods for the effective teaching of Theatre Arts.

**4142 The Teaching of English Language and Literature in the Intermediate and Secondary School I (IS,ISI,ME)** applies the principles of effective teaching to the teaching and learning of English language and literature. Topics that will be considered include the nature and structure of language and literature programs, text analysis, the writing of non-fiction prose, media literacy, and oracy.

**4144 Advanced English Teaching Methodology (IS,ISI)** builds upon the experiences gained in the internship, this course examines the reading and writing workshop approach to the study of English language and literature.

PR: ED 4142 (or permission of the Office of Undergraduate Student Services)

**4151 Advanced French Methodology (IS,ISI,NS)** is an in-depth analysis of the nature and purpose of the French program. Topics include a brief overview of the history of French teaching methodologies, an introduction to the research literature, an evaluation of techniques, and a consideration of issues facing the teaching of French.

PR: ED 4154 (or permission of the Office of Undergraduate Student Services)

**4154 The Teaching of French in the Intermediate and Secondary School (IS, ISI, ME)** gives an introduction to the nature and purpose of French programs at the Intermediate and Secondary school levels. Topics include: an overview of the characteristics and aims of French programs including Core French and French Immersion. The course will explore basic principles, techniques, strategies, and practices relating to teaching French as a second language, as well as characteristics of second-language lesson planning.

**4155 Introduction to Teaching in French Immersion in the Primary and Elementary Grades (PE,ME)** is a brief overview of the development of French Immersion programs; aims and objectives of French Immersion; evaluation of the extent to which objectives and materials can reflect those of the regular English classroom; analysis of differences between teaching in the French Immersion classroom and the core French, the French mother tongue, and the regular English classrooms; general teaching strategies appropriate to the level of French language development in the immersion setting.

OR: this course will be conducted in French

**4161 The Teaching of Mathematics in the Intermediate and Secondary School (IS,ISI,ME,NS)** applies the principles of effective teaching to the teaching and learning of mathematics. Topics include the purpose of mathematics, theories of learning mathematics, and lesson planning and evaluation.

**4163 Advanced Mathematics Methodology (IS,ISI,NS)** builds upon the principles of effective teaching and the teaching of mathematics to address specific issues related to the teaching and learning of mathematics in the Intermediate and Secondary school.

CR: the former 4160

PR: ED 4161 (or permission of the Office of Undergraduate Student Services)

**4172 Advanced Science Education Methodology (IS,ISI)** builds upon the principles of effective teaching and subject-specific methods courses, examines the experiences gained in the internship, and introduces significant and advanced ideas related to science teaching.

PR: ED 4174 or ED 4175 (or permission of the Office of Undergraduate Student Services)

**4174 The Teaching of Intermediate/Secondary School Science (IS,ISI)** is a laboratory course which will examine curricular and teaching issues generic to science teaching in intermediate and secondary schools. Choice of teaching examples will be made in order to stress situations most likely to be encountered by beginning science teachers. Differentiation of assignments will be based on the science discipline background of individual students. Students will carry out laboratory work in intermediate science and in a teachable area in which they were admitted.

CR: the former ED 4170, the former ED 4171, the former ED 4270, the former ED 4271

**4175 Foundations of Intermediate/Secondary Science Education (IS)** is a laboratory course which will examine major positions on the growth of knowledge in science, the history of ideas in science, scientific misconceptions, and the application of these ideas to science teaching will be the focus of this course. Students will carry out laboratory work in a second teachable area in which they were admitted.

CO: ED 4174

**4180 The Teaching of Social Studies in the Intermediate and Secondary School I (IS,ISI,ME,NS)** applies the principles of effective teaching to the teaching and learning of Social Studies. Topics include the nature and purpose of social studies education, specific teaching strategies, the examination of the selection and use of learning resources for the Social Studies, unit planning, development, and evaluation.

**4181 The Teaching of Social Studies in the Intermediate and Secondary School II (IS,ME,NS)** examines the teaching of specific disciplines in Social Studies. Topics include the nature of the particular discipline, intermediate and secondary school courses in the discipline, and teaching strategies appropriate to the discipline.

CO: ED 4180

**4182 Advanced Social Studies Methodology (IS,ISI)** analyses students' experiences in the internship, examines recent research in the teaching of social studies, considers alternative approaches to the teaching and learning of social studies, and explores current issues in the field.

PR: ED 4180 or ED 4181 (or permission of the Office of Undergraduate Student Services)

**4190 The Teaching of Physical Education in the Intermediate and Secondary School (IS,ISI,ME)** is a laboratory course that applies the principles of effective teaching to the teaching and learning of physical education. Topics include the nature and purpose of physical education, an examination of the physical education curriculum, an analysis of quality daily physical education, approaches to teaching physical education, and evaluation of progress in physical education.

LH: two hours per week supervised practice teaching on-campus and in a school setting

**4203 The Teaching of Religious Education in the Intermediate and Secondary School (IS,ME)** applies the principles of effective teaching to the teaching and learning of Religious Education. Topics include formulating objectives, examining theories of faith and moral development, selecting and using resources, and evaluating learning.

**4204 Advanced Religious Education Methodology (IS)** - inactive course.

**4205 Religious Education in Primary and Elementary Grades (PE,ME)** is an introductory study of aims and objectives, subject matter, curriculum materials, teaching methods, learning experiences, and evaluation, for Religious Education courses.

CR: the former ED 2080

**4220 The Teaching of Inuttut I (T,NPE,NS)** explores a variety of teaching techniques and materials developed to assist in the teaching of Inuttut in Native schools. Problems associated with second-language teaching will be explored.

PR: 9 credit hours in Inuttut

**4221 The Teaching of Inuttut II (T,NPE,NS)** is a continued exploration of teaching techniques and material development for the teaching of Inuttut with emphasis on linguistic difficulties encountered in Native schools by children whose first language is English.

PR: ED 4220

**4230 The Teaching of Innu-aimun I (T,NPE,NS)** explores a variety of teaching techniques and materials developed to assist in the teaching of Innu-aimun in Native Schools.

PR: 9 credit hours in Innu-aimun

**4231 The Teaching of Innu-aimun II (T,NPE,NS)** explores a variety of teaching techniques and material development for the teaching of Innu-aimun. Linguistic difficulties encountered by students whose first language is not Innu-aimun.

PR: ED 4230

**4240 An Introduction to the Exceptional Learner (IS,ISI,ME,PE)** is an introduction to the nature of exceptionality in the student. Topics include an examination of special needs resulting from exceptionality, approaches to meeting the special needs, issues of exceptionality, and a consideration of selected categories of exceptionality.

CR: the former ED 3220, the former 3230, the former ED 4902

**4242 Identification and Remediation of Learning Difficulties (IS,ISI,PE)** examines the identification processes and remediation techniques appropriate for dealing with student learning difficulties. Topics include identification of learning difficulties, the process of program planning, and the application of teaching and learning strategies to specific subject areas.

PR: ED 4240 or the former 3220 or 3230

**4250 and 4251 Institute for Teaching French in Immersion Programmes Courses (PE)** - inactive course.

**4252 and 4253 Institute in the Teaching of Social Studies in French Immersion Courses (PE)** - inactive course.

**4260 The Nature of Adolescence (IS,ISI,ME)** examines the nature of

adolescence. Topics include an introduction to development theories, an examination of the considerations for teaching and learning, and an analysis of the issues and concerns of the classroom teacher.

**4275 Environmental Education Across the Curriculum (IS,ISI)** examines various international and Canadian initiatives, models, curricula, and programs in environmental education and explores effective methods of developing environmental awareness through the various content areas of elementary, intermediate and secondary education.

**4300-4310 Special Topics Courses in Primary/Elementary (P/E)** will have topics to be offered announced by the Faculty of Education.

**4330 Curriculum and Instruction in Native and Northern Schools I (T,NPE,NS)** reviews the principles of and techniques for curriculum development. Adaptation or reformulation of these will be made in the light of the needs and desires of Native peoples. Critical analysis will be made of curriculum resources presently in use. Instructional materials will be prepared and produced with emphasis on printed materials relevant to the experiential background of the Indian and Inuit child.

**4331 Curriculum and Instruction in Native and Northern Schools II (PE,NPE,NS)** is an in-depth examination of innovations in curriculum and instruction in Native communities within Canada. Emphasis will be placed on projects in curriculum planning and the development of instructional material, to be conducted in conjunction with school personnel already in the field. This course would serve as a valuable resource to school systems involved in curriculum planning and instructional development.

**4340 Literature for Young Adults (IS,ISI)** is designed to explore literature for young adults and its integration into the content areas. Topics include an examination of the nature of literature for young adults, the literary genres, research on the reading interests of young adults, issues treated in young adult literature, and an historical overview of available young adult literature.

**4350 Reading in the Content Areas (IS,ISI)** examines the nature of reading in subject-specific areas such as history, biology, and mathematics. Topics include the role of the teacher in the teaching of content in different areas, evaluating vocabulary, grammar, usage and text structure for instruction, and analysing the variety of strategies for reading, writing and studying.

**4354 Writing in the Intermediate and Secondary School (IS,ISI)** analyses the relationship between writing and learning. Topics include an examination of the variety of approaches to the teaching of writing, the role of the teacher in the teaching of writing, the composing process, and the evaluation of writing.

**4356 Learning Through Drama (IS,ISI)** introduces drama as a valuable teaching and learning strategy. Topics include an examination of the foundations, values, and assumptions of drama as an effective means of curriculum implementation in subjects such as English, Social Studies, and Science.

**4361 Teaching and the Contemporary Classroom (IS,ISI)** is an introduction to the institutional and social context of teaching. Topics include the role of school in society, the organization and administration of schools, the dynamics of classroom culture, and school observation.

**4362 Sociological Perspectives on Teaching and Learning (PE,ME)** is an examination of such social issues in education as poverty, child abuse, gender, ethnicity, and changes in the society and their implications for the nature and process of schooling. A study of social dimensions of education, including the content of education and the organization of teaching and learning. An analysis of students' experiences in the internship with regard to the above and other aspects of education the students might identify.

CR: the former ED 4360

PR: completion of the Professional Year

**4381 Perspectives on Schooling (IS,ISI)** examines educational theory and practice within the context of sociological, historical, and philosophical perspectives on schooling. Topics include the purpose of education, the formation of knowledge, and an analysis of issues such as equality of opportunity, and educational reform and change.

**4382 Critical Thinking and Knowledge in Education (IS,ISI)** examines various conceptions of the nature of critical thinking and its role in the acquisition, justification, and production of disciplinary knowledge. Topics include the nature of critical thinking, the uses of language in reasoning and communication, criteria and principles of reasoning within the various disciplines, methods and strategies of problem-solving, negotiation, and decision-making, and the teaching and assessment of critical thinking.

**4383 Philosophy of Teaching and Learning (PE,ME)** examines a number of central philosophical concepts, assumptions and issues involved in the pursuit of teaching and learning in the schools. The aim of the course is to provide students with an understanding of the distinctive character of philosophical analysis as a reflective and critical practice that intends to promote professional excellence and personal well-being.

CR: the former ED 4380

PR: completion of the Professional Year

**4420 Legal and Moral Issues in Education (IS,ISI,PE)** examines educational law and sources of conventional morality for the purpose of clarifying individual stances on legal and moral issues. Topics include the nature and theoretical bases of law and morality in education, the legal foundations of the Canadian education system, the legal and moral rights and responsibilities of teachers and students, and teacher liability.

**4425 Introduction to Educational Administration (PE,IS,ISI)** is an examination of the roles of various levels of government in Education; theories of administration; management as it relates to curriculum, organization, personnel, finance, and communication; and their implications for teachers in the Newfoundland context.

CR: the former Education 2410

PR: completion of the Professional Year or ED 405X

**4450 Practicum in Adult Education (A)** are on-the-job supervised activities designed to have the student implement the theory and principles of Adult Education.

**4505 Life Skills and Transition Planning for Adolescents with Cognitive Challenges (SE)** will focus upon the application of educational procedures relevant to the successful employment and community adjustment of mildly and moderately developmentally disabled adolescents and young adults. Senior special education programs and materials directed toward personal life-skills development and work-study experience in both open-community and protected work situations will be reviewed.

**4510 Inclusive Practices for Children with Mild Cognitive Challenges (SE)** gives consideration to: the establishment of objectives; selection, development and review of materials; the use of various instructional procedures; and the provision of appropriate experiences for the education of children with mild mental disabilities at the primary, elementary and senior levels.

CO: ED 3610

PR: ED 3610

**4515 Inclusive Practices for Children with Moderate Cognitive Challenges (SE)** will consider objectives, the development of programs, and the use of various instructional procedures for the education of children with moderate mental disabilities. Emphasis will be given to the development of skills necessary for participation in the home and community as well as in the classroom setting.

CO: ED 3610

OR: ED 3610

**4520 Psychoeducational Interventions for Behaviour Problems of Children and Adolescents (SE)** will examine programs and strategies for children with behaviour disabilities. These will include: counselling skills, case conferences, structured learning environments and therapeutic interventions for specific behaviour problems. In addition, consideration will be given to articulation with mental health specialists and procedures to develop readiness for return to regular instructional programs.

CO: ED 3620

PR: ED 3620

**4530 Inclusive Practices for Children with Learning Disabilities (SE)** is an examination of individual and classroom remedial techniques developed for the amelioration of specific learning disabilities.

CO: ED 3630

PR: ED 3630

**4540 Identification and Remediation of Speech/language Disorders in Children (SE)** will provide theoretically sound and research based methods for the identification and remediation of speech and language concerns in children and adolescents. Topics include: typical language development; nature of developmental concerns for both speech (articulation, voice and fluency) and language (receptive, expressive and phonetic awareness); social use of language; and augmentative communication. Particular focus will be placed on current interventions/strategies and program/models. The course is aimed at supporting teachers in developing effective individualized programs for today's inclusive classroom.

**4541 Communication for the Deaf (PE,SE)** is an introductory course in communication strategies employed with the Deaf and Hearing Impaired. Language acquisition by individuals with normal hearing and individuals with impaired hearing will be explored and contrasted through an analysis of a variety of modes. A laboratory component of the course is designed to impart a degree of skill in practical usage of American Sign Language and Finger Spelling. The primary emphasis will be on manual systems of communication common to the deaf, as well as those systems in use as supplementary instructional methods at Schools for the Deaf.

PR: acceptance to the Special Education Degree program or permission of the Instructor

**4543 Language and Deafness (PE,SE)** presents a broad overview of the effects of hearing impairment on individuals. Emphasis is on the effects of impaired linguistic environments; the cognitive, social, and emotional development of hearing impaired children and adults; the use and

adaptation of assessment procedures; and the administration, organization, and delivery of instructional programs.

PR: ED 4240, or the former ED 3220, or ED 3230.

**4580 Intermediate and Secondary Education and Culture (IS,ISI)** - inactive course.

**4610 The Nature and Management of Stress (PE,IS,ISI)** studies the nature of stress as it is manifested in the teacher and the teaching profession, and provides approaches to coping effectively with the factors which are related to that stress. Topics include the nature of the human stress response, causes and symptoms of stress (personal and professional), self-assessment techniques, and a selection of approaches available to cope with the stress typically related to the roles and expectancies of teaching.

**4700 Student Teaching in Post-Secondary Education (PS)** applies theories of education in the learning situation; observation and demonstration of lessons; seminars in teaching techniques.

PR: ED 2710, ED 2720, ED 2730, ED 2801, ED 3280, and ED 3801, or equivalent teaching experience and permission of the course instructor

**4710 Seminar in Post-Secondary Education (PS)** identifies, analyses, and discusses major issues, practices, and problems in Post-Secondary Education in Newfoundland and Canada.

PR: ED 2710, ED 2720, and ED 2730

**4730 Educational Programs and Practices in Industry and Labour (PS)** is a study of the various Post-Secondary Education programs operated either wholly by industry and labour or jointly with educational institutions; apprenticeship, work experience and study programs, co-operative education, training-in-industry, training on-the-job, supervisory training, management development.

PR: ED 2710, ED 2720, and ED 2730

**4750 Integrated Materials and Production Processes (ISI)** examines theory and practice in selected advanced technical skills in materials processes applied in conjunction with mechanical and fluid power and their practical applications in the modern technology education laboratory setting. Topics include integrated design, digital and fluidic control, robotics systems, and computer assisted machine applications.

**4751 Advanced Communications Systems (ISI)** examines theory and practice of selected advanced technical skills in communications technology as they apply to the modern technology education laboratory. Topics include development and utilization of computer networks; satellite, and various transmission technology found in communication processes.

**4752 Technology Education, Specialized (ISI)** examines theory and practice involving selected technical skills and their practical application in the technology education laboratory. Topics include the applications and use of more advanced technological systems and processes and their integration into the school curriculum of Newfoundland and Labrador.

OR: A modular approach will be used for each of the 21 technical skills credit hours. Students who can demonstrate competency in a particular module will be allowed to substitute another module in its place. Students must select the substitute module in consultation with the Office of Undergraduate Student Services.

**4760-4780 Advanced Specialized Post-Secondary Education Technologies (PS)** examines the theory and practice of selected advanced specialized Post-Secondary Education technical skills and their application to the laboratory, workshop and business office. Emphasis will be placed on innovative and emerging techniques in selected areas of business, industry, and the service occupations.

**4830 Music Education Seminar (ME)** is detailed examination of the foundations of Music education common to all levels and types of school Music. Topics include curriculum development, evaluation, psychology and philosophy of Music education and the Music teacher's administrative responsibilities.

**4901 Effective Teaching Strategies for Multi-grade/Multi-age Classrooms (PE,IS,ISI)** begins with a critical examination of traditional approaches to multi-grading. The main focus of the course will be to introduce teachers to the potential of adopting a multi-age approach in small schools which have of necessity grouped children of more than one age group and grade level together for instruction. This course will also examine the implications of implementing a philosophy of multi-age pedagogy in the primary, elementary and intermediate grades (K-9).

**4943 Computing Technology in Mathematics Education in the Primary and Elementary Grades (PE)** will explore the impact of computing technology on Mathematics curriculum and instruction. Topics will include the role of computers and calculators in developing mathematical concepts, computational skills and mathematical problem-solving processes; the use of computer animation and simulation to enhance Mathematics instruction; and, the evaluation and adaption of commercially developed software for Mathematics instruction. An in-depth look at LOGO and available CAL

materials will be included.  
PR: ED 3940

**4944 Computing Technology in Mathematics Education in the Secondary School Grades** will explore the role of the computer as a provider of learning experiences in the high school Mathematics curriculum. The focus of the course will be on CAL in Mathematics and will investigate drill and practice, tutoring, simulation, animation, and demonstration. The role of the computer in communication and testing in Mathematics will be included.

PR: ED 4161

**4945 Computers in Education (IS)** examines the use of computer-based technology across the curriculum. Topics include an introduction to hardware and operating systems, learning through computers, use and

evaluation of computer software, and an examination of specific curriculum issues.

**4950 Evaluation of Teaching and Learning (IS,ISI)** is an introduction to the theory and practice of evaluating teaching and student learning in the classroom. Topics include the nature of classroom assessment; the production, administration, interpretation, and evaluation of teacher-made tests; assessment of student products and performances by direct observation; grading and reporting progress; and the application of assessment results to the improvement of teaching.

CR: the former ED 4912

**4970-4980 Special Topics Courses in Intermediate/Secondary (IS)** will have topics offered announced by the Faculty of Education.

## 6 Institutes in Education

The Faculty of Education offers a number of Institutes in Education. These are intended primarily to provide opportunity for teachers to gain knowledge of new approaches to the teaching of existing school programs and to gain insight into aspects of new programs as they are introduced in the school system. These Institutes normally carry 6 or 9 credit hours. Students who enrol in Institutes of six weeks duration or less will not normally be permitted to register for any other courses. Additional information on Institutes may be obtained from the Faculty of Education. Not all Institutes are offered every semester or summer. Students wishing to enrol in Institutes should contact the Office of Undergraduate Student Services.

**Dean Pro Tempore**

Quaicoe, J.E., B.Sc. (Eng.) *Ghana*, M.A.Sc., Ph.D. *Toronto*, P.Eng.; Winner of the President's Award for Distinguished Teaching, 2001-2002; Professor, Electrical and Computer Engineering

**Associate Dean (Undergraduate Studies)**

Fisher, A.D., B.Sc. *Queen's*, M.Eng. *McMaster*, FEC, P.Eng.; Associate Professor, Mechanical Engineering

**Associate Dean (Graduate Studies)**

to be determined

**Associate Dean (Research)**

to be determined

**Acting Director, Ocean Engineering Research Centre**

Qiu, W., B.Eng., M.A.Sc. *Dalian University of Technology*, Ph.D. *Dalhousie*, P.Eng., Associate Professor, Ocean and Naval Architectural Engineering

**Director, Industrial Outreach**

to be determined

**Manager, Finance and Administration**

Elliott, B., B.Comm. *Memorial*

**Manager, Engineering Laboratories**

Pike, D., B.Eng., M.Eng. *Memorial*

**Professores Emeriti**

Jordaan, I.J., B.Sc.(Eng.), M.Sc.(Eng.) *Witwatersrand*, Ph.D. *London*, P.Eng.; University Research Professor, Awarded 1997  
Peters, G.R., B.Sc. *Memorial*, B.A.Sc. *Toronto*, Ph.D., *Aberdeen*, P.Eng.

Sharp, J.J., B.Sc., A.R.C.S.T., M.Sc. *Glasgow*, Ph.D. *Strathclyde*, F.I.C.E., F.C.S.C.E., F.E.I.C., P.Eng., C.Eng.

Walsh, J., B.Eng.(Hons.) *TUNS*, Ph.D. *Calgary*, P.Eng.

**Professor**

Meisen, A., B.Sc. *Imperial College*, London, M.Sc. *Caltech*, Ph.D. *McGill*, P.Eng., F.C.I.C., F.C.A.E., F.I.E.I. *Eurling*

**Honorary Research Professors**

Bass, D.W., B.Sc. *Hull*, Cert.Ed. *London*, M.Phil. *Birkbeck College*, Ph.D. *Warwick*

Bruce-Lockhart, M.P., S.B., S.M., *M.I.T.*, P.Eng.; Winner of the President's Award for Distinguished Teaching, 2006-2007

Clark, J.I., B.Sc. *Acadia*, B.Eng. *TUNS*, M.Sc. *Alberta*, Ph.D. *TUNS*, P.Eng.

Friis, D.A., B.Sc. *Newcastle*, M.B.A. *Toronto*, Siv. Ing., P.Eng.

Molgaard, J., B.Sc. *Belfast*, Ph.D. *Leeds*, P.Eng.

Popescu, R., B.Sc., Ph.D. *Bucharest*, M.A., Ph.D. *Princeton*, P.Eng.

Swamidas, A.S.J., B.E.(Hons.), M.Sc.(Eng.) *Madras*, Ph.D., *I.I.T. Madras*, P.Eng.

**Civil Engineering Discipline****Chair**

Lye, L.M., B.Sc.(Hons.) *Bolton Inst.*, Ph.D. *Manitoba*, FCSCE, FEC, P.Eng.; Winner of the President's Award for Distinguished Teaching, 2003-2004; Professor

**Professor**

Husain, T., B.Sc.Eng. (Hons.) *Aligarh*, M.Eng. *AIT Bangkok*, Ph.D. *British Columbia*, P.Eng.

**Associate Professors**

Adluri, S.M.R., B.Tech., *J.N.T. Univ.*, M.Tech. *I.I.T. Kanpur*, M.A.Sc., Ph.D. *Windsor*

Coles, C.A., B.Eng., M.Eng., Ph.D. *McGill*, P.Eng.

Hawladar, B.P., B.Sc. Eng. *BUET*, M.Eng. *AIT*, Ph.D. *Yokhama National Memorial*, P.Eng.

Hussein, A., B.Sc. (Eng.) *Ain Shams University*, M.Eng., Ph.D. *Memorial*, P.Eng.

Kenny, S. P., B.Eng., M.Eng. *Memorial*, Ph.D. *Dalhousie*, P.Eng.

Niefer, R.A., B.Sc., Ph.D. *Windsor*

Phillips, R., B.Sc.(Hons.) *Bristol*, M.Phil., Ph.D. *Cambridge*, P.Eng.; Joint appointment with C-CORE

Snelgrove, K.R., B.Eng. *Memorial*, M.A.Sc., Ph.D. *Waterloo*, P.Eng.

**Assistant Professors**

Bruneau, S.E., B.Eng. *Memorial*, M.E.Sc. *U.WO*, Ph.D. *Memorial*,

P.Eng.

Chen, B., B.Eng. *Jilin*, M.Sc. *Peking*, Ph.D. *Regina*, P.Eng.

**Electrical and Computer Engineering Discipline****Chair**

Peters, D.K., B.Eng. *Memorial*, M.Eng., Ph.D. *McMaster*, P.Eng., Associate Professor

**Professors**

Gill, E.W., B.Sc., B.Ed., M.Eng., Ph.D. *Memorial*, P.Eng.

Gosine, R.G., B.Eng. *Memorial*, Ph.D. *Cambridge*, P.Eng.; Winner of the President's Award for Outstanding Research, 1997-1998; Petro-Canada Young Innovator Award, 1998; Vice-President (Research) *pro tempore*

Heys, H.M., B.E.Sc. *Western Ontario*, Ph.D. *Queen's*, P.Eng.

Jeyasurya, B., B.Tech. *I.I.T. Madras*, M.Tech. *I.I.T. Bombay*, Ph.D. *New Brunswick*, P.Eng.

Moloney, C.R., B.Sc.(Hons.) *Memorial*, M.A.Sc., Ph.D. *Waterloo*; NSERC/Petro-Canada Chair for Women in Science and Engineering (Atlantic Region)

O'Young, S.D., B.Eng. *Saskatchewan*, M.A.Sc., Ph.D. *Waterloo*, P.Eng.

Rahman, M.A., B.Sc. (Eng.) *Bangladesh*, M.A.Sc. *Toronto*, Ph.D. *Carleton*, L.F.I.E.E.E., F.I.E.T., L.F.I.E., F.E.I.C., F.C.A.E.,

C.Eng., P.Eng.; University Research Professor, Awarded 1993  
Venkatesan, R., B.E.(Hons.) *Madurai*, M.Sc.E., Ph.D. *New Brunswick*, P.Eng.

**Associate Professors**

Ahmed, M.H., B.Sc., M.Sc., *Ain-Shams*, Ph.D. *Carleton*, P.Eng.

George, G.H., B.Sc. *Southampton*, Ph.D. *Wales (U.C. Cardiff)*, Cert.Ed., (C.N.A.A.), F.R.A.S.

Iqbal, M.T., B.Sc. *UET Lahore*, M.Sc., *QAU Islamabad*, Ph.D. *Imperial College, London*, P.Eng.

Li, C., B.Eng.(Hons.), M.Eng. *Harbin Institute of Technology*, Ph.D. *Memorial*, P.Eng.

Masek, V., Dipl.Ing. *University of West Bohemia*, M.Sc., Ph.D. *University of Electro-Communications, Tokyo*

Norvell, T.S., B.Sc.(Hons.) *Dalhousie*, M.Sc., Ph.D. *Toronto*

**Assistant Professors**

Dobre, O., D.Eng., Ph.D. *Politechnica*

Ordonez, M., Ing. *National Technological University (UTN)*, M.Eng., Ph.D. *Memorial*

Vardy, A., B.Eng. *Memorial*, M.Sc. *Sussex*, Ph.D. *Carleton*; Joint appointment with Engineering and Computer Science

Wang, F., B.Eng., M.Eng. *Hebei University of Technology*, Ph.D. *Concordia*

Zhang, L., B.E., M.Sc.(Eng.) *H.U.S.T. Wuhan*, Ph.D. *O-V-G Magdeburg*

**Mechanical Engineering Discipline****Chair**

Munaswamy, K., B.E., *S.V. Univ. Tirupathy*, M.Tech., Ph.D., *IIT Madras*, P.Eng.; Associate Professor

**Professors**

Hinchey, M.J., B.A.Sc., M.A.Sc., Ph.D. *Toronto*, P.Eng.

Muzychka, Y.S., B.Eng. *Memorial*, M.A.Sc., Ph.D. *Waterloo*, P.Eng.; Petro-Canada Young Innovator Award 2004

Seshadri, R., B.E.(Hons.) *Jabalpur*, M.Tech. *I.I.T. Madras*, M.Sc., Ph.D. *Calgary*, FCSME, FEIC, FASME, P.Eng.; Canada Research Chair in Asset Integrity Management

Sharan, A.M., B.Tech., *I.I.T. Bombay*, M.S. *Wash. State*, Ph.D. *Concordia*, P.Eng.

**Associate Professors**

Fisher, A.D., B.Sc. *Queen's*, M.Eng. *McMaster*, P.Eng.

Hsiao, A.C., B.Sc. *Massachusetts Institute of Technology*, M.Sc., Ph.D. *Carnegie Mellon University*, M.B.A. *Memorial*

Hookey, N.A., B.Eng. *Memorial*, M.Eng., Ph.D. *McGill*, P.Eng.

Krouglicof, N., B.Eng.(Hons.), Ph.D. *Concordia*; Baader-Canpolar Industrial Research Chair in Machine Vision

Lobo, L.J., B.Tech.(Hons.) *I.I.T. Bombay*, M.A.Sc. *Waterloo*

Mann, G.K.I., B.Sc. *University of Moratuwa*, M.Sc. *Loughborough University of Technology*, Ph.D. *Memorial*

**Assistant Professor**

Rideout, D.G., B.Eng. *Memorial*, M.Sc.(Eng.) *Queen's*, Ph.D. *Michigan*, P.Eng.

## Ocean and Naval Architectural Engineering Discipline

### Chair

Haddara, M.R., B.Sc. *Ain-Shams*, M.S., Ph.D. *Berkeley*, C.Eng., P.Eng.; Professor

### Professors

Colbourne, D.B., B.Eng. *Memorial*, S.M. *MIT*, Ph.D. *Memorial*, P.Eng.  
 Daley, C.G., B.E.Sc. *Western Ontario*, M.S.E. *Princeton*, Dr. Tech. *Helsinki*, FEC, P.Eng.  
 Veitch, B.J., B.Eng., M.Eng. *Memorial*, Dr.Tech., Lic.Tech. *Helsinki*, P.Eng.; Winner of the President's Award for Outstanding Research, 2004-2005

### Associate Professor

Bachmayer, R., Dipl.Ing. *Technical University Karlsruhe*, M.Sc., Ph.D. *Johns Hopkins*; Canada Research Chair in Ocean Technology, Petro-Canada Young Innovator Award, 2009  
 Walker, D., B.Eng., Ph.D. *Memorial*, P.Eng.

### Assistant Professor

Peng, H., B.Eng., M. A. Sc. *Dalian University of Technology*, Ph.D. *Dalhousie*

## Process Engineering

### Chair

Khan, F.I., B.Sc.(Eng.) *AMU*, M.E. *IIT Roorkee*, Ph.D. *Pondicherry*

### Professors

Butt, S.D., B.Eng., M.Sc. *Memorial*, Ph.D. *Queens*, P.Eng  
 Johansen, T.E., B.A.Sc., M.Sc., Ph.D. *University of Oslo*; Canada Research Chair in Petroleum Reservoir Engineering and Characterization

### Associate Professor

Hawboldt, K.A., B.Sc. *Saskatchewan*, M.Sc., Ph.D. *Calgary*, P.Eng.  
 Shirokoff, J.W., B.Sc.(Eng.), Ph.D. *Queen's*, P.Eng.

### Assistant Professors

Alam, S., B.Sc.(Eng.) *BUET*, M.Sc., Ph.D. *Saga*, P.Eng.  
 Ilyias, A., B.Eng., A.B.U. *Zaria*, M.Sc. *King Fahd University*, Ph.D. *New Brunswick*, P.Eng.

### Cross-Appointment, Adjunct, Professional Affiliate

Bose, N., B.Sc., Ph.D. *Glasgow*, F.S.N.A.M.E., C.Eng., P.Eng.; Adjunct Professor  
 Byrne, R., B.Sc.(Hons.), B.Eng. *Memorial*, M.Sc., Ph.C. *Victoria*;

Cross Appointment (Computer Science)

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Faculty Description

The Faculty of Engineering and Applied Science offers a co-operative undergraduate program leading to the degree of Bachelor of Engineering, as well as graduate programs leading to the degrees of Master of Engineering, Master of Applied Science, Master of Engineering Management, and Doctor of Philosophy. Through teaching, research and outreach, the Faculty of Engineering plays a critical role in the economic development of the province, and graduates from the programs hold key positions in the major industrial developments in our province. A growing number of our recent graduates are leading emerging high-technology companies and hold important positions in national and international industries and governments, contributing to the University's global impact. Research in the Faculty of Engineering and Applied Science has a strong focus on research and development opportunities associated with the general technological needs of our society. The Faculty maintains a very strong sense of identity and cooperation among students, faculty, and staff, and prides itself on its strong linkages with industry and the engineering profession.

Additional information regarding the Faculty of Engineering and Applied Science is available at [www.engr.mun.ca](http://www.engr.mun.ca).

Students must meet all regulations of the Faculty in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to the **UNIVERSITY REGULATIONS**.

### 2.1 Accreditation Status

The undergraduate program offered by the Faculty of Engineering and Applied Science, other than the major in Process Engineering, is fully accredited by the Canadian Engineering Accreditation Board (CEAB) of the Canadian Council of Professional Engineers (CCPE) to June 2011. Accreditation for the Process Engineering major will be sought, in line with the normal procedures of the CEAB, in 2013.

### 2.2 Objectives of the Bachelor of Engineering Degree Program

The objectives of the undergraduate program is to provide students an excellent academic experience and to equip graduates with the

ability to solve a broad range of problems in our rapidly changing technological, economic and social environment. To this end, the Faculty is committed to educate graduates who have:

1. a strong foundation and knowledge in engineering fundamentals with a capacity to know how, when and where to use the knowledge in specific ways;
2. an ability to identify, formulate, analyse and solve engineering problems and a capacity to integrate material from more than one subject and to apply appropriate engineering principles to arrive at correct and effective solutions;
3. a comprehensive knowledge in the fundamentals of engineering practice, including an ability to use analytical techniques, experimental and laboratory skills and modern engineering simulation and design software tools;
4. a broad knowledge of the principles and skills in engineering design, development and management in global, cultural and business contexts;
5. a multidisciplinary view with an ability to work effectively as members of teams, composed of individuals from different disciplines and different professional cultures;
6. strong oral and written communication skills with a capacity to produce effective technical documents and to use current communication techniques and tools;
7. a culture of life-long learning with a capacity to engage in continuous self-improvement, personal enrichment and professional development; and
8. a broad sense of social, ethical and professional responsibility with a capacity to demonstrate an understanding and appreciation of the human dimension of technology and its impact on mankind.

### 3 Description of Program

The Bachelor of Engineering Degree at Memorial University of Newfoundland is a Co-operative Program in which regular full-time academic study is supplemented by four month periods of full-time work in positions related to the student's future career. The Bachelor of Engineering degree program is available in the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering.

Engineering One, the first-year of the engineering program, comprises courses in mathematics and basic science (physics and chemistry), as well as courses covering engineering fundamentals which are common to each of the majors. The engineering courses in Engineering One introduce students to engineering problem-solving, analysis, design, communication, and teamwork. Students will develop an understanding of the different engineering specialities, as well as the interdisciplinary nature of engineering practice.

The specialized major programs of Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering are offered in academic terms 3 through 8. Students in each major, except the Process Engineering major, may also choose to pursue an Offshore Oil and Gas Engineering option (OUGE) in the last three terms of the program. For specific details on each major, refer to the appropriate **Program Regulations**.

Electives can be tailored to meet the needs of those who plan to go straight into industry and those who wish to join the increasing number of our graduates who are pursuing advanced degrees.

All courses of the Faculty are designated by the abbreviation ENGL.

#### 3.1 Program of Study

1. Courses in the engineering program are normally taken in blocks as shown in the appropriate program table. Students must satisfy the criteria for promotion as described below under **Promotion Regulations** to remain in the Engineering program.
2. The Engineering Program consists of eight academic terms and four work terms. The first-year of the Engineering Program, known as Engineering One, forms a core that is common to all majors. All students must successfully complete the requirements of Engineering One prior to being promoted to Academic Term 3.
3. In 1000 level Engineering courses, registration priority is given to students who have been admitted to Engineering One. Other students will be admitted to these courses only with the approval of the Associate Dean (Undergraduate Studies).
4. In these program regulations, including the program tables, wherever reference is made to English 1080 or Chemistry 1050, these courses may be replaced by courses deemed equivalent by the relevant academic unit.
5. Upon entering Academic Term 3, students begin to specialize in their academic program, in one of the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, or Process Engineering. All Engineering students who successfully complete the Engineering One requirements during their first-year of Engineering will be guaranteed a place in Academic Term 3, although not necessarily in the preferred major as indicated under **Promotion Regulations, Promotion Status (Engineering One)**.
6. Upon entering Academic Term 6, students in Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering or Ocean and Naval Architectural Engineering may choose to pursue the Offshore Oil and Gas Engineering option (OUGE) for that major.
7. Engineering courses in Academic Term 3 and beyond (i.e., those with numbers 3000 and greater) are restricted to students who have been admitted or promoted to the appropriate academic term and major (e.g., Academic Term 3 for 3000 level courses, restricted by major). Other students will be admitted to these courses only with the approval of the Associate Dean (Undergraduate Studies) in consultation with the appropriate Discipline Chair.

Some of the courses offered in academic terms 3 to 8 are taken by all Engineering students, others are offered for more than one major, but most technical courses in academic terms 3 to 8 are specific to the individual majors. Students should refer to the program descriptions for the detailed course requirements in each phase of their program.

8. Technical elective courses may be offered in terms other than those indicated in the program tables.
9. A student who has previously met a technical elective requirement in a given semester or wishes to defer it, may request an exemption or deferral by applying to the Associate Dean (Undergraduate Studies), who will consult the appropriate Discipline Chair. A minimum grade of 60% is required for credit to be given towards a student's engineering program for any technical elective taken outside the normal blocks as shown in the tables.
10. Students registered in Academic Term 7 of any Engineering major are eligible to apply for admission to a **Master of Engineering** fast-track option (M.Eng.). The purpose of the option is to encourage students interested in pursuing graduate studies to begin their graduate program while still registered as an undergraduate student. While enrolled in the option, a student may complete some of the M.Eng. Degree requirements and potentially be able to graduate earlier from the M.Eng. Program. For further details and the regulations regarding the option, refer to the **School of Graduate Studies, Regulations Governing the Degree of Master of Engineering**.

## 3.2 Complementary Studies

1. The Complementary Studies component has been developed to make students aware of the function and responsibilities of the Professional Engineer in society and the impact that engineering in all its forms has on environmental, economic, social and cultural aspects of our society. This complements the technical expertise and communications skills developed and practised in all components of the program.
2. The Complementary Studies component is the same for all programs and consists of a minimum of 21 credit hours as follows:
  - English 1080 or English 1020
  - Engineering 3101
  - Engineering 4102
  - One 3 credit hour course that deals with the effect of technology on society and the environment. The course is to be chosen from Engineering 6101, Sociology 2120, Philosophy 2571 or the former Philosophy 2801, Women's Studies 4107
  - Engineering 7102
  - One Elective course of a 3 credit hour value chosen from the arts, humanities, social sciences and management and approved by the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science. List A is an approved list of courses maintained by the Office of the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science and is available at the web site [www.engr.mun.ca](http://www.engr.mun.ca).
  - One Elective course of a 3 credit hour value chosen from the humanities and social sciences and approved by the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science. This course must be second-year or higher and it is intended to provide experience with the central issues, methodologies and thought processes of the humanities and social sciences. List B is an approved list of courses maintained by the Office of the Associate Dean (Undergraduate Studies) of the Faculty of Engineering and Applied Science and is available at the web site [www.engr.mun.ca](http://www.engr.mun.ca).
3. In order to graduate, the student must obtain an overall average of at least 60% in the 21 credit hours in Complementary Studies courses required in the program.

## 3.3 Bachelor of Engineering Majors

The Bachelor of Engineering degree program is available in the following six majors: Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering, Ocean and Naval Architectural Engineering, and Process Engineering.

### 3.3.1 Civil Engineering

Civil Engineering deals with the planning, design, and construction of roads, railways, harbours, docks, tunnels, bridges, buildings, water supplies, hydroelectric power development, and sewage collection, treatment, and disposal systems.

The Civil Engineering major provides a broad introduction to the scientific principles and engineering techniques necessary for an understanding of the fundamental problems tackled by civil engineers. In Academic Term 6, students may select the Offshore Oil and Gas option (OUGE).

### 3.3.2 Computer Engineering

Computer Engineering is the design and analysis of computer systems applied to the solution of practical problems. It encompasses both hardware and software design in applications ranging from telecommunications and information systems to process control and avionics. Computer Engineering students learn the mathematics of discrete and continuous systems, the design of digital machines such as processors and memories, the fundamentals of software design, and the principles used in communications systems such as telephone networks and the Internet.

Computer Engineering shares many fundamentals with Electrical Engineering which are covered in a common curriculum up to and including Academic Term 3. In Academic Term 6, students may select the Offshore Oil and Gas option (OUGE). In recognition of the considerable diversity of careers available to computer engineers, students are given latitude in the final three academic terms to choose from a wide range of electives in various speciality areas.

### 3.3.3 Electrical Engineering

Electrical Engineering is a broad field encompassing the study of control systems, electromagnetics and antennas, power systems, electronics, communications, and computer hardware and software.

Electrical Engineering shares many fundamentals with Computer Engineering which are covered in a common curriculum up to and including Academic Term 3. In Academic Term 6, students may select the Offshore Oil and Gas option (OUGE). In recognition of the considerable diversity of careers available to electrical engineers, students are given latitude in the final three academic terms to choose from a wide range of electives in various speciality areas. Making use of their elective course choices, students in the **Electrical Engineering - General Option** also have the opportunity to undertake a minor in Physics.

### 3.3.4 Mechanical Engineering

Mechanical engineering is a highly diversified discipline encompassing the design, analysis, testing and manufacture of products that are used in every facet of modern society. Mechanical engineers analyse and design using the principles of motion, energy, and force to ensure that the product functions safely, efficiently, reliably, and can be manufactured at a competitive cost. This activity requires a thorough knowledge of materials, mathematics, and the physical sciences, and an ability to apply this knowledge to the synthesis of economical and socially acceptable solutions to engineering problems.

Mechanical Engineering is designed to provide students with a knowledge in the following four areas: design and dynamics area, emphasizing solid mechanics, material science, dynamics, vibrations and machine component design; thermo-fluids area, focussing on thermodynamics, heat transfer and fluid mechanics; mechatronics area, dealing with electro-mechanical systems, control, robotics, and automation; and manufacturing/industrial area, which encompasses CAD/CAM, production and operation management. In Academic Term 6, students may select the Offshore Oil and Gas option (OUGE). Students may choose from a wide range of electives in various speciality areas in academic terms 7 and 8.

### 3.3.5 Ocean and Naval Architectural Engineering

Ocean and Naval Architectural Engineering covers aspects of both naval architecture and ocean engineering. The Ocean and Naval Architectural Engineering major is the only accredited undergraduate program specifically in naval architecture/ocean engineering in Canada. The major is designed to provide education to work in marine transport, ship and boat building, offshore engineering,

submersibles design and many related marine areas. The undergraduate program is also a comprehensive preparation for graduate studies, research and consulting in ocean engineering.

Naval Architecture is primarily concerned with the design and construction of ships, offshore structures and other floating equipment and facilities. Ocean Engineering extends this focus to cover virtually all aspects of engineering related to the world's oceans. Topics including sub-sea systems and oceanographic science add core ocean engineering content to the program. Students will be able to further develop their particular interests by using the focus stream to study any of a wide variety of topics, reflecting the tremendous diversity of the field. In Academic Term 6, students may select the Offshore Oil and Gas option (OOG).

### 3.3.6 Process Engineering

Process Engineering is a diversified discipline encompassing new development, design, optimization, and operation of sustainable processes for human needs. A process engineer uses biological, chemical, and physical processing of substances to modify their nature, their properties, and/or the composition of mixtures to produce useful products. This activity requires a thorough knowledge of materials, chemical and physical sciences, and mathematics and an ability to apply this knowledge in an economical and sustainable way to engineering development.

The process engineering major is designed to provide students with a specialization in the areas of minerals and metals processing, and downstream oil and gas processing. Throughout the major and within each area of specialization, emphasis is placed on green and clean processes which are environmentally benign and inherently safe. The goal of this major is to prepare graduates with knowledge and ability to implement this knowledge in a sustainable manner to larger-scale industrial development.

## 3.4 Work Terms

Students in the Engineering program are governed by the *Co-operative Student Handbook* which is available at [www.mun.ca/coop/home/enghandbook.pdf](http://www.mun.ca/coop/home/enghandbook.pdf). Prior to registering for the first work term, students must successfully complete the non-credit course **Professional Development Seminars**.

Students must successfully complete a minimum of four work terms in order to graduate with a Bachelor of Engineering degree. Students who are expecting to complete the Engineering One requirements during the Fall and Winter semesters may apply to the Committee on Undergraduate Studies to undertake a work term during the Spring semester of Engineering One. Students who have completed the requirement for four work terms may apply to the Committee on Undergraduate Studies to undertake additional work terms.

### 3.4.1 General Information

- During work terms students are brought into direct contact with the engineering profession, exposed to the work place setting, expected to assume ever-increasing responsibility in employment situations as their education advances, and introduced to experiences beyond the scope of those which could be provided in the classroom.
- Students are responsible for finding suitable work placements. The Division of Co-operative Education provides resources to assist in this process.
- Students who cannot meet the demands of the work term may be required by the Faculty to withdraw from the work term until they can demonstrate an ability to continue in the program.
- Students are not permitted to drop work terms without prior approval of the Committee on Undergraduate Studies, on the recommendation of the Division of Co-operative Education. Students who drop a work term without permission, or who fail to honour an agreement to work with an employer, will be assigned a grade of FAL (fail) for that work term.
- Students who conduct themselves in such a manner as to cause their termination from the job, will be assigned a grade of FAL (fail) for that work term.

### 3.4.2 Evaluation of Work Terms

Two components are considered in work term evaluation: work performance and a communications component, as described in the *Co-operative Student Handbook* which is available at [www.mun.ca/coop/home/enghandbook.pdf](http://www.mun.ca/coop/home/enghandbook.pdf).

Each component is evaluated separately and equally weighted resulting in one of the following classifications: Outstanding, Above Expectations, Satisfactory, Marginal Pass, Fail. Both evaluations will be recorded on the transcript. Overall evaluation of the work term will result in the assignment of one of the following final grades:

- Pass with distinction (PWD): To receive a PWD, a student must obtain an evaluation of Outstanding in both the communications and work performance components of the work term.
- Pass (PAS): To receive a PAS, a student must achieve an evaluation of Marginal Pass or better in the communications component and in the performance component of the work term.
- Fail (FAL): A student receiving a Fail in either the communications or performance component of the work term will receive a FAL. For promotion from the work term, a student must obtain PWD or PAS.

## 3.5 Continuing Engineering Education

The Faculty of Engineering and Applied Science has a firm commitment to continuing engineering education and offers a variety of seminars and short courses in St. John's and in other centres for practising engineers. For applicability of courses towards diplomas and certificates in Engineering, contact the Continuing Engineering Education office by telephone to (709) 737-7467, in-person at EN 3017, or through the website at [www.engr.mun.ca/continuing/index.php](http://www.engr.mun.ca/continuing/index.php).

# 4 Admission/Readmission Regulations for the Faculty of Engineering and Applied Science

In addition to meeting **UNIVERSITY REGULATIONS**, students must meet the admission/readmission regulations for the Faculty of Engineering and Applied Science.

## 4.1 General Information

1. Entry to Engineering One and to the majors offered by the Faculty is competitive for a limited number of placements. Meeting the minimum admission requirements does not guarantee acceptance into the Engineering program. The final decision on admission or readmission to Engineering One or any engineering major rests with the Admissions Committee of the Faculty.

2. Admission or readmission to the University does not necessarily constitute admission or readmission to Engineering One or to any major.
3. The primary criterion used in reaching decisions on applications for admission or readmission is the Admission Committee's judgement of the likelihood of an applicant succeeding in the program.

## 4.2 Application Forms and Deadlines

1. The program of the Faculty commences in the Fall semester. The deadline for application for admission is March 1. Students are encouraged to submit their applications as early as possible since the Faculty may begin to offer provisional admissions as early as February to students applying to begin their program in September.
2. The deadline for application for readmission, for students who were previously admitted to a Faculty program, is June 1 for the Fall semester, October 1 for Winter, and February 1 for Spring.
3. Applications received after the relevant deadline may be considered as time and space permit. Incomplete applications will not be considered.
4. Application forms are available in person from the Faculty's General Office and the Office of the Registrar or through the Faculty's website at [www.engr.mun.ca](http://www.engr.mun.ca). Application forms may also be obtained by writing to the Faculty of Engineering and Applied Science, Memorial University of Newfoundland, St. John's, NL, A1B 3X5, or to the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application package includes an application to the University (for those who have not attended Memorial University of Newfoundland in the two preceding semesters), an application to the Faculty and any other required supporting documentation. Application fees must be paid when the application forms are submitted.

## 4.3 Admission Requirements to the Faculty Program

Applicants may apply for admission to the University in a category as defined in the Calendar section under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate), Categories of Applicants, Admission Criteria and Other Information**. In addition to meeting these regulations, applicants to the faculty program in the following categories must meet the requirements as indicated below.

### 4.3.1 High School Applicants

- The Faculty of Engineering and Applied Science encourages applications from high school students who have an interest in pursuing an engineering degree and who have achieved a good academic performance during high school.
- High school applicants admitted to the program who are admissible to the required Engineering One courses Mathematics 1000, Physics 1050, and Chemistry 1050 are expected to be able to complete the Engineering One requirements during their first two semesters at Memorial University of Newfoundland.
- High school applicants who are not admissible to these courses, but who are interested in pursuing an engineering degree, are encouraged to apply to the Faculty and to discuss an appropriate first-year program with the Associate Dean (Undergraduate Studies).

### 4.3.2 Memorial University of Newfoundland Applicants

- To be eligible for consideration for admission to Engineering One, students who are attending or have previously attended this University must have a cumulative average of at least 60% or an average of at least 65% on their most recent 30 attempted credit hours and be admissible to (or have previously completed) the Engineering One courses Mathematics 1000, Physics 1050 and Chemistry 1050.
- To be eligible for consideration for admission to Academic Term 3, students who are attending or have previously attended this University must meet the requirements stated in the **Promotion Regulations, Promotion Status (Engineering One)**.

### 4.3.3 Transfer Applicants

- Applicants seeking admission through transfer from accredited post-secondary institutions must have achieved a minimum overall average of 60% to be considered for admission.
- A student's placement within a program, and requirements needed to complete the program, will be determined on an individual basis at the time of admission. Transfer applicants must complete a majority of the credit hours in their program at Memorial University of Newfoundland.

## 4.4 Other Information

1. The Faculty will notify applicants in writing regarding an admission decision to the Faculty program.
2. Students admitted to the program in any term, without receiving credit for all courses required up to that level, must successfully complete those courses prior to graduation.
3. Students who have been admitted to one major offered by the Faculty and who wish to change to another major within the Faculty must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the appropriate deadline date as outlined above in **Application Forms and Deadlines** and will be considered in competition with all other applications.
4. Students admitted full-time to the program and who decline the offer of admission or who fail to register for the appropriate courses during the term of admission will be considered withdrawn from the program. Such students, if they subsequently wish to be considered for admission, must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the appropriate deadline date in **Application Forms and Deadlines** above and will be considered in competition with other applications.

## 5 Program Regulations

### 5.1 Civil Engineering Program Regulations

#### 5.1.1 Civil Engineering Major - General Option

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Civil Engineering Major - General Option, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in **Table 1 Civil Engineering Major - General Option**.
- Work terms shall normally be taken in the order as set out in **Table 1 Civil Engineering Major - General Option**.

**Table 1 Civil Engineering Major - General Option**

Term	Required Courses	Elective Courses
Engineering One	Chemistry 1050 English 1080 ENGI 1010 ENGI 1020 ENGI 1030 ENGI 1040 Mathematics 1000 Mathematics 1001 Mathematics 2050 Physics 1050 Physics 1051	Students who are expecting to complete the Engineering One requirements during the first two semesters may apply to undertake a work term during the Spring semester. In this case, the prerequisite course ENGI 200W must be completed during the Winter semester.
Fall Academic Term 3	ENGI 3101 ENGI 3425 ENGI 3610 ENGI 3703 ENGI 3731 ENGI 3934	ENGI 200W (if not completed during Engineering One).
Winter	001W or 002W	
Spring Academic Term 4	ENGI 4102 ENGI 4312 ENGI 4421 ENGI 4425 ENGI 4717 ENGI 4723	
Fall	001W or 002W or 003W	
Winter Academic Term 5	ENGI 5312 ENGI 5434 ENGI 5706 ENGI 5713 ENGI 5723	Complementary Studies Elective
Spring	002W or 003W or 004W	
Fall Academic Term 6	ENGI 6322 ENGI 6705 ENGI 6707 ENGI 6713	Complementary Studies Elective 3 credit hours from: ENGI 6718, 6749
Winter	003W or 004W or 005W (optional)	
Spring Academic Term 7	ENGI 7102 ENGI 7704 ENGI 7713 ENGI 7745 ENGI 7748	3 credit hours from: ENGI 7706, 7707, 7716, 7723
Fall	004W or 005W (optional) or 006W (optional)	
Winter Academic Term 8	ENGI 8700 ENGI 8740 ENGI 8751	Complementary Studies Elective 6 credit hours from: ENGI 8705, 8708, 8713, 8717

### 5.1.2 Civil Engineering Major - Offshore Oil and Gas Engineering Option

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Civil Engineering Major - Offshore Oil and Gas Engineering option, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in **Table 2 Civil Engineering Major - Offshore Oil and Gas Engineering Option**.
- Work terms shall normally be taken in the order as set out in **Table 2 Civil Engineering Major - Offshore Oil and Gas Engineering Option**.

**Table 2 Civil Engineering Major - Offshore Oil and Gas Engineering Option**

Term	Required Courses	Elective Courses

## 5.2 Computer Engineering Program Regulations

### 5.2.1 Computer Engineering Major - General Option

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Computer Engineering Major - General Option, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in **Table 3 Computer Engineering Major - General Option**.
- Work terms shall normally be taken in the order as set out in **Table 3 Computer Engineering Major - General Option**.

**Table 3 Computer Engineering Major - General Option**

Term	Required Courses	Elective Courses
Engineering One	Chemistry 1050 English 1080 ENGI 1010 ENGI 1020 ENGI 1030 ENGI 1040 Mathematics 1000 Mathematics 1001 Mathematics 2050 Physics 1050 Physics 1051	Students who are expecting to complete the Engineering One requirements during the first two semesters may apply to undertake a work term during the Spring semester. In this case, the prerequisite course ENGI 200W must be completed during the Winter semester.
Fall Academic Term 3	ENGI 3101 ENGI 3424 ENGI 3821 ENGI 3861 ENGI 3891 Physics 3000	ENGI 200W (if not completed during Engineering One).
Winter	001W or 002W	
Spring Academic Term 4	ENGI 4102 ENGI 4424 ENGI 4823 ENGI 4854 ENGI 4862 ENGI 4892	
Fall	001W or 002W or 003W	
Winter Academic Term 5	ENGI 5420 ENGI 5821 ENGI 5854 ENGI 5865 ENGI 5895	Complementary Studies Elective
Spring	002W or 003W or 004W	
Fall Academic Term 6	ENGI 6861 ENGI 6871 ENGI 6876 ENGI 6892	Complementary Studies Elective 3 credit hours from: ENGI 6855, or Computer Science courses, or other courses as specified by the Discipline Chair
Winter	003W or 004W or 005W (optional)	
Spring Academic Term 7	ENGI 7102 ENGI 7804 ENGI 7824 ENGI 7894	6 credit hours from: ENGI 7814, 7825, 7854, 7855, 7952, 8680, other courses as specified by Discipline Chair
Fall	004W or 005W (optional) or 006W (optional)	
Winter Academic Term 8	ENGI 8854 ENGI 8894	Complementary Studies Elective One free elective which must be a 5000-level or higher Engineering course, or a 2000-level or higher course either from the Faculty of Arts or the Faculty of Science, or a 3000-level or higher course from the Faculty of Business Administration. Selection of a course must be approved by the Discipline Chair. 6 credit hours from: ENGI 7680, 8821, 8826, 8863, 8868, 8879, 8801-8805, Computer Science courses as specified by the ECE Discipline Chair, other courses as specified by the Discipline Chair

### 5.2.2 Computer Engineering - Offshore Oil and Gas Engineering Option

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Computer Engineering Major - Offshore Oil and Gas Engineering Option, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in **Table 4 Computer Engineering Major - Offshore Oil and Gas Engineering Option**.
- Work terms shall normally be taken in the order as set out in **Table 4 Computer Engineering Major - Offshore Oil and Gas Engineering Option**.

**Table 4 Computer Engineering Major - Offshore Oil and Gas Engineering Option**

Winter Academic Term 8	ENGI 8650 ENGI 8676 or ENGI 8670 ENGI 8690 ENGI 8694	Complementary Studies Elective 3 credit hours from: ENGI 8903, 8911, 8935, 8945, 8964, other courses as specified by the Discipline Chair

## 5.5 Ocean and Naval Architectural Engineering Program Regulations

### 5.5.1 Ocean and Naval Architectural Engineering Major

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Ocean and Naval Architectural Engineering Major, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms in the academic terms order as set out in **Table 9 Ocean and Naval Architectural Engineering Major**.
- Work terms shall normally be taken in the order as set out in **Table 9 Ocean and Naval Architectural Engineering Major**.

**Table 9 Ocean and Naval Architectural Engineering Major**

Term	Required Courses	Elective Courses
Engineering One	Chemistry 1050 English 1080 ENGI 1010 ENGI 1020 ENGI 1030 ENGI 1040 Mathematics 1000 Mathematics 1001 Mathematics 2050 Physics 1050 Physics 1051	Students who are expecting to complete the Engineering One requirements during the first two semesters may apply to undertake a work term during the Spring semester. In this case, the prerequisite course ENGI 200W must be completed during the Winter semester.
Fall Academic Term 3	ENGI 3001 ENGI 3054 ENGI 3101 ENGI 3934 Mathematics 2000	ENGI 200W (if not completed during Engineering One). 3 credit hours from: ENGI 3901, 3911
Winter	001W or 002W	
Spring Academic Term 4	ENGI 4011 ENGI 4020 ENGI 4102 ENGI 4312 Mathematics 3260	Focus Stream Elective *
Fall	001W or 002W or 003W	
Winter Academic Term 5	ENGI 5003 ENGI 5020 ENGI 5420 Mathematics 3202	Complementary Studies Elective Focus Stream Elective *
Spring	002W or 003W or 004W	
Fall Academic Term 6	ENGI 6003 ENGI 6005 ENGI 6030 Physics 4300	Complementary Studies Elective Focus Stream Elective *
Winter	003W or 004W or 005W (optional)	
Spring Academic Term 7	ENGI 7000 ENGI 7030 ENGI 7033 ENGI 7102	ENGI 7045 Focus Stream Elective *
Fall	004W or 005W (optional) or 006W (optional)	
Winter Academic Term 8	ENGI 8000 ENGI 8003 ENGI 8054	Complementary Studies Elective ENGI 8058 Focus Stream Elective *

**\*Focus Stream Electives:**

The courses in the Focus Stream allow a student to pursue a specialization in an area of interest. The area can be in engineering, the sciences, the arts and humanities or business. Students will plan their own focus stream, with approval by the Committee on Undergraduate Studies upon the recommendation of the Discipline Chair of Ocean and Naval Architectural Engineering.

In reviewing the plan for the stream, the Faculty will be looking for clear educational goals by each student, with increasingly advanced courses in the topic area. The stream is not meant to be a series of random free electives, and especially not a series of introductory courses. The stream will enable students to complete a significant part of a minor in almost any subject. Students are encouraged to take the required additional courses to complete such a minor. Interdisciplinary experience and education is increasingly valuable and this focus stream opportunity will provide our graduates with unique and special knowledge.

## 5.6 Process Engineering Program Regulations

### 5.6.1 Process Engineering Major

- The full-time 141 credit hour Bachelor of Engineering (Co-operative), Process Engineering Major, requires eight academic terms and four work terms.
- The 141 credit hours shall normally be taken in the academic terms and order as set out in **Table 10 Process Engineering Major**.
- Work terms shall normally be taken in the order as set out in **Table 10 Process Engineering Major**.

**Table 10 Process Engineering Major**

Term	Required Courses	Elective Courses
Engineering One	Chemistry 1050 English 1080 ENGI 1010 ENGI 1020 ENGI 1030 ENGI 1040 Mathematics 1000 Mathematics 1001 Mathematics 2050 Physics 1050 Physics 1051	Students who are expecting to complete the Engineering One requirements during the first two semesters may apply to undertake a work term during the Spring semester. In this case, the prerequisite course ENGI 200W must be completed during the Winter semester.

Spring	002W or 003W or 004W	
Fall Academic Term 6	ENGI 6631 ENGI 6651 ENGI 6671 ENGI 6901 ENGI 6961	Complementary Studies Elective
Winter	003W or 004W or 005W (optional)	
Spring Academic Term 7	ENGI 7102 ENGI 7621 ENGI 7623 ENGI 7640 ENGI 7651	3 credit hours from ENGI 7691, 8691, other courses as specified by the Discipline Chair
Fall	004W or 005W (optional) or 006W (optional)	
Winter Academic Term 8	ENGI 8640 ENGI 8671 ENGI 8677	Complementary Studies Elective One free elective which must be a 5000-level or higher Engineering course, or a 2000-level or higher course either from the Faculty of Arts or the Faculty of Science. or a 3000-level or higher course from the Faculty of Business Administration. Selection of a course must be approved by the Discipline Chair. 3 credit hours from: ENGI 8911, 8670, 8676, 8696. other courses as specified by the Discipline Chair.

## 5.7 Advanced Standing

Students are occasionally admitted to later terms in Engineering from other institutions. Such entry is normally based on a detailed analysis of the student's record and is handled on a case-by-case basis. Such students should contact the Office of the Associate Dean (Undergraduate Studies).

## 6 Promotion Regulations

### 6.1 General Information

1. In addition to meeting the promotion regulations for the Faculty of Engineering and Applied Science, all students must meet the general academic regulations (undergraduate). For further information refer to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.
2. Success in the programs depends on meeting the requirements of both academic terms and work terms.

### 6.2 Promotion Status (Engineering One)

1. The requirements for promotion to Academic Term 3 are:
  - a. an overall average of at least 65% on the following nine courses: Mathematics 1001, Mathematics 2050, Physics 1051, Chemistry 1050, English 1080 (or equivalent), ENGI 1010, ENGI 1020, ENGI 1030 and ENGI 1040; and
  - b. a grade of at least 55% in each of the above nine courses.
2. In order to remain in the Engineering program, students admitted to Engineering One must complete the requirements for promotion to Academic Term 3 before the end of the academic year of admission.
3. Students who fail to meet the requirements for promotion to Academic Term 3 before the end of the academic year of admission will be deemed to have withdrawn from the Engineering program.
4. Promotion from Engineering One guarantees admission to one of the six majors, but not necessarily to a student's preferred major. The Faculty reserves the right to limit the number of spaces available in each major. The Faculty also reserves the right to guarantee admission into a particular major at the time of admission into the Engineering program.
5. Students completing the requirements of Engineering One are required to apply for their major by March 1 of the academic year of admission, indicating their preferences for major in rank order. All Engineering students who successfully complete Engineering One in the academic year of admission will be guaranteed a place in Academic Term 3, although not necessarily in the preferred major.

### 6.3 Promotion Status (Beyond Engineering One)

A student's promotion status will be determined beyond Engineering One and at the end of each term in one of the following three categories:

#### 6.3.1 Clear Promotion

Clear Promotion means that a student can proceed to the next term without restrictions.

- Students completing or repeating an academic term will receive a Clear Promotion by obtaining an overall average (excluding complementary studies courses and free elective courses) of at least 60%, with a numeric grade of at least 50% in each course (excluding complementary studies courses and free elective courses) in that academic term.
- Students completing a work term will receive a Clear Promotion by obtaining an overall grade of PAS or PWD in that work term.

#### 6.3.2 Probationary Promotion

Probationary Promotion designates less than a Clear Promotion from an academic term, but requires an overall average (excluding complementary studies courses and free elective courses) of at least 60% in that academic term.

- A student with Probationary Promotion from an academic term may continue to the subsequent work term under the condition that entry into the next academic term is not allowed until the student's status is changed to Clear Promotion.
- A student with Probationary Promotion at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.
- To change Probationary Promotion to Clear Promotion the student must satisfy the Faculty that he or she is competent in the subject of the ENGI course(s) in which the student has failed to achieve 50%. This will normally entail re-examination(s), after which the student will be declared to have passed or failed a test of competency in the subject(s) concerned. No numerical grade will be assigned in the re-examination(s). Upon passing a re-examination, the original grade submitted for the course will be changed to PAS.
- Re-examination will be at a time determined by the Faculty. A student with Probationary Promotion who fails to submit to the re-examination(s) or who fails in the re-examination(s) must repeat the corresponding failed course(s) successfully in order to change the Probationary Promotion to Clear Promotion.

#### 6.3.3 Promotion Denied

Promotion Denied indicates Clear Promotion is not achieved each term or following probation.

- A student with Promotion Denied status will be required to withdraw from the Faculty. Students with Promotion Denied status may apply for readmission to the program after two semesters. Subject to space being available, a student will be readmitted into the term from which promotion was denied. An academic term may be repeated only once, and not more than two academic terms may be repeated in the entire program.
- A student who is denied promotion for failing a work term may be considered for readmission. A student readmitted under this clause must successfully complete four work terms prior to graduation.
- A student who has been denied promotion as a result of having failed a work term and who, in the opinion of the Faculty, can benefit from a remedial program, may be permitted an extension of time not to exceed the end of the registration period of the subsequent semester to complete the requirements of the work term.
- A student who is denied promotion from an academic term will be required to repeat all required courses in which the student obtained a numeric grade of less than 60% in that term. A technical elective course in which the student obtained a numeric grade of less than 60% may be replaced by a course acceptable in the student's program.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

## 6.4 Other Information

1. The appropriate discipline will make a recommendation to Faculty Council on each student's promotion status at the end of each of academic terms 3 to 8.
2. To be recommended for graduation, a student must have clear promotion from Academic Term 8, must have successfully completed at least four work terms and must have an average of at least 60% in the 21 credit hours in complementary studies as described in **Description of Program, Complementary Studies**.
3. The Office of Co-operative Education will make a recommendation to Faculty Council on each student's promotion status at the end of each work term.
4. A student must have completed at least one work term successfully, in order to be promoted to Academic Term 5.
5. A student must have completed at least two work terms successfully, in order to be promoted to Academic Term 6.
6. A student must have completed at least three work terms successfully, in order to be promoted to Academic Term 7.
7. A student must have completed four work terms successfully, in order to be promoted to Academic Term 8.
8. A student denied promotion shall be permitted only one readmission to the same term and a total of no more than two readmissions to the Faculty.
9. No course required in any of academic terms 3 to 8 of the program may be attempted more than twice.
10. Students may be required to withdraw from their program at any time, if, in the opinion of the Faculty, they are unlikely to benefit from continued attendance.

## 7 Waiver of Faculty Regulations

Every student has the right to request a waiver of Faculty regulations. Students seeking a waiver of University academic regulations should refer to the **UNIVERSITY REGULATIONS - General Academic Regulations Undergraduate - Waiver of Regulations**.

1. The Faculty Council reserves the right in special circumstances to modify, alter, or waive any Faculty regulation in its application to individual students, where merit and equity so warrant in the judgment of the appropriate Committee of the Faculty Council.
2. All requests must be submitted to the Office of the Associate Dean (Undergraduate Studies) for submission to the appropriate Committee of the Faculty. Students must submit their request in writing. Medical and/or other documentation to substantiate the request must be provided.
3. Requests for waivers of admission requirements will be submitted to the Admissions Committee who will make a recommendation for action to the Committee on Undergraduate Studies of the Faculty.
4. Requests for a waiver of a course(s) required in academic terms 3 to 8 should be made prior to the commencement of the academic term and will be considered by the Committee on Undergraduate Studies, upon recommendation of the appropriate Discipline Chair.
5. Requests for a waiver of a work term will be considered by the Committee on Undergraduate Studies upon recommendation of the Office of Co-operative Education. Any waiver granted does not reduce the total number of work terms required for the degree below an absolute minimum of three.

## 8 Appeal of Regulations

### 8.1 Faculty Appeal Committee

Appeals against decisions of the Faculty Admissions Committee and appeals against promotion decisions of Faculty Council will be considered by the Faculty Appeal Committee.

1. An appeal against promotion decisions of Faculty Council will normally only be considered upon presentation of evidence which has not been placed before Faculty Council.
2. Any such appeal must be made within one month of the issue of the decision of the Admission Committee or within one month of the issue of results by the Registrar, as the case may be.
3. When a student has requested a re-read of an examination paper which may affect an appeal that appeal must nevertheless be made within one month of the issue of the original results, and consideration of the appeal will be delayed until the result of the re-read is available.

### 8.2 Other Appeals

Any student whose request for waiver of Faculty regulations has been denied has the right to appeal. For further information refer to the **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

## 9 Course Descriptions

All courses of the Faculty are designated by ENGI.

### 9.1 Work Terms and Non-Credit Courses

**001W Engineering Work Term 1** represents, for most students, their first experience in an engineering or related work environment. Students are expected to learn, develop and practise the basic standards of behaviour, discipline and performance normally found in a professional work environment. Students are also expected to learn the basics of technical writing and to become familiar with the various communications tools used in a technical work environment.

Two documents must be submitted for evaluation for the communications component for Work Term 1. Additional communication requirements such

as technical reports or manuals may be requested by the employer. The two documents to be submitted to the Engineering Co-operative Education Office are the Personal Job Diary and the Work Term Journal or Short Technical Report or Portfolio. Detailed guidelines for the preparation of these documents are provided in the *Co-operative Student Handbook*. These documents shall be submitted or postmarked no later than the last official day of the work term as shown in the University Calendar.

CH: 0  
LC: 0  
PR: ENGI 200W

**002W Engineering Work Term 2** requires students to have sufficient academic grounding and work experience to contribute in a positive manner

to the engineering design and problem solving processes practised in the work environment. Students are expected to show greater independence and responsibility in their assigned work functions than in Work Term 1. An ability to deal, under supervision, with complex work-related concepts and problems should also be demonstrated. Students can become better acquainted with their chosen discipline, and can observe and appreciate the attitudes, responsibilities, and ethics normally expected of engineers.

The communications component for Work Term 2 consists of a formal, descriptive technical report describing a technical process, project, procedure or investigation chosen from the student's work environment. Students are also expected to keep a job diary, which will not be submitted but must be available for review during monitoring.

Guidelines for the preparation of a descriptive technical report are provided in the *Co-operative Student Handbook*. The report shall be submitted or postmarked no later than the last official day of the work term as shown in the University Calendar.

CH: 0  
LC: 0  
PR: ENGI 001W, ENGI 3101

**003W Engineering Work Term 3** requires greater participation in the student's selected engineering discipline. Students become more experienced and proficient with the appropriate design procedures than in the preceding work terms. Students are expected to acquire improved speed and accuracy in their work and at the same time accept greater responsibility and be able to function with less direct supervision. Self-confidence and initiative as well as improved analytical skills are expected to develop at this stage in the student's engineering education.

The communications component for Work Term 3 consists of a formal technical report on a topic related to a specific theme prescribed by the Faculty and the Co-operative Education Office. Examples of themes would be sustainable development and environmental stewardship. Ideally the report would relate to the student's work in the areas of process, project, procedure or investigation.

Guidelines for the preparation of a descriptive technical report are provided in the *Co-operative Student Handbook*. The report shall be submitted or postmarked no later than the last official day of the work term as shown in the University Calendar.

CH: 0  
LC: 0  
PR: ENGI 002W

**004W Engineering Work Term 4** requires students to engage in various facets of engineering, such as design, analysis, project management, specifications, plans, formal proposals, tender documents, etc. Participation in their selected engineering discipline is expected. Students should continue to gain an appreciation of the use and importance of acquired analytical skills in engineering analysis as well as the application of specifications and codes. Students should have a level of responsibility commensurate with their academic background and experience.

The communications component for Work Term 4 consists of an oral presentation on a technical subject taken from the student's work environment and preferably related specifically to the student's work. The presentation should be of 10 minutes duration and will be given on campus in a formal setting after students have returned to class. A written summary is also required. Guidelines for the preparation of this oral presentation are provided in the *Co-operative Student Handbook*.

CH: 0  
LC: 0  
PR: ENGI 003W

**005W Engineering Work Term 5** requires students to engage in various facets of engineering, such as design, analysis, project management, specifications, plans, formal proposals, tender documents, etc. Participation in their selected engineering discipline is expected. Students should continue to gain an appreciation of the use and importance of acquired analytical skills in engineering analysis as well as the application of specifications and codes. Students should have a level of responsibility commensurate with their academic background and experience. The promotion criteria for this work term will be determined by the Committee on Undergraduate Studies. Students in the new program can apply to enter Work Terms 5 and 6.

CH: 0  
LC: 0  
PR: ENGI 004W

**006W Engineering Work Term 6** requires students to engage in various facets of engineering, such as design, analysis, project management, specifications, plans, formal proposals, tender documents, etc. Participation in their selected engineering discipline is expected. Students should continue to gain an appreciation of the use and importance of acquired analytical skills in engineering analysis as well as the application of specifications and codes. Students should have a level of responsibility commensurate with their academic background and experience. The promotion criteria for this work term will be determined by the Committee on Undergraduate Studies. Students in the new program can apply to enter Work Terms 5 and 6.

CH: 0

LC: 0  
PR: ENGI 005W

**200W Professional Development Seminars** are offered during the Fall and Winter semesters prior to a student's first work term. These seminars introduce the co-operative education process and prepare the student for work terms. These seminars are graded PAS or FAL based on attendance, participation and assignments.

AR: attendance is required  
CH: 0  
LC: as scheduled

## 9.2 Engineering One Courses

**1010 Engineering Statics** is the first course in Engineering mechanics. Forces and moments are described with vector algebra, leading to a description of the equilibrium conditions for particles and solid bodies. The importance of free body diagrams is highlighted. This knowledge is then applied to the analysis of trusses, frames and machines. Additional topics include an examination of friction and the concepts of centre of force, centroids and second moments of area.

CO: Mathematics 1000  
CR: the former ENGI 1313  
OR: tutorial 1 hour per week  
PR: Level III Physics or Physics 1020 or equivalent

**1020 Introduction to Programming** is an introduction to algorithmic problem solving techniques and computer programming, including basic program control structures (sequence, call, branch, loop) and data representations, functional decomposition, and design by contract. Exercises and examples are drawn from a variety of engineering disciplines and are implemented using a standard modern programming language.

CR: the former ENGI 2420  
LH: at least four 2-hour sessions per semester  
PR: Level III Advanced Mathematics or Mathematics 1090

**1030 Engineering Graphics and Design** provides two complementary competencies. Firstly, it provides an introduction to the fundamentals of graphic communication, including orthographic projections, three dimensional pictorials, sectioning and dimensioning. Both sketching and CAD are utilized. Secondly, the course introduces students to standard design methodologies. The graphics and design competencies are reinforced through lab and project exercises.

LH: 3  
PR: Level III Advanced Mathematics or Mathematics 1090

**1040 Mechanisms and Electric Circuits** is offered in two serial modules, including laboratory and workshop practice, and a team project to expose students to the concept of system integration involving electrical and mechanical systems. The electrical module provides an introduction to dc circuits with an analysis of dc circuits used in control, measurement and instrumentation systems. The mechanism module provides an introduction to machine components such as belts, pulleys, gears, and simple linkages. The laboratory and workshop component introduces students to hands-on practice in basic laboratory instruments, tools and safety procedures. A team project involves the construction, assembly and testing of a simple mechanism.

LH: 3  
PR: Level III Physics or Physics 1051 (which may be taken concurrently) and Mathematics 1000 (which may be taken concurrently).

## 9.3 Academic Term 3 Courses

**3001 Ocean/Naval Design** is an introductory course to design in naval architecture and ocean engineering. It introduces the design challenges in a marine setting. A series of modules will familiarize the students with the main design issues. The first module covers the basic economic question of why ships are built. This is followed by an examination of the materials of construction and the primary fabrication method – welding. The third module deals with manufacturing, including design for manufacturing and the workflow process itself. The final module examines methods of marine design and performance evaluation. This covers numerical and experimental simulation methods and design software. There are several relevant labs and a design project.

LH: at least six 3-hour laboratory sessions per semester

**3054 Ocean Engineering Hydrostatics** is an introductory course to naval architecture and marine engineering. It discusses the basic principles of the statics of rigid floating or submerged structures. These include: ships, offshore platforms and submersibles. Methods of analysis of the hydrostatics, stability and trim, damage stability and the statics of mooring systems are introduced. Applications are also discussed.

LH: at least nine 3-hour laboratory sessions per semester  
PR: ENGI 1010

**3101 The Engineering Workplace** is a course that deals with issues associated with professional engineering practice. Topics will include workplace and professional ethics, public and workplace occupational health

and safety including first-aid, equity, gender and diversity issues, and technical written, oral and visual communication.

AR: attendance is required

**3424 Engineering Mathematics** includes ordinary differential equations of first order and first degree; linear ordinary differential equations of higher order, methods of undetermined coefficients and variation of parameters; applications to electric circuits and mass-spring systems; Laplace transforms; partial differentiation; convergence of series; Taylor and binomial series; remainder term; and an introduction to Fourier series.

CH: 4

CR: the former ENGI 2422

LC: 4

OR: tutorial 1 hour per week

PR: Mathematics 1001, Mathematics 2050

**3425 Mathematics for Civil Engineering I** includes sequences & series, functions of a single parameter, conic sections, polar coordinates, partial differentiation, multiple integration, introduction to first order ordinary differential equations.

CH: 4

LC: 4

OR: tutorial 1 hour per week

PR: Mathematics 1001 and 2050

**3600 Introduction to Process Engineering** is an introductory course in process engineering, which comprises principles and the practical aspects of organic, inorganic and biochemical processes. It emphasizes the structure and properties of organic, inorganic, and bio-chemicals; process flow sheeting, process variable identification and production processes. The course uses extensive examples from industrial processes. In laboratory sessions students will use HYSYS and OLI software to study process characteristics.

CO: Chemistry 1051

LH: at least four 2-hour sessions per semester

**3610 Earth Sciences for Civil Engineering** is an introduction to basic concepts in Geology and Mining with emphasis on applications in Civil, Geological, Mining and Environmental Engineering through the use of case histories. It includes the study of rocks and minerals in selected field and laboratory exercises.

LH: 3

**3703 Surveying and Geomatics** includes plane surveying: distance, elevation, and angle measurements; horizontal and vertical curves; plane survey calculations; area and volume computations. Photogrammetry will be studied, including sensors and platforms, mathematics of photogrammetry, instruments and equipment, photogrammetric products, digital photogrammetry, remote sensing, and introduction to global positioning and geographical information systems (GIS). A surveying field school to introduce students to the use of surveying equipment and mapping will be held in the first two weeks of the term.

LH: 3

OR: 36-hour field school conducted during the first two weeks of the semester

**3731 Materials for Construction** includes structure of metals and nonmetals; deformation of metals; strengthening mechanisms in metals; concrete and cementitious materials; admixtures; iron and steel; brick masonry; concrete masonry; mortar grout and plaster; reinforced masonry structures; wood and wood products. Relevant experiments are conducted.

LH: at least ten 3-hour sessions per semester

OR: up to ten 1-hour tutorials per semester

**3821 Circuit Analysis** begins with a review of elementary circuits, then considers wye-delta transformation, bridge circuits; transient analysis of first- and second order circuits; sinusoidal steady state analysis, phasor diagrams, maximum power transfer, frequency selective circuits (filters); and Laplace transforms in circuit analysis (transients, steady state, transfer function).

CO: ENGI 3424

CR: Physics 3550

LH: at least five 3-hour sessions per semester

OR: tutorial 1 hour per week

PR: Mathematics 1001, Mathematics 2050, ENGI 1040

**3861 Digital Logic** includes number systems and Boolean algebra; minimization techniques for Boolean functions; basic combinational logic circuit analysis and design; flip-flops, state machine design and implementation; decoders, multiplexors, registers, counters; simple arithmetic and logic unit (ALU) algorithms; introduction to hardware description languages (VHDL) for logic component and circuit modelling.

CR: Computer Science 3723

LH: at least six 3-hour sessions per semester

OR: up to eight tutorial sessions per semester

PR: ENGI 1040

**3891 Advanced Programming** includes advanced procedural language programming; data structures, user defined types, pointers; modularization techniques, scope and data hiding; object-oriented programming; classes,

objects and attributes; data encapsulation, member and non-member functions; overloading, methods and friend functions; inheritance, sub- and super-classes; templates.

LH: at least nine 2-hour sessions per semester

PR: ENGI 1020

**3901 Thermodynamics I** is a macroscopic approach to heat, work, and energy; properties of pure substances; conservation of mass, energy for open and closed systems; thermal efficiency and coefficient of performance; second law of thermodynamics; and its corollaries; entropy; second law analysis of thermodynamic systems; second law efficiency.

PR: Mathematics 1001

**3911 Chemistry and Physics of Engineering Materials I** is an introduction to the structure and properties of engineering materials, in particular materials, semiconductors, ceramics, glasses and polymers. Topics include a review of atomic bonding, discussion of basic crystalline and amorphous structures, point and line defects, and the role these structural features play in elastic and plastic deformations, yield, fracture, glass transition, thermal conductivity, thermal expansion, specific heat and electrical conductivity.

CR: the former ENGI 2205

LH: at least four 3-hour sessions per semester

OR: tutorial 1 hour per week

PR: Chemistry 1050

**3934 Dynamics** includes kinematics and kinetics of particles using rectangular, normal/tangential and polar coordinates, relative motion using rotating axes; two-dimensional kinematics and kinetics of rigid bodies; force-acceleration, work-energy and impulse-momentum methods.

CR: the former ENGI 2313

OR: tutorial 1 hour per week

PR: ENGI 1010, Mathematics 1001, Mathematics 2050

**3941 Production Technology** includes an overview of production: production strategies; dimensioning and tolerancing; basic material removal process; forming and shaping process; casting; molding, extrusion and joining processes; computer aided machining; new technologies.

LH: at least eight 3-hour sessions per semester

## 9.4 Academic Term 4 Courses

**4011 Resistance and Propulsion** examines the phenomena resisting the motions of ships and some factors considered in the design of the marine screw propeller. The topics include the resistance due to friction, wave making, form appendage, wind and waves, squat, blockage, and shallow water effects, and also include the estimation of powering using methodical series and statistical methods. Topics considered in the design of the marine screw propeller include propeller theory, blade sections, blade strength, methodical series charts, efficiency elements, lifting line calculations, cavitation, and propellers in non-uniform flow.

CR: the former ENGI 5011

LH: 3

OR: tutorial 1 hour per week

PR: ENGI 3054

**4020 Marine Fluid Dynamics** includes fluid statics; fluid flow phenomena, in general and in marine applications; control volume analysis of fluid motion; conservation of mass, momentum and energy; differential approach to flow analysis; head losses; applications of conservation laws; external v.s. internal flow; dimensional analysis and scaling; fluid-structure interaction concepts; potential flow theory, lift and Kutta-Joukowski theorem; viscous flow, boundary layers and drag.

LH: at least one 3-hour session per semester

OR: tutorial 1 hour per week

PR: ENGI 3054

**4102 Engineering Economics** is an introduction to the concepts in the determination of the economic feasibility of engineering projects; time value of money – interest rates, depreciation, annual, present and future worth analysis; benefit-cost analysis, tangible and intangible benefits and costs; economic risk and sensitivity analysis, economic optimization.

**4312 Mechanics of Solids I** examines force analysis of structures and structural components, free body diagrams of structure, components and section of a components, definition of a stress at point, stress notation, complementary property of shear stress, definition of strain, normal strain, shear strain, thermal strain, mechanical properties of materials, analysis of prismatic members due to axial, bending and torsion loading, analysis of beams, shear force and bending moment diagrams, combined loads; and the transformation of stresses and strains.

LH: at least four 1-hour sessions per semester

OR: up to ten 1-hour tutorials per semester

PR: ENGI 1010

**4421 Probability and Statistics** includes probability, probability distributions, probability densities, sampling distribution, hypothesis testing, regression and correlation.

CR: the former ENGI 3423, STAT 2510

OR: tutorial 1 hour per week

PR: Mathematics 1001

**4424 Discrete Mathematics for Computer Engineering** is an introduction to discrete mathematics including a selection of topics such as propositional logic, introductory predicate logic, mathematical reasoning, induction, sets, relations, functions, integers, graphs, trees, and models of computation.

CR: the former ENGI 3422  
OR: tutorial 1 hour per week  
PR: Mathematics 2050

**4425 Mathematics for Civil Engineering II** examines the analytical solutions of ordinary differential equations of the first and higher orders and numerical methods: errors, round off and stability, solution to nonlinear equations, curve fitting and interpolation methods, numerical differentiation and integration.

CH: 4  
CR: the former ENGI 4422  
LC: 4  
OR: tutorial 1 hour per week  
PR: ENGI 3425

**4430 Advanced Calculus for Engineering** includes parametric vector functions; polar curves; gradient, divergence and curl; multiple integration; vector calculus, theorems of Green, Stokes and Gauss; an introduction to partial differential equations; and application of advanced calculus to relevant engineering problems.

CH: 4  
CR: the former ENGI 5432  
LC: 4  
OR: tutorial 1 hour per week  
PR: ENGI 3424

**4602 Process Engineering Thermodynamics** extends the study started in ENGI 3901 of thermodynamics, with special reference to chemical process applications: basic laws, thermodynamic properties of pure fluids and mixtures, heat engines, multicomponent systems, thermal/mechanical equilibrium, chemical equilibrium, and thermodynamics of chemical processes. Special emphasis is placed on the application of thermodynamics to practical problems in chemical engineering such as phase equilibria, solutions and reaction equilibria in separations and reaction engineering.

CR: CHEM 2300, the former CHEM 3300  
PR: ENGI 3901

**4621 Process Mathematical Methods** introduces numerical methods in chemical engineering processes; sets of linear algebraic equations; simultaneous non-linear equations; polynomial functions; numerical integration; numerical differentiation; higher order ordinary differential equations, stiff equations, Runge-Kutta methods, boundary value problems, applications of eigenvalue problems (numerical solutions). It provides applications of the methods to different aspects of process engineering such as reactor design, separation, process modeling, equipment design and analysis.

CO: ENGI 4625  
PR: ENGI 3424

**4625 Process Engineering Calculations** is an introduction to the analysis of chemical processes with an emphasis on mass and energy balances. Stoichiometric relationships, ideal and real gas behaviour are also covered. The course will help process engineering majors in their second year to develop a framework for the analysis of flow sheet problems and will present systematic approaches for manual and computer-aided solution of full scale balance problems.

CO: ENGI 4602  
PR: ENGI 3901

**4717 Applied Environmental Science and Engineering** examines the nature and scope of environmental problems; concept of sustainable development; natural environmental hazards; introduction to ecology, microbiology and epidemiology; basic concepts of environmental quality parameters and standards; solid and hazardous wastes; atmospheric, noise, and water pollution, their measurements, and control.

LH: at least ten 3-hour sessions per semester  
PR: Completion of Term 3 of the Civil Engineering program

**4723 Geotechnical Engineering I** begins with an introduction to soil as a three-phase material and examines physical and mechanical properties; structure; classification of soils; soil compaction; hydraulic properties; permeability; flow of water in soil; flownets; effective stress concept in soils; stresses in soils beneath loaded areas; and one-dimensional consolidation theory.

LH: 3  
OR: tutorial 1 hour per week  
PR: completion of Term 3 of the Civil Engineering program

**4823 Introduction to Systems and Signals** begins with an introduction to systems and signals, and includes mechanical and electrical analogues; principles of linear superposition and time-invariance; definitions, properties, and use of the delta function; applications of complex variables and functions; impulse and step responses; input-output relations of continuous-

time systems in terms of convolution and transfer functions; frequency response plots; the Fourier transform and applications; applications of Laplace transforms to filtering, communications, and controls.

OR: tutorial 1 hour per week  
PR: ENGI 3424, ENGI 3821

**4841 Electromechanical Devices** includes an introduction to fundamental principles of energy conversion; review of three-phase systems; magnetic fields and circuits; transformer models, performance and applications; basic concepts of rotating machines; performance and control of dc machines.

CR: the former ENGI 5842  
LH: at least six 3-hour sessions per semester  
OR: up to ten tutorials per semester  
PR: ENGI 3424, ENGI 3821

**4854 Electronic Circuits I** begins with an introduction to semiconductor electronic devices and circuits using operational amplifiers, diodes, bipolar junction transistors and field effect transistors. Topics covered include operational amplifier configurations and analysis; basic principles, dc and small-signal models and analysis of p-n junction diodes, bipolar junction transistors and field effect transistors; differential and multistage amplifiers; practical applications of the devices to the design of power supplies, amplifiers and switching circuits. CAD tools are used to illustrate the analysis and design of electronic circuits.

LH: at least ten 3-hour sessions per semester  
OR: tutorial 1 hour per week  
PR: ENGI 3821, Physics 3000

**4862 Microprocessors** is a course on microprocessor architecture; assembly language programming: addressing modes, table look up; memory mapped devices; interfacing techniques; parallel, serial; timing control; analog input and output, and computer displays.

LH: at least eight 3-hour sessions per semester  
PR: ENGI 3861

**4892 Data Structures** examines fundamental data structures; recursive structures and programming techniques; modularity and reusability; time complexity and efficient data structures; procedural abstraction; data abstraction and precise documentation of data structures.

CO: ENGI 4424  
PR: ENGI 3891

**4901 Thermodynamics II** examines thermodynamic cycles: power and refrigeration applications; human comfort and air conditioning: mixture of gases and vapours, humidity, psychrometrics; chemically reacting mixtures and combustion.

LH: at least two 2-hour sessions per semester  
PR: ENGI 3901

**4932 Mechanisms and Machines** includes an overview of mechanisms within machines; graphical and analytical methods for position, velocity, and acceleration analysis of moving mechanisms; kinematics and kinetics of planar mechanisms; static and dynamic loads on mechanisms and an introduction to mechanism synthesis. There is an analysis project.

CR: the former ENGI 3933  
OR: tutorial 1 hour per week  
PR: ENGI 3934

**4951 Mechatronics I** focuses on sensors and instrumentation. The topics covered in the course are: electric circuits; electronic sensors; signal conditioning and instrumentation. There is a sensors project and 4 laboratory exercises.

LH: at least four 1-hour sessions per semester  
PR: ENGI 1040

## 9.5 Academic Term 5 Courses

**5003 Ship Structures I** examines longitudinal strength, still water and wave bending moment, shear and bending moment curves, Smith Correction, section modulus calculation, torsion and racking forces; bulkhead and girder scantlings, portal frame analysis by moment distribution and energy method; finite element analysis and the use of Classification Society rules for design of midship section.

CR: the former ENGI 6002  
PR: ENGI 4312

**5020 Marine Propulsion** is a second course in marine propellers and ship powering. The purpose of this course is to give students the principles of design and analysis of marine screw propellers and other propulsion devices. The course introduces various marine propulsion devices including conventional and unconventional propulsion systems. It covers methods of propeller design and propeller design philosophy. Emphasis is placed on the design of fixed-pitch propellers based on the lifting line theory and the design of ducted propellers. The student will also develop some insight into the design of other propulsion systems such as waterjets and sails.

CR: the former ENGI 6020  
LH: at least one 3-hour session per semester  
PR: ENGI 4020

**5312 Mechanics of Solids II** begins with an introduction to earlier concepts then considers strain transformation; deflections of beams and shafts, energy methods; failure theories; buckling of columns and the inelastic behaviour of beams.

LH: at least five 3-hour sessions per semester  
PR: ENGI 4312

**5420 Probability and Random Processes** includes basic concepts in probability, random variables, multiple random variables, descriptive statistics, random processes and selected applications for engineering.

PR: Mathematics 1001

**5434 Applied Mathematical Analysis** examines numerical and analytical solutions of applied mathematical problems in Civil Engineering, problems with higher order ordinary differential equations, stiff equations, systems of ODE, Runge-Kutta methods, boundary value problems, applications of eigen value problems (numerical solutions), Fourier analysis, elliptic, parabolic and hyperbolic partial differential equations and their numerical solutions with engineering applications.

PR: ENGI 4425

**5601 Mass Transfer** covers diffusive as well as convective mass transfer, mass transfer correlations, and the application to absorption and dehumidification.

LH: at least seven 2-hour sessions per semester  
PR: ENGI 4602

**5621 Process Modelling and Analysis** is designed to introduce the concepts of process model building and its application in design and process scheduling. It includes fundamentals of process modelling, lumped parameter dynamic models, distributed parameter dynamic models, advanced dynamic model development, application of process models, and computer aided process design. The course will also introduce concepts and applications of process optimization, process flow sheet optimization, process scheduling, and process flexibility analysis.

PR: ENGI 4621, ENGI 4625

**5671 Process Equipment Design I** introduces the principles of unit operations, grouped into four sections: fluid mechanics, heat transfer, mass transfer and equilibrium stages, and operations involving particulate solids. It also includes design and operation fundamentals of unit operations: size reduction, filtration, evaporation, drying, crystallization, and humidification and membrane separation.

CO: ENGI 5601  
LH: at least four 2-hour sessions per semester  
PR: ENGI 4621, ENGI 4625

**5706 Design of Concrete Structures** begins with a review of concrete mix design. Topics include design methods and requirements, strength of rectangular sections in bending, balanced condition at ultimate strength with tension reinforcement, bending with both tension and compression reinforcement; serviceability, deflections, flexural crack control for beams and one-way slabs; shear strength, inclined cracking, and shear reinforcement; bond stress and development of reinforcement; T-sections in bending; members in compression and bending; length effects, lateral ties, spiral reinforcement and longitudinal bar placement.

LH: at least five 3-hour sessions per semester  
PR: ENGI 4312

**5713 Fluid Mechanics** examines fluid characteristics; fluid statics; buoyancy and stability; kinematics; pressure measurement; continuity, energy and momentum principles; energy and hydraulic grade lines; free jets; laminar and turbulent flow; dimensional analysis; drag on immersed bodies; flow measurement.

CR: the former ENGI 4913  
LH: at least five 1-hour sessions per semester  
PR: ENGI 4425

**5723 Geotechnical Engineering II** examines shear strength of soil, types of laboratory and in-situ soil tests; immediate and consolidation settlement of foundations; plastic equilibrium in soils; limit equilibrium method; earth retaining structures; introduction to bearing capacity theories; and stability of slopes. Relevant laboratory exercises and projects are also included.

CR: the former ENGI 6723  
LH: 3  
PR: ENGI 4723

**5800 Electrical Engineering Design** students will work in pairs on small design projects that will require them to follow a hierarchy of design process which includes general product definition, specifications and requirements, functional block diagrams, definition of specification of functional blocks for circuit level synthesis and implementation, system integration, simulation or modelling, testing and verification. The small projects are designed to encourage and motivate students to learn and practise the process of design. The course will culminate in a large design project.

CO: ENGI 5821, ENGI 5854  
LC: at least 10 lecture hours per semester  
OR: meetings with project supervisor as required  
PR: ENGI 4841, ENGI 4854, ENGI 4862

**5812 Basic Electromagnetics** includes a review of relevant vector calculus, including the divergence, gradient and curl operators in Cartesian, cylindrical and spherical coordinates, divergence theorem, Stokes' theorem, and Laplace's and Poisson's equations. Topics in electrostatics include Coulomb's law, potential and energy, conductors, dielectrics, capacitance and electric field boundary conditions. Topics for magnetism include the steady magnetic field, the Biot-Savart law, Ampère's law, magnetic force, potential and magnetic materials and boundary conditions.

PR: ENGI 3821, ENGI 4430

**5821 Control Systems I** includes an introduction to control systems with a negative feedback; mathematical modelling and transfer functions of electromechanical systems; block diagram reduction and signal flow graphs; controller realization using op-amps; transient response analysis; Routh's stability criterion; basic control actions and response of control systems; root locus analysis and design; frequency response analysis; Bode diagram; gain and phase margins; compensator design in frequency domain; Nyquist stability criterion; A/D and D/A conversion, digital implementations of analog compensators; and an introduction to PID controller tuning methods.

LH: at least four 3-hour sessions per semester  
PR: ENGI 4823

**5854 Electronic Circuits II** includes an introduction to digital electronics; transient and frequency response of amplifier circuits; feedback amplifier analysis and design, stability and compensation techniques; noise and distortion in electronic circuits; analysis and design of data converters; and an introduction to analog filter design. CAD tools are used to illustrate the analysis and design of electronic circuits.

LH: at least five 3-hour sessions per semester  
PR: ENGI 4823, ENGI 4854

**5865 Digital Systems** includes concepts, language, tools, and issues pertaining to specification, modelling, analysis, simulation, testing and synthesis of digital systems, including PLD, FPGA, and ASIC devices. Industry standard CAD tools will be used in this course to facilitate system design and testing.

LH: at least ten 3-hour sessions per semester  
PR: ENGI 3891, ENGI 4862

**5895 Software Design** examines the development process: requirement analysis, design, iterative development, design documentation; an introduction to the Unified Modelling Language: use cases, class diagrams and sequence diagrams; an introduction to software design patterns: creational patterns, structural patterns and behavioural patterns; object oriented, modular decomposition. The course includes a major design project.

LC: at least 15 lecture hours per semester  
OR: meetings with project supervisor as required  
PR: ENGI 4892

**5911 Chemistry and Physics of Engineering Materials II** examines aspects of chemical and physical processes and microscopic structure relevant to the production and use of engineering materials, focussing on metals, alloys, silicates, Portland cement, plastics and adhesives, composites, and wood. Topics include solid-state solutions and compounds, alloy structures, phase diagrams, reaction rates, solid-state transformations, polymerization, oxidation and corrosion, hardness, creep, fatigue, fracture toughness and visco-elastic deformation.

CR: the former ENGI 3205  
LH: at least four 3-hour sessions per semester  
OR: tutorial 1 hour per week  
PR: ENGI 3911

**5927 Mechanical Component Design I** examines adequacy assessment and synthesis of machine elements with a focus on failure prevention, safety factors, and strength; static failure of ductile and brittle materials, fatigue analysis of components. Topics include the design of power screws, bolted connections, welds, springs, and shafts.

CR: the former ENGI 5926  
LH: at least eight 3-hour sessions per semester  
PR: ENGI 4312

**5931 Advanced Mechanics of Deformable Solids** examines stresses due to combined loads, thin-walled pressure vessels, transformation of stresses and strains, principal stresses and strains (two and three dimensional stresses), Mohr's circle, theory failures, stress concentrations, energy methods, buckling of columns, thick-walled cylindrical pressure vessels, rotating disks, multi layered thick walled pressure vessels, shrink fits and contact stresses.

CR: ENGI 5312  
LH: at least four 2-hour sessions per semester  
PR: ENGI 4312

**5951 Mechatronics II** focuses on drives and controllers. The topics covered in the course are: electric motors; actuators; control circuits. There is a motors project and 4 laboratory exercises.

LH: at least four 1-hour sessions per semester  
PR: ENGI 4951

**5961 Fluid Mechanics I** examines fluid statics; fluid flow phenomena;

control volume analysis; conservation of mass, momentum, and energy; Bernoulli equation; head losses, applications of conservation laws: flow measurement devices; pipe networks; momentum devices, dimensional analysis, boundary layer phenomena, lift and drag.

CR: the former ENGI 4913

LH: at least five 1-hour sessions per semester

## 9.6 Academic Term 6 Courses

**6003 Ship Structures II** is an introduction to ship structural safety and rational design. Topics include local strength analysis, elastic, plastic and ultimate strength of plating, frames and grillages, buckling of columns and plates and fatigue and fracture in ships.

CR: the former ENGI 7002

LH: at least one 4-hour session per semester

PR: ENGI 5003

**6005 Floating Ocean Structures Design** introduces floating structures used in the offshore petroleum industry, along with functional requirements, such as drilling and production, of the platforms. Field development criteria are discussed in the context of platform concept selection and synthesis. Environmental loads are examined, focussing on wave loads and ice loads. Diffraction theory and its application on offshore structures is presented. Offshore safety is discussed in terms of major hazards, risk management, and case studies.

CR: the former ENGI 7005

LH: 1

PR: ENGI 3054

**6030 Dynamics and Maneuvering of Ocean Vehicles** examines applications of the linearised equations of motion to ocean vehicle problems with single and multiple degrees of freedom; dynamics and maneuvering of marine vehicles: motions in calm water and in waves; hydrodynamics effects such as added mass, radiation and viscous damping; strip theory; irregular motions; and systems for course keeping and motion control.

PR: ENGI 3054, ENGI 4020

**6101 Assessment of Technology** deals with the issues of the impact of technology on society from an economic, environmental and sociological point of view. Public safety as an engineering responsibility will also be covered. Students will be expected to participate in group discussions, write a number of essays and give oral presentations.

**6322 Thermal Sciences** examines fundamental concepts associated with thermodynamics, fluid dynamics and heat transfer; first and second laws of thermodynamics; system and control volume analysis; classification of flows; introduction to boundary layers and drag; convection, conduction and radiation heat transfer; thermal insulation and calculation of R-values, and cooling of electrical components.

CR: the former ENGI 4322

PR: ENGI 5312

**6602 Offshore Petroleum Geology and Technology** introduces basic concepts in geology and geophysics of the offshore environment. An outline of petroleum geology is presented, following a path from the origins of hydrocarbons through migration in the Earth's crust, accumulation in reservoirs and the strategies used to discover and to exploit liquids found in the subsurface. Topics include an introduction to the offshore oil and gas industry in harsh environment, type of platforms and structures, exploration phase of offshore oil development, production drilling and completion processes and equipment, and oil and gas transportation system. There are case studies and a project.

PR: completion of Academic Term 5

**6631 Chemical Reaction Engineering** will cover the fundamentals of chemical kinetics and reaction rate expressions as well as the types of reactors, homogeneous and heterogeneous (catalytic) reactors, and the interrelation between transport phenomena and reaction engineering as it applies to process design. It also includes non-ideal flow, non-ideal reactors, catalytic reaction system, and multiphase reactors.

LH: at least four 2-hour sessions per semester

PR: ENGI 4621, ENGI 5961

**6651 Sustainable Engineering in Processing Industries** will introduce students to sustainable development and its application to processing operations. Areas such as traditional economic growth, materials cycles, methods for measuring environmental impact, life cycle analysis, waste treatment technologies and recycling technologies will be covered. In addition, the concept of industrial ecology will be included.

PR: ENGI 4625, ENGI 5601

**6671 Process Equipment Design II** will cover design and operation of equilibrium stage separation processes including distillation, extraction, and leaching. It will also cover advanced concept of equipment design such as heterogeneous system, multiphase system, absorption, and adsorption operation and computer assisted design. Course will use HYSIS and other process equipment design tools.

LH: at least four 2-hour sessions per semester

PR: ENGI 5601, ENGI 5671

**6705 Structural Analysis I** examines structure classification and loads, building code provisions, analysis of statically determinate arches and frames, shear and moment diagrams for frames, influence lines for statically determinate structures, approximate analysis of indeterminate trusses and frames, the force method of analysing indeterminate beams and frames, an introduction to slope deflection method, and moment distribution method.

LH: at least five 3-hour sessions per semester

PR: ENGI 5312

**6707 Design of Concrete and Masonry Structures** examines design methods for reinforced concrete two-way slabs, two-way slabs supported on walls and stiff beams, design of two-way slab systems, direct design method and equivalent frame method, design of concrete retaining walls and basement walls, engineered masonry, allowable masonry stresses, mortar stress, analysis and design of flexural members, axial load and bending in unreinforced and reinforced walls, columns and masonry shear walls.

LH: 2

PR: ENGI 5706

**6713 Hydraulics** examines flow in pipe systems and networks; uniform and non-uniform flow in open channels; hydraulic machinery and associated conduits; design and analysis of culverts; and pipeline/pump system optimization.

LH: at least four 3-hour sessions per semester

PR: ENGI 5713

**6718 Environmental Geotechniques** examines soil characteristics; soil mineralogy; soil water interaction; soil contaminant interactions; advection, adsorption and diffusion; non-aqueous phase liquids; geosynthetics; design of landfills; and use of waste materials. Relevant software programs are used.

CR: the former ENGI 7718

PR: ENGI 5723

**6749 Construction Planning Equipment and Methods** includes construction equipment selection and utilization; earthmoving including use of explosives; case studies of major civil projects; principles of project planning and control; computer applications to the construction industry.

CR: the former ENGI 8749

PR: completion of Term 5 of the Civil Engineering program

**6813 Electromagnetic Fields** is a continuation of the topics started in Engineering 5812, including a review of electrostatics and magnetostatics, Maxwell's equations, Lorentz force, Poynting's theorem, plane waves, and applications including two-wire transmission lines.

LH: at least three 3-hour sessions per semester

PR: ENGI 5812

**6843 Rotating Machines** examines the fundamentals of rotating machines; design of machine windings; polyphase and single phase induction motor theory and applications; synchronous machine theory; stability and control of synchronous generators; control and protection of rotating machines, an introduction to A.C. motor drives, and machines.

LH: at least six 3-hour sessions per semester

PR: ENGI 4841

**6855 Industrial Controls and Instrumentation** examines control and instrumentation system components; transducers and signal processing circuits, linear variable differential transformers, power oscillators; electromechanical actuators, solenoids, power drives; A/D and D/A conversion, standard PC interfaces; real-time operating systems; design of discrete-time feedback controllers on a PC platform; system integration, control system tweaking and troubleshooting; programming soft-PLC's using IEC61131.

CR: the former ENGI 7858

LH: at least eight 3-hour sessions per semester

PR: ENGI 5821

**6856 Power Electronics** is an overview of power semiconductor switches, an introduction to energy conversion and control techniques and examination of controlled rectifiers; phase-controlled converters; switch-mode dc/dc converters; variable frequency dc/ac inverters; ac/ac converters; design of thyristor commutation circuits, gate and base drive circuits, and snubber circuits; thermal models and heat sink design.

CR: the former ENGI 7846

LH: at least ten 3-hour sessions per semester

PR: ENGI 5854

**6861 Computer Architecture** begins with a review of microprocessors and computer organization. Topics include fundamentals of computer design: performance metrics and cost; instruction set architecture; memory hierarchy design: cache, main memory and virtual memory; pipelining: hazards, parallelism; special purpose processors; multiprocessors and thread-level parallelism.

PR: ENGI 4862

**6871 Communication Principles** begins with a review of signal representation and analysis and includes distortionless signal transmission, analog modulation (AM, FM and PM), super-heterodyne receiver, sampling theorem, pulse amplitude modulation (PAM), pulse code modulation (PCM),

delta modulation, baseband digital transmission, digital modulation techniques (ASK, FSK and PSK).

LH: at least four 3-hour sessions per term  
PR: ENGI 4823, ENGI 5420

**6876 Communication Networks** is an introduction to communication networks such as the telephone network and the Internet. Topics include flow control and error control; circuit switching; packet switching; local area networks; internetworking; communication architectures and protocols.

PR: ENGI 5420

**6892 Algorithms, Complexity, and Correctness** presents fundamental theories and practices for the design of correct and efficient computing systems, including specification of computing systems and their components, correctness with respect to specifications; methods of verification; algorithmic problem solving strategies (such as divide and conquer, dynamic programming, etc.); tractability and intractability of computational problems.

PR: ENGI 4424, ENGI 4892

**6901 Heat Transfer I** examines modes of heat transfer; conduction: steady 1-D conduction, thermal resistance, extended surfaces (fins), lumped capacitance analysis, 1-D transient conduction; convection: Newton's law of cooling, convection heat transfer coefficient, external boundary layer flows, internal flows, natural convection; radiation: principles, properties, exchange factors, black body radiation, and enclosures, radiation shields.

LH: at least one 3-hour session per semester  
PR: ENGI 4901

**6927 Mechanical Component Design II** is a continuation of the ENGI 5927 course in analysis and synthesis of machinery, including advanced analysis of machine elements such as clutches, brakes, couplings, journal bearings and gears. Advanced machine design concepts are examined, such as reliability, optimization and techniques for stimulating innovative design. A synthesis project involving the machine elements studied is usually included.

CR: the former ENGI 6926

LH: at least ten 3-hour sessions per semester  
PR: ENGI 5927

**6933 Mechanical Vibrations** examines single degree of freedom systems: free vibration, energy methods, response to harmonic excitation, response to arbitrary inputs, two degree of freedom systems: natural frequencies and mode shapes, dynamic vibration absorber.

CR: the former ENGI 5932

LH: at least four 2-hour sessions per semester  
PR: ENGI 3934

**6951 Automatic Control Engineering** examines the performance of feedback control systems. The topics covered in the course are: feedback control concept; control system performance; control system stability; nonlinear phenomena. There is a project which makes use of a peripheral interface controller or PIC. There are 3 laboratory exercises. Extensive use is made of MATLAB.

CR: the former ENGI 6925

LH: at least three 1-hour sessions per semester  
PR: ENGI 5951

**6961 Fluid Mechanics II** examines differential analysis of fluid motion; conservation of mass; continuity equation; conservation of momentum; Navier-Stokes equations; conservation of energy; inviscid incompressible flows; low Reynolds number flows; boundary layer flows; compressible flows.

CR: the former ENGI 5913

LH: at least three 1-hour sessions per semester  
PR: ENGI 5961

## 9.7 Academic Term 7 Courses

**7000 Ocean Systems Design** examines the preliminary design methods for the design of marine platforms and vehicles from mission statement to the selection of one or more acceptable solutions; weight and cost estimating, power requirements estimating, and selection of principal design characteristics and economic and operational evaluation of alternative solutions. There are relevant design laboratory projects.

CR: the former ENGI 7052

LH: 3  
PR: ENGI 3001, ENGI 3054

**7030 Vehicle Dynamics** is a course in the dynamics of vehicles of all types. This includes space craft, aircraft, automobiles, rail vehicles, boats, and underwater vehicles. The course will focus on the basic mechanics of vehicles, equilibrium, lift, powering, stability and performance.

LH: at least one 3-hour session per semester  
PR: ENGI 3934

**7033 Marine Hydrodynamics** examines the fundamental equations of hydrodynamics, boundary layers; potential flow, added mass, damping, circulation, and vorticity; numerical methods for hydrodynamic coefficients; water waves and loading for regular and irregular seas.

LH: at least one 3-hour session per semester  
PR: ENGI 4020

**7045 Marine Engineering Systems** examines shafting system design; shafting system vibration analysis, study of exciting forces and moments, and balancing of reciprocating and rotating machinery; heat transfer and marine heat exchangers; incompressible fluid flow and piping system design and selection of appropriate pumping devices.

CH: 4

LC: 4

LH: 1

PR: ENGI 3901, ENGI 6933

**7102 The Engineering Profession** examines the origins and development of Engineering as a profession and its values, the place of technology in society and the nature of technological decisions. Topics will include the role and responsibility of the professional engineer in society, code of ethics, sustainable development and environmental stewardship.

CR: the former ENGI 5101

PR: ENGI 003W

**7621 Process Dynamics and Control** familiarizes students with the scientific and engineering principles of process dynamics and control. Students will apply and integrate knowledge of chemical engineering to identify, formulate and solve process dynamics problems and develop control systems. Modern computational techniques and tools will be used for solving chemical process control problems. Also students will become familiar with industrial control systems.

LH: at least six 2-hour sessions per semester

PR: ENGI 5621

**7623 Process Simulation** provides students with the knowledge and experience to use a process simulator effectively for the analysis and synthesis of process flowsheets, mass and energy balances, sizing of individual component and process unit, reactor modeling, separation device modeling, heat exchanger modeling, and dynamic and steady state analysis.

LH: at least nine 2-hour sessions per semester

PR: ENGI 5621, ENGI 6671

**7640 Process Engineering Project I** gives students the opportunity to apply the knowledge gained in previous design and technical courses to the complete design of a piece of process equipment, e.g. distillation column, evaporator, membrane separation unit, etc. The goal is to expose the students to practical design issues that arise in process equipment design, and to provide experience in the complete design process as applied to real devices. This course is a precursor to ENGI 8640 where students will work in groups to design a process system.

LC: scheduled as required

PR: completion of academic term 6 of the process engineering program

**7650 Offshore Oil and Gas Engineering Project I** is a multidisciplinary design project that illustrates the application of previous engineering science and design related courses. The project will be done by teams of students with individuals concentrating their participation in their own engineering discipline. The project will be from the offshore oil and gas engineering industry. Lectures will be scheduled as required. This is the Term 7 project and if the scope of the project is such that it needs to continue, then the student will have the option to continue the same project in term 8 (in ENGI 8650).

LC: 1

PR: completion of Academic Term 6

**7651 Industrial Pollution Control/Pollution Prevention** is designed to introduce methods of industrial pollution assessment and control. Topics include waste characterization, water pollution assessment, water pollution control, air pollution assessment and control, solid waste assessment and control, pollution prevention, environmental risk assessment and risk based decision making.

PR: ENGI 5621, ENGI 6671

**7680 Supervisory Control and Data Acquisition** examines data acquisition and intelligent field devices; distributed systems and fieldbus technology; programmable logic controllers and programming standards; operator control interface; supervisory control and data acquisition; and enterprise organization.

LH: at least four 3-hour sessions per semester

PR: ENGI 5821

**7691 Mining and Metallurgical Process Engineering** is designed to provide students with a basic fundamental background to the mining, mineral processing, and extractive metallurgical processing industry from both traditional and modern industrial methodologies. Concepts such as a mine design, mineral flow sheets, extraction methods, and examples from industrial applications will be reviewed with problems.

LH: at least four 2-hour sessions per semester

PR: completion of academic term 6 of the process engineering program

**7704 Design of Steel Structures** begins with a review of Design Concepts, Standards and Products. Topics include design of members and connections, tension members, bolted joints, welded joints, compression

members, stability and effective length, flexural members, beams & beam-columns, plate girders, composite construction, introduction to serviceability, and deflections.

LH: at least four 2-hour sessions per semester  
PR: ENGI 5706 or approval of the Discipline Chair

**7706 Finite Element Structural Analysis** includes a review of basic concepts required for FEA, basics of stiffness formulation, direct stiffness method, displacement method, one dimensional elements, trusses and frames. Topics include 1-D fluid and heat transfer elements, automated analysis and modelling concepts, higher order elements, two dimensional elements - plane stress and plane strain, introduction to 3D and other types. - introduction to advanced topics and isoparametric formulation.

LH: at least eight 2-hour sessions per semester  
PR: ENGI 6705 or approval of the Discipline Chair

**7707 Reliability and Environmental Loading on Offshore Structures** begins with an introduction to natural phenomena that cause loading and influence the design of marine structures. Topics include the interpretation and utilization of field data for the determination of design loads for wind, waves currents and ice and case studies of load analysis for the design of offshore structures in Atlantic Canada.

PR: ENGI 5312

**7713 Hydrology and Water Resources** examines precipitation, snowmelt, infiltration, runoff and streamflow; statistical treatment of hydrologic data; hydrograph analysis and synthesis; evaporation; structure design floods; reservoir storage and flood routing; urban run-off and drainage.

LH: at least 6 hours per semester  
PR: ENGI 5713, ENGI 6322

**7716 Hydrotechnical Engineering** examines the theory and application of steady gradually-varied flow in artificial and natural open channels together with an introduction to appropriate software; erosion protection and mobile-boundary hydraulics; problems with ice in rivers, the design of spillways, energy dissipaters, and culverts; physical scale models. There is an introduction to water hammer and surge tanks.

LH: at least four 3-hour sessions per semester  
PR: ENGI 6713

**7723 Geotechnical Engineering III** examines soil investigation and site characterization; pile foundations; embankment dams; elements of geotechnical earthquake engineering; constitutive theories for soil materials; and numerical methods in geotechnical engineering. The students select two of the above topics on which they are interested in concentrating their efforts. Bi-weekly lectures are offered on the other topics at an informal level.

PR: ENGI 5723

**7745 Highway Engineering** examines design and construction of highways including driver, vehicle and road characteristics, highway location and geometric design; soil classification; subgrade and base materials; highway drainage; flexible and rigid pavement; and highway economics.

PR: completion of Term 6 of the Civil Engineering program.

**7748 Project Planning and Control** includes an introduction to types of contracts, project delivery approaches, and prevailing contractual relationships. The course examines basic project management techniques for network planning and scheduling (CPM and PERT); principles of resource productivity databases, preliminary estimating, and detailed bid preparation; quantitative approaches for effective control of time, cost, resource, quality, and value of constructed facilities; use of computer software for scheduling, estimating, and control.

PR: completion of Term 6 of the Civil Engineering program

**7803 Electrical Engineering Design Project I** provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving an electrical engineering design problem. Students work in small teams with the assistance of a faculty mentor to define an appropriate design problem and propose a method of solution to the problem. The project is continued in ENGI 8853.

CR: the former ENGI 7800  
LC: at least 10 lecture hours per semester  
OR: weekly meetings with project supervisor  
PR: completion of Term 6 of the Electrical Engineering program

**7804 Computer Engineering Design Project I** provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving a computer engineering design problem. Students work in small teams with the assistance of a faculty mentor to define an appropriate design problem and propose a method of solution to the problem. The project is continued in ENGI 8854.

CR: the former ENGI 7800  
LC: at least 10 lecture hours per semester  
OR: weekly meetings with project supervisor  
PR: completion of Term 6 of the Computer Engineering program

**7811 Antennas** examines the fundamentals of electromagnetic radiation; potentials; small antennas and antenna parameters; thin linear wire antennas and antenna arrays; antenna impedance and ground effects; Friis

transmission formula; and aperture antennas.

LH: at least three 3-hour sessions per semester  
PR: ENGI 6813

**7814 Electromagnetics for Communications** examines vector calculus; Green's, Stokes' and Gauss' theorems; Maxwell's differential and integral equations; steady-state and time-varying aspects of Maxwell's equations; uniform plane wave propagation in various media; and applications of electromagnetics in communications.

PR: ENGI 3424, ENGI 3821

**7824 Introduction to Digital Signal Processing** examines sampling theory; the discrete Fourier transform; the efficient fast Fourier transform algorithm; elementary discrete-time signals; the discrete-time Fourier series; the discrete-time Fourier transform; discrete-time linear and time-invariant systems; linear constant-coefficient difference equations; the convolution sum; the z-transform and frequency response of discrete-time systems; an introduction to digital filter design techniques; and digital signal processing applications.

PR: ENGI 6871

**7825 Control Systems II** examines state space models for multi-input/output systems; observability, controllability; state feedback without and with integral controller structure, state observers; quadratic optimal regulator and tracking control strategies; discrete-time state equations; and an introduction to optimal control.

CR: the former ENGI 6825  
PR: ENGI 5821

**7844 Power System Analysis** begins with an introduction to electric power systems. Topics include per unit quantities; transmission line parameters; modelling of power system components; single line diagrams; network equations formulation; bus impedance and admittance matrices; load flow analysis and control; design of reactive power compensation for power system performance enhancement; tap changing, auto and control transformers for power system application; economic dispatch and optimal power flow studies.

LH: at least six 3-hour sessions per semester  
PR: ENGI 6843

**7854 Industrial Machine Vision** is a senior undergraduate course in computer vision with an emphasis on techniques for automated inspection, object recognition, mechanical metrology, and robotics. Image processing courses typically focus for image enhancement, restoration, filtering, smoothing, etc. These topics will be covered to a certain degree but the main focus will be on image segmentation, feature extraction, morphological operators, recognition and photogrammetry. Issues related to the efficient software implementation of these techniques for real-time applications will also be addressed. While there is no prerequisite for this course non-computer engineering students must have reasonably strong programming skills.

**7855 Communications Electronics** begins with an introduction to communications systems components and a review of linear amplifiers. The course examines linear amplifier design and characteristics using s-parameters; power amplifiers; mixers; oscillators; modulator/demodulator circuits and subsystems; and the integration of subsystems into analog and digital communication systems.

LH: at least four 3-hour sessions per semester  
PR: ENGI 5854, ENGI 6871

**7856 Renewable Energy Systems** examines the assessment of wind energy potential, wind turbine aerodynamics, types, modelling and control strategies; hybrid energy systems; energy storage; solar energy systems; photovoltaic, PV system engineering, stand-alone and grid connected systems, sizing and maximum power tracking; solar water pumping; micro-hydro systems and control; tidal power, wave energy converters, ocean thermal systems. Applications of hybrid energy system sizing software are also included in the course.

PR: ENGI 4841 or the former ENGI 5842

**7894 Concurrent Programming** surveys parallel and distributed architectures and examines patterns of concurrent program design; correctness of concurrent programs: safety and liveness properties, proof of properties; synchronization using locks, semaphores, and monitors; communication using message passing and remote procedures; parallelization for high-performance computation and advanced topics such as scientific applications, distributed systems, model checking, and transaction processing.

CR: the former ENGI 8893  
PR: ENGI 6861, ENGI 6892

**7901 Heat Transfer II** examines advanced topics in heat transfer; multi-dimensional conduction: shape factors, numerical methods, moving heat sources; heat transfer equipment: heat exchangers, heat exchanger design principles; phase change heat transfer: melting, solidification, condensation, and boiling.

LH: at least one 3-hour session per semester  
PR: ENGI 6901

**7903 Mechanical Equipment** examines performance characteristics of mechanical equipment; fluid power devices: pipes; valves; pumps; fans; blowers; compressors; storage tanks; heat transfer devices: heat exchangers; boilers; cooling towers; and pressure vessels.

LH: at least three 1.5-hour sessions per semester  
PR: ENGI 6901

**7911 Industrial Materials** examines physical and mechanical properties; industrial materials; metals and metal alloys, ceramics and polymer, composite materials, failure modes and mechanisms, non-destructive testing and evaluation; damage tolerant materials; material treatments; and materials selection.

CR: the former ENGI 6972  
LH: at least 20 hours per semester  
PR: ENGI 5911

**7926 Mechanical Design Project I** is the first of two capstone design courses in the Mechanical Discipline. In this course mechanical students are organized into small groups or teams, which must complete a common design challenge. The project is presented as an open-ended problem statement with specific performance objectives. The system must be designed, prototyped and tested during the course of the term. Each team is a small consulting firm and is required to document its object planning as well as its design.

CR: the former ENGI 7936  
LC: scheduled as required  
LH: scheduled as required  
PR: completion of Term 6 of Mechanical Engineering program

**7928 Computer Aided Engineering Applications** introduces a variety of Computer Aided Engineering (CAE) applications based on advanced 3D CAD modelling. The fundamentals of 3D modelling are covered including parametric and feature-based design. CAE applications include assembly modelling, mechanism animation and finite element analysis. Further applications include Computer Aided Manufacturing (CAM); model based inspection (i.e. Coordinate Measurement Machines); reverse engineering; document/drawing production; data exchange; and data management. The course has a significant lab component, which provides exposure to solid modelling and CAE applications based on an industrial CAD/CAM/CAE package.

CR: the former ENGI 7962  
LH: at least ten 3-hour sessions per semester  
PR: ENGI 1030, ENGI 6927

**7934 Finite Element Analysis** examines the basis of the finite element method. The course examines continuum mechanics applications; beam problems, fluid mechanics problems, and heat transfer problems. There are relevant computer laboratory exercises

LH: at least ten 2-hour sessions per semester  
PR: ENGI 4430, ENGI 5931

**7952 Robotics and Automation** provides the fundamentals in robotic manipulators and arms. The course provides basic understanding in coordinate transformations for spatial description, both kinematical and kinetic analysis, forces and dynamics and finally trajectory generations and path planning.

CR: the former ENGI 7944  
LH: at least three 3-hour sessions per semester  
PR: ENGI 1040, ENGI 4430

## 9.8 Academic Term 8 Courses

**8000 Ocean and Naval Architectural Engineering Project** executes the design project selected and approved in Term 7. The project must illustrate the application of previous design related courses, i.e., decision methods, impact assessments and application of technology. The subject may be ship design, marine system, directed research or a unique design solution. Lectures will be scheduled as required.

LH: 3  
PR: ENGI 7000

**8003 Small Craft Design** presents the fundamentals of naval architecture as practised in small craft design, and develops a methodology for a variety of craft: tenders, lifeboats, planning vessels, dinghies, coastal cruisers and large, state of the art racing yachts. The emphasis is on recreational craft of all sizes, with special emphasis on sailing vessels. Special topics, such as choice of material of construction, scantlings, performance prediction, seaworthiness, tank testing, modern construction materials and techniques are covered. Specific design problems unique to small craft will be covered such as: mast design and sail area determination, and the state of the art in performance prediction. Students will do a design of their choice over duration of the course. Small weekly design studies will be required.

LH: at least 12 hours per semester  
PR: ENGI 6030

**8054 Advanced Marine Vehicles** examines the concepts used in the design of advanced marine vehicles. Emphasis will be given to: structural design of craft constructed from fibre reinforced plastics; high speed marine

vehicles (powering, structures, seakeeping and model testing); small craft.

LH: at least 9 hours per semester  
PR: ENGI 5003

**8058 Submersible Design** examines the formulation of mission statement, promotes understanding of various design constraints and reviews the historical developments of submersibles design. The course studies the hydrostatics principles of floatation, stability and control of submersibles. Students will perform resistance and propulsion calculations. The course examines maneuvering and control equations, a survey of different materials and their selection criteria, the design of pressure hulls, the structural design of submersibles and a study of various support systems.

LH: at least 12 hours per semester  
PR: ENGI 3054

**8640 Process Engineering Project II** is a design project that illustrates the application of previous engineering science and design related courses. Projects will be done by teams of students with individuals concentrating their participation in their own engineering discipline. The project topic will be from the process industry which includes the offshore oil and gas industry, mining and metal processing industry and chemical process industry.

LC: scheduled as required  
PR: ENGI 7640

**8650 Offshore Oil and Gas Engineering Project II** is a multidisciplinary design project that illustrates the application of previous engineering science and design related courses. The project will be done by teams of students with individuals concentrating their participation in their own engineering discipline. The project topic will be from the offshore oil and gas engineering industry. Lectures will be scheduled as required.

CR: the former ENGI 8600  
LC: 1  
PR: ENGI 7650

**8670 Reliability Engineering** is an introduction to reliability engineering; physics of failure and failure mechanism, reliability measures and assessment; reliability of components and parts; complex system reliability and availability analysis; and field reliability assessment. The course includes case studies and a project.

PR: completion of Academic Term 6

**8671 Safety and Risk Engineering** begins with an overview of safety and risk issues in the offshore oil and gas industry. The course examines regulatory requirements; hazards and structured analysis tools; risk terminology and quantified risk analysis (QRA) techniques; and safety assessment studies. The course includes project and case studies.

PR: completion of Academic Term 6

**8673 Subsea Geotechnical Engineering** is an overview of in-situ soil testing methods, geophysical and acoustic surveys for subsea investigations. Elements of soil behavior under cyclic loads, including liquefaction and cyclic mobility. Pipeline design in ice-scoured seabeds. API and other code requirements. Review of existing foundation systems including recent case studies. New foundation systems including drag anchors and suction caissons.

LH: 2

**8676 Design of Natural Gas Handling Equipment** covers process description, design methods, operating procedures, and troubleshooting aspects of gas production facilities including inlet separation operations, hydrate prevention and control, gas dehydration, NGL recovery and dew point control, gas transmission and pipeline design and transportation systems.

PR: completion of Academic Term 6

**8677 Process Plant Design and Economics** will provide a comprehensive picture of the availability and design of both traditional and current process equipment. Economic and optimization issues relevant to investment, product-cost estimation, and profitability analysis will also be addressed. The course will provide students with tools to evaluate the economics of process industries reflecting current economic criteria, and provide helpful guidelines to approaching, defining, and solving optimization problems.

PR: ENGI 7623

**8680 Process Control and Instrumentation** begins with an introduction to feedback and feedforward control systems, regulatory and servo control. Topics include modelling thermal, gas, liquid and chemical processes; sensors and transmitters, control valve sizing for liquids and gases, industrial feedback controllers; design of feedback control loops, tuning of feedback controllers; cascade, ratio, override and selective control; feedforward control; multivariable process control; piping and instrumentation diagrams, and control system documentation.

LH: at least four 3-hour sessions per semester  
PR: ENGI 5821

**8690 Reservoir Engineering** examines fluid pressure regimes, oil recovery factors, calculation of hydrocarbon volumes, reservoir rock characteristics, reservoir fluid properties, porosity and permeability, material balance, and well test analysis.

PR: completion of Academic Term 6

**8691 Petroleum Production Engineering** examines the procedures and equipment necessary for preparing a well to produce hydrocarbons and maximizing flow rate during the life of the well; techniques for well productivity analysis in under-saturated, saturated, and natural gas reservoirs; well completion configuration tubulars; packers and subsurface flow control devices; completion and work over fluids; perforating oil and gas wells; formation damage; surfactants for well treatment; hydraulic fracturing; acidizing; scale deposition, removal, and prevention; work over and completion rigs; and artificial lift.

PR: completion of Academic Term 6

**8692 Drilling Engineering for Petroleum Exploration & Production** covers both offshore and onshore drilling operations and includes: rotary drilling rig operations, well construction sequence, drill string, drill bits, well bore hydraulics, casing and well heads, cementing, well control, directional and horizontal drilling, well planning and fishing operations, and extended reach, horizontal and multilateral well drilling techniques.

PR: completion of Academic Term 6

**8693 Petroleum Facilities Engineering** covers process description, design methods, operating procedures, and troubleshooting aspects of surface production facilities including separation systems, oil treating, water treating systems, custody transfer operations, transport and storage systems.

PR: completion of Academic Term 6

**8694 Downstream Processing** includes: oil and natural gas processing, oil and gas storage facilities and their design, oil and gas separation processes, petroleum refining processes, and de-bottle necking.

PR: completion of Academic Term 6

**8696 Petroleum Refining Engineering** will cover crude and refinery products properties and specifications, process description, design methods, operating procedures, and troubleshooting aspects of modern petroleum refining. It also includes hydrorefining, catalytic reforming, hydrocracking, isomerisation, refinery machinery, and utilities.

PR: completion of academic term 6 of the process engineering program

**8700 Civil Engineering Project** is a practically oriented design project integrated over the five areas in which Civil programs are offered. Students will operate in consultant groups and will complete a design for a typical Civil Engineering undertaking.

LC: scheduled as required

OR: 1 client meeting per week, 1 tutorial per week

PR: completion of Term 7 of the Civil Engineering program

**8705 Structural Building Systems** examines geometries, loads, safety and serviceability, procedure of using the national building code for evaluating the governing loads on structural members; design of low rise concrete, timber and steel buildings; lateral load-resisting elements and bracing systems; design of foundation systems, footing design, pile cap design, pile group analysis using elastic centre method and inclined pile analysis; prestressed concrete concepts: strength of flexural members, and shear reinforcement for prestressed concrete beams.

LH: at least nine 3-hour sessions per semester

PR: ENGI 6707

**8708 Offshore Structural Design** examines guidelines and international codes and standards for offshore structural design; understanding design constraints and concepts of offshore fixed and floating structures; design consideration for fixed offshore concrete platform; design consideration for offshore platform and floating production system design, and analysis of various support systems of the offshore structure.

PR: ENGI 7707

**8713 Municipal Engineering** includes water supply system overview; water consumption estimation; groundwater and surface water sources; oxygen demand and transfer; water treatment processes; water distribution systems and design software; sewer systems and design software; wastewater treatment processes; sludge handling; decentralized and on-site wastewater treatment.

PR: ENGI 7716

**8717 Environmental Assessment, Monitoring and Control** covers statistical analysis; pollution monitoring, and sampling network design; water quality and air quality modelling; environmental risk assessment; environmental impact assessment; site remediation and hazardous waste management. There are relevant field trips and case studies.

LH: at least ten 3-hour lab sessions per semester

PR: ENGI 4717

**8740 Contract Law and Labour Relations** is an introduction to law as it applies to engineering activity; the nature of law and legal processes, including standard forms; liens, bonds and insurances; the labour movement in North America; examination of union philosophies and managerial attitudes; labour law and collective bargaining; disputes and settlements.

CR: the former ENGI 6740

PR: completion of Term 7 of the Civil Engineering program

**8751 Coastal and Ocean Engineering** examines the coastal and ocean environment; ocean circulation and properties; waves and tides;

instrumentation and measurement. Additional topics will be drawn from the areas of hydraulic, geotechnical and structural engineering. Relevant field exercises will be conducted.

PR: ENGI 6713

**8821 Design of Digital Signal Processing Systems** is a review of introductory digital signal processing (DSP) principles, including sampling theory and discrete-time systems and signals. Topics include transform analysis of DSP systems; issues in the implementation of DSP systems; design of IIR and FIR digital filters; computable transforms and their use in the frequency analysis of digital signals; and design of DSP systems for current and emerging applications of digital signal processing.

PR: ENGI 7824

**8826 Filter Synthesis** begins with an introduction to analog filters. The course examines descriptive terminology, transfer functions and frequency response of filters; design of first order passive and active filters; design and analysis of biquad circuit, Sallen key circuit, multiple feedback circuit and state variable filter; RC-CR transformation; inductance simulation circuit; cascade design principle; design of filters with maximally flat magnitude response; design of filters with equal ripple magnitude response; design of Bessel-Thomson filters; analysis and design of switched capacitor filters; and the use of Matlab for design of analog filters.

LH: at least four 3-hour sessions per semester

PR: ENGI 5854

**8845 Power System Operation** examines symmetrical components; power system fault analysis; power system stability; and power system protection.

LH: at least four 3-hour sessions per semester

PR: ENGI 7844

**8853 Electrical Engineering Design Project II** continues ENGI 7803 and provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving an electrical engineering design problem. Students work in small teams with the assistance of a faculty mentor to complete detailed design, implementation and testing of an electrical engineering system to solve the problem as defined in 7803.

CR: the former ENGI 8800

LC: 0

OR: weekly meetings with project supervisor

PR: 7803

**8854 Computer Engineering Design Project II** continues ENGI 7804 and provides an opportunity for senior students to integrate the knowledge that they have acquired through the junior terms and apply it to solving a computer engineering design problem. Students work in small teams with the assistance of a faculty mentor to complete detailed design, implementation and testing of a computer engineering system to solve the problem as defined in 7804.

CR: : the former ENGI 8800

LC: 0

OR: weekly meetings with project supervisor

PR: 7804

**8863 Introduction to LSI Design** (same as Computer Science 4725) is an introduction to ASICs and ASIC design methodology and includes basic concepts of digital logic design tools and ASIC technology libraries; partitioning for logic synthesis and VHDL coding; constraining designs, synthesizing, simulation and optimization; design for testability; layout and post-layout optimization and SDF generation; and static timing analysis.

LH: at least eight 3-hour sessions per semester

PR: ENGI 5865

**8868 Computer and Communications Security** examines the techniques used to provide security in communication networks and computer systems. The course focuses on topics in cryptography required to provide privacy, authentication, and integrity, including symmetric key ciphers, public key ciphers, message authentication, and digital signature schemes.

PR: ENGI 6876

**8879 Digital Communications** is a review of baseband transmission and basic digital modulation schemes, detection (optimum receiver, matched filter, correlator), error performance, intersymbol interference (ISI), equalization, the concept of information and entropy, source coding including Huffman coding and linear predictive coding, channel coding including block and convolutional error correcting codes, modulation and coding trade-offs, bandwidth and power efficiency.

PR: ENGI 6871

**8894 Real-time Operating Systems** examines real-time process scheduling; memory and device management; I/O communications; real-time systems; operating system and hardware concurrency issues; kernel architectures; device drivers; and a survey of available real-time operating systems and embedded platforms.

CR: the former ENGI 7863, Computer Science 4721

PR: ENGI 7894

**8903 Mechanical Systems** examines mechanical systems design; system simulation, control, and optimization; design optimization and system

performance evaluation; design case studies and equipment for overall system design.

PR: ENGI 6901

**8911 Corrosion and Corrosion Control** examines forms of corrosion; the electrochemical nature of the corrosion process; the mixed potential theory, Pourbaix diagrams and Evans diagrams; corrosion testing, control use by use of materials, selection, cathodic protection, inhibitors, and coatings. There are case studies of selected corrosion problems.

CR: the former ENGI 8962

LH: at least five 3-hour sessions per semester

PR: ENGI 7911

**8926 Mechanical Design Project II** is the second of two capstone design courses in the Mechanical Discipline. Building on skills acquired in the first, student teams each choose a unique design challenge and then proceed to generate a solution. The problem statements are often drawn from industry and, where possible, interdisciplinary interaction is encouraged (for example, with business, computer science, or other engineering disciplines). In most cases, the problem proponent will act as the "client" and the team is expected to manage the client interaction process as well. Significant emphasis is placed on both oral and written communication of both the process and results. Wherever possible, each system or a critical component of it, will be prototyped and tested.

CR: the former ENGI 8936

LC: scheduled as required

LH: scheduled as required

PR: ENGI 7926

**8933 Fatigue and Fracture Mechanics** is an introduction to fatigue and fracture analysis of metallic components, failure mechanisms, fracture mechanisms, effects of cracks, notches, collapse; linear elastic fracture mechanic analysis; design of components to avoid fracture; fatigue crack propagation, fracture initiation, crack arrest; and fracture toughness measurements.

PR: ENGI 5931

**8935 Pressure Component Design** examines traditional design methods;

load types; sustained, cyclic, impact; failure modes and mechanisms; incremental collapse; plastic shakedown; upper bound and lower bound approximations; load cycle fatigue; and rational design procedures. Case studies are conducted for cylinders; plates; shells.

PR: ENGI 5931

**8937 Machine Dynamics** begins with a review of Newton's Law, planar rigid body kinematics and kinetics. Topics include three-dimensional kinematics and kinetics: orientation angles, rotation matrices, Euler's equations. Lagrange's and Hamilton's equations, constraints, dynamic simulation of linkages, mechanism loads, balancing, engine dynamics. There is a student analysis project.

CR: the former ENGI 7945

LH: at least eight 1-hour sessions per semester

PR: ENGI 4932, 6933

**8945 Production & Operations Management** is an overview of production and operations management, and an examination of decision making and operations strategy; process design and improvement, process flow analysis/simulation, capacity planning; design of value chains, lean systems, plant layout and process planning; operating value chains, MIS systems, inventory and resource management. Relevant computer laboratory exercises are conducted.

CR: the former ENGI 7943

PR: ENGI 6901

**8964 Fluid Structure Interactions** examines structural vibrations generated by fluid flow. These vibrations can be transient or they can take the form of instability or resonance. The course deals with the following fluid structure interactions: (1) Flow induced vibration of structures (2) Unsteady flow in pipe networks (3) Water wave interactions with structures.

CR: the former ENGI 8904

LH: at least three 3-hour sessions per semester

PR: ENGI 6961, ENGI 6933

## Fisheries and Marine Institute Advisory Committee

An Industry-based Advisory Committee, established by an Act of Legislature, with members appointed by the Board of Regents of the University, advises the Fisheries and Marine Institute on fisheries and marine related programs and activities.

### Chair Advisory Committee

Captain S. Hynes, Executive Chairman, Oceanex Inc.

### Committee Members

Ms. M. Allan, Manager, Regulatory Affairs and Administration, Husky Energy  
 Mr. G. Blackwood, Executive Director, Fisheries and Marine Institute  
 Mr. R. Butler, Vice President, Ground Fish Operations, Ocean Choice International  
 Ms. S. Butt, President, Student Union, Fisheries and Marine Institute  
 Mr. W. Follett, President and CEO, Marine Atlantic  
 Mr. A. O'Rielly, Deputy Minister, Department of Fisheries and Aquaculture  
 Mr. L. Pecore, President, Genoa Design International Ltd.  
 Ms. I. Petten, Vice-President, Ocean Choice International  
 Mr. G. Pretty, Director, Industrial/Retail, Fish, Food and Allied Workers Union  
 Captain R. Strong, Marine Manager, Oceanex Inc.

### Secretary to the Committee

Ms. H. Wakeham-Dunn

## Fisheries and Marine Institute Executive Committee

### Executive Director

Blackwood, G., B.Sc.(Hons.), M.A. *Memorial*

### Head, School of Fisheries

Bonnell, C., B.Sc. *Memorial*, Adv. Dip. *Marine Institute*

### Director, Corporate Services and External Affairs

Clarke, K., B.Sc., M.B.A. *Memorial*

### Head, School of Maritime Studies

Dutton, C. R., B.Eng., B.Voc.Ed., M.Eng. *Memorial*

### Head, Division of Academic and Student Affairs

Fisher, P., B.Sc., P.G.C.E., Ac. Dip. Ed. *London*, M.Ed. *Memorial*, Ph.D. *Leeds*

### Head, School of Ocean Technology

Howse, D., B.Eng., M.Eng., M.B.A. *Memorial*

### Director, Research and Development

Newhook, R.V., B.Eng. *Memorial*, P.Eng.

## Administrative Personnel

### Division of Corporate Services and External Affairs

#### Director

Clarke, K., B.Sc., M.B.A. *Memorial*

#### Manager, Cafeteria

Haynes, D., D.P.S.E. *Memorial*, I.P.C. *College of the North Atlantic*

#### Manager, Computer Services

Kirby, P., B.Sc. *Memorial*

#### Manager, Finance and Contracts

Christian-Quinton, F., B.Comm. *Memorial*

#### Manager, Human Resources

Fowler, M., B.Comm. *Memorial*

#### Manager, Marketing and Business Development

Anderson, G.L., B.A. *Memorial*

#### Manager, Marine and Technical Services

Sheehan, B.

#### Captain, Training and Research Vessel

Manning, H., Master of Ships Under 500 Tons

## Division of Academic and Student Affairs

### Head

Fisher, P., B.Sc., P.G.C.E., Ac. Dip. Ed. *London*, M.Ed. *Memorial*, Ph.D. *Leeds*

### Co-ordinator of Advanced Programs

Smith, N., B.Comm. *Memorial*

### Institute Librarian

Lawton, C., B.N., M.L.S. *Dalhousie*

### Institute Registrar

Noftall, L., B.Comm. *Memorial*

### Enrolment Management Coordinator

Clarke, A., B.Sc., M.Ed. *Memorial*

### Guidance/Student Affairs Officer

Green, G., B.A., M.Ed. *Memorial*

### Student Liaison Officer

Pittman, R., B.A. *Memorial*

### Recreation/Sports Assistant

Hatfield, R., Dip. Recreation Technology *CNA*

### Student Placement Co-ordinator

Brockerville, B., B. Comm., M.B.A. *Memorial*, C.M.A.

### Placement Officers

Anstey, A.

Foote, D., B.A., M.Ed. *Memorial*, C.C.C.

## MI International

### Director

Chislett, B., B.P.Ed., B.A., B.Ed. *Memorial*, M.A. *East Anglia*

### Project Leader

Penney, G., B.P.E., B.Ed. *Memorial*, M.Ed. *U.N.B.*, M.C.P.M. *York*

### International Program Officers

Moret, K., B.Sc., M.Sc. *Memorial*, M.C.P.M. *York*, P.M.P.

Power, M., B.A. *St. Francis Xavier*, M.A. *Queens*

### International Student Co-ordinator

Pittman, E., B.A. *Soochow*, M.A. *Victoria*

## School of Fisheries

### Head

Bonnell, C., B.Sc. *Memorial*, Adv. Dip. *Marine Institute*

### Co-ordinator of Programs

Durnford, E, Dip. Tech. *Marine Institute*, B.Sc., B.Ed., M.Sc. *Memorial*

### Director, Centre for Aquaculture and Seafood Development

Manuel, H., B.Sc.(Hons.), M.Sc., M.B.A. *Memorial*

### Director, Centre for Sustainable Aquatic Resources

Winger, P., B.Sc. *Dalhousie*, M.Sc., Ph.D. *Memorial*

### Professor of Fisheries Conservation

Rose, G.A., B.Sc. *Guelph*, M.Sc. *Laurentian*, Ph.D. *McGill*

### Assistant Director, Centre for Aquaculture and Seafood Development

Brown, T., B.Sc., M.M.S. *Memorial*

### Departmental Project Co-ordinator

Hunt, B.A., B. Comm. *Memorial*, C.M.A.

### International Project Manager

Allen, N., B.Sc. *Leicester*, M.Sc. *Plymouth*

## School of Maritime Studies

### Head

Dutton, C.R., B.Eng., B.Voc.Ed., M.Eng. *Memorial*

### Co-ordinator of Programs

Anstey, F.A., B.A., B.Voc.Ed., Cert. Bus. Adm., M.Ed. *Memorial*, Master Intermediate Voyage

### Director, Centre for Marine Simulation

Hearn, C., Dip.N.Sci. *Marine Institute*, Master Mariner

**Manager, Applied Research and Industrial Projects, Centre for Marine Simulation**Halfyard, M., B.Sc., M.B.A. *Memorial***Director, Offshore Safety and Survival Centre**Rutherford, R., H.N.D., B.M.S. *Memorial*, Marine Engineer (1st Class), P.Eng., M.I.Mar.E., C.I.Mar.E.**Assistant Director, Operations and Administration, OSSC**

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 School Description

The Fisheries and Marine Institute was established in 1964 as the College of Fisheries, Navigation, Marine Engineering and Electronics. It became affiliated with the University in 1992 and since then has continued to grow as a world-class centre of marine technology and education. The official name is the Fisheries and Marine Institute of Memorial University of Newfoundland, but it is commonly known as the Marine Institute.

The main campus of the Marine Institute overlooks the city of St. John's from within Pippy Park, which has extensive hiking trails and recreational facilities. This building houses a flume tank, a seafood processing plant, freshwater aquaculture research and development facilities, and extensive marine simulation facilities. The Dr. C. R. Barrett Library, located at this campus, houses one of Canada's largest marine-related collections. In addition, the Institute manages the Offshore Safety and Survival Centre in Foxtrap, the Safety and Emergency Response Training (SERT) Centre in Stephenville and a marine base on the south side of St. John's harbour.

The Marine Institute provides a full range of programs focussing on fisheries and marine science and technology. In addition to undergraduate and graduate degrees, the Institute offers advanced diplomas, diplomas of technology, and technical and vocational certificates. The Institute also runs a variety of short courses and industrial response programs.

All programs and courses are designed to provide students with the knowledge and skills required for success in the workforce. The Institute seeks the advice of industrial program advisory committees in the ongoing development and review of programs. Whenever appropriate, it submits programs for national accreditation, providing graduates with mobility in professional employment.

## 3 Description of Degree Programs

Students must meet all regulations of the Fisheries and Marine Institute in addition to those stated in the University's general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

For information about non-degree programs and upgrading opportunities refer to [www.mi.mun.ca](http://www.mi.mun.ca).

### 3.1 General Degrees

The Marine Institute offers two undergraduate degrees. For specific details on each degree refer to the appropriate **Degree Program Regulations**. The courses in the programs are available on campus and by distance delivery.

#### 3.1.1 Bachelor of Maritime Studies

The Bachelor of Maritime Studies program prepares graduates for career advancement in the maritime and related industries. It is designed for students who have graduated from accredited, or Transport Canada approved, diploma of technology programs in the marine fields. The program is also available to professional mariners, professional fish harvesters and certain Canadian Forces (Naval Operations) personnel. Courses in the program provide the student with an introduction to human resource and business management concepts, and the social contexts in which their careers will be based. The program consists of 39 credit hours in addition to work

completed in a diploma program and can be taken on a full-time or part-time basis.

### 3.1.2 Bachelor of Technology

The Bachelor of Technology program prepares graduates for career advancement in health science technology or engineering/applied science technology industries. It is designed for students who have graduated from an accredited diploma of technology program that is applicable to one of two optional areas. Courses in the program provide the student with an introduction to human resource and business management concepts, and the social contexts in which their careers will be based. The program consists of 39 credit hours in addition to work completed in a diploma program and can be taken on a full-time or part-time basis.

The optional areas are:

- Engineering and Applied Science Technology Option, which is normally chosen by students who have an engineering/applied science technology diploma.
- Health Sciences Technology Option, which is normally chosen by students who have a health sciences technology diploma.

## 4 Admission/Readmission Regulations for Degree Programs

In addition to meeting the admission/readmission requirements for the University students must also meet the admission/readmission requirements for the Marine Institute. See **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)** for University requirements.

### 4.1 General Information

1. All application forms must be submitted to the Admissions Office, Office of the Registrar, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
2. Students who want to take University courses concurrently with diploma courses should check either Pre-Bachelor of Maritime Studies or Pre-Bachelor of Technology on the Memorial University of Newfoundland application for admission/readmission form.
3. For the purpose of satisfying the requirements of **UNIVERSITY REGULATIONS - Year of Degree and Departmental Regulations - All Other Faculties and Schools**, Pre-Bachelor of Maritime Studies and Pre-Bachelor of Technology students will normally follow regulations in effect in the academic year in which the student first completes a course(s) in the Bachelor of Maritime Studies or Bachelor of Technology program as a Pre-Bachelor of Maritime Studies or Pre-Bachelor of Technology student. However, the student may elect to follow subsequent regulations introduced during the student's tenure in a program.
4. Students may not obtain both a Bachelor of Maritime Studies and a Bachelor of Technology degree based upon completion of the same diploma of technology.

### 4.2 Admission Requirements for Applicants to the Bachelor of Maritime Studies Program

1. An applicant must submit a form for admission/readmission to the University. This application must include all required documentation including proof of the diploma or certificate required for admission in a specific category.
2. **Categories for admission to the Bachelor of Maritime Studies**

Applicants must meet the general admission/readmission requirements of the University and be eligible for admission to the Bachelor of Maritime Studies program in one of the following categories:

- Category A: applicants holding a diploma from the Marine Institute in nautical science, marine engineering technology, naval architecture technology or marine engineering systems design technology,
  - Category B: applicants holding a Canadian Technology Accreditation Board accredited, or Transport Canada approved, diploma in marine engineering technology or nautical science,
  - Category C: applicants holding a Canadian or non-Canadian diploma similar to an accredited or Transport Canada approved Marine Institute diploma in nautical science, marine engineering technology, naval architecture technology or marine engineering systems design technology,
  - Category D: applicants holding a Transport Canada Certificate of Competency at the Master Mariner, Fishing Master First Class or Engineering First Class level or equivalent,
  - Category E: applicants holding a Transport Canada Certificate of Competency at the Master, Intermediate Voyage level or equivalent,
  - Category F: applicants holding a Transport Canada Certificate of Competency at the Engineering Second Class level or equivalent,
  - Category G: applicants who have Canadian Forces (Naval Operations) training of a type and at a level acceptable to the Admissions Committee.
3. Applications to the program will be considered by the appropriate admissions committee(s).
  4. In accordance with the **UNIVERSITY REGULATIONS - Residence Requirements - Second Degree**, students completing the Bachelor of Maritime Studies program, as a second degree, must complete a minimum of an additional 9 credit hours beyond a first degree and the work completed as required for admission to this degree.

### 4.3 Admission Requirements for Applicants to the Bachelor of Technology Program

1. An applicant must submit a form for admission/readmission to the University. This application must include all required documentation including proof of the diploma or certificate required for admission in a specific category.
2. **Categories for admission to the Bachelor of Technology Program**

Applicants must meet the regular admission requirements of the University and be eligible for admission in one of the following categories:

- Category A: applicants holding a diploma of technology accredited by the Canadian Medical Association (CMA),
- Category B: applicants holding a diploma of technology in engineering/applied science technology accredited by the Canadian Technology Accreditation Board (CTAB),
- Category C: applicants holding a diploma of technology comparable to a Marine Institute or College of the North Atlantic three-

year CTAB accredited diploma in engineering/applied science technology,

- Category D: applicants holding a diploma of technology comparable to a College of the North Atlantic three-year CMA accredited diploma.
3. Upon acceptance into the program, students will be admitted to one of the two options: the Engineering and Applied Science Technology Option or the Health Sciences Technology Option. Students may be permitted to change their option with the approval of the Marine Institute Committee on Undergraduate Studies.
  4. Applications to the program will be considered by the appropriate admissions committee(s).
  5. In accordance with the **UNIVERSITY REGULATIONS - Residence Requirements - Second Degree**, students completing the Bachelor of Technology program, as a second degree, must complete a minimum of an additional 9 credit hours beyond a first degree and the work completed as required for admission to this degree.

## 5 Degree Program Regulations

### 5.1 Bachelor of Maritime Studies

- Students must complete 39 credit hours in addition to the work which was required under their category of admission.
- The required and elective courses are listed in **Table 1 Bachelor of Maritime Studies - Course Requirements For All Students**. These courses may have prerequisites which have to be met.
- Students admitted to the program in certain categories may have to complete additional requirements. These are listed in **Table 2 Bachelor of Maritime Studies - Additional Requirements Based on Category of Admission**.
- When transfer credit has been granted for a course(s) taken to satisfy the requirements for admission students must take an additional elective University course(s).
- To meet the academic requirements for a Bachelor of Maritime Studies a candidate shall successfully complete the following program with a minimum overall average of 60% and a minimum numeric grade of 50% in each course required for the degree.
- Students must take 39 credit hours with 21 credit hours from the required courses and 18 credit hours from the electives.
- At least one elective must be chosen from each of the groups A and B.

**Table 1 Bachelor of Maritime Studies - Course Requirements for All Students**

Required Courses	Group A Electives	Group B Electives
Business 1000	Business 1210	Economics 2010
Business 3310	Business 2102	Economics 2020
3 credit hours in English at the 1000 level	Business 4000	Economics 3030

**Table 2 Bachelor of Maritime Studies - Additional Requirements Based on Category of Admission**

Category of Admission	Additional Requirements
A: Students holding a diploma from the Marine Institute in nautical science, marine engineering technology, naval architecture technology or marine engineering systems design technology.	No additional requirements.
B: Students holding a Canadian Technology Accreditation Board accredited, or Transport Canada approved, diploma in marine engineering technology or nautical science.	No additional requirements, with the possible exception of course prerequisites.
C: Students holding a Canadian or non-Canadian diploma similar to an accredited or Transport Canada approved Marine Institute diploma in nautical science, marine engineering technology, naval architecture technology or marine engineering systems design technology.	May have to complete additional requirements.
D: Students holding a Transport Canada Certificate of Competency at the Master Mariner, Fishing Master First Class or Engineering First Class level or equivalent.	No additional requirements, with the possible exception of course prerequisites.
E: Students holding a Transport Canada Certificate of Competency at the Master, Intermediate Voyage level or equivalent.	Either: <ul style="list-style-type: none"> <li>• Transport Canada - Ship management 093 (Master Mariner) or</li> <li>• Both of: Marine Institute Business and Organizational Management 3114 and Marine Institute Business and Organizational Management 3204. The prerequisite(s) for Business and Organizational Management 3204 will be waived.</li> </ul>
F: Students holding a Transport Canada Certificate of Competency at the Engineering Second Class level or equivalent.	Transport Canada - Applied Mechanics (1st Class) Transport Canada - Thermodynamics (1st Class) Transport Canada - Electrotechnology (1st Class)
G: Students who have Canadian Forces (Naval Operations) training of a type and at a level acceptable to the Admissions Committee.	May have to complete additional requirements.

## 5.2 Bachelor of Technology

Students must complete 39 credit hours in addition to the work which was required under their category of admission.

The required and elective courses are listed in **Table 3 Bachelor of Technology - Engineering and Applied Science Technology Option** and **Table 4 Bachelor of Technology - Health Science Technology Option**. These courses may have prerequisites which have to be met.

When transfer credit has been granted for a course(s) taken to satisfy the requirements for admission, students must take an additional elective(s) in the Bachelor of Technology program.

To meet the academic requirements for a Bachelor of Technology a candidate shall successfully complete the program with a minimum overall average of 60% and a minimum numeric grade of 50% in each course required for the degree.

### 5.2.1 Bachelor of Technology - Engineering and Applied Science Technology Option

- Students must take 39 credit hours with 24 credit hours from the required courses and 15 credit hours from the electives.
- At least one elective must be chosen from each of the groups A and B.

**Table 3 Bachelor of Technology - Engineering and Applied Science Technology Option**

Required Courses	Group A Electives	Group B Electives
Business 1000 Business 3310 Engineering 4102 or MSTM 4020 3 credit hours in English at the 1000 level MSTM 4010 MSTM 4060 or an additional 3 credit hours in English at the 1000 level MSTM 4100 MSTM 4200 Statistics 2500	Business 1210 Business 1600 Business 2102 Business 3700 Business 4000 Business 4320 or Psychology 3501 Business 4330 Business 6320 Economics 3360 MSTM 4005 MSTM 4040 MSTM 4050 MSTM 4070 MSTM 4080	Economics 2010 Economics 2020 Economics 3080 Geography 4410 MSTM 4030 Philosophy 2801 Religious Studies 3830 Sociology 2120 Sociology 4206

## 5.2.2 Bachelor of Technology - Health Science Technology Option

- Students must take 39 credit hours with 18 credit hours from required courses and 21 credit hours from electives.
- At least one elective must be chosen from each of the groups A, B, and C.

Table 4 Bachelor of Technology - Health Science Technology Option

## 6 Waiver of Degree Program Regulations

Students requesting waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**. Every student also has the right to request waiver of degree program regulations.

### 6.1 General Information

- The Marine Institute reserves the right in special circumstances to modify, alter, or waive any Marine Institute regulation in its application to individual students where merit and equity so warrant, in the judgement of the Committee on Undergraduate Studies of the Marine Institute.
- Students requesting a waiver of a Marine Institute regulation must submit their request in writing to the head of the program who will forward a recommendation to the Chair of the Committee on Undergraduate Studies of the Marine Institute. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

## 7 Appeal of Regulations

Any student whose request for waiver of Marine Institute regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

## 8 Course Descriptions

All courses of the Marine Institute degree programs are designated as MSTM (Maritime Studies/Technology Management).

**4001 The Organization and Issues of Shipping** will provide students with knowledge of the economic shipping environment with respect to Canada. The course will develop an understanding of basic trade theory, patterns of trade and sea routes, commodities traded by sea, and the organizational structure of shipping companies.

CR: the former Engineering 8065; Maritime Studies 4001

**4002 The Business of Shipping** will provide students with an understanding of financial statements, costs, revenues and financial performance of shipping companies as well as computing, voyage and annual cashflows. The course will develop an understanding of marine insurance and forecasting, and risk management.

PR: MSTM 4001

**4004 Marine Environmental Management** will introduce students to the requirements for the safe management of the marine environment. The course will introduce major environmental problems and identify the major threats to the marine environment. It will provide a working knowledge of these threats and consider the possible counter measures that may be employed by employees in the marine industry.

PR: Admission to the Bachelor of Maritime Studies program

**4005 Trends and Issues in International Shipping** will provide students with an understanding of how regulatory bodies and their legislation have evolved to affect the modern seafarer trading internationally. This course will develop an understanding of the various rules and regulations dealing with Classification, ISM, MAPROL, SOLAS and SIRE inspections which have to be dealt with on a daily basis at sea.

PR: Admission to the Bachelor of Technology or the Bachelor of Maritime Studies program

**4010 Assessment and Implementation of Technology** (formerly

Technology 4010) examines the effects of technology on the physical, socio-economic, historic, cultural and aesthetic environments. The course also addresses relevant legislation, the generation and evaluation of project/product alternatives, and the prediction, verification and mitigation of technological effects.

CR: the former Technology 4010

**4020 Economic Management for Technologists** (formerly Technology 4020) provides an introduction to the economics of technological projects. Students will study the mathematics of money, cost composition, and project evaluation, including cost comparison. They will also learn to analyse projects for decision making, including risk assessment and replacement analysis. In addition, they will learn to use suitable criteria for project selection, and to conduct sensitivity analysis.

CR: Engineering 4102; the former Technology 4020

PR: Admission to the Bachelor of Technology or the Bachelor of Maritime Studies program

**4030 Technology in the Human Context** (formerly Technology 4030) examines technology in the historical context and technology in the modern era. Students will discuss human insights, innovation, the interactions between development and technology transfer, ethics and professionalism and how to develop a technology value system.

CR: the former Technology 4030

**4040 Project Management for Technologists** (formerly Technology 4040) will introduce the student to the interdisciplinary field of project management. The course covers the interpersonal skills necessary to successfully lead or work effectively within a project team as well as providing an overview of certain planning and scheduling tools and techniques necessary for the planning and monitoring of projects.

CR: the former Technology 4040

**4050 Introduction to Quality Management** (formerly Technology 4050) will provide students with an understanding of the philosophy and concepts involved in the total quality approach to quality management. The course covers the various tools and techniques used in quality management as well

as providing an overview of the role of management.  
CR: the former Technology 4050

**4060 Advanced Technical Communications** will enhance the technical communication skills of students. The course content examines technical writing fundamentals; information gathering, analysis, and documentation; proposal preparation; technical document applications; technical report preparation; graphics preparation; and technical presentations. The course will provide students with the knowledge and skills necessary to develop proposals, reports, and presentations for technical projects.

**4070 Special Topics in Technology** will provide the opportunity for students to maintain technical currency through a review of recent advances in technology and their application to particular technical areas.

PR: Admission to the Bachelor of Technology Program and MSTM 4060

**4080 Environmental Management System** (formerly MSTM 4003) will provide students with a knowledge and understanding of international standards for environmental management. The course will develop an understanding of the ISO 14000 standard, its requirements and the process for establishing an environment management system (EMS). The course will include a consideration of the documentation and other requirements for ISO 14000 registration.

CR: the former MSTM 4003

**4100 Technical Project and Report I** (formerly Maritime Studies 4000 and Technology 4000) requires the student to identify a research topic in a specialty area, write a concept paper and develop a proposal to be carried out in MSTM 4200. In addition, the course offers an opportunity to improve time management, critical thinking, project management, problem solving, and reading/writing skills as related to the research process.

CH: 1

CO: MSTM 4060 or second English course at the 1000 level

CR: the former Maritime Studies 4000; the former Technology 4000

PR: MSTM 4060 or second English course at the 1000 level

**4200 Technical Project and Report II** (formerly Maritime Studies 4000 and Technology 4000) provides a link between the other courses of the program and the technical component from the diploma program. Students will carry out an in-depth study of the topic identified in MSTM 4100. Students will fully document and present their findings through the writing of a formal technical report.

CH: 2

CR: the former Maritime Studies 4000; the former Technology 4000

PR: MSTM 4100

## 9 Maritime Studies/Technology Management (MSTM) Courses Available to Students not Enrolled in a Degree Program Offered by the Fisheries and Marine Institute

Students not in a degree program offered by the Marine Institute may register in courses from the following list if space is available.

- 4001 The Organization and Issues of Shipping
- 4010 Assessment and Implementation of Technology
- 4030 Technology in the Human Context
- 4040 Project Management for Technologists
- 4050 Introduction to Quality Management
- 4060 Advanced Technical Communications
- 4080 Environmental Management System

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 School Description

The School of Human Kinetics and Recreation offers undergraduate and graduate degrees in kinesiology, physical education, and recreation. The School's programs prepare students to meet societal needs for professionals who are able to initiate and manage health and lifestyle-enhancing programs. The School encourages a close working relationship among students, faculty, and staff, and with local and national sport, health, and professional organizations. Co-operative education programs provide for the integration of academic and professional knowledge. A full-time academic student advisor within the School assists students with decisions related to their academic program. The School prides itself on the extent to which senior undergraduate and graduate students are engaged in teaching, research, and scholarly activity. Many graduates of the School are leaders in the fields of physical education, sport, kinesiology, health, and recreation.

Additional information regarding the School of Human Kinetics and Recreation is available at [www.mun.ca/hkr](http://www.mun.ca/hkr).

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

## 3 Description of Programs

All courses of the School are designated by the abbreviation HKR.

### 3.1 General Degrees

The School of Human Kinetics and Recreation offers six general degrees in three program areas. For specific details on each degree refer to the appropriate **Program Regulations - General and Honours Degrees**.

#### 3.1.1 Kinesiology Degrees

Kinesiology degrees are designed to prepare graduates for careers in ergonomics, fitness, health and wellness, and lifestyle professions. The kinesiology degree programs consist of School courses in addition to a flexible choice of electives. The two kinesiology degrees are:

- **Bachelor of Kinesiology (Co-operative)**: is comprised of 120 credit hours and three work terms and is taken on a full-time basis.
- **Bachelor of Kinesiology**: is comprised of 120 credit hours and can be taken on a full-time or part-time basis.

#### 3.1.2 Physical Education Degrees

Physical Education degrees are designed to prepare graduates for careers in teaching and related areas. There are two physical education degrees with teaching and general options available within each degree.

The teaching option contains courses in the fundamentals of physical education as well as courses in curriculum planning, teaching methods, and pedagogy relevant to physical education curricula for various grade levels. Within the teaching option students will be placed in an educational setting for some of the course work. Following completion of a physical education degree - teaching option, a student wishing to teach in a school setting normally completes an intermediate/secondary degree program offered by the Faculty of Education. For information regarding admission requirements to the intermediate/secondary programs refer to the **Faculty of Education** section of this Calendar.

The general option is designed to provide basic professional preparation. The general option of the program consists of courses common to the teaching option plus a flexible choice of electives, without the requirement for curriculum and methods courses.

The two physical education degrees are:

- **Bachelor of Physical Education (Co-operative)**: is comprised of 120 credit hours and three work terms and is taken on a full-time basis. This program is offered in the teaching and general options.
- **Bachelor of Physical Education**: is comprised of 120 credit hours and can be taken on a full-time or part-time basis. This program is offered in the teaching and general options.

#### 3.1.3 Recreation Degrees

Recreation degrees are designed to provide students with the opportunity to develop professional competencies in recreation and leisure service management. The students will also gain an understanding of the social, physical, psychological, cultural, economic, and political issues that influence recreation and leisure participation, delivery, and management. The two recreation degrees are:

- **Bachelor of Recreation (Co-operative):** is comprised of 120 credit hours and three work terms and is taken on a full-time basis.
- **Bachelor of Recreation:** is comprised of 120 credit hours and can be taken on a full-time or part-time basis.

### 3.2 Honours Degrees

Honours degrees signify superior academic achievement in kinesiology and physical education programs and superior academic achievement with specific course work in recreation programs. To graduate with honours, application must be made on the prescribed form which is available from the School or the Office of the Registrar. For further information on honours degrees see **Program Regulations - General and Honours Degrees**.

### 3.3 Work Terms in Co-operative Programs

Students registered for work terms are also governed by the *Co-operative Student Handbook*. Prior to registering for the first work term, students must successfully complete the course Professional Development Seminars.

#### 3.3.1 General Information

- During work terms students are brought into direct contact with the kinesiology, physical education, and recreation professions, exposed to the work place setting, expected to assume ever-increasing responsibility in employment situations as their education advances, and introduced to experiences beyond the scope of those which could be provided in the classroom.
- Students are responsible for finding suitable work placements. The Co-operative Education Office of the School provides resources to assist in this process.
- In addition to a work term, students may register for up to 6 credit hours, although they are advised to consult the School's Academic Student Advisor.
- Students are not permitted to drop work terms without prior approval of the Committee on Undergraduate Studies and with the recommendation of the Co-operative Education Office of the School. Students who drop a work term without permission, or who fail to honour an agreement to work with an employer, will be assigned a grade of FAL (fail) for that work term.
- Students who conduct themselves in such a manner as to cause their termination from the job, will be assigned a grade of FAL (fail) for that work term.
- Students are expected to maintain professional ethics, including confidentiality.

#### 3.3.2 Work Term Reports

- A work term report, on a topic approved by the Co-operative Education Office of the School, must be submitted for each work term. The report must be approved by the employer and submitted by the student to the Co-operative Education Office of the School on or before the appropriate deadline in the University Diary.
- Late work term reports will not be evaluated unless prior permission for a late work term report has been granted by the Co-operative Education Office of the School.

#### 3.3.3 Evaluation of Work Terms

- Two components are considered in work term evaluation: on-the-job performance and the work term report. Each component is evaluated separately and equally. The overall evaluation of work terms will result in the assignment of one of the following letter grades: PWD (pass with distinction), PAS (pass) or FAL (fail).

## 4 Admission/Readmission Regulations for the School of Human Kinetics and Recreation

In addition to meeting the **UNIVERSITY REGULATIONS** students must meet the **Admission/Readmission Regulations for the School of Human Kinetics and Recreation**.

### 4.1 General Information

1. Entry to programs offered by the School is competitive for a limited number of placements. Meeting the minimum requirements for admission does not guarantee acceptance into the program. The final decision on admission rests with the Admissions Committee of the School.
2. Admission or readmission to the University does not necessarily constitute admission or readmission to any program.

### 4.2 Application Forms and Deadlines

1. All programs of the School commence in the Fall semester. The deadline for application for admission is March 1.
2. The deadline for application for readmission, for students who were previously admitted to a School program, is June 1 for the Fall semester, October 1 for Winter, and February 1 for Spring.
3. Application forms are available in person from the School's General Office and the Office of the Registrar or through the School's website at [www.mun.ca/hkr](http://www.mun.ca/hkr). Applications forms may also be obtained by writing the School of Human Kinetics and Recreation, Memorial University of Newfoundland, St. John's, NL, A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7.
4. Applicants applying to more than one program must submit separate application forms and supporting documentation for each program.
5. All applications for admission or readmission must be submitted to the Office of the Registrar. A complete application includes an application to the University (for those who have not attended Memorial University of Newfoundland in the two preceding semesters), an application to the School, an autobiographical statement, and any other required supporting documentation. Application fees must be paid when the application forms are submitted.
6. In addition to these requirements, students applying to the physical education programs must:
  - submit a current first aid certificate, and
  - complete the School's swim test. Students applying from outside St. John's should call the School's General Office at (709) 737-8130 to contact the swim test co-ordinators to arrange for testing. In lieu of the School swim test, a level 8 Red Cross or other

credential satisfactory to the School may be accepted. Students unable to complete the swim test requirement before beginning their program must successfully complete this requirement by the end of October of their first semester of admission to the program. Failure to do so will result in the student being required to withdraw from the program at the end of their first semester.

### 4.3 Admission Requirements to School Programs

Applicants may apply for admission to School programs under the **Categories Of Applicants, Admission Criteria and Other Information** outlined under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**. In addition to meeting these regulations, applicants in the following categories, other than those applying for admission to the Bachelor of Recreation degree program, must meet the additional requirements as indicated below.

#### 4.3.1 High School Applicants

- High school applicants to the kinesiology degree programs must have completed:
  - Level III Laboratory Science with a grade of at least 70%, and either
  - Level III Advanced Mathematics, or Level III Academic Mathematics with a grade of at least 70%, or Level III Academic Mathematics and a score on the Mathematics Placement Test acceptable to the Department of Mathematics and Statistics. For further information on the Mathematics Placement Test contact the Department of Mathematics and Statistics.
- Applicants to the Bachelor of Recreation degree program cannot apply under this category and must apply under **Memorial University of Newfoundland Applicants** or **Transfer Applicants**.

#### 4.3.2 Memorial University of Newfoundland Applicants

- To be eligible for consideration for admission to all programs, other than the Bachelor of Recreation degree program, students who are attending or have previously attended this University must have a cumulative average of 60% or an average of 65% on their last 30 credit hours.
- To be eligible for consideration for admission to the Bachelor of Recreation degree program, students are required to complete a minimum of 15 credit hours in the courses indicated in **Table 8 Bachelor of Recreation - Course and Credit Hour Requirements**. Applicants must have achieved an overall average of at least 60% in the courses comprising the required 15 credit hours.
- Overall academic performance is an important criterion in reaching decisions on applications for admission, and will be considered, in addition to the average on the five courses required for admission, in the selection process.
- Applicants to the Bachelor Recreation degree program must have at least five years of relevant work experience, or equivalent, that is deemed acceptable by the Admissions Committee of the School of Human Kinetics & Recreation.
- Students who are attending or have previously attended this University are not required to submit a copy of their transcript with their application(s).

#### 4.3.3 Transfer Applicants

- Applicants seeking admission through transfer from accredited post-secondary institutions must have achieved a minimum overall average of 60% to be considered for admission.
- A student's placement within a program, and requirements needed to complete the program, will be determined on an individual basis at the time of admission. No applicant will be granted placement beyond Academic Term 4.
- Transfer applicants must request that an official transcript showing any completed courses and current registrations be forwarded to the Office of the Registrar. Final transcripts must be submitted upon receipt of final grades.

### 4.4 Other Information

1. The School will notify applicants in writing regarding an admission decision to a School program.
2. Students admitted to a program at any level beyond Academic Term 1, without successfully completing all courses required up to that level, must successfully complete those courses prior to the end of their last academic term. Successful completion shall mean a minimum grade of 50% in every non-HKR course and a minimum grade of 60% in every HKR course.
3. Students who have been admitted to one program offered by the School and who wish to change to another program within the School must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the March 1 deadline date and will be considered in competition with all other applications.
4. Students admitted full time to a program and who decline the offer of admission or who fail to register for courses during the Fall term of admission will be considered withdrawn from the program. Such students, if they subsequently wish to be considered for admission, must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the March 1 deadline date and will be considered in competition with other applications.
5. Students admitted part time to a program and who decline the offer of admission or who fail to register for courses and to successfully complete at least 6 credit hours applicable to the degree during each academic year will be considered withdrawn from the program. Such students, if they subsequently wish to be considered for admission, must submit a new application for admission to the program. This application must be submitted to the Office of the Registrar by the March 1 deadline date and will be considered in competition with other applications.
6. In the case where students have been required to withdraw from the Bachelor of Recreation (Co-operative) Programs, the Admissions Committee of the School may consider this circumstance as grounds to deny admission to applicants to the Bachelor of Recreation degree program.

## 5 Program Regulations - General and Honours Degrees

### 5.1 Bachelor of Kinesiology (Co-operative)

- The full-time 120 credit hour Bachelor of Kinesiology (Co-operative) requires 69 HKR credit hours, 51 non-HKR credit hours, and three work terms.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in **Table 1 Bachelor of Kinesiology (Co-operative)**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- Work terms shall be taken in the term and sequence as set out in **Table 1 Bachelor of Kinesiology (Co-operative)**.

**Table 1 Bachelor of Kinesiology (Co-operative)**

Term	Required Courses	Elective Courses
Fall Academic Term 1	Chemistry 1010 or Chemistry 1050 English 1080 or equivalent HKR 2000 Mathematics 1000 Psychology 1000	
Winter Academic Term 2	Chemistry 1011 or Chemistry 1051 English 1110 or equivalent HKR 2300 Psychology 1001 Physics 1020 or Physics 1050

Fall Academic Term 3	Biology 2040 Computer Science 2650 (recommended) or Computer Science 1700 HKR 1123 HKR 2310 Statistics 2550	6 credit hours from non-HKR courses other than those listed under <b>Required Courses</b>
Winter Academic Term 4	HKR 2320 HKR 2600 or Biochemistry 2600 HKR 3320 HKR 3340	3 credit hours from HKR courses at the 2000 level or above 3 credit hours from non-HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b>
Spring Work Term 1	HKR 299W	
Fall Academic Term 5	HKR 3300 HKR 3310 HKR 3410 HKR 4320	3 credit hours from HKR courses at the 2000 level or above 3 credit hours from non-HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b>
Winter Work Term 2	HKR 399W	
Spring Academic Term 6	HKR 2703 HKR 4310 HKR 4330 HKR 4420 HKR 4600	3 credit hours from: HKR 2002, 2004, 2100, 2585, 3002, 3330, 3350, 3360, 3535, 4545, 4555, 4565, 4585, 4700, 4701, or 4720
Fall Work Term 3	HKR 499W	
Winter Academic Term 7	HKR 4702 HKR 4703	3 credit hours from: HKR 2002, 2004, 2585, 2100, 3002, 3330, 3350, 3360, 3535, 4545, 4555, 4565, 4585, 4700, 4701, or 4720 3 credit hours from HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b> (Honours degree candidates must include HKR 4610 in their program in place of this elective) 6 credit hours from non-HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b>

## 5.2 Bachelor of Physical Education (Co-operative)

### 5.2.1 Teaching Option

- The full-time 120 credit hour Bachelor of Physical Education (Co-operative) - Teaching Option requires 69 HKR credit hours, 51 non-HKR credit hours, three work terms, and a first aid certificate and a CPR certificate both of which must be current at the time of graduation.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in **Table 2 Bachelor of Physical Education (Co-operative) - Teaching Option**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- The three work terms shall be taken in the term and sequence as set out in **Table 2 Bachelor of Physical Education (Co-operative) - Teaching Option**.
- Students following the teaching option, and who plan to complete one of the intermediate/secondary degree programs offered by the Faculty of Education at this University, must choose a minor of at least 24 credit hours from one of the academic disciplines listed in the intermediate/secondary degree regulations. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.

**Table 2 Bachelor of Physical Education (Co-operative) - Teaching Option**

Term	Required Courses	Elective Courses
Fall Academic Term 1	English 1080 or equivalent HKR 1123 HKR 2000 HKR 2100 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1000 or 1050 or 1051 or 1090	
Winter Academic Term 2	English 1110 or equivalent HKR 2300 3 additional credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1050 or 1051 or 1000 one of the pair of Mathematics 1050/1051 or 1090/1000 or 1000/3 credit hours in a non-HKR elective Psychology 1000	Students who complete only Mathematics 1000 must include an additional 3 credit hours from a non-HKR course in their program
Spring Work Term 1	HKR 299W	
Fall Academic Term 3	HKR 2210 HKR 2310 Psychology 1001	6 credit hours from minor subject
Winter Academic Term 4	HKR 2220 HKR 2320 HKR 3340 Statistics 2500 or equivalent	3 credit hours from minor subject
Spring Work Term 2	HKR 399W	
Fall Academic Term 5	HKR 3110 HKR 3210 or HKR 3220 HKR 3300 HKR 3310	
Winter Academic Term 6	HKR 2004 HKR 3320 HKR 4310	6 credit hours from minor subject
Spring Work Term 3	HKR 499W	
Fall Academic Term 7	HKR 3220 (if not previously completed) or HKR 4220 HKR 4320 HKR 4420 HKR 4600 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	3 credit hours from minor subject
Winter Academic Term 8	HKR 4210 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	6 credit hours from minor subject 6 credit hours from HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b> (Honours degree candidates must include HKR 4610 in their program in place of one of these electives)

### 5.2.2 General Option

- The full-time 120 credit hour Bachelor of Physical Education (Co-operative) - General Option requires 69 HKR credit hours, 51 non-HKR credit hours, three work terms, and a first aid certificate and a CPR certificate both of which must be current at the time of graduation.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in **Table 3 Bachelor of Physical Education (Co-operative) - General Option**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- The three work terms shall be taken in the term and sequence as set out in **Table 3 Bachelor of Physical Education (Co-operative) - General Option**.
- Students following the general option must choose a minor of at least 24 credit hours from the minor programs listed in the appropriate faculty or school regulations. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.

**Table 3 Bachelor of Physical Education (Co-operative) - General Option**

Term	Required Courses	Elective Courses
Fall Academic Term 1	English 1080 or equivalent HKR 1123 HKR 2000 HKR 2100 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1000 or 1050 or 1051 or 1090	
Winter Academic Term 2	English 1110 or equivalent HKR 2300 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1050 or 1051 or 1000 one of the pair of Mathematics 1050/1051 or 1090/1000 or 1000/3 credit hours in a non-HKR elective Psychology 1000	Students who complete only Mathematics 1000 must include an additional 3 credit hours from a non-HKR course in their program
Spring Work Term 1	HKR 299W	
Fall Academic Term 3	HKR 2210 HKR 2310 Psychology 1001	6 credit hours from minor subject
Winter Academic Term 4	HKR 2220 HKR 2320 HKR 3340 Statistics 2500 or equivalent	3 credit hours from minor subject
Spring Work Term 2	HKR 399W	
Fall Academic Term 5	HKR 3210 or HKR 3220 HKR 3300 HKR 3310	6 credit hours from minor subject
Winter Academic Term 6	HKR 2004 HKR 3320 HKR 4310	3 credit hours from minor subject 3 credit hours from HKR courses at the 2000 level or above
Spring Work Term 3	HKR 499W	
Fall Academic Term 7	HKR 3220 (if not previously completed) or HKR 4220 HKR 4320 HKR 4420 HKR 4600 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	3 credit hours from minor subject
Winter Academic Term 8	HKR 4210 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	3 credit hours from minor subject 9 credit hours from HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b> (Honours degree candidates must include HKR 4610 in their program in place of one of these electives)

### 5.3 Bachelor of Recreation (Co-operative)

- The full-time Bachelor of Recreation (Co-operative) requires 120 credit hours and three work terms.
- The 120 credit hours shall normally be taken in the academic terms in the sequence and course load as set out in **Table 4 Bachelor of Recreation (Co-operative)**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- The three work terms shall be taken in the sequence as set out in **Table 4 Bachelor of Recreation (Co-operative)**.
- Students must choose a minor of at least 24 credit hours from the minor programs listed in the appropriate faculty or school regulations. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.

**Table 4 Bachelor of Recreation (Co-operative)**

Term	Required Courses	Elective Courses
Fall Academic Term 1	Business 1000 English 1080 or equivalent Psychology 1000 3 credit hours chosen from Mathematics 1000 or 1050 or 1051 or 1090 Sociology 1000 (or equivalent)	
Winter Academic Term 2	the former Business 1201 English 1110 or equivalent Psychology 1001 3 credit hours chosen from Mathematics 1050 or 1051 or 1000 one of the pair of Mathematics 1050/1051 or 1090/1000 or 1000/3 credit hours in a non-HKR elective	Students who complete only Mathematics 1000 must include an additional 3 credit hours from non-HKR courses in their program. 3 credit hours from minor subject or non-HKR courses
Spring	Open	
Fall Academic Term 3	HKR 1123 HKR 2000 HKR 2310 HKR 2515 HKR 2585 HKR 3525	3 credit hours from minor subject
Winter Academic Term 4	HKR 2300 HKR 2320 HKR 2505 HKR 3340	6 credit hours from minor subject
Spring Work Term 1	HKR 299W

Winter Work Term 2	HKR 399W	
Spring Academic Term 6	HKR 2545 HKR 3555 HKR 3565 HKR 4555	3 credit hours from HKR courses 3 credit hours from minor subject
Fall Work Term 3	HKR 499W	
Winter Academic Term 7	HKR 4575 HKR 4585	6 credit hours from HKR courses (Honours degree candidates must include HKR 4610 in their program in place of one of these electives) 6 credit hours from minor subject or non-HKR courses

## 5.4 Bachelor of Kinesiology

- The full-time and part-time 120 credit hour Bachelor of Kinesiology requires 69 HKR credit hours and 51 non-HKR credit hours.
- Students admitted full time shall normally complete the 120 credit hours in the academic terms in the sequence and course load as set out in **Table 5 Bachelor of Kinesiology**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- Students admitted part time should consult with the School's Academic Student Advisor regarding course sequence.

**Table 5 Bachelor of Kinesiology**

Term	Required Courses	Elective Courses
Fall Academic Term 1	Chemistry 1010 or Chemistry 1050 English 1080 or equivalent HKR 2000 Mathematics 1000 Psychology 1000	
Winter Academic Term 2	Chemistry 1011 or Chemistry 1051 English 1110 or equivalent HKR 2300 Psychology 1001 Physics 1020 or Physics 1050	
Spring	Open

## 5.5 Bachelor of Physical Education

### 5.5.1 Teaching Option

- The full-time and part-time 120 credit hour Bachelor of Physical Education - Teaching Option requires 69 HKR credit hours, 51 non-HKR credit hours, and a first aid certificate and a CPR certificate both of which must be current at the time of graduation
- Students admitted full time shall normally complete the 120 credit hours in the academic terms in the sequence and courses load as set out in **Table 6 Bachelor of Physical Education - Teaching Option**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- Students admitted part time should consult with the School's Academic Student Advisor regarding course sequence.
- Students following the teaching option, and who plan to complete one of the intermediate/secondary degree programs offered by the Faculty of Education at this University, must choose a minor of at least 24 credit hours from one of the academic disciplines listed in the intermediate/secondary degree regulations. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.

**Table 6 Bachelor of Physical Education - Teaching Option**

Term	Required Courses	Elective Courses
Fall Academic Term 1	English 1080 or equivalent 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1000 or 1050 or 1051 or 1090 HKR 2000 HKR 2100	
Winter Academic Term 2	English 1110 or equivalent HKR 2300 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1050 or 1051 or 1000 one of the pair of Mathematics 1050/1051 or 1090/1000 or 1000/3 credit hours in a non-HKR elective Psychology 1000	Students who complete only Mathematics 1000 must include an additional 3 credit hours from a non-HKR course in their program
Fall Academic Term 3	HKR 2210 HKR 2310 Psychology 1001	6 credit hours from minor subject
Winter Academic Term 4	HKR 2220 HKR 2320 HKR 3340 Statistics 2500 or equivalent	3 credit hours from minor subject
Fall Academic Term 5	HKR 3110 HKR 3210 or HKR 3220 HKR 3300 HKR 3310	
Winter Academic Term 6	HKR 2004 HKR 3320 HKR 4310	6 credit hours from minor subject
Fall Academic Term 7	HKR 3220 (if not previously completed) or HKR 4220 HKR 4320 HKR 4420 HKR 4600 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	3 credit hours from minor subject
Winter Academic Term 8	HKR 4210 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	6 credit hours from minor subject 6 credit hours from HKR courses at the 2000 level or above other those listed under <b>Required Courses</b> (Honours degree candidates must include HKR 4610 in their program in place of one of these electives)

### 5.5.2 General Option

- The full-time and part-time 120 credit hour Bachelor of Physical Education - General Option requires 69 HKR credit hours, 51 non-HKR credit hours, and a first aid certificate and a CPR certificate both of which must be current at the time of graduation.
- Students admitted full time shall normally complete the 120 credit hours in the academic terms in the sequence and course load as set out in **Table 7 Bachelor of Physical Education - General Option**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must first consult with the School's Academic Student Advisor.
- Students admitted part time should consult with the School's Academic Student Advisor regarding course sequence.
- Students following the general option must choose a minor of at least 24 credit hours from the minor programs listed in the appropriate faculty or school regulations. In completing the minor, students must follow the minor program regulations listed under the appropriate faculty or school.

**Table 7 Bachelor of Physical Education - General Option**

Term	Required Courses	Elective Courses
Fall Academic Term 1	English 1080 or equivalent HKR 2000 HKR 2100 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours chosen from Mathematics 1000 or 1050 or 1051 or 1090	
Winter Academic Term 2	English 1110 or equivalent HKR 2300 3 credit hours in a laboratory science (either Biology, Chemistry, or Physics is recommended) 3 credit hours in Mathematics chosen from Mathematics 1050 or 1051 or 1000 one the pair of Mathematics 1050/1051 or 1090/1000 or 1000/3 credit hours in a non-HKR elective Psychology 1000	
Fall Academic Term 3	HKR 2210 HKR 2310 Psychology 1001	6 credit hours from minor subject
Winter Academic Term 4	HKR 2220 HKR 2320 HKR 3340 Statistics 2500 or equivalent	3 credit hours from minor subject
Fall Academic Term 5	HKR 3210 or HKR 3220 HKR 3300 HKR 3310	6 credit hours from minor subject
Winter Academic Term 6	HKR 2004 HKR 3320 HKR 4310	3 credit hours from minor subject 3 credit hours from HKR courses at the 2000 level or above
Fall Academic Term 7	HKR 3220 (if not previously completed) or HKR 4220 HKR 4320 HKR 4420 HKR 4600 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	3 credit hours from minor subject
Winter Academic Term 8	HKR 4210 First aid and CPR certification, both of which must be current at time of graduation, must be submitted to the School's Academic Student Advisor.	3 credit hours from minor subject 9 credit hours from HKR courses at the 2000 level or above other than those listed under <b>Required Courses</b> (Honours degree candidates must include HKR 4610 in their program in place of one of these electives)

## 5.6 Bachelor of Recreation

- The full-time and part-time Bachelor of Recreation is comprised of 120 credit hours as set out in **Table 8 Bachelor of Recreation - Course and Credit Hour Requirements**.
- Students admitted part-time should consult with the School's Academic Student Advisor regarding course sequence.

**Table 8 Bachelor of Recreation - Course and Credit Hour Requirements**

<p><b>Courses Required for Application</b>          English 1080          English 1110 or equivalent          Mathematics 1050 and 1051, or Mathematics 1090 and 1000          Three credit hours from non-HKR courses</p>	<p><b>Required Courses</b>          HKR 2000, 2300, 2310, 2320, 2505, 2515, 2545, 2585, 3340, 3525, 3535, 3555, 3565, 3575, 4555, 4575, 4585, 4600          Psychology 1000          Psychology 1001          Sociology 1000 (or equivalent)          Business 1000          the former Business 1201          Statistics 2500          A minor of at least 24 credit hours from the minor programs listed in the appropriate faculty or school regulations, in accordance with the minor program regulations listed under the appropriate faculty or school.</p>
	<p><b>Electives</b>          12 credit hours in HKR courses other than those listed under <b>Required Courses</b> (Honours degree candidates must include HKR 4610 in their program in place of one of these electives) Students who complete only Mathematics 1000 must include an additional 3 credit hours from non-HKR courses in their program. As needed, students must complete additional non-HKR courses to satisfy the 120 credit-hour requirement for the degree</p>

## 5.7 Honours Degrees

1. An honours degree signifies superior academic achievement.
2. An application for admission to any of the honours degrees is not required. Rather, students indicate on the prescribed application for graduation form that they wish to be considered for an honours degree.
3. To receive an honours degree, a candidate shall:
  - meet the requirements of the general degree;
  - successfully complete HKR 4600 and HKR 4610 with a minimum grade of 75% in each course
  - obtain an overall average of 75% or better on all HKR courses for the degree; and
  - obtain an overall average of 70% on the 120 credit hours required for the degree.
4. A candidate for the honours degree who does not fulfill these conditions but fulfills the requirements for the general degree shall be awarded the general degree.
5. Candidates are not permitted to repeat or substitute courses or work terms for the purpose of meeting the academic requirements for honours degrees.
6. A candidate who, for academic reasons, has been required to withdraw from a program offered by the School will not be eligible for the honours degree.

## 6 Promotion Regulations

### 6.1 General Information

- In addition to meeting the promotion regulations for the School of Human Kinetics and Recreation all students must meet the general academic regulations (undergraduate). For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.
- Success in the programs depends on meeting the requirements of both academic terms and work terms.
- To be promoted a student must, in addition to obtaining the requisite grades and average, complete and deliver all work term reports as required.

### 6.2 Promotion Status

- A student's promotion status at the end of each term will be in one of the following four categories:

#### 6.2.1 Clear Promotion

Clear Promotion means a student can proceed to the next term without restrictions.

- Students completing an academic term will receive a Clear Promotion by obtaining an overall average of at least 60%, with a numeric grade of at least 60% in each HKR course, and a numeric grade of at least 50% in each non-HKR course.
- Students completing a work term will receive a Clear Promotion by obtaining a PAS (pass) or a PWD (pass with distinction) in the work term.
- Students completing courses in addition to a work term must obtain a PAS (pass) or a PWD (pass with distinction) in the work term and an overall average of at least 60%, with a numeric grade of at least 60% in each HKR course, and at least 50% in each non-HKR course

#### 6.2.2 Probationary Promotion

Probationary Promotion designates less than a Clear Promotion but requires an overall average of at least 60%, with a numeric grade of at least 50% in each course, and not more than one HKR course with a numeric grade below 60%.

- A student with Probationary Promotion at the end of Academic Term 1 may be permitted to enter Academic Term 2 but must have Clear Promotion by the end of Academic Term 2.
- A student with Probationary Promotion from any academic term may continue to the subsequent work term under the condition that entry into the next academic term is not allowed until the student's status is changed to Clear Promotion.
- A student with Probationary Promotion at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.
- To change Probationary Promotion to Clear Promotion the student must satisfy the School that he or she is competent in the subject of the HKR course in which the student has failed to achieve 60%. This will normally entail re-examination, after which the student will be declared to have passed or failed a test of competency in the subject concerned. No numerical grade will be assigned in the re-examination, and the original grade submitted for the course will not be changed.
- Re-examination may be written, oral, practical or a combination of formats and will be at a time determined by the School.
- Only one re-examination is permitted per course. Failure to submit to the re-examination or failure in the re-examination will result in denial of promotion. If the student is subsequently readmitted to the School, he or she must repeat or replace the course in which re-examination was unsuccessful.
- A maximum of two re-examinations is permitted in a student's degree program. If a student is awarded a grade of less than 60% in a third HKR course, the student will be required to repeat or replace the course.
- It is the responsibility of the student to arrange for re-examination before the end of the first week of the student's next academic term. If re-examination is not arranged in accordance with this time frame, the student will be required to repeat or replace the course.
- The School may recommend that the student complete remedial studies before re-examination.

### 6.2.3 Probationary (A) Promotion

Probationary (A) Promotion designates failure to successfully complete the required components of HKR 2210, 2220, 3210, 3220, 4210 and 4220 in a given term.

- Probationary (A) Promotion will be given upon the recommendation of the course instructor/Co-ordinator and/or the Committee on Undergraduate Studies and only for extreme circumstances, duly authenticated.
- A student with Probationary (A) Promotion in any term will be permitted to enter subsequent terms and will receive a letter grade of INC (incomplete) in the course. A final numeric grade will not be received until the required components of each course have been successfully completed. Academic Council will grant this status, taking into account the specific factors involved in each case. This status is not automatic, as failure to successfully complete all required components of each course would normally result in a failing grade.
- To change Probationary (A) Promotion to Clear Promotion, a student must successfully complete the activity course(s), with a minimum grade of 60%, within one academic year of the date on which the original grade(s) of Incomplete was (were) recorded.
- A student with Probationary (A) Promotion at the end of the final academic term will not be recommended for graduation until the student has successfully completed all required components of all courses, and the student's status is changed to Clear Promotion.

### 6.2.4 Promotion Denied

Promotion Denied indicates Clear Promotion is not achieved each term or following probation.

- A student with Promotion Denied status will be required to withdraw from the School. Students with Promotion Denied status may apply for readmission to the program after two semesters. A student will normally be readmitted into the term from which promotion was denied.
- A student who is denied promotion for failing a work term may be considered for readmission after the lapse of two semesters, at which time the student will be required to complete a further work term with satisfactory performance before being admitted to any further academic term in the School. A work term may be repeated only once, and not more than two work terms may be repeated in the entire program.
- A student who has been denied promotion as a result of having failed a work term and who, in the opinion of the School, can benefit from a remedial program, may be permitted an extension of time not to exceed the end of the registration period of the subsequent semester to complete the requirements of the work term.
- A student who is denied promotion as a result of grades received in HKR and non-HKR courses will be required to repeat all HKR courses in which they obtained a numeric grade of less than 60% in that term. A non-HKR course may be replaced by a course acceptable in the student's program.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

## 6.3 Other Information

- The Committee on Undergraduate Studies will determine each student's promotion status at the end of each term and will make its recommendations to Academic Council.
- Academic Council may promote a student notwithstanding the promotion regulations given above. A decision of this nature will be made only for reasons acceptable to Academic Council and in the case of a student thought likely to succeed in future terms.
- A student shall be permitted only one readmission to the School.
- Students may be required to withdraw from their program at any time, if, in the opinion of the School, they are unlikely to benefit from continued attendance.

## 7 Waiver of School Regulations

Every student has the right to request waiver of School regulations. Students wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

### 7.1 General Information

- The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.

- All requests, other than requests for waiver of a prerequisite or co-requisite of a School course, must be submitted to the Committee on Undergraduate Studies of the School for consideration. Waiver of a School course prerequisite or co-requisite may be granted by the course instructor.
- Students requesting a waiver of a School regulation, other than requests for waiver of a prerequisite or co-requisite of a School course, must submit their request in writing to the Chair of the Committee on Undergraduate Studies on the prescribed form which is available from the School's general office. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.
- In addition, regardless of any waiver granted, students enrolled in a co-operative program must successfully complete a minimum of two work terms.

## 8 Appeal of Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

## 9 HKR Courses Available to Students Not Enrolled in a Program Offered By the School

### 9.1 Regulations for Students Not in a Program Offered By the School

- Students not in a program offered by the School may register for a maximum of 15 credit hours only from the following list if space is available.
- Students who have been required to withdraw from a program offered by the School may not register for any HKR course.
- Students not in a School program will be required to drop any HKR course(s) in excess of 15 credit hours and may be subject to academic and financial penalties.

### 9.2 HKR Courses

1000 Fitness and Wellness  
 1001 Resistance Training for Health and Activity  
 2000 Introduction to Kinesiology, Physical Education and Recreation  
 2002 Coaching  
 2300 Growth and Development  
 2310 Human Anatomy  
 2311 Anatomy and Physiology for non-HKR Students  
 2320 Primary Human Physiology  
 2515 Social Psychology of Leisure  
 2585 Recreation and Persons with Disabilities  
 2600 Introduction to Human Nutrition  
 2601 Physical Activity, Obesity, and Weight Control  
 3360 Care and Prevention of Athletic Injuries  
 3400 Social Determinants of Health and Physical Activity  
 3410 Sociology of Sport  
 3490 Women in Sport and Physical Activity  
 3535 Legal Aspects of Leisure and Recreation Services  
 3595 Women and Leisure  
 4330 Social Psychology of Sport, Physical Activity and Recreation

## 10 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Director of the School.

All courses of the School are designated by HKR. The abbreviations KIN, PHSD, and RECR indicate former Kinesiology, Physical Education, and Recreation courses.

**1000 Fitness and Wellness** (formerly PHSD 1000) is an introduction to the concepts of fitness and wellness, and the relationships among physical activity, fitness, wellness, quality of life, and longevity.

CR: the former PHSD 1000

UL: not applicable towards any of the degrees offered by the School

**1001 Resistance Training for Health and Activity** (formerly KIN and PHSD 1001) is an introduction to resistance training exercises, programs, and principles. This will necessitate both theoretical classes and practical laboratories that will involve testing and participation in resistance training activities. A portion of the assessment will also be based on regular attendance (at student convenience) for another hour of resistance training per week certified by the attending fitness consultant.

CR: the former KIN and PHSD 1001; HKR 4320; the former KIN and PHSD 4320

LH: 2

UL: not applicable towards any of the kinesiology or physical education degrees offered by the School

**1123 Professional Development Seminars** are offered during the Fall semester prior to a student's first work term. These seminars introduce the co-operative education process and prepare the student for work terms. These seminars are graded PAS or FAL based on attendance and participation.

AR: attendance is required

CH: 0

LC: as scheduled

**2000 Introduction to Kinesiology, Physical Education and Recreation** (formerly KIN, PHSD, and RECR 2000) introduces the philosophical, scientific, socio-cultural, historical concepts, and influences in kinesiology, physical education, and recreation.

CR: the former KIN, PHSD, and RECR 2000; HKR 2001

**2001 Introduction to Physical Education for Education Students** provides students a general overview of the role that physical education and active living play in the overall development of primary and elementary students, and in the creation of positive learning environment in schools. This course is intended for students in the primary/elementary program offered by the Faculty of Education.

CR: HKR 2000, the former KIN, PHSD, and RECR 2000

PR: admission to the Bachelor of Education (Primary/Elementary) offered by the Faculty of Education

UL: not applicable towards any of the degrees offered by the School

**2002 Coaching** (formerly KIN and PHSD 2002) introduces the various

methods, principles, and theories used to coach developing athletes in various sport settings. Factors such as the coach's role, planning, analysing and developing skills, sport safety, and physical preparation will be presented with an emphasis on attaining competency in these areas.

CR: the former KIN and PHSD 2002; the former PHSD 421A/B

**2004 Enhancing Performance in Physical Activity** (formerly PHSD 2004) gives an overview of the various models, principles, and theories used to explain and predict ways in which athletes and exercisers conduct themselves in various sport settings. Selected intervention techniques to enhance performance will be presented.

CR: the former PHSD 2004

**2005 Personal Stress Management** is designed to provide students with an introduction to stress and to explore the relationship between exercise, fitness and physical activity and stress management. It describes how to reorganize one's life by presenting a systematic analysis of stress and coping mechanisms appropriate to different stages of life. The stress coping mechanisms will be presented with an emphasis on application. Completion of this course does not qualify students as stress management counsellors. Students interested in this field are advised to contact the Department of Psychology for information on careers in counselling.

CO: Psychology 1000 and 1001

PR: Psychology 1000 and 1001

**2100 Introduction to Organization and Administration** (formerly PHSD and RECR 2100) introduces the basic administrative functions in a work setting in physical education and/or recreation. The laboratory sessions will assist students to develop skill in the basic computer applications relevant to these functions.

CR: the former PHSD and RECR 2100

LH: 2

**2210 Physical Activities Course: Movement Concepts** (formerly PHSD 2210) employs the conceptual approach to teaching physical activity and facilitated through various forms of dance (e.g., creative, folk). Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0

CR: the former PHSD 2210

LC: as scheduled

LH: as scheduled

**2220 Physical Activities Course: Gymnastics and Aquatics** (formerly PHSD 2220) may employ a number of teaching methods. Emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0

CR: the former PHSD 2220

LC: as scheduled

LH: as scheduled

PR: HKR 2210

**2300 Growth and Development** (formerly PHSD 2120, and KIN and PHSD 2300) is an introductory study of human growth and developmental factors and their influence on the learning of motor skills.

CR: the former PHSD 2120; KIN and PHSD 2300

**2310 Human Anatomy** (formerly KIN and PHSD 2310) is a study of the structure of the human body with emphasis on selected systems (endocrine, neural, muscular, skeletal, cardiovascular, respiratory).

CR: the former KIN and PHSD 2310

LH: 2

**2311 Introduction to Anatomy and Physiology for non-HKR Students** is designed to provide students with general overview of the anatomy and physiology of the human body. Students will explore skeletal, muscular, neural and cardiorespiratory systems in addition to a very brief introduction to cell structure and 'cellular' muscle function.

CR: HKR 2310, HKR 2320

UL: not applicable towards any of the degrees offered by the School

**2320 Primary Human Physiology** (formerly KIN and PHSD 2320) is a study of bodily functions with emphasis of selected systems (endocrine, neural, muscular, cardiovascular, respiratory).

CR: the former KIN and PHSD 2320

LH: 2

**2410 Historical and Comparative Physical Education** - inactive course.

**2420 Doping in Sport** - inactive course.

**2505 Recreation Programming and Evaluation** (formerly RECR 2505) introduces the student to a variety of methodologies, skills, and materials for planning, developing, implementing, and evaluating professional recreation programs for diverse populations in a variety of settings.

CR: the former RECR 2505

**2515 Social Psychology of Leisure** (formerly RECR 2515) introduces the personality and social factors that shape how people experience leisure. Course materials will focus on life cycle theory, intrinsic and extrinsic motivation, perceived freedom, constraints theory, and other social psychological theory related to leisure.

CR: the former RECR 2515

**2545 Introduction to Outdoor Recreation and Education** (formerly RECR 2545) gives an overview of the foundational principles of outdoor education and recreation as they pertain to philosophy, wilderness ethics, professional preparation, movement through wildlands, environmental hazards, navigation, and safety. Students will participate in a sampling of outdoor education and recreation activities during the course.

CR: the former RECR 2545

PR: HKR 2505

**2585 Foundations of Therapeutic Recreation** is designed to examine a variety of aspects of therapeutic recreation from both a practical and theoretical perspective. Topics will include the history, philosophies, and theories underlying therapeutic recreation, therapeutic recreation models, essential skills for the therapeutic recreationist and ethical considerations for therapeutic recreation. Diverse groups (e.g. adults, youth, disadvantaged and disabled) and settings (e.g. community, schools, institutions, and workplace) suitable for therapeutic recreation will be discussed.

**2600 Introduction to Human Nutrition** (formerly KIN 2600; same as Biochemistry 2600) gives an overview of human nutrition with an emphasis on topics of current interest. Students will gain an understanding of nutrition in the context of health maintenance across the life span. Topics covered will include nutrition during pregnancy, nutrition for infants, Canadian Recommended Nutrient Intake/Dietary Reference Intake, weight loss and weight gain, nutraceuticals, and ergogenic aids.

CR: the former KIN 2600; Biochemistry 2600

**2601 Physical Activity, Obesity, and Weight Control** explores the relationship between physical activity, obesity, and morbidity. Emphasis will be placed on the incidence and prevalence of obesity, environmental and genetic factors affecting obesity, and mechanisms of weight and body composition modification.

**2703 Introduction to Human Factors** (formerly KIN 2703) is an introduction to the field of human factors, the field that studies aspects of human movement, health, safety, and performance in the workplace. This will include an introduction to the methods of detection, evaluation, and the physiological changes arising from hazards (e.g. inappropriate levels of noise, vibration, and illumination) in the workplace. The course will also examine overuse injuries in workplace studied in the context of basic biomechanics and function of the musculo-skeletal system.

CO: HKR 2320 and Physics 1020

CR: the former KIN 2703

PR: HKR 2310, Chemistry 1010 and 1011 or Chemistry 1050 and 1051

**299W Work Term 1** (formerly KIN, PHSD, and RECR 001W) offers an opportunity for students to learn, develop, and practice high standards of professional behaviour and performance in the work environment. A student is required to submit a personal job diary and a work term report which should, at a minimum, reflect a clear understanding of job events and work place expectations and show reasonable competence in written communication skills.

CH: 0

CR: the former KIN, PHSD, and RECR 001W

LC: 0

PR: HKR 1123

**3002 Advanced Coaching** - inactive course.

**3110 Curriculum Development and Teaching Methods** (formerly PHSD 2110, 3110, and 311A/B) gives an overview, through a blend of theory and practical experience, of curriculum development and teaching methods as they apply to primary/elementary level physical education

CH: 6

CO: HKR 3300

CR: the former PHSD 2110, 3110, 311A/B

LH: 9

PR: HKR 2000, 2210, 2300, 2310, 2320 and 3340

**3210 Physical Activities Course: Court Games** (formerly PHSD 3210) covers volleyball, tennis, badminton, plus a selection of other court games. Individual activities include track and field, wrestling, and other combative activities. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0

CR: the former PHSD 3210

LC: as scheduled

LH: as scheduled

PR: HKR 2210

**3220 Physical Activities Course: Target and Field Games** (formerly PHSD 3220) covers golf, archery, softball. Outdoor activities, including canoeing, navigational skills, lightweight camping, over-night canoe trip, and introduction to rock climbing, are offered only in the Fall. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0

CR: the former PHSD 3220

LC: as scheduled

LH: as scheduled

PR: HKR 2210

**3221 Wilderness First Aid for Outdoor Leaders** provides a minimum standard for outdoor professionals, guides and instructors who work in a wilderness setting. Course content extends beyond urban-based first aid programs to include elements inherent in leading groups in the outdoors and guiding wilderness adventures. Special emphasis is placed on prevention of injuries, accident scene management, leadership, leader responsibility and liability, advanced first aid kits, wound management and managing the trauma victim. CPR is included in this course.

**3300 Motor Learning** (formerly PHSD 2120, and KIN and PHSD 3300) gives an overview of motor learning and performance variables and their application to the teaching of physical skills, and will investigate motor control issues related to skill instruction.

CR: the former PHSD 2120; KIN and PHSD 3300

LH: 2

PR: HKR 2300

**3310 Physiology of Exercise** (formerly KIN and PHSD 3310) covers the physiological responses of the metabolic, neuromuscular, and cardiorespiratory systems at rest and during acute and chronic activity.

CR: the former KIN and PHSD 3310

LH: 3

PR: HKR 2310 and 2320; or Biochemistry 311A and 311B; or Nursing 1002 and 1012; or the former Pharmacy 3201 and 3202

**3320 Introduction to Biomechanics** (formerly KIN and PHSD 3320) is the analysis of human movement; the mechanics of motion and the general application of kinesiology.

CO: HKR 2320

CR: the former KIN and PHSD 3320

LH: 2

PR: HKR 2310 It is strongly recommended that students successfully complete Physics 1020 prior to enrolling in this course

**3330 Health Issues I** (formerly KIN and PHSD 3330) covers issues in personal and community health related to infectious illness, degenerative illness, heredity, and nutrition.

CR: the former KIN and PHSD 3330

**3340 Adapted Physical Activity** (formerly KIN, PHSD, and RECR 3340) presents an overview of current practices, philosophies, and issues related to physical activity and recreation for persons with disabilities. Knowledge and understanding of various disabling conditions and consequent needs of persons with disabilities, including health, safety and fitness, and how these needs may be met in terms of physical activity will be emphasized.

CR: the former KIN, PHSD, and RECR 3340

**3350 Health Issues II** - inactive course.

**3360 Care and Prevention of Athletic Injuries** (formerly KIN and PHSD 3360) is a basic introduction to the field of athletic therapy and sports medicine. The content focuses on the prevention and care of sports injuries and covers topics such as preventive screening, safe environments, on the spot assessment and First Aid, legal responsibility, and supportive taping/wrapping.

CR: the former KIN and PHSD 3360

PR: HKR 2310 and a Basic First Aid Course

**3400 Social Determinants of Health and Physical Activity** provides students with a social, political, economic, environmental, and cultural perspective on health and health inequalities. A concentrated look at contemporary health issues using the social determinants of health model will equip students with critical skills necessary to consider health issues beyond physical pathologies.

**3410 Sociology of Sport** (formerly KIN and PHSD 3410; same as Sociology 3410) is an analysis of functions of sport in Canadian and North American society. Areas include social organization of sport, sport and social processes, sport and social problems, socialization and stratification of sport, and violence in sport.

CR: the former KIN and PHSD 3410; Sociology 3410

**3485 Therapeutic Recreation Service Delivery** focuses on issues related to the delivery of therapeutic recreation services. In particular, the following topics will be addressed: documentation in therapeutic recreation; client

assessment issues; therapeutic recreation program planning (identifying client needs, selecting appropriate interventions, task and activity analysis, planning change-oriented programs, writing behavioural objectives, etc.); program and client evaluation; written plans of operation.

PR: HKR 2585 and HKR 2505

**3490 Women in Sport and Physical Activity** (formerly PHSD 3490, and PHSD and RECR 3590) provides students with an opportunity to critically examine, understand and appreciate women's involvement in and contributions to the areas of sport and physical activity. The student will be expected to analyse, synthesize, and evaluate a wide range of historical, cultural, philosophical, and socio-psychological issues that have shaped the nature and scope of women's participation in sport and physical activity.

CR: the former PHSD 3490; PHSD and RECR 3590

**3505 Adventure Programming** (formerly RECR 3505) introduces the theory and practice of adventure programming. Topics covered in the course will include briefing, activity selection, sequencing, group development, and risk management. The use of adventure programming with a variety of populations will be explored. Skill development in adventure activity facilitation and processing is stressed throughout the course.

CR: the former RECR 3505

PR: HKR 2505 or permission of the instructor

**3515 Outdoor Recreation and Persons with Disabilities** - inactive course.

**3525 Canadian Recreation Delivery Systems** (formerly PHSD 3520, RECR 3525, and PHSD 4520) introduces recreation and sport delivery systems in Newfoundland and Canada. The course will examine the various agencies that administer recreation and sport at municipal, provincial, and national levels.

CR: the former PHSD 3520; RECR 3525, PHSD 4520

PR: HKR 2000

**3535 Legal Aspects of Leisure and Recreation Services** (formerly RECR 3535) provides students with an opportunity for in-depth study of legal issues related to the operation of leisure services and facilities. Issues of tort and contract liability, employment related legal aspects, human rights and freedoms, and administrative procedures involved in property acquisition, law enforcement, and risk management are the topics of this course.

CR: the former RECR 3535

**3545 Outdoor Recreation Leadership** (formerly RECR 3545) acquaints students with the breadth, depth, and scope of outdoor recreation leadership including a detailed examination of theories, principles, and practices. The course provides opportunities for individual students to develop, practice, and receive feedback on their outdoor leadership skills. The course includes a required field experience in outdoor recreation leadership.

CR: the former RECR 3545

PR: HKR 2505 or HKR 3220

**3555 Outdoor Recreation Management** (formerly PHSD 3550 and RECR 3555) gives an overview of outdoor recreation practices in Newfoundland and Canada. This course will examine the management of resources, conservation education and practices, and development for public use or exclusion; legislation related to management of risk; viability of facilities; national and provincial agencies; private commercial ventures; and future trends in management. Management strategies will form a major part of the course.

CR: the former PHSD 3550; RECR 3555

**3565 Tourism/Commercial Recreation** (formerly PHSD 3560 and RECR 3565) examines behavioural factors influencing tourism; promotion of commercial recreation attractions, provincial strategies in travel and tourism, problems of leisure travel, stability of entrepreneurial ventures in tourism, and research and planning strategies relevant to commercial ventures.

CR: the former PHSD 3560; RECR 3565

**3575 Community Development and Recreation** (formerly RECR 3575) introduces various theoretical perspectives on community organization and development, as well as methods available to the recreation practitioner to facilitate the development of recreation services in communities. This course examines, in particular, recreation services delivery which involves community residents and groups in recreation program decision-making and implementation.

CR: the former RECR 3575

**3595 Women and Leisure** (formerly PHSD and RECR 3590, and RECR 3595) provides students with an opportunity to critically examine, understand and appreciate women's involvement in and contributions to leisure. The student will be expected to analyse, synthesize, and evaluate a wide range of historical, cultural, philosophical, and socio-psychological issues that have shaped the nature and scope of women's participation in leisure.

CR: the former PHSD and RECR 3590; RECR 3595

PR: Sociology 1000 or the former Sociology 2000

**399W Work Term 2** (formerly KIN, PHSD, and RECR 002W) offers an opportunity for students to further expand and develop professional knowledge and skills, while demonstrating the ability to accept increased responsibility and challenge in the work place. A student is expected to

demonstrate competence in written communication skills through the maintenance of a personal job diary and the submission of a formal report demonstrating the student's ability to effectively gather, analyse, organize, and present information regarding a specific aspect of the work term position.

CH: 0

CR: the former KIN, PHSD, and RECR 002W

LC: 0

PR: HKR 1123 and successful completion of 299W

**4210 Physical Activities Course: Territorial Games 1** (formerly PHSD 4210) includes ice hockey, water polo, team handball. Outdoor activities such as snow travel methods emphasizing cross-country skiing, navigational skills, winter survival/camping, and overnight camping are offered only during the Winter. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0

CR: the former PHSD 4210

LC: as scheduled

PR: HKR 2210

**4220 Physical Activities Course: Territorial Games 2** (formerly PHSD 4220) includes soccer and rugby, basketball and other territorial games. A number of teaching methods may be employed and emphasis will be placed on the language and practice of the conceptual approach. Concepts, skills, and strategies will be emphasized.

AR: attendance is required. Students who are absent more than six class hours may be required to withdraw from the course and will receive a letter grade of DRF and a numeric grade of 0

CR: the former PHSD 4220

LC: as scheduled

LH: as scheduled

PR: HKR 2210

**4300 Human Motor and Perceptual Motor Disorders** addresses the etiology, epidemiology or neuropathology of perceptual motor and motor disorders. Students will study a variety of developmental, progressive, traumatic and age-related movement disorders.

CR: Psychology 4810

PR: HKR 2300, HKR 3300, or consent from the instructor

**4310 Evaluation** (formerly KIN and PHSD 4310) includes program evaluation and measurement of the components of physical performance in addition to statistical treatment and interpretation of data.

CR: the former KIN and PHSD 4310

LH: 2

PR: Statistics 2500 or equivalent

**4320 Fitness Leadership** (formerly KIN and PHSD 4320) prepares professionals in the administrative, interpretive, instructional, interpersonal, and pedagogic competencies required for and associated with fitness testing, prescription, teaching, and leadership.

CO: HKR 3310

CR: HKR 1001, the former KIN and PHSD 1001; KIN and PHSD 4320

**4330 Social Psychology of Sport, Physical Activity and Recreation** (formerly KIN and PHSD 4330) introduces the psychological factors that influence participation in sport, exercise, physical activity and recreation and the psychological effects derived from participation.

CR: the former KIN and PHSD 4330

**4420 Issues** (formerly KIN and PHSD 4420) explores, through research and discussion, trends and issues basic to the profession including areas in physical education, health, fitness, and lifestyle industries.

CR: the former KIN and PHSD 4420

PR: successful completion of a minimum of 73 credit hours

**4485 Leisure Education in Therapeutic Recreation Settings** is designed to provide students with the knowledge and skills required to facilitate leisure education interventions designed to bring about desired changes in the leisure behaviour of individuals. The course will address the following three broad areas: a) concepts and models of leisure education; b) content related to specific skills required for leisure involvement (leisure awareness, social skills development, friendship development, stress management, assertiveness, decision making, etc.) and c) instructional and interactional techniques used in leisure education.

PR: HKR 2585 and HKR 2505

**4515 Principles and Practices of Social Recreation** - inactive course.

**4525 Planning for Recreation** (formerly RECR 4525) focuses on the strategic planning process and how it can be used within recreation organizations. The course is designed to introduce students to various planning theories and to provide students with opportunities to develop skills in strategic and other planning processes.

CR: the former RECR 4525

**4535 Camp Administration and Programming** - inactive course.

**4545 Facility Planning, Design and Management** (formerly PHSD 4540 and RECR 4545) focuses on the major considerations in selecting site, size, type and usage of the more popular facilities as well as the problems in design, layout and function, standards, and modifications.

CR: the former PHSD 4540; the former RECR 4545

**4555 Leadership and Supervision in Recreation** (formerly PHSD 4550 and RECR 4555) focuses on need, selection, training, and supervision of leaders in recreation. Certification, standards and professional organizations. Evaluation of leadership materials and methods used. Practical exposure to roles of both leader and supervisor through seminar and related fieldwork.

CR: the former PHSD 4550; RECR 4555

**4565 Recreation Promotion and Marketing** - inactive course.

**4575 Recreation Ethics, Issues and Trends** (formerly PHSD 4570 and RECR 4575) explores contemporary trends and issues identified by governments and recreation practitioners and the way in which these issues influence the delivery of leisure services.

CR: the former PHSD 4570; RECR 4575

**4585 Financing Recreation Services** (formerly RECR 4585) provides opportunities for in-depth study of financing leisure services in a variety of settings. The primary learning objectives are to achieve an understanding of revenue sources, financial management, and budgeting, the concepts of equity from a justice, social, and economic perspective, and the ability to use various techniques in the allocation of resources, the pricing of services, and ascertaining the costs of providing services.

CR: the former RECR 4585

**4600 Introduction to Research** (formerly KIN, PHSD, and RECR 4600) introduces research methodologies currently employed in kinesiology, physical education or recreation.

CR: the former KIN, PHSD, and RECR 4600

PR: Statistics 2550 or equivalent

**4605 Research Methods in Recreation and Leisure II** - inactive course.

**4610 Research Project** (formerly KIN, PHSD, and RECR 4610) is a detailed study for honours students in Kinesiology, Physical Education and Recreation, directed by a faculty member of the School, of a selected topic in the field of kinesiology, physical education or recreation.

CR: the former KIN, PHSD, and RECR 4610

PR: HKR 4310, a minimum of 75% in HKR 4600 and one of Statistics 2500 or Statistics 2550

**4625 Theoretical Perspectives of Recreation and Leisure** (formerly RECR 4625) is an in-depth overview and analysis of current theoretical perspectives/paradigms related to the leisure experience. A parallel purpose is to examine psychological, sociological, and social-psychological constructs that contribute to a contemporary, interdisciplinary understanding of recreation and leisure.

CR: the former RECR 4625

**4635 Multicultural Perspectives of Recreation and Leisure** - inactive course.

**4685 Professional Issues in Therapeutic Recreation** - inactive course.

**4700 Advanced Fitness Training and Assessment** (formerly KIN 4700) prepares students to assess, prescribe, demonstrate, supervise, educate, and counsel apparently healthy individuals across the lifespan on information related to physical activity/exercise, fitness and health. The successful completion of this course will allow students to apply for a certification as a Professional Fitness and Lifestyle Consultant from the Canadian Society of Exercise Physiology.

CR: the former KIN 4700

LH: 2

PR: HKR 4320

**4701 Environmental Physiology** (formerly KIN 4701) examines human behavioural, autonomic and metabolic responses to extreme environments. This will include the study of human responses seen during changes from normal ambient temperature and pressure, to those experienced in the environments encountered during undersea diving, space travel, altitude, and other similar environments.

CR: the former KIN 4701

PR: HKR 2320

**4702 Advanced Exercise Physiology** (formerly KIN 4702) prepares students to acquire the knowledge necessary to understand, analyse, and integrate information and experiences related to physiological adaptations occurring with acute and chronic activity and disuse.

CR: the former KIN 4702

LH: 2

PR: HKR 3310

**4703 Occupational Ergonomics and Sport Biomechanics** (formerly KIN

4703) focuses on the contrast between biomechanical analyses of workplace tasks and athletic movement. Students will conduct a detailed biomechanical analysis of a given movement, in the workplace or for a given sport, with regard to both the probability of injury and optimization of performance.

CR: the former KIN 4703

LH: 2

PR: HKR 2703, 3320, and Physics 1020

**4720 Directed Study** (formerly KIN 4720) requires approval of Director of the School and the course instructor. Permission to register must be obtained in the term preceding enrolment.

CR: the former KIN 4720

**4910 Directed Study** (formerly PHSD 4910) requires approval of Director of the School and the course instructor. Permission to register must be obtained in the term preceding enrolment.

CR: the former PHSD 4910

**4915 Directed Study** (formerly RECR 4915) requires approval of Director of the School and the course instructor. Permission to register must be obtained in the term preceding enrolment.

CR: the former RECR 4915

**499W Work Term 3** (formerly KIN, PHSD, and RECR 003W) offers an opportunity for students, who have sufficient academic grounding and work experience, to exercise greater independence and responsibility in their assigned work. A student must demonstrate a high level of competency in communications skills through the submission of a formal report on a topic related to the work term or through a formal presentation on an aspect of the work term using the latest in computer technology and applications.

CH: 0

CR: the former KIN, PHSD, and RECR 003W

Clairmont, G., Administrative Secretary

Drawing on the rich educational resources of the University and the community at large, the Division of Lifelong Learning provides innovative learning opportunities that are responsive to the needs of traditional and non-traditional learners, throughout the province and beyond.

Additional information regarding the Division of Lifelong Learning is available at [www.mun.ca/lifelonglearning/](http://www.mun.ca/lifelonglearning/).

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Certificate Programs

The following certificate programs are available through the Division of Lifelong Learning. These programs are offered by and are under the academic control of the appropriate faculties and schools.

### 2.1 Admission Requirements

Students who wish to complete certificate programs must be admitted to the University as undergraduate students and comply with the **General Academic Regulations (Undergraduate)**.

### 2.2 Regulations for a First Certificate

A Memorial University of Newfoundland certificate is awarded to students who complete certificate program requirements.

1. Every candidate for a certificate shall comply with all the course requirements governing the award of that certificate.
2. Candidates shall complete at this University a minimum of 9 credit hours of the total number of credit hours required for a certificate.
3. No candidate will be awarded a certificate unless s/he has obtained an average of 2 points or better on the total number of credit hours required for the certificate.

### 2.3 Regulations for a Second Certificate

Students who have completed a certificate program and wish to complete a second certificate must:

1. comply with all course requirements governing the award of that certificate, and
2. complete at least 9 credit hours beyond those required for the first certificate. The courses which comprise these credit hours must be applicable to the certificate sought.

### 2.4 Certificate in Business Administration

The Certificate in Business Administration is widely recognized by business and industry. It is designed for management-entry level employees who are interested in career development. Courses completed on the certificate program can be applied toward the diploma and the general degree of the Bachelor of Commerce, and the Bachelor of Business Administration.

Students who have a particular interest in Accounting, Marketing, Human Resources and Labour Relations, Small Business/ Entrepreneurship or Information Systems should consult with the Division regarding choice of elective courses.

#### 2.4.1 Regulations for the Certificate in Business Administration

To be eligible for the Certificate in Business Administration a student must have:

1. Completed the following 30 credit hours: Business 1000, 1101, the former 1201, 3310, 4000, Either 4320 or 4330 and 12 credit hours in business electives which may include Computer Science 2801
2. At least two years of full-time work experience or equivalent.
3. At least two years during which the student has not been in full-time attendance at a secondary or post-secondary institution.

### 2.5 Certificate in Career Development

The Certificate in Career Development is designed for persons working in the career development field who wish to consolidate and deepen their knowledge base. The program will provide a grounding in career development theory and practice for those wishing to enter the field. The practicum will give new entrants to the field valuable work experience and will allow existing practitioners the opportunity to reflect on and improve their practice.

#### 2.5.1 Regulations for the Certificate in Career Development

##### 2.5.1.1 Curriculum

Students will be required to complete a total of ten courses as follows:

1. Required Courses: Career Development 1000, 1100, 1200, 1210, 1220, 1300, and 3000
2. Three Elective Courses from the following list: Career Development 2000, 2001, 2100, 2200, or 2300

Notes: 1. Students are required to meet **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)** for entry to Memorial University of Newfoundland.

2. Students may receive up to three exemptions for equivalent course work completed through another program or at another institution. If students have previously obtained credit from Memorial University of Newfoundland for any of the courses on a certificate program, they are not required

*to repeat these courses. To receive exemptions for certificate credit courses, students must make a written request with supporting documents (transcripts and course descriptions) to the Program Developer, Certificate Programs, Division of Lifelong Learning for consideration by the Advisory Committee for the certificate.*

## 2.6 Certificate in Criminology

The Certificate in Criminology is designed for members of the community who have a special interest in the structure and administration of criminal justice. The program is of particular interest to persons engaged in law enforcement, corrections and rehabilitation.

### 2.6.1 Regulations for the Certificate in Criminology

To be eligible for the Certificate in Criminology a student must complete the following:

1. Fifteen credit hours including Psychology 1000; Sociology 3290, 3395; one of Political Science 1000, 1010, 2800; and one of Sociology 1000, 2000.
2. Six credit hours chosen from the following where a maximum of 3 credit hours can be in one subject area:

Archaeology 2492; Political Science 2100, 2800, 3610, 3820; Psychology 2012, 2100, 2800, 3533, 3640; the former Social Work 2510, the former Social Work 3510, 3721, 4612, 5112; Sociology 2100, 2230, 2250, 3120.

*Note: In some cases, students may substitute one optional course not listed in section 2, that has relevance to their area of speciality and to the field of criminology. Students may submit their request, in writing, to the Assistant Director, Certificate Programs, Division of Lifelong Learning. The Advisory Committee will consider the request. Permission to substitute must be obtained prior to the student enrolling in or completing the course.*

3. Two of Criminology 1302, 1303, 3301.

*Note: Criminology 3301 Selected Topics in Criminology is not offered on a regular basis. Students may enroll in this course several times as content changes, however it may be applied to the certificate only once.*

## 2.7 Certificate in Library Studies

The Certificate in Library Studies is for persons working in a library who wish to be more accomplished providers of library services. The program will benefit personnel in school, public, university, medical, legal, and special interest libraries.

### 2.7.1 Regulations for the Certificate in Library Studies

To be eligible for the certificate in Library Studies a student must complete the following:

1. Business 2000; Library Studies 1601, 1602, 1603, 1606, 1609.
2. Four courses chosen from Library Studies 1604, 1605, 1610, 1611, 2606, 3600, 3601-3609.

*Note: In some cases, students may substitute one elective course that has relevance to their area of speciality and the field of library studies. Students may submit their request in writing to the Program Developer, Division of Lifelong Learning for consideration by the Advisory Committee.*

## 2.8 Certificate in Municipal Administration

The Certificate in Municipal Administration is intended for employees of municipalities, and other interested parties, who wish to develop skills used in the administration of municipal services.

### 2.8.1 Regulations for the Certificate in Municipal Administration

To be eligible for the Certificate in Municipal Administration a student must complete the following:

1. Municipal Administration 1701, 1702, 2703, 2704, 2705, 2706.
2. Two courses chosen from Business 2000, 3310, 4320, 4330; Municipal Administration 2707.

## 2.9 Certificate in Newfoundland Studies

The Certificate in Newfoundland Studies is designed for those who wish to expand their knowledge of Newfoundland and Labrador. The program will be useful to persons involved in community, rural and northern development; cultural affairs, tourism, education and archival and library services.

### 2.9.1 Regulations for the Certificate in Newfoundland Studies

To be eligible for the Certificate in Newfoundland Studies a student must complete 24 credit hours in at least four different subject areas chosen from the following:

Anthropology 3290 and Archaeology 3290, 3850; Economics 2070, 3070; Education 3571; English 3155; Folklore 2300, 2230; Geography 3290, 3490; History 3110, 3120; Linguistics 2210; Political Science 3780; Religious Studies 3900, 3901; S/A 2220, 2230.

A maximum of 6 credit hours may be chosen from the following:

Anthropology 4280 and Archaeology 4280; Business 2000; Economics 3080; Folklore 2401, 3860, 4310, 4400; Geography 4690; History 4230, 4231; Linguistics 4220; Political Science 3890, 4650.

## 2.10 Certificate in Public Administration

The Certificate in Public Administration is intended for public sector employees and any others who wish to further their understanding of the administration of public policy and public programs.

### 2.10.1 Regulations for the Certificate in Public Administration

To be eligible for the Certificate in Public Administration a student must complete the following:

1. Business 2000, 3310; Political Science 2600, 2800, 3610, 3810.
2. Six credit hours chosen from each of two of the following groups A, B, C for a total of 12 credit hours.

Group A courses: Business 1000, 1101, 2101, 4320, 4330.

Group B courses: Political Science 1000, 1010, 3600, 3820, 3870, 3890, 4630, 4680

Group C courses: Any 6 credit hours in arts, science or business electives.

## 2.11 Certificate in Records and Information Management

The Certificate in Records and Information Management provides continuing education to those working in the records, archival and information management fields and certification in a developing profession in which practitioners have limited access to relevant upgrading.

### 2.11.1 Regulations for the Certificate in Records and Information Management

To be eligible for the Certificate in Records and Information Management a student must complete the following:

1. Business 2000, 3700; Computer Science 2801 or 2650 (or equivalent); Mathematics 1080 (or equivalent); Records Management 1000, 1001, 1100, 2000.
2. Two courses chosen from Business 5700, 6700; Political Science 3540, 3741; Municipal Administration 1701, 2705.

## 3 Certificate Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Head of the Department.

Certificate courses are specially designed courses relating to specific areas of study for which no equivalent degree credit course exists and are not applicable towards an existing diploma or degree program.

### 3.1 Career Development

Courses in the Certificate in Career Development are designated by CADV.

**1000 Career Development I**

**1100 Assessment in Career Development I**

**1200 Interpersonal Communications**

**1210 The Nature of the Helping Relationship**

**1220 Group Facilitation**

**1300 The Nature of Work, the Workforce and the Workplace**

**2000 Career Development II**

**2001 Career Development for Special Populations**

**2100 Assessment in Career Development II**

**2200 Program Design, Implementation, and Evaluation**

**2300 The Emerging Economy**

**3000 Practicum in Career Development**

### 3.2 Criminology

**1302 Criminal Procedure and the Administration of Criminal Justice** examines the flow of criminal matters through the criminal justice system. Topics include the investigation into criminal complaints, search and seizure, arrest, release (bail), elections and pleas, preliminary inquiries, trials, sentencing, appeals and the ultimate disposition.

**1303 Corrections in the Criminal Justice System** examines the role of corrections in the Canadian criminal justice system which seems to be in constant change. These changes will be reviewed, updated and evaluated as we look at the two-dimensional role of corrections in justice: correctional institutions (prisons) and the community/after-care functions. Includes a review of new Canadian legislation affecting the above areas, as well as an examination of sentencing options and the Canadian pardon system.

**3301 Selected Topics in Criminology** will be determined by the Division of Lifelong Learning.

### 3.3 Library Studies

**1601 Introduction to Libraries** introduces students to the organization, functions, and services in various types of libraries. The course will also cover some aspects of the history of libraries, ethical considerations in library work (freedom of information and access, copyright), and collection development.

**1602 Technical Processing** explains the theory and practice of the various aspects of technical processing: acquisitions, cataloguing, classification, serials and circulation.

**1603 Reference** examines reference services, the reference interview and search strategies. Reference sources, materials and research methods will be examined.

**1604 Adult Services** covers library services directed towards adults, with an emphasis on the genres of fiction and non-fiction works, the promotion of literacy and leisure reading, and reference tools.

**1605 Children's Services** looks at fiction and information books appropriate for children from birth to teenage years. Coverage will include library publicity and the promotion of books through children's programming.

**1606 Introduction to Library Technology** is intended for those interested in how technology is shaping library services and collections. Topics include an introduction to computer hardware, network topography, HTML, Integrated Library Systems, proxy servers, electronic journal procurement, electronic indexes, and evolving user interfaces. It also looks at the way technology has changed the workflow in libraries and the impact that this has had on library organization and staffing.

**1609 Managing Libraries** is an introduction to the management function in the library setting, including job descriptions, policies and procedures, legal aspects, budgeting, organizational structure and interrelationships, and public relations.

**1610 Library Services for Business and Industry** focuses on the provision of library services to business and industry, with emphasis on specific strategies for providing information to business and industry users, the role of in-house information services and libraries, and the interaction between the library, management, and administration in business and industry settings.

**1611 Multimedia Operations in the Library Setting** covers current trends in the information revolution, and their effect on communications in the library setting. Students will be introduced to applications of multimedia to library work, including audiovisual resources, desktop publishing and other software, computer networking, and the creation of promotional materials. The course is intended to be a hands-on introduction to these applications.

**2606 Advanced Topics in Library Technology** offers an overview of popular technologies like blogs, wikis, web search engines, relational databases, wireless networks, personal computing devices, and XML, with an emphasis on their application in the world of libraries. The course provides a basic understanding of library-specific protocols and standards including the NISO Circulation Interchange Protocol (NCIP), Radio Frequency Identification (RFID), Electronic Data Interchange (EDI), Unicode, and cataloguing schemas for digital objects.  
Prerequisite: Library Studies 1606

**3600 Directed Research/Project** - inactive course.

**3601-3609 Special Topics in Library Studies** examines specific courses developed to meet particular needs, new topics, and current trends in library studies work.  
Prerequisite(s): any two Library Studies courses below the 3000 level.

### 3.4 Municipal Administration

**1701 Introduction to Municipal Accounting** - inactive course.

**1702 Introduction to Local Government** - inactive course.

**2703 Municipal Law** - inactive course.

**2704 Municipal Financial Administration** - inactive course.

**2705 Municipal Administration** - inactive course.

**2706 Municipal Planning and Community Development** - inactive course.

**2707 Selected Topics in Municipal Administration** will be determined by the Division of Lifelong Learning.

### 3.5 Records Management

**1000 Introduction to Records Management** - inactive course.

**1001 System and Functions in Records Management** - inactive course.

**1100 Introduction to Archival Science** - inactive course.

**2000 Records Classification Systems** - inactive course.

## 4 Diploma in Information and Communications Technology

The Diploma in Information and Communications Technology is designed to provide individuals already possessing a post-secondary diploma or degree in any field with the knowledge and skills required to work in today's high technology environment. The program will benefit individuals from a wide variety of backgrounds, including business, education, technical, and administrative.

The program is offered in a collaborative learning environment with a problem-solving focus. The instructors are experienced and industry-certified by Microsoft and Cisco. The Division of Lifelong Learning is the Cisco Regional Academy for Newfoundland and Labrador; Cisco is a world leader in networking for the Internet.

Two options are available for completion of the Diploma in Information and Communications Technology:

1. Option 1. is taken on a full-time basis and is comprised of three semesters and consists of 32 credit hours and one work term.
2. Option 2. is comprised of 35 credit hours and can be taken full-time in three semesters or part-time in seven semesters.

### 4.1 Program Objectives

The program focus is on four areas: E-Commerce, networking, programming, and databases.

Graduates of the program will:

1. Enhance their academic and other credentials with practical technology skills.
2. Obtain skills and knowledge that will prepare them to work effectively within a high technology environment.
3. Demonstrate the ability to work as part of a team.
4. Develop skills required to analyse an organization's information and communications technology needs and design a customized solution.

### 4.2 Admission Requirements

Applicants to the Diploma in Information and Communications Technology normally must have successfully completed a three-year diploma or degree from an accredited post-secondary institution and attained a minimum of 65% on the last 15 courses completed. Admission to the program is limited and competitive. Application to the program must be made in writing to the Division of Lifelong Learning on the appropriate form, and must include an official transcript of post-secondary marks. Applications must be submitted by June 1 for Fall semester, October 1 for Winter semester, and February 1 for Spring semester. Applications received after these deadlines will be considered only if a place is available. In addition, students who have not registered for courses at Memorial University of Newfoundland for either of the two immediately preceding semesters must also complete an application for admission/readmission to the University.

Selection of candidates will be based on academic performance and on other criteria considered suitable for an information technology professional, including but not limited to evidence of the ability to cope with a demanding schedule or demonstrated mathematical ability.

Candidates pursuing Option 2. will be required to have at least one year of full-time work experience or equivalent.

### 4.3 Program Requirements

The Diploma in Information and Communications Technology consists of the set curriculum outlined below. All courses are specifically designed for the Diploma in Information and Communications Technology only, and are not applicable towards any other existing degree or diploma program. Courses are normally offered sequentially in an accelerated format. Students enrolled in Option 1. will be required to complete a work term component. A work term is not available under Option 2., however, a substantial project (INFO 4500) will be required of each participant prior to completion of the program. Students completing the program on a part-time basis must do so within three calendar years from the date of admission to the program. Students completing the program on a full-time basis must do so within four semesters from the date of admission to the program.

### 4.4 Evaluation, Continuance and Transfer

The passing grade for each course is 65%. A pass must also be awarded for the work term. Evaluation may include, but not be limited to, any or all of the following: projects, assignments, examinations, and class participation.

Students who obtain a numerical grade of less than 65% in no more than two of the Diploma in Information and Communications Technology courses will be given a probationary promotion and will be required to repeat the course(s) in the next semester in which it (they) is (are) offered.

The foregoing notwithstanding, students will be required to withdraw from the Diploma in Information and Communications Technology program if:

1. a final numerical grade of less than 65% is obtained in more than two courses, or
2. a final numerical grade of less than 65% is obtained in a repeated course, or
3. a final numerical grade of less than 50% is obtained in any one course.

Students may be considered for readmission by the Admissions Committee, Division of Lifelong Learning.

Students who choose to drop a course(s) are strongly encouraged to consult with the Division of Lifelong Learning to ensure their program can be completed within the specified time.

Students may be permitted to transfer between options at the end of semester one with approval from the Division of Lifelong Learning.

### 4.5 Work Term

Students accepted into Option 1. of the program will complete the work term component during the third semester of the Diploma in Information and Communications Technology program. The dates for starting and finishing the work term are shown in the University Diary. To be eligible for the work term, students must have successfully completed all other courses in the program. Successful completion of the work term requirement is a prerequisite to graduation from the Diploma in Information and Communications Technology.

General management of the work terms is the responsibility of the Division of Lifelong Learning. It is responsible for assisting potential employers to become involved in the program, for the continual development of employment opportunities, for arranging student-employer interviews, for counselling of students, for visiting students on their work assignments and for the evaluation of the work term. Students are also encouraged to seek out suitable work term placements.

Students and employers choose each other through the placement competition process. Employers interview students, and both the

students and employers express their preferences. Placement is not guaranteed but every effort is made to ensure that appropriate employment is made available.

Students accepted into the Diploma in Information and Communications Technology, Option 1., give permission to the Division of Lifelong Learning to supply their resumes and transcripts to prospective employers.

Salaries paid to students are determined by employers and are based upon their internal wage structures. However, students should not expect the income from work terms to make them completely self-supporting.

Students may obtain their work term placements outside the competition. Such work terms must be confirmed by the employer, and be approved by the Division of Lifelong Learning before the first day on which the student commences work.

A student may, with the permission of the Division of Lifelong Learning, be self-employed during a work term provided that the student and the Division of Lifelong Learning agree at the start of the work term on the information to be provided to the Division so that it can evaluate the student's work during the term.

A student who is unable to obtain a work term or work in approved self employment within four weeks from the start of the work term will be expected to undertake work under contract to a client within a faculty, another entity of the University, a company, municipality, non-profit organization, or the like. The contract work may be part-time, or occupy only a portion of a semester, and may allow the student to earn an income in other ways. The contract, whether paid or unpaid, must be approved by the Division of Lifelong Learning.

When neither an approved full-time work term nor an approved contract has been obtained, the Committee on Undergraduate Studies may approve a program which provides these students with technical and professional experience expected in the work term. The program must be such that the development, including the development of the students' communication skills, through the program can be monitored and assessed by the Division of Lifelong Learning with criteria equivalent to those used for full-time work term positions.

A work term report must be submitted. This report will be assigned by the Division of Lifelong Learning. Evidence of the student's ability to gather material relating to the job, analyse it effectively and present it in a clear, logical and concise form, will be required in the report. Late reports will not be evaluated, unless prior permission for a late report is given.

The evaluation of the work term is the responsibility of the Division of Lifelong Learning. Two components are considered in work term evaluation: on-the-job performance and the work term report. Each component is evaluated separately.

Evaluation of the work term will result in the assignment of one of the following recommendations:

**PASS WITH DISTINCTION:** Indicates excellent performance in both the work report and work performance. The student is commended for his/her outstanding performance in each of the required components; pass with distinction has been awarded to each of the work report and work performance.

**PASS:** Indicates that performance meets expectations in both the work report and work performance. The student fully meets the requirements of a passing work report and completely satisfactory work term performance.

**FAIL:** Indicates failing performance in the work report and/or work performance.

On-the-job performance is assessed by the Division of Lifelong Learning in conjunction with the employer.

If a student fails to achieve a passing grade from a work term, the student will normally repeat that work term in a work situation approved by the Division of Lifelong Learning. A given work term may be repeated only once during the program.

Students who fail to honour an agreement to work with an employer, or who drop a work term without prior approval of the Division of Lifelong Learning, or who conduct themselves in such a manner as to cause their discharge from the job, will normally be awarded a failed work term.

Permission to drop a work term does not constitute a waiver of diploma requirements, and students who obtained such permission must complete an approved work term in lieu of the one dropped.

## 4.6 Awarding of Diploma

Once all course requirements have been successfully completed, application for awarding of the Diploma must be made in writing on the appropriate form to the Office of the Registrar, Memorial University of Newfoundland.

## 4.7 Course Load

Full-time students in semester one will complete 16 credit hours.

Full-time students in semester two will complete 16 credit hours.

Full-time students may register for an additional 3 credit hour course while on the work term.

## 4.8 Course Descriptions

Note: All courses, unless otherwise noted, consist of laboratory and classroom sessions.

Courses in the Diploma in Information and Communications Technology program are designated by INFO.

**1000 Computer Technology (1 cr. hr.)** provides an overview of computer technology and introduces computer basics. Students will become familiar with the basic parts of computer systems and their functions while learning troubleshooting techniques and distinguishing between hardware and software problems. Configuring hardware through the operating system and component failure will be discussed. Understanding of these topics will be enhanced by dismantling and assembling a computer. This course is a prerequisite for all other courses in this program.

**2100 Operating Systems I (2 cr. hrs.)** is a study of basic operating systems. Features and benefits of the Windows and Unix environments will be discussed in detail.

Prerequisite: INFO 1000

Note: Credit may not be obtained for INFO 2100 and the former INFO 3111 and INFO 3110.

**2200 Networking Systems I (2 cr. hrs.)** is a study of the most commonly used networking systems. Topics include fundamentals of LAN theory; LAN protocols; network topologies; network security; basic network communication options; and network management.

Prerequisite: INFO 2100

**2300 Internet Applications (1 cr. hr.)** is a study of the Internet and its applications. Topics will include advanced searching techniques, programming languages used in developing applications for the World Wide Web, and creating and maintaining WWW sites.

Prerequisite: INFO 1000

**2600 Introduction to Wireless LANs (1 cr. hr.)** focuses on the design, planning, implementation, operation, and troubleshooting of Wireless LANs and bridging.

Prerequisite: INFO 2100

**3200 Networking Systems II (2 cr. hrs.)** is a continuation of the more advanced features of networking systems.

Prerequisite: INFO 2200

**3301 Introduction to Programming (2 cr. hrs.)** is an introduction to the fundamentals of structured programming. Topics include: algorithms, program structures, software design methodology, language constructs, data file basics, and abstract data types.

Prerequisite: INFO 2100

Note: Credit cannot be obtained for both INFO 3301 and the former INFO 3300.

**3310 Windows Programming (2 cr. hrs.)** is a study of the fundamental elements of programming in a Windows environment. Topics will include: building a Windows Graphical Interface and the introductory concepts of object-oriented programming.

Prerequisite: INFO 3330

**3315 Introduction to Databases (1 cr. hr.)** is the study of the effective use of databases, including design and implementation, and their use in addressing a business data problem.

Prerequisite: INFO 1000

Note: *Credit cannot be obtained for both INFO 3315 and the former INFO 3400.*

**3320 Programming with Databases (2 cr. hrs.)** is a study of applications basics, basic data types, understanding objects and collections, coding for events, writing RDBMS, controlling programs, testing and debugging the application, run-time errors, and distributing the application.

Prerequisites: INFO 3310 and INFO 3315

**3330 Object Oriented Programming (2 cr. hrs.)** is an introduction to object-oriented programming. Topics include: encapsulation, information hiding, inheritance and polymorphism.

Prerequisite: INFO 3301

**3350 Introduction to SQL (2 cr. hrs.)** provides an overview of data server technology and SQL programming language. Topics include creating and maintaining database objects including storing, retrieving and manipulating data. The course will teach how to write SQL script files to generate report-like output.

Prerequisite: INFO 3315

**3360 Relational Database Administration (2 cr. hrs)** provides a firm foundation in basic database administrative tasks. The course offers a conceptual understanding of database architecture and how the architectural structures work and interact. Topics include creating an operational database and properly managing its various structures in an effective and efficient manner.

Prerequisite: INFO 3350

**3370 Relational Database Forms and Reports (2 cr. hrs)** will teach developing and deploying applications using forms and reports. Topics include customizing forms through user input items and controlling data access through the creation of event-related triggers for connectivity to an SQL server.

Prerequisite: INFO 3360

**3431 E-commerce and Intranet (2 cr. hrs.)** is an examination of the elements that define e-commerce and Intranet applications. Major elements are the concept, design and construction of web-based data applications

involved in both commerce transaction processing and internal resource databases.

Prerequisites: INFO 2300

Note: *Credit cannot be obtained for both INFO 3431 and the former INFO 3430.*

**3440 Integrated Business Solutions (1 cr. hr.)** is an introduction to the techniques involved in analysing a company's information technology needs, and designing a customized solution.

Prerequisites: INFO 3431

**3450 Networking Systems III (3 cr. hrs.)** is an advanced study of switching techniques and wide area networks.

Prerequisite: INFO 3200

**3460 Network Security (2 cr. hrs)** includes an introduction to network security and overall security processes with emphasis on security policy design, installation, configuration, and maintenance.

Prerequisites: INFO 2100 and 2600

**4500 Case Study / Student Project (3 cr. hrs.)** (restricted to students in Option 2) is a comprehensive analysis of an assigned case. A written report will be required. Skills and knowledge developed throughout the program will be utilized in solving business-related problems. Using a case approach, students will work in teams to evaluate a company's IT resources and prepare a proposal for a solution that will meet the company's needs. A plan will be generated with suitable phases for implementing the solution. Evaluation will be based on effectiveness of the solution, demonstrated understanding of methodology and available technology, and the clarity, conciseness, and logic of the presentation style.

Prerequisite: Successful completion of all other course work, or approval of the Director of the Division of Lifelong Learning, or delegate.

**460W Work Term** (restricted to students in Option 1) provides opportunities for students in the program to apply theories and skills learned in the classroom to workplace settings. As one component of the work term the student is required to complete a work report which should:

analyse an issue/problem related to the student's work environment  
demonstrate an understanding of the structure of a professional report  
show competence in written communication and presentation skills.

Prerequisite: Successful completion of all other course work.

## 5 Personal and Professional Development

The Division of Lifelong Learning offers more than 150 courses/seminars/workshops per semester in general interest and professional development and more than 350 course titles available through e-learning. These offerings are non-credit in nature and there are no formal admission requirements. Program areas include communications, business, computer technologies, languages, marine, writing, the arts, and courses for children and youth. Instructors are drawn from the University and the community and are usually recognized for their achievements in their fields of instruction.

These offerings are an excellent continuing education service. They serve as a valuable introduction to the university setting for persons interested in pursuing diploma or certificate studies. General interest and professional development courses are generally offered on-campus during the Fall, Winter, and Spring semesters.

The Division also administers diploma and certificate programs that are outside of the mandates of other academic units. Certificate programs are short (6 to 10 courses) ranging from being comprised of all degree credit courses to being comprised of all certificate credit courses, or some combination of the two. Certificate programs are offered in business administration, municipal administration, public administration, criminology, Newfoundland studies, and library studies. Certificate programs are available through distance education.

The Division offers customized corporate education and training to help business, industry, and public sector agencies achieve their business objectives. It works with clients to identify their professional development needs, customize the appropriate training and materials, and deliver and evaluate the seminars and workshops.

Further information on courses or programs administered by the Division of Lifelong Learning may be obtained by contacting the Division in writing to the Division of Lifelong Learning, Memorial University of Newfoundland, St. John's, NL A1C 5S7, or by telephone to (709) 737-7979, or by fax to (709) 737-8486, or by e-mail at [lifelong.learning@mun.ca](mailto:lifelong.learning@mun.ca), or through the website at [www.mun.ca/lifelonglearning](http://www.mun.ca/lifelonglearning).

Allderdice, P., M.A. *Chicago, M.S. Utah, Ph.D. Montana*

Bieger, D., M.D., Ph.D. *Kiel*

Orr, J.C., B.Sc. *London, Ph.D. Glasgow, A.R.C.S.*

Tomlinson, J.D.W., M.A., M.B., B.Chir. *Cambridge*

**Honorary Research Professor**

Scott, T.M., B.Sc. *St. Andrews, Ph.D. Edinburgh*; Winner of the President's Award for Distinguished Teaching, 1995-1996

**Professor of Neuroscience and Anatomy**

McLean, J., B.Sc. *New Brunswick, Ph.D. Dalhousie*

**Assistant Professor of Neurosciences**

Yuan, Q., Ph.D. *Memorial*

**Professor of Anatomy**

Harris, J.A., B.Sc, B.Med. Sc., M.D., B.P.E. *Memorial, Dip. Med.Ed. Dundee*

**Associate Professor of Anatomy**

Chandra, S., M.B., B.S. *New Delhi*

**Professor of Neuro/Molecular Biology**

Mearow, K.M., B.Sc., M.Sc. *Brock, Ph.D. McMaster*

**Professor of Molecular Virology and Medicine (Hepatology)**

Michalak, T.I., M.D., Ph.D. *Warsaw*

**Assistant Professor of Molecular Signalling in Human Health & Disease**

Dorward, A.M., B.Sc., Ph.D. *McMaster, Canada Research Tier II*; Cross appointment to Genetics

**Professor of Immunology**

Grant, M., B.Sc., M.Sc. *British Columbia, Ph.D. McMaster*; Joint appointment with Laboratory Medicine

**Associate Professors of Immunology**

Drover, S., M.Sc., Ph.D. *Memorial*

Hirasawa, K., Bc.D., Ph.D. *Tokyo*

**Assistant Professors of Immunology**

Larijani, M., B.Sc.(Hons.), Ph.D. *Toronto*; Cross appointment to Discipline of Oncology

Russell, R., M.Sc. *Memorial, Ph.D. McGill*

**Professor of Endocrinology**

Carayanniotis, G., B.Sc. *Patras, Ph.D. Toronto*; Joint appointment with Medicine

**Professors of Oncology**

Church, J., B.Sc.(Hons.) *Queen's, M.Sc., Ph.D. Toronto*

Gillespie, L.L., B.Sc., Ph.D. *Ottawa*

Kao, K.R., B.Sc., M.Sc., Ph.D. *Toronto*

Paterno, G.D., B.Sc., M.Sc. *Toronto, Ph.D. Ottawa*

**Professor of Cancer/Cardiovascular Biology**

Gendron, R., B.Sc., Ph.D. *McGill*; Cross appointment with Oncology

**Associate Professor of Vascular Molecular Biology/Pediatric Cancers**

Paradis, H., B.Sc., Ph.D. *Montreal*

**Associate Professor of Cardiovascular Cellular and Molecular Physiology**

Stuyvers, B.D., B.Sc., M.Sc., Ph.D. *Bordeaux, France*

**Associate Professor of Cell Biology**

Doré, J., B.Sc. *UBC, M.S. Florida, Ph.D. Tennessee*

**Professor of Pharmacology (Cardiovascular)**

Tabrizchi, R., B.Sc.(Hons.) *Sunderland, M.Sc., Ph.D. British Columbia*

**Professor of Physiology (Neurosciences)**

Corbett, D., B.A. *Dalhousie, M.Sc. Memorial, Ph.D. Concordia*; Cross appointment with Psychology

**Professors of Physiology**

Hansen, P.A., B.Sc., M.S. *Akron, Ph.D. Memorial*; Winner of the President's Award for Distinguished Teaching, 1990-1991

Moody-Corbett, F., B.Sc. *Dalhousie, M.A. New Brunswick, M.Sc., Ph.D. McGill*

McKay, D., B.Sc., M.S., Ph.D. *Michigan State*

**Assistant Professor of Cardiovascular Sciences**

McGuire, J.J., B.Sc.(Hons.), Ph.D. *Queen's University of Kingston*

**Associate Professor of Reproductive and Cell Biology/Physiology**

MacPhee, D., B.Sc.(Hons.) *Prince Edward Island, Ph.D. Western Ontario*; Cross appointment with Biochemistry

**Associate Professor of Neurosciences**

Hirasawa, M., Bc.D., Ph.D. *Tokyo*

**Assistant Professor of Neurosciences**

Vanderluit, J.L., B.A./BPHED *Ontario, M.Sc. Ottawa, Ph.D. British Columbia*

**Professors of Cardiovascular/Renal Physiology**

Smeda, J., B.Sc.(Hons.), M.Sc. *Brock, Ph.D. McMaster*

Van Vliet, B.N., B.Sc. *Toronto, Ph.D. Saskatchewan*

**Associate Professor (Biological Psychiatry)**

Chen, X., M.B. *China, Ph.D. Cambridge*; Joint appointment with Psychiatry

**Associate Professor (Oncology Research)**

Richardson, V.J., B.Sc., Ph.D. *Sheffield*

**Joint Appointment with Medicine**

Vasdev, S.C., B.Sc., M.Sc., Ph.D., D.V.M. *Punjab*

**Cross Appointments from Biochemistry**

Brosnan, J.T., B.Sc.(Hons.), M.Sc. *National University of Ireland, D.Phil. Oxford*; University Research Professor, Awarded 1990; CIHR Senior Investigator

Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. *Toronto*  
 Kaur, S., B.Sc. *Punjab*, M.Sc. *Punjab Agricultural*, Ph.D. *Post Graduate Institute of Medical Education and Research*

#### Cross Appoinment from Genetics

Young, T., Ph.D. *Memorial*; Winner of the President's Award for Outstanding Research, 2009

#### Cross Appointment from Medicine

Kovacs, C., M.D., B.A. *Queen's*, FRCPC

#### Cross Appointments from Pharmacy

Liu, H., B.Sc., M.S. *Beijing*, Ph.D. *Alberta*  
 Weber, J., M.S. Pharm., Ph.D. *Medical College of Virginia*

#### Adjunct Professors

Mandal, S.K., M.Sc. *Banaras Hindu University*, Ph.D. *Calcutta University*

Mansour, A., B.V.Sc., M.V.Sc., Ph.D. *Cairo University, Egypt*  
 Ploughman, M., M.Sc., Ph.D. *Memorial*

#### Visiting Scientist

Kagota, Satomi, Japan

### Clinical Sciences

#### Anesthesia

##### Associate Professor and Acting Chair

Jamieson, J.W., B.Sc., M.D. *Memorial*, FRCPC

##### Professor

King, F.G., B.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC

##### Professor Emeritus

Henderson, C.U., M.D., C.M. *Dalhousie*, F.A.C.A., FRCPC, F.A.A.P.

##### Associate Professors of Anesthesia

Jamieson, J.W., B.Sc., M.D. *Memorial*, FRCPC  
 LeDez, K.M., M.B., Ch.B. *Dundee*, FRCPC  
 Pridham, J.N., M.D. *Western Ontario*, FRCPC

##### Assistant Professors of Anesthesia

Bautista, M.J., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Harris, J., B.Sc., M.D. *Memorial*, FRCPC  
 Howells, S., B.Sc., M.D. *Dalhousie*, FRCPC  
 O'Regan, N., M.D. *Dalhousie*, FRCPC  
 Samarasena, L.D.A., M.B., B.S. *Ceylon*, F.F.A.R.C.S. *Ireland*, FRCPC  
 Zbitnew, G., B.Sc., M.D. *University of Alberta*, FRCPC

##### Clinical Associate Professor of Anesthesia

Kamra, C.P., M.B.B.S. *India*, D.A., F.F.A.R.C.S. *England*, F.F.A.R.C.S. *Ireland*, FRCPC

##### Clinical Assistant Professors of Anesthesia

Barrett, A., M.D. *Memorial*, FRCPC  
 Casey, A.P., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Clarke, B.A. B.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Cowan, G., B.Sc., M.D. *Memorial*, FRCPC  
 Daly, M., B.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Flynn, J.F., B.Sc., M.D. *Memorial*, FRCPC  
 Forward, R.G., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Gammal, A., B.Sc., M.D. *University of Alberta*, FRCPC  
 Lacey, D., B.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Major, A.E., M.D. *Memorial*, FRCPC  
 Noel, F.D., B.Sc., M.D. *Memorial*, FRCPC  
 O'Leary, S., M.D. *Memorial*, FRCPC  
 Redmond, E.B., B.Sc., M.D. *Memorial*, FRCPC  
 Ridi, A., M.D., *Dalhousie*, FRCPC  
 Suppiah, N., M.B.B.S. *India*, F.F.A.R.C.S. *Ireland*  
 Sweeney, T., B.Sc., M.D. *Memorial*, FRCPC  
 Tucker, J.H., M.D. *Western Ontario*, FRCPC  
 Williams, J.T.L., B.Sc., M.D. *Dalhousie*, FRCPC

##### Clinical Lecturer of Anesthesia

Badrudin, N., M.B., B.S., LRCP, MRCS, F.F.A.R.C.S. *England*

### Family Medicine

#### Associate Professor and Chair

Miller, R., M.D. *Western Ontario*, C.C.F.P., F.C.F.P.

#### Professors of Family Medicine

Bethune, C., M.D. *McMaster*, C.C.F.P., F.C.F.P., M.Ci.Sc. *Western*

*Ontario*; Cross appointment to Counselling Center  
 Godwin, M., B.Med.Sc., M.D. *Memorial*, M.Sc. *Queen's*, C.C.F.P., F.C.F.P.

Jong, M., M.B.B.S. *Malaya*, M.R.C.P. *U.K.*, C.C.F.P., F.C.F.P.  
 Rourke, J.T.B., M.D. *Western*, CCFP(EM), MCISc(FM), FCFP

#### Associate Professors of Family Medicine

Butler, R., B.Sc., M.D. *Memorial*, C.C.F.P., F.C.F.P.  
 Duke, P., B.Med.Sc., M.D. *Memorial*, C.C.F.P., F.C.F.P.  
 Eaton, W.H., M.D. *Memorial*, C.C.F.P.  
 Farrell, G., M.D. *Memorial*  
 MacDonald, S.M., B.Sc.N., M.D. *McMaster*, C.C.F.P.; Joint appointment with Medicine  
 Moffatt, S.M., B.Sc. *Acadia*, B.A. *New Brunswick*, M.D. *Memorial*, C.C.F.P., F.C.F.P.  
 O'Maonaigh, C., M.B., B.Ch., B.A.O., M.P.H. *Ireland*, C.C.F.P., M/CGP  
 Parsons, E., B.Med.Sc., M.D. *Memorial*, C.C.F.P., F.C.F.P., Dip. Sport Med.  
 Parsons, W., M.D. *Memorial*, C.C.F.P.  
 Ravalia, M., L.R.C.P.(Ed.) *Zimbabwe*, C.C.F.P.  
 Rourke, L., M.D. *Western*, C.C.F.P., F.C.F.P., M.Clin.Sc.  
 Tarrant, G.M., B.Med.Sc., M.D. *Memorial*, C.C.F.P., F.C.F.P., C.G.P.P., Fellowship in Psychotherapy *Toronto*; Cross appointment to Psychiatry

#### Assistant Professors of Family Medicine

Aubrey, K., B.A.(Hons.), M.Sc. *Western Ontario*, M.D. *Ottawa*  
 Broderick, V., M.D. *Memorial*, C.C.F.P.  
 Brown, G., B.Sc., M.D. *Memorial*, C.C.F.P.-E.M.  
 Duggan, N., M.D. *Memorial*, C.C.F.P.  
 Flynn, H., M.D. *Memorial*, C.C.F.P.  
 Graham, W., M.D. *Memorial*, C.C.F.P.  
 Morgan, D., M.D. *Memorial*, C.C.F.P.-E.M.  
 Sherman, G.P., B.A. *Cleveland*, M.D. *McGill*, C.C.F.P.  
 Snow, P., M.D., B.N. *Memorial*, C.C.F.P.  
 Stringer, K., M.B.Ch.B. *South Africa*, C.C.F.P.

#### Clinical Associate Professors of Family Medicine

Costello, T., M.D. *Memorial*, C.C.F.P., F.C.F.P.  
 Hall, J., M.Sc., M.D. *Memorial*, C.C.F.P.  
 Hatcher, L., M.D. *Memorial*, C.C.F.P.  
 St. Croix, E., M.D. *Memorial*, F.C.F.P.

#### Clinical Assistant Professors of Family Medicine

Aziz, M., M.B.Ch.B. *Baghdad*  
 Battcock, N., B.Sc., M.D. *Memorial*, C.C.F.P.  
 Bautista, E., B.Sc. *Memorial*, M.D. *Dalhousie*, C.C.F.P.  
 Bennett, E., B.Sc., B.Ed., M.D. *Memorial*, C.C.F.P.  
 Bowen, J., M.D. *Ottawa*  
 Burton, C., B.Sc., M.D. *Memorial*, C.C.F.P.

 Young, T., B.Sc.N., M.D. *Ontario*, C.C.F.P.

#### Clinical Lecturers of Family Medicine

Bannister, E., M.D. *Memorial*  
 Barter, R., M.D. *Dublin*, R.C.S., L.R.C.P.S.I.  
 Blagrove, D., M.D. *Dalhousie*  
 Brien, D., B.Sc., M.D. *Dalhousie*, C.C.F.P.  
 Button, L., M.D. *Dalhousie*, C.C.F.P., F.C.F.P.  
 Callahan, P., M.D. *Memorial*, C.C.F.P.  
 Comeau, L., B.Sc., B.Ed., M.D. *Dalhousie*, C.C.F.P.  
 Craig, B., B.Sc., M.D. *Dalhousie*  
 Crocker, P., M.D. *Memorial*, C.C.F.P.  
 Cutler, M., M.D. *Memorial*, C.C.F.P.  
 Darcy, S., M.D. *Memorial*, C.C.F.P.  
 Fitzgerald, C., B.A., M.D. *McMaster*, C.C.F.P.  
 Francis, S.L., B.ArtsSci., M.D. *McMaster*, C.C.F.P.  
 Goodfellow, M., B.Sc. *St. Dunstan's*, M.D. *Dalhousie*, C.C.F.P.  
 Grandy, B., M.D. *Memorial*, C.C.F.P.  
 Higgins, G.A., B.Sc., B.Med.Sc., M.D. *Memorial*, C.C.F.P.  
 Horwood, K., M.D. *Memorial*, C.C.F.P.  
 Irfan, M., M.B.B.S. *Sri Lanka*, C.C.F.P.  
 Jardine, F., M.D. *Memorial*, C.C.F.P.  
 King, J.F., B.Sc., B.Med.Sc., M.D. *Memorial*, C.C.F.P.  
 Laurie, A., M.R.C.S., L.R.C.P., D.C.H. *United Kingdom*, C.C.F.P.  
 Lemire, F., M.D., C.M. *McGill*, C.C.F.P.  
 MacLeod, S., B.Sc., M.D. *Memorial*, C.C.F.P.  
 McComiskey, A., M.D. *Ireland*  
 Mercer, G., M.D. *Memorial*, C.C.F.P.  
 O'Keefe, M., B.Sc., M.D. *Toronto*, C.C.F.P.  
 Oldford, J., B.A., M.S.W. *Toronto*  
 Pearce, B., M.D. *Memorial*  
 Penney, C., MB, BS *London*  
 Power, L., M.D. *Memorial*, C.C.F.P.  
 Rashleigh, D., M.D. *Queen's*  
 Stevenson, R., M.D. *Memorial*  
 Verge, J., M.D. *Memorial*, C.C.F.P.  
 Woolfrey, J., M.D. *Memorial*, C.C.F.P.  
 Zigante, N., M.D. *Memorial*, C.C.F.P.

#### Cross Appointed from Counselling Center

Cornish, P., B.Sc., M.A., Ph.D. *Saskatchewan*  
 Doyle, M., B.Sc.(Hons.) *Memorial*, Med.Ed.D. *Toronto*  
 Hurley, G., B.A. *Colorado College*, M.Sc., Ph.D. *Missouri*

#### Cross Appointed from School of Pharmacy

Bishop, L., Pharm.D. *Colorado*  
 Law, R., Pharm.D. *Buffalo*

#### Cross Appointed from Discipline of Psychiatry

Oldford, J., M.S.W., R.S.W. *Toronto*

#### Honourary Research Professor

Worrall, G., B.Sc., M.B.B.S. *University of London, England*, MRCS,  
 MRCP, C.C.F.P., M.Sc. *McMaster*

#### Professional Associate

Cahill, D., Nurse Practitioner; Cross appointed by School of  
 Pharmacy

#### Genetics

##### Professor and Chair

Younghusband, H.B., B.Sc., M.Sc. *Carleton*, Ph.D. *ANU*

##### Professor Emeritus

Ives, E.J., M.B., Ch.B. *Glasgow*, DCH *London*, MS *Michigan*,  
 FRCP

##### Professors of Genetics

Green, J., M.Sc. *British Columbia*, Ph.D. *Memorial*  
 Green, R., B.Sc., Ph.D. *Birmingham*

##### Associate Professors of Genetics

Fernandez, B., M.D. *Memorial*, FRCP, FCCMG *Toronto*  
 Sun, G., M.D. *CMU China*, Ph.D. *Hiroaki U Japan*  
 Young, T., B.Sc.(Hons.), Ph.D. *Memorial*, Winner of the  
 President's Award for Outstanding Research, 2009

##### Assistant Professors of Genetics

Savas, S., B.Sc., M.Sc., Ph.D. *Bogazici, Turkey*  
 Turner, L., M.D., FRCP *Memorial*, FCCMG *British Columbia*  
 Woods, M., B.Sc., Ph.D. *Memorial*

##### Adjunct Professor of Genetics

Bassett, A., B.Sc., M.D. *British Columbia*, FRCP

#### Cross Appointed from Laboratory Medicine

Han, F-Y, M.D. *Henan*, FCCMG *McGill*  
 Randell, E.W., Ph.D. *Memorial*, DCC, FCACP *Toronto*  
 Xie, Y.G., M.D. *Henan*, Dr.Med. *Zurich*, FCCMG *Queen's*

#### Cross Appointed from BioMedical Sciences

Dorward, A.M., B.Sc., Ph.D. *McMaster*

#### Cross Appointed From Medicine

Rahman, P., M.D. *Memorial*, M.Sc. *Toronto*, FRCP; Winner of  
 the President's Award for Outstanding Research, 2003-2004

#### Medicine

##### Professor and Chair

Gulliver, W.P., B.Sc., B.Med.Sc., M.D. *Memorial*, FRCP

##### Professores Emeriti

Bowmer, M.I., B.Sc., M.D., C.M. *McGill*, FRCP  
 Pryse-Phillips, W.E.M., M.D. *London*, M.R.C.P., FRCP, Neuro.,  
 M.R.C. Psych., F.R.C.P.

##### Professors of Medicine

Carayanniotis, G., B.Sc. *Patras*, Ph.D. *Toronto*; Joint appointment  
 with BioMedical Sciences  
 Peters, S., M.D. *Memorial*, MPH *Milwaukee*, FRCP

##### Professor of Medicine (Biochemistry)

Vasdev, S.C., B.Sc., M.Sc., Ph.D., D.V.M. *Punjab*; Cross  
 appointment to BioMedical Sciences

##### Professor of Medicine (Cardiology)

Sussex, B.A., M.B.B.S. *Melbourne*, M.Sc. *Alberta*, FRCP

##### Professor of Medicine (Endocrinology)

Kovacs, C.S., M.D., B.A. *Queen's*, FRCP; Cross appointment to  
 Obstetrics & Gynecology; Winner of the President's Award for  
 Outstanding Research, 2002-2003

##### Professor of Medicine (Geriatrics)

Sclater, A., B.Sc. *Windsor*, M.Sc., B.Med.Sc., M.D. *Memorial*,  
 FRCP

##### Professor of Medicine (Gastroenterology)

Fardy, J.M., B.Med.Sc., M.D. *Memorial*, M.Sc. *Western Ontario*,  
 FRCP

##### Professors of Medicine (Nephrology)

Barrett, B.J., M.B., B.Ch., B.A.O. *Cork*, M.Sc., FRCP

Harnett, J., M.B., B.Ch., B.A.O. *Cork*, F.R.C.P.I., FRCPC  
 Parfrey, P., M.B., B.Ch., M.D. *Cork*, M.R.C.P., FRCPC; University  
 Research Professor, Awarded 1995

#### Professors of Medicines (Neurology)

Goodridge, A.E., M.D. *Memorial*, FRCPC; Winner of the President's  
 Award for Distinguished Teaching, 1998  
 Ogunyemi, A.O., M.B., B.S. *Lagos*, FRCPC

#### Professor of Medicine (Respirology)

Fox, G.A., B.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC

#### Professor of Medicine (Rheumatology)

Rahman, P., M.D. *Memorial*, M.Sc. *Toronto*, FRCPC; Winner of  
 the President's Award for Outstanding Research, 2003-2004

#### Professor of Medicine and Therapeutics (Part-time)

Ingram, D.W., M.B., B.Ch., B.A.O. *Queen's University, Belfast*,  
 M.S.(Med.) *Minnesota*, M.C.F.P.(Honorary), F.R.C.P.(C),  
 F.A.C.P.

#### Associate Professor of Medicine (Cardiology)

Connors, S., D.Phil. *Oxford*, M.D. *Memorial*, FRCPC

#### Associate Professors of Medicine (Endocrinology)

Galway, A.B., B.Med.Sc., M.D. *Memorial*, FRCPC; Cross  
 appointment to Obstetrics & Gynecology  
 Joyce, C.J., M.D. *Dalhousie*, FRCPC; Cross appointment to  
 Obstetrics & Gynecology

#### Associate Professors of Medicine (Gastroenterology)

Borgaonkar, M., B.Sc., M.D. *Memorial*, FRCPC  
 Burse, F., B.Sc., M.D. *Memorial*, FRCPC

#### Associate Professors of Medicine (Hematology)

Grewal, K.S., B.Med.Sc., M.D. M.Sc. *Memorial*, FRCPC  
 Scully, M.F., M.B., B.A.O., B.Ch. *Dublin*, F.R.C.P.I., FRCPC

#### Associate Professors of Medicine (Nephrology)

Murphy, S., B.Sc. *St. Francis Xavier*, B.Med.Sc., M.D. *Memorial*,  
 FRCPC  
 Paul, M., M.D. *Toronto*, FRCPC

#### Associate Professor of Medicine (Rheumatology)

Hamilton, S.F., M.D. *Memorial*, FRCPC

#### Associate Professor of Medicine & Genetics

Fernandez, B., M.D. *Memorial*, FRCPC, FCCMG

#### Associate Professor of Medicine and Family Medicine

MacDonald, S.M., B.Sc.N., M.D. *McMaster*, C.C.F.P.

#### Associate Professor of Medicine & Pathology

Whitman, L.A., B.Sc. *McGill*, M.D. *Memorial*, FRCPC

#### Associate Professor of Nursing and Medicine

Way, C., B.N., B.A. *Memorial*, M.Sc.(A) *McGill*, Ph.D. *Virginia*

#### Assistant Professors of Medicine

Berman, M.I., M.B., B.Ch. *South Africa*, FRC(SA)  
 Iqbal, S.J., B.Sc., M.B., B.S. *Rawalpindi Medical College*, M.Sc.  
*Memorial*, FRCPC, ABIM

#### Associate Professor of Medicine

Mugford, G., B.Sc., Ph.D. *Memorial*

#### Assistant Professor of Medicine (Critical Care)

Bandrauk, N.A., M.D., C.M. *McGill*, FRCPC, ABIM

#### Assistant Professor of Medicine (Endocrinology)

Chandurkar, V., M.B., B.S. *Bombay*, ABIM, ABEM

#### Assistant Professors of Medicine (Emergency Medicine)

Baggs, D., M.Sc., M.D. *Memorial*, FRCPC  
 Seviour, C., B.Sc., M.D. *Memorial*, FRCPC

#### Assistant Professors of Medicine (Gastroenterology)

Leonard, J.R., B.Sc., M.D. *Memorial*, FRCPC  
 McGrath, J.S., B.Sc., M.D. *Memorial*, FRCPC

#### Assistant Professors of Medicine (Hematology)

Hickey, J.M., B.Sc., M.D. *Memorial*, FRCPC  
 Tompkins, K.A., B.Med.Sc., M.D. *Memorial*, FRCPC

#### Assistant Professor of Medicine (Infectious Diseases)

Nguyen, C., B.Sc., M.Sc., M.D. *Toronto*, FRCPC

#### Assistant Professors of Medicine (Neurology)

Eustace, M.L., B.Sc., M.D. *Memorial*, FRCPC  
 Stefanelli, M., B.Sc., M.D. *British Columbia*, FRCPC

#### Assistant Professors of Medicine (Nephrology)

Curtis, B.M., B.Sc. *McGill*, B.Med.Sc., M.D. *Memorial*, FRCPC  
 Pike, A.P., B.Sc. *McGill*, M.D. *Memorial*, FRCPC  
 Shik, J., B.Sc., M.D. *Toronto*, FRCPC

#### Assistant Professors of Medicine (Respirology)

Anwar, M.A.Q., M.B., B.S. *Rawalpindi Medical College*, ABIM,  
 ABPM

## Laboratory Medicine

**Chair and Professor of Laboratory Medicine (Forensic)**  
Avis, S., B.Med.Sc., M.D. *Memorial*, FRCPC

**Associate Professor of Medicine & Laboratory Medicine (Hematology)**  
Whitman, L.A., B.Sc. *McGill*, M.D. *Memorial*, FRCPC

**Associate Professor of Laboratory Medicine (Pathology)**  
Morris-Larkin, C., M.D. *Memorial*, FRCPC

**Professor of Laboratory Medicine (Immunology)**  
Grant, M., B.Sc., M.Sc. *British Columbia*, Ph.D. *McMaster*

**Professor of Laboratory Medicine (Medical Microbiology)**  
Hutchinson, J.M., B.Sc., M.D. *Alberta*, FRCPC

**Associate Professor Laboratory Medicine (Biochemistry)**  
Randell, E.W., Ph.D. *Memorial*, DCC, FCACB *Toronto*

**Associate Professor of Laboratory Medicine (Molecular Genetics)**  
Xie, Y.G., M.D. *Henan*, FCCMG *Queen's*, Dr.Med. *Zurich*

**Associate Professor of Laboratory Medicine (Cytogenetics)**  
Han, F.Y., M.D. *Henan*, FCCMG *McGill*

**Assistant Professors of Laboratory Medicine**  
Makretsov, N., M.D. *Far Eastern State Medical, Khabarovsk, Russian Federation*, Ph.D. *N.N. Blokhim Cancer Research Centre of Academy of Medical Sciences, Moscow, Russian Federation*, FRCPC  
Pirzada, A., F.Sc., H.Sc., M.D. *Karachi*

**Clinical Associate Professor of Laboratory Medicine**  
Pushpanathan, C., M.B., B.S. *India*, FRCPC

**Assistant Professor of Laboratory Medicine (Neuropathology)**  
Barron, J., M.Sc., M.D. *Memorial*, FRCPC

**Clinical Assistant Professors of Laboratory Medicine**  
Afruzian, M., M.D. *Tehran, Iran* ECFMG  
Aljerian, K., MBBS *King Saud*, MHSc, FRCPC *Toronto*, Fellowship of Forensic Pathology, Fellowship of Neuropathology *McMaster*  
Cook, D.M., B.Med.Sc., M.D. *Memorial*, FRCPC  
Denic, N., M.D., Ph.D. *Belgrade*, FRCPC  
Gallagher, B., M.Med.Sc, M.D. *Dublin*, FRCPC, FCAP  
Wadden, P., M.D., B.Med.Sc., B.Sc. *Memorial*, FRCPC

**Clinical Lecturer of Laboratory Medicine (Biochemical Pathology)**  
Varghese, A., B.Sc., M.Sc. *India*

**Adjunct Professor**  
Madhavankutty, K.M., B.Pharm. *B.H.U. India*, Ph.D. *London, England*, FCACG

## Oncology

**Professor and Chair**  
Saltman, D.L., M.D. *Memorial*, Ph.D. *Edinburgh*, FRCP(C)

**Associate Professor of Oncology**  
Laing, K., M.D. *Memorial*, FRCP(C)

**Clinical Associate Professor of Oncology (Radiation Oncology)**  
Ganguly, P., M.B., B.S. *Calcutta*, D.M.R.T. *London*, FFRCSI

**Clinical Assistant Professors of Oncology (Radiation Oncology)**  
Greenland, J., M.D. *Memorial*, FRCP(C)  
Kamran, A., M.B., B.S., FRCSE, FFRCSI, FRCP(C)  
Norman, A., M.D. *Manitoba*, FRCP(C)  
Stuckless, T., M.D., *Memorial*, FRCP(C)  
Tompkins, B., M.D. *Memorial*, FRCP(C)

**Clinical Assistant Professors Oncology (Medical Oncology)**  
Ahmad, C., M.B., B.S., FRCP(C)  
McCarthy, J., M.D. *Memorial*, FRCP(C)  
Rorke, S., M.D. *Memorial*, FRCP(C)  
Siddiqui, J., M.B., B.S., FRCP(C)  
Zulfiqar, M., M.B., B.S., FRCP(C)

## Clinical Assistant Professor Oncology (Pharmaceutical Sciences)

Edwards, S., B.Sc.(Pharm.) *Memorial*, Pharm.D. *University of Washington*

**Cross Appointed from Genetics**  
Savas, S., B.Sc., M.Sc., Ph.D. *Bogazici, Turkey*

**Cross Appointed from Biomedical Sciences**  
Gendron, R., B.Sc., Ph.D. *McGill*  
Larijan i, M., Ph.D. *Toronto*

## Pediatrics

**Associate Professor & Chair**  
Vardy, C., M.D. *Memorial*, FRCPC

**Professor of Pediatrics**  
Cooper, A.R., B.Sc. *Memorial*, M.D. *Dalhousie*, FRCPC

**Professor of Pediatrics (Neonatology)**  
Andrews, W., B.Sc. *Memorial*, M.D. *Dalhousie*, FRCPC

**Associate Professors of Pediatrics**  
Barter, O.J., M.D. *Memorial*, FRCPC  
Bridger, T., M.D. *Memorial*, FRCPC  
Buckley, D., M.B., Ch.B. *Sheffield*, F.R.A.C.P. *Australia*  
Curtis, J.A., M.B., B.Ch., B.A.O. *Cork*, M.R.C.P. *UK*, FRCPC  
Morris, R.F., M.D. *Memorial*, FRCPC  
Newhook, L.A., M.D. *Memorial*, FRCPC

**Assistant Professors of Pediatrics**  
Critch, J., M.D. *Memorial*, FRCPC  
Dancey, P., M.D. *Memorial*, FRCPC  
Deshpandey, A.K., M.D. *Gandhi Medical College*, MBBS  
Dominic, A., M.D. *Memorial*, FRCPC  
Drover, A., M.D. *Memorial*, FRCPC  
Moore, S., M.B., Ch.B. *Edinburgh*  
O'Brien, C., M.D. *Memorial*  
Porter, R., M.D. *Memorial*  
Shah, S., M.B., Ch.B. *Makerere*, M.Med. (Pediatrics), FRCPC

**Professor (Psychology)**  
Adams, R.J., B.A. *Concordia*, Ph.D. *McMaster*

**Associate Professor (Psychology)**  
Courage, M.L., B.A. *Memorial*, M.Sc. *Alberta*, Ph.D. *Memorial*

**Clinical Professor of Pediatrics**  
Davis, A.J., M.D. *Dalhousie*, FRCPC

**Clinical Associate Professors of Pediatrics**  
Cheriyian, M., M.B.B.S. *Nagpur*, MRCP (UK), FRCPC  
Kamra, P., M.B., B.S. *Punjab*, FRCPC  
Muram, B., M.B., B.S. *India*, FRCPC

**Clinical Associate Professor of Pediatrics (Immunology/Allergy)**  
Hamed, A., M.B., B.Ch. *Cairo*, M.Sc. (Immunology) *Memorial*, FRCPC

## Clinical Assistant Professors of Pediatrics

Aladetoyinbo, A. MBBS *Nigeria*  
Alam, M., M.B.B.S. *Pakistan*  
Alexander, W.J., M.D. *Memorial*, FRCPC  
Bowes, L., M.D. *Memorial*  
Bula, L., M.D.  
Chrappa, J., M.D. *Bratislava*, FRCPC  
Feener, T., M.D. *Memorial*  
Guntamukkala, P., M.B.B.S. *India*, FRCPC  
Hand, J., M.D. *Memorial*, FRCPC  
Henderson, K., M.D. *Dalhousie*  
Javed, F., M.D. *Pakistan*  
Kelly, M., M.B., B.Ch., BAD *Dublin*, FRCPC  
Kemp, I., M.B., Ch.B. *South Africa*, FRCPC  
Kwa, P.G., M.D. *Taiwan*, FRCPC  
Lambert, T.B., M.D. *Memorial*, FRCPC  
Luscombe, S., M.D. *Memorial*  
Marshall, I., M.D. *Memorial*  
Meek, D.C., M.B., B.Ch. *Cardiff (Wales)*, FRCPC  
Murphy, A., M.D., FRCPC, FAAP  
Natsheh, S.E., B.M.Sc., B.Sc. *Memorial*, FRCPC  
Ojay, C.R. *West Indies*  
Paras, E., *Istanbul (Turkey)*, FRCPC  
Reid, D., B.Sc. *Dalhousie*, M.D. *Memorial*, FRCPC

Sanderson, S., *Toronto*, FRCPC  
 Stewart, W., M.D. *Calgary*, FRCPC  
 VanGelder, R.J., M.D. *Amsterdam*  
 Vivian, L., M.D. *Memorial*  
 Zuin, C., M.B.B. *Ch. National University of Cordoba*

#### Clinical Assistant Professor of Medicine

Landells, I.D.R., B.Med.Sc., M.D. *Memorial*, FRCPC

#### Clinical Lecturers of Pediatrics

Bessell, C., R.N., B.Ed.(Voc.) *Memorial*  
 Rolfe, J., B.N. *Memorial*, M.Sc. *New York*  
 White, S., B.N. *Memorial*

#### Cross Appointed from Laboratory Medicine

Han, F.Y., M.D. *China*  
 Xie, Y.G, M.D. *Hanan, Dr.Med. Zurich*

#### Cross Appointed from Surgery

Price, D.I., B.Med.Sc., M.D. *Memorial*, FRCSC

#### Adjunct Professors

Acott, P., B.Sc. *New Brunswick*, M.D. *Dalhousie*  
 Crocker, J., B.Sc. *King's College*, M.D. *Dalhousie*, FRCPC

### Psychiatry

#### Professor and Chair

Callanan, T.S., B.Sc., M.D. *Memorial*, Dip.Psych. *McGill*, FRCPC;  
 Cross appointed to Counselling Centre

#### Professor

Muhammad, A., M.B.B.S. *Dow*, MRCPsych, FRCP, Ph.D. *Anglia University*, BCPsych, DPM, DCP, MCPS

#### Associate Professors of Psychiatry

Adey, T., M.D. *Memorial*, FRCPC  
 Craig, D.F., B.Sc. *McGill*, M.D. *Alberta*, FRCPC  
 LeDrew, K., M.D. *Memorial*, FRCPC

#### Associate Professors of Child and Adolescent Psychiatry

St. John, K., B.Sc. *Mount Allison*, B.Med.Sc., M.D. *Memorial*, FRCPC  
 White, H.P., B.Sc., M.D. *Memorial*, FRCPC

#### Associate Professor of Forensic Psychiatry

Ladha, N.B., M.B. *Dublin*, FRCPC, DABPN

#### Associate Professor of Psychiatry (Clinical Epidemiology)

Mugford, G., B.Sc., Ph.D. *Memorial*

#### Associate Professor (Cross Appointment from Pharmacy)

Phillips, L., B.Sc.(Pharm.) *Memorial*, Pharm.D. *British Columbia*

#### Associate Professor (Cross Appointed from Family Medicine)

Tarrant, G.M., M.D. *Memorial*, CCFP, FCFP, CGPP

#### Associate Professor (Joint Appointment with Biological Psychiatry)

Chen, X., M.B. *China*, Ph.D. *Cambridge*

#### Assistant Professors of Psychiatry

Hearn, T., B.A., M.Sc., M.D. *Memorial*, FRCPC  
 Luscombe, K., M.D. *Memorial*, FRCPC  
 Lynch, S., B.Sc., M.D., *Memorial*, FRCPC  
 Noble, S., M.D. *Queen's*, FRCPC  
 Penney, A., M.D. *Memorial*, FRCPC  
 Radu, G., M.D. *Carol Davila University*, M.B.A. *University of Liverpool*, FRCPC

#### Assistant Professor of Child and Adolescent Psychiatry

Bonnell, W., B.Sc., M.D. *Memorial*, FRCPC

#### Assistant Professors (Cross Appointments from Psychology)

Francis, S., B.A., M.A., Ph.D. *University of Hawaii*  
 Mezo, P., B.Sc., Ph.D. *University of Hawaii*

#### Adjunct Professor of Psychiatry

Karagianis, J.L., B.Med.Sc., M.D. *Memorial*, FRCPC

#### Clinical Associate Professors of Psychiatry

Angel, J., M.D. *Memorial*, FRCPC  
 Hasnain, M., M.B., B.S. *Rawalpindi Medical College*, DABPN  
 Hogan, M.W., B.A. *St. Mary's*, M.D. *Dalhousie*, FRCPC  
 Morehouse, R., M.D. *Dalhousie*, FRCPC  
 Noseworthy, G., M.D. *Memorial*, FRCPC

#### Clinical Associate Professors of Child and Adolescent Psychiatry

Hassuk, B., M.D. *University of Vermont College of Medicine*, DABPN  
 Maddigan, B., B.Sc., B.Med.Sc., M.D. *Memorial*, FRCPC

#### Clinical Assistant Professors of Psychiatry

Brace, A.W., M.D. *Memorial*, FRCPC  
 Broaders, M., M.D. *Memorial*, FRCPC  
 Caravan, C., M.D. *Memorial*, FRCPC  
 Collins, D., B.Med.Sc., M.D. *Memorial*, FRCPC  
 Dolezalek, J., M.D. *Comenius University*, FRCPC  
 Hogan, K., M.D. *Memorial*, FRCPC  
 Kennedy, N., M.D. *Memorial*, FRCPC  
 MacLaughlin, D., M.D., B.Med.Sc. *Memorial*, FRCPC  
 Martins, I., B.Med.Sc., M.D. *Memorial*, FRCPC

## Division of Community Health and Humanities

### Associate Dean and Professor of Community Health

Mulay, S., Ph.D., M.Sc. *McGill*, B.Sc. *Delhi, India*

### Professores Emeriti

Fodor, J.G., M.D., Ph.D. *Prague*, FRCPC

West, R., M.Sc., Ph.D. *McGill*

### Honorary Research Professors

Bavington, W., B.A. *Graceland College*, M.D. *Toronto*, D.T.M.H

*Liverpool*, M.P.H. *Johns Hopkins*, F.A.C.P.M., FRCPC

Buehler, S., A.B. *Illinois College*, M.A. *Indiana*, Ph.D. *Memorial*

Crellin, B., B.Pharm., L.R.C.P., M.P.S., M.R.C.S., M.Sc., Ph.D., *London*

### Clinical Professor of Microbiology and Epidemiology

Ratnam, S., M.Sc. *Madras*, Ph.D. *Delhi*

### Epidemiology and Public Health

#### Associate Professor of Community Health

Donovan, C., B.Med.Sc., M.D. *Memorial*, M.H.Sc. *British Columbia*

#### Associate Professor of Epidemiology

Wang, P., Ph.D., M.D., M.P.H. *China*

#### Associate Professor of Nutrition/Dietetics

Roebothan, B., B.Sc. *Memorial*, M.Sc. *Saskatchewan*, Ph.D. *Memorial*

#### Adjunct Professor of Pharmacoepidemiology

Rawson, N.S.B., B.Sc. *Leicester*, M.Sc. *Newcastle-upon-Tyne*, Ph.D. *Southampton*

#### Clinical Professors of Community Health and Humanities

Allison, D., M.D. *Queen's*, FRCP

Godwin, M., B.Med. *Memorial*, M.Sc. *Queens*; Cross appointed from Discipline of Family Medicine

#### Assistant Professor of Epidemiology

Valcour, J., B.Sc., M.Sc., Ph.D. *Guelph*

### Health Care Delivery

#### Associate Professor of Health Care Policy and Delivery

Neville, D., B.N. *Memorial*, M.Sc.N. *Toronto*, S.M., Sc.D. *Harvard*

#### Associate Professor of Health Policy/Health Care Delivery

Mathews, M., B.Sc., B.A. *Calgary*, M.H.S.A. *Alberta*, Ph.D. *Toronto*

#### Assistant Professor of Health Policy/Health Care Delivery

Maddalena, V., Ph.D. *MHSA*, B.N. *Dalhousie*; Cross appointment to School of Nursing

#### Clinical Assistant Professor of Health Care Delivery

Clarke, B., B.S.W. *Memorial*, M.S.W. *Carleton*, R.S.W.

#### Professional Associate of Health Care Delivery

House, J., B.A. *Reading*, B.Ed. *Memorial*, LL.B. *Dalhousie*

### Health Statistics and Health Information Systems

#### Professor of Biostatistics

Gadag, V., B.Sc., M.Sc. *Karnatak*, M.Phil., Ph.D. *Poona*; Cross appointment to Department of Mathematics and Statistics

#### Assistant Professor of Biostatistics/Quantitative Research Methods

Yi, Y., B.Sc., M.Sc. *China*, M.Sc., Ph.D. *Manitoba*; Cross appointment to Department of Mathematics and Statistics

#### Assistant Professor of Health Statistics and Economics

Audas, R., B.B.A. *New Brunswick*, M.B.A., M.A. *Dalhousie*, Ph.D. *Wales*

#### Cross Appointed From Geography

Simms, A., B.A. *Memorial*, M.Sc., Ph.D. *Calgary*

#### Clinical Assistant Professor

Doyle, M., B.A., Ph.D. *Memorial*, M.A. *Guelph*

### Social and Behavioural Science

#### Associate Professors of Social Science and Health

Beausoleil, N., B.A. *Laval*, M.A., Ph.D. *UCLA*

Gustafson, D., B.A. *McMaster*, M.Ed. *Brock*, Ph.D. *Toronto*

### Adjunct Professor of Social and Behavioral Science

Hanrahan, M., Ph.D. *London, UK*, M.A. *Ottawa*, B.A. *Memorial*

### Joint Appointments

#### Assistant Professor Joint Appointed from Counselling

Heath, O., B.A. *McGill*, M.Sc., Ph.D. *Memorial*

#### Assistant Professor Joint Appointed from Nursing

Kearney, A., B.N., Ph.D. *Memorial*, M.H.Sc. *Toronto*

### Canada Research Chairs, Tier II

#### Canada Research Chair in Health Promotion and Community Development

Traverso, M., Ph.D. *Spain*, B.A. *Ecuador*

#### Canada Research Chair in Healthy Aging Joint appointed with Nursing

Young, W., B.Sc. *Trent*, M.A. *Ontario*, Ph.D. *Toronto*

### Clinical

Allison, D., M.D. *Queen's*, FRCP

Clarke, B., B.S.W. *Memorial*, M.S.W. *Carleton*, R.S.W.

**Associate**

O'Shea, C., L.R.C.P.S. and P.I. *Dublin*, M.D.

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 Background

The Faculty of Medicine of Memorial University of Newfoundland is one of 17 Canadian medical schools and was one of the four schools suggested by the Hall Royal Commission on Canadian Health Services in its 1964 report.

A series of meetings was begun in 1963 between representatives of Memorial University of Newfoundland, the Newfoundland Medical Association, and the Department of Health of the Government of Newfoundland and Labrador. Following the Hall Commission's recommendation and on the basis of positive advice from Dr. J. Wendell MacLeod, Executive Secretary of the Association of Canadian Medical Colleges, and Dr. Chester B. Stewart, Dean of Medicine at Dalhousie University, Halifax, Nova Scotia, Memorial University of Newfoundland established a Commission in 1965 to undertake a feasibility study. The late Dr. J.A. MacFarlane, formerly Dean of Medicine at the University of Toronto, and a member of the Hall Royal Commission served as chairman. The MacFarlane Commission's recommendation that a Medical School be established at Memorial University of Newfoundland was confirmed independently by a Royal Commission on Health Services for Newfoundland and Labrador. The chairman of this latter Commission, Lord Brain, an eminent British medical educator, and his advisors, reported that the location of a medical school in the Province was a necessary step in the provision of adequate medical services for Newfoundland.

Dr. Ian Rusted, a local physician who had been involved in the early negotiations and had taken the initiative in introducing continuing medical education for doctors in the Province, was appointed Dean of Medicine in 1967. Under his leadership, faculty members were recruited, the undergraduate program was initiated and the first medical students were admitted in 1969. The existing programs of postgraduate training and continuing medical education were strengthened and the spectrum of medical education was subsequently completed in 1971 with the initiation of a program of graduate studies leading to the degrees of M.Sc. and Ph.D.

The undergraduate curriculum was designed to foster integrated learning and to permit contact with patients early in the student's training. To facilitate this integrated approach the administration of the school was set up as a non-departmental system based on three Divisions: Community Health, BioMedical Sciences and Clinical Sciences.

Initially the Faculty of Medicine was housed in temporary buildings. With joint funding by the Federal and Provincial Governments, a Health Sciences Centre (HSC) was constructed on the North Campus of the University and was officially opened in 1978. This new building became home to the Faculty of Medicine General Hospital and the School of Nursing. Over time the building was expanded, and now it also houses the School of Pharmacy, the Janeway Children's Health and Rehabilitation Centre, the Dr. H. Bliss Murphy Cancer Centre and the Agnes Cowan Hostel. The Health Sciences Centre contains a comprehensive health sciences library, animal care and research facilities, plus an appropriate range of teaching facilities to accommodate large lectures and demonstrations, small group discussions and seminars, clinical skills and laboratory sessions. The structure of the Health Sciences Centre facilitates integration between basic scientists, clinicians and allied health workers in the hospital, the University and the community. Clinical research facilities are located adjacent to basic research units and some research laboratories provide services in clinical investigation. Services such as cafeteria and stores are common to the Faculty of Medicine and the Eastern Regional Health Authority.

The General Hospital and Janeway Children's Health and Rehabilitation Centre are part of a network of teaching hospitals in St. John's and throughout the Province. The conventional use of major referral centres as teaching resources is complemented by the availability of regional and community hospitals to provide valuable clinical experience for undergraduate and postgraduate medical students.

In contrast to many other schools, the class size at the University's Medical School is small. This facilitates interaction between students and faculty, and has obvious advantages in clinical teaching. Normally 60 students are admitted annually to the first year of the undergraduate medical program.

Additional information regarding the Faculty of Medicine is available at [www.med.mun.ca/medicine/home.aspx](http://www.med.mun.ca/medicine/home.aspx).

## Health Sciences Information and Media Service

**Director**

O'Neill, S., B.Sc. *Memorial*

### 3 Mission and Objectives of the Faculty of Medicine

The Mission of the Faculty of Medicine is to enhance the health of the people of Newfoundland and Labrador by educating physicians and health scientists; by conducting research in clinical and BioMedical Sciences and applied health sciences and by promoting the skills and attitudes of lifelong learning

The objectives of the Faculty of Medicine are consistent with the objectives of Memorial University of Newfoundland in developing and maintaining excellence in the quality of its academic standards and of research, establishing programs to meet the expanding needs of the Province and of providing the means to reach out to all the people.

The Faculty seeks to attain these objectives through an organizational structure which allows optimum interaction among the various disciplines within the Medical School and with other Faculties and Schools as appropriate.

The term 'Medical School' refers to the wider organizational structure of the Faculty of Medicine with various healthcare, institutions, community organizations and other academic units with the University.

The specific objectives are:

1. To teach medical students to be physicians; and to provide such learning experiences as will inspire all medical graduates of the school to be prepared to practice medicine at the highest standards, serving all individuals and societies in the pursuit of health.
2. To acknowledge the special geography of this Province by encouraging the education of physicians with exemplary skills for rural practice.
3. To educate and train graduate and diploma students in the health sciences.
4. To provide postgraduate educational experiences in medicine and the medical sciences such that the graduating Canadian physicians will pursue further studies within the school's postgraduate programs, leading to certification in family medicine or specialist subjects, especially in those areas where deficiency in numbers is currently recognized or anticipated.
5. To instill within students at all levels:
  - a. The wish and the capacity to further the practice and science of medicine through the creation of new knowledge for the improvement of the health of the world's peoples.
  - b. The wish and the capacity to improve their own professional practice through continuing self-assessment and scholarship.
  - c. An appreciation of their evolving roles as members of a team of professionals possessing complementary skills.
6. To attract faculty members who will together:
  - a. Act as a resource in providing undergraduate, graduate, postgraduate, and continuing medical education.
  - b. Contribute to the advancement of educational methods.
  - c. Practice the highest quality of primary, secondary, or tertiary care medicine.
  - d. Show leadership in promoting research into the health of the individual and the community, including the organization of health care delivery systems.
  - e. Facilitate and promote education and research appropriate to our mid North-Atlantic environment.
7. To provide educational experiences in the health sciences to students from other Schools or Faculties of Memorial University of Newfoundland and of other educational institutions.
8. To provide Continuing Medical Education experiences which will help physicians to maintain and enhance their competence in medical skills.
9. To provide a learning environment for undergraduate, graduate, and postgraduate students of medicine and the medical sciences who are citizens of other countries.
10. Actively to provide an Informational, Educational and Consultative resource for the whole community.

### 4 Affiliated Teaching Sites

1. Within St. John's: (hospitals and other centres under the Eastern Regional Health Authority)
2. Outside St. John's: (hospital/community settings)
3. New Brunswick: (hospital/community settings)
4. Prince Edward Island: (community settings)

### 5 Description of Medical Training Program

The Faculty of Medicine offers a four-year undergraduate medical program, comprising a minimum of 186 credit hours, leading to the degree of Doctor of Medicine (M.D.).

The first two years of medical studies is called Pre-Clerkship. BioMedical Science courses are taught primarily in the first year of medical studies. Upon completion of these courses, the Integrated Study of Disease courses follow. Students undertake instruction in Community Health & Humanities and Clinical Skills concurrently. By the end of Pre-Clerkship, students are expected to be able to take a patient's medical history, perform a thorough physical examination and to derive a logical diagnosis. The Clerkship Preparation Course is completed prior to commencing the Clerkship.

The last two years of medical studies is called Clerkship. During this time, students who are clinical clerks take courses that will allow them to alternate through the major disciplines in hospital and community settings throughout affiliated teaching sites in Newfoundland and Labrador and community and hospital settings throughout Prince Edward Island and New Brunswick. Clinical clerks participate as members of the health care team gaining the knowledge and experience necessary to assume the responsibilities associated with patient care.

Upon successful completion of medical studies, the students are qualified to write Part I of the licensing examinations set by the Medical Council of Canada (MCC). After the award of the M.D. degree and following successful completion of one year of postgraduate training, they are qualified to write Part II of the MCC licensing examinations.

### 6 Continuing Medical Education

The Faculty of Medicine's Office of Professional Development and Conferencing Services delivers accredited continuing medical education (CME) programs and plays a major role in meeting the professional development needs of health care professionals throughout Newfoundland and Labrador and across Canada. CME is offered through a variety of formats, including teleconferencing, video-conferencing, online and onsite. Faculty development programs are designed specifically to assist faculty members in their own

unique educational requirements. Educational assessments and retraining experiences are available to physicians, international medical graduates and health care practitioners who meet the criteria. The Office of Professional Development and Conferencing Services is committed to assisting students, faculty members, and physicians in meeting their educational requirements.

## 7 Postgraduate Medical Training Programs

Postgraduate medical training is offered in programs leading to certification by either the College of Family Physicians of Canada (CFPC) or the Royal College of Physicians and Surgeons of Canada (RCPSC). These are full-time training programs comprised of hand-on-practical training complemented by formal teaching and academic study. The programs are completed in a structured learning environment consisting of hospital and community based teaching units, supervised by faculty. The level of responsibility afforded the student is based on regular evaluation of abilities by faculty. The Postgraduate training programs are accredited by the CFPC or the RCPSC and the appropriate licensing authorities.

Postgraduate entry positions are available through the Canadian Residency Matching Service. For further information write to The CaRMS Office, Suite 802, 151 Slater Street, Ottawa, Ontario K1P 5H3, or by telephone to (613) 237-0075, or toll free to (800) 291-3727, or the website at [www.carms.ca](http://www.carms.ca).

### 7.1 Family Emergency Medicine

The University offers a two-year residency in Family Medicine. This leads to eligibility for certification by the College of Family Physicians of Canada. Emergency medicine is a one-year program of specialty training. Successful completion of this program will lead to eligibility to sit the CCFP EM certification examination in emergency medicine.

### 7.2 Residency Training Programs

Memorial University of Newfoundland offers specialty training programs in Anesthesia, Internal Medicine (and subspecialty in Nephrology), Neurology, Obstetrics/Gynecology, Orthopedics, Anatomic Pathology, Pediatrics, Psychiatry, Radiology and General Surgery.

Internal Medicine and Pediatrics offer a straight program in the first year of the training program. The normal period of training in Internal Medicine or Pediatrics is four years post-M.D.

In the remaining specialty programs offered by Memorial University of Newfoundland, broad-based clinical training is offered as the first year of the training program. The total length of each of these programs is five years.

### 7.3 Clinical Fellowships

A sixth year of postgraduate study (Clinical Fellowship) may be available to residents who have completed specialty training requirements. These fellowships may be primarily directed to the clinical area, to teaching, or to research.

### 7.4 Registration

Postgraduate Trainees are registered each year as full-time students of Memorial University of Newfoundland.

### 7.5 Licensure in Newfoundland and Labrador

All trainees must be eligible for and obtain an educational license from the College of Physicians and Surgeons of Newfoundland (CPSNL). Advice will be provided by the Postgraduate Medical Education Office.

Information on requirements for International Medical Graduates is available through the website at [www.med.mun.ca/pgme](http://www.med.mun.ca/pgme).

## 8 Graduate Studies

Interdisciplinary interaction and research among the divisions of BioMedical Sciences, Community Health and Humanities and Clinical Sciences is promoted.

Programs have been designed to attract students interested in a Graduate Diploma or a M.Sc., Ph.D. or M.D.-Ph.D. degree and the Master of Public Health. Areas of strength include Applied Health Services Research, Cancer and Development, Cardiovascular and Renal Sciences, Clinical Epidemiology, Community Health, Human Genetics, Immunology and Infectious Diseases, and Neurosciences. Details of the graduate programs are provided in the School of Graduate Studies section of this Calendar.

## 9 Regulations for the Degree of Doctor of Medicine

### 9.1 Admission to the Faculty of Medicine

1. All applications for entry to the program of studies leading to the Doctor of Medicine (M.D.) degree are dealt with by the Admissions Office of the Faculty of Medicine and must be submitted to that office on or before the closing date (normally October 15th). No application received after this date will be considered. An application processing fee of \$75.00 is required from all applicants.
2. Applications are reviewed after the closing date by the Admissions Committee of the Faculty of Medicine. This Committee has the delegated authority of the Faculty Council to admit or decline to admit students, following guidelines and procedures acceptable to that Council.
3. Admissions will normally be to the first year of medical studies. In exceptional circumstances, admission with advanced standing may be offered.
4. Entry to medical school is on the basis of competition for a fixed number of places. The Admissions Committee takes account of an applicant's academic background, performance on the Medical College Admissions Test (MCAT) and information on an applicant's personal characteristics and achievements as given by the applicant, by referees' reports and, in some cases, by personal interviews. Age by itself is not used as a basis for selection or rejection. Both age and the length of time away from full-time studies may be taken into consideration. The residency status of each applicant at the time of the closing date for application (normally October 15) will be determined by guidelines established by the Admissions Committee and approved by Faculty Council. For each candidate, the residency status determined at that time will apply throughout the admissions process and the period of undergraduate medical education. Priority is given to applicants who are bona fide residents of this province.
5. The Admissions Committee's decision to admit or decline to admit an applicant will be made on the basis of the competition for entry in the year of application and will be determined by the Committee's judgement of the likelihood of an applicant succeeding in the

academic and professional studies leading to the award of the M.D. and in the eventual practice of medicine.

- To be eligible for admission, an applicant shall have completed a bachelor's degree including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission.

In exceptional circumstances an application may be considered from someone who does not expect to hold a bachelor's degree at the time of admission. Such an applicant will have completed at least 60 credit hours including the prerequisite subjects of 6 credit hours in English at a recognized university or university college before admission and be a student who has work-related or other experience acceptable to the Admissions Committee.

No application will be considered from a candidate who cannot produce evidence that the above requirements have been met or will have been met by the time of entry to the Medical School.

In addition, all applicants must write the MCAT prior to the application deadline. The MCAT should be written within the preceding five years of the date of application.

- Applicants need to be aware of the policy related to Essential Skills and Abilities Required for the Study of Medicine. This policy outlines essential skills and abilities needed to succeed in the M.D. program and it includes technical standards for students in the program and information for students with disability. This information is available on the Faculty of Medicine's website at [www.med.mun.ca/Admissions/Application-Preparation.aspx](http://www.med.mun.ca/Admissions/Application-Preparation.aspx).
- Each applicant is responsible for ensuring that all the required information on the application form, e.g. transcripts, MCAT scores, referee's reports, is supplied to the Admissions Committee, and for providing any further information required by this Committee. An application is not considered complete until these documents have been received.
- The Admissions Committee may request that a candidate attend an interview.
- Notification of the Committee's decision will be made to candidates by letter signed by, or on behalf of, the Chair of the Admissions Committee. No other form of notification can be considered to be official.
- The letter of acceptance will give the successful applicant fourteen (14) days in which to confirm that he/she will accept the place offered. The signed intention to accept the offered place must be accompanied by a deposit of \$200.00 which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the place.  
If no reply to the offer of a place is received within fourteen days, the offer by the Faculty of Medicine will be withdrawn on the appropriate date, and the applicant will be informed of this by letter.
- In order to register, applicants who have been accepted as international students will be required to sign a document indicating that they will pay differential fees throughout the undergraduate medical program and that they will have the status of non-Canadians in the postgraduate matching process.
- The Admissions Committee, at its discretion, may grant deferral of admission for one year to a maximum of two successful applicants in the first round of offers for any one admission cycle. An applicant must request a deferred entry at the time of responding to an offer of admission. The first round of offers are normally confirmed by mid-May and requests for deferral are considered by mid-June.
- Successful applicants must normally complete a certified Basic Cardiac Life Support course before beginning medical school.
- Unsuccessful applicants who wish to reapply for admission are required to submit the application forms relevant to the year of re-application and will be required to enter the competition in that year. An unsuccessful applicant can meet with the Assistant Dean for Admissions or the Admissions Officer to discuss reapplying prior to the deadline for submission of a new application (normally October 15).
- An unsuccessful applicant has the right to appeal against the decision of the Admissions Committee not to offer him/her a place, if it is felt by the applicant that the decision was reached on grounds other than those specified in Clauses 1-4 above. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Dean of Medicine. The letter should state clearly and fully the grounds for the appeal. If the Dean of Medicine, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.

## 9.2 Licensure in Newfoundland and Labrador and Other Approvals

All medical students must be eligible for and obtain an educational license from the College of Physicians and Surgeons of Newfoundland and Labrador (CPSNL).

The Faculty of Medicine does not require criminal record checks or other screening procedures as a condition of admission to its program.

Students, however, should be aware that such record checks or other screening procedures may be required by agencies used by the University for professional registration, clinical experiences or academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other requirement. As a result, such students may not be eligible for promotion or graduation. The student is responsible for having such procedures completed as required at his or her own expense. The screening procedures of any given agency may change from time to time and are beyond the control of the University.

## 9.3 Evaluation

- Subject to the approval of Senate, the overall policy of evaluation and the planning of the programs of studies leading to the M.D. degree are the responsibility of the Undergraduate Medical Studies Committee, which is a standing committee of the Council of the Faculty of Medicine.
- Each student is expected to complete the work of the class as described in the current regulations of the Faculty of Medicine for each year of the program and to pass the prescribed academic and professional evaluations. In this context, the professional evaluation will cover, not only the skills expected of a student, but personal conduct and relationships with peers, patients, hospital personnel, faculty members and staff.
- Course grades are recorded as pass or fail on a student's University transcript. For Pre-Clerkship courses/subjects and Medicine 7280, evaluation of an individual student's performance is conducted by the course/subject chair or instructor(s). The overall results of the course/subject evaluations are expressed on a four-point internal scale as outstanding, pass, borderline or fail. For Clerkship, overall evaluations of discipline rotations/selectives and electives are the responsibility of the respective discipline or electives co-ordinator. There is an internal five-point scale of outstanding, above average, average, below average and fail.
  - The Co-ordinator of the Pre-Clerkship or Clerkship and the Chair of the appropriate course/subject committee are responsible for ensuring that each student is informed of the results of each evaluation. The Chair of the course/subject committee will notify the student and Pre-Clerkship or Clerkship Co-ordinator, in writing, of any concerns that have arisen about performance.
  - It is the responsibility of the student to consult immediately with the Co-ordinator of the Pre-Clerkship or Clerkship Committee

and/or the Chair of the course/subject committee regarding any course/subject in which concerns about performance have been expressed. Within one week of receiving notification of the grade for a course/subject, a student may submit a written request to the Co-ordinator of the Pre-Clerkship or Clerkship Committee for reconsideration of the grade awarded or for a reread of an exam/paper.

- c. The student is responsible for notifying the Co-ordinator of the Pre-Clerkship or Clerkship Committee immediately of any new circumstances or of any pre-existing circumstances that have not previously been reported which could affect his or her individual performance in the work of the class.
4. A student's progress is monitored in each year of the program by the Pre-Clerkship or Clerkship Committee.

## 9.4 Promotion

1. The Student Promotions Committee is a standing committee of Faculty Council. The Student Promotions Committee review the grades of all students in each year. On the basis of this review, this Committee decides which students should be promoted to the next year and which students are eligible to graduate. In reaching its decisions the Student Promotions Committee takes into account professional, as well as academic factors, and any special circumstances, duly authenticated, which warrant consideration.
2. The Student Promotions Committee may require students to pass reassessments or to do remediation with reassessment before being considered for promotion or graduation. Students with a Fail grade in any subject or course cannot be promoted; such students may be required to repeat the entire course or any appropriate section and must pass an appropriate reassessment before a positive promotion decision is made. The amount and quality of makeup required of a student is at the discretion of the Student Promotions Committee, but it cannot be undertaken while any other course, including an elective, or a selective, is in progress, nor if a student's full participation in subsequent courses is in any way jeopardized. Any student who passes remediation and reassessment will have their transcript show only a "PAS" grade along with a transcript note reading: "Grade awarded in *course name and number* after a failing grade in *subject(s), n of n* components of *course number*."
3. A student who consistently receives Borderline or Below Average grades even in the absence of any Fail grades may either be required to repeat the year or required to withdraw conditionally or unconditionally.
4. A student who is deemed by the Student Promotions Committee to be unsuitable for promotion or graduation is either required to repeat all of the studies in any year, or required to withdraw either conditionally or unconditionally.
  - a. If a student is required to repeat a year with academic prejudice, his or her performance in the repeated year must be at a level at which no remediation or reassessment is required. If this standard is not met, the Student Promotions Committee requires the student to withdraw unconditionally.
  - b. The option to repeat a year with academic prejudice can only be offered to a student once during his/her M.D. program. A student may repeat a year without academic prejudice if it has been demonstrated that the student's performance has been adversely affected by other factors acceptable to the Student Promotions Committee and duly authenticated.
  - c. If the Student Promotions Committee requires a student to withdraw conditionally, the Chair of the Student Promotions Committee reports to the Dean and the Pre-Clerkship or Clerkship Co-ordinator the nature of the conditions to be met and the time period specified for meeting the conditions. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who has been required to withdraw conditionally may be readmitted once the conditions have been met. If the conditions are not met within the specified time limit, the student is required to withdraw unconditionally.
  - d. If the Student Promotions Committee requires a student to withdraw unconditionally, the Chair of the Student Promotions Committee will report the decision and the basis upon which it was reached to the Dean and the Pre-Clerkship or Clerkship Co-ordinator. The Dean then recommends to the Registrar that the student be required to withdraw from the program. Any student who is required to withdraw unconditionally and who wishes to re-enter the Faculty must apply by the appropriate deadline date to the Admissions Committee in competition with all other applicants.
5. A student has the right to make a formal appeal against a decision of the Student Promotions Committee. However, this appeal cannot be made on the basis of the grades awarded in individual courses or subjects, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of this Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Dean. The Dean in consultation with the Office of the Registrar determines whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.
6. In addition to the above clauses, the Faculty of Medicine reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Dean, on behalf of the Faculty, recommends such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Dean, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.
7. Any student who enters the first year of the medical program but withdraws within the first seven weeks may be permitted re-entry only by re-application to the Admissions Committee in competition with all other applicants by the appropriate deadline date. Withdrawal at all other times is in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.
8.
  - a. Upon completion of a program year, a student in good academic standing may elect to withdraw temporarily from studies (e.g. to pursue graduate studies after completion of the second year).
  - b. Any student may be permitted to withdraw in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) Withdrawing From The University**. In all cases, the intent to withdraw voluntarily should be discussed with the Pre-Clerkship or Clerkship Co-ordinator, as appropriate. The student must make a written request for voluntary withdrawal to the Dean who will then consult the appropriate Co-ordinator. In the event that a student wishes to return to medical school, the Dean should ensure that sufficient revision and preparatory work are undertaken before the student is permitted to resume medical studies.
  - c. Students permitted to withdraw are advised of the date upon which they are required to resume medical studies. In the absence of good cause, any such student who does not resume studies on the specified date will be deemed to have left the program.

## 9.5 Curricular Requirements (M.D.)

Students entering the M.D. program will be governed by curricular requirements in effect at the time of their admission. In the event of readmission, students will be governed by curricular requirements in effect at the time of their readmission.

The Clerkship Student Promotions Committee recommends to Faculty Council those students to be awarded the M.D. degree.

## 10 Course Descriptions

The courses in Pre-Clerkship form a continuum. Some courses are composed of several individual subjects.

Clerkship provides clinical experience in the affiliated teaching hospitals and community sites of Memorial University of Newfoundland. The students become members of the patient care team and have graded and supervised responsibility.

### 10.1 Courses in the First and Second Year of Medical Studies

**5600 Basic Science of Medicine I** is an integrated course with several subjects including anatomy, biochemistry, genetics, immunology, microbiology, pathology and physiology. This course introduces students to the structure and function of the human body and provides the foundation of the basic science of medicine. A wide range of teaching methods are used including lectures, small group sessions, and laboratory sessions/demonstrations.

CH: 14

**5610 Clinical Skills I** introduces students to the main elements of the medical interview and techniques of counselling. Students are then expected to acquire skill in examining normal individuals and eliciting symptoms and signs in patients and presenting the findings in a logical and comprehensive manner. Emphasis is placed on developing a sympathetic and understanding approach to the patient. The course also provides an integrated approach to clinical symptoms and signs as manifestations of disordered function or structure. Ethical and legal issues playing a significant role in assessment and management of clinical problems are also considered within the humanities, ethics, and law in medicine (HELM) component.

AR: attendance is required

CH: 9

**5640 Community Health I** introduces several aspects of community health including health promotion, disease prevention, biostatistics, epidemiology, social and organizational factors in health, environmental and occupational health, community nutrition and behavioural sciences. Lectures and small group sessions are complemented with practical experience obtained through group research projects and field teaching in the community in both a rural and urban context. Aspects of medical ethics relative to community health are integrated throughout the course. Emphasis is placed on understanding the determinants of health and illness and the context in which they occur. The principles of research are introduced and students may initiate research opportunities that are carried through subsequent courses in the curriculum.

CH: 9

**5650 Integrated Study of Disease I** involves studying diseases of the major organs/body systems and includes integration with the pathophysiological basis of disease, pathology and pharmacology. The course also incorporates the relevant aspects of preventive medicine, clinical genetics, clinical epidemiology and occupational medicine.

CH: 10

**5660 Family Medicine Pre-Clerkship Elective** is offered to medical students interested in enhancing their patient interviewing and clinical examination skills. Each student will be paired with an experienced family physician in the community (rural and urban opportunities) for two to four weeks during the summer months at the end of the first and/or second year. Students gain practical experience of working at the primary care level in a variety of settings that could include office-based practice, home visits, emergency departments, labour and delivery and both long-term care facilities and in-hospital ward experiences. (This varies depending on the family physician's practice profiles.) Students applying for this course must be currently registered as a first or second year medical student in a Canadian medical school.

AR: attendance is required

CH: 0

**6600 Basic Science of Medicine II** is a continuation of Basic Science of Medicine I.

CH: 8

**6610 Clinical Skills II** is a continuation of Clinical Skills I.

AR: attendance is required

CH: 9

**6640 Community Health II** is a continuation of Community Health I.

CH: 9

**6650 Integrated Study of Disease II** is a continuation of Integrated Study of Disease I.

CH: 30

**6660 Family Medicine Pre-Clerkship Elective** has the same course description as Medicine 5660.

AR: attendance is required

CH: 0

**7000 Clerkship Preparation Course**

AR: attendance is required

CH: 2

### 10.2 Courses in the Third and Fourth Year of Medical Studies

The Third Year is approximately 14 months in duration; it begins in September and continues until November of the following year. It is composed of the core courses 7200-7250 and two (8 credit hours) elective courses. The Fourth Year begins immediately upon completion of the Third Year and continues until May of the following year. It includes one (4 credit hours) elective course, three (12 credit hours) selective courses, and Medicine 7280.

**7200 Internal Medicine**

AR: attendance is required

CH: 15

**7210 Surgery**

AR: attendance is required

CH: 10

**7220 Psychiatry**

AR: attendance is required

CH: 10

**7230 Pediatrics**

AR: attendance is required

CH: 10

**7240 Rural Family Practice**

AR: attendance is required

CH: 5

**7250 Obstetrics/Gynecology**

AR: attendance is required

CH: 10

**7260, 7261 & 7263 Electives**

AR: attendance is required

CH: 12 (4 each)

**7270-7272 Selectives**

AR: attendance is required

CH: 12 (4 each)

**7280 Integrated Basic, Community Health and Clinical Sciences**

CH: 2

### 10.3 Courses Offered By the Faculty of Medicine for Non-Medical Students

**310A and 310B Human Physiology** covers the properties of nerve and muscle cells, the special senses, blood and body fluids, and the nervous, cardiovascular, digestive, immune, respiratory, urinary, endocrine and reproductive systems. Integration of the body's systems in maintaining homeostasis is emphasized. Priority for entry into this course is given to Biochemistry, Nutrition, Dietetics, and other students who are interested in experimental science.

CO: Biochemistry 2101

CR: Biochemistry 311A/B and Medicine 310A/B

LH: to be specified

PR: Biochemistry 2101

**4300 Introduction to General and Autonomic Pharmacology** deals with the general principles of pharmacology (dose-response relationship, drug-receptor interaction, absorption, distribution, metabolism, excretion of drugs), and drugs that affect neuromuscular and autonomic neurotransmission, the cardiovascular, gastrointestinal, and central nervous systems, and autacoids/prostanoids.

CO: Biochemistry 3106 or Pharmacy 3111

CR: Biochemistry 4220

LH: to be specified

PR: Medicine 310A/B or Biochemistry 311A/B, or Pharmacy 2002/2003 or the former Pharmacy 3201/3202.

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 School Description

The School of Music at Memorial University of Newfoundland is the largest and most comprehensive university school of music in Atlantic Canada. Four-year undergraduate programs are offered in most of the principal areas of professional study in music: performance, music history and literature (including ethnomusicology), music theory and composition. In collaboration with Memorial University of Newfoundland's Faculty of Education, the School offers a conjoint Bachelor of Music/Bachelor of Music Education (B.Mus./B.Mus.Ed.) degree in music education which can be completed in five years. For students not ready to specialize, a Bachelor of Music (B.Mus.) in general musical studies with or without minor provides a flexible degree option. The School of Music's twenty-three full-time faculty comprise a diverse group of performers and scholars from across North America and Europe who are as dedicated to the highest standard of teaching, as they are to their own professional careers. Access to professional applied studies instruction is a right of every student in the program in every year. With close to 200 degree-stream students, the School maintains a comprehensive ensembles program which provides performance experience in choirs, bands, orchestras, an opera workshop, jazz, world music, contemporary and chamber music ensembles. Memorial University of Newfoundland's ensembles have won numerous national awards and the School tours these groups provincially, nationally and internationally on a regular basis. While the focus of the School's programs is on the classical music tradition, Newfoundland and Labrador's rich musical legacy is also honoured in its curriculum with a range of courses taught by tradition-bearers from the professional music community. The School's undergraduate community is enriched by the presence of students pursuing Master of Music (M.Mus.) degrees in performance, performance/pedagogy and conducting, as well as Master of Arts (M.A.) and Doctor of Philosophy (Ph.D.) students in the area of ethnomusicology.

Additional information regarding the School of Music is available at [www.mun.ca/music/home/](http://www.mun.ca/music/home/).

## 3 Programs

The School of Music offers the following programs:

1. Four-year Bachelor of Music with majors in:
  - a. Performance
  - b. Theory and Composition
  - c. Music History and Literature
  - d. General Musical Studies (with optional minor from a discipline other than music)
  - e. Joint Major in Music Performance and History and Literature of Music
  - f. Joint Major in Music Performance and Music Theory and Composition
2. Five-year Conjoint Bachelor of Music/Bachelor of Music Education
3. Minor in Music History
4. Interdisciplinary Minor in Music and Culture
5. Interdisciplinary Major in Drama and Music (Bachelor of Arts)

Note: *The Major program in Drama and Music is currently under review and will not be available for admission for the 2010-2011 year. For further information please contact the Department of English Language and Literature.*

## 4 Registration in Music Courses (Non-Music Students)

The following music courses are available to students who have not been admitted to a program in the School of Music, and are appropriate for students with little or no musical background:

Music 1116, Music 1120, Music 2011, Music 2012, Music 2013, Music 2014

The following ensemble courses are available to non-music students with appropriate background, subject to the approval of the instructor:

Music 2611, Music 2614. Non-music students may also audition to participate in the following ensemble courses: Music 2612, Music 2613, Music 2615, Music 2616, Music 2617, Music 2618, Music 2619, Music 263A/B, Music 265A/B. Contact the School of Music office for further information. In addition, most courses in music history and music theory (courses numbers with second digit "0" or "1") are available to non-music majors who have fulfilled the prerequisites.

In addition, most courses in music history and music theory (course numbers with second digit "0" or "1") are available to non-music majors who have fulfilled the prerequisites.

## 5 Health Statement

Music study and music making are activities that demand great mental and physical energy and coordination. For this reason, students are strongly encouraged to maintain a healthy lifestyle, getting adequate rest, proper nutrition, and exercise, and avoiding practices which could be detrimental to good health and well-being.

## 6 Bachelor of Music Degree: Admission and Academic Standards

1. The School of Music application forms are available through the School's website at [www.mun.ca/music/programs/undergrad/apply.php](http://www.mun.ca/music/programs/undergrad/apply.php) or the Office of the Registrar's website at [www.mun.ca/regoff/forms.php](http://www.mun.ca/regoff/forms.php). Applicants who have not previously attended Memorial University of Newfoundland or those who have not attended Memorial University of Newfoundland in the two preceding semesters must also submit the "Undergraduate Application for Admission/Readmission" to the University form. The "Undergraduate Application for Admission/Readmission" form is available at [www.mun.ca/regoff/forms.php](http://www.mun.ca/regoff/forms.php). Application forms may also be obtained by writing the School of Music, Memorial University of Newfoundland, St. John's, NL A1C 5S7 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL A1C 5S7.
2. Admission to the Bachelor of Music degree is normally possible in the Fall semester only. The application deadline for admission to the Fall semester is January 31.
3. Notwithstanding the above:
  - a. students who have withdrawn from the music degree program may apply to be readmitted in either the Fall or Winter semester.
  - b. students transferring from post-secondary music programs at other institutions may be considered for admission in the Winter semester if they have the prerequisites to enter a sufficient number of music courses in that semester.
  - c. the application deadline for admission to the Winter semester is September 30.
4. All candidates must satisfy the general admission requirements of the University and must satisfy additional requirements of the School of Music as set out below and specified on the School of Music's website: [www.mun.ca/music/](http://www.mun.ca/music/):
  - a. **Placement Test in Theory and Musicianship:** This test in basic rudiments, aural perception, and simple four-part harmony will be administered on-line during the entrance audition period.
  - b. **Audition:** All applicants are required to audition to the satisfaction of the School on the instrument that they have chosen as their principal applied study in their degree program (i.e. voice, piano, organ, guitar, or any orchestral instrument.) Auditions are held in the Winter semester. Late auditions will be accepted if space is available. Students auditioning late are normally not eligible for School of Music entrance scholarships.  
Transfer students and students seeking readmission to the music degree program must audition to determine their placement in applied study courses. The level of audition should be equivalent to the jury requirements for the prerequisite of the course to which they are seeking admission. Jury requirements are available from the office of the School of Music.
  - c. **Piano Proficiency Test:** Piano proficiency is a graduation requirement. Students are strongly encouraged to meet this requirement within the first two years of their programs. Applicants whose level of attainment is not acceptable to the School will be required to repeat and pass the Piano Proficiency Test prior to registering for Music 1127. Students are advised to contact the School of Music regarding scheduling of the test and for information about private remedial piano instruction.
5. Students admitted to the Bachelor of Music program will be permitted to register for a maximum of 17 credit hours per semester, without requiring written permission of the Director.
6. With the exception of those who have completed Music 440B or 445B, students who are not registered for a principal applied study course or Education 403X at the end of the regular registration period will be deemed to have withdrawn from the music degree program.
7. A student who withdraws from a principal applied study course at any time in the semester shall have his/her eligibility to continue in the degree program reviewed by the Committee on Undergraduate Studies. The Committee shall determine whether or not the student shall be deemed to have withdrawn.
8. A student whose average in music courses falls below 65% in any semester will be placed on probation.
9. A student will be required to withdraw from the music degree program if a) the student's average in music courses falls below 65% in each of two consecutive semesters of registration in the program, or b) the student's average in music courses falls below 65% in any three semesters of registration in the program, or c) the student fails any music course more than once, or d) the student has been unable to complete two consecutive semesters or three non-consecutive semesters of applied music studies (Music 140A/B, 240A/B, 340A/B, 440A/B, 345A/B, 445A/B).
10. Students who have withdrawn from the music degree program and wish to re-enter the program must re-apply in competition. A student re-entering the Bachelor of Music degree program may be readmitted on probation if the Admissions Committee so recommends.
11. Students who have been required to withdraw from the music degree program may apply for readmission after a minimum of TWO semesters have elapsed following the withdrawal.
12. Students who have been required to withdraw from the music degree program twice are ineligible for further readmission.
13. Students in the performance major must attain a minimum grade of 75% in each of the jury exam and the course work for Music 345A/B and Music 445A/B. Students who fail to do so will be required to withdraw from the performance major. In such cases, the

student may apply in writing to the Director for admission into a major other than performance.

14. A student may not register for and repeat a principal applied study course that s/he has already successfully completed, unless the student has the written permission of the Director.
15. Students wishing to appeal matters pertaining to admission, re-admission and academic standing must make the appeal in writing to the Chair, Committee on Undergraduate Studies of the School of Music.
16. In special cases, the Committee on Undergraduate Studies may waive the admission, readmission, and course requirements that apply only to the School of Music, subject to ratification by the Academic Council. Such waivers shall not reduce the total number of music courses required for the degree.
17. The active participation in School of Music ensembles is an integral part of a music student's education. One must be present at rehearsal and performances to have participated in the learning experience. Furthermore, the success of the ensemble as a whole is dependent upon the regular attendance and participation of all members in the ensemble. Accordingly, attendance will be required in the following courses: Music 2611-2619, Music 263A/B, Music 265A/B, Music 3500, and Music 3511-3518.

## 7 Bachelor of Music Degree Regulations

### 7.1 Major

1. Candidates normally do not declare their intended major area of study before their fourth semester in the Bachelor of Music program.
2. A candidate may not change his/her major without the written permission of the Director of the School. In cases where permission is granted, the candidate shall be required to fulfil all requirements for the new major. However, in the case where a student's major changes from Performance to one of the other majors, the principal applied study courses successfully completed under the Performance major may be used to satisfy the requirements for principal applied study in the new major, with any additional credit hours being used as music electives in the new major.
3. Candidates shall choose one of the following areas for their major:

#### 7.1.1 Performance

This program is recommended for those candidates planning to pursue a career as a solo performer, orchestral or band player, or private teacher. Candidates for this major must apply in writing to the Director by February 15th in the semester during which they are registered for Music 240B. Candidates will normally be required to audition for this program. Where possible, the jury examination for Music 240B will be considered as the audition for admission to the Performance major, although in some cases the audition may require repertoire beyond the level and amount prepared for the jury examination. Admission to this major will be based on a candidate's: i) performance on the audition and achievement in Music 140A/B and 240A/B, ii) general academic achievement, and iii) potential for a career and/or graduate work in performance.

#### 7.1.2 Theory and Composition

This program is recommended for those candidates who plan to compose, to carry out research in music theory, or to teach composition and/or theoretical subjects. Candidates for this major must apply in writing to the Director by February 15th in the semester during which they are registered for Music 2108, submitting up to three pieces of relevant work with their application, including essays, compositions or analyses written either in the context of academic course work or independently. Candidates for this major will be interviewed by a panel of faculty representing theory and composition disciplines. Admission to this major will be based on the candidate's: i) submitted work, ii) interview, iii) achievement in Music 1107, 1108, 2107, 2108 and all elective music theory courses as well as any technology courses, iv) general academic achievement, and v) potential for a career and/or graduate work in music theory or composition.

#### 7.1.3 History and Literature of Music

This program is recommended for those candidates interested in research in music and/or media professions. Candidates for this major must apply in writing to the Director by February 15th in the semester during which they are registered for Music 2003, submitting up to three pieces of relevant work with their application, including essays or analyses written either in the context of academic course work or independently. Candidates for this major will be interviewed by a panel of faculty representing musicology and ethnomusicology disciplines. Admission to this major will be based on the candidate's: i) submitted work, ii) interview, iii) achievement in Music 1002, 1003, 2002, 2003 and all elective music history courses, as well as English and research/writing courses, iv) general academic achievement, and v) potential for a career and/or graduate work in music history and literature, journalism or a related field.

#### 7.1.4 General Musical Studies

This program is recommended for those candidates who wish a broad knowledge of music that would prepare them for a variety of career and advanced study options. Students have the option of including a minor in a discipline other than music, in which case they must meet all prerequisites and requirements for the minor. The subject of the candidate's minor shall be that declared by the candidate on the Change of Academic Program Form. Students who intend to apply for admission to the Bachelor of Music Education as a second degree program should consult with the Director and with the Faculty of Education regarding course selection. Candidates for the General Musical Studies major need not submit an application. All candidates who have not been admitted to another major by the end of their fourth semester in the Bachelor of Music program will automatically be admitted to the General Musical Studies major.

#### 7.1.5 Joint Major in Music Performance and History and Literature of Music

This program is recommended to those candidates who have both advanced performance skills and an interest in musicology and research. Students who are planning careers in specialized performance, music editing or as university-based musicians are encouraged to consider this major. Candidates must fulfill the requirements for admission to both the Performance and Music History and Literature majors.

#### 7.1.6 Joint Major in Music Performance and Theory and Composition

This program is recommended to those candidates who have both advanced performance skills and an interest in music theory and composition. Students who are planning careers in performance, music editing, conducting, arranging, composing or as university-based musicians are encouraged to consider this major. Candidates must fulfill the requirements for admission to both the Performance and Theory and Composition majors.

### 7.1.7 Bachelor of Music Conjoint With Bachelor of Music Education

This program is offered with the Faculty of Education, and is recommended for candidates planning to pursue a career in music education. Candidates for the Conjoint Degrees program must meet the Faculty of Education's admission requirements for the Bachelor of Music Education Conjoint Degree program. Applications must be submitted to the Faculty of Education by January 15 for admission in the following Fall Semester.

## 7.2 Core Program

All Bachelor of Music students, regardless of major, must complete the following courses (53 credit hours):

1. **Applied Music (8 credit hours):** 140A/B, 240A/B
2. **Music History (12 credit hours):** 1002, 1003, 2002, 2003
3. **Music Theory (22 credit hours):**
  - a. **Written Theory:** 1107, 1108, 2107, 2108, 3107
  - b. **Aural Skills:** 1117, 1118, 2117, 2118, 3117
  - c. **Keyboard Harmony:** 1127 or 1137, 1128 or 1138, 2127 or 2137, 2128 or 2138
4. a. **For students whose Principal Applied Study is other than voice (11 credit hours):**
  - i. **Ensemble Music (11 credit hours):**
    - 2 credit hours from Music 2611, 2612
    - 8 credit hours of designated principal ensemble (see Ensemble Definitions)
    - 1 credit hour of Music 3517 or 3518
  - b. **For students whose Principal Applied Study is voice (11 credit hours):**
    - i. **Ensemble Music (9 credit hours):**
      - 2 credit hours from Music 2611, 2612
      - 6 credit hours of designated principal ensemble (see Ensemble Definitions)
      - 1 credit hour of Music 3517 or 3518
    - ii. **Diction (2 credit hours):**
      - Music 2700 and 2701

Note: Some ensemble courses may be used to fulfill more than one of the listed ensemble requirements.

#### Ensemble Definitions

**Conducted ensembles** are those which normally assign more than one to a part and include Music 2611, Music 2612, Music 2613, Music 2614, Music 2619 and Music 263A/B.

**Coached ensembles** are those which normally assign one to a part and include Music 2615, Music 2616, Music 2617, Music 2618, Music 265A/B, Music 3511, Music 3512, Music 3513, Music 3514, Music 3515, Music 3516, Music 3517, and Music 3518.

**Designated principal ensembles:** At the time of admission, students will be assigned between 6 and 8 credit hours of designated principal ensemble. Normally, these will be the conducted ensembles which most closely relate to their principal applied study. Students may be assigned a combination of conducted or coached ensembles as their designated principal ensembles. Students must register for courses from their designated principal ensembles each semester and are not permitted to change the designated principal ensembles without the permission of the Director.

The remaining credits required for the degree are determined according to the student's major, as below.

## 7.3 Performance Major

To be awarded the degree of Bachelor of Music in Performance, a candidate shall comply with the School's regulations, and successfully complete a minimum of 124 credit hours, including 53 credit hours in the Core Program. The remaining 71 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B.
2. Three credit hours chosen from music theory courses beyond the 2000 level.
3. Six credit hours of coached ensemble.
4. Twenty-six additional credit hours from music courses beyond the 1000 level and meeting the following requirements:
  - a. At least 12 credit hours must be chosen from courses beyond the 2000 level in music history and music theory.
  - b. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music degree.
  - c. Credit will not be given for more than 16 credit hours of coached ensemble toward the Bachelor of Music degree.
  - d. Students in the Performance major may substitute a maximum of three of the following courses for music electives: Education 2510, 2520, 2530, 3920, 3925, the former 4835, the former 4845.

Note: Music Education majors have priority in registering for these courses and spaces may not be available for Performance majors.

5. Twenty-four credit hours chosen from disciplines other than music and music education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Students whose principal applied study is voice must include at least 3 credit hours in each of Italian, German and French.

## 7.4 General Musical Studies Major

To be awarded the degree of Bachelor of Music in General Musical Studies, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 53 credit hours in the Core Program. The remaining 70 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. Three credit hours chosen from music theory courses beyond the 2000 level.
3. Three credit hours chosen from Music 3500, 3511-3516, 3751.
4. An additional 56 credit hours to be chosen according to either Option A or Option B below:

### 7.4.1 Option A (With Minor)

1. An additional 17 credit hours chosen from music courses beyond the 1000-level and meeting the following requirements:
  - a. At least 9 credit hours must be chosen from courses beyond the 2000 level in music history and music theory.
  - b. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music degree.
  - c. Credit will not be given for more than 8 credit hours of coached ensemble toward the Bachelor of Music degree.
2. Six credit hours chosen from courses in English and/or designated research/writing courses.
3. A minor of at least 24 credit hours in a subject other than Music. The candidate must follow the regulations for the minor as set forth in the appropriate section of the Calendar.
4. Nine credit hours open electives. These may be chosen from courses in music, the minor subject, and/or any other disciplines.

### 7.4.2 Option B (No Minor)

1. An additional 32 credit hours chosen from music courses beyond the 1000 level and meeting the following requirements:
  - a. At least 12 credit hours must be chosen from courses beyond the 2000 level in music history and music theory.
  - b. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music degree.
  - c. Credit will not be given for more than 8 credit hours of coached ensemble toward the Bachelor of Music degree.
  - d. A maximum of three of the following courses may be substituted for music electives: Education 2510, 2520, 2530, 3920, 3925, the former 4835, the former 4845.  
*Note: Music Education majors have priority in registering for these courses and spaces may not be available for General Musical Studies majors.*
2. Twenty-four credit hours from disciplines other than music and music education, including at least 6 credit hours from courses in English and/or designated research/writing courses.

## 7.5 Conjoint Degrees Program: Bachelor of Music and Bachelor of Music Education

To be awarded the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education, a candidate shall comply with the School's regulations, and successfully complete a minimum of 159 credit hours, including 53 credit hours in the Core Program. The remaining 106 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. One of Music 3104, 3109, or 3112.
3. Music 2311, 2312, 3311, 3312, 3313, 3314, 3315, 3316.
4. Eight credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3281, 3282.
5. Eight additional credit hours chosen from music courses beyond the 1000 level and meeting the following requirements:
  - a. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music/Bachelor of Music Education degrees.
  - b. Credit will not be given for more than 8 credits of coached ensemble toward the Bachelor of Music/Bachelor of Music Education degrees.
  - c. A maximum of two of the following courses in music education may be substituted for music electives in the Conjoint Degrees program: Education the former 4835, the former 4840, the former 4845, the former 4850, the former 4855, the former 4860.
6. Forty-five credit hours as prescribed by the Faculty of Education under Clause 2. of the Regulations for the Conjoint Degrees of Bachelor of Music and Bachelor of Music Education.
7. Twenty-four credit hours chosen from disciplines other than music and music education, including at least 6 credit hours from courses in English and/or designated research/writing courses. Conjoint degrees students are strongly encouraged to take at least 18 credit hours in a second teachable subject.

## 7.6 Theory and Composition Major

To be awarded the degree of Bachelor of Music in Theory and Composition, a candidate shall comply with the School's regulations, and successfully complete a minimum of 124 credit hours, including 53 credit hours in the Core Program. The remaining 71 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. Music 3100, 3104, 3105, 3112 and one of Music 3106 and 3108.
3. Music 2311, 3311, 3312, 3313, 3314.
4. Four credit hours chosen from: Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3271, 3281, 3282.
5. Six credit hours chosen from courses beyond the 2000 level in music theory (in addition to those listed in 3. above).
6. Eight additional credit hours chosen from music courses beyond the 1000 level and meeting the following requirements:
  - a. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music degree.
  - b. Credit will not be given for more than 8 credit hours of coached ensemble toward the Bachelor of Music degree.
7. Twenty-four credit hours chosen from disciplines other than music and music education, including at least 6 credit hours from courses in English and/or designated research/writing courses. All Theory and Composition majors are strongly encouraged to take at least 6 credit hours in German.

## 7.7 History and Literature of Music Major

To be awarded the degree of Bachelor of Music in History and Literature, a candidate shall comply with the School's regulations, and successfully complete a minimum of 123 credit hours, including 53 credit hours in the Core Program. The remaining 70 credit hours will be chosen as follows:

1. Music 340A/B, 440A/B.
2. Three credit hours chosen from music theory courses beyond the 2000 level.

3. Music 4094, 4095.
4. Nine additional credit hours beyond the 2000 level in music history.
5. Six credit hours chosen from History and/or Anthropology (Faculty of Arts).
6. Fourteen additional credit hours chosen from music courses beyond the 1000 level and meeting the following requirements:
  - a. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music degree.
  - b. Credit will not be given for more than 8 credit hours of coached ensemble toward the Bachelor of Music degree.
7. Twenty-four credit hours chosen from disciplines other than music and music education, including at least 6 credit hours from courses in English and/or designated research/writing courses and at least 12 credit hours in a language or languages other than English.

## 7.8 Joint Major in Music Performance and History and Literature of Music

To be awarded the degree of Bachelor of Music with joint major in Music Performance and History and Literature of Music, a candidate shall comply with the School's regulations, and successfully complete a minimum of 124 credit hours, including 53 credit hours in the Core Program. The remaining 71 credit hours will be chosen as follows:

1. Music 345A/B; 445A/B.
2. Three credit hours chosen from music theory courses beyond the 2000 level.
3. Music 4094 and Music 4095.
4. Six credit hours of coached ensemble.
5. Twenty additional credit hours chosen from music courses beyond the 1000 level. Of these:
  - a. A minimum of 9 credit hours music must be chosen from courses beyond the 2000 level in music history;
  - b. Credit will not be given for more than 14 credit hours of conducted ensemble toward the Bachelor of Music degree;
  - c. Credit will not be given for more than 16 credit hours of coached ensemble toward the Bachelor of Music degree;
  - d. A maximum of 9 credit hours of the following may be substituted for music electives: Education 2510, 2520, 2530, 3920, 3925, the former 4835, the former 4845.

*Note: Music Education majors have priority in registering for these courses and spaces may not be available for other majors.*
6. Twenty-four credit hours chosen from disciplines other than music, including at least 6 credit hours chosen from courses in English and/or designated research/writing courses, 6 credit hours in History and/or Anthropology, and 12 credit hours in a language or languages other than English. Students whose principal applied study is voice must include at least 3 credit hours in each of Italian, German, and French.

## 7.9 Joint Major in Music Performance and Theory and Composition

To be awarded the degree of Bachelor of Music with joint major in Performance and Theory and Composition, a candidate shall comply with the School's regulations, and successfully complete a minimum of 126 credit hours, including 53 credit hours in the Core Program. The remaining 73 credit hours will be chosen as follows:

1. Music 345A/B, 445A/B
2. Music 3100, 3104, 3105, 3112, and one of Music 3106 or 3108.
3. Music 2311, 3311, 3312, 3313 and 3314.
4. Six credit hours of coached ensemble.
5. Four credit hours chosen from Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3261, 3271, 3281, 3282.
6. Six credit hours chosen from courses beyond the 2000 level in music theory (in addition to those listed in 3. above).
7. Twenty-four credit hours chosen from disciplines other than music or music education, including at least 6 credit hours chosen from courses in English and/or designated research/writing courses. Students whose principal applied study is voice must include at least 3 credit hours in each of Italian, German, and French.

## 8 Bachelor of Music (Honours)

The Bachelor of Music (Honours) will be awarded to candidates in the Performance, General Musical Studies, Theory and Composition, and History and Literature of Music majors and candidates in the Joint programs of Performance and History and Literature of Music, and Performance and Theory and Composition who:

1. are graduating with First Class standing;
2. meet all the graduation requirements set forward in the **Bachelor of Music Degree Regulations** for their major; and
3. have attained a minimum average of 82% in all music courses included in the degree.

## 9 Minor in Music History

1. This minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), and the physical education and recreation degrees offered by the School of Human Kinetics and Recreation. The minor in music history is not applicable to the Bachelor of Music degree.
2. To be admitted to the minor in music history, students must meet the prerequisites for Music 1107 and 1127.
3. Students shall complete the following requirements (27 credit hours) for the minor in music history:
  - a. Music 1107, 1108, 1117, 1118, 1127 or 1137, and 1128 or 1138.
  - b. Music 1002, 1003, 2002, and 2003.
  - c. An additional 6 credit hours in music history, chosen from courses at the 3000 or 4000 level.
4. Course prerequisites stipulated in the course descriptions must be met. Please note that most music courses are not offered every semester, and some are offered only in alternate years.

## 10 Interdisciplinary Major in Drama and Music (Bachelor of Arts)

Note: *The Major program in Drama and Music is currently under review and will not be available for admission for the 2010-2011 year. For further information please contact the Department of English Language and Literature.*

1. Students must complete at least 27 credit hours in Music, as follows:
  - a. Two of Music 2011, 2012, 2014.
  - b. Music 1107, 1108, 1117, 1118, 1127 or 1137, and 1128 or 1138
  - c. Music 2107 and 2117.
  - d. Music 2311.
  - e. Music 3007 or Music 2013.
  - f. Two credit hours of conducted ensemble..
2. Further courses in music theory and/or music history may be chosen as Arts electives.
3. Course prerequisites stipulated in the course descriptions must be met. In particular, note the prerequisites for Music 1107 and 1127.
4. Most music courses are not offered every semester, and some are offered only in alternate years.

## 11 Interdisciplinary Minor in Music and Culture

1. This minor is available to students in the Bachelor of Arts, Bachelor of Science, Bachelor of Business Administration, Bachelor of Commerce (Cooperative), Bachelor of Recreation, Bachelor of Recreation (Honours), Bachelor of Recreation (Cooperative), and Bachelor of Recreation (Cooperative) (Honours). The minor in Music and Culture is not applicable to the Bachelor of Music degree.
2. Students shall complete 25 credit hours for the minor in music and culture, as follows:
  - a. Music 1120 or Music 1107.
  - b. Music 1116 or Music 1117.
  - c. Music/Folklore/Anthropology 4440.
  - d. Music 2012 or 2013.
  - e. One of Music 2011, 2014, Music 3017/Folklore 3200, Music 3018/Folklore 3618.
  - f. One of Music 3014, 3015, and 3016.
  - g. One of Music 2021, 2022, and 2023.
  - h. Two additional courses chosen from Music 1108 or the courses listed in d., e., f., or g. above.

## 12 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Director of the School.

### 12.1 Applied Music Courses

With the exception of Music 2611-2618, 263A/B and 265A/B courses in applied music are available only to candidates for the degree of Bachelor of Music.

**140A/B Principal Applied Study I** requires one hour per week of individual instruction (vocal or instrumental).

AR: attendance is required at School of Music recitals  
CH: 4

**240A/B Principal Applied Study II** is a continuation of Music 140A/B. One hour per week of individual instruction (vocal or instrumental).

AR: attendance is required at School of Music recitals  
CH: 4  
PR: Music 140A/B

**2611 Festival Choir** requires three hours rehearsal per week.

AR: attendance is required  
CH: 1  
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 10 credit hours

**2612 Chamber Choir** requires three hours rehearsal per week.

AR: attendance is required  
CH: 1  
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 8 credit hours

**2613 Chamber Orchestra** requires three hours rehearsal per week.

AR: attendance is required  
CH: 1  
PR: an audition. Contact the instructor or the School of Music office before

the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 8 credit hours

**2614 Concert Band** requires three hours rehearsal per week.

AR: attendance is required  
CH: 1  
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 8 credit hours

**2615 Jazz Ensemble** requires three hours rehearsal per week.

AR: attendance is required  
CH: 1  
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 8 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

**2616 Opera Workshop** requires three hours rehearsal per week.

AR: attendance is required  
CH: 1  
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 8 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

**2617 Opera Workshop** requires six hours rehearsal per week..

AR: attendance is required  
CH: 2  
PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.  
UL: may only obtain a maximum of 16 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

**2618 Opera Workshop** requires nine hours rehearsal per week.

AR: attendance is required

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 24 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

**2619 Wind Ensemble** requires three hours rehearsal per week.

AR: attendance is required

CH: 1

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition

UL: may only obtain a maximum of 8 credits in 2619 or a combination of 2614 and 2619

**263A/B Chamber Orchestra** requires 15 hours of rehearsal per semester.

AR: attendance is required

CH: 1 credit hour per two semesters

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 4 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

**265A/B Jazz Ensemble** requires 15 hours of rehearsal per semester.

AR: attendance is required

CH: 1 credit hour per two semesters

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

UL: may only obtain a maximum of 4 credit hours; available for credit only to students who successfully audition for participation in the ensemble; not applicable as an elective under the Bachelor of Arts program; students in the Faculty of Education should consult the Office of Student Services in the Faculty of Education regarding applicability of this course to their education degree program.

**2700 Lyric Diction I** is a study of English, German, French and Italian lyric diction. The International Phonetic Alphabet will be introduced and applied to singing in these four languages.

CH: 1

PR: open only to students whose principal applied study is voice

**2701 Lyric Diction II** is a continuation of Music 2700.

CH: 1

PR: Music 2700; open only to students whose principal applied study is voice

**340A/B Principal Applied Study III**

AR: attendance is required at School of Music recitals

CH: 4

CR: Music 345A/B

PR: Music 240A/B and successful completion of Music 1003, 1108, 1118 and 1128 or 1138

**345A/B Principal Applied Study III - Performance** is a continuation of Music 240A/B. A more intensive approach to performance than in Music 340A/B. One hour per week of individual instruction. Students are required to present a public recital consisting of 25 to 35 minutes of music to be given before the last day of classes in the second semester of the course.

AR: attendance is required at School of Music recitals

CH: 6

CR: Music 340A/B

PR: Music 240A/B and successful completion of Music 1003, 1108, 1118 and 1128 or 1138; open only to Performance Majors

**3500 Chamber Music Seminar** is an introduction to principles and practices in chamber music performance with an overview of repertoire research methods.

AR: attendance is required

CH: 1

CO: first registration in Music 3511 or 3512

CR: the former Music 3510

PR: an audition. Contact the instructor or the School of Music office before the beginning of the semester regarding the audition.

**3511 Chamber Music** requires the ensemble to prepare and perform a recital of 10-15 minutes of music. Each ensemble receives six hours of coaching in preparation for the performance.

AR: attendance is required at all coachings and masterclasses

CH: 1 per semester

CO: Music 3500 for first registration in Music 3511 or 3512

PR: permission of the instructor; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 8 credit hours

**3512 Chamber Music** requires the ensemble to prepare and perform a recital of 18-22 minutes of music. Each ensemble receives nine hours of coaching in preparation for the performance.

AR: attendance is required at all coachings and masterclasses

CH: 2 per semester

CO: Music 3500 for first registration in Music 3511 or 3512

PR: permission of the instructor; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 12 credit hours

**3513 Chamber Music** requires the ensemble to prepare and perform a recital of 25-30 minutes of music. Each ensemble receives twelve hours of coaching in preparation for the performance.

AR: attendance is required at all coachings and masterclasses

CH: 3 per semester

PR: permission of the instructor; repertoire to be performed must be approved prior to registration

UL: may only obtain a maximum of 18 credit hours

**3514 Small Ensemble** is a conducted ensemble requiring two hours per week of rehearsal.

CH: 1 per semester

PR: permission of the Director

UL: may only obtain a maximum of 6 credit hours

**3515 Accompaniment** requires the students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a 15- to 20-minute program with a singer or instrumentalist. Normally offered in the Winter semester only.

AR: attendance is required

CH: 1 per semester

PR: repertoire to be performed must be approved prior to registration; open only to students whose principal applied study is a keyboard instrument; others by permission of the Director.

UL: may only obtain a maximum of 4 credit hours

**3516 Accompaniment** requires students to meet for one hour per week in a masterclass. Coaching will be given to prepare for performance of a half-hour program with a singer or instrumentalist. Normally offered in the Winter semester only.

AR: attendance is required

CH: 2 per semester

PR: repertoire must be approved prior to registration; open only to students whose principal applied study is a keyboard instrument; others by permission of the Director.

UL: may only obtain a maximum of 8 credit hours

**3517 World Music Ensemble** is a coached ensemble activity exploring one or more world music repertoires. This ensemble requires 2 hours of rehearsal per week.

AR: attendance is required

CH: 1 per semester

UL: may only obtain a maximum of 6 credit hours

**3518 Contemporary Music/Improvisation Ensemble** is a coached activity exploring improvisation and/or contemporary repertoire for mixed ensembles. This ensemble requires 2 hours of rehearsal per week.

AR: attendance is required

CH: 1 per semester

UL: may only obtain a maximum of 6 credit hours

**3605 Music Theatre Workshop** - inactive course.

**3703 Career Skills** is an exploration of careers in music. Topics include preparation of business plans, grant applications, press kits and promotional materials: tax, legal and business issues in the arts, and the study of successful arts enterprises.

CH: 1

PR: Music 240B

**3711 Jazz Styles and Improvisation** is an applied course for singers and instrumentalists, which aims to integrate the theory and practice of jazz. Jazz styles and improvisation will be explored through listening (recordings and live performance), imitation, and improvisation of selected jazz standards.

PR: Music 240B or permission of the instructor

**3712 Improvisation** is an introduction to the art and practice of improvisation through guided ensemble exploration and performance, score study and the application of contemporary performance practice.

PR: Music 240A/B

**3722 Brass Seminar** has topics selected from: issues of brass performance practice, history of brass instruments, brass literature and pedagogy, performance anxiety, comparative performances of brass repertoire, and other issues of special relevance to brass players.

CH: 1

PR: open only to students whose principal applied study is a brass

instrument; others by permission of the Director.  
UL: may only obtain a maximum of 2 credit hours

**3732 Woodwind Seminar** has topics selected from: issues of woodwind performance practice, history of woodwind instruments, woodwind literature and pedagogy, performance anxiety, comparative performances of woodwind repertoire, and other issues of special relevance to woodwind players.

CH: 1

PR: open only to students whose principal applied study is a woodwind instrument; others by permission of the Director.

UL: may only obtain a maximum of 2 credit hours

**3742 String Seminar** has topics selected from: issues of string performance practice, history of string instruments, string literature and pedagogy, performance anxiety, comparative performances of string repertoire, and other issues of special relevance to string players.

CH: 1 per semester

PR: open only to students whose principal applied study is a string instrument; others by permission of the Director.

UL: may only obtain a maximum of 2 credit hours

**3751 Studio Pedagogy** is designed to provide students with a basic knowledge of resources and pedagogical approaches used in studio teaching at various levels. May include guest masterclasses and lectures.

CH: the former MUSIC 3773

CO: Music 140B or permission of the instructor

PR: Music 140B or permission of the instructor

**3762 Vocal Pedagogy I** has topics selected from: vocal technique, vocal health, methods for teaching various voice types and levels of ability, brief overview of various individual approaches in this history of vocal pedagogy.

CH: 2

PR: Music 140B in voice

UL: not available to students with two or more credits in the former Music 3761. No more than 4 credits of Music 3761/3762/3763 may be used towards the Bachelor of Music degree.

**3763 Vocal Pedagogy II** has topics selected from: managing a teaching studio, communications in studio teaching dealing with performance anxiety and other topics of importance to studio voice instruction, as well as the application of topics covered in Music 3762.

CH: 2

PR: Music 140B in voice and 3762

UL: not available to students with two or more credits in the former Music 3761. No more than 4 credits of Music 3761/3762/3763 may be used towards the Bachelor of Music degree.

**3774 Piano Pedagogy** is designed to provide students with a basic knowledge of resources and pedagogical approaches used in piano studio teaching at various levels. May include guest masterclasses and lectures.

CO: Music 140B or permission of the instructor

CR: the former Music 3772

PR: Music 140B or permission of the instructor

**440A/B Principal Applied Study IV** is a continuation of Music 340A/B, for students whose major is other than Performance. One hour per week of individual instruction.

AR: attendance is required at School of Music recitals

CH: 4

CR: Music 445A/B

PR: Music 340A/B and successful completion of Music 2003, 2108, 2118 and 2128 or 2138.

**445A/B Principal Applied Study IV - Performance** is a continuation of Music 345A/B. One hour per week of individual instruction. Students are required to present a public recital consisting of 50 to 60 minutes of music with program notes. This recital will normally take place in the second semester, before the last day of classes. A minimum grade of 75% is required to pass Music 445B.

AR: attendance is required at School of Music recitals

CH: 6

CR: Music 440A/B

PR: Music 345A/B and successful completion of Music 2003, 2108, 2118 and 2128 or 2138; open only to Performance Majors

**4503 Special Topics in Applied Music** will have topics to be studied announced by the School of Music.

CH: 1 per semester

UL: may only obtain a maximum of 3 credit hours

**4504 Special Topics in Applied Music** will have topics to be studied announced by the School of Music.

CH: 2 per semester

UL: may only obtain a maximum of 4 credit hours

**4505 Special Topics in Applied Music** will have topics to be studied announced by the School of Music.

CH: 3 per semester

UL: may only obtain a maximum of 6 credit hours

## 12.2 Ensemble Techniques Courses

All courses in ensemble techniques are available only to candidates for the degree of Bachelor of Music except where specified.

**2311 Voice/Choral Materials I** is a practical study, in a class situation, of vocal production, choral conducting and rehearsal techniques. This course is open to Bachelor of Music degree students and students in the Music Concentration Program for the Bachelor of Education (Primary or Elementary) degree.

**2312 Voice/Choral Materials II** is a continuation of Music 2311.

PR: Music 2311

**3221 Brass Techniques I** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing brass instruments.

CH: 1

**3222 Brass Techniques II** meets one hour per week. A continuation of Music 3221. Students whose principal applied study is a brass instrument must have the permission of the instructor to take this course.

CH: 1

PR: Music 3221

**3231 Flute Techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the flute.

CH: 1

UL: may not be taken for credit by students whose principal applied study is flute.

**3232 Single Reed Techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the clarinet and/or saxophone.

CH: 1

PR: permission of the instructor for students whose principal applied study is clarinet or saxophone.

**3233 Double Reed Techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the oboe and/or bassoon.

CH: 1

PR: permission of the instructor for students whose principal applied study is oboe or bassoon.

**3241 Upper String Techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the violin and viola.

CH: 1

UL: may not be taken for credit by students whose principal applied study is violin or viola

**3242 Lower String Techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the cello and string bass.

CH: 1

PR: permission of the instructor for students whose principal applied study is cello or string bass.

**3261 Guitar techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the guitar.

UL: may not be taken for credit by students whose principal applied study is guitar.

**3271 Organ techniques** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing the organ.

CH: 1

PR: permission of the instructor for students whose principal applied study is not piano.

**3272 Harpsichord Techniques** meets one hour per week. Practical study in a class situation of the basic techniques of playing the harpsichord.

CH: 1

PR: permission of the instructor for students whose principal applied study is not piano or organ.

**3281 Percussion Techniques I** meets one hour per week. Practical study, in a class situation, of the basic techniques of playing percussion instruments.

CH: 1

UL: may not be taken for credit by students whose principal applied study is percussion.

**3282 Percussion Techniques II** meets one hour per week and is a continuation of Music 3281.

CH: 1

PR: Music 3281

UL: may not be taken for credit by students whose principal applied study is percussion.

**3311 Instrumental Conducting I** meets one hour per week and is practical study of conducting and rehearsal techniques for band and orchestra.

CH: 1  
CO: Music 3313  
PR: Music 2311

**3312 Instrumental Conducting II** meets one hour per week and is a continuation of Music 3311.

CH: 1  
CO: Music 3314  
PR: Music 3311

**3313 Instrumental Lab** meets 1½ hours per week and is practical application of rehearsal and instrumental techniques in a band/ orchestra setting.

CH: 0  
CO: Music 3311

**3314 Instrumental Lab** meets 1½ hours per week and is a continuation of Music 3313.

CH: 1  
CO: Music 3312  
PR: Music 3313

**3315 Instrumental Lab** meets 1½ hours per week and is practical application of rehearsal and instrumental techniques in a band/orchestra setting.

CH: 0  
CO: One of Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3281, 3282.  
PR: One of Music 3221, 3222, 3231, 3232, 3233, 3241, 3242, 3281, 3282.

**3316 Instrumental Lab** meets 1½ hours per week and is a continuation of Music 3315.

CH: 1  
PR: Music 3315

**4311 Advanced Choral Conducting** - inactive course.

**4312 Advanced Instrumental Conducting** - inactive course.

**4313 Instrumental Conducting III (1 credit hour)** - inactive course.

## 12.3 Music Theory Courses

**1107 Materials and Techniques of Music I** is the study of the basic materials of the common-practice period, including a review of rudiments with emphasis on building an understanding of the underlying concepts involved; introduction to melody writing; introduction to voice leading with emphasis on chorale style; analysis and composition of smaller formal elements. This course meets three hours per week.

CO: Music 1117  
CR: the former Music 110A, the former Music 1113  
PR: Music 1120 with a minimum mark of 75% or successful completion of the Theory Placement Test.

**1108 Materials and Techniques of Music II** is a continuation of Music 1107. Harmonic vocabulary is expanded to include all diatonic triads and seventh chords, with an introduction to chromatic harmony; beginning study of writing for keyboard and band/orchestra instruments; analysis and composition of small binary and ternary forms, introduction to jazz harmony. This course meets three hours per week.

CR: the former Music 110B, the former Music 1114  
PR: Music 1107

**1116 Basic Musicianship** is an introduction to sight-singing and dictation for students whose level of preparation is not adequate for Music 1117. This course meets two hours per week.

CH: 1  
UL: not applicable to the Bachelor of Music degree.

**1117 Aural Skills I** is a course on sight-singing and dictation. This course meets two hours per week.

CH: 1  
CO: Music 1107  
PR: a minimum grade of 75% in Music 1116 or successful completion of the Theory Placement Test.

**1118 Aural Skills II** is a continuation of Music 1117. This course meets two hours per week.

CH: 1  
PR: Music 1107, 1117

**1120 Rudiments I** is an introductory course in music rudiments and theory. Development of aural skills is emphasized. This course meets three hours per week.

UL: not applicable to the Bachelor of Music degree.

**1127 Keyboard Harmony I** is an introduction to practical keyboard harmony skills. This course meets one hour per week.

CH: 0  
CO: Music 1107  
PR: Music 1107, successful completion of the Piano Proficiency Test.

UL: may not be taken for credit by students whose principal applied study is a keyboard instrument.

**1128 Keyboard Harmony II** is a continuation of Music 1127. This course meets one hour per week.

CH: 1  
PR: Music 1107, 1127  
UL: may not be taken for credit by students whose principal applied study is a keyboard instrument.

**1137 Advanced Keyboard Harmony I** is keyboard harmony skills for keyboard players. This course meets one hour per week.

CH: 0  
CO: Music 1107  
PR: Music 1107, permission of the instructor for students whose principal applied study is not a keyboard instrument.

**1138 Advanced Keyboard Harmony II** is a continuation of Music 1137. This course meets one hour per week.

CH: 1  
PR: Music 1107, 1137, permission of the instructor for students whose principal applied study is not a keyboard instrument.

**2107 Materials and Techniques of Music III** is a study of chromatic harmony with emphasis on both writing and analysis. Continuing studies in techniques of orchestration; study of larger binary and compound ternary forms. This course meets three hours per week.

CR: the former Music 210A, the former Music 2113  
PR: Music 1108

**2108 Materials and Techniques of Music IV** is a continuing study of chromatic harmony with an emphasis on enharmonic modulation and other advanced chromatic techniques. Introduction to Impressionism; introduction to selected 20th-century compositional techniques; use of form in late 19th- and 20th-century composition. Written work will include both analysis and composition exercises in the styles studied. This course meets three hours per week.

CH: 3  
CR: the former Music 210B, the former Music 2114  
PR: Music 2107

**2117 Aural Skills III** is a continuation of Music 1118. This course meets two hours per week.

CH: 1  
PR: Music 1108, 1118

**2118 Aural Skills IV** is a continuation of Music 2117. This course meets two hours per week.

CH: 1  
PR: Music 2107, 2117

**2127 Keyboard Harmony III** is a continuation of Music 1128. This course meets one hour per week.

CH: 0  
PR: Music 1108, 1128  
UL: may not be taken for credit by students whose principal applied study is a keyboard instrument.

**2128 Keyboard Harmony IV** is a continuation of Music 2127. This course meets one hour per week.

CH: 1  
PR: Music 2107, 2127  
UL: may not be taken for credit by students whose principal applied study is a keyboard instrument.

**2137 Advanced Keyboard Harmony III** is a continuation of Music 1138. This course meets one hour per week.

CH: 0  
PR: Music 1108, 1138, permission of the instructor for students whose principal applied study is not a keyboard instrument.

**2138 Advanced Keyboard Harmony IV** is a continuation of Music 2137. This course meets one hour per week.

CH: 1  
PR: Music 2107, 2137, permission of the instructor for students whose principal applied study is not a keyboard instrument.

**3100 Composition I** is an introduction to basic compositional techniques and their application through the writing of original music for choral and/or instrumental resources. No previous training in composition is required.

PR: Music 1108

**3104 Electronic Music Studio Techniques I** is a course designed to give basic instruction in the theory, technique, and philosophy of electronic music composition. Students obtain the skills necessary to operate the equipment of an electronic music studio (including mixers, synthesizers, and samplers) and to use them in appropriate and creative ways. Objectives of the course are achieved through lecture, lab experiences, listening and practical application.

PR: Music 1108

**3105 Twentieth Century Harmony** is a study of compositional devices used in the twentieth century. Topics include minimalism, new tonality, aleatorism, atonality, set theory, serial techniques, and electronic music.  
PR: Music 2108

**3106 Sixteenth-Century Counterpoint** is a course combining the analytical study of 16th-century sacred polyphony with an emphasis on the development of compositional skills in this style. Students will be required to write two- and three-part counterpoint exercises and a motet. The principal composers studied will be Palestrina, Lassus and Victoria. Some listening and singing assignments are required.  
PR: Music 1108

**3107 Materials and Techniques of Music V** is a study of major post-Baroque forms and genres, including sonata, rondo, sonata-rondo, variation, symphony, and concerto, as well as selected twentieth-century styles and techniques. This course meets three hours per week.  
CR: the former Music 310B, the former Music 3114  
PR: Music 2108, 1118, and 1128 or 1138

**3108 Eighteenth-Century Counterpoint** is a study of form and polyphony in eighteenth-century music, including the fugue and the Baroque suite. Assignments include analysis, composition, and written exercises in counterpoint.  
CR: the former Music 310A, the former Music 3113  
PR: Music 2107

**3109 Jazz Theory and Arranging** is an introduction to jazz theory and the principles of arranging for jazz ensembles.  
PR: Music 2108

**3112 Orchestration and Arranging 1** examines the principles of Orchestration and Arranging for instrumental ensembles with emphasis on the small ensemble.  
CH: the former Music 3102  
PR: Music 2108 or permission of the instructor

**3117 Aural Skills V** is a continuation of Music 2118. This course meets two hours per week.  
CH: 1  
PR: Music 2108, 2118

**4100 Advanced Composition** is a continuation of Music 3100.  
PR: Music 3100  
UL: may only obtain a maximum of 6 credit hours

**4103 Theory/Composition Seminar** - inactive course.

**4104 Electronic Music Studio Techniques II** - inactive course.

**4105 Special Topics in Music Theory** will have topics to be studied announced by the School of Music.  
CH: 1  
UL: may only obtain a maximum of 3 credit hours

**4106 Special Topics in Music Theory** will have topics to be studied announced by the School of Music.  
CH: 2  
UL: may only obtain a maximum of 4 credit hours

**4107 Special Topics in Music Theory** will have topics to be studied announced by the School of Music.  
UL: may only obtain a maximum of 6 credit hours

**4112 Orchestration and Arranging 2** examines the principles of Orchestration and Arranging for instrumental ensembles with emphasis on the large ensemble.  
CR: the former Music 4102  
PR: Music 3112, or the former Music 3102, or permission of the instructor.

## 12.4 Music History Courses

**1002 Music History I** is an intensive survey, through selected compositions, of the development of musical styles in Europe from ancient times to the end of the Medieval period. The course will introduce the student to the terms, names and dates of music history, to theories of history, to stylistic analysis of specific works through musical scores and recordings, and to methods for expressing historical concepts. This course has strong listening and writing components. This course meets three hours per week.

PR: Music 1120 or successful completion of theory placement test or admission to the Bachelor of Music degree program.

**1003 Music History II** is a continuation of Music 1002. An intensive survey, through selected compositions, of the development of musical styles in Europe in the Renaissance and Baroque periods. This course has strong listening and writing components. This course meets three hours per week.  
PR: Music 1002

**2002 Music History III** is a continuation of Music 1003. An intensive survey, through selected compositions, of the development of musical styles in

Europe in the Classical and Romantic Periods. This course has strong listening and writing components. This course meets three hours per week.  
PR: Music 1003

**2003 Music History IV** is a continuation of Music 2002. An intensive survey, through selected compositions, of the development of musical styles in the Western world from post-Romanticism and Impressionism to the present, including reference to the history of music in Canada. This course has strong listening and writing components. This course meets three hours per week.  
PR: Music 2002

**2011 North American Popular Music** is a survey of the major genres of North American popular music from the beginning of the 20th century to the 1970's. The course has three organizing themes: 1) the influence of Euro-American musics, African-American musics, and Latin American musics on popular music, 2) the relationship between popular music, capitalism, and technology, and 3) popular music as a medium for the portrayal of identity. This course has a strong listening component. The ability to read music is not required.  
UL: not applicable to the Bachelor of Music Degree.

**2012 Understanding Classical Music: Introduction Through Guided Listening** is a course designed to enhance and develop listening skills and an understanding of the basic elements of music. Form and musical style in Western classical music will be explored within a cultural and historical context. Through guided listening, the student will be exposed to a variety of musical styles and traditions. This course has a strong listening component. The ability to read music is not required.  
CR: Music 1002, 1003 or the former Music 1000, 1001, 1010, 1020 or 1021  
UL: not applicable to the Bachelor of Music Degree.

**2013 Twentieth-Century Musicals** (same as English 2013) is a survey of twentieth-century musical theatre. Selected works, presenting different styles and periods, will be examined in detail. There will be a strong, required listening/viewing component to this course. The ability to read music is not required.  
CR: Music 3007, English 2013  
UL: not applicable to the Bachelor of Music Degree.

**2014 Introduction to World Music** provides an introduction to the musics of selected cultures and contemporary intercultural communities. Drawing on topics and issues in ethnomusicology, it focuses on musical practices, beliefs, and techniques. It is intended to develop listening skills, broaden musical horizons, as well as to enable a deeper understanding of the way music functions in relation to social groups and individual lives.  
UL: not applicable to the Bachelor of Music Degree.

**2021 Newfoundland and Labrador Folksinging** is an introduction to the sociocultural contexts, functions, and meanings of folksong in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral and scholarly histories, the course offers practical instruction by a tradition-bearer in the singing of traditional Newfoundland and Labrador tunes and texts, using the techniques of aural transmission and assisted by the written medium where appropriate.  
UL: No more than three credits from the 2021-2023 series may be applied toward the Bachelor of Music Degree as unspecified music electives.

**2022 Newfoundland and Labrador Fiddling** is an introduction to the sociocultural contexts, functions, and meanings of fiddling in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the fiddle, using the techniques of aural transmission and assisted by the written medium where appropriate.  
UL: No more than three credits from the 2021-2023 series may be applied toward the Bachelor of Music Degree as unspecified music electives.

**2023 Newfoundland and Labrador Accordion** is an introduction to the sociocultural contexts, functions, and meanings of accordion music in Newfoundland and Labrador. Proceeding from this contextual base drawn from oral histories, the course offers practical instruction by a tradition-bearer on the button accordion, using the techniques of aural transmission and assisted by the written medium where appropriate.  
UL: No more than three credits from the 2021-2023 series may be applied toward the Bachelor of Music Degree as unspecified music electives.

**3004 The Development of Symphonic Music** (formerly Music 3020) is a study of the development of symphonic literature from the late Baroque era to the present day. Selected compositions, representing different periods and styles, will be examined in detail. This course has a strong listening component.  
CR: the former Music 3020  
PR: Music 2002

**3005 The Development of Opera** is a study of the development of opera from the beginnings to the present day. Selected operas, representing different periods and styles, will be examined in detail. This course has a strong listening component.  
PR: Music 2002

**3006 The History of the Concerto** is a study of the development of the concerto from the late Baroque until the present day. Selected compositions, representing different styles and periods, will be examined in detail. This course has a strong listening component.

PR: Music 2002

**3007 A History of Popular Music in Drama** is a survey of popular music styles in drama from the rise of the *Singspiel* to the musicals of Andrew Lloyd Weber. Selected works, representing different styles and periods, will be examined in detail. This course has a strong listening component.

CR: Music 2013, English 2013

PR: Music 2107 or permission of the instructor

**3014 World Music: Musics of Asia and Oceania** is an examination of musical theory, genres, instruments, aesthetics, and functions of music in Asia and Oceania, including the classical music of the Indian subcontinent, ritual musics of East Asia, gong-chime ensembles of Southeast Asia, and traditional musics of Polynesia and Australia. This course has a strong listening component.

PR: Music 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

**3015 World Music: Music of Africa and the Americas** is an examination of musical theory, genres, instruments, aesthetics, and functions of music in Africa and the Americas, including traditional African musics, neo-African musics of the Americas, Native American musics, and traditional South American musics. This course has a strong listening component.

PR: Music 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

**3016 Canadian Musical Traditions** is a survey of musical streams in Canadian music history from colonial times to the present, including indigenous and transplanted musical traditions, and Canadian art music. This course has a strong listening component.

PR: Music 1120 with a minimum mark of 75% or equivalent and completion of at least 24 credit hours of university course work.

**3017 Music, Song and Tradition** (same as Folklore 3200.) introduces students to a wide range of traditional song. Students will hear and discuss local, regional and international examples. Ability to read music or familiarity with music theory not required.

CH: 3

CR: FOLK 3200, the former FOLK 4445

**3018 Jazz and Blues: The Roots of Popular Music** (same as Folklore 3618) is an overview of blues and jazz as traditional musical forms. Lectures and listening will illustrate the development of regional music cultures and generic styles. To better understand the shift of blues and jazz from regional to global performance contexts, the course will examine the effects of changing transmissional media, from predominantly sensory media through contemporary media technologies. A term paper concerning musical style will entail library research and aural analysis.

CR: Folklore 3618

**3060 Voice Literature and Performance Practice** is a survey of selected solo vocal repertoire from the Renaissance to the present day. Stylistic development and performance practices will be emphasized.

PR: Music 140B in voice or permission of the instructor.

**3070 Piano Literature and Performance Practice** is a survey of piano repertoire from the Baroque era to the present day. Stylistic development and performance practices will be emphasized.

PR: Music 140B in piano or permission of the instructor.

**4001 The First Viennese School** - inactive course.

**4002 Studies in Baroque Music** is an examination of aspects of musical style and performance practices in the baroque period through the study of selected topics and specific musical examples. The course includes reading assignments, listening, score reading, and taking part in class demonstrations.

PR: Music 1003

**4003 Special Topics in Music History** will be announced by the School of Music.

CH: 1 per semester

UL: may only obtain a maximum of 3 credit hours

**4004 Special Topics in Music History** will be announced by the School of Music.

CH: 2 per semester

UL: may only obtain a maximum of 4 credit hours

**4005 Special Topics in Music History** will be announced by the School of Music.

UL: may only obtain a maximum of 6 credit hours

**4094 Introduction to Music Research** is a study of bibliography and various aspects of research methods appropriate to the study of music. Students will participate in group and individual projects, and give a seminar presentation in class.

PR: Music 2003

**4095 Graduating Essay** is directed study which will result in the production of an original paper dealing with a topic of historical musical significance. This course is restricted to History and Literature of Music majors.

PR: Music 4094

**4440 Music and Culture** (same as Folklore 4440 and Anthropology 4440.) examines traditional music as an aspect of human behaviour in Western and non-European cultures. Examination of the functions and uses of music; folk- popular-art music distinctions; and the relation of style to content. Outside reading, class exercises and individual reports will be required.

CR: Folklore 4440, Anthropology 4440

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 School Description

The origin of Memorial University of Newfoundland School of Nursing dates back to August 1963 when the Association of Registered Nurses of Newfoundland submitted a brief to the University calling for the establishment of a baccalaureate program in nursing. In September 1966, the first students were admitted to the undergraduate degree program. Over its 42 year history, the School has remained responsive to the changing needs of nursing within the province and in Canada and consequently has developed and changed over time.

The educational, research and scholarly activities of the School and its faculty draw upon knowledge from the arts and sciences and from nursing and other health professions. The School and its faculty are also involved in many community outreach and professional service activities. While being responsive to national and international needs, the School acknowledges its primary responsibility to the people of Newfoundland and Labrador.

The School offers undergraduate degree programs on campus to prepare entry-level nurses for practice, and by distance for registered nurses with a diploma in nursing. A graduate degree, the Master of Nursing, is offered by the School of Graduate Studies.

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (undergraduate), refer to **UNIVERSITY REGULATIONS**.

Further information regarding the School of Nursing is available at [www.mun.ca/nursing/about\\_us/](http://www.mun.ca/nursing/about_us/).

### 2.1 Vision Statement

The School of Nursing provides innovative leaders in nursing education and research provincially, nationally and internationally by developing quality learning and scholarship environments. Graduates of the School of Nursing will be prepared to embrace the challenges of providing health care and will be responsive to human diversity while improving health for all.

### 2.2 Mission Statement

The School of Nursing's mission provides leadership and advances knowledge in nursing education, practice and research with the goal of promoting health and well-being.

### 2.3 Accreditation Status and Approval Status

#### 2.3.1 Accreditation Status

The School of Nursing's Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) programs are accredited to 2015 by the Canadian Association of Schools of Nursing (CASN). This seven year award is the highest award given to Schools of Nursing in Canada.

#### 2.3.2 Approval Status

The School of Nursing's Bachelor of Nursing (Collaborative) and the Bachelor of Nursing (Post-RN) programs are approved to 2015 by the Association of Registered Nurses of Newfoundland and Labrador (ARNNL). The ARNNL approval designation assures both the public and our students that these programs prepare ethical entry-level practitioners who provide safe quality health care. These program graduates meet the requirements for licensure and professional practice as registered nurses in Newfoundland and Labrador.

## 3 Description of Programs

All courses of the School are designated by the abbreviation NURS.

### 3.1 General

The School of Nursing offers an undergraduate program leading to a Bachelor of Nursing to prepare entry-level nurses. To meet the

licensing requirements for practising nursing in Canada, students must write the Canadian Registered Nurse Exam (CRNE). To be eligible to write the CRNE, candidates must graduate from an approved program offered by a School of Nursing and be recommended by the School of Nursing. In order to be recommended for the CRNE, a student must complete a comprehensive examination set by the Bachelor of Nursing (Collaborative) Program. All costs associated with these exams are the responsibility of the student.

The School of Nursing also offers an undergraduate program leading to a Bachelor of Nursing for nurses with a diploma in nursing. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option program must meet the licensing requirements for practising as a Nurse Practitioner in Newfoundland and Labrador by writing the Canadian Nurse Practitioner Family/All Ages Examination. To be eligible to write the examination, candidates must graduate from an approved School of Nursing and be recommended by the School of Nursing. In order to be recommended for the Nurse Practitioner licensure examination students must complete a comprehensive examination set by the School of Nursing. All costs associated with these exams are the responsibility of the student.

### 3.1.1 Bachelor of Nursing (Collaborative) Program

This four year program is designed to prepare competent entry-level nurses who will function within a variety of health care settings. The graduate is prepared to assume the roles of direct care giver, educator, counsellor, advocate, facilitator, co-ordinator of care, researcher, leader, and member of the nursing profession. This full-time program is comprised of 130 credit hours. Please note, the last semester of the fourth year extends beyond the normal University semester end date.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This program is offered at Memorial University of Newfoundland School of Nursing, the Centre for Nursing Studies, and the Western Regional School of Nursing. Information regarding the Centre for Nursing Studies is available at [www.cns.nf.ca/](http://www.cns.nf.ca/) and information regarding the Western Regional School of Nursing is available at [www.swgc.mun.ca/nursing](http://www.swgc.mun.ca/nursing).

### 3.1.2 Bachelor of Nursing (Collaborative) Fast-Track Option

The Fast-Track option is also designed to prepare competent entry-level nurses, however it is geared to students with well-developed university-level study skills. This full-time option is for current degree holders or those with advanced standing and is comprised of 94 credit hours. This option is taken over six consecutive semesters, i.e. two calendar years. Please note, the last semester of the second year ends later than the scheduled date on which the semester ends.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate and a CPR certificate. Students unable to meet these agency requirements may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually.

This option is offered at Memorial University of Newfoundland School of Nursing and Western Regional School of Nursing. Information regarding the Western Regional School of Nursing is available at [www.swgc.mun.ca/nursing](http://www.swgc.mun.ca/nursing).

### 3.1.3 Bachelor of Nursing (Collaborative) LPN Bridging Option

This option provides a career ladder for Licensed Practical Nurses (LPN's). This option offers students a combination of 25 unspecified transfer nursing credit hours for the successful completion of a nursing bridging course taken during the Bridging Semester and the recognition of prior nursing knowledge and clinical experience obtained through previous LPN education and work experiences. The Nursing Bridging course will prepare students to enter the second year of the degree program, thereby decreasing the length of the program and its inherent costs.

The School of Nursing depends on the cooperation and involvement of a large number of organizations and professional personnel in providing quality clinical placements and instruction to its students. These agencies often have a range of requirements, some of which include, a Certificate of Conduct, a Child Protection Record Check, immunizations, a First Aid Certificate, and a CPR certificate. Students unable to meet these agency requirements, may be delayed in their program or prevented from completing their program of studies. All students are required to complete these requirements in a timely fashion and at their own expense. Many of these requirements must be updated annually. In order to satisfy clinical practice requirements for the Bachelor of Nursing (Collaborative) program, clinical agencies may be used 24 hours a day, seven days a week. Students may be required to attend during any of these times.

This program is offered at the Centre for Nursing Studies. Information regarding the Centre for Nursing Studies is available at [www.cns.nf.ca/](http://www.cns.nf.ca/).

### 3.1.4 Bachelor of Nursing (Post-RN) Program

This program is designed to build on the knowledge and competencies that registered nurses acquire in their diploma program. The program content and learning activities are intended to broaden students' theoretical base within the context of health promotion and to provide opportunities for students to enhance skills such as critical thinking and research application. The program is offered entirely by distance education. The program is designed for the convenience of registered nurses who wish to continue their education but cannot attend a university campus. The full-time or part-time program is comprised of 108 credit hours.

### 3.1.5 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

This option is a time-limited transitional offering consisting of six semesters full time or eleven semesters part-time. This option is primarily through distance delivery but there is a residency requirement in each semester. The full or part-time option is comprised of 111 credit hours. Maximum enrolment is sixteen per full-time and part time options.

## 4 Admission/Readmission Regulations for the School of Nursing

Applicants requiring additional information may e-mail [nursingadmissions@mun.ca](mailto:nursingadmissions@mun.ca).

In addition to meeting the **UNIVERSITY REGULATIONS** students must meet the admission/readmission regulations for the School of Nursing.

### 4.1 General Information

- Entry to the Bachelor of Nursing (Collaborative) four year and Fast-Track Option, the LPN Bridging option, and to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option are competitive for a limited number of placements. Meeting the minimum requirements for admission does not guarantee acceptance into the selected program. The final decision on admission rests with the relevant Admissions Committee of the School.
- Admission or readmission to the University does not necessarily constitute admission or readmission to any program.
- Selection of candidates for Bachelor of Nursing (Collaborative) four year and Fast-Track two year Option, and to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option is based on academic performance, relevant work and volunteer experience, references and personal statements.
- Admission to the Bachelor of Nursing (Collaborative) Fast-Track Option is competitive for a limited number of places. Selection of candidates is based on:
  - a minimum grade point average of 3.0 on a 4 point scale in their degree program for applicants who have completed a bachelor degree;
  - a minimum overall grade point average of 3.0 on a 4 point scale in the twelve courses, 36 credit hours required for admission for applicants for advanced standing;
  - evidence of ability to successfully maintain a full course load; and
  - other criteria considered suitable for professional practice in nursing.
- Admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option is on the basis of competition for a limited number of seats. Selection of candidates will be based on:
  - academic performance in the practical nursing program and in any university courses taken to date.
  - evidence of ability to successfully maintain a full course load.
  - other criteria considered suitable for professional practice in nursing.

Admission to the program is denied to any student if, in the judgment of the Joint Admissions Committee, s/he is deemed unsuitable for admission.

Applicants must provide two letters of reference (one reference regarding academic performance and one from a current employer regarding clinical performance)
- For all programs, other than the Bachelor of Nursing (Post-RN), priority is given to applicants who are residents of Newfoundland and Labrador.
- In addition to the regular quota positions, up to three additional positions per year are available in the Bachelor of Nursing (Collaborative) four year option program for applicants of aboriginal ancestry who have met the admission requirements. Applicants must send a letter of request at the time of application and provide documentation of aboriginal ancestry.
- Applicants are required to submit a health assessment and a complete record of current immunizations at the beginning of all programs except for the Bachelor of Nursing (Post-RN) when they must be submitted prior to commencing any Nursing course with a clinical component.
- Bachelor of Nursing (Collaborative) Fast-Track, Bachelor of Nursing (Collaborative) LPN Bridging Option, and Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care applicants may be requested to attend an interview.
- Evidence of certification in Standard First Aid and Basic Life Support (CPR) level HCP, offered by The Canadian Red Cross or St. John Ambulance is required by applicants to all programs except the Bachelor of Nursing (Post-RN). Certification obtained from other organizations will be accepted if deemed equivalent by the School of Nursing.

### 4.2 Application Forms and Deadlines

- All programs and their options, other than the Bachelor of Nursing (Post-RN) program, commence in the Fall semester. The deadline for application to the Bachelor of Nursing (Collaborative) Program, 4 year and Fast-Track 2 year option, Bachelor of Nursing (Collaborative) LPN Bridging Option, and the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option is March 1st. The Bachelor of Nursing (Post-RN) Option applications for admission are accepted on an ongoing basis.
- Application forms are available in person from the Office of the Registrar or by writing the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St. John's, NL, A1C 5S7. The Bachelor of Nursing (Collaborative) program and the Bachelor of Nursing (Collaborative) Fast-Track Option application for admission is also available at [www.mun.ca/nursing/undergrad/collaborative/application\\_forms.php](http://www.mun.ca/nursing/undergrad/collaborative/application_forms.php). The Bachelor of Nursing (Collaborative) LPN Bridging Option application for admission is also available at [www.mun.ca/nursing/](http://www.mun.ca/nursing/). The Bachelor of Nursing (Post-RN) program application for admission is also available at [www.mun.ca/nursing/undergrad/post\\_rn/forms.php](http://www.mun.ca/nursing/undergrad/post_rn/forms.php). The Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option application for admission is also available at [www.mun.ca/nursing/undergrad/nurse\\_prac/forms.php](http://www.mun.ca/nursing/undergrad/nurse_prac/forms.php).

### 4.3 Admission Requirements to School Programs

These regulations apply to the Bachelor of Nursing (Collaborative) program 4 year option, Fast-Track 2 year option and LPN Bridging option.

Applicants may apply for admission to School programs under the **Categories Of Applicants, Admission Criteria and Other Information** outlined under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**. In addition to meeting these regulations, applicants in the following categories, must meet the additional requirements as indicated below.

#### 4.3.1 High School Applicants

Applicants from High School may apply for admission only to the Bachelor of Nursing (Collaborative) four year program.

- High School applicants to the Bachelor of Nursing (Collaborative) program must have completed a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Advanced Math is preferred and science courses must include:

- Biology 2201 and 3201 or their equivalents
- Chemistry 3202 or equivalent

### 4.3.2 Memorial University of Newfoundland Applicants

Memorial University of Newfoundland applicants may apply for admission to the Bachelor of Nursing (Collaborative) program 4 year Option, the Fast-Track 2 year Option, and the LPN Bridging Option.

1. Bachelor of Nursing (Collaborative) four year option applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
  - Biology 2201 and 3201 or their equivalents
  - Chemistry 3202 or equivalent
2. Bachelor of Nursing (Collaborative) Fast-Track two year Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
  - Statistics 2500 or equivalent, or Education 2900
  - Biochemistry 1430 or equivalent
  - Biology 3053 or equivalent

or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:

- 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
- 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
- 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.

### 4.3.3 LPN Bridging Applicants

Applicants with a Licensed Practical Nurse designation may apply for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option.

1. To be considered for admission to the Bachelor of Nursing (Collaborative) LPN Bridging Option applicants must:
  - be a graduate (2002 or later) of an approved Practical Nursing Program, Province of Newfoundland and Labrador;
  - be a Licensed Practical Nurse (copy of certification required);
  - meet the admission requirements for the Bachelor of Nursing (Collaborative) Program listed under Admission/Readmission Regulations for the School of Nursing; and
  - have completed the following high school courses:
    - i. Biology 2201 and 3201 or their equivalents
    - ii. Chemistry 3202 or equivalent

Admission into the second year of the Bachelor of Nursing (Collaborative) program will be conditional and based on successful completion of the Bridging Semester, which includes the following:

- i. Biochemistry 1430 (Fall and Spring Offerings)
- ii. Psychology 1000
- iii. English (3 credit hours)
- iv. A score of 50% on a Mathematics Placement Test or Mathematics 102FN or 3 credit hours in Mathematics.

### 4.3.4 Registered Nurse Designation Applicants

Applicants with a Registered Nurse designation may apply for admission to the Bachelor of Nursing (Post-RN) Distance Option or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.

1. Bachelor of Nursing (Post-RN) Distance Option program applicants are accepted on an ongoing basis and must provide:
  - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.; and
  - one letter of reference from a current supervisor of nursing position.
2. Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option applicants must provide:
  - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.; and
  - a complete application package which includes:
    - an application to the University for those who have not attended Memorial University of Newfoundland in the two preceding semesters;
    - an application to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option that includes a personal statement and description of relevant work experiences;
    - proof of current practicing RN license;
    - two letters of reference, one of which must be from the current nursing supervisor or employer;
    - evidence of two years of recent acute care nursing experience;
    - completed health assessment;
    - completed record of current immunization as outlined on the appropriate School of Nursing form; and

- a letter from a primary health care physician or a primary health care nurse practitioner and a health care agency guaranteeing the applicant a preceptored clinical placement throughout the program.

### 4.3.5 Transfer Applicants

Transfer applicants may apply for admission to any of the School of Nursing programs.

1. Bachelor of Nursing (Collaborative) four year option applicants must have a high school diploma, or its equivalent, as certified by the Department of Education of Newfoundland and Labrador. High School Math is preferred and science courses must include:
  - Biology 2201 and 3201 or their equivalents
  - Chemistry 3202 or equivalent
2. Bachelor of Nursing (Collaborative) Program Fast-Track Option applicants must have successfully completed an undergraduate degree from a recognized university and the following courses prior to admission:
  - Statistics 2500 or equivalent, or Education 2900
  - Biochemistry 1430 or equivalent
  - Biology 3053 or equivalent

or qualify for advanced standing. An applicant who has successfully completed all the non-nursing course requirements of the Bachelor of Nursing (Collaborative) program, and who is in good standing, may qualify for advanced standing. Applicants must demonstrate successful completion of the following 12 courses, 36 credit hours prior to admission:

- 6 courses, 18 credit hours as follows: 6 credit hours from English, Biochemistry 1430 or equivalent, Biology 3053 or equivalent, Psychology 1000 or equivalent, Statistics 2500 or equivalent or Education 2900;
  - 4 courses, 12 credit hours as follows: 3 credit hours from each of the following: Business, Philosophy 2500-2599 or Religious Studies 2610, Political Science, and Sociology, Anthropology, or Archaeology; and
  - 2 courses, 6 additional elective credit hours selected from any credit courses offered by this University.
3. Bachelor of Nursing (Post-RN) program applicants must provide:
    - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides; and
    - one letter of reference from a current supervisor of nursing position.
  4. Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option applicants must provide:
    - proof of practising Registered Nurse (RN) license. For the purposes of admission a RN is a Nurse who is currently registered in Newfoundland and Labrador or eligible to register in Newfoundland and Labrador, or is currently registered or eligible for registration in the province/country in which the applicant resides. Applicants must have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.
    - a complete application package which includes:
      - an application to the University for those who have not attended Memorial University of Newfoundland in the two preceding semesters;
      - an application to the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option that includes a personal statement and description of relevant work experiences;
      - proof of current practicing RN license;
      - two letters of reference, one of which must be from the current nursing supervisor or employer;
      - evidence of two years of recent acute care nursing experience;
      - completed health assessment;
      - completed record of current immunization as outlined on the appropriate School of Nursing form; and
      - a letter from a primary health care physician or a primary health care nurse practitioner and a health care agency guaranteeing the applicant a preceptored clinical placement throughout the program.

### 4.4 Other Information

1. Applicants seeking clinical placements outside of Canada must satisfy the clinical agency's immunization requirements submitting documentation of its requirements to that agency at least one month in advance of the start of the semester in which the course will be taken.
2. Applicants seeking clinical placements within Canada must satisfy the School of Nursing immunization requirements outlined on the School of Nursing Immunization Requirements form. This documentation must be submitted to the Office of the Registrar in advance of the start of registration for the semester in which the course will be taken.

## 5 Program Regulations - General Degrees

### 5.1 Bachelor of Nursing (Collaborative) Program

1. The four year, 130 credit hour Bachelor of Nursing (Collaborative) program requires 94 NURS credit hours and 36 non-NURS credit hours.
2. The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in **Table 1, 2, or 3 Bachelor of Nursing (Collaborative) Program**. These courses will be offered during the same year at all sites, but the semester of course offering may vary with each site.
3. Clinical course hours may occur at any time during the semester. Clinical courses may be offered in whole or in part outside the normal start and end dates of a semester.
4. Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) program may be used as electives in the Bachelor of Nursing (Collaborative) program with permission of the Committee on Undergraduate Studies and the course instructor.

## 5.2 Bachelor of Nursing (Collaborative) Fast-Track Option

1. The Bachelor of Nursing (Collaborative) Fast-Track Option is offered at Memorial University of Newfoundland School of Nursing and the Western Regional School of Nursing.
2. The 94 credit hours may be taken in the academic terms as set out in **Table 4 Bachelor of Nursing (Collaborative) Fast-Track Option**. Nursing 2002 and 2502 run over the first six weeks and Nursing 3012 and 3512 run over the second six weeks. Nursing 2514 and 3514 run consecutively for 6 weeks each.
3. Clinical Courses may be offered in whole or in part outside the normal start and end dates of a semester. In the last semester of the Fast Track option, the last clinical course will finish outside of the end date of Summer semester and may finish as late as the 3rd week in September. Students will be informed of the pertinent dates of clinical courses two semesters in advance.

### 5.3 Bachelor of Nursing (Collaborative) LPN Bridging Option

1. The Bachelor of Nursing (Collaborative) LPN Bridging Option is only offered at the Centre for Nursing Studies.
2. The three year and one semester 130 credit hour Bachelor of Nursing (Collaborative) LPN Bridging Option requires 69 NURS credit hours, one Bridging semester and 36 non-NURS credit hours.
3. The 130 credit hours are recommended to be taken in the academic terms in the sequence as set out in **Table 1, 2, or 3 Bachelor of Nursing (Collaborative) LPN Bridging Option**.
4. Selected nursing courses which are designed for the Bachelor of Nursing (Post-RN) program may be used as electives in the Bachelor of Nursing (Collaborative) program with permission of the Committee on Undergraduate Studies and the course instructor.
5. The Nursing Bridging Course is offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. The remaining courses are those regularly scheduled in the Bachelor of Nursing (Collaborative) Program.

**Table 5 Bachelor of Nursing (Collaborative) Program LPN Bridging Option**

Term	Required Courses	Elective Courses
Spring Academic Term 1	Bridging Course Biochemistry 1430 3 credit hours in English Psychology 1000 Mathematics Placement Test or Mathematics 102N or 3 credits in Mathematics	6 credit hours in total chosen from any academic unit must be completed in any Academic Term or during a Spring semester.
Fall Academic Term 2	3 credit hours in English NURS 2002 NURS 2003 NURS 2004 NURS 2502	
Winter Academic Term 3	Biology 3053 NURS 2014 NURS 2514 NURS 2520 3 credit hours in any one of Sociology or Anthropology or Archaeology Statistics 2500 or equivalent, or Education 2900

## 5.4 Bachelor of Nursing (Post-RN) Program

1. The 108 credit hour Bachelor of Nursing (Post RN) program requires 42 credit hours in NURS, 21 non-NURS credit hours, and 45 unspecified transfer NURS credit hours awarded on the basis of successful completion of a diploma program in Nursing.
2. The Committee on Undergraduate Studies, School of Nursing, may recommend that a maximum of 6 transfer credits be awarded for certain post basic nursing courses/programs or for current Canadian Nurses Association certification.
3. Students are required to have a current, practising licence in the jurisdiction in which they plan to complete courses with a clinical component.

Table 6 Bachelor of Nursing (Post-RN) Program

Required Courses	Elective Courses
3 credit hours in English Nursing 2040 Nursing 2230 Nursing 2700 Nursing 2740 Nursing 3023 Nursing 4002 Nursing 4010 Nursing 4310 Nursing 4701 Nursing 4702 Nursing 4754 Nursing 5210 Nursing 5220 Nursing 5700 3 credit hours chosen from Philosophy 2500-2599, or Religious Studies 2610 3 credit hours chosen from Statistics 2500 (or equivalent), or Education 2900	12 credit hours of which 6 should be at the 2000 level or above

## 5.5 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option

1. The 111 credit hour Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option requires 57 NURS credit hours, 45 unspecified transfer credits in NURS, and 9 non-NURS credit hours.
2. The 111 credit hours shall be taken in the academic terms in the sequence as set out in **Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time)** or **Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time)**.
3. Nurse Practitioner courses may be offered in whole or in part outside the normal start and end dates of a semester.
4. 9 elective credit hours comprised of 3 credit hours in English, Statistics 2500 or equivalent of Education 2900 and 3 credit hours from Philosophy 2500-2599 or Religious Studies 2610 are recommended to be completed prior to required courses in both full-time and part-time options as indicated in **Table 7 Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Two Year Plan (Full-Time)** and **Table 8, Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option Four Year Plan (Part-Time)**.

## 6 Promotion Regulations

These regulations apply to all programs except as noted below.

1. The Memorial University of Newfoundland School of Nursing constitutes the examining body for all School of Nursing examinations. The standing of every student will be assessed at the end of each academic semester by the Committee on Undergraduate Studies, and a grade report will be issued by the University Registrar to the individual student.
2. Students are required to achieve a grade of at least 65% or a grade of PAS as appropriate in each of the required nursing courses.
3. Except in the Bachelor of Nursing Fast-Track Option, students failing to achieve the requirements outlined above are permitted to repeat the given nursing course only once. A second failure in a given nursing course will result in withdrawal from the program. In the Bachelor of Nursing (Collaborative) Program Fast-Track option students may be permitted, with special permission from the Directors, to resume studies within the regular stream of the Bachelor of Nursing (Collaborative) Program and are subject to all its academic standards. Accordingly, invoking this clause carries over to the Bachelor of Nursing (Collaborative) Program as a first failure in the relevant course(s).
4. Failure in excess of two nursing courses during the program will result in withdrawal from the Bachelor of Nursing (Collaborative) four year program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, the Bachelor of Nursing (Post-RN), or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option.
5. Students who are required to withdraw from the Bachelor of Nursing (Collaborative) four year program, the Bachelor of Nursing (Collaborative) LPN Bridging Option, or the Bachelor of Nursing (Post-RN) program, as outlined above in the two preceding clauses, may appeal for readmission after a lapse of two semesters by writing to the Chair, Committee on Undergraduate Studies. Students who are required to withdraw from the program a second time will not be eligible for future admission/readmission to the program.
6. A student may be required to withdraw from a nursing course with a clinical component or from the program at any time, on the recommendation of the Committee on Undergraduate Studies, if the student is deemed unlikely to profit from continued attendance in the nursing course or program and/or is deemed unsafe in a clinical setting. Students who are required to withdraw from the program for any of these reasons will not be eligible for future admission/readmission to the program or the School of Nursing.
7. Students who fail to complete a nursing course in any program, other than the Bachelor of Nursing (Post-RN) program, for a period of three consecutive semesters will be considered to have withdrawn from the program. Students who have not completed a course in the Bachelor of Nursing (Post-RN) program within the last 6 consecutive semesters will be considered to have withdrawn from the program and must apply for re-admission. Students in the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who fail to complete a nursing course will be considered to have withdrawn from the program and must apply for re-admission.
8. Students in the Bachelor of Nursing (Collaborative) Program, the Bachelor of Nursing (Collaborative) Program Fast-Track Option or the Bachelor of Nursing (Collaborative) LPN Bridging Option who wish to take a leave of absence from the program may do so only with the written permission of the Director or delegate. A leave will be granted for a maximum period of three consecutive semesters. Students on leave who plan to resume their studies must notify the Director in writing one semester prior to registration.
9. Students in the Bachelor of Nursing (Collaborative) Program and the Bachelor of Nursing (Collaborative) Program Fast-Track Option who voluntarily withdraw from the program prior to the conclusion of the first semester of the first year and who wish to return to the program must re-apply in competition as a new applicant.
10. Students in the Bachelor of Nursing (Collaborative) Program, the Bachelor of Nursing (Collaborative) Fast-Track Option, the Bachelor of Nursing (Collaborative) LPN Bridging Option or the Bachelor of Nursing (Post-RN) Nurse Practitioner Primary Health Care Option who voluntarily withdraw from the program, at the conclusion of the first semester of the program, or later, and who wish to return to the program, must appeal for readmission. The letter of appeal must be directed to the Chair, Committee on

Undergraduate Studies.

11. Students in the Bachelor of Nursing (Collaborative) Program four year and two year Bachelor of Nursing (Collaborative) Program Fast-Track Option who are readmitted to either option following a period of absence, either as a result of a leave of absence or a withdrawal from the program, may be required to do remedial work upon the recommendation of the Committee on Undergraduate Studies. Remedial work may include the repetition of classroom or clinical courses.

## 7 Waiver of School Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

### 7.1 General Information

1. The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
2. All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
3. Any waiver granted does not reduce the total number of credit hours required for the degree.

## 8 Supplementary Examinations

Any student receiving a grade of 60% in a Nursing course is eligible to write a supplementary examination in that course. Only three supplementary examinations in Nursing courses can be written during the program

In addition to meeting **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, upon successful completion of the supplementary examination, a student must also meet the promotion regulations of the School. For further information refer to **Promotion Regulations**.

1. Supplementary examinations are permitted only in Nursing courses that have a written final examination.
2. Supplementary examinations will have the same weight as final examinations for the course in determining whether the student achieves a passing grade for the course.
3. Any student writing a supplementary examination can obtain only a maximum grade of 65% in the course.
4. Supplementary examinations will be written no later than the first week of the semester immediately following the one in which the course was failed. Normally they should coincide with the writing of deferred examinations in courses where deferred examinations are granted for the semester in question. Grades for supplementary examinations must be received by the Office of the Registrar within one week following the completion of the examination.
5. A student may write a supplementary examination for any one course only once.
6. If it is mathematically impossible to achieve a passing grade in a course the student will not be granted a supplementary examination.
7. Supplementary exams are not available for the Nursing Bridging Course offered at the Centre for Nursing Studies prior to entering the second year of the Bachelor of Nursing (Collaborative) Program. Students who are unsuccessful in the Bridging Course and who wish to enter the Bachelor of Nursing (Collaborative) Program must apply in competition to enter into the first year of the program.

## 9 Appeal of Regulations

1. An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined under **Admission/Readmission Regulations for the School of Nursing**. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Chair, Memorial University of Newfoundland School of Nursing, Committee on Undergraduate Studies. The letter should state clearly and fully the grounds for the appeal.
2. Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

## 10 Course Descriptions

In accordance with Senate's *Policy Regarding Inactive Courses*, course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Director of the School.

All courses of the School are designated by NURS.

**1002 Anatomy and Physiology I** presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of nursing. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems.

CR: Pharmacy 2002 or the former Pharmacy 3201  
LH: 2

**1003 Developing Therapeutic Relationships** focuses on the application of caring theory to interpersonal communications. It emphasizes the development of the role of communicator in individual and group experiences and in professional relationships. Utilizing an experiential model, laboratory experiences focus on self-awareness and group

dynamics.

CO: NURS 1004  
LH: 2

**1004 Introduction to Nursing** introduces the major concepts and theories related to the paradigm of person, health, society, nursing, environment, and nursing education in relation to the philosophy, conceptual framework and objectives of the program. Emphasis is placed on the concept of caring as the essence of nursing practice.

CR: the former NURS 1001

**1012 Anatomy and Physiology II** presents a survey of anatomy and physiology throughout the lifespan. It includes aspects of cytology, histology and embryology that form a foundation for the practice of nursing. Special emphasis is given to the circulatory, respiratory, urinary, digestive, and reproductive systems, including pregnancy and delivery.

CR: Pharmacy 2003 or the former Pharmacy 3202  
LH: 2  
PR: NURS 1002

**1014 Health Assessment** focuses on the development of competencies needed to assess the health status of individuals throughout the lifespan using a systematic approach. Content includes the nurse's responsibilities for health history, physical examination, interpretation of findings, and

documentation.

CO: NURS 1012  
CR: NURS 2040  
LH: 2

**1015 Health Promotion throughout the Lifespan** explores nursing concepts and theories pertaining to health promotion/protection throughout the lifespan. Content includes principles of teaching/learning, introduction to community health and primary health care concepts and the determinants of health.

CO: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option

CR: the former NURS 1011

OR: 24 clinical or lab hours during the semester

PR: NURS 1004 or the former NURS 1001, NURS 1003 and Psychology 1000; or admission to the Fast-Track Option

**1016 Healthy Aging** will explore, in-depth, concepts and issues applicable to the well older adult (65+). Selected theories, physical changes, and psychosocial, ethical, and legal issues associated with aging will be presented.

CO: NURS 1012, 1014, and 1015; or admission to the Fast-Track Option  
PR: NURS 1002, 1003, and 1004; or admission to the Fast-Track Option

**1017 Fundamental Psychomotor Competencies** will provide the student an opportunity to acquire beginning psychomotor competencies that are related to the provision of client comfort and safety in a variety of settings. As well, this course provides the opportunity for the student to integrate the conceptual framework of the Bachelor of Nursing (Collaborative) program into the development of psychomotor competencies.

CH: 1

CO: NURS 1003 and 1004

LC: 0

LH: 2

PR: NURS 1003 and 1004

**1520 Extended Practice I** provides the student with the opportunity to integrate the knowledge and practise the competencies acquired to date. The focus is the promotion, protection and maintenance of health for individuals within the context of the family. This course is normally taught at the end of the winter semester, usually beginning during the final week of the examination period.

CO: NURS 1012, 1014 or 2040, 1015 or the former 1011, 1016, and 1017

OR: 96 clinical hours over three weeks; or 96 clinical hours during the semester for Fast-Track Option students

PR: NURS 1012, 1014 or 2040, 1015 or the former 1011, 1016 and 1017

**2002 Nursing Concepts for the Care of Women and the Child-bearing Family** covers major concepts in women's reproductive health. The two major foci are women and their families through all phases of childbirth and the neonatal period, and nursing care of women experiencing alterations in reproductive health.

CO: NURS 2003, 2004, and 2502

CR: the former NURS 2001

PR: NURS 1520, 2003, and 2004

**2003 Pathophysiology** presents general concepts of disease processes and their impact on health. The course focuses on major pathophysiological changes, including associated etiology, pathogenesis and clinical manifestations. Common illnesses are studied to illustrate these disease processes.

CO: NURS 1012

OR: tutorial 1.5 hours per week

PR: NURS 1012, Biochemistry 1430

**2004 Pharmacology and Nutritional Therapies** explores principles and concepts of pharmacological, nutritional and complementary therapies and management of common health problems across the lifespan. Nursing considerations and psychomotor competencies pertinent to these therapies are addressed.

CO: NURS 1012

LH: 2

PR: NURS 1012, Biochemistry 1430, and a score of 50 on the Mathematics Placement Test or Math 102N or 3 credit hours in Mathematics excluding Statistics 2500.

**2014 Community Health Nursing Theory** focuses on the knowledge required to practise nursing in the community with a variety of clients including individuals, families, groups and communities. It further examines the principles of primary health care, population health, and their application in community health nursing. It also focuses on the multidimensional role of the nurse.

CO: NURS 2003 and 2004, 2514

CR: NURS 4101

OR: seminar or labs 2 hours per week

PR: NURS 1520, 2003, and 2004

**2040 Health Assessment** focuses on the development of competencies needed to assess the health status of individuals. A systematic approach will be used for the collection and analysis of data related to the health status of

the client. Interpretation of the health assessment findings and of the results of diagnostic tests will be discussed in the context of nurses' responsibilities.

CR: NURS 1014

PR: proof of current practising license as a Registered Nurse

**2230 Teaching/Learning** is designed to familiarize the student with theories, principles and methods of learning and teaching and to allow the student to apply them in client teaching situations.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

**2502 Nursing Practice for the Care of Women and the Child-bearing Family** provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 2002. Selected experiences are offered in a variety of institutional and community-based settings related to the provision of nursing care for women and their families.

CO: NURS 2002

CR: the former NURS 2501

LH: 24 during the semester

OR: 80 clinical hours during the semester

**2514 Community Health Nursing Practice I** provides the student with the opportunity to apply knowledge and practise competencies for beginning community health nursing practice acquired in Community Health Nursing Theory.

CO: NURS 2014 or NURS 4101

OR: 96 clinical hours during the semester

PR: NURS 1520

**2520 Extended Practice II** provides the student with the opportunity to integrate the knowledge and practise the competencies acquired to date. The focus is on caring for adults in stable health situations and on the application of community health concepts. This course is normally taught at the end of the Winter Semester, usually beginning during the final week of the examination period.

CO: NURS 2002 and 2502 or 2014 and 2514

OR: 96 clinical hours over three weeks

PR: NURS 2002, 2014, 2502, and 2514; or admission to the Fast-Track Option

**2700 Nursing Theories in Practice** is designed to introduce the students to the key concepts, conceptual models and selected theories of nursing. This is a required course for the Bachelor of Nursing (Post-RN) program and may be used as an elective in the Bachelor of Nursing (Collaborative) program.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

**2740 Current Concepts in Human Physiology** is a comprehensive review of the physiology of the cell and major body systems. It assumes a basic understanding of physiology and provides the basis for concepts developed in NURS 4701 and NURS 4702.

PR: proof of current practising license as a Registered Nurse or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

**2990 Spiritual Dimension of Nursing Practice** will focus on the spiritual dimension of nursing practice. Students will explore their own personal spiritual philosophy and development. Key concepts of the spiritual dimension of nursing will be examined, such as spiritual well being, spiritual needs, spiritual distress and spiritual care. Distinction will be made between religion and expressions of spirituality.

PR: NURS 1004 or the former NURS 1001, and 1014 or be a Registered Nurse

**2991 Complementary and Alternative Health Care** provides an overview of the philosophy and practice of complementary and alternative health care (CAHC). It introduces students to key terminology and theoretical perspectives foundational to selected CAHC modalities. Using a holistic approach and research principles, they will examine some commonly used CAHC approaches. They will also explore situations where integrative health care incorporates biomedical, complementary and alternative modalities.

**3001 Nursing Concepts for Mental Health** focuses on individuals, families and small groups experiencing psychiatric/mental health problems across the lifespan. The meaning of mental health and illness to the individual, family and vulnerable populations is explored. Course content includes counselling, psychopathology, interdisciplinary psychiatric care, community mental health concepts and analysis of sociopolitical factors/issues affecting mental health.

CO: NURS 3501 or NURS 4502

OR: seminar 2 hours per week

PR: NURS 2520

**3012 Nursing Concepts for Children, Adolescents and Young Adults** uses a conceptual approach to focus on the nursing care of individuals and families, from infancy to young adulthood. The emphasis is on assisting persons experiencing health related needs to achieve health and well-being.

CO: NURS 3512

CR: the former NURS 2011  
PR: NURS 2520; or admission to the Fast-Track Option

**3014 Nursing Concepts in Middle and Older Adulthood** uses a conceptual approach and focuses on individuals and families from middle to older adulthood. The emphasis is on assisting persons experiencing acute and chronic health related needs to achieve health and well being.

CO: NURS 3514  
CR: the former NURS 3111  
PR: NURS 2520

**3023 Counselling** focuses on the counselling role of the nurse, building on the communication skills inherent in a helping relationship. Gerard Egan's model, an integral part of the course, is a problem-management and opportunity development approach to helping. Key counselling skills are discussed and students have the opportunity to practice these skills to further enhance their ability to effectively counsel clients in a variety of nursing contexts.

CR: the former NURS 3022  
PR: acceptance into the Bachelor of Nursing (Post-RN) program or admission to the Bachelor of Technology Program or admission to the Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

**3070 Health Assessment Across the Lifespan** focuses on the development of competencies and assessment skills necessary for the completion and documentation of a comprehensive health assessment. Common physical alterations and developmental issues that may impact on client status and findings across the lifespan will be incorporated. Students are required to attend St. John's Campus for laboratory sessions.

CO: NURS 3380  
CR: NURS 2040  
PR: proof of a current practising license as a Registered Nurse.  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**3104 Nursing Research** builds on previously introduced research concepts. It explores the research process and its inherent ethical and legal implications. The course focuses on the acquisitions of concepts used to critically appraise nursing research studies and examines the relevance of these studies for nursing practice.

CO: Statistics 2500 or equivalent, or Education 2900  
CR: NURS 4002 and the former NURS 4104  
PR: Statistics 2500 or equivalent, or Education 2900

**3113 Nursing Leadership and Management** is designed to promote an understanding of the theories and principles of leadership and management in relation to the Co-ordinator of Care nursing role. Emphasis is placed on concepts of organizational structure and function, management of client care, team building, professional development, and application of nursing theories to practice. Current issues and trends are explored.

CO: NURS 3501 or NURS 4502, NURS 3512, and NURS 3514  
PR: NURS 3501, 3512, and 3514

**3200 Transcultural Nursing** - inactive course.

**3380 Health Assessment Clinical Practice I** focuses on the clinical application of knowledge and skills obtained in NURS 3070. Students are preceptored by either a nurse practitioner or physician in a primary health care setting to complete comprehensive health histories and physical examinations on clients across the lifespan. Students are required to attend St. John's Campus for clinical testing.

CO: NURS 3070  
CR: NURS 2040  
OR: 8 clinical hours per week  
PR: proof of a current practising license as a Registered Nurse.  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**3410 Roles of Nurse Practitioners in Primary Health Care** examines the role of the nurse practitioner in the delivery of primary health care. Factors affecting role implementation and its impact on health care delivery will be discussed. The historical development and future trends of nurse practitioner practice in a changing health care system will be examined.

CO: NURS 4002  
PR: NURS 2700 and NURS 4002  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**3430 Concepts in Pharmacology Across the Lifespan** focuses on the principles of pharmacology and nutritional therapies across the lifespan. Pharmacotherapeutic and nutritional management of common health problems within each body system will be discussed. Emphasis will be placed on the application of knowledge required to prescribe and monitor medication and nutritional therapies within the scope of practice for the Primary Health Care Nurse Practitioner.

CR: NURS 4702  
PR: NURS 2740 and NURS 4701  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**3501 Nursing Practice for Mental Health** provides the student with opportunities to apply theoretical knowledge and to practise competencies acquired in NURS 3001 and related courses. Selected experiences related to the provision of nursing care for individuals, families, and small groups are offered in a variety of institutional and community based mental health settings.

CO: NURS 3001  
OR: 96 hours during the semester

**3512 Nursing Practice with Children, Adolescents and Young Adults** provides the student with opportunities to apply knowledge and practise competencies acquired in NURS 3012. Selected experiences are offered in a variety of institutional and community based settings related to the provision of nursing care for children, adolescents, young adults and their families.

CO: NURS 3012  
CR: the former NURS 2511  
LH: 24 hours during the semester  
OR: 64 clinical hours during the semester  
PR: NURS 2520; or admission to the Fast-Track Option

**3514 Nursing Practice with Middle and Older Adults** provides the student with the opportunity to practise competencies and apply knowledge acquired NURS 3014 and related courses. Selected experiences related to the provision of nursing care for middle and older adults, and their families are offered in a variety of institutional and community based settings.

CO: NURS 3014  
CR: the former NURS 3511  
LH: 24 hours during semester  
OR: 96 clinical hours during the semester  
PR: NURS 2520

**3523 Extended Practice III** provides the students with the opportunity to apply leadership and management principles in coordinating care for groups of individuals within a variety of nursing care settings. Students also have the opportunity to further develop clinical competencies acquired in previous courses.

CH: 6  
CR: the former NURS 3520 and the former 3521  
OR: 40 clinical hours per week for eight weeks  
PR: NURS 3001 and 3501, NURS 3014 and 3514, NURS 3012 and 3512, NURS 3113 and clinical placement approval from the Committee on Undergraduate Studies.

**4002 Introduction to Nursing and Health Research** introduces students to the key terminology, elements, and processes of research. The focus will be on understanding the components of the research process, interpreting and critically analysing nursing and health-related research studies, and understanding the importance of utilizing research for evidence based practice. Students will have the opportunity to explore methodologies in both quantitative and qualitative research.

PR: Statistics 2500 or equivalent, or Education 2900, and acceptance into the Bachelor of Nursing (Post-RN) program or admission to the Bachelor of Technology Program

**4010 Community Health Nursing I** introduces the student to the field of community health nursing. It focuses on the nursing care of individuals, families, groups, and the community. Core concepts include theoretic approaches to families, epidemiology, health promotion and the community as client.

CR: the former NURS 4311 or 4312  
PR: NURS 2040, 2230, 2700, 3023 or the former 3022, 4002, and proof of current practising license as a Registered Nurse or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

**4101 Community Health Nursing** focuses on the knowledge required to practise nursing at the aggregate and community levels. It further examines the principles of primary health care, their application in community health nursing and the multidimensional role of the nurse. Core concepts include: community development, epidemiology, program development, and the theoretical bases of community health nursing.

CO: NURS 3523 or the former 3520, 3521, 3522, and 4501; or admission to the Fast-Track Option  
OR: tutorial 2 hours per week  
PR: the former NURS 3520, 3521, 3522, or NURS 3523; or admission to the Fast-Tack Option

**4103 Issues in Nursing and Health Care** focuses on the development of a personal framework for nursing practice, nursing organizations at the international level and nursing's role and development within health care systems. Current trends and issues in health policy and health care are examined.

PR: NURS 3113 or admission to the Fast-Tack Option

**4110 Senior Seminar** follows the completion of two clinical courses taken during the final semester of the program. It is designed to allow students to share with peers and faculty their ability to critically discuss the professional competencies and issues in complex work-related situations. Students also

report on significant aspects of the nursing roles in which they participated during one of the two clinical courses NURS 4512 and 4514.

CO: NURS 4512 and 4514; or admission to the Fast-Track Option  
PR: NURS 3104 or the former 4104, 4103, and 4501

**4310 Community Health Nursing II** allows the student to apply the knowledge and practise the competencies acquired in NURS 4010. Clinical experiences will focus on the nursing of selected families and population groups within the community, using a primary health care framework.

OR: 8 clinical hours per week  
PR: NURS 4010 and proof of current practising license as a Registered Nurse or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option.

**4370 Health Assessment Clinical Practice II** provides clinical opportunities for students to complete focussed histories and physical examinations on clients across the lifespan. The integration and consolidation of knowledge and skills obtained in NURS 3070 and NURS 3380 is required. Students are preceptored in a primary health care setting by either a nurse practitioner or physician. Students are required to attend St. John's Campus for clinical testing.

CR: NURS 2040  
OR: 8 clinical hours per week  
PR: proof of a current, practising license, NURS 3070, and NURS 3380  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**4501 Community Health Nursing Practice II** provides the student with opportunities to apply knowledge acquired in Community Health Nursing Theory and other related courses. It also further develops competencies in community health nursing practice. In the clinical experiences, students work with selected aggregates (including individuals and families) in the community.

CO: NURS 4103  
CR: NURS 4502  
OR: 96 hours during the semester  
PR: NURS 2014, NURS 2514, and NURS 3523; or NURS 2514, NURS 4101 and admission to the Fast Track Option

**4502 Nursing Care in Community and Mental Health Settings** provides opportunities for practice in acute care psychiatric/mental health and community settings with individuals, families, and groups/aggregates. The application of community health and mental health knowledge and competencies, with a particular focus on the concepts of vulnerability/resilience, will be emphasized.

CH: 6  
CO: NURS 3001  
CR: NURS 3501 and NURS 4501  
OR: 168 hours during the semester  
PR: Admission to the Fast-Track Option and NURS 2014 or 4101, NURS 2514, NURS 3014, NURS 3104, NURS 3514

**4512 Community Health Practicum** provides students with the opportunity to integrate and consolidate knowledge and competencies acquired throughout the program and apply them to community health nursing practice. Using a primary health care framework, the student participates in strategies which facilitate the mobilization of communities toward health. Online discussions will be included.

OR: 40 clinical hours per week for four weeks  
PR: NURS 2014 or 4101, and 2514 and 4501, or admission to the Fast-Track Option

**4514 Nursing Practice Elective** provides students with the opportunity to practise nursing with a client population and in a setting of their choice. Students apply and test knowledge from nursing and related disciplines in this selected clinical setting. The course also enables students to further develop their professional roles.

CH: 6  
CR: the former NURS 3522 or NURS 4513  
OR: 40 clinical hours per week for eight weeks  
PR: NURS 4101 and 4501 and clinical placement approval from the Committee on Undergraduate Studies

**4515 Nursing Concepts & Practice for Complex Care** provides students the opportunity to work with individuals and their families who are experiencing multiple health challenges. Students are expected to synthesize concepts and theories of nursing, science and humanities, and participate in interprofessional collaborative practice in a variety of settings to facilitate the achievement of health and well-being for clients and their families.

OR: seminars 1 hour per week  
OR: 144 clinical hours during the semester  
PR: NURS 3523 or admission to the Fast-Track Option

**4516 Consolidated Practicum** provides students with the opportunity to practice nursing with a select client population. Students apply and test knowledge from nursing and related disciplines in this selected clinical setting. The course also enables students to further develop their professional roles. Online discussions will be included.

CH: 6  
CR: NURS 4514 or the former NURS 3522, and the former NURS 4513  
OR: 40 clinical hours per week for ten weeks  
PR: NURS 4103, NURS 4501 or 4502 and NURS 4515

**4701 Current Concepts in Pathophysiology** reviews the most recent theories in pathophysiology, current trends in diagnosis and treatment and their nursing implications. This course assumes a basic understanding of physiology.

PR: acceptance into the Bachelor of Nursing (Post-RN Program) and NURS 2740, or admission to the Bachelor of Technology Program or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option

**4702 Current Concepts in Pharmacology and Nutrition** explores current principles of nutrition and pharmacology in a variety of disease states. The course will be built upon previous nutrition and pharmacology knowledge. This course assumes a basic understanding of physiology.

PR: acceptance into the Bachelor of Nursing (Post-RN) program and NURS 2740.

**4754 Clinical Dimensions of Professional Nursing Practice** allows students to explore in depth, concepts and practices that are relevant to all populations across a variety of care settings. Emphasis will be placed on enhancing knowledge, attitudes and skills for nursing assessment, interventions and measurement of nursing-sensitive outcomes. Students will be required to apply the knowledge gained to client situations in clinical practice.

CR: the former NURS 4714, 4720 or 4723, 4734, and 4744  
OR: 72 clinical hours during the semester  
PR: NURS 2040, 2230, 2700, 3023 or the former 3022, 4002, 4701, 4702 and proof of current, practising license

**5210 Health Care Systems** focuses on the philosophical bases and practical considerations in the organization and administration of Health Care Delivery Systems. The planning, management and evaluation of the Canadian health care system will be compared with those of other countries. Future trends in the delivery of health care to Canadians will be discussed.

PR: admission to the Bachelor of Nursing (Post-RN) program and 3 credit hours in English and NURS 2230; or admission to the Bachelor of Technology Program and 3 credit hours in English.

**5220 Professional Issues** reviews the historical development of the nursing profession and facilitates discussion of factors influential in its evolution. Content will focus on the current status of nursing, ethical issues and the profession's impact on health care delivery. Selected categories of nursing theory, their impact on practice and education will be analysed in relation to major issues and future trends in nursing.

PR: Admission to the Bachelor of Nursing (Post-RN) program and 3 credit hours in English and NURS 2230.

**5327 Interdisciplinary Course on Family Violence** - inactive course.

**5360 Advanced Clinical Decision Making – Clinical Practice** focuses on the application of diagnostic reasoning and clinical decision making skills learned in N5600. Opportunities to acquire advanced skills to assist in the diagnosis and management of common health problems will be provided. Preceptored clinical experiences will be provided in primary health care practice settings. Students are required to attend St. John's Campus for demonstrations and clinical testing.

CO: NURS 5600  
OR: 16 clinical hours per week  
PR: proof of a current practising license as a Registered Nurse, NURS 4701, NURS 4310, and NURS 4370  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**5370 Integrated Clinical Practicum** provides opportunities for learners, under the mentorship of nurse practitioners and physicians, to gain experience in managing the health and illness needs of clients across the life span. Clinical learning experiences are selected to develop learner competence and confidence for the transition to the role of a Primary Health Care Nurse Practitioner. Students are required to attend St. John's Campus for clinical testing.

OR: 5 days of clinical per week  
PR: proof of a current practising license as a Registered Nurse, NURS 5600 and NURS 5360  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse Practitioner Primary Health Care Option

**5600 Advanced Clinical Decision Making** focuses on the development of diagnostic reasoning and clinical decision making skills within the scope of practice of a primary care nurse practitioner. A systematic approach to patient assessment and management of health problems will be discussed. This course integrates knowledge acquired in previous courses. Students are required to attend St. John's campus for some onsite lectures.

CO: 5360  
PR: proof of a current, practising license as a Registered Nurse, NURS 4310, 4370, and 4701  
UL: applicable only to the Bachelor of Nursing (Post RN) Nurse

Practitioner Primary Health Care Option

**5700 Nursing Management** is designed to promote an understanding of theories and principles of management of nursing practice. Process, methods and issues are considered with emphasis on practical nursing examples.

PR: admission to the Bachelor of Nursing (Post-RN) program or admission to Bachelor of Nursing (Post-RN) Primary Health Care Nurse Practitioner Option and 3 credit hours in English and NURS 2230  
UL: applicable only to the Bachelor of Nursing (Post-RN) program

Spurrell, W., B.Sc.(Pharm.) *Memorial*

**Laboratory Instructor**

Ryan, P., B.Sc., M.Sc. *Memorial*

## 1 The Memorial University of Newfoundland Code

The attention of all members of the University Community is drawn to the section of the University Calendar titled **The Memorial University of Newfoundland Code**, which articulates the University's commitment to maintaining the highest standards of academic integrity.

## 2 School Description

The School of Pharmacy offers an undergraduate degree in pharmacy and graduate degrees in pharmaceutical sciences. The School is committed to providing an undergraduate program of quality and excellence that will prepare individuals who will contribute significantly in all settings of pharmacy practice. The experiential learning component of the program ensures students have the opportunity to integrate academic learning with professional practice and to develop the necessary knowledge, skills and attitudes required of practising pharmacists. The School encourages a close working relationship among students, faculty, and staff, and prides itself on its strong association with and support of the pharmacy community at both the provincial and national level.

Additional information regarding the School of Pharmacy is available at [www.mun.ca/pharmacy](http://www.mun.ca/pharmacy).

Students must meet all regulations of the School in addition to those stated in the general regulations. For information concerning fees and charges, admission/readmission to the University, and general academic regulations (Undergraduate), refer to **UNIVERSITY REGULATIONS**.

### 2.1 Vision Statement

Working together towards a healthy tomorrow; *Become....the future of pharmacy.*

### 2.2 Mission Statement

As a School of Pharmacy with a strong sense of community, we are dedicated to:

- expanding the School of Pharmacy and developing the School as a Centre of Excellence for Comprehensive Pharmacy Studies;
- preparing pharmacy professionals committed to collaborative patient-centered care;
- fostering excellence and innovation in research and graduate studies;
- advancing the scope of pharmacy practice; and
- building upon a learning environment in which every student is valued.

### 2.3 Accreditation Status

The School of Pharmacy is accredited by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP) to June 2010.

### 3 Description of Program

The School of Pharmacy offers an undergraduate program leading to the degree of Bachelor of Science (Pharmacy). This degree is designed to prepare graduates for careers primarily in community and hospital settings but also in the pharmaceutical industry, pharmacy organizations, health sciences research, government, and educational environments. After successful completion of national examinations, a graduate of the program is eligible to apply to be licensed as a pharmacist in Newfoundland and Labrador and other provinces in Canada.

The program of study leading to the Bachelor of Science (Pharmacy) degree has two phases and requires at least five years to complete. Prior to entry to the program students will acquire a background in the mathematical and physical sciences. Once in the program students will take courses in the basic health sciences, pharmacy sub-specialties and social/administrative sciences. At the end of each year students will have an opportunity to apply the academic knowledge acquired and to develop and practice patient care skills by participating in experiential learning within community and hospital settings. During the program students will develop an understanding of the professional and societal responsibilities of a pharmacist, and will recognize the need for lifelong learning.

#### 3.1 Structured Practice Experience

Students are required to successfully complete all experiential components of the program, including the Structured Practice Experience (SPE). During SPE's students are placed in a variety of pharmacy practice settings and are brought into direct contact with patients, pharmacists and other health professionals. Students become involved in the practice of pharmaceutical care and are expected to assume increasing responsibility as their education advances. Such practice experiences ensure students are exposed to situations which cannot be provided in the classroom..

1. The Joint Committee on Structured Practice Experience, consisting of representatives from both the School of Pharmacy and the Newfoundland and Labrador Pharmacy Board, is responsible for providing the overall direction for the program and recommending policies and procedures for its operation.
2. Students will be placed at sites by the School. The Structured Practice Experience Co-ordinator liaises with students to determine placements.
3. While every effort will be made to accommodate a student's request to complete SPEs in a specific location, a student may be assigned to any participating site within the province of Newfoundland and Labrador.
4. Students are responsible for all travel and accommodation costs associated with the SPE.
5. Students who conduct themselves in such a manner as to cause their termination from the SPE site, including breaches in confidentiality, violation of policies and professional misconduct will be assigned a grade of FAL (fail) for that SPE.
6. Students are required to provide evidence of a valid certificate, normally, in St. John Ambulance or Canadian Red Cross Standard First Aid Level C that is valid for the duration of the SPE. Equivalent certificates will be considered and assessed on an individual basis for acceptability.
7. Students are required to complete three SPEs, each of four weeks duration, and one SPE of twelve weeks duration. The first three SPEs are completed at the end of the Winter semester in the first, second, and third years of the program. The final SPE is completed in the Winter semester of the final year of the program.
8. The number of hours per week of the SPE program will be as required by CCAPP standards.
9. Students will be evaluated on their performance during the SPE and on written assignments including workbooks, pharmaceutical care case work-ups and drug information requests. Students may have workbooks audited or they may be formally examined on material learned during the SPE period. The overall evaluation of SPEs will result in the assignment of one of the following grades: PWD (pass with distinction), PAS (pass), or FAL (fail).

#### 3.2 Registration as a Pharmacy Student

A student must be registered as a "Pharmacy Student" with the Newfoundland and Labrador Pharmacy Board. A student must be registered by September 30th of each academic year. As well, a student must be registered as a "Pharmacy Student" with the respective provincial or territorial licensing body prior to the commencement of Structured Practice Experiences. A student who fails to meet the requirements for licensing may be required to withdraw from the program.

## 4 Admission Regulations for the School of Pharmacy

In addition to meeting **UNIVERSITY REGULATIONS** students applying for admission for the program must meet the admission regulations of the School.

### 4.1 General Information

1. Admissions will be to the first year of pharmacy studies.
2. Entry to the School is competitive for a limited number of placements. Priority is given to applicants who are bona fide residents of Newfoundland and Labrador. The final decision on admission rests with the Admissions Committee of the School.
3. The Admissions Committee considers each applicant's academic background and information on the applicant's personal characteristics and achievements as given by the applicant. Personal interviews, which may include both a written and oral component, may be required. Reports from referees may also be considered.
4. The School of Pharmacy does not require criminal record checks or other screening procedures as a condition of admission to its program. However, students should be aware that such record checks or other screening procedures may be required by agencies used by the University for clinical or structured practice experiences related to academic course assignments necessary for graduation. Such agencies may refuse to accept students on the basis of information contained in the record check or other screening procedure thus preventing the student from completing a practice experience or other clinical requirement. As a result, such students may not be eligible for promotion or graduation.

It is the students' responsibility to have such procedures completed as required and at their own expense.

The screening procedures of any given agency may change from time to time and are beyond the control of the University.

### 4.2 Application Forms and Deadlines

1. Application forms are available in person from the School and the Office of the Registrar or through the School's website at [www.mun.ca/pharmacy](http://www.mun.ca/pharmacy). Application forms may also be obtained by writing the School of Pharmacy, Memorial University of Newfoundland, St. John's, NL A1B 3V6 or the Office of the Registrar, Admissions Office, Memorial University of Newfoundland, St.

John's, NL A1C 5S7.

2. All application forms and fees for admission to the program for the Bachelor of Science (Pharmacy) must be submitted to the Office of the Registrar of the University on or before the deadline of March 1 in any year. The program commences in the Fall semester.
3. Applications will be reviewed after the closing date by the Admissions Committee of the School. This Committee has the delegated authority of the School's Academic Council to admit or decline to admit applicants, following guidelines and procedures acceptable to that Council.
4. Each applicant is responsible for ensuring that all the required information for application is supplied to the Admissions Committee, and for providing any further information required by the Committee. An application will not be considered to be complete until all documentation has been received and appropriate fees paid.

### 4.3 Admission Requirements to the School

Applicants who are not currently students at Memorial University of Newfoundland must apply for admission to the University under the **Categories of Applicants, Admission Criteria and Other Information** outlined under **UNIVERSITY REGULATIONS - Admission/Readmission to the University (Undergraduate)**. In addition to meeting these regulations, applicants to the School must meet requirements as indicated below.

1. To be eligible for consideration an applicant shall have completed a minimum of 30 credit hours which have been taken or accepted for credit at a recognized university or university college.
2. An applicant is normally required to have completed each of the following courses or their equivalents. In the case of transfer students, the course equivalencies relate to courses taught at Memorial University of Newfoundland, St. John's campus.
  - Biology 1001 and 1002
  - Chemistry 1050 and 1051 or equivalent
  - English 1080 and English 1101 or equivalent
  - Mathematics 1000 and 1001
  - Physics 1020 and 1021 or Physics 1050 and 1051
3. For students attending Sir Wilfred Grenfell college campus, the following course offerings are acceptable for admission to the School;
  - Biology 1001 and 1002
  - Chemistry 1200 and 1001
  - English 1000 and 1001
  - Mathematics 1000 and 1001
  - Physics 1020 and 1021, or Physics 1050 and 1051
4. Normally an application will not be considered from an applicant who cannot produce evidence that the above requirements have been met or will have been met by the time of entry into the School.
5. An unsuccessful applicant who wishes to reapply for admission is required to submit the application forms relevant to the year of reapplication and will be required to enter into the competition for that year.

### 4.4 Acceptance Procedures

1. Notification of the decision of the Admissions Committee of the School will be made to applicants by the Director of the School by letter. No other form of notification will be considered official.
2. The letter of acceptance will give the successful applicant 14 days from the date of the letter of notification in which to confirm acceptance of the placement offer. The signed intention to accept the offer must be accompanied by a deposit of \$100, which will be credited towards tuition fees. The deposit will be forfeited if the applicant subsequently declines the offer or fails to register. If no reply is received within 14 days, the offer by the School will be withdrawn and the applicant will be informed of this by letter.

## 5 Program Regulations - General Degree

### 5.1 Bachelor of Science (Pharmacy)

- The 174 credit hour Bachelor of Science (Pharmacy) degree requires 30 credit hours before admission to the program and 144 credit hours after admission to the program. The program includes four structured practice experiences, three of which are non-credit, with the other having 18 credit hours.
  - The program courses shall normally be taken in the academic terms in the sequence and course load as set out in **Table 1 Bachelor of Science (Pharmacy)**. Students wishing to change the sequence and/or reduce the course load required in the academic terms must obtain permission from the School's Committee on Undergraduate Studies.
  - Elective courses may be taken from any academic unit.

**Table 1 Bachelor of Science (Pharmacy)**

Term	Required Courses	Elective Courses
Courses required for admission as indicated under <b>Admission Requirements to the School)</b>	Biology 1001 and 1002 Chemistry 1050 and 1051 or equivalent English 1080 and English 1101 or equivalent Mathematics 1000 and 1001 Physics 1020 and 1021 or Physics 1050 and 1051

Winter Academic Term 8	PHAR 500X	

## 6 Promotion Regulations

### 6.1 General Information

- The Committee on Undergraduate Studies will determine each student's promotion status at the end of each academic year.
- In addition to meeting the promotion regulations for the School students must meet the general academic regulations (undergraduate). For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**.
- Success in the program depends on meeting the requirements of all terms.

### 6.2 Promotion Status

A student's promotion status at the end of each academic year will be in one of the following two categories:

#### 6.2.1 Clear Promotion

Clear Promotion means a student can proceed to the next academic year without restrictions.

- Students will receive a Clear Promotion from an academic year by obtaining an average of 65% and having obtained at least a pass in each course. A weighted average based on credit hours in the Bachelor of Science (Pharmacy) program courses will be calculated for determining eligibility for promotion. Neither promotion nor graduation will be permitted if a student has a numeric grade below 50% in any course in the program.
- Students completing PHAR 2102 must obtain a numeric grade of at least 70%.
- Students completing PHAR 201W, 302W, 403W, or 500X must obtain a grade of PAS or PWD in each course.
- Students must attain a passing grade in each elective, but these courses will not be included in calculating the student's average grade for the purposes of promotion, graduation, or academic awards.

#### 6.2.2 Promotion Denied

Promotion Denied indicates Clear Promotion is not achieved at the end of each academic year.

- A student with Promotion Denied status will normally be required to withdraw from the School.
  - A student who does not obtain a clear promotion may be permitted to repeat all or part of the academic year. If a student is required to repeat a year on the grounds of unsatisfactory performance, his or her performance in the repeated year must meet the conditions for Clear Promotion. If this standard is not met, the Committee on Undergraduate Studies may require the student to withdraw from the program.
  - Normally, the option to repeat a year on the grounds of academic difficulties can be offered only once during the student's Bachelor of Science (Pharmacy) program. This restriction may be waived if it has been demonstrated that the student's academic performance has been adversely affected by factors duly authenticated and acceptable to the Committee on Undergraduate Studies.
- A student with Promotion Denied status at the end of the final academic term will not be recommended for graduation until the student's status is changed to Clear Promotion.

### 6.3 Other Information

- Students may be required to withdraw from their program at any time, if, in the opinion of the School, they are unlikely to benefit from continued attendance.
- The Committee on Undergraduate Studies may require a student who is deemed unlikely to benefit from continued attendance in his/her course of study to withdraw conditionally. The Chair of the committee will advise the Director of the School of the circumstances precipitating this action, the duration of the withdrawal and any conditions the student must fulfill during the withdrawal. The Director may then recommend to the Registrar that the student is on conditional withdrawal. Upon completing the conditions, the student may be permitted re-entry to the program. If the conditions are not met, the student may be required to withdraw from the program.
- The School reserves the right to require a student to withdraw from the program at any time when acceptable cause is demonstrated. In such cases, the Director, on behalf of the School, shall recommend such withdrawal to the Registrar who will then take appropriate action. Any such action is subject to the right of appeal by the student. An appeal should be made in writing clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Director, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

### 6.4 Leave of Absence

- Upon completion of an academic year, a student in good standing may elect to withdraw temporarily from studies. Voluntary withdrawal at other times and for other reasons may be permitted in accordance with **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Registration**. In all cases, the intent to withdraw voluntarily should be discussed with the Director. The Director may then recommend to the Registrar that a student be permitted to withdraw for a stated period of time. At the end of this period, the student, in consultation with the Committee on Undergraduate Studies, should ensure that sufficient revision and preparatory work is undertaken to allow studies to be resumed readily. In the absence of good cause, any such student who does not resume studies on the specified date may be deemed to have left the program.

## 7 Supplementary Examination Regulations

A student has the right to request to write a supplementary examination in courses offered by the School of Pharmacy that have written final examinations. In the case of Pharmacy courses, where the final examination is not cumulative, a student may be permitted to write one supplementary examination, at the discretion of the course co-ordinator, if they fail any one of the term examinations.

In addition to meeting **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate)**, upon successful completion of the supplementary examination, a student must also meet the promotion regulations of the School. For further information refer to **Promotion Regulations**.

1. Students who wish to write a supplementary examination must submit the prescribed form, which is available from the School of

Pharmacy, to the Office of the Director within one week of release of grades. Normally the supplementary examination will be written no later than the first week of the semester immediately following the one in which the course was failed. The examination will be similar in length and degree of difficulty as the original examination.

- A student who has satisfied the academic criteria for continuance at the University may write a supplementary examination in one Pharmacy course if the final grade obtained is 45-49% (F). In the case of a Pharmacy course that has a final pass mark greater than 50%, a student who obtains a final grade that is within five marks below the established pass mark may be permitted to write a supplementary examination.
- The student must pass the supplementary examination in order to pass the course. The new grade obtained from successfully passing the supplementary examination will be calculated using the same weighting scheme used in the course, but with the result of the supplementary examination replacing that of the original failed examination. Any additional course requirements, including a requirement to pass the laboratory/practical session, will continue to apply.
- The new course grade will replace the original grade on the student's transcript and will indicate that the course result was earned as the result of supplementary examination.
- A student may write a supplementary examination in a particular course only once; if the course result following the supplementary examination is a fail then the course must be repeated and successfully completed.
- A student will be permitted to write a maximum number of one supplementary examination during each year of the Pharmacy program.

## 8 Waiver of School Regulations

A student has the right to request waiver of School regulations. A student wishing waiver of University academic regulations should refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Waiver of Regulations**.

### 8.1 General Information

- The School reserves the right in special circumstances to modify, alter, or waive any School regulation in its application to individual students where merit and equity so warrant in the judgment of the Committee on Undergraduate Studies of the School.
- All requests must be submitted to the Committee on Undergraduate Studies of the School for consideration. A student requesting a waiver of a School regulation must submit the request in writing to the Chair of the Committee on Undergraduate Studies. Medical and/or other documentation to substantiate the request must be provided.
- Any waiver granted does not reduce the total number of credit hours required for the degree.

## 9 Appeal of Regulations

Any student whose request for waiver of School regulations has been denied has the right to appeal. For further information refer to **UNIVERSITY REGULATIONS - General Academic Regulations (Undergraduate) - Appeal of Regulations**.

- An applicant who has been denied admission has the right to appeal this decision of the Admissions Committee if it is felt by the applicant that the decision was reached on grounds other than those outlined in **Admission Regulations for the School of Pharmacy**. The appeal should be made in writing within fourteen days of the notification of the decision and should be directed to the Director of the School. The letter should state clearly and fully the grounds for the appeal. If the Director of the School, in consultation with the Registrar, judges the grounds to be sufficient, the formal appeals mechanism will be initiated.
- A student has the right to make a formal appeal against a decision of the Committee on Undergraduate Studies. However, this appeal cannot be made on the basis of the grades awarded in individual courses, as the student will normally have had the opportunity of contesting grades immediately after notification. A formal appeal by a student against the decision of the Committee must be made on grounds other than the grades awarded, e.g. default of procedure. This appeal should be made in writing, clearly stating the basis for the appeal and should be directed in the first instance to the Registrar of the University. The Registrar, in consultation with the Director, will determine whether or not the grounds stated are sufficient to warrant a formal hearing of the appeal.

## 10 Course Descriptions

In accordance with *Senate's Policy Regarding Inactive Courses*, the course descriptions for courses which have not been offered in the previous three academic years and which are not scheduled to be offered in the current academic year have been removed from the following listing. For information about any of these inactive courses, please contact the Director of the School.

All courses of the School are designated by PHAR and are restricted to students in the School of Pharmacy.

**2002 Anatomy and Physiology I** presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of pharmacy. Special emphasis is given to the skeletal, muscular, nervous and endocrine systems. The course will include both the vocabulary and concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1002  
LH: 2; attendance is required

**2003 Anatomy and Physiology II** presents a survey of human anatomy and physiology throughout the lifespan. It includes aspects of cytology and histology that form a foundation for the practice of pharmacy. Special emphasis is given to the endocrine, circulatory, respiratory, urinary, digestive and reproductive systems. The course will include both the vocabulary and

concepts of anatomy and physiology with the overall goal being the understanding of the interrelationships and integration of all systems from the cell to whole organism.

CR: Nursing 1012  
LH: 2; attendance is required  
PR: PHAR 2002

**2004 Introduction to Biochemistry** (formerly PHAR 3110) is an introduction to the major organic substances of living organisms, proteins, carbohydrates and lipids: their structure, analysis and biochemical function. Enzymes. Biochemistry of membranes: plasma membrane and specialized intracellular membranes. Biochemistry of selected differentiated cells.

CR: Biochemistry 2101  
OR: tutorials as required  
PR: Chemistry 2400 and 2401 or Chemistry 2440

**201W Structured Practice Experience I** is a structured practice experience in community pharmacy after completion of the first year which will provide an opportunity for students to apply their technical skills and introduce them to patient care activities. The structured practice experience is normally comprised of four weeks during May/June.

AR: attendance is required  
CH: 0  
LC: 0  
PR: successful completion of all courses in Academic Terms 1 & 2 of the program.

**2101 Pharmacy Practice I** provides an introduction to the legal and

professional framework of the practice of pharmacy. Pharmacy regulations in the dispensing of medications and provincial legislation that governs the practice of pharmacy will be the focus. Students will be introduced to core competencies of the profession including professionalism, interprofessionalism, pharmaceutical calculations, drug information and effective communication strategies for the provision of pharmacist care. Application of course content will occur in the concurrent course PHAR 2150.

CO: PHAR 2150

**2102 Pharmacy Practice II** continues the introduction to the legal and professional framework of the practice of pharmacy. The course will focus on federal legislation that governs the practice of pharmacy, drug information, patient education and methods to deal with challenging patient behaviours. Students will be introduced to pharmaceutical care and begin to develop a pharmacist care plan. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available. The passing grade in this course is 70%, failing which the student may be required to withdraw from the program.

CH: 2

CO: PHAR 2151

LC: 2

OR: tutorials 2 hours per week; attendance is required

**2150 Pharmacy Skills** provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. This course is the first in a series of Pharmacy Skills courses, all of which require students to acquire and apply the knowledge, attitudes and skills necessary for the effective practice of the profession. Students will begin to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will apply basic knowledge and skills in drug information, technology, interpersonal communications and pharmacy legislation to simulated practice situations. Students will develop public communication skills through the completion of a professional communications program. Activities in this course will complement material covered in the concurrent course PHAR 2101.

CH: 1

CO: all Academic Term 1 Pharmacy courses

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

**2151 Pharmacy Skills** provides an introduction to the skills necessary for pharmacy practice in order to meet the educational outcomes for the first year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the community pharmacy setting will be a focus. Students will develop dispensing, drug information and pharmaceutical calculations skills relevant to community pharmacy practice. Students will begin developing their patient interaction and patient education skills. Activities in this course will complement material covered in the concurrent course PHAR 2102. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 2 Pharmacy courses

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

PR: PHAR 2150 and 2101

**2201 Pharmaceutics I** provides an insight into a number of physicochemical basics and explains them within a pharmaceutical context. The course provides the basic foundation necessary for the study of pharmaceutical dosage forms, pharmacokinetics and bio-pharmaceutics.

LH: 3; attendance is required

PR: Mathematics 1000 and 1001; and Chemistry 1050 and 1051, or Chemistry 1200 and 1001, or equivalent

**2202 Pharmaceutics II** is designed to provide the student with an understanding of pharmaceutical dosage forms and their applications. It applies the principles taught in Pharmaceutics I to understand the design and components of the different pharmaceutical preparations.

LH: 3; attendance is required

PR: PHAR 2201

**2203 Pharmaceutical Analysis** is designed to introduce some important techniques and methods of analysis in pharmaceutical sciences. The laboratory exercises consist of both non-instrumental and instrumental analytical techniques that are widely employed in the analysis of pharmaceuticals.

CH: 2

LC: 2

LH: 3 hours every other week; attendance is required

PR: Chemistry 1050 and 1051 or Chemistry 1200 and 1001

**3003 Pathophysiology** (formerly PHAR 4004) examines the nature of disease, causes and effects, and alteration in structure and function of cells,

inflammation, neoplasia, genetic and chromosomal diseases, healing and repair, stress and disease.

**3009 Pharmacology** (formerly PHAR 4009) explores topics in general pharmacology including drugs used in the treatment of inflammatory diseases, renal pharmacology, anticoagulant and antithrombotic drugs, antihyperlipidemics, drugs used in the treatment of anemia, and endocrine pharmacology.

PR: Medicine 4300 or equivalent

**302W Structured Practice Experience II** is a structured practice experience in hospital pharmacy after completion of the second year which will provide an opportunity for students to apply their technical skills and introduce them to patient care activities. The practical experience is normally comprised of four weeks during May/June.

AR: attendance is required

CH: 0

LC: 0

PR: successful completion of all courses in Academic Terms 3 & 4 of the program.

**3103 Microbiology of Infectious Diseases** examines the various types of micro-organisms (bacterial, viral, parasitic and fungal), the environment in which they are able to multiply and their relationship to human diseases. The classifications of their morphology, mode of reproduction and the metabolic process, the physiological and epidemiological principles of infectious diseases and their manifestations are discussed including the principles of immunization.

**3111 General Biochemistry** covers the catabolism of carbohydrates, lipids and amino acids. Mitochondria, chloroplasts and ATP synthesis. Biosynthesis of carbohydrates and lipids. Metabolic specialization of differentiated cells and tissues. Integration of metabolism.

CR: Biochemistry 3106

OR: tutorials as required

PR: PHAR 2004 or the former 3110 or Biochemistry 2101

**3150 Pharmacy Skills** continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the second year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Pharmacy practice in the hospital setting will be a focus. Students will participate in sterile product preparation and practice drug information and pharmaceutical calculation skills relevant to hospital practice. Students will develop pharmacist care plans and will further develop their patient education skills. Scenarios will relate to the courses of study in the second year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 3 Pharmacy courses

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

**3151 Pharmacy Skills** continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the second year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in practice sessions necessary to develop an understanding of and skills required in patient assessment and patient education related to patient self-care. Students will build on their pharmacist care skills to meet patients' drug-related needs in uncomplicated patient scenarios and drug information skills to assess information needs. Scenarios will relate to the courses of study in the second year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 4 Pharmacy courses

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

PR: PHAR 3150

**3203 Medicinal Chemistry I** (formerly PHAR 4010) presents topics covering the molecular basis of action, metabolism, and toxicity of drugs. It provides an orientation to medically important nuclei and their nomenclature, followed by principles of drug discovery and development. The relationship between molecular structure and biological action of drugs together with elementary molecular modelling, and theories related to receptors and drug action will be presented. Concepts of drug metabolism and the relevant metabolic pathways in relationship to drug inactivation and toxicity, along with the principles of drug latency and prodrugs is covered. The structures, selected physicochemical properties, mechanism of action, structure-activity relationships, toxic effects at molecular level, and metabolism of drugs including central nervous system.

CO: Medicine 4300 and PHAR 3003  
 OR: tutorials 1 hour per week; attendance is required  
 PR: Chemistry 2440 or Chemistry 2400 and 2401

**3204 Medicinal Chemistry II** (formerly PHAR 4011) is a continuation of Pharmacy 3203 and focuses on the structures, selected physicochemical properties, mechanism of action, structure-activity relationships, toxic effects at molecular level, and metabolism of different pharmacological classes of drugs including cholinergic agents, analgetic and anti-inflammatory agents, insulin and oral antidiabetic drugs, steroids and related compounds, antihyperlipidemic agents, histamine and antihistaminic agents, diuretic agents, angiotensin converting enzyme inhibitors and antagonists, and calcium channel blockers.

CO: PHAR 3009  
 OR: tutorials 1 hour per week; attendance is required  
 PR: PHAR 3203

**3205 Pharmaceutics III** consists of several units. The standards of good manufacturing practice will be introduced. Characteristics, preparation, quality assurance and delivery systems for sterile products will be covered. The basic principles governing the application of radiation and radioactive compounds in medical diagnosis and therapy will be discussed. The status of current biotechnology-based pharmaceuticals and biotechnology related matters will be addressed.

PR: PHAR 2201 and 2202

**3206 Applied Pharmacokinetics** (formerly PHAR 4006) is an introduction to biopharmaceutical and pharmacokinetic principles used in the selection, dosing, monitoring and evaluation of drug therapy. Application of these principles in evaluating drug literature and developing drug dosage regimens of selected classes of drugs for individual patients will be discussed.

CO: PHAR 3009  
 PR: Medicine 4300, PHAR 2201 and 2202

**3301 Patient Care I** is an introductory course in patient care, especially in the areas of self-care and self-treatment and the role of the pharmacist. The regulatory environment of non-prescription products and the prevention and treatment of health conditions amenable to self-management will be discussed.

CO: PHAR 3009  
 PR: Medicine 4300

**3501 Pharmacy Research and Evaluation I** introduces students to principle roles of health policy with a special emphasis on pharmaceutical policy and its impact on health professionals, the public and on the delivery of pharmaceutical care.

CH: 1  
 LC: 1  
 PR: PHAR 2101 and 2102

**4008 Chemotherapy** presents the principles of infectious diseases and cancer chemotherapy. Topics to be explored include molecular structure profiles in relation to mechanism of action, drug resistance, and toxicity of antimicrobial, antiviral, and antineoplastic agents. Antimicrobial activity/spectrum of activity of antibacterials, antifungals, antimalarial, antituberculosis, and antiviral/antiretroviral agents will be discussed. The classification and mechanism of action of cancer chemotherapeutic agents will be presented. Pharmacokinetic considerations, adverse effects/toxicity, and drug interactions will be explored for these agents.

CH: 2  
 CO: PHAR 4105, PHAR 4401  
 LC: 2  
 OR: tutorials 1 hour per week  
 PR: Medicine 4300, PHAR 3009, 3103, 3203 and 3204

**403W Structured Practice Experience III** is a structured practice experience in community pharmacy after completion of the third year which will provide an opportunity for students to apply their technical skills and practice and participate in patient care activities. The practical experience is normally comprised of four weeks during May/June.

AR: attendance is required  
 CH: 0  
 LC: 0  
 PR: successful completion of all courses in Academic Terms 5 & 6 of the program

**4105 Immunology** is an introduction to the molecular and cellular basis of immunity and hypersensitivity. Manipulation of the immune system in the management and treatment of disease is discussed.

PR: PHAR 2002 and 2003 or PHAR 3201 and 3202

**4150 Pharmacy Skills** continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the third year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in practice sessions necessary to develop an understanding of and skills required in patient assessment. Students will build on their pharmacist care skills to meet patients' drug-related needs in more complex patient scenarios, drug information skills to assess information needs, and medication preparation

and dispensing skills to optimize safe and accurate medication delivery. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1  
 CO: all Academic Term 5 Pharmacy courses  
 LC: 0  
 OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

**4151 Pharmacy Skills** continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the third year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will participate in sessions that focus on ethical issues in pharmacy practice and communication with health care providers. Students will build on their patient assessment and pharmacist care skills to meet patients' drug-related needs in more complex patient scenarios and will use critical appraisal skills to respond to clinical questions. Scenarios will relate to the courses of study in the third year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1  
 CO: all Academic Term 6 Pharmacy courses  
 LC: 0  
 OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required  
 PR: PHAR 4150

**4301 Patient Care II** discusses the principles of health promotion and disease prevention and the role of the pharmacist.

CH: 1  
 OR: tutorials 1 hour per week

**4401 Therapeutics I** is a part of a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to infectious diseases, hematology/oncology, and dermatology. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6  
 CO: PHAR 4105, PHAR 4008  
 LC: 6  
 OR: tutorials 2 hours per week; attendance is required  
 PR: Medicine 4300, PHAR 3009 and 3206

**4402 Therapeutics II** is a part in a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to women's health, men's health, gastroenterology, musculoskeletal, neurological, respiratory disorders and transplantation. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6  
 LC: 6  
 OR: tutorials 2 hours per week; attendance is required  
 PR: PHAR 4401

**4501 Pharmacy Research and Evaluation II** introduces the biostatistical, pharmacoepidemiologic and pharmaco-economic concepts and develops the skills necessary to the practice of research and evaluation methods in applied pharmacy. The understanding of such methods is an important prerequisite in the critical appraisal of the health literature and the undertaking of evidence-based clinical practice.

PR: PHAR 3501

**4502 Pharmacy Research and Evaluation III** introduces students to principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies (journal club). Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice. In addition, this course will also discuss drug utilization reviews and evaluations and the role of the pharmacist, as well as adverse drug event reporting and the role of the pharmacist.

CH: 1  
 LC: 1  
 OR: tutorials 1 hour per week; attendance is required  
 PR: PHAR 4501

**4503 Pharmacy Administration** introduces students to the basic principles of management as it relates to pharmacy practice. Topics will include human resources and financial management, marketing, strategic planning and the principles and issues associated with safe and appropriate drug distribution. These will be discussed from both a community and an institutional practice focus.

**500X Structured Practice Experience IV** provides experience in clinical practice. Students will participate as members of the health care team. They will be responsible for providing pharmaceutical care to patients. Activities will include attending patient care rounds, providing in-services and drug information, and participating in case presentations. Students will be evaluated periodically throughout the practice experience and will also be required to pass an exam. The structured practice experience is comprised of two six week modules.

AR: attendance is required

CH: 18

LC: 0

PR: successful completion of all course requirements for the degree and Clear Promotion

**5011 Pharmaceutical Biotechnology** - inactive course.

**5012 Pharmaceutical Analysis** - inactive course.

**5013 Hospital Pharmacy Administration** - inactive course.

**501A/B Pharmaceutical Research** - inactive course.

**5150 Pharmacy Skills** continues the development of the skills necessary for pharmacy practice in order to meet the educational outcomes for the fourth year of the pharmacy program. Students will continue to develop abilities in communication, professionalism, critical thinking, problem-solving, teamwork and self-directed learning. Students will build on their pharmacist care skills to meet patients' drug-related needs in patients with multiple drug related problems. Refinement of verbal and written communication skills will be a focus. Scenarios will relate to the courses of study in the fourth year and draw on material studied in earlier years of the program. Students will participate in interprofessional education (IPE) modules with students from other health related programs when such modules are available.

CH: 1

CO: all Academic Term 7 Pharmacy courses

LC: 0

OR: practical sessions 3 hours per week; tutorials 1 hour per week; attendance is required

**5301 Clinical Toxicology** covers the toxicology and clinical management of

toxicity associated with common medications.

CH: 2

CO: PHAR 5401

LC: 2

**5302 Patient Care III** focuses on pharmaceutical care considerations in special patient populations (e.g., geriatrics, neonates, pediatrics, pregnancy and lactation, critically ill, etc.). Implementation of pharmaceutical care in hospital, ambulatory and community practice settings will be discussed.

CO: PHAR 5401

OR: tutorials 1 hour per week; attendance is required

**5303 Patient Care IV** provides the student with a basic understanding of supplements natural health products and will focus on pharmaceutical care considerations in using these products for the therapeutic management of common diseases.

CH: 2

LC: 2

OR: tutorials 2 hours per week; attendance is required

**5401 Therapeutics III** is part in a series that looks at the therapeutic management of common diseases. Topics may include but are not restricted to endocrine, psychiatric, renal and cardiovascular disorders. For each disease state discussion will centre around several key issues including: the establishment of desired therapeutic outcomes; development of appropriate pharmacological and non-pharmacological therapeutic alternatives; factors to be considered to aid in the selection of an individualized therapeutic regimen; and the development of a monitoring plan to evaluate efficacy and safety.

CH: 6

LC: 6

OR: tutorials 2 hours per week

PR: PHAR 4402

**5501 Pharmacy Research and Evaluation IV** discusses the principles of critical appraisal and provides opportunities to apply these principles to critique and evaluate current medical literature. Students will be assigned to a tutorial group, which will meet twice during the semester to critically appraise at least two recently published studies. Emphasis will be placed on appropriate application of critical appraisal skills and group discussion of impact of study findings on clinical practice.

Archived Previous Calendar  
 Current University Calendar available at:  
<https://www.mun.ca/university-calendar>

**Dean**

Abrahams, M., B.Sc.(Hons.) *Western*, M.Sc. *Queen's*, Ph.D. *Simon Fraser*; Professor of Biology; Joint appointment with Ocean Sciences Centre

**Associate Dean (Administration and Undergraduate)**

Foster, A., B.Sc. *Dalhousie*, M.Math *Waterloo*, Ph.D. *Dalhousie*; Motivational Teaching Award, 2001; Associate Professor of Mathematics and Statistics

**Associate Dean (Research)**

Courage, M.L., B.A. *Memorial*, M.Sc. *University of Alberta*, Ph.D. *Memorial*; Professor (Psychology); Cross appointment to the Discipline of Pediatrics, Faculty of Medicine

**Manager, Finance & Administration**

Rideout, J., B.Comm.(Co-op)(Hons.) *Memorial*, C.M.A. (Newfoundland)

**Department of Biochemistry****Head**

Mulligan, M.E., B.Sc.(Hons.) *National University of Ireland*, Ph.D. *Harvard*; Winner of the President's Award for Distinguished Teaching, 1999; Professor

**Professores Emeriti**

Keough, K.M.W., B.Sc.(Hons.), M.Sc., Ph.D. *Toronto*  
Mookerjee, S.S., B.Sc., M.Sc., Ph.D. *Calcutta*

**Professors**

Brosnan, J.T., B.Sc.(Hons.), M.Sc., D.Sc. *National University of Ireland*, D.Phil. *Oxford*; University Research Professor, Awarded 1990  
Brosnan, M.E., B.A.(Hons.), M.Sc., Ph.D. *Toronto*; Cross appointment with Faculty of Medicine  
Davis, P.J., B.Sc., Ph.D. *Memorial*  
Heeley, D.H., B.Sc.(Hons.), Ph.D. *Birmingham*  
Herzberg, G.R., B.S., Ph.D. *Maine*  
Hoover, R., B.Sc.(Hons.) *Ceylon*, M.Sc. *Leeds*, Ph.D. *Alberta*  
Hulan, H.W., B.Sc.(Hons.), M.Sc. *McGill*, Ph.D. *Maine*  
McGowan, R.A., B.Sc.(Hons.) *Brock*, Ph.D. *SUNY, Buffalo*; Joint appointment with Department of Biology; Deputy Head (Undergraduate)  
Robinson, J.J., B.Sc.(Hons.) *University College Dublin*, M.Sc. *Trinity College Dublin*, Ph.D. *Alberta*  
Shahidi, F., B.Sc. *Shiraz*, Ph.D. *McGill*; University Research Professor, Awarded 1998; Cross appointments with Ocean Sciences Centre and the Department of Biology

**Associate Professors**

Bertolo, R.F.P., B.A.Sc.(Hons.) *McMaster*, M.Sc., Ph.D., *Guelph*; Canada Research Chair in Human Nutrition; Deputy Head (Graduate Studies)  
Brunton, J.A., B.A.Sc. *Guelph*, Ph.D. *McMaster*  
Cheema, S.K., B.Sc. *Punjab*, M.Sc. *Punjab Agricultural*, Ph.D. *Post Graduate Institute of Medical Education and Research*; Cross appointment with Faculty of Medicine  
Ghazala, S., B.Sc. *Baghdad*, Dip.Mech.Eng., M.Sc. Mech. Eng. *University of Technology, Baghdad*, Ph.D. *McGill*  
MacPhee, D.J., B.Sc.(Hons.) *Prince Edward Island*, Ph.D. *Western Ontario*; Cross appointment from Faculty of Medicine  
Nag, K., B.Sc.(Hons.), M.Sc. (Part I) *Calcutta*, M.Sc., Ph.D. *Memorial*  
Randell, E.W., B.Sc.(Hons.), Ph.D. *Memorial*; Cross appointment from Faculty of Medicine  
Volkoff, H., B.Sc. *Pierre and Marie Curie University*, M.Sc. *University of Aix-Marseille III*, Ph.D. *Clemson University*; Joint appointment with Department of Biology

**Assistant Professor**

Booth, V.K., B.Sc.(Hons.) *Victoria*, M.Sc. *Waterloo*, Ph.D. *Toronto*; Canada Research Chair in Proteomics; Cross appointment with Department of Physics and Physical Oceanography

**Adjunct Professor**

Banoub, J., B.Sc.(Hons.) *Alexandria*, Ph.D. *Montreal*

**Administrative Assistant**

Sinnott, A.L., B.Comm., M.B.A. *Memorial*

**Amino Acid Laboratory Supervisor**

Skinner, C.T.

**Senior Technician, Student Laboratory**

Murphy, M.J., B.Sc., B.Ed. *Memorial*

**Supply Supervisor**

Murphy, H.L.

**Department of Biology****Head**

Marino, P., B.A. *Vermont*, M.Sc. *Northern Arizona*, Ph.D. *Alberta*

**Professores Emeriti**

Bal, A.K., B.Sc., M.Sc., Ph.D. *Calcutta*  
Burton, D., B.Sc. *Wales*, P.G.C.E., Ph.D. *London*  
Burton, M., B.Sc., Ph.D. *London*; Cross appointment with Ocean Sciences Centre  
Haedrich, R.L., A.B., A.M., Ph.D. *Harvard*; University Research Professor, Awarded 1999; Cross appointments with Ocean Sciences Centre and Department of Earth Sciences  
Khan, R.A., B.S.A., M.Sc., Ph.D. *Toronto*  
Patel, T.R., B.Sc., M.S. *Baroda*, M.A., Ph.D. *Texas*  
Steele, D.H., B.Sc. *Western Ontario*, M.Sc., Ph.D. *McGill*

**Honorary Research Professors**

Colbo, M., B.Sc., M.Sc. *Alberta*, Ph.D. *Queensland*  
Collins, M.A.J., B.Sc., Cert. Ed., M.Sc. *Southampton*, B.Ed., M.Ed. *Memorial*, Ph.D. *Keele*; Winner of the President's Award for Distinguished Teaching, 1996-1997  
Green, J.M., B.Sc. *Michigan*, M.Sc. *Miami*, Ph.D. *British Columbia*  
May, A.W., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *McGill*, DU *Ottawa*, D.Sc. *Memorial*, LL.D. *Brock*

**Director of Memorial University of Newfoundland Botanical Garden**

Nicholls, K.W., B.Sc.(Hons.) *Univ. College of Wales*, Ph.D. *British Columbia*

**Professors**

Abrahams, M., B.Sc.(Hons.) *Western*, M.Sc. *Queen's*, Ph.D. *Simon Fraser*; Dean of Science  
Carr, S.M., B.Sc. *California Polytechnic*, C.Phil., Ph.D. *University of California, Berkeley*; Cross appointment to Faculty of Medicine  
Dickinson, A.B., B.Sc. *London*, B.Ed., M.Sc. *Memorial*, M.A.(Ed.) *Leeds*, M.Phil., Ph.D. *Cambridge*; Executive Director (Acting) CCIIFD (on leave)  
Finney-Crawley, J.R., B.Sc. *Wales*, M.Sc., Ph.D. *London*; Winner of President's Award for Distinguished Teaching 2000-2001  
Innes, D., B.Sc. *British Columbia*, M.Sc. *Dalhousie*, Ph.D. *S.U.N.Y.*; Deputy Head  
Jones, I.L. B.Sc. *Carleton*, M.Sc. *Toronto*, Ph.D. *Queen's*  
Miller, E.H., B.Sc. *Alberta*, M.Sc. *Canterbury*, Ph.D. *Dalhousie*

**Associate Professors**

Dunbrack, R., B.A. *New Brunswick*, Ph.D. *Simon Fraser*  
Edinger, E., B.A. *California*, M.Sc., Ph.D. *McMaster*; Joint appointment with Department of Geography  
Gardner, G.A., B.Sc. *Guelph*, M.Sc., Ph.D. *British Columbia*; Associate Vice-President (Academic) (on leave)  
Hermanutz, L., B.Sc. *Guelph*, M.Sc. *Windsor*, Ph.D. *Western Ontario*; Cross appointment with Botanical Garden  
Hooper, R.G., B.Sc. *Victoria*, Ph.D. *Portsmouth*; Curator, Phycological Herbarium; Director, Bonne Bay Marine Station; Cross appointment to Sir Wilfred Grenfell College  
Igamberdiev, A.U., Dr.Sci. *Russian Acad. Sciences*, Ph.D., M.S. *Voronezh*  
Knoechel, R., B.Sc., *Cornell*, Ph.D. *McGill*  
McGowan, R.A., B.Sc.(Hons.) *Brock*, Ph.D. *SUNY/AB*; Joint appointment with Department of Biochemistry  
Murrin, F., B.Sc.(Hons.) *Memorial*, M.Sc. *Acadia*, Ph.D. *Queen's*  
Snelgrove, P., B.Sc.(Hons.) *Memorial*, M.Sc. *McGill*, Ph.D. *Woods Hole*; Joint appointment with Ocean Sciences Centre  
Staveley, B.E., B.Sc., M.Sc. *Guelph*, Ph.D. *Alberta*  
Volkoff, H., B.Sc. *Pierre et Marie Curie University*, M.Sc. *University of Aix-Marseille III*, Ph.D. *Clemson University*; Joint appointment with Department of Biochemistry

**Assistant Professors**

Bykova, N.V., B.Sc., M.Sc., Ph.D. *Voronezh State*  
Chapman, T.W., B.Sc.(Hons.), M.Sc. *Guelph*, Ph.D. *Simon Fraser*  
Dufour, S., B.Sc.(Hons.), M.Sc. *Universite de Moncton*, Ph.D. *University California San Diego*  
Lang, A.S., B.Sc.(Hons.) *Brock*, Ph.D. *British Columbia*  
Marshall, H.D., B.Sc.(Hons.) *Memorial*, Ph.D. *Toronto*

Purchase, C.F., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *Toronto*  
 Wiersma, Y.F., B.Sc.(Hons.), B.Ed. *Toronto*, M.Sc., Ph.D. *Guelph*

#### Adjunct Professors

Anderson, M.R., B.Sc., M.Sc. *Larval*, Ph.D. *McGill*  
 Chaulk, K., B.Sc. *Dalhousie*, M.Sc. *Acadia*, Ph.D. *Memorial*  
 Debnath, S., B.Sc.Ag.(Hons.), M.Sc.Ag. *Bangladesh Agric. Univ.*,  
 Ph.D. *India Agric. Res. Inst.*  
 Dixon, P.L., B.Sc. *Memorial*, M.Sc. *Guelph*, Ph.D. *Edinburgh*  
 Gilkinson, K., B.Sc.(Hons.) *Ottawa*, M.Sc., Ph.D. *Memorial*  
 Goudie, I., B.Sc. *Memorial*, M.Sc. *Western Ontario*, Ph.D.  
*Memorial*  
 Gregory, R.S., B.Sc.(Hons.) *Acadia*, M.Sc. *Trent*, Ph.D. *British*  
*Columbia*  
 Hamoutene, D., B.Sc. *Houari Boumedieue Univ.*, M.Sc., Ph.D. *Aix-*  
*Marseille II Univ.*  
 Hicks, B., B.Sc.(Hons.), M.Sc. *Memorial*, Ph.D. *Univ. Edinburgh*  
 McKenzie, D.B., B.S.A., M.Sc. *Manitoba*, Ph.D. *Texas A & M*  
 Methven, D.A., B.Sc. *Mt. Allison*, M.Sc., Ph.D. *Memorial*  
 Piercey-Normore, M., B.Sc., M.Sc., Ph.D. *Memorial*  
 Quijon, P., B.Sc., M.Sc. *Universidad Austral de Chile*, Ph.D.  
*Memorial*  
 Reimer, K., B.Sc., M.Sc. *Calgary*, Ph.D. *Western Ontario*  
 Robertson, G.J., B.Sc. *Queens*, Ph.D. *Simon Fraser*  
 Stenson, G.B., B.Sc. *Alberta*, Ph.D. *British Columbia*  
 Wahle, R., B.A. *University New Hampshire*, M.Sc. *San Francisco*  
*State University*, Ph.D. *University Maine*  
 Whittney, H.G., B.Sc. *McGill*, M.Sc. *Saskatchewan*, Ph.D. *Montréal*

#### Cross Appointments

Deibel, D., B.Sc. *Bucknett*, Ph.D. *Georgia*; University Research  
 Fellow, Associate Professor (Research); Winner of the  
 President's Award for Outstanding Research, 1990-1991; Cross  
 appointment from Ocean Sciences Centre  
 Driedzic, W.R., B.Sc. *York*, M.Sc. *Toronto*, Ph.D. *British Columbia*;  
 Cross appointment from Ocean Sciences Centre  
 Fleming, I.A., B.Sc. *Queen's*, M.Sc. *Simon Fraser*, Ph.D. *Toronto*;  
 Cross appointment from Ocean Sciences Centre  
 Fletcher, G.S., B.Sc. *British Columbia*, Ph.D. *California*; Professor  
 (Research); Cross appointment from Ocean Sciences Centre  
 Gagnon, P., B.Sc., Ph.D. *Laval University*; Cross appointment from  
 Ocean Sciences Centre  
 Gamperl, A.K., B.Sc.(Hons.), M.Sc. *Guelph*, Ph.D. *Dalhousie*;  
 Cross appointment from Ocean Sciences Centre  
 Mercier, A., B.Sc. *Université de Sherbrooke*, M.Sc., Ph.D.  
*Université du Québec à Rimouski*; Cross appointment from  
 Ocean Sciences Centre  
 Montevicchi, W., B.Sc. *Northeastern*, M.Sc. *Tulane*, Ph.D. *Rutgers*  
 Parrish, C.C., B.Sc. *Wales*, Ph.D. *Dalhousie*; Winner of the  
 President's Award for Outstanding Research, 1995-1996; Cross  
 appointment from Oceans Sciences Centre  
 Patel, J.T., B.Sc., M.Sc. *Majaraja Sayajirao*, M.S. *Texas Women's*,  
 Ph.D. *S.U.N.Y. (Buffalo)*; Cross appointment from Fisheries and  
 Marine Institute  
 Rise, M.L., B.Sc. *Whitworth College*, M.Sc. *Boston College*, Ph.D.  
*Victoria*  
 Rose, G.A., B.Sc. *Guelph*, M.Sc. *Laurentian*, Ph.D. *McGill*; Cross  
 appointment from Fisheries and Marine Institute  
 Schneider, D.C., B.Sc. *Duke*, Ph.D. *SUNY, Stony Brook*; Associate  
 Dean (Research); Professor; Cross appointment from Ocean  
 Sciences Centre; Cross appointment with Department of  
 Psychology  
 Shahidi, F., B.Sc. *Shiraz*, Ph.D. *McGill*; Cross appointment from  
 Department of Biochemistry  
 Storey, A.E., B.Sc.(Hons.), M.A. *Manitoba*, Ph.D. *Rutgers*; Cross  
 appointment from Department of Psychology  
 Thompson, R.J., B.Sc. *Bristol*, Ph.D. *Leicester*; Professor  
 (Research); Cross appointment from Ocean Sciences Centre  
 Wroblewski, J.S., B.Sc. *Illinois*, M.Sc., Ph.D. *Florida State*;  
 Professor (Research); Cross appointment from Ocean Sciences  
 Centre

#### Administrative Staff Officer

Cramm, M., B.Ed.(Post Secondary) *Memorial*

#### Supervisor of Laboratories

Collins, G.

## Department of Chemistry

#### Head

Pickup, P.G., B.A., D.Phil. *Oxon*; University Research Professor,  
 Awarded 2005; Professor

#### Professores Emeriti

Anderson, H.J., M.Sc. *Manitoba*, Ph.D. *Northwestern*, F.C.I.C.  
 Gogan, N.J., B.Sc.(Hons.), Ph.D. *National University of Ireland*,  
*Dublin*, F.C.I.C.

#### Honorary Research Professor

Lucas, C.R., B.Sc., M.Sc. *Acadia*, D.Phil. *Oxon*, F.C.I.C.

#### Professors

Bodwell, G.J., B.Sc., M.Sc. *Victoria*, Dr.rer.nat. *Tech. Univ.*  
*Braunschweig*; Deputy Head (Graduate Studies and Research);  
 Winner of the President's Award for Outstanding Research,  
 1998-1999; Winner of the Petro Canada Young Innovator  
 Award, 1999-2000  
 Georghiou, P.E., B.Sc.(Hons.) *Witwatersrand*, Ph.D. *McGill*,  
 F.C.I.C.  
 Helleur, R.J., B.Sc. *Concordia*, M.Sc. *McGill*, Ph.D. *Queen's*; Cross  
 appointment with Ocean Sciences Centre  
 Mezey, P.G., M.Sc., M.Sc., Ph.D. *Budapest*, D. Sc. *Saskatchewan*;  
 Canada Research Chair in Scientific Modelling and Simulation  
 Poirier, R.A., B.Sc., M.Sc. *Laurentian*, Ph.D. *Toronto*, F.C.I.C.;  
 Winner of the President's Award for Outstanding Research,  
 1986-1987  
 Thompson, L.K., B.Sc., Ph.D. *Manchester*, F.C.I.C.; University  
 Research Professor, Awarded 1995

#### Associate Professors

Bottaro, C.S., B.Sc.(Hons.) *St. Mary's*, Ph.D. *Dalhousie*  
 Davis, R.W., B.Sc. *Memorial*, Ph.D. *British Columbia*  
 Fiinn, C.G., B.Sc., M.Sc., Ph.D. *Dalhousie*; Deputy Head  
 (Undergraduate Studies)  
 Merschrod, E., A.B. *Bryn Mawr Coll.*, M.S., Ph.D. *Cornell*  
 Pansare, S.V., B.Sc., M.Sc., *Univ. Pune (India)*, Ph.D. *Alberta*  
 Thompson, D.W., B.Sc.(Hons.), M.Sc. *Queen's*, Ph.D. *York*  
 Zhao, Y., B.S., M.S. *Dalian*, Ph.D. *Alberta*; Winner of the Petro  
 Canada Young Innovator Award, 2006-2007

#### Assistant Professors

Fridgen, T.D., B.Sc.(Hons.) *Trent*, B.Ed., Ph.D. *Queen's*  
 Kerton, F.M., B.Sc.(Hons.) *Univ of Kent*, D.Phil. *Univ of Sussex*  
 Kozak, C.M., B.Sc.(Hons.) *McMaster*, Ph.D. *UBC*

#### Assistant Professors (term)

Dawe, L., B.Sc. (Hons.), B.Ed., Ph.D. *Memorial*, M.Sc. *University*  
*of Utah*,  
 Ghuman, A., B.Sc., M.Sc. *Punjab*, Ph.D. *University of Limerick*  
 Hattenhauer, K.M., B.Sc. *Winnipeg*, Ph.D. *Manitoba*  
 Warburton, P., B.Sc. (Hons.), M.Sc., Ph.D. *University of*  
*Saskatchewan*

#### Cross-Appointments

Parrish, C.C., B.Sc. *Wales*, Ph.D. *Dalhousie*; Cross appointment  
 from Ocean Sciences Centre  
 Poduska, K., B.A. *Carleton College*, Ph.D. *Cornell*

#### Adjunct Professors

Banoub, J.H., B.Sc.(Hons.) *University of Alexandria, Egypt*, Ph.D.  
*University of Montreal*  
 Keefe, D., B.Sc.(Hons.) *Memorial*, Ph.D. *University of Alberta*  
 Miller, D., B.Sc., M.Sc. *Memorial*  
 Schneider, C., B.Sc.(Hons.), M.Sc. *Universite de Nancy I (France)*,  
 Ph.D. *Keele University*

#### Director, CREAT Network

Miller, D., B.Sc., M.Sc. *Memorial*

#### Chemistry Stores Supervisor

Ballard, S.

#### Undergraduate Laboratory Supervisor

Gulliver, G.

## Department of Computer Science

#### Head

Brown, E., B.Sc.(Hons.), *Memorial*, M.Sc. *U. of T.*, Ph.D. *Toronto*,  
 LL.B. *Victoria*; Associate Professor

#### Professors

Banzhaf, W., Dipl. Phys. *Ludwig-Maximilian*, Munich, Dr.rer.nat  
*Federicana*, Karlsruhe  
 Bartha, M., M.Sc., Ph.D. *József Attila University*, Hungary  
 Gillard, P., B.Sc., M.Sc., Ph.D. *Memorial*  
 Lu, S., B.Eng. *Peking*, M.Sc., Ph.D. *Waterloo*

Mimnis, G., Dipl. Greek Center of Productivity, B.Sc. *Univ. of Ioannina (Greece)*, M.Sc., Ph.D. *McGill*  
 Tang, J., M.Sc. *Iowa*, Ph.D. *Penn. State*  
 Vidyasankar, K., M.Tech. *I.I.T. Kanpur*, Ph.D. *Waterloo*  
 Wang, C.A., B.A. *Peking*, M.Sc., Ph.D. *Alberta*  
 Zuberek, W., M.Sc., Ph.D., D.Sc. *Warsaw Tech.*

#### Associate Professors

Byrne, R., B.Sc.(Hons.), B.Eng. *Memorial*, M.Sc., Ph.D. *Victoria*  
 Deb, A., M.Tech. *Calcutta*, Ph.D. *Iowa*  
 Fiech, A., Dipl. Inf. *Dortmund*, Ph.D. *Kansas State*  
 Mata-Montero, M., B.Sc. *Costa Rica*, M.Sc. *Illinois*, Ph.D. *Victoria*  
 Shieh, J., B.Sc. *Beijing*, M.Sc., Ph.D. *Simon Fraser*  
 Wareham, T., B.Sc.(Hons.), B.A., M.Sc. *Memorial*, Ph.D. *Victoria*  
 Yu, G., M.Sc. *Northeastern*, Ph.D. *London*

#### Assistant Professors

Bungay, S., B.Sc., M.Sc. *Memorial*, Ph.D. *Guelph*  
 Chen, Y.P., B.Sc. *Beijing*, Ph.D. *Simon Fraser*  
 Gong, M., B.Eng. *H.E.U.*, M.Sc. *Tsinghua*, Ph.D. *Alberta*  
 Hoeber, O., B.Sc., M.Sc. *Saskatchewan*, Ph.D. *Regina*  
 Kolokolova, A., B.Sc.(Hons.) *Arizona*, M.Sc., Ph.D. *Toronto*  
 Vardy, A., B.Eng. *Memorial*, M.Sc. *Sussex*, Ph.D. *Carleton*; Joint appointment with Electrical and Computer Engineering, Faculty of Engineering and Applied Science

#### Lecturers

Batten, D.L., B.Sc.(Hons.) *Memorial*, M.Sc. *Queen's*  
 Gupta, R., B.A. *Agra Univ.*, B.A. *Memorial*, M.S. *Georgia Tech.*  
 Zuberek, M., B.Eng., M.Sc. *Warsaw Tech.*

#### Cross-Appointments

Evermann, J., Dipl. Wirt. Inf. *Muenster*, Ph.D. *British Columbia*;  
 Cross appointment from Faculty of Business Administration  
 Norvell, T.S., B.Sc.(Hons.) *Dalhousie*, M.Sc., Ph.D. *Toronto*; Cross appointment from Faculty of Engineering and Applied Science  
 Parsons, J., B.Comm.(Hons.) *Memorial*, Ph.D. *British Columbia*;  
 Cross appointment from Faculty of Business Administration  
 Peters, D.K., B.Eng. *Memorial*, M.Eng., Ph.D. *McMaster*, P.Eng.;  
 Cross appointment from Faculty of Engineering and Applied Science  
 Pike, D., B.Math. *Waterloo*, MAM, Ph.D. *Auburn*, FTICA; Cross appointment from Department of Mathematics and Statistics

#### Systems Manager

Rayment, M., B.Sc. *Memorial*, MS *M.I.U.*
