ABOUT MEMORIAL UNIVERSITY

Memorial University is unique because Newfoundland and Labrador is a place like no other. Where we are is who we are. And here, on the edge of a continent, the powerful forces of nature have fostered an innate drive to solve problems. Our environment and the cultures that inform us have woven a rich institutional fabric that sets us apart in diverse fields - such as archaeology, naval architectural engineering, linguistics, rural health and, of course, the ocean. We're here to lead. And we lead because we are here.
