ABOUT UARCTIC AND MEMORIAL'S ENGAGEMENT

AN INTRODUCTION TO UARCTIC

The University of the Arctic (UArctic) is a network of universities, colleges, research institutes, and other organizations concerned with education and research in and about the North. UArctic builds and strengthens collective resources and infrastructures that enable member institutions to better serve their constituents and their regions. Lars Kullerud is the current president of UArctic and has held the position since May 2002. Throughout his UArctic Presidency, Lars has continued to foster an academic interest in the northern environment and development issues.

MEMORIAL UNIVERSITY'S UARCTIC ENGAGEMENT

Memorial University has been an active member of UArctic since 2004, engaging within UArctic's Board of Directors, Thematic Networks, Student Ambassadors, and a current memorandum of understanding for the UArctic senior leadership position of Vice President, Northern Community Engagement.

This report highlights Memorial University's involvement with UArctic over the 2023 year.

CHAIRS

UArctic Chairs are highly qualified academics who serve as academic drivers in a broad area of relevance to the Arctic. They implement and drive collaborative actions in research and education among UArctic members and Thematic Networks, and build partnerships with the broader Arctic community.

DR. BING CHEN

UARCTIC CHAIR IN MARINE AND COASTAL ENVIRONMENTAL ENGINEERING

Appointed in December 2023 for a five-year term, Dr. Chen has since participated in nine UArctic events, meetings, and chair sessions, three thematic networks, five research projects, and 18 publications and presentations in 2023. Additionally, Dr. Chen has been leading the PEOPLE Network, led a forum proposal for The International Water Association (IWA), and participated in Lloyds Register Foundation (LRF) Initiative.

DR. KIRK ANDERSON

UARCTIC CHAIR IN SCHOOL EFFECTIVENESS AND SCHOOL IMPROVEMENT

Appointed in October 2022 for a five-year term, Dr. Anderson has attended Arctic forums at MUN and has held meetings within the UArctic structure online and face-to-face. Currently, Dr. Anderson is working on a Special Edition of the Morning Watch Journal of Policy Analysis feature on the role and research of the Arctic Chairs, and is hosting an “Arctic Chairs” Forum for Northern and Indigenous scholars.

VICE PRESIDENTS AND STAFF

UArctic is a decentralized organization, with offices, programs, and other functions hosted at member institutions in the Circumpolar North. The daily operations of the Network are managed through a Secretariat based at the University of Lapland in Rovaniemi, Finland.

As part of UArctic’s Senior Leadership Team, Sheila Downer, Northern Liaison with the Harris Centre, serves as the Vice President of Northern Community Engagement.

Supported through Global Affairs Canada funding, Memorial University hosts Lisa Goulet as Membership Engagement Coordinator on behalf of UArctic. The main focus of this position is supporting increased communication and collaborative engagement among members within Canada and the Circumpolar North.

GLOBAL ARCTIC LEADERSHIP INITIATIVE

Global Affairs Canada's Global Arctic Leadership Initiative (GALI) is a funding program that aims to strengthen Canada's global leadership in the Arctic. Memorial University has partnered with the University of the Arctic and Yukon University to help foster collaboration in Northern Canada and ensure the continuation of Canada's initiative to build circumpolar academic cooperation.

Memorial oversees two funding opportunities through the GALI initiative, including the Indigenous and Northern Collaborative Research and Education Fund and the Indigenous and Northern Relationship Development Fund. To date, the funding programs have supported 17 projects, including seven Memorial-led projects. Total project funds committed to date is \$597,916 supporting Canadian UArctic Members in Indigenous and Northern collaborations.

The funding opportunities are issued annually in early December. Details can be found at www.mun.ca/uarctic

INDIGENOUS AND NORTHERN RELATIONSHIP DEVELOPMENT FUND

HARMONIZING CLIMATE CHANGE WITH SCHOOLS THROUGH COMMUNITY PARTNERSHIP

This project fosters connections among Northern youth (grades 7-10) from Newfoundland and Norway, engaging in climate action activities. Partnering with Climate Collective and Brilliant Labs, diverse youth and Indigenous students collaborate on monthly online meetings, realizing climate change as a global responsibility. Burke and Bjøru visit each class, culminating in a public exhibit showcasing students' climate change creations. The initiative builds relationships, awareness of climate change, and community involvement in regional climate action.

PROJECT LEAD:
DR. ANNE BURKE

INDIGENOUS AND NORTHERN RELATIONSHIP DEVELOPMENT FUND

SCHOOL OF ARCTIC AND SUBARCTIC STUDIES PARTICIPATION IN THE GENI GROWTH NETWORK INITIATIVE

This project is forging connections between faculty at the School of Arctic and Subarctic Studies (SASS) at Memorial University, community partners at Innu Parks, and scholars and community partners at other northern institutions, including, but not limited to, UiT The Arctic University of Norway, the University of Saskatchewan, and Yukon University. SASS faculty and their community partner are gaining first-hand experience in the co-development and co-delivery of land- and place-based schools through this project and will participate in the co-creation and publication of comparative case studies, which will serve as relevant teaching materials for Northern and Indigenous study programs globally.

In summer 2023 Dr. Neilsen met with community partners at Innu Parks and confirmed their willingness to participate in this initiative. In September 2023, Dr. Neilsen and the Innu Parks Superintendent and Lead Planner, Jack Penashue and Gioia Montevocchi, traveled to Whitehorse, Yukon, where they met with [GENI program](#) faculty, administrators, and students, and participated in the intensive five-day place-based course that the GENI program delivered there. This exposure provided an opportunity to learn about different ways-of-being and -doing in the North, and offered lessons that can inform ways-of-being and -doing in Labrador.

The

PROJECT LEAD:
DR. SCOTT NEILSON

INDIGENOUS AND NORTHERN COLLABORATIVE RESEARCH AND EDUCATION FUND

FACILITATING CHILDREN'S VOICES IN STORYING THE LANDSCAPE OF CLIMATE CHANGE

The project, a collaboration between Memorial University, University of Lapland, and Leeds Beckett University aims to explore and celebrate the unique heritage and culture of diverse populations in the North. Focusing on children and youth, it addresses climate change's impact on local communities and emphasizes symbiotic relationships between living things. The initiative amplifies Northern youth voices on climate change and sustainability using a co-participatory and inclusive approach with social design principles. Adopting a 'radical collegiality' approach, the consortium plans live and digital exhibits across diverse Northern communities, fostering narratives, celebration, and comparison of climate-related initiatives. The innovative, social design approach promotes equitable, inclusive, and diverse public learning spaces.

PROJECT LEAD:
DR. ANNE BURKE

THE CLIMATE COLLECTIVE

UNDER THE GLOBAL ARCTIC LEADERSHIP INITIATIVE FUND

As part of Memorial University's contribution agreement with Global Affairs for the Global Arctic Leadership Initiative, the Johnson Geo Centre's Climate Collective is a climate solution collaboration network run through the Johnson Geo Centre. The Collective helps create and support Youth Climate Action chapters locally with youth in Newfoundland and Labrador and youth in the Arctic Circle. Creating connections between youth in these places will increase collaboration and awareness among northern communities. It will increase opportunities, capacity, and training for youth to develop and lead citizen science projects which tackle climate innovation challenges specific to their community/region, increase youth's connection to education and career pathways in STEAM-related disciplines, take part in the STEAM-based experiential education, and connect with other likeminded youth towards solutions focused climate awareness and education.

MEMORIAL UNIVERSITY'S COLLABORATIONS WITH NORWAY ON ARCTIC RESEARCH AND EDUCATION THROUGH UARCTIC

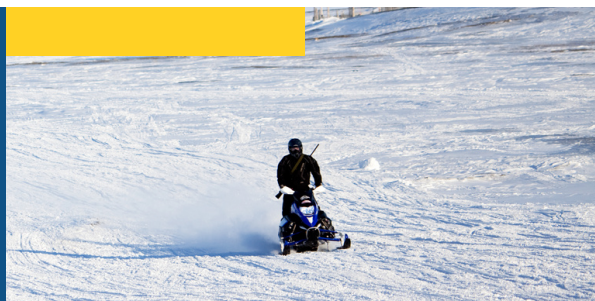

The projects featured below are just some of the many collaborations being highlighted by Memorial University's faculty and researchers.

HERITAGE MAKING IN THE ARCTIC

This is a research-led networking project that strengthens the Thematic Network CAFÉ (Circumpolar Archives, Folklore and Ethnography). The project sponsors meetings to elaborate the idea of "deep emplacement" in Arctic heritage making. Building on insights from indigenous philosophical traditions, and social theory, our network project brings together Arctic scholars and local indigenous practitioners to elaborate methods of self-reliance and to ground cultural heritage work by consulting with audio archives.

NETWORKING FOR INCREASING SUSTAINABILITY IN SNOW CRAB FISHERIES IN THE ARCTIC

The objective of this project is to increase collaboration and networking to address sustainability in Arctic resource exploitation and problems caused by lost fishing gear due to plastic materials used in snow crab pot fisheries in the Arctic. This will be addressed by a collaboration of four UArctic member institutions that have conducted research regarding the sustainability of fisheries in the Arctic, including the snow crab fishery. Snow crab is a commercially exploited species over cold-water areas in the Northern Hemisphere.

MEMORIAL UNIVERSITY'S COLLABORATIONS WITH NORWAY ON ARCTIC RESEARCH AND EDUCATION THROUGH UARCTIC (CONTINUED)

ARCTIC CONFERENCE ON EDUCATIONAL SCIENCES (ACCESS)

The overall goal of the project is to strengthen the wide network of educational researchers in the circumpolar North and to concentrate researcher community perspectives on UArctic, the Thematic Network on Teacher Education, and Arctic educational issues. This will be implemented by organizing an Arctic conference on educational sciences and publishing a series of video interviews, as the main activities of the project.

DIGITAL NORTH: GENI GROWTH NETWORKING INITIATIVE

This project is designed to broaden collaboration and mobility relevant to the joint master's program in Governance and Entrepreneurship in Northern and Indigenous Areas (GENI), a partnership between UiT The Arctic University of Norway, and the University of Saskatchewan. Through this Growth Networking Initiative, they are taking the first steps toward expanding the cooperation network to include Memorial University (Canada) and Umeå University (Sweden). Scholars at these universities have agreed to cooperate with the GENI partners in building an innovative pedagogical approach to our joint study program through the creation and incorporation of case studies from their respective regions.

MEMORIAL'S INVOLVEMENT WITH THEMATIC NETWORKS

Thematic Networks form a natural framework for development of UArctic education and research providing an optimal structure for increasing the knowledge generation and sharing across the North.

1. **Northern and Arctic Island Studies**, with the Lead based out of the University of Highlands and Islands in Scotland, includes Anna Christine Reepschlager and Dale Jarvis from Memorial.
2. **Teacher Education for Social Justice and Diversity in Education**, with the Lead based out of the University of Lapland, Finland, includes Anne Burke, Kirk Anderson, and Sylvia Moore from Memorial.
3. **Arctic Safety and Security**, with the Lead based out of Nord University, Norway, includes Catherine Dutton, Jim Parsons, and Robert Brown from Memorial.
4. **Blue Economy and the Arctic**, with the Lead based out of the Fridtjof Nansen Institute at Nord University, Norway, includes Maxime Geoffroy from Memorial.
5. **Decolonization of Arctic Library and Archives Metadata (DALAM)**, with the Lead based out of the University of Lapland, Finland, includes Heather Pretty, Michaela Doucette, and Stacey Penny from Memorial.
6. **Verdde Program**, with the Lead based out of Sámi University of Applied Sciences, Norway, includes Sylvia Moore as Vice-Lead, and Jennifer Andersen and Kirk Anderson from Memorial.
7. **Circumpolar Archives, Folklore and Ethnography (CAFE)**, with the Lead based out of the University of Aberdeen, United Kingdom, includes Mario Blaser from Memorial.
8. **Arctic Sustainable Resources and Social Responsibility**, with the Lead based out of Copenhagen Business School, Denmark, includes Mark Stoddart from Memorial.
9. **Arctic WASH**, with the Lead based out of the Technical University of Denmark, Denmark, includes Bing Chen from Memorial.

2023 ACTIVITIES OF THEMATIC NETWORKS

NORTHERN AND ARCTIC ISLAND STUDIES RESEARCH:

- The first webinar was held on January 24, 2023, led by Dale Jarvis from Heritage Newfoundland.
- Yarns and Yarns Events (knitting and storytelling) was hosted on January 24, 2023, at St John's Public Library.
- The Northern & Arctic Islands Workshop was hosted at the Harris Centre on December 7-8, 2023, and had 35 participants from Shetland Islands, PEI, Faroe Islands, Nova Scotia, and Newfoundland, Canada.
- Published a report of activities by the network.

TEACHER EDUCATION FOR SOCIAL JUSTICE AND DIVERSITY IN EDUCATION

- Education, Equity and Inclusion – Teaching and Learning for a Sustainable North publication. The book explores the provision of education across the North, focusing on challenges and innovations in meeting the needs of diverse learners in remote and rapidly changing contexts.
- Tuija Turunen gave a talk titled "It's not a miracle: Teacher preparation and teaching in Finland" on Wednesday, March 22, 2023 at the University of Alaska Anchorage. Dr. Tuija Turunen of the University of Lapland described Finland's approach to teacher education and working conditions and support for teachers in the classroom.

2023 ACTIVITIES OF THEMATIC NETWORKS (CONTINUED)

ARCTIC SAFETY AND SECURITY

- Master in Preparedness and Emergency Management is a part-time experienced-based master's degree programme. It aims to provide the candidates with substantial theoretical knowledge in preparedness and emergency management at both tactical, operational, and strategic levels, and to develop the leadership and critical thinking skills required to choose effective strategies, tools, and methods in emergency response operations.
- "Post Covid Tourism – Back to Basics in Safety," featured speakers sharing their experience of developing safe and efficient Northern tourism.
- In connection with the seminar, Tourism Safety Training was held by LAPIN AMK in cooperation with other partners, aiming to give the key basic knowledge about safety in tourism to those involved in tourism activities, especially tourist guides.
- Short-term exchange program for students to increase motivation in their career development, and help our candidates to find an interesting research topic for their master thesis later on.

BLUE ECONOMY AND THE ARCTIC

- A side-event at High North Dialogue 2023 which was organized by High North Center for Business and Governance, Nord University, "Blue Economy and the Arctic" was held on April 18, 2023.
- A session was held at the UArctic at the 2023 Arctic Circle Assembly titled, A blue economy agenda for the Arctic? Perspectives on justice, diversity and inclusion and took place on October 21, 2023.

2023 ACTIVITIES OF THEMATIC NETWORKS (CONTINUED)

DECOLONIZATION OF ARCTIC LIBRARY AND ARCHIVES METADARA (DALAM):

- Two publications were produced in 2023:
 - Campbell, Sandy. Thematic Network Update 2023: Polar Libraries Bulletin, Spring 2023, Issue 87, p. 4.
 - Parikka, Susanna. New People, New Knowledge: Polar Libraries Bulletin, Spring 2023, Issue 87, p. 8-9.
- The Nuohtti Service webinar took place on September 26, 2023. Hosted by Jonna Häkkinä.
- Alaska Native Subject Headings Grant Project: An Update webinar hosted by R. Moorman, D Cox, and L. Digou took place on November 7, 2023.
- There were two presentations at conferences and a poster presentation. Including:
 - Moorman, R., Rinio, T., Wallace, L. . Alaska Native Subject Headings Grant Project: an Update. Presentation at Alaska Library Association Annual Conference, Fairbanks, and online. March 23, 25, 2023.
 - UArctic Thematic Network DALAM was presented at IFLA WLIC 2023 in Rotterdam, the Netherlands, by lead Susanna Parikka, August 21-25, 2023.
 - Brilliant, S., Biondo, S., Bouchard, J. DALAM Thematic Network. Poster Presentation. UArctic Assembly. Quebec City, Canada. May 22-26, 2023
- S. Brilliant hosted “Révision du vocabulaire décrivant les Peuples Autochtones dans le RVM,” a series of webinars about their decolonizing project of the French subject headings in Canada related to Indigenous Peoples was held between January 19, 2023 - April 12, 2023
- Farnel, S. Decolonizing Metadata. Online workshop presented by the Decolonizing Arctic Library and Archives Metadata (DALAM) Thematic Network on January 16, 2023.

2023 ACTIVITIES OF THEMATIC NETWORKS (CONTINUED)

VERDDE PROGRAM

- Verdde members participated in bi-weekly self-study research on Indigenous pedagogy combined with online writing workshops between January 19, 2023, and March 19, 2023.
- Verdde had a conference workshop at the Sámi Education Conference 2023 between November 7-8, 2023.
- Verdde hosted a 3-day symposium at the Sámi University of Applied Sciences between April 12-14, 2023. The topic was Professional Learning for Educators: Nurturing Indigenous Pedagogies. Participants included Sámi and Inuit educators and scholars
- Verdde had three instances of mobility, including:
 - Ivalo Adolfsen Arnfjord, a PhD student from Ilisimatusarfik in Greenland, traveled to the University of Alaska Fairbanks at the Center for Cross-Cultural Studies to learn more about Indigenous methodologies from October 2-14, 2023.
 - Professional learning opportunity with Sami University instructors and educators took place May 25, 2023: Dr. Shelley Tulloch, professor of anthropology at the University of Winnipeg, and Dr. Sylvia Moore, professor in the School of Arctic and Subarctic Studies at Labrador Campus, [Memorial University](#), traveled with the group and authored an article published on the UArctic website.
 - Short-term mobility: Conference participation in Iqaluit by two faculty members of Sámi University of Applied Sciences took place between February 15, 2023, and December 22, 2023.

CIRCUMPOLAR ARCHIVES, FOLKLORE AND ETHNOGRAPHY (CAFE)

- Heritage Making in the Arctic is a project that was completed with project partners: UiT The Arctic University of Norway (Lead), University of Aberdeen, Memorial University of Newfoundland, and University of Oulu. This is a research-led networking project that strengthens CAFE. The project sponsors meetings to elaborate the idea of “deep emplacement” in Arctic heritage making. Building on insights from indigenous philosophical traditions, and social theory, our network project brings together Arctic scholars and local indigenous practitioners to elaborate methods of self-reliance and to ground cultural heritage work by consulting with audio archives.

2023 ACTIVITIES OF THEMATIC NETWORKS (CONTINUED)

ARCTIC SUSTAINABLE RESOURCES AND SOCIAL RESPONSIBILITY

- Arctic Sustainable Resources and Social Responsibility Thematic Network published:
 - Sub-Arctic no more: Short- and long-term global-scale prospects for snow crab (*Chionoecetes opilio*) under global warming. Darrell R. J. Mullowney, Krista D. Baker, Cody S. Szuwalski, Stephanie A. Boudreau, Frédéric Cyr, Brooks A. Kaiser. *PLOS Climate* 2(10), 2023.
- An event was held by A. O'Grady called A site-responsive Foundation Year Program in the Yukon. On Not Knowing: How Artists Teach, Glasgow School of the Arts, University Arts, and Uniarts Helsinki. Glasgow, Scotland.
- Three blog posts were published, including:
 - "The hidden cost of the energy transition in the Arctic: the impacts of wind power development on Sámi rights"
 - Connecting Energy Transitions Across The Arctic
 - Renewable energy and Indigenous participation: the case of British Columbia
- Second Arctic Academy for Sustainability: PhD and Masters course was created in May 2023.
- Teacher exchange from ULapland to the University of West of Scotland took place between October 8-13, 2023.

ARCTIC WASH

- A "Sanitation in Greenlandic Settlements" workshop was held between June 27-July 3, 2023.
- An Arctic WASH Summer School was hosted from June 27 to July 3, 2023, where students and instructors gathered at the Arctic DTU campus in Sisimiut for a field course on water, hygiene, and sanitation (WASH) issues in Greenlandic settlements and towns.
- Three reports were written about the Arctic WASH Summer School, including:
 - Perspectives from Arctic WASH: Luxury Tourism in Remote Greenland: Iida Saive, report on Summer School
 - Perspectives from Arctic WASH: Dry Toilets in Lillehytte: Sahra Sabil - report on Summer School
 - Perspectives from Arctic WASH: Challenges and Opportunities in Itilleq: Debora Carvalho Boratto, report on Summer School

RESEARCH INFRASTRUCTURES

MEMORIAL UNIVERSITY'S RESEARCH INFRASTRUCTURES

The UArctic Research Infrastructure Catalogue is an online database available through the UArctic website for searching and identifying research infrastructures and facilities located at and operated by the UArctic member institutions. Memorial University has 34 listed research infrastructures including research institutes, facilities, and centers as noted below.

1. Bonne Bay Aquarium and Research Station
2. Extreme Loads on Arctic Structures Laboratory (ELAS)
3. Ocean Frontier Institute (OFI)
4. ABS Harsh Environment Technology Centre (HETC)
5. Aquaculture Facility
6. Bonne Bay Marine Station
7. Canadian Centre for Fishery Innovation (CCFI)
8. C-CORE
9. Centre for Applied Ocean Technology (Ctec)
10. Centre for Aquaculture and Seafood Development (CASD)
11. Centre for Fisheries Ecosystem Research (CFER)
12. Centre for Marine Simulation (CMS)
13. Centre for Sustainable Aquatic Resources
14. Cold-Ocean Deep-Sea Research Facility (CDRF)
15. Community Based Education Delivery (CBED)
16. Core Research Equipment & Instrument Training (CREAIT) Network
17. Core Science Building
18. CREAIT Network (Core Research Equipment & Instrument Training Network)
19. Dr. C.R. Barrett Library
20. Holyrood Marine Base: The Launch
21. Lab2Market
22. Lewisporte Regional Fisheries and Marine Centre
23. LOOKNorth: Centre of Excellence for Commercialization and Research:
24. Marine Bioprocessing Facility
25. Marine Institute, Academic Departments
26. Maritime History Archive
27. National Research Council (NRC) Ocean, Coastal, and River Engineering (OCRE)
28. Ocean Safety Research Unit (OSRU)
29. Ocean Startup Project with Genesis Centre
30. Offshore Safety and Survival Centre (OSSC)
31. Radar Remote Sensing Laboratory (RRSL)
32. School for Arctic and Subarctic Studies
33. The Journal of Ocean Technology (JOT)
34. Yaffle

NORTH2NORTH MOBILITY PROGRAM

NORTH2NORTH STUDENT AND STAFF EXCHANGES

As one of UArctic's signature programs, north2north provides exchange opportunities to collaborate and study in participating institutions across the circumpolar North. For Canadian students and staff, there are two sources of funding:

1. The Northern Canadian north2north funding, administered through Yukon University is available for students and staff/faculty at participating [north2north member institutions](#) in Canada with a priority to support those who are living in or from Canada's Arctic and Northern regions (YT, NT, NU, Labrador), and/or studying/researching/teaching subjects relevant to Arctic, Indigenous or Northern Circumpolar subjects. Exchanges can take place between participating north2north institutions in the USA, Iceland, Greenland, Denmark, Finland, Norway, and Sweden. Exchanges between or to the territories of Canada may be supported as well. Applications are open with a deadline to apply by February 15, 2024. There are typically two application rounds annually, the main round is held in February each year, with an additional round in September (dependent on funding availability). Complete details can be found at <https://www.yukonu.ca/current-students/study-abroad/north2north>
2. north2north funding open to all UArctic north2north members is administered through the University of Tromso, Arctic University of Norway. For details and questions please contact Isabelle Guissard at isabelle.guissard@uit.no or Memorial's Internationalization Office.

UARCTIC MEETINGS AND EVENTS

MEMORIAL UNIVERSITY AT UARCTIC

Faculty and staff from Memorial University have represented the university in the following meetings and events:

UARCTIC RECTOR'S MEETING - MONACO-VILLE, MONACO

January 11-13, 2023

MEETING OF UARCTIC NORTHERN CANADIAN MEMBERS - OTTAWA, CANADA

February 8, 2023

MEETING OF GLOBAL ARCTIC LEADERSHIP INITIATIVE PARTNERS WITH GLOBAL AFFAIRS - OTTAWA, CANADA

February 8, 2023

UARCTIC ASSEMBLY - QUEBEC CITY, CANADA

May 23-26, 2023

UARCTIC NORTHERN CANADIAN MEMBERS NETWORKING MEETING - YELLOWKNIFE, CANADA

June 23-26, 2023

ARCTIC CIRCLE ASSEMBLY - REYKJAVIK, ICELAND

October 19-22, 2023

UARCTIC STAFF AND LEADERSHIP MEETING - PHYA, FINLAND

November 9-13, 2023

UARCTIC NORTHERN AND ARCTIC ISLANDS STUDIES THEMATIC NETWORK WORKSHOP - ST. JOHN'S, CANADA

December 6-8, 2023

MEMORIAL UNIVERSITY'S ATTENDANCE

UPCOMING MEETINGS AND EVENTS

ARCTIC CONGRESS – JOINT CONFERENCE OF UARCTIC CONGRESS, INTERNATIONAL CONGRESS OF ARCTIC SOCIAL SCIENCES (ICASS) AND HIGH NORTH DIALOGUE, NORD UNIVERSITY - BODO, NORWAY

May 29 - June 3, 2024

NORTH ATLANTIC FORUM, SUSTAINABLE LIVELIHOODS: REGENERATING INTEGRATED DEVELOPMENT THROUGH INNOVATIVE COMMUNITIES, ATLANTIC TECHNOLOGICAL UNIVERSITY - GALWAY, IRELAND

June 17-21, 2024

ARCTIC FORUM - ALTA, NORWAY

September 2024

THANK YOU

If you have any questions or concerns about this report, or if we have missed your information, please contact Lisa Goulet, Engagement Coordinator at lisa.goulet@uarctic.org.

If you have news or other exciting opportunities to share, send a short text (or web link) and any related images to secretariat@uarctic.org. We will then post them to the UArctic website and/or release them through the Bulletin, newsletter, and throughout the Memorial/UArctic community.
